THE performances of the new Thorneycroft torpedo-boat, says a London despatch, are amazing. On three runs over the measured mile, against the tide, she averaged 26.18 knots, or over 30 miles an hour. At a previous trial, with the tide in her favor and a forced draught, she positively accomplished 33⅓ miles in the hour. Such a boat has not much to fear from the best British ironclads, which, barring one or two recent exceptions, average from 12 to 13 knots; still less from a gunboat of the type of the brand-new *Racer*, whose maximum speed since she has been in commission is about seven knots.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

AN EXTRAORDINARY RAZOR

HAS BEEN INVENTED by the QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

OFFICE OF ASST. QUARTERMASTER, GOVERNOR'S ISLAND, N. Y., May 24, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office until 10 A. M., June 24, 1887, for supplying—during fiscal year commencing July 1, 1887—water and gas required in barge office, on the Battery, N. Y. City; also water for use of Governor's Island, by pipe crossing Buttermilk Channel, or, in case of accident to pipe, by water boat.

The Government reserves the right to reject any or all proposals.

Blank proposals and information can be obtained at this office.

Envelopes containing proposals should be marked "Proposals for water or gas,"—as the case may be—and addressed to the undersigned.

J. H. LORD,
Captain and Asst. Quartermaster, U. S. A.

Proposals for Miscellaneous Supplies.

WAR DEPARTMENT, April 2, 1887.

SEALED PROPOSALS, (in duplicate,) will be received at this office until 1 o'clock P. M., Wednesday, June 1st, 1887, for furnishing Miscellaneous Supplies, consisting of Brooms, Brushes, Soaps, Towels, etc., etc., for the War Department and its Bureaus in Washington, during the fiscal year ending June 30, 1888.

Blank forms of proposals, showing the items and estimated quantities required, together with instructions to bidders, will be furnished on application to this office.

Bids will be considerd on each item separately.

Proposals must be addressed to the undersigned, endorsed on the outside of the envelope "Proposals for Miscellaneous Supplies."

DEPOT QUARTERMASTER'S OFFICE, HOUSTON-ST., CORNER GREENE, NEW YORK CITY, April 27, 1887.

SEALED PROPOSALS IN TRIPLICATE are invited and will be received at this office until 10 A. M., June 1, 1887, at which time they will be opened in the presence of the bidders, for the erection at Willet's Point, New York Harbor, of a double set of officers' quarters, with cistern, plumbing, tank, &c., for each set, and for a 24-bed hospital and a deadhouse, with the plumbing, &c., complete, all in accordance with plans and specifications, which can be seen at this office and at the Post Quartermaster's office at Willet's Point. Bids, which must be on the blank forms of this department, must state separately the cost of each building and the items of cost for plumbing, drainage, and heating for each building. Work must be commenced immediately after award of contract, and bidders must state the time required for the completion of each building. The Government reserves the right to reject any or all bids. Envelopes containing proposals should be addressed to the undersigned and indorsed "Proposals for erection of officers' quarters," or for the hospital, as the case may be.

HENRY C. HODGES,
Deputy Quartermaster General, U. S. Army.

WAR DEPARTMENT, NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON-ST., CORNER GREENE, NEW YORK CITY, April 20, 1887.

SEALED PROPOSALS IN TRIPLICATE, are invited and will be received at this office until 11 A.M., May 30, 1887, for the materials, work, &c., called for by specifications and plans for steam heating, for plumbing and gas fittings, and for elevator apparatus, respectively, to be seen at this office. The work is to be done on the building bounded by Whitehall, Pearl, Moore and Water sts. Separate proposals are required for each of the specifications. Blank forms of proposals, contracts, &c., can be had at this office. Bids must be made in strict conformity with the terms of the plans and specifications, and must be accompanied by a guarantee bond having justification for 20 per cent. of the amount of the proposal, and a bond with a penalty of 10 per cent. will be required upon execution of the contract. The Government reserves the right to reject any or all proposals. Envelopes containing proposals should be addressed to the undersigned and marked proposals for "Steam Heating," &c., as the case may be. HENRY C. HODGES,
Lieut. Col. and Deputy Quartermaster Gen., U. S. Army, Depot Quartermaster.

Kinney Bros.

THE trial of a new explosive, invented by M. Favier, formerly a French military engineer, which, it is stated, may be kept and handled without danger, has been made at the well-known Belgian quarries of Quenast. Half a kilogramme sufficed to dislodge a rock of about sixteen cubic metres. If what is reported is to be believed this is the most powerful explosive yet invented.

LIEUT. MONTHAYE, of the Belgian artillery, has recently published a pamphlet, entitled *Krupp et de Bange*. The opinions of the writer are altogether in favor of the Essen pieces, and he states that the *obturateur* or breech-block appliances of the French guns, owing to their complicated mechanism of action, are very awkward and even difficult to replace when out of order. The breech system of Krupp he considers as the very best method for closing gun chambers.

THE torpedo experiments against the hull of the *Resistance*, armor-clad, are about to be resumed at Portsmouth. The previous attacks by fixed charges of gun cotton and Whiteheads were directed below the water-line in wake of the boiler-room, but in the further experiments the attack will be made in the neighborhood of the engine-room. Water tight bulkheads are being constructed amidships and other defects are being remedied, so that the hull may represent the protection of a modern ship of war. As the run of the Whitehead is intended to be made at a lower level, and will consequently strike the ship under the bilge, so that the upward force of the explosion will be more severely felt, it is not expected that the *Resistance* will again survive the assault.

THE men of the torpedo detachments in the German Navy will in future be distinguished not only by the letter "T," but will also wear the number of the detachment in Roman numerals sewn on the band around their caps bearing the inscription "Kaiserliche Marine." An additional distinction will be a purple cord encircling the top part of the cap.

BY order of the German Crown Prince, Professor Virchow has recently made a physiognomic examination of the skulls of those members of the Hohenzollern family whose remains are deposited in the vaults of the Berlin Dome, for the purpose of discovering certain characteristic traits, such as are known to exist in the Hapsburg and Bourbon families. The result of these studies is of course not to be made public. Certain connoisseurs declare that such a family trait is not discernable in the Hohenzollerns, although certain physiognomies repeat themselves frequently, some representing the late King Frederick William IV., the others the present Emperor William. There is, for instance, a great resemblance between Frederick William IV. and the Elector Johann Cicero, as may be seen by the bronze statue of the latter in the Dome, the work of the famous Peter Vischer.

THE Prussian Army has in all 26,193 officers, 13,749 on the active list, with 310 vacancies.

THE Prussian War Minister has offered for a new saddle for cavalry a first prize of $1,500, and a second prize of $750. The competition closes on November 30. No. 33 of the *Militar-Wochenblatt* gives all particulars.

THE Czarewitch was, May 18, installed with great ceremony at Novo Tcherkask as Hetman of the Cossacks. The decree of appointment was publicly read to the Cossack soldiers, the presentation of the Hetman's baton by the Czar being attended with great pomp and ceremony, which included a superb exhibition of imperial regalia and jewels. The Kalmuk horsemen gave an exhibition of the war game for the entertainment of the imperial visitors and presented the Czar with a cream colored horse.

A MEXICAN despatch of May 13 says: "The peaceful conquest of Mexico is progressing rapidly; the States of Chihuahua, Coahuila and Sonora are being rapidly absorbed by Americans. Instructions have been issued for a survey of the public lands of Tobasco and Campre. When surveyed these lands will probably be purchased by Americans. There is a deal now pending for the purchase of 3,000,000 acres of lands in Tamaulipes and it is said that the negotiations will be concluded in a few days. No adequate idea can be found of the extent of speculation in which American capitalists are now engaged in Mexico."

POOLER, SERENA, LA SALLE CO., ILL. *** Send ten cents in silver or currency for catalogue and sample cartridge holder, also a colored lithograph card of grouse shooting on the prairies.

THE Concours Hippique is open in Paris, but Gen. Boulanger has forbidden the officers to ride. The fact is, the Minister of War is thoroughly dissatisfied with the riding of his officers, and well he may be. He considers the Army should not in public be held up to ridicule, hence he has put a stop to the exhibition of "saddle-flopping" which for many years has made the French Horse Show the sport of all.

WHEN THE SCALP IS ANNOYED with Dandruff, GLENN'S SULPHUR SOAP will be found an infallible remedy. HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D.C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy.

Proposals for Quartermaster's Stores.

JEFFERSONVILLE DEPOT, Q. M. DEPARTMENT,
JEFFERSONVILLE, IND., April 27, 1887.

SEALED PROPOSALS in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock, A. M., (Central Standard time,) on Friday, the 27th day of May, 1887, at which time and place they will be opened in presence of attending bidders, for furnishing this Depot various Quartermaster's Stores, including stationery, horse and mule shoes, horse shoe-nails and toe-calks.

The Government reserves the right to reject any or all proposals, and to accept the whole or any portion of the articles bid for.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture, produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished on application to this office.

Envelopes containing proposals should be plainly marked "Proposals for Quartermaster's Stores at Jeffersonville Depot, Indiana," and addressed to the undersigned.

RUFUS SAXTON,
Assistant Quartermaster General, U. S. Army.

WAR DEPARTMENT,
NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT,
HOUSTON ST., COR. GREENE, May 13, 1887.

SEALED PROPOSALS IN TRIPLICATE are invited and will be received at this office until 10 A. M. June 13, 1887, for supplying steamers by charter to take the place of the steamers Chester A. Arthur, Ordnance, and Atlantic, respectively, when required during the fiscal year ending June 30, 1888. The steamer to take the place of the Chester A. Arthur must be of the size and character and have about the same passenger and freight capacity as the Arthur, and the steamers to take the places of the Ordnance and Atlantic, respectively, must have the capacity for freight and passengers and be of the size and character generally of the steamer James Bowen, which has a 26-inch cylinder, low pressure engine. All the vessels must be staunch, in first-class order in every respect, well equipped and found, and conform fully to the requirements of the law.

Coal will be furnished by the department.

Proposals must state the price per day of 24 hours for each vessel, and how much per hour for day service and for night service, and must include an engineer and fireman. The remainder of the crew will be furnished by the department.

The vessels when required must be furnished immediately, or at such time as the department may designate.

The Government reserves the right to reject any or all proposals.

HENRY C. HODGES,
Deputy Q. M. General, U. S. A.,
Depot Quartermaster.

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPT., HOUSTON ST., COR. GREENE,
NEW YORK CITY, April 26, 1887.

SEALED PROPOSALS IN TRIPLICATE are invited and will be received at this office until 11 A.M., June 9, 1887, for the mason and iron work, plastering, &c., called for by specifications numbered 1, and for the carpenters's work, painting, &c., called for by specifications numbered 2. The work is required in altering the Academic Building at West Point, N. Y., for which plans and specifications may be seen at this office, and at the Post Quartermaster's office at West Point, N. Y., where also the blank forms of proposals, contracts, &c., can be obtained. Bidders must state the time within which the work will be completed. Bids must be for all the work, materials, &c., on either the specifications, or on both. Proposals must be made in strict conformity with the plans and specifications, and must be accompanied by a guarantee bond having justification for 20 per cent. of the amount of the proposal, and a bond with a penalty of 10 per cent. will be required upon execution of the contract. The Government reserves the right to reject any or all proposals.

Envelopes containing proposals should be addressed to the undersigned and marked proposals for "Altering the Academic Building at West Point, N. Y."

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 45. WHOLE NUMBER 1241.

NEW YORK, SATURDAY, JUNE 4, 1887.

SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE target season of 1887 is now fully under way, with excellent results, judging from an examination of the various Department Orders giving statistics, etc., which reach us so frequently. But little comment seems necessary, for whatever else the United States soldier may lack, in the opinion of some, it cannot be disputed that he knows, and knows well, how to handle and fire his musket and hit the target in or near the centre.

WE are indebted to the courtesy of Mr. Chief Justice WAITE, of the U. S. Supreme Court, for an early copy of the decision of the Court in the case of BENJ. F. RUNKLE. It is a most important opinion, and one in which are clearly stated principles of law which it becomes every officer to understand. So we give the opinion in full, omitting only the preliminary statement of the conclusions of fact, certified to by the Court of Claims.

THE order to be issued from the War Department in a few days relieving General MERRITT from the superintendency of the Military Academy and designating Colonel PARKE, of the Engineer Corps, as his successor, will direct that the latter assume his new duties August 28 next. Captain HASBROUCK will thus be left in full charge of the Academy during the summer encampment of the cadets. General PARKE will return to Washington from Europe about the middle of August.

FROM a report recently received at the Navy Department it appears that the performance of the U. S. S. *Atlanta*, in regard to developed horse power, during the trial trip of April 13, was even better than at first indicated. By a comparative test of the engine room register with a position motion instrument it is shown that an error of more than six revolutions per minute resulted from faulty action of the counter; so that there is little doubt but in the future the engines of this fine vessel will have no difficulty in maintaining a horse power of at least 3,500, as called for in the contract.

NEVER, since its inauguration, was "Memorial Day" more reverently and universally observed than this year; and as it happened on a Monday, the day of rest previous helped to energize those participating in the observances. The day was a beautiful one, and therefore a pleasant adjunct of the occasion. The Army and Navy in many sections of the country lent their aid to the services of the day, as they always do, cheerfully and uncomplainingly, although their relaxations from duty are few and far between. The noble army of the dead were all remembered, and the private and the general shared alike the common tribute of remembrance and affection.

MAJOR GENERAL JOHN POPE, U. S. A., contributes to the *North American Review* for June, "Some Legacies of the Civil War." He thinks that "perhaps the most unhappy legacy left us is the general neglect of the obligations and duties of citizenship. Have we the right to complain," he asks, "of corruption in our politics when the best of us subordinates the exercise of this high privilege, even in its simplest form of voting, to occupations and amusements which lead to no end except personal gain or enjoyment? Can we long satisfy our consciences or hope to preserve our institutions if we studiously neglect or contemptuously disregard privileges and duties essential to their existence?"

THE advent of yellow fever at Key West has made somewhat of an exodus of strangers and others who could get away. Among those who have either gone or are going is Commander G. W. WOOD, U. S. Navy, who has been waiting orders at Key West for the purpose of enjoying the charming winter climate for which the place is so justly noted. Key West possesses a climate during a part of the year not to be excelled, in this hemisphere, for certain classes of infirmity, especially where a moist air and equable temperature are required. Situated in the Gulf Stream, whose temperature at that part of its great current is not far from 80 deg. Far., the hygrometric conditions are very unusual, in fact unique. The Island of Key West is of coral formation, and is seven miles long by between one and two miles wide. So far as can be determined, the yellow fever is not indigenous, but an outbreak can always be traced to importation from an infected port.

THE board, General KELTON President, ordered to prepare a set of regulations for the new Hospital Corps of the Army, submitted its report to the Secretary of War, through the Adjutant-General, on Saturday last and then adjourned. It will be several days before the report is made public, as it is yet to be examined by the Secretary and by him referred to the Surgeon-General, the Quartermaster-General, and the Army Regulation Board for remark. The result will be announced in General Orders and embodied in the Regulations. There are 84 paragraphs to the new regulations prepared by the Board and they cover fully the entire subject. In their report the Board gives well defined reasons for each recommendation. As we have previously stated, the recommendations call for an increase in the present number of Hospital Stewards. It is proposed that every two company post shall have an acting Hospital Steward, every post having more than six companies two Hospital Stewards, and one additional steward for every six additional companies.

THE *Engineer* describes the English 110½-ton, breech-loading gun as the most powerful gun in the world. At the Royal Arsenal the muzzle energy obtained with 850 lb. of German powder, and a pressure of 19.9 tons, was 57,630 foot-tons, the velocity being as above mentioned 2,149 feet. A still larger amount has been estimated for this gun, and it says: "There is every reason to say that more might be got, seeing that the pressure is not high, and might be much increased without injuring the gun. KRUPP'S 119-ton gun on one occasion gave an energy 50,780. This is the highest KRUPP record we have seen. It is 6,850 foot-tons less than the Elswick gun. The results could be better compared if we knew the pressure in KRUPP'S gun. Probably, however, the pressure is kept well down." It gives a diagram to show the difference in the work to be got out of 24 tons embodied in an old type gun and 26 tons in a wire Elswick gun. The total stored-up work or energy in the old gun is 5,939 foot-tons, and in the new 15,450 foot-tons. Hence out of 26 tons is got more than 2½ times the work on the new system of slow powder and long bore that was obtained from 24 tons on the old system of quick-burning powder and short bore.

THE subject of the influence of Field Telegraphy was discussed at the Royal U. S. Institution, in London, on May 13. Lord WOLSELEY, who spoke on the conclusion of the lecture, said that most of those present would agree with him in thinking that telegraphy had a great tactical future for England. He would even go so far as to say that he believed that the nation would first thoroughly adopt a system of telegraphy in the field during action would have on its side a force which would give it many chances. Major C. F. BERESFORD, C. E., said that to be efficient, a field telegraphy must be reliable; and hitherto no organization and no instruments or wire for outpost work have been introduced into active operations, at least in foreign armies, that give satisfactory results. Commanding officers have not cared to deal with an uncertain subject. Lord WOLSELEY thought that the chief difference was in the opposition of the War Office to change. He himself believed in novelties, and he thought the more novelties there were adopted the better it would be for those concerned. What NAPOLEON had said was true, that you must change your tactics frequently.

NO LITTLE dismay has been occasioned in the Naval Ordnance Bureau by a mishap which, apparently trivial in itself, is fraught with grave consequences. A great injury is said to have been done to one of the largest pieces of ordnance yet attempted at the Washington Ordnance Factory, by the breaking of a portion of the huge bar which carries the tool used to finish the bore of the gun. The accident is said to be of a serious nature, and the present prospect seems to be that the piece is injured beyond repair. A deep score is said to have been cut in the interior surface of the powder chamber. In any case, the accident bids fair to be an expensive one. This is the more to be regretted as it is said to have been a thing which could have been foreseen and guarded against if the delicate and valuable manipulations called for in this class of work had been confided to the care of competent supervision, as would be the case in a private establishment where such important interests were at stake. And this adds renewed force to the criticism which has already appeared in these columns of the system which places young men unskilled in any of the mechanical arts, untrained in shop service, and ignorant of even rudimentary metallurgy, in positions of high trust and responsibility in a factory of ordnance of the grade which the Government aspires to set up at Washington. In all this it must be borne in mind that no reflection is expressed or intended upon the officers under the Bureau of Ordnance when operating in their proper spheres and carrying on the legitimate duties of their profession. The country is too much indebted to the fighting branch of the Navy to render effective any criticism of their ability in any and all positions for which they are fitted by their education and training, but it is unreasonable to expect full and unbroken success in the career of any man, be he officer or otherwise, who aspires to be "Jack-at-all-trades." Without long and persistent training in mechanical pursuits, any success which may attend the sudden investment of a naval officer with the superintendency of a great gun shop, such as the one at the capital, will be due more to "good hit than any good wit."

PERSONAL ITEMS.

GENERAL C. B. COMSTOCK, U. S. A., now on leave, goes abroad to remain several months.

LIEUTENANT E. M. LEWIS, 11th Infantry, is East from Fort Yates, Dak., on a few weeks' visit.

CHAPLAIN F. H. WEAVER, 10th U. S. Cavalry, on leave from Arizona, is visiting in Washington.

CAPTAIN S. T. NORVELL, 10th U. S. Cavalry, on leave in the East, is visiting old friends in Baltimore.

MAJOR JOHN M. BACON, 7th U. S. Cav., of Fort Totten, Dakota, is a recent guest at the Ryan, St. Paul.

SECRETARY OF WAR ENDICOTT registered at the Fifth Avenue Hotel, New York City, early in the week.

COLONEL E. A. CARR, 6th U. S. Cavalry, has rejoined at Fort Bayard, N. M., from a short leave of absence.

MAJOR VAN BUREN HUBBARD, surgeon, U. S. A., left Columbus Barracks, O., this week on a month's vacation.

COLONEL JOHN MENDENHALL, U. S. A., returned to Fort Trumbull, Conn., this week from a short visit to New York.

MAJOR-GENERAL TERRY and Col. T. F. Barr, U. S. Army, have returned to Chicago from their visit to Fort Leavenworth.

POST CHAPLAIN WM. K. TULLY, U. S. A., a recent appointment from Florida, will commence duty at Jefferson Barracks, Mo.

MAJOR-GENERAL J. M. SCHOFIELD, U. S. A., returned to Governor's Island early in the week from a brief visit to Ohio and Illinois.

CAPTAIN HARRY O. PERLEY, assistant surgeon, U. S. A., has left Fort Maginnis and is making a temporary stay at Fort Snelling, Minn.

CAPTAIN H. G. BURTON, Asst. Surgeon, U. S. Army, on leave from Plattsburg Barracks, N. Y., is located for the present at Rupert, Vermont.

MAJOR F. W. BENTEEN, 9th Cavalry, has left Fort Douglas, Utah, for the East, and is expected to spend a portion of his time at St. Louis.

RECENT advices from Fort Douglas, Utah, report a change for the better in the condition of Mrs. Thibaut, wife of Capt. Thibaut, 6th U. S. Inf.

LIEUTENANT F. GREENE, Signal Corps, U. S. A., with Mrs. Greene and family, left Washington, June 1, for Dayton, Wash. Ter., to spend a four months' leave.

MISS HELEN HOOKER, a niece of the late General Joe Hooker, U. S. A., an amateur actress of merit, is to join the army of professional players next autumn.

LIEUTENANTS C. R. EDWARDS and J. R. Thompson, 23d U. S. Infantry, rejoined at Fort Porter, Buffalo, N. Y., early in the week, from short leaves of absence.

LIEUTENANT W. H. COFFIN, 5th U. S. Art., having closed up his business matters at Fort Schuyler, joined for duty early in the week at Fort Hamilton, N. Y. H.

CAPTAIN CHAS. PARKER, 9th Cavalry, has got his troop comfortably settled at Cheyenne, and so far has had little trouble in connection with the duty devolved upon him.

LIEUTENANT H. B. OSGOOD, 3d U. S. Artillery, was expected to rejoin at Fort Monroe, Va., this week, from Portland, Me., whither he was recently called by the death of his mother.

QUEEN KAPIOLANI and suite, lately in New York, were expected to arrive in Liverpool this week where a hearty reception awaits her. From Liverpool she goes direct to London.

LIEUTENANT-GENERAL SHERIDAN and other distinguished cavalry commanders are expected to be present at the meeting of the Cavalry Society of the Armies of the U. S., to be held at Saratoga, June 21.

MAJOR CHAS. MCCLURE, Paymaster, U. S. A., will leave Newport Barracks, Ky., next week for Carlisle, Pa., on business matters connected with his approaching departure for his next station, El Paso, Texas.

GENERAL B. H. GRIERSON and his adjutant, Lieut. S. L. Woodward, 10th Cav., are on field service in New Mexico, in connection with matters between the Navajo Indians and the settlers on the San Juan River.

MRS. CUSHING, wife of Capt. Harry C. Cushing, 4th Art., of Fort Trumbull, Conn., is visiting relatives in Prince George's county, Md., and will attend the marriage of her cousin, Mr. Eugene Roberts, to Miss Annette Carter.

MRS. BURNETT, mother of Mrs. Wilson, wife of Captain Wilson, 12th U. S. Inf., from San Francisco, Cal., with two of her daughters, Miss Fannie Burnett and Mrs. Colonel Jones (widow of the late Col. Llewellyn Jones, U. S. A.), are visiting at Sackett's Harbor, N. Y., for the summer, and will probably remain with Mrs. Wilson until the return of Captain Wilson from detached service at Bedlow's Island.

GENERAL GEORGE A. SHERIDAN relates this story, which he picked up in New Orleans: A delegation of citizens of that place visited President Lincoln to beg him to remove General Butler from command there. The President listened while they presented their thousand and one grievances and then said: "Well gentlemen, much as you dislike Gen. Butler, at least he has done one good thing for you, for by his wise sanitary regulations he has kept the yellow fever out. One of the delegates, a creole, skipped before the President and replied excitedly: Pardon, Mistah President, pardon; it was not Butler vat keep ze fevaire avay from ze city; it was God. He still have a leetle mercy for our poor people. He do not send Ben. Butler and ze yellow fevaire ze same season; no sare." The President laughed heartily, but all the same Gen. Butler was kept in command.

GENERAL S. D. STURGIS, U. S. A., residing at St. Paul, Minn., celebrates his 65th birthday June 11.

ADJUTANT J. MCE. HYDE, 8th U. S. Infantry, left Fort Niobrara, Neb., a few days ago on a month's leave.

GENERAL W. H. PENROSE, U. S. A., rejoined at Fort Niagara, N. Y., early in the week from a short leave.

CAPTAIN A. E. WOODSON, 5th U. S. Cav., is temporarily located with his troop at the Osage Indian Agency.

MAJOR I. O. DEWEY, Paymaster, U. S. A., leaves Washington this week for Boston, Mass., on a short vacation.

LIEUTENANT C. H. CLARK, Ordnance Department, U. S. A., is visiting relatives at Old Point Comfort, Virginia.

SURGEON W. S. TREMAINE, U. S. A., on sick leave for a long time past, is at present residing in Newark, N. J.

LIEUTENANT A. SLAKER, 1st U. S. Artillery, will spend the months of June and July at Santa Cruz, California.

CAPTAIN ARTHUR MORRIS, 4th U. S. Artillery, returned to Fort Adams, R. I., this week much improved in health.

LIEUTENANT S. E. SMILEY, 8th Infantry, leaves Fort Niobrara, Neb., early next week for a two months' visit East.

LIEUTENANT J. C. GRESHAM, 7th U. S. Cav., on sick leave for the summer, is spending a portion of it at Lancaster C. H., Va.

LIEUTENANT-COLONEL EDWARD COLLINS, 7th U. S. Inf., reached his sixty-third birthday on Saturday of this week, June 4.

LIEUTENANT-GENERAL SHERIDAN and family will go to Nonquit, Mass., towards the end of June to spend July and August.

MRS. LOUIS WILHELMI and children sailed on Wednesday for Dresden, Germany, where her children are to be educated.

CAPTAIN J. J. O'CONNELL, 1st U. S. Inf., and Mrs. O'Connell left Cincinnati early in the week on a fortnight's visit to West Point.

GENERAL WAGER SWAYNE, U. S. A., delivered the address at the Memorial Day observance at the Soldiers' Home, Washington, D. C.

LIEUTENANT J. E. MYERS, 3d U. S. Art., of Washington Barracks, who has been in poor health lately, will spend the summer on leave.

LIEUTENANT G. A. THURSTON, 3d U. S. Art., expected to leave Newport Barracks, Ky., the latter part of this week on a four months' leave.

LIEUTENANT-COLONEL J. S. FLETCHER, 2d Infantry, U. S. A., leaves Philadelphia this week for Fort Omaha, Neb. He will stop en route, at Buffalo and Chicago for a few days.

CAPTAIN D. J. CRAIGIE and Lieuts. C. W. Abbot, G. J. Godfrey and D. J. Baker, 12th U. S. Inf., returned to Sackett's Harbor, N. Y., this week from a pleasant trip to Plattsburg.

GENERAL D. S. STANLEY, U. S. A., attained his fifty-ninth birthday on Wednesday of this week, June 1, a fact which his many friends in San Antonio did not fail to remember.

GENERAL H. G. GIBSON, U. S. A., and his troops at Washington Barracks, including Turnbull's Light Battery, took part in the Memorial Day exercises at the Soldier's Home, Washington, D. C.

CAPTAIN J. B. BURBANK, 3d U. S. Art., of San Antonio, is on a brief visit to Washington, where he is always welcome. He came on to New York on Wednesday and looked up old friends.

LORD LUCAN, one of the celebrated "light brigade," at the Crimea, is to be created a field marshal in honor of the Queen's Jubilee. He is now a General and Colonel of the 1st Life Guards.

CAPTAIN J. R. BRINCKLÉ, 5th U. S. Art., arrived with his light battery this week at Wilmington, Del., and went into camp for a week. Officers, men and horses enjoyed the march, and all benefited by it.

SECRETARY ENDICOTT, Architect Clarke and Senator Hoar, the committee entrusted with the selection of a design and site for the proposed Lafayette monument, have decided to postpone action until the sculptors of the accepted model have been consulted.

A HARTFORD correspondent, referring to the recent death of Miss Ripley, daughter of the late Gen. J. W. Ripley, U. S. Army, says: "She was greatly esteemed and beloved among the few remaining who were intimate with her family during their residence here. She leaves an aged mother and a sister, Mrs. George W. Bartholomew, in Hartford, and another sister, Mrs. Hooper of Boston."

IT is related that when the late Major-Gen. Hancock, U. S. A., went up to Mount McGregor to prepare for the burial of Gen. Grant he, in his blunt way, declared the Government in possession of the railroad and thereby wounded the dignity of W. J. Arkell, the president of the road. The General ordered a train to carry him up the mountain, stating at the same time that he wished while going up to change his citizen's dress for his General's uniform. "You can change in the baggage car," said young Arkell, "and I will run the engine myself." The little road is not one of the smoothest. It is in fact rough and uneven. Arkell pulled the throttle valve so wide open that the train was sent jumping over the track in a lively manner. The General inside the baggage car could scarcely keep on his feet. He pulled and pulled at the bell rope, but the more he pulled the wider Arkell opened the throttle. When they got to the mountain the General was not half dressed and was in a furious rage. Arkell coolly told him that by the manner in which the bell had been pulled he thought the General was desirous of going faster and that he had only been trying to accommodate him.

CAPTAIN L. T. MORRIS, 8th U. S. Cavalry, is North from Texas on a short visit.

CAPTAIN C. M. CALLAHAN, U. S. Army, retired, and family will spend the summer at Asbury Park, N. J.

LIEUTENANT G. W. VAN DEUSEN, 1st Artillery, was to leave the Pacific Coast this week on a month's visit East.

GENERAL THOMAS HOWARD RUGER, U. S. A., is a recent addition to the Loyal Legion, Minnesota Commandery.

MRS. HANCOCK, widow of Major General W. S. Hancock, U. S. A., will spend the summer at North Scituate, Mass.

GENERAL J.C. DUANE, Chief of Engineers, U. S. A., returned to Washington early in the week from an inspection tour.

LIEUTENANT S. L. FAISON, 1st Infantry, was to leave the Presidio of San Francisco, this week for the East on a four months visit.

MAJOR A. J. C. WRENCH, of the British Infantry (Duke of Wellington's West Riding Regiment) was a guest this week at the Hoffman House, New York City.

CAPTAIN M. C. WILKINSON, 3d U. S. Infantry, on leave from Fort Custer, and lately at Hot Springs, was in St. Louis this week with quarters at the Planters.

LIEUTENANT S. E. ALLEN 5th U. S. Artillery, rejoined at Fort Columbus, N. Y. H., early in the week from his trip to Washington to attend the National Drill.

MAJOR GENERAL O. O. HOWARD, U. S. A., attended the birthday celebration of Queen Victoria, May 24, in San Francisco, and responded for "The United States of America."

MAJOR E. R. WARNER, 1st U. S. Artillery, will remain at Fort McHenry, Md., a few weeks longer and then go to Fort Canby, Washington Territory, to take command of that post.

LIEUTENANT BERTRAM TRACY CLAYTON, 11th U. S. Inf., will be married at 3 P. M., June 9, at Christ Church, Brooklyn, to Miss Louise Brasher, daughter of Mr. and Mrs. William Marston Brasher.

THE Cadet Band at the National Drill, from Milwaukee, serenaded the Secretary of War, after which Mr. Endicott shook the hands of the little fellows and had a pleasant remark for each.

PRESIDENT CLEVELAND and Mrs. Cleveland and a few friends, left Washington, May 26, for Saranac Lake, where the President will forget for a while the cares of office and enjoy his favorite sport, fishing.

IT is reported, says the Kansas City *Times*, that Lieut.-Col. J. S. Poland, 21st Infantry, now on sick leave at Narragansett Pier, R. I., is to be ordered before a Retiring Board. His health has been bad for a number of years.

LIEUTENANT IRVING HALL, Corps of Engineers, U. S. A., will be married June 14, at Willet's Point, to Miss Mary King, daughter of Major W. R. King, Corps of Engineers, commandant of the post and school at Willet's Point. It will be a military wedding, and therefore sure to be a brilliant occasion.

CAPTAIN R. H. PRATT, U. S. A., of the Indian Training School at Carlisle, spent a few days in Baltimore this week, and from there went to Colora, Md., to visit the Indian children there. Thence he goes to other places in Maryland and Pennsylvania to see as to the welfare of the Indian boys who have been placed with farmers.

SECRETARY OF STATE KELSEY, of New Jersey, one of General McClellan's friends, has been quietly collecting subscriptions for a handsome monument to be erected over McClellan's grave at Riverside Cemetery, Trenton, and states that over $6,000 has been raised, all privately, and that the shaft will be erected probably without the donors' names being made known.

READERS of "Harper's Magazine" of 30 years ago will be glad to know that "Porte Crayon," whose pen and pencil sketches of life in the South in those days were so charming, is passing a peaceful and prosperous old age in his native State, Virginia. His real name is David Hunter Strother, and his service in the Union Army during the War of the Rebellion entitles him to the title of "General." Gen. Strother is 70 years old and in perfect health.

MISS AGNES STOCKTON ROYALL, daughter of Col. W. B. Royall, 4th U. S. Cavalry, was married to Mr. Arthur Jeffrey Parsons at St. John's Church, Washington, D. C., on Wednesday evening, June 1. After the ceremony at the church the bridal party and relatives went to the residence of Rear-Admiral J. C. Howell, U. S. N., uncle of the bride, where supper was served, after which the married couple left for the North, and will soon go to Europe to spend the summer.

CAPTAIN GEO. F. PRICE, 5th U. S. Cav., delivered the Memorial Day address at Junction City, Kansas, which gives occasion to the *Daily Union* to recount the military services of the captain, and say: "The captain, notwithstanding the wear and tear of years of service for the country, is still hale and hardy as many a younger officer. His integrity has won for him the respect of all, while his many qualities have made a friend of every brother officer; and, to finish, we may say that he has gained the greatest compliment a commander can get, 'the respect and good will of the rank and file under his authority.'"

MISS ROSINA EMMET, the artist, daughter of W. J. Emmet, Esq., and twin sister of Lieut. R. T. Emmet, 9th U. S. Cav., was married, June 1, at her father's house, East Rockaway, L. I., to Mr. Arthur Sherwood, of New York City. The Rev. J. Harris Knowles, of St. Clement's Church, officiated. Among the numerous relatives present were Lieut. Emmet and Mrs. Emmet. The honeymoon will be spent at Sherwood Forest, Delhi, N. Y., the old family seat of the Sherwoods. The bride will be remembered as the successful competitor for prize Christmas cards, as well as a frequent exhibitor at the National Academy.

LIEUT.-COLONEL G. G. HUNTT, 10th U. S. Cavalry, is a recent guest at the Ryan House, St. Paul.

CHAPLAIN DAVID WHITE, U. S. A., retired, of Lawrence, Kansas, is a recent visitor at Fort Leavenworth.

CAPTAIN J. H. PATTERSON, 20th U. S. Infantry, was in Washington this week preparatory to sailing for Europe.

GENERAL WESLEY MERRITT has selected as his Aide-de-Camp, his old Adjutant Lieutenant Eben Swift, 5th N. S. Cavalry.

LIEUTENANT E. S. FARROW, U. S. A., was made the happy father of a ten pound daughter, May 31, the event occurring at Baltimore.

CAPTAIN F. D. GARRETTY, 17th Infantry, now at Chicago, will, early in July, transfer his recruiting rendezvous to Milwaukee, Wis.

MISS HATTIE JEWETT, daughter of Col. Jewett, 3d Inf., spent several days in Chicago this week, a guest of Dr. and Mrs. L. S. Tesson.

LIEUTENANT A. L. SMITH, 4th Cavalry, of Fort Huachuca, will enter upon a tour of recruiting duty at Jefferson Barracks, Mo., early in July.

CAPTAIN JOHN S. MCNAUGHT, 20th Inf., will be ordered, in a few days, to appear before a retiring board to be convened at St. Paul, Minn., July 1.

LIEUTENANT H. H. SARGENT, 2d Cavalry, will relinquish college duty at Champaign, Ills., after vacation, and join his troop at Fort Bidwell, Cal.

GENERAL PHILIP ST. GEORGE COOKE, U. S. A., that veteran among veterans, looked up old friends in New York City this week, making his headquarters at the Windsor Hotel.

GENERAL O. B. WILLCOX, U. S. A., with his family leaves New York to-day on the Red Star Line steamer *Rhineland*, for Antwerp, Belgium. The General expects to remain abroad until next fall and will visit the Continent.

GENERAL H. M. BLACK, U. S. A., lately on service at Washington in connection with the National Drill, will, after a few visits to friends in the East, return to Fort Wayne, Mich., and resume command of his regiment and of the post.

THE following Army officers are registered at the War Department this week: 1st Lieut. J. S. Parke, 21st Inf.; Maj. W. R. Livermore, Engr.; 1st Lieut. Samuel S. Pague, 15th Inf.; 1st Lieut. Henry Wygant, 24th Inf.; Capt. J. H. Patterson, 20th Inf.; 2d Lieut. W. E. Shipp, 10th Cav.; 2d Lieut. Henry C. Cabell, 14th Inf.; Capt. Chas. King, retired; 1st Lieut. J. H. Hays, retired.

THE following Mexican War claims were allowed by the Second Comptroller this week: Joseph H. Bailey, Captain and Asst. Surg., $18.75; Richard H. Anderson, 2d Lieut., 2d Dragoons, $1.00. These claims are rapidly being exhausted. The Comptroller is now settling them as they come before him, and there are now but few cases on file awaiting action.

GEORGE WASHINGTON POST, G. A. R., held an exceptionally pleasant meeting at the Hotel Brunswick, New York, on Thursday evening of last week. Gen. W. D. Whipple, U. S. A., favored the comrades of the post with an Army song, admirably rendered, and the post was also favored with several recitations by a gentleman well-known in histrionic circles as Daniel H. Harkins, and among his comrades of the Grand Army as Major Daniel H. Harkins, a soldier who did gallant service with the 1st Regtment New York (Lincoln) Cavalry. Some remarks on the subject of the paucity of dead cavalrymen aroused Maj. Harkins to a little speech in defence of the six legged soldiers which showed that he, at least, was not yet included among them.

LIEUTENANT J. B. MILTON, U. S. N., has returned to San Francisco from a trip to Oregon.

REAR ADMIRAL J. R. M. MULLANY, U. S. N., retired, and family, will spend the summer at Bryn Mawr, Pa.

MEDICAL DIRECTOR A. L. GIHON, U. S. N., has been elected a member of the American Climatological Association.

LIEUTENANT JOHN WYCKOFF, U. S. Revenue Marine, is on the list of recent guests at the Aquidneck, Newport, R. I.

CAPTAIN G. C. WILTSE, U. S. N., arrived at Norfolk, Va., on Tuesday and relieved Capt. Henry Wilson, in command of the receiving ship *Franklin*.

REAR ADMIRAL J. H. UPSHUR, U. S. N., and Mrs. Upshur, Rear-Admiral W. E. LeRoy, U. S. N., and Mrs. LeRoy will spend a portion of the summer at the Spring House, Richfield Springs, N. Y.

THE following officers registered at the Navy Department this week: Lieut. J. F. Meigs, Comdr. J. C. Watson, Lieut. E. H. Gheen, Lieut. H. Hutchins, P. A. Engr. Chas. H. Manning, Lieut. Chas. Laird and Med. Director Delavan Bloodgood.

THE detachment of Lieut. Bowman from the *Atlanta*, and assignment to the *Boston* is practically a promotion, inasmuch as he becomes the navigator of the latter ship, while but a watch officer on board the *Atlanta*. No one has yet been ordered in Lieut. Bowman's place, but it is not likely that the vacancy will go a-begging.

CHIEF ENGINEER GEO. W. MELVILLE returned to the shipyard of Cramp and Sons Thursday on duty in connection with the machinery of the *Newark*, two 19-knot vessels and the two gunboats, and will probably be ordered to supervise their construction. The Secretary of the Navy is highly gratified with the plans prepared by Chief Engineer Melville.

THE three candidates for appointment as assistant surgeons in the Navy, recently examined by the Board in Philadelphia, made a very creditable showing. Drs. S. S. White and James G. Field have received their appointments. Surgeon-General Gunnell was notified to-day that Dr. Halton Nathan Thompson Harris, of Rockingham Co., Va., had also passed the examination. He will receive his appointment in a few days.

PAYMASTER H. G. COLBY, U. S. N., arrived last week at the Mare Island Navy-yard, Cal.

LIEUTENANT W. H. SCHUETZE, U. S. N., registered at the St. James Hotel, New York, on Tuesday.

LIEUTENANT RICHARDSON CLOVER, U. S. N., was a guest at the Fifth Avenue Hotel, New York, early in the week.

CLARK MERCHANT, of Merchant and Co., Philadelphia, Pa., late of the Navy, sailed for Europe on a business trip, June 1, on the steamship *Alle* from New York.

REAR ADMIRAL SHUFELDT, U. S. N., has begun a libel suit against the proprietor of the Shanghai *Courier*, growing out of an article with reference to the Admiral's presence and motives in Corea.

THE engagement of Miss Margaret Baker, daughter of Capt. J. G. Baker, U. S. R. M., and Burton Hanson, assistant general attorney of the Chicago, Milwaukee and St. Paul Railway, is announced.

CHIEF ENGINEER E. D. ROBIE, U. S. N., has reported himself ready for duty and is awaiting orders at Marathon, N. Y. He has been entirely cured of his bronchitis by his sojourn in the mild climate of Florida. He has been visiting at Mount Dora, Orange Co., Fla., with his son, who is establishing an Army and Navy colony there.

LIEUTENANT C. E. VREELAND, U. S. Navy, has reported for duty at the Navy-yard, Washington, and is quite well pleased with the prospect of a tour of duty at the capital. Mrs. Vreeland, born Tolson, is with her husband. Many officers remember Mrs. Vreeland pleasantly while living with her sister, Mrs. Lieut. Richman, at the Mare Island Navy-yard a few years ago.

ARTHUR ANGEL, who formerly served with credit on the *Swatara* and the *Tennessee*, and on his return from the transit of Venus expedition a few years ago presented the Smithsonian Institute with some remarkable curiosities, has been discharged from the Presbyterian Hospital, New York, having entirely recovered, thanks to the careful attention of Doctors Stimson and Douglas and others.

PASSED ASSISTANT PAYMASTER DOYLE, of the Navy, left the *Iroquois* at Caldera, Chili, on the reporting of his relief, Passed Asst. Paymr. Peterson, and proceeded home by way of England. Had he delayed his departure from the vessel until her arrival at Panama, he would have been home some time ago. The Paymaster's brother, Hiram S. Doyle, accompanies him to the U. S., after a pleasant cruise of about two years.

MR. T. HARRISON GARRETT'S yacht *Gleam* arrived at Annapolis May 26. On board were Robert Garrett, Lieut. A. G. Paul, U. S. N., Mr. Isaacs, of New York, and Gordon Cumming, of Baltimore County. After taking on a party of ladies and gentlemen the yacht steamed outside the harbor and the party aboard witnessed the cadet launch drill in the river. In the evening the excursionists were entertained by naval officers on the U. S. frigate *Santee* at the Naval Academy.

PAYMASTER H. T. WRIGHT, U. S. N., was married at Trinity Chapel, New York City, June 2, to Miss Julia Speir, daughter of Ex-Judge Gilbert M. Speir. A large number of friends were present at the ceremony, which was performed by the Rector, the Rev. Cornelius E. Swope. Surgeon M. L. Ruth, U. S. Navy, was "best man." After the wedding a reception was held at the residence of the bride's father, 9 E. 34th st.

CHIEF ENGINEER WILLIAMSON, U. S. N., with his family, has been spending a quiet period of rest at Warrington, Va. He is stopping at the Warren Green Hotel. It is not likely that Mr. Williamson will be assigned to duty at present, but will be allowed to enjoy his well earned leisure for a while. The recent cruise in the Pacific, from which Chief Engr. Williamson so lately returned home, will be his last tour of sea duty, as before his turn arrives to go to sea he will have reached the grade of captain.

OF the four engineer officers recently ordered before the Naval Retiring Board, three—Chief Engr. Lamdin, P. A. Engr. Wooster and Asst. Engr. Chrisman will probably be retired. The latter two have already been examined and recommended for retirement; P. A. Engr. Brown has been examined and granted a further "stay of proceedings" for six months, and Chief Engr. Lamdin is too sick to come to Washington. The board will probably go to his home in Perryville, Md., to examine him, the latter part of this week.

COMMODORE W. H. SCHLEY, Chief of Bureau, is engaged in the selection of illustrations for the report on the Greely Relief Expedition, which he has been requested to prepare by Congress. He has before him all of the photographs taken by Ensign Harlow while the relief party was searching for the survivors of Greely's body of explorers. The report will cover all the details of the expedition, and will dwell at length upon the character of the Esquimaux. Their method of living and their mode of subsistence will receive considerable attention.

LIEUTENANT DOWNS L. WILSON, U. S. N., recently of the Hydrographic Office, Navy Department, left on Monday last for Newport, where his duties under torpedo instruction began on Wednesday, June 1. Mrs. Wilson did not accompany the lieutenant at this time, but will join him at Newport some time late in June. Upon the conclusion of the torpedo course, Lieut. Wilson anticipates assignment to sea duty, but just what part of the world will be his cruising ground has not yet been determined. Hosts of good wishes go with him wherever duty may call him.

A LETTER was received at the Navy Department on Wednesday from Newport, written by Mr. H. W. Clarke, father of Lt. Arthur Clarke, who was shot on board the *Iroquois*, at Panama, May 7, asking for an official investigation of the circumstances connected with the death of his son. Mr. Clarke informs the Navy Department that he doubts that his son committed suicide, but in the letter fails to state in what manner he thinks the young officer met his death. The Secretary of the Navy will order a Court of Inquiry at once to comply with Mr. Clarke's request.

NEW CRUISERS AND GUNBOATS.

THE Chief Constructor of the Navy, with his large force of draftsmen at the Navy Department and Washington Navy-yard, and Chief Engineer Melville, with his corps of assistants at Cramp's place in Philadelphia, have made quick work of the plans and specifications for the two 19-knot cruisers and two 1700-ton gunboats, bids for which are to be opened August 1 next. When the advertisement was issued, April 6 last, inviting proposals for these vessels, and stating that the plans, specifications, etc., would be ready for the information of bidders June 1, not a single stroke of work had been performed in connection with the preparation of plans, and it was hardly anticipated by the most sanguine that the Department would be able to furnish the bidders with the information at the time specified. It was only two weeks ago that Chief Engr. Melville, with a large force of draftsmen, began the preparation of plans for the machinery, and it was not many weeks ago that the chief constructor commenced work upon the plans for the hulls. Much to the surprise of everybody interested, and to the gratification of the Secretary, Chief Constructor Wilson announced promptly on the morning of June 1 that he was ready to exhibit the plans of all the vessels, including those for the machinery, which Chief Engr. Melville brought over from Philadelphia, in person, on the same morning, and that the detailed specifications were all written out and in the hands of the printer. This is regarded as remarkably rapid work by those at all familiar with the trials and delays connected with such matters. It is true that some of the plans are copies of others already in existence, but even the work of duplicating drawings requires time. The hulls of the 19-knot cruisers are somewhat similar in design to the *Newark* which, with the hull and machinery of the gunboats, are, by law, exact duplicates of Gunboat No. 1, now building by Cramp and Sons. The plan of machinery for the 19-knot cruisers are also very similar to the designs for the *Baltimore's* machinery.

The following is a description of the 19-knot cruisers, which are designated by the Department circular as Nos. 4 and 5. The plans and descriptions of the *Newark*, known as No. 1, and Gunboat No. 1, of which the two new gunboats are to be duplicates, we have heretofore published:

19-KNOT CRUISERS.

They are to be twin screw cruisers, 310 feet long on the water line, 49 feet 1¾ inches extreme breadth, 18 feet 9 inches mean draught, displacing 4,083 tons. Machinery of 10,500 i. h. p. under forced draught; maximum speed, 19 knots; rig, that of a three-masted schooner, spreading 5,400 square feet of sail. They will have a double bottom extending through 129 feet of the length. The framing in this portion is on the bracket system. Before and abaft the double bottom, above the protective deck, Z bars form the tranverse frames. The protective deck, which is 19 inches above water line amidships, is flat across the top, with sides which slope down to a depth of 4 feet 3 inches below the water line. The horizontal portion is 2 inches thick, the slope being 3 inches, reduced at both ends to 1½ inches. It extends uninterruptedly forward and aft, and protects the machinery, magazines and steering gear, the machinery being further defended by the disposition of the coal bunkers. The main batches in this deck are protected by armor bars and have coffer dams extending to the upper deck. The guns are carried on the gun, forecastle and poop decks.

ARMAMENT.

The main battery consists of 126-inch B. L. rifles, all on centre pivot mounts, with two inches segmental steel shields, and arranged on sponsons so as to obtain the greatest possible arc of fire. The forecastle, the poop and the bridges have been as much as possible availed of to shelter the guns. The two guns forward and the two guns aft converge their fire a short distance from the ends of the ship, and the broadside can be concentrated within 100 feet of the side. Four above-water torpedo tubes are provided on the berth deck, and two direct ahead underwater torpedoes in the bow. The secondary battery is composed of four 47-millimetre revolvers, four 57-millimetre single shots, two 37-millimetre revolvers and one short Gatling. Coal capacity, 850 tons; complement of men, 300.

DETAILS OF CONSTRUCTION.

The vertical keel is 17½ pounds per square foot and 39 inches in depth amidships, the flat keel plates 20 pounds and 17½ pounds. The stem is cast steel, shaped and supported for ramming. The stern post and rudder are also steel castings, the latter 15 inches in diameter at the head. Numerous watertight frames are worked in the double bottom, and throughout the vessel the cellular principle is carried as far as practicable. At a height of about four feet above the protective deck the berth deck is placed, the space between the two being greatly subdivided and mainly utilized for coal stowage, so that the protection to the water line is no doubt as complete as can be obtained in any armored ship. The outside plating is generally 17½ pounds. Lap work is used below the protective deck, but above the plating is flush. The lap work is double riveted at the edges. The inner bottom is in the main 12½ pounds. Bilge keels 24 inches in depth extend for 150 feet of the length. When in action the vessel will be directed from a steel conning tower 3 inches in thickness, cylindrical in form, located on the forward bridge. There will be a wooden pilot house located on the forward bridge just abaft the conning tower and arranged to overlook the latter. The tower will be fitted complete with steering wheel, speaking tubes and engine room telegraph; these will be carried below the protective deck through a steel tube 2½ inches thick and 12 inches in diameter. A steam steerer will be located beneath the protective deck.

The arrangements for pumping and drainage are very carefully considered. The system followed may be described as a development of that employed in the *Chicago*. Pumps are connected with all the important compartments. All the principal watertight doors and the sluice valves are arranged to work from the berth deck.

The ventilation is much more elaborate than in the small vessels. Natural ventilation is favored as far as possible, but, in addition, all living and other spaces below the main deck are carefully ventilated on the exhaust system, the blowers being entirely

distinct from those used for producing the force draught in the fire room. Large ducts extend forward and aft on the protective deck, receiving smaller ducts from the various rooms and compartments. Where these ducts pass through bulkheads automatic valves are fitted to prevent the flow of water from one compartment to the other by way of the air pipes. The coal bunkers are well ventilated, the fresh air supply to the bunkers being obtained through pipes carried up into the hammock berthings.

The ceiling in the hold will be of yellow pine battens, and on the berth deck 2½ pound steel plate will be used, secured to the reverse flanges of the frames by a quarter-inch round headed brass screws. The wardroom will be finished in sycamore, without pilasters, but with suitable mouldings and panels.

There will be two complete electric lighting plants arranged to work on the same circuit, and lights are to be disposed so as to fully illuminate all parts of the ship, including coal bunkers, magazines, shell and ammunition rooms, running lights and lights for use on the upper deck and aloft. The total number of lamps will be about four hundred.

For a second extra knot would be required about 6,000 horse power more, making about 25,000 horse power necessary to develop a speed of 21 knots.

DECISION IN FAVOR OF MAJOR RUNKLE.

Supreme Court of the United States, Nos. 259 and 260. —Benj. Runkle v. The United States and the United States v. Runkle.—Appeals from the Court of Claims.

THE controversy in this case relates to the pay of Major B. P. Runkle, a retired Army officer, who was tried by a Court-martial June 25, 1872, found guilty, and dismissed from the service for violation of the act of Congress of March 2, 1863, and for conduct unbecoming an officer and a gentleman, but who was afterwards, by order of President Hayes, dated Aug. 4, 1877, restored to the Service. The Court of Claims found as conclusions of law on the facts of the case that the claimant was not entitled to longevity pay, and that the United States are not entitled under their counterclaim to recover the pay received by the claimant as a retired major which accrued after Aug. 4, 1877, amounting to $14,390, but are entitled to recover $9,195.27, the amount paid Runkle between Jan. 16, 1873, and Aug. 7, 1877. From the judgment, in accordance with these conclusions, both parties appealed. As the sentence of the Court-martial involved the dismissal of Runkle from the Army it could not have become operative until app oved by the President after the whole proceedings of the Court-martial had been laid before him. The most important question in the case, therefore, is whether that approval has been positively shown. If the sentence dismissing Runkle from the Service was not approved by President Grant, and if, as it positively appears, it was afterwards disapproved by President Hayes, Runkle was never legally out of the service. This court holds, in a long opinion by Chief Justice Waite reviewing all the papers and proceedings in the case, that it does not positively and distinctly appear that the proceedings of the Court-mar ial have ever, in fact, been approved or confirmed by the President of the United States, as the articles of war require, before the sentence could be carried into execution, and that consequently Major Runkle was never legally cashiered or dismissed from the Army. After quoting the conclusion of law and of fact, as found by the Court of Claims, the Supreme Court say, Mr. Chief Justice Waite delivering the opinion:

We will first consider the second of the questions referred to the Court of Claims, namely:

"Were the proceedings and findings of said court-martial regular, and the sentence duly approved by the President of the United States, as required by law?"

The 65th Article of War, (2 Stat. 367, c. 29,) in force at the time of these proceedings, was as follows: (Here the Article is quoted.)

Thus it appears that the sentence of a general court-martial, in time of peace, to the effect that a commissioned officer be cashiered—dismissed from service—is inoperative until approved by the President. Before then it is interlocutory and inchoate only. Mills v. Martin, 16 John. 7, 30; Simmons on Courts-Martial, 6th ed., chap. XVII., p. 294.

A court-martial organized under the laws of the United States is a court of special and limited jurisdiction. It is called into existence for a special purpose and to perform a particular duty. When the object of its creation has been accomplished it is dissolved. 3 Greenl. Ev. sec. 470; Brooks v. Adams, 11 Pick. 442; Mills v. Martin, *supra*; Doolittle v. Smith, 3 S. and R. 590, 599. Such also is the effect of the decision in Wise v. Withers, 3 Cranch. 331, which, according to the interpretation given it by Chief Justice Marshall in *Ex parte* Watkins, 3 Pet. 193, 207, ranked a court-martial as "one of those inferior courts of limited jurisdiction whose judgment may be questioned collaterally." To give effect to its sentences it must appear affirmatively and unequivocally that the court was legally constituted; that it had jurisdiction; that all the statutory regulations governing its proceedings had been complied with, and that its sentence was conformable to law. Dynes v. Hoover, 20 How., 65, 80; Mills v. Martin, 19 John. 33. There are no presumptions in its favor so far as these matters are concerned. As to them, the rule announced by Chief Justice Marshall in Brown v. Keene, 8 Pet. 112, 115, in respect to averments of jurisdiction in the courts of the United States, applies. His language is: "The decisions of this court require, that averments of jurisdiction shall be positive—that the declaration shall state expressly the facts on which jurisdiction depends. It is not sufficient that jurisdiction may be inferred, argumentatively, from its averments." All this is equally true of the proceedings of courts-martial. Their authority is statutory, and the statute under which they proceed must be followed throughout. The facts necessary to show their jurisdiction and that their sentences were conformable to law must be stated positively; and it is not enough that they may be inferred argumentatively.

As the sentence now under consideration involved the dismissal of Runkle from the Army, it could not become operative until approved by the President, after the whole proceedings of the court-martial had been laid before him. The important question is, therefore, whether that approval has been positively shown.

The Court of Claims has found as a fact in the case that the "proceedings, findings, and sentence of said court-martial were transmitted to the Secretary of War," but it has not found that they were laid before the President, or acted on by him, otherwise than may be inferred argumentatively from the orders of the Secretary of War, and the subsequent action of President Grant and President Hayes.

There can be no doubt that the President, in the exercise of his executive power under the Constitution, may act through the head of the appropriate Executive Department. The heads of departments are his authorized assistants in the performance of his Executive duties, and their official acts, promulgated in the regular course of business, are presumptively his acts. That has been many times decided by this court. Wilcox v. Jackson, 13 Pet. 498, 512; United States v. Eliason, 16 Pet. 291, 302; Confiscation Cases, 20 Wall, 92, 109; United States v. Farden, 99 U. S. 10, 19; Wolsey v. Chapman, 101 U. S. 755, 769.

Here, however, the action required of the President is judicial in its character, not administrative. As Commander-in-Chief of the Army he has been made by law the person whose duty it is to review the proceedings of courts-martial in cases of this kind. This implies that he is himself to consider the proceedings laid before him and decide personally whether they ought to be carried into effect. Such a power he cannot delegate. His personal judgment is required, as much so as it would have been in passing on the case, if he had been one of the members of the court-martial itself. He may call others to his assistance in making his examinations and in informing himself as to what ought to be done, but his judgment, when pronounced, must be his own judgment and not that of another. And this because he is the person, and the only person, to whom has been committed the important judicial power of finally determining upon an examination of the whole proceedings of a court-martial, whether an officer holding a commission in the Army of the United States shall be dismissed from service as a punishment for an offence with which he has been charged, and for which he has been tried. In this connection the following remarks of Attorney-General Bates, in an opinion furnished President Lincoln, under date of March 12, 1864 (11 Opinions Attorney-General, 21), are appropriate:

"Undoubtedly the President, in passing upon the sentence of a court-martial, and giving to it the approval without which it cannot be executed, acts judicially. The whole proceeding from its inception is judicial. The trial, finding and sentence are the solemn acts of a court organized and conducted under the authority of and according to the prescribed forms of law. It sits to pass upon the most sacred questions of human rights that are ever placed on trial in a court of justice; rights which, in the very nature of things, can neither be exposed to danger nor subjected to the uncontrolled will of any man, but which must be adjudged *according to law*. And the act of the officer who reviews the proceedings of the court, whether he be the commander of the fleet or the President, and without whose approval the sentence cannot be executed, is as much a part of this judgment, according to law, as is the trial or the sentence. When the President, then, performs this duty of approving the sentence of a court-martial dismissing an officer, his act has all the solemnity and significance of the judgment of a court of law."

We go, then, to the record to see whether it shows positively and distinctly that the sentence dismissing Runkle from the Service was approved by President Grant. It does appear affirmatively that it was disapproved by President Hayes: and if not approved by President Grant, Runkle was never legally out of the Service.

It is true that, if it had been approved, the subsequent disapproval would have been a nullity, and could not have the effect of restoring him to his place; but if not approved, he was never out, and the disapproval kept him in, the same as if the court-martial had never been convened for his trial. In Blake v. United States, 103 U. S., 227, followed in United States v. Tyler, 105 U. S., 244, it was decided that the President had power to supersede or remove an officer of the Army by the appointment, by and with the consent of the Senate, of his successor; but here there was nothing of that kind. Runkle was never removed otherwise than by the sentence of the court-martial, and the order of the War Department purporting to give it effect.

Coming then to the order on which reliance is had to show the approval of President Grant, we find it capable of division into two separate parts, one relating to the approval of the proceedings and sentence, and the other to the executive clemency which was invoked and exercised. It is signed by the Secretary of War alone, and the personal action of the President in the matter is nowhere mentioned, except in a remission of a part of the sentence. There is nothing which can have the effect of an affirmative statement that "the whole proceedings" had been laid before him for action, or that he personally approved the sentence. The facts found by the Court of Claims show that the proceedings, findings, and sentence of the court-martial "were transmitted to the Secretary of War, and that he wrote the order thereon," but there they stop. What he wrote is in the usual form of departmental orders, and, so far as it relates to the approval of the sentence, indicates on its face departmental action only.

What follows in the order does not, to say the least, clearly show the contrary. It relates the executive clemency which was exercised, and then, for the first and only time, it appears, in express terms, that the President acted personally in the matter. It is there said: "The President is pleased to remit all of the sentence, except so much thereof as directs cashiering." If all the rest of the order was the result of the personal action of the President, why was it referred to here and not elsewhere? Might it not fairly be argued from this that the rest was deemed departmental business, and that part alone personal which required the exercise of the personal power of the President, under the Constitution, of granting pardons. And besides, according to the order as it stands, this action of the President was had, not on "the whole proceedings," but "in view of the unanimous recommendation of the members of the court," "the former good character" of the accused, and "in consideration of evidence, by affidavits, presented to the War Department since the trial," and "credible representations." If "the whole proceedings" had actually been laid before him, as required by the Article of War, it was easy to say so.

Then, again, at the end of the order are these words, "which [the sentence] will be duly executed." That which, immediately preceded related to the remission of a part of the sentence, and the Secretary was careful to say that this was done by the President in person. The omission of any such language, or implication even, in the words which were added, leaves the order open to the construction that the Secretary was acting all the time on the idea that the personal judgment of the President was required only in reference to that part of the proceedings which involved the exercise of the pardoning power, and that the rest belonged to the Department.

Still further, it appears, from the order of President Hayes, that "the record of official action" showed that "on the 16th of January, 1873, W. W. Belknap, then Secretary of War, approved the proceedings of said court," and thereupon issued the order from the War Department announcing that Runkle was cashiered, and that after this order was issued, but on the same day Runkle presented to President Grant a petition setting forth, among other things, "that the proceedings of said court had not been approved by the President of the United States as required by law." This petition was not only received by President Grant, but it was by him referred to the Judge-Advocate General for "review and report." Upon this reference the Judge-Advocate General acted and reported on the whole case. President Grant did nothing further in the premises, and the matter remained open when President Hayes come into office. He then took it up as unfinished business, and, acting as though the proceedings had never been approved, entered an order of disapproval.

Under these circumstances, we cannot say it positively and distinctly appears that the proceedings of the court-martial have ever in fact been approved or confirmed in whole or in part by the President of the United States, as the Articles of War required, before the sentence could be carried into execution. Consequently, Major Runkle was never legally cashiered or dismissed from the Army, and he is entitled to his longevity pay, as well as that which he has already received for his regular pay, both before the order of Secretary Belknap was revoked and afterwards.

Such being our view of the case, it is unnecessary to consider any of the other questions which were referred to the Court of Claims. Neither do we decide what the precise form of an order of the President approving the proceedings and sentence of a court-martial should be; nor that his own signature must be affixed thereto. But we are clearly of opinion that it will not be sufficient unless it is authenticated in a way to show otherwise than argumentatively that it is the result of the judgment of the President himself, and that it is not a mere departmental order which might or might not have attracted his personal attention. The fact that the order was his own should not be left to inference only.

The judgment of the Court of Claims is reversed, and the cause remanded for further proceedings in conformity with this opinion.

RECENT DEATHS.

MAJOR DONALD MCVEAN, who died, May 16, at Jefferson Barracks, Mo., served with distinction during the war as an officer of Wisconsin volunteers and lost his leg at Chickamauga. At the close of the was he learned telegraphy and was given the position of telegraph operator and station agent at Jefferson Barracks, and through the recommendation of the officers at the barracks was appointed postmaster. In 1880 he was appointed post-trader at Jefferson Barracks, which position he held at the time of his death.

MAJOR BEN: PERLEY POORE, the veteran and well known journalist, whose illness we reported last week, died, May 29, at the Ebbitt House, Washington, D. C. He enlisted in the Ancient and Honorable Artillery Company, of Boston, when the war broke out and was commissioned major and assigned to the duty of drilling recruits in Washington, hence his military title.

JOSHUA FOLLANSBIE, who died at Provincetown, Mass., May 19, aged 68, entered the Navy in 1842 as 3d Assistant Engineer, and attained the grade of Chief Engineer in 1848. He resigned May 1, 1865.

DETAILS TO STATE UNIVERSITIES.

THE following is a list of Army officers on college duty, with dates of expiration of detail. It will be observed that nine officers will be relieved during the current year, thirteen during 1888, fourteen during 1889, and three in 1890. Orders have been issued relieving, at their own requests, 2d Lieut. H. H. Sargeant, 2d Cavalry, from University of Illinois, Champaign, Ill., to take effect Sept. 1 next, and 2d Lieut. A. A. Mills, 1st Cavalry, from South Carolina Military Academy, Charleston, S. C., July 1. Their successors have not yet been appointed, but there is no lack of candidates for all the vacancies occurring this year:

Maine State College, Orono, Me., Lieut. Charles L. Phillips, 4th Art., July 1, 1888.
University of Vermont, Burlington, Vt., Lieut. A. S. Cummins, 4th Art., July 1, 1890.
Norwich University, Northfield, Vt., Lieut. Edward H. Catlin, 2d Art., Feb. 16, 1890.
Massachusetts Agricultural College, Amherst, Mass., Lieut. George E. Sage, 5th Art., Oct. 5, 1888.
St. John's College, Fordham, N. Y., Lieut. Herbert G. Squiers, 7th Cav., Oct. 1, 1888.
Cathedral School of St. Paul, Garden City, Long Island, N. Y., Lieut. Thomas Ridgway, 5th Art., April 21, 1889.
Union College, Schenectady, N. Y., Lieut. Henry H. Benham, 2d Inf., Sept. 13, 1889.
Cornell University, Ithaca, N. Y., Lieut. Wm. P. Van Ness, 1st Art., Oct. 1, 1889.
Rutgers College, New Brunswick, N. J., Lieut. John T. Honeycutt, 1st Art., Oct. 1, 1888.
Pennsylvania Military Academy, Chester, Pa., Lieut. Geo. T. Bartlett, 3d Art., July 6, 1888.
Allegheny College, Meadville, Pa., Lieut. Alfred M. Fuller, 2d Cav., July 1, 1887.
Pennsylvania State College, Centre County, Pa., Lieut. Samuel S. Pague, 15th Inf., April 8, 1889.
St. John's College, Annapolis, Md., Lieut. Chas. W. Foster, 3d Art., Sept. 10, 1887.
West Virginia University, Morgantown, W. Va., Lieut. James L. Wilson, 4th Art., July 1, 1888.
Bingham School, Orange Co., N. C., Lieut. Henry Wygant, 24th Inf., Aug. 1, 1889.
South Carolina Military Academy, Charleston, S. C., Lieut. Albert L. Mills, 1st Cav., July 1, 1887.
North Georgia Agricultural College, Dahlonega, Ga., Lt. Fredk. G. Hodgson, 6th Cav., July 1, 1891.
Alabama Agricultural and Mechanical College, Auburn, Ala., Lieut. Melzar C. Richards, 2d Art., Oct. 1, 1888.
Agricultural and Mechanical College of Mississippi, Oktibbeha County, Miss., Lieut. Henry C. Davis, Jr., 3d Art., July 1, 1889.
Thatcher Institute, Shreveport, La., Lieut. Francis J. Kernan, 21st Inf., Oct. 1, 1888.
Agricultural and Mechanical College of Texas, College Station, Tex., Lieut. Guy Carleton, 2d Cav., Sept. 6, 1889.
University of the South, Sewanee, Tenn., Lieut. Edmund K. Webster, 2d Inf., Aug. 15, 1889.
Agricultural and Mechanical College of Kentucky, Lexington, Ky., Lieut. Dillard H. Clarke, 15th Inf., Sept. 1, 1891.
Ohio State University, Columbus, Ohio, Lieut. Charles E. Kilbourne, 2d Art., July 1, 1891.
University of Wooster, Wooster, Ohio, Lieut. Alfred C. Sharpe, 22d Inf., July 1, 1888.
Ohio Normal University, Ada, Ohio, Lieut. John Baxter, Jr., 9th Inf., July 1, 1890.
Michigan Military Academy, Orchard Lake, Mich., Lieut. Frederick S. Strong, 4th Art., Sept. 8, 1888.
Michigan Agricultural College, Lansing, Mich., Lieut. Jno. A. Lockwood, 17th Inf., Oct. 31, 1887.
De Pauw University, Greencastle, Ind., Lieut. Will T. May, 15th Inf., July 1, 1889.
Knox College, Galesburg, Ill., Lieut. Eaton A. Edwards, 25th Inf., June 22, 1889.
Southern Illinois Normal University, Carbondale, Ill., Lieut. James F. Bell, 7th Cav., July 1, 1889.
University of Illinois, Champaign, Ill., Lieut. Herbert H. Sargent, 2d Cav., Sept. 1, 1887.
University of Wisconsin, Madison, Wis., Lieut. Luigi Lomia, 5th Art., July 6, 1888.
University of Missouri, Columbia, Mo., Lieut. E. H. Crowden, 8th Cav., Sept. 1, 1888.
Iowa State University, Iowa City, Iowa, Lieut. Joseph M. Califf, 3d Art., July 1, 1889.
Cornell College, Mount Vernon, Iowa, Lieut. Edwin S. Curtis, 2d Art., June 17, 1889.
University of Nebraska, Lincoln, Neb., Lieut. Edgar S. Dudley, 2d Art., Sept. 1, 1888.
Kansas State Agricultural College, Manhattan, Kas., Lieut. John F. Morrison, 20th Inf., Aug. 11, 1891.
University of California, Berkeley, Cal., Lieut. Geo. F. E. Harrison, 2d Art., Sept. 23, 1889.

BIDS were opened at the Navy Department, June 1, for 5,000 gallons of lard-oil and the contract was awarded to N. K. Fairbanks and Co., of Chicago, the lowest bidder, at 49 7-8 cents per gallon. Bids were received from Armour and Co. at 52½ cents, and from the Manhattan Oil Co., for 57½ cents.

CAPTAIN H. G. SHARPE, U. S. Army, was married on Thursday evening at St. Thomas's Church, 5th Avenue, New York City, to Miss Katherine H. Morgan, daughter of the Rev. Dr. Morgan, Rector of St. Thomas's. Mr. Severance Sharpe, brother of the groom, was "best man," and the ushers were P. A. Surgeon L. G. Heneberger, of the Navy, and Lieuts. Alexander, Darr, and Febieger, of the Army. After the ceremony a reception was held at the rectory, after which the married couple left on a tour until early in September when they will go to West Point, where Capt. Sharpe is on duty. The wedding gifts were numerous and handsome.

THE VANCOUVER CANTEEN.

ADJUTANT GENERAL'S OFFICE,
WASHINGTON, May 31, 1887.

To the Editor of the Army and Navy Journal:

SIR: An interesting and complete report by 1st Lieut. J. A. Sladen, 14th Infantry, regarding the operation and management of the regimental canteen at Vancouver Barracks, W. T., has been received at this office, and, as it is thought that this matter may be of interest to the Army, a copy of the document is enclosed herewith that you may publish it should you think proper to do so.

Very respectfully, your obedient servant,
R. C. DRUM, Adjutant General.

—

VANCOUVER BARRACKS, W. T., Aug. 10, 1886.

Col. I. D. DeRussy, commanding 14th Infantry:

SIR: In accordance with your verbal request, I have the honor to make the following report on the operations of the regimental canteen established at this post last January:

Its Necessity.—Vancouver Barracks has no post trader, nor has there been one here since about 1877, its proximity to the town of Vancouver, with its numerous stores and saloons, rendering the position one of but slight profit. Indeed, the last post trader's store was little more than a bar room, where the enlisted men spent but little cash, but exhausted all possible credit. With the post tax, pay of employees and his own profit to be made, the post trader could hardly compete with dealers in town, who hold every inducement to the soldiers, and who can afford to sell their goods at a much smaller profit. The town contains a large number of drinking saloons, running up to the very edge of the military reservation, which have reaped, on every pay day, a rich harvest for the vile whiskey and other liquors sold to the soldiers.

A Canteen Started.—About January 1 last, under your instructions, preparations were made for inaugurating a canteen at this post, and the necessary supplies for furnishing lunches, coffee, tobacco, cigars and beer were obtained. The question at once arose as to the responsibility for the necessary obligations to be incurred, as well as to the ownership of the property to be acquired. It was decided to fix the ownership in the regiment, and that the institution should be known as "The 14th Infantry Regimental Canteen." The reasons for this were 1st, that all debts and responsibilities were assumed by the officers of this regiment; 2d, that the necessary labor was performed voluntarily by the officers of the regiment; and 3d, that the entire regiment was then at this post and comprised ten-elevenths of the whole command.

The canteen opened on January 6, and on that day the troops were paid. The articles furnished for sale were cigars, smoking and chewing tobacco, sandwiches made of ham, bologna sausage and cheese, cake, pies of various kinds, coffee, milk, ginger beer, mineral water and beer. The lunch counter was put up in the so-called "amusement room," which already contained two rented billiard tables and the periodicals furnished by the Quartermaster's Department. Small tables were scattered about the room, and cards, checkers, backgammon, chessmen and other games were furnished in ample quantities.

Prices.—The absolute absence of any currency less than a five cent piece rendered it impossible to fix a scale of prices upon any other basis than five cents or a multiple of that sum, and, as a result, nearly every article mentioned was sold at five cents. Beer was sold at 5 cts. a glass, or 15 cts. a bottle; cigars at 5 cts. apiece, but a superior cigar was sold at two for 15 cents. Plug tobacco was cut into small pieces, but a whole plug, costing 40 cents, was sold for 45. Smoking tobacco, costing 48 cents, was sold for 50, and that costing 65 and 70 cents, in half pound packages, at 70 and 80 cents per pound, respectively. Five cents does not cover the cost of a sandwich, but as a cup of coffee or a glass of beer is almost invariably sold with it, it has been deemed best to continue its sale at that price. Five cents a game is charged for billiards, but all other games are furnished free.

Success of the Undertaking.—As has been stated, the canteen was opened on the January pay day, and its first day's success was, in itself, sufficient to place the venture on a safe foundation. In a few hours after opening the supplies, which were thought to be amply sufficient, were exhausted and additional supplies had to be obtained. The sales the first day were $71.90; the second day, $99.80; the third, $70.20; the fourth, $53.00; and the fifth, $59.30. The next day was Sunday, on which day beer and billiards were interdicted, and the receipts fell to $15.85, but they rose to $36.05 the day following.

The entire receipts for the month were $756.30, averaging $29.08 per day, including Sundays, when the sales are necessarily small. The receipts for the next month, February, were $445.45, an average of $15.90 per day, a considerable falling off from the previous month, but surprisingly large for the second month after pay day. The next month, March, in which another pay day occurred, the sales were $1,060.85, an average daily receipt of $34.22. During the month of April the cash sales fell to $438.55, an average of $14.61 per day, but as a credit system was established during this month, the cash receipts do not represent the true amount of sales. Credit was given during the month for nearly $300, but as only cash receipts are considered this amount is taken up in the following month, when paid for. The receipts for May were $1,128.35, an average of $36.39 per day. In June the cash receipts were $501.55, averaging $16.71 per day, but the credit sales were over $200. The July receipts were $1,168.53, a daily average of $37.69. It thus appears that for the first seven months of its operations, the total receipts at the canteen have been $5.499.53, a daily average of $26.08.

Size of the Garrison.—When the canteen was inaugurated the garrison consisted of the 14th Infantry entire and Light Battery E, 1st Artillery. Shortly after eight companies were ordered away on detached service, four of them, however, soon returning. The other four were absent about one month when two of these returned, the remaining two having continued absent up to the present time, and one additional company was permanently detached on July 1. It will thus be observed that during the existence of the canteen there has never been present the entire strength of the garrison.

Checks and Credit System.—To promote among the enlisted men a more prudent use of their money, checks, in denominations of 5 and 10 cents, were sold at the rate of 60 cents worth of checks for 50 cents in cash, and $1.25 worth of checks for $1 in cash. This has not been as successful as was anticipated, the cash sale of checks, notwithstanding the increase, not averaging more than about $20 a month. The impecuniosity of the men, soon after pay day, and their frequent request for credit, suggested the necessity of some system of credit, and, consequently, in April, the following plan was adopted: Commencing with the second month after pay day, that is with the first day of the month succeeding the one in which they were paid, credit was given to the amount of $3.50 for non-commissioned officers and $2.50 for privates. The following blanks were issued to company commanders;

VANCOUVER BARRACKS, W. T., ——— ———, ——— —, 1886.

Received from Lieut. J. A. Sladen, 14th Infantry, treasurer, 14th Infantry Canteen, —— dollars' worth of checks, to be paid for on next pay day.

——— ———,
——— ———, Co. —, 14th Inf.

Countersigned:
——— ———, 1st Sergt. Co. —, 14th Inf.

In a letter to the company commanders, it was suggested that credit be allowed to such men as might be designated by them through their 1st sergeants, and thus be made an additional means of maintaining discipline, by giving credit to good men and refusing it to the incorrigible. The applicant was to obtain the blank, duly filled and signed for the amount allowed from the 1st sergeant, countersigned by the latter, and on presentation to the treasurer of the canteen should receive the designated amount in checks.

All the company commanders present except three acquiesced in this arrangement, and the plan has worked perfectly thus far. It was expressly stipulated that no pecuniary liability should be incurred by company commanders by reason of giving these orders, but that all losses should fall upon the canteen. Credit has also been given to the men of the three excepted companies, above mentioned, where they were personally known to the treasurer or the steward, or when they came properly vouched for.

Of $500 worth of credit given in the first seven months the actual loss thus far has been $8.50: By desertions (3), $5.50; by discharge (1), $3. Two men have neglected to pay $4.50 and are under charges, making the loss thus far $13. As there has been no direct means taken to compel payment, this, under the circumstances, is a small percentage of loss.

The Expenditures.—The total receipts and expenditures for the seven months ending July 31 are as follows: Total receipts, $5,499.58; paid services and running expenses, $325.90; billiard tables, furniture, fixtures, and repairs, $755.74; supplies, for sales, $4,414.50; balance, $3.44; total, $5,499.58.

Property.—The canteen now owns, free from debt, two new Brunswick-Balke-Collender billiard tables, of the best quality, with racks, cues, pool outfits, and all fixtures complete; lamps for the same; five saloon tables, refrigerator, gas-stove, and coffee urn; beer glasses, coffee cups and saucers, goblets, silver-plated knives, forks, and spoons; rubber spittoons, mats, and matting; an iron safe, cigar-lighter, a large assortment of games and cards, and all the accessories of a well appointed lunch and amusement room.

Improvements.—Since the canteen has been in operation, a lunch-room has been added to the building, and the lunch-counter removed from the large room used as a billiard and reading room. This new room has been fitted up conveniently with counters, shelving, and cupboards, partially at the expense of the canteen; and the whole interior painted, the canteen paying for the material and the labor being performed by soldiers.

Articles, for sale, have been added to the list from time to time, as the wants and necessities of the men became known. Writing facilities were introduced into the reading-room, and two stamped envelopes and two sheets of paper are sold for five cents, thus furnishing the means and facilities for writing letters. Cleaning materials, for both clothing and accoutrements, is sold at a small fraction above cost.

Several brands and styles of chewing and smoking tobacco, cigars, cigarettes, and pipes, to suit the various tastes, are kept on hand. Writing paper, envelopes, pens, pencils, blacking, brushes, polishing-powder, heel-ball, button-brushes, and matches are among the articles offered for sale.

Comfortable tables, round and rectangular, such as are used in saloons, with a shelf underneath for glasses, have been bought from the funds of the canteen.

Management.—The canteen is managed, directly, by a non-commissioned officer, designated the steward, assisted by a private. These men are paid, respectively, 50 and 35 cents a day, from the funds of the canteen. They are under the direct supervision of a commissioned officer called the treasurer, who receives the funds and makes all the purchases.

Every two months the accounts and management are subjected to two inspections, one by the regimental council, which makes a thorough examination of the accounts of the treasurer as well as of the business of the canteen generally; the other by a committee of non-commissioned officers of the regiment, who inspect the practical workings of it, and make recommendation of such changes as they think will improve the service and material. This committee has already suggested several changes for the better and they have been carried out.

All supplies are bought by the treasurer and turned over to the steward. The latter renders a daily report to the treasurer, showing, under such headings as tobacco, cigars, beer, lunches, stationery, etc., the amounts on hand, amounts sold, and amounts received each day, and transfers to him all funds received. These reports are presented to the treasurer every morning, when orders for new supplies, or the supplies, are given to the steward.

On the last day of the month, a consolidated report for the month is made out by the steward, showing the entire transactions for the month. He also makes a monthly property return, showing all property on hand, received during the month, and "dropped" as worn out, broken, lost, etc., during the same period. The steward keeps a blotter, with columns for the different articles, and as sales are made, either for cash or checks, they are at once entered. If, as is likely to occur, the cash at the close of the day does not exactly tally with the blotter, a column for "cash unaccounted for" is provided for on the daily report. Of course, much must necessarily depend upon the honesty of the employees, but with the system indicated, accurately kept, no considerable loss could long exist without discovery.

Practical Workings.—The canteen is no longer an experiment. After seven months operations it now has a well furnished and comfortable lunch and amusement room, with about seven hundred dollars worth of property, a fair supply of goods, a small credit and no debt, and the enlisted men have been furnished with the best of articles at the lowest possible rate. The main object has been to furnish the best at the least cost. As an illustration of this, the coffee is made of two parts Java to one part Mocha, and fresh coffee is made twice or three times a day, as the demand for it occurs.

The desire is to make it a club for the enlisted men, solely for their direct comfort and benefit, and that they shall be made to feel that they have an ownership in its property and a voice in its management. The best indication of its necessity is shown in the favor it has met with. Its abolition now would be keenly felt.

The presence of a sergeant, as steward, has a wholesome effect in keeping order, and in controlling the enlisted men. No excess in drinking is allowed. If a man displays a disposition to drink to excess, further sale is refused him. Noisy and boisterous conduct is forbidden and restrained. Not one single case of drunkenness has been reported from the canteen thus far, though one or two instances have occurred where the canteen has been credited with it, in order to shield the wrong-doer, but in each instance investigation has shown the charge to be false. Indeed, from statements made me by several officers, I am inclined to believe that the number of guardhouse cases of drunkenness, usually following pay day, have decreased since the establishment of the canteen.

Reduction of Prices Recommended.—The last Regimental Council, in its report on the canteen, recommended that a reserve fund be set aside and put in some safe shape, to provide for transporting the property in case of a change of station, or for any unforeseen emergency that may arise, and this recommendation was approved by you. When this sum, of from $300 to $500, has been set aside it is then proposed to still further reduce the scale of prices, so that only sufficient shall be realized to pay the actual running expenses.

An insurance against fire has been negotiated for the sum of $600.

Very respectfully, etc.,
(Signed) J. A. SLADEN, 1st Lieut., 14th Inf.
Treasurer, Regimental Canteen.

COURT OF CLAIMS.

THE Court of Claims has decided in the case of David Monat v. the United States that Congress intended to include paymasters' clerks among the officers of the Navy to whom mileage was allowed by the act of 1876. They say: "The Supreme Court held that 'the place of passed assistant surgeon is an office, and the notification by the Secretary of the Navy was a valid appointment to it,' citing the U. S. v. Hartwell, 6 Wall., 385, Moore's case (95 U. S., 760,) and the Constitution, Art. II, sec. 2. The position of the claimant in the Navy would seem to be as well established by law as an office, and his appointment to it as constitutionally made as the position and appointment of a passed assistant surgeon in the Navy. In Hendee's Case, recently decided (22 C. Cls. R., —) we show that paymaster's clerks were often called and regarded as officers in some sense, in statutes, in regulations of the Navy, in orders of the Secretary of the Navy, and in judicial decisions. Section 1417 of the Revised Statutes defines who are enlisted men and limits their number; and paymaster's clerks are not among them, while they are among those who take the oath of office. On board ship, paymasters' clerks are quartered and mess with the officers, and are everywhere treated as such whether at sea or on shore. In the passage of laws like that under consideration Congress used the word officers in its general, popular and broad signification, rather than in its narrow and technical one, derived wholly from the operation of provisions of the Constitution in relation to certain appointments, and which, as one of the distinctions in the meaning of the word, has not yet found a place in the dictionaries. It appears by the allegations of the petition admitted by the demurrer, that ever since the passage of the act in 1876, paymasters' clerks have uniformly been paid mileage while attached to seagoing vessels, and have not been so paid when engaged on shore duty. There is no warrant for such a distinction. It is purely arbitrary. The statute allows mileage to officers of the Navy when travelling on public business, and if paymasters' clerks are officers in any sense they are entitled to mileage for travel, whatever be the public duty in which they are engaged. Continuously paying them mileage when attached to seagoing vessels concedes that they are officers, and if that be admitted in the one case it cannot be denied in the other."

CLAIMS FOR WAR DAMAGE.

THE New York *Times* says: "Claims for war damages always grow with lapse of time, especially when they are to be settled by the United States. The records of the late Court of Alabama Claims afford some singular and amusing instances of this peculiarity. One leading New York lawyer, who had a large number of sailors' claims committed to his charge for damages sustained by Confederate cruisers, sent out a blank form of possible articles forming a sailor's outfit for his clients to fill up, and included in the list gold watches and chains and specie to meet possible contingencies. To his amazement, about 200 of his clients returned these statements filled up and sworn to, gold watches and chains and specie included, until in one case, Mr. J. A. J. Cresswell, counsel for the United States, was enabled to prove that, accepting the testimony of the sailors as true in the case of one New Bedford whaler, which, according to the admission of her captain, was old and saturated with whale oil, and that she would probably have been broken up for firewood after her next trip, there were carried in the lockers of the crew gold watches and chains and gold and silver dollars valuable enough to make the cargo of the richest Spanish galleon seem almost poor by comparison."

THE ARMY.

G. O. 37, H. Q. A., May 26, 1887.

The following order from the War Department is published for the information and guidance of all concerned:

WAR DEPARTMENT, WASHINGSON, May 25, 1887.

By authority of the President of the United States, dated May 21, 1887, the following described tract of land in the Territory of Wyoming, embraced within the limits of the Wind River or Shoshone Indian Reservation, created by treaties of July 3, 1868, and June 22, 1874, is proclaimed a military reservation for the post of Fort Washakie, viz.:

Commencing at a point 58.5 chains south 20deg. east of the flagstaff of Fort Washakie, Wyoming Territory, and running thence east 25deg. north 185.5 chains; thence north 30deg. west 128.5 chains; thence west 27deg. south 228.5 chains; thence south 14deg. west 89 chains; thence east 2deg. 30m. north 49 chains; thence east 10deg. south 74 chains to the place of beginning. Area: 1,405 acres, more or less.

This with the proviso that "the use and occupancy of the land in question be subject to such right, title, and interest as the Indians have in and to the same, and that it be vacated whenever the interest of the Indians shall require it, upon notice to that effect to the Secretary of War."

WM. C. ENDICOTT, Secretary of War.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 38, H. Q. A., June 1, 1887.

1. The competition of distinguished marksmen provided for in par. 605, Blunt's "Rifle and Carbine Firing," will take place this year at the Bellevue Rifle Range, near Omaha, Neb., commencing on Sept. 19, and will be conducted by Maj. Guy V. Henry, 9th Cavalry.

2. For this competition selections will be made by department commanders from those of the class of distinguished marksmen who may be serving in their commands, as follows: Two from the Department of the East, one from the Department of Dakota, three from the Department of the Platte, one from the Department of the Missouri, two from the Department of Texas, one from the Department of the Columbia, one from the Department of California, and one from the Department of Arizona, and the selected marksmen directed to report to the commanding general Department of the Platte on Sept. 13.

3. The commanding general Department of the Platte is charged with the arrangement of all necessary details during the meeting of the team of distinguished marksmen, and upon the completion of the contest will order all connected therewith to return to their respective stations. The travel herein directed is necessary for the public service.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

WAR DEPARTMENT, A. G. O., May 31, 1887.

The following order of the President is published for the information of all concerned:

EXECUTIVE MANSION, May 26, 1887.

Under the provisions of Sec. 179, R. S., Brig.-Gen. S. V. Benét, Chief of Ordnance, U. S. A., is hereby authorized and directed to perform the duties of Secretary of War during the temporary absence of the Secretary of War, to commence on the 28th day of May, A. D. 1887; and also during such absences of the Secretary of War in the month of June, 1887. GROVER CLEVELAND.

G. O. 6, DEPT. OF TEXAS, May 21, 1887.

Directs that Pistol practice be held by Cavalry troops not less than twice each week as follows:

Fort Brown—October 1 to November 30. Fort Clark—November 1 to December 31. Fort Concho—September 1 to October 31. Fort Davis—September 1 to October 31. Camp Del Rio—September 1 to October 31. Fort Hancock—September 1 to October 31. Fort McIntosh—September 1 to October 31. Camp Pena Colorado—October 15 to December 14. Fort Ringgold—October 1 to November 30. Post of San Antonio—November 1 to December 31. Camp at Eagle Pass—November 1 to December 31.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Capt. George E. Pond, A. Q. M., is relieved from the duties of post quartermaster at Fort Riley, to enable him to devote all his time to construction at that post (S. O., May 27, H. Q. A.)

Commissary Sergeant Chas. Papen, for drunkenness in the streets of San Angelo, Tex., was tried by Court-martial at Fort Concho and sentenced to confinement at the post for four months and forfeiture of $20, but General Stanley, in consideration of the unanimous recommendation of the court to clemency, remitted the sentence.

Pay Department.

Leave for twenty days, to commence on or about June 8, is granted Major Chas. McClure, Paymr., Newport Barracks, Ky. (S. O. 109, Div. Atlantic, May 28.)

Leave for twenty days is granted Col. Daniel McClure, Asst. Paymr. Gen., New York City. During his absence Major Jos. W. Wham, Paymr., will, in addition to his regular duties, perform those of the chief paymaster Div. Atlantic (S. O. 111, Div. Atlantic, June 1.)

Major Daniel R. Larned, Paymr., is detailed a member of the G. C. M. at Fort Bidwell, Cal. (S. O. 32, D. Cal., May 16.)

Medical Department.

Capt. Harry O. Perley, asst. surg., is relieved from duty at Fort Maginnis, M. T., and will proceed to Fort Snelling, Minn., and report for temporary duty (S. O. 49, May 23, D. Dakota).

1st Lieut. Wm. N. Suter, asst. surg., recently appointed, will report to the C. O., Washington Barracks, for temporary duty (S. O., May 27, H. Q. A.)

Asst. Surg. Leonard Wood will proceed to San Diego Barracks, Cal., and report for Court-martial duty (S. O. 55, May 19, D. Ariz.)

Hospital Steward John W. Barney is relieved from duty in the Dept. Cal. (S. O. 34, D. Cal., May 23.)

Engineers and Ordnance Departments.

Capt. Jas. C. Ayres is detailed a member of the G. C. M. at Benicia Barracks, Cal. (S. O. 33, D. Cal., May 20.)

Chaplains.

Post Chaplain Wm. K. Tully, recently appointed, will proceed to Jefferson Barracks, and report for duty (S. O., May 27, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., B, D, E, G, and K, Ft. Custer, Mont.; A, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; C, F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

Capt. James Jackson, recruiting officer, will send four suitable men to West Point for assignment to the cavalry detachment there (S. O. 83, May 20, R. S.)

2d Lieut. Albert L. Mills is, at his own request, relieved from duty at the South Carolina Military Academy, Charleston, S. C., to take effect July 1 (S. O., May 31, H. Q. A.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Sherman, Idaho.

Leave for two months is granted 2d Lieut. Henry T. Allen (S. O. 24, May 16, Div. P.)

2d Lieut. Herbert H. Sargent is, at his own request, relieved from duty at the University of Illinois, Champaign, to take effect Sept. 1, 1887, and will join his proper station (S. O., May 28, H. Q. A.)

Private Carl Hagen, Troop L, will proceed to Fort Walla Walla and report for temporary duty as hospital steward, 2d class (S. O. 77, May 16, D. Columbia.)

Sergt. W. S. Booth, Troop F, a good soldier, died at Fort Walla Walla, May 16, and was buried with military honors, May 17. The Odd Fellows participated, and the garrison command attended in a body. The salute over the grave was fired by Troop F.

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex., G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott Tex.

Capt. E. Z. Steever, 1st Sergt. A. J. Rosenberry, and Privates Barnes, Ramsey, and Tomey, Troop G, have qualified as sharpshooters.

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A, E, and L, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; M, Ft. McDowell, Ariz.

1st Lieut. Abiel L. Smith will proceed, July 1, to Jefferson Barracks and report for duty at the Cavalry Depot (S. O., May 28, H. Q. A.)

5th Cavalry, Colonel James F. Wade.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Col. J. F. Wade, Fort Riley, is assigned to the command of that post (S. O. 58, May 21, Dept. M.)

A furlough for four months, with permission to go beyond sea, is granted 1st Sergt. Patrick Spain, Troop L (S. O. 60, May 27, Div. M.)

Private William McGinnis, Troop D, died at Fort Riley recently from injuries received while bathing, May 8.

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

2d Lieut. Frederick G. Hodgson is detailed as Professor of Military Science and Tactics at the North Georgia Agricultural College, Dahlonega, Ga. (S. O., May 31, H. Q. A.)

1st Lieut. A. P. Blocksom is relieved from duty at the Ohio State University, Columbus, O., after July 1, and will then join his troop (S. O., May 31, H. Q. A.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs., B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

Capt. Winfield S. Edgerly will proceed to David's Island and report to conduct recruits to the 11th Infantry. On completion of this duty he will join his troop (S. O. 84, May 23, R. S.)

1st Lieut. W. J. Nicholson is relieved from duty at the Kansas State Agricultural College, Aug. 11, and will then join his troop (S. O., May 31, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

1st Lieut. F. E. Phelps is relieved from duty at the Agricultural and Mechanical College of Kentucky, Lexington, Ky., to take effect Sept. 1, and will then join his troop (S. O., May 31, H. Q. A.)

Leave for three months, to take effect about June 15, is granted Capt. Edmund Luff (S. O., May 31, H. Q. A.)

Corpl. Galley, A; Sergt. James, B, and Privates Mackie and Smith, I, have qualified as sharpshooters.

9th Cavalry, Colonel Edward Hatch.

Hdqrs., C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; D and H, Ft. McKinney, Wyo.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

Major F. W. Benteen, now at Fort Douglas, undergoing sentence of suspension, is relieved from duty at Fort Douglas, and, during the period of his suspension, given permission to leave the Dept. of Platte (S. O. 50, May 23, D. Platte.)

Leave for ten days is granted 1st Lieut. M. D. Parker, to take effect while he is en route from Fort Washakie to Fort Du Chesne (S. O. 51, May 24, D. Platte.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

Major Edward R. Warner is assigned to duty at Fort Canby, W. T. (S. O. 25, May 20, Div. P.)

Leave for one month, to take effect on or about June 6, is granted 2d Lieut. George W. Van Deusen (S. O. 34, May 23, D. Cal.)

2d Lieut. W. C. Rafferty is relieved from duty at the North Georgia Agricultural College, Dahlonega, Ga., to take effect after July 1, and will then join his battery (S. O., May 31, H. Q. A.)

Sergts. A. P. Allen and G. F. Nelson and Privates J. Donovan and H. Hopkins, Bat. H, have qualified as sharpshooters.

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

1st Lieut. Charles E. Kilbourne is detailed as Professor of Military Science and Tactics at the Ohio State University, Columbus, O. He will proceed to Columbus after July 1 (S. O., May 31, H. Q. A.)

The C. O. Fort Barrancas, Fla., will issue a furlough for six months, with permission to go beyond the sea, to 1st Sergt. Patrick Cassidy, Bat. H (S. O. 110, May 31, Div. A.)

The Kansas City *Times* says: "Light Bat. F, 2d Art., Fort Leavenworth, will, if a man now absent without leave proves to be a deserter, have had but one desertion since Sept. 3, 1885. There is probably not another organization in the Army that can show a better record than this."

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

Leave for four months on Surgeon's certificate is granted 1st Lieut. George A. Thurston (S. O., May 27, H. Q. A.)

Leave for fifteen days is granted 1st Lieut. Charles G. Woodward, Fort McHenry, Md. (S. O. 112, June 2, Div. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

The band and batteries of the 4th U. S. Artillery at Fort Adams, R. I., participated in the Gubernatorial inauguration ceremonies at Newport, May 31, and were much commended for their military bearing and appearance.

5th Artillery, Colonel John Hamilton.

Hdqrs., E, F,* I, and H, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; K and M, Ft. Schuyler, N. Y.
* Light battery.

Leave for two months, to commence on or about June 15, is granted 2d Lieut. John W. Ruckman, Fort Hamilton, N. Y. H. (S. O. 109, May 28, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal. B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

Leave for two months, to take effect on or about June 5, is granted 2d Lieut. Samuel L. Faison, with permission to apply for an extension of two months (S. O. 26, May 24, Div. P.)

Leave for fifteen days, from June 4, is granted Capt. John J. O'Connell, recruiting officer (S. O., May 27, H. Q. A.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

The Kansas City *Times*, in its issue of May 27, pays a compliment to the excellency of the 6th Infantry Band, stationed at Fort Leavenworth, but thinks the band ought to give open-air concerts more frequently, and makes other suggestions in that direction not over complimentary. It seems proper to state that a Fort Leavenworth correspondent, under date of May 27, writes us that the statements "are utterly false and malicious."

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

1st Lieut. P. Henry Ray is announced as Acting Judge-Advocate of the Dept. of Platte, with the rank of Captain (G. O. 3, May 9, D. Platte.)

Leave for one month, to take effect about June 5, with permission to apply for an extension of one month, is granted 2d Lieut. S. E. Smiley, Fort Niobrara (S. O. 50, May 23, D. Platte.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

The leave granted 2d Lieut. Edward M. Lewis, Fort Yates, D. T., is extended twenty-eight days (S. O. 49, May 23, D. Dak.)

Leave for ten days is granted Capt. Erasmus C. Gilbreath, Fort Yates, D. T. (S. O. 49, May 23, D. Dak.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.; A, Ft. Wood, Bedlow's Island, N. Y. H.

2d Lieut. Charles W. Abbot is detailed a member of the G. C.-M. at Plattsburg Barracks, N. Y. (S. O. 109, May 28, Div. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

1st Lieut. Dillard H. Clark is detailed as Professor of Military Science and Tactics at the Agricultural and Mechanical College of Kentucky, Lexington, Ky., to take effect Sept. 1 (S. O., May 31, H. Q. A.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

1st Lieut. W. A. Thurston, Sergt. DeBirny, and Privates Nevels, Porter, Still, and Shanley have qualified as sharpshooters.

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

The recruiting rendezvous at No. 9 South Clark street, Chicago, will be discontinued June 30, and Capt. Frank D. Garretty will transfer his recruiting party to Milwaukee, Wis., and establish a recruiting rendezvous there. Capt. Garretty will proceed

June 20, to Milwaukee, for the purpose of securing desirable quarters (S. O. 87, May 26, R. S.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

Leave for one month is granted Capt. John A. Manley, Camp Poplar River, M. T. (S. O. 49, May 23, D. Dak.)

2d Lieut. John F. Morrison is detailed as Professor of Military Science and Tactics at the Kansas State Agricultural College, Manhattan, Kas., to take effect Aug. 11 (S. O., May 31, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Fort Clark, Tex., May 23. Detail: Capt. Philip H. Remington, 19th Inf.; Capt. Harrison S. Weeks, 8th Cav.; Capt. John G. Leete, 19th Inf.; Capt. Edward A. Godwin, 8th Cav.; 1st Lieut. Charles B. Hall, 19th Inf.; 1st Lieut. Josiah H. King, 8th Cav.; 2d Lieuts. John M. Cunningham and Harris L. Roberts, 19th Inf.; 2d Lieut. Charles W. Farber, 8th Cav., and 2d Lieut. Matthew F. Steele, 8th Cav., J.-A. (S. O. 61, May 20, D. Tex.)

At Fort Sidney, Neb., May 31. Detail: Capt. Clarence Ewen, Asst. Surg.; Capts. William H. Boyle and Frederick H. E. Ebstein, 1st Lieuts. Charles A. Williams, R. Q. M., Charles H. Bonesteel, Francis J. Patten, Solomon E. Sparrow, and John S. Parke, Jr., 2d Lieuts. Edward H. Brooke, Frederick L. Palmer, and Almon L. Parmerter, 21st Inf., and 1st Lieut. Joseph W. Duncan, Adjt., 21st Inf., J.-A. (S. O. 50, May 23, D. Platte.)

At Benicia Barracks, Cal., May 16. Detail: Lieut.-Col. Charles G. Bartlett, Capts. Daniel F. Callinan and Robert G. Heiner, 1st Inf.; Capt. Charles K. Winne, Asst. Surg.; 1st Lieut. Benjamin S. Wever, 1st Inf., and 1st Lieut. James S. Pettit, 1st Inf., J.-A. (S. O. 31, May 12, D. Cal.)

At Fort Columbus, N. Y. H., June 3. Detail: Capts. William B. Beck and Charles Morris, 5th Art.; Capt. Henry P. Birmingham, Asst. Surg.; 1st Lieuts. Benjamin K. Roberts, David D. Johnson, William R. Hamilton, and Samuel E. Allen, 2d Lieuts. Warren P. Newcomb and Harvey C. Carbaugh, 5th Art., and 1st Lieut. Frank Thorp, 5th Art., J.-A. (S. O. 112, June 2, Div. A.)

Army Boards.

A Board of Officers, to consist of Lieut.-Col. Edward M. Heyl, I. G.; Major William Arthur, Paym., and 1st Lieut. Q. O'M. Gillmore, Q. M., 8th Cav., will meet at San Antonio, May 25, to report upon certain work on barracks at post of San Antonio (S. O. 62, May 23, D. Tex.)

A Board of Survey, to consist of Lieut.-Col. Isaac D. De Russy, 14th Inf., and Capts. Charles A. Alligood and Gustavus A. Hull, M. S. K., will assemble at San Francisco, Cal., May 23, to fix the responsibility for the condition of subsistence stores for which Capt. Charles P. Eagan, C. S., is responsible (S. O. 25, May 20, Div. P.)

A Board, to consist of Lieut.-Cols. William E. Merrill and John W. Barlow, Major Amos Stickney, and Lieut. Eugene J. Spencer, C. E., Recorder, will assemble at Pittsburgh, Pa., to report upon the plans of the proposed bridge across the Ohio River (S. O. 60, May 27, C. E.)

A Board of Survey, to consist of Lieut.-Col. Amos Beckwith, A. C. G. S., and 1st Lieuts. Thomas S. Mumford, 13th Inf., and Wilber E. Wilder, 4th Cav., will assemble at St. Louis, Mo., June 6, to report upon the condition of ordnance stores en route from Fort Wingate to Rock Island Arsenal (S. O., May 31, H. Q. A.)

A Board of Officers, to consist of Brig.-Gen. Thomas H. Ruger; Col. James F. Wade, 5th Cav., and Major Edmond Butler, 2d Inf., will assemble at Fort Leavenworth, Kas., June 10, for the purpose of attending the examinations of the officers who have taken the two years' course of instruction at the U. S. Infantry and Cavalry School (S. O., May 31, H. Q. A.)

DEPARTMENT NEWS.

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

A Winnipeg despatch says: "Another Indian outbreak appears certain, this time between the Canadian Bloods and American Grosventres. The Grosventres have donned the war paint, and, reinforced by other American bands, intend attacking the Bloods and capturing their scalps and horses. The Bloods will be assisted by all the Canadian reds and a battle is certain."

From Fort Shaw, Montana, we learn that Gen. Brooke, U. S. A., commander, is inclined to look lightly on the persistent Indian scares received from the northern country. He has a full force of scouts patrolling the border, and some cavalry troops from Fort Assiniboine are also out on the same duty. Gen. Brooke says he has listened to these outcries so long and has so often found no foundation for them that he is very sceptical. They largely originate in excited imaginations or from those who have ends to serve by the location of troops along the border.

Dept. of the Platte—Brig. Gen. George Crook.

A roster of troops, dated May 25, contains useful information as to recent movements of troops, and we note that Fort Du Chesne, Utah, is rapidly approaching completion.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A Tucson special says: "It has been definitely settled that Cajemo, chief of the Yaqui and Mayo Indians, of Sonora, has been shot by Mexican authorities. His death is no less than a cold-blooded murder."

Dept. of the Columbia.—Brig. Gen. John Gibbon.

It is said that Fort Klamath will be abandoned soon after July 1.

U. S. ARTILLERY SCHOOL, FORT MONROE.

THE school for the children of enlisted men closed June 1 when medals were distributed to the children who had won them. In G. O. 13 of May 30 Gen. Tidball prescribes the practical military exercises for June as follows:

Artillery.—Mechanical Manœuvres, under Captain S. M. Mills, 5th Artillery.

Signaling.—Under 1st Lieut. C. W. Hobbs, 3d Artillery.

Infantry.—Small arm target practice for the season will take place daily, Sunday excepted.

FORT LEAVENWORTH, KAS.

Gen. Ruger, Col. Wade, 5th Cavalry, and Maj. Butler, 2d Infantry, are expected to arrive about June 8 or 9 to attend the examination of the officers who have completed their two years' course of instructions. Great preparations are being made for the occasion, and Gen. McCook will clearly demonstrate to the examiners and the visitors that the infantry and cavalry school has not been idle, but is thoroughly fulfilling its mission.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

JUNE 1, 1887.

THE rush of visitors began early this year. On Saturday the hotel here was crowded; every room was in use and a number of cots had to brought out. At the hotels at Highland Falls are a number of guests who come up every day to see what is going on. Communication is easy, there being two lines of stages, making frequent trips and charging ten cents for the ride. There has been some talk of organizing a street railway company, which is to build a line from the Highland villa to the south gate.

The usual order was issued last evening discontinuing the regular duties of the academic year. The hour for parade has been changed to half-past six.

On Decoration Day the Point was crowded with visitors, who probably expected to see some ceremonies befitting the occasion. There was no change in the regular routine duties of the cadets and enlisted men.

Col. De Lancey Floyd Jones, U. S. A.; Capt. Cook, of the Q. M. Dept., and Capt. Jackson, 1st Cavalry, were here over Sunday.

Gen. J. R. Trimble, of the Class of 1822, arrived yesterday and will remain several weeks.

Miss Gordon, of Georgia, daughter of Senator Gordon, is visiting her cousin, Mrs. Williams.

The cots to be put up in the cadet barracks next week are intended for all officers, whether graduates or not, who wish to use them.

The officers' mess is closed for the summer. The farewell dinner last evening was a fine affair, about forty being at the table.

Capt. Bartlett, of the English Service, is here.

Five of the members of the Board of Visitors arrived yesterday—Gen. Anderson, Senator Dolph, Mr. Courtenay, Dr. Everett, and Mr. Russell. The remaining members are expected to-day.

A cold, dreary rain set in last night and is still falling at 3 o'clock to-day, so that the prospect of carrying out the part of the programme relating to the military exercises is not favorable. For to-day we were to have siege and mortar battery drills.

Mrs. Merritt has issued invitations to the officers and ladies for a reception to the Board of Visitors to be given at 5 o'clock to-morrow.

JUNE 2.—The storm cleared up a little yesterday afternoon and the drill at the siege and mortar batteries took place at 5 o'clock. The firing was very good.

All but three of the Board of Visitors are now here. The absent ones are Mr. Bates and Representatives Anderson and Butterworth. The Rev. Mr. Brown is accompanied by his wife, daughter, and Miss Carter; Mr. Childs, by his wife and Mr. and Mrs. Ellis; Mr. Courtenay, by his daughter; Senator Cockrell, by his wife; Senator Dolph, by his wife and daughter; Gen. Wheeler, by two daughters and Miss Smith. The Board of Visitors was duly organized yesterday. Mr. Childs is president, Gen. Wheeler is vice-president, and Mr. Courtenay is secretary.

(Correspondence of the Army and Navy Journal.)

FORT D. A. RUSSELL, WYO.

MAY 25, 1887.

BY far the most brilliant affair of the season was the bal masque given by the officers and ladies of this post on Thursday evening, May 19, at Post Hall. The decorations were handsome and showed excellent taste and judgment on the part of the Misses Casey and Marshall and Lieuts. Druien and Ives, who superintended them. The musicians, under the leadership of Prof. Kral, occupied the raised platform at one end of the hall, and were screened by a low barricade of potted plants. The music comprised the most popular and difficult selections, and was all that could be desired. The various offices were utilized as reception and dressing rooms, and the library devoted exclusively to use as a dining room, in which a table was spread. Altogether the various rooms were pictures in their holiday garbs of flowers, etc., the walls resembling a bower, so dense were their covering.

The guests began to arrive as early as 8 o'clock, and by 9 the hall was almost crowded to overflowing. The majority of the guests present were masked. Mrs. Col. Offley represented a Summer Storm, which is pronounced by all as one of the most perfect costumes present; Mrs. Capt. Rogers as the Tambourine Girl was all that could be desired; Mrs. Lieut. Brush represented Titania; Mrs. Lieut. Roach and Mrs. Larsh, Spanish Girls; Mrs. Lieut. Walker, Daisy; Mrs. Capt. Roberts, Checkered Domino; Mrs. Van Tassel, Reaper; Mrs. Horrie, Blue Domino; Mrs. Hoyt, Old-Fashioned Lady; Miss Marshall as Winter and Miss H. Casey as Spring represented the two seasons to perfection; Miss M. Marshall as a Polish Girl and Miss M. Casey as Daisy also showed exquisite taste and judgment on the part of these young ladies in designing their costumes; Miss J. Marshall appeared as a Reaper, Miss Crook as a Greek Girl, and the Cupid of Miss Horrie was "simply immense;" Miss Graham represented the Flower Girl; Miss Bergmann appeared in a Watteau Costume, and Miss Birmingham as Night and Miss Barkwell in a Dolly Varden costume were perfectly "killing."

Of the gentlemen, Dr. Ives as a Giddy Young Girl took the audience by storm. The Koko of Lieut. Walker would have made the original Japanese Koko turn green with envy. Lieut. Frier as the Clown knocked the spots off of old Dan Rice, and we look ere long to see him join one of the numerous circuses as a "joker." Lieut. Kerr walked in as a Champagne Bottle; Lieut. Durfee appeared in true Mexican style and Lieut. Druien as a Jockey. Capt. Roberts and Lieut. Chubb made admirable Monks.

Many other costly and elegant costumes were to be seen, but lack of space forbids a more detailed account. R.

(Correspondence of the Army and Navy Journal.)

FORT MISSOULA, MONTANA.

MAY 20, 1887.

ONE of the prettiest and most enjoyable entertainments that has been given at Fort Missoula for a long time was the reception last Wednesday evening given by Col. and Mrs. Jewett in honor of Lieut. Smith and bride. Monday evening Lieut. and Mrs. Buttler gave a very handsome dinner of eight covers. Other officers and ladies of the post have cards out for different entertainments for the coming week. Mrs. Capt. Gageby left for California last week to be gone until the fall. B. D. I.

(Correspondence of the Army and Navy Journal.)

FORT DU CHESNE, UTAH.

MAY 19, 1887.

A PETITION signed by all the enlisted men of the garrison has been presented to the commanding officer requesting the establishment of a canteen after the system of General Henry A. Morrow, U. S. Army. It is hoped that such a request will be favorably considered by the respective authorities, as it is not only for the benefit of the individual soldier, but also a consideration for their organizations and the officers commanding them.

By closing up the Post Trader's saloon and selling bottled beer at a reasonable price and in small quantities—not in clusters, as can be obtained at the Trader's—drunkenness will be done away with, particularly at such a post as Du Chesne, the men can enjoy a quiet game at cards—gambling being prohibited—can read their papers, play some other game of amusement, and will have at all times a place in which to occupy their time in the evening. There will be no trouble, because there is no drunkenness; there will be no Court-martial because men won't have the chance of committing themselves, and the Post Trader won't have the satisfaction of becoming rich at the expense of the enlisted soldier, and if every post has its canteen with a proper management, the number of Courts-martial—that great curse to the Army—would be considerably decreased.

Our Post Commander, Col. Randlett, is on the go from sunrise till dark, superintending in person the work done at the post and steadily improving the appearance of the garrison.

Capt. Haughey, 21st Inf., has arrived from Fort Sidney, and is daily improving in health.

Capt. R. B. Benham, Post Surgeon, delivered a very interesting medical lecture on Thursday last to a large audience in the Post library.

Lieut. Cornman, 21st Inf., from Fort Sidney arrived here—his new station—with a detachment of recruits for the 21st Infantry.

Col. Stanton, Paymaster, U. S. A., is in the post to-day disbursing two months' pay to the troops.

Actg. Asst. Surgeon S. H. Knowles is with the sawmill detachment at the Uintah Agency.

The days are unusually warm at this time of the season, and the wind if anything increases daily in force.

SAPOLIO.

(Correspondence of the Army and Navy Journal.)

FORT MEADE, D. T.

MAY 25, 1887.

THE dullness of our garrison—socially—has been something without precedent for months; livelier times are anticipated when the officers from a distance put in appearance as members of the Court-martial for the trial of Capt. Gray, of the 25th Inf. As the witnesses are all present it is thought the session will be a short one. The new riding halls, bath houses for the men and various other improvements, together with two drills a day, and dress parade every evening, keep both officers and men pretty busy.

Col. Tilford's fine riding horse, "Pet," was killed on the drill ground a few days since, in "being thrown" according to late orders introducing Rarey's tactics. He fell with such force that death was instantaneous.

The Paymaster, Maj. Roche, left the usual results of his visit. The Post Traders reaped a harvest off the soldiers' pay and the guardhouse was crowded to the number of 60 prisoners.

Various rumors still reach the 7th of a change of station this summer, but as the season is advancing and no orders yet out our hopes are lessening of leaving the land of the Dacotas. We have not even the prospect of being enlivened by the young ladies of the regiment this summer, as Miss Forsyth will spend the season at White Sulphur Springs and Miss Tilford at Fortress Monroe.

There will be quite a crowd of quarters here when the several 1st lieutenants arrive, who are soon due from their professorships at the military colleges.

(Correspondence of the Army and Navy Journal.)

FORT CONCHO, TEXAS.

May 22, 1887.

FOR the last two weeks we have had here several heavy rains, and this post and its vicinity look quite different now. The grass is good, water plenty, and no wonder the farmers and stockraisers around here wear happy smiles on their faces.

It has been the rumor for the last five or six months that Fort Concho should or will be abandoned this summer, and on account of its being quite a difference to the citizens, especially to the businessmen of San Angelo, whether or not this post is kept up, the publishers of the San Angelo *Enterprise* have done in fact all in their power to get a petition signed by the citizens of San Angelo and to be forwarded to the Secretary of War, to make Fort Concho a permanent post. G. W.

One of the heaviest sandstorms reached this post and its vicinity from southwesterly direction about half-past four o'clock on May 24. The Company quarters are only slightly damaged, but quite a number of windows are broken, and the force of the storm took the roofs off from some of the houses belonging to the post; also the roof over the corrals torn off. But if we take a step farther and take a look at our neighboring town San Angelo, how different is the damage there. The beautiful court house is almost a ruin, the whole roof is damaged and the furniture of some of the rooms destroyed. Of the Christian Church nothing is left but a woodpile, and many other private houses totally destroyed. Some of the wooden buildings were removed from their proper places, and quite a number of tin roofs and porches were found in the streets, not to count the tin pails, kettles, signs, etc. To-day the carpenters are already busy engaged to rebuild and repair the destroyed houses. The damage on the County Court House is quite a heavy one. W. G.

FORT LYON, COLO.

THE Kansas City *Times* gives the following list of marksmen, the first to qualify at Fort Lyon, accompanied by their percentages:

Sergt. Ray, Co. A, 10th Inf.—200 yards, 88; 300 yards, 88; 500 yards, 100; 600 yards, 88.

Lieut. Lattell, Co. E, 10th Inf.—200 yards, 84; 300 yards, 84; 500 yards, 92; 600 yards, 92.

Pvt. Linton, Co. C, 22d Inf.—200 yards, 88; 300 yards, 92; 500 yards, 96; 600 yards, 96.

Sergt. Reynolds, Co. F, 22d Inf.—200 yards, 92; 300 yards, 96; 500 yards, 100; 600 yards, 92.

Corpl. Ufer, Co. I, 22d Inf.—200 yards, 88; 300 yards, 80; 500 yards, 92; 600 yards, 84.

This is a good record. Can other posts beat it?

FORT OMAHA, NEB.

THE *Excelsior* of May 28 says:

IN many respects the pleasantest party of the season was that given at Fort Omaha on Thursday evening by Gen. and Mrs. Wheaton, complimentary to their guest, Miss Kinzie, of Detroit. The house was thrown open and lighted with Chinese lanterns on the outside, and a profusion of softer lights added to the scene of brilliancy within. The regimental band furnished the music. The guests were legion.

The Omaha Rifle Club was accompanied this week to Bellevue by several ladies. Luncheon was served during the afternoon, and everybody enjoyed themselves amid the shade of the trees.

NEWPORT BARRACKS, KY.

A VERY pretty hop was given at Newport Barracks, Ky., Thursday evening, May 26, to Miss Bainbridge, daughter of Col. Bainbridge, U. S. A., post commandant, and Miss Milliken, of Washington, D. C., by Mrs. Lieut. E. S. Benton, assisted by the young ladies of Newport. Mrs. Benton, a recent bride, in her wedding dress, received, assisted by Miss Lulu Helm, Miss Bainbridge, and Miss Milliken. Among those present were Mrs. Col. Bainbridge, Mrs. Capt. Thurston, Mrs. Carter, Miss Minnie Stribley, Miss Stella Branch, Miss Nettie Pattison, Miss Nellie Amann, Miss Cora Amann, Miss Eva Hawkins, Miss Mary Neff, Miss Emma Elden, Miss Jennie Abert, and many others. Among the gentlemen were Col. Bainbridge, Dr. Gardiner, Capt. Thurston, Lieuts. Hunter, Spencer, and Benton; Messrs. Price, Ross, Davis, Stiles, Carter, Neff, Hosier, Galway, Howard, and others.

FORT CLARK, TEXAS.

THE Brackett *News* of May 23 says:

The boys of Co. C, 19th Inf., had a good time on the occasion of their having again beaten the post in the annual company skirmish firing. They had quite a pleasant time, and are justly elated at their success, but think under favorable circumstances they could beat their present record. Last year their highest score was 35.32, but this year they beat that with 42.41 highest, and an average of 35.77 for the season. This is the highest score and best average ever made at Fort Clark so far and reflects the highest credit,

not only on the men themselves, but also on the company, Comdr. Maj. C. T. Witherell, who by his untiring zeal and patient labor has brought his company to this state of efficiency of which he is justly proud.

WHAT IS THE SCOPE OF THE ARTILLERY?

To the Editor of the Army and Navy Journal:

JUST at this time the artillery is flooded with proposed plans of reorganization, which differ more or less in minor points, but which seem to tend towards a corps organization, with a chief.

I will venture to say that it has occurred to very few of these manufacturers of schemes and plans, what are the legitimate duties of the artillery? what are its functions? what is its scope?

When the question of reorganization comes up, one officer says: "The ordnance has cheated us out of our birthright. Damn the ordnance! Let us get up a bill which will break them all up; they have been doing our legitimate duty ever since they were organized." So he proposes a bill to abolish the ordnance and create a corps of artillery.

Another man, timid by nature and faint of heart, says: "No, don't attempt that; we mustn't antagonize the ordnance; they are too strong for us, and will surely best us at that game. Let us amalgamate and so get the good will of the ordnance. We will have a corps of ordnance and artillery, the chief of ordnance to be chief of the united corps." So he proposes a bill to accomplish that (as our only salvation, gentlemen!)

Another says: "We artillerists ought not only to construct the guns, but should build the forts, for *we* have to do the fighting *with* the guns *behind* the forts! Now, if we cannot abolish the engineers and the ordnance, let us have a corps anyhow, and after we once get in we will gradually absorb all of those functions." And so he proposes a bill. So it goes on: nothing is accomplished; there is no concert of action.

Now, let us go back to our text: "*What* is the scope of the artillery?"

It appears to me as if we, as artillerists, are very much in the position of surgeons and doctors. The nation is our patient, and a very sick one it is, too.

In our capacity as surgeons we require tools (good ones!) to perform our surgical operations. Do we make them? Not much! But we would be poor surgeons if we didn't know the kinds we needed, their dimensions, their materials and their forms.

In our capacity as doctors, we prescribe the pills and doses, that our patient requires, but do we make them? Not much! The druggist and the chemist do that for us, but we would be wretched doctors if we did not know the *kinds* of medicine required and the amounts necessary to restore our patient to health.

It looks very much as if the engineers and the ordnance, who construct our forts, our guns and our ammunition, are the manufacturers, and druggists and chemists, who make, *and should make*, our surgical instruments and our medicines.

In our proper sphere as artillerists, it seems to me, our duty to dictate to the manufacturers, the *kinds* of guns and ammunition we need, the materials of which they should be constructed, and the kinds of defence our seacoast requires, then let the manufacturers do their proper and legitimate work, and after careful and thorough inspections and exhaustive tests and trials *by the artillery*, let them be accepted or condemned.

To fill our proper sphere requires hard work and hard study, and precious little we have done of it in the last 20 years.

If we are to have a corps, let the chief prescribe a course of study for all artillery officers, and require papers and essays on all professional subjects and the knowledge thus acquired be disseminated through the artillery.

Time and application will work wonders, and the artillery of the United States will take its place as the peer of any like organizations of the world.

FORT MONROE, VA., May 19 1887. REVILO.

EX-SECRETARY LINCOLN.

A NEWSPAPER correspondent, who interviewed ex-Secretary of War Lincoln, reports him as saying: "You will do me a kindness by printing as coming from me the statement that Robert T. Lincoln does not want to be written up in the newspapers. He requests every editor to let him alone, and would be glad if his name never again appeared in the columns of a newspaper. A private citizen should have some rights in this country, and one of these is the right to be let alone by the press. I am practicing law, and doing nothing else and thinking of nothing else. No thought of public office enters my mind. I have no ambition in that direction, and there is no office in this country which I would accept. I have had all the public life I care for. Will you publish this as my sincere, emphatic, and final declaration?" The income of Mr. Lincoln's law firm is estimated at $60,000. It represents an eastern insurance company which holds several millions of real estate in Chicago, a connection which alone is worth to it nearly $20,000 a year. It is said of Mr. Lincoln that he is not too proud to take his hat and go out to look up a tenant or examine a title, and that as an expert in this latter direction he has no superiors and but half a dozen equals in Chicago. He is described as more of a Todd than a Lincoln. "There is one thing about him, though, which reminds me of his father," says Leonard Swett, who was Abraham Lincoln's law partner, "he is rather amiable and obliging and willing to let other people have things their own way up to a certain point, but every once in a while he takes the bit in his mouth without saying a word to anybody and goes ahead quite contrary to the wishes of the fellows who think they are driving. The Army people thought for a time that they were running the War Department when he was Secretary, but it was not long before they discovered their error." Mr. Lincoln lives in a commonplace house on the north side, but is building for himself a $50,000 mansion on the lake shore near Potter Palmer's castle and the Roman palace of Millionaire MacVeagh. He is a Presbyterian and a leading member of the First church in Chicago. He goes but little into society, and has nothing whatever to do with politics. His energies and time are religiously devoted to his family and his profession.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at New York May 29.

A despatch from Washington, May 27, says: "As the U. S. flagship *Richmond* was steaming down the Norfolk Navy-yard to Hampton Roads on the evening of May 26 she went ashore on the Bar off Lambert's Point, and despite the efforts of two powerful tugs to haul her off, she remained ashore all night. Shortly after 3 o'clock on the morning of May 27 she was floated off and proceeded to the Roads to join the *Yantic* and *Galena*."

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Arrived at New York May 29.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at New York May 29.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. At Durbane, Mauritius, May 26.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Rio de Janeiro May 18.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Rio de Janeiro May 18. Comdr. F. W. Dickens has been ordered to command this vessel, and will sail on the U. S. S. *Trenton*.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Was at Villefranche, May 4.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. At Villefranche May 4. Will proceed to Constantinople and other ports. If the Department was to send a crew out to the *Quinnebaug* the cruise would be deferred until autumn. This is likely to be done, as the Department intends to send a crew.

Pacific Station—Rear Adml. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. Intends to cruise with the *Mohican* on coast of Salvador if required by condition of affairs there. At Panama May 17.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Sailed from Guaymas, April 26, for Las Pas, Mazatlan and Acapulco. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francsco, Cal.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama May 17.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. It is very probable that the *Juniata* will be ordered to the Asiatic Squadron. At Caldero April 13, and arrived at Panama May 31.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Was cruising off Salvador ports May 17.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. Cruising in the vicinity of Sitka. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Sailed from Barbadoes, May 26, for Rio de Janeiro.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Payta, Peru, May 24.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama April 22.

Was to remain there till about the middle of May, and then go on a cruise to Vladivostock, Hakodate and several of the northern ports of China.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Left Yokohama, Japan, April 3, in search of American bark *Annie Carver*. Intended to go to Shanghai, and take on board Minister Denby, who wants to visit various consulates in China.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. At Yokohama April 22.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama April 22.

OMAHA,† 2d rate, 12 guns, Lieut. Commander Frank Courtis in temporary command. Comdr. F. V. McNair has been ordered to command. At Nagasaki, Japan, April 22. To proceed to Yokohama about May 1.

PALOS,† 4th rate, 6 howitzers. At Nagasaki, Japan, April 22. Commander Nelson was detached and ordered home March 9, and Lieut. Comdr. J. E. Craig ordered to command.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to Newport, R. I.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Was ordered to leave Newport, R. I., the latter part of this week on her summer cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Was ordered to leave Newport, R. I., the latter part of this week on her summer cruise.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Was ordered to leave Newport, R. I., the latter part of this week on her summer cruise.

On Special Service.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. At Annapolis, Md. Will sail shortly on her summer cruise.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At Navy-yard, Washington.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. Sailed from Washington for Norfolk May 20.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. At Norfolk, Va.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Surveying on Coast of Lower California. At San Diego, Cal., Feb. 10. Mail address, San Diego, Cal.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. Was to leave New London the latter part of May for Fayal, Azores; arrive at that port June 10, reach Cadiz June 21, leave Gibraltar July 6, and reach Madeira July 13. From the latter port she will leave for New London about July 20, and arrive there about August 14.

TRENTON, 2d rate, 10 guns, Comdr. N. H. Farquhar. At Norfolk, Va. Was recommissioned May 16. Will sail shortly for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*. Will probably be assigned later to the North Atlantic station.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. G. C. Wiltse. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic Squadron. Will be completed about July 1.

Chicago—Will be finished at New York. The engines are practically completed, and but little construction work remains to be done. Will be in condition to sail for New York early in June.

Kearsarge—At Portsmouth, N. H., being repaired.

VARIOUS NAVAL ITEMS.

THE naval board of survey contemplates a series of inspections which will occupy several weeks of its time. It is expected that they will survey the training squadron before it departs from Newport. Immediately afterwards the *New York*, now on the stocks at the Brooklyn Navy-yard, and the monitors there will be inspected. The board will then go to Philadelphia to inspect the three ironclads there, and wind up their trip by an inspection of the vessels at Annapolis.

THE members of the Naval Board of Inspection and Survey complain that the mileage allowances are not sufficient to defray their actual expenses. It is proposed now to send the board to Newport to inspect the vessels of the training squadron before they depart on their summer cruise. From Newport the board will visit New York to survey the United States ship *New York*, now on the stocks at the Brooklyn Navy Yard, as well as the iron-clads at that yard. From New York the board will proceed to Philadelphia to inspect the iron-clads at the League Island Navy Yard, and finally will go to Annapolis to survey the vessels at the Naval Academy. This trip, the members say, will cost them not less than $60 each over their mileage.

FAYETTE HUNGERFORD, of Rochester, N. Y., has again brought to the attention of the accounting officers of the Treasury, through Alex. Porter Morse, of Washington City, his claim to recover indemnity for property taken from him at Memphis, Tenn., at the opening of the Civil War. The claim is for $230,000. Of this Secretary Robeson paid $75,000, the estimated value of so much of the property as was removed to Mound City, Ill. The claimant immediately filed a petition for payment of damages to his machinery which remained at Memphis. Secretary Robeson acknowledged the justice of the demand but refused to reopen the case, having a receipt in full. The claim was subsequently investigated by a committee in Congress and again a reopening of the case was refused. Hungerford now brings a claim for a balance of $165,000. It is not likely that the case will be reopened, as the accounting officers have held that nothing can be done in the case unless the Navy Department requests action.

PROF. SUMNER, of Yale College, is designated as a member of the Board of Visitors to the Naval Acanemy.

BIDS were opened in the office of the Surgeon-General on Wednesday to furnish medical supplies to the Navy during the next fiscal year.

THE vessels of the training squadron have been ordered to leave Newport, R. I., on their summer cruise, before the end of this week, but up to this date their departure from Newport has not been reported.

THE new British steamer *Ormuz* lately made the voyage from Adelaide, Australia, to Liverpool, a distance of 11,000 miles, in 27 days, being an average of 17 miles an hour. Coal consumption, only 110 tons per diem. The ship is 465 feet long, 52 feet beam, 37 feet depth, 10,500 tons displacement loaded, 8,500 horse power, boiler pressure 150 pounds, seven boilers. Time occupied in building, nine months.

THE detail office is awaiting a report on the cases before the Retiring Board from Judge Advocate General Remey, before preparing a statement showing the number of vacancies existing for the Naval Academy graduates of this year. The class numbers 32, and there are at present 20 vacancies, not counting the cases of several officers recently recommended for retirement. Those below 25 on the list of cadets seem to have little hopes of securing a commission.

ACCORDING to the Honolulu *Gazette*, the ships of the Hawaiian Navy are to have a special flag. This ensign contains in the centre, on a white background, a gold crown resting on a yellow shield. The shield also contains a white taboo stick crossed by two red kahilis, one representing his Majesty the King, the other the Princess Liliuokalani. Above, below and on both sides of the crown and shield are alternative stripes of red, white and blue, while the borders of the flag are gray.

THE coast survey steamer *Patterson*, Comdr. C. W. Thomas, U. S. N., was at Port Townsend at last accounts. She towed the Navy launch *Cosmos* as far as the Columbia River, when, in a gale, the launch was obliged to make harbor in the river. This launch *Cosmos* rescued Capt. Sawyer, two mates and twenty-two men, of the four-masted ship *Ocean King*, of Boston, which vessel foundered off Cape Gregory on the 8th ult. Ensign J. H. Shipley, of the *Patterson*, had his knee-cap broken by a fall.

THE Navy Department has just published an exhaustive report on a series of tests that have been made to demonstrate the value of anti-corrosive and anti-fouling paints for the protection of ships' bottoms. These tests, which have been going on for two years past, have cost between $8,000 and $9 000 and over 200 samples of paint have been tried. The result as summed up by the Construction Bureau is that pure white zinc is the best paint that can be generally applied to vessels' bottoms, while a mixture of two-thirds red and one-third white is next in order of merit. The paint recommended by the Naval Advisory Board for use on the cruisers came out ninth in the competition.

REPORTS have been received of further practice with the 45-ton guns of Her Majesty's ship *Colossus*, carried out off Malta on April 28. The object was to ascertain the rapidity with which accurate fire could be delivered, the ship being in motion. For the first time in the history of naval gunnery this was tried with heavy breech-loading guns worked entirely by hydraulic power. Great importance was therefore attached to the practice. The ship ran at a speed of eight knots per hour along a measured base distant at the extremes rather over 1,600 yards from the target. The results are said to have been highly satisfactory. The heaviest charge of powder was used throughout, and all the machinery is reported to have stood the test admirably. Several times a gun was fired, loaded again, pointed, and fired a second time in 1¾ minutes, and four charges of the same gun were completed in six minutes. Every gun struck the target, and out of one series of four very rapid shots, no fewer than three struck it.

THE North Atlantic Squadron, comprising the *Richmond* (the flagship), the *Galena* and the *Yantic*, arrived at New York, May 29, after a two months' cruise in the West Indies. The *Richmond* had in tow the disabled schooner *Decatur Oaks*, of Newport, R. I., with which the flagship had been in collision, at an early hour on the morning of May 29, while about forty miles from Sandy Hook and fifteen miles east of Barnegat Light House. But little damage was done on either side, the *Richmond* receiving a few scratches over her black paint and losing a torpedo boom which had been fastened on the ship's side, while the schooner carried away all of her head gear, flying and jib boom and bowsprit. The *Richmond*, at the time of the collision, was bound for Norfolk, Va., and was steaming against a head wind. She had almost passed the schooner, when the latter, seeing the other two men-of-war in the flagship's wake, went about, and before she had gained any headway she ran into the *Richmond*, her head being pointed in the same direction as the *Richmond*. The *Oaks* drifted clear of the warship, and as the night was dark a life-boat was lowered from the *Richmond* and offered assistance to the *Oaks*, but none was needed. The vessels of the squadron are now anchored off Twenty-third street, North River, where they will remain for about two weeks, when they will be joined by the *Dolphin*, the *Atlanta* and the *Ossipee*.

NAVY GAZETTE.

Ordered.

MAY 28.—Commander J. C. Watson, to examination for promotion.

Lieutenant (junior grade) H. Hutchins and Ensign V. S. Nelson, to examination for promotion.

MAY 31.—Lieutenant John C. Colwell, to examination for promotion.

Lieutenant Commander Geo. E. Wingate, to examination for promotion.

Surgeon John F. Bransford, to special duty at the Smithsonian Institution.

Detached.

MAY 31.—Carpenter Joseph E. Cox, from duty at the Naval War College and ordered to duty in connection with the erection of a naval hospital at Widow's Island, Me.

JUNE 1.—Ensign W. L. Howard, from special duty in the Navy Department and granted four months' sick leave.

Surgeon J. Rufus Tryon, from the Quinnebaug on the reporting of his relief and to return to the United States.

Chief Engineer G. W. Hall, from the Yantic and placed on waiting orders.

JUNE 2.—Assistant Engineer J. G. Field, to the Vermont.

Ensign D. P. Menefee, from the Hydrographic Office, San Francisco, June 30, to the Adams.

Ensign J. H. Oliver has reported his return home from the Mohican and is placed on waiting orders.

P. A. Surgeon H. B. Fitts, from the Vermont and ordered to the Pinta.

Assistant Surgeon W. Martin, from the Pinta, on reporting of his relief, and ordered to return home.

Leave.

Granted Commodore W. K. Mayo, retired, for six months with permission to visit the British Provinces.

Captain Henry Wilson, for six months with permission to leave the United States.

Appointments.

S. S. White, of Maryland, and James G. Field, of Virginia, to be assistant surgeons in the Navy.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending June 1, 1887:

Frank McGuire, quartermaster, attached to U. S. S. Portsmouth, died May 23, 1887, at Civil Hospital, Newport, R. I.

Thomas C. Beecher, beneficiary, died May 25, 1887, at Naval Hospital, Philadelphia, Pa.

Michael Lang, second class fireman, died May 25, 1887, at Naval Hospital, Chelsea, Mass.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., June 1, 1887.

AS THE academic year is drawing to a close, the cadets are exercised in different drills daily, to prepare them for their final drills before the visiting board.

On Wednesday last, the last drill at general quarters on the *Wyoming* was held. Exercises had scarcely commenced when rain interfered and the cadets returned to their quarters. On Thursday the different classes were exercised in the boats in which they have received instruction. The First and Second Classes went out in steam launches with Lieut. Leutze in charge. The Third and Fourth were in boats under oars, under the direction of Lieut. Bartlett. When all the boats are on the water together it makes a remarkably pretty drill.

On Friday the battalion was called out and the separate companies went through the evolutions to be given in the prize drill for the flag. In the evening, at 5.45, there was dress parade. This closed the preparatory drills.

The drills in boats, the seamanship cruises and gunnery cruises are all remarkably well done and the work is far better than in previous years. But the artillery and infantry battalions cannot be said to be in good condition, and the cadets seem to fear that their work before the visiting board will not be satisfactory.

The poor work of the infantry battalion is doubtless due to the changes of arms during the year and the consequent changes in the drill. In the fall, the battalion was armed with the cadet rifles. In the spring they changed and used the Hotchkiss repeating rifles. These are heavier than drilling rifles and are not intended for battalion drilling, certainly not a cadet battalion. After several months drilling with these, the arms are again changed to the cadet rifles, and these will be used in the annual drill. It is reported that the battalion will give as a prize drill the evolutions of the companies competing at Washington. These have not been practiced during the year and it will be almost phenomenal to learn these new evolutions in the time remaining.

On Saturday afternoon members of an athletic association of Baltimore came down on a tug and played their annual game of ball with the cadets. This team comes down once a year and, as a rule, the cadet team become sadly demoralized and often lose the game, when their usual manner of playing would easily win it. This year the Baltimore team was stronger than usual, they having secured Middleton, the pitcher of the Pastimes, of Baltimore, and one of the best amateur pitchers in that city. Rain stopped the game in the seventh inning with the cadets at the bat and the score 5 to 5 on odd innings. It was without exception the most exciting game of the season, as the sides had nearly the same number of runs for each even inning. The cadets secured their runs on clean hitting and good base running. Hits by Anderson, Bryan, Snow, Churchill and Long, and a two-bagger and a home run by Robison gave the five runs for the cadets. As usual, the visitors were wholly unable to hit Anderson, only one safe hit being made in the game. He sent four men to bases on balls and hit one man. This, with errors by the catcher, gave them their five runs. The visitors were the best base-runners who have been here this season. The cadets played without a fielding error, and the visitors only made two. On the whole, it was well-played and interesting throughout.

In the evening the officers gave their last hop for the year. It was well attended, and, as the evening was a cool one and pleasant for dancing, the gymnasium looked as it does during the winter season. The many young ladies visiting friends in the Yard and at Annapolis were in attendance.

On Monday the annual examinations for all classes begun and will continue throughout the week. Every evening a dress parade is held. On Saturday the Board of Visitors will be received by the officers of the Yard, by the Marine Guard and by the Cadet Battalion. The programme of exercises has been posted.

On Wednesday evening Miss Loomis, daughter of Paymr. Loomis, gave a party to her many friends in the yard.

Miss Baylor, who has been visiting Mrs. Lieut. Miles, returned to her home in Baltimore on Monday. Miss Davison, recently the guest of Mrs. Wise, left on Monday for Baltimore.

The officers and ladies of the yard will give an entertainment at the house of Mrs. Ensign Holcombe in Annapolis on Thursday evening.

Many friends regret the departure of Lieut. and Mrs. Doyle from the city. They will spend the leave granted Mr. Doyle in Europe. Mrs. Commo. Benham is visiting her son, H. K. Benham, of the second class of cadets.

The examinations for the naval cadets recently returned from their two years' cruise will begin next week.

—

Less than one half of those who reported for examination for admission to the Academy were successful. Six failed physically, two of them being under size. The full number of the successful ones, including J. P. Carter, of Pennsylvania, who was admitted in March, but is counted as entering the present term, was 29. They were as follows:

Charles T. Jewell, of Rhode Island, and T. S. Kellogg, of Washington, D. C., appointed by the President; De Witt Blamer, Iowa; J. P. Carter, Pennsylvania; K. Nire, Empire of Japan; S. F. Consaul, Illinois; C. R. Emrick, Illinois; Charles Allen, Ohio; Van Dyke Todd, Texas; T. F. Maurin, Louisiana; W. L. Waller, Virginia; T. L. Jenkins, North Carolina; Roby Robinson, Alabama; George W. Laws, Iowa; W. H. McGrann and W. N. McKeloy, Pennsylvania; J. K. Robinson, Michigan; T. J. Senn, South Carolina; E. Trickle, Michigan; E. D. Pollock, Ohio; D. P. Ninde, Indiana; W. L. Lancaster, Alabama; A. Althouse, Illinois; J. A. Leeds, Pennsylvania; A. S. McLemore, Tennessee; Harry E. Smith and H. H. Christy, Ohio; R. K. Low, Pennsylvania, and L. H. Gross, Illinois.

Secretary Whitney will deliver the diplomas to the cadets on graduation day. The address to the graduates will be made by a member of the Board.

Naval Cadets Wm. McKay, Thomas B. Slade, H. A. Bispham, A. C. Dieffenbach, Benjamin Wright, Wm. G. Miller, Volney O. Chase, and Glennie Tartox, class of 1881, reported at the Naval Academy for final examination.

The following candidates for admission to the Naval Academy have been authorized to appear before the Academic Board in September next: Sullivan Thorne Sparkman, 7th South Carolina; Robert Lee Flowers, 8th North Carolina; Bim Barnett Bierer, 1st Kansas, and John Curleb, 1st Virginia.

REVENUE MARINE.

Cadets L. L. Robinson, E. H. Brereton, S. K. Smith, and Fred. G. Dodge, recently appointed, have been ordered to report to the bark *Chase* at New Bedford.

Cadets J. E. Reinburg, J. M. Moore, and F. H. Dimmock have been placed on waiting orders.

The steamers *Perry*, at Erie; *Fessenden*, at Detroit, and *Bibb*, at Oswego, have been placed in commission.

The bark *Chase* will leave New Bedford shortly on her summer cruise, and will return before the end of August.

The steamer *Gallatin* has been ordered to New York to receive new boilers, being made by Smith Bros., of Jersey City.

The steamer *Rush* has been ordered to leave San Francisco for a cruise among the Seal Islands.

(Special to the N. Y. Tribune.)

HIS FATHER HAS A VISION OF MURDER.

NEWPORT, May 28, 1887.

HENRY W. CLARKE, of this city, will request the Secretary of the Navy to investigate the shooting of Lieut. Arthur H. Clarke, with the view to ascertaining if his death was by suicide, as reported, or by murder, as Mr. Clarke believes. Mr. Clarke is thoroughly convinced that his son was murdered and relates two dreams as ground for his belief. A few days before his son's death he had a presentiment that two deaths were about to occur in his family. A few days later his wife's mother died, and while they were attending her funeral, his son's death occurred at Panama. Mr. Clarke was disinclined to believe that his son had committed suicide and determined that he had taken an overdose of some opiate to produce sleep, because of nervousness incident to fright caused by a recent fall. Such was his conjecture until that night he had another vision in which he saw a man follow his son till the latter entered a room on the ship, when he saw him fire two shots and saw his son fall dead to the floor. Soon afterward Mr. Clarke received a letter from Paymaster Peterson giving particulars of his son's death which coincided with Mr. Clarke's vision in that the death was by shooting and occurred in a room on shipboard and differing only in the vital point of the person who fired the shots. Mr. Clarke believes fully in his dream, substantiated as it is by past experiences, and considers the fact that his son went below so soon after going on deck to smoke, and went, not to his own room but to that of another officer named Wood, as detailed in one letter received from the ship, a suspicious circumstance. His theory is that the person who committed the deed, whose features he saw in his dream, but did not know, told Clarke, when he went on deck that Wood wanted to see him in his room and this person then followed him, shot him as he entered the room and escaped to another part of the ship before the alarm had spread. Mr. Clarke's belief in murder rather than suicide is strengthened by the fact that two shots were fired, one at the head and one at the heart, which medical experts in the recent Burton murder case in this city declared could scarcely be done by the person receiving the wounds.

In view of these circumstances, Mr. Clarke will ask Secretary Whitney to order an investigation of the matter. The Burton trial, which everybody at first pronounced suicide, resulted in sending two daughters of the dead man and the husband of one to State's prison for life. Mr. Clarke is principal of the Coddington School in this city.

EXIT BOULANGER.

GEN. BOULANGER, on retiring from the Ministry, issued an order of the day thanking those who cooperated with him to place the country's defences in a condition to stand any test, and urging the officers of the Army to show devotion to their professional duties and fidelity to the constitution and laws. In conclusion he says: "I shall be the first among you to give an example of both military and Republican discipline." Gen. Ferron, upon assuming the duties of the War Office, issued an order of the day in which he says: "I count upon the absolute devotion of all, and am confident that the various arms of the service will continue to resolutely progress. The armies which surround us continue to increase in military training, and for us to remain stationary would be a backward step which would seriously imperil the country's interest. Like my predecessor, I shall unremittingly pursue a policy of military reform, and shall devote my whole time to increasing the defensive forces of France and the Republic."

A LARGE audience gathered in Chickering Hall, New York, on Wednesday evening last to attend the seventh annual exhibition of the Berkley School, the principal of which is John S. White, LL. D., who served during the war as adjutant of the 103d Regt., O. Vol. Inf. Gen. Horace Porter served as chairman of the Committee of Judges, and among the prize winners was a son of the late Col. Benjamin, of the Adjutant General's Department, U. S. A., and a son of Mr. J. W. Miller, late of the Navy, who is also the grandson of the late Henry A. Wise, U. S. N.

An illustrated grammar of "Skat, the German Game of Cards," by Ernst Eduard Lemcke, is published by B. Westermann and Co., New York. This is the second edition of this work, very prettily gotten up, and pleasantly descriptive of what the author calls "the national game of cards of the Germans."

T. S. Palmer, "an old warrior," publishes a handy "Guide to the Soldier's Home, Washington, D. C."

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

ANNOUNCEMENT.
TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

While the Company he represents has no superior in the country for security or for liberality in its policies to officers in the Military Service, yet he will be pleased to advise and assist officers who may prefer to place their insurance in other reputable companies. Information as to the standing of the various companies and their relative profitableness for investment he will gladly communicate to those who desire it; also advice as to kind of policy best suited and most profitable to those of different ages.

By this announcement the undersigned hopes that he may serve the interests of his brother officers, enabling them to place their insurance in the most substantial and profitable companies, in a form of policy most advantageous to themselves.

F. A. KENDALL, Capt. U. S. A. (Retired.)

ARMYNAVY.

QUARTERMASTER-GENERAL PIERCE, of Louisiana, in response to an invitation to attend the dedication of the statue of General Steedman at Toledo, Ohio, May 26, wrote: "As a Confederate, opposed to him and his brave followers on many battlefields, I, in common with my comrades, bear testimony to his military worth and talents, and we respect his memory as that of a tried and true American soldier."

THE military novel is going out of fashion, says the London *Daily News*, and "novels about strikes are much more successful than novels about stricken fields. Moreover, war is no longer so fine a theme as it was of old. The game of kings has become the impact of armed peoples. There is no marching and countermarching and loafing in winter-quarters."

ROOM FOR THE SOLDIER.

MR. MONCURE D. CONWAY chose the occasion of his recent appearance before the Military Service Institution to give expression to some Utopian ideas on the subject of arbitration. A clergymen by profession, a litterateur by choice, Mr. CONWAY evidently shares the prejudice against military men and military establishments to which his class incline. This is partly due to the natural antagonism of thought, which results from a difference o training and habit of mind, and partly to the vague suspicion which the civilian mind seems to entertain, that it is the military men who are responsible for war, and that if we could get rid of them, and their ambitions, we should have done with strife. It does not occur to these reasoners to suggest that the doctors are responsible for the disease which always accompanies their profession, or the clergymen for the violations of moral law which necessitates their existence. They are more inclined to suspect that litigation is due to lawyers, which is a corresponding fallacy, but they are absolutely sure that without soldiers we should have no war.

The fallacy of this claim is clearly exposed by "A Modern Soldier," who writes in the "London Contemporary Review" for May. He shows that neither written or traditional history, nor even those older records of the rocks, give any warrant for a belief in an age, past or future, in which wisdom, reason and gentleness shall rule all mankind, and make wars impossible. Certainly, if there is such a golden age it belongs to a future too distant to offer us any guide for present action. In spite of our progress we find such a people as the brilliant French and educated, deep-thinking Germans brandishing their swords at each other across the Rhine boundary. What then are we to expect of semi-civilized States like Russia, or the barbarous tribes which possess so large a portion of the earth's surface? Race antagonisms will continue, and these involve sentiments which cannot be controlled by the expedient of arbitration, except we give war a new and more bloody phase by summoning the world as a sort of *posse comitatus* to enforce the decrees of arbitrators. An illustration of the truth that such antagonisms are largely responsible for hostile feeling is found in the fact that the war between Austria and Prussia resulted in a firm alliance between the two States, while the Franco-German war has been followed by an armed peace which is certain to be broken in the not distant future.

This English writer turns the argument of those who oppose the existence of armies with great ability against themselves. Admitting that war is an evil it remains to be shown that soldiers are responsible for it. On the contrary, "the most terrible and destructive invasions have been those not conducted by regular armies. The hordes of Zenghis Khan, the barbarians who overran the decaying Roman Empire, grown luxurious and unwarlike, the tribes of Central Asia which so long made any civilization impossible, were not regular armies: and if it be said that we should let such people as the Kaffirs, the Zulus, the Sikhs, the Mahrattas, or the Burmese go their own way in peace, the answer is that it is not generals, but merchants, who first interfere with them, and the aggressive spirit which the peace party has to put down is not that of soldiers, but of bagmen. It is somewhat inconsistent to talk of peaceful triumphs of commerce, seeing that every step made by commerce is invariably either preceded or followed by the use of arms. The freedom of the ocean was gained by fighting, and the commerce of the British Empire places its throne upon English bayonets. Armies are not the cause of war, but the regulation of it, and reduction to its mildest terms."

Another fallacy is ably exposed, and that is that the establishment of armies brings a burden of non-producers on to the community. "Every officer whose duty brings him into contact with recruits knows that one of the chief incentives to enlistment is the want of work; and another is the roving spirit which prevents a youth from settling down till he has seen something of the world—that spirit which has moulded the character of the nation and created the vast colonial empire beyond the seas. But supposing it were true, which it is not, surely there is something a little absurd in the supposition that no useful work can be done in a

community except the production of wealth. The London Fire Brigade is no producer of wealth, nor are the police, nor the insurance companies, nor members of Parliament, nor Ministers of the Crown as such; they may be anything in their private capacity, and so may soldiers who happen to be possessed of capital. Lawyers, doctors, parsons are not by their profession wealth-producers; and a hundred other instances might be given of useful persons who are not wealth-producers—some of them not even wealth-protectors; and the soldier can at least claim to exercise that function."

When we come to the rigid tests of usefulness that it is proposed to apply to military men we are establishing a principle which, impartially applied, would result in the destruction of our complex modern civilization, and a return to the primitive conditions in which the ABELS and the CAINS alone would survive—the one the tillers of the field, the other the keepers of the flocks—and even into the Eden where these had their home hatred and killing found place long before the soldier had been invented. Suppose we were to abolish the profession of arms, of what profit would it be to the community to increase the number of brokers howling for a commission in the stock exchange; the number of lawyers struggling for clients and doctors for patients, or even the number of clergymen, multiplying the churches which are not now one-half filled? Every profession, every occupation is overcrowded and the bitter complaint of labor is that of overproduction. While we do not present it as an argument in favor of armies we believe that it is susceptible of proof that the existence of the professional soldier, wholly aside from the question of war, is of benefit to the community, and that the existence of military establishments, in due proportion to the wealth and size of the State, adds to its prosperity. What possible argument can be presented in behalf of the authors, the artists, the lawyers, the clergymen, the men of any profession in short, or traders of any class, as producers which does not apply equally well to the soldier? "Does the soldier live for a short term of years on contributions paid by the community which he protects? The shopkeeper lives all his life on the contributions which he tempts to extravagance." A computation of the enormous taxes levied upon the "producers" by legitimate middlemen of all sorts, who produce no more than the soldier, would make the expense of military establishment seem insignificant. An extra profit exacted by the English butchers of late years is estimated to cost the consumers two hundred millions of dollars a year, ruining the farmers who are the real producing class. And then consider the wealth wasted upon luxuries which tend to create the condition of things which Lord BACON describes, saying: "When a warlike State grows soft and effeminate, they may be sure of war, for commonly such States have grown rich, in the time of their degenerating; and so the prey inviteth, and their decay in valour encourageth a war." The annual production of tobacco is estimated at nearly two hundred millions of dollars ($183,500,000), and the expenditures for wine, beer, and spirits at the enormous total, for the civilized world, of nearly forty-five hundred millions of dollars. England alone expends for drink $493,500,000.

"Suppose," says the writer from whom we quote, "that, by some wonderful change in the minds of men, all strife could be put an end to, and the danger of war vanish. It is not quite certain that unmitigated good would result, unless, indeed, the heart of man could at the same time be changed so as to lose all selfishness and tendency to luxury. War and the preparation for war do most surely develop certain virtues—courage, discipline, self-sacrifice. And the ordinary training of soldiers is directed towards the production and cultivation of those virtues. People who have never taken the trouble to learn what modern soldiers are, may indulge in ideas suitable to the Middle Ages. It does not follow that they are right. The modern recruit is trained to put far from him all violence in peace and all individual violence in war. He is to fight when called upon, and as called upon, but he is never to fight for himself. There is always to be a cause which his country decides to be just or necessary, and for that cause, and for his country, he is to train his body to endure hardship, his mind to sacrifice the natural passions, and act on a sense of duty. The term a 'brutal soldiery' is absolutely inapplicable to him. He is to practice constant self-denial. He is to face pain, sickness, hunger, and thirst, at the call of duty; his very life is not his own; he may neither refuse to give it nor yet waste it; and he must always count it as at the disposal of others. Surely such a training of body and mind is not to be despised, and when one compares the frequent cases of a whole crowd standing by, and seeing a fellow-creature drown because there would be risk in saving him, with the splendid self-abnegation constantly displayed by soldiers, it is impossible to doubt that a little military tone and military discipline would be of more value to the general population than most people think. How often do we read of a ship in danger and the passengers seized with panic, strong men fighting for places in the boats, and letting the weak women and children take their chance? Contrast that with the wreck of the *Birkenhead*, when the gallant fellows put every woman and child into the boats, then fell in on parade and went down with hearty cheers. Who will dare to say that the training which produces such effects is not one which tends to elevate the human race."

"An English writer, who has a child-like faculty for going to the root of things, says of the soldier: 'Our estimate of him is based upon this ultimate fact, of which we are well assured, that, put him, in a fortress breach, with all the pleasures of the world behind him, and only death and his duty in front of him, he will keep his face to the front.' Death and his duty before him, that is the English idea. We do not talk of glory, and are, indeed, sometimes too careless about it; but to accept death for the sake of duty may perhaps be found eventually to be the real sinews of war, the salt which keeps this nation fresh, a better preservative of her honor and liberties than all the wealth which she succeeds in heaping up, and which has so dangerous a tendency to breed luxury and decay." This applies equally well to this country, as does the remark quoted from Lord BACON: "In the youth of a state arms do flourish; in the middle age of a state, learning; and then both of them together for a time; in the declining age of a state, mechanical arts and merchandise."

WE call the attention of those interested in the controversy which has recently arisen as to the proper treatment of steel for heavy guns to the paper by Colonel Maitland, Superintendent of the Royal Gun Factory, Woolwich, from which we give extracts elsewhere. In it he refers to the success attending the application of the Rodman principle by a French engineer, M. Harmet, at St. Etienne. Again Colonel Maitland reaches the conclusion, as the result of exhaustive experimenting, that oil-hardening encourages the gun-maker's worst enemy, internal strains, "and that it is a question of very great moment whether it is worth while to incur the risk of setting up these strains by oil-hardening at all." Finally Colonel M., "from a comparison of thousands of results," reaches the conclusion that the "breaking strain is the datum which is to be taken in testing steel and not the elastic limit about which so much has been said. Colonel Maitland's positions seem to accord with those taken by Mr. W. Metcalf in a paper read before the Am. Soc. Civ. Eng., in March last. Mr. Metcalf holds that oil tempering or any tempering is dangerous, and that the real good of all the operations is gained solely by the annealing. He holds further, and this in direct opposition to Mr. A. M. Howe's views, lately published in the "Engineering and Mining Journal," that the advantage of fine texture supposed to be gained by the hardening process is largely imaginary, because all texture is a direct result of temperature at any temperature below fusion or viscoscity. The difference in grain between two pieces of the same bar, heated to the same temperature, the one hardened and the other not hardened, is so trifling that it is not worth considering, in a large mass like a gun; the slightly finer grain of the hardened piece may be of value in the edge of a razor, but it is certainly of no account in a gun or any structural mass. Mr. Metcalf's idea is to take strong steel to begin with, i.e., steel high enough in carbon to give the strength necessary, and then to anneal it at that temperature which will give the finest and most uniform grain, the most permanent condition, and of course the weakest condition, the weakest being strong enough to do the work required. Annealing is an operation perfectly under control, there need be no hurry about it, and in expert hands there is hardly a possibility of error. After the annealing is completed, the cooling of the interior of a gun can be hastened, making it surely as hard and as fine grained as any hardened annealed piece could be possibly. The cooling of the exterior can be retarded at will, ensuring the shrinking of the outer layers on the inner successively, and so securing the "ideal" rings of compression. Even if one operation is not entirely successful, the gun is not necessarily lost; the gun can be put back into the pit and annealed again and again without detriment to the material, but the built up gun, once built is built to stay or burst. All that is required to ensure this process is a sound casting of the proper composition; let the grain be what it may at first, it can all be brought to what it ought to be by the right heat, and it can be done with absolute certainty. There are just two requisites in Mr. Metcalf's proposition; a sound casting, and a proper constitution; given these, he wants only one force, and that the most controllable, heat. Who will make the casting?

THE 45th annual meeting of the American Society of Mechanical Engineers was held at Willard's Hall, Washington, D. C., this week, May 31 to June 3 About 350 members assembled. Papers were presented and discussed on fifteen professional subjects, among them the following: By H. Ashton Ramsay, proprietor Marine Engine Works, of Baltimore, on "What are the Needs of our Navy;" by Joseph Morgan, Jr., Chief Engineer Cambria Iron Works, Pa., on "National Defence and the Mechanical Problems which it involves;" by Charles E. Emery, Manager N. Y. Steam Co., on the "Limit of Steam Pressure in Marine Engines." The following Naval officers are members of the Society, the majority of whom were in attendance: Asst. Engrs. Frank M. Bennett, Theo. F. Burgdorff, C. A. Carr and F. G. Coggin; Comdr. Wm. M. Folger, P. A. Engr. John D. Ford, Chief Engr. Alex. Henderson, Asst. Engr. Ira N. Hollis, P. A. Engr. David Jones, Asst. Engr. Chas W. Livermore, Engineer-in Chief Chas. H. Loring, Asst. Engr. W. M. McFarland, P. A. Engr. Chas. H. Manning, Chief Engrs. John W. Moore and Wm. L. Nicoll; Asst. Engr. H. P. Norton, P. A. Engr. Chas. W. Rae, Asst. Engrs. Chas. E. Rommell and A. W. Stahl; Chief Engr. Ezra J. Whittaker and Asst. Engr. A. T. Woods. The following members are ex-officers of the Navy Engineer Corps: Wm. M. Barr, Jas. T. Boyd, E. C. Brooks, H. W. Bulkley, Alfred Colin, M. E. Cooley, Chas. W. Copeland, Wm. Cowles, Chas. E. Emery, H. P. Gregory, John T. Hawkins, E. D. Leavitt, Jr.; R. P. Lincoln, Hillary Messimer, Joseph Morgan, Jr.; H. Ashton Ramsey, Sidney L. Smith, Robt. H. Thurston, Jay M. Whitham, George B. Whiting and Wm. C. Williamson. The names of sixty new members were announced at the first business meeting.

SEVERAL changes in college details have been made this week, as will be seen from the orders published in another column. The duty is much sought after and it is a source of gratification that there are so many young officers now in the Service who possess the requisite qualifications, which extend far beyond the mere knowledge of military tactics.

THE young militiamen from Mississippi, who made a national display of bad manners during the drill at Washington, may congratulate themselves that they are a military organization only in name, and are not subject to the strict control which is essential to a genuine military establishment. When colored soldiers were first allowed to wear the uniform of the United States, a company of volunteers in the Department of the South thought the opportunity a fitting one to make a similar display of ignorant race prejudice. They were at once disarmed and sent into banishment to the Dry Tortugas, or some locality equally well adapted to hermit contemplation of one's deeds of omission or commission. The bumptious conduct of the young Southrons and

Zouaves is important only so far as it is significant of the sentiment of their locality; and as to that there is ignorant and enlightened public sentiment in Mississippi as well as elsewhere, and these ill-advised youths simply chose to ally themselves—in defiance of military discipline and manly courtesy—with that local sentiment which has the least title to respect.

BY the courtesy of Adjutant-General DRUM, we are enabled to publish in full this week an interesting report by Lieutenant J. A. SLADEN, 14th U. S. Infantry, as to the operation and management of the regimental canteen at Vancouver Barracks. The report indicates clearly what can be done at our military posts for the moral benefit and daily recreation of the enlisted men if a little time and patience is given to the inauguration and development of the canteen system. In the the British Army the canteen is a fixed institution at each garrisoned post, and we remember, on a visit to Woolwich, several years ago, to have been much impressed with the canteen there, a large, handsome building, with separate rooms for privates and noncommissioned officers, and a large, commodious theatre upstairs at which nightly entertainments of a respectable character, and under the auspices of the commandant and officers of the garrison were given. The sutler, it seems to us, is a relic of the past, and the canteen system, where the profit accrues to those who help to build it up, a necessity of the present. The system, we are glad to note, is spreading as a consequence of its inherent excellence. With proper support by the supreme military authorities, and its operations governed by judicious regulations, it will undoubtedly soon be universally introduced, and prove a moral force productive of more benefit to the enlisted man than any project to that end yet devised.

THOSE officers of the Army travelling under orders, who paid their mileage expenses from their own pockets during the past month, will derive cold comfort from the statement sent out from the Pay Department this week, to the effect that the mileage fund has long since been exhausted and that all officers holding unpaid accounts will have to wait for Congress to provide a deficiency appropriation before they can be reimbursed. It cannot be ascertained until the close of the fiscal year what the deficiency will be, but it will undoubtedly run up into the thousands.

THE Court of Claims on May 31 dismissed the claim of Clarence E. King, an ex-private of the Signal Corps, for an additional allowance for fuel and quarters. No formal decision was rendered, a simple finding of facts being brought to show cause for dismissal of petition. This is the case which has been pending in the hands of the Judges for the past two or three months, and in which a number of signal observers were interested. The claim was for the difference between commutation of quarters and fuel allowed signal observers, and that allowed general service clerks at headquarters of departments in which they served respectively. The chief points at issue are explained by a letter from General Greely, upon which the Court based its findings. He says: "The Secretary of War decided Aug. 3, 1882, that the rate for commutation of quarters for men of the Signal Service will remain as at present, and the rate for commutation of fuel at places where the rate now depends on the market value of the fuel shall be fixed at $9 per month. The construction placed by this office, and by the Q. M. Department, on the decision, was that it maintained in force the rates fixed by G. O. No. 92, A. G. O., 1868. The Secretary of War has, from time to time, increased the rates for commutation for fuel and quarters at certain specially designated stations, on account of the increased cost of living at such stations; but it has never been considered, by this office at least, that the rates as fixed by G. O. No. 41, A. G. O., 1880, were applicable to the men of the Signal Corps."

THE Omaha *Herald*, referring to the chances of enlisted men obtaining commissions, says: "The fact is, the Army and the opportunities in it are so little understood because from the very nature of its services and the locality in which it has to serve are so far separated from the ordinary run and places of American life, that it has become to be imagined and verily believed, that the Army is a closer corporation than a railroad, more tyrannical than an advocate of Irish coercion, and more exclusive, in a social way, than the highest castes in India. On the contrary, the Army, beginning at West Point, is as democratic an institution as this Democratic Government has. Officially, or among the officers, all races and all classes have their representatives. There have been and are negroes wearing shoulder straps in the Army; there have been and are Indians whose heads are topped with an Army helmet instead of a game-feathered war bonnet; and among the Caucasian race there is not a nationality that is not represented in the American Army."

COMPTROLLER BUTLER'S disallowance in the accounts of the late Superintendent of the Naval Academy, of items of expenditure for whiskey, brandy, and other intoxicating liquors furnished the members of the annual Board of Visitors, will subject Captain Ramsay to a loss of from $300 to $500 on last year's account if Congress does not come to his relief. The officials of both the Naval Academy and the Military Academy have been informed that no such items will in the future be allowed. It has also been decided by the auditing officers of the Treasury Department that the law creating the Board of Visitors and providing for the payment of their expenses by the Government does not contemplate or admit of their taking their families with them except at their own expense.

AS Capt. Jones, of the Q. M. Department, is still on duty as disbursing officer of the Signal Corps, the quota of officers for detail, authorized to the Signal Corps, is full, the other four officers detailed being Lieuts. Dunwoody, Craig, Woodruff and Thompson. Our impression was that the detail was limited to the line, so that the detail of a staff officer did not count, but the examination of the last Sundry Civil Bill shows that this is a mistake and no vacancy exists.

ADJUTANT GENERAL DRUM has had prepared and issued a handy pamphlet of 18 pages, showing the organization of his office and the character and distribution of its work in detail, etc. The arrangement, so far as we can judge, is calculated to give the greatest measure of efficiency and promptness with the means placed at the disposal of the Bureau.

ABOUT two thousand members of the Society of the Army of the Potomac are preparing to attend the annual reunion, which will be held at Saratoga on June 22 and 23. Special commutation rates have been arranged over the New York Central and Lake Shore Railroads. The former road will issue tickets at $5.50 and the latter for $5 for the round trip.

THE prospects of all the West Point cadets, who graduate in a few days, for receiving full 2d lieutenancies do not seem to brighten. The list of present vacancies are 36, as follows: One each in 1st, 2d, 3d, 4th, 6th, 10th, 13th, 14th, 16th, 18th, 20th, 21st, and 22d, and two each in the 11th, 19th, and 25th regiments of Infantry; one each in 1st, 2d, 9th, and 10th Cavalry; two in the 4th and three in the 5th Cavalry; one each in 1st and 5th, and two each in 2d, 3d, and 4th Artillery. There are only four other vacancies in prospect, so that 24 of the graduates, in all probability, will be forced to accept commissions as additionals. There are also a dozen or more successful candidates from the ranks to be provided for.

THE Court of Claims has decided that Comdr. D. W. Mullan is entitled to $356.03 as longevity pay under the act of March 3, 1883.

LATE ARMY ORDERS.

G. C. M. at Fort Wayne, Mich., June 7. Detail: Captains George M. Randall, Joseph T. Haskell, Chas. Wheaton and Richard I. Eskridge, 1st Lieuts. Orlando L. Wieting, Stephen O'Connor, Edwin P. Pendleton, William H. Allaire and George D. De Shon, 23d Inf. 2d Lieut. D. B. Devore, 23d In., J. A. (S. O. 113, Div. Atl., June 3.)

Capt. John S. McNaught, 12th Infantry, will report to the Army Retiring Board, Gen. Ruger, president, at St. Paul, for examination.

First Lieutenant Leonard Hood, Assistant Surgeon, is relieved from Hdqrs. Dept. Arizona, and ordered to Fort Huachuca, Arizona, for temporary duty.

Capt. Paul R Brown, Asst. Surg., is granted four months' leave.

GENERAL H. M. BLACK and Captain J. T. Haskell, 23d U. S. Infantry, spent a short season in New York this week on their return journey from Washington to Fort Wayne.

ONE of the most interesting and instructive memorial service sermons, was that preached by the Rev. J. F. Hooper, at the Presbyterian Church, at Kingston, N. Y., on May 29.

COLONEL WATSON C. SQUIRE has been removed as Governor of Washington Territory, and in explanation the Yokima *Signal* publishes a letter from Gen. Holabird, Q. M. General, U. S. A., stating the cost of quarters for troops at Seattle, W. T., and showing that of the total amount of $2,919.53, all but $57.53 was paid to Col. Squire, who is a large owner of real estate at Seattle. The buildings occupied by the troops were the Pacific House and the Standard Theatre, belonging to him.

THE SUNKEN STR. "CONCORD" BLOWN UP.

THE U. S. steamer *Lucerne*, with Capt. F. A. Hinman, Corps of Engineers, U. S. A., returned Sunday evening from a two weeks' cruise in North Carolina waters. During the cruise he blew up the steamer *Concord*, sunk in Pamlico river, just below Washington, N. C., on Feb. 20, 1886. The *Concord* was a wooden vessel, and sunk while on fire, and loaded with cotton. She sunk in eight feet of water, and a great deal of mud over her. Sixty pounds of dynamite and 250 pounds of triple F powder, fired by electricity, were used to blow her up. Seventeen shots were fired before the wreck could be gotten rid of. The wreck was a great obstruction to navigation, and its removal will be hailed with delight by navigators of Pamlico river.

TREATMENT OF GUN STEEL.

WE have already called attention to the very valuable paper on the treatment of gun-steel, read before the London Institution for Civil Engineers, on March 15 last, by Colonel Eardley Maitland, R. A., Assoc. Inst. C. E., Superintendent of the Royal Gun Factory, Woolwich. It is interesting to observe the conclusions Colonel Maitland has arrived at with reference to questions recently discussed at length in this country, it being remembered that these conclusions are the result of careful experiments conducted by a man who has the resources of Woolwich at his disposal. What the lecturer has to say of the value of oil hardening is especially interesting. Its effect upon small specimens is described at length, and then Colonel Maitland goes on to say: "The influence of oil-hardening on the forgings themselves is less active and uniform." A description is given of the effect of forging, and then re-heating at a temperature of 1,450 degs. F., upon the particles of the metal, and we are told that:

"After a considerable mass of metal has been oil-hardened, it exists in a state of internal strain. Three results may follow: The strain may be of such a kind as to weaken the resistance of the structure to the stresses it is intended to bear, and even to determine spontaneous rupture, or it may be of such a kind as to increase the resistance of its structure. Or, annealing may be employed to reduce the internal strains, so as to obtain some of the benefits of oil-hardening without its danger. It is to internal strain of the first kind that the Author attributes the accidents to a 6-in. gun and to a 12-in. gun that some time since created such a scare. The muzzles of these guns were shattered by the firing of a small charge at the first round, after lying idle for nearly two years subsequent to a severe proof satisfactorily sustained. The suggestion is that during this time the particles tended to rearrange themselves in obedience to the internal strains; and in doing so permitted the development of lines of inferior cohesion, if not of positive cracks. The beneficial class of internal strains has been ably experimented upon by a French engineer, Mr. Harmet, of St. Etienne, and he claims a great measure of success, especially with hoops.

"*Generally his principle is much the same as that of the late General Rodman.*"

"He chills the interior only of a hot hoop with water, causing the inner diameter to be intermediate between its original and its heated dimensions; that is to remain larger than it would naturally be on cooling. The exterior cools gradually over the enlarged interior and endeavors to compress it. The strain thus caused undoubtedly confers increased strength, and corresponds to the action of shrinking one hoop over another, instead of disposing the metal in one thickness. The objections to it are that it is rather an uncertain operation; that it cannot be known how far the operation has succeeded; and that in gun-making, recent constructions have the hoops in several layers, and that each layer is so shrunk on, and of such a moderate thickness, that no very great benefit results, even supposing Mr. Harmet's process to be perfectly carried out."

Returning to the consideration of specimens only Colonel Maitland gives a table to show the results of annealing oil-hardened specimens by reheating them to various temperatures and allowing them to cool slowly. "As the temperature rises the effect increases, the hardness and strength conferred by oil-hardening are reduced, till at a temperature of 1,200 degs. Far. the steel approaches the same condition as regards strength as it was in before being treated. The grain of the fracture has, however, undergone a change, having become finer, and the elongation has risen." An experiment was devised for the purpose of testing the effect of treatment on a raw ingot of gun steel without being forged, and the conclusion is "that with good metal a considerable approach might be made by judicious treatment towards the qualities imparted by forging." Continuing, Colonel Maitland says:

"Judging from the behavior of *specimens*, there appears to be a decided benefit to the steel in oil-hardening and annealing, even though the annealing undoes the hardening. With forgings of large size the oil-hardening is far less effective and very far less uniform than with specimens; and it becomes a serious question whether the double process of hardening and annealing acts so beneficially on the steel as to compensate for the risks incurred of setting up internal strain. With very large masses it is not always easy to harden or anneal with regularity and uniformity, and irregular annealing is more likely to cause internal strain than to dissipate it."

At St. Chamond in France where is pursued the most complete system known to Col. M., the forgings are annealed three times—once after forging, once after turning and boring, and once after oil-hardening Means are employed to secure the circulation of the oil during the process of cooling the piece. As the oil becomes heated in one tank, it is raised by pumping to a reservoir, situated on a higher level while the colder oil in another reservoir descends by gravitation, entering the centre of the tempering tank at the bottom, and being then pumped up through the tube to be cooled. After being cooled in the oil bath ten or twelve hours, the tube is returned to the furnace for annealing, which operation is performed at a temperature of from 550 degs. to 650

degs. F., according to the quality of the steel. Admitting all that is claimed for oil-hardening, Colonel Maitland says that he,

"Having seen so many instances of fracture of steel, sometimes spontaneous, and sometimes under stress quite inadequate to produce the result, is constrained to consider that internal strain is the gunmaker's worst enemy—and that it is a question of very great moment whether it is worth while to incur the risk of setting up these strains by oil-hardening at all."

He says further:

"It is claimed for oil-hardening that it raises the breaking strain, and that if does so very materially in the specimen there is no doubt; but in the case of the full-sized forging, this action is very unequal, so that the higher part has to be reduced by annealing and but little advantage is left. The question is: cannot all these benefits be secured by a slight rise in the carbon and manganese?"

In answering the objection that the limit of elasticity is higher in oil-hardened steel, this Superintendent of the English Gun Factory shows a very heterodox tendency to controvert the opinions which it is endeavored to set up in this country as the standard of orthodoxy in matters of gun construction. He says:

"This is true, but it seems very doubtful if the high limit of elasticity is of much value. It may, at any rate, be fairly argued, that with an original low limit of elasticity, the parts of a built-up gun will more readily adjust themselves to support each other, and to meet the required stresses, than would be the case with a gun of more rigid materials having the same breaking-strength."

As regards resistance to erosion and wear of the the bore, Colonel M. tested two barrels of the same quality, one oil-hardened, and one in the natural state, and found that there was practically no difference in the wear. But even if this advantage were established, there would be no difficulty in oil-hardening the liners only. The suggestion is made that "it may prove that the best results are produced by oil-hardening and then removing all the hardening effect by annealing at high temperature." With regard to manganese Col. M. says:

"It has been found that though its strengthening effect is much less than that of carbon, still it does strengthen steel, and at the same time is much less affected by the action of oil-hardening: that is to say, that a steel of high carbon and low manganese is much more affected by hardening oil than a steel of lower carbon and higher manganese, and is much more liable to internal strain, even when the breaking strains are equal. It is possible that by experimenting on manganese or some other ingredient having similar properties, say tungsten or chronium, a steel may be obtained much more certain in quality and much less liable to internal strain than any at present employed. The great point is to take the breaking-strain, and to allow a sufficient margin between it and the working pressure. This may, if preferred, be called working well within the elastic limit, but if the elastic limit approaches the breaking-strain, it will be necessary to work much more within it than if there is a longer range to be traversed between the two points, which amounts to taking the breaking strain as the datum. From a comparison of thousands of results, the Author has formed the opinion that, taking the breaking strain after oil—hardening as the datum, the limit of elasticity in the unhardened state rises with the proportion of manganese; and that the effect of hardening in oil increases with the proportion of carbon, raising both the elastic limit and the breaking-strain more than the higher manganesed steel. It should be remembered that the qualities of steel forgings, oil-hardened in mass, will lie about half-way between those of hardened and unhardened test-pieces."

Colonel Maitland describes the result of experiments instituted for the purpose of reproducing as nearly as possible the conditions of the sudden explosion within the gun tube. The elongations under these tests, instead of being about 27 per cent., "varied from 47 per cent. to 62 per cent." The fracture in all cases was silky and fibrous. With the largest charges of gun cotton tried, giving presumably the most sudden strain, the specimens in several cases broke in two places, the central piece being cigar-shaped. This unexpected result of increased suddenness of strain giving increased elongation, is ascribed "to the metal not having time to make up its mind, as it were, in what spot to break. Under gradual tension, the specimens usually stretch very locally and break at the spot least able to sustain the strain. Under sudden tension, the specimens stretch all over the length of the operative part." Other experiments which are described convinced Colonel Maitland that the remarkable shortness of fracture noticed when a gun bursts, is a false indication of the quality of the metal. The true indication would be obtained by putting together the pieces and measuring the amount of stretch.

Gun steel as used in England, and practically by the other two great gun-making nations, France and Germany, is described as "a ductile material, a test-specimen of which breaks under tensile-strain at about 30 tons per square inch, in soft or annealed state, and at about 45 tons per square inch when hardened by being plunged, at a temperature of 1450 deg. F., into a bath of cool oil. Chemically it contains from 0.25 to 0.5 per cent. of carbon, and from 0.05 to 0.8 per cent. of manganese. Each of these two ingredients adds to the strength of the steel, but in very unequal degrees, the carbon being about seven times as effective as the manganese. In France and Germany the actual specifications and tests differ somewhat from the British ones and from each other, but the quality of steel aimed at is substantially the same, except that the French steel is higher in carbon and tensile strength. The distribution of the carbon and of the manganese in an ingot is, Colonel M. tells us, considerably affected by the conditions of cooling, whether retarded by a brick lining to the mould or by other means. Generally, it may be taken that the parts first solidified represent most nearly the average of the ingot, the carbon and the manganese being caught and imprisoned. In the parts which remain longest fluid, the carbon and the manganese rise, so that the middle of the lower part of the ingot is the softest, and the middle of the upper part the hardest. This is illustrated by this diagram showing the percentage of carbon observed at different depths of a steel ingot:

.24	.28	.24	.30	.28	.23	.26
.26	.36	.64	.50	.57	.38	.27
.30	.39	.51	.78	.49	.42	.30

Mr. Vickers, of Sheffield, has made a number of most interesting experiments on this subject.

FULL OR FINE SIGHT.

To the Editor of the Army and Navy Journal:

IN Blunt's Rifle and Carbine Firing, par. 41, p. 16, the author says: "If the black circle is directly above its proper position, the soldier has taken, in aiming, too much front sight; or if directly below, too little front sight."

In actual firing at a stationary target, the line of sight (passing "over the bottom of the notch of the rear sight" and under the lower edge of the bull's-eye) is, or may be considered, stationary; the axis of the bore of the rifle is movable.

If, then, the soldier raises the muzzle of the piece until he can see the whole front sight, or lower the muzzle until he can see only the top of the front sight, it is plain that the shot will be in the first case high; in the second, low.

We often say: "The full sight throws high; the fine sight throws low."

When, however, we consider the conditions existing in this pointing drill, we find them just reversed.

The axis of the piece is stationary; the target and the line of sight movable.

To take a full or a fine sight the soldier does not alter the position of the muzzle, but raises or lowers his eye; or we might say *his end* of the line of sight. Is it not then equally plain that if the soldier in pointing drill raises his eye and takes "too much front sight" the line of sight will pierce the plane of the blackboard, too low, and the black circle will be *below* and not *above* its proper position.

We should, therefore, say: "*In pointing drill*, the fine sight throws high; the full sight throws low."

An exercise which teaches the recruit in theory, principles diametrically opposed to those of practice, should be abolished. "AN INSTRUCTOR."

A CHALLENGE.*

WILLET'S POINT, March 21, 1887.

To the Editor of the Army and Navy Journal:

IN the issue of your valuable paper for March 19, there appeared an article of some length setting forth and proving conclusively to the writer of said article the inferiority of the Springfield rifle when compared with the Hotchkiss and Lee magazine guns. During the course of his remarks the writer makes the statement that the Hotchkiss rifle never got a fair trial and recommends they be issued for a new test. To use his own wise words, the captain had his "poker," and the lieutenant his "polka," and the post commander something equally important to look after, so that the practical testing of the rifle generally fell to the lot of a sergeant, who was thoroughly ignorant of its complicated mechanism, and, of course, being "thick headed," was totally blind to the splendid results to be obtained by intelligently using said mechanism to the best advantage.

Now, on behalf of aforesaid sergeants in general, and the Springfield rifle in particular, I hereby challenge any representative of any magazine gun in the United States to shoot a series of three matches according to the following conditions:

First match to be as skirmishers, "Blunt's Manual of Rifle Firing" to govern, with the exception that I will allow an unlimited amount of ammunition to be used, but my opponent to use his rifle as a single loader. Second class targets. Of course I will use the Springfield, and as the writer claims the Lee or Hotchkiss can be fired as a single loader ever so much faster than the Springfield, his advantage is apparent. Second match to be as skirmishers, in which I will allow my opponent to use his magazine and all the ammunition he can fire, I still using the Springfield.

In this match, according to the maker of magazine guns, I should be more than discounted.

The third and last match to be shot at a second-class target, distance 500 yds., and at the word of command "Commence firing," the pieces being loaded and at ready, to lie down and fire at will one minute or more as may be mutually agreed upon, my opponent to use all the ammunition he can fire during the specified time; but if he happens to use a gun with a detachable magazine, to be restricted to the use of one magazine, the writer of this challenge deeming it impracticable for a soldier in time of war to carry a machine shop around his person in the shape of detachable magazines.

As I take it there is nothing gained by rapid firing if the soldier misses the object aimed at, the one making the greatest number of points in the aggregate of the three matches to be declared the winner. As there is no question about the endurance or accuracy of the Springfield, only one of rapidity, this is the best opportunity those people will ever get to prove beyond a doubt which is the better rifle, because the Springfield will be at her best. As nearly all gun makers keep professional riflemen for the purpose of bringing out all there is in their guns, it will be easy for them to select their best man so that their rifle can get credit for all that it can do. Now, I have not mentioned any prize to be given to the winner because it is more for a principle than for a prize that I would shoot. Still, if necessary, that could be overcome. The only privilege that I would claim is to be allowed to use a different rear sight from the one now issued, because for rapid firing it is an unreliable affair. This challenge applies especially to the Hotchkiss and Lee guns, after them to any magazine gun now in use.

GEORGE DOYLE,
Sergeant, Co. A, Batt. of Engrs.

* This communication was received in March last, but its publication has been unavoidably delayed.—ED.

EXAMINATION FOR PROMOTION.

To the Editor of the Army and Navy Journal:

MUCH has been written in your columns as to the advisability of examination previous to promotion to higher grades. A graduate leaves the Academy with a large amount of theoretical knowledge, which he has gained by severe and arduous study, but he has not gained there the discretion and practical common sense, which alone will enable him to become a good troop commander. He has not learned there how to treat the different sorts and conditions of men he will meet with in the Army; nor has he learned how to distinguish between the reckless and the utterly bad, the man on whom kindness is wasted, and the soldier who is degraded in his own eyes by punishment and therefore spoilt, by the careless use of the right to punish. Experience, gained right among the men themselves, can alone teach him these things, and experience only can give that subtle sense, which will go so far toward making him a commander beloved by his troop, and a credit to the regiment. If, then, this examination is to become an established fact, it should be a practical, as well as a theoretical, one. It should demonstrate clearly that the officer examined has by his careful attention to the duties required of him in the lower grade, fitted himself to exercise the exalted powers to be given him by promotion.

This brings us to another point worthy of our consideration. Is it fair to the enlisted men of a troop that a young and inexperienced officer should be placed in command of them for any length of time? Let his intentions be ever so good, he will in most cases demoralize the troop, and render the lives of the troopers anything but peaceful. Is it fair, again, to burden a young officer, with a responsibility and command, for which he is suited neither by his age nor by his experience? A careful investigation of this subject would, we are sure, induce the Department to insist that troops be commanded by their captains, whenever it is possible, or in cases, where his absence is absolutely unavoidable, by some experienced lieutenant. Why should not the senior first lieutenant of the regiment be assigned to the commands of troops, left without a captain. This would be satisfactory in two ways, for, while giving the man who would be the next captain plenty of experience, it would give an older, and let us hope, a wiser commander to troops in the absence of their captains. QUIVIS?

THE REPEATING-RIFLE.

To the Editor of the Army and Navy Gazette:

SIR: It is generally believed that the "magazine" or "repeating" rifle now being introduced into Continental armies is a new invention. Your military readers may be interested to learn that this is not the case; but that the arm in question was known more than two centuries ago, as is proved by the subjoined extract from a book of travels in Persia, printed in Paris in the year 1679: "As I knew the inclination of Mahamet-Beg for all kinds of curiosities, I made him a present of an arquebus which fired 18 shots running, loading and priming itself by half a turn of the breech. Mahamet-Beg valued this arquebus at more than a thousand tomans, although he remarked certain defects in the new invention, for which he endeavored to find some remedy. He saw that all the powder which should be expended in 18 charges might take fire at once, and that in this way the arm might do as much injury to him who was using it as to those against whom he wished to shoot. As it is easy to add something to a first invention, and the perfection of things is attained by degrees, Mahamet-Beg—philosophizing on this arquebus—believed he had discovered the way to have one made of the same nature, but which should not injure the man who used it. He communicated his idea to two French armorers in the service of the king, who worked so well according to his instructions that they made an arquebus which produced the same effect as the one I had given him, without any danger to him who wished to shoot with it." I may add that Mahamet-Beg was Minister of the Household to the King of Persia. I am, etc.,

NORWOOD, May 10. H. PHILLIPS.

THANKS TO CAPTAIN KELLOGG.

To the Editor of the Army and Navy Journal:

KINDLY permit us, through your columns, to offer our hearty thanks to Capt. E. R. Kellogg, 18th Inf., for his manly letter of May 8, in defence of Lieut. Merriam, and to convey to the latter gentleman the assurance that we, also, are in cordial sympathy with his expressed ideas upon the subject of target records, and are proud to take stand beside him. It is, indeed, high time that some very foul target linen was washed, and, as it is the accumulation of three years, the public will have to help turn the mangle.

That false marking has been the cause of records that fall little short of miracles seems to us self-evident, but it is not our intention to insult the honest prejudices or convictions of any man, however mistaken we may deem them, and this is written solely in order to place ourselves on record as disbelievers in phenomenal scores.

JOS. HALE, Captain, 3d Inf;
W. E. P. FRENCH, 1st Lieut., 3d Inf.
H. P. MCCAIN, 2d Lieut., 3d Inf.
JOHN W. HANNAY, Captain, 3d Inf.

FORT SHAW, MONT. TY., May 23, 1887.

THE STATE TROOPS.

NATIONAL DRILL AND ENCAMPMENT.

THERE is little to add to our report, last week, of the National Drill and Encampment beyond giving the official list of the standing of companies and organizations as announced by the judges as follows:

1. Regimental (one prize)—1, First Regiment Virginia N. G., the only competing organization in this class.

2. Battalion (two prizes)—1, Washington Light Infantry; 2, Louisville Legion of Kentucky; 3, Fifth Rhode Island.

3. Company (five prizes)—1, Lomax Rifles, Co. B, 1st Alabama; 2, Co. D, 1st Minnesota; 3, Belknap Rifles, Co. B, 3d Texas; 4, National Rifles, Washington, D. C.; 5, San Antonio Rifles, Texas. The following is the order of merit in which the remaining infantry organizations were mentioned: 6, Indianapolis Light Infantry; 7, Toledo Cadets; 8, Washington Light Infantry, Co. B; 9, Volunteer Southrons; 10, Co. A, 5th Rhode Island; 11, Muscatine Rifles; 12, Alexandria Light Infantry, Co. A, 3d Virginia; 13, Sheridan Guards, Co. B, 1st New Hampshire; 14, Walker Light Guards, Co. B, 1st Virginia; 15, Custer Guards, Co. D, 2d Michigan; 16, Fort Wayne Rifles, Co. B, 2d Indiana; 17, Wooster City Guards, Co. D, 8th Ohio; 18, Jackson Rifles, Co. D, 1st Michigan; 19, Louisiana Rifles; 20, Richmond Greys, Co. A, 1st Virginia; 21, Nealy Rifles, Co. D, 1st Maine; 22, Co. C, 1st Battalion, New Jersey; 23, Co. A, 1st Minnesota; 24, Molineaux Rifles, Co. D, 32d New York; 25, Co. A, Washington Cadet Corps; 26, 8th Separate Company, Rochester, N. Y.; 27, Governor's Guard, North Carolina; 28, State Guard, Virginia; 29, Co. A, 1st Virginia; 30, Co. C, 2d Connecticut.

4. Cavalry (two prizes)—No competitors.

5. Light Artillery (two prizes)—1, Battery A, 1st Regiment Indiana Artillery (or Indianapolis Light Artillery); 2, First Light Battery of Wisconsin (or Milwaukee Light Battery). Battery E, 1st Battalion of Artillery of Virginia (or R. E. Lee's Battery of Petersburg, Va.), drew for place and accepted programme, but did not appear for drill.

6. Machine Gun (two prizes)—1, Battery A, Ohio (or Cincinnati Battery); 2, Battery A, Louisville Legion.

7. Zouaves (two prizes)—1, Chicago Zouaves; 2, Memphis Merchants' Zouaves; 3, Keck Zouaves.

8. Cadet Corps (two prizes)—1, Michigan Military Academy Cadets; 2, Maryland Agricultural College Cadets; 3, Bethel Academy Cadets; 4, Peekskill Academy Cadets; 5, Cayuga Lake Cadets; 6, St. John's Academy Cadets.

9. Individual drill (three prizes)—1, Private H. G. Stacke, San Antonio Rifles; 2, First Sergeant Charles F. Conrad, Co. B, Washington Light Infantry; 3, First Sergeant J. B. Wagner, Co. A, Louisville Legion.

Each company was put through 82 movements, the maximum of perfection in each case being 10. The following table denotes the percentage secured by each company:

Lomax Rifles, $5,000	.753
Co. D, 1st Minnesota, $2,500	.736.6
Belknap Rifles, $1,500	.734.1
National Rifles, $1,000	.716.6
San Antonio Rifles, $500	.696.5
Indianapolis Light Infantry	.673.1
Toledo Cadets	.672.6
Washington Light Infantry	.661
Volunteer Southrons	.646
Co. A, 5th Rhode Island	.618
Muscatine Rifles	.613.3
Alexandria Light Infantry	.612.5
Sheridan Guards, New Hampshire	.608.3
Walker Light Guards, Co. B, 1st Virginia	.581.3
Custer Guards, Michigan	.576.6
Fort Wayne Rifles	.570.1
Wooster City Guards	.547
Jackson Rifles, Michigan	.539.5
Louisiana Rifles	.523.3
Co. A, Richmond Grays	.503.3
Nealy Rifles, Maine	.499
Co. C, 1st Battalion, New Jersey	.482
Co. A, 1st Minnesota	.470.3
Molineaux Rifles, New York	.464.6
Co. A, Washington Cadet Corps	.435.6
8th Separate Company, Rochester	.405
Governor's Guard, North Carolina	.367.3
State Guard of Virginia	.249.6
Co. A, 1st Virginia	.244
Co. C, 2d Connecticut	.176.6

The troops, about 2,000 in number, were drawn up in five lines, their centre facing a stand erected in the middle of the broad drill enclosure, upon which Lieut.-Gen. Sheridan and a brilliantly uniformed staff had taken their places. Gen. Augur and staff came on horseback, and remained mounted during the ceremonial. Gen. Ordway, chief of Gen. Augur's staff, formally announced to Gen. Sheridan that the troops were assembled to hear the awards and receive the prizes in accordance with the decision of the Board of Judges. The envelope containing the list of awards, sealed with a ponderous circle of red wax, was then handed by Gen. Ordway to Col. Black, Chairman of the Board of Judges, who in turn passed it to Col. King, conductor of dress parades. This officer rode to a position a few yards in front of the stand, opened the envelope and read the awards, ordering the commanding officers of the winning organizations to the front, in turn, as the several awards were announced.

The first organization called was the Virginia National Guards. The troops left Washington for their homes last Saturday, and the colonel and lieutenant colonel were alone on hand to receive the prizes. Three calf-covered boxes containing the medals were handed to the colonel by Gen. Sheridan, and the large flags, with their oil-cloth coverings, making a comfortable armful, were handed to the lieutenant colonel. All the other prize-winning organizations were in line, and their commanding officers came forward at the word, marched to the stand, saluted, and received from the Lieutenant General the prizes. The cash awards were contained in open envelopes, out of which projected the ends of the newly issued national currency in bills of large denominations.

In addition to the list of prizes announced to be awarded by the Board of Judges, the Executive Committee bestowed upon the 1st Light Battery of Wisconsin a gold medal for proficiency in sabre drill, and a silver medal to the Louisville Legion Drum Corps for proficiency in music and movement. When the commanding officer of the National Rifles of Washington reported in accordance with orders to receive the fourth infantry prize, he was informed that a protest had been entered by the Washington Light Infantry and that the prize awarded to the Rifles would be withheld pending the decision of the Board. The Light Infantry Corps claims that one of the officers of the Rifles was within the enclosure when the drill of a company took place, and therefore had an opportunity to acquaint himself with the movements and general proceedings of the contest, which was against the orders issued by Gen. Augur.

The cadet drill was performed by the Peekskill, N. Y.; St. John's Academy, Va.; Bethel Academy, Va.; Maryland Agricultural College, Cayuga Lake, N. Y.; Michigan Military Academy, and Washington High School boys. During the drill of the St. John's Academy boys it rained in torrents. The favored occupants of the covered grand stand huddled together, screamed a little, pulled up their umbrellas as a partial shelter and looked out at the shadowy forms of the sturdy youngsters in the field. The harder it rained the better seemed to be the drilling. Right and left they wheeled, now almost out of sight, then back at the double quick to the front. The climax was reached and a great sympathetic groan and shudder shook the foundations of the stand when at the word "fire lying down," the lads sprawled face down on the wet grass, and snapped away at nothing as cheerily as though they were so many frogs at play. They were still at it when the rain ceased.

The discipline of the camp was excellently maintained throughout. Not a single case of disorderly conduct was reported, and with the exception of the refusal of the Vicksburg Southrons and Memphis Zouaves, who declined marching in the parade on Wednesday behind colored organizations, not a single act of insubordination occurred. As to the Southrons and Zouaves we may say that "boys will be boys," but they should not be babies and cry when they can't have their own way. Organizations so wanting in the first principles of military subordination should be disbanded.

The chief fault to be found with the average volunteer organization was brought out conspicuously. It is the desire to don the most gorgeous, fantastical and useless uniforms possible—such as towering bearskin caps, epaulettes for the privates, shining brass and resplendent gold lace. These in many instances, interfered with the proper performance of the soldiers' duties, and were the cause of their being rated lower probably by the judges than if they had had an opportunity to go through their evolutions without all that useless toggery.

The judges required each regiment and company to comply rigidly with the tactics, and any variations therefrom, no matter how effective to the popular eye, were scored as bad marks. Of this the N. Y. *Times* says: "Old Army officers recall that at the outbreak of the war one great difficulty experienced with nearly all the militia companies sent to the front was that each State seemed to have its own system of drill which had to be unlearned before the men of different States could be drilled together; and another difficulty was that all the officers who had served in the Mexican War adhered to the old Scott system of tactics, long since superseded by Hardee's. If the result of the late national drill should be to impress upon all the participating companies the necessity in future of complying scrupulously with the regulation tactics and avoiding all showy fancy movements, a much more beneficial object will have been attained than any that has heretofore been brought forward in this purely speculative venture, and the enterprising gentlemen whose pockets will be depleted by this undertaking will have the satisfaction of knowing that they have conferred a patriotic benefit on the country at large, which perhaps may entitle them—who knows?—to Congressional consideration. The *Critic* figures as follows on the result: Expenditures, including prizes, $60,000; receipts for privilege and admission, $30,000; amount paid in on guarantee fund, $25,000; amount to be assessed on subscribers to the guarantee fund, $5,000; total, $60,000, showing an estimated loss to the promoters of the enterprise of $30,000."

DECORATION DAY PARADE IN NEW YORK CITY.

THE clouds which overhung the horizon when Monday, May 30, broke on New York City, dressed in her holiday attire, and threatened to drench those who turned out to celebrate the day in orthodox fashion, rolled by without doing the least harm. The consequence was one of the most comfortable, smoothest parades we have had in years. Neither dust, nor rain, nor oppressive heat hampered the soldiers in the performance of their solemn duty, and heaven's favor reflected itself in the marching and bearing of the men as organization after organization filed past. Interest in Decoration Day is by no means waning, and the crowd which turned out to see the procession was as dense and enthusiastic as ever. Both stands at the reviewing point were packed to repletion, and the cheers which greeted the marching column as incessant and hearty as ever. The plan to dismiss the parade at Fourteenth street is commendable. The march to this point is sufficiently long to answer all requirements, while those who are engaged in it are neither worn out so as to be disabled for the rest of the day, nor do they lose the opportunity to spend a portion of what is a holiday for all in a manner satisfactory to themselves. The latter was invariably the case when the march was prolonged way into the afternoon under a broiling sun or in drenching rain.

A depression in the pavement, about 5 feet wide and from 3 to 4 inches deep, caused by the tearing open of the street by some corporation, and which ended in a mud puddle just in front of the reviewing stand, rendered the keeping up of a straight, solid alignment a difficult matter. The larger companies had barely space to pass between the two stands, and this space was still more reduced by the lines of guards and police stretched along the street, and which on this occasion seemed to be still further advanced than usual. The stands should be built so as to give plenty of room, as well as to obviate the change of direction, always necessary at this point. Slight as it is, it interferes with the marching, and only by the closest attention can the lines be prevented from breaking. The guard this year was furnished by the 7th Regiment, under command of Lieut. Tackaberry.

They were spared the disagreeable duty of collecting tickets and taking charge of the stands as was customary in former years. The Grand Army looked after these matters, which is as it should be. The duty of an usher hardly harmonizes with that of a soldier. The Guard were neatly gotten up, their helmets, belts and trousers looked their whitest, and their buttons and trimmings their brightest. When they began their work they showed a tendency to walk their posts in the old automatic style, all walking in the same direction and facing about at the same time. This, however, has been decided against by Lieut.-Gen. Sheridan, and Lieut. Tackaberry, who was aware of this, corrected the matter in the beginning, and from that time all passed off correctly.

The review was taken by Governor Hill, of New York, who, with his party, in carriages, was escorted to the stand by the Old Guard. In the Governor's carriage was Major-Gen. Josiah Porter, Adjutant-General of New York. The next carriage contained Brig.-Gens. D. D. Wylie, Chief of Artillery; J. D. Bryant, Surgeon-General; J. M. Varian, Chief of Ordnance; and Charles F. Robbins, General Inspector of Rifle Practice. Gen. W. T. Sherman, U. S. Army, wiry, slim, with snow white hair and beard, but full of vigor, was in another carriage, in civilian dress, and as the hero ascended the steps to the platform he received an ovation which rivalled that of the Governor in heartiness. There were besides Col. H. C. Hodges, of the Q. M. Dept., U. S. A., in uniform, and other civil and military people of note on the reviewing stand, altogether a very distinguished party. The escort was the only dilapidated looking feature of the occasion. The Old Guard which, of course, never surrenders, nevertheless seemed to have died to a considerable extent on this occasion. There were scarcely enough of them in line to make a decent escort at a corporal's funeral. What there was present was all band, bearskin hat and abdominal protuberance, but numbers were sadly wanting. An Old Guardsman leaves too large a vacancy to disappear unnoticed. Therefore, the absence of so many was extensively commented upon, and malicious people on the stand said that those who were not in line were rendered *hors du combat* in an engagement in Connecticut the day before. Of course, this explains the matter.

We have on some former occasion referred to the subject of escort duty on reviews of this kind, and we now repeat that the Old Guard is not the proper body to perform that service. If the President of the U. S. reviews the column he should be escorted by a detachment of his own troops—the Regular Army—and if the Governor of a State is the reviewing officer a detachment of *his* own troops—the bona fide National Guard—should conduct him to the reviewing point. To have this service performed by a band of toy soldiers who cannot even perform the manual of arms in decent style, and who failed to turn out respectably, in a numerical sense in this case, is absurd and should be discontinued. In making this statement we reflect the opinions of the best element of the active National Guard, who for years have been dissatisfied with the practice now existing.

The parade of the troops was rendered somewhat less gorgeous by the absence of two Generals and their brilliant staffs in consequence of last year's reorganization of the Guard. Where formerly appeared one Major-General and two Brigadiers, one Brigadier had now to answer the purpose. The column, therefore was less brilliant, but infinitely more simple. Simplicity, however, is military, and, therefore, the change is a gain rather than a loss. The troops had all arrived in their places in proper time and there was no delay in starting the column. The sight was imposing, as the solid forest of glittering bayonets, white helmets, and bright plumes filed down the hill from the upper part of 5th Ave., and without interruption or break they reached the reviewing point. Brig.-Gen. Louis Fitzgerald and his staff were splendidly mounted and rendered their salutes in superb style. Their steeds seemed to comprehend the requirements of the situation and marched past the reviewing point in a manner worthy of old soldiers. None of those attempts to show superior horsemanship, so alarmingly frequent on reviews of this kind and where the rider usually gets the worst of the struggle between man and beast, were made. The applause of the crowd was, therefore, well deserved.

The 7th, as usual, marched at the head of the line with Col. Emmons Clark, one of the most soldierly figures of the parade. The regiment was divided into 20 commands, which reached from curb to curb, scarcely able to pass between the two stands. The marching of the men was superb and it would be a difficult matter to state which company excelled. The turnout was great in numbers and magnificent in general appearance. The regiment never looked better.

The 69th Regiment surpassed its record in numbers for years past. Twenty commands of 16 files is a turnout of which any regiment ought to be proud. The men marched like veterans, and a better looking turnout has seldom passed the reviewing stand. There is, however, a drawback, and that is the awkward manner in which some of the company officers rendered their salutes. The Field and Staff were excellent, as usual, but Col. Cavanagh deserves severe censure for allowing men to take command of companies in his regiment who handle their swords like crowbars, who walk like bogtrotters, and whose whole bearing should debar them from controlling men. This is a perpetual trouble with a regiment which could otherwise take rank among the best in the Service. An officer need not be a dude, but to be efficient he should at least be able to handle his sword, which is his weapon of defence, with as much skill as the enlisted man is required to handle and fire off his musket. The 69th has improved very much of late, so far as its enlisted material is concerned. The colonel should now look closer after his officers. How men of the calibre of some of those in this parade passed the Examining Board, is a puzzle.

"Small, but neat" was the general verdict which greeted the 8th Regiment, Col. Geo. D. Scott, as it passed with eight commands of 14 files front in State service uniform, with white trousers and white helmets. Of course, the alignments and distances were perfect, and the general appearance of the regiment showed a decided improvement over their last parade. Many recruits, who have joined since the regiment left its old quarters, were not in rank, but the fact that the organization paraded with larger numbers than at the last turnout, shows that the new armory is doing its work. Under the circumstances it was a highly satisfactory turnout.

The 9th passed with nine commands of 16 files. Their flags showed the highly meritorious services which the regiment rendered during the war. The blanks necessary in the rear ranks to make proper company fronts speak louder than any oration could in the direction of the necessity of a proper armory for an organization whose claims, on account of gallant war services, can scarcely be surpassed by any other organization.

The 12th Regiment, which, under the command of the lieutenant colonel, followed next, deserves special recognition. Its most distinctive feature was that it was dressed in the State Service uniform as it is issued, without additions or detractions. The regiment honored the uniform and the uniform honored the regiment. The latter looked like soldiers, every man and every inch of them. There were ten commands of 20 files without blanks, "a regiment which can be relied upon," and the marching of the men, and the bearing and action of the officers, showed that they were all well drilled and up to all requirements. The marching of

the rank and file and the bearing of the officers were not surpassed in the column.

The manner in which Col. E. A. McAlpine led the gallant 71st past the reviewing stand made everybody who is acquainted with the matter sorry that he is going to leave the regiment. Some of the horses had too much spirit for the young bloods of the staff who attempted to control them, but the regiment passed in good style with ten commands, with fronts varying between 16 and 20 files. The regiment looked handsome, but it could have made a better impression if the shoulder scales and white belts had been kept at home and the plain State dress substituted.

The 11th, under command of Col. Stewart, with the assistance of Lieut.-Col. Walton and Major Jones, is improving rapidly. It is a long time since this regiment could turn out 10 commands of 14 files as they did on this occasion. The transformation into an American uniform has wrought a wonderful change for the better in this organization and the regiment never looked better for years than it did on this occasion. The most remarkable feature about them is that while they want more spacious quarters than those now occupied by them, they prefer their present location to any uptown site, which will leave at least one regiment in the downtown district if occasion for the use of troops should arise.

The 22d divides with the 7th the honor of being the best regiment in the Guard. It maintained its place on this occasion manfully. A finer lot of officers and men scarcely ever passed the reviewing stand. They had 12 commands of 16 files and their marching could not be surpassed. Every man showed that he was fully instructed in the duties of a soldier, that he thoroughly appreciated the responsibility of his position, and that in time of need the confidence of the community in the organization would not be misplaced.

Now came the batteries. Capt. Earle's 2d Battery made a better appearance than ever. In addition to the four Gatlings, two field pieces have lately been secured, and, as the command has a full, well drilled personnel to man all the pieces, it looked imposing. With proper mounts (which cannot be secured under the circumstances) this battery, so far as instruction is concerned, would rival any battery in the Regular Service.

The 1st Battery, Capt. Louis Wendel, which is entirely armed with field pieces, passed a handsome inspection with the drawback of unserviceable mounts in several cases.

Many people did not know that "Jack Tar" could make as good a show on dry land as on his native element, but the marching of the five companies of sailors, who formed the rear of the brigade of bona fide troops and the management of their commanding officers convinced all to the contrary. Their marching, and the action of the commanders of the Naval Brigade, were equal to the best in the parade, which was the finest seen in many years.

(Correspondence of the Army and Navy Journal.)

NOTES FROM THE NIAGARA.

BUFFALO, N. Y., June 1.

THE annual inspection and muster of the 74th Regiment was held at its armory on Virginia street, Wednesday evening, May 25. Of the rank and file, 343 answered present to their names, which, together with 17 of the field and staff officers, made a total of 360 men—95 per cent. of the command. The manual was well executed, and the dress parade was especially good. Cos. B, E and F turned out 100 per cent. of their men. Of Co. F, Assistant Inspector McGrath said after the inspection: "You have a keen, sharp-looking company, I wish there were ten such in the regiment."

The 65th Regiment had their inspection the following night, May 26. The regiment mustered 80 per cent. of its men, 357 being present, and 87 absent. None of the companies turned out all of their men, Co. F doing the best, with two absentees.

The 42d Separate Company, of Niagara Falls, were inspected Friday afternoon, May 27. There are 102 men in the company, and 90 were present. The 42d was organized in November, 1885, and armed and equipped in May, 1886. The company, as is usual with most of the separate commands, has a superior membership. The "best" men of the town belong to the company, and there, it may be said, that it is a credit as well as a benefit to be in the militia. A new armory has just been completed for them and will be opened on the evening of June 7. Gen. Doyle and staff will be present, and the occasion will be a notable one for Niagara Falls.

"I am very glad to say," said Assistant Insp.-Gen. McGrath, "that in the case of both of the Buffalo regiments, there has been in the inspection and muster a great improvement over that of last year. The general appearance of the 65th, its uniform and equipments, are so much better than that in 1886, that if the improvement were to be computed by percentage, 1000 per cent. would not be too high. Niagara Falls has an excellent company, with that rare feature, three good officers, Capt. C. B. Gaskell, 1st Lieut. L. W. Pettebone and 2d Lieut. M. B. Butler. The orders of the two lieutenants are perfect. The village and the people of Niagara Falls have every reason to be proud of their company."

In accordance with the new decision of the War Department at Washington, and in obedience to orders issued to the New York State militia, the 65th Regiment and the 42d Company, after the execution of the inspection arms, brought the hammer to full cock, these instructions being intended to apply to the Springfield rifle, with which the Regular Army is armed. Upon receiving the piece, the hammer is lowered to half-cock. This is as near the instructions as the Remington rifle will allow. The 74th Regiment handled their pieces in the inspection in the old manner, adapted for the arms with which the State National Guard is supplied.

Sunday night, May 29, the 65th Regiment, upon invitation of its chaplain, the Rev. John W. Brown, attended service at St. Paul's, the Cathedral Church, of the Episcopal diocese of Western New York. The music was grand and impressive. The regiment marched to the church headed by Plogstead's full band, which played in the church, together with the great organ, the Chancel organ, and the surpliced choir. The whole harmonized very well, considering that no previous rehearsals had been held.

On the same night the 74th Regiment attended divine service at St. Luke's, the Episcopal Church of the chaplain of the regiment, the Rev. Walter North. At both churches good sermons were heard.

Monday, May 30, being Decoration Day, both regiments were paraded as escorts to the Grand Army of the Republic. The 74th turned out 273 men and the 65th 294 men. The day was oppressively warm. After the parade, the 74th marched to their armory and were dismissed. The 65th were sent to the "Front," a part of the park system overlooking the lake and river, and drilled in skirmish movements. Forty rounds of cartridges were distributed and a sham battle was fought. A skirmish line was sent out against an enemy invisible in war and invincible in peace was driven in, and then the whole regiment went out bravely to the rescue.

The drill season in Buffalo is nearly at an end. Some of the ambitious companies will go to the Park in June for skirmish drills in heavy marching order, but the majority will stack arms until fall. EXTREM.

MILITIA ITEMS.

Captain Robert D. Selden, late of the 5th Maryland, has accepted the office of Major and Commissary of Subsistence on the brigade staff of Gen. Stewart Brown.

The Brooklyn (N. Y.) *Daily Times* says; "If the opinion of the members of the 23d Regiment, as expressed at the armory May 27, is a forerunner of the action soon to be taken by the Council of Officers, Col. John N. Partridge will be the next commanding officer of the regiment. While all the other candidates for the position have gradually lost ground, Col. Partridge has not only held his own, but the number of his friends has been steadily increasing and he is to-day stronger than he ever was before. Gen. Barnes is considered to be out of the race, and even some of his warmest supporters admit now that he would not accept the position if offered to him. The name of Lieut.-Col. Bacon has again loomed up during the past few days, but his candidacy is advocated only by a few, owing to the positive declaration made by him several weeks ago that under no consideration could he accept a nomination as the successor of Col. Chas. L. Fincke."

Cappa, with his 7th Regiment band, is helping celebrate the Queen's jubilee in Quebec, and *Le Courier du Canada* exhausts the resources of the French language in the attempt to describe the performance. As every National Guardsman reads French as fluently as he does English, we will not stop for a translation. *Le Courier* says: "La fanfare du 7ème régiment est tout simplement étonnante. Les instrumentistes qui la composent sont tous d'une force extraordinaire. Le premier cornet, la première clarinette, la flûte, le piccolo, en un mot presque tous les principaux musiciens de fanfare sont des artistes. Ils sont secondés par des exécutants de premier mérite. Fondez tous ces talents divers, et mettez-les sous la direction, savante d'un chef d'archestre comme Cappa, et vous avez un ensemble d'harmonie et de perfection musicale dont l'effet est intraduisible. Rogers, le premier cornet, est prodigieux. On murmurait hier soir, le nom de Libérati. Nous n'entendons pas faire un parallèle. Mais il nous semble que si Libérati a peut-être plus de sonorité, plus d'embouchure, Rogers a plus de souplesse, plus de variété. Signor Norrito joue du piccolo d'une manière ravissante. En fermant les yeux, on aurait juré entendre les modulations, les trilles harmonieux d'un rossignol. C'était vraiment un enchantement que de prêter l'oreille à cette musique exquise."

Mr. W. C. Boylan is a partaker in the joy of the winners of the first and second company prizes at the Washington Drill, as their uniforms were made by him. The New York *Sun* especially commends the uniforms of the Lomax Rifles.

NATIONAL RIFLE ASSOCIATION.

THE first of the series of monthly matches of the N. R. A. took place at Creedmoor on Saturday, May 28, being the Qualification and Marksman's Badge Matches of 1887. The attendance was very good despite the stormy weather, which was very favorable for the competitors, some excellent scores being made. Following are the best scores, the seven first scores being the winners of the match:

	200 Yards.	500 Yards.	Tot.
John F. Klein, 17th Sep. Co.	23	25	48
T. Mahoney, Co. E, 12th Regt.	21	24	45
J. D. Burtiss, 17th Sep. Co.	20	24	44
Geo. L. Fox, 2d Brig. Staff	20	24	44
G. S. Scott, Jr., Co. A, 23d Regt.	21	23	44
W. A. Stokes, Co. I, 23d Regt.	21	23	44
R. McLean, Co. K, 7th Regt.	22	22	44
S. W. Merritt, Co. B, 7th Regt.	20	23	43
Richd. Oliver, Staff, 23d Regt.	21	22	43
H. Graff, Co. B, 23d Regt.	21	22	43
C. F. Robbins, Staff, S. N. Y.	21	22	43

The dates of the next matches are June 11 and 18, and July 4.

RHODE ISLAND.

THE four infantry battalions were consolidated May 27 by order of the Governor into two regiments of infantry and two separate companies additional, these latter being the former colored battalion.

ANSWERS TO CORRESPONDENTS.

M. J.—The Service rifle, latest model, is the Springfield, calibre .45.

Boston.—Write to the Adjutant and Inspector of the U. S. Marine Corps, Marine Barracks, Washington, D. C.

Constant Reader asks: Which nationality predominates in the U. S. Army? ANS.—Native-born Americans.

Subscriber.—Lieut.-Col. W. F. Drum, 12th Inf., is on duty as Inspector-General, Department of Arizona, with station at Los Angeles, California.

J. T.—Write to the commanding officer, National Armory, Springfield, Mass., as to practicability of purchasing a Service rifle, cal. .45 (latest model), with cost, etc.

Rex.—You can enlist at any of the recruiting rendezvous, as landsman, if you are of age and not over 25. Boston or New York would probably be your nearest station.

Maritime.—Par. 73 of the Regulations is not a dead letter so far as we are aware. In the case you mention the officer will have served with his regiment two years June 15 next.

A. A.—If there has been but one appointment as Post Q. M. Sergeant from your regiment, it is quite likely that a successful applicant from it will be appointed when a vacancy occurs.

X. Y. Z.—The Hospital Stewards will receive on the June muster the increase of pay from March 1, allowed by law. Efforts are being made to have some change in the uniforms of Hospital Stewards, but there is nothing definite as yet.

S. F. H.—The Regulations prescribe that retained pay may be withheld on discharge by reason of "repeated trials by court-martial and punishment for misconduct, of which timely report shall be made to the War Department, and approved as basis of forfeiture."

U. S. N.—Apprentices are eligible to promotion as petty officers, and under Section 1,417, R. S., preference in appointment as warrant officers is given to seamen who served an apprenticeship. The petty officers who receive $60 per month, are masters-at-arms, equipment yeoman, apothecaries, paymaster's yeoman and engineer's yeoman.

J. H. McL.—See answer to "Ignorance" in JOURNAL of Nov. 13, 1886, p. 317: "A soldier does not forfeit his citizenship by enlisting. He is still entitled to vote where he has a 'residence.' If he came from New York, for instance, he may vote in New York, if he can get home on Election Day. If he came from New York City his living on Governor's Island would not deprive him of his right to vote in New York City. If he came from Louisiana he does not acquire a residence in New York with right to vote by serving on Governor's Island. A man does not forfeit his 'residence' by enlisting.' If a minor, his residence remains that of his father or guardian."

Military Order of the Loyal Legion.

At a meeting of the Kansas Commandery, June 2, the following were balloted for: Capt. Clark Gray, U. S. V.; W. M. Leeper, L. J. Webb, and G. H. Anthony. The following are the officers for 1887-88: Commander, Gen. Charles W. Blair, U. S. V.; Senior Vice, Capt. Merritt H. Insley, late U. S. A.; Junior Vice, Col. Chas. Page, U. S. A.; Recorder, Col. Jas. P. Martin, U. S. A.; Registrar, Col. James H. Gillpatrick, U. S. V.; Treasurer, Capt. Lafayette E. Campbell, U. S. A.; Chancellor, Col. Thomas J. Anderson, U. S. V.; Chaplain, Col. James L. Abernothy, U. S. V.; Council, Major Geo. T. Anthony, Gen. John A. Martin, Capt. James A. McGonigle, Col. Augustus C. Van Duyn, and Gen. Charles Candy, U. S. V. The Commandery now numbers 128.

A special meeting of the Wisconsin Commandery is to be held at the Sherwood Forest House, Green Lake, on Saturday, June 4, to the entertainment connected with which the wives and daughters of companions are invited. A good time is expected.

(From the Washington Critic.)

SHE (witnessing the play of "Ten Nights in a Barroom")—How dreadfully awful it is. Don't you think so, Jack?

Jack—It isn't half as bad as ten barrooms in a night.

THE NEW AND THE OLD.

THE London *Daily Telegraph* referring to obsolete war vessels, and comparing the old *Victory* with the new *Victoria*, says: "Her Majesty's new and irresistible namesake needs for her company only 550 officers and men, contrasted with the 850 of the old *Victory*, such is the help which modern machinery and hydraulic engines have lent to sailors. Nor is it to be doubted that this diminished equipment of blue jackets—from which we must further deduct 110 who are engineers and stokers—contains 'hearts of oak' as stalwart, dutiful, skilful, and valiant as Nelson's sea lions. They live, however, a different life upon the water, and, if naval battles ever ensue, the conflict will prove short, sharp, and awfully decisive, what with underwater warfare and the awful force of extant gunnery. It has to be recorded of the noble ironclad just launched that, when fully provided with coal, she will be able to run 5,000 knots without a break, which should suffice to take her wherever the interests of the flag demand."

THE GATLING IN ENGLAND.

THE *Engineer* says: "Sir W. Armstrong and Co., are the English makers of the Gatling gun, which may be described as a machine rifle. It possesses a positive automatic feeding arrangement, and the whole mechanism of the gun is simple and trustworthy. The gun is ten-barrelled, the barrels being grouped around a central spindle. To the breech end is affixed the feed drum, containing 104 cartridges; and on turning the handle these are successively forced into the cylinder of the gun, which contains the mechanism for pushing them into the barrels, firing them, and withdrawing the empty cases. The gun can fire from 800 to 1,000 rounds a minute, at any angle of elevation or depression. The total weight of gun and stand is 1½ cwt. The gun is either placed on a stand on the bulwark of a ship or boat, or is adapted to service in the field by means of a travelling carriage and limber. A special form of field carriage has also been designed, which enables the gun to be fired while on the move, an important advantage in many instances. It is specially claimed for this machine gun that its feed does not depend upon gravity, consequently the gun can be fired in any position without affecting the feed—vertically if desired. This is important in a mitrailleuse proper, which it may be desirable to thrust into any corner and bring to bear downward and upward at the extreme angles in ditches of forts, and at boats in sea service."

THE "BELGIAN COCK-PIT."

THE Belgian committee on the proposed fortifications of the Meuse conclude that the present fortifications at Liège, Huy, and Namur can no longer resist modern artillery. If the line of the Meuse were well fortified and defended, the attempt to traverse Belgian territory would offer no advantages to a belligerent, and would therefore no longer have to be apprehended. Of the twenty-six bridges across the Meuse, seven only would remain unprotected by the proposed works, and these seven are for the most part on roads of little strategic importance. They are provided with mining chambers, to be blown up if necessary. All the Generals were consulted, and they voted unanimously in favor of the different points of the present project, and consider that the military and political interests of Belgium necessitate the immediate construction of all those works. Liège is to have six large forts and six small ones, Namur five large and four small, the old citadels in both cases being disarmed and used henceforth only as barracks, magazines, and stores.

CENTURY OF LA PEROUSE'S BIRTH.

THE French Geographical Society is, says the Hampshire *Telegraph*, making preparations to celebrate in a solemn manner the centenary of the death of LaPérouse, the navigator, though it is impossible to fix the day or even the year in which LaPérouse died. In 1785 he was despatched to the Eastern and Southern Seas on a vague mission of discovery. He sailed from Brest with two frigates, and reports were received from him in due time from Chinese and Australasian waters. But after 1788 he and his frigate disappeared as mysteriously as Sir John Franklin and the *Erebus* and *Terror* sixty years after. Expeditions were sent in search of him but in vain. Ultimately, in 1827, the wreck of the frigate was discovered in Vanikora Island, on the New Hebrides group, and in the following year a French Captain who visited the island brought home the report that LaPérouse and his frigates had been wrecked there, probably forty years before.

TORPEDO-BOATS.

IN the *Temps* we find some observations on the cruise of Admiral Brown's torpedo division. It appears that Nos. 27 and 28 were so much damaged during the trip to Algeria that they have been paid off, and four other torpedo-boats are being repaired. Should this continue, says the correspondent of the *Temps*, there will soon remain no more torpedo-boats of 33 metres attached to the experimental squadron, and we shall wear out a flotilla worth some £200,000 all to no purpose. The writer contends that these torpedo-boats were not intended for the high seas, but merely for roads. The *bateau canon, Gabriel Charmes*, is a complete failure. This craft, 41 metres long, and armed with one heavy piece, left Toulon the other day for practice, and went and blazed away, at 1,000 metres distance, at a little island 200 metres long, without once hitting it, so unstable was the platform rendered by the motion of the waves, which do not appear to have been running very high.

The *Army and Navy Gazette* says: "The torpedo-boat manœuvres off Portland resulted in a couple of disasters. Nos. 43 and 66 collided; the former was very much knocked about in the bows, the latter, a stronger built 'Yarrow' craft, being but slightly damaged. This accident is attributed to the comparative unhandiness of No. 66; at the same time, the result has shown that such a boat is not so liable to be placed *hors de combat* as the 'Thorneycroft,' with quicker turning power. Taking into account the speed at which the boats are manœuvred, the absence of all lights on board them, and the close proximity they are obliged to preserve, such an oc-

currence is not to be marvelled at; in fact, it says a great deal for the expertness and ability with which these swift little craft are handled that more collisions have not happened."

Engineering says: "There is little doubt that the tendency of torpedo boat practice has been to reduce structural weight until the limits of reasonable security have been overstepped, and we could mention more than one instance of such vessels owned by foreign governments that have become racked and strained in a seaway to such an extent that very heavy repairs were necessary before they could be made at all serviceable. Extreme speed on the measured mile is of course most desirable, provided that a good record can be attained under conditions of actual service, but it is very dearly purchased by any excessive cutting down of weight.

NAPOLEON THE FIRST.

IN his article in "Scribner's" for June Mr. John C. Ropes says: "The fall of the Second Empire, with all its mortifying incidents and terrible disasters, did much—however illogically—to lower the prestige of Napoleon the First; and since 1871 Republicans and Bonapartists have been always at swords' points. In France to-day, whatever may be in fact the strength of the veneration felt for the First Napoleon, one sees and hears little of him. There are, of course many prints, busts, medals, statuettes of him to be found in the shops; but they are not so highly prized, I fancy, to-day as they were forty years ago.

"All that a highly educated man of wonderful sagacity, thorough information, resolute purpose, and untiring industry could do for the people of France and its dependencies was done by Napoleon Bonaparte. The France of to-day bears everywhere the marks of his marvellous capacity for reconstruction and organization. In all Napoleon's legislation we find the same wise, enlightened, humane spirit—I was about to say modern spirit, and the word modern does define what I mean with a good degree of exactness. I mean that the spirit of the nineteenth century—its tolerant, hopeful, progressive spirit, to which the hatreds and bitternesses begotten of aristocratic and religious prejudice are unknown—runs through all the legislative and practical work of Napoleon in Europe."

NAPOLEON III. AND HIS FAMILY.

THE following curious letter from the late Emperor of the French to his uncle, Joseph Bonaparte, was sold recently at the Hotel Drouot, in Paris, for the trifling sum of $10:

LORIENT, Nov. 15, 1836.

MY DEAR UNCLE: You will no doubt have learned with surprise of my attempt at Strasburg. When one does not succeed one's intentions are always misrepresented; one is sure to be blamed and calumniated even by one's own relatives. Therefore, I shall not endeavor to-day to exculpate myself in your eyes. I leave to-morrow for America, and shall be greatly obliged if you will send me some letters of recommendation for Philadelphia and New York. In quitting Europe, perhaps forever, I feel the deerest sorrow when I think that even in my own family I shall find nobody to pity my fate. Good-bye, my dear uncle, and never doubt my sentiments towards yourself. Your tender nephew,

NAPOLEON LOUIS BONAPARTE.

FOREIGN ITEMS.

JUDGING by the number of names at present registered, the total strength of the Swiss Landsturm will reach 300,000, with a population of only 2,900,000.

NEWS has been received to the effect that the Ameer of Afghanistan has defeated the Ghilzais at Ghuznee. Both sides sustained heavy losses. The Joawribazaras have submitted.

GENERAL SKOBELEFF'S opinion of Bismarck, written in 1879: "He aims at undermining our (the Russians') position, ruining us morally, embroiling us with France, Turkey and the Balkan States; and then he will leave us to the follies and mistakes which he will by that time have made us commit. . . . I shall be dead then." If the first part of Gen. Skobeleff's prophecy proves to be as correct as that in the last sentence, there's a heap of trouble waiting for Russia in the next two years.—*N. Y. Herald.*

THE new French cabinet formed by M. Rouvier does not include Gen. Boulanger, he having been succeeded as Minister of War by Gen. Ferron.

IN order, says the *Deutsche Heeres-Zeitung* (Berlin), that the Russian torpedo-boats may be kept in constant readiness, an order has been issued that each is to be permanently commissioned. The total number of boats in the Baltic is eighty-seven, in forty-five of which the new regulation will be carried into effect immediately.

THE population in England and Wales was enumerated on April 4, 1881, as 25,974,439, and on the hypothesis that the rate of increase or decrease that prevailed between the census of 1871 and that of 1881 was maintained, the population in the middle of 1886 was estimated to be 27,870,586. This means an increase of about 7.3 per cent. in the five years.

CAPTAIN VON HUENE, the Military Attache to the German Embassy at Paris, whose implication with Ayrolles affair of secretly disposing of military plans, was sought to be established by the French War Office, and which was referred to in the *Broad Arrow* of April 2, has been promoted to the rank of major, by his own Government. The fact is significant.

LIEUTENANT WEYL gives us a description of the results of the practice made against the *Belliqueuse* with mélinite shells, which results were to have been kept secret. It appears that the damage done in the unprotected portion of the condemned vessel was frightful, whereas the shells made only a small dent in the iron plates. A sheep which had been placed in the battery was riddled with splinters, while another sheep confined in the plated turret escaped uninjured. The naval officers who visited the *Belliqueuse* all expressed the opinion advocated by the writer that this is no time for unarmoring ships, which will require more armor than ever. Another account says: The destructive effect anticipated by the use of melinite shells, when fired against the French ironclad *Belliqueuse*, has been much overrated, the vessel having survived the bombardment and been towed back to port. It is stated the shells burst and broke up before the hull of the vessel was penetrated.

ROYAL

BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

THE MONOCULAR DUPLEX, OR ARTIST CAMERA.—The picture is seen non-inverted and full size, the very instant of making the exposure. Can be accurately focussed, dispenses with Tripod, Focussing-cloth and carrying-case. Leather covered; ready at a second's notice, and will carry eight to ten plates. Price with double holder $75.00. With roll holder, 48 paper negatives secured without changing spools. Price $95. Catalogue free; sample Photo, 15 cents.
E. W. SMITH & CO., 42 John St., N. Y.

AN EXTRAORDINARY RAZOR HAS BEEN INVENTED by the QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,
(Late Third Auditor U. S. Treasury, late Capt. U. S. Army, and Colonel of Volunteers,)
ATTORNEY AND COUNSELOR AT LAW,
(Corcoran Building), F and Fifteenth Streets, Washington, D. C.

Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D.C.; Hon. John S. Williams, 3d Auditor, U.S. Treasury, Washington, D.C.; Hon. W. P. Canaday, Sergt. at Arms, U. S. Senate, Washington, D. C.; Gen. O. O. Howard, U. S Army.

BEAUTY of Skin & Scalp RESTORED by the CUTICURA Remedies.

NOTHING IS KNOWN TO SCIENCE AT all comparable to the CUTICURA REMEDIES in their marvellous properties of cleansing, purifying and beautifying the skin and in curing torturing, disfiguring, itching, scaly and pimply diseases of the skin, scalp and blood, with loss of hair.

CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, prepared from it, externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally, are a positive cure for every form of skin and blood disease, from pimples to scrofula. CUTICURA REMEDIES are absolutely pure and the only infallible skin beautifiers and blood purifiers.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG & CHEMICAL CO., Boston, Mass.
☞ Send for "How to Cure Skin Diseases."

HANDS Soft as dove's down, and as white, by using CUTICURA MEDICATED SOAP.

Persons contemplating using PAINTS would do well to investigate the quality of the

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

$2,675,205.88

Officers of the Army and Navy insured without extra premium except when engaged in actual warfare. An extra premium not paid at the assumption of the war risk *does not invalidate* the policy but simply becomes a lien upon it.

Liberty of residence and travel, on service, in all countries, at all seasons of the year, without extra charge.

Every policy has endorsed thereon the cash surrender and paid-up insurance values to which the insured is entitled by the Massachusetts Statute.

LIFE RATE ENDOWMENT Policies are issued at the old life rate premium.

Annual Cash distributions are paid upon **all** policies.

Pamphlets, rates and values for any age sent on application to the Company's Office.
Post Office Square, Boston, Mass.
BENJ. F. STEVENS, President.

Proposals for Mineral Oil.

JEFFERSONVILLE DEPOT, Q. M. DEPARTMENT,
JEFFERSONVILLE, IND., May 31, 1887.

SEALED PROPOSALS in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock, A. M., (Central Standard time,) on Thursday, the 30th day of June, 1887, at which time and place they will be opened in the presence of attending bidders, for furnishing 100,000 gallons Mineral Oil, at this Depot, in cases of two five-gallon cans each.

Deliveries must commence by July 11, 1887, and be completed by August 15, 1887, in such quantities, and at such times, between those dates, as may be agreed upon.

The Government reserves the right to reject any or all proposals.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture, produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished by this office on application.

Kinney Bros.

HERR KRUPP has finished a 40-centimetre gun, the biggest ever made at Essen. At a trial of the weapon it shot into pieces armor 97 centimetres thick at a distance of 3,000 feet.

REPLYING to a question in Parliament, concerning defective weapons, the English Secretary of State for War stated that out of over 40,000 triangular bayonets sent in from troops, 31 per cent., or about 12,400 altogether, failed to pass the test, and had to be condemned. Of 34 800 sword bayonets taken from the hands of troops or out of store for the purpose of being retested, more than 10 per cent. proved worthless, though after being again hardened and tempered, half these stood the slight strain to which they were submitted.

W. B. G. in a letter to the *Engineer* says: "As a matter of fact, solid steel plates were made by Sheffield firms so far back as 1878, of quite as good a quality and as suitable for the purpose as can be, or are being, made at the present day, but the results of the official tests were unsatisfactory. The French firm have since made no advance in the manufacture, and the weaknesses inherent in the solid steel plate remain as pronounced as then. A large proportion of the Creuset plates crack before they are put upon the ship's side when made hard in the attempt to resist the impact of the shot; and it made soft, to avoid cracking, they are perforated by the shot as easily as the wrought iron plates were before the adoption of the compound plate created a revolution, and once more wrested the superiority from the gun."

THE Sultan of Turkey has ceded the island of Cyprus to England.

APRIL 30 was launched, at the Thames Ironworks, the *Sans Pareil*, armor-plated turret-ship of 10,470 tons and 12,000 horse-power.

A PRIZE of 1,000 marks has just been advertised for the best pattern field flask, or bottle, to be carried by the German soldier in conjunction with his "bread-bag," or haversack. The conditions are that the component material of the vessel shall not impart any flavor or taste to the contents, be the liquor water, wine, spirit, tea, coffee, or any other beverage; that it shall be under a certain weight, capable of holding half a litre, and sufficiently strong to stand rough usage.

THE *Avenir Militaire* publishes a letter from "An Ancient Colonel" on the new "Instruction for Combat," all in favor of dense formations, as supports, of course, to the skirmish line, from his experience in command of a corps in 1870-71. He attributes the success of the Prussians to their massive attack formations on the "thin 'blue' lines" of the French. He ridicules the idea of a battle fought on an extended front, "where an army of 500,000 men would extend for more than 100 kilometres." Put them on a front of 25 kilometres, organize behind your chain of skirmishers a series of shocks increasing in force, concentrated on a limited front—the victory will be his who can bring the greatest masses to bear in a limited space on the front of the battle." Gen. Boulanger's preferences are indicated by his return to the offensive in French tactics.

THERE is said to be at the present time on the pension lists of the British Army the names of widows of officers to whom pensions were granted 70 years ago. Some of these widows must therefore be from 100 to 130 years of age. But the average Englishman is skeptical on this point, preferring to believe that there is fraud somewhere.

MESSRS. JAS. ROWLAND AND CO., Kensington Iron and Steel Works, Philadelphia, say of PHENOL SODIQUE, the great remedy for BURNS, BRUISES and CUTS: "No one should be without it, particularly manufacturers employing large numbers of hands. Independent of the pleasure of administering relief to the suffering, it is a pecuniary advantage in saving to them the time of some valued employee."

THERE IS A MEANS of Eradicating local disease of the skin that can be relied on, viz.: GLENN'S SULPHUR SOAP. HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

THE universal popularity of "Tansill's Punch" 5c. Cigar is accounted for from the fact that no labor or expense has been spared in obtaining the choicest stock, thus securing a degree of perfection and evenness seldom equalled.

THE fearless soldier on the midnight watch and the bold mariner before the mast on a stormy sea will certainly suffer from pain in the Chest, Shoulders, Back and Loins, as well as Rheumatism, Sciatica, stiffness and other results of exposure, if they fail to use BENSON'S PLASTERS as a preventive and cure. They never fail. Avoid imitations.

INTERNATIONAL LAW.

OUTLINES OF INTERNATIONAL LAW, with an Account of its Origin and Sources and of its Historical Development. By GEORGE B. DAVIS, U.S.A., Assistant Professor of Law at the United States Military Academy. Pp. xxiv., 470. Crown 8vo., Cloth, $2.00.

"The book is clear, comprehensive, and well up to the times. To my judgment it is the best *manual* I have yet seen, and was very much needed. I am glad to recommend this book, and predict for it a most favorable reception."—Professor HENRY COPPÉE, Lehigh University.

"It is clear in both method and style, free from all partisan or even national prejudices, and complete in its illustrative examples."—Professor E. DODGE, President of Madison University.

Professor Davis's manual is a most convenient book of reference, an excellent book for universities, and should be held in special regard by Americans.—*The Beacon*, Boston.

It is a very clear and singularly interesting work on an important subject.—*N. Y. Mail and Express.*

It can be read through in a single evening, and will throw a new and clear light on many historical events for those who were before unfamiliar with the law.—*Boston Advertiser.*

It is logical and accurate to the last degree. For a concise statement of the leading principles applicable to any subject within its scope, it may be implicitly trusted.—*Epoch*, N. Y.

Professor Davis has performed good service towards public education in undertaking such a needed, and in producing such a learned and well-arranged, book.—*Boston Globe.*

It is a plain, practical treatise, in which technical terms are avoided and great principles clearly stated.—*Chicago Inter-Ocean.*

A valuable contribution to the Science of International Law.—*Christian Intelligencer*, N. Y.

Mr. Davis has accomplished his purpose admirably.—*Philadelphia Press.*

An excellent illustration of clear and concise treatment. It is written from a wide and well-digested knowledge of all aspects of the subject, and its value is enhanced by its citations of later as well as earlier cases in illustration of the principles defined.—*Boston Journal.*

A most excellent handbook of the principles of this science, suitable for a textbook, and at the same time of marked interest to the general reader.... A standard authority. —*Boston Traveller.*

Published by HARPER & BROTHERS, New York.

The above work is for sale by all booksellers, or will be sent by HARPER & BROTHERS, *postpaid, to any part of the United States and Canada, on receipt of the price.*

FOLLANSBIE.—At Provincetown, Mass., May 19, JOSHUA FOLLANSBIE, formerly Chief Engineer, U. S. Navy.

FRAZER.—Mrs. ARIANN STEELE FRAZER, widow of the late Colonel Reah Frazer, died at her home, No. 38 North Lime street, Lancaster, Pa., at twenty-five minutes before ten o'clock on Friday evening, May 20, in the 66th year of her age, her death being caused by a dropsical affection from which she had suffered for several years, and had been confined to her room for the past year. Mrs. Frazer was a daughter of Captain John Steele, and Jane Porter, of Harmony Hall, Leacock township, Lancaster county, Pa. Capt. Steele was an officer in the United States Infantry in the War of 1812, and a prominent Mason, his name being in the list of Grand Masters of the State. Her grandfather, General John Steele, served in the Revolutionary War, and was field officer of the day at the surrender of Cornwallis at Yorktown; he was also Collector of the Port at Philadelphia, and Speaker of the Senate of Pennsylvania. Mrs. Frazer was born in Philadelphia on Aug. 9, 1821, while her father was surveyor at the Port. When she was about twelve years of age, her father removed to Harmony Hall, where she lived until Sept. 28, 1843, when she was married to Col. Reah Frazer, one of the leading lawyers of Lancaster, and a politician of great influence. Six children were born to them, of whom four survive: Susan Carpenter Frazer, who resided with her mother; Henry Carpenter Frazer, of the Westinghouse Air Brake Company, of Pittsburgh; Lieutenant Reah Frazer, Paymaster in the U. S. Navy, and J. P. Wilson Frazer, of Philadelphia. During Col. Frazer's life, Mrs. Frazer was a central social figure, and ever since in her quiet home on Lime street, all that is genial, wholesome and refined in our social hospitality was dispensed. In thought, word and action she was a lady fashioned to adorn and ennoble society. Perfectly sincere in all things, with great force of mind, ready utterance and with information gleaned from wide reading, she was a delightful companion, and so her influence in society, in the private circle or in the church was well marked and deeply effective. No one was so well known to both rich, great and poor. The former bowed before her with respect and the latter blessed her for a kind heart and generous sympathy. Truly a notable woman has passed away—one who in her day and generation worked for good and whose influence will never be fully known till the Recording Angel opens the final book. Trouble and sorrow she has borne with resignation for many years. For a long time the ills incident to increasing years she endured without a murmur. Now the storm blasts of the harsh world have dwindled into the zephyrs, and she enjoys the rest which remains for the people of God. The funeral took place from the Presbyterian Church; interment in Woodward Hill Cemetery.

MCVEAN.—At Jefferson Barracks, Mo., May 16, Major DONALD C. MCVEAN.

Horsford's Acid Phosphate.
IN WEAKNESS OF THE STOMACH.

Dr. D. P. MCCLURE, Rantoul, Ill., says: "I have successfully used it in diseases arising from a weak condition of the digestive apparatus."

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D.C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy.

OFFICE OF ASST. QUARTERMASTER,
GOVERNOR'S ISLAND, N. Y., May 24, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office until 10 A. M., June 24, 1887, for supplying—during fiscal year commencing July 1, 1887—water and gas required in barge office, on the Battery, N. Y. City; also water for use of Governor's Island, by pipe crossing Buttermilk Channel, or, in case of accident to pipe, by water boat.

The Government reserves the right to reject any or all proposals.

Blank proposals and information can be obtained at this office.

Envelopes containing proposals should be marked "Proposals for water or gas,"—as the case may be—and addressed to the undersigned. J. H. LORD,
Captain and Asst. Quartermaster, U. S. A.

WAR DEPARTMENT,
NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT,
HOUSTON ST., COR. GREENE, May 13, 1887.

SEALED PROPOSALS IN TRIPLICATE are invited and will be received at this office until 10 A. M. June 13, 1887, for supplying steamers by charter to take the place of the steamers Chester A. Arthur, Ordnance, and Atlantic, respectively, when required during the fiscal year ending June 30, 1888. The steamer to take the place of the Chester A. Arthur must be of the size and character and have about the same passenger and freight capacity as the Arthur, and the steamers to take the places of the Ordnance and Atlantic, respectively, must have the capacity for freight and passengers and be of the size and character generally of the steamer James Bowen, which has a 26-inch cylinder, low pressure engine. All the vessels must be staunch, in first-class order in every respect, well equipped and found, and conform fully to the requirements of the law.

Coal will be furnished by the department.

Proposals must state the price per day of 24 hours for each vessel, and how much per hour for day service and for night service and must include an engineer and fireman. The remainder of the crew will be furnished by the department.

The vessels when required must be furnished immediately, or at such time as the department may designate.

The Government reserves the right to reject any or all proposals.

HENRY C. HODGES,
Deputy Q. M. General, U. S. A.,
Depot Quartermaster.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

WHOLE NUMBER 1242.

NEW YORK, SATURDAY, JUNE 11, 1887.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

COLONEL GUY V. HENRY U. S. A., who is to have charge of the "distinguished marksmen" competition, is already making preparations to have the Bellevue Rifle Range near Omaha in first class order for the event. Twelve will participate, and, as a matter of course, the competition will be especially interesting. The Army competition comes next year.

THE Army Regulations Board after having maturely considered the recommendations of Rev. Mr. MORRISON, of Baltimore, for the abolition of the Sunday morning inspection and other Sunday work in the Army, have come to the conclusion that the little work performed is necessary and proper and that no further amendment to the Regulations on the subject is desirable.

THE President will have the appointment of one cadet at large to the Military Academy this year. It is presumed he will make the appointment shortly after his return to Washington the latter part of this week. There is no end of applicants for the appointment, but there is not the slightest intimation yet as to who will receive it. The majority of the applications on file are from the sons or relatives of Army officers.

THE New York *Herald* says: "It is a cause for rejoicing that at last the United States are to have a navy worthy to sail under the Stars and Stripes. To build up a first-class ironclad navy will of course take time, but the beginning has been made, and in due course the country will not be at the mercy of any small but quarrelsome power with a big war vessel or two behind it. Secretary WHITNEY has shown commendable zeal and business-like effort in furthering the building of our new navy, and he has been ably backed by the Bureau of Construction."

A SOLDIER was recently tried in the Division of the Atlantic for the violation of the 62d Article of War, the specification reciting that the accused "while on duty as hospital attendant did wilfully and maliciously burn Cayenne pepper on the kitchen stove of the hospital to the discomfort and annoyance of the inmates of the hospital." It transpired that the accused, who was on duty as Hospital Cook, objected to the presence of visitors in the kitchen and resorted to the unique method noted in the specification to keep them out. He succeeded, but the Court-martial in turn peppered him with a sentence of thirty days confinement and forfeiture of $12, being thus lenient on account of previous good character and length of service.

THE late M. GABRIEL CHARMES, under the title, "La Réforme de la Marine," considers several important points connected with the French Naval Administration. He holds that ironclads cannot be protected against torpedo attack either on the high seas or when blockading a coast, and, therefore, that it is useless to continue their construction, as the chief point of attack should be the commerce and unfortified towns of an enemy. Cruisers and fast gunboats should be principally constructed. As the coast would be attacked from the sea, it should be met by a naval force, so that the coast defence should be entirely in the hands of the navy. He further holds that as steam and the torpedo have so altered the necessary qualifications of nautical life, radical reforms are required in recruiting and employment of the *personnel*.

A RECENT letter of Captain J. C. WATSON, late in command of the U. S. S. *Iroquois*, and cognizant of the facts of the unfortunate death of Lieutenant CLARKE, the marine officer of that vessel, should dispel any idea that the young officer was murdered. To those at all familiar with the situation on board a vessel of the size of the *Iroquois*, and under the circumstances of mid day and hot weather, the possibility of a mysterious murder without instant detection cannot be entertained for a moment. Save for the personal satisfaction of the family of Lieutenant CLARKE, a Court of Inquiry is a needless waste of time and trouble, and it is hoped that Secretary WHITNEY will reconsider any determination he may have arrived at to direct such an inquiry. It is presumed that the deceased officer's body will be disinterred from Dead Man's Island in Panama Bay, and brought to this country when the weather on the Isthmus shall render such a proceeding safe.

CIRCULAR No. 3, A. G. O., 1887, states, "in brigade line battalions are posted from right to left, according to the rank of the colonels, the senior colonel on the right, the junior on the left." In any line the points of danger, and consequently of *honor*, are the flanks and centre. The senior is presumably the best and most experienced officer, but anyway he is from his rank alone entitled to the right of a line, the next in rank to the left, and the third to the centre. This applies not only to a line of companies, but also to regiments, brigades, divisions, Army corps and even to a line composed of armies. Of course, it is within the power of a commander to change this order temporarily, but nominally such should always be the proper formation, and is an order which officers may justly demand as a right according with their rank. This right has existed and been conceded in all armies from time immemorial, but has been ignored and set aside by the terms of this circular.

EMPEROR WILLIAM is reported as having said to a young officer: "It is the one button left unbuttoned which ruins an army." This was recalled to us on the occasion of a recent visit to one of our garrisoned posts where we were rather struck with the diversified appearance of the enlisted men, not on duty. Some had collars on, coming well into view; others had no collar on, but simply a necktie; some had their blouses unbuttoned, others closely buttoned, and so forth. Now there may be nothing wrong in this, for indeed *within* the garrison, some liberty, in particulars of dress, may be allowable, but still we incline to a fixed rule in such matters as being in harmony with the military design and conducive to discipline. The views of the Inspector-General of the Army expressed in 1884 and adopted by the Lieutenant-General (Circular, Dec. 10, 1884), were strong on this subject, and only require occasional revivification to mould them in course of time into a fixed "custom of service."

THE Cincinnati *Evening Telegram* avers that "rage reigns in Toledo because the darlings of that beautiful city, the cadets, didn't even get a place at the National Drill." Our contemporary sagely attributes this to the fact that they (the cadets) did not confine themselves in their evolutions to the movements laid down in the tactics, and taking into consideration that the judges who awarded the prizes were West Pointers and are "away up in UPTON," asks the cadets what could they expect when these judges saw their beloved tactics laid aside as though they were of no account. The *Telegram* winds up by saying: "No, boys, your drill was the perfection of military clockwork; your deportment and discipline were superb; but when it comes to to the point of flying in the face of UPTON'S tactics, and performing fancy movements not recognized by West Point, you commit an unpardonable offence that merits the most condign punishment. We know it's hard luck; we mourn with you, and refuse to be comforted, but we must admit that you made a mistake in not sticking to the text."

THE demand for more frequent payments in the Army has been considered carefully by the authorities in Washington, and the prospects are now favorable to some action being taken in the matter. The Army Regulations Board spent considerable time in discussing the subject, but finally came to the conclusion that the Pay Department could increase the number of payments without any further amendments to the Regulations. The matter having been left with the Paymaster-General he has determined to make a practical test of the feasibility of monthly payments. As the number of paymasters will not, in his judgment, admit of the experiment being made throughout the Army, he proposes designating one or two large posts, probably San Francisco and New York Harbors, for six months or so. At the end of this time he thinks it can be determined by Court-martial and desertion statistics whether or not it will be advisable to make the plan general. Should it prove satisfactory Congress will be asked to increase the force of paymasters in order to allow the more frequent payments to be made. It is thought that the experiment will be put into operation shortly after the changes in stations in of Paymasters, recently ordered, have taken place.

IT has been finally decided to garrison with Cavalry troops the post of Fort Myer, which was abandoned last July as a School of Instruction for the Signal Service. We announced last fall that General SHERIDAN favored the transfer of the Cavalry troops to the National Capital, to furnish a reserved contingent to take part in the many parades and official ceremonies, and also for the purpose of affording needed rest to companies which have undergone great hardships on the frontier for many years. These troops it is proposed shall be the guard of honor to the President in all official parades. The intention is to station two troops at the Capital under command of a Major, and to interchange them with other troops at intervals of three or four years. It has not yet been decided what troops to choose from. In making the selection the Lieutenant General will give first consideration to long and arduous service in Indian campaigns. It is understood that the choice will be made in time for the transfer to take effect soon after July 1, when the new transportation appropriation becomes available. It is rumored around the War Department that this will not be the only transfer of troops to take place early in the new fiscal year, but as to what, if any, companies or regiments are concerned, no authentic information can be obtained.

PERSONAL ITEMS.

CAPTAIN H. S. WEEKS, 8th U. S. Cavalry, is visiting friends at Allegan, Mich.

CAPTAIN A. S. B. KEYES, 10th Cavalry, has left Fort Thomas, Ariz., on a month's leave.

CHIEF MEDICAL PURVEYOR J. H. BAXTER, U. S. A., will spend a portion of the summer at Caledonia Springs.

CAPTAIN E. LUFF, 8th U. S. Cavalry, of Fort Brown, Texas, is coming North to spend a portion of the summer.

COLONEL DANIEL MCCLURE, U. S. A., left New York this week for the South, to be absent about three weeks.

LIEUTENANT J. C. W. BROOKS, 4th U. S. Artillery, rejoined at Fort Monroe, Va., early in the week from a short leave.

MAJOR FRANCIS S. DODGE, U. S. A., left New York City this week on a short vacation, to return about the end of June.

COLONEL J. M. WILSON, U. S. A., of Washington, visited Newburg, N. Y., early in the week and took a look in at West Point.

COLONEL W. H. LUDLOW, U. S. A., has been visiting at his home on Long Island, called there by the serious illness of his mother.

LIEUTENANT EBEN SWIFT, 5th Cavalry, A.-D.-C., is expected at West Point, N. Y., in a few days to report to Gen. Merritt for duty.

LIEUTENANT R. T. EMMET, 9th U. S. Cav., and Mrs. Emmet, now in the East, will make a round of visits before returning to Nebraska.

LIEUTENANT A. M. H. KENDRICK, 7th Infantry, returned to Columbus, O., early in the week from a trip to Minnesota with recruits.

LIEUTENANT G. A. THURSTON, 3d U. S. Artillery, left Newport Barracks, Ky., this week on a few months' leave for the benefit of his health.

ASSISTANT SURGEON LEONARD WOOD, U. S. A., after a pleasant and deserved tour of duty at Los Angeles, Cal., goes to Fort Huachuca, Ariz., for temporary duty.

LIEUTENANT H. J. GOLDMAN, 5th Cav., lately visiting at 39 Jay St., Albany, N. Y., will be prevented by sickness from rejoining his regiment for some months to come.

LIEUTENANT ALFRED M. FULLER, 2d U. S. Cav., was married June 1, at Pittsburg, Pa., to Miss Mary S. Jones. Lieut. Fuller is at present on college duty at Meadville, Pa.

LIEUTENANT E. J. SPENCER, Corps of Engineers, U. S. A., is to be married July 28 next, at Prescott, A. T., to Miss Katie Tritle, daughter of ex-Governor Tritle, of Arizona.

CAPTAIN E. C WOODRUFF and Lieut. W. O. Clark, 12th U. S. Inf., rejoined at Fort Ontario, N. Y., early in the week from their trip to Washington to attend the National Drill.

LIEUTENANT GEO. I. PUTNAM, 16th U. S. Inf., of Fort Bliss, Tex., has gone to Hartland, Vt., on leave, and is to be married at that place early this month to Miss Maud Labaree.

LIEUTENANT V. H. BRIDGMAN, 2d U. S. Artillery, on completing, June 30, his tour of torpedo instruction at Willet's Point, will shortly thereafter go abroad for six months.

MAJOR CHAS. MCCLURE, Paymaster, U. S. A., arrived in Carlisle, Pa., this week on a short visit. He will return to Newport Barracks, Ky., towards the end of June to pack up for El Paso.

CAPTAIN G. C. DOANE, 2d U. S. Cav., has received the warm thanks of the G. A. R. of San Francisco for his energetic help in the proper observance of the ceremonies of Memorial Day in that city.

LIEUTENANT J. T. THOMPSON, 2d U. S. Art., of Little Rock Barracks, arrived at Montgomery, Ala., early in the week, to attend officially the encampment of the 2d Regiment of the Alabama State Militia, which commenced June 7.

CAPTAIN P. F. HARVEY, Assistant Surgeon, U. S. Army, and Mrs. Harvey were to sail for Antwerp on Saturday of this week and, after a tour on the Continent, will go to England. The Doctor while in Europe will visit the principal military hospitals.

WHILE Jay Gould was travelling on the Wabash system he stopped over for dinner at a little town in Southern Illinois. The party ate some eggs, among other things, and when the bill was presented to Gould it contained the item, "One dozen eggs, $1.80." The great railroad magnate remarked that eggs must be at a premium in that section, to which the restaurant keeper replied, "No, sir; eggs are plenty enough; but Jay Goulds are mighty scarce."—*Buffalo Courier.*

ACCORDING to a story published in the dailies, at a military review recently in Bamberg, Bavaria, the Prince Regent walked up to a very aged soldier and asked him where he had earned the medals which he wore. The veteran replied "in 1813," but was so overcome with excitement at being addressed by the Prince that his strength gave way and he dropped his hat. Whereupon the Prince immediately stooped, picked up the hat, and put it in the old man's hand again. He must be too aged to be still in the ranks for review. Allowing that he was 19 in 1813, he must now be 93.

LIEUTENANT-GENERAL D. H. HILL delivered an address on the "Old South" before the Confederate Society, at Ford's Opera House, Baltimore, June 6. The House was crowded, and the applause was hearty and frequent. The concluding portion of the address was as follows: "I love to hear the philanthropists praise Mr. Lincoln and call him the second Washington, *for* I remember that he was born in Kentucky and was from first to last, as the *Atlantic Monthly* truly said, 'a Southern man in all his characteristics.' I love to hear them say that George H. Thomas was the stoutest fighter in the Union Army, for I remember that he was born in Virginia."

CAPTAIN J. F. SIMPSON, 3d U. S. Cavalry, is a recent guest at the Baldwin Hotel, San Francisco.

GENERAL S. D. STURGIS, U. S. A., celebrates his sixty-fifth birthday, Saturday, of this week, June 11.

CAPTAIN CHARLES KING, U. S. A., has written a paper for the July "Harper" on "Cadet Life at West Point."

CAPTAIN J. H. HURST, 12th Infantry, of Fort Niagara, N. Y., delivered the Memorial Day oration at Wyalusing, Pa.

GENERAL JAMES B. FRY, U. S. A., and Mrs. Fry are located for the summer at Warren Cottage, Newport, R. I.

CAPTAIN CHAMBERS MCKIBBIN, 15th U. S. Inf., lately located at 1323 Spruce street, Philadelphia, has had his leave extended a month.

CAPTAIN C. C. C. CARR, 1st U. S. Cavalry, of Fort Leavenworth, has recently had a pleasant visit from his father-in-law, Dr. Watson, of Chicago.

MAJOR J. A. DARLING'S "President Garfield's Funeral March," was played with much effect at the recent Memorial exercises at San Francisco.

COLONEL H. M. LAZELLE, U. S. A., is expected in Washington in a few days to enter upon his duties in charge of the compilation of the War Records.

COLONEL GEO. H. ELLIOT, Corps of Engineers, U. S. A., registered at the Everett House, New York City, on Monday, preparatory to sailing for Europe

MAJOR J. J. UPHAM, 5th U. S. Cav., lately returned from Europe, has been visiting at Fort Leavenworth, Kansas, and goes from there, most likely, to Fort Supply.

COLONEL J. S. BILLINGS, Surgeon, U. S. A., read an able paper on "Method in Literature" at the session of the Association of American Physicians held in Washington last week.

GENERAL A. G. BRACKETT, U. S. A,, contributes to the Cincinnati *Commercial Gazette* an interesting resumé of the life and services of that gallant soldier and poet, Col. Theodore O'Hara.

LIEUTENANT C. E. KILBOURNE, 2d U. S. Artillery, will leave St. Augustine, Fla., shortly for Columbus, O., to enter upon duty at the State University. Lieut. Kilbourne was born in Ohio and has many friends in Columbus.

LIEUTENANT ARRASMITH, 2d Infantry, says the Kansas City *Times*, is without question the champion billiardist of the Army. At a practical game recently in the club he made 337 points in one run. A number of officers witnessed the exhibition.

LIEUTENANT IRVING HALE, Corps of Engineers, U. S. A., who is to be married to Miss King at Willet's Point on Tuesday next, June 14, will leave after the ceremony on a two months' wedding tour, returning to Willet's Point about the middle of August.

COLONEL E. F. TOWNSEND, 12th U. S. Infantry, is due at Peekskill, New York, next week, to attend the State encampment. During his stay at the camp Captain H. C. Egbert, 12th U. S. Infantry, will command the post of Madison Barracks, Sackett's Harbor.

GENERAL T. H. RUGER, Colonel J. F. Wade, and Major E. H. Butler, the Board to examine the officers of the Infantry and Cavalry School, arrived at Fort Leavenworth this week and were heartily welcomed by many old friends. The Board commenced to examine June 10.

LIEUTENANT BERTRAM TRACY CLAYTON, 11th U. S. Infantry, of Fort Bennett, Dakota, was married on Thursday afternoon, June 9, at Christ Church, Brooklyn, to Miss Louise Brasher, daughter of Mr. and Mrs. William Marston Brasher. A distinguished company attended the wedding.

THEODORE ROOSEVELT has developed the new idea that riding to hounds, with or without a fox, should be encouraged, because it creates a military reserve, ready to be turned into cavalrymen whenever the trump of war shall sound. Mr. Roosevelt bases his argument upon the superiority of the Southern cavalry during our civil war.

MRS. A. S. BURNETT, of San Francisco, mother of Lieut. J. C. Burnett, U. S. N., and of the wife of Capt. Geo. S. Wilson, 12th Inf., accompanied by her daughters, Miss Fannie Burnett and Mrs. Jones (widow of the late Col. Llewellyn Jones, U. S. A.,) have arrived at Madison Barracks, N. Y., and are making things pleasant for Mrs. Wilson, during the detached service of Capt. Wilson at Fort Wood, Bedlow's Island.

LIEUTENANT-GENERAL SHERIDAN has appointed Gens. H. M. Cist, J. S. Fullerton and L P. Bradley, U. S. A., and Cols. N. H. Wolworth and W. B. McCreery (members of the Society of the Army of the Cumberland) a committee to take charge of the project and collect funds for a monument to Gen. William H. Lylie. Gen. Lylie was one of the most distinguished officers of the Army of the Cumberland and was killed at Chickamauga while leading his brigade in a desperate charge.

1ST LIEUTENANT WILLIAM W. WOTHERSPOON, 12th Infantry, and Mrs. Wotherspoon, arrived at Madison Barracks, Sackett's Harbor, N. Y., on Saturday last, receiving the heartiest of welcomes and congratulations. They were tendered a complimentary concert by the 12th Infantry band, the following numbers being rendered: 1. Wedding march, Mendelssohn; 2. Fantasia—Mexicaine, arr. Greissinger; 3. Waltz—Estudiantia, Waldteufel; 4. Serenade—The Dear Home, arr. Greissinger; 5. Selection—Army Chaplain, Millocker; 6. Anvil polka, Parlow.

THE Vancouver *Independent* of May 25 says:

Gen. Gibbon's household effects have been moved into his new residence, and his former quarters will soon be occupied by Col. Thos. M. Anderson, 14th Inf., post commandant .....The play of "Engaged" was very successfully rendered at the Standard Theatre on Wednesday evening last, by the ladies and gentlemen of Vancouver Barracks, on the occasion of the benefit of the Nanaimo sufferers....Last Wednesday a flag was presented to the University Cadets at Seattle. Gen. John Gibbon made the presentation, which was responded to by J. C. Haine, colonel 1st Regt., N. G. W. .....Gen. John Gibbon delivered, by invitation, his lecture on "the Yellowstone" at Seattle last week, and in Tacoma on Monday.

GENERAL A. V. KAUTZ, U. S. A., of Fort Niobrara, has been visiting friends in Omaha.

MAJOR G. W. CANDEE, Paymaster, U. S. A., is a recent guest at the Southern Hotel, St. Louis.

CAPTAIN J. H. PATTERSON and his brother, Judge Patterson, were expected in New York City this week, thence to sail for Europe.

CAPTAIN J. J. O'CONNELL, U. S. A., and Mrs. O'Connell, were among the arrivals, early in the week, at Cranston's West Point Hotel.

CAPTAIN WELLS WILLARD, U. S. A., on leave, visited friends in New York City and Brooklyn this week and is residing temporarily in the latter city.

MAJOR W. MCK. DUNN, U. S. A., lately at Hot Springs, has resumed command of his battery at Little Rock Barracks and is much improved in health.

THE Court-martial case of Lieut. J. H. G. Wilcox, 7th Cavalry, will not receive final action until the return of President Cleveland from his fishing excursion to Saranac Lake.

PROFESSOR J. B. ALEYNE, M. D., and Mrs. Aleyne, of St. Louis, Mo., are visiting their daughter, the wife of 1st Lieut. Frederick Von Schrader, R. Q. M., 12th Inf., at Madison Barracks, N. Y.

LIEUTENANT D. H. CLARK, 15th U. S. Inf., who has relinquished the position of regimental quartermaster at Fort Buford, and ordered to Fort Randall, will go to Kentucky in August to enter upon duty at the college at Lexington.

LIEUTENANT M. F. JAMAR, 13th Inf., who has been spending a leave at Manchac, La., will enter upon duty at St. John's College, at Annapolis. Lieut. C. W. Foster, 3d Art., now on duty there will then join his battery at Newport Barracks, Ky.

LIEUTENANT AND MRS. C. W. ABBOT, JR., 12th Infantry, of Madison Barracks, N. Y., celebrated the third anniversary of their wedding day, June 5, and were the recipients of a complimentary concert by the 12th Infantry Band, in honor of the occasion.

CAPTAIN D. J. CRAIGIE and 2d Lieuts. Charles W. Abbot, Jr.; David J. Baker, Jr., and George J. Godfrey, 12th Inf., after enjoying the hospitalities of Plattsburg Barracks, N. Y., while on G. C.-M. duty during nearly all of last week, rejoined at Madison Barracks on June 3.

CAPTAIN C. A. CURTIS, U. S. A., retired, of the East Florida Seminary, Gainesville, was to leave there for Madison, Wis., June 9. The commencement at the seminary occurred June 7 and 8, the competitive drill June 6. The excellent band of the 2d U. S. Art. attended, and was a happy adjunct of the occasion.

1st LIEUTENANT FRED. A. SMITH and 1st Lieutenant Robert K. Evans, Adjutant, 12th Infantry, having fulfilled their delicate mission as members of the Board of Judges at the recent National Drill, have rejoined at Madison Bks., N. Y. Lt. Smith is range officer at his station, and being an expert with the rifle, is pre-eminently "the right man in the right place."

PAYMASTER-GENERAL ROCHESTER and family will occupy Col. Carey's cottage at Vineyard Haven, Ct., again this summer. They will take up their quarters there early in July and remain until September, Gen. Rochester returning to Washington at intervals during the summer months. While at the beach the General will superintend the construction of a very handsome cottage which he desires to have ready for occupancy ere another season approaches. Among the Army officers who spend their summers at this pleasant resort are Major A. G. Robinson Q. M. Dept.; Col. Gilman, Sub. Dept.; Col. Bridgman and Major S. P. Lee, retired.

GENERAL BOULANGER it appears within a few days received over 4,000 letters requesting him to remain at his post. Among the addresses received was one sent to him by 324 (out of 335) subordinate officials of the French War Office, in which the ardent wish is expressed that he may be retained by the President of the Republic in his office. At present, twenty Parisian journals are for the General remaining at the head of the War Office. Two of these, the *Nation* and *Souveraineté*, are Bonapartist, the others all belong to the Radical Left, the extreme Left, and the ultra-revolutionary parties. Against Boulanger are twenty-two papers, seven of which are moderate republican; one extreme Left; two Cassagnac, and four neutral.

GENERAL H. BERDAN has written to ex-Governor Fairchild, of Wisconsin, calling attention to proposed plan of erecting a monument at Gettysburg on the spot where the sharpshooters, on the 2d of July, attacked the advancing columns of the enemy in order to gain time for placing our troops in position to save the "Round Top" and to prevent an attack on our flank and rear. The Government history of the battle of Gettysburg (now in the hands of the printer), gives an account of this attack more in detail, with "special mention for gallant and meritorious services." It is proposed to make the monument octagonal as the corps was recruited from eight different States. This will give to each State a place for her coat of arms with a suitable inscription.

CAPTAIN J. L. BULLIS, 4th U. S. Infantry, says the San Antonio *Express*, now visiting here, "recalls to our mind the daring deeds, the privation and successes which for a series of ten or twelve years attended Bullis and his Seminoles. Though the captain who never turned his face from danger may shun public mention at this time, the chronicler knows what is said to be a fragment of facts. Where Bullis cut his way through forest, laid out prairie trails and clambered mountain sides to face starvation, bullets and tomahawk, now run county roads, stage and railroad lines, dotted with happy homes. Bullis struck down permanently the savage red hand in Texas and made a valueless unknown territory the inheritance of numberless people. While accomplishing all this for the Government and the State of Texas he acquired a fragment of the world's goods in western Texas for himself, and it is well, for he stands in the foreground and opened up the gateway to civilization, safety and progress."

COLONEL C. L. BEST left Fort Adams, R. I., on Tuesday, on a short visit New Yorkward.

CAPTAIN C. G. GORDON, 6th U. S. Cavalry, is spending the summer at Ocean Grove, New Jersey.

LIEUTENANT C. R. EDWARDS, 23d U. S. Infantry, left Buffalo on Monday on a week's vacation.

GENERAL A. R. LAWTON and Mrs. Lawton sailed from New York on Wednesday en route for Vienna.

MAJOR J. L. RATHBONE arrived in New York on Wednesday on his way to Paris and looked up old Army friends.

QUEEN KAPIOLIANI and suite are safely housed at the Alexandra Hotel, London, prepared for any amount of jubilee.

VISCOUNT TANI, lieutenant general of the Japanese Army, arrived in San Francisco a few days ago en route for Japan.

LIEUTENANT WALTER H. GORDON, 12th U. S. Infantry, left Sackett's Harbor, N. Y., on Tuesday, to be absent for a week.

LIEUTENANT W. N. P. DARROW, 4th U. S. Artillery, left Fort Adams, R. I., early in the week, on a short leave of absence.

LIEUTENANT F. D. SHARP, 20th U. S. Infantry, of Fort Assiniboine, is visiting his parents, Major and Mrs. Sharp, at Leavenworth.

CAPTAIN G. A. GOODALE, 23d U. S. Infantry, will return to Fort Mackinac, Mich., next week, from a few weeks' visit to Chelsea, Mass.

GENERAL T. F. RODENBOUGH, U. S. A., is to address the officers and non-com. staff of the 22d Regiment, N. G. S. N. Y., July 8, on "Route Marches and Bivouacs."

THE Rev. Mr. Morrison, who has been agitating the question of Sunday observance in the Army, was an applicant for the position of Army Chaplain, but did not receive it.

LIEUTENANT W. M. WILLIAMS, 19th U. S. Infantry, made the address for the G. A. R. at Fort Clark, Texas, Memorial Day, and the band of the regiment gave efficient co-operation.

GENERAL R. H. JACKSON, U. S. A., returned to Fort Schuyler, N. Y. H., early in the week, from a pleasant trip to Concord, N. H., to inspect the 1st Brigade New Hampshire National Guard.

LIEUTENANT J. A. JOHNSTON, 8th U. S. Cavalry, has left San Antonio on leave, and will spend most of it at Orange City, Florida. He joins at West Point for duty towards the end of August.

THE statement is made that Jefferson Davis, Simon Cameron, A. P. Kennedy and Hannibal Hamlin are the only men living who were members of the United States Senate when the war began.

LIEUTENANT J. W. RUCKMAN, 5th U. S. Artillery, is to be married next week to Miss May, second daughter of Colonel John Hamilton, 5th U. S. Artillery. The wedding tour will occupy about two months.

CAPTAIN HENRY ROMEYN, 5th U. S. Infantry, of Fort Keogh, was the orator of the day at the exercises of Memorial Day at Miles City, conducted by U. S. Grant Post, G. A. R. His address was eloquent and earnest.

CAPTAIN DAVID A. LYLE, Ordnance Dept., U. S. Army, ran down to Washington from his station in Boston this week to attend a meeting of the Lighthouse Board, which has been called for the preparation of the annual report.

FRED. PERRY POWERS, in a paper on "West Point, the Army and the Militia," to appear in *Lippincott* for July, will make a vigorous attack upon the system of education pursued in that institution, and also the methods of promotion.

AT a recent meeting of John F. Reynolds Post, G. A. R., of Cheyenne, a vote of thanks was unanimously tendered to Colonel R. H. Offley, U. S. A., and the officers of Fort D. A. Russell and others who so materially aided in making a grand success of the Memorial Day exercises.

W. H. GREEN, the colored private of the Signal Corps, whose enlistment in the Service occasioned quite an unpleasant correspondence between ex-Secretary Lincoln and the late General Hazen, has been dismissed. The charges against him were habitual gambling and opening letters addressed to the sergeant of his station.

THE following Army officers are registered at the office of the Adjutant-General: 1st Lieut. J. H. Hays, retired; Major Jos. W. Wham, Pay Dept.; 2d Lieut. Leroy E. Sebree, Signal Corps; Asst. Surg. W. N. Suter, Med. Dept.; Brig.-Gen. P. St. Geo. Cooke, retired; Lieut.-Col. Alex. J. Dallas, retired; Asst. Surg. R. G. Ebert, Med. Dept.

AT the Indian Citizenship Council, held this week, at Eufaula, I. T., Towoconie Jim, Chief of the Wichitas, made a ringing speech, in the course of which he said: "If I go to a tailor to have a suit of clothes made and the tailor just takes a look at me and says: 'All right, go home, and I will send the clothes,' I am almost certain to have a suit which does not fit. This is the way the United States Congress has done with my people. They have merely looked at us and sent us this suit, which does not fit at all, and we cannot wear it."

LIEUTENANT JOHN H. H. PESHINE, 13th U. S. Inf., a son of the late John S. Peshine, of Newark, N. J., and a relative of the late Hon. E. Peshine Smith, of Rochester, N. Y., and of the State Department, was recently married at Salinas, Cal., to Rebecca Ruth Ord, niece of the late Major-Gen. E. O. C. Ord, U. S. Army, and only child of Dr. James L. Ord, post surgeon at Fort Mojave, Ariz., and of Señora Doña Angustias de la Guerra y Noriega de Jimeno, a lady whose name will be recalled with pleasure by surviving officers of our forces upon the California coast in 1847, and, indeed, by all who bore an important part in the early history of the Golden State. A civic ceremony of marriage was performed by the Hon. John K. Alexander, Judge of the Superior Court, and a religious ceremony thereafter at Monterey by the Rev. Angelo G. Casanova, Vicar-General of the Diocese of Monterey and Los Angeles.

CHIEF NAVAL CONSTRUCTOR WILSON, U. S. N., was in Savannah, Ga., on business this week.

COMMODORE W. K. MAYO, U. S. N., retired, will spend a portion of the summer in Canada.

CAPTAIN HENRY WILSON, U. S. N., who left Norfolk, Va., last week, is in New York, whence he goes to Europe.

PAYMASTER HENRY C. MACHETTE, U. S. Navy, left Norfolk this week for a month's sojourn in Orange County, Va.

MEDICAL DIRECTOR DELAVAN BLOODGOOD, U. S. Navy, of Norfolk, Va., was in Chicago this week on special duty.

PAYMASTER HENRY T. WRIGHT, U. S. N., and bride, married last week, have left New York on their wedding tour.

LIEUTENANT CHAS. LAIRD, U. S. N., lately on duty on the *Portsmouth*, has gone to Washington for duty in the Hydrographic Office.

COMMANDER H. C. TAYLOR, U. S. N., contributes to the June number of the *Forum* an interesting article on "The Control of the Pacific."

PAYMASTER A. W. BACON, of the *Atlanta*, is in Washington. He does not seem positive that the *Atlanta* will receive sailing orders in the near future.

SECRETARY WHITNEY has instructed Rear Admiral Kimberly to order a court to inquire into the circumstances connected with the death of Lt. Clarke, of the Marine Corps.

AUSTIN H. BROWN, of Indianapolis, Ind., a brother of Captain George Brown, U. S. N., has been appointed Chief of Division of the Treasury Department in Washington.

MRS. HOUSTON and children are expected to arrive next week at Stuttgart, Germany, where they are to remain while Lieut.-Comdr. E. S. Houston is absent on duty in South Germany.

CAPTAIN J. C. WATSON, U. S. N., lately in Washington for examination for promotion, is visiting in Kentucky, previous to his return to San Francisco. He is a nephew of Gen. Thos. L. Crittenden, U. S. A.

THE following officers registered at the Navy Department this week: Lieut.-Comdr. G. E. Wingate, Comdr. H. C. Taylor, Rear Admiral S. B. Luce, Capt. Edward E. Potter, Capt. F. M. Ramsay and Asst. Engr. J. R. Wilmer.

PAYMASTER EDWARD BELLOWS, U. S. N., still remains at his home in Walpole, N. H., enjoying a prolonged period of rest waiting orders. Paymaster Bellows's last cruise was in the Pacific, and the present prospect is pretty good for his full tour of shore staying to be used up on waiting orders.

REAR-ADMIRAL VIGNE, French Navy, who arrived in New York last week on his flagship *La Minerve*, visited Governor's Island on Saturday last and was received with due honors by Major-General Schofield and his officers and troops. General Schofield, accompanied by his staff, returned the visit on Monday of this week.

EX-LIEUTENANT J. W. GRAYDON claims that while experimenting with the firing of dynamite shells from cannon he has discovered a new explosive which is cheaper than dynamite and six or seven times more powerful, and which can be used instead of dynamite and gunpowder in firing cannon and for explosive shells.

THE recent detachment of Chief Engr. Hall from the *Yantic* is said to have been at the earnest request of the commanding officer of that vessel, and it is the intention of the Department not to assign another chief engineer to the *Yantic*, but to retain the engine department in charge of Mr. J. P. Mickley, the P. A. Engineer of the ship.

ROBERT B. RODNEY, U. S. N., says the San Francisco *Post*, has discovered a new field for Christian enterprise. In a circular addressed to the "Philanthropic Editor" of the *Post*, as well as to some of our esteemed contemporaries, he urges the establishment of humane pawnshops, which shall lend money to the poor at less than murderous rates.

THE Erie *Gazette*, referring to the recent death of Joshua Follansbee, formerly Chief Engineer, U. S. Navy, says: "Living, Mr. Follansbee was esteemed and beloved, and now that he is dead his fine character, conceded scientific attainments and extended knowledge gained in a long life of travel, observation and study will cause him to be remembered as a good man and a valuable citizen."

DR MCNAIRY, of the Navy Department, has begun work on the semi-annual Navy Register. The Secretary of the Navy has detailed Lieut. Seaton Schroeder to aid in the preparation. There are numerous changes to be made, many of which have not yet been finally determined upon. The new Register will, however, contain about the same information about the personnel of the Navy as the Army Register for the Army.

LIEUTENANT W. H. STAYTON, U. S. Marine Corps, was married at St. Alban's Church, Washington, on June 2, to Miss Annie Henderson, daughter of Chief Engineer Alexander Henderson, U. S. Navy. The bridesmaids were Misses Louisa Hall, Susie Roy, and the maids of honor, Misses Sophy Middleton and Bessie Henderson. The best men were Dr. Brausford, U. S. Navy, and Lieut. Lauchheimer, Marine Corps. The church was filled by the friends of the family, who afterwards attended a reception and wedding breakfast at Woodly, the country seat of the bride's father.

THE New York *World* says: "A venerable-looking man was taken suddenly ill Sunday morning while riding in a Christopher street cross-town car, was helped out of the car by the driver, and died on the sidewalk in front of No. 118 West Fourteenth street. The dead man was Jesse West, father of William C. West, commander of the *St. Lawrence*, the first frigate to attack the iron-clad *Merrimac* in the war of the late rebellion. Deceased was Alderman for the Fourth Ward in 1839 and Assemblyman in 1840. He was eighty-six years old at the time of his death. He was buried from the residence of his son, Charles O. West, No. 337 West Fifteenth street.

COMMANDER F. M. GREEN, U. S. N., is a recent guest at the Everett House, New York City.

CHIEF ENGINEER WILLIAMSON, U. S. N., and family, are sojourning at the Warren Green Hotel, Warrentown, Va.

REAR ADMIRAL UPSHUR, U. S. N., registered at the Clarendon Hotel, New York, on Wednesday, and Capt. R. W. Meade, U. S. N., at the New York Hotel.

COMMANDER WILLIAM GIBSON, stationed at the Washington Navy-yard, was placed on the retired list at noon May 24 on reaching the retiring age. Lieuts. Clinton H. Lyeth and Chas. H. Amsden (junior grade) were retired last Saturday for disability.

THE condition of Chief Engr. W. L. Nicoll remains unchanged, and very little hope is felt that he will ever be any better. He is still under the care of Dr. Nicoll, of New York, his brother, and it is but a question of time when he will be placed on the retired list.

ASST. ENGR. IRA N. HOLLIS, U. S. N., is now on special duty at the Union Iron Works, San Francisco, Cal., where the steel cruiser *Charleston* is being constructed. Following the present policy of the Navy Department it is likely that Mr. Hollis will go to sea in this vessel when completed.

REAR ADMIRAL JOHN J. ALMY, U. S. N., retired, has left his city residence, at 1019 Vermont avenue, Washington, and, together with his family, taken up Summer quarters at Richfield Springs, Va. They are located at the Davenport House, where the Navy contingent at Richfield most do congregate.

LITTLE Miss Dorothy Whitney has received an invitation to her first ball. Mr. James H. Reid, of the class of '88, Naval Academy, has sent her an invitation for the ball that takes place this week. Mrs. Whitney will lay it away for the time when, as a young lady, she will enjoy the idea of her first ball.

COMMODORE GHERARDI, commandant of the New York Navy-yard, has been examined for promotion in anticipation of the vacancy to be made by the retirement of Rear Admiral Franklin in August, as the Examining Board will probably take the usual summer recess during July and August. Captain George Brown is also in a state of waiting for the same event.

NOTWITHSTANDING a request made by Chief Engr. Allen of the *Quinnebaug* to be allowed to remain on that vessel more than a full cruise, he has been detached and ordered home on the reporting of his relief, Chief Engr. W. W. Heaton, who was recently relieved of duty at New York by Chief Engr. R. L. Harris. Mr. Heaton has never made the European cruise, so the field is an untried one for him.

REAR ADMIRAL C. S. BOGGS, U. S. N., retired, is living at New Brunswick, N. J., in a very quiet, comfortable way, and is in the enjoyment of very fair health when his advanced years are taken into account. Admiral Boggs has spent much of his time for a few years past in Europe, but it is his intention to spend the remainder of his life in the land of his birth, surrounded by warm friends and relatives.

MR. SIMPSON, the inventor of the Simpson drydock, is here on business connected with the dock. That gentleman, should he get the contract, will employ a number of shipwrights and fasteners. Whenever he builds a dock he always employs all the labor possible from that vicinity. At certain stages of the work he will employ 250 men. The dock will be completed so as to dock a vessel in 15 months from the date of commencement.—*Norfolk Landmark.*

IT is understood at the Department that the recent orders of Dr. C. W. Deane, of the Navy, to duty in the Mare Island Naval Hospital are preliminary to sea duty in the Pacific, and the particular assignment will probably be the *Iroquois*, especially if it shall be decided to repair her for another commission upon her arrival at the Mare Island Yard. Dr. Deane was a leading and popular member of the Army and Navy German Club of Washington the past winter, and many warm friends wish him all sorts of good luck on the Pacific Slope.

THE medical examining board located at Philadelphia have been rather successful of late in securing physicians for the Navy medical corps. Three of the candidates examined have been recommended for appointment and several others who are likely to pass are about to have a hearing before the board. Of the three who have passed Dr. S. S. White, of Maryland, and Dr. James D. Field, of Virginia, have received their appointment, and an assistant surgeon's commission will be issued to the other, Dr. H. N. T. Harris, of Rockingham county, Va., in a few days. The Surgeon-General feels highly gratified over the result of the spring examinations, and is now hopeful that the ten vacancies in the medical corps, which have existed for so long a time, will soon be filled.

CHIEF ENGINEER WILLIAM J. LAMDIN, having reported his condition as being too serious to permit of coming to Washington has been examined at his home in Perryville, Md., by the Retiring Board, and it is almost certain that he will be recommended for the retired list. This will advance Chief Engineer Ayres to the grade of Commander, and promote P. A. Engr. G. E. Tower, now on the *Boston*, to Lieut.-Comdr. and Chief Engineer. By this last promotion P. A. Engr. Entwistle is brought to the head of the list of his grade, and will be promoted in December next to fill the vacancy caused by the retirement of Chief Engr. W. S. Stamm. P. A. Engr. Towne, having already qualified, will be promoted in due course on the occurrence of the next succeeding vacancy after the retirement of Mr. Stamm.

THE annual fielding exercises at the Michigan Agricultural College opened at Lansing June 3. The dress parade and drill of the cadets showed skill and training as the result of the work of Lieut. J. A. Lockwood, U. S. A., the commandant. On the whole, says the despatch, it is the swellest affair of the kind ever indulged in here.

RECENT DEATHS.

THE Hon. William A. Wheeler, ex-Vice-President of the U. S., died at Malone, N. Y., June 4. Hannibal Hamlin, of Maine, aged seventy-eight, is now the only living person who has ever filled the office of Vice-President.

MRS. KATHARINE PUTNAM GOODENOW, who died May 20, at Portland, Me., was the daughter of the late [illegible] Judah Dana, widow of Judge Daniel Good[illegible] and a great grand-daughter of Major Gen. Israel Putnam, of Revolutionary fame. Mrs. Goodenow was twice married, her first husband being Henry B. Osgood, Esq., of the law firm of Howard and Osgood, of Portland. Mrs. Goodenow leaves two children—one, Lieut. Henry B. Osgood, 3d U. S. Artillery, of Fort Monroe; the other, Mrs. Frances Goodenow Smith, wife of J. Hopkins Smith, of Portland. Mrs. Goodenow was a rare woman, gifted in mind and person, and her life was useful, sweet and noble. She was firm in her convictions of right and justice, while her heart was full of Christian charity and benevolence. She drew around her a large circle of admiring friends, and the news of her death has saddened many loving hearts.

HORATIO MORGAN JONES, formerly a 2d lieutenant, 4th U. S. Artillery, a prominent merchant of Philadelphia, died on the evening of June 2, in the University Hospital in that city, from the results of an accident, met with early in the day. Mr. Jones, who was the only son of the Hon. J. Richter Jones, who served during the war as colonel of the 58th Pennsylvania Volunteers, entered the Military Academy in 1863, was graduated in 1867, and promoted 2d lieutenant, 4th Artillery. He served with his regiment at various stations until June 1, 1873, when he resigned to commence business at Philadelphia as a lumber dealer. He leaves a widow, but no children.

WE regret to learn of the death June 5, at Connersville, Indiana, of Mrs. Watkins, wife of Lieut. R. B. Watkins, U. S. Army. Mrs. Watkins was taken sick while en route from Prescott, Ariz., to Washington in April last, with her husband changing station.

CHIEF ENGINEER ULYSSES MERCUR, of the Supreme Court of Pennsylvania, a relative of Prof. James Mercur, of the Military Academy, died June 6, at Wallingford, Pa.

MR. ROBERT PERLEY DODGE, father of Mrs. Augur, wife of Capt. J. A. Augur, 5th U. S. Cav., died at West Washington, D. C., May 21, in the 70th year of his age.

MRS. JENNIE CROWELL, wife of Captain W. H. H. Crowell, 6th U. S. Infantry, died at Buffalo, N. Y., June 9.

SAD ENDING OF A USEFUL CAREER.

1ST SERGEANT CHAS. B. TERRY, Co. D, 12th Infantry, died at Madison Barracks, Sackett's Harbor, N. Y., on June 2, of exhaustion from fever following gangrene of ring finger of right hand, the result of an accidental wound inflicted on April 28 last while disengaging one of the brass pendant hooks in use with the Service mineral oil lamps.

Col. Townsend in orders relative to the funeral arrangements says of the deceased:

The post commander regrets to announce to the command the death of 1st Sergt. Charles B. Terry, Co. D, 12th Infantry, which occurred this afternoon at 1:40 o'clock. Sergt. Terry was in the Volunteer Service during the late Civil War, and participated in the following engagements:

Kane Hill, Elk Creek,
Honey Springs, Prairie Grove,
Newtonia Poison Springs and Saline River.

After the war he enlisted in the Regular Service, and in 1870 joined the 12th, since which, he has been almost continuously in the regiment. With his company he made the Nez Perce and Bannack Campaigns, and in the defence of Camp Apache, A. T., in 1881, during the Cibicu Campaign, he took a prominent part. He was well known for his courage and zeal, and exhibited a faithfulness to duty, which may well commend itself to all belonging to the regiment.

The funeral will take place to-morrow afternoon at three o'clock with appropriate honors, under the direction of the commanding officer Co. D, who will make all necessary arrangements. The escort will consist of 16 privates, and will be commanded by 1st Sergt. Wm. Brill, Co. G, 12th Infantry. The following are announced as pall bearers: 1st Sergt. John B. Coons, Co. B; 1st Sergt. Patrick Finnigan, Co. F; 1st Sergt. John Willison, Co. I; Sergt. John M. Williams, Co. F; Sergt. Thomas W. C. Jellinan, Co. B; Sergt. Charles G. Thompson, Co. G. Co. D and pall bearers will attend in full uniform with sidearms. Officers and enlisted men of the garrison—other than those above designated—who may wish to attend, will appear in undress uniform with side arms, and follow in procession according to rank.

By order of Col. E. F. Townsend.
F. VON SCHRADER, 1st Lieut. and R. Q. M. 12th Inf.,
Acting Post Adjutant.

The interment occurred on June 3, the entire garrison, augmented by J. K. Barnes' Post, G. A. R., of which Sergt. Terry was an active member, attending.

Sergt. Terry's war service was with Co. G, 6th Kansas Vol. Cavalry. He was the senior non-commissioned officer of the 12th Infantry and was expecting in the near future his well deserved warrant as ordnance sergeant. Saddest of all, he had been but recently betrothed to an estimable young lady, residing near Erie, Pa., and he was wont to dwell with delight upon his bright future, destined, alas! to end like

The hopes that, one by one,
Died, even as we gave them birth,
The dreams that passed ere scarce begun,
Too dear, too beautiful for earth.

With this lady and with his aged mother, living at Lansing, Mich., the burden of their great sorrow is shared by the officers and comrades with whom he had been so long and usefully associated.

His epitaph stands fittingly expressed in the character recorded of Charles B. Terry upon the books of his company: "An excellent soldier and a faultless 1st sergeant."

*** ***

LIEUTENANT H. C. HODGES, Jr., C. P. Townsley and F. Marsh, U. S. Army, of the Military Academy, West Point, sailed for Glasgow, on the Nevada, on Thursday, to spend the summer vacation.

LIEUTENANT CLARKE'S DEATH.

IN answer to the request of Henry W. Clarke that the Navy Department investigate the reported suicide of his son, Lieut. Arthur H. Clarke, on board the *Iroquois*, at Panama, a few weeks ago, the following official letter has been sent to Mr. Clarke:

NAVY DEPARTMENT, WASHINGTON, June 1, 1887.

Henry W. Clarke, Jr.:

DEAR SIR: Having just seen a statement in the newspapers that you are convinced that your son was murdered on board the *Iroquois*, I write to disabuse your mind of such an impression. I was commanding and on board the United States steamship *Iroquois* at the time, and your son has been under my command nearly a year, always correct and gentlemanly and without any bad habits so far as his messmates or I could discover. The location of the room in which he was shot, opening only into the steerage, with a thin curtain across the entrance, the presence of a number of officers, his messmates, sitting at the wardroom table, with both wardroom doors open, commanding a full view of the steerage, and of the entrance to this room and of the steerage officers seated at the mess table, and the presence of another steerage officer in the next room, separated only by a thin partition from the room in which he was shot—all taken together would render the escape of any one who had shot Lt. Clarke impossible. The reports of two shots immediately drew the eyes of a number of officers to the entrance of the room, and some of them got there and pulled the curtain aside almost instantly. Lieut. Clarke's body was seen lying on the deck, with a revolver near his right hand, with a large bullet wound through the right eye, and a larger one through the back of the head where the bullet came out. This wound must have caused instant death. Another bullet had entered the right chest and passed entirely through the body, coming out near the right shoulder blade. The Surgeon of the *Iroquois* thinks the first shot was fired with the muzzle of the revolver placed against the right eye, and that the shot through the chest was fired instantly afterward as his hand was dropping, by the convulsive contractions of the muscles, as the revolver was self-cocking. Arthur's helmet was found placed carefully in the bed. If you have ever been in the steerage of the *Iroquois* you would know that no murderer could escape under the circumstances without being seen. I was detached from the command of the *Iroquois* on May 11 in consequence of my promotion and ordered to Washington. Yours truly,

J. C. WATSON,
Commander, United States Navy.

GRADUATING EXERCISES AT WEST POINT.

THE annual exercises at the Military Academy close this week with the delivery of the diplomas to the graduating class on Saturday. The general merit roll of the class of 1887 is as follows:

1. Shunk, Francis R., Pa.
2. Meyler, James J., N. S.
3. Lucas, E. W. V. C., N. Y.
4. Wheeler, Chas. B., Minn.
5. Young, Edward C., Mo.
6. Davis, Richmond P., N. C.
7. Squier, Geo. O., Mich.
8. Hines, Ernest, Ala.
9. Robinson, Wirt, Va.
10. Jenkins, John M., S. C.
11. Russell, Edgar, Mo.
12. Landers, Geo. F., Md.
13. Gatchell, George W., R. I.
14. Wilkins, Harry E., Ill.
15. Straub, Oscar L., Pa.
16. Hunter, Alfred M., Ill.
17. Peck, Tremont P., N. Y.
18. Lewis, Eason A., Mich.
19. Martin, C. H., Ia.
20. Miley, John D., Ill.
21. Lochridge, P. D., Miss.
22. Stavens, Thos. H., Mo.
23. McCure, Nathaniel F., Ky.
24. Rivers, Wm. C., Tenn.
25. Schumm, Herman C., Wis.
26. Bourke, Jas. C., Mo.
27. Weigel, Wm., N. J.
28. Tripp, Frederick A., N. Y.
29. Evans, Elwood W., Md.
30. Paxton Robert G., Va.
31. Gregg, John C., Pa.
32. Alexander, John H., Ohio.
33. Harman, John A., Va.
34. Donaldson, T. Q., Jr., S. C.
35. Williamson, G. McK., Pa.
36. Hanson, Thomas G., Cal.
37. Beach, Francis H., N. Y.
38. Hall, T. W., Ill.
39. Moriarty, A. J., Conn.
40. Gray, Alonzo, Iowa.
41. Bruce, Wm. E., Ohio.
42. Hall, H., Mo.
43. Isham, Pierrepont, at L.
44. Foster, Arthur B., Ill.
45. Cronin, M. D., Mass.
46. Dade, Alexander L., Ky.
47. Farnsworth, Chas. S., Pa.
48. Gerhardt, Chas., N. C.
49. Seay, Samuel, Jr., Tenn.
50. Baker, Wm. P., Ark.
51. Loveridge, Eugene L., N. Y.
52. Dean, James T., Ohio.
53. McAlexander, U. G., Kas.
54. Jones, Wm. K., Iowa.
55. Wittenmyer, Edmund, O.
56. Evans, F. D., Ill.
57. Lenihan, Michael J., Mass.
58. Wassell, Wm. H., Pa.
59. Hersey, Mark L., Me.
60. Taylor, Walter L., Ga.
61. Schenck, Bard P., N. Y.
62. Adams, Henry R., Ohio.
63. Smoke, Samuel A., Fla.
64. Albright, Frank H., Ohio

The Alumni of the Academy held their annual meeting on Thursday. The opening address was made by Major Mordecai, of the class of 1823. He told how he came to the Point on the *Chancellor Livingston*, the last boat built by Fulton, and now he had skated on ice in a pond where the present parade ground stretches away as a velvety carpet of grass. One of the graduates moved that Congress be petitioned to allow the graduates or veterans in the service to have a degree conferred upon them similar to other colleges indicative of their having graduated. The proposition was defeated after some words in opposition to it from Gen. Sherman. A committee was appointed to design a button to be worn by graduates in a manner similar to the one now used by the members of the Loyal Legion. The Alumni dinner, which was the usual informal affair, was attended by Isaac R. Tremble, of '22; Major Mordecai, '23; E. B. Alexander, '23; Geo. W. Cullum, '33; Henry L. Kendrick, '35; Thos. B. Arden, '35; Israel Vogdes, '37; Edmond Bradford, '37; Hamilton W. Merrill, '38; Wm. T. Sherman, '40; Stewart Van Vliet, '40; Oliver L. Shepherd, '40; Franklin F. Flint, '41; George W. Rames, '42; George S. Macalmont, 42; Wm. F. Smith, '45; Edmond F. L. Hardcastle, '46; Darius N. Couch, '46; John Hamilton, '47; Daniel T. VanBuren, '47; Wm. W. Burns, '47; H. C. Simonds, '53; Robert H. Anderson, '57; Samuel F. Lockett, '59; Jos. Wheeler, '59; Daniel W. Flagler, '60; Jos. P. Farley, '61; James R. Reed, '65; Albert D. Palmer, '65; Warren C. Beach, '65; Elbridge R. Hills, '66; Francis L. Hills, '66; Leander T. Howes, '67; Henry Metcalf, 68; David S. Dennison, '68; Loyall Farragut, 68; Chas. Braden, '68; George Smith, '70; Alexander S. Bacon, '76, beside the professors and instructors stationed at the post.

GRADUATING EXERCISES AT ANNAPOLIS.

THE graduating class at the Naval Academy received their diplomas on Friday, the order of standing being as follows:

1. Robert Stocker, Minn.
2. F. W. Hibbs, Minn.
3. Elliott Snow, U. T.
4. B. C. Decker, Illinois.
5. Mark L. Bristol, N. J.
6. B. W. Wells, Illinois.
7. N. T. McCulley, S. C.
8. Walter S. Burke, Ill.
9. William S. Cloke, N. J.
10. B. W. Stearns, Iowa.
11. L. C. Bertolette, Del.
12. S. R. Hurlbut, Conn.
13. E. Moale, Jr., M. T.
14. H. F. Bryan, Ohio.
15. W. G. McMillan, N. C.
16. E. W. Durell, Mass.
17. G. W. Logan, Ohio.
18. Andrew T. Long, N. C.
19. Ford H. Brown, Iowa.
20. H. L. Heckham, R. I.
21. T. Washington, N. C.
22. A. H. Scales, N. C.
23. C. M. Stone Indiana,
24. C. Churchill, Mo.
25. A. H. Davis, N. C.
26. C. E. Johnston, Ohio.
27. H. L. Draper, Kansas.
27. F. Boughter, Pa.
29. Victor B. Lue, S. C.
30. M. R. Pigott, Mass.
31. S. P. Edmonds, Mo.
32. G. H. Burrage, Mass.
33. Frank N. Russell, Pa.
34. Ross Coleman, Cal.
35. Henry A. Allen, Wis.
36. R. H. Jackson, Ala.
37. F. Swanstrom, Minn.
38. C. S. Cochran, Ohio.
39. J. E. Ballinger, Kan.
40. Colin S. Craig, Iowa.
41. C. E. Hudson, Ark.
42. W. B. Moseley, Texas.
43. L. Le S. Young, La.
44. T. M. O'Halloran, Pa.

The youngest member of the class is Francis Boughter, who is eighteen years and four months old, and the oldest is H. F. Bryan, who is twenty-two years. The first three on the list are "star" members.

LATE ARMY ORDERS.

Hospital Steward Felix Fettig is retired from active service. (S. O., H. Q. A., June 10)

Leave for one month is granted 1st Lieut. Albert Todd, 1st Art., (Vancouver Barracks.) (S. O. 80, D. Columbia, June 6.)

The C. O. Fort Walla Walla will grant a furlough for two months to Hospital Steward H. Nebelsieck. (S. O. 81, D. Columbia, May 26.)

2d Lt. R. B. Bryan, 2d Cav., Fort Walla Walla, will proceed to Fort Sherman and report for duty with Troop L. (S. O. 81, D. Columbia, May 27.)

Lieut. C. D. Cowles, 23d Inf., is relieved from recruiting service July 1, and will then join his company at Fort Mackinac (S. O., H. Q. A., June 11.)

The leave of Lieut. John A. Johnston, 8th Cav., is extended to August 28. (S. O., H. Q. A., June 10.)

Lieut. G. H. Sands, 6th Cav., is granted leave for six months, from August 1. (S. O., H. Q. A., June 10.)

Surg. B. E. Fryer, found incapacitated by a Retiring Board, is granted leave until further orders. (S. O., H. Q. A., June 10.)

The leave of Capt. T. J. Gregg, 2d Cav., is extended until further orders. (S. O., H. Q. A., June 10.)

ENGINEER MELVILLE'S GREAT FEAT.

A WASHINGTON despatch to the dailies says:

A great deal of noise has been made by the Navy Department over the accomplishment by Chief Engineer Melville of the extraordinary feat of preparing designs, plans and drawings of the machinery for the new ships in the remarkably short space of two weeks. It now turns out that the plans presented by Melville are simply copies of original English drawings, and while credit is due to him for his speedy mechanical work, the surprise occasioned by the supposed marvel in producing original drawings has disappeared.

The original designs were purchased from England, and it is claimed that two of the cruisers will develop a speed of 19 knots an hour if the engines bring out a horse power of 10,500. As no engines have ever been built from these plans the machinery must be regarded in the light of an experiment. It is the opinion of some American engineers that the engines will be too light. The British Admiralty has found its high-power machinery too weak to do the work required of it, and the same result is predicted from the new plans.

NAVAL RIFLE SHOOTING.

THE latest addition to the Brooklyn, N. Y., Navy-yard novelties and recreations is a 300 yard shooting range which has been located along the big wall in the vicinity of the York street entrance. The range is said to be an idea of Capts. Kirkland and Cooke. Capt. Cooke ordered the construction of the range about three months ago, and on May 21 he announced that it was completed and would be ready for practice about a week from now. All enlisted officers and men can go to the target in squads and practice according to the rules drawn up by Capt. Cooke, captain of the yard. Special days will be set apart for both officers and men, and rewards will be given to the best shots. By courtesy the officers of the 14th Regiment the Navy-yard Riflemen have heretofore practiced in the Portland Avenue Armory range.

(Correspondence of the Army and Navy Journal.)

AFFAIRS AT PENSACOLA.

MEMORIAL DAY was celebrated this year jointly by the James A. Garfield Post, G. A. R., and a Camp of the Florida Division, Confederate Veterans, the greater part of whom came from Pensacola in tugs. They were escorted by the Escambia Rifles, preceded by Myers' cornet band, an organization of colored men. At the entrance to the beautiful Barrancas National Cemetery, the delegation was received by a company of Marines in their neatest and most tasteful uniform, the summer fatigue, under command of 1st Lieut. T. G. Fillette, and after making the circuit of the grounds to slow music, and with arms reversed, line was formed near the flagstaff, and three volleys fired. A prayer and several orations followed, and the day passed very pleasantly; the crowd revelling in the delightful air of the pine groves and the contents of lunch baskets.

The Marines placed a large and beautiful wreath, surrounding U. S. M. in letters of silver, upon the conspicuous monument which marks the resting place of their fallen comrades, and a committee consisting of Lieut. Comdr. W. C. Gibson, Captain H. C. Cochrane, U. S. M. C., Surgeon J. W. Ross, and P. A. Paymaster H. E. Drury, U. S. N., visited the new naval cemetery as well as the National cemetery, and decorated the graves of many who once belonged to the Navy or Marine Corps. Among them were the tombs of Capt. Edward P. Lull, Lieuts. Roderick Prentiss, O. H. Berryman, T. C. Terrell, and T. C. Grove, Surgeon A. M. Owen and wife, Surgeon John Rudenstein, Asst. Surgs. Dearing and Fairfield, Paymasters Paugborn and Z. T. Brown, U. S. N., and Captains W. H. Hale, and D. D. Baker and Lieuts. W. B. Slack, U. S. M. C., Mary Brevoort Sherman, daughter of the late Captain A. N. Brevoort, U. S. N. C., and Mrs. Eliza Ingalls, wife of Capt. J. M. Ingalls, 1st U. S. Artillery; more than half of them victims of yellow fever.

Mrs. Col. Langdon, who has been quite ill recently, expects soon to leave her charming home to try the air of the high lands at Marietta, Ga., and Mrs. Lieut. Crawford is going to join in the annual hegira and transfer to her family and friends in Washington her genial and gifted presence. Lieut. Parker continues so ill as to be unable to avail himself of a sick leave.

At the Naval Hospital there are five sick men of the Marine Corps. Sergt. D. W. C. McCloskey is suffering from paralysis of one side and Corpl. Cornelius McKinney from tuberculosis. The latter was transferred here from the Brooklyn hospital for treatment, and is in a fair way to get well, having regained his customary weight.

NO INFORMATION has been received at the Navy Department concerning the suicide of two officers of the Army and Navy, respectively, reported from London, June 5, to have occurred at Monte Carlo, Italy. The only officer of either service known to have been in that vicinity recently, is Lieut. J. R. Williams, 3d Art., but from last accounts he had returned to Paris. Neither the *Quinnebaug* nor the *Pensacola*, the only two vessels of the European squadron, have been in that locality for some weeks and as it is not known that any other Navy officers, have been travelling in Italy lately the Department cannot imagine who the unfortunate Navy officer is. In the absence of any particulars officials of both departments are inclined to discredit the report. It is thought by Army officers that 2d Lieut. John J. Shaw, who was lately dropped from the rolls of the Army as a deserter, may be the Army officer referred to.

RETIREMENT OF CHAPLAINS.

PRESIDENT CLEVELAND will have the appointment of but one more Army Chaplain during the remainder of his administration, unless some unexpected vacancies occur. This will be the successor to Chaplain Wm. T. McAdam who retires, on account of age, August 5 next. Two other retirements will occur the same month the President's term expires, but too late for Mr. Cleveland to fill the vacancies. The youngest chaplain in the Army is Thomas W. Barry, who does not reach the retiring age until September 28, 1916.

The following will show the dates of retirement of all chaplains, including regimental:

Kendig, Daniel, Nov. 10, '88.	McWatty, Robt., Jan. 10. '92.
Herrick, O. E., April 25, '90.	Scott, Winfield, Feb. 26. 1901.
LaTourette, J. A. M., Mch 23, '90	Nave, O. J., April 30, 1905.
Simpson, G. W., June 29, 1902.	Merrill, S. M., Oct. 28, '98.
Dunbar, Geo. W., March 8, '97.	Parker, John D., Sept. 8, '95.
Robinson, Geo., March 19, 1905.	Barry, Thos. W., Sept 28. 1916.
Jackson, J. W., March 20, '88.	Lewis, John V., Feb. 17. 1900.
Collier, Geo. W., Aug. 29, '89.	Scott, Wm. H., Sept. 5, 1902.
Dodd, S. G., March 24, '90.	Potter, Jos. A., Dec. 2, 1903.
McAdam, Wm. T., Aug. 5, '87.	Hammond, B. C., Nov. 22, 1903.
Macomber, J. H., Feb. 13, 1900.	Pearson, Wm. H., Jan. 2, 1912.
Blaine, M. C., Nov. 25, 1910.	Seibold, John S., Sept. 15, 1902.
Wilson, David, March 30, '90.	Tully, Wm. K., Nov. 9, 1915.
Lindesmith, E. W. J., Sept. 7, '91.	Hubbard, W. F., Dec. 19, 1908.
McCleery, J. B., July 13, 1902.	Swift, Henry, Sept. 21, 1912.

Regimental Chaplains.

Mullins, G. G., 25 Inf., Ap. 1, 1905.	Weaver, F. H., 10 Cv., May 20, 1908
Allinsworth, Allen, 24th Inf., April 7, 1906.	Plummer, H. V., 9th Cav., July 31, 1908.

A NEW SYSTEM OF TACTICS.

WE are permitted to publish the letter which follows and to which we make reference elsewhere.

FORT LEAVENWORTH, KANSAS, June 6, 1887.

General E. L. Molineux:

In compliance with your request I have the honor to submit the following statement of some of the many reasons which have induced me to attempt the preparation of a new system of infantry drill.

Speaking generally our war is to be regarded as the close of the muzzle-loading period, the Austro-Prussian war as the birth of the breech-loader, the Franco-Prussian war as opening all eyes to the necessity of open-order fighting, the Russo-Turkish war as heralding the advent of magazine rifles to offset machine guns.

The best authorities claim that a solid line can never again be marched to the attack under heavy fire. If the touch of the elbow, characteristic of the solid line, is to be instantly given up under fire, why retain it for manœuvres?

If the firing line is to be in open order, why burden a man's action with the effort to remember what he should do as number one of the front rank of a set of fours in contrast with what he should do as number one of the rear rank of the same set of fours? What becomes of the unit of four when one or two comrades are knocked out?

All authority recognizes the necessity for having men, engaged in a life and death struggle, feel that their own well known comrades are at hand to help them in a tight place or to clinch a hard earned success, and while it is deemed impossible to avoid the final mingling of different organizations in the course of a stubborn contest, it seems possible to limit such mixing to companies of the same regiment, and it is certainly practicable to postpone any mingling much beyond the period which the present system admits of.

The German soldier in France soon found that his right hand comrade belonged to another regiment, that the man on his left came from a different brigade, while his own captain was trying to urge on a lot of strangers away off to the right. It need scarcely be asserted that under such circumstances that body of men which is acting under its own immediate commander, aided by its own messmates, is worth more than many times its number in a mob.

In the system of drill which I have devised I have endeavored to meet the following requirements:

The captain is to control his own firing line without having to look to some other organization at the first pinch.

The individual man is never to be numbered, he, himself, is the unit and not one-eighth or one-fourth of a unit.

Troops in any formation in line or in column should be able to march with plenty of elbow and leg room; they must also be able to lie down in line or in column, at full distance or closed in mass without disarranging their formation.

Linear elasticity should not be tactically confined to skirmishers. Linear extension and contraction should be tactical with the main body also, varying between the touch of the elbow and any desired interval.

A company should be able to throw out skirmishers from line or from column with equal facility, and the captain should be able to deploy the whole or such fraction or fractions as circumstances require.

When a company gets the command to *Fall in* it should not waste time in *counting fours.*

Conceding this last requirement consider the case of a company at the head of a battalion in column of fours. Having made a march along a dusty road the command is halted for a short rest. The men break ranks and lie down on the grass on either side. The captain receives an order to hurry forward, deploying as skirmishers while marching. The commands have to be: *Fall in, Left face, Count fours.* The company then has to march by the flank, then form line to the front and at last begins its deployment of skirmishers.

Recently I took a hundred men and made them break ranks to illustrate the above conditions. Three commands were then given, viz.: *Fall in, Deploy* and *Commence firing.*

They were timed by the watch. In one minute the hundred men had formed the company, had deployed systematically nearly one hundred yards forward and each man was in position firing lying down.

With men accustomed to the proposed system the above time can be diminished considerably.

The captain in this system is a battalion commander on a small scale.

The individual man not being numbered, it makes no difference whether he finds himself on the right or left of another man with whom he was not formerly in juxtaposition. So a lot of men may rush pell mell into shelter and from that rapidly space themselves for firing, only to soon make another rush. *There is method in apparent confusion,* and that is what every military system is striving for.

For parades, reviews, etc., the touch of the elbow is to be had if desired.

While the system is in no sense a revision of the present system of tactics, anyone acquainted with the latter can learn the new in two or three hours.

The hundred men with whom I experimented recently took to it without difficulty, and I am confident that entirely new troops can by it be made efficient in much less time than would now be required.

I am supported by every officer who has witnessed this drill in the assertion that it is very simple and certainly this is one of the requirements of all systems and the object most desired. In this radical departure from all existing systems I have been controlled by the desire for simplicity and by careful study of the acknowledged best writers upon this most important and growing subject.

Very respectfully,
Your obedient servant,
H. S. HAWKINS, Major, 10th Inf.

(Special Correspondence of the Philadelphia Press.)

BRINCKLE'S BATTERY.

WILMINGTON, Del., June 4.

THERE clattered into Doylestown a week ago a body of military looking men, the like of whom had not been seen there for a hundred years. The rumble of gun carriages waked echoes in the streets. The clanking of sabres rang out on the summer air. A bugle sounded "halt," and the strange cavalcade went into camp in the very heart of the town, while thousands of people flocked from every section of the countryside to see who the invaders were.

Invaders they were, but the invasion was a peaceful one. It was only Major John R. Brinckle's Light Battery F, 5th U. S. Artillery, on their summer march from New York to this place and return. They arrived here yesterday and encamped in the highlands back of the town, but their coming had been heralded beforehand and it created nothing like the amazed interest that it did in Doylestown and all through that section of Bucks County.

Battery F consists of 54 men, 55 horses and four guns. Two of them are old smooth bore pieces and two are breech-loaders. All looked rusty and mud-bespattered when the battery went into camp, for the march had been a long and tiresome one. It had begun in Fort Hamilton New York Harbor, ten days before, and had been kept up continuously at the rate of from fifteen to twenty miles a day. The horses looked rather fagged out, and the men for the most part travel-stained and tired. Major Brinckle was, however, as fresh as a daisy. He is a fine-looking soldier, and is every inch a cavalry officer. His twenty-six years of service have rested well upon his broad shoulders. His hand some face is bronzed by exposure, and when he is off duty it lights with a smile of kindly greeting to visitors and men.

The encampment is located upon Major Brinckle's own ground. He was a Delaware boy and his family own broad acres on every side. The officers tents are on the edge of a picturesque old orchard. A fringe of undergrowth runs back of the tents and the silk guidon flutters beneath a scraggy tree in front of the Major's quarters. Back through the trees the old mansion where the commanding officer was born shows its modest gable, and down the hillside to the South the Christiana lowlands stretch like a panorama for miles. The other officers are Lieut. Paul Roemer, Lieut. Henry J. Reilly, Lieut. A. C. Blunt, and Asst. Surg. R. G. Ebert.

The camp routine will be dull enough for a day or two, but the battery will remain for at least ten days, and, beginning with next week, there will be almost daily drills. The men say they like it, but they did not appear to-day while getting things in order. Some of them were engaged in cleaning and oiling harness. Others were engaged scraping the caked mud from the wheels of the heavy caissons.

Four or five men were plying saw and hatchet preparing to erect the tents, and a row of hardy fellows lolled on the grass near the orchard fence and gossiped. The trip is a sort of a summer picnic for the boys, but is known as a march of instruction. Shut up in Fort Hamilton the men have the opportunity of learning very little about camp life, marching or active drills. A number of them have only recently enlisted. For the most part they are hardy, muscular fellows with frank, manly faces and a great love for a joke. They shoe their own horses and shave each other, and say they are perfectly contented with their lot.

The supplies for horses and men are purchased from day to day. It requires almost a small fortune to purchase forage and food. The fifty-five horses consume 650 pounds of oats and 750 pounds of hay a day. They present a pretty picture while feeding. The horses are stoutly built and most of them are bays.

The officers are having a pleasant time visiting through the neighborhood. Invitations are pouring in upon them from all parts of Wilmington and the suburbs, and if they accepted all they would be engaged in making social calls all the time. Lieutenant Paul Roemer has about him a strong sense of the humorous. He wittily tells how one of the Chester County towns was entered to avoid excessive tolls. Only a certain amount is allowed for the trip, and on approaching the town it was learned that it would require $7 tolls over the turnpikes leading into the town. It was necessary to save the $7, and a council of war was held. The battery was separated into sections, and advanced upon the town through byways in small parties, and the payment of tolls was thus avoided.

While in Norristown the men visited the grave of General Hancock. It is the battery that fired the salute over his grave on the occasion of his funeral in 1886.

When camp is broken ten days hence the return march will be taken up for New York, but an entirely new route will be followed. It is probable that one night will be spent on the Brandywine battlefield, and that the scene of the battle of Germantown will be visited.

THE FACTS OF THE CASE.

To the Editor of the Army and Navy Journal:

I DESIRE to say a few words in reference to an item which was copied from a daily paper in your issue of June 4, regarding Gen. Hancock's trip to Mount McGregor to prepare for the burial of Gen. Grant, and the wounded dignity of Mr. Arkell.

The case is simply this: A special train (which consisted of an engine, a passenger coach and a baggage car), had been engaged to take Gen. Hancock and his party up the mountain. When the General arrived at the depot he found a large number of persons waiting there who wanted to go on the train. He at once directed that none but his party should be allowed to go on the cars and stationed himself at the gates to see that his orders were carried out, and when all his party had passed in he said "that's all."

This may have wounded the dignity of Mr. Arkell, but there is no foundation whatever for the statement that the General was not half dressed and in a furious rage, when he got to the mountain; nor for that of his pulling and pulling at the bell-rope. Soon after the train was in motion the General went to the baggage car and there changed his civilian clothes for his uniform and returned to the passenger coach in full dress, and in the best of humor, some time before reaching the mount—long enough at least to enable him to dictate three or four telegrams, which were ready for dispatch before the train stopped. ONE WHO WAS IN THE BAGGAGE CAR.

REPORT ON THE "ATLANTA."

WE have already referred to the report of the Naval Advisory Board on the *Atlanta.* referring to the reports of Capt. Bunce the Board say:

(1.) The opinion advanced by Capt. Bunce in his report, dated April 18, 1887, viz.: That the power developed by the auxiliary engines should not be counted in the computation of the collective horse-power developed by the machinery during the contract full-power trial, is erroneous; the term "collective indicated horse-power," being used in the contract to signify the sum of the horse-power obtainable from all the boilers and developed by the main engines, and the several auxiliary steam engines in operation during the trial.

(2.) The Board is of the opinion that the estimates of the aggregate power developed by the auxiliary engines during the trial, as given in the inclosure marked "A," of Captain Bunce's report of April 18, viz.: 3.2 I. H. P., is reasonable, and submits in this connection the following statement: The Board's original estimate of the power to be developed by the machinery during the trial, including the following auxiliary engines, viz.: Two main air and circulating pumps, one auxiliary condensed pump, one tank pump, two main feed pumps, four fire-room blowers, aggregating 250 I. H. P.

The following additional auxiliary engines were in operation during the trial, viz.: Two additional fire room blowers, two ventilating blowers, the compartment pumps, the electric light engine and the steering engine, aggregating 102 I. H. P. Total aggregate power of auxiliary machinery during the trial, 352 I. H. P.

(3.) The Board accepts the indicator cards taken during the trial of the *Atlanta* as substantially correct and representing the actual power developed by the main engines. Careful measurements and computations of the indicator diagrams made by the Board, give the following results, viz.:

Mean collective indicated horse-power developed by the machinery and maintained during six consecutive hours, 3,356.36 I. H. P. Maximum collective indicated horse-power developed by the machinery during the trial, 3,511.26 I. H. P. According to the Board's computations the mean I. H. P. was 28.37 I. H. P. greater than given in the enclosure marked "A," of Capt. Bunce's report of April 18, 1887. The mean collective I. H. P. developed by the machinery and maintained for six consecutive hours was 143.64 I. H. P., or 4 and 1-10th per cent. less than the collective power required by the contract. After a careful examination and consideration of the contract specifications and the conditions and results of the full-power trial of April 18, 1887, and after an inspection of the U. S. S. *Atlanta,* with a view of ascertaining her condition as completed under the contract, the Naval Advisory Board reports as follows:

(1.) The working of the machinery during the trial was satisfactory with the following exceptions [these exceptions refer to the oiling arrangements of crank pins; irregularity in the working of the main feed pumps; to the absence of an eccentric shaft; leaks in boiler with flanges.]

(2.) The failure to maintain for six consecutive hours the collective I. H. P. required under the contract, viz.: 3,500 I. H. P. was not due to defective workmanship or material, except in so far as it was due to the insufficient oiling arrangement of the two L. P. crank-pins.

(3.) The engines and work pertaining thereto are duly completed in accordance with the contract, specifications and authorized modifications, with the following exceptions:

The felting and lagging of the top of the steam chest bonnets has been omitted; the propeller with adjustable blades is not yet completed; the blades have been tested and accepted and are now being fitted to the hub.

(4.) The total weight of the engines and machinery; boilers, appurtenances and spare parts, complete according to the specifications, and including water in the surface condensers and boilers as determined from certified records of the actual weight of the parts of the machinery as they were sent on board the vessel to be connected up, is 684.670 tons, and does not exceed by five per cent. the estimated weight of 664 tons, as previously reported by the Board in its letter of April 5, 1887.

(5.) The hull and fittings are found to be strong and well built, and in conformity with the contract, drawings and specifications, with the following exceptions:

Gun gaskets are to be fitted to the iron shutters of the Hotchkiss towers to make them water-tight. Two additional ring bolts are to be supplied and fitted for each anchor with a view to increased security. The awning stanchions are required to be stiffened. A drain-cock is required for the magazine flood cocks, and is now being fitted.

The Board recommends that the Bureaus of Construction and Repair and of Steam Engineering be instructed to have the several items of incomplete work, enumerated above, done without delay; but in view of the fact that the assignees raise the objection that some of this work is not required under the contract, it is respectfully recommended that the question to whom the cost is chargeable be left open as a matter for future consideration.

In conclusion, the Board respectfully makes the following recommendations regarding certain work appertaining to the hull and machinery not required under the contract, but tending to increase the efficiency of the vessel, viz.: That new brass protective plates be fitted over head-lights; that the two small after shaft alley ventilator rods be hinged; that the brass locks and hinges on the bulkhead doors be replaced with steel hinges and clamps; that the hood over the galley be extended so as to enable it to carry off the steam, etc., from the alley; that an additional valve be fitted to the cabin water closet; that the steerage transoms be fitted with portable berth boards.

The Board is of the opinion that the efficiency of the vessel will be greatly increased both in power and reliability of working, by removing the pressure blowers from the flats on which they are now located and putting them on the deck above. This can be done without interfering with other work.

LIEUTENANT ELIAS CHANDLER, 16th U. S. Infantry, of Fort McIntosh, Texas, will spend July, August, and September in the North.

THE ARMY.

G. O. 39, H. Q. A., June 7, 1887.

By direction of the Secretary of War paragraph 786 of the Regulations is amended to read as follows:

786. In accepting recruits at rendezvous, Greenleaf's Epitome of Tripler's Manual gives the required standard of qualifications, and is also the standard for inspection after the recruits arrive at the depot; except that the following instructions will govern in examining the eye and ear:

1. No recruit shall be enlisted who cannot see well, at six hundred yards distance, a black centre three feet in diameter on a white ground. The test will be made by means of cards bearing the twenty feet test-types and test-characters of Snellen, which will be supplied by the Surgeon General; the types to be used for men who can read and the characters for those who cannot read.

After arrival at the depot, the medical officer shall make further examination of the recruit with the charts, glasses, and other visual tests furnished him, with the view of determining the existence of *astigmatism* or other defects of vision which have not been discovered at rendezvous, and any defect which would disqualify the recruit for rifle service is cause for rejection.

2. Recruits will also be examined for *color-blindness*. Any defect observed will be noted on the descriptive list of the soldier, but will not of itself constitute a cause of rejection, except in the case of enlistments for the Signal Corps. The examination for this defect will be made by the method of Holmgren. Test-wools for the purpose, accompanied with printed directions for their use, will be issued to the principal recruiting depots by the Surgeon General.

3. All men enlisted for the artillery arm of the Service at a military post, or assigned to that arm from a depot, shall, before such enlistment or assignment, besides undergoing the ordinary examidation, be examined specially with a view to establishing the fact of the patency of the Eustachian tubes and the integrity of the tympanic membranes, in default of which the men are unfit for that arm.

By command of Lieutenant General Sheridan:

R. C. DRUM, Adjt.-Gen.

CIR., WAR DEPARTMENT, A. G. O., June 1, 1887.

Announces that the First National Bank of Minneapolis, Minnesota, has been designated a depository of public moneys.

CIR., WAR DEPARTMENT, A. G. O., June 1, 1887.

Publishes a list of disbursing officers of the War Department.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Commissary Sergt. Elihu J. Carpenter will be relieved from duty at Fort Randall, D. T., and will proceed to Fort Keogh, Montana Ty., reporting upon his arrival to the C. O., to relieve Commissary Sergt. Charles Pfahler, who, upon being relieved, will proceed to San Carlos, A. T., to relieve Commissary Sergt. Garrett Farley. Commissary Sergt. Farley upon being thus relieved will proceed to Fort Randall, Dakota Territory, for assignment to duty at that post (S. O., June 7, H. Q. A.)

Pay Department.

S. O. 106, directing that Major Charles McClure, Paymr., be relieved from duty at Newport Barracks, July 1, is amended to direct that he be relieved after completion of his payments on rolls of June 30 (S. O., June 4, H. Q. A.)

Major Charles McClure, Paymr., will stand relieved from duty at Newport Barracks, Ky., and in the Div. of the Atlantic, after he shall have completed his payments on the rolls of June 30 (S. O. 116, June 8, Div. Atlantic.)

Leave for twenty days, to commence on or about June 8, is granted Major Francis S. Dodge, Paymr., New York City (S. O. 114, June 4, Div. Atlantic).

The leave granted Major Joseph W. Wham, Paymr., New York City, is extended two days (S. O. 114, June 4, Div. Atlantic).

Medical Department.

A. A. Surg. S. H. Knowles is relieved from duty at Fort Du Chesne, Utah, and will proceed to Cheyenne, Wyo., and report to Capt. Charles Parker, 9th Cavalry, for duty in the field with his command (S. O. 53, June 1, D. Platte).

The extension of leave on surgeon's certificate granted Major Wm. S. Tremaine, surgeon, is still further extended two months on account of sickness (S. O., June 6, H. Q. A.)

Major Wm. H. Forwood, surgeon, is detailed additional member of the general court-martial at Fort Meade, D. T. (S. O. 50, May 28, D. Dakota).

Leave for six months on surgeon's certificate is granted Captain Aaron H. Appel, asst. surg. (S. O., June 3, H. Q. A.)

Hospital Steward Michael Tyrrell is placed upon the retired list (S. O., June 4, H. Q. A.)

Engineers and Ordnance Departments.

Leave for two months, to take effect about June 14, is granted 1st Lieut. Irving Hale, C. E. (S. O., June 2, H. Q. A.)

Col. John M. Wilson, C. E., will proceed to Newburgh, N. Y., on business connected with the construction of the monument at Washington's headquarters at Newburgh (S. O., June 2, H. Q. A.)

Signal Corps.

Junior Professor Henry A. Hazen, Sig. Service, will proceed to St. Louis, Mo., and accompany Mr. Alfred E. Moore on a balloon voyage, on or about June 10, 1887. Professor Hazen will submit, after his return, a full report of the trip and of the observations made by him (S. O. 37, June 1, Sig. Office).

The following changes in the stations and duties of officers of the Signal Corps are ordered, to take effect as soon after July 1, 1887, as practicable: 2d Lieut. James A. Swift will proceed from Washington, D. C., to San Francisco and Point Reyes, Cal., to examine and report upon the telegraph line to be constructed between those points, via Point San Jose, California, and upon the completion of this duty will proceed to Ashland, Oregon, and assume charge of all the United States military telegraph lines transacting commercial business in California, Oregon, and Washington Territory, relieving Captain Francis B. Jones, assistant quartermaster. 2d Lieut. Wm. D. Wright, Signal Corps, will proceed from Washington, D. C., to Wood's Holl, Mass., and relieve 2d Lieut. Julius H. Weber of charge of the sea-coast telegraph line in that vicinity. Lieut. Weber, upon being relieved, will proceed to San Antonio, Texas, and assume charge of all United States military telegraph lines transacting commercial business in Texas, Indian Territory, and New Mexico, relieving Captain Francis B. Jones, assistant quartermaster (S. O., June 7, H. Q. A.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott Tex.

Leave for six months on Surgeon's certificate, with permission to leave the Div. of Missouri, is granted 1st Lieut. James O. Mackay (S. O., June 7, H. Q. A.)

5th Cavalry, Colonel James F. Wade.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

1st Lieut. Eben Swift will report to Brig.-Gen. Wesley Merritt, Superintendent, West Point, for duty as Aide de-Camp (S. O., June 1, H. Q. A.)

Leave for four months, from June 18, on Surgeon's certificate, in extension of his present ordinary leave, is granted 1st Lieut. Henry J. Goldman (S. O., June 3, H. Q. A.)

The correspondent of the Fort Riley *Union* says that the arrival of Colonel Wade's horses created quite a sensation. Riley people must be easily excited or the horses are indeed better than those possessed by the 5th Cavalry, public or private.—*Kansas City Times.*

7th Cavalry, Colonel James W. Forsyth.

Hdqrs., B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

Capt. E. S. Godfrey is detailed additional member of the G. C.-M. at Fort Meade, D. T. (S. O. 50, May 28, D. Dak.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T.; D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

Leave for one month is granted Capt. A. S. B. Keyes (S. O. 57, May 25, D. Ariz.)

The leave on Surgeon's certificate granted 2d Lieut. Powhatan H. Clarke is extended four months on account of sickness (S. O., June 7, H. Q. A.)

Before a G. C.-M. at Fort Thomas, A. T., of which Col. J. S. Mason, 9th Inf., is president, was tried 1st Lieut. Robert D. Read, Jr., 10th Cav. Charge 1st—"Drunkenness on duty." Specification—That, being on duty in command of a detachment of U. S. troops, in the field, scouting after hostile Indians, he was found drunk at and near Duncan, Ariz., on or about Oct. 1, 1885. Charge 2d—"Conduct unbecoming an officer and a gentleman." Three specifications alleging that he did become drunk and so conducted himself, in the presence of citizens and enlisted men, as to make himself the subject of general comment and remark, in Duncan, Clifton, and Solomonville, Ariz., and other places, to his own discredit and the scandal of the Service; that he did exhibit himself in a drunken condition in the presence of citizens and enlisted men at Duncan, Oct. 1, and that he did write and forward to his post commander a communication dated Fort Thomas, A. T., July 2, 1886, and addressed to the A. A. A. G., Dept. of Arizona, Fort Bowie, A. T. (through office of C. O. Fort Thomas), in which he said: "'The comment by the officers of the post,' stated by Capt. Lee, consisted of the weaving and amplifying the story above referred to, in club-room gossip, in a mutual admiration society comprising Capt. Lee, Capt. Worth, and Lieut. Terrett. . . . It is an easy thing for a lot of loafers, not one of whom knew anything of the particulars, to sit in the post trader's club-room and 'comment' on the results of a long and difficult march." . . . Thus referring in a scandalous, ungentlemanly and unofficerlike manner to Capt. P. L. Lee, 10th Cav., Capt. W. S. Worth, and 1st Lieut. C. P. Terrett, 8th Inf., and this scandalous communication having been returned to him by his post commander, he did, Feb. 7, 1887, forward it (as an enclosure to another letter) to the A. G., Dept. of Arizona. Plea—"Not guilty," except as to the 2d specification, 2d Charge, to which he entered a "plea in bar of trial." He was found "Not guilty" of the 1st Charge and its specification; "Not guilty" of 1st specification to 2d Charge; "plea in bar" to 2d specification sustained. Of the 3d specification, 2d Charge, "Guilty, excepting the words 'a scandalous, ungentlemanly and' after the words 'thus referring in,' and before 'unofficerlike manner,' substituting for the word 'a' the word 'an,' and also excepting the word 'scandalous' after words 'and this' and before the word 'communication' and of the substituted word guilty, and of the excepted words not guilty." Of the 2d Charge, "Not guilty, but guilty of conduct prejudicial," etc. Sentence—"To be reprimanded in orders by the Department Commander." The proceedings, findings and sentence are approved. The Department Commander (Gen. Miles) believes that the publication of this order is sufficient reprimand of Lieut. Read, and that in future communications he will be guided by the rule of official etiquette that should obtain in military correspondence (G. C.-M. O. 24, May 25, D. Ariz.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.

* Light battery.

2d Lieut. John T. Thompson will visit the camp of the 2d Regiment of Alabama State Militia during the period of its encampment near Montgomery, commencing June 7 (S. O., June 1, H. Q. A.)

Leave for six months, with permission to go beyond sea, is granted 1st Lieut. Victor H. Bridgman (S. O., June 2, H. Q. A.)

Leave for six months on Surgeon's certificate is granted 1st Lieut. Asher C. Taylor (S. O., June 4, H. Q. A.)

Leave for twenty-two days, to commence on or about June 9, is granted 1st Lieut. Charles E. Kilbourne, St. Francis Barracks, Fla. (S. O. 117, June 9, Div. A.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.

* Light battery.

1st Lieut. C. W. Foster is relieved from duty at St. John's College, Annapolis, Md., to take effect Sept. 10, and will then join his battery (S. O., June 4, H. Q. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal. B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

The leave granted Capt. Daniel F. Callinan is extended two months (S. O., June 7, H. Q. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

Figure of merit of five companies, 2d Infantry, at Bellevue, Neb., May 2 to 28:

Company A, Mills	89.19
Company B, Dempsey	97.00
Company C, Catley	95.23
Company E, Ames	83.49
Company G, Keller	99.52
Wing, Mills	92.84

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Sherman, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

The leave for seven days granted Capt. D. W. Benham is extended ten days (S. O. 54, June 3, D. Platte.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.; A, Ft. Wood, Bedlow's Island, N. Y. H.

Col. Edwin F. Townsend is detailed to attend the State camp of instruction at Peekskill, N. Y., for the purpose of inspecting the several organizations of the National Guard, State of New York, detailed for tours of service at that camp from June 18 to Aug. 6 (S. O., June 1, H. Q. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

1st Lieut. Mitchell F. Jamar is detailed as Professor of Military Science and Tactics at St. John's College, Annapolis, Md., to take effect Sept. 10 (S. O., June 4, H. Q. A.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

1st Lieut. Dillard H. Clark, late R. Q. M., now at Fort Buford, will proceed to Fort Randall, D. T., and join his company (S. O. 50, May 28, D. Dak.)

The leave on account of sickness granted Capt. Chambers McKibbin is extended one month on Surgeon's certificate (S. O., June 6, H. Q. A.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

Leave for three months, to take effect on or about July 1, is granted 1st Lieut. Elias Chandler (S. O., June 7, H. Q. A.)

Leave for five months, to take effect in July or August, 1887, is granted Capt. Henry C. Ward (S. O., June 7, H. Q. A.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Kas.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, F, G, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; E, Ft. Ringgold, Tex.; I, Ft. Brown, Tex.

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

Capt. J. S. McNaught will report, after July 1, to General Ruger at Fort Leavenworth for examination by Retiring Board (S. O. 126, June 2, H. Q. A.)

The extension of leave granted 2d Lieut. Albert D. Niskern is further extended to include June 8, 1887 (S. O., June 8, H. Q. A.)

The resignation of 2d Lieut. Albert D. Niskern has been accepted by the President, to take effect June 8, 1887 (S. O., June 8, H. Q. A.)

In Orders 14, of May 24, Lieut.-Col. Leslie Smith, Regimental Commander, announces the death of Capt. Charles O. Bradley, which occurred at Fort Maginnis, May 14, after a lingering illness of more than five months. After recounting his military services, Col. Smith says: In the death of Capt. Bradley, the regiment loses a gallant soldier, an accomplished gentleman and officer, and an upright man. He has gone to the grave with the sincere affection and deep sorrow of all who knew him. In respect to the memory of Capt. Bradley, the regimental colors will be draped, and the officers of the regiment will wear the usual badges of mourning for thirty days.

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

The leave granted 1st Lieut. John S. Parke, Jr., is extended one month (S. O., June 2, H. Q. A.)

The leave on Surgeon's certificate granted Capt. George M. Downey is extended one month on Surgeon's certificate (S. O., June 3, H. Q. A.)

1st Lieut. Harry L. Bailey is relieved from duty as J.-A. of the G. C.-M. convened at Fort Du Chesne, Utah, by par. 3, S. O. 32, D. Platte, and 1st Lieut. Daniel Cornman is detailed in his stead (S. O. 54, June 3, D. Platte.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

The leave for seven days granted 1st Lieut. W. H. W. James, Fort Reno, I. T., is extended three days (S. O. 59, May 27, Dept. M.)

The leave for seven days granted 1st Lieut. W. H. W. James, Fort Reno, I. T., is further extended five days (S. O. 60, May 31, Dept. M.)

Capt. Charles C. Hood will inspect clothing

Philadelphia, for which Capt. John V. Furey, A. Q. M., is responsible (S. O., June 6, H. Q. A.)

Leave for two months upon Surgeon's certificate, with permission to apply for an extension of one month, is granted Capt. Lewis Johnson, Fort Sill, Ind. T. (S. O. 67, June 8, Div. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, June 4, 1887.

To be Assistant Surgeons with the rank of Captain, after five years' service, in accordance with the act of June 23, 1874.

Asst. Surgeon William E. Hopkins, May 23, 1887.
Asst. Surgeon Benjamin Munday, May 23, 1887.
Asst. Surgeon George F. Wilson, May 23, 1887.
Asst. Surgeon William O. Owen, Jr., May 23, 1887.
Asst. Surgeon Peter R. Egan, May 23, 1887.
Asst. Surgeon William J. Wakeman, May 23, 1887.
Asst. Surgeon Edward Everts, May 23, 1887.

NOTE.—No lists were issued for the weeks ending May 21 and 28, 1887.

Courts-martial.

The following courts have been ordered:

At David's Island, N. Y. H., June 3. Detail: Lieut.-Col. Richard F. O'Beirne, 15th Inf.; Capt. Frederick E. Trotter, 14th Inf.; Capt. George G. Lott, 11th Inf.; 1st Lieut. James Regan, 9th Inf.; 1st Lieut. Harry L. Haskell, 12th Inf.; 1st Lieut. Calvin D. Cowles, 23d Inf.; 1st Lieut. William L. Pitcher, 8th Inf., and 1st Lieut. John K. Waring, 2d Inf., J.-A. (S. O., June 1, H. Q. A.)

At Jefferson Barracks, Mo., June 6. Detail: Major Samuel S. Sumner, 8th Cav.; Capt. Henry W. Wessells, Jr., 3d Cav.; Capt. Joseph M. Kelley, 10th Cav.; Capt. John Q. Adams, 1st Cav.; 1st Lieut. George F. Chase, 3d Cav.; 1st Lieut. William Baird, 6th Cav.; 1st Lieut. Philip P. Powell, 9th Cav.; 2d Lieut. Francis D. Rucker, 2d Cav., and 1st Lieut. Herbert J. Slocum, 7th Cav., J.-A. (S. O., June 2, H. Q. A.)

At Fort Pembina, D. T., June 7. Detail: Capt. Cyrus M. DeLany, 1st Lieuts. Edward S. Chapin and George A. Cornish, 15th Inf.; 2d Lieut. Williston Fish, 4th Art.; 2d Lieut. Leon S. Roudiez, 15th Inf., and 2d Lieut. Andrew S. Rowan, 15th Inf., J.-A. (S. O. 52, June 3, D. Dak.)

At Jackson Barracks, La., June 10. Detail: Major John W. Williams, Surg.; Major James W. Scully, Q. M. Dept.; Major Charles B. Throckmorton, 2d Art.; Capt. William H. Nash, Sub. Dept.; Capt. Joseph G. Ramsay and 1st Lieut. Alexander D. Schenck, 2d Art., and Capt. William P. Vose, 2d Art., J.-A. (S. O. 115, June 6, Div. A.)

Army Boards.

A Board of Survey, to consist of Capt. Theodore F. Forbes, 5th Inf.; Capt. Leon A. Matile and 1st Lieut. Francis W. Mansfield, 11th Inf., will assemble at Fort A. Lincoln Ord. Depot, D. T., June 1, to fix the responsibility for discrepancy in ordnance stores, invoiced by Capt. James M. Bell, 7th Cav., Fort Buford, D. T., to the C. O. of the depot (S. O. 50, May 28, D. Dak.)

A Board, to consist of 1st Lieuts. Thomas M. Woodruff, A. S. O., and Richard E. Thompson, A. S. O., and 2d Lieut. William D. Wright, Signal Corps, will assemble, June 3, to assess the money value of Signal Service property, for which Capt. Francis B. Jones, A. Q. M., is responsible (S. O. 37, June 1, Sig. Office.)

A Board of Survey, to consist of Major Henry C. Corbin, A. A. G.; Capt. John R. Myrick and 1st Lieut. Alfred B. Johnson, Aides-de-Camp, will convene at the Q. M. Stables, Chicago, June 3, to report upon the condition of cavalry horse No. 173 (S. O. 63, June 2, Div. M.)

A Board of Officers of the Corps of Engineers, to consist of Col. John M. Wilson, Lieut.-Col. Peter C. Hains, Major Garret J. Lydecker, with Lieut. Curtis McD. Townsend as Recorder, will assemble to report upon the plan and location submitted by Lieut.-Col. Peter C. Hains, C. E., for the proposed bridge across the Eastern Branch of the Potomac River (S. O. 61, June 6, C. E.)

DEPARTMENT NEWS.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

Indians, supposed to be Apaches, who left San Carlos last week, have been committing murders near Benson. Troops from Fort Huachuca have been sent out in pursuit of them.

General Miles, in referring to the outbreak, says it is the result of a drunken row, which led to a feud between two bands of Indians in the San Carlos Agency. Troops under Captain Henry W. Lawton, 4th Cavalry, are in pursuit of these Indians and will continue to follow them up until the Indians are captured or destroyed. These Indians are in no way connected with the Apaches who were out last year and who have all been removed. These disturbances are likely to occur as long as the Indians can get liquor.

Dept. of Texas.— Brig. Gen. D. S. Stanley.

Heretofore, in the JOURNAL, we have referred to the case of Samuel G. Reed, a soldier of the U. S. Army, who deserted some years ago, with a comrade named Williams, from Fort Brown and crossed to Matamoras where he killed and robbed a jeweller named Block. He was arrested, condemned to death but escaped and went to California where he led a hard life, finally drifting back to San Antonio, where he was arrested for his desertion and turned over to the military authorities. A despatch from San Antonio says: "On June 1 Reed was taken under heavy guard to the court-martial room for trial. On the way he made a desperate effort to escape. He paid no attention to the command to halt and was fired upon. The bullet entered his right side and passed through. He is mortally wounded. There were nine men in the detail and all of them fired upon him. Only one ball struck him. He admitted his complicity in the murder of Block, which he had up to this time strenuously denied. Government officers attach no blame to the guard detail."

An inquest was held before which Gen. Stanley and Chaplain Swift appeared as witnesses, the former testifying that he simply held Reed for desertion, and the latter as to a confession made by Reed after he was shot. The verdict of the jury was that Reed came to his death by a gunshot wound inflicted by the guards in the lawful discharge of their duty.

CAPTAIN GEO. M. WHEELER, Corps of Engineers, U. S. A., visited New York this week, locating at the Westminster Hotel,

U. S. INFANTRY AND CAVALRY SCHOOL.

THE final examination of the Second Class commenced Friday of this week, June 10, and will be continued until completed. General Ruger, Colonel Wade and Major Butler, the Board, provided for by General Sheridan's G. O. of Dec. 28, 1885, and the Staff of the School (the Board of Examiners, consisting of Lieut. Col. A. K. Arnold, 1st Cav.; Majors George B. Sanford, 1st Cav., and H. S. Hawkins, 10th Inf., and Capts. Jacob Kline, 18th Inf., and Wm. M. Wherry, 6th Inf., with 1st Lieut. O. L. Hein, 1st Cav., secretary, were in their places ready for business.

The examinations are as to classes and subjects, in order: 1st. First Class in Military Art and Science. 2d. Second Class in Field Fortifications. 3d. First and Second Classes in Law. 4th. First and Second Classes in Infantry Tactics. 5th. First and Second Classes in Cavalry Tactics. 6th. First and Second Classes in Topography. 7th. First and Second Classes in the Methods of Conducting Business in the Staff Departments.

The occasion is one of much interest at Fort Leavenworth, and results are eagerly looked forward to.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

JUNE 8, 1887.

LAST Thursday afternoon Gen. and Mrs. Merritt gave their last reception to the Board of Visitors. After the review, the members of the Board proceeded to the Superintendent's quarters, where the ladies had already assembled. In a few minutes the residents of the post, in full dress, began to arrive and the broad piazza presented a very gay and animated appearance. The weather had a threatening aspect, but fortunately no rain fell: in anticipation of it, a large pavilion had been spread in the yard, under which the band assembled and discoursed sweet music during the reception. The refreshments served were very elaborate. Altogether this farewell reception can be regarded as a brilliant and fitting close of the many acts of hospitality that have been dispensed by Gen. and Mrs. Merritt during their five years' residence at West Point. When they leave us next month they can take with them the pleasant recollection of having done much more than their share of the entertaining done here since July, 1882.

On Friday afternoon the light battery drill, under Lieut. Homer, took place. The day could not have been better if made to order: there was not a particle of dust, so that every movement was plainly seen; the cadets were in white—everything except the shoes—and presented a pretty appearance.

On Saturday the point wore a gala dress. The boats brought crowds of visitors, who swarmed in wherever there was an open door. At times the Library—where the examination of the Second Class in Philosophy was going on—was so packed that there was no more room for spectators; the cadets examined after dinner were of the Third and Second and First seconds, and did very well—although one bright boy got a little confused and lost the North Pole during his excellent demonstration. At five o'clock the battalion drill took place; the visitors were so numerous that they formed several lines extending from near the Sedgwick monument to the front of barracks. They were treated to a fine exhibition.

Prof. Postlethwaite preached the farewell sermon to the graduating class last Sunday. At the conclusion of the sermon the graduating class stood up in its seats and the chaplain addressed some remarks to them, concluding which he said: "Never forget the sacredness of the trust committed to you. Be ever mindful of it in small as well as in great things. Stand by your colors all the time, not only on dress parade, or perchance the field of battle. . . . I sometimes think it is more heroic and requires a greater courage in the quiet of everyday life for the officer to be always true and faithful to every duty. To stand to his colors in the daily routine, on the lonely outpost, in the solitary watch, in the diligent study of his profession, where the trumpet's blast, the din of battle, the dashing assault, the violent struggle are nowhere found to inspire him, requires a higher courage, a braver heart, and a more conscientious mind than is commonly found among men. Stand then by your colors at all times. In closing this last address to you as your chaplain let me 'beseech you, by the mercies of God, that ye present your bodies a living sacrifice, holy and acceptable, unto God, which is your reasonable service.' You are at this time offering yourselves on your country's altar, ready to die for that country at any moment. I therefore beseech you make this twofold offering of yourselves—to your God and to your country. Being His, He will stand by you in every duty, in every hour of peril, and when the time of your departure is at hand He will receive you into the arms of everlasting victory."

The cadet mess hall, born in 1850, was christened on Monday by the following order: "The building used for cadet dining hall shall hereafter be known officially as Grant Hall, in honor of the great graduate of the Academy, whose portrait, a present to West Point and the country from Mr. George W. Childs, sanctifies the hall as a gallery for the portraits of graduates."

The drill at the seacoast battery took place Monday afternoon. The air was hazy and almost without motion. The target, distant 2100 yards, was hit a number of times and nearly obliterated.

A vast crowd witnessed a very lively cavalry drill Tuesday afternoon. The plain was in fine condition, not a bit of dust was raised to mar the view. The drill was concluded with a charge by the three companies. Fortunately, no one fell off or was injured in the least. In the four graduating rides, under Capt. Augur, but one cadet has been hurt, and he not seriously.

Last night the cadets had a hop, from after supper till 10 o'clock, in the Grant Hall. It was a sort of preliminary graduating hop, but to an outsider it must have looked like one, so large was the attendance.

The examinations were finished Tuesday morning, but the standing will not be known for several days. It is known that all of the Second Class in philosophy passed. Four of the same class were re-examined in chemistry and four of the Third Class in mathematics. When the examinations are oral, the cadets recommended deficient are given another examination (written). But when the first examination is written no second trial is given.

The annual meeting of the Alumni Association was held Thursday afternoon in the chapel. Several changes in the Constitution were suggested. The necrology list is very small this year, numbering twenty-five, and one death that occurred in 1883, but was never known until recently. The following is the list:

Isaac T. Webster, '66, July 7, '86, San Francisco, Cal., 44.
Junius B. Wheeler, '55, July 15, '86, Lenoir, N. C., 55.
W. W. Low, Jr., '72, July 24, '86 Ft. Assiniboine, Mont., 38.
Joseph Whittlesey, '44, Aug. 2, '86, Seattle, Wash. Ter., 65.
Robert Allen, '36, Aug. 5, '86, Geneva, Switzerland, '74.
Henry H. Sibley, '38, Aug. 23, '86, Fredericksburg, Va., 70.
George H. Gordon, '46, Aug. 30, '86, Farmingham, Va., 63.
Lewis Cass Hunt, '47, Sept. 6, '86, Fort Union, New Mex., 63.
Charles Whittlesey, '31, Oct. 18, '86, Cleveland, O., 78.
Wm. M. Medcalfe, '76, Oct. 21, '86, Sandy Hook, N. J., 33.
Henry D. Wallen, '40, Dec. 2, '86, New York, N. Y., 67.
Alonzo L. O'Brien, 79, Dec. 12, '86, Westm., West Vir., 31.
George W. Howland, '48, Dec. 21, '86, Santa Fe, N. M., 62.
William H. Wood, '45, Jan. 1, '87, Pass Christian, Miss., 66.
J. McAllister, '47, Jan. 3, '87, Governor's Island, N. Y., 63.
William B. Hazen, '55, Jan. 16, '87, Washington, D. C., 56.
Charles P. Stone, '45, Jan. 24, '87, New York, N. Y., 63.
Christopher P. Hall, '08, Jan. 31, '87, Shreveport, La., 40.
Seward Mott, '86, March 12, '87, San Carlos, Arizona, 25.
Roswell S. Ripley, '43, March 29, '87, New York, N. Y., 64.
Rezin G. Howell, '64, May 2, '87, Little Rock, Ark., 45.
Thomas C. Davenport, '72, May 6, '87, Washington, D. C., 37.
Alanson M. Randol, '60, May 7, '87, New Almaden, Cal., 37.
Henry F. Clarke, '43, May 10, '87, Washington, D. C., 66.
James H. Hollonquist, '58, Aug. —, '83, Terrell, Tex., 49.
Horatio M. Jones, '67, June 2, '87, Linwood, Penn., 40.

In the Army, 17; civil life, 9 Total, 26.

Of the deceased graduates 17 were in the Army and eight in civil life. In 1886 there were 35 deaths; in 1885, 28; in 1884, 31; in 1883, 39.

One of the happiest of the throng that will witness the graduating exercises on Saturday will be Mrs. Alexander, mother of the colored cadet of the First Class, who has come to see her son graduate.

Wednesday morning, at 11 o'clock, the military gymnastics and fencing were given in the gymnasium. The following programme was remarkably well done, and called forth hearty applause from the limited number of spectators who were able to gain admittance to the small space allotted to visitors:

1. Calisthenics. 2. Foil. 3. Horse (side). 4. Sabre, manual. 5. Horizontal bar. 6. Bayonet. 7. Horse, long. 8. Broadsword. 9. Parallel bars. 10. Camp games. 11. Club exercise. 12. At will.

The physical measurements and tests of the Fourth Class are as follows:

	Height.	Weight.	Wrist.	Fore Arm.	Upper Arm

Among the visitors reported at West Point this week are Dr. Chas. T. Alexander, U. S. A.; Mrs. W. A. Mulinhill, Mr. Richard Gafney and the Misses Gayney, Miss C. M. Donnelly, Miss Jacqu, Mrs. Geo. Harroll, Mr. James Carroll, Mr. and Mrs. Franklin Osgood, Mr. and Mrs. Wm. B. Dowd, Mrs. and Miss Easton, Mr. and Mrs. Chas. Phillips, Mr. and Mrs. Wm. G. Wilson, Mr. Blair Ingalls, Miss L. Isaacs, Miss Bertha B. Bradley, Maurice M. Minton, W. D. Mann, Lewis F. Hallen, John Lamb, L. P. Mingley, Miss McTaggart, Mr. and Mrs. Malcolm Graham, Mrs. and the Misses Gill, ex-Judge Gunning S. Bedford, Mr. Frederick De Peyster, of New York; A. H. Wetherell, G. H. Sykes, of Chicago; Mr. and Mrs. S. F. Engs, of Brooklyn; Mr. and Mrs. Albert Pierce, of Burlington, Vt.; Miss Helen L. Smith, of St. Albans, Vt.; Lieut. Geo. I. Putnam, A. J. Brackett, of Sing Sing; E. G. Butts, of Stillwater, Minn.; Mr. and Mrs. N. N. Stokes, of Philadelphia; H. W. Parker, of Des Moines: Mr. and Mrs. G. W. Newall, of Pawtucket; Wm. Wilson, Jr., of Mount Vernon; J. H. Mitchell, of Hartford; Gen. Wm. F. Smith and Miss Smith, of Hartford; Gen. Benavides, of the Mexican Army; Mrs. Russell Robinson, of Richmond; Mrs. J. J. Walsh, of Philadelphia, and Mr. and Mrs. H. B. Davidson, of Washn. Mr. and Mrs. Strong Reid, of Kansas City, Mo.; Mr. E. Russell Coles, of Yonkers; the Misses Doyle, of Columbus, Ohio; Mr. F. E. Williams and the Misses Williams, of Jersey City; Mr. E. M. Camp and Miss Camp, of Philadelphia; Mr. Frank W. Armstrong and Miss Armstrong, of Cincinnati; Miss Winston, of Lexington; Col. Irwin, Mrs. and Miss Hargous, Mr. Budd, Mr. Lambert Byrne, Mr. and Mrs. Chas. Dexter and family, from San Francisco; Mr. Chas. A. Post, John Joseph O'Connell, U. S. Army; Mrs. John J. O'Connell, Cincinnati, Ohio; Mr. and Mrs. Fred. H. Humphrey, Mr. and Mrs. Wm. B. Thomas, Mr. M. O'Reilly, Miss O'Reilly and Mrs. Maitland; Mr. Wendall Stanton Howard, Mr. and Mrs. W. A. Chesterman, Mrs. A. W. Harman, Mr. George Sloan, Jr.; Dr. E. J. Marsh, Mrs. H. C. Symonds, Mr. and Mrs. Wm. Moer, the Misses Seymour and Col. and Mrs. Hodges, Mr. and Mrs. Edward S. Isham and Miss Isham, of Chicago; Mr. and Mrs. Albert Pierce, of Burlington, Vt., and Mr. and Mrs. Wm. N. Stokes: Mrs. Schumm, of Milwaukee; W. S. Howard, of Chicago; Miss Bertie Chesterman, of Richmond; Mrs. A. W. Harman, of Staunton, Va.; Mr. and Mrs. H. L. Mather, of Galveston, Texas; Mr. and Mrs. McK. Williamson, and Mrs. W. H. Woods, of Huntington, Pa.

(Correspondence of the Army and Navy Journal.)

VANCOUVER BARRACKS, W. T.

MAY 25, 1887.

LAST week the Vancouver Barracks Dramatic Association gave "Engaged" in the town of Vancouver before a large audience. The proceeds, about $200, were sent to the widows and orphans made by the Nanaimo disaster. Gilbert's "Engaged" is a hard play for amateurs to tackle, but the performance was far better than most professionals could have done, as all the parts were well filled. Russell, of the Ordnance, covered himself with glory as Belsawney. The Subsistence Department was well represented by Woodruff, the Artillery by Todd and Mrs. Hunter, the Pay Department by Mrs. Poole, and the Infantry by Mrs. Anderson, Mrs. Warrens, Miss Sladen, and Warrens and Taylor. The gentlemen were all excellent.

Among the ladies Mrs. Anderson attracted much attention by her three beautiful costumes, and her acting was much applauded in the long and difficult role of Belinda Treherne. Mrs. Hunter was immense in the Scotch Lassie. Mrs. Poole has appeared in several plays and has always done well. This is the sixth play put on the stage by our dramatics since December, and for next winter we expect great things unless our combination is broken up and the players scattered.

COLUMBIA.

FORT RILEY, KANSAS.

JUNE 5, 1887.

THE desire for sport is continually increasing at this post. After an early spring a cavalry horses' exercising course has been laid out, which is also used as a race track, and on which, as your paper of May 28 stated, a race between Lieut. Nicholson's and Mr. Waters's horses took place. Another piece of ground has been plained north of the garrison about 100 yards in rear of "Officers' row," for a tennis lawn. It is enfenced and will be ready for use as soon as the grass sprouts on it.

Again, the enlisted men have another field for their sport; base ball is the parole. A nine has been formed by the best players of the post and tries its ability against Junction City and Abilene with varying success.

The new target range of the post, used by all the troops at the same time, has given rise to much interest, more than in former years. A shooting match took place Tuesday last between several officers of this post, out of which Lieut. Steele, 18th Inf., carried the prize. Upon the proposal of Col. Wade, and with the aid of the other officers of the post, the

enlisted men also made arrangements for competitive firing to take place on Wednesday next, thus: Five marksmen of each company fire for the company prize, two scores each, at the range 200 300, 500 and 600 yards, the marksman with the highest score to receive an individual prize besides. The selected five are now practicing daily. Luck to them!

The Junction City *Union* says: "Captain Schuyler, 5th Cav., has brought his family from St. Louis. . . The family of Lieut. Woods, 18th Inf., left May 26 on a visit to relatives in Illinois. Lieut. Bellinger, 5th Cav., left Sunday for Camp Martin. . . . Sergt.-Major Leymore was kicked in the thigh by his horse yesterday. The contusion is not serious."

(Correspondence of the Army and Navy Journal.)

FORT MONROE, VA.

JUNE 7, 1887.

THE Mutual B. B. Club of Norfolk, Va., took this post almost by storm to day. They came on us quite unexpectedly, the base ball club being engaged in the performance of their various military duties. But their zeal for the game and a soldier's celerity had them all quickly together, and Lieut. Rodman called the game at 11 o'clock. The Mutuals took the bat, and by good playing on their part and want of quickness and good judgment on our part, made three runs. This success they thought assured them a easy victory, but it had an opposite effect in arousing the spirit and determination of the school boys, whose championship of Tidewater, Virginia, for the last dozen years remains unquestioned. In the third inning the old reliable Skinny (Wm. Giacchetti) made a two bagger, his brother Alfred followed with the same, and thenceforward an easy victory awaited the Artillery School. Alternate shouts were given for good play on either side, but when Hatley (K. the 2d). by a powerful hit, made an easy home run, he was cheered again and again.

The day was delightful and the game highly enjoyed by the numbers in attendance. I append the score. B. B.

ARTILLERY SCHOOL B. B. CLUB.

Daly, Sergt. Joe, 2d b., 0; Giacchetti, F., r. f., 1; Smith, Chas., s. s., 2; O'Hara, p., 3; Hatley, 1st b., 0; Shull, Sergt., l. f., 1; Giacchetti, W., c., 4; Giacchetti, A, c. f., 1; Opdyke, J., 3d b., 3. Total, 15.

MUTUAL B. B. CLUB, NORFOLK, VA.

Churchill, c. f., 2; Seymour, 3d b., 0; Prower, l. f., 2; Godfrey, 2d b., 1; Wood, 1st b., 0; Graham, s. s., 0; Lanigan, c., 1; Lassiter, p., 1; Brown, r. f., 1. Total, 8.

Umpire—Lieut. Rodman. Scorer—Corpl. Gray. Time of game—1 hour, 35 minutes.

FORT LEWIS, COLORADO.

THE Kansas City *Times* says: "The following item appeared recently in a Santa Fe paper: A private letter from Fort Lewis states that on Thursday immediately after the paymaster had distributed Uncle Sam's golden shekels among the boys, there were 25 desertions. The news is confirmed by the Durango *Herald*, which adds that: 'Those remaining of the cavalry companies were out in all directions yesterday looking up the fleeing guards of the nation. And who can blame the poor fellows? Many of us would do the same thing. Cooned up away off in the mountains, with none of the better influences of life about them, no chance for an hour's recreation of any sort, save a tramp over the rocks or a visit to some isolated mining camp; the knowledge that years may elapse and still find them there living out in a miserable sort of way the same seven-and-six existence—no wonder they desert as soon as the summer pay day comes. One winter at Fort Lewis would be quite enough for any of us, and the astonishing feature about it is that the officers themselves, the band, the subalterns and all the women and children do not desert the place. The sooner the Government abandons these smaller frontier posts the better it will be for its Military Service. What is the use of maintaining Fort Lewis now?'"

FORT OMAHA, NEB.

THE *Excelsior* of June 4 says:

Mrs. Lieut. Muhlenberg is expected at Fort Omaha in a few days from Lewiston, Idaho. . . . Cos. H, D, F and K, 2d Inf., Capt. Daggett commanding, participated in the parade on Memorial Day; Lieut. Vail acted as battalion adjutant. . . . Mrs. Lieut. Mallory's mother is visiting at Fort Omaha from Portland, Ore. . . Miss Boardman, of Chicago, is visiting her cousin, Mrs. Lieut. Sarson . . . Gen. and Mrs. Wheaton went with a party to Bellevue Rifle Range on Wednesday on a picnic, and a good time was had.

FORT McINTOSH, TEXAS.

A LAREDO correspondent says: "Through the kindness of Post Chaplain G. W. Simpson, U. S. A., I spent a couple of hours very pleasantly Tuesday evening, May 31, in attendance upon an entertainment given by the children of the Sunday school at Fort McIntosh. The entertainment was given in the post hall, upon the walls of which were tastily arranged several large national flags. The little ones engaged in dancing, which was joined in by a good many larger ones with considerable zest, the music being furnished by the post band. Refreshments, consisting of ice cream and cake, followed, and at 12 all the visiting folks were sent home in ambulances. Chaplain Simpson has heartily enlisted himself in the cause of being a benefit to Laredo society, and his efforts are appreciated. Besides his regular duties as post chaplain, he has filled the Methodist pulpit in the city every Sunday morning since the absence of the pastor of that church, and will continue to do so until that gentleman's return."

Military Order of the Loyal Legion.

Since January 31, 1887, the order has had a net gain of 237. The total membership May 1 was as follows: Pennsylvania 583, New York 597, Maine 74, Massachusetts 612, California 523, Wisconsin 153, Illinois 280, District of Columbia 381, Ohio 455, Michigan 137, Minnesota 140, Oregon 44, Missouri 135, Nebraska 92, Kansas 122, Iowa 49. Total 4 397.

The annual meeting of the Minnesota Commandery was held at The Ryan, St. Paul, June 1, when the officers for the ensuing year (names heretofore given in the JOURNAL) were duly installed. Among the new companions elected was Gen. Thos. H. Ruger, U. S. A. The banquet which followed was a great success. Bishop Ireland, who was a guest responded to the toast 'Patriotism' in an eloquent manner, and, in the course of his remarks, said: "To watch in time of peace as well as time of war, we must exercise our patriotism. At one time we used the sword, but now, stronger than all, our votes must be pitted against the treason that would despoil our homes, and take from America the freedom and virtue that has ever been the watchword of our firesides. Love of country means something more than animal instinct, where, as in other lands, hired men are employed to fight under a banner. It means sacrifice of means, of opinions, of life—if need be—to preserve the laws that give to all that freedom of thought and speech that makes dear the life of every freeborn American citizen. But that patriotism that strikes down the evil that attacks the social foundation is grander still than the sacrifice of blood. The hero that assails the enemies that are undermining our home life is greater than the commander that leads triumphant forces over blood-stained fields."

A new contribution to the literature of the Indian tribes is the "Cheyenne History and Dictionary," prepared by "Ben" Clarke, who has been for twenty years Government interpreter at the Cheyenne and Arapahoe Agency in Indian Territory. The manuscript has been placed in the hands of Gen. Sheridan, and will be submitted to Professor Powell, of the Bureau of Ethnology, for examination.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. At New York June 9. To be at New Haven June 17. Then sail to the North.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Cape Town June 6.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Rio de Janeiro May 18.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Rio de Janeiro May 18. Comdr. F. W. Dickens has been ordered to command this vessel, and will sail on the U. S. S. *Trenton*.

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Was at Villefranche, May 4.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. Reported by cable to have sailed from Spezzia, Italy, June 8, for Lisbon.

Pacific Station—Rear Admi. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. Sailed from Panama for Payta, Peru, May 23.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Sailed from Guaymas, April 26, for Las Pas, Mazatlan and Acapulco. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francisco, Cal.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama May 17.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. It is very probable that the *Juniata* will be ordered to the Asiatic Squadron. Arrived at Panama May 31.

MONONGAHELA, 2d rate, 9 guns, Comdr S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. Was cruising off Salvador ports May 17.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S Newell. Arrived at Juneau, Alaska, May 12. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

In a letter dated Juneau, Alaska, May 12, 1887, it is stated that the *Pinta* arrived at Juneau on that date, having left Sitka April 20. Since leaving Sitka the following places have been visited: Lindenburg Harbor, April 20; Killisnoo and Shelter Island, April 21; Head of Taiya Inlet, May 2; Portage Cove, Chilcoot, May 2; Pyramid Harbor, Chilcoot Inlet, May 9; Swanson's Harbor May 10, and Hoonlah May 11. It was intended after the departure of the mail steamer due May 16, to proceed to Wrangel, and thence to Chilcoot, returning to Juneau in time to meet the next mail steamer due about June 13. In a letter dated May 24, from Juneau, it is stated vessel will not visit Wrangel at present, but will return to Chilcoot from Juneau, and if affairs are in a satisfactory condition, proceed to Sitka in time to meet the next mail due about June 15. By that steamer a new marine officer and a draft of men are expected, and as the material for recovering the spar deck has been received, the repairs needed by the deck will be made at Sitka.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Sailed from Barbadoes, May 26, for Rio de Janeiro.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. Arrived at Payta, Peru, May 24.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama May 13.

Was to remain there till about the middle of May, and then go on a cruise to Vladivostock, Hakodate and several of the northern ports of China.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Shanghai, May 13, to take on board Minister Denby, who wants to visit various consulates in China.

MARION, † 3d rate, 8 guns, Commander Merrill Miller. Sailed from Chemulpo, Corea, May 10.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama May 13.

OMAHA, † 2d rate, 12 guns, Commander F. V. McNair. Arrived at Yokohama May 10.

PALOS, † 4th rate, 6 howitzers. Commander Nelson was detached and ordered home March 9, and Lieut. Comdr. J. E. Craig ordered to command. Arrived at Yokohama May 10, under convoy of the *Omaha*. A board of survey on the *Palos* found her hull and deck to be in good condition, but machinery and boilers need some repairing.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to care B. F. Stevens, 4 Trafalgar Sq., London, England.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Left Newport, R. I., June 9, on her summer cruise.

MINNESOTA, 1st rate, 24 guns, Comdr. T. F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Left Newport, R. I., June 9, on her summer cruise.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Left Newport, R. I., June 9, on her summer cruise.

On Special Service.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. At Annapolis, Md. Will sail shortly on her summer cruise.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Left Washington, D. C., June 9, for Annapolis.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. Sailed from Washington for Norfolk May 20.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. At Norfolk, Va.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Surveying on Coast of Lower California. At San Diego, Cal., Feb. 10. Mail address, San Diego, Cal.

ST. MARY'S, sails, 8 guns, Comdr. A. S. Crowninshield. N. Y. School ship. En route for Fayal, Azores; arrive at that port June 10, reach Cadiz June 21, leave Gibraltar July 6, and reach Madeira July 13. From the latter port she will leave for New London about July 20, and arrive there about August 14.

TRENTON, 2d rate, 10 guns, Comdr. N. H. Farquhar. At Norfolk, Va. Will sail shortly for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*. Will probably be assigned later to the North Atlantic station. Had a dock trial of her machinery on June 8.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. G. C. Wiltse. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic Squadron. Will be completed about July 1.

Chicago—Will be finished at New York. The engines are practically completed, and but little construction work remains to be done. Will be in condition to sail for New York early in June.

Kearsarge—At Portsmouth, N. H., being repaired.

VARIOUS NAVAL ITEMS.

REAR ADMIRAL JOUETT visited the Washington Navy-yard on Tuesday and inspected the receiving ship *Dale*.

THE Naval Ordnance Bureau has ordered the workmen engaged on the buildings in the Washington Navy-yard to lower the floor of the anchor shop one foot.

WORK in the Washington Ordnance Yard is rather at a standstill just at present, the old work being about completed, while the new guns have not yet been begun.

THE returns from the sale of old material at the Norfolk Navy-yard are not expected at the Navy Department until next week. It has been officially reported, however, that nearly all the articles were sold and at a price above their appraised value.

THE Museum of Naval Hygiene, with its library, the Naval Dispensary, and everything connected with those two branches of the Bureau of Medicine and Surgery, are being removed from the present locality at the corner of 18th and G streets, Washington, to more commodious, and, it is hoped, more permanent quarters, at No. 806 17th street, not far from the Navy Department.

ALTHOUGH the plans for the hulls of the 19-knot cruisers authorized to be built by the last Congress have been open to the inspection of bidders since June 1 but one application has been received for information as to the details of the proposed new vessels. This was sent in by the Union Iron Works of San Francisco, where the cruiser *Charleston* is now building.

REAR ADMIRAL LUCE, commanding the North Atlantic Squadron, was in Washington on Wednesday when he had a consultation with the officials of the State Department. It is understood that the vessels under his command will soon sail from New York for Canadian waters for duty in connection with the fishery disputes. The squadron has been ordered to proceed to New Haven to participate in the ceremonies attending the dedication of the Soldiers and Sailors' Home which will take place June 17.

HATTON N. T. HARRIS will be appointed an assistant surgeon in the U. S. Navy when the President returns to Washington.

THE Japanese Minister of Marine has been visiting the principal naval establishments of Italy. He recently inspected the great gun foundry works at Terni and the shipbuilding yards at Castellamare, near Naples.

THE Admiralty have made arrangements with the Cunard Company for adding a fifth cruiser, the *Etruria*, to the list of those available in war time. The *Etruria's* engines are of 14,000 horse-power, and she has a speed of 18 knots.

NEGOTIATIONS are being made for the erection of a large natatorium at Horn Point, opposite Annapolis, to be used for public baths in summer and skating carnivals in winter. It is to be built by a joint stock company, the capital stock of which is $4,000, to be divided into 100 shares at $40 each.

THE Inspection Board returned from their tour Thursday, June 9. They have surveyed three ironclads and two tugs at New York, three ironclads at Philadelphia, and a receiving ship at Washington, D. C. They report that it will take $75,000 to make all the vessels seaworthy. The board goes to Norfolk, Va., June 14, to survey the *Ossipee*.

THE findings of the Court of Inquiry in the case of P. A. Paymr. J. C. Sullivan were approved Tuesday afternoon. The Court found that Paymr. Sullivan had not neglected his duty in furnishing supplies for the *Portsmouth* before she sailed and that his purchases abroad were made regularly. The sessions of the Court were held at the Washington Navy-yard.

A SAN FRANCISCO despatch of June 7 says advices have been received there from Honolulu that the new war ship *Kamailoa*, which constitutes the Hawaiian Navy, sailed from Samoa May 18. The ship cost the government $100,000. Prior to sailing the officers of the navy were dismissed for misconduct and fighting, and the boatswain deserted with his uniform and advance salary.

LATE advices from the Mare Island Navy-yard, California, state that the ship carpenters began last week to tear out the lining of the old frigate *Hartford* above the gun deck. The timbers were very rotten and will have to be replaced entirely. The vessel is in a much worse condition than was at first supposed, and it will require very careful management to repair the ship within the amount appropriated.

FROM information received at the Navy Department it is believed that the cruiser *Chicago* will be completed and ready to sail for New York next Tuesday. The steering gear is now in order and there is no reason why the vessel should not make her first trial trip as soon as coal and supplies can be taken on at New York. The dock trials of the engines already had have resulted so satisfactorily that little doubt is felt at the Department of the success of the vessel, which is the largest and most powerful of the Roach cruisers. The cruiser *Boston*, now being fitted out with a steam separator at New York, will be ready for trial in two weeks.

THE French flagship *La Minerve* arrived in New York harbor from Martinique, June 2, and anchored off West 35th street. The *Richmond* and other men-of-war anchored in midstream above 23d street, responded to *La Minerve's* salutes as she passed them. The general staff of the fleet consists of Rear Admiral M. M. Vignes, Comdr. Menard, Fleet Paymaster Estourneau de Cersaunes, Fleet Surg. Vincent, Aides-de-camp Lieuts. Garnault and Duerest de Villeauve, Chaplain Bocheg and Aides on staff duty Castague and de Sayve. The ship's staff embraced Capt. Menard, commanding; Capt. Melchior, executive officer; Lieuts. Havard, Bordeau, Le Clech, Aubry Fournier; Chief Engr. Niobey. The *Minerve* will remain in New York a fortnight. She exchanged salutes with Castle William on Governor's Island, and official courtesies with General Schofield and Commodore Gherardi. Admiral Vignes; Capt. Maxime Minard, commanding *La Minerve*, and Flag Officer Lieut. Henri Ducrest de Villeneuve paid official visits to the *Richmond*, *Galena*, and *Yantic*.

REAR ADMIRAL CHANDLER, U. S. Navy, in a letter dated "Flagship *Marion*, Yokohama, Japan, April 1, 1887," instructs Comdr. Thos. F. Jewell, commanding the *Essex*, to proceed without delay to the island of Fo-shin sin, to the east of the island of Formosa, where the American bark *Abbie Carver* was reported to have been wrecked. Comdr. Jewell was ordered, on arriving at Shanghai, to place his vessel at the disposal of Minister Denby for one month and on the expiration of the month to proceed to Nagasaki. Comdr. Jewell, under date of Shanghai, April 25, reported to Rear Admiral Chandler, that April 18, the *Essex* arrived off Samasana. Finding a convenient landing Ensign Fletcher was sent ashore accompanied by Ensign Poundstone, Chen Heb, the Chinese pilot, and one of the Chinese stewards. From statements made to them by the inhabitants, it appears that a three-masted vessel, flying no colors, was seen off the island one evening in July last, and was lost sight of in the darkness. The next morning the vessel was not in sight, but the beach in the immediate vicinity was strewn with wreckage. A search in the huts in the village resulted in the discovery of a large quantity of this wreckage. The probability is that the vessel was American and probably the one sought for, as the *Abbie Carver* left Hong Kong for Callao August 6 last. No trace of the crew could be found. Arrived at Kelung April 20 and sailed same day for Shanghai, arriving April 24.

NAVY GAZETTE.

Ordered.

JUNE 4.—Commodore Bancroft Gherardi and Captain George Brown, to examination for promotion.

Paymaster H. G. Colby, to duty as General Storekeeper at the Mare Island Navy-yard July 1 next.

JUNE 7.—Ensign B. W. Hodges, to the Naval Observatory June 20.

Assistant Engineer F. C. Bieg, to the Bureau of Steam Engineering.

JUNE 8.—Lieutenant-Commander Geo. C. Reiter, to the Norfolk Navy-yard June 20, as navigation officer.

P. A. Engineer A. B. Willits, to the receiving-ship Franklin.

P. A. Engineer Jas. H. Perry, to duty at Chester, Pa., in connection with the machinery of the Chicago.

JUNE 9.—Medical Inspector Somerset Robinson, to appear before the Retiring Board.

Detached.

JUNE 4.—Pay Director H. M. Denniston, from duty as General Storekeeper at the Navy-yard Mare Island, Cal., July 1 next, and ordered to duty in charge of the Navy pay officer at San Francisco, Cal.

Pay Director A. J. Clark, from duty in charge of the Navy pay office, San Francisco, July 1 next, and ordered to settle accounts and then wait orders.

JUNE 7.—Lieutenant George M. Stoney, from special duty in the Navy Department and ordered to duty in the branch Hydrographic Office, San Francisco, Cal.

Boatswain John H. Brown, from the Galena and placed on waiting orders.

Carpenter H. R. Philbrick, from the New Hampshire on June 29, and ordered to the Navy-yard, Portsmouth, N. H.

Carpenter B. E. Fernald, from the Navy-yard Portsmouth, N. H., and placed on waiting orders.

JUNE 8.—Lieutenant George T. Emmons, from the Pinta and ordered to proceed home and wait orders.

Assistant Engineer W. F. Durand, from duty at the Worcester Free Institute and ordered to the Yantic.

Assistant Engineer A. W. Stahl, from duty at the Purdue University, June 10, and ordered to special duty at Chester, Pa.

Assistant Engineer Arthur T. Woods, from duty at the Illinois University and ordered to the Trenton.

MARINE CORPS.

JUNE 1.—1st Lieutenant Samuel Mercer, detached from the Marine Barracks, Annapolis, Md., and ordered to report without delay at the Torpedo Station, Newport, R. I., for instruction in torpedo service.

2d Lieutenant Charles H. Lauchheimer, detached from the Marine Barracks, Washington, D. C., and ordered to report without delay at the Torpedo Station, Newport, R. I., for instruction in torpedo service.

1st Lieutenant H. K. Gilman, detached from the Marine Barracks, Navy-yard, Washington, D. C., and ordered to report without delay at the Marine Barracks, Washington, D. C., for temporary duty.

JUNE 8.—Captain W. S. Muse, granted leave of absence.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending June 8, 1887:

John R. O'Kelley, private marine, retired, died May 30, at Naval Hospital, Philadelphia, Pa.

Abraham Crowther, boatswain's mate, attached to U. S. S. Santee, died June 4, at Annapolis, Md.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, MD., June 8, 1887.

IT would be impossible to give a complete account of the numerous drills, receptions, hops, etc., taking place in this, the last week of the academic year.

All cadets wear a pleased expression. The "fifth" class are happy in the thought that they have safely passed their entrance examinations, the fourth class feel that they have completed their "plebe" year and are now to become full fledged cadets; the second class become first class men, and the first class will soon be graduates. The most uneventful step of all is the change from the third to the second class years. But the new second class look ahead with evident satisfaction to a summer in the Yard, a summer with no cruise, no night watches, and no sea food.

Perhaps in this they may be rightfully happy, for a summer in the yard is considered the green spot in the long, dry course.

The Board of Visitors were received on Saturday morning by the officers, the Marine Guard, and the Cadet Battalion under Ensign Haeseler. The Board consists of: Hon. Nelson W. Aldrich, U. S. Senate; Hon. George Grey, U. S. Senate; Hon. Hilary A. Herbert, Ho. Rep.; Nathan Goff, Ho. Rep.; Jos. D. Sayres, Ho. Rep.; Wm. A. Wallace, N. Y.; Commo. D. B. Harmony, U. S. N.; Hon. Henry S. Van Heaton, Miss.; Prof. D. C. Gilman, Johns Hopkins; Prof. W. G. Sumner, Yale College; Asa Morgan, Ark.; Thos. A. Logan, Ohio.

On Saturday evening there was dress parade at 6 P. M. The parade was not as steady as usual, but was complimented by the Board.

In the afternoon the cadets played a game of ball with a team from St. John's College in the city of Annapolis. It was an easy victory for the cadets, although they played carelessly in one innings and allowed the college team to score four runs. The pitching of Anderson was the feature of the game. He gave three men bases on balls, but not a safe hit was made throughout the game.

Shoff at short stop played a good game for the college men and Snow of the Cadets played a fine game at first base. The game closed in the seventh innings with a score of 10 to 4.

Saturday evening was the night of the first promenade concert given by the graduating class. The Yard looked very pretty, lit up by Chinese lanterns, and the band's pagoda was the centre of attraction. The selections were very tasteful, and if all the young people strolling through the Yard heard them they must have been appreciated by a large audience. They certainly were appreciated by the elder and more sedate persons who lined the steps throughout the Yard.

On Monday evening a little rain and a threatening sky caused the postponement of the proposed seamanship cruise. As a substitute, the Board were invited to attend an entertainment in the armory consisting of fencing, boxing and gymnastics, under the direction of Swordmaster Corbesier and Mr. Strohm, Instructor in Gymnastics. The feature of the exhibition was the fine fencing of Cadets Allen, Hibbs and Pigott.

In the afternoon the artillery drill was postponed for the same reason, and steam drill, signals, and rifle practice took its place. These exercises were all satisfactorily executed. Senator Grey gave out a signal with a known mistake in it, and it was returned in exactly the same form by the Signal Division.

The rainy weather continued on Tuesday, and the exercises were in boats, steam launches and sailing cutters.

In the afternoon the infantry drill was given, and it was throughout both steady and effective. The volley firing was very good, and a battalion wheel was simply perfect. The Board complimented Ensign Haeseler and his battalion upon its fine work.

The dress parade was postponed owing to the rain.

On Monday evening the graduating class gave a very nice hop in the gymnasium. It was attended by nearly all the visitors, and was a remarkably gay and pleasant hop. It will probably be the last hop held in the gymnasium this year, although it is thought that one may be given on Thursday evening.

On Wednesday, the cadets went out in the morning on a combined sea and bip and gunnery cruise. They were exercised in the afternoon as a battalion of artillery, with Ensign Glennon in command.

On Tuesday evening a very pleasant party was held at the residence of Pay Director Murray in Annapolis.

On Wednesday evening, Mrs. Commander Huntington received her friends at No. 1 Blake Row.

On Thursday evening, Lieutenant Comdr. Todd gave a reception for the graduating class.

On Thursday evening the annual banquet of the Alumni of the Academy was held in the mess hall. A large number of officers attended.

The new first class are already engaged in decorating the armory for the June ball, which promises to be one of the most successful of the kind ever held.

The other drills this week are flag drills, by the different competing companies. The companies are not in first-class condition, but the battalion improved so yesterday in its work before the Board that a good drill may be looked for.

The graduating exercises will be out doors, if the weather will so permit.

On Monday next the cadets will embark on the *Constellation* for the cruise.

The Board of Visitors organized Saturday by electing Commodore D. B. Harmony, U. S. N., President, and United States Senator George Gray, Vice President. Lieut. G. P. Colvocoresses, U. S. N., has been detailed as secretary to the Board.

REVENUE MARINE.

The revenue steamer *Richard Rush* sailed from San Francisco June 6 for a cruise to Ounalaska and the Seal Islands for the protection of the seal fisheries.

The revenue steamer *Manhattan*, Capt. Tozier, left New York June 5 for Greenport to be overhauled. She is to have new decks laid, a new pilot house and several other extensive repairs. It will probably be six or eight weeks before she is again in commission.

A correspondent writes: "U. S. revenue steamer *Dexter*, Capt. L. N. Stoddard, comdg., towed the U. S. revenue bark *Chase* to sea from New Bedford on June 3. Officers of the *Chase*: Capt. D. B. Hodgsdon, comdg; 2d Lieut. W. H. Cushing, ex-officer; 2d Lieut. W. E. Reynolds, nav. officer; 3d Lieut. J. C. Cantwell. We saw a very peculiar sight, not often seen, on June 7, off Quick's Hill, Buzzard Bay. A small sperm whale, some 50 or 60 feet long, with his poke inflated, looking like a large balloon. We passed close by; it had evidently been dead some time, but was in a good state of preservation. It was estimated to be a 20 barrel whale. J. W."

1st Assistant Engineer W. H. Warren ordered to superintend work on machinery of the steamer *Godfrey F. Johnson* at New Orleans. This vessel is shortly to be commissioned as a revenue steamer.

2d Assistant Engineer O. N. Turner ordered to the revenue steamer *Stevens* at Newburg.

MR. FRYER'S "POCAHONTAS."

OF the projected *Pocahontas*, guaranteed to cross the Atlantic in six days, at a speed of 25 knots an hour, the *Nautical Gazette* says:

She is very much on a par with the *Meteor*, so extensively advertised some six years ago, whose machinery could never be moved until it was moved out, and so the *Pocahontas*, if built, will as surely go to the scrap-heap. To show how utterly visionary and impracticable the realization of such a speed is of a vessel of the *Pocahontas* description, it is only necessary to compute the aggregate weight of hull, engines, coal, etc., of this truly remarkable craft on paper.

The engines, instead of being an improvement upon present types, are rather a retrogression, and estimating that each ton of weight of boilers and engines will develop 10 indicated horse power—a liberal allowance—it will be seen that the weight of engines, boilers, shaft, propellers, etc., will amount to 1,950 tons. At a speed of 25 knots per hour, the *Pocahontas* would accomplish the voyage across the Atlantic in five days, for which period a sufficient coal supply must be carried. At the low rate of two pounds per hour, for each indicated horse power, 2,088 tons will just suffice. A recapitulation of the foregoing weights and other necessary items, show as follows:

Weight of hull	3,120	tons.
Weight of machinery	1,950	"
Weight of coal	2,088	"
Weight of 800 passengers; crew, 130, with effects and provisions	130	"
Weight of rigging and sails	100	"
Weight of anchors and chains	40	"
Weight of boats (30), equipments, etc	30	"
Weight of various equipments	200	"
Total	7,653	"
Available displacement	5,200	"
Deficiency	2,453	"

This deficiency of 2,453 tons displacement would bring the vessel down to a draft of nearly *six feet* more than calculated; thus, of course, making the vessel a total failure, as she is not designed to sail entirely submerged. Not a single naval architect or shipbuilder can be found who will hazard his reputation in endorsing this clumsy fabrication, which possesses neither the elements of practicability nor the vividity of description of the brilliant fancy of Jules Verne. The *Pocahontas* scheme is simply a stock-jobbing fraud.

DEPARTURE OF FOREIGN MAILS.

THE following is a list of the dates of departure of the mails during the month of June for the West Indies, Mexico, and for Central and South America. From New York.—For Central America, except Guatemala and Costa Rica and the South Pacific, except Chili, also specially addressed correspondence for Chili, Costa Rica, Guatemala, and Mexico, June 1, 10, 20; Cape Hayti, St. Domingo, and Turk's Islands, June 8, 21; Windward Islands, June 4, 18, 25, 29; Vera Cruz and Progresso, June 4, 14, 24; Hayti, June 2, 16, 30; Bermuda, June 2, 9, 23; Jamaica, June 4, 11, 25; Curacoa, and Venezuela, June 2, 14, 25. For Jamaica, Nicaragua, and U. S. of Colombia, except Aspinwall and Panama, June 8, 22; Para, Pernambuco, and Cera, Brazil, June 30; Bahama Islands and Santiago, Cuba, June 9; Mexican States of Yucatan, Campeche, Tabasco, and Chiapas, also specially addressed correspondence for other Mexican States, June 9, 23.

From New Orleans.—For Nicaragua, June 15; Republic of Honduras and Bay Islands, June 7, 11, 14, 21, 28, 29; specially addressed correspondence for Cuba and Porto Rico, June 14; British Honduras, Guatemala, and the Republic of Honduras, June 9, 18, 30; U. S. of Colombia, June 2, 23; Costa Rica, June 10, 24

Mails for Cuba leave Tampa, Fla., June 2, 6, 9, 13, 16, 20, 27, 30, and from Philadelphia, June 7, 13, 22.

Mails for St. Thomas, and for St. Croix via St. Thomas; for Barbadoes, and for Trinidad and Demerara via Barbadoes, for Brazil direct, and for Chili, the Argentine Republic, Uruguay and Paraguay via Brazil, leave Newport News, Va., June 15.

Mails for the South Pacific and Central American ports; also for the States of Sinaloa, Jalisco, Colima, Michoacan, and Guerrero, Mexico, leave San Francisco, Cal., June 1, 15.

Mails for Lower California and the West Coast of Mexico, leave San Francisco, June 7.

Trans-Pacific mails leave San Francisco, Cal., as follows: For Japan, Shanghai, Hong Kong and dependent Chinese ports and the East Indies, except British India, Straits settlements, Siam and Dutch East Indies, June 4, 15, 25; New Zealand and Australia, and for Fiji and Samoan Islands and New Caledonia via Sidney, N. S. W., Hawaiian Kingdom, June 3, 21. Tahiti and Marquesas Islands, June 30.

BLACK, STARR & FROST,

SUCCESSORS TO

BALL, BLACK & CO.,

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	$21.00
Old Reserve Whiskey,	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey,	12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

ANNOUNCEMENT.
TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

While the Company he represents has no superior in the country for security or for liberality in its policies to officers in the Military Service, yet he will be pleased to advise and assist officers who may prefer to place their insurance in other reputable companies. Information as to the standing of the various companies and their relative profitableness for investment he will gladly communicate to those who desire it; also advice as to kind of policy best suited and most profitable to those of different ages.

By this announcement the undersigned hopes that he may serve the interests of his brother officers, enabling them to place their insurance in the most substantial and profitable companies, in a form of policy most advantageous to themselves.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JUNE 11, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

Cable address: ARMYNAVY. 240 Broadway, New York.

GENERAL LORENZO VEGA, President of the Mexican Military court that sentenced the three Nogales invaders to death, when recently in El Paso, stated that Col. Arvizu, Lieut. Guitterez, and the third prisoner, a civilian, are still in jail at Guaymas, pending an appeal for mercy to the President and Secretary of War. They were tried by a court-martial composed of two generals and five colonels and promptly sentenced to death on the two charges of kidnapping and invading friendly territory. In Mexican official circles, says the despatch, it is not thought the intercession of Secretary Bayard for leniency will have the desired effect, for the standing of Col. Arvizu in the Mexican Army is not of the best. There is no sympathy for him among his own countrymen, and the sentence of death will undoubtedly be executed.

THE guns of Castle William fired a salute as the ninth complimentary water excursion tendered by Mr. John H. Starin to the Union Veteran soldiers and sailors and their families, passed Governor's Island on Thursday.

REVENUE MARINE AND THE NAVY.

NOT long since we chronicled the results of the examinations recently held for the position of cadet in the Revenue Marine, when four gentlemen received these appointments and have since been ordered to duty on board the revenue school-ship, preparatory to their two years' term of instruction. Is it not quite time to inquire once more "to what purpose is this waste?" Within a few weeks there will be a number of well-educated and well-qualfied young men who have been in the service of the Government for six years, thrown out of employment by reason of the fact that there will be no vacancies existing for them in the Navy; why should not these surplus graduates be taken for the use of the Revenue Marine? Surely it can not be claimed that their education has not fitted them for the place! The opportunities afforded by the school-ship of the Revenue Marine are but a tithe of those given at the Naval Academy, and it is surely a waste of the public money to keep up two establishments when one will suffice; especially is this the case when one of them is necessarily inferior to the other in its plant and in its results. The Board of Visitors at Annapolis last year, recommended that appointments to commissions in the revenue service should be made from the surplus graduates, and this is the view that any man of sound common sense would take if unprejudiced; there need be no fear on the part of the revenue officers that this would tend to give them men who would not have the interests of their work at heart; they would get officers better prepared for their duties than those obtained under the present system. The ultimate destination of their service must be its incorporation with the Navy; and we believe that this must come at no distant day. We are of opinion that as the benefits of such a transfer are better understood, there will be more and more of a sentiment in favor of the change. The opposition of the days of ex-Secretary CHANDLER would not now be able to raise its head, in face of the knowledge of the working men of the force as to the advantages of the retired list, pensions, etc. If Secretary FAIRCHILD desires to carry out the reform policy of his chief he can find no better place to do so than in this matter of the revenue school ship, and the appointment of the inferior grades of commissioned officers.

THE FIFTY-EIGHTH ARTICLE OF WAR.

WE observe that the reviewing authority in a recent case tried at Fort Leavenworth has been subjected to criticism because of its action in setting aside the proceedings, "for the reason that the court was without jurisdiction of the offence committed by the prisoner, which is shown by the evidence to have occurred in the city of Leavenworth. The provisions of the 58th Article of War, giving Courts-martial power to try crimes of this character, without reservation as to the place of their commission, are only vitalized during the period of a war." It is claimed that this is bad in law, that it is subversive of discipline, and directly opposed to judicial and executive decisions. The opinion of the Supreme Court in the MASON case is cited as setting at rest the question of jurisdiction of a Court-martial over all offences enumerated in the 58th Article of War, under the provisions of the 62d Article, in time of peace, and the action of the Secretary of War, in sustaining General MILES in his approval of proceedings had against soldiers for robbing citizens, is the executive decision referred to.

We have read the opinion of the Supreme Court in the Mason case, with much care, and are unable to perceive that even the most forced construction of its terms can give to them the meaning claimed. Its extent, so far as the present question is concerned, was that the 58th Article of War "neither adds to nor takes from the powers which Courts-martial have, under the 62d Article, in time of peace." The reference to the fact that the act done by MASON was a civil crime, and that his trial was for that act, has no bearing upon it. MASON was on duty when he committed the crime for which he was tried. His status fell within the definition of Lord LOUGHBOROUGH "that the persons who compose the Army, for all offences in their *military capacity*, should be subject to trial by their officers." To hold that under

the 62d Article of War a soldier may be tried in time of peace for any offence enumerated in the 58th Article, no matter where committed, deprives the provisions of that article of all meaning. If it means anything it is that offences named shall be cognizable under all circumstances, *in time of war alone* by a military court. *Expressio unius est exclusio alterius* is the maxim of law controlling its construction. The opinion of the Supreme Court left the 62d Article just where it had always been. Under its provisions offenders could be tried in time of peace for any offence not capital, if committed in a place and under circumstances affecting the discipline of the Service. If an enlisted man on furlough commits a civil crime a thousand miles from a military post, jurisdiction to try which is expressly conferred upon a court-martial in time of war, can it be said that he may legally be tried at that post in time of peace by such a court? If he cannot, and we hold he cannot, can a soldier absent from his post by authority be brought before such a court for the commission of a civil crime two miles away? Jurisdiction is a question of territorial boundary. It is governed by a geographical line. Upon one side is that of one power, and upon the other side that of another power. The case referred to, wherein the action of the Secretary of War is cited, was of so peculiar a character that it has always seemed to us that the Secretary of War could not have given to it a personal consideration. Two enlisted men belonging to Vancouver Barracks in Washington Territory, committed robbery on a civilian on the highway in the State of Oregon. By what reasoning the jurisdiction of a court-martial could be asserted in the premises we are at a loss to determine. The prisoners were sent to a penitentiary. That a habeas corpus proceeding would have secured their release cannot be doubted. In conclusion we are of opinion that it is not the part of wisdom for military courts to assume in any degree to exercise functions which should be left with civil tribunals.

A NEW SYSTEM OF TACTICS.

THE letter to General E. L. MOLINEUX, which appears elsewhere, contains a description by the author of the new system of tactics devised by Major HAMILTON S. HAWKINS, of the 10th U. S. Infantry. We have not yet had an opportunity to examine these tactics, but have great confidence in the judgment of General MOLINEUX in such a matter, and after a thorough examination he gives them his most unreserved commendation. It is obvious that a change in tactics must come, and we are glad of any opportunity to subject to the test of trial and criticism any system that may seem to be worthy of examination as that of Major HAWKINS most undoubtedly is With reference to it an officer of the Army of large experience says in a letter we have before us:

"The officer of the Army who stands still to-day is lost. He must go forward or he drifts back to disgraceful ignorance. The best articles appearing upon modern Battle Tactics for Infantry have been written by Gen. Sir LUMLEY GRAHAM, British Army, and 2d Lieutenant KENNON, 6th U. S. Infantry. The man who has succeeded in writing a system of tactics for infantry, complying fully with all the requirements of said articles, and in addition being supported by all the worthy authority obtainable, has accomplished a work of great importance, and a manuscript of such value should not be permitted to lie still born in the hands of the author. There has been written such system of tactics for infantry, the simplicity of which amazes one. The author is Major H. S. HAWKINS, 10th U. S. Infantry, at present Instructor of Infantry Tactics at the Military School at Fort Leavenworth.

"In no sense is his work a revision of UPTON. It is new, clean cut, in spirit and fact. I was present at the drills, three in all, that Major HAWKINS held with his new system, and can only say I was delighted with every movement, so simple, so strong and efficient, passing over all kinds of ground and obstacles without confusion, deep rivers and precipices alone calling a halt. These tactics also give sufficient space for a man in line with closed ranks to carry into efficient execution all the instruction given him at target practice, and with equal accuracy as though held on the range. This I deem of vital importance. I have read the manuscript of Major HAWKINS with great care in connection with Sir LUMLEY GRAHAM's and Lieutenant KENNON's papers. I did so with a view to its destruction, but Major HAWKINS controverted every point made against it with such success that I am made a convert to this new system."

Another officer says in a communication just received: "No officer familiar with modern field exercises and manœuvres can doubt that to-day a great necessity exists for a revision of our infantry tactics, nor is there much question that the last days of General UPTON's life were embittered by the knowledge that his tactics were not adapted to the needs of modern warfare. I sincerely hope the tactics to be presented by Major HAWKINS may meet the full expectation of his friends and the just needs of the Service, but at the same time I hope no change will be authorized which is not specially suited for manœuvring a three battalion regiment; each battalion being as much under the immediate command of its major in manœuvring as a company is now under the command of its captain. A firing line for attack must to-day be in extended order and it will be impossible for a colonel to keep in battle more than a general supervision of his regiment. In all European armies, with the exception of that of Great Britain, a regiment consists from two to four battalions with the major in active command of his battalion. To-day the United States are still adhering, in its essential features, to an infantry organization that in other nations has been abandoned by reason of its inherent defects as demonstrated on many a battlefield. Congress is prepared to view with favor a change of our infantry regiments to a three battalion organization, and is it a judicious time to change the present system of tactics before the change in organization is effected?"

THE following return to Parliament shows the number, description, name of designer, place of manufacture, and actual approximate cost of the various rifled iron and steel guns supplied by the British War Department to the naval land services during each of the years 1859-60 to 1885-86, inclusive:

	No. of Guns.	Royal Gun Factory.	Elswick.	Total.
1859-60.....	101	£8,142	.....	£8,142
1860-61.....	560	50,856	£34,553	85,409
1861-62.....	1,432	290,657	194,201	484,858
1862-63.....	905	116,700	149.164	265,864
1863-64.....	201	25,335	22,862	48,197
1864-65	291	59,403	11,224	70,627
1865-66.....	185	56,471	15,019	71,490
1866-67.....	700	376,919	31,363	408,282
1867-68.... .	576	272,592	2,991	275,583
1868-69.....	283	157,584	11,027	168,611
1869-70.....	418	150,167	22,918	173,085

1881-82.....	140	96,926	9,103	106,029
1882-83.....	241	126,427	82,799	209,226
1883-84.....	214	151,309	23,079	174,388
1884-85.....	188	119,660	.....	188,660
1885-86.....	336	222,077	34,256	256,333

A total of 11,098 guns costing altogether $23,828,660, an average of $2,174 each. The Royal Gun Factory was instituted at Woolwich in 1857 for the manufacture of the Armstrong rifled gun. Woolwich Arsenal in 1837 employed 136 men; at the present time it employs 12,550. Hitherto they have not made any guns larger than 69 tons, but they state that they are quite prepared to make up to 150 tons.

THE War Department has received an official copy of the decision of the Supreme Court in the Runkle case, and it is presumed that the President will cause Major Runkle's name to be restored to the retired list of the Army without further delay, as the list is now three below the four hundred limit. The question of back pay due Major Runkle, including the longevity under the Tyler decision, will have to be settled by the accounting officers of the Treasury after the Court of Claims has decided what is due him. The most important question for the War Department to decide in connection with the decision is as to whether or not it opens the doors for other officers of the Army who were dismissed under similar circumstances. No official conclusion as to the bearing of the opinion on that point has yet been arrived at, but lawyers around the War Department who have read it do not anticipate that there will be any other beneficiaries. At any rate they are sure the War Department will not consent to the restoration of any one without some show of protest, which means that each applicant will have to fight his way through the courts as Runkle did. There are quite a number of cases where officers have been dismissed the Service by sentence of courts-martial, the papers being signed by the Secretary of War instead of the President. In fact before Hayes's Administration, when the Runkle case first came up, it was quite the custom for the Secretary of War to sign papers in court-martial cases involving dismissal. But there is no case precisely similar to that of Major Runkle's, and there are several points that could be raised against those who might demand restoration that did not apply in the Runkle case. In the first place over six years have elapsed since the Secretary of War ceased signing court-martial papers for the President, and the majority of those who were dismissed previous to that time would now be barred by the statute of limitation. There are a few who presented their claims for restoration at the same time Runkle did, but as the vacancies from which they were dismissed have been filled by the appointment of others, whose nominations were confirmed by the Senate, the decision in the Blake case would shut them out if the limitation clause did not. Indeed, unless the applicant for restoration should happen to have been on the retired list as Runkle was, it is doubtful if the decision of the Court can be made to apply to any other dismissed officer.

THE Secretary of War has referred the mileage case of Surgeon BILLINGS to the Court of Claims. This is one of the cases, it will be remembered, that provoked the late unpleasantness between the Secretary and Ex-Comptroller MAYNARD, who refused to pass the account of Surgeon BILLINGS for mileage during his visit to the International Medical College, held at London, in 1881. The Comptroller held, that "the War Department had no authority to send a delegate to the International Medical Congress at London at the Government's expense." Congress, alone, he held, could determine the propriety of such a representation. The Secretary took exception to this ruling and some spicy correspondence resulted, with the usual result, that each held to his own opinion. It is to test the soundness of the Treasury ruling that the Secretary is now bringing the matter before the Court of Claims. In order to get the case before the court he was compelled to bring suit against Major BILLINGS, as indicated in the following communication, transmitting the papers:

WAR DEPARTMENT, WASHINGTON, May 25, 1887.

To the Honorable the Judges of the Court of Claims:

The undersigned, Secretary for the Department of War of the United States, respectfully represents that two claims have been made against said Department, by Surgeon J. S. Billings, United States Army, for mileage, for travel on duty, under the orders of the War Department, of March 30, 1881, and February 21, 1884, respectively; that payment of mileage, due under the first order, was made by Major William Smith, Paymaster United States Army, and under the second, by Major James R. Roche, Paymaster United States Army; that said payments were disallowed by the accounting officers of the Treasury, the first under date of November 15, 1885, and the second under date of December 14, 1885; that the matter of the stoppage of the pay of said Surgeon Billings, under paragraphs 2445 and 2446, of the Regulations of the Army of 1881, for the purpose of reimbursing the United States, the amounts so disallowed, is now pending before the War Department; that said Surgeon Billings resists such stoppage, claiming that under existing laws and regulations he is justly entitled to the mileage charged for the journeys performed under the lawful orders of his superior.

As said claims involve controverted questions of law, and the decision will furnish a precedent for the future action of the War Department in the adjustment of a class of cases, the undersigned hereby causes said claims, with all the papers pertaining thereto, to be transmitted to the Court of Claims for its action, under Sec. 1063, of the R. S. of the United States, or under such other statutes as the court may deem applicable.

WILLIAM C. ENDICOTT,
Secretary of War.

THE Chicago *Inter-Ocean* closes an article on "BOULANGER and the French Cabinet," with this extraordinary statement, which is reproduced as it appears in the *Inter-Ocean*:

"The Radicals and the Republicans have for several years feared something of a reaction against the republic. Should a reaction come the army would be the great instrument of revolution. Acting on this theory the Republicans made a point of

retiring from important commands officers whose family ties or whose political bias attached them to the Conservative interest. It was General Boulanger's idea to reorganize the army as a Republican water supply; and why should Chicago be devoid of a cheap luxury which all her great sister cities enjoy?"

It would appear from this paragraph that the "cheap luxury" of cold water is badly needed in the office of the *Inter-Ocean*. Possibly, the fact that New York is just now getting more cold water on Sundays at least, than its mixed population calls for, may explain this envious remark of the Chicago paper at the expense of her great sister cities. The reorganization of the French Army as a water supply under a BOULANGER, suggests an abundance of the two essentials of life in the matter of food and drink.

THE NEW CRUISERS AND GUNBOATS.

THE work on the new cruisers and gunboats now building, or rather contracted for, is progressing so slowly that the contractors have given up all hope of completing their work within the contract time, and, instead of looking forward with pleasure to the early remuneration for their services, are anticipating with dread the expiration of the contracted period, from which date the Government will exact fines from them of $25 per day for the first six months; $50 per day for the next 90 days; $100 per day for the next 90 days, and $200 for each day thereafter until the vessels and machinery are completed. The contracts require that the cruisers shall be completed and delivered to the United States within 18 months and the gunboats within 12 months. Over six months have passed since the contracts were awarded and the keel of but one vessel, the *Baltimore*, has yet been laid.

The delay is due to the difficulty in getting material, for which the contractors maintain the Government is responsible, asserting that the tests prescribed are too severe, and that they are not properly applied. The Department accordingly has modified its instructions to steel inspectors no less than three times already. The first important modification applied to tensile tests of finished material, except boiler plates, and some advantage was thereby given to the contractor. The last modification, made June 7, applies to boiler plates, and is also a decided advantage to the manufacturer. Until this change was made none of the boiler plates for the *Baltimore* stood the test applied. Under the original tests these required an elastic limit of not less than 34,000 pounds per square inch and an elongation in eight inches of not less than 29 per cent. Under the modification these figures are reduced to 30,000 pounds and 26 per cent., respectively.

The manufacturers are now satisfied that they will experience no further difficulty under the new tests in furnishing boiler plates promptly, and in quantities required. The change, which was decided upon after a conference between Secretary Whitney, Engineer-in-Chief Loring and Captain Evans, will admit about 120 tons of plate, which failed under the tests heretofore prescribed.

The reports received by the Navy Department from the several steel inspectors show that about 1,200 tons of material for the new vessels have been passed up to date. About three times this quantity, it is believed, has been rejected. A photograph of the work done on the *Baltimore* was received at the Navy Department this week. It shows the keel and about a dozen frames to be in position. So far as the Department is informed, the keels of the *Charleston* and gunboats have not yet been laid, though it is known that some of the material is on hand at each of the places where the vessels are being built. So far as can be learned none of the material for the dynamite vessel has yet been turned out.

An order was issued from the Navy Department on Thursday requiring the Steel Inspection Board to again assume charge of the inspection of all the material of the machinery of the new vessels, that is as far as tensile strength is concerned. The engineer officers will continue to pass judgment upon the quality of the steel.

THE detail of two Army officers to witness the manœuvres of French troops in September next is now under consideration by the Lieutenant-General. He had at first contemplated the selection of two officers from among those now on leave of absence abroad, but it is now understood that he will send two well-known artillery officers from here.

OUR Washington correspondent reports with reference to the accident to the 10-inch Naval gun: "My best judgment after talking with General BENET and other officials of the Ordnance Corps, is that the accident to the gun will cost but little to repair and that its strength will not be impaired. The depth of cut is placed by Captain SICARD at the twentieth part of an inch and by some officers of the Yard at one-eighth of an inch. Even if the latter is correct, it is believed by disinterested parties, that the injury will not result seriously. It has not been decided how to repair the damage, and the gun, meanwhile, remains hidden from the gaze of the curious. The correspondent whose report we published last week, says: "Investigation shows that the principal injury consists of a score cut in the powder chamber of the gun to the depth of about one-eighth of an inch and in length about four inches concentric with the bore. This is the initial injury resulting from the breaking of the tool and is that referred to last week. It now appears that in withdrawing the broken tool another score was made parallel with the axis of the bore and about a foot in length. Here the gun must have turned slightly or the broken tool must have moved so that a second score was made three inches long and also concentric with the bore. The first score is the deepest, and to remove it it is estimated that the diameter of the powder-chamber will have to be increased about one-quarter of an inch. I append a copy of a drawing showing the nature of the scoring the powder chamber of the 10-inch rifle has received."

THE following letter was written to Col. Henry by one of the officers of the 24th Infantry, the subject being brought up by Lieut. Merriam's remark, refe ring to the 24th Inf., that in that regiment a man had said, "we shoot by proxy, sah!"

I do not know whether any other officers have written to you on the subject or not; I can, however, say that I was very glad to see your reply in the JOURNAL of April 16 to Lieut. Merriam's letter. Your reply is one that all officers whom I have met express entire approbation of. It would seem to be the proper course for Lieut. Merriam, or any other officer who might notice anything censurable in the methods of any in target practice, to put it in an official communication for the action and decision of superior authority, instead of establishing himself as a censor and rushing into print with expressions that injure the good standing of the service and that are objectionable in the spirit of the regulations, and certainly not conducive to good discipline. I have written an official report relating to Merriam's letter to the Regimental Hdqrs., and I suppose the same has been done by all the officers of the regiment, so that as far as the officers of the 24th are concerned it has become a matter of official action on the part of the colonel of the regiment.

We have been informed that Col. Bliss, of the 24th, has taken such action, the result of which is not yet known. Certainly the facts should be investigated.

AN agent of the Smith and Sayre manufacturing company of Newark, N. J., has gone to Forts Thomas and McDowell, Ariz., and thence to Forts Clark and Brown, Tex., to put into successful operation and give the necessary instructions for running the ice-machines, etc., to be furnished these posts. The idea is an excellent one.

WE add our testimony to the value and usefulness of the Cyclostyle Duplicating apparatus. Its advantages are that it is easily handled, produces excellently clear copies, from original matter, written by Cyclostyle pen or pencil, prints in black, and saves much time and annoyance by the facility with which an error can be corrected in the stencil copy that is wholly or partly prepared. Thus a large number of the Cyclostyle are in use in the War Department and Signal Bureau—the War Department having recently ordered $2,000 worth of the instruments. It is also used by a number of regiments in the Regular service and in the National Guard, for printing orders and circulars.

IT is reported that the Naval Engineers took advantage of the presence of the Mechanical Engineers at the annual convention in Washington last week to explain their position with reference to the proposed consolidation of bureaus, and to lay out a plan of defensive campaign for the next Congress. It is intended to propose a consolidation of the Army and Navy Ordinance, with an independent commission, or, at least, to bring them together under one administration.

WE are indebted for a neat and well-arranged roster of commissioned officers at the post of Fort Leavenworth, commanded by General A. McD. McCook. An useful feature of the roster is the location of the quarters of each officer on duty at the post.

A FORT KEOGH correspondent of the New York *World* writes an interesting letter on "Army Life on the Frontier," and concludes it by saying: "Take it altogether, Army life on the frontier is pleasant and delightful. For the officer a change of station is bound to come sooner or later, and for the soldier a five-year term of enlistment is interesting and full of incident, and if he be saving and careful he can go out of the service with a snug little sum to his credit, enough to set him up in business back in the States, and perhaps marry his best girl in the bargain."

MAIDEN ladies of uncertain age may take heart of hope, brush up their dancing, and go and see their Army friends when they read the following from a Fort Keogh correspondent: "There is a fine hop-room at nearly every post, and it is a peculiarity of Army hops that no lady, however ugly, whatever her age, be she old and toothless or young and charming, ever remains a wallflower throughout the evening. She shares alike with the belles of the evening, every gentleman in the room showing her the same attention and courtesy bestowed upon the fairer and more youthful damsels."

THE report of the Hospital Corps Board is now in such shape that we hope to receive the General Orders on the subject soon.

MILITIA APPROPRIATIONS.

THE distribution of the $400,000 appropriated for the militia has been distributed as follows: Ala., $9,216.59; Ark., $6,451.61; Cal., $7,373.27; Col., $2,764.98; Conn., $5,529.95; Dela., $2,764.98; Fla., $3,486.63; Ga., $11,057.91; Ill., $20,276.49; Ind., $13,824.88; Iowa, $11,981.56; Kas., $8,294.93; Ky., $11,981.56; La., $7,373.27; Me., $5,529.95; Md., $7,373.27; Mass., $12,903.23; Mich., $11,981.56; Minnesota, $6,451.61; Mississippi, $8,294.33; Mo., $14,746.53; Neb., $4,608.30; Nev., $2,764.97; New Hamp., $3,686.63; N. J., $8,294.93; N. Y., $33,179.73; N. C., $10,138.27; Ohio, $21,198.16; Oreg., $2,764.98; Pa., $27,649.78; R. I., $3,686.63; S. C., $8,294.93; Tenn., $11,059.91; Tex., $11,981.56; Vt., $3,686.63; Virginia, $11,059.91.

W. Va., $5,529.95; Wis., $10,138.27; Territories of Alaska, Arizona, Dakota, Idaho, New Mexico, Montana, Utah, Wash. and Wyoming, $2,764.98 each, and the District of Columbia, $5,529.95.

(From the N. Y. Tribune.)

HE DIDN'T WANT TO DISGRACE HIM.

GENERAL —— is an old-time Southerner, very vain about his personal appearance and very proud of his cigars, which are about as good as can be bought, for the General has plenty of money. The General has a negro valet who has grown old in his service. The old negro flatters himself that he bears a strong personal resemblance to his master, and among his colored acquaintances is known as "The Gin'el."

One day General —— gave his valet one of his old dressing gowns. Soon thereafter, General —— began to miss some of his high priced cigars. He suspected the old negro of taking the cigars, and to make his temptation lighter gave him a box of cheap cigars together with a strong hint of his suspicions. Still the good cigars continued to disappear. At last General —— lost all patience, and plainly charged the old negro with the theft.

"You old black rascal," he thundered, "I know you've stolen those cigars, and you had better tell me the truth or I'll have you shot, hang me if I don't."

The darkey was too scared to speak for a moment but he wasn't long without something to say for himself, and as he went on with his defence grew quite jubilant in manner, feeling assured that he would be acquitted. This is what he said:

"Now Gin'el, I axes you to let me 'splain. 'Scuse me, Gin'el, please. I 'clar fo' de Lord I ain't stole dem see-gars. I ain't stole nuffin' since I jined de church, mor'n six monts ago. Gin'el, you 'members dat ole dressin gown dat you gib me. Well, when I goes home and puts on dat dressin' gown an' puts bof my feet on de mantel, jes like I see you do, my ole 'oman she say, 'I 'clar Willyum Henry, yu does look mi'ty like de Gin'el.' An' I tells you, Gin'el, I does feel pow'ful like you, but somehow I ain't jes like you. I wants som'pin. I keeps thinkin' and thinkin' wat it mout be. Den my ole 'oman, she say agin, 'I clar Willyum Henry, ef you jes had one ob de Gin'el's fine see-gars yu'd look jes like him. Well, Gin'el, when I gets one ob dem fine see-gars I knows I looks jes like you, 'cus I feels like you."

"But you old black reprobate," broke in the General, "why didn't you smoke one of the cigars I gave you and leave mine alone."

The old negro drew himself up proudly, and looked reproachfully at his master while he replied:

"Gin'el, I'se knowed you nigh onto fifty yeers, an' I'se niver knowed you to smoke a poo' see-gar. I doesn't want to disgrace yer, Gin'el. Howse I gwine to look like you wid a poo' see-gar in my mouf?"

The General never answered the question.

EX-SECRETARY of the Navy Chandler is to be the next Senator from New Hampshire, having been selected as the caucus candidate of the Republican party, which controls the choice.

General Drum received a telegram on Friday that the Apaches murdered Mike Graue and shot at another man named Leek, near Crittenden, on Wednesday, and that Captains Lawton, Hatfield and Martin are in pursuit.

THE ARTILLERY QUESTION.

To the Editor of the Army and Navy Journal:

Many evils doth environ
Men who meddle with cold iron.

If Professor Michie deserves nothing more he is certainly entitled to the gratitude of the artillery for his concise and intelligent presentation of what may be called the Artillery Question. It was not to be expected that the Professor would be able to state all the causes which for fifty years have operated to make our artillery what it is, or to suggest the appropriate remedies. Such an account could only come from an artillery officer of long service. Nevertheless he has pointed out, with great clearness, some of the evils which have caused us great injury and which have induced the steady deterioration and impaired the prestige and usefulness of this important arm of service. As compared with the position, the duties, and the influence of foreign artillery, our own is simply a fraud, and bears no more resemblance to what the world at large ascribes to this branch of service than cavalry without horses and arms bears to cavalry well mounted and prepared in every respect to fight. The essentials, but not the name, would be wanting, which is our case exactly.

We are of no account. Deprived by the existing organization and system of all technical duties, or of any voice in the subject of armament, we are treated with condescending civility by the Ordnance and Engineers, and as we are habitually shut up in forts or barracks far removed from the vicissitudes, dangers, and hardships which have fallen to the cavalry and infantry during the past twenty years, we have forfeited much of the respect and *camaraderie* which are engendered among soldiers by a common experience in the field. *They* say that we are not soldiers, and as we know we have but little claim to our official title as artillery, it is difficult to decide where we really do belong. And for this condition of things, who is responsible? I will answer by saying that, in a very great measure, we may thank ourselves for being just what we are.

Since 1851 no less than five attempts have been made to reorganize the artillery and put it on a proper basis. We have had powerful and ardent friends both in and out of Congress, in the War Department, in the Army and among citizens at large, friends who would have been glad to see us succeed in raising our standard to that of other armies, and in thus advancing the general interests and efficiency of the Service. But these attempts have failed and were it not that the failures may prove valuable as beacons to guide us in any further effort we may make, it would have been better probably had nothing been attempted.

Experience shows that the chief, it may be truth fully said the only cause of failure heretofore has been the great diversity of opinions among ourselves as to what was really wanted, and the consequent impossibility of *united action*. These disagreements were quite natural in the earlier history of the artillery before the problem of reorganization had been thoroughly studied, but they should not be renewed now, if we wish to succeed.

For the first time in the experience of the writer, our case has been publicly presented by a learned, fair-minded and disinterested outside judge. By virtue of his office, his duties and his large acquaintance, both here and in Europe, Professor Michie's opinion is entitled to the fullest respect, and his suggestions to our most serious consideration, even if they do hurt our pride a little. Let us then study carefully the problem before us in all its bearings, let us discuss it calmly, patriotically and with an unselfish desire to elevate and improve the organization and employment of our corps, and with a firm faith in the justness of our cause let us with one accord and maintain it.

It is evident from the signs that another "attempt" is now under consideration, and that it promises to partake very much of the character of all other attempts, because we are not agreed as to the merits of the proposition. If this should prove true the plan will reach the President simultaneously with the usual counter suggestions or downright objections, and Congress or the War Department, to whomsoever it may be finally submitted, perplexed by the diversity of opinions, will naturally refrain, as they have in the past, from giving it their approval.

Before presenting our case again to the authorities, let us be sure that what we ask is *comprehensive, reasonable* and *practicable*, and that we *agree* upon *all vital points*. Otherwise, let us forbear asking further consideration or palliation of the many evils which environ us, and sink quietly and with becoming resignation into the oblivion reserved for us. EXCELSIOR.

SOLUTION OF THE RIDDLE OF THE SPHINX.

To the Editor of the Army and Navy Journal:

WILL you be so kind as to reproduce an extract from an anonymous communication published under the signature of Sphinx.

. . . . . .

A protest against the proposed arrangement of lieutenants, according to the lineal list, has been sent out by a lieutenant just because he will be ranked by some one who entered the Service after he did. He wants them arranged according to date of original entrance into the Service. Now it is just such narrow-minded selfishness as this that keeps the artillery where it is. His principal objection is that some will be retired with higher rank that those who served more years. In my opinion when a lieutenant reaches that stage th t his principal outlook is the rank upon which he will be retired, he should be retired at once or transferred to the Inspector General's Department. Did this lieutenant ever know of an officer voluntarily giving up rank already acquired? He might as well ask that all officers of artillery be arranged to rank according to age, so that all who survive will be retired with the highest possible rank. As long as we benefit the corps and are benefited individually, I think we can afford to pull together and lift ourselves out of the mire. Let us sink self as much as possible, place the artillery corps in the lead and our interests will not be sacrificed. SPHINX.

Mr. Sphinx is of course entitled to his opinion but it is a surprise to me that an officer who received an expression of opinion with reference to reorganizing the artillery, couched in the most courteous language, over the official signature of a brother officer, should anonymously refer to such communication in a discourteous manner. It is true a similar communication was forwarded to each individual artillery officer, and I invited a general discussion. Mr. Sphinx does not attempt to discuss the subject, but resorts to anonymous abuse.

Now charity would suggest that in his desire to forward his own pet plan for reorganizing the artillery, he inadvertently compromised himself as a gentleman; but if I be mistaken in the charitable construction I place on his peculiar action, and if it was the result of premeditation, he should favor us with his name, so that his brother officers would in the future know that a frank communication addressed to him would be probably referred to in a discourteous way through the public press. I am, Mr. Sphinx, your most obedient servant,

CLARENCE DEEMS, 1st Lieut., 4th Arty.

"PASSING REMARKS."

To the Editor of the Army and Navy Journal:

IT is gratifying to learn by a G. O. from the War Department that the "barbarous practice" of firing the morning and evening guns is discontinued. When that practice is resumed why not restrict it to the cynical artillery who seem to be sorely afflicted with "clot on the brain?"

What is the use of a morning gun anyway? It always disturbed the peaceful slumbers of most commanding officers, adjutants, and many company officers, at that blis ful hour, reveille, when sleep is so refreshing to everybody except the officer of the day.

Again, if we can only get the Salvation Army to join forces with the chaplains to wage war to the successful abolition of another "relic," Sunday morning inspection, then we can lie abed, be undisturbed in our meditations, and uninterrupted in our religious devotions until the "striker" brings in an "eye-opener" and an "appetizer" for a nine o'clock Sunday morning breakfast.

Another thing that would bring a gentle breeze of contentment to the Army while the target season is on, would be a truce to the "skirmish fight" now being waged.

Let all concede for the nonce that with about thirty per cent. of straight hits and a liberal use of ricochets on standing, kneeling and lying figures, the record can be run close to ninety per cent. and possibly more.

What if a company does make about ninety one year and only thirty-seven the next? Does not everybody know that the skirmish figures may have been more "elevated" one year than the other? and that on the second year the ground may have been less favorable for ricochets?

Why, everyone knows, or ought to, that there are few impossibilities in the shooting line for Army marksmen.

Some are unjustly accused of scratching through, but does not the officer's certificate settle that?

We have been pained to see the unreasonable doubters smile and hear them laugh when repeating the serious injunction of a captain to his first sergeant: "I want no wrong scoring, but remember, Sergeant, it's marksmen we want!" These doubters should be sent to Coventry—or to the pit.

We once heard a story of an "old soldier," who for years would shoot and shoot and could not hit, but after the Regular Army had followed in the wake of the militia on target practice, this old veteran, covered all over with the knocks and knobs of hard service, was placed on the ground and twisted into the military (?) position—feet to the target, knees drawn up, and his body contorted generally until he looked like "Jack in the Box"; well, after everything was ready, the piece properly turned and sighted by—a coacher, the officer calls out, "Are you ready there? Can you see the target?" Pat, whose vision was poor, raised his head, as if trying to come to attention, and said "Yis, sir!" "Then shut your eye and fire," says the officer. The story goes that Pat shut both eyes, squeezed the trigger with the ball of the thumb—just as he would not do in battle, and blazed away. But the officer detected that Pat was "going it blind," and in a tone of disgust and caustic reprimand, said: "I know you have missed the target!" But the "clouds rolled by" as up went the white disk, and the sergeant at the firing stand, a true son of the "ould sod," called out in triumphant tone, "bull's eye!" Pat had qualified and the glint from the marksman's buttons on his collar shone across the parade at "retreat" that day; but they did not shine brighter than Pat's beaming face at the triumph he had made, and he "set 'em up for the boys" on that account.

Let not the scoffer sneer at poor Pat's best efforts! "It's marksmen we want," and "don't you forget it!"

We don't want to "hurt feelings," and we hope that the "thin skinned" may find some way to thicken the epidermis, and always be charitable enough to "excuse the bluntness of a SOLDIER."

MUSKETRY, E. I. G. O.

To the Editor of the Army and Navy Journal:

I WOULD not interfere too seriously between "One of the Inspected" and "Four Arms," but as some other eye may have caught their passing remarks and felt a certain narrowness in the interest expressed by these knights of the *nom de plume*, may I inject a word? In such a pleasant exchange of ideas can they not broaden their view to the possibility of the infantry not being the only one of the inspected? Even inspectors of rifle or target practice may some day awake to what very important "practice" they do not inspect, and "Four Arms" is a good enough name to suggest what damage is done by what is ignored. Musketry is good, but it is not everything in the Army, even on a gunpowder basis; and our musketry is far from the ideal, dispite the high pressure and special privileges which have been given it for years.

"Progress," on the neighboring page of yours of May 28, says, as to one-sided target practice, what may well be taken to heart on all sides:

"As to abolishing the 'figure of merit system,' how was it before we had such? Some few did well and a large majority did not do at all. Emulation, and *official publication of results*, is that which has brought the Army to its present high standard, encouraging the good and zealous captains and making the indifferent or lazy work." (The italics are mine). And must all other military instruction be left as stale and indifferent as musketry was, and the Army remain a Cyclops with one idea? Orders, frequently referred to as bases of existing Regulations, command that the merits of different organizations shall be determined in other respects beside merely musketry, and when this alone is selected for publication and prizes the result is evident. What is sauce for one is good enough for all.

There is a possible question of fact cropping out incidentally in this exchange of views, which seems important enough to the Service at large to be made as impressive as possible. The use of italics and a noun adjectively may leave some doubt of the exact meaning intended to be conveyed by him, but if "One of the Inspected" has such access to the records that he can confirm their failure to show the ignorance of some commands in the effective use of their weapons, both carried and fixed, where field service has in no wise interfered with necessary practice, the revelation would be well. Whether such a failure would be creditable to the records or to the Army, most of us have seen enough to judge. In the hope that the records are at last accessible and will disprove the whole slanderous list, the rumors may as well be formulated that, with opportunities adequate for the zealous, there has been failure at various places for a year at a time to practice fully with each weapon that is issued to the Army, viz.: the bayonet, pistol, musket, sabre, cannon, mortar and machine gun. Not that one organization at one place failed through one year with all these weapons, but it is almost ludicrous how nearly some seem to have tried to take them all in. If the daintiest approach to this great bludgeon of a rumor is substantiated by the records we may plume ourselves as superior to any Christian Army in the world in what we ignore. If the records show we are perfect masters of each and all of our weapons and of our profession in principles and practice, why bully for the records and all hail to our glorious selves. If the power is given to see ourselves as others see us, and from a foolish notion fill us, we must give thanks. I will confess to disappointment if the records do not demonstrate that the diligent in anything have the better mastery in every duty and that the commands having the highest figure of merit in musketry will be found best instructed throughout. NOUS VERRONS.

COLONEL MERRIAM'S EQUIPMENTS.

THE following is a translation of a letter from the French War Office, received by Colonel Merriam, 7th Inf., as the result of a trial of his equipment for foot troops:

REPUBLIC OF FRANCE, PARIS, May 7, 1887.

The Minister of War to Colonel Merriam:

COLONEL: I have had examined, with all the interest the subject presents, the knapsack which you have submitted to me. The result proves the system you propose to be ingenious and responds well to the various advantages set forth in your claims and in the circular of reports in its favor enclosed with your communication. Nevertheless, I am not able, to my great regret, to (make application of it) introduce it into our Army, the limited funds at our disposal making it absolutely necessary to use the equipments now on hand for a number of years.

I have placed on trial a method similar in principle to yours, and which offers to us the great advantage of utilizing our present equipment.

. . . . . .

Accept, Colonel, the assurance of my especial consideration.
For and by order of the Minister:
(Signed) E. DE ST. MARS, Director of the Infantry.

LINES READ AT THE TWENTY-SIXTH RE-UNION OF THE 10TH REGT., R. I. VOLUNTEERS, MAY 26, 1887.

BY W. WHITMAN BAILEY, PRIVATE, CO. D.

IT cannot be these are the Boys,
So very old, so very few,
Who called themselves the "Bloody Tenth,"
In eighteen-hundred-sixty-two
Those Boys had not gray locks like these,
And yet the muster roll agrees.

It is the twenty-sixth of May,
The skies are blue, as they were then,
But where we left a row of Boys,
We see a group of aged men,
Who show the wounds of daily strife,
But nought that marks the soldier's life.

Yet, all agree we are the same,
Who volunteered one fair spring day,
And, ere we knew our status quite,
Were under arms and far away,
Prepared to clean out Baltimore,
And half-a-dozen cities more.

How have we felt! Why even now
A thrill of patriotic zeal,
At thought of what we used to be,
To our surprise again we feel,
And turn the lengthening years aback,
To beg one ration of hard tack.

And then, those girls who swarmed around
The depot, as we rolled away,
With smiles and tears, and kisses, too!
Yes! 'tis the twenty-sixth of May,
Their memory sweet we cherish yet,
Nor can we e'er their love forget.

Oft in the misty morning light,
We hear again the reveille;
Oft, in our waking dreams, perchance,
Our * colonel's stalwart form we see;
Around the camp-fire's flickering flame,
Is spoken many a deathless name.

Yet, some are gone, no more to tread
With us, as weary sentinels,
Their tents are pitched, we fondly think,
In flowery meads of asphodels,
But ah! how gladly would we see
Those loved ones at our jubilee!

But, in this time of mirthful joy,
We must not sing in saddening strain,
'Tis ours, though little meet the task,
To sound aloud the gay refrain,
And welcome every comrade dear
Who joins with us this festal year.

Wake once again the songs of old!
Remember we are youthful still,
Aye, ready, when the summons comes,
To do our country's utmost will,
And raise the starry flag once more,
As in the crucial days of yore!

When, finally, the "taps" shall beat
"Put out the light, the day is done!"
May every comrade answer "Here!"
And feel he has a victory won,
Has always sought to do his best
And earned a soldier's peaceful rest!

* Colonel Z. R. Bliss, 24th Infantry, U. S. A.

THE STATE TROOPS.

OPINION OF ARMY OFFICERS.

MANY officers at Washington have for several years done all in their power to influence the Government to put the National Guard on a sounder military footing. A *Star* reporter who talked with a number of them reports Gen. Drum as saying of the National Encampment: "I watched the drill with a great deal of interest and consider it a success. There are many points to be criticised, but many others to be commended. The drill itself was admirably conducted, and the performance of those who participated was unexcelled. The camp discipline was, however, not of the best. Guard duty was a little slack, and there was too much publicity, but the men undoubtedly were greatly benefited by their camp experience, and went away a good deal better informed about many things than when they came.

"I never saw such excellent drilling as was exhibited. I saw some of the prize companies drill, and, in my judgment, there was nothing to equal the Lomax Rifles of Alabama. The Toledo Cadets made a good impression upon the public, but they did not drill tactics. All their movements were executed with this one, two, three regularity that caught the public, but not the judges, who were looking for excellence from a strictly military point of view. I think the drill will tend to increase public interest in National Guard matters, to the end of obtaining the financial support of the Government.

"I should like to see an annual militia encampment held in the vicinity of Washington under the direction of the Government, and the soldiers who take part in it paid a regular salary by the Government during the time they are in camp. Similar encampments should be held all over the country by grouping the States. The Washington encampment might include New York, New Jersey, Pennsylvania, Maryland and Virginia. Then the New England States could hold a similar encampment in Massachusetts, and so on with the Western and Southern States. We are bound to come to some such arrangement."

Asst. Adjt. Gen. Kelton spoke in the same manner. "I regard the drill as a great success," he said, "and am sure that the public-spirited committee will be fully recompensed for their financial loss when they see the good effects the drill will have in years to come. We are bound to have the National Guard under the direction of the National Government. The national drill was a splendid starter. It awakened public interest, and whatever the public wants it will get. So that as a means of bringing matters to the attention of Congress, with a view of securing needed legislation, backed by the general public, the drill cannot be considered other than highly successful. The encampment was not all that it should have been. There was too much publicity, and the men were undergoing a continual ordeal of dress parade.

"I hope to see the time when there will be an annual encampment here. The men will not come to find everything prepared for them, but will be compelled to go into camp in the same way as they would in the field in earnest, pitch their own tents, get their own fuel and water, and do their own cooking. Then they should be compelled to strike camp once or twice during encampment, and go on a short march and return, and again go into camp; in other words, do just as they will have to do some day. A non-military man cannot appreciate the benefits of even a week's experience in camp.

"I never saw such excellent drilling as was exhibited last week. The cadets at West Point cannot show anything like such proficiency. The sooner our legislators come to a realizing sense of the necessity of helping the National Guard the better it will be for the country."

(From the Boston Sunday Herald, June 5.)

NATIONAL MILITIA VETERANS.

THE inaugural parade of the National Veteran Militia Association, which is to occur in Boston June 17, will be an interesting event, and add another feature to the military affairs of our semi-military public. Outside of a few organizations, scattered over a half-dozen Northern States, little is known of the purpose of this association. The primary object of its formation was to unite the strength of the veteran militia in maintaining and encouraging the active uniformed militia of the whole country. The other considerations were to collect the history of the citizen soldiers' service in the field, and publish the same for the instruction of the rising generation, who may reverentially read the grand military traditions, of which this country can so proudly boast; to cultivate patriotic sentiment, and establish a fraternal bond, powerful enough to affect legislation and aid the country in any emergency that may arise. The founders of this association believe that if they can prove (as they undoubtedly can), by the history of the militia of this country, that it has been of value to the national defence, that as a civil standing army, quite self supporting, it has raised the true standard of citizenship, it will bring about a higher respect from the public for the active militiamen of to-day. A clause from the constitution of the association states that it is the duty of each organization, or member thereof, to aid the actives throughout the country by encouraging the formation of veteran associations emanating therefrom; and by the discussion of military systems and methods, the state of national defence, the effectiveness of the military forces of the country, the condition and utility of the militia laws of the various States, and wherein, by reason of their antagonisms and differences, the forces that they govern cannot be mobilized to act in concert; and to awaken public opinion to the military needs of the country. . . .

"To suggest beneficial changes in militia laws, and to present their views on the above matters at association conventions for consideration; to collect statistics, gather historical facts of the actual services of the militia, and to forward the information and the results of their observations to the president of the association; to select those veterans, whom they may believe the ablest and profoundest, as most fitting members for delegates, to the end that all measures proposed in convention may be thoroughly digested and critically and fairly tested. When the association has matured and harmoniously agreed to a plan proposing a large and effective militia force, each organization is hereby pledged to faithfully and loyally sustain this association in the work of establishing powerful united national defence."

Since the first meeting of the association, which was held at Rocky Point, R. I., Aug. 17, 1885, it has held annual and semi-annual meetings regularly ever since in New York City. There has been a good attendance of delegates, usually five from each organization, and they have one and all been earnest and sincere in the welfare of the association. This year, beside the usual delegates, there will be represented large numbers from each organization and in some instances the active corps will accompany the veterans as escort. An outline of the programme to be carried out is about as follows: On the arrival of guests in Boston they will be received by proper escorts and proceed to headquarters, at 10.30 A. M., the various organizations will form in line and march over the route, which will not exceed one hour in covering.

Capts. E. J. Dyer and Frank T. Robinson, a committee from the Boston Veteran Corps, have just returned from a visit to New York, Hartford, and Providence, and report that there is much enthusiasm among the veterans over the parade, and it is estimated that upward of 1,500 will be in line if the day is fair.

NATIONAL DRILL AND ENCAMPMENT.

THE following were the orders given at the exhibition drill of companies for prizes at Washington:

Stack arms.—About face.—March to the rear.
Backward, guide right.—Forward, double time, march.
Fours right about. Repeated.—Take arms.
Present—carry—support—order arms.—Parade rest.
Carry—trail arms.—Fix bayonets.—Carry arms.
Charge bayonets.—Order arms.—Unfix bayonets.
Order—carry arms.—Right shoulder arms.—Carry arms.
Arms port.—Open chambers.—Carry—secure—carry arms.
Company load.—Carry arms.—Company aim.
Recover arms.—Company right, oblique, aim.
Recover arms.—Fire by file, company aim.—Carry arms.
As rear rank, right oblique, aim.—Left oblique, aim.
Company aim—recover arms.—Carry arms.—Fire kneeling.
Rise.—Order arms.—Fire lying down.—Rise.—Post.
Forward, guide right.—Right wheel.—Right shoulder arms.
Fours right.—Left front into line.—Left wheel.
Right turn.—Fours right file, closers on left flank.
Right forward, fours right.—Left oblique.—Column left.
Fours left about.—Fours right.
Right forward, fours right.
Left front into line, double time.
One four, from the right to rear.
Rear four, right front into line.—Twos right.
Right by file.—Column left.—Form fours.—Left oblique.
Form double rank.—Fours, left, halt.
Right forward, fours right.
In single rank, left front into line.—Right oblique.
Forward, executing manual under march—carry—trail—carry arms.—Arms port.—Halt.—Load with blank cartridges.
Carry.—Fire kneeling.—Direct aim, fire; repeat.
Rise—posts.—About face.—Forward, double time.—Halt.
Load.—Carry arms.—Fire kneeling.—Ready—aim—recover.
Rise.—Platoons, right wheel.—Left into line, wheel.
Continue to march.—Platoons right wheel.—Left about.
Fours right.—Platoons left front into line.
Right forward, fours right.
Double rank, left front into line, double time.
Right forward, fours right; halt.
Forward, right by platoons.—Right into line, wheel.
Fours, left about. In place rest.

The Army judges of merit at the recent military drill were suggested by General Sheridan from his knowledge of their proficiency in drill tactics. During the several days of exhibition, the judges, each for himself and without the knowledge of the others, made separate records on a prescribed formula of tactics, in accordance with the West Point Code, and not till the drill was completed did they compare notes. Then the conclusion was reached by adding up the marks of merit of all the judges and awarding the prizes and rank of proficiency from the best average of the combined individual reports of the several judges.

CAMP OF INSTRUCTION, NEAR PEEKSKILL, N. Y.

Orders No. 1, June 18, Camp of Instruction, prescribe that the hours of service be: Reveille, 5 A. M.; Sick call, 5.15 A. M.; Drill call, 5.45 A. M.; Recall from drill, 7 A. M.; Breakfast call, 7.30 A. M.; Adjutant's call for guard mounting, 8.30 A. M.; Drill call, 9.25 A. M.; Recall from drill, 11.30 A. M.; Dinner call, 12.30 P. M.; 1st Sergeant's call, 1.30 P. M.; Supper call, 6 P. M.; Adjutant's call for dress parade, 20 minutes before sunset; Retreat, sunset; Tattoo, 10 P. M. Company inspections will take place Sundays at 9.30 A. M., and divine service at such hours as may be ordered by the commanding officers of regiments. There will be no drills on Sundays. Schools of instruction will be ordered by commanding officers of regiments and battalions every afternoon (Sundays and Fridays excepted) between 1st Sergeant's call and dress parade or retreat, for the officers and non-commissioned officers of their respective commands. Tents will be dressed for inspection every morning before guard mounting. At guard mounting the camp and grounds must be in condition for inspection. The post surgeon will make two sanitary inspections of the camp each day, one in the forenoon and one in the afternoon, and report the result of each inspection. The Officer of the Day and the Guard are under the exclusive orders of the Post Commander. The Inspector of Guard Duty will report daily to headquarters on the manner in which guard duty is performed. Twenty rounds of blank ammunition per man will be allowed for practice in firings. The Inspector of Company Drill will witness such, when held, and report his observations. Col. Joseph G. Story is announced as A. P. Q. M., C. S. and Ordnance Officer. The following officers, having reported in pursuance of the orders of the Commander-in-Chief, are until further orders assigned to duty, as Inspector, Lieut.-Col. Frederick C. McLewee, Asst. Insp.-General. As Inspector of Company Drill, Capt. Horatio P. Stacpole, 10th Battalion. As Inspector of Guard Duty, Capt. N. B. Thurston, 22d Regt. Col. Frederick Phisterer, Post Adjutant, is announced as Executive Officer of the Post, and will be assisted in the duties of Post Adjutant, from June 18 to June 25, by the Adjt. of the 12th Regt.; from June 25 to July 2, by the Adjt. of the 9th Regt.; from July 2 to July 9, by the Adjt. of the 47th Regt.; from July 9 to July 16, by the Adjt. of the 23d Regt.; from July 16 to July 23, by the Adjt. of the 71st Regt.; from July 23 to July 30, by the Adjt. of the 22d Regt.; from July 30 to August 6, by the Adjt. of the 74th Regt.

(From the N. Y. Star, June 5.)

THE TWELFTH N. Y. REGIMENT.

THE story of the 12th Regiment, N. G., S. N. Y., which we print to-day, is most interesting and instructive. Interesting as recalling how the old war spirit led a lot of green New York boys into the difficulties and danger at the front; instructive, as showing how the influence of West Point can be made to work to the benefit of our citizen soldiery.

There is no doubt that the militiaman's lot in times of peace is expensive and irksome. The fines for dereliction of duty come high, and the company drill invariably falls upon the night of one's best girl's dance.

It was under such a cross fire of circumstances, with indifferent leaders that the ranks of the gallant 12th at one time became decimated. It remained for the influence and inspiration of two West Pointers—Col. James H Jones and Lieut.-Col. Heman Dowd—to collect the scattered forces and bring them to the front again as one of the best drilled and most efficient regiments in the 1st Division.

The *esprit de corps* which had almost evaporated is now redolent in the 12th. Its ranks are full, its discipline perfect. There are few men absent or to be accounted for when the roll is called for any duty. The roster of the regiment includes some of the best known names in New York, good fellows, good rifle shots, good comrades, good soldiers all.

We believe the 12th is the coming regiment of the city. It has almost got there to day. "Forward march, guide right!" says the *Star* to Col. Jones and the gallant boys who wear the State uniform so well without pretence or swagger.

WANTED A NEW EQUIPMENT FOR MILITIA.

To the Editor of the Army and Navy Journal:

IT is about time that New York adopted a new helmet or dress headgear for the troops. The present helmet, while a slight improvement over the old "shako," is by no means what it should be. It is far too heavy, and the projection in the rear is faulty, extending too low down, making it very uncomfortable for the men when in heavy marching order with knapsack, and overcoat rolled thereon. Many men are compelled to hold their heads down to keep the helmet from being knocked off by coming in contact with the coat rolled on the knapsack—the rear bottom of the helmet extending down so low as to continually strike the coat, even at a rest; the result in marching is obvious, and to prevent the helmet from bobbing off serenely is a matter of great anxiety to a large number of Guardsmen. It may at first be said, why not loosen the straps so that the knapsack may hang lower. This is impracticable, because owing to the faulty equipments the knapsack, even when strapped up as high as possible, is continually bearing down on the cartridge box underneath, tending to loosen the belt, besides making it very uncomfortable for the soldier. The pressure on the hips from the weight of the knapsack resting on the cartridge box is very severe, and frequently causes the strap which keeps the box closed to break. The cartridge box itself is an excellent one, but the loops by which it is attached to the belt should be longer so that they may hang lower, thereby being free from contact with the bottom of the knapsack and easier to pull around in front of the body when needed. The present knapsack is a most flimsy counterfeit of a soldier's necessary outfit, and has no advantage over the old ones turned in some few years ago—if anything the old knapsacks were the best; they were certainly stronger, the outside covering being entirely of leather, while the present one is part leather and part common glazed cloth, and very rotten at that. It is hoped that much needed reform in these respects will soon be introduced. The soldier's equipments should hang easy and comfortable. PICKELHAUBE.

VETERANS OF THE NINTH N. Y.

The Society of War Veterans of the 9th Regt., N. Y. S. M., (83d N. Y. Vols.), held their 26th annual reunion at the Rossmore Hotel on the evening of June 8. Lieut.-Col. W. L. Hermance presided. After partaking of an excellent dinner the following officers were chosen for the ensuing year: President, Lieut. J. F. Swords; Vice President, Chas. A. McLaughlin; Treasurer, Lieut. John A. Norman; Secretary, Lieut. M. S. Gregory. A committee on Permanent Organization was appointed, consisting of W. L. Hermance, Gilbert S. King, and Charles A. Bladen. Letters of regret were received from Capt. J. F. Munson, 6th U. S. Inf., Fort Gibson, Salt Lake City, Utah; Lieut. Alfred M. Taylor, 19th U. S. Inf., Brackettville, Texas, and Major D. W. Diggs, Millbank, Dakota. The meeting was adjourned subject to the call of the President.

Seventh New York.—Col. Emmons Clark.

The following named having been examined by the Board of Examination, warrants have been granted to them as non-commissioned officers of the 7th N. Y.: 1st Sergt., M. B. Stelle; Sergts., R. A. Powers and F. L. Van Benschoten; Corpls., Thomas W. Ball, J. W. Dowling, Jr., Albert F. Stone, Parker D. Handy, Wm. A. Taylor, George Finck, W. H. Macfarlan, W. R. Ware, L. E. Vannier, C. L. True, M. I. Fox and A. E. Pressinger.

The 7th N. Y. will parade in full uniform (white belts and summer helmets), with knapsacks, haversacks and canteens, and overcoats rolled, and one day's rations, and will proceed to Camp of Instruction near Peekskill, on Saturday, June 18. Assembly at 9.30 P. M.

2d Lieut. James B. Dewson having been commissioned 1st Lieut., Co. G (rank May 10, 1887), vice Haight resigned, and Sergt. Wallace F. Peck, having been commissioned 2d Lieut., Co. F (rank April 26, 1887), vice Smith resigned, they will be respected and obeyed accordingly.

MILITIA ITEMS.

Co. E, 4th Infantry, Illinois National Guard, better known as the Chicago Zouaves, arrived in Philadelphia Tuesday, May 31, en route for New York, flushed with victory, having gained the first prize, $1,000, at the national drill at Washington. The company numbered a total of forty officers and men, and were received by a detail of seventy-five men of the 1st Penn. Infantry, under command of Capt. Muldoon and Lieut. Farley.

Col. Thos. C. McGrath, Assistant Inspector General State of New York, has just returned from a tour of inspection through the State, and reports that he finds the National Guard—regiments and separate companies—in excellent condition and very much improved, especially at Buffalo. A change in the State service uniform, as recommended by Col. McGrath, A. I. G., S. N. G., substituting a single-breasted blouse for the present double-breasted coat. He also favors the adoption of distinctive marks for the different regiments, either in the color of the leggings, centre of the fatigue cap or facings of the uniform.

On Tuesday, June 7, the annual encampment of the 1st Brigade, M. V. M., Gen. Nat Wales commanding, will commence at the State's Grounds, South Framingham, Mass. The organizations forming the brigade are the 1st Inf., Col. A. C. Wellington; 2d Inf., Col. B. F. Bridges, Jr.; 6th Inf., Col. H. G. Greene; Battery B, Light Artillery of Worcester, Capt. J. E. Merrill, and Co. F, Cavalry, Capt. S. H. Fletcher.

It was definitely settled some months ago that the first encampment of the National Guard of Pennsylvania should, under the new Administration at Harrisburg, be held in 1887 with three brigades located as a division at a central point in the State, and Mt. Gretna, Pa., in Lebanon County, was fixed upon as the most available spot, which was used for a similar purpose by the 3d Brigade in 1885, and in 1886 by the 8th Regiment.

The 3d (Gatling) Battery, N. G. S. N. Y., contemplate a trip up the banks of the Hudson and return, mounted, the latter part of July or August 1.

The wooden horses made for the armories of the different batteries and cavalry companies of the State of Massachusetts have all been delivered. They are said to be handsome, and likely to be found of great value in teaching men the proper methods of mounting, dismounting and positions in the saddle.

After the parade on Memorial Day the 71st N. Y. Regiment marched to the Grand Central Depot, where it was met by the Veteran Association and the Old Guard, and the three organizations took a special train for Sing Sing, N. Y., to take part in the ceremonies at the unveiling of the Soldiers' monument. Upon arrival at Sing Sing the commands were met and escorted to the place of ceremony by a Grand Army post. After an oration by the Hon. Waldo Hutchins the monument was unveiled and the military then marched to the residence of Col. McAlpine, where a petition was read to the Colonel requesting him to reconsider his determination to resign. Other speeches were made, after which ranks were broken and luncheon served. After a rest the regiment formed for rest parade, which was well executed. The commands returned to New York on a special train, arriving in the city at 7.30 P.M.

The following changes have occurred during the month of May, 1887, among the commissioned officers of the National Guard, State of New York: Commissioned.—4th Brigade—

Nathaniel Rochester, Inspector, with the rank of Major. 7th Regiment—James B. Dewson, 1st Lieutenant; Wallace F. Peck, 2d Lieutenant. 9th Regiment—James M. Maconnell, 2d Lieutenant. 11th Regiment—George W. Mooney, Captain. 23d Regiment—Charles F. Guyon, Captain; William P. Pickett, 1st Lieutenant: Thomas M. Close, 2d Lieutenant. 32d Regiment—Van D. Macumber, Inspector of Rifle Practice, with the rank of Captain; Jacob R. Teel, Quartermaster, with the rank of 1st Lieutenant; Robert H. McKittrick, 2d Lieutenant. 47th Regiment—Hewlings H. Quick, Captain; R. George Williams, 1st Lieutenant; A. Polhemus Cobb, 2d Lieutenant. 71st Regiment—Wallace A. Downs, Major; John A. H. Dressel, Captain; William Brooke, 1st Lieutenant. 74th Regiment—Samuel Byron Newton, 2d Lieutenant. 10th Separate Company—Thomas T. Haviland, 2d Lieutenant. 14th Separate Company—John G. Van Etten, 1st Lieutenant.

The council of officers of the 14th Regt. N. Y., met June 6 to arrange as far as possible for the coming Saratoga trip. Official orders from Albany were read, detailing the 14th and 69th Regiments as escort to the Army of the Potomac Society and assigning Gen. McLeer to the command. Transportation will be furnished for the General and his staff, and for the regiments, provided the 14th does not exceed 400 and the 69th 600 officers and men. Subsistence will be furnished by the Commandants, the State allowing them $3 a day as above.

(Correspondence of the Army and Navy Journal.)

OHIO NATIONAL GUARD.

THE proposed State Encampment has been abandoned for this year, and the encampments will be by regiments. The field and line were very adverse to the State camp. The permanent brigade organization seems to be a necessity before larger encampments than the regimental can be made successful.

The following changes in the organization of the Ohio National Guard are announced: The Lawrence Cadets is designated as Co. H, of the 3d Regt.; the Salem Rifles and the Axline Cadets, Cos. D and E, of the 17th; the Iron City Guard, Co. H, of the 5th; the 7th and 13th Regts. are hereby disbanded; the Forbing Guard and the Godfrey Light Guard, Cos. E and F, of the 2d; the Midland Guard, Co. E, of the 6th; the Ellison Light Guard, Co. C, of the 6th; the remaining companies of the 7th and 13th Regts., and the band of the 13th Regt., are formed into a regiment, to be known as the 13th Regt. of Inf., and the several companies thereof are designated as follows: The Champion City Guard, Co. A; the Scott Dragoons (Hillsboro), Co. B; the Germantown Light Guard, Co. C; Thompson Light Guard, Co. D; Miami Light Guard, Co. E; Loveland Light Guard, Co. F; Xenia Light Guard, Co. G; and the Barron Guard, Co. H, of 13th Regt. The field officers of said disbanded regiments (Col. W. J. White, Lieut. Col. Chas. D. Thompson and Maj. Edward Rott) and the ranking staff officers, are hereby assigned to duty as the field and staff officers of said 13th Regt.; the supernumerary officers will be honorably mustered out, and the supernumerary non com. staff officers honorably discharged, or returned to their respective companies. The Western Reserve Guard is transferred as Co. G to the 5th Regt. of Inf.; the Ashland Guard is transferred to Co. C of the 8th.

The 8th Regt. will encamp at Galion, commencing Aug. 23 and lasting eight days. Adjt. E. F. Taggart has been nominated junior major of the 8th, and will be unanimously elected. He has been adjutant about six years, and is the senior 1st lieutenant in the Ohio Guard, having served more than ten years with his present rank. He has just served a term as Assistant Adjutant General Department of O., G. A. R. His promotion is deserved, and will gratify a host of friends. The following 8th Regt. commissions have just been issued: Jacob H. Rickert, captain, Co. G, Wadsworth; John B. Aurand, captain, Co. I, Galion; Samuel M. Hoon, captain, and Solomon H. Maneval, 1st lieutenant, Co. E. East Palestine; David S. Youngblood, 2d lieutenant, Co. C. Polk.

F. G. S.

STATE OF CONNECTICUT.

The following, being reported by the Examining Board as having passed a satisfactory examination, will be commissioned with rank as given herewith:

Brigade Staff—Major Alexander Allen, Brigade Inspector.

1st Regiment—Capt. George B. Newton, Co. F; Capt. John Hickey, Co. G; 1st Lieuts. Henry E. Chapman, Co. H, and Charles L. Bissell, Co. G; 2d Lieuts. Charles H. Patterson, Co. H, and Louis B. Hubbard, Co. F.

2d Regiment—Lieut.-Col. John B. Doherty; Major Frank T. Lee; Capt. Charles C. Ford, Co. F; 1st Lieuts. William H. Newton, Paym.; Charles G. Miller, Co. B; Harvey S. Munson, Co. F; 2d Lieuts. Daniel E. Fitzpatrick, Co. G; George M. Schaffner, Co. B; John T. Gill, Co. F; Edward I. Williams, Co. D.

3d Regiment—Capt. Thomas B. Linton, Co. C; 1st Lieuts. Frank P. Goff, Co. I; John F. Murray, Co. A; Irving E. Hill, Co. C; William E. Pendleton, Q. M.; George M. Cole, Paym.; 2d Lieuts. Samuel Prince, Co. I; Fred. A. Fox, Co. C.

4th Regiment—Major George L. Porter, Surg.; 1st Lieut. Charles H. Gibner, Co. B; 2d Lieuts. John McGraw, Co. D; William J. Phillips, Co. G; Garrie P. Sanger, Co. B.

5th Battalion—2d Lieut. Charles E. Fuller, Co. A.

The following, having either previously passed an examination for a similar or higher grade, or not being required to report for examination, will be commissioned with rank as given herewith:

Battery A—1st Lieut. William H. Lee.

3d Regiment—Nicholas T. Allen, Chaplain. 2d Lieut. Edward R. May, Co. A, 3d Regiment, who failed to pass a satisfactory examination before the Examining Board, will be re-examined at the next session of the Board, in accordance with the unanimous recommendation of the Board that he be allowed another examination. Capt. James Moran and 2d Lieut. George H. Wilkinson having failed to pass a satisfactory examination before the Examining Board, and 2d Lieut. William H. Schilge having failed to appear, the appointments of those officers are revoked.

The Connecticut National Guard are ordered to assemble at New Haven, June 17, for parade at the dedication of the Soldiers and Sailors Monument in that city.

DAKOTA.

GOV. CHURCH has appointed his staff, with the exception of aides-de-camp, as follows: Chief of Supply, James Ringrose, Aberdeen, brigadier-general; Commissary of Supply, John H. Jackson, Columbia, major; Insp.-General, Jeremiah E. Elson, Huron, col.; Judge-Advocate Gen., Wm. S. Steele, Deadwood, colonel: Chief of Ordnance, James McCarthy, Fargo, [colonel; Assistant Ordnance Officer, Joseph Hare, Bismarck, major; Chief of Engineers, William H. Brown, Grand Forks, colonel; Assistant Engineer, F. S. Corwin, Steele, major; Medical Department, Surgeon-General, Geo. C. Huff, M. D., Huron, colonel; Medical Purveyor, E. N. Faulk, M. D., Caledonia, lieut.-colonel.

Cols. William A. Bentley, of the 1st regiment, and M. W. Sheafe, of the 2d regiment, continue in their respective commands. Major J. M. Adams, 2d regiment, of Mitchell, is promoted to lieut.-colonel of the 2d, vice Lieut.-Col. Elson, promoted to colonel and inspector-general.

MISSISSIPPI.

THE battery at Camp Henry is completed, and, as a despatch says, the State has been fortunate in having had so competent an officer as Captain James Rockwell, Ordnance Corps, U. S. Army, to put the battery in shape. It consists of four ten-inch mortars, placed west of the magazine, facing the Gulf.

Camp Henry is beautifully located, being near Henderson's Point and having a front on the Gulf of Mexico of 1,200 feet in width, and running back, crossing the Louisville and Nashville Railroad. There are fifty acres for drilling purposes.

It is expected that there will be two or three batteries of the Regular Army sent here into summer quarters, where they will have the advantage of practicing with the large guns. It now remains for Pass Christian to get up an artillery company, there being plenty of good material for one.

MASSACHUSETTS MILITIA.

THE Ancient and Honorable Artillery Company celebrated their 249th anniversary in Boston, June 6, marching through the streets of the tri-mountain city, officered as follows: Commander, Capt. Thos. F. Temple; 1st Lieutenaut, Lieut. J. Henry Taylor; 2d Lieutenant, Sergt. Thomas Savage; Adjutant, Capt. Newell A. Thompson. At the State House they were received in due form by the officers of the Government and then participated in religious observances, as all good Bostonians do on such occasions in the New Old South Church. Next they dined according to the regulation method in Faneuil Hall, where the Commander, T. F. Temple, delivered an address. Toasts were responded to by various distinguished individuals and after dinner marched to the State House where the officers for the ensuing year received their commissions. The ceremony of commissioning the new officers being completed, the company escorted the Governor and staff to the State House, and then proceeded to the armory at Faneuil Hall. After arriving at the armory Col. Walker, the new commander, called the company to attention, and a vote of thanks was passed complimentary to the old officers. It was voted to call a special meeting next Monday evening, to consider the advisibility of sending a representative to London on the occasion of the 350th anniversary of the parent company of London, of which this organization is a branch. A beautiful bouquet was then presented to the new commander, Col. Walker, by a member of the company, and the command then proceeded to supper, which was served in the lower hall.

(Correspondence of the Army and Navy Journal.)

OREGON.

BRIG.-GEN. SIGLIN, N. G. S. O., has announced the following staff appointments: Asst. Adjt.-Gen., Capt. Thos. G. Owen, of Marshfield; Asst. Qm. Gen., Capt. L. H. Montanye, of Albany; Aides-de-Camp, Lieuts. I. A. Manning, of Salem, and Palmer Wheat, of Portland.

General Orders are out, ordering an election of officers in all the companies of the State on or about June 1.

Major H. M. Taylor has ordered out for battalion drill on the evening of Thursday, May 26, Companies A, E, F, G, and K, 1st Regt.

CALIFORNIA NATIONAL GUARD.

THE San Francisco *Report* has had its martial ire aroused by the selection of Healdsburg as the place for the summer camp of instruction for the 2d Brigade, and pitches into the brigade and the place with equal acerbity. The *Report* says: "The brigade has not held a review, or an inspection, or a battalion drill, or made a street march or parade since July, 1886. So far, the end of the brigade's existence, seems to be to hire itself out once a year to the town that will give it the biggest bonus. The men don't want to go to Healdsburg. Martinez would suit everybody, and is the solution of the problem.

The Brigade Camp of Instruction having been fixed to take place the week including July 4, the ire of the citizens of San Francisco has been aroused because the regiments will not be able to participate in a street parade on that day.

At a meeting of the Fourth of July Committee, resolutions were adopted declaring that it is the duty of the National Guard to remain in the city and participate in the coming celebration of the Fourth of July next, and upon their failure to do so will rest upon them the full responsibility of its non-success; and that in the event of the N. G. C. leaving the city on the Fourth of July that the next delegation from San Francisco to the State Legislature be requested to withhold their support from any further appropriations for military purposes.

MINNESOTA.

In G. O. 11, Adjutant-General Seely announces that camps of instruction will be established for the 2d Infantry, Col. Joseph Bobleter commanding, at Mankato, July 6 to 15, inclusive. For the 1st Infantry, Col. W. B. Bend commanding, at the rifle range, Fort Snelling, July 20 to 30, inclusive. For the mounted squadron, under the supervision and direction of Lieut.-Col. J. B. Hawley, Assistant Adjutant-General, same date and place. Commanders of infantry regiments are enjoined to pay particular attention to skirmish drill. Regimental teams will be selected to meet at the rifle range, Fort Snelling, in the autumn to compete for prizes.

MONTANA.

A CAVALRY company has been formed at Bozeman and is to be mustered into the territorial militia.

(Correspondence of the Army and Navy Journal.)

WASHINGTON TERRITORY.

C. M. ANDERSON, of Walla Walla, has been commissioned colonel of the 2d Regt., N. G. W. He announced in G. O. No. 1, the following staff appointments: Maj. J. H. Hudgins Surgeon; Capt. H. R. Keylor, Asst. Surgeon; Capt. H. R. Foster, Chaplain; 1st Lieut. W. B. Buffum, Adjutant, and 1st Lieut. H. Kelling, Q. M. Col. Anderson has promoted Sergt., A. M. Bear, Co. F, to be Sergt.-Major, and Pvt. B. F. Saylor, Co. B, to be Hospital Steward, on the N. C. S.

Lieut.-Colonel Pike and Major ——— have received their commissions. In the 2d Regt., Capt. Joseph Conry, Co. E, of Walla Walla, has resigned. 1st Lieut. Reinhart, Co. B, has been elected Captain, vice E. W. Pike, recently elected Lieut.-Colonel. Co. F recently elected the following officers: J. Carr, Captain; D. H. Harden, 1st Lieutenant, and George Wick, 2d Lieutenant.

Co. B, 2d Regt., of Goldendale, were on duty all night recently, guarding the county jail, to prevent a visitation of "Judge Lynch."

Co. B, 1st Regt. (Seattle Rifles), gave their annual prize drill and reception on the evening of May 17. Twenty men presented themselves and after a very closely contested drill the gold medal was awarded to W. V. Rinehart and the silver medal to Alex. Ranke. Capt. J. S. Green was in command, and the judges were Col. J. C. Haines and Lieuts. C. L. F. Kellogg and L. R. Dawson. After the drill, dancing was indulged in until a late hour.

There is talk of organizing three new companies of infantry and two troops of cavalry in the Territory.

ANSWERS TO CORRESPONDENTS.

A. N.—You stand 46 on Commissary Sergeant list.

Colman.—There were no ordnance sergeants retired in May. Three were retired in April.

Ergo.—Had Major General Hancock lived he would have continued on the active list until Feb. 14, 1888, his sixty-fourth birthday.

Rex.—President Bernado de Soto, of Costa Rica, is 33 years old. His term expires in 1890. He is an excellent soldier. The army consists at present of about 500 regulars and 3,500 militia.

X. W. asks: 1. Company marching in column of files, can it be marched to the rear? That is, would it be proper to do it? ANS.—The movement is practicable, but it is not prescribed in Tactics and therefore according to principles laid down by the Secretary of War it should not be executed.

2. Company being at a halt, arms at "right shoulder," the command is given "left wheel, march!" Should the man next to the left guide bring his piece to a "carry" at the command march, or should he remain at right shoulder, and come to a carry with the rest of the company at the command "company, halt?" ANS.—He should most certainly remain at right shoulder with the rest of the company. What you propose in your question is about as absurd as anything we have yet seen in the tactical line. The following decisions, although they do not actually cover your second question, are closely related to it, and will give you an idea what guides and others should do in such cases: "Battalion marching in column of companies, guide left, arms at right shoulder, the right and left guides of companies do not change the position of their pieces at the command 'Right oblique, march,' or at the command 'Column left, march,' during the wheel of each company." "Ordinarily the wheel into line from a column at full distance is made toward the guides, who would be at a 'carry' before the commencement of the wheel. If all the arms are at a 'right shoulder' in a column at full distance and at a halt, and a wheel into line is ordered before indicating the guide or ordering the guides to cover, then both guides of each company would be at a 'right shoulder,' and would both come to a 'carry' at the command 'Company, halt.'" "Companies, left into line wheel, from a halt: The movement is executed toward the guides, who would be at a 'carry' before its commencement."

NEW PUBLICATIONS.

Mr. Eugene Schuyler, Ph. D., LL. D., has, within the last year, issued from the press of Charles Scribner's Sons a work entitled, "American Diplomacy and the Furtherance of Commerce." It is based on two courses of lectures delivered at Johns Hopkins University and at Cornell University. Mr. Schuyler has unusual qualifications for the discussion of this subject, his connection with our State Department having extended over a period of seventeen years, being terminated in 1884 in a manner singularly characteristic of our hap-hazard system of administration, viz.: by the failure of an appropriation. He was first Consul at Moscow and then at Reval, then Secretary of Legation at St. Petersburg and Constantinople, Consul at Birmingham, Consul-General at Rome, Chargé d'Affaires and Consul-General at Bucharest and Minister Resident and Consul-General to Greece, Roumania and Servia. Mr. Schuyler's work contains a very interesting history of the growth of our consular and diplomatic system and a consideration of the questions with which our State Department has had to deal since its creation in 1789. During this period we have had, it appears, 32 Secretaries of State, one of them, Daniel Webster, having served twice, first in 1841-2 and again in 1850-1. Six of these have been elected President and a number of others have been among the most prominent candidates for this office, including Clay, Webster, Calhoun, Everett, Cass, Seward and Blaine. Aside from his diplomatic experience, Mr. Schuyler is well-known as the author of several works, his History of Peter the Great being the most important of them.

Macmillan and Co. publish a work on "Australian Defences and New Guinea," compiled from the papers of the late Sir Peter Scratchley, R. E. K. C. M. G., by C. Klinoch Cook. The author has endeavored, in these papers, to place on record the work done by the late Major-General Sir Peter Scratchley, in connection with Australian defences, and as her Majesty's Special Commissioner for New Guinea. There is also given a memoir of the General, giving extracts from his Crimean and Indian Mutiny Diaries. In these he makes frequent and interesting allusions to his friend, General Charles George Gordon, and other engineer officers who took part with him in these campaigns. The opinions of a man, whose suggested systems of defence for the Australian Colonies has been, in its salient points, actually adopted, can scarcely fail to be of great interest to our own Army and Navy officers, especially at this time when public attention is being called to our own needs. The whole subject is discussed under the following heads: General defences; naval defences; coast defences; torpedo defences; local forces. These chapters are followed by others giving an outline of the best methods of protecting the chief cities and harbors of the Australian Colonies, pointing out as well the probable points of attack by hostile forces. It will be seen that the book is one of first class importance to the student of military science, while the interesting memoir and descriptions of life in England's new colony of New Guinea makes it of equal interest to the general reader.

Frederick Schwatka, who has been so busy with his pen ever since his resignation from the Army, is the author of a handsome volume issued by Cassell and Co., Limited, entitled "Along Alaska's great river, a popular account of the Alaska exploring expedition of 1883 along the great Yukon river from its source to its mouth in the British Northwestern Territory and in the Territory of Alaska." This is a report of the little expedition which gave the first complete survey of the third river of our country, and, indeed, the largest so far as its mighty stream flows within our borders, discharging as it does every hour one third more water than the Mississippi. The expedition, as Schwatka tells us, was sent out in spite of the disapproval of the General of the Army, the Secretary of War, and, to avoid being recalled, it was kept as secret as possible, stealing away "like a thief in the night," and with far less money in its hands to conduct it through its long journey than was afterwards appropriated by Congress to publish its report. In spite of the difficulties thrown in its way, the expedition, of seven members, organized at Vancouver Barracks, traversed the entire Yukon river, over 2,000 miles, returning home by way of Behring's Straits. Mr. Schwatka's narrative is a most interesting one and is accompanied by three maps and seventy-one illustrations from photographs by Mr. Homan, sketches by Sergt. Gloster, and diagrams and plans by the author and others.

One of the first fruits of the establishment of the new magazine, "Scribner's Monthly," appears in the reproduction from its pages by Charles Scribner's Sons, of a handsome volume, "The Story of a New York House," by H. C. Bunner, with 24 illustrations by A. B. Frost. It is the story of a New York house and the family fortunes associated with it from the days when "a good hundred thousand dollars" was a "monstrous fortune," down to the time when the Vanderbilts, the Goulds, the Astors and the Rockefellers with their millions, have made the magnificence of the old days seem even less than the comfort of this. Now, one hundred thousand dollars is barely sufficient to furnish the hangings of a single room, and a house costing an Aspinwall a quarter of a million of dollars is torn down by a Rockefeller to furnish a site for his grand mansion.

One of the conditions required for the attainment of the degree of Doctor of Philosophy in Columbia College is the presentation of an acceptable dissertation on some subject. The one submitted by Mr. John Elliott Bown, Ph. D., was on "The Conflict of East and West in Egypt." This is published by Messrs. G. P. Putnam's Sons, and is inscribed to the Faculty of the School of Political Science of Columbia College, to whom it was presented. It tells the story of the bankruptcy of Egypt, its spoliation by money-lenders or by England in their interest. It begins with the introduction of English influence in Egypt in 1881, when they compelled the French to retire by the battle of Alexandria, and ends with Wolseley's expedition, which has resulted in England's having control of the country, Egypt bearing the burdens and Turkey reaping the profits.

CHIEF (sternly).—"Late to office again this morning, Mr. Thigpenn. This is the fourth time within—"

Thigpenn (calmly).—"Yes, and I'm becoming more and more convinced every day that the office should seek the man, and not the man the office."

THE QUEEN'S JUBILEE.

THE London *World* reports that the Court authorities are much perplexed by the difficulties of the jubilee celebration arrangements. The Queen has, it seems, almost an unconquerable objection to wearing the crown, and various compromises proposed savor strongly of the ridiculous. To make matters worse, everybody else's dresses depend on the Queen's decision, and as late as on Thursday, June 2, the wife of a foreign minister received a friendly hint to postpone the ordering of her dress. If State robes are finally adopted the next few days will be a terrible ordeal for London dressmakers.

The processions on June 21 will be far more picturesque and imposing than is generally expected. The Prince of Wales and all the members of the royal family are to be on horseback, so that the Queen will be attended by the brilliant cavalcade of her relatives. There is also to be a very large military escort under command of the Duke of Cambridge. It is probable that there will be 17 of the royal carriages in the procession. An immense marquee is to be erected outside the great west door of the Abbey, in which the royal procession will be formed, the personages walking in strict order of precedence up the nave and through the door to their places. The definite ceremonial has not yet been settled, and everything in the court department is in a state of confusion and frightful muddle.

TORPEDO-BOATS.

"A distinguished naval officer once described a torpedo boat as 'a machine constructed to run a trial trip.' For a long time the reproach was not altogether unmerited, but lately some very realistic imitations of actual warfare have been carried out. There have been, under the command of Captain Long, who is director of the torpedo school, a couple of dozen boats told off to carry out evolutions in the Channel The miniature squadron was divided into two divisions, and some very spirited work has been done both by day and night, which has proved, at any rate, the ability of officers and men to handle their craft, for there were ample chances of collision and, indeed, the wonder seems how the boats could have been kept from running into each other on frequent occasions. The only case of collision reported, however, occurred between a Thornycroft boat No. 43 and a Yarrow craft No. 66. The mishap is attributed to the failure of the latter to answer her helm with sufficient promptness. As it was dark, however, and no lights were shown, it requires no explanation of want of handiness to account for the mishap. The chief event, however, was an 80 mile race at sea, the course being from Portland, round the Ore Stone, and back. Out of the total number of boats entered 16 were Thornycrofts, four Yarrows and four Whites. As, however, one Thornycroft and one Yarrow had been put out of the contest by the collision it reduced the latter representatives to three, while the Thornycroft craft still had a commanding lead in numbers, and therefore, other things being equal, a proportionate chance of success. Indeed, one of Thornycroft's boats was the favorite before the start, but as a result one of the Yarrow boats won, a White boat coming in second. It was during this race that the boilers of two of the Thornycroft boats gave out; with disastrous results in one case."

PRIZES FOR AN IMPROVED SADDLE.

TWO PRIZES, of 6,000 marks and 3,000 marks respectively, are offered by the German Government for the best pattern of a saddle for the Cavalry. The conditions are briefly as follow: 1. It must afford an easy and natural seat to the trooper. 2. It must not in any way impede his movements. 3. It must be simple in construction. 4. It must be serviceable. 5. It must be light. All patterns heavier than the Hungarian saddle at present in use are condemned in advance. It must, moreover, be cheap, and be so constructed that the various articles of equipment—mantle, carbine, *sac à fourrage*, etc.—may be easily carried. The German military authorities reserve to themselves the right of subjecting the patterns sent in to any desirable tests, and of manufacturing a certain number of those selected, to be distributed to the Army for trial, without any payment to the inventor. The pattern must be sent in before November 30 next, and the result of the competition will be published in the *Armee Verordnungsblatt* and other journals in October 1888.

A NEW REPEATER.

ACCORDING to the semi-official *Berlingske Tidende*, the new repeating rifle of Capt. Wudsen and Lieut. Rasmussen is to be introduced in the Danish Army. In this rifle the barrel is not fixed to the stock, but is secured by a spring. In firing the barrel is forced backwards, by which motion the bottom plate of the breech is opened, the empty cartridge ejected, and a fresh cartridge pushed forward into its place, the magazine holding six cartridges. The bottom plate is then closed again, and all these movements are made automatically, so that the rifle need not be taken from the shoulder. All that is required to be done is that, as soon as the six shots are fired, the magazine is refilled. The rapidity of firing is stated to be marvellously rapid, as many as six shots having been fired in a second (?). In aiming, of course, more time is required; but if the aim is once taken, the six shots may be fired in succession.—*Broad Arrow.*

FOREIGN ITEMS.

GEN. FERRON, the French Minister of War, is making arrangements to effect a large reduction in the expenses of the central military administration.

ACCORDING to the *Revue du Cercle Militaire* (Paris), the number of infantry officers in the Russian Active Army is to be increased. This measure will cause an increase of 280,000 roubles in the Army budget for 188[illegible].

A GERMAN mathematician has, from certain measurements effected, calculated that the quantity of snow which fell in Central Germany from Dec. 19 to 23, between 50 deg. and 52.5 deg. N. latitude and between 7 deg. and 18 deg. E. longitude, weighed, *Nature* says, no less than 10,000,000 tons.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

THE MONOCULAR DUPLEX, OR ARTIST CAMERA.—The picture is seen non-inverted and full size, the very instant of making the exposure. Can be accurately focussed, dispenses with Tripod, Focussing-cloth and carrying-case. Leather covered; ready at a second's notice, and will carry eight to ten plates. Price with double holder $75.00. With roll holder, 48 paper negatives secured without changing spools. Price $95. Catalogue free; sample Photo, 15 cents.
E. W. SMITH & CO., 42 John St., N. Y.

AN EXTRAORDINARY RAZOR HAS BEEN INVENTED by the QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,
(Late Third Auditor U. S. Treasury, late Capt. U. S. Army, and Colonel of Volunteers.)

tance from the side the tongs are opened by means of a spindle and tripper, and the torpedo being released proceeds on its way, and the bar is drawn inboard. We understand that the new method will be tested upon the Severn.

THE *Esercito Italiano* (Rome) reports a curious case of exemption from service in the Bergamo district. A certain Burini called to the colors for fifteen days' training was dismissed to his home because the quartermaster's stores were unable to supply trousers of sufficient length for his extraordinarily long legs.

IN the Italian Chamber of Deputies June 3 the Minister of War in the course of a debate on the proposal to grant 7,000,000 lire for the expenses of the troops in Africa, stated that the government was determined to retain possession of Massowah, which was a valuable point from which to develop trade and increase the influence of Italy.

THE *Deutsche Heeres-Zeitung* (Berlin) states that the strength of the German Army is, in accordance with the law of March 11, 1887, as follows: 19,262 officers, 55,447 non-commissioned officers, 848 paymasters' assistants, 19 270 bandsmen—5,516 non-commissioned officers and 13,754 privates—378,290 *Gefreite* (corresponding to lance-corporals) and privates, 3,704 hospital assistants, and 10,850 workmen—total, 468,409. This represents an increase of 41,135—1,124 officers, 4,025 non-commissioned officers, 57 paymasters' assistants, 5,030 bandsmen, 30,315 lance-corporals and privates, 173 hospital assistants, and 715 workmen. The number of horses is 84,077, an increase of 2,288.

AS ROCHEFOUCAULD says, there is something not altogether unpleasant in the misfortunes of our best friends. The process of shortening the sabres of the French cavalry four years ago seems to have so much injured the temper of the steel that, as the *Progrès Militaire* (Paris) says, they are about on a par with the weapons of the English troops. The number of weapons affected is about 40,000.

IF the principle of obligatory military service for all male Spaniards is admitted by the Cortes in the new Army Bill, the Spanish forces on active service will comprise 380,000 men in the ranks, or liable at first call, to which could be added the drilled reserves of 508,000 more, whilst the "guerra al coltello" would summon forth 632,000 combatants, or a host of 1,600,000 men to represent the nation in arms.

THE fourth of the fourteen torpedo-boats constructed by Herr Schichau for the Italian Government, No. 99, in a recent three hours' trial trip between Pillau and Danzig, attained a mean speed of 22.6 knots on the measured mile, with forced draft. The contract speed was only 21 knots. A few days ago several Italian officers and thirty men arrived in Elbing for the purpose of manning the first four boats on their voyage to Italy.

A DESPATCH from Vienna, May 14, says: The leading diplomats here do not hesitate to assert that fresh trouble is brewing in the Balkan Peninsula, where Russia is working more actively now than for some time past. As an indication thereof they point to the recent domestic and political crisis at Belgrade, which has just ended in a complete victory of the pro-Russian party all along the line. The means by which this result has been attained are so peculiarly characteristic, and the consequences thereof are certain to be of such importance, that a few details on the subject will certainly prove of interest.

THERE is being constructed at Portsmouth a device for discharging torpedoes, the invention of Capt. William H. May, a member of the English Torpedo Committee, which promises at last to remove the difficulty of controlling the Whitehead when fired from below the water on the broadside. In Capt. May's invention the guide-bar is movable, and is blown out from a second tube at the same moment as the torpedo. Instead of the latter being driven along it, it is simply supported by the bar for about 8 feet of its course. It is retained in position by a couple of steel tongs, which grip it forward and aft, and after it has reached the required dis-

A SAFE INVESTMENT

For both large and small sums of money is offered in the DEBENTURE BONDS of the NEBRASKA LOAN AND TRUST CO. and the CENTRAL LOAN AND LAND CO. These bonds are secured by mortgages on productive real estate after the manner of securing National Bank notes, bear 6 per cent. interest and run 10 years. Experience proves that they are one of the safest investments ever devised, and they are commended to the attention of officers of the Army and Navy.

For sale by JOHN ROCKWELL, 20 Nassau St., New York.

OFFICE OF ASST. QUARTERMASTER, GOVERNOR'S ISLAND, N. Y., May 24, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office until 10 A. M., June 24, 1887, for supplying—during fiscal year commencing July 1, 1887—water and gas required in barge office, on the Battery, N. Y. City; also water for use of Governor's Island, by pipe crossing Buttermilk Channel, or, in case of accident to pipe, by water boat.

The Government reserves the right to reject any or all proposals.

Blank proposals and information can be obtained at this office.

Envelopes containing proposals should be marked "Proposals for water or gas,"—as the case may be—and addressed to the undersigned. J. H. LORD,
Captain and Asst. Quartermaster, U. S. A.

WAR DEPARTMENT,
NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT,
HOUSTON ST., COR. GREENE, May 13, 1887.

SEALED PROPOSALS IN TRIPLICATE are invited and will be received at this office until 10 A. M. June 13, 1887, for supplying steamers by charter to take the place of the steamers Chester A. Arthur, Ordnance, and Atlantic, respectively, when required during the fiscal year ending June 30, 1888. The steamer to take the place of the Chester A. Arthur must be of the size and character and have about the same passenger and freight capacity as the Arthur, and the steamers to take the places of the Ordnance and Atlantic, respectively, must have the capacity for freight and passengers and be of the size and character generally of the steamer James Bowen, which has a 26-inch cylinder, low pressure engine. All the vessels must be staunch, in first-class order in every respect, well equipped and found, and conform fully to the requirements of the law.

Coal will be furnished by the department.

Proposals must state the price per day of 24 hours for each vessel, and how much per hour for day service and for night service and must include an engineer and fireman. The remainder of the crew will be furnished by the department.

The vessels when required must be furnished immediately, or at such time as the department may designate.

The Government reserves the right to reject any or all proposals.

lowing testimonial and endorsement as additional evidence of the value of Frink's Rupture Remedy:

FORT RILEY, KAS., Dec. 17, 1886.

O. Frink, New York:

DEAR SIR: Replying to your communication of Dec. 10, I will state that your Rupture Remedy has cured me, and under difficulties at that, *for I was in the saddle most of the time while using it*, and I think I am as sound as before I was hurt. You may use this statement if it will be of any benefit to you. I am very thankful to you and also to Lieutenant Wheeler, as it was through him that I was induced to try your famous Remedy.

Very respectfully,
JOHN M. ISEMAN, Farrier, Troop D, 5th Cav.

RECRUITING RENDEZVOUS, 56 WEST ST.,
NEW YORK, Dec. 24, 1886.

THIS is to certify that J. M. Iseman, Farrier, Troop D, 5th Cav., was severely ruptured in the groin by being thrown from his horse at Fort Robinson, Neb., in 1884, and in March, 1886, I ordered two boxes of Frink's Rupture Remedy to be sent him at Fort Riley, Kas. I have seen his letter of Dec. 17, 1886, published above, and gladly endorse the statements contained therein. H. W. WHEELER,
1st Lieut., 5th Cav., Recruiting Officer.

Mr. Frink's pamphlet, containing valuable information, is mailed free, in a plain, sealed envelope, to any address upon request.

SHUN OINTMENTS AND LOTIONS for skin diseases, cuts, sprains, bruises, &c., and use GLENN'S SULPHUR SOAP. HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

THE most prominent physicians smoke and recommend "Tansill's Punch" 5c. Cigar.

THE fearless soldier on the midnight watch and the bold mariner before the mast on a stormy sea will certainly suffer from pain in the Chest, Shoulders, Back and Loins, as well as Rheumatism, Sciatica, stiffness and other results of exposure, if they fail to use BENSON'S PLASTERS as a preventive and cure. They never fail. Avoid imitations.

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy.

Proposals for Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, NEW YORK CITY,
June 4, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office until 11 o'clock A. M., July 7, 1887, at which time and place they will be opened in the presence of bidders for furnishing and delivering at this depot, miscellaneous Quartermaster's stores, such as G. I. buckets and barrels, office furniture, tools, hose, pipe, oils, &c., &c., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department. Preference given to articles of domestic production and manufacture, condition of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, &c., will be furnished by this office on application.

Envelopes containing proposals should be marked, "Proposals for Quartermaster's Stores, to be opened July 7, 1887," and be addressed to the undersigned.

Proposals for Mineral Oil.

JEFFERSONVILLE DEPOT, Q. M. DEPARTMENT
JEFFERSONVILLE, IND., May 31, 1887.

SEALED PROPOSALS in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock, A. M., (Central Standard time,) on Thursday, the 30th day of June, 1887, at which time and place they will be opened in the presence of attending bidders, for furnishing 100,000 gallons Mineral Oil, at this Depot, in cases of two five-gallon cans each.

Deliveries must commence by July 11, 1887, and be completed by August 15, 1887, in such quantities, and at such times, between those dates, as may be agreed upon.

The Government reserves the right to reject any or all proposals.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture, produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished by this office on application.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

THE GATLING GUN COMPANY, HARTFORD, CONN., U. S. A.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 47. WHOLE NUMBER 1243.

NEW YORK, SATURDAY, JUNE 18, 1887.

SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE Jubilee Celebration in honor of the fiftieth anniversary of Queen VICTORIA'S coronation is the event of next week, and the indications are that in the United States there will be quite a general observance of the occasion.

WE are indebted to Colonel R. H. HALL, U. S. A., for a copy of the "Register of the Army of the United States, January 1, 1792." Major General ARTHUR ST. CLAIR, "General-in-Chief," heads the list. The Army then consisted of 104 officers and 2,128 men; total, 2,232.

IF we do not publish from week to week the several "target practice orders" issued from the Headquarters of Departments it is not because we are unobservant of them, and of the steady progress exhibited, but merely in deference to the exigencies of space. There certainly is no retrogression, or signs of it, in the matter of target practice.

MILEAGE accounts of Army officers to the amount of one thousand dollars have been received at the Paymaster-General's Office since the appropriation became exhausted, and others are coming in daily. The deficiency will probably reach $2,500. As we stated last week, officers holding these accounts will have to wait for an appropriation from Congress before they can be reimbursed.

THE order issued this week relieving General MERRITT from the Military Academy and assigning him to the command of the Department of Missouri sets at rest speculation in regard to changes in Department commands in the near future. General MERRITT will assume charge of his Department early in the new fiscal year. Colonel PARKE, his successor as Superintendent of the Academy, is expected in Washington from Europe about the middle of August, and according to the terms of his orders will assume charge of the Academy August 28.

OF the $200,000 appropriation for barracks and quarters contained in the last Sundry Civil bill, $57,000 has been allotted for completing the four company post at Atlanta, Ga., $15,000 of which will be expended in the purchase of additional land. For continuing the enlargement of the twelve company post at San Antonio, Tex., $50,000 is allowed, and $38,000 for improvements at the two company post at Fort Porter, N. Y. The remaining $65,000 will be distributed among the various other posts, not more than $10,000 going to any one post. The Secretary of War has not yet approved the recommendations of the Lieutenant-General in regard to the distribution of this amount.

GENERAL NELSON A. MILES, U. S. A., arrived at Tucson, Arizona, June 13, and, as the despatches say, "took personal charge of the Indian campaign, as there is every appearance of a prolonged war." We may trust to General MILES for a short, sharp, and decisive campaign if at all practicable, but the weather is propitious for the hostiles and doubtless they will endeavor to hold out as long as it lasts. In this connection we are somewhat inclined to side with the *Critic*, which says: "So much for the mistaken leniency of the Government in providing the Apache captives of the last campaign with comfortable quarters, plenty to eat and nothing to do, in Florida and Alabama. Nothing but a terrible example will suffice to bring these savages to a proper comprehension of their relations to the Government."

A REFERENCE to G. O. No. 42, issued this week, will show that General Sheridan has made his selection of the two cavalry troops to form the garrison at Fort Myer, Va. Troop B, 4th Cavalry, Captain Henry W. Lawton, thus gets a pleasant and well-earned relief from hard service in connection with Indian campaigns, in one of which it is now actively engaged. The other troop, B of the 6th Cavalry, Captain George S. Anderson, has also had a full share of hard service on the frontier, and is now well calculated to appreciate the comforts of an Eastern station. Major Lewis H. Carpenter, 5th Cavalry, will have command of the post, which will be established early in the new fiscal year. Some slight changes in the State arrangements are about the only improvement that will be needed to make the post suitable for its new purpose.

IN the application of modern science for the purposes of commerce and business probably no nation excels the inhabitants of the United States, and fully abreast of the requirements of the times will be found the personnel of the U. S. Navy. One of the most recent uses to which the perfected methods of instantaneous photography have been adapted is as an assistant to the geographer, surveyor, and navigator, aboard our vessels of war cruising about the world. The ships bound on foreign service, are being, as far as practicable, supplied with photographic outfits. Several are already fitted out in this respect, and the introduction of photographic representations of headlands, points, islands, etc., have tended to increase the value and reliability of official reports, not only to the Government, but to scientific men throughout the world. Quite a number of the officers of the Navy have become experts in the art preservative, as photography should be termed. The results of their labors abroad are of great interest and value.

LAST week we noted that the experiment of paying the troops monthly was to be tried in New York Harbor and in San Francisco and vicinity, and should satisfactory results follow then "Congress will be asked to increase the force of paymasters, in order to allow more frequent payments to be made." Of course if the troops *must* be paid by the regular paymasters then the present force might prove insufficient, and also there would be an extra drain upon the mileage appropriation. But, in our advocacy of more frequent payments, we had in view a system somewhat similar to that proposed in 1878 by General M. C. MEIGS, U. S. A., and perhaps other officers then called upon for their views as to the reorganization of the Army, namely, that the officers of the Pay Department be assisted at posts by "officers of the staff corps there stationed, or by the commanders of companies to whom, as may be directed in general orders, the funds for paying the troops may be sent by the Pay Department, so as to ensure frequent and punctual payment to all soldiers of their just dues."

THE retirement this week of three captains of infantry increases the number of vacancies in the grade of second lieutenant to 40, distributed as follows: One each in the 1st, 2d, 3d, 4th, 6th, 9th, 10th, 13th, 16th, 21st and 22d; two each in the 11th, 14th, 18th, 19th, 20 h, and 25th regiments of infantry; one each in the 1st, 2d, 9th and 10th, and two in the 4th and 3 in the 5th Regiments of cavalry; one each in the 1st and 5th, and two each in the 2d, 3d and 4th Regiments of artillery. The assignment of the West Point graduates to these vacancies awaits the return of Secretary ENDICOTT to Washington, which will be on Saturday or Monday next. The main question for him to determine is as to whether or not the star members shall be assigned to the Engineer Corps as additionals, there being no vacancies in that arm of the Service. 24 graduates are to be assigned as additionals, and doubtless the wishes of some of those standing near the head of the class, for assignment as additionals in the Engineer Corps, cavalry and artillery regiments, will be gratified. As, under a recent law, the pay of graduates as second lieutenants commences from date of graduation, the chief results of postponing the appointments will be to delay the graduates who have made their plans for a European trip this summer and are waiting for their assignments before starting.

THE Board of Visitors to the Naval Academy present a melancholy picture of the condition of the Marine Barracks and the new Cadet Quarters at Annapolis. According to their report these are in danger of falling any day and burying their occupants in the ruins, they having been built on made ground without taking pains to secure a firm foundation. Of the Marine Barracks the Board say further: "The wall in the rear of the right wing needs bracing; the ceiling is badly cracked and has fallen in many places; all the steam pipes need repairing; the floors are rapidly decaying, some of them being unfit for use, new timbers and joists are required; the steam heaters are too small for the quarters; the roof is leaking badly; the lightning rods are not properly put up and should be changed; and the water pipes are so worn as to be scarcely serviceable." Of the new Cadet Quarters they say: "The Board is informed that the walls of this building are twenty-four inches thick at the bottom and twenty inches thick at the top; yet the construction has been so faulty that a crack, plainly discernible, has opened in the ceiling of the fourth story, about thirty feet from the northeast end. This crack is to be seen in the ceiling of each lower story at about the same place as in the upper story, and runs south and across the building in each story, to the outer wall and thence down the outer wall and on its outside to the ground, constantly increasing in size. Should a very heavy storm occur it is possible, if not altogether probable, that this portion of the building will give way, not only endangering the safety of the entire building, but the lives of the occupants. The floors were found to be everywhere rough, worn, and in a bad condition; the material out of which they were constructed was inferior, and the workmanship rough and careless. They should be replaced. There are 104 rooms occupied by the cadets, twelve of which are too large. The wardrobes in these rooms are poorly constructed out of inferior wood, and annually cost in the way of repairs more than they are now worth." Assuming this to be a correct description of the condition of the buildings referred to, it would seem to be in order to inquire who is responsible for this sort of work on Government buildings. If it is desired to limit the number of young men entering the Navy from the Academy some more legitimate method might be found to accomplish this purpose than that adopted by SAMSON to lessen the congregation of his enemies at Gaza.

PERSONAL ITEMS.

LIEUTENANT J. A. JOHNSTON, 8th U. Cavalry, has arrived at Orange City, Fla.

LIEUTENANT J. O. MACKAY, 3d U, S. Cavalry, is North from Texas on a long sick leave.

LIEUTENANT JOHN P. WISSER, 1st U. S. Art., sailed for England on Saturday last on the *Umbria*.

GENERAL A. P. HOWE, U. S. A., of whom we hear so little nowadays, is living at Cambridge, Mass.

LIEUTENANT W. C. WREN, 10th U. S. Inf., has left Fort Union, N. M., for the East, on a month's leave.

MR. ALBERT D. NISKERN, who resigned last week from the 20th Infantry, is at his home at Hastings, Mich.

LIEUTENANT C. G. WOODWARD, 3d U. S. Artillery, left Fort McHenry, Md., this week on a fortnight's leave.

LIEUTENANT E. B. IVES, 19th U. S. Infantry, has taken charge of recruiting matters at Fort McIntosh, Texas.

CAPTAIN F. C. GRUGAN, 2d U. Artillery, of Fort Barrancas, Fla., is on a brief visit to relatives in Philadelphia.

CAPTAIN J. B. BURBANK, 3d U. S. Art., returns to San Antonio in a few days from his trip to Washington and New York City.

LIEUTENANT D. C. SHANKS, 18th U. S. Inf., has been obliged to postpone his return to Fort Gibson, I. T., on account of sickness.

LIEUTENANT-GENERAL SHERIDAN, General Baird and Colonel Blunt returned to Washington early in the week from their trip to West Point.

MAJOR G. W. BAIRD, Paymaster, U. S. A., left Boston this week for New Haven, Conn., to attend the dedication there of a Soldiers' Monument.

COLONEL E. F. TOWNSEND, 12th U. S. Inf., arrived in New York this week prepared for his seven weeks' tour at the State Camp at Peekskill.

CHIEF MEDICAL PURVEYOR J. H. BAXTER, U. S. Army, visited New York City this week and inspected the Purveying Depot in Wooster street.

LIEUTENANT H. B. OSGOOD, 3d U. S. Artillery, has returned to Fort Monroe, Va., from Portland, Me., whither he was called by the death of his mother.

CAPTAIN J. R. BRINCKLE, 5th U. S. Art., has broken camp at Wilmington, Del., and started with his light battery on its return march to Fort Hamilton.

GENERAL W. H. PENROSE, U. S. A., is getting Fort Niagara, N. Y., into good shape for the Division of the Atlantic rifle competitions to take place there in September next.

CAPTAIN H. C. EGBERT, 12th U. S. Inf., has taken command of Madison Barracks, Sackett's Harbor, N. Y., during the absence of Col. Townsend at the New York State Camp.

LIEUTENANT C. D. COWLES, 23d U. S. Infantry, of David's Island, whose recruiting tour terminated in October last, but was extended, will soon join his company at Fort Mackinac, Michigan.

MAJOR WILLIAM VOLKMAR, since the departure of Colonel Lazelle from Vancouver Barracks for Washington, has had charge of the I. G. O., Department of the Columbia, as well as of the A. G. O.

AT the suggestion of Mr. Geo. W. Childs, Generals Sherman and Sheridan have consented to sit for portraits, to be placed on either side of that of Gen. Grant, in Grant Hall, Military Academy.

LIEUTENANT W. W. GIBSON, Ordnance Corps, U. S. A., of West Point, sailed for Havre on Saturday last on the *Normandie*. Among his fellow passengers were the Rev. Morgan Dix and Major J. L. Rathbone.

LIEUTENANT WILBUR LOVERIDGE, 3d U. S. Artillery, whose tour of torpedo instruction at Willet's Point closes in a few days, will spend July and August on leave and join at Fort McHenry, Md., early in September.

LIEUTENANT-GENERAL SHERIDAN has accepted the invitation of Governor Hartranft to review the troops at the State Encampment of the Pennsylvania National Guard, to be held at Mount Gretna between August 6 and 13.

MISS PAULINE REVERE, the daughter of Major Paul J. Revere, who was killed in the War of the Rebellion, and great granddaughter of Paul Revere, of Revolutionary fame, was married at Boston, June 11, to Mr. Nathaniel Thayer.

COLONEL A. C. WILDRICK, U. S. A., of Fort Hamilton, is to have command this year of the rifle camp of instruction at Creedmoor, to be held from July 5 to Aug. 13. The foot batteries of artillery in New York Harbor will participate.

LIEUTENANT A. S. CUMMINS, 4th U. S. Artillery, of Fort Warren, is packing up preparatory to going early in July to Burlington, Vermont, for college duty. His advent there will be a source of pleasure to many who made his acquaintance while on duty at the college some years ago.

THE bill recently signed by Gov. Beaver, of Pennsylvania, appropriating $1.500 to each of the different organizations that participated in the battle of Gettysburg, provides that a commission shall be appointed to aid in the proper location of the different monuments. The commission will consist of the following: Gen J. P. S. Gobin, Gen. John P. Taylor, Col. R. Bruce Ricketts, Maj. Samuel Harper and Col. John P. Nicholson.

GENERAL HOWARD informs the War Department that a board of medical officers convened at San Francisco has pronounced Capt. James F. Simpson, 3d Cavalry, insane, and, in accordance with instructions from the Secretary of War, Capt. Simpson is now en route to Washington from Alcatraz Island, Cal., to be confined in the St. Elizabeth Insane Asylum. Those acquainted with the officer's condition say that his case is entirely hopeless.

LIEUTENANT L. M. KOEHLER, 6th U. S. Cavalry, is visiting at Le Mars, Iowa.

MAJOR A. J. MCGONNIGLE, U. S. A., is North from Texas on a few weeks' leave.

COLONEL ALBERT TRACY, U. S. Army, retired, left Boston this week for Amherst, Mass.

CAPTAIN C. R. BARNETT, U. S. A., rejoined at Portland, Ore., this week, from a short leave.

CAPTAIN D. T. WELLS, 8th U. S. Infantry, is East from Fort Niobrara, on a few weeks' visit.

CHAPLAIN S. M. MERRILL, U. S. A., is to leave Ft. Clark, Tex., in a few days on a three months' vacation.

COLONEL DELANCEY FLOYD-JONES, U. S. A., is the author of a series of interesting "Letters from the Far East."

CHAPLAIN W. F. BARRY, U. S. A., has returned to Fort Leavenworth from a pleasant visit to Fort Gibson, I. T.

LIEUTENANT W. W. GALBRAITH, 5th U. S. Artillery, left Fort Schuyler, N. Y. H., on Monday, on a week's vacation.

MAJOR F. W. HESS, U. S. A., rejoined at Washington, D. C., early in the week from a brief visit to his family in Maryland.

LIEUTENANT ELIAS CHANDLER, 16th Infantry, expects to leave Fort McIntosh, Tex., about July 1, on a three months' visit North.

LIEUTENANT C. E. KILBOURNE, 2d U. S. Artillery, arrived in Columbus, O., this week, preparatory to entering upon college duty there.

LIEUTENANT COLONEL J. S. FLETCHER, 2d U. S. Infantry, lately East on leave, was expected to rejoin this week at Fort Omaha, Neb.

GENERAL O. B. WILLCOX, U. S. A., and family have arrived safe and sound at Antwerp, and are now enjoying the pleasures of a European tour.

CAPTAIN T. J. GREGG, 2d U. S. Cavalry, lately examined by a Retiring Board and found incapacitated for active service, is at Santa Barbara, Cal.

LIEUTENANT F. D. SHARP, 20th Infantry, at present visiting his parents at Leavenworth City, will join for duty at Fort Leavenworth when his leave is up.

LIEUTENANT G. P. AHERN, 25th U. S. Infantry, who has been on leave in New York City, went up to David's Island this week, to take charge of a batch of recruits going to Fort Snelling.

MISS LUCIE STUART, niece of Gen. J. E. B. Stuart, and daughter of Wm. A. Stuart, owner of the Virginia White Sulphur Springs, was married recently to Mr. Campbell, of Wytheville, Va.

MORE than 18.000 claims under the Mexican Pension bill have been filed, and of this number 3,500 came from claimants, principally from widows, past 70 years of age. Half of the 18,000 are probably over 60. Pension certificates are being issued at the rate of 200 to 250 a day.

GENERAL BOULANGER, writes a Paris correspondent, instead of remembering a certain quotation from a well-known dramatist, "There is a tide in the affairs of men, which, taken at the flood, leads on to fortune," has preferred to retire into social oblivion, like so many of his predecessors.

LIEUT. COL. HENRY M. LAZELLE, 23d Infantry, arrived in Washington the early part of the week, and immediately assumed charge of the office of the publication of the Official Records of the War of the Rebellion. His first work will be in connection with Volume 18, now about to be issued from the Public Printers.

THE monument to the Confederate Cavalry leader, Harry Gilmor, at Baltimore, will have cavalry sabres crossed above this inscription, the composition of Miss Randolph: "Our gallant Harry—Dauntless in battle—Splendid in success—Constant in defeat—This dashing cavalry chief—Outrode the storm of war—And in the noontide of life—Entered the Valley of Death, Where he was conqueror.—Life's battle ended he sleeps well—Beside the wife—Who on earth as in Heaven—Heralding the better life—Was a helpmeet worthy of a hero."

THE Germans have a parallel to the case of the American, Hereshoff, in that of Herr Fortelka, the inventor of a repeating rifle which is attracting a good deal of attention among Austrian military men. During the first campaign in Bosnia he received a bullet in his right eye, which so affected the left eye that he became totally blind. Yet since his blindness he has invented the magazine rifle, a micrometer, an apparatus for automatic mapping, a new sort of gunpowder, two machines for the anti-oxidation of metals at a small cost, and a number of smaller devices. "When either great or minute measurements are in question," says Herr Fortelka, "those who see with their eyes are often wrong, while I, who see with my fingers, am right." The models of his inventions have been entirely made by himself with the help of pieces of wood, string, and wire.

THE Fort Davis *News* of June 30, says:

Mrs. Lt. J. T. Dickman returned on Monday from an extended and pleasant visit to friends.....Dr. Paul Clendenin and Lt. E. S. Robbins have been on a visit from Pena Colorado.....Lieut. S. M. Hackney made a recent visit to Fort Bliss, the headquarters of his regiment, made several new and pleasant acquaintances, and had a very enjoyable time in every way.

THE Vancouver *Independent* of June 1, says:

Col. G. O. Haller, U. S. A., retired, is in this city, attending to the Masonic Grand Lodge.....Lieut. James Runcie, 1st Art., has two months leave, and was at headquarters last week, en route East.....Lieut. R. B. Bryan, 2d Cav., has gone to Fort Sherman..... Col. J. H. Lazelle and family started to-day for Washington.....Lieut. Albert Todd, 1st Art., Vancouver Barracks, has been granted a month's leave and starts to-day to his old home in Kansas.....The 14th Inf., and Battery E, 1st Art., made a splendid appearance when in line on Memorial Day.....Capt. C. A. Woodruff, C. S. Dept. Col., delivered a fine address before the G. A. R. of Portland on the evening of memorial day, which was enthusiastically received ... A very enjoyable party was given at the garrison hall last Wednesday by Mrs. and Lt. J. A. Buchanan, Adjt., 14th Inf.

GENERAL GEO. CROOKE, U. S. A., is at Lake Superior this week, enjoying the cool breezes of the lake.

GENERAL J. P. HAWKINS, U. S. A., contributes to the Omaha *Excelsior* an excellent article on "Corn Bread."

QUARTERMASTER GENERAL S. B. HOLABIRD, U. S. A., celebrated his sixty-first birthday on Thursday, June 16.

ADJUTANT C. B. SATTERLEE, 3d U. S. Artillery, left Washington Barracks on Wednesday on a week's leave.

CAPTAIN J. J. O'CONNELL, U. S. A., and Mrs. O'Connell are guests at the Aquidneck, Newport, R. I. They will return to Cincinnati next week.

SECRETARY ENDICOTT will spend some weeks at his Salem home during the summer, and Secretary Whitney will devote a month to the leading summer resorts.

CAPTAIN A. G. FORSE, 1st Cavalry, is to change base with his troop from Fort Custer to Fort Maginnis, and Captain Thomas Garvey with his troop from Maginnis to Custer.

LIEUTENANT GEO. J. PUTNAM, 16th U. S. Infantry, was married, June 11, at Hartland, Vt., to Miss Maud E. Labaree. After the wedding tour the married couple will go to Fort Bliss, Texas.

MAJOR L. H. CARPENTER, 5th U. S. Cavalry, is to be the commandant of Fort Myer, Va., and the garrison is to consist of Troop B, 4th Cavalry (Lawton's) and Troop B, 6th Cavalry (Anderson's).

CAPTAIN EDWARD LUFF, 8th U. S. Cavalry, leaves Fort Brown, Texas, next week for Topeka, Kansas, to spend a three months' leave with his family, who have been there since May. During Captain Luff's absence his troop will be commanded by Lieutenant J. C. Byron.

MAJOR GENERAL A. H. TERRY, U. S. A., visited New York this week, and then went on to New Haven, Conn., where he was accorded a magnificent reception. On Friday he, with other distinguished Army and Navy officers and citizens, attended the dedication of the Soldiers' Monument, on the top of East Rock, overlooking New Haven.

COLONEL C. C. CRESSON, U. S. Army, retired, was Grand Marshal of the Memorial Day parade in San Antonio and on his staff as aides were Capt. J. P. Simpson, and Lieuts. O. M. Smith, J. B. Hickey, and G. P. Scriven, U. S. Army. Gen. Stanley and staff and Col. Elmer Otis and staff were in the parade, also the U. S. troops stationed at San Antonio.

FORT HAMILTON, N. Y. H., was the scene of a pretty Army wedding this week, June 16, that of Lieut. John W. Ruckman, 5th U. S. Art., to Miss May, daughter of the post commandant, Col. John Hamilton, 5th U. S. Artillery. The ceremony was performed in St. John's Church near the fort. The married couple left the same evening on a two months' tour.

GENERAL JAMES F. WADE, Colonel 5th Cavalry, soon after his recent arrival at Fort Riley, strolled down to the post trader's for such mail as might be there for him. The trader was busy with his accounts at the time, and taking the General for a commercial traveller, waived him off with the brusque remark: "I don't want to see your samples." Wade waited quietly for a time, and when the trader finally asked: "What do you want, anyhow?" the latter was stricken with partial paralysis at the reply of, "I wished to know if there is any mail here for Colonel Wade."

LIEUT. A. L. MILLS, 1st Cav., says the Charleston *Courier*, "has resigned his position as instructor at the Military Academy, and his departure July 1, is looked forward to with regret. As a gentleman, he is genial, cordial, affable in his manners towards everyone, and he necessarily makes friends wherever he goes. He has a host of friends and admirers among the Cadets, and when he leaves there will be many to mourn his loss. Mrs. Mills, too, is by far one of the pleasantest and most cordial ladies that one ever meets with, and she has also many friends among the Cadets. Then, how much we will miss the bright face and merry voice of their sweet little daughter, Miss Gertrude. They have many friends in the city, to miss them when they have left for the far West. We wish them success and happiness in their future home, and hope they will ever remember that they leave behind them many, many friends at the old S. C. M. A., and in the 'City by the Sea,' who will sadly miss them."

LIEUTENANT ALFRED M. FULLER, 2d U. S. Cavalry, who was married June 1, at Pittsburg, to Miss Mary S. Jones, seems, according to a despatch from that city to the New York *World*, to have followed to some extent the method of young Lochinvar in obtaining his bride. The despatch says: "Miss Jones is the daughter of J. R. Jones, who is worth probably half a million dollars and resides in the fashionable suburb of Jewickley. Lieut. Fuller comes from a good Uniontown, Pa., family and is a graduate of West Point. Two or three weeks previous to the marriage, Miss Jones came to Pittsburg with her sister, ostensibly to pay a visit. Upon arrival she went with her sister to a shop, made a few purchases, excused herself on the pretence that she had an errand down street, requested her sister to wait for her and disappeared. When she returned some time afterwards it was to make the announcement that she was married, and that her husband, Lieut. Fuller, was in a carriage at the door. Lieut. and Mrs. Fuller first met about five years ago and at once formed an attachment for each other. The announcement of their engagement followed, and the Lieutenant was a frequent visitor at the Jewickley mansion. Two or three years ago he was forbidden the house and the lovers did not meet again until a month later, while Miss Jones was visiting at Brownsville. It is said they contemplated marriage a couple of years ago while Miss Jones was visiting Judge Gresham, her uncle, at Chicago. It is certain that Lieut. Fuller left Washington for Chicago after having informed his friends that he intended to get married. He returned, but, of course, without his bride. It is said Miss Jones's parents got wind of the plan and immediately summoned their daughter home. In Jewickley society the elopement has naturally created quite a stir."

MAJOR W. E. CREARY, Paymaster, U. S. A., arrived at Omaha last week from Washington and reported for duty.

GENERAL H. B. CARRINGTON, U. S. A., (retired) visited New York this week, quartering at the Fifth Avenue Hotel.

EDWARD PAYSON WESTON, the once famous pedestrian, is now a reporter on a New York daily. It is supposed he writes the foot-notes.—*Norristown Herald.*

GENERAL A. W. GREELY, U. S. A., visited New York this week, and New Haven, Conn., where he was present on Friday at the dedication of the Soldiers' Monument.

GENERAL HATCH and the officers of Fort Robinson, Neb., gave a very handsome party on Thursday last which was attended by the officers and ladies of Fort Niobrara in a special car.

LIEUTENANT PHILIP READE, U.S.A., of Gen. Terry's staff, has been selected to conduct the Division of the Missouri rifle competitions which will commence at the Bellevue rifle range near Omaha, Sept. 6 next.

CAPTAIN CLARENCE A. STEDMAN, 9th U. S. Cav., was married in New York, June 15, to Isabel D. Felt, at 165 West 58th street, the ceremony being performed by Rev. Mr. Howes. After the wedding tour the married couple will go to Fort Robinson, Neb.

GENERAL SHERMAN has written a letter to *The Century*, which will appear in the July number, wherein he commends the war papers, and expresses "entire satisfaction with the course of your magazine in collecting from the witnesses while living their personal testimony—every article of which I have read, in common with millions of our people." He has also written a paper on "The Grand Strategy of the War," and Gen. O. O. Howard writes on "The Struggle for Atlanta."

JUDGE EVANS, of Illinois, called on the President June 14, with reference to his son, a member of the graduating class of the Military Academy, who is under discipline for insubordination. Young Evans called on one of the officers of the Academy for what he considered improper treatment and was tried and convicted of insubordination and sentenced to lose all his privileges until August. He was graduated, but cannot receive his diploma or commission until August 28. The President has been appealed to to remit the penalty so far as it has not yet been executed.

A DESPATCH of June 10 from Findley, Ohio, says: "The military exhibition was the feature of the third day of the natural gas celebration. The prize drill at Camp Garfield was participated in by the Toledo cadets, Battery B, 1st Light Artillery of Cincinnati; the State University Cadets, 2d Ohio National Guard of Lima, and the Wooster City Light Guards. The judges were Capt. Hobart, 3d U. S. Inf., Columbus Barracks; Capt. J. P. Thompson, 3d U. S. Inf., at Columbus on leave, and Lieut. Alex. Ogle, 17th U. S. Inf., Columbus Barracks.

STORIES of the "Wild West" heroes in London are in order. It is told that one day Mr. Frank Richmond, the lecturer of the show, was acting as guide to the Crown Prince of Denmark and the Marquis of Lorne. "Buck" Taylor chanced to come up just as Mr. Richmond had turned from the Marquis of Lorne, who had just asked him a question, to attend, as in etiquette bound, to the Crown Prince. "Buck," who was ignorant of the rank of the visitors, and who thought that the Marquis of Lorne was being slightly snubbed on account of his smaller stature and less imposing appearance, said to the lecturer indignantly: "Why don't you tell the little fellow what he wants to know?" Both of the distinguished visitors were mightily amused. The Princess of Wales sat on the box with Cody while he drove the Deadwood coach the other day.

THE marriage of Miss Mary Virginia King, daughter of Major Wm. R. King, Corps of Engs., U.S A., to Lieut. Irving Hale, of the Corps, which took place at Willet's Point, June 14, was a brilliant affair. The ceremony was performed at Major King's spacious quarters, by the Rev. James King, an uncle of the bride. Immediately after the ceremony a dress parade was held for the benefit of the distinguished military guests present, and at its conclusion a collation was served, and at 4 P.M. Lieut. and Mrs. Hale left for N. Y. City. After a few days the couple will go to Colorado to visit Lieut. Hale's father and mother. Among those present were Miss Schofield, Capt. and Mrs. Knight, Capt. and Mrs. McGuire, Mrs. Woodruff, Lieut. and Mrs. Babbitt, Miss Phaling, Lieut. and Mrs. Roessler, Gen. Joseph Wheeler, of Alabama; Gen. Abbot, Mrs. S. T. Nicoll, Col. and Albert Bass, Col. and Mrs. Mercur, Capt. and Mrs. Price, Col. and Mrs. Hodges, Col. Mcfarland, Capt. and Mrs. Bergland, Mrs. W. M. Hoes, Dr. and Mrs. Happersett, U. S. A., etc.

THE Seattle, W. T., *Post-Intelligencer* has published a letter from leading Democrats of Washington Territory in answer to the charges against ex-Gov. W. C. Squire in which they say: "It is well known here that the United States troops were quartered in Governor Squire's building against his wishes; that the officers in command of the troops insisted in using those buildings because they were situated close to the Chinese quarters and were the only buildings that could be found large enough to accommodate the troops; and it is equally well known here that the rent charged the Government by Governor Squire for the use of his buildings was less by nearly $100 a month than had a short time before been paid by private parties. As citizens of Washington Territory, having a just pride in its good name and that of its officials, irrespective of party, it affords us pleasure to be able to contribute, with this protest, this testimonial to the official character of Governor Squire. He has proved himself an honest, faithful public officer, ever watchful of public interest, steadfast in the discharge of his public duties and always loyal to the Constitution and laws of the United States." This letter contains the signature, among others, of Granville O. Haller, Colonel, U. S. A., retired. The statements made in the letter are also corroborated by G. S. Carpenter, Captain, 14th U. S. Inf.; Isaac D. DeRussy, Lieut.-Colonel. Estimates of Architect W. E. Boone show that the actual damage to Governor Squire's property by the occupation of the troops was $2,000, for which no compensation was made.

GENERAL STEWART VAN VLIET, U. S. A., and Mrs. Van Vliet left Washington on Thursday for their summer home on the Shrewsbury River near Long Branch.

LIEUT. S. C. MILLS, 12th U. S. Infantry, and Lieuts. J. D. Miley, F. A. Tripp and E. L. Loveridge, U. S. Army, recent graduates, sailed for Glasgow on Thursday on the *State of Indiana*.

MR. S. R. HONEY, who has recently been elected Lieutenant-Governor of Rhode Island, was formerly an officer of the 15th and the 33d Infantry. He sails on the 2d of July for a visit to Germany.

WE are in receipt of a letter from Captain C. N. Gray, 25th Inf., indignantly denying the assertion of the *Pioneer Press* that he is charged with misappropriation of company funds. The statement, he says, "is false."

AT A Grand Army reception held in New Haven Thursday night General Sherman was called upon, but excused himself by saying that he had come to New Haven, not to speak, but to witness the mustering into Admiral Foote Post of General Alfred H. Terry. He had seen it done, and well done, and he congratulated the post upon having so high a private in its ranks.

COLONEL JOHN P. NICHOLSON writes us that the Fairmount Park Art Association has decided to dedicate a statue to General Meade, Oct. 18, 1887; at which time it is proposed to make a demonstration worthy of the statue and the memory of General Meade, by inviting the prominent soldiers of the country and selecting an orator to pronounce an oration upon General Meade.

WILLIAM E. SHERIDAN, the American tragedian, whose death at Sydney, Australia, on May 18, is reported, served during the war in the Army of the Cumberland and for a time was on the staff of Gen. Rosecrans. At Missionary Ridge he was shot in the wrist. After the war he went on the stage and soon gained a reputation for his scholarly and spirited acting of Shakespearian parts.

DECORATION DAY was observed at Fort Bayard under the auspices of John A. Logan Post, No. 9, G. A. R., with solemnity and impressiveness. An address of some length was delivered by T. V. Brown, commander of Logan Post, who was an hospital steward from the beginning to the close of the Rebellion; followed the 3d U. S. Infantry into the battles of Gaines' Mill, Malvern Hills, Bull Run, second Antietam and Fredericksburg, and during the last half of the war was on duty in the large field and general hospitals.

THE Vancouver *Independent* of June 8 says:

The wife of Lt. W. A. Kimball, 14th Inf., has gone to San Francisco, called thither by the death of her brother..... Many garrison centre tables were ornamented on Monday by bouquets of rhododendron, sent over by the officers at Fort Townsend..... Lt. F. J. Patten, 21st Inf., is perfecting a military target which will by electric appliances register the location of hits upon it.

COMMODORE J. B. HULL, U. S. N., will spend the summer at Salem, Washington Co., N. Y.

LIEUTENANT E. E. CAPEHART, U. S. N., and Mrs. Capehart are visiting relatives at Portsmouth, N. H.

1ST LIEUT. GEORGE R. BENSON, U. S. M. C., of the training ship *Jamestown*, has been granted three months' sick leave of absence on surgeon's certificate of disability.

LIEUTENANT RICHARDSON CLOVER, U. S. N., and Mrs. Clover, accompanied by Mrs. Miller, will before long arrive east from the Pacific coast, and intend spending most of the summer at Newport or Narragansett Pier. Lieut. Clover is attached to the torpedo school at Newport.

A TARGET match between two teams of the Marine Corps, commanded by Sergs. Broom and Corpl. Farro, took place on June 14 at the range on Poplar Hill. The best individual score was made by Corpl. Farro, who succeeded in making 59 out of a possible 75. Corpl. Farro's squad won the match by 39 points.

REAR ADMIRAL CHANDLER favors sending the *Omaha* to San Francisco when her time on the Asiatic station is up. He thinks it would be inadvisable to send her to an Atlantic seaport. He suggests that when the *Omaha* is recommissioned she be assigned to duty with the Pacific squadron. The vessel is in excellent condition.

ASSISTANT ENGINEER W. F. DURAND, whose duty at the Worcester Free Institute, Mass., was regarded as only temporary, has been ordered to the *Yantic*, filling the vacancy caused by the detachment of Chief Engineer Hall and the assignment of Passed Asst. Engr. Mickley as engineer in charge of the department of engineering on board.

CAPTAIN THOMAS G. CORBIN, U. S. N., retired, is residing at 122 Spruce street, Philadelphia, where he makes his permanent home. Captain Corbin's last cruise was in command of the U. S. S. *Guerriere* while flagship of the South Atlantic Squadron, Rear Admiral Davis, commander-in-chief, and in January, 1874, he was retired from the active list.

PAYMASTER WILLIAM J. THOMSON, U. S. Navy, who has returned to his home near Baltimore from a three years' cruise in the Pacific, was accompanied home by his brother, Mr. Frank P. Thompson, who was his pay clerk on both of the vessels in which he served. In the *Mohican* he made the cruise to the Tonga Group of the South Sea Islands, where the prehistoric statue was procured for the Smithsonian Institution.

SURGEON W. K. VAN REYPEN, U. S. N., assistant to the Chief of Bureau of Medicine and Surgery, has been examined for promotion to Medical Inspector with the rank of Commander. The retirement of Dr. Somerset Robinson will create the vacancy for Dr. Van Reypen, and the next promotion in the medical corps of the Navy will occur on the retirement of Medical Director Coues, Sept. 17 next. This will advance Surgeon T. C. Walton to Inspector, leaving Surgeon Woolvert in at the head of the list of surgeons. It is not unlikely that Dr. Van Reypen will be assigned to fleet duty during the present year, inasmuch as his present detail began in Feb., 1884.

CAPTAIN BYRON WILSON, U. S. N., is a recent guest at the Palace Hotel, San Francisco.

REAR ADMIRAL W. G. TEMPLE, U. S. N., registered at the Everett House, New York, on Wednesday.

LIEUTENANT C. K. CURTIS, U. S. N., returned to Norfolk, Va., early in the week from a visit to New York.

COMMANDER FREDERICK RODGERS, U. S. N., visited New York this week, locating at the St. James Hotel.

P. A. ENGINEER A. B WILLITS, U. S. N., on leave at Portsmouth, Va., is to join the receiving-ship *Franklin*.

THE Hon. Henry Meigs, of Bergen Point, N. J., who died last week, was an uncle of Captain R. W. Meade, U. S. N.

LIEUTENANT-COMMANDER GEO. C. REITER, U. S. Navy, will join for duty at the Norfolk Navy-yard on Monday next.

COMMANDER H. DEH. MANLEY, U. S. N., and family have gone to St. Catherine's, Ontario, Canada, to spend the summer.

AMONG the summer guests at Bar Harbor, Me., will be Gen. W. T. Sherman, Mrs. Silas Casey and Rear Admiral Howell.

MISS MINNA PATTISON, daughter of Rear Admiral Thomas Pattison, U. S. N., is to be married in New York, June 24, to Mr. John Randall.

REAR ADMIRAL S. B. LUCE, U. S. N., has rented his Newport cottage and will locate his family for the summer at the White Mountains.

CAPTAIN THOMAS O. SELFRIDGE, Capt. W. E. Fitzhugh and Passed Asst. Engr. Henry Herwig sailed from San Francisco June 4, on the steamer *Gaelic* for China.

SURGEON W. K. VAN REYPEN, Assistant Surgeon General of the Navy, has successfully passed an examination for promotion to the grade of Medical Inspector.

MISS FLORENCE C. BLEECKER, daughter of the late Pay Director J. V. B. Bleecker, U. S. N., was married, May 26 in Jersey City, to Mr. Thos. E. Brown, Jr., of New York City.

REAR ADMIRAL JOHN H. UPSHUR, U. S. N., registered at the Clarendon Hotel, New York City, on Thursday, and Commander P. H. Cooper, U. S. N., at the Brevoort House.

THE friends of Chief Engineer Edwin Wells, U. S. Navy, now serving a tour of duty on the *Omaha*, in China, will be gratified to learn of his continued good health. Mr. Wells is well known and deservedly popular in Washington, where he has been on duty more than once.

CHIEF ENGINEER E. D. ROBIE, U. S. N., with his wife and youngest daughter, arrived in Binghamton, N. Y., last week, from Florida, and are visiting with his sister, Mrs. H. A. Goff, at 134 Oak street. Chief Engr. Robie was the first officer ever appointed in the U. S. Navy from Binghamton and has hosts of old friends there.

ON account of the prevalence of yellow fever at Key West, Fla., P. A. Paymr. Jas. E. Cann, U. S. N., has been relieved from duty at the Naval Station there and granted permission to go north. He left there June 4, per steamer *Carondelet*. Pay Clerk I. T. Van Patten, now on leave, has been notified that he may report to Paymr. Cann in the North.

P. A. ENGR. H. WEBSTER, U. S. N., has invented a clinometer, an ingenious device for readily and accurately determining the rolling and pitching of ships. It consists of an endless rectangular tube filled with a quick-moving liquid, preferably alcohol. One side is made of glass and the remaining three sides of metal. When in place against the bulkhead the glass tube which forms one of its sides is placed in an upright position with divisions radiating from it to indicate the number of degrees that the ship rolls or pitches.

LIEUT. DOWNS L. WILSON, whose recent orders were published at the time, has arranged for Mrs. Wilson to join him at Newport the last week in the present month. Lieut. Wilson is experiencing considerable difficulty with his eyes, but he is hoping that nothing serious will occur to prevent carrying out the summer programme of torpedo instruction. Should his health permit, it is not unlikely that Lieut. Wilson will take the course at the Naval War College before receiving an assignment to sea. Mrs. Wilson will chaperone two young ladies to Newport and through the season.

PASSED ASSISTANT ENGINEER ASA M. MATTICE has been passing a few days at the Capital on duty connected with the work now going on at the Cramp shipyard. Mr. Mattice and Passed Asst. Engr. Kafer are busily engaged, under Chief Engr. Melville, on the details and specifications of the machinery for the 19 knot cruiser about which so much stir is being made. With the push, energy and mechanical ability of Mr. Melville, added to the capacity and skill of Kafer and Mattice, Secretary Whitney is quite secure in expecting favorable results from the ships to be laid down and powered at Philadelphia. The friends of Passed Asst. Engr. Kafer will be glad to learn that his health is better than had been anticipated under stress of office work and anxiety.

CHIEF ENGINEER W. H. HARRIS, U. S. N., left Washington the latter part of last week on an official trip to the Kittery Navy Yard, Maine, on duty connected with the U. S. S. *Kearsage*, now fitting for sea at that yard. He finds that the work of repairing and refitting that vessel is being pushed as rapidly as the state of the finances will admit. In view of the fact that the old machinery is about used up, it is proposed to substitute a pair of engines which, while having somewhat smaller cylinders, will be capable of developing rather more horse-power on an equal or less consumption of fuel. The proposed new engines were built during the war, but the ship for which they were intended never having been finished, the machinery has lain in store ever since.

COMMODORE SICARD, Chief of the Naval Bureau of Ordnance, is in New York on business for the Navy Department.

THE Japan *Daily Mail* announces the death of Capt. Davies, of H. M. S. *Constance* on May 28, from a stroke of paralysis at Yokohama. His funeral on the 29th was attended by parties from the *Leander* and the *Constance* and a band from the United States steamer *Brooklyn*.

THE following officers registered at the Navy Department this week: Rear Admiral S. B. Luce, Capt. Edward E. Potter, Capt. F. M. Ramsay, Asst. Engr. J. R. Wilmer, Lieut. E. P. Wood, Lieut. John Hubbard, Commander H. B. Robeson, P. A. Paymaster John Corwine and P. A. Surgeon W. G. G. Willson.

RECENT DEATHS.

CAPTAIN ANDREW W. JOHNSTON, U. S. Navy, retired, died June 14, at the Metropolitan Hotel, Washington, D. C., where he had resided for several years past. He was a native of the District of Columbia, entered the Navy in 1841, served with much credit and efficiency during the war, and attained the grade of Captain April 5, 1874. He was retired at his request Feb. 11, 1884. The funeral took place on Thursday and was largely attended by old friends and comrades of the deceased officer.

REV. GRANVILLE MOODY, D. D., a clergyman of the Methodist Church, was so seriously injured by being thrown from a carriage on his way to preach the memorial sermon before Geo. H. Thomas's Post No. 23, G. A. R., of Iowa, May 29, that he died the third day after. "General Moody," as he was called, because of his war service, was the father of Mrs. Fyffe, the wife of Capt. Joseph Fyffe, U. S. N. He served as colonel of the 74th Ohio Regt. from Dec. 10, 1861, till May 16, 1863. He was struck four times with balls and painfully wounded, and had a horse killed under him at the battle of Stone River. The injuries sustained in this battle compelled his resignation, but he was brevetted brigadier general March 13, 1865. He was the warm personal friend of President Lincoln, and it was to him that Lincoln gave his pledge to issue the Emancipation Proclamation some days before it was acted upon by his cabinet, regardless of any possible opposition from that body. The final funeral services were held from the Methodist Church of Mt. Vernon, Ohio, whose pulpit Dr. Moody had several times filled with great ability. Two posts of the G. A. R. were present as organizations, and served as pall bearers and guard of honor.

In an obituary notice of the deceased, Rev. J. H. Lozier says: "Almost a giant in stature and strength, he was altogether a giant in mental strength and oratorical ability. In the great forensic contests that marked the anti-slavery struggle in the General Conference of the Methodist Church, Granville Moody was the peer of any man of his time. He was nothing less in any other field where eloquence, enthusiasm, personal magnetism and unfluching loyalty to God and Right were elements of power and success."

All of the loving children of Dr. Moody were present at his funeral, though not at his bedside. The eldest daughter, Clifford, wife of Capt. Fyffe, was intercepted at Mt. Vernon with the tidings that she need proceed no farther, as she would not see her father alive.

MRS. LUDLOW, wife of Col. W. H. Ludlow, a distinguished volunteer officer during the War and mother of Major Wm. Ludlow, Corps of Engineers, U. S. A., and of Commander Nicoll Ludlow, U. S. Navy, died at Oakdale, Long Island, June 8. The death of this estimable lady has caused sincere sorrow among a large number of relatives and friends of the family.

GENERAL BARON UNGER STERNBERG, of the Russian Army, one of the heroes of the Crimean War, died recently. He took a prominent part in the siege of Kars, and for his services on that occasion was decorated with the order of St. George, and also received a gold sword of honor.

GENERAL C. F. WALCOTT, a distinguished General Officer of Volunteers during the War, died, June 11, at Gooseberry Island, Salem Harbor, Mass. With his son and two others on Saturday afternoon he rowed down to the island, and it is thought he ruptured a blood vessel.

MRS. HARRIETT E. GREGORY, widow of the Rev. Oscar H. Gregory, D. D., and mother of Major Jas. F. Gregory, Corps of Engineers, U. S. A., died at West Troy, N. Y., June 11, in the 73d year of her age.

SERGEANT PHILLIP MCINNISS, U. S. M. C., orderly to the commandant of the Norfolk Navy-yard, died at the Naval Hospital June 11, and was buried with military honors June 12.

MRS. JANE W. FOOTE, who died at Cincinnati, June 9, of paralysis, was the mother of Mrs. Glenn, wife of Major George E. Glenn, Paymaster, U. S. Army.

LEWIS ALLEN, a veteran of the War of 1812, died at Walpole, N. H., June 9, aged 91.

A NAVAL MONUMENT.

THE monument to be erected at Newport, R. I., to the memory of the four of the *Saratoga*, who were drowned off Trinidad last winter, is now under way. The inscription on the face of the die will be as follows:

To the memory of those lost by the swamping of the fourth cutter of the U. S. training-ship *Saratoga*, off La Brea, Trinidad, W. I., Feb. 24, 1887. Erected by their shipmates.

On the four faces of the second base will be cut the names of the four men whose death the monument commemorates. On the front will be:

Albert T. Cowie, Paymaster's Clerk, U. S. Navy, Born June 9, 1859.

On the right face is:

James Oates, Jr., Apothecary, U. S. Navy.

On the left side is:

Hugo H. Hesse, Armorer, U. S. Navy.

And on the rear face is:

William Foster, Coxswain, U. S. Navy.

THE NAVAL ACADEMY.

THE Board of Visitors who have just completed their annual inspection of the Naval Academy, are unusually prompt in presenting their report, which is perhaps to be ascribed to the fact that they had at their head a naval officer, Commodore D. B. Harmony, Chief of the Bureau of Yards and Docks.

The Board is of opinion that it would be advisable to give the Academic Board the same power to pass upon the physical as upon the intellectual examination of applicants for admission to the Academy, and to have cadets regularly mustered into the service of the Government, and made subject to the articles of war. They see no ground to criticize the course of study pursued by the cadets. The professors and instructors show great zeal and interest in their work, and vie with each other in their efforts to develop the work in the several departments, so as to make the Academy as efficient as possible. The Board thinks the present course in the Academy for the first three years is well adapted to lay broadly the foundation for a subsequent technical education in any and all the branches of our naval service. This three years' co-education of our future naval officers of all branches of the Service is well adapted also to promote that esprit du corps which should unite all who are in our naval service. They recommend, however, that the studies of the fourth year be arranged by the Academic Board in groups—that one of these shall have especial reference to the training required for service in the line, and others to the training required for service as naval engineers, naval constructors and other like officers; that near the end of the third year every cadet shall be called upon to indicate which of the prescribed courses of the fourth year he desires to follow, and that, with the approval of the Academic Board, he shall be allowed to exercise his choice. The Board also concurs in the recommendation made by the Academic Board and by the last Board of Visitors, that cadets should graduate at the end of their four years' course in the Academy and be then either commissioned into the Navy or discharged and permitted to begin life for themselves.

We quote elsewhere a portion of what the Board say on the subject of grounds, buildings and sanitary conditions. Of the new cadet quarters they say further:

The basement floor is of rough brick, unevenly laid. It should be covered with a heavy coating of cement. The room used for carving at meals is a mere passageway, used in entering and going out of the building and also for access to a water-closet near by. Cleanliness demands that a change should be made. There are three stairways leading from each story to the ground, by which the building can be easily emptied within three minutes should a fire break out. In addition to these facilities other means should be provided, by which, if stairways were destroyed, the inmates could escape easily, speedily and without difficulty. The black boards used by the cadets are of wood, illy (ill ?)-jointed, for which slate should be substituted. The building is badly arranged for cooking purposes; the smell from the cook room, the Board is informed, sometimes penetrates all of the rooms from top to bottom. With the correction of these defects, which may be made at a comparatively small cost, the Board is of the opinion that the building may be made entirely suitable for its present purposes, and thus the necessary of erecting new quarters be, for the present, obviated.

Although the Board reached this conclusion, in regard to the advisibility of repairing the "new quarters," it is to be noticed that further accommodations are urgently needed for quarters, for mess hall, and for recitation rooms. Parts of the "new quarters" are used for each of these three purposes. The recitation rooms in that building and elsewhere, are quite unfit for the use of the cadets and need to be replaced by modern buildings and apparatus. A group of buildings should be constructed on a plan so as to utilize the present buildings in the most economical manner and to provide for the separation of quarters, mess hall and recitation rooms. It is suggested that a plan of this sort should be made after examination of the halls recently constructed for such purposes in the leading colleges.

The Board accordingly recommends that the buildings, and the unoccupied hospital connected therewith, be properly repaired and used as quarters for such officers and instructors of the Academy as are not provided with rooms within the Academy walls. They recommend the purchase of a small tract, consisting of about five acres, fronting on the river and bounded on three sides by the Academy grounds.

The Board is of opinion that an entire building should be allotted to the commissary and general storekeeper, and the paymaster's office located in a suitable and better building.

The Board has found the grounds and buildings otherwise in good order, and take pleasure in expressing the opinion that such condition is to be attributed to the energy, attention and supervision of the Superintendent of the Academy and of the superintendent of the buildings and grounds.

The careful practical instruction given in seamanship, ordnance and navigation, the zeal and efficiency of the heads of Departments and their assistants, were remarked with great satisfaction. Skill in tactics under steam was demonstrated in the manœuvres of 12 steam cutters, and showed a high degree of excellence and precision. The steamer *Wyoming* was gotten under way by the cadets, and the exercises under sail were executed by them entirely, in such a manner as to convince the Board of the thoroughness of the instruction in seamanship.

It is to be regretted that there is not stationed at this Academy a suitable vessel of modern type, complete in all her appointments, to supersede the *Wyoming*, a relic of past times and obsolete methods.

The great gun exercises, firing at target, drill of the battalion, and the various exercises in fencing and small arms were very satisfactory, and reflect great credit on the Department of Ordnance and Gunnery. The disadvantage under which this department labors, in not having at its command the means of showing the cadets the latest improvements in all branches of ordnance, is noteworthy, and suitable provision should be made at once for furnishing new guns and the latest system of small arms to the Academy, in order that its graduates may be prepared to teach their uses on board ships which will be supplied with them.

Navigation, both theoretical and practical, is so thoroughly taught that it leaves nothing to be desired in this Department. Under the administration of the present Superintendent of the Naval Academy, and his predecessor, the discipline has reached a very high standard. The conduct records exhibit a marked absence of serious offences; those noted are chiefly of a trivial character. The Board is gratified to state that the inhuman and cowardly practice of "hazing" is almost obsolete.

The tactical drills in infantry and artillery show very careful training, and are creditable alike to officers and cadets.

The Superintendent and his assistants are to be congratulated upon the success of their efficient methods and careful supervision.

The instruction in steam, mathematics, physics and mechanics appears to the Board to be very thorough, and as comprehensive as the present circumstances of the Academy will permit.

Although they are now hampered by want of time, the proficiency attained by the classes is noticeable and gratifying.

A post graduate course here, embracing the higher requisites of modern naval architecture, and of applied mechanics, is particularly desirable, and is strongly recommended.

As to English studies, modern languages and drawing, the Board is of the opinion that the amount and character of the work performed cannot be improved upon or increased, under existing circumstances, and, therefore, has no recommendation to make.

STEEL FOR THE NAVY.

THE Baltimore *Sun* says: "The steel manufacturers now engaged in the preparation of plates for the new naval cruisers are turning out a much better grade of metal than they did when they first began to supply the orders from the contractors. The presence of naval steel inspectors and their wholesale rejections of the metals prepared for the ships seem to have had a good effect on the manufacturers. The proportion of rejected ingots is now exceedingly small, and the accepted metal amounts in weight to 2,500,000 tons. Mr. Cramp says he has no further cause to complain of the rapidity with which the plates for the *Baltimore* and the gunboat are furnished. He has the keel of the gunboat laid, and not only is the keel of the *Baltimore* finished, but much of her frame work is in position. Pictures of the embryo vessels are now on exhibition in the rooms of the steel board, and they show that satisfactory progress has been made. The work on these vessels is not likely soon again to be delayed for want of materials. At the Cramp shipyards there is a large supply of metal now to continue the work with for many months to come."

WASHINGTON AS A HORSEMAN.

(Frank G. Carpenter in the "Magazine of American History.")

OLD citizens of Alexandria say that Washington rode the finest horses in Virginia, and that as a boy he broke to the saddle the colts of his neighborhood. It is said that he once rode ten different horses into Alexandria in a single week, and during his latter years his stables at Mount Vernon were among the best in the country. He visited his horses upon rising in the morning, and always saw that they had their breakfast before he took his own. He kept thoroughbred horses, and his establishment at Mount Vernon was much like that of a great English lord. He had his pack of hounds, and before the Revolution he was very fond of fox-hunting. He followed the hounds everywhere, and was always in at the death. He had a regular hunting costume, and his favorite hunter was a fiery, long-limbed horse which he called "Blueskin," probably from its color, a fine, dark iron-gray. His hunting costume was a blue coat, a scarlet waistcoat, buckskin breeches and top boots. He wore a velvet cap, and carried a whip with a long thong. He ridiculed the idea that he could be thrown, and he was wont to say that he required only one good quality in a horse, namely, "it must go along." It was his custom, at Mount Vernon, prior to the Revolution, to hunt three times a week, and the game chased was made up of gray foxes and stags. His last hunt was in 1785, when he killed a stag weighing 140 pounds.

George Washington was very kind to his horses, and displayed a great deal of sentiment in connection with his treatment of some of them. The horse he rode when he received the sword of Cornwallis, on Oct. 19, 1781, was a fine chestnut charger with white face and legs. Washington took him to Mount Vernon after the war, but never allowed him to do a stroke of work. He was well stabled and cared for, and died many years later.

At Philadelphia, while Washington was President, the Executive stables were in the charge of a man called "German John," and at another time of Bishop, the old body-servant of Gen Braddock. These chief hostlers had a number of negro boys under them, and George Washington Parke Curtis says that Washington's horses were of the kind known as "muslin horses." This name came from the testing of the cleanliness of the horses with a fine handkerchief. This was brushed over their coats after they were dressed, and if the slightest spot of dirt came off upon the handkerchief, they were not considered well curried, and the stable-boys were tied up and whipped for their negligence. The President drove a team of white charges, "and the grooming of these," says Washington's adopted son, Custis, "will rather surprise the moderns. The night before the horses were expected to be ridden they were entirely covered over with a paste of which whiting was the principal component part. Then the animals were swathed in body-clothes, and left to sleep upon clean straw. In the morning the composition had become hard. It was well rubbed in, and the horses were curried and brushed. This process gave to their coats a beautiful, glossy, and satin-like appearance. The hoofs were now blacked and polished, the mouths washed, the teeth picked and cleaned, and the leopard-skin housings being properly adjusted, the white chargers were led out for service. Such was the grooming of ancient times."

WHEN the advertisements were originally published inviting proposals for building the cruiser *Newark*, the plans provided for compound engines of 8,590 horse power. Since the second advertisement the Department has seen fit to modify the original designs and the Bureau of Steam Engineering has just completed plans for the latest type of triple expansion or three-cylindered engines for the vessel.

THE ALUMNI AT WEST POINT.

WEST POINT, N. Y., June 15, 1887.

THURSDAY last was Alumni day; most of the interest centered in the old graduates, who come here once a year to renew the friendships of youth and talk over the happy days of long ago. Two members of the class of 1823, Major Mordecai and Gen. Alexander, had not met from the day of their graduation till last Wednesday. At 3 o'clock the business meeting took place in the chapel. Prayer had to be dispensed with, for the chaplain was at a meeting of the Academic Board. General Trimble was the senior graduate present, but declined to preside in favor of Major Mordecai.

The following was offered by Prof. Geo. W. Rains, class of 1842:

Whereas, In the occupations of civil life it may become desirable for an éleve of West Point to have that fact known,

Resolved, That in the opinion of this meeting it is right and proper that each graduate of the United States Military Academy should attach to his name whenever he may find it expedient the initials representing the fact of such graduation, *i. e.*, U. S. M. A. G.

The letters were to mean United States Military Academy Graduate. General Sherman and a few others vigorously opposed the motion; after a somewhat animated debate, the subject was left to a committee of five to report next year. To many the idea appeared in a funny light. They imagined a distinguished graduate, Jones, for instance, who had climbed the ladder of civil honors, having a card on which was printed:

Prof. Jones, D. D.; Ph. D.; LL. D.; U. S. M. A. G.; B. A., etc.

General Burns offered a resolution that the Association adopt a button similar to that of the Legion of Honor of Napoleon. This proposition was, after much debate, left to a committee of three to report at the next meeting.

A resolution was passed (proposed by General McCalmont) that a memorial hall should be erected at West Point. A copy of this was sent to the Board of Visitors, which will probably result in some recommendation in the next report of the Board.

Near the close of the meeting the following telegram was received:

ANNAPOLIS, MD., June 9, 1887.

Lieut. Charles Braden:

The Naval Academy Graduates' Association, at its second annual reunion, sends cordial greetings to Association of Graduates, Military Academy.

CHARLES BELKNAP, Secretary.

To this the following reply was sent:

The Association of Graduates of the Military Academy, at its 18th annual reunion, reciprocates the cordial greeting and kind feeling expressed in the telegram just received.

CHARLES BRADEN, Secretary Association.

The report of the Treasurer showed a balance of nearly $1,200 on hand. A slight amendment was made in the Constitution so that the Secretary of the Association could be selected from officers residing at *or near* West Point (the words in italics being inserted).

The presiding officer appointed the following Executive Committee for the ensuing year: Gen. Cullum, Gen. Parke, Col. Hasbrouck, Prof. Michie, and Capt. Metcalfe. Lieut. Braden was appointed Secretary and Lieut. Darr Treasurer.

In the evening about 80 graduates and invited guests assembled in Grant Hall to partake of the annual dinner. There was but one toast. Before offering it, Major Mordecai read an extract from a letter sent by Gen. E. G. W. Butler, class of 1820, the oldest living graduate:

ST. LOUIS, MISSOURI, June 3, 1887.

To Lieut. Charles Braden, Secry. Assn. of Graduates:

DEAR SIR: As the time approaches for your reunion, and I am deprived by age and infirmity of the honor and pleasure of presiding at your meeting, I send you a toast, which I pray you to present to your honored colleagues, with assurances of my profound regard and abiding good wishes.

Very kindly your and their friend, E. G. W. BUTLER.

The toast was:

The Military Academy—The grandest institution in our country and the *Alma Mater* of its ablest soldiers and of some of its most distinguished statesmen; the defenders of its free institutions and the protector of law and order.

As Prof. Kendrick rose to reply he was most enthusiastically received. The Professor spoke in his usual happy style. Gen. Sherman was next called upon and entertained all with a very apropos speech. Gen. Horace Porter kept those present in an almost continuous roar of laughter. He gracefully alluded to the presence of Mr. Childs, of the Board of Visitors, by saying that they were neighbors at the seaside and had eaten so many clams together that their bodies rose and fell with the tide. Remarks were also made by Mr. Butterworth, Senators Cockrell and Dolph, Mr. Bates, Profs. Andrews and Michie, Generals Baldy Smith, McCalmont and Van Vliet, and Col. Bacon. The songs were by Gen. Van Vliet and Lieut. Totten.

In addition to officers stationed here and those mentioned last week, there were present during the day or evening, Porter of '60; Edgerton, Phelps, McDonald of '70; Grant of '71; Pitcher of '76; Hegewald of '77; McNeill and Elliot of '78; Hammond of '81; Hasbrouck and Edwards of '83, and Conklin of '84.

The alumni hotel in barracks was well patronized, every bed being in use.

Up to Thursday evening 156 candidates reported, of whom twelve were rejected by the medical board and eight conditioned for various periods. The examination began Friday, and the result will be known about Tuesday or Wednesday next.

The farewell ball of '87 was all that could be desired in pleasure, beauty, and costumes. Mrs. Merritt accompanied by Gen. Sheridan, Mr. and Mrs. Childs, received the guests, and in turn presented them to the members of the Board of Visitors, who were grouped around. Grant Hall is in itself now so handsome that further decoration would be needless, and, moreover, the ladies' dresses, which were never before so beautiful, made the hall dazzling. An attempt was made to note the especially costly and elegant dresses, but was finally given up—they were too many and bewildering. The ladies of the receiving party were in magnificent combinations of lace plush and silk.

Those of the brilliant assemblage observed on the floor were the Misses Shunk, in white silk and tulle with decorations of flowers; Miss Hoadley, Mrs. Winthrop's guest, in white lace with bodice of old green plush; Miss Butterworth in a rich scarlet tulle, very becoming to her brunette style of beauty; the Misses Wheeler, of the Board, in blue and white; Miss Courtenay, in white lace; Miss Moss, in pale green tulle; Miss Twichell in white and pink; Miss Brace in white crepe; Miss Schofield in white silk and lace; Miss Bonesteel in white lace; Miss Lucia Edwards in a blending of ivory silk with plush bodice; Miss Smith, of St. Albans, Vermont, in white silk with ruby plush decoration; Miss Gordon, of Georgia, in black jetter tulle with a blenching of old green satin; Miss Cameron in white silk; Miss Flagler in white silk and crepe; Miss Roebling in white lace; Miss Etting, of Phila., niece of Major Mordecai, in white silk and tulle; Miss Smith, a daughter of Dr. Jos. Smith, of the Army, in black lace; Miss Bouvier in white silk, and many others, whose too rapid flitting by in the dance only gave the observer time to note what a beautiful dress. These handsome and gallant warriors though shut up for four long years away from the gay society world, are not unmindful of its graceful observances, as shown by the belles that graced this farewell fete—some carrying three or four bouquets of Jacqueminots, La France and Mermets. An elaborate supper was served throughout the evening, and at 30 minutes past 12 o'clock the Graduating Ball of 1887 was over and, for the first time on record, this ball was given by the Corps of Cadets, instead of from the 2d to the 1st Class.

On Thursday morning the spar bridge drill took place. The ponton drill was ordered for the afternoon of the same day, but a shower prevented, and it was postponed till Friday morning. Although we had dreary, rainy weather most of the time, the only exercise not carried out as laid down on the programme was the ponton drill.

The ride in the hall took place on Friday. The galleries were packed with spectators, and hundreds clamored in vain for admission. Two cadets were thrown; one of them, Mr. Peck, received a bad sprain of the ankle and has since had to walk on crutches.

General Sheridan, accompanied by Inspector-General Baird and Colonel Blunt, arrived Friday afternoon and were received with due honors. General Sheridan reviewed the corps about 6 o'clock. The graduating parade took place immediately after the review, and was, as it usually is, very solemn to the onlookers.

On Saturday morning the graduating exercises took place in front of the library. Dr. Brown, of the Board, delivered a short but eloquent address on character and duty. General Sherman followed with a few remarks that were written, but he soon lost the place and gave the thoughts that came to his mind.

General Sheridan told the graduates how he had received such rapid promotion and then handed the diplomas to the members of the class as they were called in the order of class standing. The colored graduate, Mr. Alexander, received very generous applause. One of the class, Mr. Evans, did not receive his diploma, for he is kept back in consequence of the sentence of a General Court-martial. After the benediction the corps was marched to the front of barracks, when the orders were read announcing the following new officers of the battalion:

Adjt., McKinstry; Q. M., Burr; Sergt. Maj., W. W. Harts; Q. M. Sergt., Harding.

Captains.—Winn, C. L. Foster, Jervey, Preston.

Lieutenants.—March, Hayden, Anderson, Vance, Russ, Harris, Vestal. Suplee, Howze, Grisard, Sample, Wilhelm, Judson, Peirce, McAndrew, Littebrant.

First Sergeants. — Langhorne, Lassiter, Sladen, Flagler.

Sergeants.—Stockham, E. T. Winston, Rhodes, Sydenham, Hagadorn, Willcox, Barroll, D'Armit, J. T. Martin, Blake, Hains, Lee, Kemp, McGregor, Graves, Bryan.

Lance Corporals.—T. W. Winton, Voorhies, Rennard, Rowell, Fox, Jadwin, Swain, Bandholtz, Bennett, S. G. Jodes, Deakyne, J. A. Ryan, Meyer, Moore, Heorn, F. M. Caldwell, Bromwell, Cordray, Ruggles, Keech.

Most of the class left on the afternoon boat. All of the furlough class, except those cut on demerit, went away at the same time.

The result of the examination of all the classes was made known on Monday. Two Second Classmen failed in chemistry and may be discharged. Three Third Classmen were unfortunate in mathematics and discharged. Fourteen of the Fourth Class failed, of whom eleven were discharged and three turned back to join the next Fourth Class.

The tents for the summer encampment (Camp William P. Sanders) were pitched on Monday, and the corps took formal possession on Tuesday morning.

Saturday night at the Murray Hill Hotel, in New York, the graduating class ate its last meal together.

MARCHING IN CHANGING STATION.

To the Editor of the Army and Navy Journal:

I THINK that a large number of officers will cordially support the suggestions of "Walker" and "One who would have to hoof it," in yours of May 7. Their letters apply to several regiments of infantry, say, from Nos. 1 to 25, inclusive, and not only to the 6th, 8th and 24th. During these latter years field operations have become very rare and the marching that men used to have is a thing of the past. If an infantryman can't march, of what earthly use is he, and how will he be able to march unless he has some practice? Not only would this "weed out and break down the poor material in the *ranks*," but it would effectively demonstrate what officers should be on the retired list instead of the active—where their sole activity consists of signing morning reports and doing a tour as officer of the day once a week.

WAUKENPHAST.

REVENUE MARINE.

2d Lieut. Samuel Howard to the steamer *Forward* at Mobile.

3d Lieut. D. J. Ainsworth to temporary duty on the *Bibb* at Oswego.

3d Lieut. J. Charles Harris placed on waiting orders.

The contract to furnish boilers for the revenue steamer *Chandler*, at New York, has been awarded to Smith Bros., of New York.

Bids were opened at two o'clock, Friday, in the office of the Chief of the Revenue Marine Division to replate with iron the hull of the *McLane*, at Baltimore, and to repair her machinery. The award will be announced next week.

THE ARMY

G. O. 40, H. Q. A., June 11, 1887.

Announces that the title of the United States to the site of the military post at El Paso, Texas—now known and designated as Fort Bliss—have been rectified and established pursuant to authority contained in an act of Congress approved Dec. 13, 1882 (22 Stats., 397), and announces the corrected boundaries of Fort Bliss Military Reservation, as surveyed in Jan., 1887, under the direction of Capt. J. G. Ballance, U. S. Army.

G. O. 41, H. Q. A., June 13, 1887.

The following orders have been received from the War Department, and are published for the information and government of all concerned:

WAR DEPARTMENT, WASHINGTON, June 11, 1887.

By direction of the President the following orders are made:

Brigadier General Wesley Merritt is relieved from duty as superintendent of the U. S. Military Academy, West Point, New York, to take effect July 1, 1887, and is assigned to the command of the Department of the Missouri. He will, accordingly, proceed to Fort Leavenworth, Kansas, as soon as practicable after the date specified.

Colonel John G. Parke, Corps of Engineers, is appointed superintendent of the U. S. Military Academy, West Point, New York, and will report for duty as such on August 28, 1887. He will be relieved from duty in the office of the Chief of Engineers in time to enable him to comply with this order.

Lieutenant Colonel Henry C. Hasbrouck, major, 4th Artillery, commandant of cadets, will act as superintendent of the Academy from July 1, 1887, until the arrival of Colonel Parke.

WM. C. ENDICOTT, Secretary of War.

The travel enjoined is necessary for the public service.

By command of Lieutenant General Sheridan:

R. C. DRUM, Adjt.-Gen.

G. O. 42, H. Q. A., June 16, 1887.

With the approval of the Secretary of War—

Troop B, 6th Cav., Capt. George S. Anderson, will change station July 1, 1887, from its present post to Fort Myer, Va.

Troop B, 4th Cav., Capt. Henry W. Lawton, as soon after July 1, 1887, as its services can be spared by the commanding general Department of Arizona, will proceed to and take station at Fort Myer, Va.

These troops will take with them their horses and their usual equipments and baggage; the transfer to be made by rail, in the most direct and expeditious manner compatible with due economy.

By order of the Secretary of War:

R. C. DRUM, Adjt.-Gen.

CIRCULAR 5, H. Q. A., June 10, 1887.

The following decisions, rulings, etc., have been made during the month of May, 1887, and are published to the Army for the information of all concerned:

FUEL FOR SALE TO OFFICERS.

Under the decision published in Circular 2, c. s., from this office, that the cheapest fuel should be purchased and supplied by the Quartermaster's Department for sale to officers, it lies within the province of the Quartermaster General to determine, after due consideration of the circumstances attending each case, what fuel should be purchased and supplied for the purpose mentioned at the various military posts.—(Decision Sec. War, letter May 17, 1887.)

FULL PAY TO OFFICER TAKING LEAVE WHILE UNDER ORDERS TO CHANGE STATION.

In case an officer avails himself of leave of absence while under orders to change station, it is held that the leave of absence merely suspends the execution of the order for change of station, and at the expiration of the leave the officer comes under the operation of said order, and, in obeying it, is entitled to full pay for the time necessary to perform the journey from his old station to his new one.—(Decision Sec. War, letter May 27, 1887.)

TRANSPORTATION OF BAGGAGE OF REGIMENTAL QUARTERMASTER SERGEANTS.

Regimental quartermaster sergeants will be allowed transportation on change of station of 500 pounds baggage.—(Decision Sec. War.)

DETAIL OF NON-COMMISSIONED OFFICER AS TRAIN-MASTER.

Under Circular 1, Adjutant General's Office, Feb. 15, 1886, a non-commissioned officer may be detailed on extra duty as train-master (the duties being virtually those of an overseer) and receive extra duty pay; the subsequent G. O. 42, of June 28, 1886, Adjutant General's Office, does not in the least conflict with this. The approval of such detail by the Secretary of War is therefore not required.—(Decision Sec. War.)

DETAIL OF CLERKS OR MESSENGERS AT DIVISION, DEPARTMENT, OR DISTRICT HEADQUARTERS.

No enlisted men shall be "detailed" for duty as clerks or messengers at any division, department, or district headquarters until authority for such detail shall have been obtained from the Secretary of War.—(Decision Sec. War.)

TACTICS.

The seventh tactical decision published in Circular 3, c. s., from this office, is modified as follows:

Company marching in line, quick time, guide left, arms at right shoulder: At the command "Left wheel, march," the guide on the marching flank should not bring his piece to a "carry." The left guide will be already at a "carry." When the guide is temporarily changed during a wheel or an oblique, the temporary guide, if at a right shoulder, etc., does not come to a "carry."—(2645 A. G. O., 1887.)

To re-form the line after advance by right of, wings: At the command "Left front into line," markers should be established for both wings and the guides should come out. The markers established by the field officer of the directing wing give the line of direction for the markers of the other wing.—(2596 A. G. O., 1887.)

Company in line at halt, arms at "carry," command "Right (or left) oblique, double time:" The half face is executed at the command "Right (or left) oblique;" the arms are brought to a "right shoulder" at the command "Double time."—(2699 A. G. O., 1887.)

To form column of platoons to the right or left (par. 255:) The guides on the marching flanks of platoons do not come to a "carry" at the first command.—(2699 A. G. O., 1887.)

On the parade for review of a brigade or battalion, or other body of troops less than a brigade, the commanding officer, when presenting his command to the reviewing officer, will have his sword drawn, and all officers of the command on parade will likewise have their swords drawn. The swords will remain drawn throughout the review, and will not be sheathed until the parade is dismissed. The commanding officer of the troops to remain at attention in front of his command, facing to the front while the reviewing party passes around the lines. For the review of a body of troops greater than a single brigade, it should be left to the general commanding to arrange all details so as to conform to the existing situation.—(Decision Lieut. Gen.—6780, A. G. O., 1886.)

At the review of a brigade each battalion is brought to a

"carry" when the head of the battalion is fifty yards from the "post of review." The point where the battalions of a brigade are brought to a "carry" is indicated by a camp color. At the review of a single battalion the arms are at a "carry" all the time during the march past.—(2594 A. G. O., 1887.)

By command of Lieutenant General Sheridan:

R. C. DRUM, Adjt.-Gen.

WAR DEPARTMENT, A. G. O., June 9, 1887.

Publishes the act of Congress, amending section 1661, Revised Statutes, making an annual appropriation to provide arms and equipments for the militia, and the regulations which have been made by the President and the Secretary of War respecting the distribution of the arms and equipments therein provided for.

G. O. 8, DEPT. OF TEXAS, June 1, 1887.

Light battery, troop and company commanders, in making requisitions for company marking stamps or guidons, will set forth the reasons which call for the requisitions.

Should any part, or parts, of the marking stamps, recently furnished, have become lost or broken, requisitions will be made for such parts only, and not for complete stamps.

G. O. 14, DEPT. OF ARIZONA, June 2, 1887.

The following changes are made in the target practice season of troops:

Troop G, 10th Cavalry, month of September, instead of April, on account of field service and change of station during the latter month.

Troop B, 10th Cavalry, months of August, September and October, on account of field service.

G. O. 10, DEPT. OF TEXAS, June 8, 1887.

Specifies the amounts for the pay of extra duty men at posts, for the next fiscal year.

G. O. 9, DEPT. OF TEXAS, June 8, 1887.

Announces number and pay of employees for the fiscal year 1887-1888, until further orders.

G. O. 7, DEPT. OF CALIFORNIA, June 7, 1887.

Directs that Par. 1, G. O. 14, series of 1882, from these Headquarters, relative to the bread ration, be revoked.

G. O. 6, DEPT. OF THE MISSOURI, June 11, 1887.

No work of any kind, no matter how important it may be, and no absence from stations shall be allowed to prevent the regular and complete instruction of the troops in the Department in the use of the rifle, or to prevent their having that amount of practice which is requisite to make their fire effective.

G. O. 2, DIV. OF THE MISSOURI, June 8, 1887.

The contest for places on the Division Rifle Team will take place this year at Bellevue, Sarpy County, Neb., beginning on Sep. 6, and will be conducted by 1st Lieut. Philip Reade, 3d Infantry, the Division Inspector of Rifle Practice, who will report to the Commanding General, Dept. of the Platte, by Aug. 25.

Department Commanders will cause their prescribed rifle competitions to be finished by the 25th of August next. Upon the arrival of each team at the Bellevue Rifle Range, the officer in charge will report to the Commanding General, Dept. of the Platte, at Omaha, Neb.

By command of Major General Terry:

ROBERT WILLIAMS, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

Adjutant and Inspector Generals.

Major Wm. J. Volkmar, A. A. G., will take charge of the office of the acting inspector general until further orders (G. O. 12, June 1, D. Columbia).

The Inspector General of the Department will proceed on inspection service to Faribault, Minn.; returning to these headquarters upon the completion of the duty (S. O. 56, June 11, D. Dakota).

Quartermasters and Subsistence Departments.

Leave for one month, to take effect June 7, is granted Major A. J. McGonnigle, Q. M., San Antonio. Capt. John Simpson, A. Q. M., will take charge of the office of the Chief Quartermaster during his absence (S. O. 66, June 3, D. Texas).

Leave for ten days is granted Capt. C. R. Barnett, A. Q. M., Portland, Ore. (S. O. 82, May 31, D. Columbia.)

Pay Department.

Leave for five days is granted Major T. H. Stanton, Paymr., Salt Lake City (S. O. 55, June 6, D. Platte).

Leave for three days, to commence on or about June 16, is granted Major George W. Baird, Paymr., Boston (S. O. 119, June 11, Div. Atlantic).

Medical Department.

Leave for one month, on account of sickness, is granted Major Blencowe E. Fryer, surgeon, and to apply for an extension (S. O. 29, June 2, D. Pacific.)

Asst. Surg. W. B. Banister is authorized to purchase a public horse (S. O. 60, June 4, D. Ariz.)

Col. Jedediah H. Baxter, chief med. purveyor, will proceed to New York City for the purpose of inspecting the med. purveying depot (S. O., June 10, H. Q. A.)

So much of S. O. 52, March 5, as relates to Major Charles H. Allen, surgeon, is amended to direct that he be relieved from duty in the Dept. of Dakota about June 20, and he is granted leave from the date when so relieved to include Aug. 27 (S. O., June 10, H. Q. A.)

The leave granted Capt. John D. Hall, asst. surg., is extended one month (S. O., June 14, H. Q. A.)

Hospl. Steward J. W. Barney will proceed to Fort Grant, A. T., and report for duty (S. O. 61, June 6 H. Q. A.)

Hospl. Steward Felix Fettig, after a service dating from Feb. 16, 1857, was retired from active service June 9.

Engineers and Ordnance Departments.

Major Lewis C. Overman, C. E., is appointed to act as inspector in certain camp and garrison equipage and recruiting property at the recruiting rendezvous, Cleveland, Ohio, reported as requiring the action of an inspector, and for which Capt. Charles A. Vernou, 19th Inf., recruiting officer, is responsible (S. O., June 16, H. Q. A.)

A furlough for two months is granted Ord. Sergt. John Fitzgerald (S. O. 59, June 2, D. Ariz.)

Major George W. McKee, O. D., is constituted a board of survey to fix the responsibility for loss of ord. and ord. stores at Allegheny College, Meadville, Pa., for which David H. Wheeler, president of the college, is accountable (S. O., June 13, H. Q. A.)

Chaplains.

Leave for three months is granted Post Chaplain Sherman M. Merrill (S. O., June 9, H. Q. A.)

Signal Corps.

Leave for two months, from July 4, is granted 2d Lieut. Benjamin M. Purssell, Signal Corps (S. O., June 11, H. Q. A.)

Brig. Gen. Adolphus W. Greely, Chief Signal Officer, will proceed to New York City, to make arrangements regarding circuits and other telegraphic business connected with the Signal service (S. O., June 14, H. Q. A.)

So much of par. 9, S. O. 130, from this office, as directs 2d Lieut. Wm. D. Wright, Signal Corps, to proceed from Washington to Wood's Holl, Mass., is so amended as to direct that he proceed via Block Island, R. I., at which point he will examine the condition of the cable (S. O., June 14, H. Q. A.)

THE LINE.

Changes of Stations of Troops and Field Officers

Ordered, as reported to the Adjutant-General's Office during the week ending June 11, 1887:

TROOPS.

Troop A, 1st Cav., to Fort Custer, Montana.
Troop D, 1st Cav., to Fort Maginnis, Montana.

FIELD OFFICERS.

Lieut.-Col. G. G. Huntt, 10th Cav., to Fort Apache, Arizona.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., A, B, E, G, and K, Ft. Custer, Mont.; D, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; C, F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

Troop D will be relieved from duty at Fort Custer, M. T., and proceed, for station, to Fort Maginnis, M. T. On the arrival of the troop at the latter post, Troop A will proceed for station to Fort Custer (S. O. 53, June 4, D. Dak.)

The C. O. Fort Custer, M. T., will grant a furlough for two months to Sergt. William Smith, Troop D (S. O. 54, June 6, D. Dak.)

Capt. Frazier A. Boutelle, Fort Custer, M. T., is detailed as inspector of Indian supplies at the Crow Agency, M. T., vice Capt. James A. Snyder, 3d Inf., relieved (S. O. 56, June 11, D. Dak.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Sherman, Idaho.

1st Lieut. E. J. McClernand, A. D. C., will inspect one public horse at Vancouver Barracks, for which Capt. William S. Patten, A. Q. M., is accountable (S. O. 82, May 31, D. Columbia.)

Leave for two months, on account of sickness, is granted Capt. Thomas J. Gregg (S. O. 27, May 26, Div. P.)

The Walla Walla *Journal* says it is established beyond a doubt that Corpl. Eberhard Wiederhold, of Troop F, who, on the night of April 10, attempted suicide by poison, is a German baron in his own right, and the possessor of a large income, said to be $900 monthly.

3rd Cavalry, Colonel Albert G. Brackett,

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

A Board of Medical Officers will convene at Alcatraz Island, Cal., June 7, to examine and report upon the mental condition of Capt. James F. Simpson, 3d Cav. Detail: Major Henry R. Tilton, Surg., and Capts. John J. Cochran and Robert J. Gibson, Asst. Surgs. (S. O. 30, June 6, Div. P.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., B, D, F, H, and K, Ft. Huachuca, Ariz.; A, E, and L, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; M, Ft. McDowell, Ariz.

Capt. J. H. Dorst is detailed member of the Board to inspect cavalry horses, and will proceed to Foster's Ranch, Cal. (S. O. 60, June 4, D. Ariz.)

Lieut. F. W. Harris is authorized to purchase a public horse (S. O. 60, June 4, D. Ariz.)

Leave for two months, to take effect when his services can be spared by his Department Commander, is granted 1st Lieut. Fred. Wheeler, with permission to apply for an extension of two months (S. O. 27, May 26, Div. P.)

5th Cavalry, Colonel James F. Wade.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Major Louis H. Carpenter will proceed after July 1 to Fort Myer, Va., and take command of that post (S. O., June 15, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

1st Lieut. C. B. Gatewood, A. D. C., will proceed to Fort Grant and San Carlos, A. T., on public business (S. O. 60, June 4, D. Ariz.)

The leave granted 2d Lieut. Lewis M. Koehler is extended one month (S. O., June 11, H. Q. A.)

A furlough for four months is granted Sergt. C. H. Earl, Troop A (S. O. 61, June 6, D. Ariz.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs., B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

The leave for seven days granted 1st Lieut. Ezra B. Fuller is extended three days (S. O. 56, June 11, D. Dak.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Leave for one month is granted 1st Lieut. J. A. Johnston, San Antonio (S. O. 65, May 31, D. Tex.)

Leave for two months, to take effect about Aug. 1, is granted 1st Lieut. Henry F. Kendall, Fort Clark, Tex. (S. O. 69, June 13, Div. M.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; D and H, Ft. McKinney, Wyo.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T. D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

Capt. T. C. Lebo is relieved as a member of the Board of Officers appointed to meet at Fort Grant, by S. O. 49, and 1st Lieut. L. P. Hunt detailed as a member of the Board (S. O. 62, June 8, D. Ariz.)

1st Sergt. Saint Foster, Sergt. Joel Lee, Trumpeter Z. Mosley, and Pvt. A. I. Jones, Troop M, have qualified as sharpshooters.

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

The leave granted Capt. Frank C. Grugan, Fort Barrancas, Fla., is extended three days (S. O. 120, June 13, Div. A.)

The C. O. St. Francis Barracks, Fla., is authorized to issue a furlough for four months, with permission to go beyond sea, to Sergt. Bartholomew Rielender, Bat. L (S. O. 118, June 10, Div. A.)

1st Sergt. John Davis, C, has qualified as sharpshooter.

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

Leave for two months, from July 1, is granted 1st Lieut. Wilbur Loveridge (S. O., June 11, H. Q. A.)

At his own request 1st Lieut. Edward Davis is transferred from Battery K to H, vice 1st Lieut. Wm. E. Birkhimer, who is transferred from Battery H to K (S. O., June 15, H. Q. A.)

1st Lieut. Sedgwick Pratt, Pvt. F. W. Furnald, Sergts. E. Goodman and C. R. Bryant, Corpl. C. May, Pvt. J. E. Hubbard, Bat. A; 1st Sergt. M. Hays, Sergts. G. Demin and C. W. Lockwood, Corpl. E. E. Wietzel, and Pvts. A. Hoppl and W. Sanford, Bat. E; 1st Sergt. Anton Guba, Sergts. J. Taylor and H. Guerry, and Corpls. J. A. Boyce and P. Brophy, Bat. H; Capt. Lewis Smith, 1st Sergt. W. Graham, Sergts. F. T. Murphy and M. Brown, Corpls. W. J. Murphy, S. G. Oliver, and L. Steen, Mus. A. P. Funck, Pvts. A. E. Hardin, P. O'Donnell, J. Sliney, and J. Thompson, Bat. K; 1st Sergt. J. Jennings, Corpls. F. Williams and D. W. Byer, Mus. G. Friedmann and S. D. Gibson, and Pvt. B. Vitou have qualified as sharpshooters.

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

5th Artillery, Colonel John Hamilton.

Hdqrs., E, F,* I, and H, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; K and M, Ft. Schuyler, N. Y.
* Light battery.

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal. B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

The leave granted 2d Lieut. Samson L. Faison is extended two months (S. O., June 11, H. Q. A.)

Leave for two months, to take effect on or about June 25, is granted Capt. Daniel F. Callinan, with permission to apply for an extension of two months (S. O. 27, May 26, Div. P.)

For the purpose of military instruction, the Headquarters, Field, Staff and Band, and Cos. A, C, D, E, F, G, I and K, will on July 6, proceed to Santa Cruz, Cal., by marching, and there encamp until the latter part of August, when they will return to their stations. Tentage and other camp and garrison equipage will be drawn and issued by the regimental quartermaster. The equipment of the men will be prescribed by the regimental commander. The companies will be rationed to include July 5 only, after which they will be rationed by the A. C. S. with the regiment. Major Robert H. White, surgeon, will report on July 5, for duty as medical officer during the march and while in camp. Detachments will be sent to Benicia Bks. and to Angel Island, Cal., to remain at those posts during the absence of their respective garrisons (S. O. 37, June 7, D. Cal.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., A, B, C, D, E, F, G, H, I, and K, Ft. Omaha, Neb.

The extension of leave on surgeon's certificate granted 1st Lieut. Wm. R. Abercrombie is further extended one month on surgeon's certificate (S. O., June 15, H. Q. A.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

Leave for twenty days is granted Capt. Henry Romeyn, Fort Keogh, M. T., to take effect about July 1 (S. O. 55, June 8, D. Dak.)

The Supt. Rec. Service will cause 38 recruits to be forwarded under proper charge to Fort Snelling, Minn., for assignment to the 5th Inf. (S. O., June 14, H. Q. A.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

Corpl. Otto Kueifphert, Co. B, has been promoted sergeant.

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C and I, Ft. Robinson, Neb.; D and K, Ft. Bridger, Wyo.

The leave for seven days granted Capt. D. T. Wells, Fort Niobrara, Neb., is extended twenty days (S. O. 56, June 8, D. Platte.)

The leave for one month granted 2d Lieut. Samuel E. Smiley is extended one month (S. O. 70, June 15, Div. M.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., A, B, C, E, F, H, and I, Ft. Union, N. M.: A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

Leave for one month is granted 2d Lieut. W. C. Wren (S. O. 58, May 31, D. Ariz.)

Mus. J. Flynn and Pvt. P. Dougherty have qualified as sharpshooters.

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., B, D, F, G, and I, Madison Bks., N. Y.; C, Plattsburgh Bks., N. Y.; E and K, Ft. Niagara, N. Y.; H, Ft. Ontario, N. Y.; A, Ft. Wood, Bedlow's Island, N. Y. H.

Leave for ten days, to commence on or about June 20, is granted Capt. George S. Wilson, Bedlow's Island, N. Y. H. (S. O. 121, June 16, Div. A.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

The C. O. Vancouver Barracks will grant a furlough for one month to Sergt. John Allen, Co. G (S. O. 83, June 1, D. Columbia.)

1st Sergt. E. A. Hudson, Co. H, has qualified as a sharpshooter.

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Leave for one month is granted Capt. John W. Bean, Fort Randall, D. T., to take effect about July 7 (S. O. 55, June 8, D. Dak.)

Capt. Chambers McKibbin is, at his own request, relieved from recruiting duty at Harrisburg, Pa., to take effect upon the expiration of his sick leave of absence, and will then proceed to join his company (S. O., June 16, H. Q. A.)

A furlough for six months, with permission to go beyond the sea, is granted Sergt. Bryan Higgins, Co. F (S. O. 68, June 10, Div. M.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

2d Lieut. B. B. Buck will report for temporary duty at Fort McIntosh (S. O. 65, May 31, D. Tex.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

1st Lieut. J. D. Nickerson is relieved as a member of the G. C.-M. at Fort D. A. Russell, Wyo., and 1st Lieut. James Brennan is detailed a member in his stead (S. O. 55, June 6, D. Platte.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

Leave for three months, to take effect upon the expiration of the leave on Surgeon's certificate, is granted 2d Lieut. David C. Shanks (S. O., June 9, H. Q. A.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, F, G, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; E, Ft. Ringgold, Tex.; I, Ft. Brown, Tex.

1st Lieut. E. B. Ives is appointed recruiting officer at Fort McIntosh, Tex. (S. O. 65, May 31, D. Tex.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

1st Lieut. Frederick D. Sharp will report, at the expiration of his leave, to the C. O. Fort Leavenworth for duty at that post (S. O., June 11, H. Q. A.)

A furlough for two months is granted Sergt. William S. Whaley, Co. D (S. O. 54, June 6, D. Dak.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

Lieut.-Col. Henry M. Lazelle, Act. Insp.-Gen., is relieved from duty in the Dept. of Columbia (G. O. 11, May 31, D. Columbia.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

2d Lieut. George P. Ahern, on leave in New York City, will report to the Supt. Rec. Service, to accompany recruits to Dakota, and then join his company (S. O., June 11, H. Q. A.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, June 11, 1887.

CASUALTY.

2d Lieutenant Albert D. Niskern, 20th Infantry, resigned June 8, 1887.

Retired.

The following-named officers, having been found by Army retiring boards incapacitated for active service on account of disability incident to the Service, are, by direction of the President, retired from active service this date: Capt. Jas. Kennington, 14th Inf.; Capt. Cass Durham, 18th Inf., and Capt. Wm. B. Pease, 9th Inf. (S. O., June 15, H. Q. A.)

Military Academy.

The following-named cadets of the U. S. Military Academy, having been reported deficient in studies, are discharged the service of the United States: 3d Class.—Samuel A. Leake, Henry W. Strickler and George Woolls. 4th Class.—Rufus B. Clark, Charles A. Duncan, Theodore B. Laidley, Alexander B. McDowell, William Nicoll, Howard R. Perry and George L Smith. The following-named cadets of the 4th Class, having been reported deficient in studies and conduct, are discharged the service of the United States: Robert H. Hines, Tillman J. Lamb and Thomas M. Newton. Upon the recommendation of the Academic Board the following-named cadets of the 4th Class are turned back to join the next 4th Class: Hollis C. Clark, John W. Heavey and James L. Lafitte (S. O., June 15, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Vancouver Barracks, W. T., June 10. Detail: Capt. Tully McCrea, 1st Art.; Capts. George W. Davis, Thomas F. Tobey, Charles B. Western, and Charles H. Warrens, 1st Lieuts. Patrick Hasson, William W. McCammon, Charles A. Johnson, John Murphy, and Frederic S. Calhoun, 2d Lieuts. Stephen J. Mulhall and William A. Kimball, 14th Inf.; 2d Lieut. Charles H. Hunter, 1st Art., and 2d Lieut. Frank F. Eastman, 14th Inf., J.-A. (S. O. 82, May 31, D. Columbia.)

At Fort Sherman, I. T., June 10. Detail: Major Thomas McGregor, 2d Cav.; Capts. Edwin M. Coates and William H. Bisbee, 4th Inf.; Capt. Joseph K. Corson, Asst. Surg.; Capt. John W. Bubb, 1st Lieuts. Theodore E. True and Leonard A. Lovering, 4th Inf.; 1st Lieut. Frederick D. Holton, 2d Inf.; 2d Lieut. James A. Leyden, 4th Inf.; 2d Lieut. Roger B. Bryan, 2d Cav.; 2d Lieuts. Charles McQuiston and John L. Schon, 4th Inf.; 2d Lieut. John T. Nance, 2d Cav., and Capt. Butler D. Price, 4th Inf., J.-A. (S. O. 82, May 31, D. Columbia.)

At the Presidio of San Francisco, Cal., June 6. Detail: Major Edward Moale, 1st Inf., President; Capts. William L. Haskin, 1st Art.; James G. MacAdams, 2d Cav.; Junius W. MacMurray, 1st Art., and Richard G. Shaw, 1st Art.; 1st Lieuts. Frederic C. Nichols, Gilbert P. Cotton and John Pope, Jr., 1st Art.; Frank U. Robinson, 2d Cav., and Nat P. Phister, 1st Inf., and 2d Lieut. Thos. Connolly, 1st Inf., and 2d Lieut. John A. Towers, 1st Art., Judge-Advocate (S. O. 35, June 1, D. Cal.)

Army Boards.

A Board of Survey, to consist of Major Charles A. Wikoff, 14th Int.; Capt. C. A. Woodruff, Sub. Dept., and Capt. A. H. Russell, Ord. Dept., will meet at Vancouver Barracks, W. T., June 2, to determine the money value of certain articles of engineer property for which 1st Lieut. William C. Langfitt, C. E., Engr. Officer, is accountable (S. O. 83, June 1, D. Columbia.)

A Board of Survey, to consist of Major S. B. M. Young, 1st Lieut. Bainbridge Reynolds, and 2d Lieut. John T. Knight, 3d Cav., will assemble at Fort Hancock, Tex., June 13, to fix the responsibility for an alleged discrepancy of 50,000 pounds of hay (S. O. 67, June 6, D. Tex.)

A Board, to consist of 1st Lieut. Robert Craig, A. S. O., and 2d Lieuts. Fielder M. M. Beall and James Mitchell, Signal Corps, will assemble, June 9, to report upon the best electric self-recording anemograph for direction and velocity, due attention being paid to simplicity of construction and certainty of operation (S. O. 39, June 7, Sig. Office.)

A Board, to consist of Junior Professors Henry A. Hazen, Thomas Russell, and Charles F. Marvin, will assemble, June 14, to report as to the construction of one or more standard anemometers (S. O. 39, June 7, Sig. Office.)

A Board of Survey, to consist of Lieut.-Col. Amos Beckwith, A. C. G. S., and 1st Lieuts. Thomas S. Mumford, 13th Int., and Wilber E. Wilder, 4th Cav., will assemble at St. Louis, Mo., June 16, to report upon the loss of one cavalry horse (S. O., June 11, H. Q. A.)

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

Key West Barracks has proved quite a handy place of refuge for many during the recent yellow fever scare, thanks to the kindness of the Secretary of War. The troops at Fort Barrancas remain undisturbed under that veteran campaigner and yellow fever defier, Col. Loomis L. Langdon, U. S. A. Geronimo and friends at Fort Pickens are unconcerned.

Dept. of the Platte—Brig. Gen. George Crook.

The Omaha *Herald* says: "The effort to deprive the Army of the Bellevue range is to be deplored, and unless based upon the strictest construction of right, to be condemned. The range is absolutely needed for rifle practice by the Army, and the Government gives a good equivalent for its use. A post without this adjunct is worthless, and if the first effort to deprive Fort Omaha of a rifle range is successfully followed by another, or others, the result will be that Fort Omaha will be abandoned."

Dept. of Texas.—Brig. Gen. D. S. Stanley.

A handsome Roster of Troops for June; replete with useful information, reaches us this week.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The hostiles are still the cause of alarm, and on June 13 were supposed to be in the east end of the Santa Catalina Mountains. Troops of cavalry are operating in that locality. A despatch says: Over 100 fighting bucks are out, all well armed. The chief of the Avarapia Apaches says there will be a big Indian war; more than 400 warriors would soon be in the field, all with good guns and plenty of ammunition. All of the mountains have been fired. The Indians say this was done to stop troops from using the heliograph signal flash. Lieut. C. P. Johnson's command surprised a murderous band of Apaches in the Rincon Mountains at noon June 11, capturing their baggage and horses. The Indians scattered and evidently designed making their way back to San Carlos.

Gen. Nelson A. Miles arrived at Tucson June 14, and took personal charge of the campaign. Suspicion has long pointed to the Indian settlers on the San Pedro Reservation as being abettors of the San Carlos renegades. They have kept the hostiles informed as to the movements of the troops, and have also furnished them with horses to aid them in making their escape from their pursuers. Capt. Pierce, 1st Inf., acting Indian agent at San Carlos, reports only 16 men absent, and that all Indians on the reservation understand that the action of a few reflects upon the whole tribe, and are anxious that the offenders shall be captured. Capt. P. L. Lee, 10th Cav., commanding at San Carlos, has taken the field, and has received the following:

HUACHUCA, June 9.

Captain Lee:

Lieut. Smith wires from Pantano that Capt. Lawton is following the trail. It leads toward Crittenden, thence back by way of Davidson's ranch to within six miles of Pantano. He is still on the trail. The Indians were turned back by seeing Capt. Hatfield and Martin. Send word to Martin to stay where he is, keeping a sharp lookout in case the Indians double back again on Lawton. Tell him to keep a sharp eye on the trails leading from the Patagonia.

FORSYTH, commanding.

SAN FRANCISCO, Cal., June 15, 1887.

Adjutant General of the Army, Washington, D. C.

Lieut. Johnson, 10th Cavalry, reports despatch just received. He surprised hostile camp on top Rincon Mountain at noon on 11th inst. After a short pursuit forced them to abandon all their horses, saddles and blankets and scatter among the rocks and canyons. He waited on foot until sundown, forcing them out of the mountains; trailed them on morning of 12th to San Pedro River, which they had crossed during the night, heading for San Carlos and passing between Grant and Aravapi Canyon. That Captain Wint struck trail at river before he arrived and he will, in consequence, go direct to Aravapi Canyon and endeavor to cut in ahead.

O. O. HOWARD, Major General.

The latest advices are that the Indians are still in the Catalina mountains near Bachman's Station.

(Correspondence of the Army and Navy Journal.)

VANCOUVER BARRACKS, W. T.

MAY 30, 1887.

"WHERE the Oregon rolls untrammelled
Its tribute of waters to the sea."

Winter before last we "enjoyed ourselves sorrowfully after the manner of our countrymen;" but in the season past we had a renaissance, so to say.

First there was started a lecture course, with running comments by such as the spirit moved to speak.

Gen. Gibbon began with a lecture on the Big Hole fight, first in prose and then in verse, doggerel, good honest doggerel. His comments on Howard's claim that he saved him from Custer's fate were by no means poetical. In fact the vernacular was used with great vigor.

Dr. Basil Norris gave "A Tour Through Alaska." Lieuts. Allison and McClernand gave their Cavalry and Indian experiences.

Capt. Davis, of the 14th Infantry, who raised the Washington monument out of the mud, gave a fine lecture on the Crater lake in Southern Oregon.

Lieuts. Sladen and Eastman, of the 14th, gave good practical essays on post canteens and post schools, respectively.

Lieut.-Col. Lazelle gave an interesting talk on his trip to India. Dr. Kilburn gave a scientific essay on vision in target practice. Dr. Waters gave four good medical lectures. Capt. Russell is to give an ordnance talk.

Col. Anderson lectured on Cleveland's text: that we should support the State and not expect the State to support us. The Grand Army Post invited him to repeat his lecture in the town of Vancouver, but on Grant's Day he made a speech on loyalty which pleased them so well that they invited him to deliver the memorial oration, but he declined, and Lieut. Frank Taylor gave them a rattling talk on Memorial Day after a splendid parade of the 14th Infantry and Light Battery E, 1st Artillery.

Then we have had six first class plays by the officers and ladies of the post. As usual there have been hops, parties, germans, and musicals. This last amusement proved a rich and unexpected lead, as a great zeal and talent were found.

A particularly good post school for officers' children has been carried on—a pay school, however, with three teachers.

The old commanding officer's house was turned into a fine officers' mess and club house. The men have a canteen and gymnasium they are proud of, with boxing, fencing, a shooting gallery, etc.

But the matter of unfailing interest has been the C. O.'s fight with the Catholic Mission claim of St. James. This so-called mission has held five acres of the reservation for five years and claimed it all.

When the new C. O. came last November he moved at once on the enemy's works, but was stopped by an injunction. First blood for the Bishop. The case came up again in April and the injunction was dissolved. The celerity with which the padres were put to flight and a lot of old shanties burned up was amusing to see. First round for the Knights. So the boys in blue hold the fort against the black gown. The case is appealed and the end is not yet.

Col. Anderson is busy collecting evidence with Howard's old aid, Sladen, for a coadjutor. The church has retained the best lawyers in this part of the country, as there are $500,000 at stake. It will take hard work, good judgment, and pluck to win.

On dit: The 14th Infantry goes into skirmishing with a figure of merit of over 100 to a company.

PETER PORCUPINE.

(Correspondence of the Army and Navy Journal.)

FORT RILEY, KANSAS.

JUNE 7, 1887.

THE rifle competition which I mentioned in my last letter to you took place to-day. The weather favored the undertaking: bright skies, cool breeze, which grew a little stronger towards the close of the shooting. Five men of each of the following detachments took part in the prize shooting. Band; Troops D, E, and H, 5th Cav.; Cos. G, H, and K, 18th Inf. The firing commenced at 10 o'clock and ended a little after 1 P. M. Rather singular is it that leaving 500 yards five of the above teams were almost even in percentage, showing a difference of only three points: K, 18th Inf., 577; H, 18th Inf., 576; G, 18th Inf., 576. E, 5th Cav., 575; H, 5th Cav., 574, the band following with 570. The excitement therefore was great while the shooting was progressing at 600 yards, where the band, 5th Cav., came rapidly to the front and kept their place there until the end of the firing, thus winning the first prize of $30 with a score of 756. Team: Band Leader Cross, Chief Trumpeter Lundgren, 1st Sgt. Waller, Pvt. Angelsberg, Pvt. Lych, 2d prize—$15, K, 18th Inf.; 3d—$10, H, 18th Inf.; 4th—$5, G, 18th Inf. Individual prizes were not distributed.

The shooting was witnessed by the greater part of the garrison, also by civilians of Junction City, Kas. Thus, through the kindness of the post commander, Col. Wade, sustained by the other officers of the garrison, the enlisted men had a day that did not fall short of a holiday. I think everybody in this post feels thankful toward the new commander.

A. W.

The Kansas City *Times* of June 12 says:

In the shooting match last week, for officers, the first prize was won by Lieut. Steele for best total, the second prize by Lieut. McClure for best total at any one range; the score was 43 out of a possible 50 at 300 yards; the third prize by Lieut. Michler for best one score at one range. Last Thursday a shooting match, at several distances, took place between the officers of the garrison. The infantry carried off the laurels, Lieut. Little, of the 18th Infantry, making the best scores.

(Correspondence of the Army and Navy Journal.)

FORT BAYARD, N. M.

JUNE 4, 1887.

IN former letters from this section no mention has been made of the Officers' Mess, composed of bachelors and brevet bachelors, yet the mess is an important institution, and bids fair to eclipse in scope and raciness of its discussions the famous Lime Kiln Club. Each meeting is a feast of reason and a flow of soul. The spectre, Melancholy, never dares to appear at the mess. The alleger of an uncontradicted statement pays a fine—no fines have as yet been collected.

Gen. Carr, the gallant and veteran post commander, has been in ill-health for some time past, and has just returned from a brief visit to his son's rancho near Fort Wingate. The little change of scene seems to have done him good.

Memorial (Decoration) Day has just been observed for the first time at this Post. The impressive ceremonies of the Grand Army were creditably carried out by John A. Logan Post No. 9 G. A. R., the members of which carried themselves with conscious, though just, pride, on their march to and from the cemetery under the shadow of the flag they helped to save from dishonor. None better entitled to bear and guard that sacred emblem of liberty than they!

The fencing in of the reservation is nearly completed, and the post cemetery has also just been substantially fenced for the first time in the history of the post, proving that nature is progressive, and that "Westward the Star of Empire takes its course."

FORT BOISE, IDAHO.

"DIOGENES," in a letter to the Idaho *Democrat*, gives an interesting account of the Memorial Day ceremonies, and says: "The most pleasing feature of the day was the reading of an original poem by Brevet Major Wm. H. Powell, Captain, 4th U. S. Infantry. The heart pictures of a mother who gave, 25 years ago, one son to the North and one rode to the South, were never more faithfully delineated by the hand of poet. On Sunday last the match game of baseball resulted satisfactorily. The Co. G club made 18 runs and the Boise City nine made 11."

SAN ANTONIO, TEXAS.

A RECENT visitor to San Antonio writes an interesting letter concerning its past and its present, and referring to the military post, says: "It is believed that the Government will make it the largest and most important post in the country by stationing 12 companies there. The fort originally stood in a plot of 100 acres, but the Government recently purchased an additional 300 acres. The officers' quarters are in one square, the soldiers' in another. The former consist of 17 two-story stone houses, very substantial looking and trim. The soldiers' quarters are entered through a large iron gate that fronts a stone arch. They should be and probably are eminently satisfactory to the men, as they are fitted with spring beds, bathrooms, and all the conveniences of an effete civilization. The post generally contains half a dozen companies. New Yorkers who contemplate paying it a visit and like information in nutshell shape could hardly do better than apply to Lieut. O. M. Smith, U. S. Army, Gen. Stanley's aide: he is a prince of cicerones and has seen about all the country that lies between Maine and Mexico. The Alamo building is now the property of the State. A watchman is always on guard. The old building looks as it it might stand forever as a monument to the bravery of those who fell in the struggle for independence. Year by year the lime rock of which it is built seems to grow harder; now it is as tough as iron."

(Correspondence of the Army and Navy Journal.)

HOMEWARD BOUND.

LIGHT BATTERY F, 5th U. S. Artillery, Major Brincklé commanding, after a ten days' sojourn at Wilmington, Del., broke camp June 13, and started on the return march to Fort Hamilton, where it expects to arrive early next week. The battery took the Philadelphia pike and reached Media in the afternoon, where it went into camp for the night. It will reach Germantown June 4, where it will remain until Wednesday morning. At that place the battery will camp on the Pomona estate, the home of Mr. George Dumuth, a friend of Major Brincklé. Camp Brincklé was fairly overrun with visitors before we left Wilmington. In the morning there was held a mounted inspection, which was enjoyed by a large assemblage. Everything was in faultless condition, the coats of the beautiful bay chargers shining like polished mahogany. Throughout the afternoon crowds of people flocked to the camp. The boys were in their Sunday clothes and the "grim visage of war" assumed a quiet picnic air. The rank and file did not enjoy their stay in Wilmington as much as they might, owing to the disagreeable weather. It rained nearly everyday and drenched everybody and everything. The officers were shown considerable attention and those with whom they were brought in personal contact speak warmly in their praise.

FORT LEAVENWORTH, KAS.

AN excellent game of base ball was played at the fort between the Platte City nine and the Fort nine. The McArthurs did the handsome thing by spreading a fine dinner at the post in honor of the visit of the Platte City club. At supper the McArthurs also entertained the visitors at the Continental Hotel. The game was an interesting one, and although the Platte City boys played well, they lost the game, their score standing 9 against 13 for the McArthurs.

(Correspondence of the Army and Navy Journal.)

CAMP ROSS, PARIS, TEX.

JUNE 7 was the day of the opening of the Grand Military and Tournament Jubilee. The San Antonio Rifles, the Houston Light Infantry, the Sealy Rifles, and other visiting organizations were accorded an enthusiastic reception. The Regulars arrived in force, the officers including Col. Elmer Otis and the judges of the drill; Lieuts. Hickey, Cushman, and Rumbough, the latter Gen. Stanley's son-in-law and Aide-de-Camp. The Regulars are the centre of attraction. Gen. Sherman was invited, but could not come, and in his letter said: "You may be assured I fully appreciate the compliment, and wish all success. A well regulated militia behind the civil authorities is a most valuable safeguard to all good people." Will write you more if I get time.

WACO.

FORT NIOBRARA, NEB.

THE *Excelsior* of June 11 says:

Saturday evening Mrs. Capt. Summerhayes entertained the officers and their wives pleasantly at an informal party.... .....Gen. and Mrs. Kautz and party returned last week from Rosebud Agency.....The officers of the post gave a pleasant dance Friday, May 27. About 11.30 they adjourned to Dr. Lippincott's residence where supper was served. During the banquet the band played in front of the doctor's residence.

BASE BALL ON GOVERNOR'S ISLAND.

A WELL-CONTESTED game of base ball took place on Governor's Island, N. Y. H., Saturday, June 11, between the Emeralds, of Governor's Island, and the Southfields, of Staten Island. It was the best game of the many that the soldier boys won since the season opened. The following is the score:

	Innings.									
	1	2	3	4	5	6	7	8	9	Tot.
Southfields	0	3	0	2	5	4	4	2	0	—18
Emeralds	3	5	1	0	3	1	0	1	5	—19

COURT-MARTIAL CASES.

IN G. C. M. O. 27 of June 4, Gen. Miles says: "The record of the garrison court-martial at Fort Bowie, Ariz., in the case of Corporal John Schnitzer, Troop G, 4th Cav., sentenced to be reduced to the rank of a private soldier, which sentence was mitigated by the post commander to confinement within the limits of the post for a period of two months, from May 31, 1887, having been received for the supervision of the Department Commander, the sentence as promulgated is disapproved and set aside, under par. 919 A. R., amended by G. O. 42, Headquarters of the Army, 1882—and the decision of the J. A. G., approved by the Secretary of War, published in circular from Headquarters Div. of the Pacific, May 17, 1882—and will not be executed; the limitation of time of confinement by the 83d Article of War, being evidently as obligatory upon the reviewing officer in mitigating as upon the court in imposing sentence. Further it is not a mitigation, since it does not substitute for the particular penalty a lesser degree of punishment of the same species, which is that in which mitigation exists, as defined by the Attorneys General." (See G. O. 71, War Dept., A. G. O., July 10, 1875.)

In the case of a private of Troop C, 9th Cavalry, tried for striking his 1st sergeant, General Crook says: "It is clearly shown in the evidence that the 1st sergeant was the aggressor, in that he struck the accused over the head, with a carbine, and subsequently pursued him through the barracks; evidently, whatever the accused did, was done in self-defence, in fear of his life. The sentence is disapproved." We presume the trial of the 1st sergeant will come next.

REAR-ADMIRAL LE VIGNES, of the French Navy, called upon the President on Wednesday, and afterwards inspected the Washington Navy Yard. A salute of thirteen guns was fired. On Thursday he was given a breakfast on board the *Despatch*, among those present being Secretary Whitney, Colonel McCawley, commandant of the Marine Corps; Capt. Wallace, commandant of the Navy Yard; Lieut. Colwell, of the *Despatch*, and about twenty others.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at New Haven June 15.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Arrived at New Haven June 15.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at New Haven June 15.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Cape Town June 6.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Rio de Janeiro May 18.

TALLAPOOSA, 4th rate, 13 guns, Comdr. William Whitehead. Arrived at Rio de Janeiro May 18. Comdr. F. W. Dickens has been ordered to command this vessel, and will sail on the U. S. S. *Trenton*.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Sailed from Villefranche for Spezzia, June 9.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. Reported by cable to have sailed from Spezzia, Italy, June 8, for Lisbon. In a letter dated Villefranche June 1, Rear Admiral Franklin states that this vessel will stop en route to Lisbon at Tangiers and Gibraltar. After getting new officers and crew at Lisbon will go to Smyrna and Constantinople.

Pacific Station—Rear Adml. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Left the central American coast for the Sandwich Islands May 15. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francisco, Cal.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. Sailed from Panama for Payta, Peru, May 23.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama May 27.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Panama May 31.

A despatch from Washington says: The *Juniata* was in Panama Bay on June 4. She reached Talcahuana, Chili, from the East Coast on Feb. 25, and sailed thence March 15, reaching Coquimbo, Chili, on March 18. Thence she went to Caldera, where she arrived on April 3, and sailed again on April 27 for Iquique, where she remained until May 6, on which date she started direct for Panama. During the whole voyage no deaths or sickness have occurred on board, and, although under quarantine at Taboga, Panama Bay, there was no apprehension felt on board or ashore that disease of a contagious nature lurks aboard.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Panama, May 27. To join the *Vandalia* at Payta, Peru, early in June.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. Arrived at Juneau, Alaska, May 12. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Sailed from Barbadoes, May 26, for Rio de Janeiro.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Payta, Peru, May 27.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama May 23. Intended to leave for Chemulpo as soon as boilers are repaired.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Left Nagasaki for Yokohama May 23.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. Arrived at Chemulpo, Corea, May 16.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama May 23.

OMAHA,† 2d rate, 12 guns, Commander F. V. McNair. At Yokohama May 23.

PALOS,† 4th rate, 6 howitzers. Lieut. Comdr. J. E. Craig. At Yokohama May 23.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to care B. F. Stevens, 4 Trafalgar Sq., London, England.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

On Special Service.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. Cruising in Chesapeake Bay, June 15, and later will proceed to Gardner's Bay and Long Island Sound, making ports at Newport, R. I., and New London, Conn.

DESPATCH, 4th rate, Lieut. W. S. Cowles. At Washington, Navy-yard.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. Arrived at Washington June 9.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. Sailed from Norfolk for Hampton Roads June 9. Arrived same day. Sailed June 16 for New York.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Surveying on Coast of Lower California. Off San Diego, Cal., June 6. Expects to go to Mare Island, Cal., the latter part of June.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. En route for Fayal, Azores; arrive at that port June 10, reach Cadiz June 21, leave Gibraltar July 6, and reach Madeira July 13. From the latter port she will leave for New London about July 20, and arrive there about August 14.

TRENTON, 2d rate, 10 guns, Comdr. N. H. Farquhar. At Norfolk, Va. Will sail for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*, early in July. Will probably be assigned later to the North Atlantic station.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic Squadron. Will be completed about July 1.

Chicago—Will be finished at New York. The engines are practically completed, and but little construction work remains to be done. Will be in condition to sail for New York during the month of June.

Kearsarge—At Portsmouth, N. H., being repaired.

Hartford—Undergoing extensive repairs at Mare Island, Cal., and will hardly be ready for commission this year. (See item in various naval news this week.)

VARIOUS NAVAL ITEMS.

THE Fish Commission steamer *Fish Hawk* left the Washington Navy-yard June 14 for Baltimore.

FIVE hundred candidates for engineer students presented themselves before the English Service Commissioners at the last examination.

SOME of the naval authorities of other nations are issuing warnings concerning the coast of Sumatra, and notice is given to all merchant ships concerned that pirates are just now very numerous in these seas.

Two highly polished brass howitzers were placed at the flag staff at the entrance of the Marine Barracks, Brooklyn, June 14. The howitzers were old war guns, presented to the marines by the Government.

THE Board of Visitors to the Naval Academy have reported to Secretary Whitney that 17 cadets proved deficient, of which three were of the first class, three of the second class, nine of the third class, and two of the fourth class. Thirteen of these are recommended to be dropped and four to be re-examined.

THE Alumni Association at Annapolis on Thursday afternoon, June 9, elected the following officers: President, Rear-Admiral Simpson; secretary, Lieut. B. F. Tilley; treasurer, Prof. W. W. Hendrickson; council, Comdr. W. T. Sampson, Comdr. P. F. Harrington, P. A. Engr. J. S. Ogden, Lieut. J. T. Smith.

BY direction of the Secretary, the *Chicago* is to be subjected to a dock trial of machinery at Chester, during which the steam steering gear modifications are to be tested, and if everything functions properly the ship will proceed to New York in charge of the engineer officers who will finally be assigned to her when commissioned for sea-service.

The U. S. S. *Galena*, *Richmond* and *Yantic* left New York on June 14 for New Haven, Conn., where they arrived June 15, to take part in the celebration of the unveiling of the Naval Soldiers monument at that city June 17. It is expected a naval brigade of some 600 men will be formed from the squadron and join in the parade. The usual salute will be fired. The *Ossipee* will join the squadron and proceed with them on their cruise north. The schedule of movements of the squadron, as laid out in the adopted programme, is about as follows:—New Haven, June 17; Boston, latter days of June; Portland, Me., early part of July; Halifax, N. S., early in August, to remain one week there; Bar Harbor, middle of August, to remain one week; Newport, R. I., August 24, in time for the opening of the War College.

NAVY GAZETTE.

Ordered.

JUNE 13.—Surgeon Thomas C. Walton to examination for promotion.

JUNE 14.—Gunner E. J. Beacham to the Receiving Ship Franklin.

Detached.

JUNE 11.—Naval Cadets W. S. Cloke, Guy H. Burrage, Geo. W. Logan, Creighton Churchill, L. C. Bertolette, Andrew T. Long, B. W. Wells, and Claude S. Cochran from the Naval Academy and ordered to the Trenton.

Naval Cadets Henry L. Peckham, Ford H. Brown, A. H. Scales, Frank M. Russell, and Wm. G. McMillan from the Naval Academy and ordered to the Richmond.

Naval Cadets Louis L. Young, Wm. B. Moseley, F. E. Swanstrom, Colin S. Craig, and Mark L. Bristol from the Naval Academy and ordered to the Galena.

Naval Cadets Robert Stocker, Henry A. Allen,

M. R. Pigott, Walter S. Burke, Richard H. Jackson, and Frank W. Hibbs from the Naval Academy and ordered to the Boston.

Naval Cadets F. Boughter and Henry F. Bryan from the Naval Academy and ordered to the Quinnebaug per steamer June 18 from New York.

Naval Cadets B. W. Stearns, E. H. Durell, S. R. Hurlbut, Charles E. Hudson, Victor Blue, and Newton A. McCully, from the Naval Academy and ordered to the Pensacola, per steamer June 18 from New York.

Naval Cadets James G. Ballinger, Edward Moale, Chas. E. Johnston, Ross Coleman, Elliot Snow and S. P. Edmonds, from the Naval Academy and ordered to the Adams.

Naval Cadets H. L. Draper, Clarence M. Stone, Thomas Washington, B. C. Decker, and A. H. Davis from the Naval Academy and placed on waiting orders.

JUNE 13.—Medical Inspector Somerset Robinson from the Navy Rendezvous, San Francisco, Cal., and placed on waiting orders.

JUNE 14.—Surgeon James M. Flint from the Albatross and ordered to report to Professor S. F. Baird, U. S. Commissioner of Fish and Fisheries for special duty.

Surgeon A. F. Price from the Naval Academy and wait orders.

Pay Director G. E. Thornton as General Storekeeper at the Navy-yard, Boston, on June 30, and ordered to settle accounts and wait orders.

Paymaster G. W. Beaman from present duties June 30, and ordered as General Storekeeper at the Boston Navy-yard.

Changes on the European Station.

P. A. Surgeon S. H. Griffith detached from the Lancaster and granted permission to return to the United Staters at his own expense.

Changes on the Asiatic Station.

Paymaster J. E. Tolfree from the Omaha to the Brooklyn.

Paymaster R. W. Allen from the Brooklyn to the Omaha.

Naval Cadet D. M. Young from the Brooklyn to the Omaha.

Lieutenant H. C. Gearing from the Omaha to the Monocacy.

Ensign G. W. Brown from the Monocacy to the Omaha.

Resigned.

Assistant Engineer W. F. Durand, to take effect effect September 15 next.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending June 15, 1887:

James Walsh, beneficiary, died June 12, at Naval Hospital, Philadelphia, Pa.

Andrew W. Johnson, captain, retired, died June 14, at Washington, D. C.

Philip McInnis, sergeant, U. S. Marine Corps, died June 11, at Naval Hospital, Norfolk, Va.

MARINE CORPS.

JUNE 10.—1st Lieutenant A. K. Gilman granted leave of absence for one week from June 14.

1st Lieutenant George R. Benson, U. S. M. C., granted sick leave not to exceed three months.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

ANNAPOLIS, June 15, 1887.

THE gaieties of the last week were continued until Sunday and then all became quiet and the academic year was over.

On Thursday the cadets went out on a gunnery cruise before the Board, and their work with the broadside and pivot guns was highly satisfactory. Some of the shooting was very close, and the target drooped before it was taken up. On their return the cadets gave three cheers for the Gunnery Department as a compliment to Lieut. Ingersoll and the junior officers.

In the afternoon the flag drill was held, and each company acquitted itself creditably. The first company to come upon the field was the third of the battalion, commanded by Durell. This company had a poor chance, as they were obliged to drill after battalion evolutions, and during the hottest part of the afternoon. As they have done good work all the spring, this may account for the fact that their work was far below their usual standard. The second company presented to the Board was the fourth of the battalion, commanded by Wells. Their drilling was excellent, and when they retired amid the cheers of the crowd it was thought that the flag was won and that no other companies could hope to excel.

Then the first company, commanded by Decker, was marched out and their work was even better than that of the preceding. Their manual was the feature that gave them their best marks and was the best shown.

The second company started off well and corrected many faults made by those preceding. Capt. Snow had noticed the palpable errors and warned his company before taking them out. Unfortunately, for them, they made a blunder in their platoon movements and from that time their drilling was much poorer.

When this was over the battalion was formed and marched to the canopy covering the board and received the decision of the judges. These were Lieut. Colahan, Ensigns Knapp and Eyre. They unanimously gave the flag and honors to the first company and its Captain, B. C. Decker.

The Captain and Sergeant stepped to the front and received the flag at the hands of Miss Margaret Sampson. The battalion gave three cheers for the color company, who, in return, cheered the rest of the companies; then all united and cheered the lady presenting the flag. The cadets were then marched to the armory and the companies were dismissed.

A light rain interfered with the dress parade to be held at 6 o'clock.

The cadets had an early supper and their large mess hall was prepared for the second annual alumni banquet to be held in the evening.

This was held at 8 P. M. A formation was held on the walk, Comdr. Sampson, as superintendent, had charge and the alumni were mustered by classes. Then they marched to the front and centre, reported and took their positions. The alumni then marched to supper by orders from Comdr. Sampson. A much larger number were present than last year and all present seemed to enjoy themselves. They were seated according to rank at the tables, the senior officers being near the main doors. The banquet lasted until midnight when all separated for another year. Speeches were made by Rear Admirals Wells and Rogers, Commos. Walker and Gherardi, Comdr. Sampson and Mr. Mills.

During the evening, the cadets and young ladies promenaded the yard, which was lit by Chinese lanterns. The band played on the piazza in front of the mess hall and their efforts were heartily applauded. This promenade was given by the 2d Class, as Lieut.-Comdr. Todd gave a reception to the graduating class at his quarters.

On Friday morning, the cadets assembled in full dress to receive the Secretary of the Navy. The ranks were opened and having given the customary salute, all marched to the chapel where graduating exercises were held.

The address to the graduates was made by Prof. Gilman, of Johns Hopkins University, and was interestiug and exceedingly able. The cadets were enthusiastic and cheered his references to the Naval victories and Naval heroes of history. After the exercises, the cadets marched in front of the band stand and the graduating class received their diplomas at the hands of the Secretary of the Navy.

Then every cadet took a step up and the "plebes" of the last year strolled through Love Lane and lounged on the benches, with an air of importance only acquired by such changes of condition.

In the evening, the annual ball given as a farewell to the graduating class was held in the armory. Preparations for this event have been going on for weeks and the culmination came on Friday evening.

It is undoubted that the ball given by the class of '88 was the finest ever held in the armory. The decorations were numerous and in perfect taste. From the girders, long bands of evergreens were hung and between them broad streamers of orange and white, the class colors. Large flags, burgees and pennants were hung on the walls, and above these were draped streamers of red, white and blue. A band stand and a receiving stand were erected, and both were works of art. The various rapid firing guns were mounted beside the stands and stacks of rifles stood in the corners. Lemonade stands were in the corners and added to the effect. A handsome fountain was playing in the northeast corner and, indeed, every bare or unoccupied spot was filled with some handsome decoration.

The flowers were tastefully arranged, a flag in immortelles and a handsome anchor being especially noticeable. The visitors were received by Mrs. Comdr. Sampson and Cadet Benham of the 1st class. The Secretary and Mrs. Whitney honored the receiving stand with their presence.

The music was excellent and consisted of the latest pieces of dance music. It was rendered in good style by the academy orchestra under the leadership of Mr. Shoff.

Supper was served in the fencing room under Mr. Young as caterer. It was a success in every respect. The room was tastefully decorated and was lighted by electric lights. These were put up by cadets, who are to be complimented for their good work. The ball closed at three o'clock, after five hours and a half of enjoyment; the evening was cool, and this made dancing a pleasure.

The number present was probably in the neighborhood of 2,000, a large proportion of whom took part in the dancing. Many distinguished visitors were present, but it would be impossible to give a complete list of them. The orders for the graduates were not received until Monday, and they did not leave on Saturday, as they expected. An impromptu hop was given on Saturday night, which was well attended.

The cadets of the 1st, 3d and 4th classes embarked on the *Constellation* on Monday morning; at the same time the 2d Class moved to the *Santee* for the summer. The yard will be unusually quiet for several months, until the work of the next year begins in October.

FROM THE PACIFIC STATION.

A CORRESPONDENT, writing from Panama, U. S. C., May 27, from on board the U. S. S. *Mohican*, gives the following news relative to that vessel and the Pacific station. The *Mohican* during the month of March visited Iquique and Arica. We left Valparaiso on Jan. 29, just as the cholera made its appearance, and on March 18 we attempted to enter Callao, (having in the meantime visited four healthy Chilian ports,) but were refused admission and were requested to go away which we accordingly did, and believing that the United States steamship *Galena* was waiting at Aspinwall to relieve us of the Easter Island image, we made sail for Panama, arriving there on April 2, and were placed in quarantine off Tabogo Island in company with the *Vandalia* and an English man-of-war. The fact of our having been refused permission at Callao had been telegraphed to Panama, and a day or two after our arrival the *Star and Herald*, of Panama, contained the following invidious comment: "Now a man-of-war is to visit us after being barred out of a South port. All these vessels in any European port would have been rigidly subjected to the quarantine regulations in existence at their place of arrival, and they would not have dared to break the rules to which they were subjected by the authorities duly appointed," etc.

This evoked from Capt. Day, of the *Mohican*, a letter of admirable temper to the *Star and Herald*, in which the movements of the ship since leaving Valparaiso were chronicled, and the assumption of the *Star and Herald* that the Mohican had violated quarantine regulations at Callao was shown to be utterly unwarranted.

SEVERAL promotions of medical officers of the Navy are about to occur. Surgeon Wm. K. Van Reypen has passed his examination for promotion and will take the vacancy to be created by the retirement of Medical Inspector Somerset Robinson. The retirement of Medical Director S. F. Coues in September next will promote Medical Inspector C. J. Cleborne, and Surgeon Thomas C. Walton. The latter has already passed the prescribed examination.

PLANS OF ARMORED VESSELS.

NAVY DEPARTMENT,
WASHINGTON, D. C., May 14, 1887.

Hon. W. C. Whitney, Secretary of the Navy:

SIR: The Board appointed by Department's order of April 22 has considered the plans of armored vessels submitted by—

Armored Cruisers.—The Barrow Ship-building Company, by Wm. John Barrow, England.

Lieut. W. I. Chambers, U. S. Navy.

Capt. L. Tonns, 164 Maiden Lane, New York.

M. T. Clayton, Auckland, New Zealand; A. H Grandjean, St. Nazaire, France; Naval Constructor S. H. Pook, U. S. Navy; and Geo. P. Frothingham.

The Thames Iron Works and Shipbuilding Company, by J. C. Mackrow, London, England.

Armored Battle Ships.—The Barrow Ship-building Company, by Wm. John Barrow, England.

Wm. Douglas, Galveston, Texas; Francis L. Norton, 633 F street, N. W., Washington.

The Thames Iron Works and Shipbuilding Company, by J. C. Mackrow, London, England.

Capt. L. Tonns, 164 Maiden Lane, N. Y., and John Watt, Birkenhead, England—

And has the honor to report:

The plans of M. T. Clayton, Capt. L. Tonns, Wm. Douglas, Francis L. Norton and John Watt do not conform to the requirements of the Department's circular. The marked differences in the essential features of the designs of armored cruisers of the Barrow Shipbuilding Company, Lieut. W. I. Chambers, A. H. Grandjean and the Thames Iron Works and Shipbuilding Company prevent their classification in the order of merit; each exhibits features which strongly commend themselves, but the Board does not consider it advisable for the Government to build a vessel upon any one of these plans. The Board approves the design of an armored battleship submitted by the Barrow Shipbuilding Company, and is of the opinion that such a ship would be a valuable addition to our Navy. The estimates and results of calculations of the design of this battle ship have been verified by comparison.

We are, sir, very respectfully,
Your obedient servants,
F. M. RAMSAY, Captain, U. S. N. President of Board.
A. J. KIERSTED, Chief Engineer, U. S. N.
C. F. GOODRICH, Commander, U. S. N.
HARRY KNOX, Lieutenant, U. S. N.
F. T. BOWLES, Asst. Naval Constr., U. S. N.
EDWARD BURGESS.
I. SHIELDS WILSON.

NEW YORK NAVY-YARD.

AN accident occurred at the Brooklyn Navy-yard June 15, which resulted in painful injuries to Alexander Melville, brother of Chief Engr. Melville. Commo. Gherardi received orders a few days ago to have further tests made of a position derrick which had been accepted by the Government, and had been lying idle in the yard for some time. The derrick was declared to be capable of raising 75 tons. Chief Engr. Asserson and two other officers had charge of the testing work, while Melville, who is a rigger, was directing the movements of four men on the derrick. A turret, weighing 40 tons, taken from a monitor, and big white oak beams and pig iron bars were chained together, weighing in all 75 tons. They were barely lifted from the dock when some of the yard arm gearing broke, guy ropes of wire snapped, and the weight struck the dock with a crash. Melville was struck on the head by a weight or rope, and received a deep gash. He was also badly bruised, but no bones were broken. He was taken to the Homeopathic Hospital.

The derrick float began to sink, the water putting out the fires. The other men on board took to the water and were all rescued. The derrick cost over $50,000, and was made in Wilmington.

The N. Y. *World* reports an accident on the steel cruiser *Atlanta* on the evening of June 14. It says: "The sailors were manning the sails and going through their regular evening drill under Lieut.-Comdr. Berry. Suddenly there was a loud, sharp snap heard. Then came a crashing and tearing through the rigging, and the sailor laddies clambered down as quickly as they could. Lieut.-Comdr. Berry, as soon as the excitement was over, found that the main gallant topmast had parted. This was due to the mainmast rope slipping from the bits, and before the sailors could recover their hold on the ropes the big mast came toppling down, tearing a big hole in the upper deck and going clean through the ship's lower decks. The captain of the foremast who saw the accident, let go his hold of the mainmast rope, and before he knew what he was about, the foremast came crashing down, making a deep hole through the *Atlanta's* upper deck, and crashing though Captain Bunce's room.

SAILING ORDERS OF TRAINING SQUADRON.

Commander C. H. Davis, U. S. N., Commanding Training Squadron, Newport, R. I.:

SIR: During the first week in June, proximo, you will proceed to sea, with the *Saratoga*, *Jamestown* and *Portsmouth*, under your command, on a practice cruise to Lisbon, Portugal; Cadiz, Spain, and Funchal, Madeira, giving suitable leaves of absence to the apprentices at each of these ports, and so time your movements as to return to New York about the middle of September next. Should any of the ports be unhealthful you are at liberty to substitute others therefor. The squadron will cruise in company and you will give the necessary orders to that effect to the commanding officers of the *Jamestown* and *Portsmouth*. During the cruise the established routine of exercises and drills will be strictly carried out and uniformity and attention to every detail will be observed. Upon your return to the United States you will forward to the Bureau of Equipment and Recruiting a report showing the number of days in each month the ships were under way. . . .

Very respectfully,
Your obedient servant,
D. B. HARMONY, Acting Secretary of the Navy

NAVY DEPARTMENT, May 31, 1887.

THE LARGEST single contract ever entered into by this Government was prepared at the Navy Department Tuesday morning. It is the aggregate for about $4,600,000 and is with the Bethlehem Iron Company, of Pennsylvania, for steel for guns and armor plate for the new cruisers.

THE new Russian ironclad *Sinope* was launched at Sebastopol on June 1.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865,	$21.00
Old Reserve Whiskey,	18.00
Unrivalled Upper-Ten Whiskey,	15.00
Brunswick Club Whiskey,	12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

ANNOUNCEMENT.
TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

While the Company he represents has no superior in the country for security or for liberality in its policies to officers in the Military Service, yet he will be pleased to advise and assist officers who may prefer to place their insurance in other reputable companies. Information as to the standing of the various companies and their relative profitableness for investment he will gladly communicate to those who desire it; also advice as to kind of policy best suited and most profitable to those of different ages.

By this announcement the undersigned hopes that he may serve the interests of his brother officers, enabling them to place their insurance in the most substantial and profitable companies, in a form of policy most advantageous to themselves.

F. A. KENDALL, Capt. U. S. A. (Retired.)

SPON'S
MECHANICS' OWN BOOK,
Explaining the various mechanical trades that deal with the conversion of wood, metal, and stone into useful objects from an every day practical view. 702 pages with 1420 illustrations. Sent, postage prepaid, on receipt of $2.50.
E. & F. N. SPON, 35 MURRAY STREET, New York.

CAPTAIN F. M. RAMSAY, U. S. N., spent the latter part of last week with his family in Georgetown, enjoying a brief respite from the trials and tribulations attending the command of the *Boston*. He returned to New York early in the week, and will endeavor to have his ship prepared for a sea trial as early in July as practicable. The indications are that this vessel will be much nearer completion when she goes outside for the first time, in commission, than the *Atlanta*, all of the data obtained during the trials of the latter craft having been made use of in fitting the *Boston* for sea. As the *Atlanta* and *Boston* are alike similar results may be anticipated from the *Boston*. By those most familiar with these vessels it has been predicted that they will make a record of seventeen knots an hour under favorable circumstances of wind, sea and draft. The buoyancy per inch possessed by the *Atlanta* and *Boston* at their mean load water line equals 20.03 tons of 2240 pounds.

THE election of Wm. E. CHANDLER, ex-Secretary of the Navy, to the United States Senate is full of promise for lively debates on naval questions during the next session of Congress. He was chosen on Tuesday, June 14, by the New Hampshire Legislature to fill the unexpired term of the late Senator PIKE, receiving 15 votes out of 24 in the Senate, and 165 out of 307 in the House. All the Republican members voted for Mr. CHANDLER.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JUNE 18, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: 240 Broadway, New York.
ARMYNAVY.

RETURNING THE BATTLE FLAGS.

NOTHING that has occurred since the war has so profoundly stirred the old Army sentiment as the decision of the War Department to transfer the battle-flags captured during the Rebellion to the States in which were organized the regiments from which they were taken. As no return of this courtesy was expected, or was in the nature of things possible, the practical result of this action was to commit to the custody of the States at one time in Rebellion all the trophies of the contest in which they were the defeated party. If the object was to further promote unity of sentiment between the Blue and the Gray, the measure was most ill-advised, for it immediately resulted in a revival of those controversies which, so far as they were continued at all, were conducted in a spirit which encouraged harmony of feeling and promoted that good fellowship which springs up naturally between men who have shared the common experience of the march, the bivouac and the battlefield. The suggestion of such a measure as the surrender of our battle flags doubtless originated with those who were removed from active participation in the experiences of the war, and who thus fail to rightly estimate the sentiment which survives it, and which if it slumbers is not yet dead, "that sacred and mysterious sympathy which goes out from almost every fireside to the battle fields of the Rebellion," and which "finds in these ragged ensigns its dearest and its intensest expression." "I have no eloquence," said the Governor of New York, Horatio Seymour, on one occasion, "which shall compare with these mute emblems, whose very rags and tatters are made glorious with the memories and history of martial achievement." When in 1872 the battle flags hanging in the State House at Annapolis, Md., were taken down and packed away in an old lumber room that their display might not "keep in memory that fratricidal strife which men of both parties are willing to cast a veil over;" the act aroused an expression of patriotic indignation similar to that witnessed now. Is it well, it was asked then, as it may be asked now, "to tear out that leaf of history which tells of the heroism of our fathers and brothers who fought for the Union? If the Southern people are not in any way to be reminded of the patriotism of the soldiers of the Union armies, then let us cease to decorate the graves of our fallen heroes, tear down from their places the hallowed swords that hang upon the walls of many households, and raze to the dust the monuments which tell their story." It is well to be consistent; and if the remains of our old war flags are to be buried out of sight, let us destroy the pages that tell their story."

Certainly, to thus yield the symbols of costly sacrifice, which belong to the Nation, and to the Nation alone, was a grave responsibility for any man to assume, and it is one which ought not to have

been taken without the clearest possible warrant of law. The question therefore arises as to the extent of the authority exercised by the Executive branch of the Government over these battle flags. They are under its control by virtue of the following sections of the Revised Statutes:

Sec. 218. The Secretary of War shall from time to time cause to be collected and transmitted to him, *at the seat of Government*, all such flags, standards and colors as are taken by the Army from the enemies of the United States.

Sec. 428. The Secretary of the Navy shall from time to time cause to be collected and transmitted to him, *at the seat of Government*, all flags, standards, and colors taken by the Navy from the enemies of the United States.

Sec. 1554. The Secretary of the Navy shall cause to be collected and transmitted to him, *at the seat of Government of the United States*, all such flags, standards, and colors as shall have been or may hereafter be taken by the Navy from enemies.

Sec. 1555. All flags, standards, and colors of the description mentioned in the foregoing section, which are now in possession of the Navy Department, or may hereafter be transmitted to it, shall be delivered to the President, *for the purpose of being, under his direction, preserved* and displayed in such public place as he may deem proper.

The obvious intent of these enactments is that the flags captured in battle shall be preserved at the National Capital, and the Secretary of War and the President are made the custodians of them for this purpose and for no other. It is strange that they should have failed to see this at once, and that it should require an outbreak of popular indignation to secure a reversal of the order for the transfer of the flags. The first protest came from ex-Governor Fairchild, the head of the Grand Army. This, though not conceived in the best of taste, was at least an honest expression of outraged feeling. It was followed by written protests from the Governors of Iowa and Ohio, and from commanders of Grand Army Departments at different points. Governor Foraker, of Ohio, had indeed instituted legal proceedings to stay the action of the War Department, when the following letter appeared on Thursday:

I have to-day considered with more care than when the subject was orally presented me, the action of your department directing letters to be addressed to the Governors of all the States offering to return, if desired, to the loyal States, the Union flags captured during the War of the Rebellion by the Confedefate forces, and afterward recovered by Government troops; and to the Confederate States the flags captured by the Union forces, all of which for many years have been packed in boxes and stored in the cellar and attic of the War Department. I am of the opinion that the return of the flags in the manner thus contemplated is not authorized by existing law, nor justified as an Executive act. I request, therefore, that no further steps be taken in the matter, except to examine and inventory these flags, and adopt proper measures for their preservation. Any direction as to the final disposition of them should originate with Congress.

Yours truly, GROVER CLEVELAND.

The formal announcement of the purpose to return the captured flags was contained in the following circular letter addressed by the Adjutant-General of the Army to the Governors of the Southern States:

SIR: The President of the United States having approved the recommendation that all the flags in the custody of the War Department be returned to the authorities of the respective States in which the regiments which bore them were organized, for such final disposition as they may determine, I am instructed by the Honorable Secretary of War, to make you (in the name of the War Department) a tender of the flags now in this office belonging to the late volunteer organizations of the State of ——. In discharging this pleasant duty I beg you will please advise me of your wishes in this matter. It is the intention, in returning each flag, to give its history as far as it is possible to do so, stating the circumstances of its capture and recovery. I have the honor to be, very respectfully, your obedient servant,

R. C. DRUM, Adjutant-General.

There were at one time in the War Department five hundred and forty-three captured flags, four hundred and forty of which are described in a pamphlet published soon after the war. The history of three hundred and seventy-nine was unknown; of the others there were captured from regiments of Alabama, 16; Arkansas, 4; Florida, 6; Georgia, 23; Kentucky, 1; Missouri, 6; North Carolina, 26; South Carolina, 7; Tennessee, 7; Texas, 4; Virginia, 50.

Now that the *Iroquois* is at Panama, and likely to remain there for some considerable time, it is the intention of the Bureau of Steam Engineering to introduce a modification into two of her boilers before departure for San Francisco, with a view to the removal of two on her arrival at that point. From the experience with the present boilers of the *Iroquois*, during the last five years of continuous commission, it has been determined that with all of the fires (18) lighted the quantity of steam generated is considerably in excess of the requirements of the engines at maximum speed, so, if two of the six boilers can be removed the coal capacity of the vessel will be materially increased without affecting the speed or efficiency of the ship in any way unfavorably. Late reports from the *Iroquois* indicate that her engines are in good repair and efficient, and the boilers are good for several years of active service yet. The material of these boilers is the highly and justly vaunted "Otis steel," more properly a mild steel, or manganese alloy. They were built in the Mare Island Navy-yard from Bureau plans, and have proven to be good boilers. The hull of this vessel is said to be in pretty fair condition, but the decks are nearly used up.

TORPEDO BOATS.

THE recent experiences of the English torpedo boat squadron, under Captain Long of the Torpedo Training School, have served to throw much light upon the probable usefulness of these craft in time of hostilities. The flotilla consisted of 17 Thorneycroft, four Yarrow and three White boats, accompanied by the *Seahorse* with a staff of workmen to make necessary repairs, and the *Rattlesnake*, torpedo catcher, as flagship. It was found that the mixture of types was disadvantageous, as the difference in the turning qualities and the speed were such as should not exist in the same command. Much of the work was done in heavy weather, wind and rain proving no obstacles to the indefatigable senior officer, who was evidently determined to put his mosquito fleet to a thorough test. There was also a good deal of night work, this, too, chiefly in bad weather, and a hundred mile speed trial at sea, in which a Yarrow led in 5h. 10m. 15s., with a White only five seconds behind her, a Thorneycroft coming in third in 5h. 20m. The general conclusion seems to have been that each maker excelled in some one point, and that a boat which should possess a White hull, a Yarrow boiler and a Thorneycroft engine would probably prove a satisfactory combination.

The life of those who serve in these diminutive craft is "not a happy one," as in any sort of seaway they are battened down, and every one on board is at a strain so intense that it cannot be stood for many hours at a stretch. It is certain that in time of war relief crews would be necessary (especially relief commanders) and that time on board should be limited to forty-eight hours, and probably where a great deal depended upon having every one in prime condition, every twenty-four hours. In view of the possibility of our possessing such craft in the near future, it may be well to note that nearly every one on board receives extra pay, and that all should do so, as not only is the strain greater, the work harder, but the wear and tear of one's wardrobe is much greater than in ordinary service; these are minor points to be sure, but they should not be overlooked.

Some trouble, and that of a serious character, was experienced with the compasses, which will need careful consideration in the future, but no particulars have been given. On the whole the work will no doubt prove of great benefit to our brethren across the water, and our own officers too may profit by what has been published; we shall hope to see the day, and that at no great distance, when our own service will possess facilities for carrying on a mimic war on modern principles.

At about the same time that these manœuvres were going on, the French were trying similar experiments. A squadron of four armor clads was to convoy four transports from Toulon to Algiers; while a squadron of torpedo boats lying at Sardinia or Corsica, was to endeavor to intercept them. Suffice it to say, that not only were they intercepted, but that it was shown most conclusively that the smaller craft were not able to stand any sort of a seaway; boats of about one hundred and thirty feet in length would appear to be the inferior limit. The results of these two carefully conducted experiments may be summed up in the general statement that torpedo boats are of great necessity as a component part of a fleet, but they are reliable for smooth water work only, and that not far distant from a basis of supplies: and that a larger vessel, such as the *Seahorse*, should be supplied to every eight or ten of the smaller craft.

A CORRESPONDENT finds in the recent BASH Court of Inquiry case a strong plea for more care in the selection of non-commissioned officers. He says: "Had Sergeant Fox been examined before promotion his 'imperfect knowledge of the English language' would have been a decided bar." These are the days of improvement, and it does seem to us, from personal observation, that the standard for non-commissioned officers ought to be raised somewhat and their promotion from private through each grade to the highest non-commissioned rank governed by fixed rules.

IN G. C.-M. O. 20, of April 30, General N. A. MILES, commanding the Department of Arizona, "set aside" the proceedings, findings and sentence of a Garrison Court-martial at Fort Huachuca, and again in G. C.-M. O. 27, of June 4, he took similar action with reference to a Garrison case at Fort Bowie. The cases of themselves are comparatively unimportant, but there is a question involved as to the legal authority of a Department Commander to "set aside" the proceedings of Garrison Courts. He may supervise them as contemplated by par. 919, of the Army Regulations, and if he discover any material error, defect, omission, etc., return the proceedings to the reviewing authority, calling attention to the correction deemed proper to be made; but nothing more. We incline to the view that Department Commanders are not vested with authority to summarily set aside the proceedings of Garrison Courts-martial, but as they may do so under a ruling of the War Department made some years ago, it is that ruling which must be called into account. The War Department has been in this matter, like the coy female, "first she would and then she wouldn't." In 1881 the Secretary of War announced as follows:

"The authority given to Department Commanders by Paragraph 898 to 'supervise' proceedings of inferior courts does not extend to and include an authority to set aside and annul such proceedings. If, in his supervision, he discovers any legal or other serious defect, or that the case is one worthy of Executive clemency, the Department Commander should pursue the course so clearly indicated in Paragraph 899 of the Revised Army Regulations."

But on April 7, 1882, the Secretary of War "concurred in" certain remarks of Judge-Advocate General SWAIM, and thus authorized the action which is now the subject of criticism. General SWAIM said: "On the 26th of March, 1868, it was held by this Bureau that a Department Commander is authorized to set aside the proceedings of a garrison or regimental court-martial under the authority conferred by this regulation (Par. 898) without reference to the War Department. The regulation has not been abrogated nor was the ruling under it questioned until May 7, 1881, when an opinion containing a contrary view was 'inadvertently' given by this Bureau." (Upon that opinion was based the Secretary of War's first decision of May 13, 1881, above quoted.)

THE following is a list of officers of the Navy Engineer Corps on college duty, with dates of assignment. The law allows twenty-five of these details, but at no time has there been more than fifteen so employed. At present there are but ten, three officers—Assistant Engineers STAHL, from the Purdee University, Ind., WOODS, from the Illinois University, and DURAND, from the Worcester (Mass.) Free Institute—having been relieved June 8. Details to these three colleges will be made during the summer:

P. A. Engr. D. Jones, Kansas Normal College, Feb. 3, 1885.
P. A. Engr. J. D. Ford, Manual Training School, Baltimore, March 19, 1886.
P. A. Engr. F. H. Bailey, Cornell University, July 27, 1885.
Asst. Engr. G. H. Bull, University of Penn., Aug. 26, 1884.
Asst. Engr. G. W. McElroy, S. C. College, Feb. 24, 1886.
Asst. Engr. F. W. Bartlett, Michigan Military Academy, Orchard Lake, Mich., Dec. 16, 1886.
Asst. Engr. E. O'C. Acker, Vanderbilt University, Nashville, Tenn., July 26, 1886.
Asst. Engr. J. H. Baker, St. John's College, Annapolis, September 19, 1885.
Asst. Engr. F. M. Bennett, Manual Training School Chicago, Jan. 9, 1885.
Asst. Engr. T. W. Kinkaid, Agricultural College, Hanover, N. H., Oct. 28, 1886.

GENERAL DUCAT, of the Illinois National Guard, has started a discussion in the Chicago papers as to the character of the soldiers of the Regular Army, by some criticisms which he has indulged in at their expense, presenting the bold militia man at the same time as the real reliance of the country for public defence. The Chicago *Morning News* contributes to the discussion an illustrated article upon "Uncle Sam's Recruit," in the course of which Captain Frank D. Garrety, 17th Inf., recruiting officer at Chicago, is quoted as saying:

The statements of this worthy gentleman who resorts to print as a military critic, are so radically untrue that an argumentative reply on his premises cannot be made. He says of the two companies of Regulars summoned to the city's relief during the railroad riots of '77 that the officers were drunk, the men disorderly, and the whole troop with-

out effect upon the mob. The first and second appear to be deliberate misstatements, and as to the third and last declaration, the citizens of Chicago who have memory of those events know that the march-worn veterans bore the prescience of the law's majesty, and that the disorder was quelled on the moment of their arrival—a task which the police and the local militia had during days of effort failed to accomplish. Upon his false assumption Gen. Ducat reaches the conclusion that the officers of the Army are unfit for police duty. History, from the draft riots in New York to the very incidents he misrepresents, discountenances him. But when he says, as he did, that the soldiers of the Regular Army are recruited from the "scums and slums of society," I take it as a gratuitous insult, rash of conceit and reckless of utterance.

An interesting description of the process of transforming the recruit into a soldier follows, the details of which are familiar to our readers. We are glad to see our officers availing themselves of such opportunities as this to correct the erroneous impressions which are rife as to the character of the men comprising our Army, and the nature of the service upon which they enter.

THE statue of Nathan Hale made by authority of the State of Connecticut, to be placed in the Capitol, was on Tuesday afternoon formally delivered by the commission to the State. It is the work of Carl Gerhardt, of Hartford, and is a bronze figure of heroic size. Hale is represented as standing with his arms partly outstretched and an attitude suggestive of his famous words of regret that he had but one life to give for his country. The presentation address was made by Charles Dudley Warner. The speaker described Hale as having an irresistible charm for everyone. He was a favorite in society: he had the manner and the qualities that made him a leader among men and gained him the admiration of women. There is a universal testimony to his alert intelligence, vivacity, manliness, sincerity and winningness. In the disguise of a schoolmaster he penetrated the British lines and the city of New York, made accurate drawings of the fortifications and memoranda, in Latin, of all that he observed, which he concealed between the soles of his shoes. Hale was captured September 21, 1776, and, without trial, was condemned on the evidence found on his person and sentenced by General Howe to be hanged as a spy the next morning. It was his execution that established the precedent which General Washington followed in the execution of André. The Society of the Sons of the Revolution are also to erect a statue in New York City to the memory of Hale.

THE Chicago *Citizen*, referring to the success in London of the Hon. William F. Cody, popularly known as "Buffalo Bill," says: "His worth and valor have been testified to by such high military authorities as Lieut. Gen. Sheridan, Gen. Geo. Crook, Gen. Wesley Merritt, Gen. E. A. Carr, Col. W. B. Royall, Col. Guy V. Henry, Col. Anson Mills and many others of less rank. Always dignified, Buffalo Bill treated the officers with due respect, and, in turn, was similarly treated by them. Nebraska, in recognition of his bravery, elected him, sometime in the seventies, a member of the Legislature, and therefore he is known by courtesy, as the Hon." Referring to the fact that certain London papers have dubbed him colonel, the *Citizen* says: "William never was a colonel, but he deserved that rank or a higher one, because he went through more danger and saw more real, hair-raising service than a great many gentlemen who now figure as colonels." We believe that William is a colonel, holding at present a position on the staff of the Governor of Nebraska, which gives him that rank.

A CORRESPONDENT sends us the circulars of a firm of bankers who offer to lend officers money at the rate of two per cent. per month on duplicate pay accounts. In this circular they say: "And as we desire to conform as near as may be to the regulations in regard to the hypothecation of accounts we would suggest to our patrons that it would be agreeable to us for them to draw the pay themselves as soon as possible, if it is convenient so to do, and then remit to us, and then we can return the account to them; and we will, when requested so to do, hold an account till we hear from them and arrange as to payment." An officer who finds himself in such a position that he is obliged to borrow money at the rate of twenty-four per cent. per annum is at the beginning of his troubles. Emergencies will doubtless arise when a little ready money is a pressing necessity, but it would seem that any officer in good standing and whose habits of honorably meeting his engagements is well established should be able to obtain money without the sacrifice of money and self-respect which is involved in the submission to usurious demands.

THE Consul-General for Hayti in New York has informed Secretary Bayard that he has received advices from his government relative "to a projected hostile expedition which it is rumored is to start from Savannah against the Republic of Honduras." Secretary Bayard has called the attention of Governor Gordon of Georgia to the matter.

A VALUABLE invention for protecting the front sight of rifles has recently been patented by Mr. O. H. Decumbus, the armorer of the 7th Regiment, N. G. S. N. Y. Its adaptability to the various military rifles without any alteration is a valuable feature. Its adjustment and detachment is simple and rapid, and without the aid of springs or screws. It stays where it is put, and cannot be moved by the recoil of the rifle. It is also valuable as a shade for the front sight, and can be turned aside on the barrel of the rifle when not desired for use, without removal or loosening, and does not in the least interfere with the handling of the piece or aiming. Its economy (the cost is but 50 cents), simplicity, durability, and effectiveness are beyond question, as all riflemen who have used it attest. Among the experts who so highly indorse and recommend it are: General C. F. Robbins; Major Geo. Shorkley, U. S. A.; General G. W. Wingate; Lieutenant E. L. Zalinski, U. S. A.; Colonel H. G. Litchfield, U. S. A.; Sergeant T. F. Dolan, 12th N. Y.; J. S. Shepherd, 23d N. Y., secretary N. R. A. The use of protector is allowed by orders of Adjutant-General, S. N. Y.

TOMMY ATKINS is to be well represented at the London celebration of the Queen's Jubilee, for, says the *Daily Telegraph*, the "English are a people who not only love to look upon their princes, but like to see their soldiers. They know full well that, for all their gay uniforms and fine trappings, the British Army is not composed of holiday warriors. Bacon said that soldiers in peace were like chimneys in summer, but Francis of Verulam wrote at a time when Queen Bess ruled over a realm which had no colonies beyond a strip of land in Virginia, and no Indian Empire. The British Army is the hardest worked army in the world. It is bound to go everywhere and do everything; to bear the British flag and follow the Queen's morning drum from Heligoland to Hong Kong; and when our soldiers are at home we like to see them smart and spruce, and taking their proper share in public outings."

THE Infantry again get a lift this week by the retirement of Captains James Kennington, 14th, Cass Durham, 18th, and William B. Pease, 9th regiments. The promotions which ensue are: 14th, 1st Lieut. J. E. Quentin to Captain, and 2d Lieut. J. H. Gustin, 1st Lieutenant. This will bring Lieutenant Gustin from Fort Klamath to Vancouver Barracks; 18th, 1st Lieut. Michael Leahy to Captain and 2d Lieut. Charles McClure to 1st Lieutenant. The promotion carries Lieut. McClure from Fort Riley to Fort Hays. 9th, 1st Lieut. James Regan to Captain (at present on recruiting duty at David's Island), and 2d Lieut. F. L. Dodds to 1st Lieutenant, which takes him from San Diego Barracks to Whipple Barracks.

COLONEL OTIS has returned to Washington after several days' absence, and the good work of finishing up the revision of the Army Regulations is now in full progress. The work will certainly be completed during the early part of July, as promised by the Board several months ago.

THE continued delay in appointing a successor to Colonel Lazelle as Inspector General, Department of Columbia, causes many to believe that the place is being held open until Colonel H. C. Hasbrouck, major 4th Artillery, can be relieved from the Military Academy. It is said that Gens. Gibbon and Baird have united in a recommendation for his detail.

Last week we published the apportionment to States, etc., of the $400,000 appropriated for the Militia. The official War Department circular of June 9, giving amounts, etc., also states that "while the apportionment made is based on the number of Senators and Representatives, it will be of effect *only* for such States and Territories as have the required number of regularly enlisted, organized and uniformed active militia."

THE New York *Herald's* Washington correspondent says that an effort is being made to have the guard of regular troops over the tomb of General Logan, in Rock Creek Cemetery, withdrawn, and that Mrs. Logan will, if the guard is removed, take the body to her home in Calumet Place and keep it there until the place of final interment in Illinois is ready.

THE Secretary of War has decided that the reductions of force necessitated by law in the Quartermaster-General's office shall be determined by examination under the new rules for promotion. As these changes are to be made on July 1, the examinations in this bureau must be hastened.

THE cases of several officers recently recommended for retirement by the Naval Retiring Board are still awaiting the action of the President. The assignment of the six year graduates will not be made until these cases have been disposed of.

MR. GEORGE W. CHILDS, president of the Board of Visitors, has directed Architect John McArthur to visit the national cemetery grounds attached to the Military Academy and design a monument for the grave of each Union General there which is now unmarked. Mr. Childs contemplates erecting an appropriate monument over each of such graves at his own expense.

THE San Francisco *Post*, referring to the huge sums spent on military preparations in Europe and their absolute unproductiveness, says: "Perhaps we may have in time to constitute the United States the policeman of the world. In twenty or thirty years we shall be stronger than any practicable combination of European powers, and then we may find it advisable in the interest of humanity to tell them to put up their guns and go to work."

THE regulations for the new Hospital Corps are not yet ready for publication, a number of unexpected delays having occurred through the desire of the Department to have them as perfect as possible before being put into effect.

SARATOGA is all prepared for the reunion there next week of the Society of the Army of the Potomac and the Cavalry Society, and an interesting and enjoyable occasion is expected.

THE Carlisle Indian Training School sent 73 pupils West June 13, nearly all of whom have completed the course of the school. They were mostly of the Sioux tribes.

THE CANTEEN.

THE annual bivouac of the Canteen will take place at the grounds of Capt. Dan. Appleton, 7th N. Y. N. G., "The Towers," Clifton, S. I., on Monday, June 20. Boat will leave Pier No. 58, N. R. (foot of Gansevoort street), at 1 P. M. Rations will be brought by each member, which shall not be less than the following articles and quantities: Bread, (will be furnished by the Canteen), meat, ⅓ pound; beans, ⅓ lb. baked or equivalent amount of vegetables in lieu thereof; coffee, ¼ lb., roasted or ground, or 1 pint of liquid coffee; sugar, ¼ pound; salt, pepper, and in addition such other articles as they may see fit. Messes to consist of six members each, will be formed on the boat by lot. At an appropriate time during the bivouac a paper will be read to be followed by a discussion on the same.

The last regular meeting of the Canteen was held at Martinelli's, Fifth Avenue, New York, on Tuesday, June 9, with Gen. Molineux in the chair. Among those elected members were Capt. A. F. Cooke, U. S. N., and Capt. Milton Haxtun, U. S. N. Capt. Cooke read a paper on "Our Navy and its Importance to the Country."

THE TORPEDO CLASS.

THE following is a list of the officers comprising the class now under instruction at the Torpedo Station, with their respective places of residence in Newport and elsewhere:

Capt. Lester A. Beardslee, Vernon House, 46 Clarke street.

Comdr. Francis J. Higginson, Belleview House, Jamestown; Comdr. James G. Green, 125 Church street.

Lieut. Comdr. E. W. Watson, 106 Church street; Lieut. Wm. Little, Pelham and Corné streets; Lieut. Lucien Young, Perry House; Lieuts. Richardson Clover and C. F. Emmerich, the Aquidneck; Lieut. Downs L. Wilson, 32 Clarke street; Lieut. J. M. Bowyer, 46 Clarke street.

Lieut. Cameron McR. Winslow, corner Elizabeth and Centre streets.

Lieuts. J. C. Gilmore and R. Henderson, and Ensign Simon Cook, 82 Mill street; Ensigns Wm. M. Constant R. C. Smith, Mrs. Nichols's, 113 Touro street.

Ensign J. A. Dougherty, corner Elizabeth and Centre streets.

1st Lieut. Samuel Mercer, U. S. M. C., and 2d Lieut. Charles H. Lauchheimer, U. S. M. C., the Aquidneck.

Acting Gunner John Westfall, 74 Spring street; Acting Boatswain Thomas M. Johnston, 2 Fair street.

LATE ARMY ORDERS.

The leave of 1st Lieut. J. R. Williams, 3d Art., is extended 15 days. (S. O., H. Q. A., June 17.)

Asst. Surg. W. C. Borden is granted one month's leave. (S. O., H. Q. A., June 17.)

Maj. J. F. Gregory is granted 15 days' leave. (S. O., H. Q. A., June 17.)

MASSACHUSETTS MILITIA.

THE 1st Brigade of the M. V. M. closed a very successful encampment at Framingham on Saturday of last week. It was, take it altogether, the best ever held by that organization, and we hope to give a good account of it in the report to the War Department which we shall publish later on. The weather was perfect and the week's work resulted in an improvement which fully justified the expenditure of time and labor. The sham fight was omitted and more time was thus gained for other work. There were the usual lapses from the strict requirements of military service, the absence of the courtesies shown to superior officers being, as usual, conspicuous among these.

The following officers are registered at the War Department: 2d Lieut. Geo. P. Ahern, 25th Inf.; Lt. Col. Geo. H. Elliot, Eng.; 1st Lieut. E. P. Andrus, 5th Cav.; Lieut. Col. H. M. Lazelle, 3d Inf.; Capt. Alex. Rodgers, 4th Cav.; 2d Lieut. F. J. Kernan, 21st Inf.; 2d Lieut. A. G. Hammond, 8th Cav.

REGIMENTAL STAFF OFFICERS.

ALL the changes in the regimental staff of the Army, called for by the late General Order limiting the term of detail to four years, have now been made, and we publish below a complete list of these officers with dates of detail. It will be observed that fifteen changes among the adjutants and twenty-two among the regimental quartermasters have occurred since the order referred to was issued. The next change occurred June 13, when Lieutenant J. F. Huston completed four years' service as regimental quartermaster of the 20th Infantry. The tour of duty of two other quartermasters and one adjutant will occur during the current year; five regimental quartermasters will complete their four years during 1888; six adjutants and five quartermasters during 1889; eighteen adjutants and five quartermasters during 1890, and fifteen adjutants and twenty-two quartermasters during 1891:

Cavalry.

1st Regiment.—1st Lieut. R. P. P. Wainwright, Adjt., Oct. 1, '86; 1st Lieut. J. G. Galbraith, R. Q. M., April 1, '87.
2d Regiment.—1st Lieut. C. B. Schofield, Adjt., May 1, '86; 1st Lieut. F. W. Kingsbury, R. Q. M., April 1, '87.
3d Regiment.—1st Lieut. F. H. Hardie, R. Q. M., Nov. 22, '84; 1st Lieut. J. T. Dickman, Adjt., Nov. 7, '86.
4th Regiment.—1st Lieut. James Parker, R. Q. M., May 1, '87; 1st Lieut. J. B. Erwin, Adjt., June 17, '86.
5th Regiment.—1st Lieut. Francis Michler, Adjt., March 11, '87; 1st Lieut. Robert London, R. Q. M., March 11, '87.
6th Regiment.—1st Lieut. Louis A. Craig, Adjt., Nov. 1, '86; 1st Lieut. E. E. Dravo, R. Q. M., March 31, '87.
7th Regiment.—1st Lieut. L. R. Hare, Adjt., Aug. 14, '86; 1st Lieut. W. W. Robinson, Jr., R. Q. M., Nov. 7, '83.
8th Regiment.—1st Lieut. C. M. O'Connor, Adjt., March 31, '87; 1st Lieut. Q. O'M. Gillmore, R. Q. M., July 5, '86.
9th Regiment.—1st Lieut. J. F. Guilfoyle, Adjt., Jan. 8, '85; 1st Lieut. C. W. Taylor, R. Q. M., Feb. 12, '85.
10th Regiment.—1st Lieut. S. L. Woodward, Adjt., Sept. 24, '83; 1st Lieut. G. H. Grierson, R. Q. M., April 22, '87.

Artillery.

1st Regiment.—1st Lieut. H. L. Harris, Adjt., April 15, '87; 1st Lieut. J. S. Oyster, R. Q. M., May (not known yet), '87.
2d Regiment.—1st Lieut. Lotus Niles, R. Q. M., May 5, '87; 1st Lieut. E. D. Hoyle, Adjt., March 28, '85.
3d Regiment.—1st Lieut. Constantine Chase, R. Q. M., May 1, '87; 1st Lieut. C. B. Satterlee, Adjt., May 1, '87.
4th Regiment.—1st Lieut. Wm. Ennis, Adjt., April 1, '87; 1st Lieut. C. P. Miller, R. Q. M., March 31, '87.
5th Regiment.—1st Lieut. A. W. Vogdes, R. Q. M., April 15, 87; 1st Lieut. W. B. McCallum, Adjt., April 15, '87.

Infantry.

1st Regiment.—1st Lieut. F. H. Edmunds, Adjt., April 20, '86; 1st Lieut. L. H. Strother, R. Q. M., May 11, '87.
2d Regiment.—1st Lieut. A. R. Egbert, R. Q. M., March 8, '87; 1st Lieut. John Kinzie, Adjt., March 8, '87.
3d Regiment.—1st Lieut. F. W. Roe, Adjt., March 26, '85; 1st Lieut. Fred Thies, R. Q. M., April 16, '85.
4th Regiment.—1st Lieut. G. O. Webster, Adjt., Oct. 1, '86; 1st Lieut. H. E. Robinson, R. Q. M., Nov. 1, '83.
5th Regiment.—1st Lieut. O. F. Long, Adjt., March 31, '87; 1st Lieut. C. B. Thompson, R. Q. M., Oct. 14, '85.
6th Regiment.—1st Lieut. A. M. Wetherill, R. Q. M., March 1, '87; 1st Lieut. B. A. Byrne, Adjt., Nov. 1, '86.
7th Regiment.—1st Lieut. J. T. Van Orsdale, R. Q. M., June 1, '85; 1st Lieut. C. A. Worden, Adjt., Oct. 1, '85.
8th Regiment.—1st Lieut. J. W. Summerhayes, R. Q. M., May 20, '86; 1st Lieut. J. McE. Hyde, Adjt., May 20, '86.
9th Regiment.—1st Lieut. J. McB. Stembel, Adjt., June 15, '87; 1st Lieut. Geo. Palmer, R. Q. M., June 15, '87.
10th Regiment.—1st Lieut. J. R. Cranston, R. Q. M., May 7, '84; 1st Lieut. R. C. Van Vliet, Adjt., Jan. 1, '85.
11th Regiment.—1st Lieut. Geo. Le R. Brown, R. Q. M., June 1, '86; 1st Lieut R. J. C. Irvine, Adjt., Sept. 5, '86.
12th Regiment.—1st Lieut. Fred. Von Schrader, R. Q. M., April 1, '87; 1st Lieut. R. K. Evans, Adjt., April 1, '87.
13th Regiment.—1st. Lieut. B. H. Gilman, R. Q. M., Sept. 1, '86; 1st Lieut. G. R. Cecil, Adjt., March 5, '87.
14th Regiment.—1st Lieut. J. A. Buchanan, Adjt., April 10, '86; 1st Lieut. R. T. Yeatman, R. Q. M., June 30, '86.
15th Regiment.—1st Lieut. G. K. McGunnegle, Adjt., Sept. 1, '86; 1st Lieut. T. F. Davis, R. Q. M., March 31, '87.
16th Regiment.—1st Lieut. Wm. Lassiter, R. Q. M., July 1, '85; 1st Lieut. S. W. Dunning, Adjt., April 26, '87.
17th Regiment.—1st Lieut. W. A. Mann, Adjt., Jan. 30, '85; 1st Lieut. Edw. Chynoweth, R. Q. M., April 1, '87.
18th Regiment.—1st Lieut. M. Leahy*, R. Q. M., March 31, 87; 1st Lieut. G. L. Turner, Adjt., Sept. 8, '86.
19th Regiment.—1st Lieut. C. C. Hewitt, Adjt., March 31, '87; 1st. Lieut. W. P. Evans, R. Q. M., July 1, '87.
20th Regiment.—1st Lieut. J. F. Huston, R. Q. M., June 30, '83; 1st Lieut. H. A. Greene, Adjt., Oct. 22, '86.
21st Regiment.—1st Lieut. J. W. Duncan, Adjt. March 15, '87; 1st Lieut. C. A. Williams, R. Q. M., March 25, '84.
22d Regiment.—1st Lieut. J. McA. Webster, R. Q. M., Sept. 1, '84; 1st Lieut. W. H. Kell, Adjt., Feb. 1, '87.
23d Regiment.—1st Lieut E. B. Bolton, Adjt., April 1, '86; 1st Lieut. J. R. Clagett, R. Q. M., June 9, '84.
24th Regiment.—1st Lieut. J. J. Brereton, Adjt., Aug. 1, '86; 1st Lieut. A. M. Palmer, R. Q. M., April 18, '87.
25th Regiment.—1st Lieut. George Andrews, Adjt., Aug. 17, '86; 1st Lieut. C. A. Devol, R. Q. M., April 1, '87.

* Just promoted captain.

GENERAL SHERMAN'S OPINION.

SOME of the members of the Grand Army of the Republic have been stirring up feeling in St. Louis because the President has been invited to attend the annual reunion of the Grand Army in that city, the ground of objection to extending him this courtesy being his veto of the Dependent Pension bill. Gen. Sherman has taken occasion to write a letter of advice on the subject to some members of the Grand Army, in which he says: "He may visit any fort or ship, where the National flag will be lowered to manifest respect to him and his office, and should a foreign ship fail to do him full honors, none will be so quick to resent an insult as the members of the Grand Army of the Republic, who perilled life and limb to make that flag respected at home and abroad. The idea of his being insulted, much less endangered, should he be on the stand alongside of our Commander-in-Chief, Gen. Fairchild, when the Grand Army is passing in review, seems to me monstrous. I think I know the Iowa boys too well to believe such a thing possible. Brave men are never ungenerous and the Iowa soldiers are brave men. I know it, of knowledge acquired in battle, and I will pledge my life that no Iowa soldier will do so unmanly an act, and should Mr. Cleveland accept the invitation, which I hope he will, to attend the parade of the Grand Army of the Republic at St. Louis on Sept. 28 next, I will stand by his side or march past in the ranks of Ransom Post, as may be ordered by Gen. Fairchild."

Gen. Sherman also says: "Instead of the Grand Army of the Republic meeting only in the loyal States of 1861, I am in favor of their meeting hereafter at Nashville, Chattanooga, Atlanta and Richmond, following the example of our Armies in the war for the Union."

THE ARMY OF THE POTOMAC.

EXTRAORDINARY preparations are being perfected for the meeting of the Army of the Potomac Society at Saratoga, June 22 and 23. In addition to the orders from the Commander-in-Chief, Governor Hill, ordering the 69th Regiment, of New York, and the 14th, of Brooklyn, to act as escort to the Army of the Potomac Society, and for which the State has appropriated the sum of $7,000, the president of the society, Gen. McMahon, has received official notice that the veterans of the 7th Regiment, N. G. S. N. Y., will attend, leaving New York by boat on the evening of June 21, and join in the grand escort of the society.

The Commandery of the State of Pennsylvania, M. O. L. L. of the U. S., having been invited byt he Society of the Army of the Potomac to be present at the annual reunion at Saratoga, Wednesday and Thursday, June 22 and 23, the itinerary of the trip will be as follows: Leave Broad street station, Penna. R. R., Tuesday June 21, at 2.30 P. M.; leave New York via People's Line, foot of Canal street, North River, at 6 P. M., arriving at Saratoga early Wednesday morning.

Headquarters, Congress Hall, Saratoga. The programme at Saratoga, as announced by the officers of the Society of the Army of the Potomac, will be as follows:

Wednesday, June 22.—11 A. M., Corps meetings in the Town Hall; 2 P. M., Business meeting of the Society at the Casino; 8 P. M., Public meeting, oration, and poem. Welcome by the mayor. Orator, Hon. Chauncey M. Depew. Poet, Wallace Bruce. Thursday, June 23.—Excursion to Mount McGregor and other points of interest; 5.30 P. M., Banquet at Congress Hall. Price to members of the Society including wine, $3.

Transportation.—Special rates will be advertised at all the stations in the State of New York, which will be about one half the usual fare. From New York City by the Hudson River and West Shore Roads, Excursion $5. Tickets may be had at any of the offices of the Road. Members desiring to attend, must apply at once to the Secretary for the necessary certificate to be shown at the station of departure. Excursion rates will be good from June 20 to July 2. By arrangement with the Trunk lines members and their families can purchase tickets at full rates at any points as far west as Pittsburg, and not South of Washington, and obtain return tickets at one-third of the usual rate.

(Correspondence of the Army and Navy Journal.)

MEMORIAL SERVICES AT FT. CUSTER AND THE CUSTER MONUMENT.

MEMORIAL DAY at Fort Custer has been appropriately observed each year since John Buford Post of the G. A. R. was organized by Post Chaplain Macomber in 1881. On last year and the present the exercises were carried out under more favorable circumstances than ever, principally because we have in Gen. N. A. M. Dudley a commanding officer who takes great pleasure in doing all in his power to make such an occasion a success. The members of John Buford Post were happy in securing the services of Rev. Dr. Smith, pastor of the First M. E. Church, of Helena, Department Chaplain G. A. R., as orator of the day. In view of all that was to be done on Memorial Day, it was thought best to have the oration delivered on Sabbath, P. M. Seats were arranged in front of the band stand. The command was paraded and marched to and formed in a hollow square about the stand, facing inward. Music was furnished by our excellent 1st Cavalry band. Orders were read, and an address of welcome by Commander Price. Prayer was offered by Chaplain Macomber. Music again by band. Speaker was introduced by the commander and delivered the memorial oration, which was highly appreciated by all. Dr. Smith is a pleasant gentleman socially and a fine speaker, and not only the comrades, but all who listened to him, would be delighted to see and hear him again.

At the close of the oration the band played "America," and the benediction was pronounced by the chaplain. At 8 o'clock Dr. Smith preached to an appreciative audience in the post chapel.

On Memorial Day the entire military garrison of the post was turned out in full dress, and commanded by General Dudley in person. The post of the Grand Army and N. A. M. Dudley Camp of the Sons of Veterans and the boys of the post schools were formed in column in front of the post hall and by Commander Price marched to the front and centre of the military battalion, and received by General Dudley with a salute from the command. An ambulance, decorated with the stars and stripes, containing the girls of the school, with their teacher, followed closely behind the marching column, also other ambulances and teams with the families of the garrison.

The column proceeded to the post cemetery, where the beautiful ritual service of the Grand Army was gone through with—being divided between Commander Price, Department Chaplain Smith and Post Chaplain Macomber.

The floral wreaths and garlands were then placed upon the graves by the comrades and the children. Minute guns were fired while the column was en route for the cemetery, and beautiful and appropriate music was rendered by the 1st Cavalry Band. The firing salute at the cemetery was given by Cos. E and C, 3d Infantry, commanded by Lieuts. Cole and Kalk. The taps were sounded by the buglers and the memorial service was ended.

The column was then marched back in the same order to the parade ground, where Commander Price, in behalf of the Post of the Grand Army, thanked General Dudley for making it possible for us to celebrate Memorial Day in such grand style.

It has been our custom each year to send at least a delegation to the Custer battlefield. Some difficulty is experienced at such times, as the Little Horn River is quite sure to be swollen at this season of the year, because of the melting snow in the mountains. It was reported too high to ford at this time, but a few of us determined to try. We mounted and started out. Arriving at the river we found by climbing our saddles we could "pass over dry shod," which we did, and proceeded to the Custer Monument, held appropriate service there and also at Lieut. Crittenden's grave, and leaving our floral tribute we again mounted and rode over to the Reno field, four miles beyond the Custer Monument, giving our guest, the Rev. Dr. Smith, a grand opportunity to view the whole field of that bloody operation. We then forded the Little Horn River near the point where Reno crossed in his retreat before the Indians, and we had a delightful ride down the valley, where so short a time since the bloodthirsty savage held sway, but now peaceably possessed by the Crow Indians, living, many of them, in comfortable cabins and working their small farms, giving it quite an air of civilization. We all returned to the garrison feeling that we had done our parts as best we could in celebrating the festival of our noble dead.

J. H. M.

REPAIRS TO THE "HARTFORD."

THE Steam Engineering Department, says the Vallejo *Chronicle*, has a large force of men at work on the *Hartford*, disconnecting the vessel's machinery. All the outside planking of the vessel, from the coppers up to the port sill streak, will have to be stripped off and renewed. The rigging had to be removed from the masts, and the latter will have to be taken out and repaired. The engines will have to be taken out and thoroughly overhauled, and the boilers will be replaced by new ones. The engine is the same one that was put in when the vessel was first built, and when thoroughly overhauled it can be used again. The new derrick, which has double the lifting capacity of any derrick on this coast, will be tried for the first time in lifting out the engine, boilers and masts from the *Hartford*. The gun deck will be taken out and replaced by a new one, as will the forecastle and poop decks. The batteries, spergaton and port sill streaks will have to be replaced. The same may be said of the poop deck beams and knees. They are the ones originally put in and have seen nearly 30 years of service.

Around the quarter gallery the planking is dropping and will have to be renewed. To facilitate the work of repair all of the furniture is being removed from the vessel and stored on shore. Much of the original furniture is still fit for use. Some of it, however, was taken in the joiner's shop where it is being repaired. On the berth deck the ward room will have to be reconstructed. The partitions of the sick bay have been taken out for renewal, the staterooms of the officers need repairing, and a general overhauling will be given to that part of the vessel. On the gun deck above the admiral's and captain's staterooms have been taken out, and they will be reconstructed. The ship's boats are in the boatshops undergoing repairs. To take out the boiler, the boiler hatches will have to be removed. The work of reconstruction is done under the immediate supervision of Naval Constructor Joseph Feaster.

SUNDAY INSPECTION OF U. S. A.

A PROMINENT member of the Baltimore clergy writes to the Baltimore *Sun* as follows:

"It will be noted that the General Assembly of the Presbyterian Church, which has just closed its sittings in Omaha, has affirmed the position of the Baltimore clergy on the Sunday inspection of the United States Army. I am satisfied that every religious body in the United States would do likewise upon an intelligent review of the case. . . .

"The person who moves the War Department will move a Colossus, and more than one hardship, perhaps more than one head may be broken before what seems so inert a mass will move in the direction desired. If you were to send a printed petition to Congress for a free Sunday to be signed at every post in the Army in triplicate, do you suppose you could get 1,000 or 10,000 enlisted men to appeal for their American rights? Soldiers are long-suffering and taciturn. And such a petition signed by citizens would roll to what magnitude? The vitality of this question can only be tested so; let officialism smother it as they may.

"I can but think that time is on the side of a Sunday holy, and that patience and kindness become those whom time and all the heavenly powers aid. And it must require time to uproot a system imbedded in the continuing custom of centuries. The burden of proof is upon us. Can we bear the burden with loving kindness and effectively? But no matter how kindly and patiently, still clearly and with all our strength arrayed? That pageantry and worldly occupations on Sunday are offensive to a large class of American Christians cannot be unknown. Desecrating the Sabbath may seem to the individual an insignificant matter when buried in frontier forests, but to have it enforced by wholesale, everywhere and always, and flaunted with all the publicity and force of authority, mayhap even of law, then there be Christians who recognize the blow, and if the blows rain, who is hurt? Not Christianity. And Calvin playing cards or Luther fiddling on the common may not settle officially the character of the American Sunday."

ARMY AND NAVY BASE BALL.

FORT MONROE, VA., June 14, 1887.

ONE of the closest base ball contests of this season, in these parts, was played here last Saturday by the clubs of the *Ossipee* and Artillery School. For years back it was the custom to have friendly games with the sailor boys, who, for want of practice, not pluck, were always easily defeated. Hence, little doubt existed as to the result of the last game, especially when Manager Ryan stated that the *Ossipees* had just returned from China and never played together. But a surprise soon awaited all, and not a very agreeable one to the school club, for their opponents batted with a vengeance, ran bases like deer and fielded faultlessly. Not wishing to part with their old laurels, especially under the eyes of their officers and other patrons of the club, the soldiers resolved to contest bitterly. Yet with their good batting (young Gallagher and A. Giacchetti having made home runs) and base running they would have lost the game but for the deceptive pitching of O'Hara and the good catching of "Old Reliable," W. Giacchetti.

All the officers, their ladies and friends, and numbers of strangers closely watched this exciting game, umpired by Lieut. Rodman and resulting 11 to 10 in favor of the Artillery School.

The officers attend school from 9.30 to 11.30. The evening drill consists of mechanical manœuvres from 4.15 to 5.45.

About 1,000 "International Travelling Agents" are holding a business meeting at the Hygeia Hotel to-day. To-morrow they will visit the fort, Hampton and Newport News.

On the Chesapeake, at Buckroe, a few miles north of the fort, a new hotel is to be commenced at once, the C. and O. R. R. having decided to extend the terminus of their road to Buckroe.

B. B.

THREE BATTALIONS FOR THE INFANTRY.

To the Editor of the Army and Navy Journal:

I AM informed that the three battalion organization for infantry will be brought up early in the next session of Congress, and will be supported by influential and strong members.

It was killed before by officers of the Army having so many amendments to recommend that Congress could not tell what we wanted. As honorable men we should rejoice at benefits conferred on others, even if we do not personally share in them. The bill as I am informed is to read "that promotions to majorities, captains, and 1st lieutenants is to be from relative rank in the line of the Army." Officers to have the right to decline.

The cavalry and artillery surely cannot find fault with that. Both these arms of service have now the three battalion organization, and it is absolutely a military necessity for the infantry.

This bill will certainly equalize promotion in the three arms of the Service, and give worthy officers their long hoped for promotion.

Lineal rank for lieutenants in their own arm of the Service would be a most just measure to advocate, even if they had to pay their own transportation. I understand that to be the only plea against this becoming law. GRUBA.

GENERAL SHERIDAN AS A FARMER.

GENERAL PHIL SHERIDAN is, although it is not generally known, an Ohio farmer. Many years ago an uncle of his, John Miner, purchased the "Pigeon Roost" farm in Ohio and settled there. Having made a small payment on the land he set to work clearing and raising crops, but the land was poor. Sickness and the death of his wife after a long illness left John in bad financial shape. The mortgage became due, and the distressed old man, with his home full of children, was about to be sold out by the sheriff. Phil was then a lieutenant, I think, stationed in Oregon. Hearing from his brother at home how it was going with his uncle, he sent his small earnings (and it took it all) to the rescue, bought the land, telling his uncle to remain there as long as he lived, which he did for 17 years, without a cent of rent. The land was very cheap in that rough locality then, but since the Baltimore and Ohio railroad has tapped it on the southeast corner, making it one of the most desirable mining tracts in that township, worth not less than $150 per acre, the sympathetic, kind-hearted lieutenant of 30 years ago has lost nothing by his investment, besides the pleasant and gratifying thought of saving a home for his old uncle during his lifetime. The present tenant of "Pigeon Roost" farm is Billy Sharkey, the son of one of the veterans that followed the General up and down the Shenandoah Valley, and when a storm damaged his crops the General sent word to his agent not to charge him any cash rent if he had had bad luck. Little Phil is as generous as he is brave.—*Boston Budget.*

POTTER'S SELF-REGISTERING TARGET.

THE Fort Sidney *Telegraph* describes the self-registering target of Lieut. Potter as composed of 15 plates of iron arranged on four planes, the inner a bull's-eye. Around these are two other circles of four plates each, a little in advance, a hit on one of which counts four and on the other three. The remainder of the target is a square composed of six plates, a hit on which counts two. Four wires connect these 15 plates with the firing point.

In his system of indications the inventor has taken advantage of the possible mathematical combinations of the four shot values. These values are 2, 5, 4, 3, and these four figures are susceptible of just 15 different combinations, no two alike, and no more can possibly be made. They are as follows:

2 5 4 3.
2 5 4—2 5 3—2 4 3—5 4 3.
3—2 3—4 3—5 3.
2—5—4—2 5—2 4—5 4.

It is evident that the 15 plates of the target may be numbered each by one of these different combinations and each have a distinct number of its own. But more than this: four areas can be taken and numbered, respectively, the two wire, the five wire, the four wire and the three wire and they may be made to form pairs and groups of threes just as the figures two, three, four and five have been combined. This understood, it is easy to pass to circuits, meaning a wire running upon itself or to the point from which it started. It is, therefore, easy to see how four circuits may be combined to give 15 different indications as well as the four figures combined as above to give 15 different numbers. The four wires numbered respectively two, three, four and five are then taken together to each of the 15 plates of the target in succession and at each plate the particular wires corresponding to the number of that plate enter a key, or circuit breaker while the remaining wires pass by. It results from this, that when anyone of the 15 plates is struck its corresponding key is opened by the jar or shock of impact communicated by the bullet; instantly upon the opening of the circuit, however, the corresponding magnet in the indicator at the firing point is affected, and as the indication corresponds to the circuits opened the marksman knows at once where his shot is struck upon the face of the target.

A NEW SITE FOR NEWPORT BARRACKS.

A CORRESPONDENT sends us an article from the *Commercial Gazette*, Cincinnati, describing the visit of the Department Commander to select a new site at Newport Barracks. It says:

The owners of certain high hill-tops around Newport were the ones to grow nervous over the conduct of the river and not the military resident, who fears not an occasional wetting. It was these owners who engineered the bill for the sale of the old and purchase of the new. The military man engineereth not bills.

The General and staff, and the rest, took carriage and fled for the hill-tops in about the following order:

1. Land-owners, as guides.
2. State Senator.
3. Mayor of Newport.
4. Members of the Press.
5. Major-General and two aides.
6. U. S. Paymaster, with necessary funds.
7. One Major of artillery.
8. One Captain of artillery.
9. One Doctor of artillery.
10. One aged 1st Lieutenant of artillery, and one young 2d Lieutenant of artillery.
11. Party with scaling ladders.
12. Ladies—without whose presence nothing can ever be successfully accomplished.

It would be a "waste of raw material" to describe all the places to which the guides conducted the party; but it may be said without prejudice to the good city of Newport that it will take an immense amount of grading to shape anyone of its immediately surrounding hills into anything like a suitable site for a military post.

THE STATE TROOPS.

THE NATIONAL ENCAMPMENT.

Errors Noted in the Infantry Company Competitions.

WE are indebted to the courtesy of 1st Lieutenant Wallis O. Clark, 12th U. S. Infantry, one of the three judges of the National Guard Company Competition during the National Encampment at Washington, for the list of errors noted in the movements of the companies competing. The list is compiled from the score sheets of two of the judges, Major Woodruff and Lieutenant Clark, those of the third judge, Lieutenant Evans, not being accessible.

The errors of the Muscatine Rifles do not appear in the table, the judges having given the score sheets to the captain of that company at the end of the drill week in Washington at his request.

The movements noted as "omitted" were either not attempted or performed out of their proper order and were scored zero.

The words "wrong movement," mean that the movement performed was recognized by the judges as an attempt to perform the required movement.

The word "cadence," means that at some time or other during a movement the regularity of clock work was introduced when not authorized by tactics or positively forbidden in orders. The rules governing the competition were as follows:

1. Movements will be executed in the order of arrangement given in the programme.
2. It is not to be understood that each movement in every case can be executed from the preceding one. The movements will be given and you are expected to use your own means to execute them.
3. Any movement passed will be marked "0" and cannot be taken up. Also any movement not executed will be marked "0."
4. The company will be marched upon the drill ground in single rank and formed in line fifteen yards in front of the Judges and reported to the senior officer of the Board.
5. Thirty minutes will be allowed to complete the programme (exclusive of inspection) from the time of notification by the Judges to proceed with the drill.
6. When marching, the distance passed over must be sufficiently great to enable the Judges to determine the proficiency of each command. In every instance the prescribed movement must be fully executed before passing to the next on the programme.

—

Co. A, 1st Minn.—Parade rest, 1 slow; to the rear, clumsy; by the right and left flanks, from direct step, clumsy; march to the stacks and resume arms, poor line marching; several files lost step; only one half company obeyed "Take Arms."

Manual, generally slow; parade rest, 1 anticipated command; trail, 1 muzzle too far to front; fix bayonet, cadence; unfix bayonet, from order, cadence; arms port, irregular slope of pieces; load, irregular slope of pieces; recover, several anticipated command; aim, right oblique, poor volley; fire, at rear rank, wrong command; oblique fire, as rear rank, 1 anticipated command; recover, as rear rank, ragged; fire, lying down, cadence.

March in line and halt, poor line; wheel company from halt to right, captain halted company too soon; wheel company, marching, to left, poor wheel; execute right, or left, turn, opened out on outer flank; change file closers to opposite flank while marching, file closers did not close in at prep. com.; form column of fours to the front, second four made full wheel and on fixed pivot; change direction while in column of fours, pivots obliqued in at wheeling point; march column of fours to the rear, did not cover in file; form column of fours, and then company line to the front in double time, captain first gave wrong command and lost time before correcting it; to break obstacles, break fours from side of guide and reform company, wrong command; form columns of twos, too much distance; form column of files, too much distance; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, skipped; oblique in line and resume direct march, crowded in ranks.

Right shoulder, disturbed line; trail, disturbed line; arms port, disturbed line; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time disturbed line; crowded; accidental discharge; 1 wrong command; fired only twice. Lacked precision throughout drill.

—

8th Separate Co., Rochester, N. Y.—Stack arms, 1 stack fell; right and left hand salutes, by the numbers, wrong command, ragged; facings, to the right and left, 1 slow; about face, clumsy; by file, right dress, several files kept eyes to front; march to the stacks and resume arms, several files lost step; talking in ranks.

Manual, generally slow; attention, wrong command; unfix bayonet, from order, 1 slow; arms port, irregular slope; 1 slow; secure, ragged; ready, wrong command; fire, lying down, several anticipated command.

March in line and halt, no guide given; wheel company, marching to left, pivot took too short a step; execute right, or left, turn, opened out. Wrong guide; change file closers to opposite flank while marching, file closers slow closing in; form line on the right, or left, files halted ahead of line; form column of twos, did not cover. Too much distance; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, crowded.

Right shoulder, disturbed line; trail, disturbed line; arms port, disturbed line; advance in double time 100 yards, halting and firing kneeling twice with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, irregular slope of pieces at load; one-half of movement executed in quick time; poor line; fired in wrong direction retiring; ragged; place column in march and change direction at the same time, wrong command; halt column and form line to left, dressed to wrong flank; march column to the rear, wrong command; form column of fours, right in front, wrong movement; form column of platoons in double time, guide 2d pl. slow taking place; form column of fours, from column of platoons, in double time, too much distance. Lacked precision throughout drill. *Omitted.*—No. 7, school of the soldier; Nos. 23, 24, and 26, manual; Nos. 2, 8, 9, and 14, school of the company; Nos. 9, 10, and 11, movement by platoon.

—

Attuck Guards, Richmond, Va. (colored.)—Stack arms, awkward "stack;" right and left hand salutes, by the numbers, counted aloud: ragged; by the right and left flanks, from direct step, files lost distance; by file, right dress, executed "right dress;" pass from quick to double time and the reverse, command for Double Time given when wrong foot was planted; march to the stacks and resume arms, marching bad; beat time with foot; did not "take arms" at command.

Manual, generally ragged; considerable talking in ranks during execution; ready, wrong command; fire kneeling, ordered from ready; fire, lying down, ordered from carry; resumed carry on rising; off's. and f. c's. remained standing.

March in line and halt, poor line; wheel company from halt to right, movable pivot. Wrong command. Poor wheel, Capt. did not step back from flank to dress company; wheel company, marching, to left, executed wrong movement; execute right, or left, to turn, opened out; form column of fours and halt, too much distance between set of fours; change file closers to opposite flank while marching, wrong movement; form line towards file closers, wrong movement; oblique in column of fours and resume direct march, did not cover.

Form column of platoons, left in front, without halting, wrong command. Lacked precision throughout drill. *Omitted.*—No. 6, school of the soldier; No. 26, manual; Nos. 11-18 and No. 20, school of the company; Nos. 1, 2, 3, and 8, marching in line; Nos. 2-11, movement by platoon.

—

State Guard, Virginia (colored.)—Right and left hand salutes, by the numbers, ragged; mark time, out of step; change step, awkward; to the rear, awkward; by file, right dress, executed "right dress;" march to the stacks and resume arms, captain dropped sword; slow unfixing bayonets.

Manual, generally ragged; fire, as rear rank, wrong command; oblique fire, as rear rank, wrong command; fire, lying down, wrong command.

Wheel company from halt to right, poor wheel; form line on the right, or left, halted ahead of line; form column of twos, too much distance; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, wrong movement.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, 1 wrong command; about face to retire company; moved column fours by the right flank; fired but once; halt column and form line to left, wrong movement; form column of platoons to the front while marching, wrong movement. Lacked precision throughout drill. *Omitted.*—No. 3, school of the soldier; Nos. 4-13, 28, and 29, manual; Nos. 1, 4-11, and 13, school of the company; No. 1, marching in line; Nos. 1, 4, and 5, movement by platoon.

—

Volunteer Southrons, Vicksburg, Miss.—Stack arms, 1 stack awkward; about face, 1 slow; change step, disturbed step of company; march to the stacks and resume arms, two files changed guns at take.

Support, 1 slow; attention, wrong command; secure, 1 slow; aim, right oblique, wrong command; aim, left oblique, wrong command; fire by file, cadence; carry, from fire, cadence in loading; fire, as rear rank, cadence in loading; oblique fire, as rear rank, cadence in loading; fire kneeling, cadence in loading; fire, lying down, cadence; several cartridge boxes unbuttoned.

Form line towards file closers, file closers did not close in at proper time; form line on the right, or left, some fours wheeled on fixed pivot; form column of fours, and then company line to the front in double time, two files held left arms rigid in double time; form column of twos, too much distance; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, several fours did not resume direct march at proper time causing company to open out coming front into line.

Right shoulder, disturbed line; trail, disturbed line; arms port, disturbed line; advance to double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, loaded by the numbers; 1 wrong command; 1 poor volley; form line on the right, some fours wheeled on a fixed pivot. *Omitted.*—No. 7, school of the soldier.

—

Co. A, 1st Virginia (Richmond Grays.)—Stack arms, 3 wrong commands; parade rest, 2 slow; pass from quick to double time and the reverse, wrong movement.

Manual, generally ragged; order, toes of several pieces not touching toes of boots; attention, two files slow; secure, 1 slow; load, cadence; ready, ragged; aim, wrong command; recover, wrong command; aim, right oblique, wrong command; aim, left oblique, wrong command; fire, as rear rank, wrong command; oblique fire, as rear rank, wrong command; recover, as rear rank, wrong command; fire kneeling, several individual errors; fire, lying down, cadence.

March in line and halt, poor line; wheel company from halt to right, wrong command. Lost step; wheel company, marching, to left, wrong command; execute right or left, turn, wrong command; form column of files, too much distance between files; being in line in single rank, form double rank, too much distance between fours; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, wrong movement. Moved in quick time; oblique in line and resume direct march, wrong movement.

Right shoulder, crowded in ranks; trail, crowded in ranks; arms port, crowded in ranks; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time disturbed line; slow loading; talking in ranks; file closers ordered to rear; fired to wrong front; several anticipated commands; place column in march and change direction at the same time, 1 platoon made poor wheel; march column to the rear, captain gave command platoons right about, march (see Tactics, par. 266); form column of platoons to the front while marching, executed movement from halt. Lacked precision in many movements. *Omitted.*—No. 7, school of the soldier; No. 12, school of the company.

—

Governor's Guard, N. C.—Right and left hand salutes, by the numbers, wrong command with numbers; about face, files unsteady; mark time, knees not straightened; change step, very awkward; to the rear, officers changed; by the right and left flanks, from direct step, too much distance; by file, right dress, dressed ahead of line; pass from quick to double time and the reverse, arms rigid in D. T.; march to the stacks and resume arms, slow taking arms; captain sheathed sword.

Manual, generally ragged; support, 1 slow; charge bayonet, several points too high; load, cadence; aim, right oblique, guide in ranks, W. C.; aim, left oblique, wrong command; fire, as rear rank, wrong command; poor volley; oblique fire, as rear rank, wrong command; recover, as rear rank, wrong command, 3 discharges; rise, ragged.

Wheel company from halt to right, mov. pivot. Crowded. Guide carried arms; form column of twos, too much distance, being in single rank, form double rank, executed from column of fours; column of four, double rank distance, marching in quick time, form single rank to the front in double time, wrong movement.

Trail, time called. Lacked precision throughout drill. *Omitted.*—No. 2, school of the soldier; No. 32, manual; No. 8, school of the company.

—

Louisiana Rifles.—Right and left hand salutes, by the numbers, ragged; to the rear, awkward; by file, right dress, captain in wrong place; march to the stacks and resume arms, error left stack.

Manual, slow; carry, several slow; parade rest, several slow; unfix bayonet, from order, cadence; load, cadence; aim, right oblique, wrong command; aim, left oblique, wrong command; fire by file, cadence; carry, from fire, cadence; fire, as rear rank, cadence in loading; oblique fire, as rear rank, wrong command; fire, lying down, cadence.

March in line and halt, poor line; execute right, or left, turn, opened out on flank opposite guide; change file closers to opposite flank while marching, file closers did not close in at prep. command; form column of fours to the front, second four made full wheel and on fixed pivot; form line on right, or left, several fours halted ahead of line; to pass obstacle, break fours from side of guide, and reform company, broke from wrong side; form column of twos, crowded; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, wrong command.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time dis-

turbed line; 2 wrong commands; 2 poor volleys; move-by platoons, time called. Lacked precision and marching time slow.

—

Co. C, 2d Conn.—Stack arms, awkward stacking; no command for loose pieces; talking in ranks; came on ground in double ranks, contrary to rule; about face, unsteady; change step, very awkward; by the right and left flanks, from direct step, very awkward; by file, right dress, guide only advanced; pass from quick to double time and the reverse, commenced march on wrong foot; ragged; march to the stacks and resume arms, marching very poor; movements by fours poor.

[Omitted the next 50 movements; this was due to the the captain turning two pages for one, but the rules of the competition would not allow him to take up movements once passed.]

Column of fours, double rank distance, marching in quick time, form single rank to the front in double time, straggled. Opened out. Ahead of line.

Right shoulder, disturbed line; trail, disturbed line; halt column and form line to left, wrong command; form column of platoons, left in front, without halting, wrong movement; march column to the rear, wrong command; form column of fours, right in front, guide wrong side of column; too much distance between fours; form column of fours, from column of platoons, in double time, guide wrong side of column; too much distance between platoons on uniting in col. Lacked precision throughout drill. *Omitted.*—B, marching in line; Nos. 2, 9, and 10, movement by platoon.

—

Co. C, 1st Batt., N. J.—Stack arms, slow obeying stack, awkward stacking; right and left hand salutes, by the numbers, wrong command, no numbers; about face, wrong command; by file, right dress, only one file to front; pass from quick to double time and the reverse, commenced march on wrong foot; march to the stacks and resume arms, extra commands, awkward.

Manual, generally ragged; support, 1 slow; fix bayonet, several points too high; unfix bayonet, from order, executed from carry; aim, wrong command; aim, right oblique, wrong command; aim, left oblique, wrong command; fire by file, continued firing after command to cease; fire, as rear rank, wrong command; oblique fire, as rear rank, wrong command; fire kneeling, 3 wrong commands; fire, lying down, wrong command; cadence.

March in line and halt, wrong command; wheel company from halt to right, wrong command. Poor wheel; wheel company, marching to left, wrong command; execute right, or left, turn, opened out badly; change file closers to opposite flank while marching, wrong command. File closers did not close in at proper time; march column of fours to the rear, wheeled about by fours towards file closers: form line on the right or left, fours halted ahead of line; form column of fours and then company line to the front in double time, no guide given; to pass obstacle, break fours from side of guide, and reform company, wrong command. File closers in front.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, came to kneel from ready; poor dress; 5 wrong commands; place column in march and change direction at the same time, wrong command; halt column and form line to left, wrong command; poor dress; no halt; form column of platoons, left in front, without halting, extra command; march column to rear; wrong command; form column of fours, right in front, ragged; too much distance; form column of platoons in double time, ragged; no guide given; form column of platoons to the front while marching, executed from halt; reform company, bring it to place rest, and report to judges, wrong command. Lacked precision throughout drill. *Omitted.*—No. 10, school of the company; No. 8, movement by platoon.

—

Washington Light Infantry.—Stack arms, slow stacking; by the right and left flanks, from direct step, 1 file awkward; by file, right dress, dressed ahead of line; pass from quick to double time and the reverse, arms rigid in double time.

Unfix bayonet, from order, cadence; support, from right shoulder, 3 files slow; load, cadence; aim, 1 file slow; aim, right oblique, word "company" left out of command; aim, left oblique, word "company" left out of command; fire by file, cadence; fire, as rear rank, cadence in loading; oblique fire, as rear rank, wrong command; recover, as rear rank, 1 slow; fire kneeling, 1 slow; rise, 1 slow; fire, lying down, cadence in loading and firing.

Change file closers to opposite flank while marching, executed from halt; to pass obstacle, break fours from side of guide and reform company, error guide; form column of twos, too much distance; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, did not keep dressed in sets of fours moving in double time.

Right shoulder, disturbed line; trail, disturbed line; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges—then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, 2 slow aiming; wrong command; several poor volleys; considerable muttering in ranks at mistakes of captain; form column of platoons, left in front, without halting, command forward omitted; reform company, bring it to place rest, and report to judges, omitted place rest. *Omitted.*—No. 6, school of the soldier; No. 9, school of the company; No. 3, marching in line.

—

Toledo Cadets.—Parade rest, wrong command; fix bayonet, cadence; unfix bayonet, from order, cadence; right shoulder, pieces too vertical; load, cadence; aim, wrong command; fire by file, cadence; carry, from fire, wrong command; fire, as rear rank, cadence, 2 stepped off with left foot; oblique fire, as rear rank, cadence; recover, as rear rank, 3 discharges; fire kneeling, cadence; rise, cadence; fire, lying down, cadence; counted time aloud in all loadings, etc.

March in line and halt, poor dress; wheel company marching to left, poor dress; form line towards file closers, formed away from file closers; to pass obstacle, break fours from side of guides, and reform company, too much distance taken by fours in rear; form column of twos, too much distance between sets of twos; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, left arms rigid in double time.

Trail, 1 slow; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges—then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, load, cadence in loading; 3 wrong commands; poor dress; fired in wrong direction retiring; talking in ranks; form column of platoons to the right, chief 1st platoon error; halt column and form line to left, talking in ranks; form column of platoons in double time, poor dress; reform company, bring it to place rest, and report to judges, did not reform company in tactical sense; wheeled into line. *Omitted.*—Nos. 5 and 10, school of the soldier; No. 9, school of the company.

—

Washington Cadet Corps.—Right and left hand salutes, by the numbers, many hands did not point even approximately in direction of feet; facings, to the right and left, very awkward; about face, much unsteadiness; mark time, advanced feet too far; pass from quick to double time and the reverse, arms rigid in double time.

Manual, generally ragged; support, 1 slow; attention, 3 slow; secure, 1 slow; load, cadence; aim, right oblique, word "company" left out of command, cadence; aim, left oblique, word "company" left out of command; fire, as rear rank, cadence in loading; oblique fire, as rear rank, wrong command; recover, as rear rank, ragged; fire kneeling, ragged, poor volley; fire, lying down, cadence.

March in line and halt, poor dressing; wheel company from halt to right, wrong movement; wheel company, marching, to left, wrong movement; change file closers to opposite flank while marching, wrong command; form line towards file closers, crowded on uniting in line; march column of fours to the rear, wheeled about by fours towards file closers; form column of fours, and then company line to the front in double time, executed in quick time; form column of twos, executed right by twos, left in front; form fours, several individual errors; column of fours, double rank distance, marching in quick time, form single rank to the front, double time, wrong movement.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, wrong command for aiming, one-half of movement omitted; place column in march and change direction at the same time, time called. Lacked precision throughout drill. *Omitted.*—Nos. 9 and 26, manual; Nos. 8 and 12, school of the company.

—

Indianapolis Light Infantry.—Stack arms, 1 stack fell; right and left hand salutes, by the numbers, 1 slow; facings, to the right and left, 1 awkward; by file, right dress, dressed ahead of line; pass from quick to double time and the reverse, double time disturbed, 1 dress; march to the stacks and resume arms, arms rigid in marching.

Manual, generally too slow; support, 1 slow; attention, wrong command; charge bayonet, several points too high; unfix bayonet, from order, cadence; support, from right shoulder, 1 slow; secure, 4 slow; load, cadence; recover, 1 slow; aim, right oblique, word "company" left out of command; aim, left oblique, word "company" left out of command; fire by file, cadence; fire, as rear rank, cadence; oblique fire, as rear rank, cadence in loading; recover, as rear rank, cadence; 1 slow; fire kneeling, cadence; fire, lying down, cadence.

Execute right, or left, turn, opened out on flank opposite guide; change file closers to opposite flank while marching, executed from halt; form column of fours to the front, wrong movement; form fours, slow; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, double time disturbed dress and step; oblique in line and resumed direct march, spread out in obliquing.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges—then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time ragged, left hands carried too low, poor volley, fired in wrong direction in retiring, and only once; form column of platoons to the right, slow; place column in march and change direction at the same time, poor marching of platoons; halt column and form line to left, 2d platoon lost distance, 1 file did not halt at command; form column of platoons, left in front, without halting, guide of left platoon moved at wrong time; form line on the right, rear fours moved beyond place in line; form column of platoons to the front while marching, 2d platoon made ragged oblique; reform company, bring it to place rest, and report to judges, poor dressing.

We shall publish the record of the remaining companies in the next number of the JOURNAL.

CREEDMOOR SCORES.

THE Second Qualification and Marksman's Badge Match was shot at Creedmoor on Saturday, June 11. The weather was perfect, but a strong, tricky breeze blowing from 1 to 2 o'clock, was very trying to the competitors, who, however, made good scores. The attendance was large, about 200 men being present, of whom 150 succeeded in securing a qualifying score. The following made 42 or over and thereby became sharpshooters and are entitled to a silver bar, those marked * being the winners of the match:

	Co.	Regt.	200 Yds.	500 Yds.	Tot.
*G. W. Merritt	B	7th	22	23	45
*J. D. Burtis		17th Sep. Co.	22	22	44
*J. D. Foot	F	7th	19	24	43
*W. A. Stokes	I	23d	20	23	43
*W. A. Robinson	A	23d	20	23	43
*J. T. Hull	F	23d	21	22	43
*C. W. Thom	F	7th	22	21	43
*C. L. Kelly	C	69th	22	21	43
*G. F. Hamlin	I	23d	23	20	43
W. C. Holmes	B	23d	19	23	42
F. L. Holmes	I	23d	20	22	42
F. S. Kennedy	F	7th	20	22	42
Geo. Ball	F	23d	20	22	42
F. W. Singleton	I	23d	20	22	42
C. C. Brown	I	7th	21	21	42
W. J. Underwood	H	7th	21	21	42
D. Bacon	K	7th	22	20	42

Next matches June 18 and July 4.

J. MANZ, JR., Asst. Secretary, N. R. A.

Seventh New York.—Col. Emmons Clark.

COMPANY G, 7th Regiment, Capt. James C. Abrams commanding, at its June meeting on Friday, the 10th, unanimously elected Private Robert M. Dunn to be 8th corporal. Captain Abrams has appointed H. H. Spelman to fill the vacancy caused by the resignation of First Sergeant Snevily, a lawyer by profession, who has made a perfect record for eight years, both on drills and parades, and is deservedly popular. As a mark of appreciation of the services rendered to Co. G by 1st Lieut. E. Graham Haight, recently resigned on account of private business, he was presented with a handsome gold watch and chain, the gift of the company, at the June meeting, by Sergt. Spelman in behalf of the company, and Lieut. Haight feelingly responded. Lieut. Haight was a member of the company twenty years, and an officer for half that time. He was a first-class drillmaster and a good tactition. The members of Co. G expect to qualify seventy marksmen at Creedmoor. They will go into camp at Peekskill with about 85 to 90 men.

Seventy-first New York.—Col. E. A. McAlpin.

ON account of severe pressure of business Col. E. A. McAlpin, of the 71st, on June 13 sent in his resignation. At the present stage of progress of the regiment this is rather a hard blow. No doubt a worthy successor to the colonel can be found without going outside the regiment, but still in an organization where there have been so many changes, and which passed through so many troubles for a number of years the loss of a good commander, or even a fair commander, cannot fail to have a detrimental effect. Col. McAlpin, was elected Colonel, Jan. 12, 1885, and did some energetic work until of late the illness of his father compelled him to remain away from the regiment a great deal, and as in all cases where the legitimate head of a concern is wanting, things did not go on as well as they should. Col. McAlpin is a wealthy man, and one of the great McAlpin tobacco firm. He entered the 7th regiment, (Co. G), Nov. 28, 1869, became corporal, June 20, 1873, entered the 71st, Jan. 29, 1874, was made captain, May 13, 1875, and major, 1875. This position he resigned April, 1881, and became captain of Co. A, 7th regiment, June 15 of the same year. He resigned from military life, March 15, 1882, and remained away from it until made colonel of the 71st, Jan. 12, 1885.

At last accounts Col. McAlpin, 71st Regt., N. Y., had not sent his papers in reference to his resignation to Albany, but was expected to forward them daily. An election for colonel will probably be held before the regiment goes to camp, and it is thought that Lieut.-Col. Fred. Kopper will be the successor of Col. McAlpin. The proposed parade of the regiment on July 4, in the celebration at Harlem, has been abandoned.

MILITIA ITEMS.

The Philadelphia *Press* describes the scene where sixty boys in military uniform, whose sightless eyes were blind to the sunlight which trickled through the leaves of the trees above their heads, and who could not recognize the faces of the friends and kinsmen who surrounded them, marched and drilled recently in the grounds of the Pennsylvania Institution for the Instruction of the Blind with the precision of veterans. The drilling of the cadets is a feature of this institution, and it is an original feature, to which there is none similar in this country. The patience, the study, and time spent upon this branch of instruction presents a reward in the improved bearing of the little soldiers, and in the health which the exercise gives them.

Commissions have been received at 1st Brigade Headquarters for John J. Ryan, I. R. P., 69th N. Y., and 2d Lieut. Stephen W. Merritt, Co. B, 7th N. Y.

Commissary Richard Deeves, who resigned from the 12th regiment recently, has received his honorable discharge.

Sergt. Francis J. McGee, was elected 2d Lieut. in Co. G, 69th Regt., Harry Ely, Captain, Co. C, 9th Regt., and Sergt. Frank Goldin, 2d Lieut., same company.

Col. W. Seward, Jr., of the 9th New York, has asked for a leave from June 15 to Aug. 1.

The 7th, 9th, 22d and 71st Regiments Uniformed Veteran Corps will leave New York on next Thursday on the steamboat *Pilgrim* for Boston, to participate in the Bunker Hill anniversary celebration, to be held on June 17 and 18, and to attend the annual meeting of the National Veteran Association.

Commander-in-Chief of the Grand Army of the Republic, Gen. Fairchild, ex-Governor of Wisconsin, visited Brooklyn on Tuesday as the guest of Grant Post 327 of that city, reviewed a parade of veterans from the Oxford Club in the evening, and afterwards attended a reception in the armory.

The Gate City Guard, of Atlanta, Ga., have abandoned their proposed extensive trip through Europe because the English Government refuses to allow the members of the organization to pass through England with their uniforms and arms.

On June 6 the 9th Regt. went to Creedmoor for rifle practice, and orders were, as usual, given for no one to leave the range. Q. M. Sergt. R. Weiss with several privates, however, eluded the guard and got through the fence and went to a hotel near by to have a little enjoyment. On the return of the runaways they were captured, and Major Bartlett made an example of Q. M. Sergt. Weiss by ripping off his chevrons and reducing him to the ranks in the presence of the regiment.

NEW JERSEY.

S. O. 8, JUNE 13, Hdqrs. Division National Guard of New Jersey, directs the 1st Brigade, N. G., S. N. J., Major-Gen. J. W. Plume commanding, consisting of the 1st, 2d, 4th and 5th Regiments, 1st, 2d and 3d Battalions and the Gatling Gun Co., of Elizabeth, (Drake's Zouaves), to go into camp at Sea Girt, N. J., from Monday, Aug. 22, to Saturday, Aug. 27, inclusive. The inspections of the brigade this year were very satisfactory, showing a high state of efficiency.

Gov. Green has issued an order calling the 1st Brigade into camp at Sea Girt on Monday, Aug. 22.

G. O. No. 3, N. G., S. N. J., contains instructions for the rifle practice of the season of 1887 on the range located upon the State Camp at Sea Girt. The 1st Brigade will practice during the week they are in camp. The following days are allotted to the 2d Brigade: August 1, 2, 3, 4, 5, 6, 8, 9, 10, 11, 12 and 13. Col. Geo. E. P. Howard, Division Staff, and Captain Delancy G. Walker, I. R. P., 6th Regiment, are detailed to such duty at the range during the season as may be assigned to them by the Insp.-Gen. of Rifle Practice, which they may consent to perform.

PENNSYLVANIA NATIONAL GUARD.

IN special orders No. 18 from the Adjutant General's Office, N. G. P., Co. I, 4th Regiment, and Co. C, 8th Regiment, are ordered to be disbanded. The commanding officers are directed to turn over to the Department all State property, which includes uniforms, arms, equipments and moneys, and furnish the enlisted men with proper discharges when they have turned over the property that has been issued to them. It further directs that the unassigned infantry company at Chambersburg, Pa., Capt. John C. Gerbig, be assigned to the 8th Regiment, and hereafter be known and recognized as Co. C, 8th Regt.

The resignation of Col. Theodore E. Wiedersheim, as commanding officer of the 1st Regiment, N. G. P., has been forwarded to general headquarters, and it is deemed probable that it will be accepted under the conditions presented by the colonel.

The cadets of the Pennsylvania State College marched through the rain with guns over their shoulders from State College to Camp Roberts, a distance of eight miles. The cadets are under the command of Lieut. S. S. Pague, U. S. A. The main object of the camp is to give the students an opportunity to experience actual camp life, so as to combine the practical with the theoretical. The students are deeply interested in the daily routine of guard mounting, battalion drill, dress parade and other tactics. Prizes amounting to $300 in gold are to be contended for.

MINNESOTA.

COLONEL BOBLETER, commanding the 2d Regiment, has designated the camp at Mankato Camp McGill, after the Governor of Minnesota. The regiment will be in camp for ten days from July 6. Col. Bobleter says: "The very substantial aid and encouragement the Minnesota National Guard now receives from the State obligates every officer and enlisted man in the 2d Regiment to attend the annual camps of instruction, even if he must do so at a personal sacrifice. The grand victory achieved by Co. D, 1st Regiment, Capt. Ed. Bean, at the recent national encampment at Washington, has brought the Minnesota National Guard into great prominence in every part of the United States—a fact we may justly be proud of—and the annual camp of instruction offers us the best opportunities to still further increase the efficiency of the Guard.

DISTRICT OF COLUMBIA.

A COMPANY has been formed on Capitol Hill to be known as the Ordway Rifles, named after Gen. Albert Ordway, and will go into the District militia, July 1. The officers are Captain, Argyle Mackey: 1st lieut., Sherman James: 2d lieut., Martin M. Flannery; sergeants, Charles F. Ford, Harry James, Samuel Blandford, I. H. Johannus, and Norman Helf; corporals, Edward McCauley, John Stockett, Heath Southerland and Charles Homiller.

RHODE ISLAND.

AT the recent election of field officers for the 1st and 2d Regiments under the new Brigade formation, the following was the result: 1st Regiment—Lieut.-Col. Wm. H. Thornton, to be colonel; Major Samuel T. Douglass, to be lieut. colonel, and ex-Capt. J. Albert Brown, to be major. 2d Regiment—Col. James Moran, to be colonel: James H. McCann, to be lieut.-colonel, and Capt. McPherson, to be major.

CALIFORNIA NATIONAL GUARD.

GENERAL DIMOND has announced his opposition to Chinese lanterns and other fancy decorations of an unmilitary character about a camp.

The San Francisco *Report*, referring to the appearance of the 2d Brigade on Memorial Day, says: "Some of the men in the ranks were ignorant of the merest rudiments of their work. A large proportion of them did not know the manual of arms. The companies had to be instructed how to reverse their muskets before the march was begun. The marching was miserable. We want to see the militia an efficient military force—strong in numbers, high in spirit,

thoroughly up in its work, and inspiring, whenever it appears the respect and confidence of the law abiding and taxpaying public. This standard, however, cannot be reached as long as officers entertain contempt for public opinion, which is destined to be master in the long run, even in San Francisco."

The San Francisco *Report*, now that it is assured that the militia will *not* parade in the city July 4, utters a direful hope that "while the State militia are going through a dress parade at Healdsburg, before a crowd of gaping rustics, the foreign-born military companies of San Francisco will be taking their place and receiving the well-earned applause of their fellow citizens for so doing."

HEALTHFULNESS OF FORT SILL.

THE Surgeon-General in his last annual report gave especial prominence among unhealthy stations to Fort Sill. In an article published in the Journal of the American Medical Association, Chicago, May 21, Morse K. Taylor, M.D., Major and Surgeon U. S. Army, comes to the defence of this post. He admits that it was unhealthy in former years, but he claims that under his administration of three and one-half years which has just terminated, "the post has become one of the most pleasant, healthful stations in the West." He invites attention to the fact that the time included by the Surgeon-General's report was a part of the transition period in which the post passed from an extremely unhealthy condition to one of salubrity. How sickly it has been may be understood from the records which show that in 1876 the rate of cases per 1,000 mean strength was 3.911 and in 1877 it was 3.067. The average length of time patients are under treatment at Sill is nine days, this being a fraction less than the average for the whole army, while there are 57 posts which exceed that number; San Diego taking the lead with 23 days, followed by Stockton, Texas, with 18 days, and Bowie, Ariz., with 17 days. In the Indian Territory Forts Supply and Reno have an average of 13 and 11 days respectively. As to the cause of the present unhealthness of Fort Sill, Dr. Taylor says:

At the time of the writer's assignment to this station he was made acquainted with its bad reputation and was requested to seek the cause of its unhealthiness, being assured by the department commander that every assistance should be afforded to remedy the trouble when ascertained. After examining the geology and natural environments of the post, and finding in these nothing to account for it, nor in the duties or habitations of the men, the water supply was next investigated. This came from two sources: one a shallow well situated about midway on the west side of the barrack line, which was used largely for drinking purposes by the men, and the other from a stagnant pool in Medicine Bluff Creek situated about a third of a mile from the post to the northwest. The supply from this source was obtained by driving a six-mule team and a wagon into the middle part of it, thereby stirring up all the sedimentary matters possible, and then dipping this water into the tank and delivering it to the men at the barracks and to officers in their back yards, at distances of nearly 100 feet from their dwellings; and all into open barrels unprotected from the heat of the sun, the winds, or dust. As a result, the organic matters in the water soon underwent fermentation and rendered it still more disgusting. An examination of the well water showed that it contained a large amount of chlorides, free and albumenoid ammonia, nitrites and nitrates. Although it was situated at an elevation of 50 feet above the surrounding bottom lands and 70 feet above the creek, the water came to within 12 feet of the surface of the ground; and it was but 30 feet from the barrack buildings and 250 feet from the cavalry stables. Its water supply was clearly derived from the surface drainage of the post and contaminated in the highest degree.

The creek water was next examined and found even worse. Further investigation showed that the proper source of supply was a small spring from which some of the officers obtained their drinking water, but which was condemned in 1877 by the Post Surgeon on the theory that it had its origin in surface water. An examination of the spring was made and the result is thus described:

The work soon revealed the fact that the water came through a bed of porphyry gravel resting on the sand rock about eighteen inches above the creek bed; and further, by lowering the outflow the discharge was increased to over 7,000 gallons per hour. On reporting the results of his efforts to the Department Commander, the sum of $3,500 was appropriated for introducing the water to the post. Soon after a storage basin of 7,000 gallons capacity was excavated in the rock, and a spring house of solid stone masonry, with walls four feet thick, twenty feet high, and substantially arched over, was constructed to protect the spring from the floods and drift wood of the creek, while an automatic valve was introduced in the outflow pipe to shut off the back water from the stream when it should rise above the level of that in the basin.

During that season the water was distributed by the wagons and stored at the dwellings in barrels as before; and it was not until the spring of 1885 that the water was introduced into the houses. From the time that the water supply was exclusively from this spring there was a steady improvement in the health of the post. The following comparison will make this apparent. The months of August, September, and October are taken as basis because these here, as elsewhere, are the months when malarial fevers, dysenteries, and diarrhœas most abound.

Malarial fevers, dysenteries, and diarrhœas for the years of

	1883.	1884.	1885.	1886.
Rate per 1,000 m. s.....	560	550	404	223

Notwithstanding this great difference in the rate per 1,000 of mean strength, the improvement has been still more apparent in the lessened severity of the attacks. Not only this, but the whole aspect of the post has been changed. The sad faces, the feeling of despondency, and the bitter curses which were hurled against it four years ago, have given place to a healthful glow, a pervading cheerfulness, and an admiration for its natural beauties, its delightful climate, and its excellent sanitary condition. The bloom of nearly a thousand fruit and ornamental trees, while adding to the charms of the place, attest the interest manifested by both officers and men in its improvement.

It is now one of the most desirable stations in the West, with a certainty of still further changes for its betterment when the system of drainage shall be completed, and the sewage be utilized on the gardens, so that the discomforts incident to remote stations from markets and prolonged drouths may be remedied. Moreover, it illustrates in a remarkable degree the baneful influence of impure water on public health, for the conditions of the troops, in all other respects, have been almost identical since 1882, and but little changed since the establishment of the post in 1869.

The post is situated 1,200 feet above the sea, upon an irregular quadrilateral plateau about one-fourth of a mile in diameter, its sides corresponding in a general way to the cardinal points; and at an elevation above the surrounding lands of from fifty to sixty feet on the east, south and west; while on the north it is skirted by the bed of Medicine Bluff Creek, with a sharp declivity of seventy feet. Along this creek there is a strip of heavy timber about one-fourth of a mile in width, but beyond this, and extending in all directions for one or two miles, are open bottom lands, all of which are well drained. At a distance of a mile or so to the northwest are the foot-hills of the Wichita Mountains, while elsewhere beyond the bottoms are wide rolling, high, beautiful prairies. Cache Creek rises about thirty miles to the northward, and running nearly due south, passing the post to the eastward three-fourths of a mile, empties into the Red River forty-five miles away. Medicine Bluff Creek, rising in the Wichita Mountains, and taking a nearly due eastern course past the post on its northern side, discharges into the Cache within the limits of the reservation. Both are free flowing streams at ordinary stages; having dry beds, however, in many places in midsummer, in others stagnant pools, while in the rainy season they rise to the height of between fifteen and twenty feet; the Medicine Bluff becoming a turbulent mountain torrent.

AS THE bearskin companies stood in the Garfield circle on Thursday at the unveiling of the statue, the hot sun made the boys wilt, and a good many hats came off. "We would put those men under arrest if they were regulars," said an old officer on the platform.

"You bet," replied another. "I sat on a Court-

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

AN EXTRAORDINARY RAZOR HAS BEEN INVENTED by the QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,
(Late Third Auditor U. S. Treasury, late Capt. U. S. Army, and Colonel of Volunteers,)
ATTORNEY AND COUNSELOR AT LAW
(Corcoran Building), F and Fifteenth Streets, Washington, D. C.

Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D.C.; Hon. John S. Williams, 3d Auditor, U.S. Treasury, Washington, D.C.; Hon. W. P. Canaday, Sergt. at Arms, U. S. Senate, Washington, D. C.; Gen. O. O. Howard, U. S. Army.

BABY'S SKIN & SCALP CLEANSED PURIFIED AND BEAUTIFIED BY CUTICURA.

FOR CLEANSING, PURIFYING AND beautifying the skin of children and infants and curing torturing, disfiguring, itching, scaly and pimply diseases of the skin, scalp and blood, with loss of hair, from infancy to old age, the CUTICURA REMEDIES are infallible.

"Who was that?"

"That little rooster over there in front dressed in a brass foundry."

"What! Phil Sheridan?"

"No other. And he got three days for it, too."—*N. Y. Evening Sun.*

ANSWERS TO CORRESPONDENTS.

First Sergeant.—The information you desire cannot be obtained.

A. M. G.—May 30, Memorial Day, is not a National holiday established by law.

Quivis.—There are only three line retirements for age yet to be made in 1887: Col. John Hamilton and Lieuts. F. C. Nichols and W. H. McMinn.

B. B.—A non-commissioned officer on duty as acting ordnance sergeant, at the station of his company, would receive no extra allowance of fuel, but if on such duty at an ungarrisoned post, he should receive the allowance of fuel prescribed for an ordnance sergeant. Circumstances alter cases.

A correspondent asks: Does the 1st sergeant stand in his place on the right of the front rank and salute the captain (on receiving orders to dismiss the company), and then step two paces out to the front, face to the left, and command, "Arms port, break ranks, march," or does he salute after stepping out to the front and facing to the left? ANS.—He salutes before he steps to the front. When the captain tells the 1st sergeant to dismiss the company he virtually relinquishes command. The sergeant, after saluting, is in charge.

2. Explain the correct way for marching by the right flank. ANS.—The movement is thoroughly explained in par. 41 of the Tactics.

3. The company is in column of platoons and marching, arms at a trail, guide left, command is given, *Guide right.* Do the guides pass in front of their platoons in double time, at a right shoulder, or do they come to trail arms and then pass across the front of their platoons? ANS.—They can do either without making a mistake. Both trail and right shoulder are proper at double time.

W. G. M. asks: 1. "Fours in circle, right (or left) wheel, march." Can this order be executed from a march in line, or must it be done only from a halt? See Upton, par. 212, p. 86. ANS.—Par. 212 neither describes that the movement be executed from a halt or on the march, and therefore, according to par. 4 it can be executed from either position.

2. Marching in column of files, single rank, "Form fours, left (or right) oblique, march." Is this command executed as in Upton, par. 238, p. 98, or does that paragraph refer only to double rank movement? In other words does "leading file march forward three yards and halt?" If not, why not? Does not Upton, par 247, sanction such action? ANS.—The following official decision of the War Department seems to cover your question: "Paragraphs 238 and 239, Infantry Tactics, prescribe that in forming column of twos from column of files, in double rank formation, the leading file advances three yards and halts, the movement being necessarily a successive one. While it is practicable to execute this movement simultaneously in single rank formation, it is believed to be the general practice in the service to execute it successively in accordance with the directions in paragraphs 238 and 239, taken in connection with paragraph 247."

3. In a competitive drill, captain brings his company to present arms, salutes judges, and reports for orders. Held, that this was an error, as company should be at a carry. Tactics are silent. Captain holds that the courtesy was due the judges, and that drill did not commence until after he had received his orders from the judges. Who is right? ANS.—There is nothing in Tactics or Regulations providing for competitive drills, and if your programme did not specify anything covering such a case, we are unable to answer your question. The only thing which might possibly be construed as having any bearing upon the matter is the following decision from the A. G. O., dated Sept. 29, 1884: "When a company is inspected on company parade ground (not preceded by a review) the company does not present arms. The inspector is saluted by the company commands only, the company being at carry arms."

At any rate the matter is unimportant and the question seems to result from too much competitive drill on the brain. Drills of this kind have a tendency to turn men into military cranks and triflers rather than to make them good practical soldiers.

(San Francisco Dispatch to the Cincinnati Enquirer.)

KALAKUA TRIES TO KEEP CHEERFUL.

THE latest advices from the Sandwich Islands describe King Kalakua as having had a royal time since Queen Kapiolani departed for Europe. The gay king has received from San Francisco a new dog-cart, very high in the wheel, and English in pattern. The conveyance greatly pleased His Majesty and the dusky belles of Honolulu have all had Sunday excursions therein, to the delight and edification of the kingdom. The arrest of the attorney-general and his incarceration in the city prison at Honolulu for drunkenness is among the happenings that show the effects of the good Queen Kapiolani's departure. Still later advices report that the jovial King's subjects are almost in a state of insurrection, because of his extravagances and neglect of the public interests.

Proposals for Quartermaster's Stores.

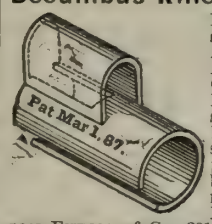
JEFFERSONVILLE DEPOT, Q. M. DEPARTMENT, JEFFERSONVILLE, IND., June 14, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock, A. M., (Central Standard time,) on Wednesday, July 20, 1887, at which time and place they will be opened in presence of attending bidders, for furnishing and delivering at this Depot miscellaneous Quartermaster's stores, such as Barrack and Office Furniture, Six-mule wagons, Escort wagons, Ambulances, Dougherty Spring wagons, Dump carts, wagon materials, Blacksmiths', Farriers', Wheelwrights', Masons', Saddlers', and miscellaneous tools, iron, hardware, paints, oils, etc.

The Government reserves the right to reject any or all proposals, and to accept the whole or any portion of the supplies bid for.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture, produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blank proposals, specifications, and full information as to bidding, etc., will be furnished on application to this office.



Envelopes containing proposals should be plainly marked "Proposals for ——, at Jeffersonville Depot, Indiana," and addressed to the undersigned.

FIFTY horses purchased in Canada for the use of the army have been landed at Woolwich Arsenal.

A COLONIAL service paper, the Australian *Naval and Military Gazette*, has been established at Melbourne.

ADVICES from Merv say that the Russians at Chardjui are fitting out two steamers and a number of iron lighters to transport material for the Transcaspian railway and to reconnoitre on the Amu-Daria River. The British are equipping two light draught steamers, with steel guns, for use upon the upper Amu-Daria.

THE first of the English 110-ton guns has completed its trials over the sea ranges before Shoeburyness, and been put on board the new ironclad *Benbow*, at Chatham. The second gun of the same nature will be taken to the *Benbow* from Woolwich, where the third will remain in reserve to supply the place of either of the others if occasion should require.

THE last medical return of the British Army shows that the greatest mortality has been in the Heavy Cavalry, 2.53 per cent.; and the least in the Field Artillery, 1.44 per cent. The most numerous cases of disease as distinguished from wounds were those of the air passages and chest. There was an increase of zymotic diseases over the returns of last year, and one case of rabies is mentioned.

PEOPLE of a sceptical and mathematical turn of mind are just now working out the following "rule of three" sum: "If 11 torpedo-boats out of 24 are rendered temporarily useless after a fortnight's evolutions and tactics, how many men-of-war out of the 100 to be engaged in the Jubilee naval review are likely to come to grief, by collision or otherwise, in 10 days." We are seriously considering the advisability of offering a prize for the best solution.—*Army and Navy Gazette.*

THE census of France for 1886 shows a total population of 38,218,903, against 37,672,048 in 1881. The population of Paris has increased only 75,000, against an increase of 280,000 recorded in 1881.

PHENOL SODIQUE, for all FRESH CUTS or WOUNDS in either men or animals, as a dressing, is excellent, while for SORES of any kind on horses, its healing qualities cannot be too highly recommended.—*Presbyterian Journal.*

WHAT'S THE BEST DISINFECTANT and remedy for skin irritations and defects? GLENN'S SULPHUR SOAP. HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

Owing to their entire freedom from injurious drugs, "Tansill's Punch" 5c. Cigars are the most popular in the world.

THE fearless soldier on the midnight watch and the bold mariner before the mast on a stormy sea will certainly suffer from pain in the Chest, Shoulders, Back and Loins, as well as Rheumatism, Sciatica, stiffness and other results of exposure, if they fail to use BENSON'S PLASTERS as a preventive and cure. They never fail. Avoid imitations.

MARRIED.

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D.C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy.

Proposals for Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, NEW YORK CITY,
June 4, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office until 11 o'clock A. M., July 7, 1887, at which time and place they will be opened in the presence of bidders for furnishing and delivering at this depot, miscellaneous Quartermaster's stores, such as G. I. buckets and barrels, office furniture, tools, hose, pipe, oils, &c., &c., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department. Preference given to articles of domestic production and manufacture, condition of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, &c., will be furnished by this office on application.

Envelopes containing proposals should be marked, "Proposals for Quartermaster's Stores, to be opened July 7, 1887," and be addressed to the undersigned.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

ARMY AND NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 48.
WHOLE NUMBER 1244.

NEW YORK, SATURDAY, JUNE 25, 1887.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

ROUTE marching and camps of instruction for the troops during the summer are on the increase in the Regular Army, and we look forward to the day when they will be the rule, wherever practicable and be suitably provided for in the allotment of each year's appropriation. Too much rusting in garrison is harmful.

SOME may be inclined to charge the Lieutenant General with partiality in designating cavalry for station at Fort Myer, Va., but we are authorized to state that he did not so conclude until he had become thoroughly convinced that the post was unsuited for artillery or light battery purposes. After a thorough inspection of the post it was found to be not at all adapted for light battery practice and to require but very slight improvements to convert it into a cavalry post.

IN an article in the JOURNAL of June 11, on the new system of tactics devised by Major H. S. HAWKINS, 10th Infantry, we quoted an officer's objection to any change "which is not specially suited for manœuvring a three battalion regiment." Major HAWKINS, with reference to this, says: "The system I propose *is* based on the three battalion organization, while at the same time it provides for the present organization. So whether Congress acts or not in this direction the essential features of the system are not affected."

IN the JOURNAL of May 21 last we referred to the responsible duties of ordnance sergeants, post quartermaster sergeants, and commissary sergeants, and expressed the hope that Congress at its next session would see fit to give these non-commissioned staff officers the same pay as is now given to hospital stewards, under the act of March 1, 1887. Since then we note that the commissary sergeants have invoked the aid of their chief—General MACFEELY—and there is a good prospect that the matter will be brought to a successful issue.

A CORRESPONDENT raises the question as to the propriety of addressing officers by the title of their rank in the volunteer service during the war. As to that the law expressly provides that "all officers who served during the rebellion as volunteers in the Army of the United States and have been honorably mustered out of the volunteer service, shall be entitled to bear the official title, and upon occasions of ceremony to wear the uniform of the highest grade they have held, by brevet or other commissions in the volunteer service." (Rev. Stat., 1226.)

THE Illinois Legislature has enacted the necessary legislation ceding the right and title of the tract of land known as the Highlands, near Chicago, to the United States for a military post, and the papers are now on the way to the War Department. The next step toward utilizing this land for the purpose intended will be to prepare plans and estimates for the necessary buildings for a ten company post. A very handsome set of drawings were prepared some time ago by Messrs. HOLABIRD and ROCHE, of Chicago, but they call for a larger sum of money than the authorities are disposed to recommend to Congress. It is estimated that the buildings, according to these plans, will cost nearly a million dollars. General TERRY will probably be requested to present a new set of drawings and estimates in season for transmission to Congress in December next.

IT will be observed that the design for a new cruiser submitted by the Barrow Ship Building Company—the only one that receives the approval of the Naval Board to which the various designs were submitted—provides for protecting the vital parts of the ship by a "*steel faced* armored belt." Among the objects sought, as described by the designers, one is "to protect the vital parts, so far as possible, in the most efficient way;" to accomplish this they deem it necessary to use compound armor. It will be further noted that the new Austrian armor-clad described elsewhere has compound armor.

NO ACTION has yet been taken by the War Department towards the restoration of Major RUNKLE to the retired list of the Army, in accordance with the recent decision of the U. S. Supreme Court, and until he comes forward and demands his pay it is not likely any will be taken. He will, of course, be restored, and when the Court of Claims has decided upon the amount, will receive all back pay due him, but just how his name will be placed on the retired list is not yet understood. An Executive order will no doubt be necessary, but as there is no vacancy on the 400 retired list the question arises, can he be included among those retired on account of age?

A WRITER in the London *Daily Telegraph* gives an excellent review of the work done during the past ninety years, at the Government Small Arms Factory at Enfield, and says: "It is extremely probable that the last of the changes have not yet been seen as regards the Enfield-Martini. Very probably the ejector will be again altered, and the chamber for the cartridge rebored to fit a cartridge of a uniform taper (a truncated cone) having no shoulder. When all has been done, and 100,000 or 150,000 rifles remade, should General Smith's Committee report favorably on the newer magazine gun, these weapons will all be useless. The committee are now hanging fire, but are reported to have adopted some new rifling, and new type of magazine. The bolt action is to be stuck to, but the latest of the new repeaters is neither a Lee nor a Lee-Burton."

THE Chicago *Tribune* recently published a description of the scheme adopted by JAY GOULD to develop his Missouri Pacific Railroad system, by constructing 60 miles of railroad from Fort Gibson, I. T., to Van Buren, Ark. This, in connection with his purchase of the Little Rock, Mississippi and Texas, and the Little Rock and Fort Smith Railroads, will give a direct line over the Missouri Pacific to Arkansas City on the Mississippi River, and thence by water to New Orleans. This connection between Gibson and Van Buren will enable the Missouri Pacific to transport all the products of southwest Missouri, Kansas, Nebraska, Texas and the Indian Territory, and with the Colorado line drain that country too, through Arkansas City to the Atlantic Ocean, and keep up his traffic 365 days in the year; for Arkansas City is so situated that an ample depth of water prevails in the driest of seasons, and ice forms no impediment in the winter.

THE Ordnance Department of the Army, after repeated experiments with various samples of powder, have concluded that the brown prismatic powder, known as Dupont's "P. N.," used during the first firings with the 8-inch steel gun, is the most suitable for this weapon. Seventeen thousand pounds of this grade have been ordered, and as soon as delivered at Sandy Hook the experiments with the 8-inch gun will be continued. Fifty-four rounds have already been fired from this gun, and it is proposed to subject it to several hundred, in order to make the best showing possible next winter when Congress will, as usual, want to know what the Ordnance Bureau has done in the way of heavy gun construction. Ordnance officials seem well satisfied with the endurance qualities of the gun and are anxious to see it well tested. With the exception of the trial of this gun, the Ordnance Department will be compelled, owing to the failure of the Fortification bill, to cease all operations, so far as heavy guns are concerned, after the 1st of July. No further firings with the 12-inch cast iron gun will be made for the reason that it is believed to have already reached the limit of its endurance. One hundred and thirty-seven rounds in all were fired. There had been some talk of putting a steel tube in this gun, but no funds being available, this idea has been abandoned.

GENERAL BOULANGER appears to have fallen into the category of dead sensations, which are said, on the most competent authority of Mr. P. T. BARNUM, to be impossible of revival. The *Débats* now characterizes his work as "much ado about nothing," accuses him of having done nothing but meddle and muddle, and of having done much to destroy the discipline of the army. General BOULANGER has "revolutionized the army, disturbing institutions which had stood the test of time, solely through a love of change." Last of all, he is accused of skimming a number of regiments to strengthen the battalions lying along the eastern frontier, which constitute the covering army destined to resist any sudden attack on the part of the Germans. The *Débats* severely condemns this measure, which disorganizes a number of regiments to raise the effective of others, declaring that it was a similar system which produced the disasters of 1870 and 1871. It has not a word of praise for the late War Minister, and the service paper, the *Avenir Militaire*, is just as merciless. A portrait of General BOULANGER which was published just before his retirement from the War Office, struck us as having a marked resemblance to our Naval Chief of the Bureau of Equipment and Recruiting, and we did intend to say so; now we forbear—at least we won't mention the name of the modest and handsome gentleman who fills that office so acceptably. Some of our officers will remember meeting General BOULANGER during his visit to this country at the time of the Yorktown centennial, when he left a most agreeable impression with us. General BOULANGER's successor, General FERRON, when called to the War Office, was acting as a General of Division in the 7th Army Corps at Chaum. He saw service in the Crimea and in Algeria. He arrived too late from New Caledonia to take part in the Franco-German War, but he took part in the operations against the Commune. The new War Minister is said to be the author of the present plan of mobilization, is in favor of the period of active service being reduced to three years, and he wishes to see companies with a stronger peace establishment than at present. For the most part, he appears to approve of the re organization scheme prepared by his predecessor. The new Minister of Marine, M. BARBAY, although a civilian, was formerly a lieutenant in the Navy.

PERSONAL ITEMS.

PROFESSOR S. E. TILLMAN, U. S. A., of West Point, is spending vacation in Europe.

LIEUTENANT J. W. RUCKMAN, 5th U. S. Art., and bride are at Silver Lake, Vermont.

CAPTAIN J. A. SNYDER, 3d U. S. Inf., on leave from Fort Custer, Montana, is visiting in Baltimore.

COLONEL H. C. MERRIAM, 7th U. S. Infantry, is expected to return home from Europe early in July.

LIEUTENANT S. E. SMILEY, 8th U. S. Infantry, on leave from Niobrara, Neb., is visiting at Bridgeton, N. J.

LIEUTENANT F. D. RUCKER, 2d U. S. Cav., has returned to St. Louis from a brief visit to Fort Leavenworth.

GENERAL A. W. GREELY, U. S. A., has returned to Washington from his visit to New York City and New Haven.

CAPTAIN W. P. HALL, 5th U. S. Cav., lately visiting at Huntsville, Ala., has had his leave extended two months.

CAPTAIN J. B. GIRARD, post surgeon of Fort Schuyler, N. Y. H., returned there early in the week from a short leave.

MAJOR H. E. BROWN, Surgeon, U. S. A., on leave from Fort Reno, I. T., is stopping at 746 Bergundy street, New Orleans.

COLONEL W. H. LUDLOW, U. S. A., returned to Washington this week from a second visit to his home on Long Island.

LIEUTENANT S. L. FAISON, 1st U. S. Inf., lately arrived in the East from the Pacific Coast is at 560 Myrtle avenue, Brooklyn.

LIEUTENANTS MILLS, Miley, Tripp and Loveridge, U. S. A., were expected to reach "bonnie Scotland" on Saturday of this week.

CAPTAIN CHAMBERS MCKIBBIN, 15th U. S. Inf., on sick leave for some time past, will join his regiment in Dakota early in the autumn.

CAPTAIN E. F. GARDNER, Assistant Surgeon, U. S. Army, returned to Madison Barracks, N. Y., on Thursday, from a week's vacation.

SECRETARY OF WAR ENDICOTT and Civil Engineer A. G. Menocal, U. S. N., were guests at the Fifth Avenue Hotel, New York, on Saturday last.

MAJOR S. S. SUMNER, 8th Cav., at present commanding Jefferson Barracks, Mo., succeeds Colonel Lazelle as Inspector-General Department of the Columbia.

COLONEL W. R. SHAFTER, 1st U. S. Inf., will early in July establish a camp of instruction for his regiment at Santa Cruz, Cal., to continue until the end August.

LIEUTENANT EDWARD DAVIS, 3d U. S. Art., under his recent transfer, will remain on duty at Washington Barracks, but with Mount's battery instead of Smith's.

LIEUTENANT D. H. BOUGHTON, 3d U. S. Cav., is to be married at Fort Leavenworth, June 30, to Miss Henrietta Rittenhouse, daughter of Gen. Thomas Wilson, U. S. A.

MAJOR J. W. WHAM, Paymaster, U. S. A., of New York City, is acting as Chief Paymaster, Division of the Atlantic, during a brief visit of Col. Daniel McClure to the South.

PRINCE NAPOLEON'S son Louis is now serving in the Italian Army as an officer of the 3d Regiment of Cavalry, under the name of Count Luigi Moncalieri. He is stationed at Verona.

GENERAL J. G. PARKE, U. S. A., is receiving much benefit from his trip abroad and we trust will return in excellent health to enter with vigor upon his new duties at the Military Academy.

MAJOR JAMES F. GREGORY, Corps of Engineers, U. S. A., was expected to return this week to Baltimore from West Troy, whither he was recently called by the death of his mother.

LIEUTENANT JAMES O'HARA, 3d U. S. Artillery, has taken charge of quartermaster and subsistence matters at Fort McHenry, Md., during the absence on leave of Lieut. C. G. Woodward.

MISS LOUISE E. SERGEANT, daughter of Captain William Sergeant, 12th U. S. Inf., who died April 11, 1865, of wounds receeived in battle, was married at Harrisburg, Pa., June 15, to Mr. John C. Kemkel.

CAPTAIN J. R. BRINCKLÉ, 5th U. S. Artillery, brought his light battery into Fort Hamilton in good shape early in the week, and all concerned seemed the better for the march to Delaware and back.

CAPTAIN J. G. BALLANCE, U. S. Army, the talented Judge Advocate in this department, was, says the San Antonio *Express*, "introduced in the Federal court May 25 by Hon. Jack Evans, and admitted to practice in that tribunal. The Captain had previously been admitted in the State courts."

"GENERAL THOS. H. RUGER, U. S. A.," says the Leavenworth *Standard*, "is temporarily amongst us once more. He was greeted cordially by the friends he had made while stationed at the fort as post commander. If he could find time to visit the city he would be greeted just as kindly by the citizens. All would be pleased to honor such a true soldier and gentleman."

CHAPLAIN HENRY SWIFT, U. S. A., in a recent letter to the New York *Tribune* from San Antonio, says the credit of a certain contribution by Louise Morgan Simpson to the "Fresh Air Fund," is due to the Army, and not, as stated, to Texas. The chaplain says: "She made fancy work and disposed of it, no light labor in this hot climate; and her contribution meant more energy and devoted unselfishness than even the sum of money sent expressed." The young lady is a daughter of Capt. John Simpson, Assistant Quartermaster, U. S. A., on duty at San Antonio.

CAPTAIN E. B. SAVAGE, 8th U. S. Inf., is spending a portion of the summer in Europe.

COLONEL E. C. MASON, U. S. A., has returned to St. Paul from an inspection visit to Faribault.

CAPTAIN GUSTAVUS VALOIS, U. S. Army, retired, is spending the summer at Berlin, Germany.

GENERAL J. H. WILSON, was a recent guest of Col. J. P. Martin, U. S. A., at Fort Leavenworth.

CAPTAIN HENRY ROMEYN, 5th U. S. Infantry, of Fort Keogh, will make a short visit East in July.

GENERAL Z. B. TOWER, U. S. A., has gone to Cohasset, Mass., to spend a portion of the summer.

LIEUTENANT FRED WHEELER, 4th U. S. Cav., of Fort Huachuca, is expected East in July to spend the summer.

MR. ARCHIBALD FORBES, of London, has been quite ill of an aggravated case of eczema. He is improving slowly.

CAPTAIN J. H. BRADFORD, 19th U. S. Inf., on leave from Fort Clark, Tex., until November next, is at Wilmington, Del.

MAJOR GENERAL A. H. TERRY, U. S. A., enjoying a pleasant visit to friends in Connecticut, will soon return to Chicago.

ASSISTANT SURGEON W. C. BORDEN, U. S. A., will leave Fort Douglas, Utah, next week, for the East on a month's leave.

CAPTAIN D. H. KELTON, 10th U. S. Inf., on leave from the West, is in Detroit, and from there goes to Mackinaw's Island.

LIEUTENANT J. R. WILLIAMS, 3d U. S. Art., and Mrs. Williams, now in Paris, France, will return home in September.

LIEUTENANTS C. W. HOBBS and C. G. Treat, U. S. Army, returned to Fort Monroe, Va., this week from short leaves of absence.

LIEUTENANT STEPHEN H. ELLIOTT, 5th Cavalry, under recent transfer goes from Fort Ringgold, Tex., to Fort Reno, I. T.

SURGEON GENERAL JOHN MOORE, U. S. A., and Mrs. Moore, have been on a visit to Major John Brooke, post surgeon, Fort Monroe.

AN interesting article on "The Battle of Atlanta," by the late Gen. A. J. Alexander, U. S. A., was published in the Philadelphia *Weekly Press* of June 8.

CAPTAIN GEO. S. WILSON, 12th U. S. Infantry, has turned over the command of Fort Wood, Bedlow's Island, to Lieut. A. G. Tassin, 12th Infantry, and gone on a few weeks' leave.

LIEUTENANT WILLISTON FISH, 4th U. S. Artillery, goes on six months' leave July 1, and at its termination leaves the Service. He is a young officer of excellent literary ability, has written one or more good novels, we believe, and it is doubtless his intention to forsake the sword for the pen.

THE Pontiac *Gazette*, referring to the Michigan Military Academy, says: "There are no more complete educational advantages offered by any military academy in the country, and none that approach the natural beauties of its location. It is situated 26 miles from Detroit. The military staff consists of Col. J. Sumner Rogers, M. S. T., Superintendent; Lieut. Frederick S. Strong, 4th U. S. Art., Adjutant; S. F. Hawley, Quartermaster; Maj. Frank B. Galbraith, M. S. T., Surgeon."

CAPTAIN CHARLES KING, U. S. A., retired, the great novel writer, says the Kansas City *Times*, is at Fort Leavenworth, the guest of General McCook. He is engaged on a series of articles on military schools of the United States, and he is here to study the course at the U. S. Infantry and Cavalry School and include it among his series for "Harper's Monthly Magazine." He is accompanied by an artist, Mr. Zugbaum. Captain King's thorough knowledge of Army affairs amply qualifies him to write of this post and school as it deserves.

AT the recent annual commencement of the Shattuck School at Faribault, Minn., the competitive infantry and artillery drills took place, Lieut. P. Leary, 4th Art.; Lieut. C. L. Hodges, Q. M. 25th Inf., and Lieut. Geo. Andrews, adjutant 25th Inf., from Fort Snelling, acting as judges. Col. E. C. Mason, U. S. A., Inspector General, Dept. of Dakota, inspected the battalion, and in the evening announced in a neat speech the decision of the judges, that Co. D had made the best average, although all had done finely. Lieut. A. T. Abbott, U. S. A., the military instructor, is to be congratulated on his work.

AN amusing story is going about, says *Truth*, with the Archdeacon of Winchester for its hero. A few days since the archdeacon took a party of ladies over the cathedral, and, having entered the sacred edifice, put the key in his archidiaconal pocket. The organ happened to be under repair, and some of the pipes were lying about. The archdeacon is a small man, and his evil genius prompted him to give his friends a practical illustration either of his own smallness or the vast dimensions of one of the pipes, by crawling into it. But either the archdeacon was bigger than he supposed or the pipe was smaller; for, having screwed himself inside, there the reverend gentleman stuck. The key of the church being in his pocket, and the ladies being unable to extract him, the archdeacon had to remain there till the workmen came back from dinner.

THE Chicago *Citizen*, referring to the fact that Capt. F. D. Garretty, 17th Inf., is, in a few days to transfer his recruiting rendezvous to Milwaukee, says: "The captain is too good a soldier to say anything about the wisdom, or want of wisdom, of his superior officers in removing his sphere of usefulness to the Service from a metropolitan city to a smaller one. Milwaukee has its charms, indeed, for there is no handsomer city of its size anywhere, and no people are more kindly and hospitable than its inhabitants; but still Milwaukee is not Chicago. Captain Garretty, since his residence in this city, which began last October, has gained golden opinions for himself, and will carry with him to Milwaukee the warmest regards of the innumerable friends he leaves behind. We hope the gallant veteran will enjoy the change which duty makes imperative."

CAPT. AND MRS. D. MORTIMER LEE, U. S. A., will spend the summer at Bethlehem, N. H.

LIEUT. GEN. SHERIDAN, who is in Saratoga this week, will return to Washington June 25.

CAPTAIN JOHN L. BULLIS, 24th U. S. Infantry, is visiting his uncle, Dr. John D. Hill, at Buffalo, N. Y.

COLONEL LORENZO SITGREAVES, U. S. A., registered at the Grand Hotel, New York City, on Tuesday.

LIEUTENANT E. S. BENTON, 3d U. S. Artillery, left Newport Barracks, Ky., on Monday on a week's leave.

LIEUTENANT J. H. ALEXANDER, the colored West Point graduate, is to be assigned to the 9th U. S. Cavalry.

LIEUTENANT H. S. COLE, 3d U. S. Inf., and bride have joined at Ft. Custer, M. T., and been heartily welcomed.

LIEUTENANT-GENERAL SHERIDAN, who is president of the Chicago Jockey Club, is to spend a few weeks in that city during the summer.

LIEUTENANT AND MRS. SEBREE SMITH, U. S. A., with their three children, are spending a few weeks at Cranston's Hotel, West Point.

WINFIELD SCOTT, a nephew of the late General Winfield Scott, U. S. A., was severely stabbed in an affray at Richmond, Va., June 19.

LIEUTENANT W. R. ABERCROMBIE, 2d U.S. Inf., who has been under treatment at Hot Springs, Ark., will remain there for a few weeks longer.

MAJOR-GENERAL O. O. HOWARD, U. S. A., presented the diplomas at the recent Zeitzka commencement exercises at San Francisco.

GENERAL JAMES OAKES, U. S. A., registered at the Murray Hill Hotel, New York, on Wednesday, and Comdr. J. R. Schouler, U. S. N., at the St. James.

CAPTAIN J. L. TIERNON, 3d U. S. Artillery, of Newport Barracks, Ky., was in Louisville this week acting as judge at the Inter-State Competitive Drill.

MAJOR CHAS. H. ALDEN, Surgeon, U. S. A., was to leave Fort Snelling, Minn., this week for the East, to spend a leave before joining at West Point for duty at the end of August.

LIEUTENANT VICTOR H. BRIDGEMAN, 2d U. S. Art., whose tour of duty at Willet's Point expires next week, will then proceed direct to Fort Barrancas, Fla., for duty with his battery.

COLONEL JOHN HAMILTON, 5th U. S. Art., will go from Fort Hamilton in a few days to Vermont to spend on leave the period between now and his retirement for age, August 10 next.

GREAT preparations are being made at Prescott, Ariz., for the approaching marriage of Lieut. E. J. Spencer, Corps of Engineers, U. S. A., to Miss Kate Tritle, daughter of ex-Gov. Tritle.

CAPTAIN EARL D. THOMAS, 5th Cavalry, says the Kansas City *Times*, is the noted bridge and road builder of the 5th Cavalry. When any work of that kind is to be done he is generally detailed.

COLONEL JUAN QUINTAS, Chief of Ordnance of the Mexican Army, accompanied by Lieut. Cruz, is on his way to New York City, to spend several months in studying the fortifications and ordnance.

MISS CLARA FRENCH GREBLE, daughter of that gallant officer, John T. Greble, who was killed at Big Bethel, June 10, 1861, was married June 22, at New Haven, Conn., to the Rev. Chas. C. Griffith, of Baltimore.

GENERAL BOULANGER will soon receive a command in the French army. An opening for him has been effected by severing the presidency of the Comite de Geni (Board of Engineers) from the command of an army corps, and relieving the present incumbent from his military command.

LIEUTENANT J. C. GRESHAM, 7th U. S. Cav., lately on duty at the college at Blacksburg, Va., was presented with a handsome sabre by the corps of cadets. Governor Lee made the presentation, at the recent commencement exercises, to Lt. Gresham's proxy, the Lieutenant being unavoidably absent.

GENERAL JOHN NEWTON, U. S. A., attended on Wednesday the 42d annual commencement of St. John's College, Fordham, and delivered an interesting address to the graduates. An appreciated portion of the exercises was the guard mount and skirmish drill by the cadets, who gave ample evidence of the energy and ability of their tutor, Lieut. H. G. Squiers, 7th U. S. Cav.

CAPTAIN C. A. CURTIS, U. S. A., retired, broke his left leg recently, while en route to his home at Madison, Wis., from Gainesville, where he has been on duty as Professor of Military Science and Tactics at East Florida Seminary. It occurred at Harvard Junction as he was stepping from the train. Capt. Curtis is progressing well, but the accident somewhat spoils his vacation.

THE "Fordham Monthly," which represents St. John's Jesuit College, in an article on the cadets, says: "On Oct. 10, 1885, Lieut. H. G. Squiers, 7th U. S. Cavalry, reported for duty at Fordham, as Professor of Military Science and Tactics, in compliance with special orders from the War Department. Mr. Squiers is a genial young officer, and has spared no pains to make the Corps of Cadets a success. By appointment from civil life he became 2d lieutenant in the 1st Infantry, and was transferred to the 7th Cavalry, Aug. 1, 1880. After having served with his regiment at various posts in Dakota from Nov. 12, 1877, to May 1, 1880, he was detailed to the U. S. Artillery School, Fortress Munroe, Va., where he served from May 1, 1880, to date of graduation two years later. After the completion of the artillery course he was with the 7th Cavalry on the frontier till Oct. 10, 1882, when he was ordered on duty at Division Headquarters, Chicago, Ills. On May 16, 1883, he rejoined his regiment in Dakota and served until Oct. 10, 1885, the date of his detail at St. John's College. As a nucleus around which to gather cadets he formed a squad of 12 recruits whom he drilled daily in the manual of arms." Accompanying the article is a likeness of Lieut. Squiers and three handsome young cadet officers.

LIEUTENANT G. W. WEBB, 25th U. S. Inf., has rejoined at Fort Meade, D. T., from a trip to St. Paul.

MAJOR JOHN BROOKE, Surgeon, U. S. A., of Fort Monroe, Va., visited New York City this week on a short leave.

LIEUTENANTS MALLORY and Van Liew, 2d Inf., were visitors in Lincoln, Neb., last week. Mrs. Van Liew is at present visiting her father at Fort Leavenworth.

MAJOR-GENERAL A. H. TERRY, U. S. A., registered at the Grand Hotel, New York on Thursday and Inspector-General H. J. Farnsworth, U. S. A., at the Gilsey House.

THE marriage of Mr. J. Wm. Palmer, of the Special Order Division of the Adjt.-General's office, to Mrs. M. A. Kelley, which was quietly performed May 16 last by the Rev. W. A. Bartlett, has just been announced.

THE following Army officers are registered at the War Department: Capt. John J. Cochran, Med. Dept.; 2d Lieuts. John H. Martin, unassigned; A. G. Hammond, 8th Cav.; 2d Lieuts. Robert G. Paxton, Thomas H. Slavens, Edmund Wittermeyer, W. P. Baker and J. H. Alexander, unassigned; 1st Lieut. Wm. Crozier, Ord. Dept.; 2d Lieuts. Herman Hall and E. W. Evans, unassigned; Major A. J. McGonnigle, Q. M. Dept.; 2d Lieuts. Geo. McK. Williamson and Geo. F. Landers, unassigned: 2d Lieut. R. B. Watkins, Signal Corps; 2d Lieuts. Edgar Russell and Chas. H. Martin, unassigned.

ENSIGN H. E. PARMENTER, U. S. N., is visiting his parents at Newport, R. I.

LIEUTENANT W. R. A. ROONEY, U. S. N., on sick leave, is at Hollidaysburg, Pa.

CAPTAIN W. S. MUSE, U. S. Marine Corps, has left Norfolk, Va., on a month's leave.

PAYMASTER G. E. HENDEE, U. S. Navy, registered at the Gilsey House, New York, on Tuesday.

LIEUTENANT J. D. J. KELLEY, U. S. N., is among late arrivals at the Aquidneck, Newport, R. I.

NAVAL CADET T. C. FENTON, U. S. N., was a guest at the Girard House, Philadelphia, early in the week.

PAYMASTER H. T. STANCLIFF, U. S. N., registered at the Hoffman House, New York City, early in the week.

COMMODORE JOHN G. WALKER has gone to New York on the *Despatch*. He will return to Washington Saturday.

ACTING BOATSWAIN MCCARTHY, of the *New Hampshire*, was presented, June 19, by his messmates with a handsome sword.

CHAPLAIN A. L. ROYCE, U. S. N., conducted an interesting service June 12 on board the receiving ship *Wabash* at Boston.

COMMANDER F. J. HIGGINSON, U. S. N., and Mrs. Higginson are at the Bay View House, Conanicut Island, R. I., for the summer.

ADMIRAL SIR HOUSTON STEWART, K. C. B., British Navy, arrived in New York early in the week and went to the New York Hotel.

CHIEF ENGINEER JOHN P. KELLY, U. S. N., of the *Atlanta*, is still away on leave, and is not expected to return until some time the coming week.

CAPTAIN W. E. DOUGHERTY, 1st U. S. Inf., and P. A. Engineer E. A. Norfleet, U. S. N., are recent guests at the Occidental Hotel, San Francisco.

COMMANDER F. W. DICKINS, U. S. Navy, does not go to Brazil on the *Trenton*. He sailed, June 18, by the steamer *Finance*, of the U. S. and Brazil Mail S. S. line.

MISS ELLA W. B. PURSE, a daughter of the late 1st Asst. Engineer Wilson K. Purse, U. S. Navy, was married at Philadelphia, June 15, to Mr. I. Edwards Emery, of New Haven, Conn.

MARY ANN A. LINDSLEY secured a divorce last week from Clellan Lindsley, formerly 1st Assistant Engineer, U. S. Navy, who resigned in 1874, and who seems since to have become a habitual drunkard.

SECRETARY WHITNEY left for New York Friday morning. He intends to inspect the *Chicago*, and investigate the circumstances attending the recent accident to the floating derrick at the New York Navy-yard.

NAVAL CONSTRUCTOR PHILIP HICHBORN, U. S. N., will take his family to the Windsor Hotel, Asbury Park, N. J., on July 1, where they will remain until Sept. 1. On their return they will take rooms at the Gramercy for the winter.

REAR ADMIRAL JOHN J. ALMY, U. S. N., having served nine years as a member of the Board of Visitors to the Government Hospital for the Insane, by appointment of the President, has requested to be relieved from further service.

LIEUTENANT O. B. MITCHAM, U. S. A., of West Point, and Naval Cadets C. E. Hudson, F. Boughton, S. R. Hurlbut, B. W. Stearns, V. Blue, H. F. Bryan, N. A. Cully and E. H. Durell sailed for Antwerp on Saturday last on the steamer *Pennland*.

THE orders of Chief Engineer R. L. Harris, to the *Mohican*, were something of a surprise, as his assignment to duty on the board to visit foreign ships had been so recently made. His successor is Chief Engr. Jos. Trilley, lately home from China on the *Trenton*.

LIEUT. JEROME E. MORSE, U. S. N., retired, who, since his retirement, has, by judicious investments, accumulated a comfortable fortune, is now located, with his family for the summer at their beautiful country seat "The Anchorage," at Scarborough on Hudson, where they will receive a large circle of friends.

NAVAL CADET ARMISTEAD RUST, U. S. N., and Miss Nannie W. Ridout were married at St. Ann's Church, Annapolis, June 22. The groom is a member of the six-year graduating class of naval cadets. Four of his classmates, Cadets R. L. Russell, R. E. Coontz, E. W. Eberle and Volney O. Chase, were the ushers. After the ceremony the married couple left on a wedding tour.

ENGINEER-IN-CHIEF LORING paid a brief visit to New York the middle of the week, returning to Washington at once. His visit had no particular significance, being partly routine and partly in connection with future operations under the Bureau of Steam Engineering at the Brooklyn yard.

MISS MINNIE PATTISON, only daughter of Rear Admiral Thomas Pattison, U. S. N., was married June 23 to Mr. J. L. Randle. The ceremony was performed at the "Mystic," New York City, the residence of the parents of the bride. The best man was Mr. Frank Howell, and the ushers were Drs. L. H. Henneberger and Russell, of the Navy, and Messrs. William Hitchcock and George Randle.

MRS. GOODLOE, wife of Paymaster Goodloe, U. S. Marine Corps, is, says a Washington correspondent, the only surviving daughter of Senator Beck, of Kentucky. Major and Mrs. Goodloe always live with her parents during the session of Congress, in Washington city, and they spend much of their time during the recess with their daughter and her husband on the farm in Maryland, a few miles outside of Washington. Mrs. Goodloe receives visitors for her mother on Thursdays, for Mrs. Beck has long been in poor health, and Mrs. Goodloe returns calls also for her mother. She is a good talker and deservedly takes a place among those most esteemed of the daughters of Senators.

LIEUTENANT WILLIAM H. STAYTON, U. S. M. C., and Mrs. Stayton were passengers on the train bound for Washington that came into collission with the train going east at Havre de Grace on Tuesday last. They were homeward bound from their wedding journey. Both were badly bruised, the car in which they occupied seats being the one first struck by the engine and turned over and down the embankment. Mrs. Stayton, who is the daughter of Chief Engr. Henderson, of the Navy, retained presence of mind enough to remain in and hold on to her chair, and thus escaped severe injuries. Engineer-in-Chief Loring was also a passenger on one of the colliding trains and received a pretty severe shaking up.

ARMY OF THE POTOMAC.

THE Society of the Army of the Potomac held one of the most successful meetings in its history at Saratoga, N. Y., on Wednesday and Thursday, June 22 and 23. The poem by Wallace Bruce was excellent, and the oration by Chauncey M. Depew was one of the finest of the many fine ones to which the society has listened. Treasurer Truesdale reported a balance of $2,210.89 in his coffers, the balance sheet for the year being as follows:

Balance for last year.	$2,983 54	Paid for printing reports	$782 00
Receipts, dues	1,874 75	Circulars and stationery	231 40
Initiations	251 00	Postage	256 00
Certificates	128 00	Hotel expenses	176 90
Badges	123 00	Clerk hire	375 00
Buttonhole knots	84 00	Reporting proceedings	275 00
Sundries	53 00	Wines for banquet	291 80
		Knots and certificates	270 96
		Arrangements for meeting	144 54
		Sundries	482 80
		Balance	2,210 89
	$5,497 29		$5,497 29

The following were elected officers of the society for the ensuing year: President, Gen. John C. Robinson; recording secretary, Gen. Horatio C. King; corresponding secretary, Gen. George H. Sharpe; treasurer, Lieut. Col. Samuel Truesdale.

The following Vice-Presidents were chosen by the various Corps:

1st Corps, Gen. L. Fairchild; 2d, Col. Edward A. Dubey; 3d, A. J. Clark; 5th, J. H. Steiner; 6th, W. E. Pinto; 9th, John H. Costar; 11th, Lieut.-Col. Henry Root; 12th, Gen. James C. Rogers; 19th, Gen. A. W. Greely; Cavalry, H. T. Bartlett; Signal, Capt. R. B. Wood, Jr.

The other candidates for President were Gen. Francis C. Barlow, Gen. Calvin E. Pratt, Gen. J. B. Carr and Gen. G. S. Green. Gettysburg was chosen for the next place of meeting, July 1, 2 and 3, the 25th anniversary of the battle. On motion of Gen. Sickles it was resolved that a cordial invitation be extended to the soldiers of North Virginia to take part in the reunion. Gen. Sickles said that he thought that the event would be an historical one, that 25 years after the bloody conflict the survivors of the battle should come together in friendship, and unite with one accord in a common pledge of devotion to our country,

Gen. Fairchild was called for and three rousing cheers were given him. He most heartily seconded the adoption of the resolution, and hoped that he would have the pleasure of going to Gettysburg and taking the old foe by the hand. He also hoped that Virginia would be represented by hundreds and thousands, who placed the rebellion at high tide, to meet you who met and put back that high tide.

A vote of thanks was extended to Gen. McMahon for the ability with which he discharged the duties of President during the past year.

Lieut.-Comdr. A. R. McNair and Comdr. E. T. Woodward, of Saratoga Springs, were elected honorary members. Hon. Chauncey M. Depew, the orator, and Wallace Bruce, the poet, were also elected honorary members.

The Casino was crowded in the evening by an audience gathered to listen to the oration and poem. At the close of the oration Gen. Sherman was called for and made a capital speech. Generals Sickles, Fairchild and Slocum were also called out and said a few words. Gen. Black, Commissioner of Pensions, in response to a call upon him simply bowed his thanks.

A grand parade through the streets of Saratoga was one of the features of the occasion, the following being the order:

FIRST DIVISION.

Gen. B. F. Baker, Commanding.
Brig.-Gen. McLeer and Staff.
Bayne's 69th Regt. Band and Drum Corps.
69th Regt., N. G. S. N. Y., Col. Wm. De Lacey, commanding.
14th Regt. Band and Drum Corps.
14th Regt., N. G. S. N. Y.
Society of the Army of the Potomac.
Gen. W. T. Sherman, Major-Gen. Daniel E. Sickles, Major-Gen. Lucius Fairchild and other guests in carriages,
Gov. Ormsbee, of Vermont, and Staff, in carriages,
Military Order of the Loyal Legion of the United States.
7th Regt. Band and Drum Corps and Veteran Association.
Local Executive Committee in carriages.

SECOND DIVISION.

Lt.-Col. John S. Fassett, commanding.
Doring's Band.
22d Separate Co., N. G. S. N. Y., Capt. R. C. McEwen, comdg.
Other uniformed N. G. S. N. Y.
Grand Army posts and veteran associations.
Municipal Authorities and Citizens in carriages.

The column was reviewed by His Excellency, David B. Hill, Governor of the State of New York. The proceedings closed with the banquet in the evening.

THE TOASTS.

As finally arranged the list of sentiments, with their expounders, was as follows: "The President of the United States," Gen. John C. Black, Commissioner of Pensions; "The State of New York," Judge Calvin E. Pratt; "Saratoga, its History and its People," Professor Nathan Shephard; "The Army of the Potomac," Gen. Henry W. Slocum; "Our Sister Societies and Brothers in Arms," Gen. Wm. T. Sherman; "The Army and Navy," Gen. Wm. D. Whipple; "The Volunteers," Gen. Daniel E. Sickles; "The Army of the James," Corporal James Tanner; "Our New President," Gen. John C. Robinson; "The National Guard of the State of New York," Gen. Dan'l Butterfield. The orator of the day was Mr. Chauncey M. Depew and the poet of the occasion Mr. Wallace Bruce.

President McMahon announced the following committee, under Gen. Sickles's resolution, to make arrangements for the meeting at Gettysburg in July, 1888, and to invite the Army of Northern Virginia:

First Corps—Gen. A. Doubleday, Gen. J. C. Robinson, and Private James Bealls.

Second Corps—Gen. F. C. Barlow, Col. W. L. Tidball, and Major C. A. Rice.

Third Corps—Gen. Daniel E. Sickles, Gen. J. B. Carr, and Gen. C. H. Graham.

Fourth Corps—Col. W. C. Church.

Fifth Corps—Gens. D. C. Butterworth, Fitz John Porter, and Crawford.

Sixth Corps—Gen. M. T. McMahon, C. A. Whittier, and T. N. Hyde.

Ninth Corps—Gen. Hartranft, Gen. Parker, and Major Barker.

Eleventh Corps—Gen. O. O. Howard, Gen. Devins, and Gen. Schurz.

Twelfth Corps—Gen. H. W. Slocum, Gen. Barnum and Gen. Greene.

Cavalry Corps—Gen. Pleasonton, Gen. McIntosh, and Gen. Hammond.

Artillery—Gen. Hunt, Col. Cowen, and Maj. Smith.

Nineteenth Corps—Gen. N. P. Banks, Gen. Emory and H. A. Williams.

Army of the James—Gen. B. F. Butler and Gens. Hawley and Curtis.

Staff—Gen. George H. Sharpe and H. A. Tremaine and Major Fassett.

One of the incidents of the meeting was the passage by a unanimous vote of resolutions condemning the action of the Government in proposing to return the battle flags of the Rebellion. There was a further allusion to this subject in the poem, the conclusion of which *as read* was as follows:

"One from many," reads our motto, wider, deeper than before,
Not of States, but individuals, "we the people" evermore.
Tell men not of servile soldiers, who for king or sovereign died;
Here a million kings and sovereigns marched to victory side by side.
Brothers all in sacred compact, file and captain equal born.
Comrade answering to comrade, waiting for the promised morn.
Far and wide each gleaming taper, "like a good deed" shine abroad,
Till the flaming heights of freedom manifest the will of God.
But the hillsides' fading beauty tells us that parade is o'er,
Like the embers of their campfires dying out for evermore.
Only now in distant windows gleams the candle through the night;
And the campfires change to firesides, with their cheery visions bright.
Streaming out into the darkness past the lane and wicket gate,
Where the mother, wife and sister, all the loved and loving wait.
Glorious land to live or die for? *Let the rash hand palsied be*
That despoils the blood-bought trophies of the soldiers of the free.

As originally written the words italicised read as follows:

Glorious land to live or die for! Let Columbia bend her knee
As she grants her proudest honors to the soldiers of the free.

Finding the feeling on the subject of the flags running high, the poet, after his arrival at Saratoga, altered his verses, and he certainly made a hit, for his amended version was received with tumultuous applause. The poem was delivered with fine effect, as was the oration in which occurred the following:

"A nation of the power and position of the United States should have a navy strong enough to protect its coasts and harbors, to maintain its honor and enforce respect for its flag, and and an army worthy of the name. Wars have not ceased. With our reviving commerce and growing interests all over the world, we may at any time be embroiled in a conflict with some European or South American government. That Turkey or Chili could sweep our Navy from the seas in a month; that there is no gun or armament in any of our ports which could prevent an ironclad from entering the harbor and destroying our chief cities or levying hundreds of millions of tribute, is not gratifying to our sense, our security, or our pride. That we could be buffeted and humiliated for two years before we would be able to protect ourselves or retaliate illustrates the superlative idiocy of our blind confidence in our resources. The governments of Europe, armed to the teeth, are confronting each other, and an accident or a death may precipitate the most gigantic conflict of modern times, but they will not always be thus engaged. An army of 50,000 men is none too large to man our ports and frontiers and form the nucleus and the school for our volunteers. For while the citizen soldiers will always be our reliance in war or rebellion, it takes many months to arm, equip, and drill them for effective service.

THE REPEATING RIFLE.

To the Editor of the Army and Navy Gazette:

SIR: In "Pepys's Diary," under the date of March 4, 1664, there is an entry of the trial of "a new-fashion gun brought my Lord Peterborough this morning, to shoot off often, one after another, without trouble or danger." Would it not be safe to assume that this was an early example of a repeating firearm?—I am, etc.,

E. T. EVANS,
63 FELLOWS ROAD, N. W., May 26.

THE BATTLE FLAGS.

FOLLOWING is the correspondence concerning the return of the battle flags to the Southern States:

WAR DEPARTMENT, ADJUTANT-GENERAL'S OFFICE, WASHINGTON, April 30, 1887.

The Hon. William C. Endicott, Secretary of War:

SIR: I have the honor to state that there are now in this office, stored in one of the attic rooms of the building, a number of Union flags captured in action, but recovered on the fall of the Confederacy and forwarded to the War Department for safe keeping, together with a number of Confederate flags, which the fortunes of war placed in our hands during the late civil war. While, in the past, favorable action has always been taken on application, properly supported, for the return of Union flags to organizations representing survivors of the military regiments in the service of the Government, I beg to submit that it would be a graceful act to anticipate future requests of this nature, and venture to suggest the propriety of returning all the flags (Union and Confederate) to the authorities of the respective States in which the regiments which bore these colors were organized, for such final disposition as they may determine.

While, in all the civilized nations of the Old World, trophies taken in wars against foreign enemies have been carefully preserved and exhibited as proud mementos of the nation's military glories, wise and obvious reasons have always excepted from the rule evidences of past internecine troubles which by appeals to the arbitration of the sword have disturbed the peaceful march of a people to its destiny. Over twenty years have elapsed since the termination of the late civil war. Many of the prominent leaders, civil and military, of the late Confederate States are now honored representatives of the people in the national councils, or in other eminent positions lend the aid of their talents to the wise administration of the affairs of the whole country, and the people of the several States composing the Union are now united, treading the broader road to a glorious future. Impressed with these facts, I have the honor to submit the suggestion made in this letter for the careful consideration it will receive at your hands. Very truly yours,

R. C. DRUM, Adjutant General.

The endorsement of the Secretary of War upon this letter is as follows:

WAR DEPARTMENT, May 26, 1887.

The within recommendation is approved by the President, and the Adjutant General will prepare letters to Governors of those States whose troops carried the colors and flags now in this Department, with the offer to return them as herein proposed, the history of each flag and the circumstances of its capture or recapture to be given.

WILLIAM C. ENDICOTT, Secretary of War.

WASHINGTON, D. C., June 17, 1887.

To the Editor of the Army and Navy Journal:

REFERRING to your quotations of last week from the Revised Statutes concerning the custody of battle flags, let me say that the War Department building contains no apartment suited to the preservation or display of the flags which have been carried through the campaigns and voyages of the Army and Navy of the United States, or won by them from those who met them on the field of battle. A sentiment quite remote from hatred or revenge in all civilized nations cherishes such standards about which heroic deeds have been done both in capture and defence. No soldier of either army can look upon such memorials of valor and devotion with any other feeling than reverence.

The great hall of the Pension Building affords ample space and surface for proper arrangement, display, and preservation of all these standards. Let them be hung from its cornices high above the chance of injury, where they will remain and serve to remind our children and grandchildren of the valor of their fathers fighting for what they believed to be right.

Our descendants may be safely left to form their own opinions of which side was right in the great debate in which these tattered flags played an interesting and important part. Each staff should be furnished with a metal plate, on which should be stamped a concise designation and history of the flag it bears. This would not be more costly than that care, preservation, and display of these flags which the law enjoins on the Secretaries of War and Navy, and upon the President of the United States. The former are by law directed to collect them at Washington and they are to be "delivered to the President of the United States for the purpose of being under his direction preserved and displayed in such public place or hall as he may deem proper."

This has not been done yet for one sufficient reason among others, there has never been at the disposal of the President a suitable place for their preservation and display. They are now in cellars and in boxes, and subject to mildew and decay.

But just now the workmen are giving the last touches to a great hall, admirably fitted by dimensions, style, and purpose for their reception, preservation, and display. High above all chances of accident or injury, they may be hung over the cornices of the hall of the Pension Building.

That building is erected by order of Congress for the sole business of attending to the claims and the support of those who on the field of battle, whether on land or sea, won these trophies of victory from those who opposed the United States.

There they will be safe, and, even after the drapery drops by age from the staffs, these will remain as reminders of what they bore. VETERAN.

OLD POINT COMFORT.

A "SOJOURNER by the Sea" writes: "Of course no 'Old Point' letter would be complete without something to say of the officers. The present class is a very pleasant one. It is fashionable for civilian writers to rail at the girls for being fascinated with 'brass buttons.' Permit the writer to take issue. The girls like the officers because they are usually gentlemen and good fellows, railing a little too much at the monotony of their existence, perhaps, and a little mean about introducing even each other to a new and very swell girl, but sound at heart. The same girl likes any presentable man of whom she can say afterward: 'I met him at White Sulphur,' or at 'Old Point,' just as she takes more pride in a beau from a distance than a home man, a prophet without honor, even if of the same grade of goods. These officers have no settled homes, and so will always do to brag on—while the civilian who knows them, who sees them in their club life, who appreciate their high sense of honor, cannot blame the average American girl for sitting late even in Parlor 307 or going with them by moonlight to 'Gun 40,' or to 'The Turret,' even if all that comes of it is that she can afterward tell about it to envious listeners, and even if she knows it sounds a heap wickeder than it was."

THE NEW CRUISERS.

THE dock trials of the machinery of the cruiser *Chicago*, which has just been finished, have resulted satisfactorily. With the vessel fast at her dock each set of engines developed 1590 horse-power, with 53 revolutions per minute of the screws. This is equivalent to about 4000 combined horse-power, with the same number of revolutions when the vessel is running free. The contract requirement is 5000 horse-power, but as the steam pressure during the trial was considerably below the maximum it is believed that the necessary increase can be obtained. The machinery worked smoothly, with the exception of a slight thumping in one of the engines, which has since been cured.

The *Chicago* arrived at the Navy-yard, N. Y., June 22. A press despatch says she left Chester for New York at 1 P. M. on Tuesday, June 21, and reached the navy-yard at noon the next day. She was not pressed, and might have made the run in quicker time by several hours. She steamed out of the Delaware River under only half power. The weather was pleasant and the sea smooth for the entire trip. The machinery worked well, considering that it had only been subjected to dock trials and was new throughout and the steam steering apparatus worked to a charm. During the run from Chester the vessel easily made 13 knots. Those in charge were Captain H. B. Robeson, Lieut. A. B. Speyers, Lieut. J. A. H. Nickels, Lieut. J. J. Hunker, Lieut. Monahan, Assistant Naval Constructor Hanscom, Lieut. Schuetze, and Chief Engineer Thomson. Passed Assistant Engineers C. R. Roelker, H. Webster, H. R. Frick, Assistant Engineer C. C. Kleckner, and Cadet Engineers Stahl and Bankson. They had a crew of 49 sailors, and Superintendent Green and J. A. Gardner, of John Roach and Son, had a force of 80 men to look after the machinery. Designer Williamson, who devised the steering engine, was also aboard. Constructor Hanscom acted as inspector of the hull, and the compasses were watched by Lieut. Schuetze. The trip was made without a convoy or assistance of any kind, and although the sea was calm most of the way, the *Chicago* showed that she will be one of the most able ships yet put afloat. The propelling engines worked admirably, without a hitch of any kind, although the power developed aggregated not over 3,000 horses. The machinery worked smoothly and well, and is undoubtedly capable of being driven to the 5,000 horse power required by the contract. During the trip the ship was steered entirely by the Williamson steering gear, which gave entire satisfaction, and proved invaluable for the purpose, one man steering this large vessel with the ease of a yacht. The highest speed attained for any considerable time was but slightly more than 13 knots, and this without developing any heating of bearings or other signs of strain in the machinery. The maximum horse power was not much in excess of 3,000, with a boiler pressure of 70 pounds, revolutions of screws of 60 per minute, and not the slightest tendency to foam shown by the boilers. The ventilating apparatus of this vessel is of the exhaust type, and is, in the main, quite efficient. No attempt was made to produce an air pressure in the boiler rooms, consequently the maximum of efficiency was not shown by the boilers. The fitting up of the quarters and the general type of the accommodations on board, both forward and aft, are of the most complete description, and as she is fully arranged for a flagship it is presumed her destination will be a foreign station, possibly the Mediterranean. The intended battery of the *Chicago* is of the most formidable type yet perfected by our naval authorities, and it is presumed that in the arrangement of guns, torpedoes and other means of defence, the latest designs and devices will be thoroughly worked out.

An officer on board the *Chicago* sends us the following additional information: "The machinery was not stopped during the entire trip and worked very smoothly—water was only used precautionally on the main journals. All the pumps worked well. The engines made 60 revolutions per minute and a speed of 13 knots with furnace door open and such firemen as contractors could pick up in Chester to bring her around; ordnance naval coal was used. The blowers were not used during the trip. The *Chicago* started with only half boiler power and no attempt was made during the trial for maximum power or higher speed."

This vessel will be placed in the dock and painted, then loaded to her sea cruising draft, after which a trial trip of six hours will be made in the Sound. Her performance thus far indicates that she will come up to all contract requirements. She will be ready for the trial about July 20.

THE PANAMA CANAL.

LIEUT. C. C. ROGERS, U. S. Navy, adds his testimony to the fast accumulating evidence that De Lesseps's Panama Canal is doomed. He shows that the engineers' figures of the excavation remaining to be done do not appear to take into account the quantities that have been washed back by the floods into the ditch that would cancel a considerable percentage of the "work done." The formidable Culebra cut and the damming of the Chagres River are yet practically unsolved problems. And Lieut. Rogers now points out the fact that the mountain on the left side of the Culebra cut is found to be moving bodily towards the axis of the canal at an annual rate of from 12 to 18 in. owing to the cutting away of its bottom support.

The *Engineering News* further says: "From a private source we also have the further information that while the mountain is sliding sideways, the bottom of the canal on the lower portions of the route are reported as being forced upwards, by the mass of excavated material piled on the sides of the cut, to such an extent that in certain localities it requires a very healthy and hardworking dredge to hold its own. In fact our informant directly tells us that one of the American excavators has been hard at work in keeping itself simply afloat in practically one spot for some months. The engineer in charge of this particular dredge philosophically remarked that he was well paid and stood the climate reasonably well, and as his employers were paid by the cubic metre excavated he had no particular concern in the expected advance."

Lieut. Rogers estimates that were "all the necessary money at hand and men and machines worked to their utmost, it would require seven years to finish the canal." Lt. Rogers estimates that the total cost of the canal will be not less than $375 000,000, or $192,000,000 more than the amount actually available for canal work. Assuming that in its present state of discredit the company could raise money on the same terms as heretofore these final obligations will amount to $700,000,000.

LATE ARMY ORDERS.

2d Lieut. Harvey C. Carbaugh, 5th Art., A. A. Q. M. for the camp of rifle instruction at Creedmoor, is, in addition, appointed A. C. S. for that camp (S. O. 127, Div. A., June 24.)

The leave of Major Chas. H. Alden is extended to include Sept, 29, and his orders to report for duty at the Military Academy Aug. 28, are modified to Sept. 30 (S. O., H. Q. A., June 24.)

RECENT DEATHS.

MANY of the older residents of St. Paul, of Chicago, and of Washington, will pleasantly remember Mrs. Wüppermann (Rosa Lee Walker), who died June 13 at Fort Monroe. She was a sister of the late Capt. Wm. M. Walker, U. S. N., and of the late Lieut. Theodoric Lee Walker, U. S. N. In 1846 she went with her sister, the wife of Col. John McClellan, to live in Chicago, and in 1856 was married at Washington to Mr. H. F. Wüppermann, then of the U. S. Coast Survey. Soon after she accompanied her husband to St. Paul, of which place he became City Surveyor. Mrs. Wüppermann had many friends and relatives among Army and Navy people in Washington. For many years she has lived in Hamburg, Germany, but at the time of her death was visiting her daughter, the wife of Lieut. John McClellan, at Fort Monroe.

HOSPITAL STEWARD JUDSON J. ROGERS, U. S. A., and his son, a boy of six years, were drowned in the wreck of the steamer *Champlain*, June 17, near Charlevoix, Mich., while returning to Fort Mackinac from a short furlough. Steward Rogers was a veteran soldier, being appointed Hospital Steward in 1868. The steward's body has been recovered and buried with military honors. He leaves a widow and one child.

WE regret to learn of the death at West Point, June 19, of Helen Elizabeth Reed, only daughter of Lieut. H. A. Reed, 2d U. S. Art., a bright young girl of five years of age.

MRS. S. B. FORREST, widow of Lieut. D. A. Forrest, U. S. Navy, died suddenly at Norfolk, Va., June 13. Lieut. Forrest left the U. S. Navy in 1861.

DR. HITCHCOCK, who died recently and was buried at Fall River, June 21, was the father of Lieut.-Comdr. R. D. Hitchcock, U. S. N.

MRS. SARAH E. JAMES, the mother of Lt. W. H. W. James, 24th U. S. Inf., of Fort Reno, died May 23 last, at Charlotte, Tenn., aged 65.

MRS. STARR, mother of Lieutenant C. C. Starr, 1st U. S. Infantry, died suddenly at Kankakee, Ill., May 29, of heart disease.

THE PROPOSED STATUE TO NATHAN HALE.

THE Sons of the Revolution celebrated the anniversary of the battle of Bunker Hill at Delmonico's, New York, Friday evening. There were fifty members present, including Frederick S. Talmadge, who presided. Patriotic speeches were made by the president, Logan C. Murray, Theodore E. Tomlinson, Henry T. Drowne, Robert W. Aborn, Mr. Sullivan, and others. Three plaster casts of statues proposed to be erected in the City Hall Park to the memory of Nathan Hale were exhibited. By a large majority that designed by Karl Gerhardt was selected. It will cost $6,000.

(Correspondence of the Army and Navy Journal.)

BELLEVUE RIFLE RANGE,

(Dept. of the Platte and Fort Omaha.)

HAS become an attractive place for the citizen element since the Rifle Club was started. Col. Henry, its Captain, has done everything to make matters work, not only smoothly, but agreeably. Every Wednesday a special car takes down its full complement, not only of the club, but the fair ones of Omaha, of which we have a goodly number, some fourteen of the fair sex going last Wednesday. The range is to one side of the Army one, and when not firing one can rest under the shade of the beautiful trees, visit the camp, or stroll in the woods. The club is composed of some of the leading men of Omaha, eminent lawyers, doctors, real estate men, railroad men, and merchants. The club use the decimal target, instead of the Army one, so comparisons can be made with other citizen clubs. We all look forward to seeing the Division and Department competitions here this summer, and Omaha feels proud that she will be the centre of attraction for so many distinguished officers and marksmen.

The unsuccessful attempt of a man who bought a lot near the rifle range to run the Army off, shows the importance of the U. S. owning their own property. The man bought the lot for $50 for a chicken ranch and then proposed to get out an injunction against the troops firing. Popular opinion, as expressed by all the newspapers of Omaha, was decidedly not in favor of the man, and he has so far failed in raising the hen-e-ry he intended. CITIZEN.

Military Order of the Loyal Legion.

The Kansas Commandery holds a meeting on Friday of this week at Fort Leavenworth, on which occasion the first anniversary banquet will be given. The C. O. of Fort Leavenworth, General A. McD. McCook, U. S. A., has informed the Commandery that the resources of his command are at its service. The following will be balloted for: W. M. Leeper, Capt. J. B. Nipp, U. S. V.; Capt. H. Melburn, U. S. V.; Capt. A. E. Currier, U. S. V.; Capt. J. H. Prescott, U. S. V.; Capt. E. M. Hayes, 5th U. S. Cavalry, and Capt. G. N. Bomford, 18th U. S. Infantry. The commandery is flourishing and numbers 131 members by last report.

At the annual meeting of the Pacific Coast Commandery of the Loyal Legion, May 28, Chaplain Winfield Scott, U. S. A., was re-elected Chaplain. This organization now numbers 525 members.

(Special Correspondence of Baltimore Sun.)

THE EUROPEAN SQUADRON.

U. S. FLAGSHIP PENSACOLA,
VILLEFRANCHE-SUR-MER, FRANCE, June 6.

STARTING April 2 from Piræus, Greece, where we had stopped almost two months, the *Pensacola* shaped her course for Leghorn, Italy, where she arrived five days later. There on April 9 she was joined by the *Quinnebaug*, just back from her long cruise along the western edge of the "Dark Continent," thus assembling together the active strength of the United States naval squadron in European waters. The two ships remained there for the rest of the month, awaiting the coming of stores, which arrived by Anchor Line steamer *Alsatia* on April 29. The *Pensacola*, with the *Quinnebaug* for a companion, departed for Villefranche May 3. The *Quinnebaug* remained here until the 3d instant, when she sailed for Spezia, where she was docked for the purpose of having her bottom cleaned.

The Navy Department sustained a store-house here to keep its vessels supplied with stores and provisions. Since its abolishment it has become a rare event to see a United States man-of-war in the Bay of Villefranche, and its tradespeople and washerwomen sadly miss the revenue that was constantly flowing into their hands from the crews of our ships.

During the time the *Quinnebaug* was here the battalion of infantry and artillery from her and the *Pensacola* were landed twice on Cape Ferrat by permission given to Admiral Franklin by the general commanding the military force in this department. They were organized into a joint force and drilled as per routine of the naval brigade and operations ashore. The first landing took place on the 23d May, under the command of Lieut. Comdr. Hitchcock, of the *Pensacola*, as colonel, with Lieut. Comdr. Sperry, of the *Quinnebaug*, as lieut. col., and Flag-Lieut. Staunton as adjutant. The second landing was made on May 30.

Our stay here has been eventful in boat racing, an exciting contest being pulled on the afternoon of the 2d instant by the *Pensacola's* barge against the *Uncle Sam*, a fourteen-oared race boat left at Villefranche by the *Lancaster* in 1884, to whose crew she belonged and who had her built at Leghorn, Italy, during the cruise of that ship on this station, and in whose hands she gained a reputation of invincibleness. She was manned on this occasion by a crew from the *Quinnebaug*, who had been practicing in her ever since their arrival in this port, for the purpose of rowing against our barge in the regatta held by the sailing club of Nice yesterday. Owing to the *Quinnebaug's* departure for Spezia prior to that event, the race was arranged to take place in this harbor the day before she sailed, the consideration being five dollars an oar and $20 dollars in the coxswain's box. Independent of those amounts, 2,500 francs were wagered by the crew of this ship, which was covered by the *Quinnebaug*. The course was a straightaway one for three miles, commencing out at sea and concluding abreast the *Pensacola*.

Capt. Dewey and Ensign Luby, of the *Quinnebaug*, were the judges, and Lieut. Fletcher, of the *Quinnebaug*, and Naval Cadet Kress, of this ship, went out in the launch as starters. The weather was unfavorable for the race, there being a blinding downpour of rain, and a lumpy mist obscured the course, and the boats could not be seen from either ship until half the distance had been accomplished. Then they were neck and neck until they were passing the *Quinnebaug*, when the *Uncle Sam* shot a boat's length ahead of the barge. She did not hold it, however, for by the time the ship was passed the barge had regained her lost ground, and hope was beginning to triumph on the *Pensacola*. They were even again with the post of victory only a couple of strokes away. Cheering became more vociferous on our ship, the *Uncle Sam* made a sheer off to port, the barge went ahead, and with the last dip of the oars that brought her to the winning line, she was shoved half a boat's length ahead of the Italian built boats, and victory was hers. When her crew came on board ship they were given a perfect ovation by their delighted shipmates, being met at the gangway, and as each man stepped over the side he was lifted bodily from his feet and carried forward in triumph. Her victory was a great surprise to a majority of us, and therefore she has been christened the *Surprise*, never having owned a name before.

Yesterday was the annual regattas of the Sailing Club of Nice, held under the patronage of the Yacht Club of France and the committee of fetes of Nice. The officers and crew of the *Pensacola* were particularly interested in these festivities, which also combined the characteristics of a picnic, for the reason that the barge *Surprise* and *Uncle Sam* were to again try conclusions in a triangular race for a medal and a prize of 50 francs, offered by the committee of the fetes, the *Uncle Sam* this time being manned by a crew from the *Pensacola*. Our fleet gig and captain's gig were also entered to race for similar prizes. The honorary committee consisted of several admirals of the French Navy and Admiral Franklin, who, however, was not able to be present.

The *Pensacola's* band was loaned by the commander-in-chief to the committee of the fetes, and during the afternoon played a programme of popular music from the shaded heights where the judges' stand was situated.

The weather was faultlessly fine. A series of half dozen sailing and rowing regattas occurred, and then the *Surprise* and *Uncle Sam* were placed in position by Flag Lieut. Staunton about 4 o'clock. At the start the barge took the lead, followed with cheers from the people of our ship, retaining it throughout the pull of 2⅝ miles. She rounded the stakeboat 1 minute and 13 seconds ahead of the *Uncle Sam*, on whom, we are informed, a Frenchman lost 15,000 francs in a bet with a Scotchman. The race between the fleet gig and Capt. Dewey's gig *Daisy* was next rowed, the *Daisy* winning an easy victory. This completed the *Pensacola's* connection with the affair, and our boats then returned to the ship and the *Uncle Sam* to her place on the beach at Villefranche to await the coming of the next man-of-war to place her in the water with faith enough in her past record as a matchless boat.

The prizes have been delivered to the coxswains of the *Surprise* and *Daisy*. The two medals are exactly alike. They are handsome gilt bronze ones, about two inches in diameter, and very valuable, being worth 150 francs each. One side contains the special device of the club, while on the other, inside a wreath of oak and laurel leaves, is the club's name, "Club de Voile de Nice, 1887." After being inscribed with the *Pensacola's* name and the boats that won them and the date, the *Surprise's* medal will be presented to Admiral Franklin and the *Daisy's* to Capt. Dewey, those two boats being for the exclusive use of the commander-in-chief and his chief of staff respectively.

THE NAVAL WAR COLLEGE.

THE Naval War College will reassemble at Newport on the first Monday in September, and continue in session until late in December.

Comdr. Bainbridge-Hoff will give a digest of contemporary foreign opinions on the subject of Naval tactics, both of single ships and of fleets. The tactics of the gun, of the ram, and of the torpedo, their best and most effective method of use, that is, in actual battle between single opponents, or between contending fleets, will be separately treated, each by an officer who will aim at bringing out the strength of his weapon and the weaknesses of the other two. These will be followed by some lectures on grand tactics. The question of Naval gunnery will be treated by Lieut. John F. Meigs, whose lectures last year were particularly interesting and instructive. Prof. Soley will give his lectures on international law. The subject of coast defences will be discussed, as last year, by an Army and a Navy officer. Gen. Abbot, of the Army, will aim at giving Naval officers an insight and grasp of the general principles which guide the military engineer in planning and constructing the defences of harbors. The question of sea-coast defences will be exhaustively discussed from the Naval point of view by Lieut. C. G. Calkins, of the Naval Intelligence Office. The subjects of military strategy and tactics and of Naval history will be treated by the same officers as last year. Assistant Naval Constructor Gatewood will lecture on the preservation and care of iron ships, and upon the injuries to which they are liable from grounding, collision, etc. Medical Director Dean will lecture on Naval hygiene.

Lieut.-Comdr. Stockton is now engaged upon an examination of the way in which the various nations of Europe are stationed in the Gulf of Mexico, the Caribbean and in the Pacific Ocean, with a view to determining the relative strategic value of these stations. It is intended that the study of the Gulf and Caribbean Sea, regarded as a great strategic field of special importance to the United States from its proximity, and above all, if any trans-isthmian canal shall be made, shall form a prominent part of the War College course. Mr. Stockton will bring together the facts of commerce and existing trade routes between the Western Pacific (Australia, China, etc.,) and Europe; together with the modifications likely to follow upon the building of a canal.

(Correspondence of the Army and Navy Journal.)

PENSACOLA NOTES.

NOTWITHSTANDING the heat, the drouth, and the exodus of the feminine part of this Army and Navy colony, some pleasure is vouchsafed us. Colonel Langdon permitted the Indian prisoners to give one of their native dances—a Chiricanua medicine dance—which was quite a novelty, and attracted a great crowd to Fort Pickens. It occurred at night on the parade, a bon-fire furnishing the illumination, and was as savage and weird as one could wish. A number of children in attendance were much scared, and with difficulty calmed. The Fort Barrancas band played at intervals and made the entertainment a success, for the dancing and chanting alone were very monotonous. Natchez was general manager and Geronimo led the Indian orchestra in person.

The week before, Captain Cochrane gave an illustrated lecture in the new Marine Barracks, to which all of the officers and their families, the artillery and marines, officers of the revenue cutter *Forward*, and a number of the citizens of Warrington and Woolsey were invited. One of the large rooms was beautifully decorated with flags, evergreens, etc., by Lieut. Fillette and a party of the men, and the veranda adorned with Chinese lanterns. The lecture consisted of "Sketches of Travel in Europe," and the beautiful views, many of them artistically colored, were projected to a diameter of about 10 feet by a new and powerful lantern, the property of the lecturer. A large and delighted audience attended.

The Marine Library has received a handsome present of four volumes of Harper's Magazine from Lieut. Comdr. W. C. Gibson, U. S. N., and a number of public documents from the Hon. Wade Hampton, U. S. Senate.

The marble headstones sent here for the naval dead have been erected and a beautiful cap monument of westerly granite, the finest in the Barrancas National Cemetery, has been placed on the grave of Captain Edward P. Lull, U. S. Navy, by his widow.

WEDDING AT FORT HAMILTON.

THE marriage of Lieut. John W. Ruckman, 5th U. S. Art., to May, daughter of Col. John Hamilton, commanding the regiment, took place at St. John's Church, Fort Hamilton, at the hour of sunset, Thursday, June 16. The service was performed by the Rev. R. B. Snowden, rector. The church was prettily decorated by the loving hands of the ladies of St. John's Guild, assisted by the S. S. children, with whom the bride has been intimately associated during her residence at Fort Hamilton. The Hon. John Acton, of Salem, N. J., acted as best man. The ushers were Cadets C. T. Hamilton, brother of the bride; W. W. Harts, G. B. Langhorn, U. S. M. A.; Messrs. F. W. Ridgway, of Brooklyn, and J. B. Eccleston, of Staten Island. The bride was attended by four bridesmaids, Miss Hamilton, Miss Grace Hamilton, sisters of the bride, and the Misses Biddle, of Brooklyn, great granddaughters of the late Col. Clement Biddle, U. S. A. The bridesmaids were preceded by Master Bennie Leroy Bragg, a juvenile cousin of the bride, dressed in a blue velvet suit, with lace collar and cuffs, and carrying a basket of daisies. The bride's dress was of pearl white satin, en train, elbow sleeves and corsage trimming of Fedora lace, tulle veil. Her flowers were daisies and orange blossoms and she carried a bouquet of the same. The bridesmaids wore short dresses of pale blue, pink cardinal and buff silk mull, with satin bodices to match; long tan colored gloves, and carried bouquets of daisies and maiden hair ferns, tied with satin ribbons to match the dresses. The reception following the ceremony was held at the house of the bride's parents, in garrison, and was attended by the immediate relatives and personal friends of the bride and groom. The house was a bower of flowers, the mantles banked with roses, the stair rail heavily twined with daisies, and the bridal couple receiving the congratulations of their friends under a canopy of daisies. The hall was effectively draped with the scarlet and yellow of the national and regimental colors. The music of the regimental string band was greatly enjoyed by all present, most of the guests joining in a merry wedding dance, the bridal couple leading the lanciers, before their departure on a tour of several weeks. The gifts from far and near were numerous and valuable, many of them bringing messages of love and good will, from distant Army posts. The bride was exceptionally lovely and the whole bridal party made an artistic picture as they stood before the chancel in the waning sunset light. Altogether it was a most charming wedding and one long to be remembered by those who participated.

"A WEDDING GUEST."

THE ARMY.

G. O. 43, H. Q. A., June 22, 1887.

1. Major Frederick Mears, 25th Infantry, will proceed to David's Island, New York Harbor, and relieve Lieut. Col. Richard F. O'Beirne, 15th Inf., in command of the depot on Sept. 30, 1887, reporting by letter to the superintendent of the recruiting service.

2. Lieut. Col. Richard F. O'Beirne, 15th Inf., on being relieved as directed in Par. 1 of this order, will proceed to New York City and relieve Lieut. Col. Alfred L. Hough, 16th Inf., as superintendent of the recruiting service, on October 1, 1887. On being thus relieved Lieut. Col. Hough will join his regiment.

3. The following detail will be made for the recruiting service for the period from October 1, 1887, to October 1 1889:

One company officer (preferably a 1st lieutenant) from the 2d, 4th, 6th, and 8th Cavalry, and the 2d, 4th, 6th, 8th, 10th, 12th, 14th, 16th, 18th, 20th, 22d, and 24th Inf., will be selected and ordered to report to the superintendent of the recruiting service, New York City, by October 1, 1887.

The superintendent will relieve officers of the above named regiments of the expiring detail, in charge of rendezvous or at the depots, as those of the new detail report, and order them to join their companies.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 12, DEPT. OF TEXAS, June 16, 1887.

The Department rifle competition of 1887, will be held at Fort Clark, Texas, commencing August 8, and will be conducted by 1st Lieut. O. M. Smith, 22d Infantry, A. D. C., Inspector of Rifle Practice. . . . The C. O., Fort Clark, is charged with the arrangement of all necessary details for the competition.

STAFF CORPS AND DEPARTMENTS.

Quartermasters and Subsistence Departments.

Leave for three months is granted Major James W. Scully, Q. M. (S. O., June 18, H. Q. A.)

A roster of the Q. M. D. for June contains a fund of valuable information.

Commissary Sergt. Oswald Windfuhr, recently appointed from R. Q. M. Sergt., 22d Inf., will proceed to Fort McDowell, Ariz. Ty. (S. O., June 21, H. Q. A.)

Pay Department.

So much of S. O. 106, May 9, as relates to Major John P. Baker, paymaster, is amended to direct that on completion of payments on rolls of June 30, he proceed to Omaha, Neb., and take station there. Major Charles I. Wilson, paymaster, on completion of payments on rolls of June 30, will proceed to St. Louis, and take station, relieving Major George W. Candee, who on completion of payments on rolls of June 30, will proceed to Helena, Montana Ty., and take station there (S. O., June 20, H. Q. A.)

Medical Department.

The leave on surgeon's certificate granted Capt. Charles Richard, asst. surg., is extended two months (S. O., June 17, H. Q. A.)

Leave for two months, to take effect about July 5, is granted Major John H. Bartholf, surgeon (S. O., June 20, H. Q. A.)

Leave for one month, with permission to apply for an extension of one month, is granted Col. Charles Sutherland, surgeon, Medical Director (S. O. 126, June 23, Div. Atlantic).

1st Lieut. Carter N. B. Macauley, asst. surg., is detailed member of the G. C. M. at Camp Poplar River, M. T. (S. O. 58, June 16, D. Dakota).

Major Charles H. Allen, surg., is relieved from further duty in the Dept. Dakota, to date June 19 (S. O. 58, June 16, D. Dakota).

The leave for seven days granted A. A. Surg. H. M. Deeble, Fort Yates, is extended seven days (S. O. 58, June 16, D. Dakota).

One month before proceeding to comply with his orders to rejoin his station, is granted Capt. John J. Cochran, asst. surg. (S. O., June 22, H. Q. A.)

Engineers and Ordnance Departments.

Capt. Walter L. Fisk, C. E., will be relieved from duty at the Military Academy August 28, and will report by letter to the Chief of Engineers (S. O., June 21, H. Q. A.)

Chaplains.

The leave for seven days granted Chaplain J. D. Parker, Fort Riley, is extended eight days (S. O. 61, June 13, Dept. Mo.)

THE LINE.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., A, B, E, G, and K, Ft. Custer, Mont.; D, Ft. Maginn's, Mont.; I, Ft. Leavenworth, Kas.; C, F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

1st Lieut. J. G. Galbraith, R. Q. M., is relieved as inspector of Indian supplies at the Tongue River Agency, M. T. (S. O. 57, June 13, D. Dak.)

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

2d Lieut. John T. Knight is detailed as Professor of Military Science and Tactics at the Virginia Agricultural and Mechanical College, Blacksburg, Va., to take effect Sept. 1, 1887 (S. O., June 17, H. Q. A.)

5th Cavalry, Colonel James F. Wade.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Major Louis H. Carpenter will proceed after July 1, 1887, to Fort Myer, Va., and take command of that post (S. O., June 17, H. Q. A.)

The leave on Surgeon's certificate granted Capt. William P. Hall is extended two months on Surgeon's certificate (S. O., June 18, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; B and F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.

1st Lieut. A. P. Blocksom will visit the camps of the National Guard of Ohio during the annual encampments for the purpose of inspecting the troops (S. O., June 18, H. Q. A.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs., B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

The extension of leave granted 1st Lieut. Ezra B. Fuller is extended seven days (S. O. 57, June 13, D. Dak.)

Sergt. Arthur Rheinthal, and Saddler John A. Bailey, Troop B, will return to Fort Meade (S. O. 57, June 13, D. Dak.)

The leave for seven days granted Capt. Henry Jackson is extended twenty-three days (S. O. 58, June 16, D. Dak.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Major Samuel S. Sumner is relieved from duty on recruiting service, and will report to the Comdg. Gen. Dept. of Columbia for duty as Acting Inspector-General (S. O., June 17, H. Q. A.)

Leave for three months, to take effect July 10, with permission to apply for an extension of one month, is granted 2d Lieut. Robert J. Duff (S. O., June 17, H. Q. A.)

Major Samuel S. Sumner is relieved as member of the G. C.-M. at Jefferson Barrack, Mo. (S. O., June 17, H. Q. A.)

2d Lieut. Stephen H. Elliott is, on his own application, transferred to the 5th Cavalry, with rank to date from Oct. 24, 1886, and is assigned to Troop C, Fort Reno (S. O., June 20, H. Q. A.)

1st Lieut. John A. Johnston, now on leave, is relieved from special service at post of San Antonio (S. O. 70, June 15, D. Tex.)

The junior veterinary surgeon will proceed to the Hdqrs. 8th Cav., San Antonio, and report to the regimental commander (S. O. 70, June 15, D. Tex.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; D and H, Ft. McKinney, Wyo.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

A furlough for four months is granted Sergt. Nathan Fletcher, Troop F (S. O. 72, June 20, Div. M.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T. D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

A furlough for four months is granted Sergt. Pollard Cole, Troop H (S. O. 63, June 13, D. Ariz.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

The leave granted 1st Lieut. James E. Runcle is extended two months (S. O., June 22, H. Q. A.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

1st Lieut. V. H. Bridgman will be relieved from duty at Willet's Point, N. Y. H., July 1, and at the expiration of his leave will join his station (S. O., June 18, H. Q. A.)

2d Lieut. John T. Thompson will visit the camp of the 3d Regiment of Alabama State Militia during its encampment near Selma, Ala., from July 7 to 14, for the purpose of inspecting that regiment (S. O., June 18, H. Q. A.)

S. O. 126, June 2, granting 1st Lieut. Victor H. Bridgman leave for six months, with permission to go beyond sea, is revoked, and, on being relieved from duty at Willet's Point, he will join his proper station (S. O., June 21, H. Q. A.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

1st Lieut. Wilbur Loveridge will be relieved from duty at Willet's Point, N. Y. H., July 1, and at the expiration of his leave will join his station (S. O., June 18, H. Q. A.)

2d Lieut. Elisha S. Benton will visit the camp of the artillery regiment, National Guard of Ohio, during its encampment at Delaware, O., Aug. 10 to 15, for the purpose of inspecting that regiment (S. O., June 18, H. Q. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

Leave for six months, from July 1, is granted 2d Lieut. Williston Fish (S. O., June 20, H. Q. A.)

The resignation of 2d Lieut. Williston Fish has been accepted by the President, to take effect Dec. 31, 1887 (S. O., June 20, H. Q. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., E, F,* I, and H, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; K and M, Ft. Schuyler, N. Y.
* Light battery.

Lieut. G. W. S. Stevens will be relieved from duty at Willet's Point, N. Y. H., July 1, and will join his station (S. O., June 18, H. Q. A.)

Leave from about July 1 to Aug. 10 is granted Col. John Hamilton, Fort Hamilton (S. O. 126, June 23, Div. A.)

Sergt. James Coghlan, Bat. E, Fort Hamilton, fatally stabbed himself with his bayonet, June 22. He appears to have been temporarily deranged.

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal. B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

Col. William R. Shafter will visit the encampment of the National Guard of California, to be held at Healdsburg, Cal., July 2 to 10, for the purpose of making an inspection of the Guard (S. O., June 22, H. Q. A.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

2d Lieut. Haydn S. Cole, Fort Custer, M. T., is detailed as inspector of Indian supplies at the Tongue River Agency, M. T. (S. O. 57, June 13, D. Dak.)

1st Lieut. Arthur Williams, on being relieved as instructor at the Infantry and Cavalry School, Fort Leavenworth, by Lieut. Irons, 20th Inf., will join his company (S. O., June 17, H. Q. A.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Sherman, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Col. William P. Carlin will inspect subsistence stores at Fort Sherman, for which 1st Lieut. H. E. Robinson, A. C. S., is accountable (S. O. 86, June 10, D. Columbia.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

Leave for three months, to take effect about July 20, is granted 2d Lieut. Frederick Perkins (S. O., June 21, H. Q. A.)

We acknowledge with thanks the receipt this week of a handsome and somewhat unique Roster of Commissioned Officers of the 5th Infantry. It is printed very neatly on antique paper, and contains much valuable information. In addition to the customary information concerning each officer, there is a column showing to what military societies each belongs and another column to what Army societies. The "Service History" of the regiment is appended.

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

Sergt. Lawrence H. Speidel, Co. K, having reported to the Colonel of his regiment that injustice had been done him by his company commander, a Regtl. C.-M. will convene at Fort Douglas, June 27, to investigate his case. Detail: Major William J. Lyster, Capts. Thomas Britton and Jacob F. Munson, and 2d Lieut. Amos B. Shattuck, J.-A. Private Paris Bain has been appointed corporal in Co. B (Orders 28, June 27, 6th Inf.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., A, D, F, and H, Ft. Laramie, Wyo.; B and E, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.: A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

Major Hamilton S. Hawkins will visit the camp of the Illinois National Guard at Camp Lincoln, near Springfield, Ill., during the period of its encampment, July 9 to Aug. 27, for the purpose of inspecting the troops taking part therein (S. O., June 22, H. Q. A.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, E, and K, Ft. Sully, D. T.; B, C, F, and H, Ft. Yates, D. T.; G, Ft. A. Lincoln, D. T.; I, Ft. Bennett, D. T.

Leave for three months on Surgeon's certificate is granted 2d Lieut. Lorenzo P. Davison (S. O., June 20, H. Q. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Leave for one month is granted Capt. A. H. Bainbridge, Fort Townsend (S. O. 85, June 8, D. Columbia.)

A furlough for four months is granted Sergt. Samuel Dœpke, Co. K (S. O. 84, June 7, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

1st Lieut. Dillard H. Clark will remain, on temporary duty, at Fort Buford, D. T., until it is necessary for him to obey S. O. 124, c. s., A. G. O. (S. O. 57, June 13, D. Dak.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

Leave for two months, to take effect July 1, is granted 1st Lieut. James D. Nickerson, Fort D. A. Russell, Wyo. (S. O. 71, June 18, Div. M.)

The leave granted Capt. Lyster M. O'Brien is extended two months (S. O., June 20, H. Q. A.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, F, G, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; E, Ft. Ringgold, Tex.; I, Ft. Brown, Tex.

Leave for two months, to take effect about July 15, with permission to apply for an extension of two months, is granted 2d Lieut. Harris L. Roberts, Fort Clark, Tex. (S. O. 73, June 22, Div. M.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assinniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

1st Lieut. James A. Irons is detailed as an instructor at the Infantry and Cavalry School, Fort Leavenworth, and will report as soon as practicable (S. O., June 17, H. Q. A.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

The leave on Surgeon's certificate granted Capt. Stephen P. Jocelyn is extended two months on Surgeon's certificate (S. O., June 18, H. Q. A.)

The extension of leave on Surgeon's certificate granted Capt. George M. Downey is further extended two months on account of sickness (S. O., June 20, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Leave for ten days is granted Major Robert H. Hall, A. I. G., Dept. Platte (S. O. 57, June 15, D. Platte.)

1st Lieut. A. C. Sharpe will visit the camps of the National Guard of Ohio during the annual encampments for the purpose of inspecting the troops (S. O., June 18, H. Q. A.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

1st Lieut. Calvin D. Cowles is relieved from recruiting duty, to take effect July 1, and will then join his company (S. O. 97, June 13, R. S.)

Col. Henry M. Black will attend the encampment of the Michigan State Troops, to be held at Island Lake, near Brighton, Mich., for five days, commencing Aug. 4, for the purpose of inspecting the troops taking part therein (S. O., June 22, H. Q. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

The leave on Surgeon's certificate granted Capt. Lewis Johnson is extended one month on Surgeon's certificate, with permission to go beyond sea (S. O., June 18, H. Q. A.)

Leave for one month and ten days, to take effect about July 22, is granted Chaplain Allen Allensworth, Fort Supply (S. O. 72, June 20, Div. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

2d Lieut. George P. Ahern will proceed to David's Island and report to conduct to the Dept. of Dakota recruits for the 20th Inf., and then join his company (S. O. 97, June 13, R. S.)

2d Lieut. George W. Webb will return to Fort Meade, D. T., June 18 (S. O. 58, June 16, D. Dak.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, June 18, 1887.

PROMOTIONS.

1st Lieutenant Michael Leahy, Regimental Quartermaster 18th Infantry, to be Captain, June 15, 1887, vice Durham, retired from active service.

1st Lieutenant Julius E. Quentin, 14th Infantry, to be Captain, June 15, 1887, vice Kennington, retired from active service.

1st Lieutenant James Regan, 9th Infantry, to be Captain, June 15, 1887, vice Pease, retired from active service.

2d Lieutenant Joseph H. Gustin, 14th Infantry, to be 1st Lieutenant, June 15, 1887, vice Quentin, promoted.

2d Lieutenant Frank L. Dodds, 9th Infantry, to be 1st Lieutenant, June 15, 1887, vice Regan, promoted.

RETIREMENTS.

Under section 1251, Revised Statutes.

Captain James Kennington, 14th Infantry, June 15, 1887.

Captain Cass Durham, 18th Infantry, June 15, 1887.

Captain William B. Pease, 9th Infantry, June 15, 1887.

Courts-martial.

The following courts have been ordered:

At Mount Vernon Barracks, Ala., June 21. Detail: Major William Sinclair, 2d Art.; Capt. Julius H. Patzki, Asst. Surg.; Capts. William P. Graves and John C. Scantling, 2d Lieuts. William P. Stone and Arthur F. Curtis, 2d Art., and 1st Lieut. J. E. Eastman, 2d Art., J.-A. (S. O. 122, June 17, Div. A.)

At Willet's Point, N. Y. H., June 20. Detail: Capts. Edward Maguire, John G. D. Knight, and Eric Bergland, 2d Lieuts. William E. Craighill, Mason M. Patrick, Charles S. Richié, and Charles L. Potter, C. E., and 2d Lieut. Joseph E. Kuhn, C. E., J.-A. (S. O., June 18, H. Q. A.)

At Fort Adams, R. I., June 22. Detail: Capts. Frank G. Smith, Edward Field, and John W. Roder, 4th Art.; Capt. Richard W. Johnson, Asst. Surg.; 1st Lieuts. Richard P. Strong, Sidney W. Taylor, Harry R. Anderson, and Alexander B. Dyer, 2d Lieuts. Charles L. Cortheil, John E. McMahon, and Walter N. P. Darrow, 4th Art., and 1st Lieut. William Ennis, Adjt., 4th Art., J.-A. (S. O. 123, June 20, Div. A.)

Army Boards.

A Board of Survey, to consist of Lieut.-Col. E. M. Heyl, I. G.; Lieut.-Col. W. R. Gibson, D. P. M. G., and Capt. S. T. Cushing, C. S., will assemble at San Antonio, Tex., June 21, to fix the responsibility for the loss of one book pertaining to the Contingent Fund, A. G. Dept., for which Lieut.-Col. George D. Ruggles, A. A. G., is responsible (S. O. 70, June 15, D. Tex.)

A Board of Survey, to consist of Major Augustus G. Robinson, Q. M.; Capt. George G. Greenough and 1st Lieut. John A. Lundeen, 4th Art., will meet at Boston, Mass., June 24, to fix the responsibility for the condition of certain subsistence stores received by Major Thomas C. Sullivan, C. S., from 1st Lieut. William F. Stewart, 4th Art., A. C. S., Fort Warren (S. O. 125, June 22, Div. A.)

Camp of Rifle Instruction.

A camp of instruction in rifle practice will be established at Creedmoor, N. Y., July 5, and be continued for forty working days, terminating Aug. 19. The foot batteries and the infantry company stationed in New York Harbor will go into camp, each for ten working days, as follows: July 5 to 15—Bat. H, 5th Art. (Fessenden), Fort Hamilton; Bat. C, 5th Art. (Morris), Fort Columbus; Bat. K, 5th Art. (Brewerton), Fort Schuyler. July 16 to 27—Bat. E, 5th Art. (Rawles), Fort Hamilton; Bat. A, 5th Art. (Beck), Fort Columbus; Bat. M, 5th Art. (Day), Fort Schuyler. July 28 to Aug. 8—Bat. I, 5th Art. (Crabb), Fort Hamilton; Bat. L, 5th Art. (Randolph), Fort Columbus; Bat. B, 5th Art. (Van Reed), Fort Wadsworth. Aug. 9 to 19—Co. A, 12th Inf. (Wilson), Bedlow's Island. Major Abram C. Wildrick, 5th Art., is designated commander of the camp. 2d Lieut. Harvey C. Carbaugh, 5th Art., is appointed A. A. Q. M., and 1st Lieut. William N. Suter, Asst. Surg. (Washington Barracks, D. C.), is designated as medical officer. 2d Class Hospital Steward Henry J. Linweber (Madison Barracks, N. Y.), will report for duty. No one will be excused from this practice unless by special authority, in each case, from these Headquarters. (S. O. 124, June 21, Div. Atlantic.)

DEPARTMENT NEWS.

Division of the Pacific—Maj.-Gen. O. O. Howard.

From Jan. 1 to April 20, 1887, the following desertions occurred from regiments serving in the Division of the Pacific: 2d Cav., 11; 4th Cav., 21; 6th Cav., 17; 10th Cav., 2; 1st Art., 8; 1st Inf., 8; 4th Inf., 12; 9th Inf., 10; 13th Inf., 2; 14th Inf., 8.

Dept. of the Platte—Brig. Gen. George Crook.

Gen. Brisbin has established a summer camp of instruction for the troops at Fort McKinney, located at a beautiful spot on a tributary of the Clear Fork of Powder river. It is about fourteen miles distant from the post and Buffalo. Troops D and H, 9th Cav., and Cos. C and K, 7th Inf., will each have a tour at the camp.

On June 30 a party of ladies and gentlemen will leave Omaha for Fort Leavenworth to attend the marriage of Miss Henrietta R. Wilson and 1st Lt. D. H. Boughton, 1st Cavalry.

Dept. of Texas.—Brig. Gen. D. S. Stanley.

Roach and Mahon, merchants of Brackettville, have offered a fine gold medal as a prize to the enlisted man securing a place on the Department team, who makes the highest aggregate score in the three days' preliminary practice at the annual rifle competition of 1887.

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

JUNE 22, 1887.

THE general merit roll of the three classes is as follows:

SECOND CLASS.

1. Jervey	16. Koester	31. Foster, C. L.
2. Judson	17. Hedekin	32. Harris
3. Gallup	18. Overton	33. Helmick
4. McKinstry	19. Fenton	34. McFarland
5. Hayden	20. Russ	35. Sample
6. Palmer	21. Howze	36. Dashiell
7. Wilson	22. Preston	37. Wilhelm
8. Burr	23. Horne	38. Hart
9. Vestal	24. Supplee	39. French
10. Peirce	25. Wilder	40. Donaldson, C.V.
11. March	26. Ryan	41. Vance
12. Winn	27. Anderson	42. Stockle
13. McAndrew	28. Quay	43. Perry, A. W.
14. Grisard	29. Chrisman	
15. Chadeayne	30. Hartman	

THIRD CLASS.

1. Winslow	19. Hains	37. Cloman
2. Flagler	20. Rhodes	38. Lacey
3. Harding	21. Sydenham	39. Leitch
4. Harts, W. W.	22. Lee	40. Crawford
5. D'Armit	23. Skerrett	41. Sladen
6. Winston	24. Johnson, B.	42. Peterson
7. McGregor	25. Kemp	43. Normoyle
8. Blake	26. Harrison	44. Bryan
9. Martin	27. Piper	45. Irwin
10. Kenly	28. Hagadorn	46. Burkhardt
11. Lambdin	29. Bethel	47. Bookmiller
12. Willcox	30. Lassiter	48. Barrios
13. McGlachlin	31. Jordan	49. Graves
14. Campbell	32. Langhorne	50. Young, C.
15. Barroll	33. Phillips	51. Cole
16. Haan	34. Wood	52. Kirkman
17. Kelley	35. Taylor	53. Stockham
18. Ellis	36. Webster	

FOURTH CLASS.

1. Jadwin	27. Ferguson	53. Frazier
2. Deakyne	28. Lyon	54. Cleary
3. Keller	29. Rowell	55. Deese
4. Bromwell	30. Marshall	56. Ryan, J. A.
5. Todd	31. Ketcham	57. Uline
6. Rennard	32. Gatley	58. Davis, M. F.
7. Davis, W. C.	33. Wolf	59. Spurgin
8. Hine, C. D.	34. Corcoran	60. Smith, H. A.
9. Fox	35. Meyer	61. Andrews
10. Hearn	36. Moore	62. Jones, S. G.
11. Winston, F. W.	37. Caldwell, F. M.	63. Brown
12. Snow	38. Jackson	64. Fleming
13. Hornbrook	39. Hamilton, C.T.	65. Murray
14. Ruggles	40. Bennet	66. Hoskins
15. Hamilton, J.	41. Lindsay	67. Guyer
16. Johnson, W. O.	42. Learnard	68. Davis, W. C.
17. Swan	43. Bindholtz	69. Cordray
18. Krayenbuhl	44. Keech	70. Gose
19. Voorheis	45. Wallace	71. Kennedy
20. Mauldin	46. Symmonds	72. Miller
21. McNair	47. Montgomery	73. Rayburn
22. Wholly	48. Rushing	74. Kingsley
23. Merillat	49. Butts	75. Beach, R. J.
24. Powell	50. Hobbs	76. Rand
25. Nottingham	51. Clark, C. C.	77. Caldwell, V. A.
26. Clark, W. F.	52. Lamoreux	

158 candidates, out of 187 appointed, reported to the Adjutant. Of these 12 were rejected by the Medical Board, one left the post before the mental examination began, and the following, 106 in number, were admitted to the Academy:

Amos, William Thomas, Ohio.	Lazelle, J. H. G., At-Large.
Anderson, Andrew J., Tenn.	Lindsley, Elmer, N. Y.
Anderson, Edward D., Tenn.	Livermore, R. L., N. J.
Armstrong, Frank S., Ind.	Long, Frank Scott, Conn.
Bechtel, John Adams, Pa.	Lyon, LeRoy S., Va.
Bertsch, William H., Mich.	Malony, Charles H., Ohio.
Bowen, Benjamin G., Tenn.	McIndoe, James Francis, Md.
Bradley, John Jewsbury, Ill.	McMaster, George H., S. C.
Brady, John Thomas, Ia.	McMullen, Cassius W., Ind.
Broadbent, Samuel Reed, Pa.	Mearns, Robert W., Pa.
Burbank, Charles Elroy, Mass.	Mizner, Henry W., Cal.
Bush, Ross Leonard, Ill.	Morrow, Jay J., Pa.
Carter, William A., N. C.	Murphy, Truman O., Ohio.
Chapman, Wm. H. H., Wis.	Ogden, Charles C., Ill.
Conn, Harry Laverne, Ohio.	Osborne, William H., Pa.
Cook, Paul, Ark.	Palmer, Henry H., N. Y.
Cornell, John B., Jr., Ohio.	Pheatt, Zebulon, Ohio.
Cosby, Chapman S., At-Large.	Pipes, Henry A., La.
Davis, Alex. M., At-Large.	Pierce, Palmer, E., Ia.
Davis, Myron, Pa.	Quigley, Henry C., Pa.
Davison, Peter W., Wis.	Ramsay, George D., N. Y.
Donworth, Albert B., Me.	Rannells, David A., Ohio.
Drew, Alfred W., Tex.	Reisinger, Elmer E., Pa.
Eberle, William F., Ohio.	Ripple, Jordan D., Pa.
Echols, Charles Patton, Ala.	Rochester, W. B., Jr., At-Lar.
Ely, Hanson Edward, Ia.	Royden, Herbert N., Conn.
Eubanks, Charles James, Ill.	Ryther, Dwight W., N. Y.
Filkin, Perry, N. Y.	Saffarrans, Geo. C., Ky.
Fleming, Robert J., Mich.	Salmons, James T., Tenn.
Fuller, Lawson Mayo, Wis.	Sayer, Albert D., N. Y.
Furlong, John William, Pa.	Schoeffel, Francis H., N. Y.
Gidney, Charles C., N. C.	Settle, Douglas, N. C.
Graff, Wilbur P., Pa.	Sewell, John Stephen, Ky.
Groff, John M., Pa.	Smith, Guy Berard, Md.
Grote, William F., Ill.	Snell, John W., Jr., Utah.
Hambright, Horace G., Tenn.	Sorley, Lewis S., Tex.
Hamilton, Robert L., W. Va.	Sowell, James L., Ala.
Harden, Joseph S., S. C.	Storms, Daniel E., Ind.
Harriman, Orlando H., N. Y.	Stovall, Adam T., Miss.
Helm, William W., Ky.	Sweezey, Claude B., Kans.
Henderson, William J., Kans.	Switzer, John S., Pa.
Hero, Andrew, Jr., La.	Threlkeld, Hansford L., Ky.
Hinshaw, Bright B., Cal.	Tinker, Jonathan E., Vt.
Hirsch, Harry J., Pa.	Tutherly, William, N. H.
Horney, Odus C., Ohio.	Upton, La Roy S., Mich.
Horn, Tiemann N., N. J.	Wahl, Lutz., Wis.
Howard, Harold P., Minn.	Walker, Kirby, Ohio.
James, Harry Lane, Wis.	White, George Philip, Ia.
Jarratt, Bernard Edgar, Miss.	Whittemore, Clare Roy, Ia.
Jarvis, Melville S., W. Va.	Williams, Herbert O., Miss.
Johnston, William T., Mo.	Winan, Edwin B., Jr., Mich.
Jenks, Isaac Colburn, Mass.	Wood, Wells Warington, Ia.
Kellogg, Donald W., Kan.	Wood, William M., Cal.

The cadets' hops are held every Monday, Wednesday, and Friday evenings. On Tuesday and Saturday evenings there is music in camp, and on Thursday evening in front of the Superintendent's quarters.

The two second classmen reported deficient in chemistry have been probated till Aug. 28, when they will be given another examination. There are now 284 cadets in the corps, leaving 60 vacancies.

We are called upon to note this week the saddest event that has occurred at West Point in a long time. Helen Reed, the bright five-year-old child and only daughter of Lieut. and Mrs. Reed, 2d Artillery, died early Sunday morning of diphtheria and was buried in the afternoon at 3 o'clock. Prof. Postlethwaite held brief services at the grave, in the presence of the father of the dead child, Dr. Smith, and the necessary attendants. Harry, the twelve-year-old son of Lieut. Reed, had been sick with the same disease, but was convalescing rapidly when his sister was taken with it. Dr. Jacobi, of New York, was summoned, but nothing that the combined medical talent could do was sufficient to save the little sufferer.

The West Point graduates have been assigned to regiments as follows, and in a few days they will receive their recess commissions, to date from time of graduation:

1. Francis R. Shunk, Additional 2d Lieut., Corps of Engrs.
2. James J. Meyler, Additional 2d Lieut., Corps of Engrs.
3. Eugene W. Van C. Lucas, 1st Art., Bat. A.
4. Charles B. Wheeler, 5th Art., Bat. M.
5. E. C. Young, 18th Inf., Co. E.
6. R. P. Davis, 2d Art., Bat. I.
7. George O. Squier, 3d Art., Bat. G.
8. E. Hinds, 2d Art., Bat. E.
9. Wirt Robinson, 4th Art., Bat. E.
10. John M. Jenkins, 5th Cav., Troop K.
11. Edgar Russell, 3d Art., Bat. H.
12. George F. Landers, 4th Art., Bat. H.
13. George W. Gatchell, Additional 2d Lieut., 5th Art.
14. H. E. Wilkins, 2d Inf., Co. F.
15. O. I. Straub, Additional 2d Lieut., 1st Art.
16. Alfred M. Hunter, 5th Cav. Troop I.
17. Fremont P. Peck, Additional 2d Lieut., 4th Art.
18. Edson A. Lewis, Additional 2d Lieut., 18h Inf., and 2d Lieut., June 15, 1887.
19. C. H. Martin, 14th Inf., Co. F.
20. John D. Riley, Additional 2d Lieut., 5th Art.
21. P. D. Lochridge, 2d Cav., Troop I.
22. T. H. Slavens, 4th Cav., Troop L.
23. Nathaniel F. McClure, 4th Cav., Troop M.
24. William C. Rivers, 1st Cav., Troop M.
25. H. C. Schumm, Additional 2d Lieut., 3d Art.
26. James C. Bourke, Additional 2d Lieut., 2d Art.
27. William Weigel, 11th Inf., Co. A.
28. Fred. A. Tripp, 1st Inf., Co. D.
29. E. W. Evans, 8th Cav., Troop I.
30. Robt. G. Paxton, 10th Cav., Troop D.
31. John C. Gregg, 16th Inf., Co. G.
32. John H. Alexander, 9th Cav., Troop —.
33. John A. Harman, Additional 2d Lieut., 7th Cav.
34. T. Q. Donaldson, Jr., Additional 2d Lieut., 3d Cav.
35. George McK. Williamson, Additional 2d Lieut., 6th Cav.
36. Thomas G. Hanson, 19th Inf., Co. D.
37. F. H. Beach, Addditional 2d Lieut., 1st Cav.
38. T. W. Hall, Additional 2d Lieut., 4th Cav.
39. A. T. Moriarty, 6th Inf., Co. K.
40. Alonzo Gray, 20th Inf., Co. B.
41. Wm. E. Bruce, 22d Inf., Co. A.
42. H. Hall, 4th Inf., Co. H.
43. Pierrepont Isham, 3d Inf., Co. A.
44. A. B. Foster, 19th Inf., Co. B.
45. Marcus D. Cronin, 20th Inf., Co. G.
46. Alex. L. Dade, 13th Inf., Co. A.
47. Charles S. Farnsworth, 25th Inf., Co. E.
48. Charles Gerhardt, 25th Inf., Co. D.
49. Samuel Seay, Jr., 21st Inf., Co. F.
50. Wm. P. Baker, 10th Inf., Co. C.
51. E. L. Loveridge, 11th Inf., Co. K.
52. Jas. T. Dean, Addl. 2d Lt., 14th Inf., and 2d Lt., June 15.
53. U. G. McAlexander, Addl. 2d Lt., 9th Inf., 2d Lt., June 15.
54. W. K. Jones, Additional 2d Lieut., 25th Inf.
55. Edmund Wittenmyer, Additional 2d Lt., 9th Inf.
56. F. D. Evans, not assigned—undergoing sentence.
57. Michael J. Lenihan, Additional 2d Lieut., 8th Inf.
58. William H. Wassell, Additional 2d Lieut., 1st Inf.
59. Mark L. Hersey, Additional 2d Lieut., 19th Inf.
60. W. L Taylor, Additional 2d Lieut., 16th Inf.
61. Bard P. Scheuck, Additional 2d Lieut., 7th Inf.
62. Henry R. Adams, Additional 2d Lieut., 23d Inf.
63. Samuel A. Smoke, Additional 2d Lieut., 6th Inf.
64. Frank H. Albright, Additional 2d Lieut., 12th Inf.

—

Emmet Alexander Nichols, Raleigh, N. C.; Leonidas Haywood Merritt (alt.), Raleigh, N. C., and William Douglas Dunsmore, Blossburg, Pa., have been designated for examination for admission to the U. S. Military Academy in June, 1888.

(Correspondence of the Army and Navy Journal.)

FORT RILEY, KANSAS.

JUNE 11, 1887.

TWO INTERESTING team competitions in rifle firing occurred at this post during the present week.

The first was between several teams of five enlisted men each. The organizations represented by the teams, the totals at each range and the grand totals are indicated as follows:

Ranges.	N. C. S. and Band, 5th Cav..	Co. K, 18th Inf....	Co. H, 18th Inf....	Co. G, 18th Inf....	Troop H, 5th Cav....	Troop E, 5th Cav....	Troop D, 5th Cav....
200 yards.....	181	194	185	199	178	179	169
300 yards.....	196	196	189	198	195	192	179
500 yards.....	195	187	202	179	201	204	173
600 yards.....	186	176	174	167	167	141	181
Grand totals..	758	753	750	743	741	716	702

The number of shots fired was ten shots per man at each range.

The second competition was between two teams consisting entirely of commissioned officers. Number of shots fired same as above. The following are the scores made;

FIRST TEAM.

	200 Yds.	300 Yds.	500 Yds.	600 Yds.	Totals.
Capt. E. D. Thomas, 5th Cav....	38	40	45	43	166
1st Lieut. F. Miebler, 5th Cav..	38	41	43	38	160
1st Lt. G. H. Paddock, 5th Cav.	42	41	41	31	155
1st Lieut. W. T. Wood, 18th Inf.	37	40	43	30	150
2d Lt. T. W. Griffith, 18th Inf...	34	34	46	41	155
2d Lieut. J. T. Haines, 5th Cav..	30	38	47	36	151
Grand totals.....	219	234	265	219	957

SECOND TEAM.

	200 Yds.	300 Yds.	500 Yds.	600 Yds.	Totals.
2d Lieut. C. L. Steele, 18th Inf..	42	41	41	41	165
Capt. W. A. Miller, 18th Inf	33	39	28	37	137
Capt. W. S. Schuyler, 5th Cav..	38	41	34	28	141
1st Lieut. R. London, 5th Cav..	39	42	35	33	149
1st Lt. O. B. Warwick, 18th Inf.	31	36	38	38	143
2d Lieut. C. McClure, 18th Inf..	36	38	42	34	150
Grand totals.....	219	237	218	211	885

The marking and scoring in the above competitions I am convinced were done fairly. That loose marking is often done; that fraudulent marking is sometimes done; and that the target records are sometimes tampered with, all will, perhaps, concede, but that there has been a wonderful improvement in target shooting in our Army; that the importance of skill in the use of our arms cannot be overestimated, and that the interest taken in target practice by all concerned is marvellous, all will again surely concede; therefore, we say let every effort be made to eliminate error from our target practice to the end that a growing interest and a real improvement in the practice may be maintained.

WILLET'S POINT, N. Y. H.

THE Engineer Battalion Base Ball Club challenges all clubs in New York harbor composed of enlisted men of the Army, Navy or Marine Corps to play a series of games for the Military Championship of New York Harbor; the first game to be played at Willet's Point under the rules of 1887. For information address Chas. G. Post, secretary of the club.

(Correspondence of the Army and Navy Journal.)

FORT ELLIOTT, TEXAS.

CAPT. G. A. DREW, commanding Troop I, 3d Cav., sends us the following scores of five sharpshooters of that troop "just as they were made." A total of all the scores is also given:

	200 Yds.	300 Yds.	500 Yds.	600 Yds.	800 Yds.	1,000 Yds.
Sergt. Johnson.....	22	22	23	21	19	23
	23	23	22	21	21	21
	23	24	22	24	21	19
	23	21	23	21	24	21
Total..	91	90	90	87	85	84
Sergt. Andrews.....	22	22	23	21	22	20
	22	22	22	21	21	20
	23	23	23	21	20	20
	23	23	22	23	23	21
Total.....	90	90	90	86	86	81
Pvt. Bender.....	23	23	23	22	23	19
	22	23	24	22	19	21
	22	24	22	23	21	22
	23	20	23	22	22	22
Total.....	90	90	92	89	85	84
Pvt. Markham.....	22	23	21	21	20	20
	22	23	23	21	22	20
	23	21	24	20	23	19
	23	23	22	23	23	22
Total..	90	90	90	85	88	81
Pvt. Sobeskie.....	23	23	23	21	20	22
	22	23	23	21	21	18
	22	22	22	20	21	21
	23	22	23	23	23	21
Total.....	90	90	91	85	85	82

These scores were all completed some ten days ago. You will notice how uniform most of these scores are:

Sergt. Johnson.—91, 90, 90, 87, 85, 84.—Total, 527.
Sergt. Andrews.—90, 90, 90, 86, 86, 81.—Total, 523.
Pvt. Bender.—90, 90, 92, 89, 85, 84.—Total, 530.
Pvt. Markham.—90, 90, 90, 85, 88, 81.—Total, 544.
Pvt. Sobeskie.—90, 90, 91, 85, 85, 82.—Total, 523.

(Correspondence of the Army and Navy Journal.)

FORT LYON, COLO.

OUR little post does not figure much in print except on occasions of match games of base ball between the two clubs here, both of which do some fine playing at times and have some excellent players; and also when other posts get to putting before the public phenomenal scores made at target practice which they erroneously believe can't be beaten, then it is that Fort Lyon "bobs up serenely," in spite of the efforts made to have it placed on the list of abandoned posts to be turned over to the Interior Department and the troops moved to Denver.

Just at present it is looking better in every way than ever before, thanks so the ability and untiring energy of our post quartermaster, 1st Lieut. Clayton S. Burbank, 10th Inf. Our only fear is that we may soon lose him, as he is shortly to be honored with another bar upon his straps. Target practice occupied most of the attention during May and some excellent shooting was done.

The company gardens, which were so promising three weeks ago, have met with irreparable damage through the rising of the Arkansas River, which covered them twice to a depth of one and two feet.

Lieut. I. W. Littell recently made a survey of the reservation, as all the land around here is being taken under the homestead law night up to the reservation boundary. Houses are going up, fences being built and fields plowed. Claims for a great farming country are made for this section of Colorado.

The post school, superintended by Lieut. Shollenberger, 10th Inf., closed last Friday.

The majority here seem to be tolerably contented with everything, although a rumor does start from somewhere every few weeks to the effect that the three companies of the 22d Infantry are to be moved as soon as the new appropriation for transportation is available.

Mrs. S. H. Lincoln is expected to return from an extended visit in Cincinnati next week sometime.

Miss Mamie Ward returned last Thursday night from Denver, where she has been attending school during the past year. Capt. G. S. L. Ward was on the sick list for a few days this week and Lieut. Burbank had command of his company in addition to his other duties.

Cadet Frank Lacey is expected home from West Point this coming week, after a two years' absence.

Dr. Gibson's son, Joe, is also expected home from school about the same time.

SEHCODGOCAN.

(Correspondence of the Army and Navy Journal.)

FORT MEADE, D. T.

JUNE 16, 1887.

THERE is very little of interest to communicate from our post at the present time. Target season having set in in full force, one hears nothing but the incessant firing from morning till night.

Full dress mounted parade and mounted guard mount for the cavalry in the morning gives the remainder of the day to the target range. There is much competition, with unusual fine shooting among the different troop officers.

The members of the court-martial, which recently met here, adjourned after a two weeks' session, after being royally entertained by the entire garrison in hops, dinings, card parties, breakfasts and lunches. They expressed themselves with much enthusiasm, relative to the attractions of Fort Meade as a model military station, as well as to its charming social life. Capt. Edgerly has returned from his leave, Mrs. Edgerly remaining in New York.

Mrs. Hare, wife of the Adjutant of the 7th, will soon leave for St. Paul, taking with her her two youngest children for the summer. Among the returning absentees soon expected will be Capt. French's family, Miss Katie Gibson and Miss Maud Gray.

Lieuts. Cameron and Tompkins are now out after deserters. The latest arrival in our community is little Miss Annie Ord, who made her appearance a few days since.

There are rumors here to the effect that the 7th will be ordered to Fort Riley in the early fall, if not before.

(Correspondence of the Army and Navy Journal.)

NEWPORT BARRACKS, KY.

A CHARMING dance was given at the barracks, June 17. Through the courtesy of the commandant, Col. E. C. Bainbridge, Capt. J. L. Tiernon, 3d U. S. Art., secured the spacious hospital wards, and the Mercury Club and their friends were Capt. Tiernon's guests for the evening. Miss Katie Tiernon appeared in a rich costume of white satin and lace, with corsage bouquet of Marshal Neil buds; Miss Florence Hubbard, Miss Tiernon's guest, wore white mull over Nile green surah, with diamond ornaments; Miss Milliken, of Washington, looked very attractive in a costume of mauve silk and lace. Miss Bainbridge's costume was of cream embroidered mull, pearl ornaments. The Mercury Club members were all present. Besides the club we noticed Dr. Gardiner, U. S. A., who was especially kind in giving his attention to the arrangements and decoration of the hospital. Michael's orchestra furnished the music for the dancing, which was continued until nearly dawn.

(Correspondence of the Army and Navy Journal.)

FORT WINGATE, N. M.

JUNE 15, 1887.

THERE are five companies of the 13th Infantry and two troops of the 6th Cavalry here, and little fatigue to speak of.

Officers are returning from leave, among the latest being Capt. F. E. DeCourcy. The band, whose staunch friend he has always been, welcomed him with a complimentary concert and serenade. His company, H, 13th Inf., has organized an athletic association named the "F. E. DeCourcy."

Rumors are afloat that the Apaches are going to roust us out into the field again. But what is agitating us principally is, will the 13th Infantry get a change of station this year or not? We all hope that the powers that be will take compassion on the 13th and give them a change, as seven years' residence in this region, with two years of Apache campaign thrown in, is quite enough DOUGH BOY.

(Correspondence of the Army and Navy Journal.)

GOVERNOR'S ISLAND, N. Y. H.

THE Emerald B. B. C., of Governor's Island, defeated the Altman's B. B. C., of New York City, at Governor's Island last Saturday. There was a large attendance present; the liveliest interest was felt in the match. Marshal's curves was too much for the visitors. The Emerald's men outbatted their opponents and won with the following score:

Emeralds	1	2	4	0	0	3	0	0	3	—13
Altmans	1	0	2	1	1	3	0	1	1	—10

(Correspondence of the Army and Navy Journal.)

FORT MYER, VA.

THE commissioned force of Fort Myer, Va., after it receives its new Cavalry garrison, will be Major Louis H. Carpenter, 5th Cav., comdg. Troop B, 4th Cav., Capt. H. W. Lawton, 1st Lieut. A. L. Smith, 2d Lieut. R. D. Walsh. Troop B, 6th Cav., Capt. G. S. Anderson, 1st Lieut. Wm. Baird, 2d Lieut. B. K. West. Acting Asst. Surgeon L. W. Richie, U. S. A., is post surgeon at present. The detachment of 3d Artillery will return to Washington Barracks when the cavalry arrive.

FORT OMAHA, NEB.

THE *Excelsior* of June 18 says:

Col. and Mrs. Fletcher have returned to Fort Omaha from Philadelphia. Miss Miskey, Mrs. Fletcher's step-daughter, came with them. . .The marriage of Miss Henrietta B. Wilson, daughter of Gen. Thomas Wilson, U. S. A., to Lieut. Daniel H. Boughton, will be held on June 30 at Fort Leavenworth. A party of friends will go down from Omaha, the former home of the bride, who has been a great favorite in society . . . .—— Kinzie, who played 3d base in the Kansas City nine in the three games with Omaha this week, is a brother of Lieut. Kinzie, the adjutant of the 2d Infantry. . . . The right wing of the 2d Infantry finished its season of target practice at Bellevue June 14; returned to Fort Omaha June 15 . . . . Lieuts. Mallory and Van Liew went to Lincoln, Neb., Monday, to act as judges in a competition drill by the cadets of the State University. . . . . Mrs. Van Liew went to Fort Leavenworth June 10, where she will remain with her father during the six weeks that her husband is absent at Bellevue for target practice.

FORT SIDNEY, NEB.

THE *Excelsior* of June 18 says:

Mrs. Reed, sister of Mrs. Gen. Crook, is the guest of Mrs. Major Boyle, at Fort Sidney. . .The band goes to Crete for the 4th of July. . . . . Lieut. Bailey, 21st Inf., granted four months' leave, spends it at Port Townsend, W. T. . . . . Gen. Morrow has had a half-dozen copies of English illustrated papers sent him by Buffalo Bill, containing representations of the Wild West Show in England.

FORT LEAVENWORTH, KAS.

THE Army champions, the MacArthur base ball club, of Ft. Leavenworth, played the Platte City club at the latter place Thursday. The game was a good one and the soldiers won it after a hard struggle. The batting of both clubs was very hard. The following is the score by innings: Fort Leavenworth—1, 0, 8, 2, 2, 1, 0, 1, 5; total, 20. Platte City—2, 2, 0, 2, 7, 0, 2, 3, 0; total, 18. This makes six straight games the fort club has won, and under the management of Lieut. J. V. S. Paddock, 5th U. S. Cav., are playing great ball.—*K. C. Times.*

The infantry and cavalry school, on application of Gen. McCook, has been furnished with a set of silken standards, consisting of a cavalry battalion standard, the national colors and guidons. The cavalry standard is of yellow silk covered with the coat of arms worked by hand in beautiful colors, with the words "U. S. Infantry and Cavalry School." The national colors are of silk with the words "U. S. Infantry and Cavalry School" running in embroidered letters across.

Captain Jack Crawford, the poet scout, delivered a lecture here June 4 to an audience which appreciated him. He was the guest of Lieut. Byrne, Adjt., 6th Inf.

FORT DAVIS, TEX.

The *News* of June 17 says:

The post school, which has been in successful operation for about ten months, with H. B. Staley as teacher, will close next week. . . . The Good Templars are to have a picnic on July 4. . . . The lowest monthly average of temperature at Fort Davis for the last eight years is 43 deg. and the highest 75 4-10, the extreme variation being a little more than 32 deg. Where elsewhere in our whole broad country is there another locality that can make a like showing?

THE St. Louis *Democrat* having objected to Fort Davis being so named, as it is in honor of Jefferson Davis, who was Secretary of War when the post was established, the *Times-Democrat*, of New Orleans, says: "The South, and the whole country, is opposed to fighting any such post bellum war. The State of Louisiana found itself with Lincoln, Grant and Cameron parishes at the end of the war, and with towns named after such men as Colfax. It left these names standing. Our fathers of the Revolutionary period did the same."

FORT CLARK, TEXAS.

THE Brackett *News* says:

The rifle contest in Co. C, 19th Infantry, for place as company representative on the Department team, came off on June 9, resulting in Private James E. Morgan being victor. He is a man of sober habits and of excellent character, and Co. C will be well represented. Major Witherell, who also did some good shooting, is one of the best shots among the officers in his regiment and has qualified as sharpshooter the last four years.

COURT-MARTIAL CASES.

Private Chas. Wracks, Troop B, 9th Cavalry, for threatening to blow out the brains of Dr. R. B. Benham, U. S. A., for not excusing him from fatigue duty, has been relegated to the guardhouse at Fort DuChesne for two months and mulcted $20. He now racks his brains to find out why he should have been such an ass.

Private Thos. Burke, Co. F, 1st Infantry, for too much zeal at skirmish practice, (firing more than the authorized number of shots, etc.,) has been sentenced to confinement for two months and mulcted $20.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Greenport, L. I., June 20.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. Arrived at Greenport June 20.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Arrived at Greenport, L. I., June 20.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at New Haven June 15. Remained behind the squadron at New Haven to take on cadets for the squadron. Was to have sailed for Greenport, L. I., June 21.

S. Atlantic Station—A. R. Admi. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Cape Town June 6.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. Arrived at Rio de Janeiro May 18.

TALLAPOOSA, 3d rate, 13 guns, Comdr. William Whitehead. Arrived at Rio de Janeiro May 18. Comdr. F. W. Dickens has been ordered to command this vessel, and will sail on the U. S. S. *Trenton.*

European Station—R.-Admi. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Sailed from Villefranche for Spezzia, June 9.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. Reported by cable to have sailed from Spezzia, Italy, June 8, for Lisbon. In a letter dated Villefranche June 1, Rear Admiral Franklin states that this vessel will stop en route to Lisbon at Tangiers and Gibraltar. After getting new officers and crew at Lisbon will go to Smyrna and Constantinople.

Pacific Station—Rear Admi. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Left the central American coast for the Sandwich Islands May 15. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francsco, Cal.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. Sailed from Panama for Payta, Peru, May 23.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama May 27.

Commander R. P. Leary, in his last quarterly report states that the deck and deck beams of the *Iroquois* have become so rotten that the 11-inch pivot gun aft cannot be used at all, and that the check of the forward pivot gun has become so rotten that it is unsafe to fire from the port side. Upon the recommendation of Chief Naval Constructor Wilson, based upon this report, Secretary Whitney has ordered the *Iroquois* to proceed at once from Panama to the Mare Island Navy-yard, where she will be inspected by the Board of Survey.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. In Panama Bay on June 4.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Panama, May 27. To join the *Vandalia* at Payta, Peru, early in June.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. Arrived at Juneau, Alaska, May 12. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Arrived at Rio de Janeiro June 19.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Payta, Peru, May 27.

Asiatic Station—Rear-Admi. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama May 23. Intended to leave for Chemulpo as soon as boilers are repaired.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Left Nagasaki for Yokohama May 22.

MARION, † 3d rate, 8 guns, Commander Merrill Miller. At Chemulpo, Corea, May 23.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama May 23.

OMAHA, † 2d rate, 12 guns, Commander F. V. McNair. At Yokohama May 23.

PALOS, † 4th rate, 6 howitzers. Lieut. Comdr. J. E. Craig. At Yokohama May 23.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to care B. F. Stevens, 4 Trafalgar Sq., London, England.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T. F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

On Special Service.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At New York Navy-yard.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. Cruising in Chesapeake Bay, June 20, and later will proceed to Gardner's Bay and Long Island Sound, making ports at Newport, R. I., and New London, Conn.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Arrived at Norfolk, Va., June 23, from Washington. Was to leave Norfolk for New York, June 24.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. Arrived at Washington June 9.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Surveying on Coast of Lower California. Off San Diego, Cal., June 6. Expects to go to Mare Island, Cal., the latter part of June.

ST. MARY'S, sails, 8 guns, Comdr. A. S. Crowninshield. N. Y. School ship. En route for Fayal, Azores; arrive at that port June 10, reach Cadiz June 21, leave Gibraltar July 6, and reach Madeira July 13. From the latter port she will leave for New London about July 20, and arrive there about August 14.

TRENTON, 2d rate, 10 guns, Comdr. N. H. Farquhar. At Norfolk, Va. Will sail for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*, early in July. Will probably be assigned later to the North Atlantic station. Expects to make a trial trip to Hampton Roads on June 25.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. G. C. Wiltse. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax. Catskill. Lehigh, Mahopac, Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic Squadron. Will be completed about July 1.

Chicago—At New York, where she will be completed. Will be in condition for a trial trip the latter part of July.

Kearsarge—At Portsmouth, N. H., being repaired.

Hartford—Will undergo extensive repairs at Mare Island, Cal., and will hardly be ready for commission this year

VARIOUS NAVAL ITEMS.

MEDICAL INSPECTOR A. C. RHOADES, U. S. N., who is in attendance upon naval officers and their families in the vicinity of New York, has established office hours, for the summer months, from 9 to 11.30 A. M., at 140 West 44th st., N. Y.

THE Board of Inspection returned to the Navy Department early this week, after having surveyed the *Ossipee*. The board found the vessel to be in excellent condition. The board will next inspect the *Trenton*, at Norfolk, about the 1st of July.

THE Navy Department has been informed that Mr. Dobbs, of Buffalo, is at work on a life boat, which he expects will answer the requirements of the Navy. The department will give him, or any other inventor, a hearing when they present boats which seem to possess the qualities necessary for the use of naval vessels.

THE *Chicago*, at New York, will receive furniture and spars and weights equivalent to that of her proposed battery, before going out on her trial. She left Chester at 1 o'clock Tuesday. Her battery will not be ready for a long time to come, as an appropriation from Congress will have to be secured before work can be started on her guns.

WE learn from the Chief of the Naval Bureau of Engineering, that there is no truth in the statement made in a newspaper letter, from which we quoted, to the effect that the Naval Engineers took advantage of the presence of the Mechanical Engineers at the annual convention in Washington to explain their position with reference to the proposed consolidation of bureaus, and to lay out a plan of defensive campaign for the next Congress.

THE correspondent of the Baltimore *Sun* on board the *Mohican*, from whose letter we quoted last week, says: "A trip across the Isthmus of Panama reveals the same disregard by the canal company for the care and preservation of costly machinery that was noticeable fifteen months ago. It is surprising to observe that no material advance has been made on the canal during that period, although there is an ostentatious appearance of prosecuting work over the entire line, with a force of men totally inadequate to cover such a distance."

BIDS for furnishing supplies for the Naval Asylum at Philadelphia were opened at the Navy Department this week.

THE U. S. Coast Survey steamer *Endeavor*, Lieut. D. D. V. Stuart, commanding, arrived at New York June 22 from Morgan City, La., via Hampton Roads.

THE Board of Inspection has appraised the stmr. *New York*, at the Brooklyn Navy-yard, at $8,000, and she will be sold under the provisions of the appropriation act for 1887-8.

IT is reported that a Naval Inspection Board has examined the U. S. steamer *New York*, now lying at the Brooklyn Navy yard, preparatory to her sale at auction, and has appraised the value of the vessel at $8,000.

THE North Atlantic fleet under command of Rear Admiral Luce, U. S. N., composed of the flagship *Richmond*, *Galena* and *Ossipee*, arrived in Gardiner's Bay, Long Island Sound, June 22, and dropped anchor opposite the old lighthouse, and engaged in target practice with heavy guns.

THE practice ship *Constellation* is in Hampton Roads. The cruising grounds for the practice ship will be principally Gardiner's Bay and Long Island Sound, with headquarters probably at Newport, R. I., and New London, Conn. The *Constellation* will return the latter part of August in time to allow the three classes aboard a month's vacation before the Academy reopens October 1.

THE new cruiser *Atlanta* will be ready for a cruise at sea in the course of a few weeks, when it is expected that she will proceed to Chesapeak Bay and indulge in prolonged target practice with all the conditions of actual warfare as carefully simulated as practicable. It is believed by the officers on board that at least three months will be occupied in this experimental work, and much valuable data is expected to resul. The ship is looking very well just now, and all on board appear thoroughly pleased with the ship.

LIEUT. A. M. KNIGHT, in charge of Naval Ordnance Proving Grounds, acting under instructions from the Navy Department, has been prospecting along the Nanticok River, near Roaring Point, Md., for an available site for the new proving grounds for which an appropriation has been made by Congress. One of the sites considered available is a scope of level marsh uninhabited, extending from the shore of the Nanticok River, opposite Roaring Point, to Best Pitch Ferry, on the Transquaking River. This site gives an unobstructed range of ten miles, free from all danger to life or property.

COMDR. EVANS, chief steel inspector, has returned to Washington from Chester and Thurlow, where he went to inspect steel castings for the naval vessels now building. He says that at the Standard Steel Works, Thurlow, recently there was cast a steel stern post for Gunboat No. 1 and an engine bed plate for the cruiser *Baltimore*, which vessels are being constructed at Cramp's yards. The stern post, weighing 15,000 pounds, was cast without a defect. The first shipment of steel plates and boiler materials for the new dynamite cruiser was made from Thurlow. Comdr. Evans brought with him to the Department, and gave to Secretary Whitney as a paper weight, a sample piece of steel, 1½ inches in thickness, which had been bent cold upon itself and hammered flat without evidence of a break.

REPRESENTATIVE THOMAS, of the House Committee on Naval Affairs, was at the Navy Department on Monday, in consultation with the Secretary and Commo. Walker in regard to a proposition made by the citizens of Chicago to furnish some part of the equipment of the *Chicago*. The representatives of the citizens, who have been in correspondence with the Navy Department on the subject, are ex Secretary Lincoln and Congressman Adams. There was a suggestion that the gift should take the form of a fine library for the vessel. In response to this Commo. Walker said that an excellent library is provided by the Department for every war ship, and he suggested that a service of plate to be used only on formal occasions would be a more enduring and appropriate gift. It is probable that the contribution will assume that form. In addition the people of Chicago will contribute a fine set of colors for the ship.

MR. H. W. CLARKE, father of Lieut. Arthur H. Clarke, appears to have some peculiar ideas concerning life on board a man-of-war. A despatch from Newport says that he has received a box containing the personal effects of his son who shot himself on the *Iroquois* at Panama. Among the letters were found a memorandum showing that six weeks previous to his death Lieut. Clarke wrote several letters home which were not received. As he had always written regularly for the past nine years, and no letters had ever before failed to reach home, his father regards the loss of these letters as indicating that they were intercepted and abstracted because of the possession by the officer of information derogatory to some person on the ship, which would also furnish a motive for the murder which Mr. Clarke still thinks was committed. Mr. Clarke has also received an extract from a letter of Lieut. Wood to his father, in which it is related that Lieut. Clarke on leaving the deck to go below laid down a half smoked cigar as if he expected to resume it, instead of tossing it overboard as he would naturally have done if he had got through with it and gone below to take his life. Lieut. Wood also says that the second bullet, which it is claimed was fired after the first shot took effect, was found in the blouse hanging up in the room. Mr. Clarke claims that if this shot was fired by muscular contraction, and in the act of falling, the course of the bullet would have been downward. Mr. Clarke proposes to have his son's body brought to Newport for burial.

NAVY GAZETTE.

Ordered.

JUNE 15.—P. A. Surgeon G. P. Lumsden to the Receiving Ship Franklin.

JUNE 17.—Surgeon W. G. G. Willson to the Receiving Ship Independence.

P. A. Engineer Harrie Webster to temporary duty in connection with the machinery of the Chicago.

JUNE 18.—Ensign Charles S. Ripley to duty on the Pacific Station per steamer of July 1 from New York.

Ensigns Herbert O. Dunn, P. J. Werlick, B. W. Hodges, E. E. Wright, H. C. Wakenshaw, Albert Gleaves, add Assistant Surgeon F. J. B. Cordiera to examination for promotion.

Carpenter A. O. Goodsoe to the Receiving Ship Minnesota.

JUNE 20.—Commander Charles G. Gridley as assistant inspector, 10th Lighthouse District July 19, and inspector of the District, August 1.

Ensign James H. Oliver to the Coast Survey.

Chief Engineer Joseph Trilley as member of the Board of Inspection of Merchant Ships at New York.

Chief Engineer James W. Thomson and Cadet Engineer Lloyd Bankson to temporary duty on board the Chicago during her passage to New York and on her arrival to duty in connection with that vessel.

P. A. Engineer C. R. Roelker and Assistant Naval Constructor John F. Hanscom to temporary duty on board the Chicago during her passage to New York detached upon her arrival and to continue on duty under the Advisory Board.

JUNE 21.—Lieutenant Benjamin S. Richards and Lieutenant (junior grade) B. O. Scott to examination for promotion.

JUNE 22.—Lieutenants Benj. F. Tilley and John P. Merrell to examination for promotion.

JUNE 24.—Carpenter Benj. Markham to the New Hampshire.

Detached.

JUNE 16.—Captain George Brown as a member of the Advisory Board to the Harbor Commissioners at Norfolk, Portsmouth, and Norfolk, County, in addition to his present duties.

Assistant Engineer W. L. Cathcart to duty at the Ship and Engine Building Works at Cramp and Sons.

JUNE 17.—Lieutenant Frederick M. Wise from the Naval Academy and ordered to the Trenton.

Lieutenant E. H. Gheen from the Naval Academy and ordered to the Yantic.

Naval Constructor G. W. Much from special duty, New York, and placed on the retired list, June 22.

JUNE 18.—Paymaster W. J. Thomson has reported his return home, having been detached from the Mohican on May 1 last, ordered to settle accounts and wait orders.

JUNE 20.—Commander N. Mayo Dyer from duty as Inspector of the 10th Lighthouse District on Aug. 1 next, settle accounts and wait orders.

Ensign Joseph L. Jayne from duty at Johns Hopkins University and ordered to instruction in torpedo service.

Chief Engineer Robert L. Harris as member of the Inspection Board of Merchant Ships and ordered to the Mohican, Pacific Station.

JUNE 24.—Naval Cadet Thomas M. O'Halloran, from Naval Academy, and wait orders.

Leave.

Granted Pay Director John S. Cunningham for six months, with permission to leave the United States.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending June 22, 1887:

Stephen Joyce, beneficiary, died June 16 at Naval Hospital, Philadelphia, Pa.

Charles E. Kenneday, beneficiary, died June 19 at Naval Hospital, Philadelphia, Pa.

Augustus Johnson, supernumerary, died June 17 at Naval Hospital, Chelsea, Mass.

William Smith, beneficiary, died June 20 at Naval Hospital, Philadelphia, Pa.

MARINE CORPS.

JUNE 11.—1st Lieutenant F. L. Denny, granted leave of absence for one month from June 12, subject to any order for sea service.

JUNE 14.—1st Lieutenant T. G. Fillette, granted leave of absence for one month from July 1 next.

JUNE 16.—Captain E. P. Meeker, granted leave of absence from July 1 next.

(From the N. Y. Times.)

THE NEW BATTLESHIP.

SECRETARY WHITNEY has not yet approved the report of the Board which selected the design of the armored battleship submitted by the Barrow Shipbuilding Company, but he will in all probability give his approval to that of the Board, and thus make another step toward the reconstruction of the Navy. He has been annoyed by the reports that the decision of the Board was influenced by official oppression on his part, and that a former report was sent back to the Board with a sharp admonition and a recommendation that it be changed. Only one report was made, and that was withheld for a time, to give Secretary Whitney an opportunity personally to examine and compare the designs offered in competition. The Board has been governed in making its decision by two considerations—one of the absolute merits of the designs and another of the comparative merits—reference being had always to the development of marine architecture, the improvements in all branches of construction, armor and armament. In deciding upon the Barrow Shipbuilding Company's designs the Board has been influenced by the belief that they will produce a vessel superior to the latest armored ships of the same size and displacement, and in some respects with more improvements. The vessel will be 290 feet long, with an extreme breadth of 64 feet, and a depth of 39 feet. The displacement, when fully equipped, will be 6,360 tons, with a draught forward of 23 feet and 22 feet aft. Its speed, at mean draught of 22 feet 6 inches, will be, with forced draught, 17 knots, and with natural draught, 15½ knots. Its coal endurance will be, at a speed of 17 knots, 1,110 knots; at 15 knots' speed, 2,050 knots; at 12 knots' speed, 3,170 knots, and at 1 1-8 knots' speed, 6,000 knots. The vessel is pierced with a ram bow, heavily strengthened, forming a powerful weapon. The hull is built of steel on the cellular, double bottom system. The double bottom extends under the engines, boilers and magazines for a length of upward of 158 feet, and is divided both longitudinally and transversely into many water-tight compartments, fitted for water ballast, so that the vessel may be trimmed, when coal, ammunition, or stores are partly consumed. The protection of the vital parts of the ship consists of a steel faced armor belt 12 inches thick, extending fore and aft, embracing engines, boilers and magazines. The armament will be two 12-inch gun, two 6-inch guns in sponsons on the main deck, and six large Hotchkiss guns on the gun deck, together with smaller machine guns at different points. The designers say that the objects sought by them were good steaming and manœuvring qualities, coal endurance, and the comfort of officers and men; wider range of guns, with a heavy bow and stern fire; the distribution of the machine guns to provide defence against torpedo-boat attacks and boarders; to protect the vital parts as far as possible in the most efficient way from the enemy's shot and shell, and insure that stability would be preserved if the ends of the vessel were perforated above the protected deck. When the ends of the vessel are perforated beyond the armor belt there would still remain some positive protective stability.

CHANGES IN THE NAVY-YARDS.

RECENTLY a prominent citizen of New Jersey had occasion to write to the Secretary of the Navy in behalf of a friend who had received notification of his dismissal from the department. Mr. Whitney's reply is as follows:

DEAR SIR: I have your letter enclosing one from your friend relating to his recent discharge. In this case it is only necessary to say that in the reduction of the force and consolidation of the work the position was considered unnecessary. No person has been appointed in his place. I should, however, not be entirely frank with you if I did not add that there were other considerations influencing me in general to make changes in the Navy-yards which might possibly have covered your friend's case.

I have had now two years' experience with the Navy-yards, and I long ago concluded that the interests of the Government would be subserved by an entire change throughout. It is necessary to have an atmosphere in sympathy with a more businesslike and a cleaner order of things; and the insidious influence of persons who have been long in the Yards creates an unfriendly atmosphere, in which nothing new is likely to live.

Yours very respectfully, W. C. WHITNEY.

A POOR SHOWING FOR TORPEDO BOATS.

Reports received at the Navy Dept., from the officers in attendance upon the French naval manœuvres are not particularly gratifying to those persons who have placed their confidence in torpedo boats as an effectual weapon of naval warfare. According to the official programme a fleet of transports was to endeavor to make a voyage from Toulon to Algiers and return in a convoy of a number of war ships. A strong fleet of torpedo boats was to attack the convoy at every favorable opportunity. But the squadron started off in a gale of wind so fierce that the torpedo boats were unable to go to sea to attack it, and when the ships returned to Toulon the night was so dark that the torpedo fleet was unable to discover them. Not a single shot was fired in defence of the convoy during the voyage, and the efficiency of the torpedo boat as a means of attack is still questionable.

ANSWERS TO CORRESPONDENTS.

Ans.—General R. S. Mackenzie, U. S. A., retired, is now at New Brighton, N. Y.

H. S.—His title should be that of the highest rank in which he held commission—Major-General.

J. A. D.—The address of Col. T. A. Dodge, U. S. Army, retired, is 234 Devonshire street, Boston, Mass.

D.—The name was written Ben: to indicate that it was not an abbreviation. The christian name of Major Poore was not Benjamin but simply Ben:

J. H. H.—Send in an application to the Revenue Marine Division of the Treasury Department at Washington. In due time you will be examined, but the next examination will not take place until the spring of 1888. The cadet service extends over two years.

N. C. O.—War Department decision of Nov. 16, 1883, is as follows: "The regulations require an enlisted man to salute, under *all* circumstances, when meeting an officer, excepting when indoor and unarmed; in such case he uncovers and stands at attention, as provided in par. 605 of the Regulations."

A correspondent asks: 1. Company is in line at a halt, command is given, to two yards, front open files, march. Where are the correct positions of the guides and file closers, after the movement is completed? ANS.—The file closers in their ordinary positions in rear of the company, and the guides on the right or left of the front rank at such intervals from the flanks so as not to interfere with the drill of the men next to them. They should, however, go wherever the captain orders them.

2. Why are guides and file closers forbidden to execute trail, arms port and secure arms? ANS.—They are not *forbidden* from doing anything of the sort. If you refer to the exemptions in regard to them in Par. 189, we cannot give any reason for them except that they are based upon some arbitrary rule, for which no reason can be given. A decision from Army Headquarters says: "Par. 189, Infantry Tactics, prescribes the general rules for the execution of the manual by the guides. Explicit instructions for each particular case are not given."

E. D. F. asks: Previous to parades, reviews and inspections, the bayonets are fixed by command of the first sergeant. Does he execute fix bayonet, himself, at the same time, or does he fix bayonet, after taking his post on the right of the front rank? ANS.—There is no cast iron rule about this. The most proper way would be to fix his bayonet immediately after the company has done so, and previously to reporting it to the captain as prescribed in Par. 180. He should certainly not wait until taking his place on the right, because as soon as he has reported the captain takes command, and any movement on the part of the first sergeant without orders would then be improper.

2. The company marching in line, arms at left reverse, at command company halt, do the men remain at a *left* reverse, or do they execute right reverse, and then come to a carry? ANS.—The contingency is not provided for in Tactics, and not likely to arise in a thousand years. If it should the simplest thing would be for the men to remain at left reverse. This position of the musket is for funerals alone, and then only during long marches. In order, however, to comply with Tactics so far as they prescribe the carry at the command halt, the proper way would be to come to the right reverse first, as no carry is laid down from the left reverse.

3. Company marking time, is it tactical for the instructor to command by the right flank, march? ANS.—No. No sensible man would attempt such a thing. Read Par. 30.

4. Company in line and marking time, command is given right wheel, march. In this case is the wheel on a fixed or a movable pivot? ANS.—The command for wheeling would be improper before the company had been put back into direct step by the order forward, march (Par. 30.)

BLACK, STARR & FROST,

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

ANNOUNCEMENT.
TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

While the Company he represents has no superior in the country for security or for liberality in its policies to officers in the Military Service, yet he will be pleased to advise and assist officers who may prefer to place their insurance in other reputable companies. Information as to the standing of the various companies and their relative profitableness for investment he will gladly communicate to those who desire it; also advice as to kind of policy best suited and most profitable to those of different ages.

By this announcement the undersigned hopes that he may serve the interests of his brother officers, enabling them to place their insurance in the most substantial and profitable companies, in a form of policy most advantageous to themselves.

F. A. KENDALL, Capt. U. S. A. (Retired.)

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JUNE 25, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: ARMYNAVY. 240 Broadway, New York.

THE American Society of Civil Engineers hold their annual convention in New York, commencing July 1. They meet at the Society House on Thursday, June 30. They will make a visit up the Hudson River by steamer, visiting the Poughkeepsie Bridge at Poughkeepsie and the Rosendale Cement Company, and will spend the 4th of July and several days after the 4th at the Hotel Kaaterskill, Catskill Mts., where the board will be $3 a day. Sessions of the convention for professional discussion and one for the transaction of business will be held, and a banquet will be given the party returning from the Catskills on July 8. Special rates of fare have been obtained from the Trunk Line Association, and the Central Traffic Association, which includes 64 of the principal railroads.

THE annual meeting of the Society of the Army of West Virginia will be held at Wheeling, W. Va., this year. Generals Sherman and Sheridan, ex-President Hayes, Generals Crook and Rosecrans, and all the leaders in the campaigns in the Virginias are expected to be present.

SAIL POWER IN VESSELS OF WAR.

IT is very evident that the man-of-war of the future is to be provided with far less sail power than has been the case, even in the recent past. It has been conclusively shown that the ordinary square rig used in vessels of war is anything but economical, by reason not only of the increased immersion due to weight, but also by the room taken up, which might be used for coal or ammunition; to say nothing of the chances of the screw being fouled during action, owing to rigging being shot away. Then, too, so long as top-gallant and royal yards exist, so long will they be a temptation to commanding officers to devote a large amount of time to exercise with these superfluities; indeed, acting under their instructions, the Board of Inspection still look for proficiency in this sort of gymnastics. It is well known that the lighter sails really add but little to the speed of even a sailing ship; hence the abolition of studding sails a few years since, was a step in the right direction. Royals and top-gallant sails might well follow in their train without the sacrifice of efficiency. Should it be desired to cling to the square rig, a top sail of somewhat greater hoist would compensate for the lighter sails. The better way would be to come to the fore and aft rig at once (with possibly a light fore yard and a flying foresail) by which a spread of canvas could be secured to hold a vessel up to the wind in a gale, or to give her a moderate speed with a fair wind. Of course, no man-of-war thus provided would work to windward; but then, our present square riggers can not do it either, their sails are only of real use with a fair wind—and for all practical purposes they might as well be of the fore and aft style; besides which the latter would give much better results in heavy weather.

It is not to be denied that there is a certain amount of sentiment connected with the retention of sails, and that there is a question that with their abolition the "true and tarry seaman" will disappear. But there need be no fear that seamanship, and that of a high type, will be required in the future to perform the various duties that will be necessary to make the battle-ship of the day as formidable to her enemies as was the line-of-battle-ship of the past. If it should be feared that a race of seamen trained in sailless ships will be wanting in courage, a glance at the deadly character of the instruments of destruction with which they have to deal should dispose of this thought. A recent writer has playfully suggested that it might be well to set the men to "hammer sensitive fuses into filled shell," if it were desired to provide them with what might be considered an employment sufficiently dangerous to train them to courage.

The feeling that sail exercises should be reduced to a minimum, and that sail power must yield to the inevitable, is growing very rapidly in the English Navy. On the occasion of two recent lectures before the Royal United Service Institution, one on "Mastless Ships of War," by Captain FITZGERALD, the other on "The Composition of a Modern Fleet," by Commander CAMPBELL, there was almost entire unanimity in this regard by both writers and speakers, one well-known officer of high rank going so far as to say that "sails were sinful."

In our own Service the problem is of course somewhat different, but with the possibility of petroleum as the fuel of the (not distant) future, the necessity for sail power will grow still less than at present is the case. Machine guns and quick firing cannon would make short work of those who should be unfortunate enough in time of action to be exposed while "fishing the foremast" or answering the call of "port main rigging shot away." Though our new vessels will show a diminution of sail power, yet the square rig is dying a very lingering death; let us hope that some action on the part of the Navy Department will soon put it out of its misery.

THE BROWN Board has about completed the work of preparing the schedules of stores and supplies required for the Naval Service during the coming fiscal year. These schedules will be printed within the next ten days, when it will be in order to issue advertisements inviting proposals for the articles therein called for. It is expected that the advertisements will be issued, at least, two weeks earlier

than under the old arrangement. The new books required under the consolidation scheme have been in the hands of the printer for some time, and are expected at the Bureau of Provisions and Clothing in time to be opened at the beginning of the fiscal year. The transfer of the finance clerks from the other bureaus to this bureau will also be made about July 1.

LEGGINGS FOR THE ARMY.

IT is strange that among the many additions made to the equipments of the infantry soldier during the last ten years, no authorized pattern of leggings has been included. No article will add so much to the comfort of a man on the march as a pair of good, firm, well-fitting, canvas leggings. They act as a support to the ankle and calf of the leg, prevent varicose veins, keep the ankles clean and dry from dust and dew, and obviate in a very marked degree the fatigue resulting from marching through grass, by lessening the friction caused by the clinging of woollen trousers. An officer, who, with many others, wore leggings on the long marches of 900 and 1,200 miles in the Yellowstone Expeditions of 1872-73, and who speaks from experience—the best teacher—says, in a letter to us, "The almost universal use of these articles by hunters and pedestrians, shows that their good qualities are appreciated. They are in use for field service in several foreign armies, and should be issued as a part of the field equipment in ours. In fact leggings were at one time issued to one or more of the colored regiments (the 40th Infantry, I believe, had them), but they were of poor quality, ill-shaped, and fastened by *buttons;* a fault enough in itself to condemn them. The proper way to fasten a pair of leggings is by *lacing*, as shown in the illustration herewith. This insures a good fit and rapidity of adjustment."

Strange as it may seem, the Navy, which, to use a slang Western phrase, is not supposed to "hoof it" much, has adopted leggings, and they are in use by various militia organizations throughout the country. Will not our Quartermaster General give the Army a chance at them? A good article can be furnished for about sixty cents per pair, and would last a year of hard wear. As the soldier would draw them and pay for them, the same as clothing, the expense to the Department would only be for distribution to the posts.

THE *Revue du Cercle Militaire* (Paris) describes the Austrian armor-clad *Kronprinzessin Erzherzogin Stefanie*, launched last month from the yards of San-Rooco, at Trieste, which it considers as the true type of the modern fighting ship. Her artillery and torpedo armament will enable her to confront the most powerful enemy, while neither her speed nor her solidity of construction have been compromised thereby, and her armor protects without over-weighting her. The engines, which have been supplied by Messrs. Maudslay, Sons, and Field, of London, have been the object of especial care, and are expected to give a speed exceeding that of the majority of armor-clads. The following are her principal dimensions; she was laid down in 1884: Length on water-line, 85.36 metres; extreme breadth, 17.00 metres; draft forward, 6.09 metres; draft aft, 709 metres; displacement, 5,152 tons. The hull, which is constructed of the best steel, is divided into a large number of water-tight compartments. The armor consists of compound plates of 230 millimetres maximum thickness. It extends completely round the vessel to an average height of 2.82 metres, and extends 1.37 metres below the water-line. The total weight is 830 tons. The artillery armament consists of two 30.5 centimetre Krupp guns of 35 calibres in length, mounted on Armstrong hydraulic carriages. The weight of the tube is 48½ tons; of the steel projectile, 455 kilogrammes; of the charge of brown prismatic powder, 141 kilogrammes. The initial velocity of the projectile is 5.30 metres; the range, at an angle of 15 degs., 9.3 kilometres. The guns fire *en barbette* in turrets on each side of the ship. There are, in addition, six Krupp 15-centimetre guns, firing 51-kilogramme shell with a charge of 28.5 kilogrammes, and an initial velocity of 610 metres; two 7-centimetre guns for landing purposes, and eleven Hotchkiss machine guns; besides a complete torpedo armament. The interior and exterior lighting of the ship is furnished by Gramme and Edison electric lamps. A lighting power can be obtained equal to 40,000 candles. The engines, driving twin screws, are of 6,500 horse power, which can be increased to 11,000 horse power, giving, in the latter case, a speed of 16 knots.

REGIMENTAL colors, according to the *Horse Guards Gazette*, have had their day, and it expresses the opinion that "mere marching, countermarching, and parade will shortly pass away, too." The chief feature, says our contemporary, "in the difference between the warfare of the present and that of the past is the disruption of the large units, that were formerly kept together, into small, isolated groups. A body of troops may commence any undertaking in its normal formation, but the moment the actual fighting begins, that formation is perforce dissolved, and the guidance of the troops passes from the hands of the superior to those of the subordinate officers." Then considering where the colors come in under this changed condition of things, the *Gazette* says: "Finally, we have the main body, which follows the supports, closing on them gradually as the enemy is approached, and ready to reinforce what remains of the other two bodies for the final rush. The colors accompany the main body; but of what earthly use can they be during such a scene of confusion and chaos? Simply none. Placed as they are in the extreme rear of the whole, who has seen them, whom have they guided or encouraged? No one. No man or officer has had time to bestow a thought upon them. But as they are there, some precautionary measures must be adopted before the attack commences; in other words, an escort must be detailed to look after them. The fact remains that the utility of colors has departed, and that they are now a simple drag on a battalion in the field. To such an extent has this been recognized of late that regiments proceeding up the Nile from Cairo, even when there were no hostilities in view, left their colors behind, and we remember to have seen the dining room of the General in command in Egypt festooned with the standards of regiments that had gone up the river." This sort of reasoning would abolish lovers' billet doux and substitute for them telegrams modelled after the most condensed commercial forms. Just now, however, it suggests itself that if we abolish colors we shall have no captured flags to dispute over in the future.

A "1ST LUFF" writes us: "I think your level-headed article in the JOURNAL of June 11, on the 'Revenue Marine and the Navy' will meet the approval of a large number, perhaps majority, of the old officers, and I hope you will keep the ball rolling until the desired object, of filling vacancies in our service from the Naval Academy, be obtained; either that or go back to the old method of taking officers from the merchant marine." Another correspondent says: "There is no doubt existing on the part of the Revenue Service as to the education of these surplus graduates and their perfect adaptability to the duties they would be called upon to perform in the Revenue Marine, and a larger majority of the officers would welcome gladly any legislation required to admit these young men. The hope has been widely expressed that the present Board of Visitors to the Naval Academy will see fit to renew their recommendation of last year in such manner and in such language as to call the immediate attention of Congress to this matter. And while on the subject, let me state that the opposition to the transfer of the Revenue Marine to the Navy as proposed some years ago by ex-Secretary CHANDLER came less from the mass of officers than from a certain ambitious official, now out of office, and a few favored ones who feared the loss of position and power. However, experience is an excellent teacher, and now, after many fruitless efforts to obtain from Congress some slight recognition of good work performed, the Revenue Marine stands ready and willing to assist in the transfer of the corps to the Navy on any fair and equitable basis that has for its object *justice to all.*"

THE following interesting letter of the Hon. J. F. FINNERTY, formerly of the Chicago *Times*, and member of Congress, and now editor of the Chicago *Citizen*, is sent us by an Army officer to whom it was written:

In looking over an old memoranda, I find that 11 years ago this day we were encamped on the North Platte, en route to interview Sitting Bull. You were in excellent spirits, and discussed with me the merit of treating the sick man of your troop from your medicine chest. You had a splendid troop, and I can still see them, as they rode past us at a trot the same morning, to take their place at the head of the column. In fact, everything comes back to me plainly. The halt in front of Fetterman, the cold evening at the Dry Fork of the Cheyenne, the splendid view of the Big Horn range from Reno, the lonely grave of Tierney of Meinhold's troop, over which you read the prayers at Tongue River—the evening attack some days later, the march to Rosebud. . . . It's a regular panorama in my mind, and I find myself sighing, sighing aimlessly perhaps, for such stirring times again. I regret that many of our brave companions of that time are cold in death to-day, and I should like to be the humble instrument of perpetuating their memories. I have found nearly all my Indian letters to the *Times*, and I intend during my leisure hours to edit and compile them, and dedicate the volume that may result to the Army. I will do it, not from a desire of gain, but to record the sacrifices and services of Uncle Sam's brave boys during the four frontier expeditions that I accompanied."

Such a volume, compiled as intended by Mr. FINNERTY, would be gladly received by the Army and be a credit to the writer, whose graphic pictures in those days are as well remembered as the author's well known popularity with the Army.

THE Secretary of War has approved the following recommendations of the Board to prepare regulations for the new Hospital Corps:

1st. That the present Hospital Stewards of the 1st Class should be considered as becoming Hospital Stewards of the Hospital Corps, March 1, 1887, the date of the passage of the act organizing said corps, and as such entitled to pay as fixed by said act, from March 1, 1887.

2d. That the 2d Class Hospital Stewards be continued as the Acting Hospital Stewards under the new law.

3d. That under section 6 of the act the enlisted men of the Hospital Corps are entitled to admission to the Soldiers' Home and consequently are liable to the usual deduction of 12½ cents per month.

4th. That the change of the pay of Hospital Stewards, affects retired Hospital Stewards equally with those in active service.

COLONEL H. C. MERRIAM has met with a most gratifying success in his attempt to introduce his new knapsack to the attention of the foreign military authorities. The Société Générale de Fournitures Militaires of Paris, which is equipped with a capital of ten millions of francs, made him the offer of a handsome royalty for the exclusive use of his equipment invention in France. This offer has been accepted and formal contracts executed accordingly. Lord WOLSELEY has placed the equipment formally on trial by the Royal Scots Guards after giving it a thorough personal examination in his office. The following letter has been received by Colonel MERRIAM from his agent in Vienna:

VIENNA, June 8, 1887.

To Col. H. C. Merriam:

DEAR SIR: I was called upon yesterday by an officer from the War Office, who was deputized by the War Minister to make inquiries as regards the terms you would demand in case of their adopting your patented knapsack. The military authorities will not accept terms such as a royalty but prefer a stated price in lieu thereof. The Minister pronounces the knapsack *the one* of the future, and is highly pleased with its merits. No less than twenty-three knapsacks have been presented to the Board, but none can be compared with yours. Please let me hear from you at your earliest convenience. Yours truly,

Signed. E. M. THOMAS.

Colonel MERRIAM writes us that he expects to sail for New York on the *Umbria* June 25. It is very gratifying to find so useful an invention by an officer of our Army receiving such prompt recognition abroad, even if it fails to receive at home the attention its merits would seem to deserve.

THE Secretary of the Navy has not yet officially approved the report of the board on the designs for the battle-ship and armored cruiser but there is no doubt but that the Barrow Shipbuilding Company's design will be accepted and the $15,000 prize paid that firm. The bureau designs for the armored cruiser will, no doubt, be adopted, since none of the competitive blanks are considered suitable. The Secretary is now considering which of these two vessels to have built at the New York Navy yard. The bureaus are in favor of having their vessel built there in order to show that the Government is capable of designing and building its own vessels and as cheaply as can be done by private firms. Unless the Secretary shortly takes some steps toward the purchase of tools for the New York Yard, it is certain that the contractor will be able to outdo the Government in the matter of rapid work, which will be a point against the Government in case the competition is entered into.

THE Lieutenant-General has prepared, and the Secretary of War approved, a slate of changes in stations of regiments, to take effect early in the new fiscal year, and the formal orders will be issued this week. Two regiments of infantry and two regiments of cavalry are involved. The 11th Infantry, now in the Department of Dakota, will exchange with the 12th, in the Department of the East, and the 7th Cavalry, Department of Dakota, with the 8th Cavalry, Department of Texas. It is estimated that the transfer will cost about $100,000. The headquarters and four troops of the 7th Cavalry will march down from Fort Meade to Fort Riley, relieving four troops of the 5th Cavalry, which will be moved into the Indian Territory; two troops to Fort Elliott, and two to Fort Sill. The four troops of the 3d Cavalry, at Forts Sill and Elliott, will join their regiment in Texas. General Sheridan says he will move the whole of the 8th Cavalry to Department of Dakota, and the balance of the 7th Cavalry to the Department of Missouri.

THE event of the week, in many, if not all, parts of the civilized world has been the jubilee celebration of the fiftieth anniversary of the accession of Queen Victoria to the throne. The virtues of this lady are so well set forth in a recent letter from Cardinal Manning, of London, to the clergy under him, that we quote from it as follows: "No sovereign in our long annals has been more loved or has so won the love of the people as has Her Majesty Queen Victoria. She has shown the heart not only of a Queen, but also of a mother of those who mourn. Her home and her court are bright and spotless examples for all who reign and a pattern for all her people. You will, I am sure, with joy, offer our Heavenly Father thanksgiving prayers for Her Majesty on the Jubilee of her just and happy reign."

THE cheery Apache is again on the warpath, says the San Francisco *News-Letter*, and the United States Army will have to play the old paper-chase game with Lo in the lead. Year after year the noble red man keeps on getting himself more and more disliked. Soon his only friends will be the Indian agents, who generally draw rations for every savage on the reservations multiplied by five, and religiously return the difference to this all-confiding Government. The result of this honest policy is that those worthy fellows grow surprisingly rich in a short time, and when they return to Boston, from which they are principally extracted, love to express in tender words their admiration of the gentle traits of their former wards.

UNDER instructions from the Headquarters of the Army, of June 20, troops at the following posts will be "mustered for pay, July 31, 1887, and monthly thereafter:" Forts Wood, Columbus, Wadsworth, Hamilton, Schuyler, David's Island, and Willet's Point, N. Y. Harbor, and Sandy Hook, N. J.; Fort Warren and Watertown Arsenal, Mass.; Forts Niagara and Porter, N. Y.; Fort Wayne, Mich.; Newport Bks., Ky.; Washington Bks., D. C.; Fort Myer, Va.; Fort Leavenworth, Kas.; Jefferson Bks., Mo.; Fort Omaha, Neb.; Salt Lake City Bks. and Fort Douglas, Utah; Fort Snelling, Minn.; San Antonio and Fort Bliss, Tex.; San Diego Bks., Cal.; Fort Lowell, Ariz.; Fort Mason, Presidio of San Francisco, Angel Island, and Alcatraz Island, Cal.; Vancouver Bks. and Fort Walla Walla, Wash. T.

THAT there is serious trouble at Honolulu, says a San Francisco despatch, is shown by the large shipments of arms from here June 21 and 22. The *Colusa* and *Forest Queen*, sailing vessels, and the steamer *Australia* have taken 9,000 rifles, 65,000 cartridges, 25,000 primers, 6,000 shotguns, four cases of revolvers and side arms. The shippers are the Winchester Rifle Company, the California Powder Company and others. The indications are that the shipment is rather for the protection of the large plantations than for an insurrection. The Hawaiian army consists of about 2,000 men who are armed with Winchesters of the pattern used by the Canadian mounted police.

IT is not true, as stated, that the Surgeon General has grave doubts about the new regulations for the Hospital Corps being put into effect, for the reason that there is not sufficient money available to pay the members of the corps. The regulations will be promulgated just as soon as they can be finally agreed upon by the authorities at the War Department as to the matter of pay that will come from the regular appropriation of $1,287.508 "for pay proper of the enlisted men of *all grades*." Although in the bill organizing the corps it is stipulated that its members are not to be considered as a part of the *effective* strength of the Army, it is provided that they shall be enlisted, which certainly means that they are included among the enlisted men "of all grades."

THE various members of the Naval Advisory Board are fast finishing up the last portion of their work pertaining to the steel cruisers, the recent transfer of the *Chicago* from Chester to New York, bringing to conclusion quite a large share of the labor and responsibility connected with the work of the Board on the new Navy. Although the headquarters of the Advisory Board have not been transferred to the new base, it is likely that in a short time New York will be designated as the sphere of their activity, and by the time the *Boston* and *Chicago* are safely past the testing stage, the Board will have about ceased from its labors, and will have undergone complete reconstruction.

THE editor of the Sidney *Telegraph*, now visiting this country, is quoted as saying: "There are no British soldiers in Australia. Sydney is the only garrisoned town in New South Wales, and it is garrisoned by Australian troops. We admire the American military system probably more than any other country in the world does. Our present Premier has frequently expressed the hope in public that we should have not only a citizen army like America, but also an institution like West Point for the training of our own officers. Our troops are commanded by Australians."

THE Quartermaster General has lately prepared designs for the new hospital stewards' quarters, the appropriation for which will be available at the beginning of the next fiscal year. The cost of these buildings is limited to $800. The plan was prepared with this limit in view, and the Surgeon General has furnished the various post surgeons with copies of the design and requested them to make an estimate of cost of construction, with such modifications as the nature of the surroundings may demand.

PRIVATE ABRAM HARRIS, of Co. G, 20th Infantry, is languishing for two months in the guard house at Camp Poplar River, M. T., for permitting his independent spirit to prompt him to inform a General Court-martial before which he was being tried for a previous offence, that in his opinion he could talk as much as he pleased to a General Court. "No one can stop me," said he. But he *was* stopped to the tune of $20, and the confinement aforesaid.

GENERAL MILES is lucky in having selected Los Angeles as his headquarters if the prediction of the San Francisco *Report* is fulfilled. Queen Victoria having contributed $100 towards the erection of a home for girls in the city in question, the *Report* says: "When this special mark of the Queen's regard shall be known in England—and the enterprising Angels will certainly see it is known—Los Angeles will become the Mecca of Britain's wealthy and aristocratic pilgrims."

THE Philadelphia *Press* says: "It is almost certain that there is not now time to make proper preparations for the dedication of the Major General Meade statue in Fairmount Park, July 4, as has been proposed. If the dedication is postponed a suitable programme of exercises can be carried out with the advice and assistance of men like Colonel John P. Nicholson, of this city, recorder of the Loyal Legion, whose experience with the funeral of General Grant in New York should be utilized on this occasion in Philadelphia."

THE preparation of the contract to be entered into by Secretary Whitney with the Bethelem Steel Works were completed Thursday afternoon. The Secretary approved the modifications agreed upon by Judge-Advocate General Remey and the representatives of the steel company. The modified contract has been sent to the public printer to strike off copies. After this is done it will be again referred to the steelmen for signatures, or further suggestions.

THE Pittsburg Steel Casting Co. are candidates for the contract for making the three "steel cast rough bored and turned six-inch high power rifle cannon of domestic manufacture, one of which shall be of Bessemer steel, one of open hearth, and one of crucible steel," for which an appropriation of $24,000 was made at the last session of Congress. Capt. Sicard has recommended that the manufacture of these guns be advertised for at once, but the Secretary of the Navy has not yet acted in the matter.

ABOUT 8,000 persons participated, June 18, on the historic ground of Valley Forge, near Reading, Pa., in the celebration by the Patriotic Order of Sons of America. Washington's old headquarters were gayly decorated. Congress is to be asked for an appropriation to make the camp ground a national park.

SECRETARY WHITNEY has not yet issued orders to commission such of the graduates of the Naval Academy for whom there are vacancies. Several cases of officers recommended for retirement are awaiting Executive action, and the Secretary is not disposed to assign the cadets to duty and give them commissions until the limit of the vacancies for the graduates for this year has been reached. The cadets themselves are extremely anxious about their chances and several of them have been at the Navy Department this week making inquiries There are now seventeen vacancies and several more are likely to be created by the action of the President on the retirement cases now pending.

THE Chief of the Bureau of Ordnance has called for sealed proposals for the purchase of 250,000 pounds of scrap iron at the Washington Navy-yard. The material must be removed within twenty days after notice of the acceptance of the bid, or become forfeited to the United States. Payments will be required at the navy-yard as the material is removed.

JUNIOR PROFESSOR HENRY A. HAZEN, Signal Corps, U. S. A., reports the balloon ascension from St. Louis, June 17, a success. The balloon attained a height of 16,000 feet above the surface of the earth, the highest on record in America. At this point the thermometer marked 37deg. Fahrenheit. The descent near Centralia, Ill., was somewhat perilous, but all reached terra firma safely.

MR. CHARLES S. BRADLEY, treasurer of the National Drill Committee, has sent out a notice to the contributors to the expenses of the drill that there are unpaid bills aggregating about $20,000, and that an assessment of 40 per cent. is therefore levied on the contributors by the executive committee.

FOUR sets of double officers' quarters are now in course of construction at Atlanta, Ga. They represent eight houses, and are being built at a cost of about $12,000 per set. The buildings are of brick, in blocks of two, two stories and cellar in height, with back buildings and verandas.

PRESIDENT CLEVELAND has manifested his continued interest in our volunteer soldiery by contributing his quota of twenty-five dollars, the amount to be offered for the second stage of the "President's Match" at Creedmoor.

THE Soldier's Monument erected by the citizens of Brattleboro, Vt., at a cost of $5,500, was dedicated June 17 with impressive exercises. Vermont's venerable war Governor, Frederick Holbrook, was President of the day.

THE Bureau of Ordnance is now constructing two double-headed lathes at the Washington Navy-yard, which will be large enough to mold the hoops for 16-inch rifles.

INVITATIONS to members of Congress to nominate cadets for the class to enter West Point in June of next year have been sent out by the War Department.

THE full force of second and third grade clerks of the Quartermaster-General's office took their first examination for promotion June 18.

SEVERAL changes among the superintendents of national cemeteries are contemplated by the Quartermaster-General and, it is understood, will be made about July 1. The names of those concerned cannot be learned at present.

TARGET PRACTICE.

To the Editor of the Army and Navy Journal:

THE following letter is so manly in its tone, and so straightforward, that its perusal may be of service to some:

"To me it seems improbable, but not impossible, to have a company all sharpshooters, but when I recollect how ninety-nine out of a hundred, a few years since, thought all marksmen could not be made trustworthy (a fact no one doubts now), I am not inclined to doubt the word of an officer when he reports his company all sharpshooters. I have never been able to make more than ten, but if I can make ten, why is it impossible for another to make thirty In skirmishing the highest I have ever made with my company is 37. If a company can make 37, with only three runs for practice, certainly it should have no trouble in making a much higher per cent. if more time and work are given. This year I have 30 recruits in my company, and expect to come out near the bottom, but if I do I'll not accuse others of beating me unfairly." PROGRESS.

REVENUE MARINE.

THE following assignments have been made this week: 3d Lieut. Geo. A. Starkweather, from the *Ewing* at Baltimore to the *Johnson* at Milwaukee; 2d Asst. Engr. D. F. Bowen to the *Johnson*; Cadet H. F. Dimock to the *Perry*; Cadet J. E. Reinberg to the *Fessenden*; Cadet J. M. Moore to the *Ewing*.

THE STATE TROOPS.

THE NEW YORK STATE CAMP.

For the sixth time since 1882 do the National and State colors wave over the plateau at Peekskill to indicate that the camp is occupied by the troops. The annual encampment is the most beneficial institution ever devised for the instruction of the National Guard—a fact now acknowledged by all, and while the matter of obtaining the necessary funds for its maintenance from the Legislature is like drawing teeth, yet the allowance has been sufficient to fit up the grounds and its appurtenances in such a manner as to make this the model affair of its kind in the country. Its site and the surroundings cannot be excelled for natural beauty and facilities, and since the ground became State property, improvements so extensive and practical have been made that scarcely any more could be desired. An immense addition has been made to the parade ground by the blasting away of a projecting rock at the north side and the filling in with the material thus obtained of a ravine on the south-east side, which gives an uninterrupted extent of parade ground, upon which battalions of any size can be manœuvred with ease. The change at first is not striking, but when the 7th Regiment formed line with the greatest ease and had plenty of room to spare at both flanks then everybody realized the vast amount of work done here. The water is now supplied by six artesian wells, bored since last season, from which it is pumped into an immense tank perched high up on the rocks. This gives an abundant supply with sufficient pressure to force it into any direction and up to any height required. Should the wells give out then there is still the old reservoir built in 1882 by Gen. Wylie to fall back upon. The ground has been provided with a complete drainage system which empties into the river and this, together with the gravelly, porous nature of the soil, keeps it in perfect sanitary condition. The old wooden, unsightly sinks have been removed and officers and men provided with water-closets of the latest improved pattern, situated within the lines, which latter fact prevents much inconvenience at night and trouble to the guard and shouting by sentries.

A building containing a couple of dozen or so of shower baths, conveniently arranged, with hot and cold water, gives ample facilities for personal cleanliness and comfort, and with the abundant and first-class camp equipage provided by the State the men's comfort is much improved. In fact it is hard to imagine what else troops in camp could desire. The cooking establishment is extensive, and an inspection of it quite interesting. Many improvements and additions have been made, especially to the machinery part, and now, if notified in proper time, the establishment could feed 2,000 persons at once with the same ease as that with which it provided for about 1,000 on the evening the 7th marched in. The present caterers, Mr. Louis Windholz and Col. Yale, have run the establishment since the camp was first inaugurated, and the experience thus gained, together with Windholz's natural aptitude, liberality, geniality and desire to oblige, and the fact that the firm uses nothing but first-class material enables them to attend to the wants of the inner man in a manner satisfactory to all concerned.

The camp is commanded by Maj. Gen. Josiah Porter, Adjutant General of the State, who, however, temporarily left for Saratoga on Sunday, June 19, which devolved the command on Col. Emmons Clark of the 7th. The latter, however, did not make any change in the general schedule for the conduct of the camp. Gen. Joshua M. Varian looks after the commissary, quartermaster and ordnance departments, assisted by Col. Joseph G. Story, who has been here in the same capacity every year except one, and therefore what he does not know about quartermaster's stores is not worth knowing. Col. Fred. Phisterer is executive officer, assisted in the duties of post adjutant by the adjutant of the regiment, ordered into camp the week coming. Asst. Inspector General F. C. McLewee inspects the camp daily, and the drills and guard are supervised by Capts. Stacpole and Thurston, who, at least this week, give no direct instructions nor make any remark to those engaged, but report the result of their observation to the post adjutant, from whose office a copy is furnished to the regimental commander for the information of those concerned.

This system has worked excellently, as might be expected from a regiment like the Seventh, where all are anxious to learn and take advantage of any opportunity to improve, and where the pointing out of errors in a proper manner is not resented. We hardly think that any suggestion or hint from Headquarters was disregarded. Surg. D. M. Stimson, of the Seventh, has general medical and sanitary supervision, and for this purpose has an office in the row of State tents, but he prefers evidently to live in a wall tent with his regiment. This is the *personnel* of the State staff. There is also on the ground a detachment from the 1st Battery, Capt. Louis Wendel, for the purpose of firing morning and evening guns, salutes, etc. The captain has the option to change this detachment weekly, and thus give his whole battery an opportunity at this duty, or leave the original detachment here during the whole tour. The nattiest-looking soldier in the camp is Private Kelly, of Capt. Earle's 2d Battery, clerk and orderly for the Ordnance Department. He deserves this mention for his own sake and that of his organization.

THE SEVENTH NEW YORK.

At about 3.30 P. M. on Saturday, June 18, the yacht *Lotus*, owned by Captain Daniel Appleton, of the Seventh, which had been lying off Roa Hook for some time, fired a salute, which was answered by the powerful whistles of the steamer *Long Branch*, and this was the signal that the Seventh had arrived. Everybody in camp who had nothing special to do hurried to the bluff, Louis Windholz gathered his colored brigade of waiters around him, and, after the manner of Lord Wellesley, when he had found that "Mickey Free was in the ranks," gave his ultimatum and ordered the battle to go on. The State officers mounted their chargers, and when the first white helmets became visible over the edge of the bluff the artillery belched forth its fire, the flags were hoisted and the camp of 1887 was declared open. The grand old regiment defiled into camp 812 strong, besides a band and drum corps of sixty-five, in grand style. In ten minutes every company had disappeared in its street with the regularity of clockwork, and in ten minutes more every man appeared to be as much at home as if he had lived here all his life time. The band then came on parade and sounded the adjutant's call. This was for guard mount. Of course, there was no reason why the details should not have been out as quick as the band, which had come on the ground at the same time and under the same conditions.

It appears, however, that a number of the men detailed for guard did not expect to be called out so soon, and proceeded to fix up their tents. While at this the call sounded and in spite of the efforts of the 1st sergeants to get their men out promptly, a number were slow. The band played and played, but only half the details appeared, and at last when they all came out those who found themselves behind time started up the double time, while the band was playing in quick time. This looked bad, and the result of the whole was a very ragged formation. Sergt.-Major Coughtry, after wasting nearly all his breath in ordering count fours, found that one sergeant had brought out files instead of individuals, and after straightening out this tangle at last reported the guard formed. Adjt. George W. Rand would have sent the whole concern back, but it was necessary to have a guard at once and, therefore, let the matter slip. The wheel into line by platoons was a failure. This in a regiment so well posted as the 7th in company movements, was astonishing, but nevertheless true. Everybody acknowledged that the first guard mount was "rank." The sentries during the evening and night were fair, some of them very snappy, but challenges very faulty and salutes in many cases rendered without regard to the rank of the officer saluted. The men, however, all seemed particularly careful to be on the right side with the State officers and gave them presents indiscriminately. Between guard mount and dress parade they were busy with sickles, shovels and spades to trim their company streets. Supper was orderly and everybody fell into his seat with the regularity of clockwork. Dress parade was handsome but the line was crooked, if viewed from the flank. The attempt to march off in echelon was a failure. At tattoo roll call it was found that the men on answering their names came to parade rest. There is no authority for this and evidently the remnant of some old militia custom which is brought to light in the camp, but would remain concealed in the armory for years to come. During the night the camp was unusually quiet. The usual tendency to raise a racket seemed to have disappeared. Everybody apparently slept well and the sentries did not render night hideous by incessant shouting.

Sunday.—After a slight rain during the night Sunday morning broke clear but full of promise of a sweltering day, which promise was fully realized. The police party, which was out bright and early, soon imparted a holiday appearance to everything in sight and then nothing of importance occurred until guard mounting. This was better than the day before, still some sergeants had difficulty in promptly bringing their details into proper position, and the counting of fours was endless.

The beauty, however, at these ceremonies is that every man when once in his place stands rigid and motionless, and performs every movement with snap. In passing in review, instead of performing a rectangular movement, the whole concern, band and all, moved in a semi-circle, which caused the placing of marker's flags to show the points for change of direction the next day. The officer of the day saluted the drum major, which was wrong. The wheel into line by platoons was better than the night previous, but by no means as good as it should have been. At the guardhouse No. 1 failed to announce the approach of the new guard and of the officer of the day. The officers of the guard failed to salute the officers of the day properly, but made the first salute prescribed in tactics serve both purposes. The first relief was slow to get away on this as well as on subsequent occasions. The guards while awaiting the return of the relief stacked arms and broke ranks, which was proper, but it was incorrect, in reforming them, to have the sergeants step to the front and centre, and report the fact to the officers of the guard. The command attention by the latter was all that was necessary. The officers of the day may have had some special reason for remaining at the guardhouse until the return of the relief, but ordinarily as soon as they have verified the articles in charge, prisoners, etc., inspected the guardhouse, signed the guard report, etc., they should at once repair to the commanding officer. A more soldierly lot of sentries and more desirous of doing what was proper than those on Sunday, has never walked post here, but they fell occasionally into errors, both during night and day; any of these would probably not occur again with the same men, but with the immense strength of the regiment it is hardly probable that any man will perform more than one tour of guard duty, and under the circumstances much experience must necessarily be lost. It would be well to remind guards (officers and men) that they have other duties to perform than merely walking up and down and saluting officers. If they had understood this the disturbance by two village ruffians during dress parade, which occurred under the very nose of the officer of the guard, would not have been allowed to proceed as far as it did. A file of the guard should have been called for with much more promptness. Between guard mount and parade nothing of note occurred except the church service, which deserves special mention on account of the splendid singing by the regimental glee club. The evening parade was good. About 9 P. M. a severe rain storm drove men into their tents and sentries into their sentry boxes where they had to remain nearly all night.

Monday.—At 4.45 A. M. the morning gun and the sounding of the reveille announced to all the beginning of the first real day's work. About half an hour later ten companies were scattered in every direction over the extensive parade, from the south bluff to the rifle butts. The sound of the skirmish trumpet was heard in the land, and evolutions of all sorts were going on wherever the eye could reach. Of course, nobody could notice the entire work of all these companies at once, but enough could be seen that skirmish duty was new to all of them; that a large number of new and young material had gained entry into the ranks, and that many of the older subalterns had been replaced by new ones, who generally showed timidity in their commands. For these the camp will prove a valuable school. The skirmishing was generally fair, but the movements lacked spirit and snap. The men appeared sometimes confused as to their front and rear, and the bugle calls seemed not yet well understood. In some of the rallies by fours, instead of firing to the front they fired in every direction. This we noticed in one of the best companies, and it was not corrected by the captain. In the ordinary company movements, where junior non-commissioned officers were employed as guides, many showed great lack of familiarity with their functions, and for this reason the establishment of a school for general and systematic instruction of non-commissioned officers seems advisable in the regiment. Co. C is the only company where was noticed a compliance with the principles of wheeling in movements by fours. A wheel by fours is as much a wheel as that by battalion, and the men should preserve their dress, touch, etc., as prescribed in Tactics, under all circumstances. The cadence in company drill was invariably slow. Why this should be different here from the custom in the armory we cannot understand. Guard mount on this morning can be disposed of easily by pronouncing it very good. All passed off well, except that number one in announcing the approach of the officer of the day faced in the wrong direction. Sentry duty varied, but on general principles was not as good as on the previous day. With a party we passed at least a dozen sentries after taps and only one before advancing "one with the countersign" halted the party.

Many challenges lacked vim, and during the entire night we noticed mistakes in this respect. The whole personnel is new every day, and therefore, want of uniformity in the matter is not to be wondered at. The Inspector's Department is rigid in its requirements. The slightest irregularity in the make up of the tents and their contents is noted, and the result is a camp which for neatness, cleanness, and regularity cannot be surpassed. The men work incessantly, and the streets are in a state of cleanness never approached before.

Battalion drill, under Lieut. Col. George Moore Smith, took place from guardmount to dinner time, under a broiling sun and in a stifling atmosphere. The instructor on this account worked the men easily and slowly, but executed about the entire first half of the school of the battalion. It is not necessary to detail the movements, some of which were extremely well performed, and all of them well enough to suit all practical purposes. Once in passing an obstacle with two companies to the rear the flank company closed in so as to allow only room for one company to come into line, and in another instance a lieutenant attempted to dress his company at right shoulder arms. These are the only two instances which need mention. Both were looked after by the instructor on the spot. We agree with him, that the lieutenant was decidedly wrong to attempt dressing in that manner.

Tuesday.—A muggy, heavy morning, with mountains clouded with mist, revealed itself, when at 4.45 A.M. the drums aroused the sleepers from their couches. As soon as morning coffee had been partaken of, the sound of the trumpets in every direction indicated the resumption of skirmish manœuvres. There was a marked improvement over the morning previous in promptness, swiftness, spirit, and knowledge of the bugle commands. Many shortcomings of the day previous were corrected, doubtless on account of the report of the drill supervisor, as well as on account of the natural intelligence of the men and their anxiety to learn. Nearly every company took up the skirmish drill and but few ordinary company exercises were executed. This is as it should be, because for the latter the armory offers plenty of opportunity, and it is a waste of valuable time to do much of that work here, but there is nevertheless much room for improvement even in this matter, one which the 7th is generally supposed to be thoroughly familiar with.

Of guard mount we can only say that the wheel into line by platoons was again a failure, and that number one committed the same error as on the day before with regard to announcing the new guard and the officer of the day. The men on the pivot flanks of the platoons, on this occasion as well as before, marked time in their places instead of taking steps and describing the arc laid down in tactics, which brought the platoons close on top of each other, and necessitated marking time, for which there is no need, if properly performed. Sentry duty varied—in some cases it was excellent, in others much improvement could have been made. Many men on post still kept up the habit of approaching each other and holding lengthy conversations, during which they always took care to assume the arms port, but a single glance was sufficient to show that the conversation had nothing particular to do with anything pertaining to the work in hand. This looked bad.

Maj. Kipp finished the school of the battalion by a spirited drill with few mistakes worthy of mention. Once a few guides in forming divisions left oblique did not step to the front at carry arms as required, and in a change of direction by the flank the markers faced from the point of rest, matters which were not corrected.

With the exception of a crooked line, especially in the rear rank of the left company, the dress parade was very fine, the march off was for the first time properly executed, and this wound up a day, the work of which showed much improvement in every way, and which far excelled anything attempted this year.

Wednesday.—The usual skirmish drill early in the morning developed a marked advance in general execution, spirit and knowledge of its requirements on the part of all engaged. Some companies did really meritorious work, and by a more judicious selection of the ground, so as to keep out of each other's way, on the part of the officers, and a better knowledge of the bugle calls on the part of the men, very satisfactory results were obtained. It is needless to describe every movement made, but it is just to say that all, except probably one or two companies, did remarkably well. Another fact, not very remarkable, but still worth mentioning, is that companies generally drill much better under the charge of the regular commanders than under the command of subalterns. This fact accounts for many of the shortcomings, to which we have called attention before.

Guard mounting in blue overcoats was the most military looking piece of work of this kind yet performed in the camp, and it is remarkable that men were allowed during the day to change their coats for the gray uniform with white helmets and belts only to be drenched to the skin during the rain, which started shortly after noon and kept up the entire day and night, transforming the camp into a mudpuddle, and cutting off every exercise after the conclusion of the battalion skirmish drill in the forenoon, under command of Lieut. Col. Smith.

The grounds then began to look dreary and deserted and all work stopped. The rain stopped just sufficiently long to allow Cappa, who, by the way, furnishes excellent music, to give a few strains between retreat and tattoo, and then it broke out with renewed fury, driving everybody off the ground into the sheltering protection of tent or sentry box, and that is the way matters looked when this report had to be closed.

so as to be in time to go to press. The remainder will be published in next week's paper.

Before closing, however, it is just to say that the regiment does hard work in spite of the "funny" reports in the daily papers. The men are virtually on their feet from 4.30 A. M. till dinner. In the afternoon they are occupied by theoretical instruction and other matters, and this with the ordinary police duties and the strict rules under which the camp is conducted, entitles them to all the little enjoyment and recreation to be obtained. The camp is strictly military, and not a country fair concern as is the case in so many other States.

THE NATIONAL ENCAMPMENT.

Errors Noted in the Infantry Company Competitions.

(Concluded from last week's JOURNAL.)

The movements noted as "omitted" were either not attempted or performed out of their proper order and were scored zero.

The words "wrong movement," mean that the movement performed was recognized by the judges as an attempt to perform the required movement.

The word "cadence," means that at some time or other during a movement the regularity of clock work was introduced when not authorized by tactics or positively forbidden in orders. The rules governing the competition were as follows:

Alexandria Light Infantry, Co. F, 3d Virginia,—Stack arms, 1 stack fell; 1 loose piece not laid on; 2 wrong commands; right and left hand salutes, by the numbers, ragged; about face, wrong command; by file, right dress, heads down in dressing; march to the stacks and resume arms, lost step and dress.

Support, 1 slow; attention, 1 slow; trail, 3 wrong slope; charge bayonet, 2 points high; support, from right shoulder, 2 slow; secure, 4 slow; load, cadence, 1 piece low; aim, right oblique, cadence, wrong command; aim, left oblique, cadence, wrong command; fire by file, cadence; fire, as rear rank, cadence, wrong command; oblique fire, as rear rank, cadence, wrong command; recover, as rear rank, cadence, wrong command, ragged; fire kneeling, cadence in loading; fire, lying down, cadence, counted, 1 anticipated command, 1 failed to fire.

March in line and halt, poor dressing; wheel company from halt to right, two wrong commands. Crowded. Poor dressing; wheel company, marching, to left, wrong command. Crowded. Execute right, or left, turn, wrong command. Opened out. Form line towards file closers, crowded; form column of fours to the front, 2d four made full wheel and on fixed pivot; march column of fours to the rear, lost distance; form line on the right or left, fours passed beyond proper wheeling point; form column of fours and then company line to the front in double time, lost step; form column of twos, lost distance; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, double time; disturbed dress oblique in line and resumed direct march, did not cover in obliquing. Lost step.

Right shoulder, slow; trail, slow; arms port, slow; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, left arms rigid in double time; 2 pieces not elevated after cease firing; executed superfluous movements; fired in wrong direction in retiring; talking in ranks; form column of platoons to the right, poor dress; place column in march and change direction at the same time, guide 2d platoon did not cover; halt column and form line to left, 2d platoon closed on front and so crowded on wheeling into line; form column of platoons, left in front, without halting, chiefs omitted command for guide; form column of fours, right in front, second fours made full wheel on fixed pivot; form column of platoons in double time, lost step and dress; form line on the right, 1 file dropped his piece; reform company, bring it to place rest, and report to judges, extra commands crowded.

—

Jackson Rifles, Co. D, 1st Michigan,—By file, right dress, attempted too close to stacks; pass from quick to double time and the reverse, arms rigid in double time; crowded in marching: march to the stacks and resume arms, slow taking; 2 pieces fell.

Manual, slow and ragged; fix bayonet, omitted and taken up; charge bayonet, omitted and taken up; load, cadence; aim, right oblique, wrong command; aim, left oblique, wrong command; fire by file, wrong command; carry, from fire, wrong command; fire, as rear rank, cadence in loading, 1 anticipated command; oblique fire, as rear rank, wrong command; recover, as rear rank, 1 slow, several pieces low; rise, ragged.

Wheel company from halt to right, did not take room enough for wheel; wheel company, marching, to left, crowded. Not completed; execute right or left, turn, wrong guide; form column of fours and halt, poor dress; form line on the right, or left, poor dress; form column of fours, and then company line to the front in double time, crowded; to pass obstacle, break fours from side of guide, and reform company, wrong command; form column of twos, lost distance; column of fours, double rank distance, marching in quick time, form single rank to the front, double time wrong command. Ragged.

Right shoulder, disturbed dress; trail, disturbed dress; arms port, disturbed dress; advance in double time 100 yards, halting and firing kneeling twice with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, guides slow kneeling; slow loading; 2 poor volleys; poor dress; 1 discharge without command; retired by an about movement slow; place column in march and change direction at the same time, platoons wheeled on fixed pivot; chief 1st platoon gave wrong command; halt column and form line to left, 2d platoon lost distance in marching; reform company, bring it to place rest, and report to judges, omitted place rest. Lacked precision throughout drill. *Omitted.*—Nos. 6 and 7, school of the soldier; No. 2, manual.

—

Molineux Rifles, Co. D, 32d New York.—Stack arms, 1 bayonet fell off and one stack spoiled; 1 W. C.; about face, wrong command; parade rest, wrong command; mark time, 1 file stepped off on right foot; by right and left flanks, from direct step, spread; by file, right dress, wrong command; pass from quick to double time and the reverse, wrong movement.

Manual, slow and ragged; attention, wrong command; parade rest, wrong command; fix bayonet, several dressed ahead of line; unfix bayonet, from order, slow receiving arms; load, wrong command; ready, wrong command; aim, right oblique, wrong command; aim, left oblique, wrong command; fire, as rear rank, wrong command; oblique fire, as rear rank, wrong command; recover, as rear rank, wrong command.

Wheel company from halt to right, wrong command. Poor wheel. Dressed to wrong flank; wheel company, marching, to left, crowded. Wheeled on fixed pivot, execute right, or left, turn, opened out; change file closers to opposite flank while marching, file closers did not pass to rear of line; form line towards file closers, file closers out of place; march column of fours to the rear, wheeled about by fours towards file closers; form line on the right or left, spread out; to pass obstacle, break fours from side of guide, and reform company, wrong movement; form column of twos, lost distance; form column of files, lost disstance; form fours, leading file did not halt; being in line in single rank, form double rank, crowded in forming line. No command front; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, wrong movement.

Right shoulder, lost step; trail, lost step; arms port, lost step; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, several wrong commands; poor double time; much talking in ranks; place column in march and change direction at the same time, poor wheel; halt column and form line to left, wrong movement; form column of fours, right in front, lost distance; form column of platoons in double time, time called. Lacked precision throughout drill. *Omitted.*—No. 26, manual; Nos. 1 and 5, school of the company.

—

Belknap Rifles, Co. B, 3d Texas.—Facings, to the right and left, individual error; about face, unsteady; mark time, individual error; by the right and left flanks, from direct step, individual error.

Present, 1 slow; charge bayonet, 1 point high; unfix bayonet, from order, executed from carry; load, cadence; aim, right oblique, individual error; fire by file, cadence; carry, from fire, cadence; fire, as rear rank, cadence; oblique fire, as rear rank, 1 file did not raise piece; recover, as rear rank, cadence in loading; fire kneeling, cadence in loading; rise, 1 slow; fire, lying down, cadence.

Wheel company, marching to left, executed from halt; execute right, or left, turn, opened out; form column of fours; oblique in column of fours and resume direct march, to the front, 2d four made full wheel and on fixed pivot did not cover in obliquing; form line on the right, or left, two files dressed ahead of line form column of twos, lost distance; being in line in single rank, form double rank, did not halt in line; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, spread.

Trail, 1 slow; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time disturbed dress; 1 poor volley; halt column and form line to left, lost distance; form column of platoons, left in front, without halting, guide changed before command march; form column of platoons in double time, lost step; form column of fours, from column of platoons, in double time, lost step.

—

San Antonio Rifles, Co. A, 3d Texas.—Right and left hand salutes, by the numbers, 1 slow; pass from quick to double time and the reverse, dress slightly disturbed by double time.

Support, 1 slow; trail, 1 slow; charge bayonet, 1 point high; unfix bayonet, from order, cadence; support, from right shoulder, 1 slow; secure, 1 slow; load, cadence; ready, 1 slow; fire, as rear rank, several individual errors; oblique fire, as rear rank, cadence in loading; recover, as rear rank, cadence in loading; fire kneeling, cadence in loading; fire, lying down, cadence in loading and firing.

March in line and halt, imperfect dress; wheel company from halt to right, poor wheel; wheel company, marching, to left, poor wheel; execute right, or left, turn, opened out; form line towards file closers, movements 7 to 12 passed and afterwards taken up; form column of twos, lost distance; oblique in line and resume direct march, spread.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time poor; firing ragged; form column of fours, right in front, wrong movement; left in front. *Omitted.*—No. 9, school of the soldier.

—

Lomax Rifles, Co. B, 1st Ala.—Stack arms, 1 stack slow.

Fix bayonet, cadence; unfix bayonet, from order, cadence; load, cadence; carry, 1 slow; fire by file, cadence; carry, from fire, cadence; fire, as rear rank, cadence; oblique fire, as rear rank, cadence; fire kneeling, cadence, slow; fire, lying down, cadence.

March in line and halt, poor alignment; wheel company marching, to left, crowded; execute right or left, turn, wrong guide; change file closers to opposite flank while marching, one file closer did not close in at proper time; form line on right, or left, fours halted ahead of line; form column of twos, lost distance.

Right shoulder, trail and arms port, short and slow step during execution of manual; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, crowded in double time; omitted one volley. *Omitted.*—Nos. 1 and 9, school of the soldier.

—

Sheridan Guards, Co. B, 1st N. H.—Mark time, slow; pass from quick to double time and the reverse, commenced march on wrong foot.

Unfix bayonet, from order, executed from carry; load, cadence; fire by file, wrong command; fire, as rear rank, cadence; fire kneeling, several anticipated command.

Wheel company from halt to right, crowded; wheel company, marching, to left, executed from halt; form line towards file closers, file closers left in front of line; march column of fours to the rear, fours lost distance; form column of fours and then company line to the front in double time, crowded; form column of twos, lost distance; form column of files, lost distance; form fours, ragged.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, several anticipated command kneel; poor volley; fired wrong direction retiring; talking in ranks; form column of platoons to the right, poor alignments; halt column and form line to left, poor wheels; form line on the right, wrong movement. Lacked precision in many movements. *Omitted.*—No. 6, school of the soldier; No. 9, manual.

—

Walker Light Guards, Co. B, 1st Va.—Stack arms, 1 stack fell; right and left hand salutes, by the numbers, very ragged; about face, wrong command; by file, right dress, established guide only; pass from quick to double time and the reverse, arms rigid in double time; march to the stacks and resume arms, only one-half company obeyed left face.

Unfix bayonet, from order, executed from carry; aim, right oblique, word "company" left out of command; aim, left oblique, word "company" left out of command; fire, as rear rank, talking in ranks; oblique fire, as rear rank, wrong command; recover, as rear rank, several files slow; fire, lying down, attempted from carry, swearing in ranks at mistake of captain.

Wheel company from halt to right, poor dress. Halted when flank was too far away; execute right, or left, turn, guide did not face promptly. Opened out; change file closers to opposite flank while marching, file closers did not close in at preparatory command; march column of fours to the rear, wheeled about by fours towards file closers; form column of fours, and then company line to the front in double time, did not cover in obliquing; to break obstacles, break fours from side of guide and reform company, last numbers. Rear fours too much distance; form columns of twos, lost distance; form column of files, lost distance; form fours, ragged; being in line in single rank form double rank, executed from column.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, crowded and dressed badly in double time; several pieces did not drop at load; 1 poor volley; 3 wrong commands; fired in wrong direction retiring; form column of platoons to the right, 2d platoon poor wheel; did not halt together; place column in march and change direction at the same time, chief of 2d platoon slow dressing platoons; halt column and form line to left, 2d platoon lost distance; march column to the rear, 2d platoon lost distance; form line on the right, 1st platoon moved too far to front before halting; form column of platoons to the front while marching, part of 2d platoon executed right oblique at command left oblique. Lacked precision in many movements. *Omitted.*—No. 17, manual.

Nealy Rifles, Co. D, 2d Maine.—Stack arms, awkward stack; about face, wrong command; by the right and left flanks, from direct step, crowded; by file, right dress, established guide only; slow; pass from quick to double time and the reverse, lost step; march to the stacks and resume arms, slow obeying take; 1 piece fell; captain swore at men for mistake.

Manual, ragged, slow; parade rest, wrong command; fix bayonet, several points high; right shoulder, 1 slow; load, 1 piece not lowered; recover, 1 discharge; aim, right oblique, wrong command; aim, left oblique, wrong command; carry, from fire, wrong command; fire, as rear rank, wrong command; oblique fire, as rear rank, cadence, wrong command; fire kneeling, cadence, wrong command; fire, lying down, wrong command, no "cease firing."

Wheel company from halt to right, wrong command. Poor alignment; wheel company, marching, to left or right, slow dressing. Captain cursed men; execute right, or left, turn, opened out. Arms rigid in double time; hands carried too low; form line towards file closers, crowded. Wrong command; form column of fours to the front, wrong movement; form column of fours and then company line to the front in double time, no command for guide; to pass obstacle, break fours from side of guides, and reform company, broke from wrong flank; form column of twos, lost distance; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, wrong movement.

Right shoulder, trail and arms port, manual on the march disturbed dress; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, several anticipated command kneel; 2 wrong commands; poor double time; fired wrong direction retiring; 1 poor volley; retired by about face; place column in march and change direction at the same time, no guide given; halt column and form line to left, very slow dressing; form column of platoons, left in front, without halting, no command forward; march column to the rear, lost step; gazing about in ranks; form column of platoons in double time, time called. Lacked precision throughout drill.

—

National Rifles, Washington, D. C.—Right and left hand salutes, by the numbers, 1 slow; by file, right dress, established guide only, dressed ahead of time; pass from quick to double time and the reverse, arms rigid in double time, lost dress and step; march to the stacks and resume arms, lost step.

Order, butts of pieces did not touch toes; in place, rest, wrong movement; charge bayonet, 1 piece low; unfix bayonet, from order, cadence; secure, 1 slow; load, cadence; ready, wrong command; aim, right oblique, wrong command; aim, left oblique, wrong command; fire by file, cadence; carry, from fire, cadence; fire, as rear rank, cadence, wrong command; oblique fire, as rear rank, cadence, wrong command; recover, as rear rank, wrong command; fire kneeling, 2 pieces high at "kneel;" fire, lying down, cadence.

Wheel company from halt to right, poor alignment; wheel company, marching, to left, poor alignment; execute right, or left, turn, crowded; form line towards file closers, wrong movement, (front into line); oblique in column of fours and resume direct march, did not cover in obliquing; form line on the right or left, fours march beyond wheeling point; form column of fours and then company line to the front in double time, lost step.

Arms port, 1 slow; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges—then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time disturbed dress; 2 wrong commands; place column in march and change direction at the same time, several anticipated command march; halt column and form line to left, dressed ahead of line; form column of platoons, left in front, without halting, chief of 2d platoon slow giving commands; form column of platoons to the front while marching, lost step and dress; reform company, bring it to place rest, and report to judges, omitted place rest.

—

Co. D, 1st Minn.—Change step, several did not change; to the rear, lost dress; by file, right dress, established guide only; pass from quick to double time and the reverse, slow time; march to the stacks and resume arms, slow resuming arms.

Order, 1 slow; fix bayonet, cadence; charge bayonet, 1 point high; unfix bayonet, from order, cadence; support, from right shoulder, 1 slow; secure, 2 slow; load, cadence; aim, right oblique, 3 slow; fire by file, cadence; carry, from fire, cadence; fire, as rear rank, cadence, wrong command; oblique fire, as rear rank, cadence, wrong command; recover, as rear rank, cadence in loading; fire, lying down, cadence.

Wheel company from halt to right, marching flank too short a radius. Files near pivot ahead of line; wheel company, marching to left, poor dress; execute right, or left, turn, opened out; form column of fours and halt, did not halt; change file closers to opposite flank while marching, wrong command; oblique in column of fours and resume direct march, did not cover in obliquing; march column of fours to the rear, lost step; form line on the right, or left, fours halted ahead of line; form column of fours and then company line to the front in double time, crowded; oblique in line and resume direct march, spread.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time disturbed dress; wrong command; place column in march and change direction at the same time, poor dress; form column of platoons, left in front, without halting, right platoon moved off at command march from captain; form column of fours, right in front, leading guide out of place; form column of fours, from column of platoons, in double time, did not dress in sets of fours; reform company, bring it to place rest, and report to judges, omitted place rest. *Omitted.*—No. 19, manual.

—

Co. A, 5th Rhode Island.—Mark time, change step and to the rear, marching time too slow; by the right and left flanks, from direct step, 1 awkward; march to the stacks and resume arms, slow step.

Charge bayonet, several high points; close chamber, 2 slow; secure, 3 slow; load, cadence; ready, several muzzles too high; aim, right oblique, cadence in loading; aim, left oblique, cadence in loading; carry, from fire, muzzles too high; fire, as rear rank, wrong command, cadence; oblique fire, as rear rank, wrong command; recover, as rear rank, cadence, 1 discharge; fire kneeling, extra command; fire, lying down, wrong command, talking in ranks.

March in line and halt, slow time; wheel company from halt to right, lost touch and dress; wheel company, marching, to left, fixed pivot, execute right, or left, turn, one half company marched on; form column of fours and halt, poor carry at halt; form line towards file closers, formed away from file closers; oblique in column of fours and resume direct march, did not cover in obliquing; form line on the right, or left, extra word in command; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, spread out.

Right shoulder, trail and arms port, marching manual slow; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, poor double time; accidental discharge at carry; fired wrong direction retiring; 2 poor volleys; halt column and form line to left, wrong command; form column of platoons, left in front, without halting, wrong command; reform company, bring it to place rest, and report to judges, dressed to wrong flank. *Omitted.*—No. 2, school of the soldier.

—

Custer Guards, Co. I, 2d Mich.—Mark time, slow time; by file, right dress, dressed ahead of line; pass from quick to

double time and the reverse, commence march for double time on wrong foot.

Manual, ragged; in place, rest, wrong movement; unfix bayonet, from order, cadence; load, cadence, 1 slow; aim, right oblique, wrong command; aim, left oblique, wrong command; fire by file, cadence; carry, from fire, cadence; fire, as rear rank, cadence, feet not moved; oblique fire, as rear rank, wrong command; fire kneeling, cadence; fire, lying down, cadence.

Wheel company from halt to right, wrong command; execute right, or left, turn, spread out; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, lost step.

Right shoulder, trail and arms port, executed in column; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time disturbed dress; wrong command; halt column and form line to the left, chiefs of platoons slow retiring; form column of platoons, left in front, without halting, guide slow; form line on the right, time called. Lacked precision throughout drill.

—

Fort Wayne Rifles, Co. B, 2d Indiana.—Stack arms, wrong command; by file, right dress, arms rigid in double time; march to the stacks and resume arms, wrong command.

Manual, ragged; aim, right oblique, wrong command; aim, left oblique, wrong command; fire kneeling, wrong command; fire, lying down, wrong command.

Wheel company from halt to right, wrong command; wheel company, marching, to left, wrong command; change file closers to opposite flank while marching, wrong command; form line towards file closers, lost step; oblique in column of fours and resume direct march, did not cover in obliquing; march in column of fours t othe rear, wheeled about by fours towards file closers; form column of fours, and then company line to the front in double time, crowded; to pass obstacle, break fours from side of guide, and reform company, wrong command; being in line in single rank form double rank, wrong movement; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, wrong movement.

Form column of platoons, left in front, without halting, no guide given; form column of fours, right in front, lost distance. Lacked precision throughout drill. *Omitted.*—No. 2, school of the soldier; No. 8, movement by platoon.

—

Wooster City Guards, Co. D, 8th Ohio.—Mark time, out of time; by file, right dress, crowded; march to the stacks and resume arms, crowded, slow.

Manual, ragged; unfix bayonet, from order, cadence; load, cadence; aim, right oblique, wrong command; aim, left oblique, wrong command; fire by file, cadence; carry, from fire, cadence; fire, as rear rank, cadence; oblique fire, as rear rank, wrong command, cadence; recover, as rear rank, cadence; fire kneeling, wrong command; fire, lying down, 1 file at carry, talking in ranks.

March in line and halt, poor halt; form column of twos, guide out of place; being in line in single rank form double rank, wrong movement; column of fours, double rank distance, marching in quick time, form single rank to the front in double time, wrong movement; oblique in line and resume direct march, spread.

Advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges; then retire company over same ground in double time, halting and firing kneeling to original front twice, with blank cartridges, double time disturbed dress; 2 poor volleys; accidental discharge; wrong command; halt column and form line to left, lost distance; form column of fours, from column of platoons, in double time, 2 wrong commands; form line on the right, wrong movement; form column of platoons to the front while marching, wrong movement; reform company, bring it to place rest, and report to judges, time called. Lacked precision throughout drill. *Omitted.*—No. 6, school of the soldier.

CREEDMOOR MATCHES.

NEW YORK, June 20, 1887.

THE Third Qualification and Marksman's Badge Match was shot at Creedmoor, on Saturday, June 18. The attendance was very fair, considering the weather, which was cloudy with light rains in the forenoon and very favorable to the competitors, some very excellent scores being made. Following are the best scores of 42 and over, those marked * being the winners of the cash prizes and silver medals in this match:

	Co.	Regt.	200 Yds.	500 Yds.	Tot.
S. C. Pirie*	I	23d	24	24	48
J. F. Klein*	17th Sept. Co.		21	25	46
J. S. Shepherd*	D	23d	22	24	46
W. F. Cody*	K	13th	23	23	46
W. P. Pickett*	B	23d	23	23	46
P. U. Brower*		N. R. A.	23	23	46
L. J. Elliott*	C	23d	23	23	46
W. A. Stokes*	I	23d	20	25	45
T. G. Austin*	G	13th	21	24	45
G. S. Scott, Jr.*	A	23d	22	23	45

The matches for July at Creedmoor are the Qualification and Marksman's Badge Matches Monday, July 4, commencing at 8.30 A. M.; Saturday, July 16, commencing at 6.45 A. M.; Saturday, July 30, commencing at 6.45 A. M.; Saturday, Aug. 6, commencing at 6.45 A. M.; Saturday, Aug. 13, commencing at 9.30 A. M., and Saturday, Aug. 27, commencing at 9.30 A. M. The trains for Queens leave L. I. City, 6.50, 8.35, 9.00, 11.05 A. M.; 2.05, 3.35, 4.35, 5.35, 6.35, 7.05, 8.10 P. M. Leave Flatbush Ave., 6.45, 8.30, 8.50, 11.00 A. M.; 2.00, 3.25, 4.20, 5.20, 6.30, 7.00, 8.00 P. M. Trains from Queens, 8.19, 10.19 A. M.; 12.42, 3.30, 5.01, 5.55, 6.57 P. M.

IN STRICT ACCORD WITH TACTICS.

To the Editor of the Detroit Free Press:

IT is useless for disappointed competitors to allege that outside influence had anything to do with the victory of Michigan's celebrated cadet corps at Washington. They won because of their rigid adherence to authorized tactics. Even the Doctor's prescription—on which so much stress has been laid—was purely Up-tonic. REX.

MILWAUKEE, June 13, 1887.

MILITIA ITEMS.

Mayor Hewitt, as President of the Armory Commission, through architect T. B. Thomas, on June 18, filed plans at Firemen's Hall for the new armory of the 8th Regiment, N. G., S. N. Y., which will be located on the west side of Fourth avenue, extending from Ninety-fourth to Ninety-fifth street. The building will cover ground 201.5 feet on the avenue and 300 feet deep. The executive building, company quarters, etc., in front will be three stories high, and the drill room will be in the rear. The walls will be of brick, trimmed with terra cotta. The cost is to be $300,000.

On June 11, at the range at Creedmoor, L. I., a loaded rifle was carelessly discharged by Lieut. Pasco, an officer of the 2d Battery—who "didn't know it was loaded." Fortunately no one was killed, though Lieut. Wilson had a narrow escape. The ball struck the ground immediately at his feet. Gen. Robbins took Lieut. Pasco severely to task, using language highly appropriate to the occasion but, as is alleged, not altogether becoming a Sunday school. Gen. Robbins has reported the matter to the N. R. A., which has the power to deprive Lieut. Pasco of the privilege of the range. Lieuts. Wilson and Pasco have preferred charges at headquarters against Gen. Robbins of conduct unbecoming an officer and a gentleman.

In Orders 81 of June 20, Col. Gaylor directs that the 47th New York will assemble at the armory, in State Service uniform, fatigue (white helmets), with knapsacks, haversacks, canteens and overcoats rolled, Saturday, July 9, and proceed to the State Camp at Peekskill. The fatigue cap, blouse, shoulder scales, white body belts, white leggings and extra white gloves will be carried in the knapsacks.

A delegation of the Ancient and Honorable Artillery of Boston sailed June 22 on the Anchor line steamer *City of Rome* for Liverpool, to participate in the festivities of the 359th anniversary of the parent company, which are to take place in London in a short time.

Co. C, 23d N. Y., assembled at 8 o'clock, June 20, at the armory, under the command of Capt. Ezra De Forest and 2d Lieut. Chas. R. Silkman in fatigue uniform, blouse, cap and leggins, canteens, haversacks, and one day's rations. Soon after the company marched to Fort Greene, 18 files strong, for guard mounting. The company returned the morning of June 21.

The 23d N. Y. will assemble at the armory in fatigue uniform, blouse, cap and leggings, canteens, haversacks, and one day's rations, on Saturday, June 25, at 2 o'clock P. M., for outdoor skirmish and battalion drill. Field and staff will assemble dismounted. The canteen and haversack will be worn by officers as well as enlisted men, and it is suggested that cold coffee or tea be carried in the canteen in preference to water. The drum major will detail three drummers and three fifers for this occasion. The regiment will be divided into three battalions, under the command of Major Chas. E. Waters, Capt. Alexis C. Smith, and Capt. Ezra De Forest, respectively.

ILLINOIS NATIONAL GUARD.

G. O. No. 15, S. of Ill., July 7, 1886, contains the following:

XIX. One evening each week during the month of June in each year will be devoted entirely to instruction in rifle practice in the armory, as laid down in Blunt's Manual of R. and C. F., especially in aiming, sighting, and position drill, and to all such instructions as are stated in the Manual to be proper to be given before going upon the rifle range.

In spite of this requirement no instruction of the kind here provided for has been given in any regiment of the 1st Brigade of the Illinois National Guard. The Chicago *Tribune*, which is doing excellent service by calling attention to this deficiency in the instruction of the State troops, says: "More than one-half of the members of the brigade, and about 48 per cent. of our Chicago regiments, had used their rifles to drill with but not to shoot with. Their officers confined their drill to mere uniformity of manipulation of the piece. Their military instruction had not included the practical use of the rifle. They were as unacquainted with the range and accuracy of their rifles as if armed with wooden guns. They carried rifles, but were ignorant of their power. Rifles are primarily to shoot with; secondly, to drill with. The lowest use to which they can be put is for display purposes. Yet this is just what their 689 rifles had been used for. Men have enlisted in the Illinois National Guard, have completed their terms of enlistment, and have been honorably discharged from the service without having even fired a service rifle in their lives. Their military training and drill did not include practical use of their rifles as part of their education. What is needed is this: Orders prescribing instruction and practice, and holding company commanders responsible for the fulfilment of those orders. The Regimental Inspector of Rifle Practice should abstract the reports of company commanders showing extent, frequency, and nature of instruction given. The Brigade Inspector of Rifle Practice should be required to frequently inspect and report upon the manner in which the letter and spirit of orders is observed, or the contrary. Above all public opinion should put the seal of condemnation upon the fuss and feathers of mere parade and drill work unless accompanied by a demonstrated capacity to shoot and to hit what it shoots at."

(Correspondence of the Army and Navy Journal.)

OREGON.

DECORATION DAY was celebrated in Portland by the O. N. G. by an extensive parade, there being in line Cos. A, E, G, and K, 1st Regt., and Bat. A, 1st Artillery, headed by the Dodworth Band. The line of march ended at the Plaza, where, after a short rest, the battalion and battery were received by Col. and Adjt.-Gen. Shofner and M. L. Olmstead, Dept. Commander, G. A. R., after which a dress parade was held. The marching of the men was very even and steady, and the wheelings very well executed. The battery, notwithstanding the two antiquated brass pieces with which they are armed, looked very well in their full dress uniforms, and Capt. Riley is to be congratulated on the steady appearance of his men. The band were very crude in their alignments and marching, showing the want of proper drilling. They appeared in their new uniforms for the first time and looked very well.

Pursuant to G. O. 1, Hdqrs. O. N. G., the following company officers have been elected to serve for three years: In the 1st Regt.—Co. A, Capt. F. G. Abell, 1st Lieut. A. B. McAlpin, 2d Lieut. A. R. Alden; Co. E, Capt. D. C. Southworth, 1st Lieut. J. C. Olds, 2d Lieut. H. A. Moser; Co. F, Capt. M. J. McMahon, 1st Lieut. J. O'Brien, 2d Lieut. T. H. Duprey; Co. G, Capt. L. C. Farrar, 1st Lieut. A. J. Coffee, 2d Lieut. W. F. Kean; Co. H, Capt. A. E. Shaw, 1st Lieut. F. E. Shute, 2d Lieut. G. H. Tarbell; Co. I, Capt. R. K. Warren, 1st Lieut. Wm. Pomeroy, 2d Lieut. R. E. Sewall; Co. K, Capt. C. F. Beebe, 1st Lieut. W. M. Ladd, 2d Lieut. H. L. Wells.

In the 2d Regt.—Co. A, Roseburg, Capt. B. S. Pague, 1st Lieut. S. C. Flint, 2d Lieut. W. H. Fisher; Co. B, Salem, Capt. S. L. Lovell, 1st Lieut. I. Scott, 2d Lieut. M. W. Hunt; Co. C, Eugene City, Capt. F. E. Patterson, 1st Lieut. M. G. Butterfield, 2d Lieut. L. C. Sladden.

In the 3d Regt.—Co. B, Pendleton, Capt. J. W. Young, 1st Lieut. A. E. Dart, 2d Lieut. J. A. Fee.

In Battery A, 1st Artillery—Capt. W. J. Riley, 1st Lieut. J. Willms, 2d Lieut. E. Mosher.

On the evening of June 9, Co. D, 1st Regt., was mustered in, with a membership of forty-five. They have elected the following officers: Capt. T. Vennigerholz, 1st Lieut. L. E. Simmons, and 2d Lieut. C. Hallowell.

OHIO.

GEREERAL ORDERS NO. 8 prescribe the following course of instruction for the infantry organizations of the National Guard, for the encampment season of 1887:

For Regiments and Battalions.—1. Formation of battalion, Pars. 373 to 382; manual of arms and firing, 385 to 395; to march in line, 396 to 402 and 410; to halt, 403; and alignments, 404 and 405.

2. To pass obstacles, 408 and 409; to march by the flank, 411 to 413 and 416; to form *to* and *on* the right or left into line, 417, 420 and 421; to form column of fours front into line, 422 to 424.

3. To break into column of fours from the right of left, to march to the right or left, 414 and 415.

4. Formation of column of fours into line by two movements, 426 and 428; to form double column of fours, 430; to form double column of fours front and to the right or left into line, 431 and 432.

5. To form column of companies, 433 to 440 and 454; to march in column at full distance, 441 to 445; to change direction, 446 and 447.

6. To form the column at full distance into line, 448 to 457.

7. To advance and march by the flank of subdivisions, 460 and 461 and 465; to march again in column of fours, 466; marching by the flank of subdivisions, to form line, 462.

8. Marching by the flank of subdivisions, to march in column of subdivisions, and *vice versa*, 463 and 464; to form column of fours from column of subdivisions, and to form again into column, 467 to 471.

9. Ployment of battalion into close column, 471 to 481; deployment of close column, 498 to 504.

10. To ploy the battalion into double column, 505 to 507; deployment of double column, 508 and 509.

11. To change front, 520.

12. Skirmish drill, 331 to 336, 348 to 358.

For Companies.—Theoretical instruction in guard duty should be imparted to non-commissioned officers and privates, by their respective company commanders, before entering the camp. The drill for companies in camp shall consist of such tactical movements as cannot be carried out in armories. Special attention will be given to the skirmish drill, Pars. 279 to 325, and 328 to 331. Schools of theoretical instruction in tactics, the duties of guards and sentinels, regulations and customs of service, will be held daily while in camp.

MASSACHUSETTS MILITIA.

AT the dress parade of the 1st Regiment, during the recent encampment of the 1st Brigade, M. V. M., at Framingham, Mass., Gen. Wales personally thanked the officers for good work they had done during the week and said it was the most satisfactory camp ever held by the brigade, as shown:

Brigade Staff, 11.

2d Regiment—Field, Staff, and Band, 38; Co. A, 39; Co. B, 47; Co. C, 43; Co. D, 39; Co. E, 47; Co. F, 50; Co. G, 51; Co. H, 53; total, 407.

1st Regiment—Field, Staff, and Band, 38; Co. A, 45; Co. B, 57; Co. C, 26; Co. D, 42; Co. E, 48; Co. F, 38; Co. G, 45; Co. H, 55; Co. I, 45; Co. K, 46; Co. L, 42; Co. M, 52; total, 589.

6th Infantry—Field, Staff, and Band, 39; Co. A, 45; Co. B, 47; Co. C, 51; Co. D, 51; Co. E, 53; Co. F, 52; Co. G, 44; Co. H, 47; Co. I, 54; Co. K, 52; Co. L, 54; Co. M, 43; total, 632.

Battery B—Officers, band, and men, 97.

Company F, Cavalry—Officers, band, and men, 97.

Signal Corps, 24: Ambulance Corps, 11.

Total present for duty, 1,857. Number present for duty first day in camp, 1886, 1,889.

CALIFORNIA NATIONAL GUARD.

GENERAL WALTER TURNBULL has been placed on the retired list with the rank of Major-General. The brigade camp at Healdsburg is to be called Camp Bartlett in honor of the Governor.

Co. D, of the 2d Artillery, has made the following choice of officers: 1st Lieut. Philip Schultz, captain; 2d Lieut. William R. Saxon, 1st lieutenant; Pvt. John T. Stiltz, 2d lieutenant.

Sacramento is making extensive arrangements to celebrate the Fourth. Its militia—the 1st Artillery, N. G. C.—will not leave the city and go into camp, but will parade.

CONNECTICUT.

THE commander-in-chief has expressed his gratification at the splendid appearance of the Connecticut National Guard on the occasion of the dedication of the monument at New Haven, June 17, and says its appearance was such as to elicit very strong praise from Gens. Sherman, Sheridan, Terry, and others.

DISTRICT OF COLUMBIA.

THE organization of the District Militia was finally completed this week under the direction of General A. G. Ordway, who has prepared detailed orders for drills and parades, calculated to stimulate interest in military affairs. The force will number about 1,400 men.

THERE exists, says the New York *Evening Telegram*, in the Portuguese Army a curious word of command, which is as follows: "Cara fiera al ennemigo!" "(look sternly at the enemy") whereupon all the soldiers begin to frown. Then the officer commands: "Muchissimo fiera!" ("look savage") at the same time giving his face as martial an expression as he can, which all the soldiers immediately try to imitate.

THE ARMY AND NAVY OF CHILI.

THE Chilian Army is recruited by voluntary enlistment, a bounty of $20 being given for a six years' engagement. The infantry numbers ten battalions of six companies each, the total effective of a battalion amounting to 904 men. This number is, however, rarely reached, and at the end of 1883 the whole Chilian infantry numbered only 7,600 instead of 9,040 men. The armament consists of Belgian carbines on the Comblain system, and of a few Gras rifles altered to take the ammunition of the older weapon. The National Guard, reorganized after the war with Peru, now consists of 43,151 men. The battalions have each four companies, except those of Santiago and Valparaiso, which have six. Artillery—One regiment of 937 men at Valparaiso, and fourteen battalions of 419 men; in all, 6,599 men. Cavalry—Twelve squadrons of 173 men; in all, 2,076. The total strength of the National Guard is 51,800 men. Chili possesses two armor-clads, one armored turret ship, one iron cruiser, four corvettes and one transport. For the defence of the coast she has five gunboats and eleven torpedo-boats.

MODERN TYPES OF WAR-SHIPS.

IT has for some time been apparent that another transition period has been reached in the progress and development of war-ship construction. When votes were asked for the *Nile* and *Trafalgar* last year, the House of Commons was informed that these would probably be the last large armor-clads built for the British Navy. Up to the present there seems to be no tendency to falsify that surmise, and, what is more, the navies of other Powers are in most cases being augmented by the production of ships of any type but that of the monster armor-clad. Even Italy seems to pause somewhat in the building of her leviathans, and to turn her attention to the possibilities of torpedo attack with the same earnestness as her neighbors. Strangely enough, little Spain has taken the lead in acquiring the most formidable torpedo vessel that has yet been produced. It is true that the vessel was built in this country; but the requirements she was to fulfil were first indicated by the Spanish authorities, and these have been attained. To know what is wanted is no small matter when setting about making additions to a

fleet, and it is no less important that the want should be attainable. The Spanish Government asked for a torpedo vessel capable of doing more than any built up to that time, and in doing so they pointed out the reasons which led them to believe such a vessel could be produced. A Scotch firm solved the problem and built the vessel.—*Broad Arrow.*

TREASURE TROVE.

THE story of the finding of treasure to the amount of over $25,000,000 in rupees in the palace at Gwalior reads like a tale from the *Arabian Nights.* The money had been accumulated in pits and wells, sunk in the floors of vaults in the Palace Zenana. After removing the earth to a depth of six feet the workmen uncovered a smooth level pavement of large flagstones. When these were lifted they came upon a square pit filled to the brim with glittering silver. There were several of such pits, two or three of them containing jewels, but the majority of them each contained 15 lakhs of Gwalior rupees. This money the Maharajah is depositing at interest with the Indian Government instead of allowing it to lie idle. This is a proof of the confidence that the native princes of India have in the stability of the British Raj. We fear such a story as this will make our Russian neighbors' mouths water, and stimulate them to fresh exertions to reach a country which their imaginations have always depicted as paved with gold.—*Broad Arrow.*

It is also reported that hidden treasure to the value of £95,000,000 has been discovered in the palace of the deceased Vizier, at Rabat, Morocco. The Sultan, it is said, has confiscated the treasure and is having it conveyed to the imperial coffers.

GERMAN INFANTRY FIRE.

A FRENCH paper publishes the new German regulations necessitated by the introduction of the repeating rifle, from which it appears that firing at will is suppressed; that the use of the magazine is authorized in the following cases only—attack on an enemy's position, bayonet attack by the enemy, and cavalry charge to repulse. The line of skirmishers can also make use of the magazine, but only on the order being given by the officer in command of the troops under fire. To repulse cavalry, the regulations recommend several consecutive volleys when the enemy comes within 300 yards. The employment of the magazine is forbidden when the enemy is not within 800 yards, and is recommended only when he is within 300 yards. The soldier is to bear in mind that the new weapon requires the greatest discipline under fire, and that the new system has been introduced not to increase the rapidity of firing, but to augment the number of hits. These, says the writer, are the principal regulations laid down. It is proposed to increase the number of caissons attached to German infantry battalions from one to four. It is estimated that this will give the German soldier at least 250 cartridges to expend in close combat or at easy range, whereas, according to the present organization of the French ammunition train, the *pion-pion* can only obtain 175 cartridges under the same circumstances. The German will have 84 cartridges on his person, with a supplement of 95 at least immediately available from the caissons of the first reserve, whilst from the rear can be supplied in useful time nearly 120 more in the event of a prolonged conflict.

A NEW NITRO-GLYCERINE SHELL.

A RUSSIAN inventor named Smolianoff, living in San Francisco, makes claim to having discovered a way in which nitro-glycerine can be used with safety in projectiles. He has been experimenting with a ten-pound cannon, firing four-inch shells loaded with nitro-glycerine. His experiments have attracted the attention of Army people and a public test is to be made. The shell is made in two parts in the form of one conical shell within another, each of which is filled with liquid. These liquids are prevented from mingling while the projectile is not to be used, but the shell is so arranged that, when discharged from the gun, one shell is moved over the other, so as to open communication between the two chambers, thus permitting the two liquids to mix and form the high explosive known as nitro-glycerine. This is to be exploded either by fusion or impact.

FOREIGN ITEMS.

"ALTOGETHER, I do not feel very easy about our military position in India," writes Sir George Campbell in his book just issued, "The British Empire."

GENERAL FERRON, French Minister of War, will submit to the Chamber of Deputies a project for the creation of four new cavalry regiments, 18 new infantry regiments and for the increase of the effective strength of the companies of the present regiments.

ACCORDING to the general annual return of the army for 1886, there are 153 foreigners in the British ARMY, as against 158 in the 1885 return. In 1868 only five were returned as foreigners. The latest figures may be slightly under the mark, as the nationality of 3,256 of the army is uncertain.

AN important change has just been ordered with regard to "confidential reports" on officers of the English service. Whenever an officer is disadvantageously reported on by his commanding officer, the report is to be read over to him by the officer making it. If the result of the report disqualifies him for promotion, he will be so informed, instead of, as heretofore, being kept in ignorance of the fact.

GERMANS are hailing as a boon to mankind the invention by Messrs. Lorenz, of Carlsruhe, of a steel-clad bullet with a slight alloy of antimony, which, in addition to increased powers of penetration, gives a much flatter trajectory and is warranted to pass through a man's body without causing unnecessary discomfort. This is killing two birds with one stone. It will kill two, or even three, men at one shot if they happen to stand in the way.

RECENTLY the Emperor William laid the foundation stone of the great ship canal, which is to connect the North Sea with the Baltic, and to be finished in seven years. Running from Kiel to the estuary of the Elbe below Hamburg, it will be of sufficient width and depth to give passage to the largest ironclads in the Imperial Navy and give easy access for her fleets to the North Sea, not only increasing her ability to defend her coast, but enabling her to take the offensive afloat.

THE *Engineer* publishes illustrations of a very ingenious form of carriage on which it is proposed to mount the Maxim guns for service in the field. The carriage is mounted on a pair of disc wheels, and the muzzle of the gun projects through a light steel shield which serves as a protection to the gunner who sits on a movable seat slung to the shafts. The protection is completed by the steel disc wheels, which can be turned round diagonally so that the gunner is completely sheltered.

H. M. S. *Thunderer* has planted another Whitehead torpedo at the bottom of the Mediterranean while firing for practice. The weather was fine and the sea calm, and it is not reported that the torpedo met with any injury in launching. An English torpedo boat, "No. 63," has also been indulging in some irregular performances in Sheerness harbor, colliding with a buoy and then with another torpedo boat, frightening a party of excursionists on a boat at the pier out of a year's growth.

THE *Immortalité* was successfully floated out of dock at Chatham on Tuesday, June 7, in the presence of a large number of spectators. Her description is as follows:

	ft.	in.
Built of steel—		
Length between perpendiculars	300	0
Breadth (extreme)	56	0
Draught of water—		
Forward	19	6
Aft	22	6

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

AN EXTRAORDINARY RAZOR HAS BEEN INVENTED by the QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Capt. U. S. Army, and Colonel of Volunteers.)
ATTORNEY AND COUNSELOR AT LAW
(Corcoran Building), F and Fifteenth Streets, Washington, D. C.

Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen. W. S. Rosecrans, Register U. S Treasury, Washington, D.C.; Hon. John S. Williams, 3d Auditor, U.S. Treasury, Washington, D.C.; Hon. W. P. Canaday, Sergt. at Arms, U. S. Senate, Washington, D. C.; Gen. O. O. Howard, U. S Army.

How to Cure Skin & Scalp Diseases with the CUTICURA REMEDIES.

TORTURING, DISFIGURING, ITCHING, scaly and pimply diseases of the skin, scalp, and blood with loss of hair, from infancy to old age, are cured by the CUTICURA REMEDIES.

CUTICURA RESOLVENT, the New Blood Purifier, cleanses the blood and perspiration of disease, sustaining elements, and thus removes the *cause.*

CUTICURA, the great Skin Cure, instantly allays itching and inflammation, clears the skin and scalp of crusts, scales and sores, and restores the hair.

CUTICURA SOAP, an exquisite Skin Beautifier, is indispensable in treating skin diseases, baby humors, skin blemishes, chapped and oily skin. CUTICURA REMEDIES are the great skin beautifiers.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG & CHEMICAL CO., Boston, Mass.
☞ Send for "How to Cure Skin Diseases."

TINTED with the loveliest delicacy is the skin bathed with CUTICURA MEDICATED SOAP.

THE MONOCULAR DUPLEX, OR ARTIST CAMERA.—The picture is seen non-inverted and full size, the very instant of making the exposure. Can be accurately focussed, dispenses with Tripod, Focussing-cloth and carrying-case. Leather covered; ready at a second's notice, and will carry eight to ten plates. Price with double holder $75.00. With roll holder, 48 paper negatives secured without changing spools. Price $95. Catalogue free; sample Photo, 15 cents.

Kinney Bros.

SATURDAY, June 18, was the 72d anniversary of the battle of Waterloo.

THE French Government has granted a company leave to prosecute salvage operations at the spot where the *Magenta*, one of the finest ironclads of the French navy, lies at the bottom of Toulon roads. It will be remembered that the *Magenta*, the flagship of Admiral Roze, was destroyed by fire and foundered through the subsequent explosion in October, 1875.

Le Progrès Militaire, in an article on "The Proportion of Artillery," argues that one of the principal causes of the defeats of the French in 1870 was the inefficiency of guns both in number and material. The new calculations give 17 batteries to each *corps d'armee;* but the Germans are working to furnish each corps with 20 batteries, or 120 guns. The essential tactic of the arm is admitted to be the entry into action of the whole force *en bloc.*

THE *Journal de la Marine* thinks that M. Barbey, the new French Minister of Marine, will be a success.

THE new French War Minister intends carrying out the idea of General Boulanger with regard to the mobilization of an army corps in the autumn.

THE *Deutsche Heeres-Zeitung* remarks that no regulation exists in the German Army prohibiting contributions to newspapers without the permission of the authorities. The clauses bearing on this point are contained in section 569. Any officer or soldier may publish in the press what he thinks advisable without obtaining permission; but he will be held answerable for any statement prejudicial to military discipline, section 570. The author may sign his name or not, as he pleases; but he is forbidden to sign his article with his rank or position only (for instance "An Officer," "A Non-commissioned Officer," "A Private,") as he thereby makes classes responsible for the opinions of an individual.

AT Rangoon, a shipwright named Aherne, was fishing, and caught a shovel-nosed shark, about two feet long. While he was pulling the shark in its dorsal fin pierced Aherne's chest and entered his lung. Another half inch and it would have touched his heart.

WOMEN ADMIRATION WIN who use GLENN'S SULPHUR SOAP to improve the skin.
HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

HAVE you read those side-splitting burlesque circulars furnished free with "Tansill's Punch," 5c. Cigar.
Many imitate, but none equal "Tansill's Punch" 5c. Cigar.

THE fearless soldier on the midnight watch and the bold mariner before the mast on a stormy sea will certainly suffer from pain in the Chest, Shoulders, Back and Loins, as well as Rheumatism, Sciatica, stiffness and other results of exposure, if they fail to use BENSON'S PLASTERS as a preventive and cure. They never fail. Avoid imitations.

Proposals for Mineral Oil.

JEFFERSONVILLE DEPOT, Q. M. DEPARTMENT
JEFFERSONVILLE, IND., May 31, 1887.

SEALED PROPOSALS in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock, A. M., (Central Standard time,) on Thursday, the 30th day of June, 1887, at which time and place they will be opened in the presence of attending bidders, for furnishing 100.000 gallons Mineral Oil, at this Depot, in cases of two five-gallon cans each.

Deliveries must commence by July 11, 1887, and be completed by August 15, 1887, in such quantities, and at such times, between those dates, as may be agreed upon.

The Government reserves the right to reject any or all proposals.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture, produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blanks and full information as to bidding, etc., will be furnished by this office on application.

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy.

Proposals for Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, NEW YORK CITY,
June 4, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office until 11 o'clock A. M., July 7, 1887, at which time and place they will be opened in the presence of bidders for furnishing and delivering at this depot, miscellaneous Quartermaster's stores, such as G. I. buckets and barrels, office furniture, tools, hose, pipe, oils, &c., &c., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department. Preference given to articles of domestic production and manufacture, condition of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, &c., will be furnished by this office on application.

Envelopes containing proposals should be marked, "Proposals for Quartermaster's Stores, to be opened July 7, 1887," and be addressed to the undersigned.

HENRY C. HODGES,
Lieutenant Colonel and Deputy Quartermaster-Gen. U. S. Army, Depot Quartermaster.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

THE selection of General ABSALOM BAIRD and Colonel H. C. HASBROUCK, U. S. A., to witness the French Army manœuvres in September next, gives satisfactory assurance that the United States will be suitably represented.

SPECIAL orders of this week make several changes of stations among the ordnance officers of the Army. With those in other departments already under orders, and those to follow, the Army will be pretty well "on the move" on and for some time after July 1.

THE latest Indian campaign in Arizona has been short, sharp, and decisive, the hostiles having been driven back to the reservation: much of the credit of this is due to Lieutenant C. P. JOHNSON, 10th U. S. Cavalry, an experienced cavalryman, both as an enlisted man and as an officer.

THE *Atlanta* bas at last been placed in commission and will be attached to the North Atlantic Station. She left New York on Thursday for Ellis Island to take on powder. From thence she goes to Newport to get her torpedo outfit, and after exercising in Narragansett Bay will actively engage in squadron duty.

A VETERAN company commander, one of whose men deserted because he owed him and others money, says: "Ninety per cent. of the men who desert have the same reason for the act, and Boards of Survey on deserters are advised accordingly." The advice of POLONIUS to LAERTES, "neither a borrower nor a lender be," might, if followed out, cause abatement, but it is the habit of Army men to be generous with their money, even to the extent, occasionally, of injudicious lending.

ON Friday of this week, July 1, the Army drew a long breath of relief, for mileage and transportation funds then became available, and the routine work of the Service, much of which had to be laid over for some time past on account of lack of funds, commenced again in earnest. If the drafts on the year's appropriations could be equalized from month to month, and not made so heavy at the beginning of the fiscal year, then, perhaps, the last end of it would be as good as the first; but that is perhaps hardly practicable when so much has to be laid over from one fiscal year until the commencement of another.

A WRITER in the Chicago *Tribune* sagaciously says: "The managers of the International Military Encampment should appreciate that neither as an International, National, or Interstate encampment will their enterprise avoid being a fiasco, financially and professionally, if they fail to present some feature of attraction other than parades, exhibition drills, sham battles, band concerts, drum corps, and fireworks." Efforts are to be made to give great prominence to rifle practice, which is to be made "the peculiar and original feature of the encampment." Those who use their rifles to shoot with are to be given every chance to do so; those who incline to use them for display only will be shown less favor.

IN a recent court-martial case of an enlisted man tried for insolence to his captain on the target range, Major-General SCHOFIELD well says: "The relations between officers and men upon the target range necessarily tend toward relaxation of discipline, which must be guarded against with constant care. The most important results to be sought for in rifle practice are steadiness of nerve, equanimity of temper and that perfect coolness, self-control and discipline under all circumstances, without which great efficiency is impossible. These most important objects are liable to be sacrificed to some extent in the effort to gain the temporary honor of best company record." We have noted, of late, a few similar cases throughout the Army, and, deeming the matter one of vital importance to general efficiency, give the case in point due prominence.

THE following changes in the assignment of the West Point graduates have been made since the list published last week was furnished us, and will be found in the order directing the assignments, which appears elsewhere in this number: Pierpont Isham, transferred from Co. A, 3d Inf., to additional, 7th Cav.; James T. Dean, from additional, 14th Inf., to Co. A, 3d Inf.; Marcus D. Cronin, from Co. G to Co. B, 20th Inf.; Alonzo Gray, from Co. B, 20th Inf., to additional, 5th Cav.; Charles Gerhardt, from Co. D, 25th Inf., to Co. G, 20th Inf.; Ulysses G. McAlexander, from Co. E, 9th Inf., to Co. D, 25th Inf.; Wm. K. Jones, from additional, 25th Inf., to Co. K, 14th Inf.; Michael J. Lenihan, from additional, 8th Inf., to additional, 25th Inf.; Wm. H. Wassell, from additional, 1st Inf., to additional, 9th Inf.; Edmund Wittenmeyer, from additional, 9th Inf., to Co. E, 9th Inf.

AN officer of the Army writes us as follows: "I congratulate you upon the stand taken by you in your issue of the 18th inst., relative to a firm of bankers who agree to discount officer's pay accounts in advance of maturity. Officers in general, and officers just entering the Service in particular, should be warned against such dangerous schemes as these bankers propose. I have received such circulars as you referred to myself. The following is a copy of my answer to one of them: 'I have the honor to inform you that, in my opinion, you are swindlers. I am in no particular need of money at the present time, and never will need it so urgently as to induce me to hypothecate my pay accounts. I am not such a —— fool as to stick my head into such a trap as you are trying to set for me. I have received several of your letters, and hope you will spare yourself further trouble.' I would be glad if other officers would answer these bankers in similar terms, and I hope they have done so."

CHIEF NAVAL CONSTRUCTOR WILSON, of the Navy, returned from a trip to the shipyards of CRAMP AND SONS early this week. He reports that satisfactory progress is being made on cruiser No. 3 and gunboat No. 1. The cruiser is in frame with the exception of one frame aft and the beams for the protective deck. Quite a number of outside and inside hull plates are in position. The longitudinals are in fore and aft. There are forty-seven frames in position on the gunboat, and the engine foundations are in the shops. The water-tight deck beams have just been delivered in the yard and will soon be in position. The stern-post has arrived. A quantity of material for the dynamite cruiser has arrived at the yard. A telegram was received on Tuesday from Baltimore that the keel plates of gunboat No. 2 have been laid and the stern-post for the vessel has been received. The only drawback in the completion of the vessels is the failure of the steel men to supply steel as rapidly as it is desired. There are only seven hundred men at work in CRAMP'S shipyards, when fifteen hundred could be profitably employed. The steel men have so many orders to fill that they are unable to supply the current demand. The CRAMPS have a member of their firm at the steel works at all times urging the rapid delivery of material.

WHAT we would like to see, says the *Alta California*, referring to the literature of the war, "is the plain unadorned narrative of some one of the 2,000,000 private soldiers who marched and fought during the campaigns of the great Rebellion, and at the close of the strife stacked their muskets and returned to their plows or counting-rooms to resume the duties of home-life. We have heard from the Generals, now let us hear from the privates." "The reader would be relieved of the confusing and tedious labor of following the movements of galloping aides and orderlies, and would only have to read the straight account of how one man marched, when he marched, and where he marched; of when he fought, how he fought, and what it felt like." The *Alta* seems to forget that we have already had an abundance of these narratives, each of which is conceived in the spirit exhibited by the fly on the wheel, who exclaimed: "How we do make things go." The general impression the philosophical observer derives from the war narratives, taking them as a whole, is that the individual man, be he general or private, after all counted for less than his admiring circle of friends and followers would have us believe. The current disputes as to who is best entitled to credit for the results of the war is a revival of the "war of the members" described in the fable.

THE Army Regulation Board has now about completed its work, and will submit the revised Regulations to the Secretary of War early next week. They have been greatly simplified and weeded out, so that they can be published in a book one-third smaller at least than that now in use. Amendments to the Regulations will continue of course to be made, yet the members of the Board are confident that fewer changes will be found necessary in the future. No change has been made in the pay regulations. A requirement was found in the old Regulations which, in the opinion of the members, would if rigidly observed prevent duplications of pay accounts. It requires that all officers shall be paid in the departments to which they belong. To assign officers' accounts to particular paymasters is not deemed practicable. It is the policy of the Pay Department to send different paymasters on the pay trips, and an officer might be obliged to wait several months until the paymaster to which he was assigned came around again. This is the chief objection to the change, against which it is further urged that it would delay the payment of troops engaged in active service and on the march. The Board intends to give the Sunday question careful consideration before it is dissolved. The ministers have been very persistent in their efforts to impress the authorities with the importance of a change and have partially succeeded. Dress parades on Sunday, to which the clergymen most objected, have been abandoned at many Army posts with good results, and their general discontinuance may be ordered.

PERSONAL ITEMS.

GENERAL J. J. REYNOLDS, U. S. A., and family are summering at Old Point Comfort, Va.

CAPTAIN J. L. BULLIS, 24th U. S. Infantry, was in San Antonio this week on public business.

CAPTAIN JAMES CARR, a veteran of the War of 1812, died at Ripley, O., last week, aged ninety-three.

LIEUTENANT H. L. RIPLEY, 3d U. S. Cavalry, has rejoined at Fort Leavenworth, Kas., from his trip to the East.

LIEUTENANT IRVING HALE, Corps of Engineers, U. S. A., and bride are visiting relatives at Denver, Colorado.

INSPECTOR GENERAL H. J. FARNSWORTH, U. S. A., returned to Washington this week from a trip to New York.

MAJOR-GENERAL A. H. TERRY, U. S. A., has returned to Chicago from his visit to New York and Connecticut.

CAPTAIN LEWIS JOHNSON, 24th U. S. Infantry, lately in Washington on a leave, will spend a portion of it abroad.

CAPTAIN EDMUND LUFF, 8th U. S. Cavalry, has joined his family at Topeka, Kas. His next move will be to Dakota.

CAPTAIN J. L. TIERNON, 3d U. S. Artillery, has rejoined at Newport Barracks, Ky., from a pleasant trip to Louisville.

CHAPLAIN G. W. COLLIER, U. S. A., was to leave Fort Totten, Dakota, this week, to spend July and part of August on leave.

GENERAL LORIS MÉLIKOFF, the conqueror of Kars, and for a time Russian Minister of the Interior, is reported to be dying in Nice.

MAJOR G. B. SANFORD, 1st U. S. Cavalry, of Fort Leavenworth, will come East next week with his family on a summer vacation.

LIEUTENANTS A. C. SHARPE and A. P. Blocksom, U. S. A., will commence next week a series of inspections of the Ohio troops in camp.

COLONEL JOHN HAMILTON, 5th U. S. Artillery, will bid farewell to Fort Hamilton early in July and go to Brandon, Vt., to spend the summer.

LIEUTENANT H. L. ROBERTS, 19th U. S. Infantry, of Fort Clark, Tex., is expected North about the middle of July to spend a couple of months.

LIEUTENANT JOHN CONKLIN, 2d U. S. Artillery, on leave from St. Augustine, Fla., is visiting at Penn Yann, N. Y. He will return South in September.

COLONEL W. R. SHAFTER, 1st U. S. Infantry, was to leave Angel Island the latter part of this week to spend a short time in the militia camp at Healdsburg, Cal.

MAJOR FREDERICK MEARS, 25th U. S. Infantry, who takes command of David's Island, New York Harbor, shortly, has many friends in the East who will be glad to see him.

MRS. M. CRAWFORD, wife of Lieut. Crawford, 2d U. S. Artillery, stationed at Fort Barrancas, Fla., is visiting her sister, Mrs. Edson, at 1335 Corcoran street, Washington, D. C.

LIEUTENANT J. R. CLAGETT, 23d U. S. Infantry, of Fort Wayne, Mich., has been called to Washington, D. C., by the serious illness of his father, and will remain there two or three weeks.

LIEUTENANT C. D. COWLES, 23d U. S. Infantry, bade goodbye to friends at David's Island, N. Y. H., this week, and will shortly join at that most pleasant of *summer* posts, Fort Mackinac, Mich.

MRS. SHERMAN, wife of General W. T. Sherman, U. S. A., has taken rooms for the season at Ridley Park, near Philadelphia, where Mrs. Thackara, her daughter, will also pass much of the summer.

CAPTAIN J. J. COCHRAN, assistant surgeon, U. S. Army, who lately came from San Francisco to Washington with Capt. Simpson, will spend a few weeks in the East before returning to the Presidio.

LIEUTENANT-COLONEL A. K. SMITH, surgeon, U. S. Army, will prolong his tour of duty at West Point until Sept. 30, to which date the leave of his successor, Major C. H. Alden, surgeon, has been prolonged.

LIEUTENANTS V. H. BRIDGMAN, Wilbur Loveridge and G. W. S. Stevens, of the artillery, bade goodbye to Willet's Point this week after a pleasant tour of torpedo instruction, and will shortly join their respective batteries.

COLONEL R. I. DODGE, 11th U. S. Infantry, whose stations have been mainly in the Far West for many years, will soon come with his headquarters to the pleasant post, especially in summer, of Madison Barracks, Sackett's Harbor, N. Y.

GENERAL W. D. WHIPPLE, U. S. A., and Mrs. Whipple returned to New York early in the week from a short trip to Saratoga. At the Army of the Potomac banquet General Whipple made a capital little speech in reply to a toast to the Army and Navy.

LIEUTENANT C. C. CUSICK, 22d U. S. Infantry, has taken charge of the recruiting rendezvous at Harrisburg, Pa., in succession to Capt. McKibben, but moves it in a few days to Portland, Me. Lieut. Paxton, who has been in charge of the rendezvous since the captain went on leave, goes to his company in Dakota.

SECRETARY ENDICOTT has appointed Mr. Albert F. Heard, one of his old personal friends of Boston, as his private secretary, to succeed Mr. C. S. Sweet, who resigned several months ago. Mr. Heard is a gentleman who appears to be not many years the Secretary's junior, a resident of Ipswich, Mass., and a descendant of that Augustine Heard who was at one time regarded as the leading merchant prince of Boston. Charles S. Sweet had been private secretary to the preceding Secretary of War, and since he left Mr. Randolph, one of Chief Clerk Tweedale's assistants, has been acting.

GENERAL S. V. BENÉT, Chief of Ordnance, U. S. A., visited New York this week.

GENERAL GEO. W. CULLUM, U. S. A., has gone to Newport, R. I., for the summer.

CAPTAIN LEWIS SMITH, 3d U. S. Artillery, left Washington Barracks early in the week on a short leave.

COLONEL THOS. F. BARR, U. S. A., of Gen. Terry's staff, will spend July and part of August in the East on leave.

LIEUTENANT FRANK GREENE, Signal Service, U. S. Army, and family, are summering at Dayton, Wash. Ty.

MAJOR W. MCK. DUNN, U. S. A., expected to leave Little Rock Barracks, Ark., to spend July and August on leave.

MAJOR E. R. WARNER, 1st U. S. Artillery, expects to start next week from Baltimore for Fort Canby, Washington Territory.

LIEUTENANT A. C. TAYLOR, 2d U. S. Artillery, on a long leave from Little Rock Barracks, Ark., is at Cottonwood, Shasta Co., California.

LIEUTENANT G. F. COOKE, 15th U. S. Infantry, has returned from abroad and was expected to leave New York this week for Fort Leavenworth.

COLONEL ELWELL S. OTIS, 20th U. S. Infantry, has been designated to assist this year in the inspection of Pennsylvania troops at Mt. Gretna, Lebanon County.

CHIEF CLERK TWEEDALE, of the War Department, has gone to Philadelphia, and Mr. Hodgkins, Chief of the Record Division, is discharging his duties during his absence.

DR. JOHN M. HADEN, formerly an Assistant Surgeon, U. S. Army, who resigned in 1861, has been revisiting old scenes at El Paso. He was at one time Post Surgeon at Fort Bliss.

MAJOR AND MRS. THEODORE J. ECKERSON left Washington, July 1, for a two months' visit to Asbury Park. They will afterward spend a month at Capon Springs, West Virginia.

LIEUTENANT W. T. WOOD, 18th U. S. Infantry, an experienced officer of over ten years' service, has been appointed regimental quartermaster in succession to Capt. M. Leahy, recently promoted.

MAJOR DAVID PERRY, 6th Cavalry, is to succeed Major S. S. Sumner, 8th Cavalry, as commandant of Jefferson Barracks, Mo., the latter going to Vancouver Barracks, as Insp.-General on the staff of Gen. Gibbon.

GENERAL B. H. GRIERSON, U. S. A., has been visiting old friends at Fort Davis, Texas, and, as the *News* says, "has been flying around town as spry as a boy greeting his many friends with a happy smile and a hearty shake of the hand."

FORT LEAVENWORTH presented a brilliant scene on Thursday, June 30, the occasion being the marriage of Lieut. D. H. Boughton, 3d U. S. Cav., to Miss Henrietta Rittenhouse Wilson, the daughter of General Thomas Wilson, U. S. A. Numerous friends from Omaha and elsewhere were present.

LIEUTENANT-COLONEL A. L. HOUGH, 16th U. S. Inf., after a pleasant recruiting tour of three years, will join his regiment in Texas in the autumn. He will be replaced in New York as Superintendent of the Recruiting Service by Lieut.-Col. R. F. O'Beirne, 15th U. S. Inf., the present commandant of David's Island.

GENERAL JOHN GIBBON, the Portland *Oregonian* thinks, ought to have command of the Department of the Missouri, but as he is not, says the paper, and "has but about three years more of active service, we shall be very glad to have him spend them here, in the repose earned by a brilliant and patriotic career."

AMONG the veterans of the Mexican War who celebrated the anniversary of Palo Alto at San Francisco recently was C. D. O'Kelly, who is 80 years old, and is a veteran of the Texan War of Independence. He was a comrade of Sam Houston and Davy Crockett, and he bore the news of the fall of the Alamo to New Orleans.

GENERAL W. T. SHERMAN and daughter and some friends occupied a box at the Windsor Theatre, New York, on Monday evening. At the end of the second act the audience discovered the General, and made known their discovery. The orchestra struck up "Marching Through Georgia," and the house rose and sent up a cheer that almost made the walls rattle.

COLONEL E. F. TOWNSEND, 12th U. S. Inf., who is soon to take his regiment from Sackett's Harbor to Dakota, has not had a long stay at an Eastern post. He was promoted from Lieut.-Colonel, 11th Inf., last October and came East from Dakota, and now he goes back there to relieve the 11th, in which he served from 1879 to 1886. Such are the changes and chances of military life.

GENERAL JUBAL EARLY, in reply to the recent utterance of General Rosser in regard to his (Early's) conduct in burning the city of Chambersburg, Pa., during the war, justifies the burning as an act of retaliation, in strict accordance with the laws of war, for outrages committed under the orders of Federal generals in the South. Referring to Rosser, Early says: "Rosser has shown his utter disregard for the truth and I have fully demonstrated the falsity of many of his statements. Having previously figured as a falsifier of history, he has recently appeared in the role of a consummate ass, and it must be confessed that he has proved himself an adept in that character. It seems that a residence of several years in the Northwest and the accumulation of considerable property, by means best known to himself, has had the effect of convincing him that the South was all wrong in the struggle she made for independence and self-government, and that it was fortunate that his mighty efforts for four years in her cause failed of success. If some of the Southern renegades would, like Judas Iscariot, hang themselves, the act might be regarded as some atonement for their apostacy and the most creditable they could now perform."

CAPTAIN A. P. BLUNT, commandant of the Leavenworth Military Prison, will spend July and August in the East.

GENERAL T. H. RUGER, U. S. A., has returned to St. Paul from his trip to Fort Leavenworth to attend the school examination.

GENERAL ALBERT PIKE, poet, soldier, and Grand Commander of the Southern jurisdiction of Freemasons, lives, at the age of 77, in retirement at Washington, D. C.

MRS. LOGAN is in Chicago with the view, it is stated, of making some definite arrangements for the transfer of Gen. Logan's remains to that city and their interment in Jackson Park.

LIEUTENANT J. M. T. PARTELLO, U. S. A., is soon to publish a series of articles on "Army Sports on the Frontier" in the "American Field," New York and Chicago. That the subject will be treated in an able manner goes without saying.

AN exchange reports that "So many honors have been forced upon Major-General Alvin Howe Terry by the people of his beloved Connecticut that he has been made ill and obliged to seek rest and recuperation at the residence of a relative up the Hudson."

THE Lee Monument Board, of which Gov. Fitzhugh Lee is the chairman, has awarded the execution of the equestrian statue of Gen. Robert E. Lee to M. Mercie, a distinguished artist of Paris. The site for the Lee monument has been selected in a beautiful position in the west end of Richmond. It is expected that the cornerstone will be laid about the latter part of October.

"LORD ALBEMARLE is one of the last survivors of Waterloo," says the London *World*. "He entered the Army on April 4, 1815, and served on June 18 with the old 14th Foot. He retired upon half-pay as major, became a major general Oct. 26, 1858, and a general Feb. 7, 1874. The other survivor whose name is in the "Army List," is Gen. Geo. Whichcote. This veteran soldier received his commission in January, 1811, and served in the Peninsula with the 52d Light Infantry."

A LONG, lank West Virginian named Brown presented himself at the Pension Bureau in Washington to furnish evidence in a claim pending before the office. His mother had borne thirty-three children in all. Twenty of this number were boys, sixteen of whom had served in the Union Army. Two were killed. The other fourteen survive. Each of them draws a pension from the Government for disabilities received while in the Service. The death of the two boys entitles the mother to a pension also.

GENERAL ADOLPHUS W. GREELY, Chief Signal Officer, U. S. Army, attended the meeting of the Society of the Army of the Potomac at Saratoga last week. As he failed to give the members of the Society the weather they asked for, and they were compelled to march in the rain, charges were to have been preferred against him at the "Bummers' meeting,' over which Gen. Geo. H. Sharpe presided, but he escaped from the jurisdiction of the court by taking the midnight train for home. Excellent weather followed his departure.

ON the occasion of the production of a new play, False Steps, at the Windsor Theatre, New York, the audience at the end of the second act, discovered Gen. Sherman in the lower right-hand box. The orchestra struck up "Marching Through Georgia," and the house rose and sent up a hearty cheer. The General stepped to the front and when the ovation lulled he made a few neat remarks, in which he said he was very glad to be among New York friends and was particularly pleased to see so many people present to welcome the play of his friend, Col. Nunez. He was again wildly applauded as he took his seat.

THE N. Y. *World* says: "What a delightful life old Gen. Sherman leads here in New York! One night he is at a club dinner, the next day at a Commencement, next night at an Army reunion and then the theatres! The old warrior always has a box. Everybody recognizes him. The orchestra plays 'Marching Through Georgia,' the audience howls, the Hero rises and a speech is called for. He says a few nice things, then he goes behind the scenes and shakes hands with all the pretty actresses. Everybody likes the General. Long may the genial old soldier live to enjoy himself!"

LIEUTENANT G. J. FIEBEGER, Corps of Engineers, U. S. A., Assistant Professor of Military and Civil Engineering at West Point, was married at Akron, Ohio, June 29, to Anna Perkins Upson, daughter of Circuit Judge Wm. H. Upson. The ceremony was performed by the Rev. N. P. Bailey, of Massilon. The bride was attended by her cousin, Grace Perkins, of Sharon, Pa., and by her sister, Julia Upson, and the groom's best man was Lieut. Curtis McD. Townsend, Corps of Engineers. Among the guests were Lieut. Lansing H. Beach, Corps of Engineers; Lieut. G. L. Converse, Jr., U. S. A., and Dr. Henry S. Upson and Wm. F. Upson, of New York. After the ceremony the married couple left for the East.

THE San Francisco *Daily Examiner* says:

By command of Gen. O. O. Howard a detail of medical officers was ordered to convene at Alcatraz on June 7 to examine into the sanity of Capt. James F. Simpson, 3d Cav. In accordance with these orders the following medical officers met as a board of examiners: Major Henry R. Tilton, surgeon; Capt. John J. Cochran, assistant surgeon; Capt. Robert R. Gibson, assistant surgeon. The result of their examination confirmed the suspicions of mental unsoundness, which, for the officer's benefit, has resulted in his being ordered to Alcatraz. Paresis, or softening of the brain, was diagnosed, and as this is an incurable affliction he was ordered to be sent to the Government Hospital for the Insane at Washington, for which place, under charge of Dr. Cochran and an attendant, he departed yesterday. This is a particularly sad ending to a bright and useful military life. Born in Massachusetts in 1841, Capt. Simpson will be 46 on Oct. 25 next. He entered the Army as 2d lieutenant in the Connecticut Volunteers, and was twice brevetted for gallant and meritorious services. For some time past Capt. Simpson has shown signs of mental aberration, insisting that his wife is his sister, and that he is to be married in a few days, and giving his age when asked as 35. During this time he has been absent from his company—Troop M, 3d Cavalry, stationed at Fort Davis, Texas—on sick leave. He writes piles of letters, most of them being of an incoherent nature, and he has been somewhat annoying to a young lady of the city by his attentions. The day of his reception at Alcatraz, not to be outdone in neatness, Capt. Simpson had his boots blacked sixteen times and took three baths on the same day.

QUEEN KAPIOLANI is now homeward bound via New York.

GENERAL S. V. BENÉT, U. S. A., has been spending several days in Springfield, Mass.

COLONEL C. R. SUTER, Corps of Engineers, U. S. Army, registered at the Grand Hotel, New York, on Thursday.

DR. L. S. TESSON, U. S. A., says the Fort Davis *News*, states in a pleasant note from Chicago that he will be with us again after awhile. The Dr. will be welcomed by his many friends at Fort Davis.

CAPTAIN J. L. TIERNON, 3d Art.; Capt. J. J. O'Connell, 1st Inf.; and Lieuts. E. P. Andrus, 5th Cav., and E. S. Benton, 3d Art., were the judges at the inter-State Drill at Louisville, Ky., last week.

THE Secretary of War has appointed James Madison Barrett to be confidential clerk to Gen. W. T. Sherman, retired, at a salary of $1,600. This is in accordance with the new appropriation bill which goes into effect July 1. Mr. Barrett has been Gen. Sherman's private secretary for several years, but his salary was stopped by a ruling of the War Department.

MAJOR BENJAMIN P. RUNKLE, by an order issued from the War Department on Tuesday, was placed on the retired list of the Army, in pursuance of a decision rendered by the Supreme Court, May 27. On the following day he received from the Paymaster General a check for something over $8,000 as amount of back pay due him. He is still entitled to several hundred dollars for longevity pay, which will be paid by the accounting officers of the Treasury.

FROM Tacoma, W. T., June 23, 1887, Maj. E. D. Judd, U. S. Army, writes: "I have just returned from a trip to Alaska, embracing 2,400 miles of inland sea, beautiful bays, sounds and straits, lined on either side by snow-capped mountains, with lovely cascades. There were plenty of porpoises sporting, and whales spouting in some localities. The Muir Glacier, 200 feet high, constantly throwing off large icebergs, was wonderfully grand. We also spent two days at Victoria, B. C., during the Queen's Jubilee."

MISS DELIA H. STACEY, daughter of the late Col. May H. Stacey, U. S. A., made her *debut* as an actress at Dockstader's Theatre, New York City, June 28, in a new melo-drama by A. J. Foster, entitled, "Tom Craig's Wife." She sustained the part of Irene Craig, the wife. The success of the *debut* was somewhat marred by the action of the author, but the play went on under some difficulties, and Miss Stacey gave ample promise of success in her new vocation. Gen. Sherman was present and by his presence and encouragement gave much aid to the efforts of the young lady, and her mother, Mrs. Stacey.

SAN FRANCISCO having had an unusual "series of spells of hot weather," the *Report* suggests that Lt. Maxwell, U. S. A., in charge of the Signal Service there, be boycotted. The *Report* says: "The heat follows closely upon the trades unions' resolutions to boycott beer. Hence, the Lieutenant should have deferred the heated term until the men of the unions had become somewhat habituated to the thin, flat beverage they are imposing upon themselves, and not spring the very acme of beer weather upon them just when anti beer resolutions had been passed."

REAR ADMIRAL J. J. ALMY, U. S. N., is at the Davenport House, Richfield Springs, N. Y.

ASSISTANT SURGEON JOSEPH SHAFER, U. S. N., is a patient in the Naval Hospital at Norfolk, Va.

MEDICAL DIRECTOR P. J. HORWITZ, U. S. Navy, sailed for Antwerp on the *Waesland* on Saturday last.

LIEUTENANT E. H. GHEEN, U. S. N., lately visiting with his family in St. Paul, will join the *Yantic* July 1.

PAYMASTER J. F. TARBELL, U. S. Navy, of the *Juniata*, arrived in New York, June 24, from Panama.

CIVIL ENGINEER A. G. MENOCAL, U. S. N., returned to Washington early in the week from a visit to New York.

PROFESSOR L. F. PRUD'HOMME, of the Naval Academy, registered at the Everett House, New York, on Wednesday.

P. A. PAYMASTER J. D. DOYLE, U. S. N., and his brother arrived at Washington on Saturday last from South America.

CADET ENGINEER J. C. LEONARD, U. S. N., was married June 22, 1887, at Kansas City, Mo., to Miss Nannie B. Robertson.

MEDICAL INSPECTOR MICHAEL BRADLEY, U. S. N., was expected to join at the Norfolk Navy-yard on Thursday of this week.

ASSISTANT SURGEON JOSEPH SHAFER, U. S. Navy, attached to the *Ossipee*, is undergoing treatment at the Norfolk naval hospital.

LIEUTENANT CLIFFORD J. BOUSH, U. S. N., and family arrived at Norfolk, Va., June 28. Lieut. Boush has joined the *Trenton*.

MISS MARION B. LYNCH, daughter of Sailmaker N. Lynch, U. S. N., retired, of Baltimore, was married June 22 to Mr. Isaac L. Egbert, of New York.

A MEMORIAL service in honor of the late Lieut. A. H. Clarke, U. S. Marine Corps, was held at St. George's Chapel, Newport, R. I., on Sunday last.

MRS. HALL, wife of Prof. Asaph Hall, of 2715 N street, Georgetown, D. C., has gone to Orange, N. J., for her summering, and will hardly return before October next.

THE Government of Japan has extended its thanks to Capt. Jewell of the *Essex*, through Minister Hubbard, for the rescue of a party of distressed Japanese fishermen.

COMMANDER FRANCIS W. DICKINS, U. S. Navy, last week took the steamer *Finance* from Norfolk, Va., for Rio de Janeiro, where he will assume command of the *Tallapoosa*.

SENATOR MCDONALD, of Indiana, and a party of officers from Fort Monroe visited the Norfolk Navy-yard June 25, and were handsomely entertained by Capt. Brown, U. S. N., commanding.

THE following officers registered at the Navy Department this week: Naval Cadets W. W. Gilmer, R. L. Russell and A. H. Dutton, Ensign H. C. Wakenshaw, Naval Cadet D. S. Nes, Lieut. B. F. Tilley, Lieut. John P. Merrell and Naval Cadet Armstead Rust.

ADMIRAL PORTER, with Mrs. Porter, and Miss Lena, have gone to Narragansett Pier for the summer and are domiciled at the McSparran House. The family mansion on H street, Washington, will remain in charge of the housekeeper till their return in the fall.

MRS. C. H. JUDD, whose husband, Lieut. Judd, U. S. N., will be remembered as having become insane through excitement during the Prestan episode at Aspinwall, is in Washington for a short time with her sister, Miss Rockwell, of Buffalo, and is staying at 1101 13th street.

PASSED ASSISTANT SURGEON JOHN C. BOYD, U. S. Navy, was married, June 23, at Washington, D. C., to Miss Catherine Dorr Willard. The ceremony was performed at the residence of the bride's parents, by Rev. Dr. Giesy, rector of Epiphany Church. The bride wore white crepe, trimmed with duchesse lace. Immediately after the wedding breakfast the bridal couple left for New York and New England. A large number of handsome and costly presents were sent.

THE efficient administration of Lieut.-Comdr. Antoine R. McNair, U. S. N., added greatly to the pleasure of the meeting of the Society of the Army of the Potomac. He and Comdr. Edwin T. Woodward, of the Navy, were members of the local committee who had charge of the entertainment of guests, and which was most handsomely provided for. Comdr. Woodward is temporarily sojourning at Saratoga, but Lieut.-Comdr. McNair is a permanent resident there and is a highly honored and most useful citizen of the place. His active temperament brings him into requisition to carry forward various local enterprises for which his natural ability and his executive training admirably fit him. He is also doing excellent work in connection with scientific studies he is pursuing, notably, an investigation into the geology of the sea floor. He is just completing a new house for his residence on North Broadway, to which he expects to transfer his family about September next. His health has greatly improved of late years.

RECENT DEATHS.

THE sudden death, on the morning of June 30, of Chief Engineer Henry Lee Snyder, U. S. Navy, Superintendent of the State, War and Navy Department Building, was a great shock to his friends, with whom he was deservedly very popular. While his health had not been good for some time past, he was not thought to be in any danger. Four months ago, while superintending the sanitary improvements in the old Winder Building, his system was poisoned by sewer gas, and a severe illness followed. He recovered somewhat, and was able to go on an extended leave of absence for the benefit of his health. He returned considerably improved, but a complication of troubles resulted from his severe illness. Monday evening he was attacked by a severe hemorrhage of the lungs, which the doctors succeeded in checking. His family had gone to Pottsville, Pa., about ten days ago to spend the summer with his wife's mother, Mrs. Richard Lee. Every care and attention was given to him, but he insisted upon getting up from his bed, despite the remonstrances of the professional nurse who was caring for him, and the effort brought on a slight hemorrhage. Medical aid was summoned, but despite the efforts of physicians the flow of blood increased, and he passed away a few minutes before 9 o'clock. Mrs. Snyder, accompanied by her sister, arrived in Washington Thursday night, and arrangements were immediately made for the funeral, which will take place at Pottsville, Pa.

Chief Engineer Snyder entered the Navy March 19, 1858, and so had served nearly 30 years. He was attached to the U. S. S. *America*, on the Paraguay expedition in 1858. During the war he was attached to the U. S. S. *Sagamore* and *San Jacinto*, on the East Gulf Blockading Squadron, and to the *Eutaw* on the North Atlantic Blockading Squadron. Mr. Snyder was commissioned as Chief Engineer from December 14, 1864, after which date he served on board the *Swatara*, on the North Atlantic and European Stations. He was also head of the Department of Steam Engineering at the Naval Academy for more than three years, after which he served on various vessels on the North and South Atlantic Stations and in the Indian Ocean. He was designated by the President of the U. S. as Superintendent of the State, War and Navy Department Building from July 1, 1883, a position which he held at the time of his death. Mr. Snyder is credited by the Navy Register with 13 years' sea service, 15 years' shore duty, and 1 year and 3 months unemployed.

MEDICAL DIRECTOR LEWIS BOUDINOT HUNTER, U. S. Navy, died June 24, at Philadelphia, aged 82. He was born in New Jersey, entered the Navy in 1828, and since then had served in almost every part of the world. During and since the war he held many responsible positions, and was an efficient and experienced officer. He was retired from active service in 1866, but continued on duty for several years afterwards, and attained the grade of Medical Director, with relative rank of Commodore, in 1871. The funeral services were held on June 28, at his residence in Philadelphia, after which he was buried in Princeton, N. J. His father, Rev. Andrew Hunter, was Chaplain of the New Jersey Brigade during the whole of the Revolutionary War, serving in several battles, especially that of Monmouth Court House, where he was publicly thanked by General Washington for valuable aid, owing to his intimate knowledge of the country. Dr. L. B. Hunter was an hereditary member of the Society of the Cincinnati, and possessed his father's certificate, signed by Gen. Washington and Gen. Knox. His mother was a daughter of Richard Stockton, a signer of the Declaration of Independence.

EX-UNITED STATES ATTORNEY GENERAL JAMES SPEED died June 24, at his home near Louisville, Ky., in the 76th year of his age. Judge Speed was appointed Attorney General in November, 1864, and was retained in office by President Johnson, after the assassination of Mr. Lincoln, until July, 1866, when he resigned on account of dissatisfaction with the governmental policy of the President. He made an able Attorney General, and his administration of the office gave general satisfaction. The outbreak of the civil war found Judge Speed an uncompromising Union man, and when President Lincoln issued the call for 75,000 men he took charge of the recruiting stations at Kentucky, and devoted his whole time and influence to the service of his country. Up to within a comparatively recent period, Judge Speed retained his usual good health and vigorous mental powers, and continued the practice of law with his son, James Speed. He was married in 1840 to Miss Jane Cochran, who, together with six sons, survives him. His last public appearance was on May 4 last, when he attended in Cincinnati the banquet of the Loyal Legion and eloquently responded to the toast "Lincoln."

JAMES M. FLINN, formerly second assistant engineer, U. S. N., died at his residence in Brooklyn June 29. He entered the Navy as acting third assistant engineer Jan. 27, 1863, and on the 22d of May following was promoted second assistant for gallant conduct in battle. He was honorably discharged Sept. 1, 1865, and afterwards had an honorable career in the merchant service.

MRS. JULIA KEAN FISH, wife of Hon. Hamilton Fish, died June 30 at her residence, 25, E. 17th street, New York City, from rheumatism, aggravated by heart trouble. During the war of the rebellion she was President of the Metropolitan Sanitary Fair, held under the auspices of the Sanitary Commission for the benefit of soldiers. Mrs. Fish will be interred at Garrison's on Sunday.

MRS. SARAH SOPHIA COWEN, who died at Fort Edward, N. Y., June 24, was a sister of the late Gen. Robt. O. Tyler. Her grandfather was Danl. Tyler, adjutant to Gen. Putnam at the battle of Bunker Hill. Her mother was an Edwards, of the Jonathan Edwards family.

WILLIAM L. CRANE, who served during the war as a private in Co. A, 1st New York Engineers, and received one of the three medals presented by Gen. Q. A. Gillmore for gallant and meritorious conduct at Fort Sumter on August 23, 1863, died at Washington June 28.

MRS. MARY LOUISA WINELAND, the last surviving grandchild of Major General Arthur St. Clair, died at Youngstown, Pa., June 24, aged 77 years.

OUR NEW LINE OF BATTLE SHIP.

MR. EDWARD BURGESS, who is a member of the mixed board of naval officers and civilians appointed by the Secretary of the Navy to pronounce on the plans of the new cruisers and armored ship to be constructed for the Government, is quoted by the N. Y. *Herald* as saying. "There was no American plan worthy of acceptance for the armored ship, probably because American designers have had absolutely no experience with ships of the class. Some fine designs for cruisers were submitted by designers residents of the United States, but to prepare comprehensive original plans for a cuirassed war ship requires something more than native ingenuity. The Barrow design was found to be better than any other English plan.

"I am greatly pleased personally with the design. The board spent considerable time in studying the different designs, and there was entire unanimity on the part of the members on the subject of the choice of the armored ship plan. We were first subdivided in committee and studied the various parts of the ship's hull, armor, engine, boilers and battery. Then the board as a whole agreed on the entire ship. We looked only for a war vessel that would best suit the country, and there was no sentiment about the matter. I can say positively that the board would have preferred an American design. Personally I would gladly have done all in my power to have brought about a selection of a homemade plan. The board could not do any differently than it did. It was like sitting on a jury; each member was governed by a strict sense of responsibility.

"The Barrow Shipbuilding Company is an immense establishment, with vast experience in turning out first class iron and steel ship work. The Anchor Line steamers *Furnessia* and *Anchoria* were built at Barrow. When we have spent one-fifth of the money on ironclads that Great Britain has, then we will be probably quite equal to any other nation in getting up modern craft of that description. Mere inventive genius will not suffice, and American inventive genius has not been stimulated in this direction. If it had been the board would have been deluged with plans. As it was, it was England that sent them in. I think that obtaining the steel will prove the principal impediment in the way of rapid progress in the big ship."

CANTEENS AND POST TRADERS.

To the Editor of the Army and Navy Journal:

WHILE there is a Board at work revising our Army Regulations it is a very good time to embody therein a good set of regulations for post canteens. Canteens should be given the right to furnish beer and light wines whenever the post commander allows the sale or use of these articles. Post traders now look upon the sale of beer, etc., as one of their vested and exclusive rights. The Army would, I believe, be better off if there were no post traders. Certainly they are not needed and should not be allowed where there is a town—even a small one—near the post. Most of my service has been in posts remote from towns of any sort, and I believe they would all be better off without post traders.

Another chance for improvement is in the matter of tattoo roll call. As a formal roll call, tattoo is simply an unnecessary vexation. If the presence of the men must be verified after retreat, let it be done by a check roll after taps.

At Northern posts, with reveille at sunrise, enlisted men have not time enough for sleep between tattoo and reveille during the summer, but there is always time enough between retreat and reveille.

CANTEENER.

BROOKLYN NAVY-YARD.

OF the visit of Secretary of the Navy Whitney to the Brooklyn Navy-yard on Monday, June 27, the daily papers say:

Conterno's Band had been ordered out, the officers of the yard were to appear in full uniform, and Commodore Gherardi had arranged to give the big chief a most imposing welcome, but his well-laid schemes were brought to naught by the arrival of a telegram from the Secretary, asking that his visit should not be marked by any special ceremony. The tug *Catalpa*, having on board Lieut. Hunker to represent the Commodore, left the yard at 9 o'clock to bring the Secretary over. Either the tug travelled faster than usual, or Mr. Whitney did not keep it waiting in New York, for she made the trip sooner than was expected, and when the Secretary set foot at the yard no one was at the dock to meet him. The blue-starred Admiral's flag floating from the transport boat was soon discovered by the officers waiting at the Lyceum building, and before Mr. Whitney had covered half the distance between the pier and the Lyceum, he was met by Commodore Gherardi and his staff. The officers were out of breath from their exertions to reach the Secretary, but that gentleman soon put them at their ease and said that he would like to visit the new cruisers at once. To the *Atlanta* then went the whole party.

"This does not look much like the old Navy," remarked the Secretary, as he entered the gun deck of the *Atlanta* and began the examination of her big six-inch guns. Every part of the ship was included in his inspection, and then the *Boston*, *Dolphin*, and *Chicago* were put under the official eye in the same manner.

Commodore Gherardi begged the Secretary to give him more men and officers, so that he could make the *Chicago* ready for sea in a short time and continue other work at the yard. "I shall certainly order some more engineers for the *Chicago*," replied the Secretary, "but I am doubtful about the officers, for I find that when there is a large detachment of officers attached to a ship that is getting ready for her trial trip the officers are apt to spend their time in getting ready the quarters for the commissioned staff, and the trial trip is delayed. Before leaving the *Chicago* Secretary Whitney's hat fell into a pan of oil, and when fished out for him, it presented a most dismal appearance. Captain Kirkland sent a sailor to the *Vermont* to bring the Secretary one of the canvas hats used by the sailors, but after trying on half a dozen of these odd-shaped caps, he put on his own hat again, remarking: "They are all too small for me; I wear a 7⅜."

Mr. Whitney went all over the decks of the *Chicago*, and then went down into the hold to inspect the engines.

When he left the *Boston* Secretary Whitney asked the commodore when it would be completed. The latter said that in thirteen days a trial of four days would begin, and the regular trial trip could take place right after that was completed.

Mr. Whitney expressed himself as satisfied with the appearance of the vessels, and after the *Dolphin* had been visited he accompanied Commodore Gherardi and Capt. Cooke to the commodore's house, where an elaborate lunch was served. During lunch Conterno's Marine Band, stationed in the band stand on the lawn, near the commodore's residence, played popular airs.

After lunch Mr. Whitney went to the commodore's office, and was closeted with that official for an hour. One of the purposes of Mr. Whitney's visit was to investigate the facts surrounding the purchase of the big derrick that broke last week. He did not visit the fallen derrick personally, but he inquired into the matter very particularly, both from Commodore Gherardi and Chief Engineer Asserson.

"I am especially pleased," said he, "with the consolidation of the departments, whereby all the stores are kept in one place. Before they were scattered all over the yard, were hard to get at and difficult to account for. The present arrangement is very good."

"What about new work for the Brooklyn yard?" was asked.

"Well, at least one of the new vessels will be constructed here. Plans have been advertised for already, and as soon as we get the plans work will be begun. We are not pressing matters, because, according to the Congressional bill, the armor must be of domestic manufacture, and it will not be ready for delivery for a year and a half at best."

When the *Catalpa* steamed away from the dock a salute of seventeen guns was fired, the only demonstration that had taken place during the day.

THE NAVAL ORDNANCE BUREAU.

THE Baltimore *Sun* publishes the following in a special despatch: "The complaints of naval officers not connected with the Ordnance Bureau become louder as the reports of alleged mistakes in the manufacture of guns become more frequent. It is not denied by the ordnance officers that accidents have occurred to guns in course of construction and after trial, which practically rendered them useless, but that there is cause for the bitter complaints made against them they deny with some show of reason. The construction of guns, especially from forgings furnished by American steel manufacturers, is at best but an experiment. The ordnance officers claim that though gun construction by them has not gone beyond an experimental stage, their average of successes is greater than that of many of the European countries where for years guns have been constructed. Every reported mishap to a gun the ordnance people claim is magnified many times in importance, and they are charged with wasting public money. The bureau officials are of opinion that they should receive more encouragement, and should not be so often the targets for the jealous shafts of their brothers-in-arms. They assert that it would only be fair to them to make public no statement about Navy guns which does not emanate directly from the bureau. This has not been done on any occasion when accidents have occurred, and in a spirit of retaliation the bureau has concluded to relapse into know-nothingism, and furnish no information whatever concerning its work to the public. The officers opposed to the bureau's method of conducting business have, to offset this, determined to gather all ordnance news that can be got at and make it public whenever an opportunity presents itself. The bureau officers assert that the armament of the *Chicago* is practically completed, while outside officers who have watched ordnance affairs closely assert that no work whatever has been done on the guns for this vessel, and, moreover, that it cannot be started until an appropriation for the purpose has been secured from Congress."

NEWS FROM THE NAVAL STATIONS.

REAR ADMIRAL BRAINE, commanding the South Atlantic Squadron, reports to the Navy Department from Rio de Janeiro, under date of May 19, that the flagship *Lancaster* is awaiting there the relief officers and crew expected to arrive on the *Trenton*. The *Tallapoosa* was at Rio. She was to be docked in June and then sent to Montevideo or Buenos Ayres, where she will be stationed until September, when she will be sent up the Rio de la Plata to look after American commercial interests and show our flag. The *Alliance* was at Zanzibar when last heard from, but was believed to be at Cape Town at the date of the report. (She arrived there June 6.—ED.) The health of the squadron was good.

Rear Admiral Kimberly, commanding the Pacific Station, reports to the Navy Department from Paita, Peru, on June 1, that the vessels of the squadron were at the following-named places: The flagship *Vandalia* at Paita, where she was to remain several weeks; the *Mohican* at Panama, and expected to reach Paita in a few days; the *Alert* at Paita, whence she was to sail in a few days for Callao to be docked; the *Adams* last heard from at Mazatlan April 23, under orders to report at Callao; the *Iroquois* at Panama, under orders to sail for Paita at the end of the month, and the *Juniata* at Panama, where she was to remain one month and then proceed northward.

The changes in the officers of the squadron since the last report were as follows: Passed Assistant Paymaster Arthur Peterson and Pay Clerk B. T. Gubelman joined the *Iroquois* March 15; P. A. Paymaster J. D. Doyle and Pay Clerk H. T. Doyle, detached from the *Iroquois* March 24; Naval Cadets G. W. Cline, A. Thompson, G. R. Slocum, C. S. Stanworth, detached from the *Iroquois* and ordered to the Naval Academy; Naval Cadet J. G. Berry, from the *Juniata* and ordered to the *Iroquois*; Commander J. C. Watson detached from and Commander R. P. Leary joined the *Iroquois* May 11; Lieut. W. P. Ray detached from the *Vandalia* and ordered to the *Juniata*; Lieut. C. E. Fox from the *Iroquois* and ordered to the *Vandalia*; Passed Assistant Surgeon Robert Whiting from the *Vandalia* and ordered to the *Iroquois* for temporary duty; Assistant Surgeon F. W. T. Wieber from the *Iroquois* and ordered to the *Vandalia*; Naval Cadets T. C. Fenton, R. L. Russell, C. M. Corpenning, and C. M. McCormick from the *Mohican* and ordered to the Naval Academy; P. A. Surg. J. R. Waggener from the *Iroquois* and ordered to the United States in charge of sick; Lieut. M. K. Schwenk from the *Alert*, after condemnation by a medical survey, and sent to the Naval Hospital, New York; Ensign C. E. Sweeting from the *Alert* and ordered to the *Vandalia*; Acting Paymaster J. Roache from the *Vandalia*, appointment revoked and appointed Pay Clerk; Lieut. A. C. Baker detached from the *Juniata* upon arrival at Panama and ordered to the *Iroquois*.

Rear-Admiral Chandler, commanding the Asiatic Squadron, reports from Yokohama, May 31, the arrival of Captain F. V. McNair, who has taken command of the *Omaha*, the assumption of the command of the *Palos* by Lieutenant-Commander Craig and the departure of Commander T. Nelson for the United States. Under date of June 2 Admiral Chandler reports the *Brooklyn*, *Monocacy*, *Omaha*, and *Palos* at Yokohama, the *Essex* en route from Kobe to Yokohama, and the *Marion* at Chemulpo, Corea. Affairs in the East were quiet and the health of officers and men of the fleet was excellent.

A correspondent of the Baltimore *Sun*, writing from the *Brooklyn*, Yokohama, June 3, says: The *Brooklyn*, *Omaha*, *Monocacy* and *Palos* still at anchor in that harbor, and the *Essex* is expected on that date from Nagasaki via Kobe. On the late trip of the *Essex* from Shanghai to Nagasaki she rescued five men, constituting the crew of a foundering Japanese junk, and the officers and men subscribed a sum for their relief sufficient to enable them to build and fit out a new junk. This is but one of many instances here in the East where the officers and crews of our men-of-war have voluntarily subscribed for the relief of suffering humanity.

Lieut. (jr.) H. C. Gearing has been detached from the *Omaha* and ordered to the *Monocacy*, and Ensign Guy W. Brown from the *Monocacy* and ordered to the *Omaha*.

Since my last we have had the mournful duty of assisting at the funeral ceremonies of the late Capt. Dacres, of H. B. M. S. *Constance*. He was a descendant of that Dacres who commanded the *Guerriere* when she was compelled to strike her colors to the grand old frigate *Constitution*, and it seemed strangely appropriate that at this funeral his pall-bearers should be preceded by the band of an American flagship playing funeral marches, and followed by an escort largely composed of American officers and sailors. This courtesy was appreciated by the English, as was evidenced by an exceedingly grateful acknowledgment from the senior English naval officer present to our admiral.

Decoration Day was observed by our fleet in an appropriate manner. In the forenoon a force of sailors from the *Brooklyn* proceeded to the Naval Cemetery on shore and planted growing flowers about the graves of the unfortunate *Oneida's* dead in such a manner as to make a perfect garden of the place. In the afternoon we had a pulling boat regatta, in which boats from the *Brooklyn*, *Omaha*, *Monocacy*, *Palos* and H. B. M. S. *Leander* participated. There were nine races in all, and the *Brooklyn* easily carried off the honors, winning five out of the nine. Of the remaining four the *Monocacy* won two and the *Omaha* two. In the evening the crew of the *Omaha* gave an elegant and well conducted supper to 180 guests from the crews of our own vessels and of H. B. M. S. *Constance*."

PASSED ASSISTANT ENGINEER JOHN A. TOBIN, U. S. N., will temporarily discharge the duties of Superintendent of the Department Building, Washington, vice Chief Engineer Snyder, deceased.

CAPT. SELFRIDGE AND ADMIRAL CHANDLER.

THE Japan *Daily Mail* of May 30 says: "Captain Selfridge has friends in America who are more zealous than judicious. They attempt to prove that the captain is the victim of a personal grudge on the part of Admiral Chandler, an imputation which, whether true or false, Capt. Selfridge will, we are sure, be the first to deprecate. The plain fact is that Admiral Chandler had scarcely any discretion in the matter. Public opinion in the East has been willing to make every possible allowance for Capt. Selfridge. His action as Nagasaki is ascribed to mere thoughtlessness, and everybody will doubtless be ready to admit that, from a moral point of view, he is quite sufficiently punished by its lamentable consequences. But there is more involved than a question of simple morality. There are also questions of naval discipline and international usage. An American officer would never think, we presume, of setting up a target for heavy gun practice at an apparently unfrequented spot on the coast of England or of France. If Captain Selfridge failed to exercise in Oriental waters a discretion that would have seemed quite natural elsewhere, he cannot be relieved of his responsibility by ascribing animus to his commanding officer. Neither is there any validity in the plea that the Japanese authorities have preferred no formal remonstrance. The Japanese authorities have no need to remonstrate. They can implicitly trust the American Government to do the right thing. It may safely be assumed that they have no desire whatsoever to see Capt. Selfridge punished, but neither they nor Admiral Chandler are in a position to prescribe a course. We trust that a simple reprimand will be found sufficient to meet the requirements of the case, but in the meanwhile, it appears both discreditable and regrettable that an American Admiral cannot discharge his plain duty without exposing himself to an imputation of unworthy motives."

To the Editor of the Tribune:

SIR: I inclose a clipping from the Chicago *Times* sent by the special Washington correspondent. Will you do me the favor to state in your paper that so far as there ever having been any "personal quarrel" between Captain Selfridge and myself, the statement is false in every particular, and whoever wrote or instigated such a report circulated a deliberate lie. I hold myself in readiness to vindicate all I have said in this communication.

Very truly yours,
R. CHANDLER, Rear-Admiral U. S. N.
U. S. FLAGSHIP 'BROOKLYN,' ASIATIC STATION,
YOKOHAMA, JAPAN, May 28, 1887.

A STORY OF GENERAL DRUM.

THE Chicago *Inter-Ocean*, under the head of "Curbstone Crayons," tells the following story of Gen. Drum:

"When the General was in Chicago he was a great comfort to newspaper men, and when there was any news to be given out about the Indian campaigns or the transfer of troops, Gen. Sheridan's Adjutant-General took a great deal of pains to place it clearly before those whose duty it was to take in military headquarters. There were times, however, when Drum would not be interviewed, and the older men on the papers knew him well enough to know when danger signals were up. Some of the younger men, however, could never take a hint, and a few of them cultivated violent prejudices against the General.

"One day about ten years ago a young man representing a Chicago daily paper called at military headquarters in search of news from the frontier in regard to Sitting Bull, who was supposed to be making a race for the British possessions. Gen. Drum was in the midst of mail and telegraph correspondence, which concerned about half the United States Army, and when questioned by the reporter he informed that gentleman that there was no news which could be given to the press that day. The young man was not satisfied, and he began to interview the General who turned to his letters and telegrams and soon became deeply engrossed in their contents. The young man was not to be disposed of in that manner, and he continued his questions. He acted as though he believed that the military power of the country was concealing valuable information from the people, and he insinuated that such conduct was unbecoming an officer and a gentleman.

"Gen. Drum turned slowly in his chair, looked squarely into the eyes of his questioner, then said very quietly but emphatically that he could not give out any news that day, and he hoped that that would be sufficient. Then he turned back to his papers, but still the young man persisted, and in the end became somewhat obstreporous. Drum, who was a much smaller man than the reporter, at last ordered the latter out of his office. The young man refused to go and the Adjutant-General debated in his own mind what would be the proper course for a dignified military officer to pursue in such a crisis.

"At this juncture a young staff officer appeared at the door, heard the conversation, took in the situation, walked to where the reporter was, took him by the collar, and when the mist cleared away the persistent interviewer was in the hallway a little the worse for the skirmish. He was angry and took action accordingly. In a short time an officer of the law waited upon the young staff officer and the Adjutant General, and both proceeded to the office of a justice of the peace. The young staff officer, at the suggestion of the presiding judge, cheerfully subscribed the sum of $10 for benevolent purposes, and the case was closed. The young journalist who attempted to interview Gen. Drum on that occasion was Harry Donavan, present Superintendent of letter carriers in the Chicago Post Office, and the young staff officer was Col. Fred. D. Grant."

REVENUE MARINE.

The revenue steamer *Dexter*, Captain Stodder commanding, has returned from the steamer *Providence*, ashore on Dyer's Island, having made four unsuccessful attempts to haul her afloat. Before doing anything further they intend to try and lift her with pontoons. She lies in an easy position, heading N. E., standing upright. She has experienced very little damage so far. She seems to stick amidships, under the boilers, where a sand bar makes out from the island.

The resignation of Lieut. C. O. Barnes has been accepted

THE ARMY.

G. O. 44, H. Q. A., June 23, 1887.

By direction of the Secretary of War, upon the recommendation of the Inspector General, the "universal-metall-putz-pomade" is taken from and the "matchless metal polish" and "Wilson's tripoli flour" are added to the list of articles to be kept for sale to officers and enlisted men by the Subsistence Department, under section 1144 of the Revised Statutes.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

63. Cadet Samuel A. Smoke, to the 6th Infantry.
64. Cadet Frank H. Albright, to the 12th Infantry.

III. The following named *additional* 2d lieutenants have been appointed 2d lieutenants, to date from June 15, 1887:

Additional 2d Lieutenant Edson A. Lewis, 18th Infantry, vice McClure, promoted. (Co. K.)

Additional 2d Lieutenant William K. Jones, 14th Infantry, vice Gustin, promoted. (Co. K.)

Additional 2d Lieutenant Edmund Wittenmyer, 9th Infantry, vice Dodds, promoted. (Co. E.)

IV. The officers above named will report in person at their proper stations on the *thirtieth of September next*.

V. The officers named in this order will, immediately upon its receipt by them, report by letter to the commanding officers of their respctive corps or regiments. The reports to the commanding officers should, in the absence of information as to their stations, be forwarded, under cover, to the Adjutant General of the Army.

VI. Those who have been attached as additional 2d lieutenants will be appointed, in order of seniority, to vacancies as they occur in the arms of the service to which they have, respectively, been attached.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 46, H. Q. A., June 28, 1887.

I. The Secretary of War having approved of the following transfers of troops, they are hereby directed; the movements to commence not later than July 25, 1887:

II. The 11th Infantry will be concentrated at Fort Abraham Lincoln, Dakota Territory, and then moved by rail to Duluth, Minnesota, and by boat to Buffalo, New York, from which point they will be moved to stations in the Division of the Atlantic that the commanding general of that division may designate.

III. The 12th Infantry will be concentrated at Buffalo, New York, embarked immediately, and then moved by boat to Duluth, Minnesota, and by rail to Bismarck, Dakota Territory, from which point they will be moved to the stations in the Department of Dakota that the commanding general of that department may designate.

IV. The headquarters, band, and four troops of the 7th Cavalry at Fort Meade, Department of Dakota, that the colonel of the regiment may designate (accompanied by the colonel and second major) will change station by marching to Fort Riley, Department of the Missouri.

V. The headquarters, band, and the field officers of the 5th Cavalry now at Fort Riley, to such posts in the Indian Territory as the commanding general of the department may designate; two of the troops of the regiment now at Fort Riley to Fort Sill, Indian Territory, and the other two to Fort Elliott, Texas; these transfers to be made by marching.

VI. The field officers and troops of the 3d Cavalry now at Fort Sill, Indian Territory, and Fort Elliott, Texas, will be transferred by marching to the Department of Texas, and then the 8th and 3d Cavalry will exchange stations by marching within that department.

VII. As far as practicable all regimental, company, and the authorized allowance of officers' baggage will be shipped by rail or water from initial points to the new stations of the different detachments of each regiment.

VIII. The commanding generals Divisions of the Atlantic and of the Missouri will assign the regiments in their respective divisions, except where other instructions have herein been given, to their new stations as soon as practicable after receipt of this order, and arrange all further details with due regard to economy and the comfort of officers and men.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 5, DEPT. OF THE PLATTE, June 20, 1887.

The Annual Department Rifle Competition will take place on the Bellevue Rifle Range, under the direction of Major Guy V. Henry, 9th Cavalry, Inspector of Rifle Practice, Department of the Platte, commencing Monday, August 15 next.

Post commanders will send enlisted competitors in time to report to Captain Cyrus A. Earnest, 8th Infantry, who will command the Department Rifle Camp, on the range, August 12 next.

The attention of post commanders is called to the requirements of paragraph 599, Instructions in Rifle and Carbine Firing.

By command of Brig. Gen. Crook:
SAM'L BRECK, Asst. Adjt.-Gen.

G. O. 1, DIV. OF THE PACIFIC, June 13, 1887.

The contest for places on the Division rifle team will take place this year at the Presidio of San Francisco, Cal., and will be conducted by Lieut.-Col. Isaac D. De Russy, 14th Inf., the Division Inspector of Rifle Practice. The preliminary practice will be held September 1 and 2, and the competition for places on the Division team between September 4 and 10.

G. O. 8, DEPT. OF CALIFORNIA, June 17, 1887.

The Department rifle competition, including preliminary practice, will take place at the Presidio of San Francisco, Cal., between August 16 and 27, and will be conducted by Capt. Lowell A. Chamberlain, 1st Artillery.

The marksmen selected will be sent to report to the C. O., Presidio of San Francisco, to arrive not later than the 15th of August.

THE CASE OF MAJOR RUNKLE.

WAR DEPARTMENT,
WASHINGTON, June 27, 1887.

By direction of the President, in accordance with the decision of the Supreme Court of the U. S. rendered May 27, 1887, in cases numbered 259 and 260, the directions of the Secretary of War of Nov. 12, 1884, (see G. O. No. 76, of 1885, Hdqrs. of the Army, A. G. O., page 14,) dropping Major Benj. P. Runkle, retired, from the rolls of the Army, having been based upon a judgment of the U. S. Court of Claims, which has been reversed by the Supreme Court, are hereby cancelled, and Major Benj. P. Runkle will be borne on the Army rolls as never having been legally separated from the Army under the proceedings published in General Court-martial Orders No. 7, of Jan. 16, 1873, heretofore revoked by Executive orders of Aug. 4, 1877, published in S. O. No. 166, of Aug. 4, 1877, Hdqrs. of the Army, A. G. O.

WM. C. ENDICOTT.

* Light battery.

Major Edward B. Williston will proceed to Chicago and thence to Washington on public business (S. O., June 24, H. Q. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., **B,*** **D, E, G,** and **L,** Ft. Adams, R. I.; **A** and **C,** Ft. Trumbull, Conn.; **F,*** Ft. Snelling, Minn.; **H** and **K,** Ft. Warren, Mass.; **I,** Ft. Monroe, Va.; **M,** Ft. Preble, Me.
* Light battery.

Leave from July 15, to include Sept. 19, is granted 1st Lieut. John T. French, Jr. (S. O., June 25, H. Q. A.)

Lieut.-Col. Henry C. Hasbrouck, Commandant of Cadets, Military Academy, and Major, 4th Art., is designated, under an invitation extended by the Government of France, to witness the manœuvres of the French Army to take place in September, 1887. He will proceed to Paris in time to reach there by Sept. 1 (S. O., June 25, H. Q. A.)

By direction of the Secretary of War Col. Clermont L. Best, 4th Art., will relieve Col. Edwin F. Townsend, 12th Inf., from further duty in inspecting the several organizations of the N. G. of New York detailed for tours of service at the Peekskill camp for the period ending Aug. 6, 1887, and on the completion of this duty will return to his proper station. Col. Townsend will, upon being relieved by Col. Best, rejoin his command (S. O., June 29, H. Q. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., **E, F,*** **I,** and **H,** Ft. Hamilton, N. Y.; **A, C,** and **L, F** . Columbus, N. Y.; **G,** Ft. Monroe, Va.; **B,** Ft. Wadsworth, N. Y.; **D,*** Ft. Douglas, Utah; **K** and **M,** Ft. Schuyler, N. Y.
* Light battery.

1st Lieut. William W. Galbraith will report to the Superintendent of the Military Academy, West Point, Aug. 28, 1887, for duty at the Academy (S. O., June 27, H. Q. A.)

1st Lieut. David D. Johnson is relieved as member of the G. C.-M. at Fort Columbus, N. Y. H. (S. O. 130, June 28, Div. A.)

Sergt. O. W. Heinrich, Bat. E, and Sergt. John Francis, Bat. C, will report to Major Abram C. Wildrick for duty at the camp of rifle practice at Creedmoor, the former as sergeant-major and the latter as Q. M. and commissary sergeant (S. O. 132, June 30, Div. A.)

2d Lieut. Harvey C. Carbaugh will proceed to Creedmoor, N. Y., July 2 and 5, on public business (S. O. 132, June 30, Div. A.)

The C. O.'s Forts Hamilton and Columbus, N. Y. H., will each cause a detail to report, July 5, to 2d Lieut. Harvey C. Carbaugh, to proceed with him to Creedmoor, N. Y., to perform certain labor connected with the sanitary welfare of the rifle camp (S. O. 132, June 30, Div. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., **E, F, I,** and **K,** Angel Island, Cal.; **A** and **D,** Benicia Bks., Cal.; **C** and **G,** Presidio of San Francisco, Cal.; **B,** Ft. Gaston, Cal.; **H,** Ft. McDermit, Nev.

The following are designated to inspect money accounts at their posts: Lieut.-Col. Charles G. Bartlett, Benicia Barracks; Capt. Robert G. Armstrong, Fort McDermit (S. O. 39, June 13, D. Cal.)

The following are relieved as recruiting officers, to take effect June 30: Capt. Robert G. Heiner, Benicia Barracks; 1st Lieut. Frank H. Edmunds, Adjt., Angel Island, Cal. (S. O. 41, June 20, D. Cal.)

Leave for three months on Surgeon's certificate is granted Capt. Douglas M. Scott, recruiting officer (S. O., June 24, H. Q. A.)

2nd Infantry, Colonel Frank Wheaton.

Hdqrs., **A, B, C, D, E, F, G, H, I,** and **K,** Ft. Omaha, Neb.

1st Lieut. J. K. Waring is appointed adjutant, treasurer, etc., at David's Island, N. Y. H. (Orders 151, Rec. Ser., June 30.)

5th Infantry, Colonel George Gibson.

Hdqrs., **A, B, D, E, G, I,** and **H,** Ft. Keogh, M. T.; **F** and **K,** Ft. Totten, D. T.; **C,** Ft. A. Lincoln, D. T.

Lieut. E. R. Gilman is granted further extension of leave to Jan. 5, 1888, and his resignation is accepted, to take effect that date. (S. O., H. Q. A., June 30.)

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., **A, D, F,** and **H,** Ft. Laramie, Wyo.; **B** and **E,** Camp Pilot Butte, Wyo.; **G** and **I,** Ft. Washakie, Wyo.; **C** and **K,** Ft. McKinney, Wyo.

Cos. A and H will be relieved from duty at Fort Laramie, Wyo., July 5, and, under the senior officer, proceed (by march to Cheyenne) to Camp Pilot Butte, Wyo., and take station, relieving Cos. B and E, which will, under the senior officer, take station at Fort Laramie, marching from Cheyenne (S. O. 59, June 20, D. Platte.)

Before a G. C.-M. at Fort Robinson, Neb., was tried Sergt. Charles Fox, Co. K, 7th Inf. Charge—"Neglect of duty." Spec.—"In that he, while on duty as escort to Major and Paymaster D. N. Bash, and placed in charge of a valise containing public funds, did neglect and fail to properly guard the same, and allow one Charles Parker to steal and carry away the said valise, thereby causing a loss to the United States of $7,350.93. This at Antelope Station, Wyo., March 18, 1887." Finding—"Guilty." Sentence—"To be reduced to the ranks, and then to be dishonorably discharged the service of the U. S. The court is thus lenient in view of mitigating circumstances shown in evidence." General Crook approves the findings and sentence, but, upon the unanimous recommendation of the court to the mercy of the reviewing authority, the latter remits the sentence. Sergt. Fox will be returned to duty (G. C.-M. O. 54, D. Platte, 1887).

8th Infantry, Colonel August V. Kautz.

Hdqrs., **A, B, E, F, G,** and **H,** Ft. Niobrara, Neb.; **C** and **I,** Ft. Robinson, Neb.; **D** and **K,** Ft. Bridger, Wyo.

Cos. D and K will be relieved from duty at Fort Bridger, Wyo., July 5, and, under the senior officer, proceed to Fort Robinson, Neb., taking station there (S. O. 59, June 20, D. Platte.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., **A, D, E,** and **K,** Ft. Sully, D. T.; **B, C, F,** and **H,** Ft. Yates, D. T.; **G,** Ft. A. Lincoln, D. T.; **I,** Ft. Bennett, D. T.

The 11th on coming East will garrison Madison Barracks, Plattsburg Barracks, Fort Ontario, and Fort Niagara. Colonel Dodge will go to Sackett's Harbor, Lieut.-Col. Bush likely to Fort Niagara, and Major Page either to Fort Ontario or Plattsburg Barracks.

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., **B, D, F, G,** and **I,** Madison Bks., N. Y.; **C,** Plattsburgh Bks., N. Y.; **E** and **K,** Ft. Niagara, N. Y.; **H,** Ft. Ontario, N. Y.; **A,** Ft. Wood, Bedlow's Island, N. Y. H.

Col. Edwin F. Townsend has been relieved by Col. C. L. Best from further duty at the N. Y. State Camp (S. O., June 29, H. Q. A.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., **E, F, G,** and **K,** Ft. Buford, D. T.; **A, C, D,** and **H,** Ft. Randall, D. T.; **B** and **I,** Ft. Pembina, D. T.

1st Lieut. George F. Cooke will proceed to David's Island and report to conduct to the Leavenworth Military Prison convicts awaiting transfer to that prison (S. O. 103, June 20, Rec. Ser.)

1st Lieut. Alexis R. Paxton, upon the completion of the transfer of recruiting matters at Harrisburg, Pa., will proceed to join his regiment in the Dept. of Dakota (S. O. 104, June 21, Rec. Ser.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., **B,** and **H,** Ft. Bliss, Tex.; **C** and **F,** Ft. Concho, Tex.; **E,** Ft. McIntosh, Tex.; **I,** Ft. Davis, Tex.; **A, G,** and **K,** San Antonio, Tex.; **D,** Ft. Ringgold, Tex.

Capt. Thos. E. Rose is granted four months' leave. (S. O., H. Q. A., June 30.)

18th Infantry, Colonel John E. Yard.

Hdqrs., **A, B,** and **D,** Ft. Hays, Kas.; **E** and **F,** Ft. Leavenworth, Kas.; **C** and **I,** Ft. Gibson, I. T.; **G, H,** and **K,** Ft. Riley, Ks.

Subject to the approval of the Secretary of War, 1st Lieut. William T. Wood is appointed R. Q. M., to date June 21, 1887, to fill the vacancy occasioned by the promotion of 1st Lieut. Michael Leahy, R. Q. M., to Captain (Orders 32, June 21, 18th Inf.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., **A, B, C, E, F, H,** and **K,** Ft. Assiniboine, M. T.; **D,** Ft. Maginnis, M. T.; **G** and **I,** Camp Poplar River, M. T.

Col. Elwell S. Otis will proceed to Harrisburg, Pa., for the purpose of accompanying the Governor of Pennsylvania on his tour of inspection of the Nation Guard of Pennsylvania at the annual encampment at Mt. Gretna, Lebanon County, from Aug. 6 to 13, 1887 (S. O., June 27, H. Q. A.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., **A, C, E,** and **G,** Ft. Sidney, Neb.; **D** and **H,** Ft. Bridger, Wyo.; **B, F, I,** and **K,** Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

The extension of sick leave granted Capt. Ebenezer W. Stone is further extended two months (S. O., June 29, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., **A, B, D, G, H,** and **K,** Ft. Lewis, Colo.; **C, F,** and Ft. Lyon, Colo.; **E,** Ft. Marcy, N. M.

1st Lieut. Cornelius C. Cusick is relieved from duty at Columbus Barracks and will proceed to Harrisburg, Pa., and relieve 1st Lieut. Alexis R. Paxton, 15th Inf., of the charge of rendezvous. The recruiting rendezvous at Harrisburg will be discontinued and Lieut. Cusick will proceed to Portland, Me., and establish a rendezvous in that city (S. O. 104, June 21, Rec. Ser.)

1st Lieut. Cornelius C. Cusick is relieved as member of the G. C.-M. at Columbus Barracks, O. (S. O., June 28, H. Q. A.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., **F, G, H,** and **I,** Ft. Wayne, Mich.; **A** and **B,** Ft. Brady, Mich.; **C** and **D,** Ft. Porter, N. Y.; **E** and **K,** Ft. Mackinac, Mich.

1st Lieut. Calvin D. Cowles is relieved as member of the G. C.-M. at David's Island, N. Y. H. (S. O., June 28, H. Q. A.)

The leave granted 1st Lieut. J. Rozier Clagett, R. Q. M., Fort Wayne, is extended twenty-three days (S. O. 128, June 25, Div. A.)

1st Lieut. C. D. Cowles is relieved as depot adjutant, etc., at David's Island, N. Y. H. (Orders 151, Rec. Ser., June 30.)

The C. O. Fort Wayne, Mich., will issue a furlough for two months to Sergt. William J. King, Co. I (S. O. 129, June 27, Div. A.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, June 25, 1887.

APPOINTMENT.

Colonel John G. Parke, Corps of Engineers, to be Superintendent of the U. S. Military Academy, to take effect August 28, 1887.

TRANSFER.

2d Lieutenant Stephen H. Elliott, from the 8th Cavalry to the 5th Cavalry, June 20, 1887, with rank from October 24, 1886, vice Potter, transferred to the Corps of Engineers.

Military Academy.

Leave until Aug. 27, 1887, is, on account of ill health, granted Cadet Thaddeus M. Kelly, 2d Class (S. O., June 27, H. Q. A.)

Courts-martial.

The following courts have been ordered:

At Fort Omaha, Neb., June 22. Detail: Major Edmond Butler, Capts. William Mills, Charles Keller, Charles A. Dempsey, Henry Catley, and Luther S. Ames, 1st Lieuts. Richard T. Earle, William C. Muhlenberg, and Abner Pickering, 2d Lieuts. William Moffatt, Thomas H. Wilson, William M. Wright, and Charles D. Towsley, 2d Inf., and 1st Lieut. Charles W. Rowell, 2d Inf., J.-A. (S. O. 58, June 17, D. Platte.)

At Fort McKinney, Wyo., June 28. Detail: Capt. Daniel W. Benham, 7th Inf.; Capt. Daniel Weisel, Asst. Surg.; Capt. James M. J. Sanno, 7th Inf.; Capt. Eugene D. Dimmick, 9th Cav.; 1st Lieuts. George S. Young, James B. Jackson, and John L. Barbour, 7th Inf.; 2d Lieuts. John H. Gardner and James W. Benton, 9th Cav.; 2d Lieut. Chauncey B. Baker, 7th Inf., and 1st Lieut. Joseph Garrard, 9th Cav., J.-A. (S. O. 58, June 17, D. Platte.)

At Fort D. A. Russell, Wyo., July 7. Detail: Col. Henry A. Morrow, 21st Inf.; Lieut.-Col. Nathan W. Osborne, 6th Inf.; Lieut.-Col. Edward Collins, 7th Inf.; Major James S. Casey, 17th Inf.; Major Edmond Butler, 2d Inf.; Major William J. Lyster, 6th Inf.; Capt. Richard Comba, 7th Inf.; Capt. William Mills, 2d Inf.; Capt. Clarence E. Bennett, 17th Inf.; Capts. Charles Keller and Charles A. Dempsey, 2d Inf.; Capts. Thomas G. Troxel and Cyrus S. Roberts, 17th Inf., and Capt. Charles Porter, 8th Inf., J.-A. (S. O. 58, June 17, D. Platte.)

At Little Rock Barracks, Ark., June 28. Detail: Major Edwin Bentley, Surg.; Major Francis L. Guenther, Capts. Frank B. Hamilton and William McK. Dunn, Jr., 1st Lieut. John H. Gifford, and 2d Lieut. John T. Thompson, 2d Art., and 1st Lieut. George S. Grimes, 2d Art., J.-A. (S. O. 128, June 25, Div. A.)

At Fort Columbus, N. Y. H., June 27. Detail: Capts. William B. Beck and Charles Morris, 1st Lieuts. Benjamin K. Roberts, Frank Thorp, and David D. Johnson, 2d Lieuts. Warren P. Newcomb and Avery D. Andrews, 5th Art., and 1st Lieut. W. R. Hamilton, 5th Art., J.-A. (S. O. 128, June 25, Div. A.)

At Fort Hamilton, N. Y. H., July 1. Detail: Capts. Jacob B. Rawles, John R. Brinckle, and George W. Crabb, 5th Art.; Capt. Rudolph G. Ebert, Asst. Surg.; 1st Lieuts. Paul Roemer and Granger Adams and 2d Lieut. Albert C. Blunt, 5th Art., and 1st Lieut. Wm. H. Coffin, 5th Art., J.-A. (S. O. 131, June 29, Div. A.)

Army Boards.

A Board of Survey will assemble at San Francisco, June 17, to fix the responsibility for a deficiency in mineral oil, for which Major George H. Weeks, Q. M., is responsible. Detail: Lieut.-Col. Isaac D. De Russy, 14th Inf., and Capts.

Charles A. Alligood, M. S. K., and Charles P. Eagan, C. S. (S. O. 32, June 16, Div. P.)

A Board of Officers will meet at Fort Bridger, Wyo., to inspect the public buildings erected under contract of Feb. 16. Detail: Major John N. Andrews, 21st Inf.; Capt. Henry S. Howe, 17th Inf., and 2d Lieut. Charles G. Dwyer, 21st Inf. (S. O. 59, June 20, D. Platte.)

A Board of Survey, to consist of 1st Lieuts. Thomas M. Woodruff and Richard E. Thompson, A. S. O., and 2d Lieut. Robert B. Watkins, Signal Corps, will assemble, June 25 and 27, to fix responsibility for loss of Signal Service property, for which 2d Lieut. James A. Swift, Signal Corps, is responsible (S. O. 44, June 23, Sig. Office.)

Camp of Rifle Instruction.

The camp of instruction in rifle practice at Creedmoor, N. Y., will commence on July 6, instead of July 5. The tour of the batteries of the 5th Artillery and company of the 12th Infantry will be as follows: Bats. H, C, and K, from July 6 to 17, inclusive; Bats. E, A, and M, from July 18 to 28, inclusive; Bats. I, L, and B, from July 29 to Aug. 9, inclusive, and Co. A, 12th Inf., from Aug. 10 to 20 (S. O. 128, June 25 Div. A.)

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

The batteries of the 2d U. S. Artillery at Jackson Barracks, La., under Major C. B. Throckmorton, will go into camp with the Louisiana and Mississippi militia at Fort Henry, near Pass Christian, Miss., about the middle of July to remain for a week. Fort Henry affords excellent facilities for heavy artillery practice, which regulars and militia will not fail to make full use of.

Troop B, 4th Cavalry (Lawton's), and Troop B, 6th Cavalry (Anderson's), are expected to arrive at Fort Myer, Va., soon after July 15.

A despatch from Key West says: "Ordnance Sergeant G. B. McNamara, U. S. A., in charge of the barracks, his wife and child are down with the yellow fever."

Bids for the sale of a site for the new barracks near Newport, Ky., for which $60,000 was appropriated, were opened at the War Department June 27. Secretary Endicott, Gen. Sheridan, Quartermaster Holabird and Chief Clerk Tweedale being present. There were eleven bidders.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

Gen. Miles telegraphed from San Carlos June 26: "Lieut. Johnson's surprise and capture and the rapid pursuit of the troops have driven the band of hostiles back to the reservation, where they have surrendered, and I have instituted an investigation and detailed a General Court-martial for trial of three guilty of military offences, thus ending the present disturbances." Great credit is given to Lieut. C. P. Johnson, 10th Cavalry, for his energy.

A despatch of June 28 says: All the renegade Apaches are in the guardhouse, having given themselves up. Gen. Miles, being at San Carlos in person, notified them that he would accept their unconditional surrender—nothing less. Finding it next to impossible to escape they surrendered, with a plea for mercy. During the raid the troops followed the hostiles 45 miles, over the roughest mountains in Southern Arizona, through intense heat and with no water. It was the sharpest, quickest, and most emphatic campaign ever made against these Indians. Oliver Eaton, an Indian scout, a graduate of Hampton School, was the trailer, and his skill in keeping the trail enabled the troops to keep close on the hostiles. In crossing the San Pedro Valley the hostiles travelled nearly 15 miles on tiptoe to hide the trail, but Eaton held it. A general court-martial is now in progress here, trying four of the renegades, who were scouts and resisted arrest at the time of their departure from the reservation.

Dept. of the Columbia.—Brig. Gen. John Gibbon.

It seems to be the general opinion that Fort Klamath, Ogn., will soon be abandoned.

GENERAL COURT-MARTIAL ORDERS.

HEADQUARTERS OF THE ARMY, A. G. O.,
WASHINGTON, June 24, 1887.

General Court-martial Orders, No. 52.

Before a General Court-martial which convened at Fort Snelling, Minn., pursuant to Special Orders No. 32, April 7, 1887, Headquarters Department of Dakota, and of which Col. George L. Andrews, 25th Inf., is president, was arraigned and tried 2d Lieut. James H. G. Wilcox, 7th Cav. Charge I.—"Violation of the 13th Article of War." II.—"Presenting or causing to be presented, false and fraudulent claims against the United States, in violation of the 60th Article of War." III.—"Conduct unbecoming an officer and a gentleman," IV., and additional charge—"Conduct to the prejudice of good order and military discipline." The specifications allege the sale of duplicate pay accounts for February, 1887, to W. A. Macqueer, post-trader at Fort Keogh; Thos. H. Norton and Co., of Wheeling, W. Va.; the 2d National Bank, St. Paul, Minn., and the 1st National Bank, of Faribault, Minn. Next, absence without leave from Feb. 28, 1887, to his apprehension at St. Louis, March 16. Third, hypothecating his pay accounts for March and April, 1887, to the Stock Growers' National Bank, of Miles City, M. T., as collateral security for two promissory notes of $125 each. The specification to the additional charge alleges that the accused did make out his official accounts for his salary as 2d Lieutenant, 7th Cavalry, for the months of February, March, April, May, and June, 1887, and, in violation of G. O. No. 112, Hdqrs. of the Army, A. G. O., series of 1884, for a valuable consideration, issue and hypothecate the said February account on or about July 28, 1886; the said March account on or about Aug. 20, 1886; the said April account on or about Sept. 20, 1886; the said May account on or about Oct. 20, 1886; and the said June account on or about Nov. 20, 1886; and transfer the said accounts for the months and on or about the dates aforesaid to Thos. H. Norton and Co., of Wheeling, West Virginia."

The accused pleaded guilty and the finding on all of the charges and specifications was guilty. Sentence:

"To be dismissed the service of the United States, and to be confined at hard labor in such penitentiary as the reviewing authority may direct for the period of two years."

The proceedings, finding and sentence having been approved by the proper reviewing authority and the record forwarded, in accordance with the provisions of the 106th Article of War, for the action of the President of the United States, the following are his orders indorsed thereon:

"EXECUTIVE MANSION, June 24, 1887.

"The sentence in the foregoing case of 2d Lieut. James H. G. Wilcox, 7th Cav., is hereby approved, and I direct that the convicted officer be dismissed the Service and confined in the Minnesota Penitentiary pursuant to said sentence.

"GROVER CLEVELAND."

By direction of the Secretary of War the sentence in the foregoing case of 2d Lieut. James H. G. Wilcox, 7th Cav., will take effect July 4, 1887, from which date 2d Lieut. Wilcox will cease to be an officer of the Army, and he will be confined in the Minnesota Penitentiary.

In the case of a soldier tried by court-martial for making a disturbance in a house of prostitution in Cheyenne, thereby causing his arrest, trial, imprisonment, etc., by the civil authorities, General Crook says: "The finding to the specification and charge are disapproved. The proceedings fail to exhibit that there was any offence to any person or thing connected with the military service, or that any discredit was brought upon the Army by the prisoner being arrested and tried for an offence against the civil law. The offence alleged in the specification is one against the civil law, and for which the prisoner was tried and punished, and not against any law or regulation governing the military. The sentence is disapproved." (G. C. M. 45, D. Platte, 1887.)

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

JUNE 30, 1887.

THE Military Academy is a deserted place just at present. Most of the officers have gone on their summer pilgrimage to worship at other shrines. A few of those left will go soon. About the only time when there is any commotion is in the morning drill; the new cadets then receive a setting up drill, the drillmasters being members of the 3d Class; at the same time the 1st classmen are having practice in giving commands; the cadets call this "boningvoice." The new cadets have discarded their citizen clothes, and now appear in gray jackets and gray pants.

Before the change of clothes took place, a little scene happened in the mess hall at dinner, which will cause a smile to come over the countenance of many a graduate. A young officer, of eight years' graduation, visiting on the post, was invited by the officer in charge of the hall to go in and see how things looked. All the candidates had taken their seats at the tables when one of the corporals over them stepped up to the officer, who was in civilian dress, and said as only a brand new corporal can say it, "Take your seat, sir; and be prompt about it, too; sir, what do you mean by standing there, sir?" The officer was somewhat astonished and remarked, "Don't be too fresh, young man," at which the corporal fairly boiled and roared, "I'll teach you, sir, to be imprudent to an old cadet, sir; what is your name, sir?" The answer came quietly, "Lieut. ——, sir; I graduated eight years ago." It is needless to remark that the corporal subsided without further ceremony.

Advertisements are out for the lease of the hotel, and also for the livery service of the post. The proposals for the hotel will be opened Aug. 18, and for the livery Sept. 1. The periods for both are five years from Nov. 1, 1887.

Capt. Metcalfe, Lieuts. Howland and Smith left Tuesday on a canoe expedition. They went to Cooperstown, N. Y., by rail and from there they will go down the Susquehanna as far as Havre de Grace, Md.

One of this year's new cadets is an enlisted man of the 17th Infantry, whose father is a captain in the 18th. During the war enlisted men, privates and non-commissioned officers, and occasionally officers, were frequently appointed, but this is the first case, that we know of, where the Regular Service has been represented.

Gen. Merritt's furniture left last Thursday for Leavenworth. Lieut. Edgerton's household goods have also been shipped. Capt. Rodgers will go in a few days, but his family will stay till the middle of August. Capt. Rockwell will begin packing next week; his duties are to be taken by Capt. Williams, with Lieut. Mott as police officer, and in command of the Artillery Detachment.

Pratt Post, Grand Army of the Republic, from Kingston, visited West Point yesterday. The members, about forty, marched to the Sedgwick Monument, which was saluted and decorated with bouquets of roses, after which the men broke ranks and wandered over the Point for an hour, visiting places of interest.

Marcus Butler Stokes, Early Branch, S. C.; Frederick Randolph Young, Pellonia, Ills., and Phil Sheridan Campbell, Sioux Falls, Dak., have been designated for examination for admission to the U. S. Military Academy in June, 1888.

U. S. ARTILLERY SCHOOL, FORT MONROE.

IN G. O. 17 Gen. Tidball directs that exercises for the months of July and August be confined chiefly to firing practice. The firing will be under Capt. S. M. Mills, 5th Art., Instructor in Practical exercises. All that relates to the engineering work will be under Captain James M. Ingalls, 1st Artillery, Instructor of Engineering, assisted by 2d Lieutenant A. Cronkhite, 4th Artillery; all that relates to Signalling, under 1st Lieut. C. W. Hobbs, 3d Art. Acting Signal Officer; the whole to be under Major A. C. M. Pennington, 4th Art., Superintendent. The order of firing will be as follows: 10-inch S. B. guns at fixed and moving targets; 15-inch S. B. guns, at fixed target at 2,000 to 2,500 yards; 100 pound rifle (Parrott), at 2,500 to 3,000 yards; 8-inch rifle (converted), at 2,500 to 3,000 yards.

(Correspondence of the Army and Navy Journal.)

FORT BLISS, TEX.

WE have had two sad deaths here recently, one by drowning and the other in a railroad accident. Musil, the drowned man, was a foreigner, of honest, amiable character and very useful in the Q. M. Department. He, with a companion, undertook to cross the river in a boat too near the dam; the boat was carried over, Musil going under. Vigilant search has been made for the body, but it has not been found.

Reynolds, an old soldier, though a young man, discharged from the Service a few months since, returned, encouraged by the officers to whom he applied, for enlistment. A detrimental examination on the day of his death rather depressed him, but otherwise he gave no sign of premeditated suicide. He was on the track, returning from El Paso, when the passenger going south caught him, and he was crushed to death instantly. Micky, as his friends called him, enlisted as fifer when a small boy. On this instrument he was a genius. Col. Blunt gave him a military burial. The whole command and the officers' families attended, and "taps" which he had played so beautifully and pathetically for many of his dead comrades, closed the last scene at the bleak little grave-yard under the sand hills. E. J. P.

(Correspondence of the Army and Navy Journal.)

"MONITORS" v. "ALPHAS."

A FINE game of base ball was played at Governor's Island June 25 between the "Monitors," of the Island, and the "Alphas," of Bay Ridge. The former came out ahead, the score being as follows:

MONITORS.		ALPHAS.	
J. Curran	catcher	McEayne	catcher
F. P. Curtis	pitcher	Bennett	pitcher
F. Tompkins	1st base	Kidney	1st base
T. Walsh	2d base	McGlen	2d base
F. Dardingkiller	3d base	O. Connell	3d base
P. Gubbins	short stop	Bowns	short stop
L. S. Miller	left field	McKay	left field
A. Mordecai	right field	Bergan	centre field
		R. Connell	right field

SCORE BY INNINGS.

Monitors	2	2	3	0	0	3	0	1	0	—11
Alphas	3	0	0	0	0	2	0	1	1	— 7

Young Curtis was pitcher for the "Monitors" and played like a veteran, and Miller made some brilliant catches in the field. The "Alphas" did well but were overweighted. Mr. E. Goodwin gave satisfaction to all as umpire. LEX.

(Correspondence of the Army and Navy Journal.)

COLUMBUS BARRACKS, O.

JUNE 27, 1887.

SOME very important improvements are announced for the next fiscal year at this depot, the most necessary being that of the enlargement of the headquarters building, which is to be made more convenient for the transaction of business by the addition of two wings; the guard house is also to be removed to a less conspicuous place than at the front entrance.

Capt. Hobart, 3d Inf., left on Thursday last with a detachment of 38 recruits for Fort Snelling, Minn., for assignment to the 5th Inf. A good base ball club has been organized under the name of the Kinzie nine, in honor of Lieut. G. H. Kinzie, 15th Inf., who has taken special interest in the club. Sgt. John C. Herms, better and more widely known throughout the Army as "Jack, the Drum Major," has been relieved from the duties of Drum Major and returned to duty with his company, A, of Instruction, and Fd. Mus. Gustav A. Westphalinger, late of the 20th Inf., now wields the baton.

(Correspondence of the Army and Navy Journal.)

FORT McHENRY, MD.

IT may interest you to know that Lieut. W. P. Hagadorn, late of the Veteran Reserve, has organized Fort McHenry (Temperance) Division No. 12, with every prospect of success. The officers of the post, from Colonel Livingston downwards, have given us every encouragement. Lieut. Hagadorn has done much for the good of our military posts and camps. During the war he commanded the provost guard in Chicago, and turned out his entire command as Sons of Temperance. AQUA PURA.

FORT NIOBRARA, NEB.

THE Omaha *Excelsior* of June 25 says:

Col. Van Horn, 25th Inf., and Capt. Conrad, 8th Inf., are visitors....A grand Fourth of July celebration will be held at the fort. All the officers have subscribed liberally.... Gen. and Mrs. Kautz, Count Von Huett, and a good many other officers and their ladies left Friday for Fort Robinson to attend a dance given by the ladies of that post. They returned Sunday morning....The *Democratic Blade* of Valentine says that officers who have been out all day on the target range near Fort Niobrara, in the hot sun, listening to the monotonous pop of the marksman's rifle, find the pop of the champagne bottle a pleasing diversion in the evening.

FORT SIDNEY, NEB.

THE *Excelsior* of June 25 says:

Mrs. Gen. Morrow has the credit of being the only member of the Chautauqua Club who attended every meeting during the winter ...Gen. Joe Johnson, one of the Government directors of the Union Pacific Railroad, stopped in Sidney long enough Wednesday to visit the post... Mrs. Morrow gave Mrs. Reed, of Omaha, a lunch party Saturday, at which the following ladies were guests: Mrs. Boyle, Mrs. Ewen, Mrs. Payne, Mrs. Ebstein, Mrs. Dungan, of the garrison, and Mrs. Morgan, of Sidney.

FORT LEAVENWORTH, KAS.

BY order of Gen. McCook a fine mounted dress parade of the cavalry and artillery took place June 20, Major G. B. Sanford, 1st Cavalry, in command. This is the second of the kind, the first being on May 19. The cavalry battalion paraded with a beautiful standard inscribed "Cavalry Battalion, Infantry and Cavalry School." Troop L, 9th Cavalry (Capt. Moore), was the color troop.

Through the kindness of Capt. L. E. Campbell the "Jolly Blues" were permitted to give the second ball of the season June 27 in the pavilion erected for the Loyal Legion banquet. The 6th Infantry orchestra furnished the music.

FORT OMAHA, NEB.

THE *Excelsior* of June 25 says:

Lawn tennis is getting to be quite popular.....Miss La Baron, a niece of Mrs. Capt. Keller, 2d Inf., from Pensacola, is visiting here ...Miss Mollie Satterthwaite, niece of Lieut. Pickering, 23 Inf., is visiting her mother, Mrs. C. Satterthwaite, and her uncle at Fort Omaha... Several officers of the 2d Infantry are detailed on a General Court-martial at Fort D. A. Russell. It is understood it is to try an officer not below the rank of captain, of the 17th Inf....The entire upper story of the administration building at the post has been turned over to the medical department for hospital purposes....There is to be a hop at the fort next Tuesday evening, given at the officers' club rooms. The lieutenants whose names are appended to the neat little invitations are Wright, Towsley, Wilson, and Earle....Dean Gardiner, of Omaha, christened the youngest child of Lieut. and Mrs. Rowell on Thursday of this week. The child was named Ashley Quintard, the latter name being for the Bishop of the Episcopal Church by that name. Gen. Wheaton, the child's grandfather, represented the Bishop as godfather in the ceremony.

Military Order of the Loyal Legion.

At a meeting of the Oregon Commandery held at Portland, June 8, Col. D. P. Jenkins, U. S. V.; Capt. M. W. Wood, Asst. Surg., U. S. A., and Major J. P. Canby, Paymaster, U. S. A., were elected members. The commandery has published a valuable register with rank, addresses, etc., of members.

The first anniversary of the Kansas Commandery, held at Fort Leavenworth June 24, was a notable occasion. There were many members of the order present from other commanderies, who were met at the depot by committees and taken to the club room, where they were received by Gen. Alexander McD. McCook, U. S. A., commandant of the post, and Col. J. P. Martin, assistant adjutant general, U. S. A., recorder of the Kansas Commandery. There was to be a review and a drill, but the rain prevented. At 8 P. M. a business meeting was held, and then came the banquet. The 6th Infantry Band furnished excellent music. The decorations of the table were superb, having been done under the supervision of Mesdames Campbell, Gilliss, Almy, and Martin. Commander Blair occupied the seat of honor, with Col. Martin on his right and Gen. McCook on his left. In the midst of the supper Col. Martin moved a congratulatory telegram to the Army of the Potomac at Saratoga. Adopted. At the second course the wives, daughters and lady friends of those present filed in amid applause. Gen. McCook apologized for not being able to give a review and dress parade, as was intended. The first toast, "The President," was responded to by Gen. Charles P. Blair, in the absence of Gov. Anthony. The toast "The Military Order of the Loyal Legion" was responded to by Gen. Powell, of St. Louis.

THE Vancouver *Independent* of June 22 says:

Troop F, 2d Cav., under command of Capt. S. M. Swigert, leaves Fort Walla Walla this week for a short tour in the John Day river country.....Lieut. E. L. Bailey, 21st Inf., granted four months' leave, will spend it at Port Townsend, W. T., with his family..... ..Mr. Ben. Holladay is the guest of Major Basil Norris, Medical Director. Their acquaintance was made in 1859, when the express was in its glorious commencement.....A very pleasant progressive euchre party was given by Mrs. and Lieut. S. J. Mulhall at the post June 21, when Miss Mollie Burke, who kindly personated an absent gentleman, carried off the highest honors of the games.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. Left New York Navy-yard June 29, and will go to Newport, R. I., after taking powder aboard at Ellis Island, N. Y.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Boston, June 29.

Will leave Boston on eastern summer cruise, for Provincetown, Portland, Bath, Belfast, Halifax and Bar Harbor, returning to Newport for the opening of the War College on the 1st Monday in September.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. Arrived at Boston, June 29. Expects to go to Canadian fishing banks.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Arrived at Boston, June 29.

Will leave Boston on eastern summer cruise, for Provincetown, Portland, Bath, Belfast, Halifax and Bar Harbor, returning to Newport for the opening of the War College on the 1st Monday in September.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at New Haven June 29.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Cape Town June 6.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro May 19.

TALLAPOOSA, 3d rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro May 19. Comdr. F. W. Dickens has been ordered to command this vessel, and sailed on the U. S. and Brazil mail steamer *Finance*, June 18, en route.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Sailed from Villefranche for Spezzia, June 9. Arrived at Spezzia June 10.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. Reported by cable to have sailed from Spezzia, Italy, June 8, for Lisbon. In a letter dated Villefrauche June 1, Rear Admiral Franklin states that this vessel will stop en route to Lisbon at Tangiers and Gibraltar. After getting new officers and crew at Lisbon will go to Smyrna and Constantinople.

Pacific Station—Rear Adml. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Left the central American coast for the Sandwich Islands May 15. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francso, Cal.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. At Panama June 28.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama June 1.

Ordered to proceed to the Mare Island Navy-yard, where she will be inspected by the Board of Survey.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. In Panama Bay on June 4. Ordered to proceed northward at the end of June.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Panama, June 1. Expected at Payta, Peru, early in June.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. Arrived at Juneau, Alaska, May 12. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Arrived at Rio de Janeiro June 19.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Panama, U. S. of C., June 28.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail. General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama June 2. Intended to leave for Chemulpo as soon as boilers are repaired.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. Left Kobe, June 1, for Yokohama, and expected there June 3.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. At Chemulpo, Corea, June 2.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama June 2.

OMAHA,† 2d rate, 12 guns, Commander F. V. McNair. At Yokohama June 2.

PALOS,† 4th rate, 6 howitzers. Lieut. Comdr. J. E. Craig. At Yokohama June 2.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to care B. F. Stevens, 4 Trafalgar Sq., London, England.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

On Special Service.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. At Fort Monroe June 24.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Arrived at New York, June 29.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. Arrived at Washington June 9.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. Arrived at San Francisco, Cal., June 29.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. At Cadiz June 27. Expected to leave Gibraltar July 6, and reach Madeira July 13. From the latter port she will leave for New London about July 20, and arrive there about August 14.

TRENTON, 2d rate, 10 guns, Comdr. N. H. Farquhar. At Norfolk, Va. Will sail for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*, early in July. Will probably be assigned later to the North Atlantic station. Expects to make a trial trip to Hampton Roads on June 25.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. G. C. Wiltse. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic Squadron. Will be completed about July 1.

Chicago—At New York, where she will be completed. Will be in condition for a trial trip the latter part of July.

Kearsarge—At Portsmouth, N. H., being repaired.

Hartford—Will undergo extensive repairs at Mare Island, Cal., and will hardly be ready for commission this year

---

VARIOUS NAVAL ITEMS.

THE Russian admiralty has ordered that for the future mineral instead of vegetable oils are to be used for lubricating purposes throughout the dockyards and fleet.

IT having been charged that King Kalakaua's Navy, consisting of one vessel, the *Kaimiloa*, is a sort of floating distillery, the following order was issued to Commander Jackson: "You will not take on board any spirituous liquors nor permit any to be brought on to the vessel for the use of yourself, the officers and the crew. This order is in accordance with the expressed views of His Majesty in Cabinet Council."

MR. KUNSTADTER, the inventor of the screw steering apparatus tried on the U.S. tug *Nina* several years ago, is again endeavoring to prevail upon the Navy Department to use his invention on navy vessels. He was in Washington this week and had several interviews with Chief Constructor Wilson and an occasional talk with the Secretary on the subject. Mr. Kunstadter is very anxious that his apparatus should be given another trial to test its merits.

THE *Chicago* is to have her bottom scraped and painted before being subjected to another test for speed and power, and will then be in a far better condition for good results than during her recent performance. She had been afloat for more than a year a half, during which time the marine growths were constantly increasing below the water line. Even then she showed a speed of over thirteen knots the first time the engines were put in motion together, which is better than the usual experience, and a good omen of first class performance later on.

CHIEF NAVAL CONSTRUCTOR WILSON is now having made at the Washington Navy yard a large model of the department battle ship upon the lines of which a vessel is likely to be constructed for the Navy. It has an unprotected intermediate deck, a feature possessed by the Barrow cruiser, which has caused so much comment. It is probable that the Barrow cruiser plans will be accepted as recommended by the Design Board, and the battle ship will be constructed upon the lines of Commo. Wilson. The Chief Naval Constructor desires that the Department vessel be built at the New York Navy-yard to demonstrate to the croakers that the Government is capable of both designing and building good vessels of war without the aid of outsiders.

THE *Hartford's* boilers were hoisted out at the Mare Island Navy-yard, June 20.

THE work at the Boston Equipment Yard is progressing rapidly. Commo. Schley says the alterations to the buildings are well under way, and he hopes that by the end of this summer anchors and chains will be turned out.

A SAN FRANCISCO despatch says: "The paymaster on the Pacific Station states that four officers and fifty men will leave here for Honolulu on Friday per steamer *Alameda* to reinforce the crew on the warship *Adams* now on her way from Callao. Gen. Solomon, of the G. A. R. in this city, has received a letter from Col. Lane, commander of the G. A. R. post at Honolulu, stating that the whites in that place are only waiting the arrival of arms and ammunition to commence what Col. Lane considers will be a serious outbreak."

GREAT interest is shown at the Navy Department among officials in the Bureau of Construction and Repair over the reported successful casting of the sternpost of the *Charleston* in San Francisco. If it should prove to have the right mixture of material to give to the metal that ductility which is now so desirable in vessels of steel, it will be a great success. The recent collision between the *Celtic* and *Britannic* showed that the metal was little better than cast-iron. The tests for the sternposts of the new gunboats and for the *Baltimore* were such as to demonstrate that they could be run into and would bend double before breaking. The post is 22 feet long on the keel, with an upright of 20 feet, and weighs upward of 15,000 pounds. It was claimed by the Eastern competitors for the building of the cruiser that a post of the size necessary could not be cast on the Pacific coast.

DURING the torpedo exercises carried out by the British Mediterranean Fleet before the departure of Admiral H.R.H. the Duke of Edinburgh, a first-class torpedo-boat was let down at a speed of 17 knots against a boom of double baulks of timber 12 in. in diameter and 30 ft. in length fastened together, and three 6 in. wire hawsers. The boom was cut right across as by a knife. On the following day two booms constructed after a similar fashion were moored ten fathoms apart, and the torpedo-boat again charged them, cutting through the first and going over the second. The only damage sustained by the little vessel was some slight derangement to her starboard screw, which in no way affected her efficiency. Upon the boat cutting the baulks, the wire hawsers, which formed the "backbone" of the boom and connected each pair of baulks, sank down, and the boat passed over them.

THE first-class armorclad *Marceau*, built at La Seyne, near Toulon, for the French Navy, was successfully launched on Monday, June 13. The principal dimensions of the new vessel are: Length, 100.6 metres; beam, 20.12 metres; draft of water, aft, 8.27 metres; displacement, 10,500 tons. The engines of 12,000 horse-power at forced draft, are expected to give a speed of 16½ or 17 knots. The *Marceau* will be protected by an 8 centimetre armored deck, and by a belt on the water line of 45 centimetre maximum thickness. The turrets are to carry 35-centimetre plates, and will be further protected against rifle fire by a 6-centimetre shield. The armament will consist of four 34-centimetre guns placed in the four barbette turrets, and seventeen 14-centimetre guns in the battery, besides machine guns and torpedo-launching tubes. The total cost of the *Marceau* is estimated at seventeen millions of francs. The hull alone costs ten millions.

THE Russian Government is expending nearly two millions of dollars ($1,935,000) in establishing a new naval station at Novorossisk, on the Black Sea, midway between Sebastopol and Batoum, besides $1,500,000 on port improvements at Batoum. Novorossisk possesses an almost land-locked bay of nine miles in circumference, containing the sites of a half-a-dozen good harbors. The anchorage is everywhere good, and the erection of a breakwater near the mouth of the bay will render it perfect. The present port of Novorossisk is on the south side of the bay, where it was established on account of being easily defended against the hill tribes, but the new port will be situated on the east side. The bulk of the money is being spent to complete the connection between the railway and the port, and make the moles and quays; but an extensive site has been reserved for men-of-war, and in the autumn the Russian Admiralty will commence the expenditure of another grant, said to exceed a million dollars, to equip it as a naval station. The Rostoff-Vladikavkaz Railway—the main trunk line from Moscow to the Caucasus—has been extended to the new port during the winter, and will be opened for traffic next month. Russia will be then able to concentrate troops and stores on the Caucasian coast, and repel any invasion north of Soukhum Kale.

THE London *Army and Navy Gazette* says: "There has been much comment in a home dockyard at the unusual lack of hospitality and courtesy to a party of young officers from a foreign ship who paid a friendly visit of inspection. We think there must have been some grave mistake and misunderstanding in the matter, and the neglect was unintentional, especially as the visitors belong to a nation which is renowned for its liberality in entertaining and welcoming the British Navy. The facts of the case are as follows: The officers from the foreign man-of-war having arrived at the dockyard, two midshipmen were told off (from a ship in dock) to show the strangers 'round, and to point out to them any objects of interest. This pleasant occupation was continued for several hours with great success, and was much appreciated by the visitors; but at last the cravings of nature, which 'abhors a vacuum, began to assert themselves, and the two gun-room guides were much perplexed what to do. They evidently fully expected that a luncheon by the senior naval officer was part of the programme, and were much surprised that no message or intimation to that effect was vouchsafed; finally, they conducted the party to the principal hotel, and left them there. The hungry strangers indulged in a good repast; but they were much surprised when the landlord presented his small bill. They thought, until the last moment, that they were the guests of the Admiralty, or of the officer in command; and they cannot even now quite understand this curious British 'institution' (so different from the customs of their own country)."

THE only bid for the construction of an iron floating gate, or caisson, for the dry dock at the Boston Navy-yard was that of the Atlantic Works, of East Boston, for $33,500. The sum available is $31,000.

THE New Haven Naval Veteran Association, to show its appreciation, sent 400 badges "to be presented as souvenirs to the officers and men who participated in the parade and so handsomely graced the head of the naval division, for your officers and men were the attractive feature of the parade and excited universal admiration."

THE New York *World* says: "Secretary Whitney s the athlete *par excellence* of the Cabinet. He is an enthusiast in regard to sports. He is actively pushing a scheme for the establishment of a large riding-school in Washington. He has recently become an active member of the Columbia Athletic Club, the most prominent organization of its kind at the capital. There are those who claim that Secretary Whitney's sudden interest in gymnastics is owing to the election of Wm. E. Chandler to the Senate."

THE North Atlantic squadron, consisting of the corvette Richmond, with Rear Admiral Luce's pennant; the Ossipee, the Galena and the Yantic arrived at Boston, June 29. In the passage over Nantucket Shoals from Newport it was early discovered that the Ossipee's engines would only turn over in one direction, owing to the breaking of the reversing gear. The Galena took her in tow and no mishap occurred. The remainder of the squadron will follow in a fortnight. The present plan is to go up the St. Lawrence as far as Quebec.

SAMUEL J. P. THEARLE, N. A., a Lloyd Surveyor, has published in England (London and Glasgow, Wm. Collins's Sons and Co.,) a treatise on the modern practice of shipbuilding in iron and steel. He tells how a ship is "laid off" or drawn, how materials should be ordered, giving specimen order forms; how the blocks should be laid, the upright spars carrying the working stages constructed, and how various methods and forms of construction should be carried out in detail. The book is copiously illustrated with little engravings, which greatly aid in the comprehension of the text.

BIDS for constructing the new dry-docks, for which provision was made by the last Congress, have been received at the Navy Department from Coffy and O'Connell, of Brooklyn, and Joseph E. Simpson and Co., of New York. Coffy and O'Connell offer to build the Brooklyn dry-dock for $525,000, while the Simpson Co.'s bid covers both the Brooklyn and Norfolk docks at $1,061,000. With each bid plans and specifications were submitted, which will be carefully examined and reported upon by a board appointed for the purpose, consisting of Civil Engineers Menocal and Prindle, and Naval Constructor Hichborn. The awards will be made by Commodore Harmony, Chief of the Bureau of Yards and Docks. The contracts will require the work to be commenced within 40 days after the awards, and it is believed that about two years time will be required to complete the docks. The Bureau of Yards and Docks has prepared original plans for both of the new docks, which will be used in case those submitted by the bidders do not prove satisfactory.

THE torpedo experiments on the *Resistance* have been resumed. On Monday, June 13, 95 pounds of gun cotton were exploded in contact with the hull and sunk the ship. On the torpedo being fired the vessel, with 4,000 tons displacement, was lifted bodily out of the water and went down with a terrific bump. At the same time a great volume of mud and coal dust was blown up at the ship's side, while a huge cloud of coal dust was blown up through the hatchways, and was carried away in the form of smoke from the upper deck. She settled down with a heavy list to starboard, and in a very few minutes had sunk as far as the shallow water would allow her. The ship is now full of water and making a dock for herself in the mud, and it is anticipated that difficulty will be experienced in removing her. On divers going down on Tuesday morning to examine the hull and ascertain what damage was done, it was found that a rent 18 ft. by 8 ft. had been made, with two deep holes at either end, the skin being torn away and the framework smashed in. Three of the watertight compartments were full, showing that the bulkheads have been displaced, if not likewise rent asunder, which is borne out by the fact that the deck appears shaken.

It has been discovered after a second inspection of the *Hartford* that the old battle ship is much more rotten than was at first supposed. A second survey has resulted in a report that her repairs will cost $76,000 more than was at first reported. This additional sum makes the estimated cost of repairs twelve per cent. more than allowed by law. It is thought, however, that under the act making a special appropriation for the repair of certain vessels, among which the *Hartford* is named, she can be made seaworthy without regard to the twenty per cent. limit. An officer of the Mare Island Navy-yard is reported as saying: "The repairs to the *Hartford*, comprising hull, spars, boats and furniture would not cost over $98,000, which is 17½ per cent. of the cost of building a wooden vessel at the present time. The *Hartford* was built in Boston in 1858 at a cost complete of $502,650, of which $120,000 are chargeable to machinery and $5,000 to rigging and sails. The condition of the *Hartford* is not bad and it is difficult and expensive work about her which makes repairs so costly. Her frame is live oak and is as sound as when first cut, but the outboard and inside planking in the after part of the ship is very rotten. In fact, it appears that she has not been touched there for 18 or 20 years. The removal and replacing of all this planking is five times more expensive than if the work was being done on her sides. The planking of her main deck is badly worn and will have to be removed, but the other decks as well as the beams, are in good condition. All the joiner work in the cabins and wardroom is in good condition, being mostly only five years old. The spars are sound and the boats in first-class order. The machinery is in need of some overhauling and new boilers are required, but there is a set of boilers partially completed for the *Tuscarora*, which ship was sold and broken up three years ago, that can be put into the *Hartford* for $70,000. The rigging and sails will probably require an outlay of $10,000, and the total expense of rejuvenating the ship and making her good for six years, at least, will not exceed $175,000. The cost of building a similar vessel now would approximate $1,000,000."

The *Ranger* arrived at Mare Island June 29.

NAVY GAZETTE.

Ordered.

JUNE 24.—Medical Inspector Michael Bradley to report for duty at the Naval Hospital, June 30.

JUNE 25.—Captain John G. Walker, Commander W. S. Schley, and Lieutenant (junior grade) Wm. R. A. Rooney to examination for promotion.

Lieutenant Chas. A. Gove to duty at the branch Hydrographic Office, Boston, Mass.

Assistant Surgeon H. N. T. Harris to duty at the Naval Hospital, Navy-yard, Mare Island, Cal.

JUNE 27.—Lieutenant H. T. Monahan to temporary duty on board the Chicago.

P. A. Engineers Harrie Webster, R. R. Leitch, and C. P. Howell to temporary duty on board the Chicago.

June 29.—Lieutenant-Commander John K. Winn to temporary duty as Inspector of the 7th Lighthouse District in addition to his present duties.

Detached.

June 24.—Lieutenant C. J. Boush from the Naval Academy and ordered to the Trenton.

Medical Inspector J. C. Spear from the Naval Laboratory, New York, and granted three months' leave of absence.

JUNE 24.—Medical Director D. Bloodgood from the Naval Hospital, Norfolk, June 30, and ordered to the Naval Laboratory, New York.

JUNE 25.—P. A. Surgeon C. W. Deane from the Naval Hospital, Mare Island, Cal., and ordered to duty at the Naval Rendezvous at San Francisco, Cal.

P. A. Engineer Harrie Webster from temporary connected with the Chicago and placed on waiting orders.

JUNE 27.—Lieutenants A. B. Speyers, J. J. Hunker and John A. H. Nickels from the Navy-yard, New York, and ordered to temporary duty on board the Chicago.

Naval Cadets Robert E. Coontz, Charles C. Poe, Benjamin Wright, Albert Burnstine, Arthur H. Dutton, Charles M. Corpening, James T. Bootes, George R. Evans, Glennie Tarbox, Wm. W. Gilmer, Charles M. McCormick, James E. Shindal, Thomas B. Slade, Edward W. Eberle, David S. Nes, Armistead Rust, Benj. M. Lombard, Robt. L. Russell, John P. McGuinness, Harrison A. Bispham, Joseph Strauss, Wm. McKay, Charles Stanworth, Walker W. Joynes, Geo. W. Kline, George R. Slocum, Wm. G. Miller, Volney O. Chase, Theodore C. Fenton, Albert C. Dieffenbach, and John Tawresey from the Naval Academy and ordered to proceed home and wait orders.

JUNE 28.—Ensign A. C. Almy for Ordnance Instruction at Washington Navy-yard and ordered to ordnance duty at that yard.

Paymaster John F. Tarbell has reported his return home, having been detached from the Juniata on June 13, and after settling accounts will wait orders.

JUNE 29.—Lieutenant John M. Hawley from the Trenton and ordered to the Naval Hospital, Chelsea, Mass., for treatment.

Assistant Paymaster J. D. Doyle has reported his return home, having been detached from the Iroquois March 24 last, ordered to settle accounts and then wait orders.

Assistant Engineer Goold H. Bull from duty at the University of Pennsylvania, July 1, and ordered to special duty in connection with the new cruisers.

Appointments.

Samuel W. Armistead, an Assistant Naval Constructor in the Navy from June 30, 1887.

Retired.

JUNE 29.—Lieutenant-Commanders E. B. Thomas and E. L. Amory, Lieutenants R. H. Townley and E. W. Bridge, Ensign W. F. Toppan, Chief Engineer W. J. Lamdin, P. A. Engineer L. W. Wooster and Assistant Engineer W. O. Chrisman placed on the retired list of the Navy.

Passed Examination.

JUNE 29.—Captain John G. Walker and Commander W. S. Schley passed their examinations for promotion, the former to be commodore and the latter to be captain.

Resigned.

Assistant Engineer W. S. Sample to take effect June 27, 1887.

Lieutenant-Commander J. E. Noel, to take effect June 30.

Changes on the Asiatic Station.

Captain F. V. McNair reported May 26 from the United States for the command of the Omaha, and assumed command of that vessel at Yokohama, May 26.

Lieutenant-Commander J. E. Craig reported May 31 for the command of the Palos, and assumed command at Yokohama on May 31.

Lieutenant-Commander T. Nelson relieved in command of the Palos and ordered to return to the United States.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending June 27, 1887:

Frank Stearns, beneficiary, died June 25 at Naval Hospital, Philadelphia, Pa.

THE NORTH ATLANTIC SQUADRON.

THE North Atlantic Squadron, Rear Admiral Stephen B. Luce, commanding, arrived in Newport harbor, June 25, from Gardiner's Bay, Long Island. The fleet consists of the flagship *Richmond*, Captain Richard Boyd, and corvettes *Ossipee*, Comdr. Wm. Bainbridge Hoff, *Galena*, Comdr. Colby M. Chester, and *Yantic*, Comdr. Francis M. Greene. As the fleet dropped anchor in the outer harbor beyond the Torpedo Station, the *New Hampshire* saluted the admiral with 13 guns, which were responded to by seven guns from the *Richmond*. The ships sailed from Gardiner's Bay at 6 o'clock Saturday morning, stopping at Brenton's Reef lightship for target practice.

The squadron left June 28, the *Ossipee*, after taking on a supply of coal, proceeding to the Canadian fishing grounds to look out for the interests of American fishermen, and the *Richmond*, *Galena* and *Yantic* continuing their eastern summer cruise, visiting Provincetown, Boston, Belfast, Halifax and Bar Harbor, returning to Newport about August 24 for the opening of the third session of the Naval War College at Coasters' Harbor Island. The *Dolphin* and *Atlanta*, which were ordered to join the squadron at New Haven, if possible, are still at the New York Navy-yard.

(Correspondence of the Army and Navy Journal.)

NAVAL ACADEMY.

AS A result of the May examinations for admission to the Naval Academy there are only five vacancies remaining to be filled. The two candidates designated by the President having passed, he now has his quota of ten and there will, therefore, be no further appointments at large by the President during this administration. The following is a list of the successful candidates who have been appointed as Naval Cadets: Charles Theodore Jewell, at large; Thomas Jones Genn, 2d South Carolina; De Witt Blamer, 3d Iowa; Charles Rulf Emrich, 10th Illinois; Louis Herman Gross, 19th Illinois; Louis J. McGill, 27th Pennsylvania; Joseph Allan Leeds, 2d Pennsylvania; Joseph Keeler Robinson, 1st Michigan; Wm. Hessler McKelvey, 22d Pennsylvania; Elwin Taylor Pollock, 9th Ohio; Edward Trickle, 7th Illinois; Harry Eaton Smith, 10th Ohio; Wm. Hugh McGrann, 10th Tennessee; Daniel Benjamin Hinde, 12th Indiana; Robeson Lea Low, 1st Pennsylvania; Adelbert Althouse, 6th Illinois; Charles Follett Consant, 2d Michigan; Van Dyke Todd, 4th Texas; Charles Allen, 16th Ohio; Thomas Steele Kellogg, at large; Timothy Francis Maurin, 2d Louisiana; Wm. Lewis Waller, 5th Virginia; Thomas Leoline Jenkins, 2d North Carolina; Roby Robinson, 3d Alabama; Geo. W. Laws, 8th Iowa; Wm. Lycurgus Lancaster, 5th Alabama; Albert Sidney McLemore, 7th Tennessee; Harley Hannibal Christy, 8th Ohio; Elisha Theall, 4th New York; Rufus Herman Lane, 17th Ohio; Lucien Greathouse Smith, 18th Illinois, and Archibald Authon, 12th New York.

NAVAL GENERAL STOREKEEPERS.

THE following will compose the forces of the General Storekeepers at the Navy-yards mentioned: Brooklyn—W. S. Thom, chief clerk, $1,600; J. E. Redmond, B. McNulty, and W. J. Finley, bookkeepers, $1,200 each; C. M. Cooper, asst. book-keeper, $1,000; W. M. Birch and E. S. Van Orden, receivers, $4 per diem; Wm. M. Gibson, asst. receiver, $1,099; R. S. Swanton, Archibald Fulton, and B. L. Roys, shipping clerks, $1,000; T. W. Arms and F. M. Caufield, bill clerks, $1,000; F. W. Dow, asst. bill clerk, $720; Geo. W. Raymond, asst. book-keeper, $720; Washington—Jos. S. Stevenson, chief clerk, $1,600; H. T. Stancliff, Jr., stationery clerk, $1,200; H. K. Gray, book-keeper, $1,200; H. C. Lybrand, shipping clerk, $1,000; R. A. Bagley, bill clerk, $1,000; F. G. Errickson, receiver, $1,000, and F. L. Thompson, asst. book-keeper, $720. Norfolk—R. H. McWilkie, chief clerk, $1,600; E. B. Page and Wm. Easby, bookkeepers, $1,200; M. C. Woodley and A. M. Higgins, asst. book-keepers, $1,017; J. H. Peters, bill clerk, $1,000; J. G. Start, asst. bill clerk, $720; J. D. Cutherill, receiver, $942; S. Ballis, asst. receiver, $720. Portsmouth, N. H.—Spencer Cosby, chief clerk, $1,600; Geo. W. Guppy and John E Leavitt, bookkeepers, $1,200; Thos. F. Donovan, receiver, $1,000; Jas. E. Chase, shipping clerk, $1,000; Jeff Lewis, bill clerk, $1,000. Boston, Mass.—Thomas J. Ferguson, chief clerk, $1,600; Samuel J. Cochran, bookkeeper, $1,017; W. L. Carey, receiver, $939; Charles Beatley, shipping and bill clerk, $939. League Island—W. M. Long, chief clerk, $1,600; Alonzo Hughes, bookkeeper, $1,200; Geo. D. Carney, receiver and deliverer, $1,000; Francis Kelley, assistant receiver, $720. Mare Island, Cal.—No chief clerk appointed: J. H. Connelly and A. J. Pike, bookkeepers, $1,200; St. Clair Fletcher and E. A. Mitchell, assistant bookkeepers, $720; Daniel Hubbard, receiver, $1,000; C. H. Barth, shipping clerk, $1,000; C. H. Wonderlich, bill clerk, $1,000; J. Blessington, assistant bill clerk, $720.

A LITTLE MORE TARGET PRACTICE.

To the Editor of the Army and Navy Journal:

A LETTER in your issue of May 28 signed "Progress," referring to the opinions published that considerable false work had been manifest in the records of target practice in the Army, says: "It would be of interest to the Service for the posts, regiments or companies at which false certificates are made to be located."

The records of target practice published last year are very full and complete, and are open to the inspection of all who will take the interest to examine them; and by so doing the experienced rifleman will locate at a glance 75 per cent. of the companies in which false work was done.

It is barely possible that all men assigned to a company may qualify as sharpshooters, but it is exceedingly improbable. If a company reports four or five men as having qualified as sharpshooters at 1,000 yards in firing but four scores each, and all of them without any previous distinguished records as marksmen, further proof of false work in such company is not required.

The false records given to some companies in skirmish practice are too manifest to require comment; but, you may ask, how are such records obtained? One way is to form the skirmish line at 600 or 500 yds., and march it half way to the target before making a halt, and then seven or eight out of the ten halts are made between 300 and 200 yds., with little regard to the time allowed at each halt, or to the double time between halts. Another way is to practice the company over the same ground all the time, taking care that the halts are always in the same places, and near the marked distances on the range, with the same disregard of the rules as to time at halts and to double time.

From my experience with many of the best skirmishers in the Army, I do not besitate to state that there is not a company in the Service that can make over 50 per cent. in skirmish practice if conducted in accordance with regulations; and I believe with Capt. Kellogg, and many others, that it is high time that the publishing of false records should cease.

Put one company against all others in fair competition, and the result will be a greater emulation and interest in target practice than now exists.

CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

FIRST LIEUTENANT OF INFANTRY (First Lieut. since 1883) desires transfer. Address
TRANSFER, ARMY AND NAVY JOURNAL.

ANNOUNCEMENT.

TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

While the Company he represents has no superior in the country for security or for liberality in its policies to officers in the Military Service, yet he will be pleased to advise and assist officers who may prefer to place their insurance in other reputable companies. Information as to the standing of the various companies and their relative profitableness for investment he will gladly communicate to those who desire it; also advice as to kind of policy best suited and most profitable to those of different ages.

By this announcement the undersigned hopes that he may serve the interests of his brother officers, enabling them to place their insurance in the most substantial and profitable companies, in a form of policy most advantageous to themselves.

F. A. KENDALL, Capt. U. S. A. (Retired.)

Proposals for Steel-Cast Guns for the Navy.

NAVY DEPARTMENT,
WASHINGTON, D. C., June 23, 1887.

Under authority conferred by the act of Congress, approved March 3, 1887, making an appropriation "for the purchase and completion of three steel-cast, rough-bored and turned, six-inch, high-power rifle cannon, of domestic manufacture, one of which shall be of Bessemer steel, one of open-hearth steel, and one of crucible steel," sealed proposals from domestic manufacturers, to furnish the same, will be received at this Department until Tuesday, the second day of August, 1887, at 12 o'clock noon, at which time the proposals will be opened.

Proposals may be made either to furnish three completely finished six-inch, breech-loading, high-power rifle cannon, made from unforged castings, one of Bessemer steel, one of open-hearth steel, and one of crucible steel, or three unforged, rough-bored and turned castings for such cannon, of the same material, respectively, to be finished by the Department in accordance with the bidder's design.

Such finished guns or such castings must be in accordance with the specifications prepared in the Bureau of Ordnance, and each gun, when completed, must be capable of safely discharging projectiles weighing 100 pounds each, with a muzzle velocity of not less than 2,000 feet per second.

No gun or casting for a gun will be paid for until the gun "shall have been completed and have successfully stood the statutory test required by the act of July twenty-sixth, eighteen hundred and eighty-six," entitled "an act making appropriations for the naval service for the fiscal year ending June thirtieth, eighteen hundred and eighty-seven, and for other purposes."

Proposals may be made separately for one or more guns or for one or more castings as aforesaid, but no proposal will be considered unless accompanied by satisfactory evidence that the bidder controls a plant adequate to the production of the gun or guns, casting or castings which he proposes to furnish.

Each successful bidder will be required to execute, within fifteen days after notice of award, a formal contract in accordance with his proposal, and to furnish a bond, with satisfactory sureties, in a penal sum equal to fifteen per cent. of the amount of his bid, conditioned for the faithful performance of such contract.

Copies of the specifications, with blank forms of proposals, and all additional information desired, can be obtained on application to the Bureau of Ordnance, Navy Department.

All proposals must be in duplicate, enclosed in envelopes marked "Proposals for Steel-cast Cannon," and addressed to the Secretary of the Navy, Navy Department, Washington, D. C.

The right is reserved to waive defects in form and to reject any or all bids.

WILLIAM C. WHITNEY,
Secretary of the Navy.

SPON'S MECHANICS' OWN BOOK,

Explaining the various mechanical trades that deal with the conversion of wood, metal, and stone into useful objects from an every day practical view. 702 pages with 1420 illustrations. Sent, postage prepaid, on receipt of $2.50.

E. & F. N. SPON, 35 MURRAY STREET, New York.

AN order announcing the price list of clothing for the ensuing year for the enlisted men of the Army will shortly be issued from the Adjutant-General's Office, to take effect July 1.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JULY 2, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

Cable address: 240 Broadway, New York.
ARMYNAVY.

OUR NAVAL ORDNANCE.

WE find that some naval officers are disposed to complain because we call upon our naval ordnance officers for proof of accomplishment before according approval of their work, and still more because we show an indisposition to aid in concealing mistakes and apologizing for defective work. "The Navy," said one naval officer, "are accustomed to wash a good deal of dirty linen among themselves, but they desire to keep it to themselves, and think that a professional journal should aid in concealing from the general public what is open to criticism." We do not believe that this is the general sentiment of the Service, and we doubt whether even this particular critic would hold to his opinion when he came to consider it in all of its bearing. He certainly would not advise the Navy to imitate the folly of the ostrich who conceals himself from assault by hiding his head in the sand. And precisely how a Service journal is to express its opinions privately does not appear: it would seem to be sufficient to ask that it be fair in its statements, and that its criticisms be kept within the facts of the case. As to this we may say that we are always subject to correction, our columns are at all times open to those who wish to controvert our positions, and thus far no statement we have made with reference to the work of our ordnance officers has been called in question in any authoritative way. Naval officers who are at all familiar with the subject are well aware that we have kept within the facts, so that the only question is as to whether criticism is allowable at all. As to that we shall be guided by our own judgment.

We have always shown a disposition to give generous credit for what has been accomplished for the improvement of naval ordnance, and to recognize the intelligence, ability and energy displayed in an unfamiliar work; but, unfortunately, what we need in matters of ordnance is not relative but absolute excellence; not creditable prentice work, but perfect mechanical accomplishment. In these are involved the lives of our men, the safety of our ships, the credit of the Navy, and even the honor of the country. No individual man; no class of men; no expert and no congregation of experts has any rights here that are not subordinate to the higher considerations of public safety which the members of a patriotic service cannot fail to recognize as controlling.

Now, how are we to obtain the perfection for which we strive — or the nearest possible approach to it which is possible under the existing conditions of mechanical science? Is it by exhausting ourselves in admiring praise of what has been done, and the concealment of still-existing deficiencies, or is not rather by an exacting comparison of what we have to show with the best standards, and the display of a critical spirit of inquiry as to its

exact value? If the work of our ordnance officers will not bear inspection, then beyond all question it should be subjected to rigid investigation, and to the most unsparing criticism; if it is in every way creditable inquiry will only serve to make its merits known. Whatever credit is to be given for accomplishment thus far, no man who is honest with himself will refuse to admit that much lies beyond the best attainment. It is only the novitiate who imagines that he has reached or even approached uncriticisable perfection. "The practical application of an idea in a working machine"—which a gun is—says a recent writer, "frequently destroys in an hour cherished fancies of years. From this crucial test, no inventor can escape. It searches not only his work but also himself. It reveals at once his genius, his knowledge, and his disposition. No one who conceives of himself as already knowing anything that he has not profoundly and *experimentally* studied can ever produce anything or learn anything in mechanics. He exemplifies the proverb: 'Though thou shouldst bray a fool in a mortar among wheat with a pestle, yet will not his foolishness depart from him.' An individual may, from a knowledge of general principles and from familiarity with like attempts, be able to say in any particular case what will not answer; to detect perhaps at a glance defects that are hidden from others; but whenever *he* attempts to produce anything new, even in the field with which he is most familiar, something will certainly escape him until it is revealed by experiment."

Is not this strictly true, and is it not in the light of this principle that ordnance questions should be considered, not only by those who are most directly concerned with them, but by us, whose office it is to report results and to consider possibilities? "Faithful are the wounds of a friend," and it is in the spirit of friendship for the naval service, of which we have given proof during an association extending now over a quarter of a century, that we consider its defects and its shortcomings.

As to the Naval Bureau of Ordnance we think that one of their chief mistakes is in surrounding themselves and their work with an air of mystery, and asking us to accept loose assurances that everything is as it should be, without giving proper proof of their work. Though the Army Ordnance Bureau is not to be set up as a model in this respect, we can at least commend to the imitation of the Navy their action in subjecting to an exhaustive test the VIII.-in. B. L. Rifle completed from their drawings, for the Army Board and under its supervision. From this test the country will learn something of the endurance and capacity of the guns for which they are asked to pay. Let the Navy Bureau of Ordnance take a hint from this, and instead of inviting criticism by vainly endeavoring to conceal defects, accidents, and mistakes, let them disarm the critics by a free, open, and above-board conduct and give the Navy full information concerning the efforts at gun-making in which they seem to be following the not altogether safe precedents of the English ordnance service. The value of our naval guns should not be a matter of guesswork; yet, so far as our knowledge goes, no man can tell what will be the result of a crucial test of a single one of the many pieces of artillery assembled and finished at the Washington Ordnance Yard. We are informed that neither of the ten inch guns supposed to be finished can be fired even at a target, because the threads of the breech block and those of the gun do not coincide, and it is not exactly certain which of them is wrong. If it is the block then the damage is not serious, but if the mistake shall be found to exist in the breech of the gun it will be a most serious affair. Let the Bureau of Ordnance fit up a gun, big or little, subject to a real test, fire it as though against an enemy until it gives out, and if it stands the ordeal the country may congratulate itself; if, on the other hand, it fails we shall at least know what not to do.

THE President has approved the recommendation of the Naval Retiring Board in the cases of the following naval officers, and they will be placed on the retired list: Lieutenant-Commander E. L. Amory, Chief Engineer W. J. Lamdin, Lieutenant-Commander E. B. Thomas, Lieutenant R. H. Townley, Gunner W. E. Webber, P. A. Engineer L. W. Wooster, Asst. Engineer W. O. Chrisman, Lieutenant E. W. Bridge, and Ensign F. W. Toppan.

REORGANIZING NAVAL BUSINESS.

THE new system of purchasing for the Navy went into practical operation on Friday. Secretary Whitney has every reason to feel satisfied with the prospect of success in the new departure, though no one imagines that the system will work smoothly at first, as it is a radical departure from the precedent of forty years. A change under such circumstances cannot be made at once, but there is every reason to suppose that within the first half of the next fiscal year it will be clearly demonstrated that Secretary Whitney has devised a method of conducting the affairs of the Navy according to purely business principles. The Secretary's purpose is to arrange a system of book-keeping which will enable the Department to ascertain at any time precisely what its assets are; how many ships it has, and their exact value, and the amount of naval stores and equipment on hand with their worth. Thus the balance sheet of the Navy at the end of the fiscal year will show the exact condition of the naval exchequer. The new system of purchases virtually transforms the Bureau of Provisions and Clothing into a storeroom. Though the Paymaster-General will make purchases in bulk for the Navy upon the estimates made by the chiefs of bureaus for their needs, during the year the chiefs will have absolute control over their appropriations and the supplies purchased for them, it being no part of the plan, as seems to be supposed, to give the Bureau of Provisions and Clothing supervision of the bureau requisitions. The bulk supplies can be drawn on by the bureaus to the extent of the funds they have on hand for them and within the limit of their appropriation, the various bureaus will have control of supplies but, instead of purchasing, as heretofore, the Chief of Bureaus will simply approve requisitions on the supplies purchased in bulk.

Under the new system the force of employees on purchasing and recruiting duty at the various navy-yards will be reduced to seventy-four; eighteen at New York, nine at Washington, Boston, Norfolk and League Island each, the remaining twenty being divided between the Portsmouth yard and the naval stations. The service under the Bureau of Provisions and Clothing under the old system during this fiscal year required 208 clerks, with salaries amounting to over $180,000. During the next fiscal year only one hundred and thirty eight employees will be required at a cost of $155,000, and the salaries are to be increased. The bookkeepers will receive $1,200; entry clerks, $1,000, and assistant entry clerks, $720.

The Paymaster-General will be allowed ten additional clerks to conduct the business of his bureau. These will doubtless be the finance clerks of the other bureaus. Finance Clerks Shock, Wilson, Kingsley, Sargent and Cassin, who are now at work with Captain Brown's Board, will undoubtedly be among those selected for transfer to Provisions and Clothing. The Secretary of the Navy has issued an order of instructions to the General Storekeepers at the various yards. They provide for ledgers for purchased, manufactured and condemned articles, and record books for contracts and reservations; buildings and grounds, tools, machinery and plant; ships and permanent outfit of the same; separate ledgers will be kept for each Bureau; to be part of the permanent records of the General Storekeeper's Office and not to be removed.

After articles have been duly examined and certified to by the proper Board of Inspection, the invoice is to be transferred to the receiving clerk, who shall certify to their receipt. The invoice shall then be transmitted to the bookkeeper, who shall post from it into the ledger. Requisitions shall be given the delivery clerk to fill, then to the bill clerk to invoice from check numbers, and thence to the bookkeeper to post into the proper ledger. Expenditures shall be made at an average cost price, to be ascertained at the close of each quarter; for succeeding quarter to be made at said preceding quarter's average. For the quarter ending Sept. 30, 1887, the price, as stated in the quarter ending June 30, 1887, shall be considered an average. If, however, no average is stated, one should be made from the return.

Vouchers shall be made in triplicate, one copy to be retained by the General Storekeeper and numbered serially for each year. They will show the complete history of each transaction, with dates, signatures, approvals, etc., and will be bound and retained as permanent records. Separate returns for each Bureau shall be made quarterly by the General Storekeepers, the articles and those manufactured to be kept separate. Vouchers required to properly audit such returns will be sent with them. All returns must be recapitulated, showing the money value in hand under cognizance of each Bureau. Yearly returns will be made of such property as Buildings and Grounds, Tools, Machinery and Plant and Vessels with permanent equipment. The circular further provides that:

Invoices or vouchers of expenditures "for use," whether to Bureau representatives, expended to Ships in commission, condemned by survey or disposed of in any other way, except by transfer to another Yard or Station, when they are still available to issue, shall have the voucher number expressed in Black ink, all others in Red ink. When compiling Quarterly Returns from the Ledgers, those expended for use shall be grouped together consecutively, the totals added and the amounts stated directly under the last entry in Black ink, small figures. All expenditures by transfer shall form a second consecutive group, amounts stated as above, and expressed in Red ink, thus enabling the proper Accounting Officers to separate the articles actually expended from those still available.

All stores condemned by survey shall be expended on the proper Ledger, by voucher to "Condemned by survey," and taken up at average cost price on the Condemned Ledger at said price. When sold, the amount received shall be duly entered, and the account balanced by an entry to "Gain" or "Loss," as the case may be. All stores landed from ships shall be taken up on the proper Ledger as available, and afterwards, such as may require it, shall be subjected to the action of the Board of Survey. Such as are landed as already condemned shall be taken up at once upon the Condemned Ledger and treated accordingly.

The General Storekeeper shall post from the copies of contracts furnished him into the Record-Book, in which shall be further noted all deliveries under said contract, with amount of reservations.

The Record-Books of Buildings and Grounds shall give as accurate description, size, condition and use of buildings, with the appraised value of both buildings and land, as can be obtainable. This data should be given by a legally constituted Board of Appraisement and Survey, a copy of which report, after approval, should be transmitted to the General Storekeeper. This should be corrected every year by other Boards of Appraisement, and in all cases a reasonable sum should be charged off for deterioration by use.

The same methods should be employed in keeping the records of Plant, Tools and Machinery, Ships and Permanent Equipment.

While the nomenclature of Bookkeepers, Receiving, Delivery and Bill Clerks has been adopted as indicative of certain duties to be performed, it is the intention of the Bureau that all employees of General Storekeepers shall be interchangeable, and that they shall be employed on whatever duty is pressing or to which they may be assigned.

LET THE ARTILLERY RALLY.

THERE can be no doubt that the artillery, roused by Professor MICHIE'S paper, is now stirred as it has not been for years and fairly quivers with suppressed energy in its effort to start some plan that shall revivify it. There are now, so far as we have seen, three distinct movements initiated, and, unless the artillery shall agree on some one plan of action, their efforts by interfering will impair the chances they undoubtedly have of accomplishing something this year. Two of the plans submit distinct measures as those best suited to present needs, and each has its merits and each its defects. Now time is precious, and the artillery, if they are to accomplish anything, must agree upon something.

The most sensible suggestion that has appeared—the only one that makes its primary object that of securing unity—is that coming from Fort Monroe. This suggestion is to form an "artillery council to be composed of two officers from each regiment, these officers to be chosen in their regiments by ballots forwarded to the regimental adjutants." Every artillery officer thus votes for two officers of his regiment to represent him, or the council: the two officers in each regiment having the highest number of votes are the representatives of the regiment on the council, there being thus ten carefully selected officers constituting the council. The scheme provides that "From the time of election to that of assembling the senior officer should have charge of all preliminary preparations necessary to the carrying out of the plan," which is "to ascertain the points upon which the majority can agree, and then, to the exclusion of all others, urge the adoption of these upon Congress." The place of meeting is left to the selection of the council. No officer can say that he has not had opportunity to be heard, for, besides inviting an expression of approval or disapproval, the plan has this excellent feature: "All officers having definite plans and ideas concerning the reorganization and needs of the artillery, ought, as a duty they owe to the common good, to submit them to one or the other of the representatives of their regiment," to be subsequently considered by the council. It is not unreasonable to suppose that a

body so constituted and so furnished with information would be able to "formulate a bill that would receive the substantial support of the artillery as a whole." The principle is truly American; it is the one adopted in organizing this government; it is embodied in our constitution, and crops out in our laws; it pervades political life, it must always be resorted to when unit of action is required. It may not give the artillery all they need; it certainly will give them all that can be obtained by any plan that starts with a fixed bill or scheme, and without the general sanction and support of the artillery.

Harper's Magazine for July contains an admirable sketch of cadet life at West Point, by a graduate of the Military Academy, CHARLES KING, U. S. A., whose name is a sufficient guarantee for the interest of the article, and who is, we are happy to assure the New York *Tribune*, which seems to hold to the contrary opinion, still among the living, and full of promise of good things yet to come. His present article contains illustrations entitled "First-class Magnates," "Marching to the Mess Hall," "Walking an Extra," "Officer of the Day," "Turn Out the Guard," "Plebe Drill," "The Light Battery," "The 'Row' at Dress Parade," "Rally on the Colors," "On 'Flirtation,'" "The Graduating Hop," "Sunday Morning Inspection," "En Reconnaissance," "Candidates Turn Out Promptly." At the end is a significant view of a cadet with his companion in "flirtation walk," their heads being discreetly hidden by an open umbrella, leaving us to surmise what is going on under its friendly shade. Referring to the subject of hazing, Captain KING says: "At most colleges it was the meek and most friendless of the Freshmen who came in for the liveliest hazing; the rich and influential had means of escape. At West Point the very opposite was the case; the higher in rank or riches was the father, the more presumably had the son to be 'taken down' to reach the rabidly democratic standard of the corps." Concluding his article, the author says: "In three-quarters of a century of usefulness and success the Point has known no era of higher scholarship, of sounder discipline and of more brilliant promise than that which culminates with the administration of the last five years; and the report of the Board of Visitors of 1886, several of whose number were animated by an unusually searching spirit of investigation, and stimulated possibly by complaints of undue severity and needless restrictions, has stamped its every military feature, drill, discipline and instruction with the seal of its unqualified approval."

UNDER the head of "Eccentricity in Advancements," the Philadelphia *Ledger* publishes a letter to it, concerning the recent promotion to Captains of Lieutenants Regan, Quentin and Leahy, vice Pease, Kennington and Durham, retired, and of 2d Lieutenant Gustin to First Lieutenant, vice Quentin, promoted. The letter says:

Lieut. Regan was made a 1st Lieutenant Aug. 12, 1867, thu serving nearly 20 years in that grade before promotion reaches him. Lieut. Quentin has been over 20 years a 1st Lieutenant.

Joseph H. Gustin gets Quentin's vacancy and becomes a first lieutenant 12 years after graduation from the Military Academy, being the last of his class to receive promotion. Two men of Gustin's class, Mason and Rodgers, of the 4th Cavalry, are captains, Rodgers graduating only two files in front of Gustin. Three men, who graduated in 1880, five years after Gustin left the Academy a second lieutenant, are first lieutenants, two of the three having received their promotions in the 4th Cavalry more than a year ago.

Captain Leahy has reached that grade after 23 years' service as first lieutenant.

There are men in the Army who outrank Leahy and Quentin who had not reached their teens when these two veteran soldiers were serving as lieutenants, and some of their superiors in rank had not been born when Leahy and Quentin were serving in the ranks. Unfortunately for these two officers, they happened to be assigned to "slow" regiments.

The advocates of lineal promotion, and they are not a few, may find in this statement, argument to support any efforts they may be making in that direction.

IN a lecture before the Royal United Service Institution on June 15, Rear-Admiral P. H. COLOMB, a gold medalist of the institution, gave a very interesting account of the various blockading experiences from the time of Nelson and the Spanish blockade to the war between the North and South Americans. The latter was specially drawn upon as showing the most recent and instructive operations. The lesson learnt from these experiences is that if the naval forces of England should have to engage in blockading operations against a naval power, they would in the first instance be liable to the attacks similar to those which the federals experienced. I take it, he said, that the escapes of the *Sumter* and *Alabama* tend to remind us that small vessels, designed to be hidden, are not always immediately discoverable. The chances, in fact, are even for both sides. If the weather is clear, the watchers can keep their watch at greater distances. If it is thick they can close in with the less chance of being discovered. Clear weather and thick weather do not assist or hinder one side more than the other. And it is so with the off-shore fleet. A torpedo boat flotilla will not quit the harbor for the attack unless there be some reasonable hope of finding the off-shore fleet, and this need not disclose itself except in answering the signals of the inshore observers. A great number of naval officers, Admiral COLOMB further said, "hold the opinion that it is worse than useless to go back to naval history for the lessons of modern naval war. I have been for many years past of a contrary opinion—an opinion which grows stronger every day, that it is impossible to form correct views of the present or future of naval warfare unless they are based on a pretty thorough investigation of its history in the past."

THE New York *Times* thinks that the services rendered by the Hampton graduate, Oliver Eaton, as an Indian scout in the late Apache campaign should be allowed to off-set the "relapse into shameless savagery" recently reported of two Carlisle graduates by a Senate committee. This committee, it will be remembered, was shocked to find among the participants in a heathen dance on the Osage Reservation two youths who had been educated at Carlisle. The good accomplished by the Hampton graduate as a trailer was many times greater than any harm done by the alleged Carlisle graduates as dancers, since it was his skill in holding the trail, through the most desperate efforts of the hostiles to baffle him, including their march of "fifteen miles on tiptoe," that alone enabled the troops to run them down and tire them out. The further suggestion occurs that the education of this Indian evidently did not rob him of those fine physical traits and aptitudes which distinguish his race.

FOR several months Secretary Whitney has been looking for a vessel that could be used as a target by the Pneumatic Dynamite Gun Company. The Coast and Geodetic Bureau are going to supply the long-desired craft, for the schooner *Silliman* has been condemned as unfit for further service. The transfer of the vessel was made June 29 by the Treasury Department to the Navy Department. Commander Brownson is instructed to turn the *Silliman* over to Commodore Gherardi at the Brooklyn Navy-yard, and he in turn will transfer her to Captain Howell, chairman of the Pneumatic Dynamite Gun Board. Under Captain Howell's direction the tests will be made. Provision will be made, when the attack on the *Silliman* is ready, to allow the diplomatic representatives of the different countries opportunity to witness the test. The *Silliman* is now in Whitney Basin, near the Brooklyn Navy-yard.

THE conservative *Real Estate Record* is very much scandalized by the attention shown to Buffalo Bill in England, of which it says: "As a matter of fact Buffalo Bill is or was a Western gambler. He acted as a scout and knows how to ride well and shoot a rifle, but it is rather rough on America that he and the like of him should be taken as examples of American civilization. Of course his mode of life is as remote from the average citizen of the United States as it is from the average educated European. But, after Bill makes this tour of Europe, the impression will be given that the United States is inhabited mainly by cowboys and Indians, and that our principal amusement is rifle shooting, throwing the lasso and riding 'bucking' mules."

THE *Hawaiian Gazette* is especially virulent against King Kalakua's government. In a recent number it says: "From the throne downward, with a very few honorable exceptions, the whole machinery of government is rotten, corrupt and filthy, and the sooner an end is made of it the better." Another paragraph speaks of the élite of the army and navy as "the most drunken and thieving blackguards round town." "And as things go now," the paragraph continues, "those are qualifications which mark men as belonging to the highest rank in Hawaii. We have thieves in our navy, men of no character in our Ministry, a bribe receiver on the throne."

WE call attention to the advertisement of Gen. Carrington's illustrated, "spirited, and fascinating combination of poetry and history, a highly patriotic prophecy, with a sanguine outlook," we quote from Oliver Wendell Holmes and Dr. Griffis. Robert C. Winthrop says: "I am proud to have my name associated with your memorable and memorial tribute to Washington." Published by Lee and Shepard, Boston, in paper, 50 cents; in cloth, $1,00.

McCLELLAN, LEE AND GRANT.

To the Editor of the Army and Navy Journal:

THE best way to solve a question is by analysis and comparison. The relative numbers of troops and the opposing conditions between McClellan's Army in front of Richmond for the attack, and Lee's Army for the defence, in June, 1862, can be understood by drawing the parallel with the numbers and conditions of Grant's Army, beginning on the same ground called by the Confederates Cold Harbor, (Gainesville), on the Chickahominy, in June, 1864. The objectives were the same—the capture or defence of Richmond; two years of time intervening. It will be premised that numbers of men, nor muskets, nor shots, avail without strategy and tactics, to gain the objective. Napoleon purposely left his bridgeheads of retreat to Lobau Island uncovered to induce the Archduke Charles to withdraw from his intrenched centre, a large force, and make a dash to cut off his retreat, whilst Napoleon massed his artillery on the depleted centre, sending Massenna to hold the Archduke at the bridgeheads, while he made a new line of retreat through the heart of the enemy.

Lee, in June, 1862, induced the administration to withdraw McDowell from Fredericksburg, where he covered McClellan's base at the White House, and send him North to protect Washington, which was in no danger, as McClellan left it. Then Lee ordered Jackson to elude McDowell and strike McClellan's base, while he attacked the protecting flank by a concentrated force; thus forcing McClellan to a new base for supplies. Grant, in June, 1864, held both Fredericksburg and Whitehouse for bases of supply. No Jackson threatened either base, no interference from Washington, no one to "do his best to ruin his Army" (as was asserted and not denied in McClellan's case.) Grant says that Lee had about 80,000 men at the start, and thinks their reinforcements about equal. He did not break through but changed his base to the James, where he crossed, he says, with 115,000 men, excluding the 18th Corps, which withdrew by Whitehouse. He found Butler on the James where Holmes was in 1862, then made the same move that McClellan had proposed to Halleck two years before, to cut the lines of supply from Richmond's defensive army.

The two battles of Cold Harbor resulted in changes of base; McClellan's, because his base was cut off; Grant's, because he had failed to break Lee's Army in position. Lee attacked McClellan at Malvern Hill on the James, but was repulsed and but for the failure of the Navy to cover his transports to that point McClellan would have made that his new base. According to list of wounded reported in the Rebellion R., pages 502, 507, Vol. 41, part II., Lee had 187 regiments, counting 7 that were not mentioned on the list, and 9 of Holmes's division, while McClellan had but 143 regiments—a difference in Lee's favor of 44 regiments of infantry. The position of McClellan at Malvern Hill was fine for defence. Lee should not have attacked, and would not, had he known the decision of the Navy.

The stress laid upon numbers in contending armies is unscientific in war, that supposes other conditions equal. A skilful move on a weak point with a preponderating force, to break or turn resistance, gains the objective; the other numbers in the armies are not in requisition. McClellan left to Porter the honor of covering his passage of the Chickahominy to the new base; he nearly failed because he neglected to intrench his position. Magruder attacked McClellan's rear at Savage's Station and was repulsed. Longstreet and Hill attacked the centre of our line of march, to break through at Glendale, nearly succeeded, because Hooker neglected to support McCall's left. So it will be seen that a single point of attack or defence decides a campaign or a battle. Those who were disappointed with McClellan for not shedding useless blood in the trenches at Richmond, when he could not have his plans sustained, were satiated two years after, but did not forgive. Allan Pinkerton, the great detective, who was in Richmond at the time, reiterates in his book his report of numbers to McClellan. As Richmond could not be left without defence, the 187 regiments would swell to over 200 as he reported. Had McClellan's base been protected until his close investment of Richmond was completed (but a few days longer) he would have turned Richmond and cut the lines of supply South in July, 1862, which Grant cut in 1865, and the war would have ceased then.

WM. W. BURNS.

GENERAL SHERMAN ON BEECHER.

GENERAL W. T. SHERMAN, U. S. A., contributes the following to the "Beecher Memorial" compilation: "The friendship existing between Henry Ward Beecher and myself was most warm. We met often at the festal board and on the platform, and I recall our wanderings together over the plains and in the mountains of California and Oregon. His greeting was always so hearty, so full of manly vigor, so outspoken, that he seemed to be more like an Army comrade than a minister of the Gospel. . . . He was essentially a national man, grasping all the thoughts and feelings of a continent, storing his mind with the beauties of the sea coast, the vast campaign fields of the interior, and the wild forests and cliffs of the Rocky Mountains, thereby illustrating his discourses by vivid pictures of the glories of the universe. His mind and imagination could not be tied down to the narrow dogmas which shackled smaller men, and I am not surprised but rejoiced to know that he occasionally kicked over the traces. My last meeting with Mr. Beecher was at the house of Dr. Talmage, and he seemed then so strong that I believed he was destined to outlive me."

Mr. W. H. Metcalf's novel, "A Summer in Oldport Harbor" (J. B. Lippincott Co.), is a story to beguile the leisure of an hour spent in a hammock on a summer's afternoon. Its scene is a harbor island, its characters a party of young people who summer there, and its theme the usual one. It is a wholesome, pleasant story, with no very marked characteristics of plot or style.

NAVAL BRIGADE DRILL.

THE vessels of the North Atlantic Squadron, Rear Admiral S. B. Luce commanding, have had an interesting drill at Gardiner's Bay, L. I. When its parade at New Haven was finished the squadron left port for New London, the Yantic remaining behind to pick up the Naval cadets who had been ordered to report there for duty. At New London the Ossipee joined the squadron, which started early Monday morning, June 20, for Gardiner's Bay, where, as soon as the anchors were dropped, great gun targets were at once put in position at 1,000 yards, and the Richmond began blazing away, firing five rounds from each gun of her starboard battery. What is known as "individual practice" was the method adopted in this case, and no shot was fired by a second gun until the one ahead had fired her five shots. This gave the gun captains a fine chance for improvement, and the result, both in accuracy and celerity, showed a marked change for the better over any previous practice.

The prize firing with great guns on ships at anchor was continued Wednesday morning by the guns' crews of the United States corvettes Galena and Ossipee, the Yantic which arrived later also competing.

Lieut. Samuel Seabury's company of Richmond's Infantry and two companies of blue jackets from the Galena landed on Gardiner's Island June 25 for skirmish firing, Lieut. Richard Wainwright, of the Galena, the fleet infantry commander, superintending the marine battalion of the flagship, as well as infantry companies of the Ossipee, joined Lieut. Wainwright's command during the skirmish firing. Each man was provided with 20 rounds of ammunition.

While the infantry companies were on shore the Richmond's launches were rigged as torpedo boats and under charge of Lieut. Comdr. A. B. H. Lillie, U. S. N., each boat fired several service torpedoes at targets floating about. In most instances the result of the firing was very satisfactory, the torpedoes exploding and fully destroying the targets.

During the afternoon Lieut. Arthur P. Nazro, the chief artillery officer, fired with 3-inch breech-loading howitzers and Gatling guns mounted in the bows of launches and cutters at targets erected along the beach. The fall of these shots was carefully noted.

For target practice Admiral Luce issued the following memorandum:

The Yantic will place a target and two observing boats outside of Gardiner's Island before 8 o'clock A. M. Beginning at this hour, she will have battery target practice, and will be followed by the Richmond, Galena and Ossipee in the order named, each using the Yantic's target and boats. As a signal to the ship which follows her to trip her anchor, each firing ship will, when her firing is nearly over, lower the red at the fore, which she will carry while firing, to the topmast head. Each ship will have her great gun target rigged and ready to use in case the target placed out by the Yantic should be shot away, and each vessel will return to her present anchorage as soon as her firing is over.

The Commander-in-Chief will be on board each ship when she is firing.

Commanding officers will give orders regarding lighting fires for low speed.

S. B. LUCE,
Rear Admiral U. S. N., Comdg. U. S. Naval Force on North Atlantic Station.

The exercises were not altogether satisfactory, owing to the prevalence of fogs and rainy weather nearly every day of the stay of the war ships. Friday proved the exception to the rule, and on that day the naval brigade was landed at 9 A. M. A very pretty sight the boats made as they left their respective ships at 8.45 A. M., on the hauling down of the signal on board the Richmond, and formed in columns abreast by divisions, each division in tow of a steam launch, moving forward at the order over a smooth sea, with colors flying. The heavy field artillery, consisting of Gatling guns, and three-inch breech-loading howitzers, were hoisted out with yard-arm tackles and mounted in the bows of the heavy launches. Boats, formed in columns of two, parallel to each other, and headed by the Ossipee's gig, which carried the commanding officer of the naval brigade, Comdr. William Bainbridge-Hoff, U. S. N., and his personal staff, started on their way for the beach in front of the high bluff on the island.

The personal staff of the Brigade Commander consisted of the following officers: Lieut. Albert C. Dillingham, Adjutant-General; Surg. A. F. Magruder, Surgeon; Asst. Paymr. R. M. T. Ball, Commissary; Lieut. G. W. Mentz, Quartermaster, and Passed Asst. Engr. W. M. Parks, Aid. As soon as the boats were fully started Rear Admi. S. B. Luce, accompanied by Capt. Robert Boyd, Chief of Staff; Lieut. John F. Meigs, Fleet Gunnery Officer, and Lieut. John S. Abbott, Fleet Secretary, left the flagship in the steam barge Vixen. As soon as the boats came within shoal water tow-lines were cast off, oars gotten in readiness and single lines were quickly formed.

As the flotilla advanced in beautiful order, carefully dressed on the flagboat of the brigade commander, the steam barge Vixen, with the commander-in-chief and staff on board, left the Richmond, and passing quickly along the lines of boats, ran in for the beach in advance of the brigade, giving the admiral an opportunity of inspecting the site selected for the encampment and of witnessing the landing of the troops. By this time the boats at the head of columns were within half a mile of the beach, and the signal, "Forward into line, left oblique!" was seen fluttering from the flagboat. Tow-lines were at once cast off, and away dashed the boats to their stations in the new formation. Then came the signal, "Prepare to land as if not opposed!"

The disembarking was promptly accomplished, except that the steam launches and large sailing launches which had the artillery pieces on board grounded some little distance from the beach, and, in order to land the guns without getting them full of salt water, balsas, which had been towed on shore, were hauled up alongside of the launches and the three-inch howitzers and Gatling guns transferred to them and soon landed on the beach. Meanwhile the commander-in-chief and staff, accompanied by the adjutant-general, proceeded to the high bluff adjoining the beach and inspected the site of the encampment of two years ago, which was found to possess all the necessary requirements, and immediately chosen for the scene of this year's exercises. Headquarters were established at Fort Washington, over which the national colors were soon proudly waving. Markers were at once posted indicating the position of the several battalions, and a signal station established on an elevated ridge from which communication was at once opened with the squadron in the bay.

Scarcely had all these preliminaries been completed when the battalion of blue jackets was discovered marching over the brow of the hill with firm and measured tread towards the station assigned them. Immediately behind them came the marine battalion without a waver in their ranks, and took their position on the left of the line with the greatest precision, and last, but not least, came the artillery, dragging the three-inch rifles and Gatlings through the light sandy soil to the right of the line. The band played "Garry Owen," the ladies were looking and all nature smiled as the adjutant-general passed down the front of the line and presented the naval brigade to its commander. Then followed a short drill, and the men were dismissed to prepare for dinner and a game of base ball, which occupied the time pleasantly until 2 o'clock.

Promptly at the hour named the bugle sounding the "assembly" cut the base ball short in the middle of a home run, and brought the companies together for target practice. Two marksmen from each company were selected and given a competitive trial with small arms at skirmish target, 150 yards range, while the three-inch rifles and Gatlings practiced at an improvised target at a range of 800 yards. Quite satisfactory scores were the result, the contestants apparently feeling themselves on their mettle, and the spirit of emulation among the representative of the different ships running unusually high.

At 3 o'clock the battery of field artillery fired a salute of 13 guns in honor of Rear Admiral S. B. Luce. The brigade was then reviewed by the commander-in-chief, and after dress parade the day's exercises were completed.

ENGINES FOR THE "NEWARK."

THE following is a general description of the two horizontal direct-acting triple expansion twin screw engines of about 8,500 combined I. H. P., and boilers for the steel cruiser *Newark* of 4,083 tons displacement:

The engines, which are to be duplicates, except that they are right and left, will be located in separate watertight compartments, one directly forward of the other; the forward engine to work the starboard screw. Each will have a high pressure cylinder of 35¼ inches diameter, an intermediate of 57 and a low pressure cylinder of 88 inches diameter, each cylinder to be fitted for a piston stroke of 36 inches, each engine to be constructed to work under an initial pressure of 135 pounds in the high pressure cylinder, and make about 125 revolutions when developing the full power. The cylinder casings will be made of cast iron and will include the sole plates, valve chests, and exhaust nozzles, and form the steam jackets for the wearing cylinders, which are also to be of cast iron, secured in the casings; the cylinder heads and covers are to be made with double shell and also fitted with steam jackets.

The main pistons are to be composition, with double shell, with cast iron packing rings, which are confined by composition followers. Each is to be secured on one steel rod of 6 inches diameter, a T head for the crosshead connection to which will be coupled, with its brasses, by a steel cap and two steel bolts.

The crossheads are to be of steel, cylindrical in form and fitted at each end with a sliding jib with composition slippers that are to move in self-lubricating guides made in the pillow block frames.

The connecting rods are to be of steel 72 inches long between centres, the least diameter to be 6½ inches; the rods are to be forked and clamped to the crosshead, the heads to be made with steel caps secured by two steel bolts and otherwise fitted.

The crank shaft for each engine will be composed of three separate interchangeable sections, each with its coupling discs of solid forgings made of steel, they will be bolted and secured together with their cranks at angles of 120 degrees to each other, each section of shaft will be mounted on two journals and will be fitted for the attachment of a counterbalance on each arm if required.

The crank shaft pillow blocks are to be of cast steel, each with a pedestal having a broad base that will rest and be firmly secured on a fore and aft keelson of the ship. An extension of each block which forms the crosshead slides will be secured to a lug of corresponding shape on the cylinder.

The blocks will be fitted with brasses made in two parts that can be adjusted by wedges for the alignment of the shaft; the brasses to be clamped by a steel cap and two steel bolts.

The cylinders will be fitted with interchangeable composition piston valves, the high pressure cylinder to have one, the intermediate two, and the low pressure cylinder three valves, all to be worked by means of rock shafts and a "jet" radial gear, the gear for each set of valves to have an independent adjustment for the various grades of expansion in its respective cylinders.

The mean cut off and reversing mechanism is to consist of a double engine which will actuate the reversing shaft by means of a worm screw and wheel, the operating valve of engine to be controlled by an approved floating lever device, placed on the working platform.

Each main engine is to be arranged to work independently of the low pressure cylinder, and its crank shaft when desired, and each fitted with an extension of the exhaust pipe from the intermediate cylinder to the condenser, also with suitable gate valves for admitting the steam to, and closing it from the low pressure cylinder and condenser.

The condensers will be cylindrical, of sheet brass, with composition tube plates, heads, flanges and central section for the exhaust pipes and discharge nozzles. Each condenser will have a cooling surface of about 6800 square feet measured on the outside of the tubes, which are to be of brass, the circulating water will pass through one-half of them and return through the others to the outboard delivery valves. The condensers will be supported upon their respective air and circulating pumps, which are to be placed in the rear of the main cylinders.

Each engine will have a duplex, double acting, horizontal air-pump, worked by a two cylinder compound engine, coupled by a fly-wheel and by vibrating beams and links with the air pump rods. The pump chests and cylinders will be of composition and connections of steel. Each pump will discharge into a fresh water feed tank of not less than 300 gallons capacity placed above the level of the hot well of air pump. A gate valve will close each air pump from its condenser when the latter is used for auxiliary purposes.

The circulating pump for each condenser will be of the centrifugal turbine type, driven directly by an engine secured on its casing. Each pump to be capable of discharging 10,000 gallons of water per minute against a head of 19 feet and arranged with suitable valves and pipes for freezing the bilge. The casing or shell of each pump will be of composition, made with an ample base and will serve as a pedestal for its respective condensers.

All the sections of the line shafting will be made of steel 13 inches diameter, and will have axial hole of 4 inches diameter through them; one section for each engine will be fitted with a collar thrust of ample wearing surface of white metal. The sections within and outside of the stern tubes to have composition casings and made to turn on lignumvitæ bearings. The several sections to be united by couplings of approved type.

The screw propellers are to be respectively right and left, about 15 feet diameter, and will each have three blades with an adjustable pitch. The propellers will be made of manganese bronze or metal of its equivalent value.

Boilers.—There will be eight cylindrical single-ended horizontal return tube boilers, 14' 2" diameter and 9' 8" long containing 552 feet of grate surface and 16,000 feet of heating surface. The boilers will be divided into two groups, each in a separate water-tight compartment, with an athwartship fireroom and smoke pipe to each group.

They will be fitted for forced draught, air being supplied through ducts immediately through the ash-pits. The furnace fronts and doors will be arranged for the passage of air under pressure, through their double shells, to keep their temperature down and prevent the escape of gases through their joints.

There will be five blowers of 26,000 cubic feet of air capacity per minute, each

WHAT GENERAL DUCAT DID SAY.

HINSDALE, Ills., June 20, 1887.

To the Editor of the Army and Navy Journal:

IN your issue of June 18 my attention was especially called to an editorial notice, in which reference was made to some statements alleged to have been made by Gen. A. C. Ducat, of Chicago, and also comments of Capt. Garretty of the Army. The article which led to these comments was published by the Chicago *Tribune* May 29, 1887, and was a misrepresentation of the views of Gen. Ducat in almost every particular, as all who had a personal acquaintance with him knew, and which the *Tribune* acknowledged by the retraction published by them on June 1, 1887, a copy of which I enclose herewith. A great injustice has been done Gen. Ducat, who is and has always been a strong friend of the Army, and is closely identified with it by family ties, his son being an officer and his daughter the wife of an officer of the Army. The publication in your valuable paper of the retraction article of the *Tribune*, with such mention as you might deem proper, would in a measure, at least, undo the great injustice done this gallant officer of the late war, and past commander of the Loyal Legion of the State of Illinois, and also be a source of gratification to his many Army friends who probably have never seen the retraction article of the Chicago *Tribune*.

Gen. D. has not been directly identified with the National Guard of Illinois for several years.

Very truly and sincerely yours,
THAD. H. CAPRON, 1st Lieut. 9th Inf., U. S. A.

The article from the Chicago *Tribune* which we published was sent to us by an officer of the Army. We take great pleasure in publishing the subsequent retraction, here referred to, which is as follows:

In an article published Sunday about the early Chicago Fire Brigade and Col. Ellsworth was an interview with Gen. A. C. Ducat, in which he was quoted as saying: "I believe in a young and vigorous militia. Give me the militia every time when soldiers are needed. I do not believe at all in this idea of a United States military camp at Highwood. Regular soldiers, as our little Army is now constituted, amount to nothing. There is nothing behind them but the moral power of the United States. Their officers are untrained in police science, and the men are good-for-nothings—recruited from the scum and the slums. In 1876, when the riots were here, I had command of the militia. A company or two of United States Regulars were ordered to report to me. They did so. The officer was so drunk he could not stand up and give the salute. A few hours later his men had raided a saloon, and in an hour half of his command was in the militia guardhouse. That is my experience with so-called 'Regulars' at times when you want them for police work."

As a matter of fact Gen. Ducat said nothing of the kind. What he did say, and all he said, was substantially this: The militia ought to be encouraged by the people. The Zouave Company furnished a large number of officers to the volunteer army. If it were to happen again that a great mass of men was to be brought together by reason of a war the militia or the National Guard should become the grand school of the officers of that Army, as the Regular Army could not furnish all that was needed. While he was in favor of the post at Highwood as things were, it never would have been necessary for the safety of Chicago if the National Guard had been cherished and supported as it ought to be by the State and the people. The men of the National Guard were, as a class, of the same material as the volunteers who went through the war; they or their fathers had a stake in the country; they were the sons of reputable citizens, and were, as a rule, of a better class than those who enlisted in the Regular Army.

While Gen. Ducat spoke warmly and affectionately of Ellsworth, he did not say that he had organized the fire brigade nor that it was proposed to make him Chief of the Fire Department.

(Correspondence of the Army and Navy Journal.)

BELLEVUE RIFLE RANGE.

THE railroad authorities have constructed a fine platform, and artistically covered, at the rifle range depot, about 200 yards from camp. The owner of the land is clearing the underbrush out near the range, adding greatly to the beauty of the surrounding country, and what the range may lack, if any, in target facilities is largely overbalanced by the beauty of the location. The United States object to spending moneys on property not held, except from year to year.

The attempt of a citizen to locate on the range has been frustrated, and the blackmail, or endeavor to obtain moneys, was a failure. All the newspapers of Omaha are down on him, as well as the citizens. The Omaha Citizen Club enjoy their weekly shoots. Team matches and individual ones for prizes are in order. They are laying low for the crack shots to be here during the competitions.

Quite a sum of money will be raised to give the best shots among the soldiers of the Department, Division, and distinguished marksmen prizes.

GARFIELD AND ROSECRANS.

THE following letter is made public:

TREASURY DEPARTMENT,
REGISTER'S OFFICE, June 15, 1889.

Darwin C. Pavey, No. 27 Greenwich avenue, New York:

DEAR SIR: My papers being all in California I am unable to give the days of the month when Gen. Garfield reported for, and was relieved from, duty at my headquarters.

But he reported near the middle of January, 1863, and was made chief of staff some two weeks later, probably early in February. He was relieved from duty about Oct. 10, 1863. He served about eight months as chief of staff. But nothing could be more untrue than the pretence that he was a planner, a mentor or in any way influential in doing the brain work of the campaign for Chattanooga.

The letter which his biographer has published, wherein Garfield urges an early advance on the enemy's intrenched camps, was written by him with a full knowledge that I was going to so advance, but upon my permission expressly given him for an exercise, and not to be filed or sent to Washington, which express prohibition was surreptitiously violated by Garfield himself, or by his connivance.

Yours truly, W. S. ROSECRANS.

A REVENUE MARINE GRIEVANCE.

To the Editor of the Army and Navy Journal:

IT has been the boast of the Revenue Marine since the reorganization which was begun in 1869, and the adoption of the competitive system of examination for entrance and promotion, that the advancement of its officers was based solely on their individual qualifications and abilities as shown by the examination papers, and the regulations say that "no person will be originally appointed to a higher grade than third lieutenant or second assistant engineer, nor until he shall have passed a physical and professional examination," all vacancies in the higher grades being filled by promotions from the next lower grade, taken from the head of the list, where, after examination, the names of officers are placed in order of proficiency with which they passed.

It seems as though this feature of the Service had got a black eye in the recent reinstatement of an ex-first assistant engineer in his former grade, over the heads of all the second assistants. This officer had deliberately resigned from the Service, of his own free will, and was out of the Service about a year and a half before reappointment. His connection with the Service was thus completely severed—as much so as though he had never been in it. His place had been duly filled by promotion of the second assistant at the head of the list, whose vacancy had in turn been filled by appointment of one of the successful candidates who passed the last examination, and who took his proper place and number at the foot of the list of second assistants.

In a number of similar instances of officers resigning and afterwards wishing to return, they have been allowed the same privilege as those seeking entrance for the first time, viz.: examination for and appointment to the lowest grade, to which arrangement nobody could object. But the reinstatement of a person in a senior grade, from which he had voluntarily resigned, to the detriment of all equally worthy officers who come below him on the list, is a discouraging thing to such officers and a serious blow to their confidence in the Department's intention to deal fairly by the junior officers, and makes the time of promotion doubly uncertain, and indefinitely removed to the dim future.

FAIR PLAY.

EVIDENCE OF PREVIOUS CONVICTIONS.

To the Editor of the Army and Navy Journal:

AN important point arises in connection with Barden's case, inclosed with this: *

The only inference to be drawn from the remarks in his case is that the court declined to consider any previous convictions except of offences similar to that on which the prisoner was being tried. Such, however, was not the case. Evidences of former convictions covering an immediate period of about three years were introduced, but the prisoner objected to the consideration of any papers antedating his present enlistment, which had begun about two years before. The court sustained the objection and took cognizance only of *all* papers specifying the prisoner's convictions since last enlisted.

The point raised by the accused is important, and worthy of consideration at Washington. No doubt "the 103d Article of War cannot be held to apply," but should a cast-iron rule apply that "*all* the evidence of former convictions" must be received?

Suppose a soldier of 20 years' service be tried once by a Garrison Court in the first month of a new enlistment; if he commit himself in a small way the next month does justice in his case require that a Garrison Court offence should be brought before a General Court, and the man's shortcomings for 20 years considered if laid before it? Such would seem to be the case, judging from the ruling in B.'s trial.

The question arises whether a soldier, in certain cases, is not entitled to a leniency that would, perhaps, not be accorded to a civilian prisoner of long known bad character. In the latter case the man's relation to the law and the community has continued the same, but the court that tries the soldier to-day cannot touch him to-morrow if he be discharged. His discharge and re-enlistment supposed, either in his old, or in another company (the discharge necessarily showing that *no objection is known to the man's re-enlistment*), a condonement of previous offences would seem to be implied. If not, why is the man re-enlisted? And, if so, is it just to rake up what has been condoned?

Courts are now enabled "to make the punishment fit the crime," but Paragraph 894½ should not be made an instrument of persecution. * * *

* The following is an extract from this case decided by a Court-martial at the Presidio, Cal., June 1, of which Major Frank T. Bennett, 2d Cav., is President, and revie ved by Gen. Howard:

In the case of Pvt. Wm. J. Barden, Battery L, 1st Artillery, the Court erred in declining to consider *all* the records of previous convictions of the accused which had been referred to it for such consideration. In Circular No. 8, Headquarters of the Army, Adjutant-General's Office, Sept. 10, 1886, it is held as follows: "The language of paragraph 894½ of the Regulations (General Orders No. 41, of 1886) is not limited to previous convictions of offences similar to the one for which an accused may be on trial, and should not be so construed. The object of the paragraph is stated to be 'to see if the prisoner is an old offender, and therefore less entitled to leniency than if on trial for his first offence.' This information might not be fully obtained if evidence of previous convictions of similar offences only were laid before the Court. It has no bearing upon the question of guilt of the particular charge on trial, but only upon the amount and kind of punishment to be awarded, and to this end it is proper that all previous convictions should be known. As the accused is not on trial for the offences, evidence of the previous convictions of which it is proposed to introduce, the 103d Article of War cannot be held to apply."

Under this decision of the Secretary of War, *all* the evidence of former convictions should have been received. With this exception, the proceedings, findings and sentence are approved, and the sentence will be duly executed.

THE twentieth year of the New England Conservatory of Music, of Boston, which has just drawn to a close, has been the most successful in the history of that phenomenally successful institution. Nearly 2,300 pupils have received instruction in its several schools of music, art, oratory, languages, literature, piano and organ tuning, physical culture, etc. Every State and Territory, and many other countries have been represented in its halls. The ablest artists and teachers are in its faculty, and yearly additions are made from American and European sources.

THE STATE TROOPS.

THE NEW YORK STATE CAMP.

RAIN disturbed the 7th during their entire tour at the State camp, but at noon on Wednesday, June 22, it came in all its fury and until reveille on Friday the camp was deluged. With battalion drill on Wednesday, worked ceased. Officers and men were anxious to go at it, and whenever a break appeared in the clouds the regiment was ordered out only to be ignominiously driven back to their quarters by the rain. There was only one mistake connected with this tour of duty, and that was, that on the morning following, when it had become bright and the new guard mounted in airy, white helmets and white pantaloons, the men were kept on post in overcoats until the morning had far advanced, and at guard mount the old officer of the day appeared in a blue overcoat with red cape thrown back, and the new one in full dress gray uniform. This was contrary to custom and rules.

On Friday morning the entire ten companies were out promptly, and a lively skirmish drill with blank cartridge firing took place. The companies certainly manifested improvement, but there were still many mistakes, especially in the rallies, marches to the rear, and the firings. In company drill movements they invariably marched in too slow a cadence, and the absence of the guiding walls of the armory manifested itself in faulty alignments and labored marching. The ceremony of guard mounting was especially good, until the senior officer of the guard took command. From that moment the thing became a failure. He was nervous and had evidently not posted himself properly. The wheel into line by platoons was spoiled, he did not notice the salutes of sentries in passing them on his march to the guardhouse, saluted the old guard before countermarching when about 30 yards away, executed the countermarch in a bungling manner, dressed his guard to the right and spoiled the whole business so far as the salute to the officer of the day was concerned. The relief got off behind time, yet when the men were on post they performed as well as on previous days.

The last guard mounting (on Saturday morning) was characterized by an enormous waste of time in getting the reliefs moving, and the officers of the guard omitted the first salute prescribed in tactics and made that to the officer of the day serve both purposes.

A well executed battalion skirmish drill, under command of Lt.-Col. Geo. Moore Smith, took place in the forenoon of Friday, June 24. The colonel executed nearly all contained in Tactics from par. 332 to 356, and gave the men a hard morning's work under a broiling sun. Major Kipp commanded the reserves, which moved with promptness and performed the various evolutions in apparently excellent style.

An ordinary battalion drill on Saturday forenoon, which was characterized by some of the most execrable, and also some of the best, volleys ever fired, but generally fair in all other respects, wound up the tactical work of the week, and after that the men devoted their entire energy to putting the camp into shape for their successors, and when they had finished the general verdict was that the entire affair had never before been put into similarly good shape for the same purpose. About 3.30 P. M. the 12th made its appearance and the 7th marched out in a splendid column of fours.

Looking at their work as a whole, they made excellent progress as well as many mistakes, some of the latter as a natural consequence of their own methods and traditions, others unavoidable, because it is an impossibility of making perfect soldiers of 800 or 900 men in the brief period of a week. The host of veterans, visitors, and ladies who came into camp on the afternoon of Friday, although the work of the day was virtually over, left a demoralizing effect, which manifested itself in all sorts of noises at night, and that sort of thing should be discouraged still more than is the case at present. The keeping of pigs, goats, roosters, foxes, ducks, etc., as company pets is in itself harmless, and did not interfere with the work, but when the matter is put before the public through the medium of the company joker and the daily newspaper man, then it becomes a nuisance, and one which in time will prove an absolute danger to the continuance of the camp. "The daily press will yet kill this camp," said a general officer, and he is about right if such twaddle is kept before the people much longer.

The 7th did their guard duty in a snappy manner, but they did not advance beyond a certain point in their general knowledge of the subject. Ninety-five per cent. of those we noticed at night did not know how to manage an approaching party correctly. Their only salvation was that when they made a mistake they were brisk and full of vim about it, and that no slouching was seen on post. Like most National Guardsmen, they showed but little regard for the condition of their pieces, nor did they know when it was time to secure arms or go in out of the rain. The reliefs were hardly ever marched off promptly after guard mount, nor was number one relieved in the manner prescribed in Tactics. Battalion skirmish drill was one of the best features of the encampment, and if the battalion had been reduced so as to allow full intervals and full utilization of the ground the drills would have been still better. After all, however, the regiment showed a willingness to learn and do the right thing, which could not have failed to bear splendid fruit if the camp had lasted a week longer. The grounds were as clean as a parlor floor, and when the men had once found out what was required from them in this respect no further instructions were required. Everybody regretted to see the regiment leave.

The 12th Regiment, 570 strong, succeeded the 7th in the occupation of the State camp, arriving at 4 o'clock on Saturday, on the steamers *Gen. Sedgwick* and *Crystal Wave*. An advance guard led the way to relieve the sentries of the 7th, which had an extra tour of duty on guard of the camp. The 7th drew up in line with arms at a carry while the 12th Regiment marched past them and into the streets just vacated. The 17th Separate Company from Flushing, under Capt. Miller, 35 men, came up on the boats with the 12th, and the 35th Separate Company, from Ogdensburg, with 36 men, came in at 6 o'clock.

The officers of the 12th are: Colonel, James H. Jones; Lieut.-Colonel, Heman Dowd; Adjutant, A. F. Schermerhorn; Surgeon, Nelson H. Henry; Quartermaster, E. R. Powers; Inspector of Rifle Practice, W. W. Deforest; Chaplain, Rev. D. Adams, of Trinity Parish, acting for Rev. W. B. Fisbee in Europe. Major Riker is also in Europe. Service was held and a sermon was preached by the chaplain on Sunday.

At 11 o'clock the men were formed in line (as many as cared to attend), and by companies marched to the brow of the cliff, where service was held. The hymns were printed, and the men joined heartily in the singing. Liebold executed the "Hallelujah Chorus" from Handel's "Messiah" as a voluntary, and "The Palms" was rendered as a cornet solo in fine style.

We reserve our critical report of the encampment of the 12th until next week. One of the misguided members of the 12th, who imagined that he was going to Peekskill for a pic-nic, writes us as follows:

"We have had plenty of hard work. It's nothing but clean and scrub and fall in from 5 A. M. to 1.30 P. M.; then we have a short time in the afternoon, unless we are on guard or have to attend some lecture. Guard duty is overdone. When a sentry has finished his duty and returned to his company he is utterly worn out. A man on post is supposed to be relieved every two hours; instead of this some are on three hours and over. It is impossible for a man to get any sleep at the guard tent; there is no quiet kept there—not the least. The guards this morning who went on about 6 o'clock had their overcoats on till 9 o'clock. This, considering that the day is very warm, is anything but comfortable. The eatables here are something immense and plentiful, including tooth-picks and Japanese paper napkins. The drill we had yesterday was a killer. Two and one-half hours in the scorching sun, cramped in, with dust flying and carrying a gun, is not a picnic."

Twenty-third New York.—Lt.Col. Alex. S. Bacon.

BERGEN farm, on the outskirts of Brooklyn, was on Saturday last the scene of a sanguinary engagement between two wings of the 23d Regiment of Brooklyn, in which the saying concerning Greek meeting Greek found appropriate application. The command was organized into eighteen companies, of 16 files front each, the additional companies being formed of details from the regular ten companies of the regiment. The defensive party consisted of eight companies under command of Maj. Chas. E. Waters, assisted by Capt. W. L. Candee, of Co. B, and Capt. F. L. Holmes, of Co. I. The attack was conducted by ten companies under command of Lieut.-Col. Bacon, assisted by Capt. Alex. C. Smith, Co. H, and Ezra De Forest, Co. C.

The regiment assembled at the armory at 2 o'clock, and as soon as the command to march was given, Capt. Williard L. Candee, of Co. B, took the advance and deployed his men as skirmishers. A company was similarly deployed, under command of Capt. Fred C. Cocheu, as a rear guard, and flanking companies were deployed as skirmishers.

The main body was marched in close column of companies, with the ammunition wagon in the centre guarded by a company on either side in column of fours. During the march riot drill was practised in, as the formation would suggest, and imaginary rioters were knocked over at every street corner, and from housetops and windows. At 3d avenue cars were taken to 49th street. Here the line of march was taken up for the battlefield, which was the Bergen farm, a rough bit of country, exceedingly hilly and covered with patches and a thick growth of underbrush and briars.

The outposts of the defence were driven in, their flanks turned, and they were compelled to fall back upon a line on a high hill, defended in front by marshes and flanked by imaginary field works. A feint was made on the right, under cover of which an attacking party massed on the left, and the position was carried by a simultaneous advance all along the line. The day's experience was very instructive to both officers and men, and all agreed that if they could have more just such drills as this much good would result.

THE NATIONAL ENCAMPMENT.

Errors Noted in the Infantry Company Competitions.

WE complete the record of the company drill at the National Encampment, Washington, with a statement of the errors of the Muscatine Rifles, which we did not have at the time. It is as follows:

Muscatine Rifles, Co. C, 2d Iowa.—About face, one man slow; to the rear, lost dress; by file, right dress, dressed ahead of line; march to stacks and resume arms, slow, arriving.

Manual, support, one man slow; order, one man slow; charge bayonets, four too high; right shoulder, pieces too vertical; arms port, pieces too low; secure arms, one man slow, load, cadence; ready, extra motion; aim left oblique the word company omitted from command: fire by file, cadence; carry from fire, cadence; fire as rear rank, cadence in loading: fire kneeling, cadence; fire lying down, cadence.

March in line and halt, one man out of dress; wheel company from halt to right, advanced marching flank too far wheel company, marching, to left, pivot step too short; left turn, opened out; oblique in column of fours, lost cover form line to front in double time, opened out; oblique in line, lost distance.

Trail arms and arms port, lost dress; advance in double time 100 yards, halting and firing kneeling twice, with blank cartridges, then retire company over same ground in double time, halting and firing kneeling, to original front, twice with blank cartridges, left hands carried too low. One bad volley; form column of platoons to the right, one man out of dress; form column of fours right in front, lost distance; form line on the right, bad dress.

Company finished the programme and executed twelve extra movements in 28 minutes.

(Correspondence of the Army and Navy Journal.)

SOME BUFFALO BUBBLES.

BUFFALO, N. Y., JUNE 26.

IN my last letter I told you that some of the ambitious companies would end the drill season by skirmish drills at the Park in heavy marching order. Two of these companies were E and F, of the 74th Regiment, who joined in an informal organization called the Fremont battalion, from Fremont place, by the side of which the armory of the regiment is situated. The commandant of the battalion was Captain George C. Fox, of F, who ranks Captain Frank N. Farrar, of E.

This battalion, which, as I have said, was a thoroughly informal organization—as a battalion—went out several times for deployment in skirmish drill. Now it happened that St. Luke's church, whose rector is the Rev. Walter North, for the past seven years chaplain of the 74th, had decided to give a lawn fete and strawberry festival in Olympic Park, the

scene of the glories and defeats of the Buffalo base ball club. To lend military eclat to the occasion, as well as to gather in the shekels for the church, Chaplain North invited the Fremont battalion to give an exhibition dress parade and skirmish drill.

Thereupon arose in the remainder of the 74th Regiment much ill-feeling. Some of the other officers raised the military point that troops in State service cannot take another name than that assigned them by the State, and serve in State uniform and with State arms. Col. Bloomer suggested to the chaplain that to smooth over the difficulty the entire regiment be invited. To this the chaplain assented, and on Thursday evening, June 23, the regiment assembled at the armory and marched to Olympic Park. The drill was made one of the compulsory drills of the year. A dress parade was had, after which came a review before the chaplain, Capt. Fox in command. Then came a skirmish drill and a sham battle, forty rounds of blank cartridges having been given to each man. After the drill the arms were sent back to the armory in a wagon, and the uniformed soldiers were allowed to roam at will between rows of ice cream booths and strawberry and cream tents. About three thousand spectators attended and the affair netted the church between five and six hundred dollars. Everything passed off pleasantly and successfully. Be it remembered, however, that the Fremont battalion, as such, still pursues unmolested its laudable undertaking of out-of-door drills.

The one Buffalo expression on every one's lips is the old saw about the play of Hamlet with *Hamlet* left out. And the cause of this is the no, I thank you, declination of the Buffalo regiments to participate in the Fourth of July parade. In a letter declining the invitation to do so, Colonels Bloomer and Welch say,: "As commanding officers we do not feel that it would be just to officers and men whom we command to use the power vested in us by the State, to require our commands to perform this additional service which means to them the loss of the only holiday they have and a fatiguing march under a broiling sun, and throws upon us the responsibility of causing them to make a parade at a season of the year, when marches of this character are always attended with more or less suffering and danger to health."

In this letter the colonels were supported by Brig.-General Doyle, who is the only one besides Gov. Hill having the power to order the regiments out. It was very broadly hinted that unless the militia retracts its decision the indignation of the populace would rise to such a height that Governor Hill will be petitioned to call out the guardsmen.

Finally, on the 30th, General Doyle, who had previously been ignored, received from the Chief Marshal, Gen. Graves, a note asking his brigade to parade, the former invitation having been addressed to Colonels Welch and Bloomer. Gen. Doyle refusing to order out the brigade, the officers of the 65th and 74th assembled and considered the question of parading, the 74th finally yielding to the clamor and deciding to do so. It is not thought that more than 25 per cent. of the regiment can be got into line for the parade.

The G. A. R. will probably turn out with their old escort, Co. D, Buffalo City Guard; the 42d Separate Company, of Niagara Falls, have been invited, and the warriors from the Tonawanda and Cattaraugus reservations will whoop 'er up for the Fourth.

The officers of the 65th Regiment accepted an invitation to dine with Col. Geo. G. Carlisle, of the 20th Canadian battalion, at Camp Niagara, Niagara, Ont., on Wednesday, June 22. After dinner speeches were made, and in the evening the party adjourned to the Queen's Royal Hotel to participate in the hop. The trip was greatly enjoyed.

Co. F, 74th Regiment, has, as its commandant says, a good many shooting irons in the fire. A plan to refurnish their room, moonlight excursions down Niagara river, a company photograph gallery, and a proposal for badges for men serving five years, are all on the table—or under it.

Brig.-General Doyle, who has been in attendance at the reunion of the Army of the Potomac at Saratoga, is an old timer in the militia. He joined Co. B, 74th Regiment, in 1856[2] when but about 16 years old. Enlisting in the 21st Regt. N. Y. V., served in the war, was mustered out in '63, brevet major, and has since served with distinction in the National Guard of New York State. EXTREM.

PENSIONS FOR MILITIAMEN.

THE Governor of New York has signed the bill granting pensions in certain cases to members of the National Guard. It provides that every member of the National Guard who shall be wounded or disabled, or in the past ten years has been so disabled in the performance of any actual service of the State, such as in cases of riot, tumult, breach of the peace, resistance to process, invasion, insurrection or imminent danger thereof, or whenever called upon in aid of the civic authorities, shall receive out of any moneys in the treasury of this State, not otherwise appropriated, upon certificate of the Surgeon-General, audit of the Adjutant-General and approval of the Governor, the like pension or rewards that persons under similar circumstances received from the United States and, in cases of injury or death, then the widow or minor children of such member of the National Guard shall receive such pension and reward, which shall date from and be paid from the passage of this act and hereafter at the time of receiving the injuries on account of which the reward is allowed.

MILITIA ITEMS.

Capt. W. V. Peacon, commanding Co. F, 14th N. Y., sailed for Europe with his son on Saturday, June 25. The members of his comapny gave him a send-off on Friday evening, June 24, at 3.30, by presenting him with a gold medal on board the steamship *Etruria*, Cunard Line, in token of his services, and in admiration of his abilities and energy as their commander.

The facilities and conveniences offered in the tent of the Young Men's Christian Association at the camp at Peekskill, to those on duty and in attendance at the camp is greatly appreciated, and their tent is largely patronized. It is provided with a long table and writing paper, envelopes, pens, ink, books, novels, daily and weekly papers, and games of all kinds are provided free of charge. Mail matter is also collected for those in camp, and every effort is made to make things pleasant. Religious singing meetings are also held. Mr. C. L. Bouchel, assisted by E. L. Hamilton, Secretary of C. R. R. branch of the Y. M. C. A., are in charge of the tent.

A special meeting of the board of directors of the National Rifle Association was held June 27 in Temple Court to take action on the charges preferred by Brig.-General Robbins against Lieuts. Wilson and Pasco for their conduct at Creedmoor. The matter was referred to the executive committee to report at the next regular monthly meeting of the board, July 12. The charges against Gen. Robbins will be sent to the Adjt.-General.

Some dispute has arisen as to the scores made by Co. K, 13th Regt., N. G. S. N. Y., which at Creedmoor qualified 27 out of 28 men. The matter has been referred to Gen. Robbins, I. G. of R. P. By S. O. No. 54, Col. William J. Denslow is relieved from duty as Inspector of the 2d Brigade, N. G., S. N. Y., to which he was assigned by S. O. No. 81, series of 1886. He is returned to the supernumerary list. To fill this vacancy Gen. James McLeer has promoted Major Gustave Adolph Jahn, up to the present time Commissary of Subsistence, to the position of Brigade Inspector with the rank of major. He has been a member of the National Guard for the last 24 years. Capt. Fritz Brosé, senior aide on the brigade staff, has been promoted to the position of Commissary of Subsistence, with the rank of major, and his place has been filled by the promotion of the junior aid, Capt. Beard.

Co. D, 23d Regt., N. G. S. N. Y., will take a tally-ho coach on the 4th of July and drive to College Point, where a game of base ball will be played. The senior corporal Mr. G. F. A. Bendies has been elected sergeant of this company, and Privates Clarence Britton and N. W. Ferry, corporals.

CONNECTICUT.

THE following members of the National Guard are announced as having qualified during the season of 1886, as sharpshooters, first-class marksmen, and marksmen, and are awarded the State decoration, which is to be worn whenever the dress uniform is worn 2d Regiment, Com'y Sergt. H. P. Viberts, Jr.; Co. A, Privates C. J. Birkenmayer, O. H. Burr, J. Dodds, F. Silvernail, H. G. Ward; Co. B, 2d Lieut. Geo. M. Schaffner, 1st Sergt. H. W. Weisner, Pvt. H. Robinson; Co. C, Corpl. J. J. Hogan; Co. D, Corpls. G. A. Holbrook and W. W. Hill, Pvt. C. Hofacker; Co. K, Sergts. H. Norton, Jr., D. L. Barber, Corpl. O. A. Phelps, Musician C. F. Lane, Pvt. J. J. Niland.

5th Battalion, 1st Lieut. W. P. H. Cross, Q. M.; 1st Lieut. W. H. Donaldson, Asst. Surgeon; Co. A, Pvts. J. R. Cannon, J. O. Jones; Co. B, Capt. L. G. Seymour, 1st Lieut. L. E. Seymour, 1st Sergt. H. H. Williams, Sergts. A. M. Seymour, and V. E. Davis, Corpls. D. Jackson, A. E. Williams, and J. H. Ford, Musician H. M. Ceasor, Pvts. J. Carr, W. W. Christian, P. Jackson, and F. M. Mason.

MASSACHUSETTS MILITIA.

AN officer trained in the school of the Regular Army, who made a brief visit to the camp of the 1st Brigade at Framingham, writes us concerning it as follows: "Gen. Wales has a systematic and very correct method of training his staff and his method is producing good results. The camp was very orderly, the officers generally interested in their work, and performed such duties as I happened to see without unnecessary fuss. The light battery was at drill; their distances and intervals were well kept for the few movements I saw. Their horses were stabled, the drivers attending to their harnessing and grooming. I was told that the feeding was under the superintendence of an old non-commissioned officer—a farmer. The camp was clean. Comment upon the arrangement of it would seem out of place, as the tents were pitched by a special set of men hired for the purpose. This owing to the great damage done in the past to the canvas by the raw men. There was practically no drinking to speak of. It seemed to me in the casual glance that I had that the battalion drill was hardly so good as it should have been. But I have been told that this was partly owing to a large number of new officers and men, and that it improved greatly during the week."

The new Militia Law, enacted by the Legislature, having received the approval of the Governor June 14, will go into effect July 14, 1887, until which date the present law remains in full force and effect. On and after July 14, brigade, regimental and battalion commanders will constitute the Military Board of Examiners, as follows: Brig.-Gen. F. Peach, Jr., 2d Brigade; Brig.-Gen. Nat. Wales, 1st Brigade; Col. A. C. Wellington, 1st Regt.; Col. Benj. F. Bridges, Jr., 2d Regt.; Col. Wm. A. Bancroft, 5th Regt.; Col. Henry G. Greene, 6th Regt.; Col. Wm. M. Strachan, 9th Regt.; Col. F. A. Osgood, 8th Regt.; Lieut.-Col. Thomas F. Edmands, 1st Corps Cadets; Lieut.-Col. J. Frank Dalton, 2d Corps Cadets. The rank of Assistant Inspectors-General of rifle practice has been increased to that of Major and an inspector of rifle practice authorized for 1st Battalion Cavalry and 1st and 2d Corps of Cadets.

A Board, consisting of the following named officers: Capt. Charles H. Richardson, Co. G, 6th Regt.; Capt. Charles L. Dodge, Co. E, 8th Regt.; Capt. Sierra L. Braley, Co. M, 1st Regt.; Capt. Charles W. Brown, Co. D, 2d Regt.; Capt. Sherman H. Fletcher, Co. F, Cavalry; Capt. James J. Barry, Co. C, 9th Regt.; Capt. Gideon F. Haynes, Co. F, 5th Regt.; Capt. Lawrence N. Duchesney, Battery C, 1st Batn. Art., will convene at the State House, Boston, on Friday, July 1, 1887, at 11 o'clock A. M., to consider what changes, if any, are necessary or advisable in the present dress coats of the militia and report thereon.

The new militia law requires that all the regiments in the State shall have the same number of companies. Three regiments—the 2d, 5th and 9th—will be affected, and twelve new companies will be recruited. The additions to the 2d Regiment will be made from the western portion of the State. The 5th and 9th Regiments will recruit their four companies between Boston and Worcester.

VERMONT NATIONAL GUARD.

G. O. 11, Adjutant and Inspector-General's office, State of Vermont, June 22, directs the several organizations of the National Guard of Vermont to go into camp at Bennington, on Saturday, Aug. 13, to remain five days. The encampment will be known as Camp Colonel Seth Warner, and will be conducted in accordance with the rules governing military posts. Brig.-Gen. William L. Greenleaf is assigned to duty at the camp as Post Commander. As far as practicable, the Quartermaster-General will arrange transportation for the troops, so that all may arrive in camp not later than five o'clock P. M., August 13th. Pay will be allowed to officers and enlisted men for the days on which the organization arrives at, and departs from camp; and for such other days during the encampment as they are present for duty from reveille until retreat, unless properly excused by the Post Commander. The 1st and 2d Separate Companies, Infantry, will form a provisional battalion under the command of such field officer as the Post Commander may designate. While en route to and from the camp, the senior officer present will be in command, and will be held responsible for the maintenance of order and discipline. The camp will be laid out and arranged in accordance with military regulations, and all decorations, fireworks, and illuminations are strictly prohibited.

G. O. 12, June 24, from the above headquarters orders an additional parade of the several organizations of the National Guard of Vermont at Bennington, commencing Wednesday, Aug. 10, and continuing three days.

The parade will be under the same command and subject to the same rules and regulations as the Camp of Instruction directed by General Order No. 11, of June 22.

TEXAS STATE ENCAMPMENT.

The State encampment at Houston closed June 25. Lieuts. Hickey, Cushman and Rumbough, U. S. Army, the judges, made awards as follows: To companies that have never won a prize in an interstate drill against interstate companies—First prize, Waco Light Infantry; second prize, Brenham Light Guard. To companies that have never won a prize in either a State or interstate drill—First prize, Austin Grays, of Austin; second prize, Brenham Light Guards; third prize, Dallas Light Guards; fourth prize, Fayette Light Guards, of LaGrange; fifth prize, Pearson Guards, of Richmond; sixth prize, Lee Guards, of Gidding. The Houston Light Guard has made a score greater than that of the winning company in class one required by the Board of Management, and are entitled to the prize offered under the head of special prize, being $250. In the individual competition Prvt. R. Garrett, Waco Light Infantry, first prize, $25; Prvt. J. H. Killough, Fayette Light Guards, second prize, $15; Prvt. John T. Brown, Dallas Light Guards, third prize, $10.

A Houston correspondent writes: "The third day of the State Encampment, June 23, passed off successfully. At least 14,000 people were in attendance. Light Battery F, of the 3d U. S. Artillery, from San Antonio, gave an exhibition drill in the broad expanse beyond the drill grounds. The drill was exciting and beautiful. A press banquet was given in the evening in the armory of the Houston Light Guards.

At the close of the Paris, Texas, military jubilee a quantity of fireworks accidentally exploded, and killed instantly Capt. J. E. Barry, of Paris, and wounded mortally Captain C. L. Marshall, of Blossom Prairie, and some 20 more, chiefly women and children.

CALIFORNIA NATIONAL GUARD.

CAMP BARTLETT at Healdsburg will be formally opened July 2, the 2d Brigade marching in on that day. Brig.-Gen. Dimond has invited the 6th Brigade to encamp with the 2d, and the invitation being accepted the 6th will have a position on the left of the line. Maj.-Gen. O. O. Howard, U. S. A., will review the troops July 7, and Insp.-Gen. R. P. Hughes, U. S. Army, of his staff, will officially inspect the camp during its progress. Everything points to a successful occasion in a strictly military point of view.

VIRGINIA.

A NEW military company has been organized at Staunton to be called the "Jackson Rifles."

REFORM IN ARMY TARGET PRACTICE.

To the Editor of the Army and Navy Journal:

SINCE two distinguished marksmen have ventilated their opinion on the subject of needed reform in Army target practice, may I ask the JOURNAL to grant me enough space for a few remarks on the same subject. Lieuts. Merriam and Clay have made excellent suggestions. Coming from two such experienced riflemen they should carry great weight. My own eight years' experience tells me that the advice they offer is good. When a few years ago the opinions of Army riflemen were listened to, such counsel would have borne good fruit; for at that time, when target practice in the Army was just starting, these same riflemen quietly introduced many valuable improvements into the Service, viz., the prairie belt, the pistol grip, the buck-horn sight, and almost introduced into the Service a vastly superior rifle to our present one. The six grooved Springfield rifle which Col. Litchfield induced the Ordnance Department to manufacture enabled the Army teams to capture the grand prize (Hilton Trophy) at Creedmoor. A few such suggestions nowadays might add to this list of improvements; for instance, to mention but *two*—an electric bath of a few minutes duration would coat every bullet with a film of copper, prevent leading, insure greater accuracy, and leave the rifle constantly clean in the hands of the rifleman; add another extractor to balance the bearing and prevent their constant failure of this frail part of the Springfield' mechanism. At present, alas! the influence of the *practical* rifleman is upon the decline. The question whether an American soldier should criticize a bad regulation is answered by the asking. The astounding principle announced by the Inspector of Rifle Practice, G. V. H., that one has not a right to discuss calmly the authorized system of target practice for its better improvement, violates rights which even an American soldier has not given up; it sounds rather too Russian. I fear me it was ill-advised for Lieut. M. to have proclaimed from the house-tops, that he had little or no faith in the marking and scoring which has produced such phenomenal company records during the past year or so. I am appalled at his temerity. But when one comes to think of it, he has some slight excuse for going astray, as it does seem strange that not one of these companies, with their immense "figures of merit," had a phenomenal shot to demonstrate his skill at the Dept., Division, or Army contests.

Shooting is a passion with the writer. He not only likes to see but to read of "big scores." But when a "doubting" Thomas intimates that the markers were not fair-minded he merely insinuates.

"The proof of the pudding is in the eating." These phenomenal shooters furnish poor pudding on the match, perhaps they were "oxcited," wouldn't it be better so to put it? How shall we obviate the difficulty and exorcise the doubting devil? My idea is that the individual figure of merit should not be counted in making up that of the company. The individual should be obliged to qualify as before, except that *any shot* fired outside of the gallery during the whole season should be counted in computing his individual figure of merit. The company's figure of merit should be made up solely from the record of its skirmish and volley firing. This practice should be witnessed by the Dept. Inspector of Rifle Practice. Skirmishing should be not at the fixed figure targets, but at vanishing and moving targets. For example, the line of skirmishers starts towards the butts; five seconds after the first halt has sounded cause either the standing or kneeling figure target to appear for fifteen seconds, then let the two named targets alternate in appearing as the skirmishers move down the range until the line has approached to within three hundred yards of the butts. The prone figures should appear for the same length of time; at the last halt when the skirmishers are supposed to fire as rapidly as possible, the figures should be moved a few yards side ways. When the men are new at this kind of practice the movement should be slow; after they are more expert it may be at some fixed and rapid rate.

As to the rifle that we are armed with I would like to ask a question: Would we as a nation trust to this weapon in a war against a foreign power armed with any of the best rifles now made in this country or in England? If so, there is no doubt in my mind but that we would be badly worsted.

MEDALS.

NEW PUBLICATIONS.

"Behind the Blue Ridge," by Frances Courtenay Baylor, the author of "On Both Sides," is well called by her "a homely narrative," for it deals with the every-day life of a "homely" people, the mountaineers of the Blue Ridge of Virginia. The plot is a simple one, the life of one of the dwellers on "the mountain," but vigor, grace, and a strong characteristic style distinguish this very interesting story. The opening chapter has a spirited and charming description of the old mountain road, which connects the valley of Virginia with the outer world, and a sketch of John Shore, the simple hero of the tale. We recognize in him another of the type made dear to us in Rip Van Winkle or Mrs. Stowe's "Sam Lawton," and the pathos of his life is as deep as that of Rip's. The other characters are all real people, some very amusing, and the work fully maintains the reputation gained by Miss Baylor when she wrote "On Both Sides," and is well worth reading. Published by J. B. Lippincott Company.

Mr. Eadweard Muybridge, whose remarkable instantaneous photographs of "The Horse in Motion," published in 1882, astonished the world, has been working in the same line for the past four years under the auspices of the University of Pennsylvania. About $30,000 have been expended, and 100,000 plates have been exposed. The result is a series of views presenting over 20,000 positions assumed by men, women, and children, draped and nude, and by birds and animals in motion. The "Century" some time ago secured the right to the first publication of a selection from these pictures, and in the July number an article will appear on this subject, by Talcott Williams, of the Philadelphia *Press*, illustrated with a number of the views, including those of men jumping and somersaulting, batting and throwing base-ball, birds flying, horses jumping, a mule "bucking" and kicking, etc.

Professor Atwater, of the Wesleyan University, publishes his third paper in "The Century" for July on the "Chemistry and Economy of Food." His new article is entitled "The Potential Energy of Food." Prof. Atwater says: "The use of oily and fatty foods in Arctic regions is explained by the great potential energy of fat, a pound of which is equal to over two pounds of protein or starch."

ANSWERS TO CORRESPONDENTS.

F. F.—Write to the Adjutant of the Military Academy, West Point, for a copy of the latest register of cadets.

G. R. H.—The only colored regiment commanded by a Colonel Steel was the 11th U. S. Colored Troops, mustered in in Arkansas.

Pax.—There *are* clerkships connected with the U. S. Army in and around New York which pay over $1,500 a year, but not many.

J. L. V. B.—Major G. W. Candee, Paymaster, U. S. A., is at present stationed in St. Louis, but he will be relieved sometime in July by Major Charles I. Wilson, Paymaster, now at Omaha.

A. V. B.—The name of the hospital steward at Fort Harker, Kansas, in October, 1869, was Isaac H. Wilson. He was discharged at Frankford Arsenal, Pa., Aug. 9, 1880. Nothing further of him is known.

M. F. P.—There is a vacancy in the 2d Rhode Island District but no member of Congress at present to make the appointment. For information in regard to admission to the Military Academy, etc., write to the Adjutant-General, U. S. Army.

Brooklyn asks: 1. Has sec. 1471, to remove the charge of desertion in A.-G. O. against soldiers who enlist with one command without the proper discharge from another become a law? ANS.—Yes; approved by President, May 11, 1887.

2. Has bill No. 1490, to amend 103d A. of W., become a law? It adds a clause providing that no person shall be tried or punished by a Court-martial for desertion in time of peace and not in the face of an enemy committed more than two years before the arraignment of such person. ANS.—No.

3. Has a man who deserted three years ago lost his citizenship. Is it advisable for a deserter to enlist again and serve five years, or what is it best to do? ANS.—While, of course, you do not lose your citizenship, you are still subject to arrest and trial for desertion. Our advice would be to surrender yourself at the station from which you deserted and trust to the chances of being allowed to serve your term out without severe punishment for deserting.

C. S. asks: Can Chinese become citizens of the United States (apart from treaty obligations,) as well as other foreigners, and do the Constitution and laws discriminate against the admission of Chinese as citizens of the United States? ANS.—Up to the time of the adoption of the Fifteenth Amendment to the Constitution, only white persons were permitted to become citizens by naturalization, and the amendment to the laws since made (Act of July 14, 1870,) only extends the privilege to persons of African descent. A Chinaman, therefore, not being a white man nor of African descent, cannot become a citizen by naturalization, unless by treaty or by act of Congress. His child, however, is a citizen by birth if born within the United States, though a son of the Chinese Ambassador is not by the fact of birth within the United States, a citizen of the United States, because he is not born "subject to the jurisdiction thereof." The same law applies to the native Indians of this country. An Indian, born in tribal relations, is not born fully "subject to the jurisdiction of the United States," and, therefore, is not a citizen by birth, nor can he be naturalized except by special treaty or by Congressional enactment, because he is neither a white man nor a person of African descent. If, on the other hand, he renounces his tribal relations, and takes up his abode in a civilized community, his son born after such change of abode is a citizen by birth, because *born* subject to the jurisdiction of the United States. The Constitution and laws do, therefore, discriminate, as shown above, against the admission of Chinese as citizens of the United States, as well as against every race of men other than Caucasian or African. The few instances of naturalization of Chinese, as reported in the press from time to time, have all taken place through ignorance or disregard of law, and are void.

DEPARTURE OF FOREIGN MAILS.

THE following is a list of the dates of departure of the mails during the month of July for the West Indies, Mexico, and for Central and South America. From New York.—For Central America, except Guatemala and Costa Rica and the South Pacific, except Chili, also specially addressed correspondence for Chili, Guatemala, Costa Rica, and Mexico, July 1, 11, 20; Cape Hayti, St. Domingo, and Turk's Islands, July 9, 30; Windward Islands, July 16, 27; Vera Cruz and Progresso, July 4, 14, 23; Hayti, July 14, 28; Bermuda, July 7, 20; Jamaica, July 2, 16, 23; Curacoa and Venezuela, July 7, 20, 30. For Jamaica, Nicaragua, and U. S. of Colombia, except Aspinwall and Panama, July 6, 27; Para, Pernambuco, and Ceara, Brazil, July 30; Bahama Islands and Santiago, Cuba, July 7; Mexican States of Yucatan, Campeche, Tabasco, and Chiapas, also specially addressed correspondence for other Mexican States, July 7, 21; for St. Croix, St. Thomas and Windward Islands direct, July 2.

From New Orleans.—For Nicaragua, July 2, 27; Republic of Honduras and Bay Islands, July 5, 10, 12, 14, 19, 26, 27, specially addressed correspondence for Cuba and Porto Rico, July 14, 23; British Honduras, Guatemala, and the Republic of Honduras, July 9, 19, 30; U. S. of Colombia, July 13, 30; Bay Islands, July 14, 25; Costa Rica, July 8, 22.

Mails for Cuba leave Philadelphia July 11, 18, 25.

Mails for St. Thomas and for St. Croix via St. Thomas; for Barbadoes, and for Trinidad and Demerara via Barbadoes, for Brazil direct, and for Chili, the Argentine Republic, Uruguay and Paraguay via Brazil, leave Newport News, Va., July 9, 30.

Mails for the South Pacific and Central American ports; also for the States of Sinaloa, Jalisco, Colima, Michocan, and Guerrero, Mexico, leave San Francisco, Cal., July 1, 15.

Mails for Lower California and the West Coast of Mexico, leave San Francisco July 7.

Trans-Pacific mails leave San Francisco, Cal., as follows: For Japan, Shanghai, Hong Kong and dependent Chinese ports and the East Indies, except British India, Straits settlements, Siam and Dutch East Indies, July 12, 23; New Zealand and Australia, and for Fiji and Samoan Islands and New Caledonia via Sidney, N. S. W., Hawaiian Kingdom, July 1, 29. Tahiti and Marquesas Islands, July 31.

FOREIGN SMALL ARMS.

THE English Committee on Small Arms have just commenced at Enfield a series of experiments with different sized bullets, principally designed for the Enfield-Martini and Rubini rifles, with a view to the adoption of a pattern for the new repeating rifle. The object is to obtain information as to the relative forces of the different projectiles on animal bodies, and the experiments were made upon the carcasses of horses. The men who fired took aim as directed at particular parts, and the results were examined by veterinary surgeons. It was found that the effect produced by the bullets of small calibre was greater than that resulting from the use of the larger bullets.

According to *La France*, the new French small-bore rifle is a jewel which the soldier will adore, pet, and take care of. There will be no recoil when he fires it, and no smoke; he will be able to blaze away with impunity from the border of a wood, being invisible. He will not lose his head by fighting in noise and obscurity. The cartridges, of which he will have an unlimited supply, are nickelled and charming, and no thicker than the end of a pencil. We are then told that the sword-bayonet is very pointed and tempting, and that it will encourage the troops of Boulanger to fight in the old fashion when they come to close quarters with Prussian cloth.

THE ITALIAN CRUISER "DOGALI."

THE particulars concerning the *Dogali* are as follows:

Length all over	267 ft.
Length between perpendiculars	250 ft.
Breadth, moulded	37 ft.
Depth, moulded	20 ft, 6 in.
Draught of water, forward	13 ft.
" " aft	16 ft.
" " mean	14ft. 6 in.
Displacement	2050 tons.
Indicated horse-power:	
Natural draught	5000 tons.
Forced	7700 tons.
Speed—forced draught	19.66 knots

Armament—Six 6-inch breechloading guns on centre pivot Vavasseur mountings, nine 6-pounder rapid-firing guns on recoil carriages, six Gardner guns, one bow torpedo gun fixed, one stern torpedo gun training, two broadside training torpedo guns. The vessel has twin-screws, each propeller being driven by a triple-expansion horizontal direct-acting engine. Storage is provided for 500 tons of coal, which would serve at a maximum speed for a run of about 60 hours, or 1,100 knots, or at half-speed for about 20 days, or 4,500 knots. The vessel is rigged with two military masts, with light fore and aft sails. The tops are arranged as revolving towers, completely hiding the gunners. Each top carries one Gatling gun. The whole length of the hold of the vessel from stem to stern is protected by a steel deck of a minimum thickness of 1 inch and a maximum of 2 inches. The vessel carries two search lights of 20,000 candle power, and a complete outfit of infernal lighting.

This vessel is the first war-ship fitted with triple-expansion engines. They were made by Messrs. R. and W. Hawthorn, Leslie and Co., of Newcastle-on-Tyne, and are of the twin-screw horizontal type. Each set of main engines has three cylinders, 30 in., 45 in. and 73 in. diameter, with a stroke of 2 ft. 9 in. The slides are worked on Marshall's system, which

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

AN EXTRAORDINARY RAZOR HAS BEEN INVENTED by the QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Capt. U. S. Army, and Colonel of Volunteers,)
ATTORNEY AND COUNSELOR AT LAW
(Corcoran Building), F and Fifteenth Streets, Washington, D. C.

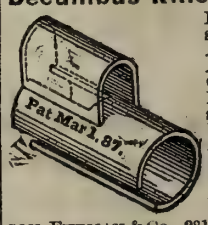
Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D.C.; Hon. John S. Williams, 3d Auditor, U.S. Treasury, Washington, D.C.; Hon. W. P. Canaday, Sergt. at Arms, U. S. Senate, Washington, D. C.; Gen. O. O. Howard, U. S. Army.

BEAUTY of Skin & Scalp RESTORED by the CUTICURA Remedies.

NOTHING IS KNOWN TO SCIENCE AT all comparable to the CUTICURA REMEDIES in their marvellous properties of cleansing, purifying and beautifying the skin and in curing torturing, disfiguring, itching, scaly and pimply diseases of the skin, scalp and blood, with loss of hair.

CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, prepared from it, externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally, are a positive cure for every form of skin and blood disease, from pimples to scrofula. CUTICURA REMEDIES are absolutely pure and the only infallible skin beautifiers and blood purifiers.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG & CHEMICAL CO., Boston, Mass.



Send for "How to Cure Skin Diseases."

HANDS Soft as dove's down, and as white, by using CUTICURA MEDICATED SOAP.

SOLID CANE SEAT AND BACK FOLDING CHAIRS, 40 different Patterns. Folding Rockers, Chairs, Arm Chairs, Bed Chairs, Settees, etc. C. O. COLLIGNON, 181 Canal St., N.Y. Mfr and Patentee. Send for Catalogue. Free.

THE MONOCULAR DUPLEX, OR ARTIST CAMERA.—The picture is seen non-inverted and full size, the very instant of making the exposure. Can be accurately focussed, dispenses with Tripod, Focussing-cloth and carrying-case. Leather covered; ready at a second's notice, and will carry eight to ten plates. Price with double holder $75.00. With roll holder, 48 paper negatives secured without changing spools. Price $95. Catalogue free; sample Photo, 15 cents.
E. W. SMITH & CO., 42 John St., N. Y.

Decumbus Rifle Sight Protector

Protects front sight & shades it when in use. Allowed by order of A. G. O. S. N. Y. in all Qualification Matches. Pronounced by experts superior to all others. Easy of adjustment; no springs or screws; simple and durable. Can be put aside without removal. Price 50 cts. For sale by LAMBERSON, FURMAN & Co., 281 Broadway, New York, by the gun trade generally, and by patentee, O. H. DECUMBUS, 21 Scott St., Newark, N.J.

Kinney Bros.

admits of a very large range of expansion being adopted, and gives as equable a distribution of steam when working at low speeds as when working at full power. The propellers are three-bladed. The whole of the engine pumps are driven by separate independent engines. The condensers are of brass. Steam is supplied from four boilers, each having six furnaces, capable of being worked either with natural or forced draught. The air for the forced draught is supplied by eight fans, each driven by a separate Brotherhood engine. The whole of the auxiliary engines may be made to exhaust either into the main condensers, auxiliary condenser or into the atmosphere. The engines are situated in two separate water-tight engine rooms, the communication between which may be closed at any time by water-tight doors moving horizontally worked from the deck. The boilers also are placed in two water-tight stokeholes. This subdivision of the vessel and the fact that the whole of the auxiliary engines, as well as the main engines, are in duplicate, renders the chances of a complete breakdown very remot During the trial the engines worked well, running at a speed of 155 revolutions per minute, and developing a power of over 7,600 horses, the vessel attaining a speed of 19.66 knots per hour.—*Engineer.*

AUSTRIAN NAVAL MANŒUVRES.

REAR ADMIRAL FRANKLIN, commanding the European Squadron, reports from Spezzia, Italy, June 12: "Rear Admiral Recchia, of the Italian Navy, sailed from here on June 11 with a squadron consisting of armored ships and torpedo-boats for the purpose of naval manœuvres between this point and the Island of Sicily. As far as I have been able to gather he is to attempt the above named island with a force under his command and the Italian permanent squadron under Vice Admiral Orengo, is to attempt to frustrate his designs. The result of these operations will be very interesting to naval men, and it is to be regretted that we could not have had a representative in the fleet, but I believe that the Italian authorities are opposed to the presence of foreigners at such times."

The manœuvres, which are to be at Pola, are the trial of new tactics, which will, if they succeed, bring about, it is said, a change in naval warfare. The operations are to be divided into two parts. In the first series, the armorclads Tegetthoff, Custozza and Erzherzog Albrecht, the cruisers Panther, Leopard Lussin, 18 torpedo boats, and several other vessels will form two opposing squadrons. One, consisting of armorclads, will have its base of operations in Southern Dalmatia; the other, composed of torpedo boats and cruisers, in Northern Dalmatia. The second series of manœuvres will take place next month under the immediate command of Vice Admiral von Sterneck. The squadron of torpedo boats and cruisers will in this case be replaced by a second armorclad squadron consisting of the Don Juan, Kasier Maximilian and Prinz Eu-

ENGLISH HEAVY GUNS.

MR. NORTHCOTE stated recently in the English House of Commons that no 43 ton gun broke down at the proof butts at Woolwich on or about the 28th of August, 1885. On the 26th of August a vent slide failed, but this did not put the gun out of action and a new vent slide was fitted on in half a minute. Changes have been made both in the design and specification of the 12-in. breech-loading guns since their original design in 1881, and these changes were necessary. Two additions are being made to Marks I. and II. 12-in. breech-loading guns with the view of bringing them into conformity with the steel guns of new design. They are being chase-hooped, and that part of the bore specially attacked by the gas is being lined. The guns are believed to be perfectly serviceable.

Sir H. Tyler asked whether a 10-in. wire howitzer and a 9.2-in. wire gun were constructed last year at Woolwich; and, if so, what was the weight and cost of each of them; and, also, whether he would be so good as to describe in regard to the rounds fired from each of those guns—(1) the weight of charge and nature of powder; (2) weight of projectile; (3) muzzle velocity for each round; and (4) the maximum powder pressure, with any other particulars of an interesting character; and whether he would kindly afford in an unopposed return, any information that he was unable to embody in the answer to this question? Mr. Northcote said: "The two guns in question are entirely experimental, and the Secretary of State does not think it would be to the interest of the Service to publish the details asked for by my honorable friend; but he will have no objection to give him such details confidentially for his own information."

FOREIGN ITEMS.

ACCORDING to the "Progres Militaire" (Paris) the French troops in Tonquin have on the sick list 2,200—an enormous proportion for an effective of 12,000 Europeans.

THE Japanese Gens. Kavakami and Nogi have arrived in Berlin, where they contemplate a long stay. They intend to witness, says the "Deutsche Heeres-Zeitung" (Berlin), the manœuvres of the Guard Corps d'Armee, and to visit the principal military institutions of the capital.

GEN. BOULANGER has been appointed to the command of the 13th Army Corps stationed at Clermont-Ferrand, 250 miles from Paris.

THE military editor of the Paris "Temps," writing about the proposed mobilization of a French army corps in the autumn, reminds its readers how dear France paid for a defective organization in 1870.

THE disease known as kumri has killed many horses in Burmah, neither Arab, Australian, nor country-bred being able to resist its ravages. The great mortality it has caused has frequently paralyzed the action of the English British Cavalry.

THE slave trade seems to be pretty briskly carried on in the Red Sea and on the east coast of Africa by the account of the captures which the English gunboats *Dolphin*, *Gannet*, *Albacore*, *Turquoise* and other ships are making. For every dhow the English men-of-war succeed in capturing, it is estimated that nine others make the run.

A COURT OF HONOR in Berlin has decreed that Major Hinze be deprived of the right of the title of Major and to wear the uniform, and the Emperor has confirmed the degradation. Major Hinze was retired on a pension, was a progressist Deputy in the Reichstag, opposed the septennate and favored the short service system. He became intensely unpopular among his former brother officers, who denounced him as unfit to bear an army title or to wear orders. He prosecuted his slanderer in a court of law and obtained a successful verdict, whereupon the staff officers of the Guards corps appointed the court of honor.

ACCORDING to M. Emile Levasseur, the United Kingdom has the largest number of great cities of any country in the world, excluding China, as to the census of which we have really no trustworthy information. The United Kingdom has no fewer than twenty-seven towns each with a population of more than 100,000 inhabitants. The population of these twenty-seven towns amounts to 9,287,000, being about 26¼ per cent. of the whole population of the kingdom. India has the next largest number, twenty-two; but the population of the twenty-two towns is only 4,506,000, and the proportion to the whole population of the Indian Empire is only a little over 1¾ per cent. Next comes the United States of America, with twenty towns, having an aggregate population of 4,753,000, being just about 9 per cent. of the total population of the Union.

PHENOL SODIQUE is one of the most useful mixtures the chemical art has produced. It CURES CUTS or BURNS more quickly than anything else we have ever used. For CATARRHAL AFFECTIONS, INFECTIOUS FEVERS, etc. it is one of the best preventives known. We know it to be a good disinfectant, and heartily recommend it as such.—*Times, Marietta, Pa.*

ALABASTER IS SCARCELY more immaculate than the complexion beautified with GLENN'S SULPHUR SOAP.
HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

SOME smokers seem to forget that a poor cigar costs them exactly as much as a good one, then why not smoke only the best—"Tansill's Punch," America's finest 5c. Cigar.

THE fearless soldier on the midnight watch and the bold mariner before the mast on a stormy sea will certainly suffer from pain in the Chest, Shoulders, Back and Loins, as well as Rheumatism, Sciatica, stiffness and other results of exposure, if they fail to use BENSON'S PLASTERS as a preventive and cure. They never fail. Avoid imitations.

MARRIED.

Improving Raritan Bay, N. Jersey.

ENGINEER OFFICE, U. S. ARMY,
Room 31, Army Building, Cor. Houston and Greene Streets.
NEW YORK, June 23, 1887.

SEALED PROPOSALS for deepening the channel in Raritan Bay, N. J., will be received at this office until twelve (12) o'clock, M., on Wednesday, July 20, 1887.

Proposals must be made in triplicate. Specifications, blank forms and instructions to bidders may be had, on application, at this office.

WALTER McFARLAND,
Lieut. Col. of Engineers.

WAR DEPARTMENT, NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST., CORNER GREENE,
NEW YORK CITY, June 27, 1887.

SEALED PROPOSALS, IN TRIPLICATE, are invited and will be received at this office until 11 A.M., July 28, 1887, for the mason and iron work, etc., called for by specifications "A," and for the carpenter work, etc., called for by specifications marked "B." This work is for the erection of a gymnasium at West Point, N. Y., for which plans and specifications may be seen at this office, and at the Post Quartermaster's office, West Point, N. Y., where also the blank forms of proposals, contracts, etc., can be obtained.

Bidders must state the time within which the work will be completed. Bids must be for all the work, materials, etc., on either of the specifications or on both. Proposals must be made in strict conformity with the plans and specifications, and must be accompanied by a guarantee bond having justification for 20 per cent. of the amount of the proposal, and a bond, with a penalty of 10 per cent. will be required upon execution of the contract. The Government reserves the right to reject any or all proposals.

Envelopes containing proposals should be addressed to the undersigned and marked proposals for gymnasium.

HENRY C. HODGES,
Lt.-Col. and Deputy Q. M. Gen., U. S. Army,
Depot Quartermaster.

Proposals for Quartermaster's Stores.

NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, NEW YORK CITY,
June 4, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office until 11 o'clock A. M., July 7, 1887, at which time and place they will be opened in the presence of bidders for furnishing and delivering at this depot, miscellaneous Quartermaster's stores, such as G. I. buckets and barrels, office furniture, tools, hose, pipe, oils, &c., &c., specified on schedule to be seen and had at this office.

The Government reserves the right to reject any or all proposals, or to accept, as may be most advantageous to the department. Preference given to articles of domestic production and manufacture, condition of price and quality being equal, and such preference given to articles of American production and manufacture produced on the Pacific coast to the extent of the consumption required by the public service there.

Blanks and information as to bidding, &c., will be furnished by this office on application.

Envelopes containing proposals should be marked. "Proposals for Quartermaster's Stores, to be opened July 7, 1887," and be addressed to the undersigned.

HENRY C. HODGES,
Lieutenant Colonel and Deputy Quartermaster-Gen. U. S. Army, Depot Quartermaster.

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D.C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy.

Proposals for Quartermaster's Stores.

JEFFERSONVILLE DEPOT, Q. M. DEPARTMENT, JEFFERSONVILLE, IND.,
June 14, 1887.

SEALED PROPOSALS, in triplicate, subject to usual conditions, will be received at this office, until 11 o'clock, A. M., (Central Standard time,) on Wednesday, July 20, 1887, at which time and place they will be opened in presence of attending bidders, for furnishing and delivering at this Depot miscellaneous Quartermaster's stores, such as Barrack and Office Furniture, Six-mule wagons, Escort wagons, Ambulances, Dougherty Spring wagons, Dump carts, wagon materials, Blacksmiths', Farriers', Wheelwrights', Masons', Saddlers', and miscellaneous tools, iron, hardware, paints, oils, etc.

The Government reserves the right to reject any or all proposals, and to accept the whole or any portion of the supplies bid for.

Preference given to articles of domestic production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture, produced on the Pacific coast, to the extent of the consumption required by the public service there.

Blank proposals, specifications, and full information as to bidding, etc., will be furnished on application to this office.

Envelopes containing proposals should be plainly marked "Proposals for ——, at Jeffersonville Depot, Indiana," and addressed to the undersigned.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

Publication Office, 240 Broadway, N. Y.

THE "Glorious Fourth" was duly observed by the Services on Monday and at many of our posts, especially in the West, athletic sports were the principal features of the programme for the day. We are glad to note a growing interest in manly exercises at Army posts, and that the commissioned officers are affording a liberal and hearty encouragement, without which all efforts in the direction in question would be worth very little.

THE Omaha *Herald* says: "The term 'old soldier' has nothing of the mercenary allied to it in America, as is the case in European countries. Here it is a title, a designation of distinction." We prefer the term "veteran soldier," for in the Army "old soldier" is very often applied to one who has by dint of long and hard practice, acquired a facility for evading regular duty and taking unto himself, as if by prescriptive right, the soft and pleasant places which are often accompanied by a little extra pay.

THE assignment of the six-year naval cadets awaits the return of Secretary WHITNEY, as there are some questions connected therewith which he alone can decide. It is understood that the assignments will be limited to the line. Vacancies in the Engineers are to be filled by the cadet engineers restored to the Service by the decision of the Supreme Court, and no further assignments can be made in the Marine Corps. There are now thirty-six six-year graduates to fill twenty-two vacancies.

SOME newspaper writer has discovered that a lively controversy is in progress between the friends of General SHERMAN and the late General LOGAN, as to which shall give name to the new post at Chicago. As the name of General SHERMAN has already been appropriated for the post lately known as Fort Cœur d'Alene, Idaho, the friends of General LOGAN have the field all to themselves. The eminent propriety of selecting his name to designate a post in the State he so ably represented in military, as well as in civil life, would seem to be sufficient to determine the choice. Fort Logan, then, let it be.

REFERRING to the system of monthly payments to be given a trial at certain points at the end of July, a Washington despatch says: "The Paymaster-General has no confidence in the experiment, and does not think it will prevent either drunkenness or desertion as claimed. Whether soldiers get their pay every month or every quarter, the Paymaster-General thinks, cases of desertion and drunkenness will still occur. The only difference will be that the men in the Service who drink will get drunk every month instead of every three months, and those who contemplate desertion will desert so much the sooner." This is rather a pessimistic view to take of the matter and we hope for better things. But if monthly payments do not give as successful results as hoped for, then there will be found many to advocate that the men be paid twice a month or even weekly. Our own view of the case is simply the practical one, that under a system of frequent payments the careful, economical soldier will continue to lay by just as much, while the reckless, improvident, and dissipated one may possibly get drunk a little oftener, but cannot well continue the spree with his limited exchequer, and can scarcely desert, especially from the remote posts, when he only receives a few dollars at a time. At any rate the new system is well worth a trial, and we shall look forward with interest to statistical results.

THE English Admiralty and War Office are passing through an experience from which we are just emerging, thanks to the erection of the stately Government building at Washington, under the supervision of Colonel CASEY. Houses have to be hired all around the central offices to accommodate the growing business of the military departments. This practice has been frequently condemned by parliamentary committees, and in 1882 a site for a new building was purchased to the west of Charing Cross and Parliament street. Plans for a new building were selected in 1884 by public competition, the erection of those chosen involving an expenditure of $3,500,000, and the demolition of the present Admiralty building. But a parliamentary committee in 1885 decided that the present buildings could be made to answer the purpose by a moderate expenditure in repairs and improvements and the concentration of the clerks of the departments in fewer rooms; so the work of rebuilding is for the present suspended.

CONSIDERING the accumulating evidence of the value of oil in stilling waves it is curious that it is not more generally made use of. This is to be explained partly by the natural conservatism which opposes to change of any sort at least the vis inertia of indifference, and partly by the unwillingness of old sailors to adopt expedients which seem to reflect upon their nautical skill and experience. In a paper recently read before the Franklin Institute by T. F. TOWNSEND, and published in the last number of its "Proceedings," we are told that the stilling of waves by means of oil was known to the Ancients and is mentioned in the writings of PLUTARCH, PLINY and ARISTOTLE. It has also been long practiced by whalemen, fishermen and divers, but it has not yet come into general use though instances of its employment seem to be increasing in frequency. BENJAMIN FRANKLIN investigated the subject and Mr. TOWNSEND gives an interesting letter from him, describing the result of experiments made in 1773, and stating instances of the effect of oil upon water. The excellent work done by our Hydrographic Office in disseminating knowledge on this important subject, receives due credit from Mr. TOWNSEND who makes a contribution of his own to the practical introduction of this method of securing safety at sea in the shape of a hollow metal globe, carrying one and a half gallons of oil and designed to distribute it over the waves in constant and regular flow at the rate of from one pint to two gallons per hour.

THE findings of the Court of Inquiry in regard to irregular proceedings at Fort Cœur d'Alene, now Fort Sherman, which we this week publish, carry their own comment with them. The court was "instituted by direction of the President" to investigate charges preferred by civilians, and the result is one which, for the credit of our Army, we all wish might have been different. As a straight line is the shortest distance between two points, so the shortest and best road to the accomplishment of any desired purpose by an officer of the Army is that straight course pointed out by the law and Army Regulations. There is one suggestion in the findings of the court which does not seem to be altogether fair, and that is that the irregularities at Cœur d'Alene were the outgrowth of a letter of instructions from General HOWARD "to work the mill to its full capacity and use every contrivance to push construction of all buildings to completion with the least possible call for money." What is there in this to suggest such transactions as those described by the court in its report? We believe that it had been the custom at Fort Cœur d'Alene to exchange sawn lumber for timber with citizens, in the proportion of five feet of timber for one of lumber. This was done partly to accommodate the settlers, who otherwise had no means of obtaining the material for building their cabins, and partly to save the labor of the enlisted men in cutting and hauling timber, to which work they were unaccustomed. The mistake was in adopting methods for expediting the building of the post which involved irregularity in money dealings, and opened the way for such transactions as those in which the enlisted men of the garrison were involved with the Post Trader. These were not only demoralizing to the command, but they brought a scandal upon the Service, the severest comment upon which is involved in the President's statement that "the most serious charges are barred by the statute of limitations."

CROWN PRINCE FREDERICK WILLIAM of Germany, according to the Paris *Figaro*, recently visited the Comte de Paris to tell him that the formation of a Floquet Boulanger Ministry would be followed within a month by a war between France and Germany. If such a result follows the reinstatement of Boulanger it will be because Germany wishes an excuse for immediate action, and that she can find whether Boulanger returns to office or not. Boulanger is no fool, and he knows as well as Von Moltke or Bismarck that the French Army is by no means yet equal to that of Germany, and that precipitating a campaign of revenge is simply playing into the hands of the enemy. The policy of France is unquestionably the waiting one; by making proper use of time, she may not only improve her own position but find herself favored by some combination hostile to Germany. If war is precipitated it may appear to be the work of France, but we can depend upon it that it is really the result of a skilful manipulation of the situation by Germany, which is just now in a far better position than her neighbor to act efficiently. The sentiment in France which favors the projects of Bismarck if he chooses to take advantage of it was illustrated by a scene in the French Chambers during a recent speech by M. Albert de Mun, the great orator of the clerical party. An eloquent allusion to the French heroes of Gravelotte and Rezenville, of Weissenburg and Reichshoffen moved the entire house to emotion. "Ladies in the tribunes wept aloud. Then suddenly, the first thrill of emotion past, a loud cheer arose from all the benches, only to be repeated again and again. The spectators would have joined had the regulations permitted, for they shared the general enthusiasm. And in the tribune, pale with emotion, his arms crossed on his stalwart breast, stood one of the heroes of the fray. It was long since such a chord had been struck; for the simple, sincere, manly language of the soldier-deputy sank deep into all hearts." It is possible for those who wish it to so play upon this emotion as to precipitate action by France, whether sound reason dictates it or not.

PERSONAL ITEMS.

CHAPLAIN J. D. PARKER, U. S. A., has rejoined at Fort Riley, Kas., from a fortnight's leave.

DOM PEDRO, Emperor of Brazil, has arrived in Europe on a tour for the benefit of his health.

COLONEL T. F. BARR, U. S. A., will spend July and part of August with his family in New England.

MRS. MYER, widow of General A. G. Myer, U. S. Army, and family, go to Europe for the summer.

LIEUTENANT E. P. BREWER, 7th Cavalry, of Fort Meade, was a visitor at Fort Snelling, Minn., this week.

LIEUTENANT H. L. HARRIS, Adjutant, 1st U. S. Artillery, left San Francisco this week on a month's leave.

MAJOR J. B. CAMPBELL, 4th U. S. Artillery, of Fort Monroe, Va., spent a few days in New York City this week.

MAJOR GENERAL J. M. SCHOFIELD, U. S. A., has been elected an honorary member of the Society of the Cincinnati.

LIEUTENANT W. H. ALLAIRE, 23d U. S. Infantry, rejoined at Fort Wayne, Mich., early in the week, from a short leave.

LIEUTENANT W. H. MCMINN, 8th U. S. Infantry, left Fort Bridger, Wyo., this week to spend July and August on leave.

COLONEL R. H. HALL, U. S. A., left Omaha this week for an extended inspection of posts in the Department of the Platte.

COLONEL N. A. M. DUDLEY, 1st U. S. Cavalry, leaves Fort Custer, Montana, next week for two months for the benefit of his health.

GENERAL H. A. MORROW, U. S. A., formally organized, July 7, the Court-martial convened at Cheyenne for the trial of Capt. C. H. Greene, 17th Inf.

LIEUTENANT P. S. BOMUS, 1st U. S. Calvary, of Fort Assiniboine, has been visiting the State Camp at Peekskill, N. Y., and made many friends while there.

LIEUTENANT E. R. GILMAN, 5th U. S. Infantry, who leaves the Service in January next, is visiting his father, Col. J. H. Gilman, U. S. A., at Washington.

CAPTAIN M. W. LYON, U. S. A., for some time past stationed at Watertown Arsenal, Mass., will leave in a few days for Omaha to report to General Crook for duty on his staff.

CAPTAIN G. S. WILSON, 12th U. S. Infantry, has returned to Bedlow's Island from a short visit to Sackett's Harbor, and will return there in a few days to prepare for Dakota.

CAPTAIN J. A. FESSENDEN, 5th U. S. Artillery, rejoined at Fort Hamilton, N. Y. H., early in the week from a short leave, and on Wednesday left for the rifle camp at Creedmoor.

LIEUTENANT COLVILLE P. TERRETT, 8th U. S. Infantry, who has been on sick leave at Baltimore for some time past, has recovered, but will prolong his stay East for a few weeks longer.

MAJOR A. C. WILDRICK, 5th U. S. Artillery, established his rifle camp at Creedmoor on Wednesday, and aided by his quartermaster, Lieut. H. C. Carbaugh, has got matters into good working order.

COLONEL H. C. MERRIAM, U. S. Army, arrived in New York from England on Sunday last. He is much pleased with the result of his trip to Europe. He left for his post at Fort Laramie on Tuesday night.

LIEUTENANT COLONEL H. W. CLOSSON, 5th U. S. Artillery, has taken command of his regiment for the present, but much to the satisfaction of his Staten Island friends, retains his station at Fort Wadsworth.

GENERAL TREVINO, says a Mexican correspondent, "is further from the Presidency than ever he was. The second term of Diaz is expiring, and the Constitution is being amended so as to give him an immediate third term."

ASSISTANT SURGEON JAMES E. PILCHER, U. S. A., received the degree of Doctor of Philosophy from the Illinois Wesleyan University at its last commencement as an acknowledgment, we understand, of special studies and original researches in surgical history and literature.

GEORGE B. HILLIARD, now living in fair health at Fairfield, Ill. aged 93, enlisted in 1813, and was in the action of Fort George and in the battle of Lundy's Lane, where he received a severe wound. He was also at Bridgewater and in several skirmishes on the Canadian frontier; was taken prisoner at Flatbush, but was released by exchange.

COLONEL C. L. BEST, 4th U. S. Artillery, arrived at the State camp at Peekskill, N. Y., this week and received a hearty welcome. Col. E. F. Townsend, 12th U. S. Infantry, has returned to Sackett's Harbor to get ready for Dakota. Colonel Best's stay will be short, however, for subsequent orders send Major Richard Lodor, 3d Artillery, Washington Barracks, to the camp.

GENERAL SHERMAN, writing to the local Committee of Arrangements for the approaching reunion in Detroit of the Army of the Tennessee, wisely says: "All I will venture to advise is to make the banquet simple and inexpensive, and not to have more than seven toasts at the furthest, with responses by local men not necessarily members, leaving outsiders to short impromptus."

LIEUTENANT C. D. COWLES, 23d Inf., who relinquished duty on recruiting service last week to join his company at Fort Mackinac, Mich., was highly complimented in orders by Col. O'Beirne, commandant at David's Island, who said: "In parting with Lieut. Cowles, the commanding officer desires to express his appreciation of the efficient and capable manner in which he has discharged his duties, and to assure him that the best of wishes will accompany him in his future career."

LIEUTENANT D. H. BOUGHTON, 3d U. S. Cav., and bride are visiting in the East.

CAPTAIN J. J. CLAGUE, U. S. A., has left Santa Fe for the East to spend a few months' leave.

LIEUTENANT W. L. SIBERT, Corps of Engineers, U. S. A., will leave New York next week for Louisville.

LIEUTENANT S. L. FAISON, 1st U. S. Infantry, on leave from the Pacific Coast, has been visiting at Old Point Comfort.

CAPTAIN GEORGE T. BEALL, Military Storekeeper, U. S. Army, was to leave St. Louis this week on a long leave of absence.

GENERAL T. E. ROSE, Captain, 16th U. S. Infantry, will come North from Texas early in August, to spend a few months' leave.

CAPTAIN L. H. ORLEMAN, U. S. A., and family are in Baltimore, Md., until the autumn, when they will return to their Florida home.

LIEUTENANT G. F. COOKE, 15th U. S. Infantry, lately returned from Europe, has resumed duty at the Fort Leavenworth Military Prison.

ASSISTANT SURGEON J. Y. PORTER, U. S. A., has taken entire charge at Key West Barracks, Fla., owing to prevalence of yellow fever there.

COLONEL JOHN HAMILTON, U. S. A., is at Hotel Chapman, Silver Lake, Brandon, Vt., which is one of the loveliest towns among the Vermont hills.

THE HON. LUKE P. POLAND, who died at Cambridge, Vt., July 2, of heart disease, is a relative, we believe, of Lieut.-Col. J. S. Poland, 21st U. S. Inf.

CAPTAIN W. S. STARRING, Ordnance Corps, U. S. Army, after a short tour at Cheyenne, now goes to Vancouver Barracks for duty on General Gibbon's staff.

MRS. O'CONNELL, wife of Capt. J. J. O'Connell, 1st U. S. Infantry, is spending a portion of the summer at Sackett's Harbor, N. Y., with apartments at the Earl House.

CAPTAIN R. I. ESKRIDGE and Lieut. F. L. Dodge, 23d Inf., returned to Fort Wayne, Mich., this week from Grand Rapids where they acted as judges at a competitive drill.

MAJOR E. R. WARNER, 1st U. S. Art., who was to leave this week for Fort Canby, W. T., has had his orders changed and will now remain at Fort McHenry, Md., until further orders.

MRS. VAN DER NEST, widow of Mr. Van der Nest, Gen. Gallatin Lawrence, and Lieut. Kingsbury, has been married for the fourth time to an English gentleman, an old friend of her third husband.

LIEUTENANT A. B. JOHNSON, 7th Inf., has relinquished duty on the personal staff of Major General Terry, under the four years rule, and will join his company at Fort Laramie early in September.

LIEUTENANT-GENERAL SHERIDAN and family are at their summer residence on the New England coast, but the General will visit Washington periodically to attend to business at Army Headquarters.

THE Society of the Cincinnati met on July 4 at Delmonico's, New York. Admiral J. W. A. Nicholson responded for the Navy, and made some excellent remarks on "The Old" and "The New Navy."

LIEUTENANT A. R. PAXTON, 15th Infantry, who lately relinquished recruiting duty at Harrisburg, Pa., will take a similar tour, temporarily, at Washington, D. C., during the absence of Capt. D. M. Scott, 1st Infantry, on leave.

JAMES H. G. WILCOX, late 2d lieutenant, 7th U. S. Cavalry, has been removed from Fort Snelling to the Minnesota Penitentiary. While much sorrow is felt for the unfortunate young man, no one seems to consider the action undeserved.

MAJOR H. S. HAWKINS, 10th U. S. Inf., of Fort Leavenworth, to the regret of the Illinois National Guard has been relieved from the duty of inspecting them next week in their camp near Springfield. He goes with his family to spend a leave at Wilmington, Del.

ASSISTANT SURGEON J. Y. PORTER, U. S. A., of Key West, has taken charge of the yellow fever cases at the barracks there, and is rendering valuable assistance. Doctor Porter has had many years experience with such cases, and bears a high reputation as a skilful practitioner.

LIEUTENANT-GENERAL SHERIDAN'S name is still mentioned in connection with the Presidency. A Washington despatch says: "There is an organized movement among a number of Republican politicians having for its object the nomination of Gen. Sheridan for President."

MAJOR C. B. THROCKMORTON, 2d U. S. Artillery, of Jackson Barracks, La., has been tendered and has accepted the command of the encampment to be established at Fort Henry, Miss., from Aug. 3 to Aug. 10, for artillery practice. Capts. Ramsay and Vose, 2d U. S. Artillery, with their batteries, will also be present.

LIEUTENANT LLOYD S. MCCORMICK, 7th U. S. Cav., was married July 1 at Leavenworth, Kas., to Miss Jennie Lowe, eldest daughter of the Hon. P. G. Lowe. The ceremony was performed at the Presbyterian Church, where many relatives and friends were present. After a short trip the married couple will return to Leavenworth.

GENERAL MILES, says the *Pioneer Press*, may not be considered any great shakes by the eminent military authorities at Washington, but somehow or other he has a curious and apparently chronic habit of squelching Indian outbreaks in a very summary manner. The New York *Sun*, in summing up the matter, says: "This brief campaign is a fresh illustration of the fact now so well understood by the troops, that in fighting with red men, as in fighting fire, great energy at the outset is the thing required. Gen. Miles has succeeded in protecting Arizona from another series of Indian depredations, and this achievement must be added to the many which had already made his services on the frontier illustrious, including the defeat of the Sioux, the Bannocks, the Nez Percés, and the Chiricahuas."

CHIEF CLERK TWEEDALE, of the War Department, has returned to Washington from a visit to Philadelphia.

1ST LIEUTENANT T. C. WOODBURY, 16th Inf., has been nominated for recruiting service from Oct. 1, 1887, to Oct. 1, 1889.

GENERAL D. S. STANLEY, U. S. A., and Lieutenant Smith, A. D. C., have returned to San Antonio, from a trip to Galveston.

LIEUTENANT J. T. F. BLAKE, 6th Calvary, leaves Fort Leavenworth in a day or two for the East, to remain two months.

LIEUTENANT B. A. POORE, 12th U. S. Infantry, rejoined at Fort Wood, N. Y. H., early in the week from a short vacation.

COLONEL A. P. BLUNT, U. S. A., and family left Fort Leavenworth on Sunday for New Hampshire on a two months' visit.

LIEUTENANT H. R. LEMLY, 3d U. S. Artillery, rejoined at Washington Barracks, D. C., early in the week from a short leave.

GENERAL W. T. SHERMAN is visiting his daughter, Mrs. Thackara, on Conanicut Island, R. I. Gen. Rickett, U. S. A., is also there.

LIEUTENANT H. T. ALLEN, 2d U. S. Calvary, on leave from Fort Sherman, Idaho, will go abroad shortly to spend a few months.

LIEUTENANT C. W. HARROLD, 3d U. S. Artillery, will come to Washington next week from Florida to be examined by a Retiring Board.

CAPTAIN J. H. WILLARD, Corps of Engineers, U. S. A., will come East from Vicksburg, Miss., in October and spend the winter on leave.

CAPTAIN S. R. WHITALL, 16th U. S. Infantry, for some time past on detached duty at Fort Ringgold, joins his company at San Antonio in a few days.

CAPTAIN F. D. GARRETTY, U. S. A., visited friends in St. Paul early in the week and afterwards, returned to Milwaukee, where he is on recruiting duty.

GENERAL WESLEY MERRITT, U. S. A., was expected to arrive at Fort Leavenworth this week and assume command of the Department of the Missouri.

GENERAL A. W. GREELY, Chief Signal Officer, U. S. A., was among those attending the unveiling of the Burnside monument at Providence, on the Fourth of July.

A SON of Gen. S. V. Benét, Chief of Ordnance, U. S. Army, is now residing in Paris as a member of the firm of Hotchkiss and Co., manufacturers of the guns bearing their name.

WHEN the 8th Cavalry transfers to Dakota from Texas, Col. Elmer Otis will probably go on a long sick leave. He is afflicted with diabetes, and a cold climate would aggravate his complaint.—*Critic.*

COLONEL CHAS. KING, U. S. A., is suggested by a correspondent of the Chicago *Times* as a suitable officer to be placed in command of the International Encampment to be held at Chicago in October. The suggestion meets with our hearty concurrence.

CAPTAIN O. E. MICHAELIS, U. S. A., was made a doctor of philosophy at the semi-centennial commencement exercises of the University of Michigan at Ann Arbor, Mich., Thursday, and is henceforth to be addressed as Capt. O. E. Michaelis, Ph. D., O. D., U. S. Army.

THE 72d anniversary of the battle of Waterloo, Saturday, June 18, was signalized by congratulations addressed to Gen. Earl of Albermarle, one of the few survivors of that memorable engagement. A telegram from Windsor Castle said: The Queen congratulates Lord Albemarle on the 72d anniversary of the battle of Waterloo. Another from General his Royal Highness the Duke of Connaught, expressing his good wishes and regrets at being detained at Windsor and unable himself to visit the Waterloo veteran. The Prince of Wales and the Duke of Edinburgh honored Lord Albemarle with a visit, as did his Royal Highness the Commander-in-chief, her Royal Highness the Princess Mary Adelaide and his Serene Highness the Duke of Teck, with Princess Victoria and Prince Francis of Teck.

WE are glad to learn that Capt. F. A. Kendall, U. S. A., retired, who is now General Agent of the Penn Mutual Life Insurance Company for Northeastern Ohio, is making a success of his agency. The company which he represents is a most excellent one and they are especially liberal in their dealings with officers of the Army and Navy. Their policies provide that the insured shall be permitted "to serve in the militia, or in the military or Naval forces of the United States in time of peace without prejudice to his policy; and he may so engage or serve in time of war, upon payment of an extra premium therefor, not to exceed three per centum per annum upon the amount insured. But should such extra premium for war hazard be unpaid at the time the risk is incurred, this policy shall not be invalidated thereby, but such premium shall be a lien thereon, and be deducted with interest at its maturity."

DR. JOHN HADEN, formerly of the U. S. Army, has been revisiting El Paso after many years absence, and recalling old times says: "I arrived Sept. 17, 1856, and was stationed here as post surgeon till 1861. The post at that time was located on Gen. Magoffin's land. Among the young officers stationed here were some names that afterwards became celebrated. Capt. James Longstreet, who had been brevetted major in the Mexican War. Capt. John G. Walker, afterwards a general in the Confederate Army. Capt. Pitcher, afterwards a general in the Federal service, and Maj. Holmes of the infantry. Maj. Benjamin Brice, later paymaster general of the U. S. Army. Lieut. W. H. Jackson, who became a brigadier general under Forrest, and now resides near Nashville. Lieut. John R. Cooke, afterwards a distinguished brigadier general in the Confederate Army. H. M. Lazelle became a distinguished officer and was located here again after the war. Capt. Richard Ewell's name is not an unknown one. Thos. G. Rhett was paymaster. Lieut. Whipple is still a general in the U. S. Army. Capt. Llewellyn Jones was also here.

LIEUTENANT W. P. GOODWIN, 14th Infantry, lately at Fort Townsend, has joined for duty at Vancouver Barracks.

COLONEL TERRELL, paymaster, U. S. A., was at Sidney, Neb., on Wednesday, paying off the troops at the post.

CAPTAIN STEDMAN, 9th Cavalry, was in Omaha last week, returning from N. Y. City with his bride to his station at Fort Robinson, Neb.

GENERAL SHERMAN has taken a cottage for the summer at Lake George, N. Y.—one of the loveliest summer resorts in the United States.

MAJOR WILSON, Pay Department, is at Fort Robinson, Neb., thence he will go to Fort McKinney, Wyo., to gladden the hearts of the troops.

1ST LIEUTENANT A. R. PAXTON, 15th Infantry, and 1st Lieut. H. Boughton, 3d Cav., are the only Army officers registered at the War Department this week.

GENERAL CROOK left Omaha this week for a tour of inspection of various posts in the Department of the Platte, expecting to be gone two or three months.

CAPTAIN SELDEN A. DAY, 5th Art., is on a short visit to Ilion, N. Y., inspecting a consignment of Lee magazine guns for the British Colonial Government, New Zealand.

COLONEL HALL left Omaha last week for Fort Du Chesne, Utah, whence he will visit Fort Douglas and other Western posts in the Department of the Platte on a tour of inspection.

LIEUTENANT CALIFF, 3d Artillery, on duty at Iowa City, Iowa, acted as judge in the competitive drill of the four companies at Cornell College, Mt. Vernon, Iowa, in charge of Lieut. E. S. Curtis, 2d Art.

MRS. DEWEES, widow of Maj. Thos. B. Dewees, U. S. A., is spending the summer at the seashore with her aunt, Mrs. Alan Wood, of Philadelphia. They are making their home at the "Essex," Spring Lake, New Jersey.

LIEUTENANT AND MRS. G. T. BARTLETT, 3d Artillery, have left Chester, Pa., for the summer and will spend the vacation holidays in a visit to Mrs. Bartlett's parents, Col. and Mrs. Terrell, U. S. A., stationed at Omaha, Neb.

CARDINAL GIBBONS held services in the chapel at Mrs. Admiral Dahlgren's home, on the South Mountain, near Hagerstown, Md., July 4, at which time "Admiral" De Rohan, who was at one time an aide-de-camp to Garibaldi, was confirmed.

THE choice of Lt. John Bigelow, Jr., for assignment to special duty as Adjutant General of the newly organized militia of the District of Columbia is a most excellent one. Lieut. Bigelow is a most zealous, as well as a most capable officer, and will do good service in his new position.

THE Retiring Board of which Gen. Holabird is president convened at Washington on Wednesday for the examination of Capt. James F. Simpson, but as he was not well enough to appear the Board adjourned until Tuesday morning next. Capt. Simpson is confined in the St. Elizabeth Insane Asylum. He is supposed to be hopelessly insane.

GENERAL ERASMUS D. KEYES, of California, and Gen. D. N. Couch, of Connecticut, late U. S. Army, have been added, as representatives of the Fourth Corps, to the committee appointed at the Saratoga meeting of the Society of the Army of the Potomac, to arrange for a joint reunion of that society and Lee's Army of Northern Virginia at Gettysburg on July of next year.

MAJOR WARNER, 1st Artillery, has been ordered to remain at Fort McHenry until further orders, because he has made application for retirement after thirty years service. It is understood that he has been promised the first vacancy on the retired list, and, therefore, it was deemed advisable to allow him to remain in the East rather than to go to Vancouver's Barracks, his new station, only to return again at an early day.

DURING the sessions of the Pacific Railway Commission at Omaha last week, Gov. Pattison, Mr. Walsh and Mr. Norris, of the Commission, visited Fort Omaha in company with Capt. McCauley, U. S. A., where the party was hospitably received by the courteous commandant, General Frank Wheaton, U. S. A. The visit was particularly enjoyed by the ex-Governor of Pennsylvania, as Gen. Wheaton bore a prominent part at the battle of Gettysburg, having command of the 2d Division of the 6th Corps.

REAR ADMIRAL RAYMOND RODGERS, U. S. N., was a pall bearer at the funeral of Mrs. Julia Kean Fish, July 3, and accompanied the remains from New York to Garrison's.

NAVAL CADET J. T. BOOTES, Lieut. John H. C. Coffin, Lieut. F. H. Tyler, P. A. Engr. C. R. Roelker, P. A. Engr. J. H. Perry, P. A. Engr. G. W. Baird and Assistant Paymaster J. D. Doyle registered at the Navy Department during the week.

THE vacancy created by the death of Chief Engineer H. L. Snyder will be filled by the promotion of P. A. Engineer James Entwistle, at present stationed on board the *Minnesota*. Mr. Snyder, at the time of his death, was in his 51st year, having been born Sept. 11, 1836.

THE family of Chief Engineer J. W. Moore, of the Brooklyn Navy Yard, have made their annual flitting to Oahu Island in Lake George, and will occupy the cottage which gave such satisfaction the last year or two. Chief Engr. Moore will join Mrs. Moore some time early in August.

THE resignation of Lieut. Comdr. Nosl promotes to his grade Lieut. Seth M. Ackley, who was examined for promotion previous to his departure for Europe for duty on the *Quinnebaug*. The vacancies to occur in August and September will effect the promotion of Lts. W. W. Gilpatrick and B. S. Richards, and it is highly probable that Lts. B. F. Tilley and H. Knox will be promoted by the end of the year. Lieut. Knox is now the executive officer of the *Boston* by assignment of the Department, and will welcome the additional rank required for the position.

CAPTAIN A. R. YATES, U. S. N., of Newport, R. I., is on a short visit to Cleveland, O.

LIEUTENANT GEORGE BARNETT, U. S. Marine Corps, is a recent guest at the Ryan House, St. Paul.

C. O. BARNES has resigned a 3d lieutenancy in the Revenue Marine Service to practice law in California.

REAR ADMIRAL UPSHUR, U. S. N., and Mrs. Upshur are recent guests of Capt. Perkins, U. S. N., at Newport, R. I.

LIEUTENANT J. M. HAWLEY, U. S. N., late of the *Trenton*, has gone to the Naval Hospital at Chelsea, Mass., for treatment.

MISS FANNY W. SHIRK, a daughter of the late Comdr. James W. Shirk, U. S. N., was married June 1, at Trenton, N. J., to Mr. J. F. Pullen.

REAR ADMIRAL BALDWIN, U. S. N., and Mrs. Baldwin, were expected to arrive from Europe this week. They will go at once to Saratoga, where the Admiral's sister resides.

ENSIGN D. P. MENEFEE, U. S. N., with eleven sailors from the receiving ship *Independence*, and four naval cadets, left San Francisco July 1 on steamer *Alameda* for Honolulu.

THE Washington *Critic* understands that Lt. B. H. Buckingham of the Navy, who has returned from an inspection of European machine shops, will devote himself to designing machinery for the Washington Yard.

THE remains of the late Chief Engineer H. L. Snyder, U. S. N., were interred at Pottsville, Pa., early in the week amid many public demonstrations of respect and sympathy. Chief Engineers D. P. McCartney and R. B. Hine represented the Navy Department.

THE "Fourth" was a busy day for Secretary and Mrs. Whitney. The clerks and employees of the Navy Department enjoyed a picnic at "Grasslands." On the Whitney grounds at "Lay Farm," about two miles from "Grasslands," from a thousand to fifteen hundred poor children from Washington were entertained. Between Secretary Whitney and Senator Cameron the children of the capital will remember July Fourth, 1887.

CHIEF ENGINEER MELVILLE, U. S. N., says a Westchester correspondent of the Philadelphia *Times*, "when recently the guest of Professor Darlington, was asked to lecture during the next Teachers' Institute. He declined, on the ground that he could not consent to parade the sufferings and hardships of his comrades before the public for pay, and that he had refused an offer of $10,000 for a year's work from the Redpath Lecture Bureau on these same grounds."

THE San Francisco *Chronicle* says: "Among the early Californians who have settled down in New York, no one is more popular in the insurance business than James Otey Bradford, who used to be a purser on the Panama steamer after he resigned from the United States Navy. Mr. Bradford is a remarkably handsome man. His daughter, a beautiful girl of 18, keeps house for her father in an elegant West 70th street brown stone, and altogether New York agrees better with Mr. Bradford than did the Pacific coast."

PASSED ASSISTANT ENGINEER JOHN A. TOBIN, U. S. N., has been detailed to act as Superintendent of the State, War and Navy Department Building, vice Chief Engineer Snyder, deceased, until a permanent appointment is made. Chief Engr. Hine and P. A. Engr. Baird are candidates, and it is thought that either one or the other will receive the detail. Under the terms of the law creating the office the detail is to be made from the Engineer Corps of the Army or Navy. From the fact that the duties involve a thorough knowledge of mechanical engineer by reason of the large net work of heating, ventilating, electric and other machinery in the building, it is taken for granted that the Naval branch of the Service will again be represented.

"MISS GRUNDY," referring to the presence of Dr. M. L. Ruth, U. S. N., at the recent marriage of Dr. Boyd, U. S. N., to Miss Willard, says: "Paradoxical as it may seem, Dr. Ruth, who is a bachelor, celebrated his golden wedding on the occasion. That is to say it was the fiftieth at which he has been an attendant. The forty-eighth was that of Mr. Parsons, of Boston, and Miss Royall, in Washington, on the evening of June 1, and the forty-ninth was that of Paymaster Wright and Miss Spier, in New York, at noon next day. He began his career as a wedding attendant in Philadelphia when he was but 17 years old, when Miss Biddle married Mr. Lippincott, of that city. Good luck has thus far attended every couple at whose wedding Dr. Ruth has been best man, groomsman or usher."

THE marriage of Captain Henry C. Cochrane, of the Marine Corps, to Miss Bessie Lull, which occurred at the Pensacola Navy Yard, on Thursday, June 30th, the bride's birthday, was a great surprise to the friends of the groom, who had long since classed him among confirmed bachelors. Owing to the recent death of Miss Lull's father, Captain Edward P. Lull, U. S. Navy, no cards were issued and the wedding was private and very quiet. The ceremony was performed by the Rev. John J. Scott, rector of Christ's Church, Pensacola, and Lieut.-Colonel L. L. Langdon, 2d U. S. Artillery, gave away the bride. Surgeon J. W. Ross, U. S. N., was the best man, and Miss Lucie Jeffers Lull, a young sister, was bridesmaid. All participating were dressed in white, and the wide open house decorated with flowers presented by the villagers, surrounded by fig, live oak, and Pride of India trees, lighted by a soft, hazy moon, and cooled by balmy breezes from the Gulf of Mexico, made up a scene truly semi-tropical. The bride, a young lady of much beauty and many accomplishments, would be called in Washington circles, essentially an Army and Navy girl, being a grand-daughter of the late Bvt. Brig.-Gen. Henry S. Burton, Colonel 5th U. S. Artillery, and a grand niece of the late Maj.-Gen. Chas. F. Smith, Commodore Wm. N. Jeffers, Colonel Richard Swann and of Colonel Edward B. Williston, 3d Artillery. Captain and Mrs. Cochrane expect to summer at Pensacola, where they are comfortably installed.

AN Easton, Md., correspondent, writing of the "Homes of Naval Heroes," says: "Mrs. A. C. Buchanan, the widow of the late Admiral Franklin Buchanan, now in the 81st year of her age, is one of the most venerable matrons of Talbot County. Her home is 'The Rest,' a beautiful place on Miles River, at the Ferry, two and a half miles from Easton. When Franklin Buchanan and Chas. Lowndes were young officers in the Navy they married sisters and established homes on opposite sides of Miles River, where that beautiful stream exhibits the prettiest part of its course. Mr. Lowndes named his place 'The Anchorage' and Mr. Buchanan called his 'The Rest,' significant names, both of them."

SOME speculation is being indulged in among Navy people as to the motives underlying the request of Capt. J. G. Walker for the examination recently accorded him for promotion to Commodore. The retirements of Rear Admirals Franklin and Davis on Aug. 24 and Sept. 3, respectively, will promote to the grade of Commodore, Capts. Fitzhugh and Brown, leaving Capt. Walker at the head of the list of his rank. The next succeeding vacancy on account of retirement for age will be that of Rear Admiral Luce on March 25, 1889, and as that seems rather long range for an anticipatory examination, it is suggested that it is the intention of a Commodore to retire under the terms of the act of Congress of August, 1861, allowing an officer to retire after having been forty years on the active list. The Commodores filling the conditions the present year are: Belknap, Oct. 7; Harmony, April 7; Benham, Nov. 24; Irwin, Sept. 9. It had been supposed that Rear Admiral Chandler might apply for retirement under the law, particularly as his health is not of the best, but it is likely that the Selfridge incident will prevent any action of the sort for the present at least. Capt. F. M. Ramsay, of the steel cruiser *Boston*, is next on the list for promotion after Capt. Walker, so it is not improbable that he will be promoted out of his ship long before the cruise is up, or even before the ship is ready for sea.

RECENT DEATHS.

CAPTAIN JOSEPH IRISH, U. S. Revenue Marine who died June 29, in Providence, R. I., was born in Newport, R. I., and was about 48 years old. The late Capt. Stephen Cornell, U. S. R. M., was his grandfather. He commenced going to sea when quite young, with a four-year cruise in a whaleship out of Newport, R. I. At the commencement of the civil war he entered the Navy as master's mate and was promoted to ensign, resigning from the Navy to accept an appointment as 3d lieutenant in the Revenue Marine, to which he was commissioned by President Lincoln May 26, 1863. He was promoted 2d lieutenant July 11, 1864, and commissioned 1st lieutenant July 10, 1865. When he was 1st lieutenant of the steam cutter *Moccasin*, stationed at Newport, R. I., he, with the other officers attached, received the thanks of Congress for saving lives at the wreck of the steamer *Metis* in Long Island Sound Aug. 30, 1872, at which wreck they rescued over 40 persons from drowning. He was commissioned captain June 30, 1874, since which time he has served in command of the cutters from Newport, R. I., to Wilmington, N. C. While in command of the cutter *Hamilton*, stationed at Philadelphia, Pa., he received a silver medal from the King of Spain and was made a Knight of the Spanish Kingdom for assistance rendered the shipwrecked crew of the Spanish man-of-war *Pizarro*. His last command was the U. S. cutter *Grant*, on the New York station. He has been partially insane for the last two years. A good commanding officer, a thorough sailor, and a gentleman is the verdict of his shipmates. The sympathy of his brother officers is extended to his widow in her bereavement.

—

COLONEL GEORGE P. ANDREWS, U. S. A., retired, who died at Fort Winfield Scott, Cal., July 2, entered the Military Academy from North Carolina in 1841, was graduated in 1845, and assigned to the 3d U. S. Art. During the Mexican war he served with credit and bravery, receiving the brevet of Captain for his gallantry at Molino del Rey. When the War of the Rebellion broke out he was Captain of the 3d Artillery and on duty in Washington Territory. Soon he was ordered East and rendered efficient service until the close of the War. He was promoted Colonel, 3d Artillery, in 1882, and soon afterwards transferred to the 1st Artillery and was retired for age March 22, 1885. Since then he has resided in and near San Francisco.

—

CHIEF ENGINEER WILLIAM LEONARD NICOLL, U. S. Navy, a valuable officer, died suddenly at Southampton, Long Island, July 2. He entered the Navy from New York as 3d assistant engineer Oct. 16, 1861, and was soon after ordered on active service in the York and Pamunckey Rivers, Virginia. He served with great credit during the war, and since the war, has, in addition to sea duty, filled many responsible positions on shore. He was promoted Chief Engineer October 17, 1885. At the time of his death he was on sick leave.

—

PHILIP VAN CORTLANDT MATTHEWS, the 13-year old son of the Rev. J. R. Matthews, Chaplain, U. S. Navy, who resides at the mouth of the Croton river, two miles above Sing Sing, was drowned with his nurse, July 2, while boating on the river. The boy left the boat to bathe and got into a deep hole, the nurse seeing his danger, plunged in after him and both

were drowned. The bodies were recovered. Chaplain Matthews was away from home at Norfolk, Va., where he expected to sail on the steamer *Trenton*. He was telegraphed for. The boy's mother was Catharine Van Cortlandt, daughter of Pierre Van Cortlandt, whose descendants still occupy the historic Van Cortlandt manor house at the mouth of the Croton River. This casualty has cast a gloom over the people of Sing Sing, where the family have so long resided and are well known by everybody.

THE telegraph reports the sudden death at Aspinwall (Colon), S. A., on July 4, 1887, of Samuel P. Griffin, son of the late Samuel Griffin, of Savannah, Ga., in the 61st year of his age. Mr. Griffin was formerly an officer of the U. S. Navy, enlisting in the service in the year 1841, and in 1849 was detailed to command the U. S. brig *Rescue*, in the first U. S. exploring expedition in search of Sir John Franklin.

BOATSWAIN JAMES C. WALTON, U. S. N., retired, who died at Atlantic City, June 30, aged 53, entered the Navy May 9, 1859, and has an excellent record. He was retired Oct. 16, 1883. The funeral took place July 5, from his late residence in Philadelphia and was largely attended by Navy officers, relatives and friends of the family, etc.

ORDNANCE SERGEANT CHAS. O'BRIEN, U. S. Army, retired, a veteran soldier, died at Key West Barracks, Fla., June 27, of embolism of the brain. He enlisted in 1855, was appointed Ordnance Sergeant in 1874, and retired in 1886. A late despatch says that his five children are down with the yellow fever.

MRS. ALICE MELCHOR, wife of Mate L. M. Melchor, U. S. N., died last week at North Ridge, N. J.

SITTING POSITION IN TARGET PRACTICE.

To the Editor of the Army and Navy Journal:

IF there is any valid reason why the sitting position should be barred at long ranges in our target practice your correspondent would be pleased to know through the medium of the JOURNAL, in order to invite an expression of opinion on the subject. It is apparently more practical in presence of the enemy than any of the back, side, or prone positions, in which troops are at present instructed, besides having the advantage of not requiring banquettes to overcome the obstruction of undulating ground. There are three positions which will always be used in presence of the enemy and in actual combat, viz.: standing, kneeling, and sitting. All other positions are doubtful and may be found impracticable. The sitting position, I understand, is used at long range target practice in European Services, and no doubt is better suited to the conformation of many men than any other positions. Then why is it forbidden at any range, except 300, in our Army? Rifle men please answer. T.

THE MILITIA A MODEL FOR WEST POINT.

512 VERMONT STREET,
QUINCY, ILL., June 29, 1887.

FROM the Cincinnati *Commercial Gazette*, semi-weekly edition of June 28, 1887:

JUST CRITICISM OF WEST POINT.

WASHINGTON, June 25.—[Special.]—One of the keenest and most practical papers on West Point, the Army and the militia which have appeared for many a day is published in "Lippincott's Magazine" for July from Mr. F. P. Powers, Washington correspondent of the Chicago *Times*. His arraignment of West Point as an institution which, even in its mathematics and practical engineering, is far behind several of the scientific schools of the country, is such as must attract the attention of the friends of the Academy, and which they cannot too soon take into serious consideration. The whole article is one that Army men will be obliged to face, and to much of it they will find it difficult to make answer. The article shows much close study, and does Mr. Powers great credit.

The article above referred to will no doubt be answered by many better pens than mine; but I think it proper to state that I have written the editor of "Lippincott's Magazine" a letter in which I have pointed out the many errors of Mr. Powers' article.

This gentleman has based his opinion upon the most superficial knowledge of what he criticizes—his text is selected from the epistles written by the Board of Visitors to West Point, and his remarks are about as deep as theirs. The disadvantages under which West Point labors seems to be entirely unknown to the prosecutor, and his article contradicts itself in places as I have pointed out. His remedy to the evils that he imagines is a correction applied to the Army and West Point, and derived from the militia. The man that can at this day point to the militia of any State as a model, in any respect, for the Regular Army to imitate, has a faith in him that must be the genuine article. The Regular Army will not criticize or attack, through the magazines, the militia of the various States, but it certainly will not imitate it. Yours truly, E. H. RUFFNER.

TARGET NOTES.

LIEUT. JONAS A. EMERY, 11th Infantry, has been identified with many rifle competitions, both as a successful competitor and as an effective member of the working organization, His services have been called for again this year as quartermaster and camp commissary at the rifle range at Bellevue. Capt. George D. Wallace, 7th Cavalry, is another veteran in the discharge of the duties of senior range officer, whom it is to be hoped will be again detailed this year. Lieut. Edwin F. Glenn, 25th Infantry, it is said, will be again announced in his old position under Capt. Gaines Lawson, 25th Infantry. If Lieut. Harry Reade of that regiment is again selected to take charge of the pit confidence will exist that matters will be run smoothly. In Texas and in the Department of the Missouri, contrary to the heretofore prevailing custom in those Departments, the Department Inspectors of Rifle Practice will be officers in charge, respectively.

THE decision of the U. S. District Court, in favor of the defendant, in the suit of the U. S. against Gen. Adam Badeau, U. S. A., for the recovery of some $10,000 received by him as fees while in the consular service in London, was affirmed by Judge Wallace in a decision rendered July 7th.

THE MONUMENT TO BURNSIDE.

THE monument to General Ambrose E. Burnside was dedicated with appropriate ceremonies on Fourth of July, at Providence. It stands at the east end of Exchange Place, one of the finest squares in New England, facing the City Hall. The sculptor was Launt Thompson of New York, who has produced a figure one and a half times the size of life. The man, if standing, would be nine feet high and the horse eight feet from the plinth to the withers. The whole group, including the granite pedestal, stands twenty-five feet high. The design for the granite base was by H. O. Avery, an architect, and William R. Walker of New York, The casting of the statue was done by the Henry Bonnard Bronze Company of New York. The work represents Gen. Burnside as Commander of the Army of the Potomac, seated on a graceful charger, with field-glasses in hand, apparently earnestly watching the conflict in the distance. When the time for the unveiling came bells rang, cannon boomed and drums beat merrily.

Under the command of Colonel Isaac M. Potter, the line moved promptly in five divisions: State militia, veteran associations, Grand Army posts and distinguished men in carriages. There were visiting posts from Maine, Massachusetts and Connecticut. In the local veteran associations old men, bent with age and disease, hobbled along without a murmur, glad to make that burdensome march under the burning July sun to do honor to their old commander or comrade-in-arms. The hero of the day was General W. T. Sherman, who rode by the side of Henry R. Barker, chairman of the Committee of Arrangements, drawn by four iron-gray horses. He was readily recognized and warmly greeted all along the line, and when the carriage division passed the military and veterans in review he was enthusiastically received. The carriage division having landed the guests and other distinguished people at the stand near the statue, the three military divisions moved down toward the statue from the City Hall in line of battle. When half way down the open space the militia swung into a wide column at the south side of the square, the uniformed division of the Grand Army taking the north side and the veteran associations forming the centre. In this order they marched down to the statue, the twenty or twenty-five bands playing "Marching through Georgia" lustily and well. The old soldiers massed around the monument and waited for the unveiling, which was accompanied by literary exercises, the principal feature of which was an oration by Gen. Horatio Rogers. He dwelt in glowing terms on Gen. Burnside's character, as the most unselfish patriot of his time. One Grand Army post subsequently held a banquet at Music Hall and another at Infantry Hall. General Sherman was one of the principal guests at Music Hall.

THE SECRETARY OF WAR AND THE FLAGS.

THE Washington *Sunday Herald* had this to say of Secretary Endicott:

From the very best information available there seems to be no doubt that the Secretary of War did offer the President his resignation last week. But two persons really know the details of the circumstance—the President and his Secretary of War. The President did not then accept the resignation, but rather than endure another period of bedevilment, when Congress meets, Judge Endicott will insist on going out. He said to a prominent Bostonian, a leading member of the Massachusetts bar (at present not unconnected with the litigation now going on which involves a very valuable and much-talked-of patent), that he would never have taken the position of Secretary of War had he the least conception of its vexations and annoyances. "I knew nothing about military matters," said the descendant of the old Puritan governor with some bitterness, "and I appear to have made nothing but mistakes, the greatest of which was coming here. Look at this flag business. When it was mentioned to me I thought it would be a good thing to do, but see what came of it. I have followed the best advice obtainable, but, do what I may, I am only blamed and censured on all sides."

The Washington correspondent of the *Pioneer Press* says:

Last week the weather for a few days was scorching hot in Washington. I saw a thermometer on Pennsylvania avenue which marked 104 degrees in the shade. The nights were also hot until midnight, when a refreshing breeze sprang up. One of those sweltering nights the President sat at his desk in the White House with coat and vest off, writing, talking, reading and listening to explanations until 12.45 o'clock in the morning. A friend of mine was with him—a prominent gentleman from Illinois—and the two chatted upon a great many topics. The President explained to him the origin of the famous flag order.

"I was standing by a window in my room," said the President," just two days before I started for the Adirondacks, looking out upon the camp, when Secretary Endicott called, as he does nearly every day, to pay his respects. There was nothing in particular to talk about: no special business. Just as he was about to leave he said: 'Mr. President, Gen. Drum has been at me for some time about a project of his looking to the restoration of the flags captured during the Rebellion. He thinks that in view of the National Drill and the era of good fellowship which prevails, they might be returned to the people from whom they were taken.' 'Do you see any objections, Mr. Secretary?' I asked. He replied that he did not. And I answered that, so far as I was concerned, if there were no objections they might have my consent. That is all there was of it, and no more thought was given to the subject."

A Washington special to the Cincinnati *Commercial Gazette* says: In a conversation with a friend General Sheridan said that the idea that he had recommended the return of the rebel flags was preposterous. He said: "The troops that I commanded captured more than 200 of these flags. The captured flags represent all that was fought and all that was settled by the war. These flags represent 400,000 men who died for their country, and are mementoes of their heroism and their death."

General James S. Robinson, Secretary of the State of Ohio, now at the West End Hotel, Long Branch, has his special theory on the subject of the flags. He is reported by the *Tribune* as saying in a recent interview.

I look upon President Cleveland's order with reference to the flags as having originated with the Regular Army officers. They advised this thing because they thought it was the desire of the men who are ruling the Administration. We had the same sort of thing during the war. Nearly every great movement for the protection of the Union at the outset of the war was perfected in opposition to the West Point clique. The Ordnance Department was so backward that orders had to be given over the heads of its chiefs. They rejected the Spencer rifles, and refused to manufacture them until higher authorities compelled them to adopt them. I had charge at one time of 60 miles in front of Washington, and know that the general officers in the Regular Army were constantly aiding their Southern friends to go through the lines. They even went so far as to abuse the confidence of President Lincoln by inducing him to give passes through the lines to people on treacherous missions.

PRIZE AWARDED IN GREAT GUN PRACTICE

THE prize offered by Rear Admiral S. B. Luce, the Commander-in-chief of the North Atlantic Squadron, to the gun captain who, in the recent target practice in Gardiner's Bay, reached the highest average throughout the fleet, has been awarded to Coxswain Daniel Wicks, of the flagship *Richmond*, captain of Gun No. 5, of the Third Division, under command of Lieut. Samuel Seabury.

SCHOOL OF APPLICATION.

THE following officers having completed the course of study at the U. S. Infantry and Cavalry School, Fort Leavenworth, and having been found proficient are relieved from duty at the school and ordered to join their proper stations by Sept. 1: 2d Lt. Wm. S. Scott, 1st Cav.; 2d Lt. F. G. Irwin, Jr., 2d Cav.; 1st Lt. D. H. Boughton, 3d Cav.; 2d Lt. Chas. N. Clinch, 3d Cav.; 1st Lt. H. J. McGrath, 4th Cav.; 2d Lt. J. Y. M. Blunt, 5th Cav.; 2d Lt. R. B. Paddock, 5th Cav.; 1st Lt. L. S. McCormick, 7th Cav.; 1st Lt. Wm. A. Shunk, 8th Cav.; 2d Lt. P. E. Tripple, 10th Cav.; 2d Lt. F. O. Ferris, 1st Inf.; 2d Lt. J. M. Arrasmith, 2d Inf.; 2d Lt. Omar Bundy, 3d Inf.; 1st Lt. Chas. W. Mason, 4th Inf.; 2d Lt. E. B. Weeks, 5th Inf.; 2d Lt. B. W. Atkinson, 6th Inf.; 2d Lt. A. B. Buffington, 7th Inf.; 2d Lt. John Stafford, 8th Inf.; 2d Lt. R. M. Blatchford, 11th Inf.; 2d Lt. D. E. McCarthy, 12th Inf.; 2d Lt. J. P. O'Neil, 14th Inf.; 2d Lt. John Cotter, 15th Inf.; 2d Lt. W. A. Johnston, Jr., 16th Inf.; 2d Lt. Chas. D. Clay, 17th Inf.; 2d Lt. Wm. J. Pardee, 18th Inf.; 2d Lt. Z. B. Vance, Jr., 19th Inf.; 2d Lt. Benj. Alvord, 20th Inf.; 2d Lt. W. Y. Stamper, 21st Inf.; 2d Lt. T. W. Moore, 22d Inf., and 1st Lt. Wm. A. Nichols, 23d Inf. 1st Lt. Harry Reade, 25th Inf., and 2d Lt. R. H. Anderson, Jr., 9th Inf., having been under instruction at the school during the term, commencing Sept. 1, '85, ordered to join their proper stations without delay. 1st Lt. F. Beers Taylor, 9th Cav., and 1st Lt. J. V. S. Paddock, 5th Cav., relieved from further duty at the school. (S. O. July 7, H. Q. A.)

LATE ARMY ORDERS.

A G. C. M. will meet at Fort Wayne, Mich., on July 12. Detail: Capts. Geo. M. Randall, Joseph T. Haskell, Charles Wheaton and Richard I. Eskridge, 1st Lieuts. Frederick L. Dodge and Stephen O'Connor, 2d Lieuts. Edwin P. Pendleton, Wm. H. Allaire, D. B. Devore, 23d Inf., and 2d Lieut. George D. De Shon, 23d Inf., J. A. (S. O. 138, Div. Atl., July 8.)

Anthony Heger, Surgeon, awaiting orders in New York City, is ordered to duty as post surgeon at Fort Columbus, N. Y. H., and Surg. J. H. Janeway from Ft. Columbus to Barracks. Henry P. Birmingham Asst. Surg., from Fort Columbus to Fort Myer, Va. Asst. Surg. Chas. E. Woodruff from Fort Wayne, Mich., to Fort Mackinac, Mich.

Chas. K. Winne, Asst. Surgeon, is ordered from Benicia Barracks to Fort Wadsworth, relieving Valery Havard, Asst. Surgeon, who is ordered to Fort Abraham Lincoln, Dak.

L. M. Maus, asst. surgeon, on being relieved at Fort Lincoln, D. T., is ordered to Fort Schuyler, New York.

Jas. B. Girard, asst. surg., is ordered from Fort Schuyler to Fort Lowell, Ariz. Jefferson D. Poindexter, asst. surg., from West Point to Camp Poplar River, Mont., relieving C. N. Macauley, asst. surg., who is ordered to Fort Gibson, Indian Territory, relieving Chas. B. Byrne, asst. surg, ordered to Washington Barracks.

Timothy E. Wilcox, Assistant Surgeon, is ordered from Washington Bks. to Fort Niobrara, Neb., relieving Henry Lippincott, Surgeon, ordered to Fort Union, N. M.; Peter Cleary, Surgeon, is ordered from Fort Union to Fort D. A. Russell, Wyo.; D. G. Caldwell, Surgeon, from Fort D. A. Russell to Fort Assiniboine, Mont.; G. H. Torney, Assistant Surgeon, from Fort Monroe, Va., to Fort Robinson, relieving W. Reed, asst. surg., is ordered to Mt. Vernon Barracks, Ala. Julius H. Patzki, asst. surg., from Mt. Vernon Barracks to Ft. Huachuca, Ariz. R. G. Ebert, asst. surg., from Ft. Hamilton to Ft. Custer, Mont.

J. E. Pilcher, assistant surgeon, is relieved from Fort Custer to Fort Monroe. John Gardiner, asst surgeon, from Newport Barracks, Ky., to Fort Washakie, W. T., relieving A. R. Chapin, asst. surgeon, who is ordered to Newport Barracks.

W. H. Forwood, Surgeon, is ordered from Fort Meade, Dak., to Fort Snelling, Minn., and H. O. Perley, Assistant Surgeon, from Fort Snelling to Fort Wayne, Mich.

BVT. LT.-COL. W. R. PARNELL, U. S. A., has been appointed Commandant of the Veterans' Home, at Yountville, Napa Co., California.

LIEUTENANT J. B. EATON, 3d U. S. Artillery, will shortly open a recruiting rendezvous at Richmond, Va., which is thought to be a good field for recruits.

IN the executive session of the New York Aqueduct Commission, Gen. Newton presented the name of Capt. Thos. W. Symons, Corps of Engineers, U. S. Army, for appointment as deputy chief engineer, at a salary of $7,000 a year, but in the open session of the Board Mr. Geo. S. Rice, of Boston, was chosen to fill the place.

MRS. PICKETT, widow of Gen. George E. Pickett, was married when she was fifteen years of age. Her son was born before his mother had reached her sixteenth year. Mrs. Pickett is still a very young looking woman, superbly handsome. Hers is a dark, voluptuous style of beauty. Since the war she has persistently avoided society. Her appearance at Gettysburg was the first she has made in public for years.

The Index to General Orders, amendatory of the U. S. Army Regulations, by 1st Lieut. William Baird, is a valuable publication, of which the Quartermaster-General says: "I consider it valuable as a means of reference to existing orders and Army Regulations."

THE ARMY.

G. O. 47, H. Q. A., June 28, 1887.

I. The court of inquiry of which Colonel Henry M. Black, 23d Infantry, is president, instituted by direction of the President, in S. O. 16, Headquarters of the Army, Adjutant General's Office, Washington, January 20, 1887, to fully investigate certain indicated charges preferred by civilians against Colonel Frank Wheaton, 2d Infantry, as the late commanding officer, and 1st Lieutenant Sidney E. Clark, 2d Infantry, as the late acting assistant quartermaster, at Fort Cœur d'Alene, Idaho Territory, having considered the evidence, in connection with the instructions of the Secretary of War communicated in the following letter, has reported its findings and opinion as hereinafter stated:

[We omit the letter, W. D., A. G. O., of Jan. 24, 1887, giving instructions, as these are embodied in the findings].

FINDINGS AND OPINION OF THE COURT.

INSTRUCTIONS.

1st. The approximate amounts of lumber produced at the post saw mill; the disposition made and returns rendered of the lumber thus produced; and the disposition made and accounts rendered of the proceeds of such part thereof as was sold.

FINDING.

The court find, after taking into consideration all the evidence obtainable, as to the quantity of logs hauled to the mill, in connection with its capacity and time of running, that the testimony of one of the accused officers, Lieutenant Sidney E. Clark, 2d Infantry, furnishes as nearly as can be an approximate estimate of lumber produced by the mill during the period from October 1, 1879, to January 1, 1886, and this approximate amount is in harmony with the evidence before referred to, and is as follows: 2,437,556 feet of lumber; 1,657,320 shingles, containing about 390,000 feet of lumber. The disposition made of this lumber was as follows: 1,740,720 feet of lumber was used in the construction of the buildings at the post of Fort Cœur d'Alene, together with 1,500,000 shingles; 696,836 feet of lumber and 157,330 shingles were exchanged for labor and sold to citizens, for which Lieut. Sidney E. Clark, 2d Infantry, A. A. Q. M., received:

For assorted lumber	$9,091 62
For shingles	466 28
For laths	64 00
	$9,621 90

A full return of all the lumber manufactured at the mill was never rendered, but a record was kept from 1879 to 1884 of lumber expended by him in the construction of public buildings at this post. After that date no record whatever was kept of the lumber produced at the mill, and in the return submitted by Lieut. Clark the lumber taken up is an approximate amount based upon his expenditures for the same period. Of the lumber sold no returns were made; no accounts were rendered, but an account was kept for his own knowledge and protection. This account showed the amounts of money received from the sales of lumber to citizens, and the purposes for which it was expended by him. In the sales of lumber purchasers were required to procure from the post trader an order for its delivery, and the delivery was made by the regimental Q. M. sergeant John Berry, of the 2d Infantry. These orders were some of them for cash deliveries, but largely the amounts were charged by the post trader to his customers, and charged by the post quartermaster to the post trader and drawn upon from time to time. The proven collusion hereinafter referred to between the post trader, Mr. C. B. King, and Quartermaster Sergeant John Berry in dividing the earnings of the steamboat "Amelia Wheaton," leaves room for doubt whether the Government received the full benefit of the sales of lumber made.

INSTRUCTIONS.

2d. The manner in which contracts for work in connection with the construction of certain public buildings and of a system of water works were awarded and executed, and in which the public funds allotted therefor were expended and accounted for.

FINDING.

The court find that Lieut. S. E. Clark, A. A. Q. M., awarded informal contracts to the parties named below, at the dates and for the purposes and amounts specified:

To C. B. King, post trader at Fort Cœur d'Alene: October 11, 1884, labor to construct wood work of a barrack building, $540, and to make and set window and door frames, $321; November 20, 1884, to frame and inclose a double set of officers' quarters, $581; June 3, 1885, construction of porches for four barrack buildings, $595; June 29, 1885, excavating and laying the foundation for water works, machinery, and setting pump and boiler, $450; August 25, 1885, sheathing and shingling a hay barn, $150.

To H. H. Newhall, a clerk in the trader's store of C. B. King; March 20, 1885, putting five chimneys in officers' quarters, $157; March 24, 1885, setting window and door frames, $127; August 20, 1885, construction and framing a bakehouse, $82.

Proposals for bids upon these contracts were sent to the successful bidders with information as to the amounts which were allotted and available, and an understanding existed that the contracts would be awarded to them, but that they would not be required to execute them. None of them were in fact executed by the contractors, but the work, in each instance, was done under the supervision of Lieut. Clark, who paid to the contractors, on regular vouchers, the amounts called for by the contracts, which payments were accounted for on the regular returns of Lieut. Clark. As each payment was made, the full amount thereof was returned to him by the contractor and by him expended in the payment of civilian employees and of extra duty pay to enlisted men employed, and the purchase of materials used in the construction of public buildings.

INSTRUCTIONS.

3d. The uses to which the Govt. steamer "Amelia Wheaton" was put, especially in the fall of 1883; the management of the passenger and freight traffic in which the vessel engaged; and the disposition made and accounts rendered of moneys derived from such traffic.

FINDINGS.

The court find that the steamboat "Amelia Wheaton," from the time of her completion up to Oct. 1, 1883, was used mainly for legitimate post and Government service. In the fall of 1883, in connection with her usual work of transporting hay for the hay contractor from the mouth of the Cœur d'Alene River to this post, she was used to convey passengers and freight to and from the Indian Mission, near the mouth of said river, and while engaged in this outside work the post trader, Mr. C. B. King, by authority of Lt. S. E. Clark, 2d Inf., A. A. Q. M., acted as the agent for the said boat, and as such gave all the orders for passage and freight thereon, and, in general terms, all the business connected with this traffic passed through his hands. No regular accounts were kept or rendered by Mr. C. B. King of the money collected by him while conducting this business for the post quartermaster, Lieut. Clark, of the 2d Inf. He charged and collected $2 per passenger for the trip to the Mission, and $10 per ton on the bulk of the freight shipped, except in special cases, when the applicant purchased goods from him amounting to about 1,000 lbs., or more, a free pass was issued. In Mr. King's settlement of this account with Lieut. Clark no account was made of the money collected for fare to the Mission, and the Government was credited with freight of $7 per ton only, Mr. C. B. King having collected and put in his pocket $10 per ton. The money derived from this use of the "Amelia Wheaton" was turned into and formed part of the irregular fund kept by Lieut. Clark. The total amount of money received for freight during the interval covered by this inquiry was $2,271.69, of which amount $1,582.71 was collected in 1883, and no regular account was rendered of the money thus obtained. The court further find that the regimental Quartermaster Sergeant, John Berry, 2d Inf., under the immediate direction of the post trader (C. B. King), and in pursuance of an agreement between them, retained in his possession one-half the amount of money collected for passage on the "Amelia Wheaton," and divided it with the crew of the boat which consisted entirely of enlisted men, and that the excess of the charge for freight made by the post trader above that allowed by him in his settlement with Lieut. Clark, to wit, $3 per ton, was, upon the demand of Quartermaster Sergeant Berry, also divided by giving to the said quartermaster sergeant and the said crew, and to Government laborers, one-half of such excess.

INSTRUCTIONS.

4th. The circumstances that attended the employment for the benefit of the post trader of a civilian engineer, borne and paid on the quartermaster's rolls, and the alleged transfer from the public warehouses to the post trader's establishment of large quantities of grain.

FINDINGS.

The court find that from April to October, 1881, Matthew Lewis, an employee of the then post trader, C. F. Yeaton, was borne on the rolls of the post quartermaster, Lieut. Clark, as a civilian engineer, at a salary of $100 per month, and that he rendered no service whatever to the Government; that he signed the rolls and drew his pay from Lieut. Clark, to whom he made immediate return of the money, which was made part of the irregular fund accrued through sources hereinbefore set forth. The court find that in 1885 M. M. Cowley, a contractor, had stored in the public storehouse at Fort Cœur d'Alene oats estimated in amount as from 60,000 to 80,000 pounds; that these oats were left on his hands, not having been called for on his contract, and that in the vicinity of one-half the amount was sold and transferred to the post trader, C. B. King, and the balance disposed of at private sale and by auction. In addition to this transfer, 3,000 pounds of oats were taken from the public storehouse and loaned to the said post trader upon the written guarantee of Captain Abner Haines, Jr., 2d Inf., for their return. They were returned.

The court find that the irregular system of administration recited above was within the knowledge and had the sanction of the post commander, Col. Frank Wheaton, 2d Inf., and that it was an outgrowth of a letter of instructions from the commanding general of the Department of the Columbia, Brig.-Gen. O. O. Howard, U. S. A., dated Sept. 17, 1879, conveyed to the post commander, to "work the mill to its full capacity and use every contrivance to push construction of all buildings to completion with the least possible call for money."

OPINION.

Upon the facts as above specified, and as they appear established in the record, the court is of opinion that, while they may have had their origin in a zealous desire to create a military post for which no adequate appropriation had been made, and that a post has been so established at nominal cost, the methods and processes were deplorable, and were greatly to the detriment of the Service and subversion of all discipline; that through the disregard of law and regulations by the officers concerned, a lawlessness was engendered which, when it reached the enlisted men of the command, greatly demoralized them and scandalized the Army. It is true that these officers were placed in a position wherein they were called upon to provide shelter for the troops of their command, and that they were not furnished with means to do so in a legitimate manner; but even that dilemma cannot be accepted as a justification for a violation of law and regulations. The responsibility for the dilemma did not rest upon them, and, under such circumstances, protests, and not action, would seem to have been demanded on the part of the responsible officers.

II. The following are the orders of the War Department in the case:

WAR DEPARTMENT, Washington, June 27, 1887.

The proceedings of the court of inquiry in the foregoing case having been submitted by the Secretary of War to the President, the following are his orders thereon:

The President approves the proceedings and findings of the court, and concurs in its opinion that the methods and processes employed by Col. Wheaton and Lieut. Clark were deplorable, subversive of discipline, and detrimental to the Service.

These methods involved, in the President's opinion, a disregard of law and Army regulations highly discreditable, for which no valid excuse was afforded by any existing exigency, and betrayed a recklessness and a degree of evasion which, happily, are very unusual in the conduct of Army officers, and which merit emphatic condemnation.

The officers whose misbehavior has been exposed by this investigation point to the military post built under their direction as a monument of their energy and zeal, and they appear to find satisfaction in this result achieved with the scanty means placed at their disposal through governmental appropriation: but they should not be insensible to the fact that an achievement by unlawful and forbidden methods such as are disclosed upon this inquiry cannot redound to the credit either of themselves or the Army, and that no profitable result can excuse or justify a violation of law or Army rules and regulations or condone a resort to methods fraudulent in themselves and which invite peculation and corruption.

Notwithstanding the reprehensible conduct of these officers, and the unlawful complexion of the transactions exposed by this inquiry, the fact that some of the most serious charges are barred by the statute of limitations; the difficulty, made apparent by an examination of the record, of obtaining satisfactory evidence to support the charges on which a trial might be had; the consequent uncertainty attending the result of such a trial; and the great expense and inconvenience which would be occasioned thereby, constrain the President to advise that further proceedings upon the accusations investigated by the court of inquiry be abandoned.

WM. C. ENDICOTT, Secretary of War.

III. By direction of the Secretary of War the court of inquiry of which Col. Henry M. Black, 23d Inf., is president, is hereby dissolved.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 49, H. Q. A., July 7, 1887.

By direction of the Secretary of War, par. 332 of the Regulations are amended to read as follows:

332. When a military reservation is needed at or in the vicinity of a post, the department commander will cause a survey to be made of the proposed reservation and forward an accurate plat and description thereof to the Adjutant General, together with any report or recommendation he may desire to submit, for the consideration of the Commanding General of the Army and the Secretary of War. Reservations will not be announced in orders from post, department, or division headquarters, but such announcement will be made in orders from the Adjutant General's Office, *after* declaration by the President of the United States.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

G. O. 5, DEPT. OF DAKOTA, June 27, 1887.

The coming department rifle competition will take place at Fort Snelling, Minn.

The preliminary practice, and the parts of the competition embracing known distances and skirmish firing, will take place so that the competition will close Wednesday, Aug. 24.

The Department Commander desires that every troop and company should be represented, by a competitor, in this year's rifle contest.

G. O. 13, DEPT. OF THE COLUMBIA, June 22, 1887.

The last month of the target practice season at Vancouver Barracks will be from July 20 to August 19, 1887.

G. O. 15, DEPT. OF ARIZONA, June 27, 1887.

The target practice season for troops at camp near Nogales, A. T., is June 22 to July 21 inclusive and September and October.

G. O. 5, DIV. OF THE ATLANTIC, July 2, 1887.

The annual competitions for places on the teams of the Department of the East and Division of the Atlantic for this year will take place at Fort Niagara, N. Y., during the latter part of August and early in September.

The "distinguished marksmen" serving with their commands, who may report in writing to these headquarters that they so desire, will be selected to shoot at the same time and place with competitors. The two of these marksmen who make the highest aggregate scores during the four days of the Division competition will be selected to participate in the competition of "distinguished marksmen," to take place at the Bellevue Rifle Range, near Omaha, Neb., commencing September 19 next.

STAFF CORPS AND DEPARTMENTS.

General Officers.

By direction of the President, Brig. Gen. Wesley Merritt is detailed as a member of the Army retiring board, at Fort Leavenworth, Kan., vice Major H. S. Hawkins (S. O., July 7, H. Q. A.)

Judge Advocate General's Department.

The leave granted Lieut. Col. Thomas F. Barr, D. J. A., is extended fifteen days (S. O., July 5, H. Q. A.)

Adjutant and Inspector Generals.

Lieut. Col. E. M. Heyl, Inspr. Gen., will proceed to Forts McIntosh, Ringgold and Brown, on public business (S. O. 73, June 27, D. Texas).

Col. Joseph C. Breckinridge, Inspr. Gen., will inspect clothing at the recruiting rendezvous, Chicago, for which Capt. Frank D. Garretty, 17th Inf., recruiting officer, is responsible (S. O., July 5, H. Q. A.)

The Inspector General department of Dakota will proceed, on inspection service, to Sioux City, Iowa, and Duluth, Minn. (S. C. 62, July 1, D. Dakota.)

Quartermasters and Subsistence Departments.

The following changes of stations of Superintendents of National Cemeteries were ordered July 2: James G. Hughes from Marietta, Ga., to Memphis, Tenn. George Hess from Memphis to Antietam, Md. W. A. Donaldson from Antietam to Marietta, Ga. Noble Warwick from Fort Leavenworth to Cypress Hills National Cemetery. William Dillon from Cypress Hills to Fort Leavenworth.

Mr. Wm. Vander Bosh, draughtsman, will proceed to Fort Porter and execute special instructions in connection with the building operations in progress at that post (S. O. 136, July 6, Div. Atlantic.)

Leave for one month is granted Capt. Andrew H. Young, A. Q. M. (S. O., July 2, H. Q. A.)

During the absence of Major J. W. Scully, Q. M., on leave, the duties pertaining so the Q. M. D., at New Orleans, La., will be performed by Capt. Wm. H. Nash, C. S. (S. O. 134, July 2, Div. Atlantic.)

Pay Department.

A Quarterly Station List of the Pay Department, dated July 1, comes acceptably to hand this week. There are 42 officers on duty, two on long sick leaves, and two awaiting orders on their own request—46 in all.

The extension of leave on surgeon's certificate granted Major Henry G. Thomas, Paymr., is still further extended one year on surgeon's certificate (S. O., July 1, H. Q. A.)

The troops at the Leavenworth Military Prison and Fort Leavenworth will be mustered for pay July 31, and monthly thereafter (S. O. 64, June 27, Dept. Mo.)

On completion of payment of the troops at Fort Sidney, Neb., Major C. M. Terrell, P. D., will proceed to Fort D. A. Russell, Wyo., and report as witness before a G. C. M. (S. O. 62, June 28, D. Platte.)

The troops will be paid to June 30, as follows: Major G. E. Glenn, Paymr., San Diego Barracks, Cal., Forts Mojave and Verde and Whipple Barracks, A. T. Major F. M. Coxe, Paymr., Camp near Nogales, Forts Huachuca, Bowie, Grant and Thomas, San Carlos and Fort Apache, A. T. Major W. M. Maynadier, Paymr., Forts Marcy, Union, Wingate, Stanton, Selden and Bayard, N. M. Major G. R. Smith, Paymr., Forts Lowell and McDowell, A. T. (S. O. 65, June 24, D. Arizona.)

Col. Daniel McClure, Asst. Paymr. Gen., having been unable to take advantage in June of the leave granted him, is authorized to take advantage of said leave in July (S. O. 135, July 5, Div. Atlantic).

Paymasters will pay troops, on muster rolls of June 30, as follows: Major James P. Canby, Paymr., at Boise Barracks and Fort Klamath. Major John B. Keefer, Paymr., at Forts Walla Walla, Spokane and Sherman. Major De Witt C. Poole, Paymr., Vancouver Barracks and Forts Canby and Townsend (S. O. 93, June 25, D. Columbia).

The troops at the following posts will be mustered for pay July 31, and monthly thereafter: Forts Wood, Columbus, Wadsworth, Hamilton, Schuyler, Warren, Niagara, Porter, Wayne, Newport Barracks, Washington Barracks, and Fort Myer (S. O. 136, July 6, Div. Atlantic).

Medical Department.

Leave of four months, on surgeon's certificate, is granted Capt. John O. Skinner, asst. surg. (S. O., July 1, H. Q. A.)

1st Lieut. H. S. T. Harris, asst. surg., Fort Ringgold, immediately upon the return of Capt. W. Fitzhugh Carter, asst. surg., will repair to Fort McIntosh, and report for duty (S. O. 73, June 27, D. Tex.)

Major Wm. S. Tremaine, surgeon, will report to Major General John M. Schofield, president Army retiring board, at Governor's Island, for examination by the board (S. O., July 1, H. Q. A.)

Leave for ten days is granted Major William E. Waters, surgeon, Vancouver Barracks (S. O. 91, June 20, D. Columbia).

1st Lieut. Wm. L. Kneedler, asst. surg., is detailed member of the Army retiring board at St. Paul, Minn., vice Major Charles H. Alden, surg., relieved (S. O., July 2, H. Q. A.)

Engineers and Ordnance Departments.

2d Lieut. Wm. L. Sibert, C. E., will be relieved from duty at Willet's Point, and will proceed to Louisville, Ky., and report to Major Amos Stickney, C. E., for duty (S. O., July 2, H. Q. A.)

Leave for six months, to take effect Oct. 15, is granted Capt. Joseph H. Willard, C. E. (S. O., July 1, H. Q. A.)

1st Lieut. Hiram M. Chittenden, C. E., will be re]

lieved from duty with the Battalion of Engineers, Willet's Point, and report to the Comdg. Gen., Dept. of the Platte, for duty as engineer officer. (S. O., July 1, H. Q. A.)

So much of S. O. 147, as relates to Capt. J. C. Ayres, Ord. Dept., is revoked (S. O., July 2, H. Q. A.)

The following changes in stations of officers of the Ord Dept. are ordered: Capt. Wm. S. Starring will be relieved from duty as chief ord. officer, Dept. of Platte, and as C. O. of the Cheyenne ord. depot, and will report to the comdg. gen., Dept. of the Columbia, for duty as chief ord. officer of and comdg. officer Vancouver Barracks ord. depot. Capt. Marcus W. Lyon is relieved from duty at the Watertown Arsenal, and will report to the comdg. gen., Dept. of the Platte, for duty as chief ord. officer of and as C. O. of the Cheyenne ord. depot, Wyo. (S. O., July 2, H. Q. A.)

Signal Corps.

Leave for fifteen days, to take effect on being relieved from duty at Wood's Holl, Mass., is granted 2d Lieut. Julius H. Weber, Sig. Corps (S. O., July 1, H. Q. A.)

2d Lieut. Frank Greene, Sig. Corps, now on leave at Dayton, Wash. T., will proceed to certain points, and after having made a thorough inspection of the Sig. Service stations located thereat, will return to Dayton, inspect the Sig. Service station thereat, and then resume his status as on leave (S. O., July 1, H. Q. A.)

2d Lieut. Wm. D. Wright, Sig. Corps, having been assigned to the charge of the seacoast telegraph line in the vicinity of Wood's Holl, Mass., will assume charge, from July 1, of the New England Division U. S. telegraph lines (S. O. 45, Sig. Corps, 1887).

THE LINE.

Changes of Stations of Troops and Field Officers

Ordered, as reported to the Adjutant-General's Office during the week ending July 2, 1887:

TROOPS.

Troop B, 4th Cav., to Fort Myer, Va.
Troop B, 6th Cav., to Fort Myer, Va.
Cos. A and H, 7th Inf., to Camp Pilot Butte, Wyo.
Cos. B and E, 7th Inf., to Fort Laramie, Wyo.
Cos. D and K, 8th Inf., to Fort Robinson, Neb.

FIELD OFFICERS.

Major L. H. Carpenter, 5th Cav., to Fort Myer, Va.
Major David Perry, 6th Cav., to Jefferson Barracks, Mo.
Major S. S. Sumner, 8th Cav., to Vancouver Barracks, Wash. T.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., A, B, E, G, and K, Ft. Custer, Mont.; D, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; C, F, H, and L, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.

Leave for one month, with permission to apply for an extension of one month, is granted Major G. B. Sanford (S. O. 65, June 27, Dept. M.)

Leave for two months upon Surgeon's certificate is granted Col. Nathan A. M. Dudley, Fort Custer (S. O. 76, July 1, Div. M.)

Fifty recruits are ordered to be forwarded to Fort Snelling, Minn., for the 1st Cav. (S. O., July 7, H. Q. A.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Sherman, Idaho.

The leave granted 2d Lieut. Henry T. Allen is extended six months, with permission to go beyond sea (S. O., July 5, H. Q. A.)

A despatch of July 5, from the Presidio of San Francisco, says: "Private Thomas N. Bateman, Troop A, 2d Cav., shot and killed 1st Sergt. Samuel M. Sopher this morning. Both men paraded with their troop July 4, and the sergeant reprimanded Bateman, whom he found intoxicated. When the sergeant went into the soldiers' barracks next morning to awaken some delinquents, Bateman took his stand behind him and deliberately shot him in the head. Sopher fell, and Bateman coolly reloaded his carbine and shot the sergeant a second time. He will be turned over to the civil authorities."

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex.; G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

1st Lieut. J. O. Mackay, A. C. S. Camp Pena Colorado, will send, by express, to the Chief C. S., certain subsistence funds (S. O. 73, June 27, D. Tex.)

Leave for four months, to take effect between July 10 and Aug. 31, is granted 2d Lieut. Tyree R. Rivers (S. O., July 1, H. Q. A.)

Capt. James F. Simpson will report, July 6, to Brig.-Gen. Holabird, president of the Army Retiring Board in Washington, for examination by the Board (S. O., July 1, H. Q. A.)

4th Cavalry, Colonel William B. Royall.

Hdqrs., D, F, H, and K, Ft. Huachuca, Ariz.; A, E, and L, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; M, Ft. McDowell, Ariz.; B, Ft. Myer, Va.

1st Lieut. Alexander M. Patch will report to Major-Gen. Howard, president of the Army Retiring Board at San Francisco, for examination by the Board (S. O., July 1, H. Q. A.)

1st Lieut. Wilber E. Wilder, is relieved from duty on the recruiting service, to date July 15, 1887, and will join his troop (S. O., July 6, H. Q. A.)

5th Cavalry, Colonel James F. Wade.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

1st Lieut. Luther S. Welborn will report to Col. Alexander McD. McCook, 6th Inf., president of the Army Retiring Board at Fort Leavenworth, for examination by the Board (S. O., July 1, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M.; M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.; B, Ft. Myer, Va.

Leave for two months is granted 2d Lieut. John Y. F. Blake, Fort Leavenworth (S. O. 78, July 5, Div. M.)

7th Cavalry, Colonel James W. Forsyth.

Hdqrs., B, C, D, G, K, and M, Ft. Meade, Dak.; E and H, Ft. Yates, Dak.; F and L, Ft. Buford, Dak.; A, Ft. Keogh, Mont.; I, Ft. Totten, Dak.

1st Lieut. Edwin P. Brewer and 1st Sergt. William E. Reed, Troop G, Fort Meade, will proceed to Fort Snelling and report as witnesses in the case of Pvt. Frank Maresch, Troop G (S. O. 60, June 28, D. Dak.)

Leave for ten days is granted 1st Lieut. L. S. McCormick (S. O. 66, June 30, Dept. M.)

The ration of bread for Troop G, at Fort Meade, D. T., is increased to twenty ounces (S. O. 62, July 1, D. Dak.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I, Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L, Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

9th Cavalry, Colonel Edward Hatch.

Hdqrs., C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; D and H, Ft. McKinney, Wyo.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

1st Lieut. M. W. Day is detailed to inspect Indian supplies at the Rosebud Agency, D. T., and 1st Lieut. B. S. Humphrey at the Pine Ridge Agency, D. T. (S. O. 62, June 28, D. Platte.)

10th Cavalry, Colonel Benjamin H. Grierson.

Hdqrs., Santa Fe, N. M.; E, F, K, and L, Ft. Grant, A. T. D, San Carlos, A. T.; A, C, and H, Ft. Apache, A. T.; I, Ft. Verde, A. T.; B and G, Ft. Thomas, A. T.; M, Ft. McDowell, A. T.

1st Lieut. John Bigelow, Jr., will repair to Washington, D. C., and report to the Adjutant-General of the Army for duty (S. O., July 5, H. Q. A.)

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

1st Lieut. V. H. Bridgman is relieved from duty at Willet's Point, July 1 (Orders 128, June 30, Engr. School of Application.)

Major C. B. Throckmorton will proceed to Fort Henry, near Pass Christian, Miss., on business connected with the approaching encampment at that point (S. O. 135, July 5, Div. A.)

A New Orleans paper says: "A most interesting feature of the encampment at Fort Henry, near Pass Christian, Miss., will be the presence of the two companies of the 2d Artillery, U. S. Army, at Jackson Barracks, La., Ramsay's and Vose's. The artillery practice with the heavy guns and mortars now mounted at Fort Henry, also the target practice by the field batteries of 3-inch rifles, including a Gatling battery by the Regular troops united in all these exercises with the State troops, will prove useful, instructive, and attractive."

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

1st Lieut. W. Loveridge is relieved from duty at Willet's Point, July 1 (Orders 128, June 30, Engr. School of Application.)

1st Lieut. Christopher W. Harrold will report to Brig.-Gen. Holabird, president of the Army Retiring Board at Washington, for examination by the Board (S. O., July 1, H. Q. A.)

S. O. 149, relating to Colonels Clermont L. Best, 4th Art., and Edwin F. Townsend, 12th Inf., is revoked, and Major Richard Lodor will proceed to the State camp of instruction at Peekskill, and relieve Col. Edwin F. Townsend, 12th Inf., from further duty in inspecting the several organizations of the National Guard of New York detailed for tours of service at that camp for the period ending Aug. 6 (S. O., July 5, H. Q. A.)

1st Lieut. John B. Eaton, 3d Artillery, will proceed to Richmond, Virginia, and report by letter from that city to the superintendent of the recruiting service, New York City, for assignment to the charge of a recruiting rendezvous (S. O., July 6, H. Q. A.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

The leave granted Capt. J. B. Campbell, Fort Monroe, is extended ten days (S. O. 135, July 5, Div. A.)

S. O. 149, directing Col. C. L. Best to inspect New York troops in camp at Peekskill, is revoked (S. O., July 5, H. Q. A.)

5th Artillery, Colonel John Hamilton.

Hdqrs., E, F,* I, and H, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; K and M, Ft. Schuyler, N. Y.
* Light battery.

2d Lieut. G. W. S. Stevens is relieved from duty at Willet's Point, July 1 (Orders 128, June 30, Engr. School of Application.)

Major Abram C. Wildrick will proceed to Creedmoor on public business connected with the establishment of a rifle camp at that point (S. O. 133, July 1, Div. A.)

Col. John Hamilton, having been granted a leave of absence at the expiration of which he will be retired from active service, the command of the regiment will devolve upon Lieut.-Col. Henry W. Closson, who will exercise it from Fort Wadsworth, N. Y. H. (S. O. 133, July 1, Div. A.)

Leave for three days is granted Capt. Selden A. Day, Fort Schuyler, N. Y. H. (S. O. 136, July 6, Div. A.)

1st Lieut. Thomas R. Adams is relieved from duty with his battery while it is on duty at the rifle camp at Creedmoor and will return to Fort Schuyler, N. Y. H., and resume his duties as A. A. Q. M. and A. C. S. (S. O. 136, July 6, Div. A.)

The C. O. Fort Hamilton, N. Y. H., will direct the band to take temporary station at Fort Columbus (S. O. 136, July 6, Div. A.)

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

1st Lieut. Geo. Bell, Jr., now on leave, is ordered to conduct a detachment of recruits for the 1st Cav. to the Dept. of Dakota and then join his company (S. O., July 7, H. Q. A.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Sherman, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

Leave for twenty days is granted Capt. Thomas H. Logan, Fort Keogh, M. T. (S. O. 60, June 28, D. Dak.)

Leave for ten days is granted Capt. T. F. Forbes Fort A. Lincoln, D. T., to take effect about July 5 (S. O. 60, June 28, D. Dak.)

1st Lieut. Thomas M. Woodruff, Act. Sig. Officer, will proceed to the following points and make a thorough inspection of the Signal Service stations located thereat: Baltimore, Pittsburg, Lansing, Grand Haven, Mackinaw City, Alpena, Port Huron, and Detroit, Toledo, Sandusky, and Cleveland, Erie, Buffalo, Rochester Oswego, Ithaca, and Albany, Northfield, Mount Washington, Eastport and Portland, Manchester, Boston, Nantucket, Edgartown, Vineyard Haven, and Wood's Holl, Block Island and Narragansett Pier, New London and New Haven, New York City, Atlantic City, and Philadelphia (S. O., July 1, H. Q. A.)

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

7th Infantry, Colonel Henry C. Merriam.

Hdqrs., B, D, E, and F, Ft. Laramie, Wyo.; A and H, Camp Pilot Butte, Wyo.; G and I, Ft. Washakie, Wyo.; C and K, Ft. McKinney, Wyo.

Capt. C. A. Coolidge is detailed to inspect Indian supplies for the Shoshone Agency, Wyo. (S. O. 62, June 28, D. Platte.)

1st Lieut. Alfred B. Johnson is relieved from duty as Aide-de-Camp to Major-Gen. Terry and will proceed to Fort Laramie, W. T., and report for duty with his company (G. O. 3, July 1, Div. M.)

Leave for two months is granted 1st Lieut. Alfred B. Johnson (S. O. 77, July 2, Div. M.)

Leave for four months on Surgeon's certificate is granted 1st Lieut. Francis Woodbridge (S. O., July 5, H. Q. A.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C, D, I, and K, Ft. Robinson, Neb.

Leave for one month, with permission to apply for an extension of one month, is granted 1st Lieut. W. H. McMinn, Fort Bridger, Wyo. (S. O. 63, June 29, D. Platte.)

Ordinary leave for one month is granted 1st Lieut. Colville P. Terrett, in extension of his leave on Surgeon's certificate (S. O., July 1, H. Q. A.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; A and G, Ft. Apache, A. T., C, Ft. Mojave, A. T.

2d Lieut. C. P. Stivers is appointed recruiting officer at Fort Mojave, relieving 1st Lieut. John Baxter, Jr. (S. O. 66, June 28, D. Ariz.)

Capt. Samuel Munson will report to Major Gen. Howard, president of the Army Retiring Board at San Francisco, for examination by the Board (S. O., July 1, H. Q. A.)

Capt. William W. Rogers will report to Col. Alexander McD. McCook, 6th Inf., president of the Army Retiring Board at Fort Leavenworth, for examination by the Board (S. O., July 1, H. Q. A.)

1st Lieut. E. B. Robertson is relieved from duty as Regtl. Adjutant. In relieving Lieut. Robertson the Colonel commanding desires to express his full appreciation of the zeal, energy and marked ability which has characterized every official act of Lieut. Robertson whilst holding the position of Regimental Adjutant for the past four years, and it is with great regret that he is compelled to sever the pleasant official relations that have existed since he assumed command of the regiment. 1st Lieut. J. McB. Stembel, R. Q. M., is appointed Adjutant, vice Lieut. Robertson. 1st Lieut. George Palmer is appointed Regimental Quartermaster, vice Lieut. Stembel, appointed Adjutant (Orders 28, July 1, 9th Inf.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

S. O. 143, June 22, directing Major Hamilton S. Hawkins to inspect Illinois National Guard, is revoked (S. O., June 30, H. Q. A.)

Capt. Dwight H. Kelton will report to Major-Gen. Schofield, president of the Army Retiring Board at Governor's Island, for examination by the Board (S. O., July 1, H. Q. A.)

Leave of absence for two months is granted Major Hamilton S. Hawkins, 10th Infantry (S. O., July 6, H. Q. A.)

11th Infantry, Colonel Richard I. Dodge.

Under orders to the Division of the Atlantic.

Capt. Charles F. Roe will report to Brig.-Gen. Holabird, president of the Army Retiring Board at Washington, for examination by the Board (S. O., July 1, H. Q. A.)

The appointment of Cadet Frederic D. Evans, graduate of the Academy, to be additional 2d lieutenant, 11th Inf., to date from July 1, is announced, and he is granted leave until Sept. 30 (S. O., July 5, H. Q. A.)

The C. O. Fort Yates, D. T., will grant a furlough for one month to Sergt. James Blake, Co. B (S. O. 60, June 28, D. Dak.)

12th Infantry, Colonel Edwin F. Townsend.

Under orders to the Department of Dakota.

Capt. George S. Wilson is relieved from duty at Bedlow's Island and will proceed to Madison Barracks, N. Y., in order that he may give attention to the packing and shipping to Dakota of his company property (S. O. 136, July 6, Div. A.)

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

A furlough for four months is granted Sergt. Chas. S. Brainerd, Co. K (S. O. 78, July 5, Div. M.)

The 13th Infantry is crying for a change of stations. Its members think that seven years among the greasers and two years of that in an Apache campaign is long enough.—*Kansas City Times.*

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

2d Lieut. William P. Goodwin, Fort Townsend,

will join his company at Vancouver Barracks (S. O. 91, June 20, D. Columbia.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

The leave for one month granted Capt. John W. Bean is extended twenty days (S. O. 76, July 1, Div. M.)

So much of S. O. 104 as directs 1st Lieut. Alexis R. Paxton to join his regiment in Dakota is amended to direct that he proceed to Washington, D. C., and assume charge of the recruiting rendezvous there, during the temporary absence of Capt. Douglas M. Scott, 1st Inf. (S. O 107, June 28, Rec. Ser.)

The C. O. Fort Buford, D. T., will grant a furlough for two months to Sergt. Byron Merwin, Co. E (S. O. 60, June 28, D. Dak.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

Capt. S. R. Whitall will be relieved from duty at Fort Ringgold, July 1, or thereabouts, and will join his company at San Antonio (S. O 73, June 27, D. Tex.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

Capt. Jacob Kline will visit the camp of the Illinois National Guard at Camp Lincoln, near Springfield, during the period of its encampment, July 9 to Aug. 27, 1887, for the purpose of inspecting the troops (S. O., June 30, H. Q. A.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, F, G, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; E, Ft. Ringgold, Tex.; I, Ft. Brown, Tex.

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

Capt. George M. Downey will report to Col. Alexander McD. McCook, 6th Inf., president of the Army Retiring Board at Fort Leavenworth, for examination by the Board (S. O., July 1, H. Q. A.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Major Robert H. Hall, A. I. G., Dept. of Platte, will inspect Forts Du Chesne, Douglas, Bridger, Washakie, D. A. Russell and Laramie, Camp Pilot Butte and the Cheyenne Depot, and Fort Sidney, Neb. He will also inspect the accounts of disbursing officers at Salt Lake City, Ogden, and Cheyenne (S. O. 62, June 28, D. Platte.)

The order announcing the appointment of Cadet Frederic D. Evans to be additional 2d lieutenant in the Army is amended so that he is appointed in the 22d Inf., instead of the 11th Inf. (S. O., July 7, H. Q. A.)

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T.; B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

Leave for one month, to take effect when his services can be spared by his post commander, with permission to apply for an extension of one month, is granted 1st Lieut. William Black (S. O. 65, June 27, Dept. M.)

Capt. Charles C. Hood will inspect unserviceable C. and G. E. and Q. M. stores at Philadelphia, for which Capt. James M. Marshall, A. Q. M., is responsible (S. O., July 2, H. Q. A.)

Leave for one month, to take effect on or about July 15, is granted Capt. Charles C. Hood, recruiting officer (S. O., July 5, H. Q. A.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Leave for one month is granted 1st Lieut. Redmond Tully, Fort Snelling, to take effect about July 15 (S. O. 60, June 28, D. Dak.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, July 2, 1887.

APPOINTMENTS.

[See General Orders, No. 45, Headquarters of the Army, June 27, 1887, announcing appointments of graduates of the U. S. Military Academy.]

No. 56. Cadet Frederic D. Evans, U. S. Military Academy, to be Additional 2d Lieutenant, 22d Infantry, to date from July 1, 1887.

PROMOTION.

2d Lieutenant Charles McClure, 18th Infantry, to be 1st Lieutenant, June 21, 1887, vice Wood, appointed Regimental Quartermaster.

RESTORED TO THE RETIRED LIST.

Major Benjamin P. Runkle, June 27, 1887, and to be borne on the rolls as never having been legally separated from the Army.

CASUALTY.

Colonel George P. Andrews (retired), died July 2, 1887, at Fort Winfield Scott, California.

Courts-martial.

The following courts have been ordered:

At Mount Vernon Barracks, Ala., July 11. Detail: Major William Sinclair, 2d Art.; Capt. Julius H. Patzki, Asst. Surg.; Capts. William P. Graves and John C. Scanlan, 1st Lieut. James E. Eastman, and 2d Lieut. William P. Stone, 2d Art., and 2d Lieut. Arthur F. Curtis, 2d Art., J.-A. (S. O. 136, July 6, Div. A.)

At Fort Niagara, N. Y., July 9. Detail: Major William H. Penrose, Capts Hugh G. Brown and Joseph H. Hurst, 12th Inf.; Capt. William H. Arthur, Asst. Surg.; 1st Lieuts. Guy Howard and Palmer G. Wood and 2d Lieut. Harry C. Hale, 12th Inf., and 2d Lieut. Charles H. Barth, 12th Inf., J.-A. (S. O. 137, July 7, Div. A.)

Army Boards.

A Board of Survey, to consist of 1st Lieuts. H. H. C. Dunwoody and Robert Craig, A. S. O., and 2d Lieut. John C. Walshe, Signal Corps, will assemble at the Signal Office, June 29, to fix the responsibility for loss of certain articles of Signal Service property, for which Capt. Francis B. Jones, A. Q. M., is responsible (S. O. 46, June 28, Sig. Office.)

Better Subsistence for Riflemen.—In order to provide for the better subsistence of the enlisted men while attending the coming rifle competition at Fort Snelling, Minn., troop and company commanders concerned are requested to send $2, company fund, for each competitor, scorer, marker, etc. The funds should be sent to the commanding officer of the Department Rifle Camp, about five days prior to the departure of the respective men from their posts (S. O. 62, July 1, D. Dak.)

DEPARTMENT NEWS.

Division of the Atlantic.—Maj.-Gen. Schofield.

The steamer *Chester A. Arthur* will, during the summer, leave Pier 58, N. R., foot of Gansevoort street, New York, at 9 A. M.; Governor's Island at 9 15, and will remain at David's Island until 4 P. M. Thursdays.

Gen. Schofield, having given permission to the Liberty Association, of New York, 150 strong, to visit Bedlow's Island, July 3, the club appears to have been anxious to make profit out of the occasion, so advertised that excursionists could go at 25 cents per head. This made the party number about 700. The company running the steamboat *Florence* to Bedlow's Island, getting wind of this acquainted the military authorities, and Capt. Wilson, U. S. A., commandant, took measures accordingly and would allow no more than the stipulated 150 of the Liberty men to land. The proceeding is thus described:

"How many vomans vill pe counted mit a ghentleman?" shouted an excursionist from the upper deck. Capt. Wilson said everybody—men, women and children—who came ashore would be counted as single members of the club. One by one the 150 lucky club members were filtered through the military line. The president of the club said the other excursionists came without the consent or connivance of the club. The 500 or more disappointed folks on the barges thought the captain of the tugboat was responsible, and it was suggested that he ought to be sat on; but he was unharmed, although liberally abused.

Dept. of the Platte—Brig. Gen. George Crook.

THE Omaha *Herald* waxes eloquent upon the necessity of a military post and rifle range there, and says: "If Fort Omaha is deprived of the Bellevue range, Fort Omaha will be certain to be abandoned; and that contingency should not be allowed to be entertained by the military, just at this juncture, especially, as the determination has been announced of making Fort Omaha a great military rendezvous, one of the strategic points of concentration of the country."

(Correspondence of the Army and Navy Journal.)

WEST POINT, N. Y.

JULY 6, 1887.

IN common with the rest of humanity in the East, we have been melting under intensely hot weather. For four days the mercury got up to about 95 in the shade.

The morning of the 4th came in gloriously; a delightfully cool breeze blew all day and made us all feel comfortable. At sunrise the band marched around the post, playing patriotic airs. At half past ten o'clock the cadets were marched to the front of the library, where the following programme was given: Prayer. Music, U. S. M. A. Band. Reading, "The Declaration of Independence," Cadet Henry Jervey. Music, U. S. M. A. Band. Oration, Cadet Charles W. Fenton. Music, U. S. M. A. Band. Benediction. At 11 o'clock the ceremonies were over, everything being short and sweet, especially the peroration of Cadet Fenton's excellent oration, which pleased all of the ladies present, for every fair one undoubtedly thought that she was the bright particular star around whom was shed so much lustre. At 12 o'clock the national salute was fired, and all work suspended for the day.

The plebes are making rapid improvement in drill, and will soon be ready for the battalion. One squad of about 24 drill as well as old cadets can. Lieut. Homer, who is in charge, has introduced a few new features as aids in acquiring the movements, and he has evidently succeeded in accomplishing what he set out to do.

The hop on the evening of the 4th was a brilliant affair. There was not so large a crowd as usual, which made it all the more pleasant for those who were fortunate enough to attend.

Gen. and Mrs. Merritt left last Thursday evening on the 7.35 train. A number of officers and ladies accompanied them to the station to wish a bon voyage to new fields. Mrs. Rockwell departed on Friday with her family, leaving the captain behind to pack up. Capt. Rodgers started Saturday evening for Arizona. Mrs. Rodgers remaining here. Capt. Tritle of Arizona and Dr. Alden, U. S. A., spent a day here last week.

On Tuesday morning the hard work of camp was commenced, to continue until Aug. 27. The September candidates are to report Aug. 26, and the furlough class on the 27th, for the 28th falls on Sunday this year.

The 4th was celebrated this year in grand style at Highland Falls. The fire department of the village and Ryder Post, Grand Army, accepted an invitation to parade with it. This is one of the best organized posts in the State, having many old regular soldiers and a number of armless sleeves in its ranks. About 60 members joined in the parade, which marched through the village, and was afterwards addressed by Judge Avery.

Col. Hasbrouck is now acting Superintendent, and Capt. Augur acting commandant of cadets.

The following-named persons have been designated for examination for admission to the U. S. Military Academy in June, 1888: Wallace R. Stokes, Bellmore, Ind.; Julius T. Conrad (at large), Washington, D. C.; John M. Palmer (at large), Springfield, Ill.; Harry C. Stone, Oneida, N. Y.; Wm. Jefferson Glasgow, St. Louis, Mo.; Walter D. R. Coles (Alt.), St. Louis, Mo.; John L. Hines, White Sulphur Springs, West Va.

FORT OMAHA, NEB.

THE *Excelsior* of July 2 says:

Gen. Drum has informed Senator Manderson that the troops at Forts Omaha, Niobrara, and Sidney, and the light battery at Leavenworth, will go into camp for one week from Sept 5, in connection with the ex-soldiers' and sailors' reunion at Omaha ... The hop Tuesday night was delightful. It was managed by Lieuts. William M. Wright, C. D. Tousley, Thomas H. Wilson, and R. T. Earle. The officers' club rooms and the adjoining hall were thrown open to the guests, and had been "polished up" and decorated by the young officers personally who issued the invitations. The guests were many, among them Gen. and Mrs. Wheaton, Col. and Mrs. Fletcher, Dr. and Mrs. Brown, Capt. and Mrs. Mills, Capt., Mrs. and Miss Dempsey, Capt. Ames, Capt. and Mrs. Keller, Lieut. and Mrs. Powell, Lieut. and Mrs. Turner, Col. and Mrs. Egbert, Misses Chambers, Wilson, McParlin, Lieut. Kinzie and daughter, Lieuts. Earle, Wilson, Wright, Towsley.

(Correspondence of the Army and Navy Journal.)

FORT SULLY, DAKOTA.

JULY 2, 1887.

NEWS has come at last that we are going to New York. Everybody is happy and the post is all astir. It was time that we had a change. The 11th has been in this Department since 1876. There will not be any sports on the Fourth on account of the move.

Mrs. Kelsey, Mrs. Klimer, Miss Sprague, and Mr. Chas. Kelsey, of Pierre, were the guests of Mrs. Macklin last Monday.

Frederick Paulding is visiting his father, Col. Dodge, for the summer.

Lieut Clayton and bride passed through here last Saturday on their way to Fort Bennett.

We saw an account in the Kansas City *Times* where the MacArthur Base Ball Club, of Fort Leavenworth, claims to be champions of the Army. We would like to give them a series of games, but, of course, that would be impossible, as we are so far apart. We think we have the finest nine in the Army and in Dakota also. MARS.

(Correspondence of the Army and Navy Journal.)

MONITORS vs. BALTICS.

A RATHER one-sided game of base ball was played at Governor's Island, July 2, between the Monitors, of the Island, and the Baltics, of Brooklyn. The former had a "soft thing" of it and won easily, the score being:

Monitors	12	3	2	1	5	5	—	28
Baltics	1	0	2	1	2	0	—	6

The Island nine consisted of C. T. Marshall, p.; T. P. Curtis, 1st b.; F. Tompkins, 2d b.; F. Darding Killer, 3d b.; D. Robertson, s. s.; P. Gubbins, l. f.; L. S. Miller, c. f.; King, r. f.; C. Nordhaus, c. Governor's Island is as proud of its "Monitors" as the country was of its Monitors during the war, and let the fact be remembered. RUFUS.

FORT NIOBRARA, NEB.

THE *Excelsior* of July 2 says:

Lieut. Hyde, Adjt. 8th Inf., arrived Sunday....Chaplain Lewis will deliver the oration on the Fourth....The complimentary hop given by a few friends to Sergt.-Major Castle and bride and Mrs. Edwards was a grand success....Cos. F and H, 8th Inf., and Troop I, 9th Cav., under Major Wilhelm, have been on an eight days' practice march. They were relieved on June 23 by Cos. E and G, of the 8th, and Troop A, 9th Cav., under command of Capt. Cooney. The time out is improved by skirmish firing practice.

FORT DAVIS, TEX.

The *News* of July 1 says:

Col. D. R. Clendenin returned, Friday, from his visit to Pena Colorado. Mrs. Clendenin is expected back to-day.... The picnic for the post school occurred Saturday and passed off very pleasantly.....Lieut. John T. Knight, 3d Cav., goes to the Virginia Agricultural and Mechanical College at Blacksburg, Va., Sept. 1 .....Lieut. Theodore H. Eckerson, 19th Inf., has been at Fort Davis for some days, from Nevill's Spring.....Sunday, Chaplain Hammond will deliver a sermon on "The Significance of Independence Day." .....The 3d Cavalry are to change station with the 8th Cavalry. This takes the 3d Cavalry to the posts on the lower Rio Grande. It also brings back to the Department of Texas the four troops of this regiment now at Forts Elliott and Sill, and thus increases the troops in the Department.

VANCOUVER BARRACKS, W. T.

THE *Independent* of June 29 says:

Major Thomas McGregor, 1st Cav., has returned to Fort Walla Walla.....Lieut. S. J. Mulhall, 14th Inf., has gone to Fort Townsend, for Garrison Court-martial duty.....The wife of Lieut. J. S. Parke, 21st Inf., is visiting her father, Hon. Lloyd Brooks, in Portland.....The family of Major C. A. Wikoff, 14th Inf., arrived at Vancouver Barracks, Wednesday, from the East. .. Capt. J. A. Sladen's son, who is a cadet at the West Point Military Academy, spends his vacation at Vancouver Barracks.....About the middle of July a large portion of the 14th Infantry, stationed at Vancouver Barracks, and, perhaps, the Light Battery, will, under command of Capt. Geo. W. Davis, go up the Willamette valley and into the Cascades mountains on a summer outing, which will include some scientific work to be done.... Lieut. H. H. Sargent, 2d Cav., recently relieved from duty at the University of Illinois, gave up the detail on account of the health of his wife. They will spend the summer in Colorado, California and Oregon.

FORT UNION, N. M.

A REPORT of June 20 says: Yesterday's base ball match was a good one. The contending nines were the Kramer Club, composed of members of Troop E, 6th Cav., and the post nine, composed of picked men from the five companies of the 10th Inf. Seven innings were agreed upon, on account of the excessive heat. The game was very interesting up to the third inning, the score then being 8 to 0 in favor of the post. From this to the fifth inning the post nine had everything their own way. Lieut. Van Vliet, Adjt. 10th Inf., played with the post nine, doing some very effective playing. He is the fleetest base runner in the post if not in the territory. The following is the score by innings:

K. B. B. C.	4	0	2	3	7	4	2	—	22
Post nine	2	1	5	8	4	0	1	—	21

FORT LEAVENWORTH, KAS.

L. L. B. contributes to the Quincy *Optic* a humorous sketch of the usual everyday life at the large post of Fort Leavenworth. He says: "There is quite a good deal of friendly rivalry among the ladies, and their husbands' colors always adorn the whips of their carts and surreys, or form the chief decoration in what they contribute in the way of cotillion favors. In the same fashion in little gifts to the bachelor officers the regimental color predominates. And a particularly fetching compliment to one's escort to hop or concert is to wear flowers or ribbons of his color. This is regarded as being as subtle and as pleasing as for a man to allow his fair companion's taste in ice cream flavoring to regulate his own! The young people have indulged in amateur theatricals to some extent during the winter, and their performances were very creditable. In the play of 'Ours' the commanding officer's pretty daughter and a particularly charming young lady from Virginia, whose graceful dancing at the hops has been much admired, quite covered themselves with glory. The Friday night hop in the room which is used both for theatre and dancing is one of the most important features of this pleasure-giving post."

COURT-MARTIAL CASES.

In the case of a soldier tried at Fort Niobrara for "Quitting guard and absence without leave," General Crook says: "The sentence is disapproved. There was no evidence submitted in this case that did not bear alike on both charges and specifications. The man is found not guilty of being absent from his guard, consequently, in the opinion of the court, he must have been present. That being a fact, it cannot be seen upon what ground the court finds him guilty of being absent from his company. It would be well if the post commander correct the irregularities that seem to exist in this troop in regard to posting stable guards, so that the question of a soldier's status of duty may be fixed."

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. Left New York Navy-yard, July 6, and arrived at Newport, R. I., July 7.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Halifax, N. S., July 4.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. At Boston, July 6. Expects to go to Canadian fishing banks. A despatch from Washington, D. C., says: The *Ossipee* was prevented from sailing from Boston, July 5, with the *Richmond*, by desertion of twenty-two of her crew.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Arrived at Portland, Me., July 7.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Portland, Me., July 7.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Cape Town June 6.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro May 19.

TALLAPOOSA, 3d rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro May 19. Comdr. F. W. Dickens has been ordered to command this vessel, and sailed on the U. S. and Brazil mail steamer *Finance*, June 18, en route.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Sailed from Villefranche for Spezzia, June 9. Arrived at Spezzia June 10.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. Reported by cable to have sailed from Spezzia, Italy, June 8, for Lisbon.

Pacific Station—Rear Adml. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Left the central American coast for the Sandwich Islands May 15. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francsco, Cal.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. At Panama June 28.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama June 1. Ordered to proceed to the Mare Island Navy-yard.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Punta Arenas, Central America, July 7.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Panama, June 1. Expected at Payta, Peru, early in June.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. Arrived at Juneau, Alaska, May 12. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Arrived at Rio de Janeiro June 19.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Panama, U. S. of C., June 28.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama June 11. Intended to leave for Chemulpo as soon as boilers are repaired.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Yokohama, June 11.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. At Chemulpo, Corea, June 11.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama June 11.

OMAHA,† 2d rate, 12 guns, Commander F. V. McNair. At Yokohama June 11.

PALOS,† 4th rate, 6 howitzers. Lieut. Comdr. J. E. Craig. At Yokohama June 11.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to care B. F. Stevens, 4 Trafalgar Sq., London, England.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

MINNESOTA, 1st rate. 24 guns, Comdr. T F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Left Newport, R. I., June 9, for Lisbon, on her summer cruise.

On Special Service.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. Arrived at New London, July 3.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Arrived at New York, June 29.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. At Washington.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Francisco, Cal., undergoing repairs.

ST. MARY'S, sails, 8 guns, Comdr. A S. Crowninshield. N. Y. School ship. At Cadiz June 27. Expected to leave Gibraltar July 6, and reach Madeira July 13. From the latter port she will leave for New London about July 20, and arrive there about August 14.

TRENTON, 2d rate, 10 guns, Comdr. N. H. Farquhar. At Norfolk, Va. Will sail for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*, early in July. Will probably be assigned later to the North Atlantic station.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. G. C. Wiltse. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic Squadron.

Chicago—At New York, where she will be completed. Will be in condition for a trial trip the latter part of July. Arrived at the Brooklyn Navy-yard, from the Erie dock, July 7.

Kearsarge—At Portsmouth, N. H., being repaired.

Hartford—Will undergo extensive repairs at Mare Island, Cal., and will hardly be ready for commission this year.

VARIOUS NAVAL ITEMS.

THE tug *Nina* will be repaired at New York at a cost not to exceed $6,000.

CIVIL ENGINEER R. E. PEARY is detailed a member of the Board on Dry Docks in place of Civil Engr. F. C. Prindle. The Board began the examination of plans July 1.

THE contract with the Bethlehem Iron and Steel Works was received from the printer at the Navy Department on Wednesday. There is no probability, however, of its being signed this week.

IT is expected that considerable additions will be made during the present month to the force employed at the Washington Navy-yard. A new lathe, larger than any of the others, has just been completed and put into operation at the Navy-yard. Machinery is being put into position as rapidly as possible. A quantity of steel is daily expected at the yard.

AT the Navy Department on Wednesday bids for ten sets of 6-inch gun forgings for the Navy were opened in the presence of Judge-Advocate-General Remey and Chief Clerk Hogg. The only bidder was the Midvale Steel Company, of Nicetown, at $59,969.58 for the forgings if rough bored and turned, and $53,385 for the same pieces if the Department undertakes the work of rough boring and turning at the Washington Navy-yard.

THE Pilot Chart of the North Atlantic Ocean for July, 1887, issued by the Hydrographic Office, contains an interesting article on West Indian hurricanes by Ensign Everett Hayden, U. S. N., supplementing the account published in the chart for August, September and October of last year. The chart contains the usual budget of information for the mariner concerning weather, dangers, wreck derelicts, etc., and an account of the position of the New England fishing fleet during the last week in June.

THE AMERICAN SHIPPING AND INDUSTRIAL LEAGUE convened at the rooms of the Chamber of Commerce, San Francisco, June 21. The association is a national one, having its headquarters at New York. Over 100 delegates were in attendance. Addresses were made by Capt. Ambrose Snow and others and strong resolutions passed favoring appropriations for coast defence and for building up our mercantile marine.

AN English Parliamentary paper has just been issued containing a return of all guns of 64-pound calibre and over, supplied to the navy between the years 1870 and 1886, inclusive. At the end of 1869 there were in all 1,432 guns of various calibre on board ship, and from that date to the end of last year 1,655 were added. Of these 3,087, no fewer than 2,311 were returned for repairs in the course of the last 17 years. In 1,715 cases the guns were pronounced serviceable, in 1,139 cases minor repairs were required, 347 new A tubes had to be provided, in 10 cases new cups, in 5 new muzzle ends, in 1 the trunnion arm was broken, in 4 new hoops, coils, or B tubes were required, and 14 were pronounced unserviceable.

THE personnel of the Swedish Navy will consist in future of two classes of men—those who enter voluntarily for a fixed period, and those called upon to serve for eight years.

AT the Russian Naval School of Musketry at Oranienbaum, established for training officers and warrant officers of the navy in rifle shooting, fencing and gymnastics, all are required to fire 3,000 rounds with the rifle, 2,000 with the revolver, and 250 with the Berdan carbine.

THE Navy Department is informed that Mr. Hunt, the New York architect intrusted with the preparation of plans for the proposed new Naval Observatory, is encountering considerable difficulty in devising a structure which will come up to the expectations of the officials of the Observatory. It is believed, however, that a satisfactory structure is being provided for within the limit of the appropriation.

THE AMERICAN CONTRACTING AND DREDGING CO. has done very nearly as much in actual canal making on the Panama Canal as all the other contractors combined, having taken out to date a "useful cube" of more than 10 000,000 cu. metres with seven of the monster dredges built by the company for this especial work. This work has been done in the axis of the canal, and in the "derivations" made for the Chagres, Trinidad and Gatun rivers. Their contract, which will probably be completed next year, is the very greatest every carried out by one company.

WORK on the repairs to the stone dry dock at the New York Navy-yard are progressing slowly, the force being limited, and the dock will not be ready for the reception of vessels for many weeks yet. When the repairs are completed, however, this dock will compare favorably with any in the world of its size, though why the extension in length was limited to 480 feet is difficult to understand. At the Erie Basin is a Simpson dock 600 feet long and a second one 510 feet in length, and it would seem to be good policy for the Government to possess docking facilities equal to any emergency.

THE Union Iron Works at San Francisco, which company is now building the cruiser *Charleston*, has so extended its facilities that it intends to bid for the construction of two of the new big steel cruisers and two of the steel gunboats provided for at the last session of Congress. The officers of the company have carefully studied the specifications and requirement for speed, and believe that with the natural resources of metals on that coast and the climatic advantage that will enable them to continue outdoor work all the year round, they can successfully compete with shipyards in the East.

A NEW and ingenious method of raising money for charity has recently come into vogue and is being tried by the officers' families residing in the Brooklyn Navy-yard. It is called the "Alphabet of Charity." Of a number of persons one takes the letter A as the beginning, and contributes ten cents, and calls upon, or finds, eight others who each take the letter B, contributing, as in the first instance, ten cents; each letter B hunts up four others, each of whom contributes ten cents, and each in turn finds four more charitably disposed persons who are called letter C, and so on, each letter binding itself to find four letters next in sequence, and each letter contributes its dime until the seventh letter, or G, is reached, when the alphabet will be found to include no less than 10,921 persons, each of whom has contributed ten cents, or an aggregate of $1,092.10. Several of the young ladies in the yard are interesting themselves in this novel means for easing the hardships of poverty, especial reference being had at the present time to assisting the *Tribune* "fresh air" fund for poor children.

THE report of the British Suez Canal Directors shows a considerable falling off in vessels and tonnage for 1886 as compared with 1885. The number of vessels was less by 524 and net tonnage by 568,097 tons. With the same rate for both years the receipts were decreased by 5,680,049 francs. The British tonnage was 77 per cent. of the total. The transit receipts for 1884 amounted to 62,378,115 f.; for 1885, to 62,207,439 f.; and for 1886, to 56,527,390 f. Thus for two consecutive years there has been an annual decrease which, although but trifling during the first of them, became very marked and serious during the second. This reduction is ascribed by *Engineering* to the fact that it is cheaper, under the modified conditions which have become established during the last three years, to send a steamer by the long sea route than to send it by the shorter passage, weighted as the latter is with the heavy fees charged for passage through the canal. By the Cape, too, passengers avoid the great heat of the Red Sea, so much dreaded by a large proportion of them, and the curiosity to see the numerous places at which mail steamers stop on their voyages palls after one or two experiences. Both the passenger and cargo traffic may therefore be expected to become more and more diverted from the canal route as high speed can be attained economically by the ocean route.

THE *Deutsche Heeres Zeitung* (Berlin) gives the following particulars of the armor-clad *Iver Hvitfeldt*, launched a few weeks ago for the Danish Government. The displacement of the vessel is 3,280 tons; its length, 235 feet; beam, 48 feet; draught of water, 18 feet. *Compound* plates 11½ inches in thickness extend for a distance of 100 feet on the water line. An armor bulkhead, protected by 10-inch plates, is placed at each end of the belt. The vessel is further protected by an armored deck of 2¼-inch steel plates, extending the whole length of the ship. In the unprotected parts, over the armoured deck, the *Iver Hvitfeldt* is divided into a large number of watertight compartments. The steering apparatus is protected. The ram is 8 feet under water, at which depth a Whitehead torpedo-launching tube is placed. Engines of 3,000 horse-power (5,000 with forced draft) drive twin screws, and are expected to give a speed of 14 or 15 knots. The armament consists of two 26½ centimetre Krupp guns, placed in turrets and protected by 9-inch compound plates; four 12-centimetre breech-loading guns, and several machine guns. In addition to the Whitehead torpedo-launching in the bow, the *Iver Hvitfeldt* is provided with three other tubes above the water line, one on each side and one at the stern. Two small torpedo-boats, weighing 30,000 pounds each, and having a speed of 15 knots, are carried on the vessel. Electric light is provide throughout the ship. The *Iver Hvitfeldt* costs about three and a

half million crowns, of which sum 800,000 crowns are expended on the engines, and 500,000 on the armament.

THE U. S. S. *Thetis* arrived at Montevideo, Uruguay, July 2.

EVERY shipbuilder in the country of any reponsibility has applied for and received copies of the plans of cruisers Nos. 1, 4, and 5, and gunboats Nos. 3 and 4. When the bids are opened August 1 it is expected that among the bidders will be found C. H. Cramp and Co., of Philadelphia; Quintard Iron Works, New York; Harlan and Hollingsworth Co., Wilmington; Columbia Shipbuilding Co., of Baltimore, and the Union Iron Works, of San Francisco.

NAVY GAZETTE.

Ordered.

JULY 1.—Naval Cadets James E. Shindal, Chas. S. Stanworth, Joseph Strauss, H. A. Bispham, and Robert L. Russell, to the Coast Survey.

Lieutenant L. W. Piepmeyer, to the Wabash, at Boston.

JULY 2.—Lieutenant W. R. A. Rooney, to duty at the Naval War College.

Naval Cadet Geo. R. Evans, to the Coast Survey.

Chief Engineer A. Kirby, to the Adams, per steamer of July 19 from San Francisco.

JULY 5.—Naval Cadet Geo. R. Slocum, to duty on the Coast Survey.

Passed Assistant Engineer Robert D. Taylor, to the Chicago.

JULY 6.—Assistant Engineer E. T. Warburton, to examination for promotion.

JULY 7.—Medical Inspector W. K. Scofield, to the Trenton.

Passed Assistant Engineer James H. Perry, to the Chicago.

Detached.

JULY 1.—Lieutenant D. D. V. Stuart and Ensigns John S. Purcell and Wm. P. White, from duty on the Coast Survey and placed on waiting orders.

JULY 2.—Lieutenant Wm. E. Sewell, from the Naval Observatory and ordered to duty at the Navy-yard, Mare Island, Cal.

Chief Engineer E. J. Whittaker, from the Adams upon the reporting of his relief and ordered to return home.

Carpenter H. M. Griffiths, from the Navy-yard, League Island, and ordered to the Chicago.

JULY 5.—Passed Assistant Engineer Charles P. Howell, from the Chicago and ordered to the receiving ship Minnesota.

Passed Assistant Engineer James Entwistle, from the receiving ship Minnesota and placed on waiting orders.

Chaplain Henry H. Clark, from the Navy-yard, Washington, and ordered to the Trenton.

Chaplain John R. Matthews, from the Trenton and placed on waiting orders.

Mate Lewis M. Melchor, from the Wabash and placed on waiting orders.

JULY 6.—Lieutenant Theodoric Porter, from the Naval Academy and ordered to the Ossipee.

Lieutenant George A. Calhoun, from the Navy-yard, New York, and ordered to the Atlanta.

JULY 7.—Medical Inspector A. Hudson, from the Trenton and placed on waiting orders.

Leave.

Lieutenant Commander Socrates Hubbard and Passed Assistant Engineer Jefferson Brown, granted six months' sick leave, in accordance with recommendation of Retiring Board, who found them unfit for duty at present but not permanently incapacitated for the Service.

Paymaster R. B. Rodney, retired, granted six months' leave with permission to leave the United States.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending July 6, 1887:

Adolph Buhr, seaman, June 24, 1887, at Naval Hospital, Chelsea, Mass.

Henry L. Snyder, chief engineer, June 30, 1887, at Washington, D. C.

Lewis B. Hunter, medical director, retired, June 24, 1887, at Philadelphia, Pa.

John N. Tannian, equipment yeoman, attached to U. S. S. Alert, June 8, 1887, at Payta, Peru.

MARINE CORPS.

2d Lieutenant Geo. Barnett granted one month's leave of absence from July 5, and at its expiration ordered to return to duty at the Washington Barracks.

FROM THE ASIATIC STATION.

REAR ADMIRAL RALPH CHANDLER, commanding the Asiatic Station, reports to the Secretary of the Navy, under date of Yokohama, Japan, June 11, that the *Brooklyn*, *Omaha*, *Essex*, *Monocacy*, and *Palos* were at that port. The repairs to the boilers of the *Brooklyn* were to be completed about July 1. A large portion of the smokestack of the *Essex* was found to be honeycombed by long usage. There were also some slight repairs to the engines, all to be completed by E. Kildoyle and Co., upon submitting a sealed bid of $463.38 in U. S. gold. The repairs to the *Essex* were to be completed about July 1. The *Marion* was at Chemulpo, Corea. The general health of the squadron was excellent and affairs in the East were quiet.

THE NAVAL DRY DOCKS.

WASHINGTON, July 7, 1887.

THE probability is that the recent proposals received for building a wooden drydock at the Brooklyn and at the Norfolk Navy-yard will be rejected and new proposals asked, based upon plans prepared by the Bureau of Yards and Docks at the Navy Department. The bid of Coffey and O'Connell, of New York, was not explicit about details, while that of Simpson and Co. was not definite about the respective cost of the docks at Brooklyn and Norfolk, but proposed a lump sum of $1,161,000 for both docks. The appropriation is $1,100,000, but the Department, it is said, is unwilling to proceed with this important work until it is furnished with exact plans, specifications and estimate of cost of each dock.

THE BOSTON AND CHICAGO.

CAPT. RAMSAY reports that the *Boston*, under his command, will be ready for a sea trial of her engines by the 12th instant, when the adjustments and modifications found necessary from experience with the *Atlanta*, will be completed. The guns of the *Boston* are not all yet completed, and none are mounted on board, her battery being detained at the Proving Ground, Annapolis.

The recent docking of the *Chicago* at the Erie Basin, Brooklyn, disclosed three injured propeller blades, one of them having lost a piece no less than a foot square. The other blades have been injured but slightly, but enough to show that extreme care must be exercised in moving the engines while at the wharf, the blades of the propeller extending quite as far as the breadth of the ship. The bottom of the *Chicago*, notwithstanding the immersion of rather more than a year and a half, was found to be very clean and smooth, no barnacles or marine growths of any kind being found at any point. The immersed skin of the ship has been cleaned and smoothed off, and then painted with the mixture found to stand the test of experiment, composed of one part pure white zinc and two parts red lead, mixed with boiled linseed oil, a period of twenty-four hours being allowed between each coat, the same time being required previous to floating the ship. Numerous visitors inspected the *Chicago* while in the dry dock, among them having been Dr. Agnew, of New York, remembered for his connection with President Garfield after his assassination. The Doctor was favorably impressed with the completeness of the ventilating system introduced into the ship. A force of workmen from the contractor's shops, is busy, under Lieut. T. E. D. W. Verden, in running the insulated wires for electric lightning, and will soon complete that part of the vessel's equipment. Considerable progress is being made in putting the machinery and boilers in condition for a sea speed and power trial, but it will be some time before the contract tests can be made.

REPAIRING THE "HARTFORD."

OF the *Hartford*, the San Francisco *Call* says: The Secretary ordered the ship to be repaired and repairs were begun. In a few days the shipwrights laid bare the frames and planking in several places, and it was found that defects existed that had not shown themselves a few months prior. There were places where the water had run down on the inside of the planking and rotted every strake, while one foot away from these spots the planks were entirely sound. The ceiling on the between-deck was also found to be worse than at the first survey, and, as a matter of fact, the manner in which the ship opened was a most unpleasant surprise all around. In the beginning of March the regular statutory survey was held upon the vessel by a board of inspection, consisting of Asst. Naval Constructor Joseph Feaster, Capt. Byron Wilson, United States Navy; Carpenter Warren Barnard, Master Shipwright S. J. Gormley, Master Joiner John Massey, Master Smith T. J. Lowney, Master Plumber T. J. Moran, and Quarterman Edward Lynch.

The ship was stripped, and by means of augers the soundness of outboard, planking, frames, ceilings, decks, and beams was ascertained as near as possible. It was apprehended that the ship was in a dubious condition, and the estimate—$98,000—came unpleasantly short upon the 20 per cent. limit imposed by Congress, but it was hoped that the work might be done for this sum.

Ship builders and ship owners are familiar with the manner in which the condition of a ship is ascertained, and realize that "boring" does not accurately indicate the rottenness or soundness of the ship, and that great care is required to conduct the work of repairs so as not to make the entire outlay a waste of money. There have been several instances in the navy yard in which failure to exercise due precaution did cause a great loss of money. In the case of the *Benicia*, taken in hand at Mare Island in 1878, and on which the repairs were estimated at about $60,000, it was found, after an expenditure of $50,000, that it would require $200,000 additional for labor alone to complete the ship. The vessel was not repaired, and $50,000 had practically been thrown away, for which oversight or indifference the constructor was very severely criticised, and, as a matter of fact, the *Benicia* incident was the prime cause of the law subsequently enacted limiting the repairs of vessels to 20 per cent. of their cost.

This in substance is the explanation that the Mare Island construction authorities offer as the difference in the two surveys. As will have been noticed, the latest survey increases the cost of repair to 31 per cent., which practically condemns the vessel. Under the circumstances the Secretary of the Navy can do no less than to order work on the *Hartford* to cease, and the money expended on her will thus be wasted. Unless a popular subscription be taken up the old craft will be doomed. When first built the *Hartford* was regarded as one of the most beautifully modeled ships of her day, and her designer and constructor said he conceived her superb lines and form in a dream. Even to-day her form and generous proportions cannot but excite admiration in the beholder. Aside from her beauty, her history is such as to thrill every loyal Union heart with enthusiasm.

THE TRENTON AND HER OFFICERS.

THE U. S. S. *Trenton*, which has been fitting out at the Norfolk Navy-yard, is now about ready for sea. She will probably be delayed until the middle of next week, awaiting the arrival of her electric lights from New York. These are furnished by the Edison Company, and are about 300 in number. The ship is to be lighted throughout with electric lights, from the spar deck to the hold. She is also fitted with powerful search lights, one on either side. Electric call bells are profusely distributed about the ship, and the 8-inch rifles, comprising her battery, are fired by electricity. The *Trenton* is considered one of the finest vessels in the Navy. After being inspected by the Board of Inspection she will sail for South America, with relief officers and crew for the *Lancaster*, flagship of the South Atlantic station. The officers now on the *Trenton* (with the exception of the captain, executive officer, and marine officer in charge of the guard), will remain on the *Lancaster*, and her officers and crew will return to the United States on the *Trenton*. The latter vessel will probably take the place of the *Richmond* as flagship of the North Atlantic station, and the *Richmond* will probably be sent to the Pacific station as flagship.

List of Officers—Capt. Norman H. Farquhar, commanding. Lieut.-Comdr. Henry W. Lyon, executive officer; Lieut. Fred. M. Wise, navigator. Watch Officers—Lieuts. Lazarus L. Reamey, Samuel C. Lemly and Clifford J. Boush. Ensigns—George R. Clark, John E. Craven and Walter J. Sears. Engineer Officers—Chief Engr. B. B. H. Wharton; P. A. Engrs. Geo. H. Kearny, Robt. W. Galt; Asst. Engr. Arthur T. Woods; Cadet Engr. Albert C. Matthews. Medical Officers—Medical Inspector, Adrian Hudson; P. A. Surgeon, Charles T. Hibbett; Asst. Surgeon, C. J. Decker; Paymaster, Robert B. Lisle; Chaplain, John R. Matthews; Captain of Marines, Robert W. Huntington; 1st Lieutenant of Marines, C. P. Porter; 2d, Harry K. White. Naval Cadet—W. S. Cloke, L. C. Bertolette, Guy H. Burrage, Andrew T. Long, George W. Logan, B. W. Wells, Creighton Churchill, Claude S. Cochran. Warrant Officers—Boatswain, John A. Brisco; Gunner, Cecil C. Neil; Carpenter, Massa T. Quigley; Sailmaker, Gilbert D. Macy; Pay Clerk, Reynard. Officers Assigned to Special Duty—Lieut.-Comdr. Edward S. Houston, ordnance officer; Ensign Albert W. Grant, charge of electrical plant; Ensign Charles M. Fahs, secretary to commanding officer.

COAST SURVEY.

THE U. S. S. *Ranger*, which left San Francisco on Oct. 25, under orders to survey the coast of Lower California from San Diego to Cape St. Lucas, returned to that city June 25. The officers of the *Ranger* are: Comdr. F. A. Cook, Captain; Lieut. J. G. Eaton, Executive Officer; Lt. R. G. Peck, Navigating Officer, in charge of astronomic work; Ensign J. P. Parker, in charge of main triangulation; Ensign A. A. Ackerman, coast triangulation, and Ensigns Woodworth, Key, Jungen, Phelps, Clarke, Gill, Ellicott, Whittlesey for hydrographic work; P. A. Engineer, A. C. Eugard; P. A. Paymaster, C. M. Ray; P. A. Surgeon, L. B. Baldwin, and Assistant Engineers, Theiss, Eldridge and Halstead. Of the cruise Captain Cook is reported as saying:

We have had a fairly pleasant cruise, with only two southwest storms. We have been on an average all the time from 10 to 25 miles from the coast. We have surveyed the coast line by geodetic surveying for 320 miles below San Diego to Cedros Island. The work has been done with triangulation ashore from the main peaks and hydrographic parties about the ship and in steam launches. The soundings were all fixed by angles from points established ashore by theodolite. The survey at the vicinity of the Sacramento reef, where the steamship *Sacramento* was lost in December, 1872, was one of the most important pieces of work done. The reef is near Geronimo Island, and we found it to be much larger and much more dangerous than marked on the charts. The hydrographic work there was very thorough, and it will be of great assistance to steamers in making passage along the coast. Steamers invariably shape their course from Cedros Island to make Geronimo Island. This reef, in foggy weather, has been a source of great anxiety to navigators. It can now be approached to a 50 fathom curve. A vessel is perfectly safe outside of it; on dangerous ground within it.

Altogether, the work, as far as it has progressed, has been very thorough to a 100 fathom curve. It has been doubly arduous because all the triangulation parties had to travel afoot, there being no transportation and no source of supplies ashore. Water even had to be carried from the ship, the country is very barren. There are no harbors below San Diego, except at San Quentin, about 150 miles below, where vessels that draw only from 10 to 20 feet of water may enter. Landings along the coast are very dangerous. We will now go to Mare Island and remain until next season, the officers plotting their work meanwhile.

REVENUE MARINE.

The yacht *Cloud* went ashore on Bath Beach, N. Y., July 5, during a heavy squall and was totally wrecked. The captain and crew were rescued at great risk by Wm. Proctor, of the U. S. Coast Survey schooner *Ready*, and Patrick Tolman, of Bath Beach.

THE CHIRICAHUA'S DEFIANCE.

Bring on your valiant troopers to guard the water holes,
I'll travel till my moccasins are worn out at the soles,
I'll smear my haughty visage with war paint white and red,
And I'll tear the gory scalp-lock from the cursed white man's head.

I'll scale the Sierra Madres, I'll climb the Megallons,
And I'll wear out all your horseflesh, your pack mules, and dragoons.
I'll shoot the toiling miner from behind the friendly rock.
And I'll burn the ranchman's dwelling and run off all his stock.

I scorn your bribe of rations. You can't bamboozle *me!*
Your blankets they are threadbare, your flour is marked "I. C."
The ranchman keeps good whiskey, the prospector has ham
Which beats the rancid bacon that I get from Uncle Sam.

You sent my squaws and brothers to the land of fruits and flowers,
Where beneath the verdant shade tree they pass the happy hours.
So I'll go and join my kinsmen where the birds forever sing,
Oh, there's going to be an outbreak in this gladsome time of spring.

DUNCAN B. FOX, Fort Bayard, N. M.

THE West Point Foundry has been posted for sale at the New York Real Estate Exchange. This property is situated at Cold Spring, Putnam County, in this State, and comprises 40 acres of land with several acres of buildings. The foundry was established in 1819, and has been in constant operation ever since. In 1820 orders were received for cannon for the United States Government, and a lot of 32 pounders, round shot, smooth bore, were turned out, which were considered great guns in those days. All the celebrated "Parrott" guns were made in this establishment. The latest and most pretentious work undertaken was the finishing of two 8-inch rifled steel guns, being of the very few of the largest calibre of that description as yet made in the United States. At present there are but two other gun making establishments in this country, one at South Boston and the other at Washington; the West Point foundry, however, is the largest and most completely equipped of the three.

AMONG the Jubilee souvenirs received by Queen Victoria was an album of the most elaborate and beautiful description, containing a number of paintings representing the uniform worn by the gentlemen cadets of the Royal Military Academy, Woolwich, from the establishment of that institution to the present time.

BLACK, STARR & FROST,

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

BLACK, STARR & FROST have models of the West Point Class Rings for many years, and can supply duplicates (in case of loss) at short notice.

CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION: otherwise to be returned at our expense. Correspondence solicited.

TRANSFER, ARMY AND NAVY JOURNAL.

ANNOUNCEMENT.
TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

While the Company he represents has no superior in the country for security or for liberality in its policies to officers in the Military Service, yet he will be pleased to advise and assist officers who may prefer to place their insurance in other reputable companies. Information as to the standing of the various companies and their relative profitableness for investment he will gladly communicate to those who desire it; also advice as to kind of policy best suited and most profitable to those of different ages.

By this announcement the undersigned hopes that he may serve the interests of his brother officers, enabling them to place their insurance in the most substantial and profitable companies, in a form of policy most advantageous to themselves.

F. A. KENDALL, Capt. U. S. A. (Retired.)
76 EUCLID AVE., Cleveland, O.

DISTINGUISHED marksmen badges, of handsome design, were sent out from Army Headquarters this week to the following officers and men now in the Service who are entitled to them. These badges are of gold, with the exception of the centre piece, forming a target, which is of enamel. They were made by a prominent jeweller of New York, and purchased through the Ordnance under contract at $20 each. Lieutenant-Colonel BLUNT made the design:

1st Lieuts. A. C. Taylor, 2d Art.; W. B. Homer, 5th Art.; R. C. Van Vliet, 18th Inf.; J. M. T. Partello, 5th Inf.; H. R. Anderson, 4th Art.; L. Merriam, 4th Inf.; Z. W. Torrey, 6th Inf.; C. E. Gillette, Engineers; 2d Lieut. W. H. Sage, 5th Inf.; Sergeants A. W. James, Troop B, 8th Cav.; J. J. Wolford, Co. E, 19th Inf.; F. Chaplain, Co. I, 7th Inf.; A. W. Stay, Co. F, 9th Inf.; B. Otteu, Co. B, 25th Inf.; L. Henderson, Co. E, 2d Inf.; G. N. King, Co. F, 25th Inf.; J. W. Weeks, Co. E, 6th Inf.; H. Griffith, Troop D, 8th Cav.; J. Nihil, Co. B, 5th Art.; H. S. Agilote, Co. C, 8th Inf.; J. F. Crawford, Co. F, 19th Inf.; S. M. Green, Troop G, 8th Cav.; W. D. Huddleson, Co. K, 4th Art.; E. H. Stevens, Co. G, 7th Inf.; Corporals W. Moore, Co. A, 21st Inf.; F. Schmitt, Co. E, 19th Inf.; 1st Sergeants F. Bracken, Co. M, 1st Art.; W. Willis, Co. E, 8th Inf.; E. A. Hudson, Co. H, 14th Inf.; Ordnance Sergeants G. Seymour and W. Land; General Service Clerk R. M. Hickey; Privates J. Cranley, Co. E, 4th Art.; E. W. Bouton, Co. G, 2d Inf.; N. C. Taliaferro, band, 3d Art.—41 in all.

MR. JEFFERSON DAVIS, says the New York *Times*, "has never been accused of being a wag, and probably it is with a wholly unconscious humor that he makes his latest contribution to the current battle-flag literature. 'When the Confederate Government evacuated Richmond,' he says, 'the captured Union flags on deposit were all left there, and were found by the United States troops when they entered the city. This would at least exhibit proof of the fact that the South did not wish to treasure up such evidence of any triumphs it ever had over the North.' What it really exhibits proof of, were any proof needed, is the remarkable haste of the Confederate Government to get away. With that Government on the point of collapse, and a great deal of valuable property given to the flames in Richmond, simply because there was no time to take it away or means of doing so, it would have been a very peculiar performance to collect and pack up the trophies and occupy the overburdened transportation with them."

THE next meeting of the National Prison Association will be held in Toronto, Canada, Sept. 10 to 15. The offices of the National Prison Association in New York City have been removed from the Bible House to 135 East Fifteenth street.

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JULY 9, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

W. C. and F. P. CHURCH, Publishers,
Cable address: ARMYNAVY. 240 Broadway, New York.

THE REVENUE MARINE AND THE NAVY.

THE time cannot be very far distant when the Revenue Marine will become a part of the Navy, as suggested in our article of June 11. This is no new idea, yet its revival is due to the JOURNAL, which, in its issue of September 16, 1882, brought the subject to notice. Our suggestion of that date was followed by the recommendation of Secretary CHANDLER in his report of that year that the transfer should be made. More or less opposition to this scheme was developed in the Revenue Service—the chief mover in which was an official in the Treasury Department who is now no longer there. Following this came the renewal by Secretary CHANDLER in 1883 of his recommendation of the preceding year, reinforced by some apt quotations from the previous reports of the official above alluded to, who claimed in one document the true naval character of the Revenue Marine, and in another attempted to show that it had nothing in common with the Navy. Since that time the project, while apparently slumbering, has undoubtedly been gaining strength, as is shown by the letters from officers of the Revenue Service in our issue of June 18. Now that ex-Secretary CHANDLER has been elected to the Senate, it is not unreasonable to suppose that he will bring forward a bill to effect the change of which in another position he was so strongly in favor; if such a measure were to have the support of the two services we believe that the first session of the next Congress would see it become a law. The act should provide for the transfer of the entire Revenue Marine Service to the Navy, the officers to form a distinct corps to be known as the Revenue Marine Corps, and the men to form part of the regular force of the Navy, which should have the number now allowed by law increased by the number of men now in the Revenue Service. The officers transferred from the Revenue Marine should receive the pay of those officers of the Navy with whom they had relative rank, and the men should be paid at the same rates as the men of the Navy. The mere fact of the transfer would give to all concerned the benefit of the retiring and pension laws, both of which are due to the Revenue Marine Service.

The titles of the various officers of the Corps should remain unchanged, but it would be well to provide that some of the older captains should have a higher rank than is now given them by statute. If the first ten were given the rank of commander, it would be a graceful concession, and one which is justly their due, after the long and faithful service they have rendered the Government. No further appointments of cadets should be made, and as soon as possible, the present cadets should be commissioned as 3d lieutenants or dropped from the list. Promotions should be made as in the Navy, by seniority, after examination. All these provisions should also apply to the Engineer Corps of the Revenue Service.

As the number of officers of the Corps became insufficient to perform its duties, by reason of the retirements and other casualties, officers of the Navy would be ordered to the cutters. Thus, in the course of time, the entire duties of the cutter service would devolve upon the Navy; when this period was reached it would probably be necessary to increase the number of officers in the lower grades. If the plan that we have outlined above were carried out no vested interests would be interfered with; every officer of the present Revenue Service would receive his promotion in due season, and the retiring and pension laws would be extended to men who now have nothing of the kind, although they are clearly entitled to them in equity. Recent experience would seem to show that there is no prospect of their having such benefits so long as their service is not a portion of the Naval establishment. The argument in favor of a further extension of the benefits of retirement and pensions proves too much, to be readily admitted by an economical Congress. Its opponents fear that it would open the whole civil service to the enjoyment of those advantages and thus greatly increase the public burdens. We present the plan here outlined in the interests of the smaller as well as of the larger body concerned therein; and most of all in the interest of the public service which we conceive would be greatly benefited by the proposed change. Now is the time for combined action in the matter, and we commend it to the thoughtful consideration of the Secretaries of the Navy and of the Treasury, assured that if they should be united upon this point, the transfer could readily be effected.

THE ENGLISH WAR OFFICE.

LORD RANDOLPH CHURCHILL in a recent speech made a vigorous attack upon the English military and naval administration, declaring that its present cost was twenty seven millions of dollars in excess of what Mr. Disraeli thought necessary in 1875, and that only one sixth of this sum was accounted for by an increase in numerical strength. Of this increase ten millions of dollars goes to the navy, and as to this the attention of Lord Randolph is called to the fact that the cost of building ships and engines had greatly increased, and the cost of gunmaking more than doubled; that Whitehead torpedoes, torpedo boats, quick-firing and machine guns, electric lights and a variety of other auxiliaries are now in demand and have to be supplied at a heavy cost. This, however, does not affect the assertion that Germany with a population of 47,000,000 expends but $105,000,000, and France with 38,000,000, $145,000,000, while the total for the United Kingdom of 35,000,000 is $155,000,000. Counting the Indian Army the expenditures are one hundred millions of dollars in excess of France and one hundred and fifty millions beyond those of Germany.

Lord Randolph asked the question: Was a force of 51,000 men sufficient for this enormous expenditure? England had not one fortress properly armed, not one properly provisioned, not one single—nay, there were a great many strong strategic forts perfectly unarmed and perfectly unprovisioned, for all this great expenditure. He could tell them that the important fortress of Malta was not only insufficiently armed and insufficiently provisioned, but he believed it was not sufficiently garrisoned to hold out for three weeks. Their Horse Artillery "was provided with the worst guns in Europe." So said Lord Wolseley, and he would not have attached gospel importance to the statement, but that it was corroborated by other eminent authorities. He went on to condemn the whole course of the English naval and military authorities in the manner of selecting guns, of building and arming vessels, of selecting small arms, and of designing ships. It was, he said, an utterly rotten system, and he refused to be in any way connected with it until it was revolutionized and changed completely; until the Government would say that they would make £17,000,000 wisely expended, do the work of £18,000,000 foolishly expended, he would have nothing to do with the matter.

The Ordnance Department, Lord Randolph declared, has spent a million dollars in building fifteen 63-ton guns of defective design, in spite of a warning from Sir Wm. Armstrong and Co., who were told "to mind their own business." "Four of these guns were put on board the *Collingwood*, and at the second round, with only half a charge, one of the guns burst. Now the whole of the guns were recalled and condemned, and the vast expenditure bestowed on their manufacture was wasted. In 1883 the Admiralty launched the *Ajax* and the *Agamemnon*, which were expected to steam sixteen or seventeen miles an hour, but it was found that if they went more than eight miles an hour they did not steer, were utterly unmanageable, and, as ships of war, were useless. These two ships cost £800,000, and now the *Agamemnon* had been sent to the China Station, and they had heard nothing of her again. Six very large ships of the *Admiral* class, named after the *Admiral*, were so badly constructed that they might be said to be utterly unprotected, and yet they were to cost £4,500,000. They next designed seven of a new class of ships with belted armor which cost two millions of money, but it was found that when coaled instead of the armor belt being 18 in. above the water line, it would be 6 in. below, and so the vessel must be either unprotected or go to sea without coal if they were to be protected. The result of this was that during the last twelve or thirteen years eighteen ships had been designed by the Admiralty to do certain things for certain purposes, and on the strength of which Parliament had voted money to the amount of ten millions, and yet the purposes for which it was spent had been thrown away."

A partial explanation of the existence of the condition of things described is found in the report of the Ordnance Inquiry Commission, which has just appeared in England. With reference to the management by the War Office of the Ordnance, the particular subject of this inquiry, there is, they show in the first place, no definite responsibility whatever. In the second place, there is no continuity in the policy of the office; no security, for instance, that particular principles of manufacture should be adhered to, or a particular system for making guns or rifles pursued and developed. Each Secretary of State takes his own view; each is advised by the persons of whom he happens to approve; each carries out or pushes on those particular branches of manufacture, construction, and the like which he prefers. There is never at any time any binding or permanent declaration of the intentions of the office by which the public may be informed of what is being done, and by which they may be guided in judging of the value of the estimates which are formed from year to year. In short, there is an entire lack of a consistent and continuous system of administration and of proper responsibility.

The general conclusions of the Commission are that it is not "possible that a great public office should be conducted with the same energy, enterprise, and general efficiency as a private manufactory. Nothing can supply the stimulus which is afforded by the prospect of individual gain and individual loss. Nor can any Government department be organized in such a way as to make the administration as efficient as it would be if it were conducted by persons who are absolute masters of their own property, and have absolute control of their own works." They hold, therefore, "that Government manufacturing establishments should be upon a moderate scale; they should aim at the introduction of improvements, and specially at setting an example of perfection in workmanship and material, and at ascertaining the prices for which the different stores required may fairly be purchased from manufacturing firms." They say further: "We are strongly of opinion that the greater part of the warlike stores which are to be purchased should be purchased from private firms capable of supplying them. These firms would, in all probability, be able to judge better of the value of inventions, and to deal in a more satisfactory way with inventors than public departments would be in a position to do."

While they hold that the charge of inefficiency, both generally and in a variety of particular instances, has been proved to a considerable extent, they reach the very satisfactory conclusion that the charges of corruption brought against the Ordnance Department are false and unfounded, and that nearly all the particular instances alleged are either wholly untrue or distorted versions of innocent facts. One act of indiscretion has been proved. Some matters of suspicion as to some of the inferior officers of the Ordnance Stores have been proved, but nothing beyond this.

An amusing incident of the English Ordnance Inquiry was the testimony of General Philip Smith, a member of the construction committee, concerning the Enfield-Martini rifle, of which the following is part:

Q. The barrel is the principal part of the rifle?
A. The barrel is a very important part.
Q. You do not like that?
A. No, I do not like the barrel.
Q. The breech action you do not like?
A. No, compared with other breech actions.
Q. Therefore, there is the lock and barrel you do not like. What do you say to the stock, do you like that?

"At this point," says the *Horse Guards Gazette*, "General Smith appeared to see that he was being had. After saying the rifle as a whole was a good one, it would never do to admit that he disliked it 'stock, lock, and barrel,' so he professed to like the stock—which is the one point about it that no practical soldier approves of—and he modified his previous statements by saying that his likes and dislikes were only comparative."

THE SEVENTEENTH ARTICLE.

THE case of Private George Morris, 3d Artillery, published in G. C. M. Orders 34, current series, Department of Texas, gives occasion for comment. The prisoner was charged with a violation of the 17th Article of War, in selling certain clothing issued to him by the Government, and was found guilty. His sentence, which is confirmed by General Stanley, the Department Commander, is: to suffer a monthly stoppage of one dollar from his pay, to be confined under guard till August 31 next, and on that date to be *dishonorably discharged the service.* It is this last clause in the awarded sentence which puzzles us, for the reason that it seems to be unauthorized and not susceptible of legal enforcement. The 17th Article prescribes the punishment which may be lawfully inflicted for its violation and limits it strictly to corporal punishments—"*imprisonment or such other corporal punishment as the court may direct.*" Dishonorable discharge is not, and never has been considered as corporal punishment and, therefore, cannot, we infer, be awarded under this article. Winthrop says, Vol. II., p. 797. "The limitation as to the form of sentence in the article precludes, of course, the imposition of dishonorable discharge by way of punishment." Should Private Morris receive his dishonorable discharge on August 31 next, as contemplated, there would seem to be a probability that the case might be revived thereafter to vex the souls of those having originally to do with it. General Stanley's well digested remarks in the case in question in regard to the stoppage of pay for the clothing, etc., are able and instructive.

ASSOCIATIONS OF VETERANS.

IN his address to the graduating class of St. John's College, Fordham, the other day, Gen. JOHN NEWTON said that the late war developed two classes of soldiers: "The real soldier who entered into the war to take its risks and do his whole duty, realizing his obligations and responsibilities, and the political specimen, who embarked in the war mainly for selfish motives, who intended to avoid as many risks as possible, not from deficiency of courage, but in order to outlive his term of service and satisfy his ambition for place and preferment;" Unfortunately for the country the political soldier did not "lay down his arms," so to speak, when the war was over, but kept on with his mischief. General NEWTON said:

He is incessantly active in all the associations of the veterans of the war to take advantage of any event which appeals to sentiment or prejudice. He joins an association with the intent and hope of making a political machine of it, while proclaiming in public the entire freedom of the organization from politics. Late events have unmasked the hypocrisy of this pretension by the gross insults offered to the Chief Magistrate of the country in two instances—in Iowa and in this neighborhood. In both the attempt was made, scarcely with disguise, to turn over the organization to the support of one of the political parties, and thus to better the prospects of the agitators. Should this barefaced attempt succeed, it would then be a close question whether such organizations are compatible with the free working of our system of Government, and whether it does not become the honorable members of that organization to abandon it.

There is far too much truth in this, and, though they have different ways of accomplishing their purposes, the political soldiers of both parties have striven to make the Grand Army subservient to politics. There is one organization of veterans

which, so far as our observation goes, has never been found in the least degree flexible to the purpose of political scheming; that is the Military Order of the Loyal Legion. We remember that when Admiral FARRAGUT was installed as Commander of the New York Commandery he made a little speech, in which he alluded to the inquiries he had made to satisfy himself that the Order had no political character. When he sat down a member arose and said: "Admiral FARRAGUT, there is a fine of twenty-five dollars for introducing the subject of politics here and you are the first man who has done it." It was the fact, and under a succession of commanders the New York Commandery and, we believe, all of the other Commanderies, have been equally free from suggestion of political differences. The Military Order is the only one of the Veteran Associations which is self-perpetuating, descending, like the Cincinnati, through the oldest male representatives of the original members. It requires something more than mere Army Service for admission to its ranks, as a rigid inquiry is made into the character and social standing of applicants for membership, each of whom must have served as an officer commissioned under the United States Government during the Rebellion. We recall at least one instance in which membership was refused to an officer, of excellent record as a soldier, who was under the suspicion of using military association for political purposes. That is death to aspiration in the Military Order, whatever value it may have elsewhere.

The following table shows the gains of the different Commanderies of the Military Order during the past year, and their strength May 1, 1887, as reported by the Commandery-in-Chief:

No.	Commandery.	Strength. May 1, 1886.	May 28, 1887.	Increase during year.
1.	Pennsylvania	504	583	79
2.	New York	536	597	61
3.	Maine	69	74	5
4.	Massachusetts	577	612	35
5.	California	444	503	59
6.	Wisconsin	129	153	24
7.	Illinois	229	280	51
8.	Dist. of Columbia	339	381	42
9.	Ohio	408	475	67
10.	Michigan	93	137	44
11.	Minnesota	99	140	41
12.	Oregon	34	44	10
13.	Missouri	72	135	63
14.	Nebraska	68	92	24
15.	Kansas	30	122	92
16.	Iowa	—	49	49
	Total	3651	4397	746

GENERAL BENÉT on Saturday last submitted to the Secretary of War the report of the Board on Army Regulations. The Secretary expressed a desire to look the matter over carefully before taking official action, and it will probably be some time before the revised regulations take effect. The Board have not finally adjourned, but will probably reassemble when the Secretary of War is ready to take action in order that they may receive suggestions from the Secretary if he has any to make. The new regulations will be put in the hands of the printers for publication. The Board will meet again in the autumn to look over the proof and see that everything is satisfactory before publication. It is expected that the book will be issued before next Christmas. It will contain all the regulations and changes extant up to that time, as the changes in the old regulations will have been effected before then by general orders from time to time, as is customary. The old regulations comprised twenty-eight hundred paragraphs, which have been reduced by the Board to two thousand. In addition, the paragraphs that were allowed to remain have been so condensed that the new Army Regulations will contain about one-half as much matter as the old.

CAPTAIN LAWTON'S company of the 4th Cavalry, and Captain ANDERSON'S company of the 6th Cavalry, are expected to reach Washington between the 15th and 20th of the present month. Captain ANDERSON was permitted to delay his departure until July 9 in order that he might appear as a witness in a case in which the United States is interested. Captain LAWTON'S troop was to start as soon as its services could be spared. As everything is now quiet in the neighborhood of its station it is thought that it will start East about the same time as the other. Some important changes at Fort Myer will be necessary before both troops can be accommodated, but they will not be ordered until General SHERIDAN has had an opportunity of considering the allotments of appropriation recommended by General SCHOFIELD for the Division of the Atlantic. The accommodations for officers are ample but another barrack will have to be built, as only one company can be accommodated now. It will also be necessary to change one of the store houses into a stable to make additional stable room.

THE regulations for the new Hospital Corps are not yet obtainable, for the reason that the Secretary of War, in the rush of other matters, has not been able to look over them since they passed through the various grooves of red tape.

WITH twenty West Point graduates assigned as additionals and waiting opportunities for promotion to full 2d Lieutenancies, the question arises, what is to become of the fourteen non-commissioned officers who have successfully competed for commission? At the War Department it is said that no decision as to their cases has yet been reached, though it is thought that the central board will be convened, as usual, at Fort Monroe for their examination. This will be done in order to get a statement of their relative merits, which would be useful in case there should be vacancies for only a portion of them in which case selections would be made according to their standing as reported by the Board. The papers in the case of twenty candidates came in from the Departmental Boards during the past year, of which number the following fourteen were successful:

Charles E. Fayman, Sergeant, Co. K, 1st Infantry.
Theo. G. A. Jakel, Corporal, Battery, 5th Artillery.
Wm. C. Neary, Corporal, Battalion of Engineers.
James F. Nutty, Sergeant, Battalion of Engineers.
Earl C. Carnahan, Corporal, Co. G, 16th Infantry.
Thos. G. Watkins, 1st Sergeant, Battery C, 1st Artillery.
Charles Gloster, Corporal, Co. K, 5th Infantry.
James Baylies, Sergeant, Co. A, 5th Infantry.
Michael M. McNamee, Sergeant, Troop G, 7th Cavalry.
George A. Detchmendy, Q. M. Sergeant, 3d Infantry.
George H. Guard, 1st Sergeant, Troop H, 1st Cavalry.
Joseph C. Beardsley, Corporal, Co. B, 4th Infantry.
Archibald A. Cabaniss, Sergeant, Troop B, 4th Cavalry.
Thomas M. Moody, Sergeant-Major, 9th Infantry.

ARMY Retiring Boards are to be kept busy this month. One cavalry captain, two cavalry lieutenants, one artillery lieutenant, and five artillery captains have been ordered to appear for examination. Should the entire number be recommended for retirement the records will show thirty-four officers found incapacitated and awaiting retirement. There are no vacancies on the 400 retired list at present; in fact, the list is now one in excess of that number by reason of the restoration of Major RUNKLE.

AN officer, referring to our article of last week on the Artillery and to our mention of the suggestion emanating from Fort Monroe, writes: "Replies are coming in slowly. Post adjutants seem to be waiting for officers to hand their votes in. Post adjutants might take a little trouble to stir up the listless ones." Doubtless they will.

IT is positively stated at Army Headquarters that no changes of artillery regiments are in contemplation in the near future. No further regimental changes are expected until July, 1888, when Gen. SHERIDAN proposes exchanging the 8th Cavalry, now in the Department of Texas, with the 7th.

THE contract for supplying tobacco to the Navy has again been awarded this year to Messrs. Myers Bros. and Co., of Richmond, Va., against whom there were eleven bidders, two from the East and the others from Virginia. The standard of the Government is high and the award is an endorsement of the quality of the goods furnished by this firm, which is one of the most enterprising and best known in Richmond. Their factory is located on the historic site of "Castle Thunder," where they have a fire-proof building five stories high, with 170 feet front and two wings of 110 feet each, with a spacious court-yard between. Their present capacity is 3,000,000 pounds of tobacco annually. Their special brands of Navy tobacco are "Love," "State House Chew," and "Success." In flat plug, "Saratoga," "Old Sledge," "Fanny Edel," "Epicure," "Alarm," "Fredericka," "Old Dominion," "Temptation," "Estella," "Stonewall's A. A. A. A," and "L' Road," which last is very popular at the South.

WE are authorized to contradict the absurd story with which some of the dailies have been amusing themselves, to the effect that the detail of Colonel H. M. Lazelle, U. S. A., as Superintendent of the Office of Rebellion Records, was distasteful to the President and that it has led to coolness between him and the Secretary of War. As a matter of fact, the President expressed his entire satisfaction with the detail before it was made."

THE report of the Commissioner of Pensions for the fiscal year ending July 1 will show that between June 30, 1886, and July 1, 1887, five thousand more pensions were granted than in any previous twelve months; 55,194 new pensions were added to the rolls and $74,000,000 were expended for pensions; 176,879 applications were received, as against 104,669 in the year 1884-5. Four million pieces of mail were handled during the year. The Mexican pension claims under the "Service" law of Jan. 29 last are being received and passed upon rapidly. Up to the close of the fiscal year there had been received 14,740 survivors' claims and 3,985 claims of widows, making a total of 18,725. Of these there were settled in March 9; in April, 560; May, 1,624, and June, 6,578, and out of this number 8,453 claimants were granted certificates.

AN Irish M. P., which his name it is "Murphy," gave offence to the officers of H. M. S. *Shannon* by flying a flag variously described as a Fenian ensign and as "a small private flag of green with a red border." Lieutenant Saul, in a launch, went in pursuit. On coming up with the yacht, the Lieutenant informed those on board that the flag should be hauled down and confiscated, and that those sailing under it rendered themselves liable to a fine of £500. Nobody volunteering to remove the flag, the yacht was boarded by the bluejackets, who carried off the flag. *Pall Mall*, which doubts the point of law, says: "Besides, if the owner of the yacht had contemplated an act of war in flying what the zealous captain describes as 'an Irish flag,' he would surely have run it up at the peak, and not at the mast head."

THE Trustees of the Volunteer Soldiers' Nationa Homes held sessions July 5 and 6 at Boston. Gen. William B. Franklin presided and the following members were in attendance: Gens. Martin T. McMahon, John C. Black, and James S. Negley; ex Senator Sewell, of New Jersey, T. J. Hyde, of Maine; Col. L. A. Harris of Ohio, and Chief Justice Waite, (ex-officio) of the Supreme Court. The Board voted to go to California in September to locate a site for the next home to be established according to act of Congress. Reports from the new home at Leavenworth, Kas., show it to be in a most flourishing condition.

THE statue in honor of the late General A. E. Burnside was unveiled with impressive ceremonies at Providence, R. I., July 4. The procession was an immense one and the public expressions of honor to one of Rhode Island's eminent sons were enthusiastic and unanimous. After the unveiling Gen. Horatio Rogers delivered an oration reviewing at length General Burnside's military career. The delivery of the statue to the city was by Col. Robert H. I. Goddard, and Mayor Robbins received it in the name of the city.

WHILE all the rest of the people were engaged in celebrating the national birthday the Pennsylvania Peace Society met in Philadelphia and protested against all appropriations for war purposes, and thanked Gov. Beaver for vetoing the bill making an appropriation for the military statue of Gen. McClellan, "as we do not desire the beauty of our City Hall to be marred by mementoes of fraternal strife." The society concluded that the best disposition of the flags captured during the civil war would be to burn them.

A REMARKABLE new printing press capable of printing 60,000 copies per hour of either a four or six-page paper, and 30,000 copies an hour of either an eight, ten, or twelve-page paper has just been built by Messrs. R. Hoe and Co. for the *Mail and Express*. In each case the papers are delivered in sets pasted and folded, at the rate of 1,000 copies per minute from a single machine, or nearly twice as much as has been heretofore possible.

THE New York *Times*, referring to the sentence in the case of Lieutenant James H. Wilcox, says "it is a heavy penalty, but the offence is one that deserves severe punishment. The negotiation of duplicated pay accounts by officers of the Army is a kind of swindling that calls for heroic treatment. The Army has repeatedly been disgraced by such swindling, and rarely have there been extenuating circumstances."

THE receipts of the Government for the fiscal year ending June 30, 1887, were as follows: Customs, $217,403,983; internal revenue, $119,136,448; public lands, $7,500,000; miscellaneous, $27,340,463; net revenue, $371,380,894.

CAPTAIN F. W. HESS, 3d U. S. Artillery, left Washington Barracks, D. C., on Friday, for a weeks vacation.

NORTH AND SOUTH AT GETTYSBURG.

THE daily papers are filled with glowing accounts of the interchange of compliments on the Third of July on the field of Gettysburg between survivors of the Philadelphia Brigade and the survivors of Pickett's Division, whose gallant charge so gallantly repulsed was the culmination of the day at Gettysburg, 24 years ago. Additional interest was given to the occasion by the presence of the widow and son of the late Gen. Pickett. The reception accorded to Mrs. Pickett especially was enthusiastic to the last degree—so enthusiastic indeed that she is described as having her fingers blistered from the somewhat too cordial greeting of innumerable Northern and Southern hands.

The ceremonies of the day consisted of an oration by Gen. John T. Owen, on behalf of the 69th Regiment, followed by the presentation of its monument by Col. Reilly to the Battlefield Memorial Association, on whose behalf it was received by Col. J. B. Batchelder, who himself received from the 69th a handsome gold watch, appropriately inscribed.

Next Capt. Stockton introduced, on behalf of the 71st Regiment, Gen. W. W. Burns, Col. U. S. Army, who succeeded Gen. Baker in command of the brigade to which this regiment belonged. Gen. Burns's interesting address will be found reported in full in the New York *Tribune* of July 4. He was followed by Gen. Wm. Farrar (Baldy) Smith. To Gen. Wister was assigned the duty of turning over the monument of the 71st to the Battlefield Memorial Association and he was so much affected by the sight of the small number of the brigade remaining that it took him some moments to master his feelings, and occasionally during his speech his voice would choke and he with difficulty continued. The monument was accepted in the name of the association by Col. John M. Vanderslice, of Philadelphia. Col. R. Penn Smith then, in a very interesting speech, turned over to the Memorial Association the tablet of Cushing's Battery, of the 4th Regular Artillery, which was also received by Col. Vanderslice. The crowd then moved near the famous clump of trees where the Cowan's Battery Monument is erected. Mrs. Pickett, who was there, ascended the platform and Col. Cowan, rising, thanked her for her presence, and also welcomed the wife of the commander of the Philadelphia Brigade, whose husband 24 years ago, then an aide on Webb's staff, brought him the order to place his guns where the monument now is, and whom he had not seen again till last night. He then presented Serino E. Payne as the orator, who spoke for about 20 minutes.

The members of the Philadelphia Brigade present are estimated to have numbered between three and four hundred, and there were about 200 of Pickett's men present. On their arrival at Gettysburg on Saturday a scene occurred which is thus described: "A procession was formed for the march to the court house where the speeches were made. Citizens fell into line behind the blue and gray soldiers, and the sight was imposing. There were crowds of visitors collected along the line of march to the court house, and all the inhabitants of Gettysburg were out to see the procession pass. On the march the Philadelphia Brigade made the streets brilliant with Roman candles. A halt was called at the public square, where a most remarkable scene took place. The Philadelphia Brigade stood in lines parallel to those of Pickett's men, when a stentorian voice called out, 'Right and left face.' This order was hardly obeyed, when the same voice gave the command, 'Advance.' In an instant the men who had been made to face each other by the first order, were close together and the palms of their hands came together with a sound that could be heard some distance. There was no sentimentality about it. It was the square grip of honest men."

Great enthusiasm was created at the court house when Pickett's men marched in headed by Lt. J. T. Parkham, late of the 32d Va. regiment, bearing aloft the noble Stars and Stripes. At the request of the audience, Mrs. Pickett, leaning on the arm of General W. W. Burns, U. S. A., was escorted to a seat on the judge's stand and greeted with enthusiasm. Her son occupied a seat on her left, her hand resting on his through most of the evening.

The address of the evening was made by Col. Wm. R. Aylett, who commanded the 53d Virginia regiment, and he was introduced as the youngest colonel of Pickett's command, and the only colonel of Pickett's command left living after the charge, and he was wounded. When he said in reference to the proposed return of the Confederate flags that "Southern men don't care who keeps the flags—the past went down in war, and we recognize now the banner of our fathers"—the climax of the meeting came. Lieut. Parkham raised the national emblem, the audience sprang up and gesticulated wildly, Mrs. Pickett and son and all on the stage arose and joined in the demonstration. It was some time before there was sufficient quiet for Col. Aylett to proceed. He said, in the course of his address:

Above the ashes left by the war and over the tomb of secession and African slavery we have created a new empire, and have built a temple to American liberty in which you and I can worship together, and over it we have run up the Star Spangled Banner, and we cling to it with all that ancient love which should ever dwell in the hearts of the men and women from the lands of George Washington and William Penn. There is not a true man at the South to-day but who feels as if he would like to stand at the tombs of Lincoln and Grant to plant a flower there and to water it with a manly tear! In the presence of a feeling like this, too sacred and deep for utterance, what matters it who shall keep the battle-flags? They passed into your hands in brave and manly combat, untouched by dishonor, after a baptism in blood that made the gray jacket a mantle of glory, and we are as willing your people should keep them as ours. They are in the hands of our Government and brethren, to whom our honor should be as dear as their own. Never again will our old battle-flags wave in strife. They have gone down forever, but they went down in glory and in honor. They are dead, and we love and follow alone now the living flag which floated from Key West to Behring Straits—from Bunker Hill to San Francisco! Would that that grand and heroic son of Pennsylvania, Hancock, the superb, were here to-day. Would that Meade and McClellan and Reynolds and Sedgwick were here to-night, and that Virginian, Geo. H. Thomas, the Hannibal of your Army of the Tennessee. And above all, would that Lincoln and Grant were here to see this noble sight of brotherly love and heavenly hospitality—Lincoln and Grant, the men who guided and directed the storm, and who, when its fury was spent, were ready to say, "Peace, be still," to the boisterous winds and raging waters. Were they here we would join with you in doing them honor, for as Americans we now claim an interest in their glory and their graves. And who among you, warm, generous, kind, hospitable and full of brotherly love, as you have shown yourselves, will grudge to us or to Virginia the proud honor or to the Union that rich contribution of Virginia glory when, at the roll-call of our illustrious and mighty dead, to the names of Washington, Henry, Mason, Jefferson, Madison, Marshall and Monroe, we shall ask to add the names of Robert E. Lee, of Stonewall Jackson, of J. E. B. Stuart and George E. Pickett—glorious representatives of that Virginia truth and valor and loyalty which propped the reeling fortunes of the war of '76 and bore the flag of victory flowing like a heavenly meteor from Boston to Yorktown?

Following the address, letters were read from President Cleveland and Gen. Sherman, and altogether the occasion was a most memorable one and a prophecy of success for the reunion between the Army of the Potomac and the Army of Northern Virginia, which is to follow one year from now.

GETTY'S VETERANS AT PETERSBURG.

To the Editor of the Army and Navy Journal:

THE following gives a graphic description of the part Getty's 2d Division, 6th Corps, took on the extreme left after it had led the corps in piercing the rebel centre at Petersburg, on the morning of April 2, 1865. The demoralized lines of the enemy were unable to withstand the steady advance of Getty's veterans and the terrible fire of our light artillery, which galloped to the front in a way that an infantryman liked to see. Allen, with his R. I. Battery (H), who played a most gallant part during the whole engagement, and Cowan's N.Y. Battery, who was equally conspicuous, were scattering death through the enemy's ranks. The forces of the rebels were guided by Lee in person, who seemed wavering and uncertain, were falling back from crest to crest and delivering a weak and scattering fire. At last they seemed formed for some purpose upon the fine estate where were located Lee's headquarters. The artillery fire was heavy and incessant. Still our lines pressed on, obliquing to the left to gain Lee's headquarters. At this time Major Allen's battery was under a murderous fire from the rebel lines. Realizing the importance of holding his position and expecting a charge from the enemy, who were massing in front of him, he despatched his orderly to headquarters with a request that another battery be ordered up to that point. The orderly, a boy not more than 15 years of age, goes at the major's command on his perilous errand. With the battery guidon flying amidst shot and shell, thinking only of the major's order, "Deliver that message if it costs you your life," he rides on until his horse receives a fatal wound from a bursting shell. He is badly injured, but succeeds in reaching the headquarters with his despatch on foot, and is directed to guide Cowan's N. Y. Battery to the point where it is needed.

Cowan's guns were soon in position and, with Allen's, commenced one of the most desperate artillery duels of the war. On the infantry struggled through a swamp that in many places our men sunk to their arm-pits while grape and canister were shrieking their way over their heads. But the other side is gained and some 500 of those first across with several colors. All three brigades bearing a part dash on for the rebel batteries. Fatigue, mud and the already hot sun are forgotten. All of the rebel guns are now trained on that devoted band. Bushels of grape and canister added to the whiz of the rifle ball, made the din terrible. The fatigue of the men and the constant slaughter brought about a temporary halt, when Lieut. Nichols, of Gen. Warner's staff, led a small party forward, who shot the battery horses, and the infantry gives way, then with a wild yell the column rush on and the enemy's works are taken.

THE NAVY AND MALVERN HILL.

To the Editor of the Army and Navy Journal:

IN the JOURNAL of July 2, I see an article in four paragraphs under the heading of "McClellan, Lee and Grant," by Wm. W. Burns, containing gross misstatement in the third paragraph regarding the action of the Navy at Malvern Hill, as follows, viz.:

Lee attacked McClellan at Malvern Hill on the James, but was repulsed and *but for the failure of the Navy* (the italics are mine) to cover his transports to that point, McClellan would have made that his new base.

Now, this is not the fact. A division of gunboats, including the *Monitor*, under command of the late Rear Admiral John Rodgers, was in the James at Malvern Hill and participated in the fight on that day, throwing 100 lb. rifle and 9 and 11-inch shells and shrapnel among the rebel forces, whose commanders so state. Besides, Gen. McClellan himself passed sometime, while the battle was raging, on board of the gunboat under the immediate command of Admiral Rodgers. Gen. McClellan also must have been fully aware of a large Naval force being in the James ready to co-operate with and support him, and which he subsequently found at Harrison's Landing, when he arrived there with his victorious, though then, demoralized, Army. Gunboats in force were moored with springs on their cables on each flank of the Army, and so as to throw a cross-fire for its protection against any forces. Of course, it was not disturbed, and within 48 hours the troops had recovered their *élan* and were again ready for any aggressive movement.

The Navy thought and hoped that this would be across the James to its west bank en route for Richmond, or, the destruction of the rebel communications with the South and its chief source for supplies.

Gen. McClellan had been communicated with in person by Admiral Goldsborough at Tunstall Station the same day or the day after he left the White House, when Admiral Goldsborough suggested a "change of base" to the James River, where the Navy would be ready to throw his Army across it and look after its supplies.

I was then the Chief of Staff of Admiral Goldsborough and know of all the things I write; went with him to Tunstall Station, though I was not present at the interview with him and the General, which was held in the latter's tent, they, I think, being alone.

Admiral Goldsborough went from Hampton Roads expressly to suggest the change of base. Of course it was not accepted, but all the same Gen. McClellan reached the James subsequently.

The accusation about the *failure* of the Navy to perform its duties in connection with the movements of Gen. McClellan has been made more than once. Once by Gen. McClellan at a meeting of the Army of the Potomac at Washington, which produced feeling among the Navy officers present, and caused, as I was told, a withdrawal of his reflection when his attention was called to it. Rear-Admiral Rodgers and Gen. Sherman may remember this.

A. LUDLOW, Rear-Admiral, U. S. N.
"PAPASQUA," BRISTOL, R. I., July 4, 1887.

STRENGTH OF LEE'S ARMY IN 1865.

To the Editor of the Commercial Gazette:

YOUR figures for the strength of Lee's Army in its last campaign are erroneous in giving its "aggregate present." (Feb. 25, 1865,) 73,349 as its present for duty, and in assuming that all the forces under Lee's command are included in that return. * * * The weight of testimony is to the effect that Lee had 80,000 men for line of battle at the time of the attack on Fort Steadman.

What became of them? 52,000 were captured in the battles from March 25 to April 9, inclusive, and at Richmond the loss in Grant's Army, meantime, was about 13,000 in killed and wounded (3,000 in the Fort Steadman affair and the capture of the rebel picket line immediately thereafter, and 10,000 in the assaults on Petersburg and Five Forks and in the pursuit.) That of Lee's Army was at least as much and probably greater. At Fort Steadman it met bloody repulse, at Five Forks two of its divisions were routed, at Sailor's Creek its lines were broken—everywhere was disaster. 15,000 is a fair estimate of its killed and wounded; the remainder took to the woods. It is a part of the history of the campaign that in the three or four days preceding the surrender the number of stragglers and deserters was so great that the rebel army was reported by citizens and scouts to be advancing on every road leading away from that on which the real army, now reduced to 28,000 men, whom "neither death nor any shape of danger could dismay," was marching to its doom. D.

ANSWERS TO CORRESPONDENTS.

Private Thompson.—You will find the list on page 922, of JOURNAL of June 11, 1887.

A Reader.—The publication you suggest has been tried, but it was not found profitable to continue it.

C. S. T.—It would seem perfectly right that U. S. troops should take part in public Fourth of July celebrations, if the necessities of the Service permit and commanding officers so decide.

Soldier.—A soldier convicted and confined by civil authorities is not entitled to pay during such confinement, not having rendered any service therefor. There is no law that requires him to make good the time thus lost.

Subscriber.—Efforts are being made to have Congress increase the pay of Ord. Post Quartermaster and Com. Sergeants, and it is hoped they will be successful. Those on the retired list are likely to be benefited if the pay should be increased.

J. T.—For information concerning examinations write to the War and Navy Departments for circulars. Unless some unforeseen casualty occurs the President will not have an appointment to the Naval Academy until 1890, and to the Military Academy before 1889.

Soldier.—The last civilian appointment was Harry D. Humphrey, of Idaho, appointed 2d Lieutenant, 20th Infantry, Jan. 20, 1887. The line promotion during the past few years has, we fancy, been quicker in the cavalry than in the artillery and infantry. Promotions in the colored regiments are *not* more rapid than in the white regiments. Why should they be?

H. asks: What is the correct position of 1st Lieut. and Asst. Surgeon of Separate Company at rear open order, and also column of platoons? ANS.—Tactics do not make any provision for surgeons with separate companies. The settlement of this matter should be left with the company commander or the State authorities. You might put him in charge of the stretcher and barley water.

X. Y. Z.—Apply to Chief Signal Officer, U. S. A., for copy of Circular of December 15, 1886, which will give you full information. There are no vacancies in the corps at present, and none are likely soon to exist. The Chief Signal Officer now has before him a list of nearly 100 men, who have been examined and found qualified for admission to the service. As vacancies occur selections will be made from this list.

C. H. W. asks: 1. In forming fours from column of files as per P. 237, Upton's Inf. Tactics, is it necessary to give the command "Forward"? Does not the column of fours resume the march as soon as the movement is completed, without any command? ANS.—The column moves on without the command forward.

2. In forming double rank from single in column of fours, is it necessary to give the command "Forward" after the movement is completed? ANS.—No. See the commands laid down in par. 248 in connection with par. 249.

E. S. D. asks: 1. When a company is marching in column of fours, right in front, and the order fours right is given, which throws the company in company front, and the file closers dart through the column to the left, the order then is given fours left, where is the position of the leading guide? ANS.—In front of the right file of the leading four, which is the flank opposite the file closers. The company is left in front.

2. If a company marching as above, and company front is formed towards the file closers, and they dart through column to the rear, the company is then broken into fours to the left, should file closers take their original position without command? ANS.—No. The tactics provide means for the file closers to change from one flank to the other in par. 214.

T. B. H. asks: 1. Is it not intended in par. 180, Upton's Tactics, in forming the company, that non-com. officers should support arms at the command of 1st Sergt. before calling the roll? ANS.—Under par. 189 the guides and file closers should not. It is a matter, however, upon which opinions differ, but roll call is not a drill.

2. 1st Sergt. being absent and first duty sergeant ignorant of his whereabouts, is it proper for the latter to report him (the 1st Sergt.), absent, or should he take for granted that he is absent by permission from proper authority and report the Co. present or accounted for? ANS.—If the next sergeant knows that he is absent without leave he should so state, because the result of a roll call should always be reported according to facts. The whole matter, however, depends upon the circumstances.

3. Is it out of order to execute that portion of the manual of arms, on dress parade, prescribed for non-com. officers in par. 189 Upton's Tactics? ANS.—It is customary on dress parade for guides and file closers to execute carry, order, fix and unfix bayonets, and this seems to be in harmony with par. 189 of tactics.

BRAVE are the men who have esprit de corps,
With no thought of self they brave the cannon's rorps,
In their country's cause they leave their native shorps,
And when their race is run they are famous evermorps.

THE STATE TROOPS.

THE NEW YORK STATE CAMP.

THE TWELFTH REGIMENT.

THE 12th marched into camp on Saturday, June 25, strongly represented in numbers and in a very military manner, of which they have every reason to be very proud. The regiment kept up an average attendance during the week of 554, varying but a few men daily. With it were the 17th Separate Company, of Flushing, (33 average,) and the 35th Separate Company, of Ogdensburg, (average attendance 64). This made a battalion of nearly 650 men present at all times, and this steady attendance contributed much to enable the officers to do the effective work they did. While we do not desire to be understood that there was perfect work in this camp, yet it was easy seen from the condition of this regiment as shown here, the performance and appearance of officers and men, as compared with five years ago, that the National Guard has made a mighty stride in the right direction. The 12th especially furnishes a striking example of this. They were full of mistakes on their arrival, but the defects rapidly disappeared, and this speaks equally well for the efficiency of the majority of the officers, the intelligence and desire of the men to become good soldiers, and the well-chosen system of instruction provided by the State.

On arrival in camp the work was comparatively easy because a guard was brought from New York which took charge on arrival at the camp, and, therefore, no guard was mounted, and no duty performed until dress parade. It would not be fair to say that the latter was good. On the contrary, blunders were many and this especially on account of the two Separate Companies attached, which were neither used to ceremonies of this sort nor to the command of the Adjutant. This kind of thing, however, has become so much of a matter of course at the camp that it is scarcely noticed any more, because it is well known that the matter corrects itself in due time, if things are allowed to take their proper course. This proved to be the case here. The main point was to determine the general behavior of the men after taps, and the conduct of the sentries. The former, especially, proved satisfactory.

A few isolated cases where attempts were made to copy some of the "funny" business of the week before were promptly sat down upon, and the sentries, although very imperfect, showed that they had at least received sufficient preliminary instruction to save them from that helpless condition which has so often characterized organizations on previous occasions and exposed them to general ridicule. The guards were fair. The first guard mounting was very poor; the details were sent back twice by the adjutant, who showed a strong desire to repeat the experiment, but he was compelled by want of time, hot weather, and consideration for the old guard to hurry up the thing and let well enough alone. The guard was marched off by the officers of the guard in a rather dilapidated manner: when it arrived at the tent officers of the day were already there, and instead of attending to their own legitimate business they assumed control of matters properly belonging to the officers of the guard, neglected to receive the presents due them, and in a general way, instead of expediting the relieving of the old sentries and the marching off of the old guard, they rather delayed the prompt transaction of the business. How they got to the guardhouse in advance of the new guard no fellow has found out yet. However, when the sentries once got under way they showed off to good advantage, and with a clean camp and a much improved, although still very inferior, dress parade, Sunday closed with a promise of good work when the affair should begin in earnest. Fair weather on the following morning afforded every facility for the full development of the regulation schedule of exercises, and the companies were promptly on the field after reveille. While the men showed considerable want of that finish of execution of the manual, marching, and skirmishing which should characterize a first-class organization, many of the officers, especially the younger ones, exhibited more than usual snap and activity in handling the men, and knowledge of Tactics, and this, together with the complete subordination of the rank and file, showed that improvement would only be a matter of time.

This was fully verified when the week's work came to an end. We noticed, however, a great want of familiarity with skirmish drill and, in fact, saw one officer teaching his company to deploy to the front as is laid down for deployment by numbers in battalion drill. There was some improvement in guard mounting, but the ceremony was by no means as well executed as it should have been, nor was the part of the performance at the guardhouse, the relieving of sentries, etc., gone through with the promptness of a thoroughly instructed body of soldiers. Probably the two battalion drills, one under command of the colonel and the other under command of the lieutenant-colonel, were the best features of the day's work. Although executed under a broiling sun without the slightest breeze, movements were ordered with the utmost rapidity and executed with all the promptness which the regiment has acquired in the armory, and a more satisfactory piece of work than this could scarcely have been desired. In all possible cases the movements were executed on the march, and although the two battalions came in soaked with perspiration, the men appeared to have enjoyed the drill, and appeared as fresh as daisies in the afternoon. In fact, the health of the camp was excellent from beginning to end, the stretcher was not brought into requisition and the Red Cross Society had a sinecure. Sentry duty, though scarcely properly understood by a single individual, was still highly satisfactory and the first day's work showed improvement which promised the most desirable results before the close of the week. Of course, the day ended with the usual dress parade which, however, was far from what it should have been. The sentry duty was creditable during the night and the camp very quiet.

The day following was a counterpart of the previous one. The drills were satisfactory; the weather sweltering, and the guards doing the best they could. The constant strain on the men, the rigid supervision; the cool, but firm management of the camp on the part of the colonel, however, had already produced a marked improvement, which showed itself in every direction at the first glance. It is not necessary to go into details about it, but the respect for the regiment on the part of those who were looking on increased hourly. Men were particularly punctilio is in rendering their court sies. The interest in the work of the day was probably not as lively as it would have been had not the following day been set apart for practically testing a new system of tactics devised by Lieut. G. N. Whistler, 5th U. S. Art. On the evening previous the officers assembled, and Lieut. Whistler explained to them the principles he desired to elucidate. The smoothness with which the drill was executed showed that they had well grasped the situation. As during the entire stay of the 12th, the sun bore down with all his force, every bit of wind had disappeared and the experiment was accomplished under the most unfavorable circumstances. The men, however, preserved their enthusiasm during the entire two hours' work, and, in fact, seemed hungry for more when the recall sounded. This fact was doubtless due to the relief afforded from the usual monotony of the eternal fours right and left of the ordinary battalion drill, and the experiment proved a very happy one. While it is not possible here to give all the details and requirements of the drill, it is just to say that it seemed to be very practical in all its phases and a decided improvement over the present cumbersome close column movements and deployments. It consisted of a simulated attack upon a field work by two consecutive skirmish lines supported by the main body of troops, which latter were kept in rear, but advanced in column of subdivisions by the flank when the proper time arrived.

The first skirmish line advanced gradually, the men taking advantage of the ground by throwing themselves on their bellies; they were followed up by the second line, which, when a certain distance, from the supposed point of attack had been reached, took up the double time and marched over the first line lying down. This was the signal for the general attack, the reserve body advanced, the whole rushed forward with a yell, and the enemy was defeated. The troops were somewhat mixed up when the victory was gained, but they easily found their proper places. This apparent confusion was a natural consequence of the system, which seems to be particulary devised with a view of doing away with the present movements in closed order. Of course, it is difficult to say what the other fellows, who were supposed to be in the supposed fortification, would have been doing while the lines were gradually creeping up on them, but it was a capital illustration of a new method, and as such served the double purpose of interesting the men and instructing the officers in work in which they have had no experience, and which they are liable at any time to be called upon to perform. The same drill was repeated on the following day with the accompaniment of blank cartridges. Of course the absence of the author of the tactics had a somewhat detrimental effect on the smooth course of the drill, and there were a few more blunders than on the day before, but the beneficial effect of the drill couldn't be denied.

In the routine duties of the camp the improvement was marked and steady, and the men were gradually developing into a trained body of soldiers. The parades were handsome, the guard mountings became regular, but there remained too many officers up to the last who, although they seemed to understand guard duty theoretically, failed in many points when put to the practical test. The discipline of the camp was as nearly perfect as is possible with a volunteer organization, and infractions of the rules were so few and far between that there is practically nothing to speak of on this point.

Frequently the guards were badly managed so as to keep the men on post for three, and some even say for four hours, and deprive them of their meals at the proper time besides. For this there was no excuse, because there was always a force sufficiently large to control things in proper shape, and the regulations were distinct so as to allow of no mistake. Men on guard who desired to sleep could not do so on account of the racket kept up the entire time. Of course to teach all this the camp is maintained. The sentries may be counted among the best who have ever been here, but they only reached a certain point in their instruction beyond which they did not advance. Only once during the whole tour did number one announce the approach of the officers of the day to the guardhouse at guardmounting. The reliefs, as was the case during the previous week, were never marched off with promptness, and number one never relieved as prescribed in the tactics. To establish perfection on all these points in seven days, with new officers and men every day, is scarcely possible, and we mention these facts not so much as a criticism of the 12th, but rather for the purpose of putting others who are to come on their guard against similar errors. The 12th did excellent work and set an example of practical soldiering and as the magnificent column marched out of camp they were deserving of every bit of the praise so generously bestowed upon them on all sides. The regiment received a grand ovation in New York all along the home route.

Capt. Bleeker S. Barnard, Co. D, had the largest company of the regiment in camp, 84 men out of 93. He gave some fine exhibitions of the bayonet exercise. We are sorry to learn that the captain, on account of business pressure, is compelled soon to resign.

Before closing this account we think it proper to point out a smaller organization—the 1st New York Battery—which, on account of its isolated location in the camp, is but little noticed, and yet is working from early morning till evening at the artillery pieces. Sergeant Jansen, in charge has done much to perfect his detachment, and is, therefore, as well as his men, entitled to great credit.

MEM.—In our report about the 7th we stated that *in wheeling into line* the platoon never wheeled on a fixed pivot. This was a slip of the pen, and it will be readily understood that the criticism referred to changes of direction.

MILITIA OF THE UNITED STATES.

THE regularly, enlisted, organized and uniformed active militia of the United States according to special returns recently made to the Adjutant-General of the Army, for the purpose of allotment of the new appropriation, aggregates 97,267, of which 7,839 are commissioned officers. The States and Territories which have no organized militia are Arkansas, Oregon, Tennessee, Idaho, Utah and Wyoming.

AMENDMENTS TO THE NEW YORK CODE.

GOVERNOR HILL has signed the bill amending Sections 40, 93, 97 and 132 of the New York Military Code. Sec. 40 is amended to read as follows:

Sec. 40. Able-bodied men of good character, "of 18 years of age and upwards," who can read and write, may be enlisted in the National Guard in the first instance for a term not less than five nor more than seven years, and on the expiration of that term they may be re-enlisted, either immediately or at any time thereafter, for terms of one or more years, at their option; but no person above the age of 45 years shall be enlisted or re-enlisted except by permission of the commandant of the brigade or division to which the organization is attached; nor any person under the age of 21 years, without the consent of his parent or guardian, "provided, however, that enlistments as musicians between the ages of 16 and 21 years may be made with the consent of parents or guardians." Every enlisted man shall continue to be held to duty, and shall retain rank and be eligible to promotion after the expiration of his term of enlistment or re-enlistment, until he is actually discharged.

The passages included in quotations are additions to the existing law.

Sec. 93 is amended so as to increase the pay of the Adjutant-General from $3,000 to $4,000 per year.

Sec. 97 reads in it amended form as follows:

Sec. 97. On the certificate of the Adjutant-General the Comptroller shall annually draw his warrant upon the Treasurer for the following sums, namely: $1,200 for each division and for each brigade headquarters, $250 for each regimental headquarters, $100 for each battalion headquarters, and $250 for each headquarters of provisional regiments or battalions. The funds thus allowed shall only be expended by the respective commanding officers on the approval of the Adjutant-General.

Heretofore the following sums were allowed: $750 for each division and each brigade headquarters, and $250 for each headquarters of provisional regiments or battalions.

Sec. 132 is amended so as to read as follows in the present form:

Sec. 132. All fines and penalties imposed by any military court upon officers or enlisted men shall be paid by the officers collecting the same into the treasury of the county within which the regiment, battalion, troop, battery or company is located within thirty days after the collection thereof, and shall form a portion of and be credited to the military fund of the regiment, battalion, troop, battery or company of which the persons paying the fines and penalties are members, and the Treasurer of such county shall thereupon report the amount thereof, designating the organization to which it belongs, to the Adjutant-General of the State.

And the amount of fines or penalties so collected from any other commissioned officers or enlisted men shall be paid by the officer collecting the same to the Treasurer of the State.

The commanding officer of each regiment, battalion, troop, battery and company shall be responsible for all county property in his hands or under his control provided under the provisions of this act, and shall between the first and fifteenth day of July each year file with the Treasurer of the county in which his command is located an inventory of such county property in his hands or used in his command.

Each County Treasurer shall, when any county property furnished for military purposes under this act is abandoned or is unfit for service, collect and store same, and with the approval in writing of the officer commanding the brigade district of which his county forms a part, sell the same at public sale and turn the net avails of said sale into the treasury of his county.

The last two paragraphs are additions to the old law.

ARTILLERY INSTRUCTION IN LOUISIANA.

THE Governor of Louisiana has granted Major C. B. Throckmorton, U. S. A., commanding Batteries I and M, 2d Artillery, at Jackson Barracks, the use of the State camp, Camp Henry at Pass Christian, for an encampment of six days, commencing July 18. In granting the use of the camp the Governor made a request that at the same time the companies of the State militia be permitted to participate. Maj. Throckmorton wrote to Col. John B. Richardson of the Washington Artillery, who informed him that his invitation was gladly accepted, and that the companies of the Washington Artillery would participate. The major has also received word from Capt. Wm. H. Beanham that his Battery B, Louisiana Field Artillery, will participate.

The Regular batteries will have about 40 men each. The officers of Battery I are Capt. W. P. Vose, 1st Lieutenant Alex. D. Schenck. Those of Battery M are Capt. Joseph G. Ramsay and Lieuts. Wilcox and Stone attached. Dr. Williams, U. S. A., will be in attendance as surgeon.

The camp is now provided with two 10 inch smooth bore guns and four 10-inch mortars. In addition to these, the major will carry over with him four 4½ inch rifle guns, 3-inch smooth bore, the Gatling battery and some Coehorn mortars; while the Washington Artillery and the Louisiana Field Artillery will also carry their guns, which will make quite an array of field pieces.

This project of a combined camp of Regulars and State militia is exciting much interest in the locality, and arrangements are making with the railroads to carry people at excursion rates to Camp Henry. It was suggested by Lieut. Schenck, who found the Washington Artillery and the State authorities ready to enter heartily into the scheme. Gen. Schofield seems to have earnestly approved of the measure, as he has telegraphed Maj. Throckmorton to make immediate requisition for such ammunition as may be required for the instruction of such artillery troops, regular and militia, as will be present.

The New Orleans *Times* publishes a long article in which it shows that the Board on Fortifications estimated that 1,305 high-power guns, ranging from 10-in. mortar to 16 in. (110 ton) guns are required for the defence of our sea coasts in addition to 2020 old guns to be retained as follows:

	Guns.		Guns.
16-in. 110 ton.....	44	20-in. smooth bore....	2
14-in. 80 ton.....	6	15-in. smooth bore....	338
12-in. 50 ton.....	203	10-in. smooth bore....	998
10-in. 27 ton.....	222	8-in. smooth bore....	210
8-in. 13 ton.....	102	300 p. Parrott.....	38
6-in. 5 ton.....	4	200 p. Parrott.....	81
12 in. mortars.....	700	100-p. Parrott.....	173
10-in. mortars.....	24	Converted 8 in. rifles..	210
Totals.....	1,305	Totals.....	2,020

To man these will require, as it shows, a force of 86,270 men, England having already 103,500 men organized for such duty.

It says: "That all of these batteries will be provided by the general government can hardly be

expected, however urgent the necessity, though it is of vital importance to the safety and security of the nation that it should do so. But in the event of war, as heretofore in our past history, each place will be left to its own resources to defend its property and the lives of its citizens as best it may, and they may consider themselves fortunate when the government has provided even the fortifications and guns.

"To provide, then, some adequate means, however, insufficient, for the defence of a city, it is evident that there should exist therein a sufficient number of artillery battery organizations to at least man such guns as may be provided."

It shows the necessities of New Orleans in the matter of coast defence, and continues:

Granted that the General Government may in time provide fortifications and guns—but not the men to man them, for fear that a few thousand Regular soldiers will eat up body and boots the teeming millions of the rest of the American citizens—it is of vital importance that these militia organizations should be called into existence at once. When this has been done they should be assigned permanently to such works or forts as are determined for the defence of the city, and required to repair annually to the places so designated, for purposes of instruction, drill and target practice, to the end that they may not only familiarize themselves with the armament and its uses, but with the particular stations and surroundings which they may be called upon to defend in the event of war.

The citizen thus giving his time and abilities to perform duties which the General Government ought to be bound to do, should be provided by that negligent Government, at least with all of the facilities for perfecting himself in his military duties, and indeed he should be well paid for his valuable time thus given to the service of the public. He should not only be provided with all modern artillery appliances, but with a liberal supply of ammunition for target practice with great guns, with transportation, pay for his time, rations, camp equipage, etc., when necessary, and a fatigue uniform and such other appliances and allowances as are requisite and necessary to enable him to accomplish in the best manner and within the shortest time these patriotic duties. In addition to all of this, which the Government can do by the mere paying out of some of its vast treasury hoards, its most important duty should be to provide highly-educated and trained artillery officers and soldiers to give instruction and aid to the citizen soldiery, and it goes without saying that the 275 officers and 2,500 men which now comprise the artillery force of the country are wholly inadequate to even properly aid in the instruction and training of such a number of men, much less of themselves undertaking this part of the "common defence," for which purpose they are supposed to exist.

A VISIT TO GETTYSBURG.

GETTYSBURG, PA., July 3, 1887.

To the Editor of the Army and Navy Journal:

TO-DAY the survivors of Capt. A. J. Cowan's 1st N. Y. Battery dedicated a monument on Cemetery Ridge to the memory of the men it lost in the battle of Gettysburg. The ceremonies were appropriate and impressive. The survivors—nearly all of whom are residents of Cayuga County, State of New York—were under the escort of the 2d Separate Company, N. G. S. N. Y., with 80 men in line, under the command of Capt. Wm. M. Kirby, with Henry S. Dunning 1st lieutenant and C. J. Barber 2d lieutenant. The company is a crack one in every respect and the particular pride of Auburn, N. Y. The dust and heat were almost intolerable, but the company presented an unbroken front during the march to and from the grounds from the hotel and displayed the endurance of veterans. The superior discipline elicited the applause of spectators on many occasions and reflects credit upon the commanding officer. The company came on a special excursion in Pullman's sleepers and returned Monday evening, July 4. * * *

EPISODE AT THE WASHINGTON ENCAMPMENT.

THERE is trouble in the Bullene Guards, of Kansas, growing out of the failure to drill at the national encampment at Washington, as the following will show:

Capt. Wm. Kelly, Co. B, 3d Regt., N. G. of Missouri:

SIR: In view of certain statements emanating from you, and reflecting disgracefully upon my character as an officer and a gentleman, such statements being, according to my honest convictions and belief, utterly untrue, I hereby challenge the truth of your assertions, leaving to you the choice of weapons. F. W. ROSENTHAL.

William Buehlert, Second.

We should recommend Gatling guns for weapons and will pledge Dr. Gatling to furnish the guns on proper guarantee that they will be used.

CREEDMOOR MATCHES.

THE matches of the National Rifle Association at Creedmoor on July 4 were well attended, the weather was fine, but a strong 6 o'clock fish-tail wind was very trying to the competitors who, however, made good scores. Major Edw. Duffy, of the 69th Regt., was the Executive officer for the day. Following are the best scores, those marked * being the winners in the match:

Name.	Co.	Regt.	200 yards.	500 yards.	Tot.
F. T. Cooke, *	I	23d	22	23	45
W. Lawson, *	B	12th	22	23	45
C. L. Levien, *	G	22d	22	23	45
W. B. Flynt, *	K	13th	22	23	45

The next matches will be on July 16 and 30, and Aug. 6, 13, and 27, commencing on the three first days at 6.45 A. M.

INTERNATIONAL ENCAMPMENT.

CHICAGO, July 7.

Gens. Chatelain and Bentley, the Commissioners of the Chicago International October Encampment, have written Gov. Beveridge that on their arrival in England they called on Gen. Wolseley, Adjutant General of her Majesty's forces, who cordially approved of the proposed international military encampment, but lacked authority in the premises. At the Royal Horse Guards the Duke of Cambridge peremptorily refused to permit any English troops or army bands to come to Chicago, and cited in principle the recent refusal of England to allow a military organization from Atlanta, Ga., to parade or exhibit armed and in uniform in any portion of the British Isles. The attendance of about 100 members of an independent London organization, vaguely described as bearing a Scotch name, fully officered, could be assured, however. Despatches received by Gov. Beveridge indicate that from the Netherlands, from Belgium, and probably France, a military representation can also be secured.

Twenty-second New York—Col. John T. Camp.

THE march of the 22d to the camp has now been definitely determined upon, and the details are being rapidly perfected. Of course this will impose about two days additional hard work upon the command, but as officers and men are very anxious to try the experiment and look upon this as a trifle, a very full turnout may be expected. The regiment will go by rail to Van Cortlandt on the N.Y. City and N.R.R. previous to the beginning of their encampment, and from that point march will be started. This leaves about 32 miles of ground to be covered, and if the weather is favorable, and no accidents interfere, the command will arrive in the camp long before the usual time when the trip is made by steamer, which is about 4.30 P. M. The march will be conducted so as to keep the regiment on their feet from 5 A. M. to 9 A. M., and from 5 P. M. to 9 P. M. During the heat of the day they will rest. No tents will be taken along, blankets are the only articles with which they are provided. This, if the weather turns out unfavorable, will put them into an uncomfortable fix. Meals will be cooked and firewood gathered en route. It is expected that only two bivouacs, one at Tarrytown and the other at Croton will be necessary. The 22d are thoroughly in earnest about this business, and nothing will be left undone to make the experiment a success. Competent and experienced instructors will be taken along to give general directions. The success of the experiment is not only a matter of interest to the 22d, but it concerns the entire Guard. Adjt. Gen. Porter, whose desire is to put the Guard in thorough condition for immediate field service at all times is deeply interested, and upon the result of the present experiment it will depend whether the entire New York and Brooklyn forces will march to camp next year or be taken there by boat. The 22d deserves the best wishes of all on account of their pluck and enterprise.

MILITIA ITEMS.

Emil F. Christoffel was last week unanimously elected 1st Lieutenant of Co. D, 47th New York. He enlisted in Co. F, 47th Regt., Jan. 17, 1881; elected corporal Oct. 10, 1881; sergeant, Nov. 19, 1883; appointed 1st sergeant, July 2, 1884; elected 2d lieutenant, March 31, 1886, and resigned April 7, 1887. After the election the company was entertained by Lieut. Christoffel.

An excursion to the State camp to visit the 47th, of New York, while on their tour of duty will take place on Thursday, July 14. The fast going steamer *Melzingah* will leave the foot of South Sixth street, Brooklyn, at 9.30 A. M. sharp. Returning, leave State camp immediately after the review by Gov. Hill.

Under the provisions of General Order No. 13 from the Adjutant General, the National Guard of Pennsylvania is officially ordered to encamp by divisions at Mt. Gretna from August 6 to 13, inclusive.

Dr. Joseph Decatur Bryant, Surgeon-General on the staff of Gov. Hill, of New York, has been appointed by Mayor Hewitt Health Commissioner vice Wesley Johnson, M. D., deceased. He is a practising surgeon and physician, who is well-known to the National Guard from his long connection with the Military Service of the State.

(Correspondence of the Army and Navy Journal.)

OREGON.

THE State Military Board met at Salem on June 24 and were in session three days; they have adopted rules, etc., for governing the O. N. G., and have divided the State into three regimental districts, the 1st Regiment comprising the Northwest portion of the State, the 2d the southwest, and the 3d the Eastern part. The 1st Regiment has now eight companies, the 2d six companies and the 3d three companies. Besides this there are several companies forming in the 2d and 3d Regiments.

Lieut.-Col. Merrill, 1st Regt., has ordered Cos. A, E, G and K out for battalion drill on Friday evening, July 1.

The chief topic of conversation in the 1st Regiment at present is, Who are to be the new field officers?

The 14th Infantry and Light Battery E, 5th Artillery, U. S. Army, are to participate in the Fourth of July parade at Portland, coming from Vancouver early on that morning.

Co. G, 1st Regt., will send a drill squad of about 24 men and officers to Tacoma, W. T., on July 4, to participate in the celebration there, and take part in the competitive drill for a prize of $500.

Oregon's share of the Congressional appropriation, will this year have to pay for arms received in February, 1886, during the Chinese troubles, so that the O. N. G, will not receive any assistance from the U. S. this year.

MINNESOTA.

THE 2d Regt., M. N. G., went into camp at Mankato on Wednesday, July 6, for ten days. The camp will be designated "Camp McGill," as a mark of respect for Gov. A. R. McGill. Officers will receive the same rate of compensation as is allowed officers of similar rank in the United States Army, and enlisted men will receive a per diem of $1 50, while present at and doing duty in camp. Subsistence must be provided by the respective organizations. Shelter in camp and transportation to and from camp will be provided by the Q. M. General. The troops will be provided with wood, water, ice and straw by the hospitable people of Mankato. Arrangements have also been made whereby all commissary stores can be obtained at Mankato at special rates.

Col. Jos. Robleter, in his G. O. announcing the encampment, says: "The very substantial aid and encouragement the Minnesota National Guard now receives from the State obligates every officer and enlisted man in the 2d Regiment to attend the annual camps of instruction, even if he must do so at a personal sacrifice. The grand victory achieved by Co. D, 1st Regt., Capt. Ed. Bean, at the recent National encampment at Washington, has brought the Minnesota National Guard into great prominence in every part of the United States—a fact we may well be proud of—and the annual camps of instruction offer us the best opportunities to still further increase the efficiency of the guard. In view of these facts, the commanding officer hopes that each company commander will make a special effort to bring every man in his command to camp."

The programme for the camp provides for reveille at 5.15 A. M.; roll call, 5.30 A. M.; breakfast call, 6 A. M.; battalion drill, 6.35 A. M; grand mounting, 8.35 A. M.; battalion skirmish drill, 9.20 A. M.; rifle practice, 10.30 A. M. (Sunday excepted); orderly hour, 11 A. M.; dinner, 12 M.; officers' school, 2 P. M.; supper call, 6 P. M.; dress parade, retreat, 7 P. M.; guard mounting, 6.55 P. M.; concert, 8.30 P. M.; tattoo, 9.30 P. M.; taps, 10 P. M. Inspection, Sunday, July 10, company and battalion drills and rifle practice will be omitted. The regiment will be inspected at 7.30 A. M.; first call, 7.10 A. M.; assembly, 7.20 A. M.; adjutant's call, 7.30 A. M. Divine service will be held by the regimental chaplain at 10.30 A. M. Companies will be formed in line with side arms, and marched to the headquarters' tent by the 1st Sergeants.

MASSACHUSETTS MILITIA.

THE new work of emergency lectures to the militia of Massachusetts will soon be extended to every regiment in the State, under the auspices of the Massachusetts Emergency and Hygiene Association. They will be given by the surgeons of the different regiments, and the "course" will consist of four lectures, illustrated by a skeleton, by charts, bandages, torniquet, and splints. Each member of a class is required to do the practical work of applying bandages or splints to a supposed compound or simple fracture of a comrade or of a model boy; to check imaginary bleeding of local pressure; to apply the remedies for heat stroke; to restore the consciousness of the apparently drowned by the Sylvester method; and to convey the sick or wounded on improvised stretchers or in an ambulance. At the close of the lectures an examination is held, consisting of oral or written questions and of practical work. The standard to be maintained is high, never falling below 70 per cent., and often averaging 90 per cent. All those who pass this examination are entitled by order of the adjutant general to wear, when serving on the militia field, an enamel and silver badge of the Red Cross suspended from a crescent. Further, whenever life has actually been saved, or very serious suffering averted, in consequence of emergency knowledge, the rescuer is awarded a special diploma, signed by Francis Minot, M. D., president of the association.

DISTRICT OF COLUMBIA.

1ST LIEUT. JOHN BIGELOW, Jr., 10th Cavalry, who was ordered this week to report to the Adjutant General of the Army for duty, will be assigned to special duty as Adjutant General of the newly-organized District militia on the staff of Gen. Ordway. The other members of Gen. Ordway's staff whose commissions were issued this week are as follows: Henry L. Cranford, to be quartermaster general; Jos. K. McCammon, to be judge advocate general; Joshua O. Stanton, to be surgeon general; James M. Pollard, to be inspector of rifle practice; Cecil Clay and Eddy B. Townsend, to be aides-de-camp.

MARTIAL, BUT SUBORDINATE.

"WHAT a very martial-looking man your husband is, Mrs. Hobson," observed a caller. "I saw him in the parade on the Fourth, and was quite struck with his soldierly appearance."

"Yes," responded Mrs. Hobson, "the Colonel looks well in his uniform."

"Is he at home?"

"No, baby was fretful, and I told him to give her a turn around the block in her carriage."

THE members of the American Society of Civil Engineers and their guests, numbering in all 350 persons, worshipped on the mountain top of Katerskill on Sunday last. At the meeting of the society Monday the principal topic of discussion was the Poughkeepsie Bridge. There was a grand display of fireworks on the plateau in front of the hotel at night, and a ball in honor of the engineers was given. On Tuesday the society inspected the Poughkeepsie Bridge and on Wednesday the cement works and deposits along Roudout Creek.

(From the London Engineering.)

THE "BRENNAN" TORPEDO.

THE Russian Government, some ten years since, expended a large sum of money in the purchase of all the necessary plant for the manufacture of the "Lay" controlled locomotive torpedo in Russia, and ten of these weapons were actually constructed there, but, for reasons best known to the Russian torpedoists, no more of these weapons have been manufactured by them. In America, the country that has given birth to the greater number of inventions of controlled locomotive torpedoes at present in existence, no decision has yet been come to on the question of adopting any particular type of this class of torpedo, though nearly all of these American inventions have been accorded exhaustive official trials, either at the military or naval torpedo schools. Other naval powers have also carried out experiments from time to time during the last ten years with controlled locomotive torpedoes, submitted for trial by their respective inventors, but no adoption has followed, though these trials have usually terminated successfully, in so far as proving them capable of fulfilling all the advantages claimed for them. England may therefore fairly claim the distinction, for whatever it may be worth, of being the first country to definitely introduce the controlled locomotive torpedo as a component part of the material necessary for the effective defence of harbors. The controlled locomotive torpedo that our military torpedo commission have recommended the Government to adopt is that one invented in 1876 by a Mr. Brennan, of Melbourne, Australia, and for the exclusive right of the manufacture of which in this country the apparently excessive sum of £110,000 has been obtained.

The Brennan torpedo differs from all others of the same class in its mode of propulsion, which is effected by the rapid unwinding of two wires from two drums or reels carried in the interior of the torpedo, and connected respectively to the two propeller shafts, thereby causing the two propellers to revolve at a high rate of speed, and consequently forcing the torpedo through the water. The unwinding of these two wires is effected by means of a powerful winding engine placed at the starting point on shore. Considerable interest has been evinced in this invention since its first appearance, because of the apparent paradox involved in its mode of propulsion, in that the harder this torpedo is pulled back the faster it will go ahead: but on consideration it will be seen that by hauling in the wires at a certain rate, a corresponding rate of revolution is imparted to the drums, which are fixed to the propeller shafts in the torpedo, and so to the two propellers, which are thereby capable of developing a certain horse power, and if this horse power be sufficient to overcome the retarding strain on the wires, and to leave a margin of thrust, then the torpedo must be propelled through the water; and the only limit to the speed of the torpedo is apparently the strength of the wires.

The Brennan method of steering is also effected in a different manner from that of other torpedoes of its class, being intimately connected with its mode of propulsion, as it is effected by the varying of the speed of revolution of one or other of the drums of the winding engine, and consequently of the respective drum and propeller shaft in the torpedo, which by an ingenious arrangement causes the movement of the rudder to one side or the other.

The introduction of the Brennan torpedo into this country is due to the favorable report of a committee of naval officers appointed by Admiral Wilson, in command of the Australian squadron at the time when it was first brought out; on the strength of this report Mr. Brennan was ordered to bring his torpedo to England to be experimented with by the Royal Engineers; from that time it became a veritable pet of theirs, and now after five years of experi-

mental work they have advised the government to adopt their child. The initial experiments at Chatham were so far successful as to the promise of greater success with an improved torpedo, that Mr. Brennan was awarded the sum of £5,000, and an annual sum of £1,000 for five years to complete and perfect his invention, and now that it has been adjudged perfect he reaps the reward of all his labor by obtaining no less than £110,000 from our Government.

A LETTER FROM LORD WOLSELEY.

HIS OPINION OF GEN. SHERMAN AND MR. JEFFERSON DAVIS.

34 PINE STREET, June 23, 1887.

To the Editor of the Sun:

SIR: I inclose a letter from Gen. Wolseley in reply to the criticism by Gen. Sherman and the attack by Jefferson Davis upon his paper on the character of Gen. Lee. The letter needs no aid in its elucidation, for it is clear, decisive, courteous to the one who laid himself open to effective counter remarks, and contemptuously severe upon the other, whose splenetic insinuations touching Gen. Gordon are answered by allusion to the charge that the defeat of the Confederacy was solely owing to the mismanagement of Mr. Davis.

Respectfully,

CHARLES G. DAHLGREN, of Mississippi.

6 HILL STREET, LONDON, W., June 6, 1887.

To Gen. C. G. Dahlgren:

SIR: I am much obliged for your interesting letter about the criticisms of Gen. Sherman and Mr. Davis upon my short review of Gen. Long's history of Gen. Lee.

You ask me if I mean to answer those comments. I have no such intention. Both those gentlemen had much better, I think, address themselves to Gen. Long upon the historical points they dispute. From his close intimacy with Gen. Lee he is more likely to be correct than they can be regarding the doings of the great men he served so well, and whose history he has written with so much affection and ability.

Anything coming from the pen of a distinguished soldier like Gen. Sherman will always be of interest and weight. I have so much sincere respect for his military character and for his great achievements, that were he to differ from me in opinion upon any campaign in which he, like myself, had taken no part, and of which, therefore, he was, like myself, merely an unprejudiced commentator, I should hesitate before I expressed any views at variance with his. In the present instance, however, I think the outside world, who must be the great jury to eventually settle all such contested matters of opinion, will attach more weight to the opinions of European students of war upon the events of the great Confederate struggle than even to those of the most eminent American Generals like Gen. Sherman, the reason being that men who, like him, played a most distinguished part in that war can scarcely be regarded as impartial judges.

I have read his remarks upon me with deep interest, for he writes like a soldier and a gentleman.

Of poor Mr. Davis's letter I prefer saying little. When I remember his career and his present position, I can sympathize with his dislike to all outside criticism upon the events in which Gen. Lee achieved such immortal renown. I am sorry that a man who had the privilege of being a friend of that high-bred Virginian gentleman and soldier should write as he has done of one who is a complete stranger to him—of one who has committed what in Mr. Davis's eyes is evidently the unpardonable fault of presuming to criticize the policy and acts of the ex-Confederate President. Mr. Davis's self-appreciation causes him to think himself a greater man than those who deal with him historically are prepared to admit. I remain, sir, faithfully yours,

WOLSELEY.

(From the London Telegraph.)

UNIFORMS AT THE JUBILEE.

THE garb of all the armies in the world, save those of France and the United States, seems to be illustrated here—and illustrated in the most vivid manner. Conspicuous by their absence are the simple tunics and shoulder straps of the brave countrymen of Grant, of Sherman, and of Sheridan; but, on the other hand, the martial array of nearly all the Continental nations, and even of Siam and Japan, arrest inspection. The Austrian Army has lately been reclad; the light gray tunic and low black leggings of the Croat grenadier have disappeared and the white tunics of the infantry have been replaced by more convenient and less costly uniforms of blue and gray. Hussars, Uhlans, Voltigeurs, Russian Chevalier Guards, Honveds, pass in a kaleidoscopic panorama; and of Hungarian cavalry uniforms there is a sumptuous exhibition. One panoply of tightly-fitting crimson, one mass of gold embroidery, terminating in Hessian boots with tassels of gold bullion, excites a murmur of admiring comment, while approbation unmingled is bestowed on a hussar dress of blue and gold, in which the "dolman," or jacket hanging loose from the shoulder, formerly worn by our own soldiers, but discarded after the Crimean war, is seemingly of blue satin, trimmed with the richest sable fur. White or cream-colored trousers, seamed with gold, are worn by more than one military magnifico from abroad; one personage of note wears a uniform curiously barred with gold and white, somewhat after the manner familiar in portraits of British admirals of the eighteenth century; and the succession of foreign military raiment is so continuous and so lively that it would be almost a relief to the eye to find this glittering prism momentarily darkened by the sable uniform and the shako, adorned with skull and crossbones, of the Black Brunswickers.

FOREIGN ITEMS.

AN amendment offered last week to the French Army bill permitting priests to serve in the ambulance and hospital corps instead of as soldiers in the regiments was rejected by a large vote.

IN July next one battalion per regiment of the Italian Army is to receive the new repeating rifle. It is expected that Denmark, as the result of recent trials, will adopt the Lee system. A competitive trial with the Remington showed the following results: Initial velocity—Lee, 534 metres; R. 377. Dangerous zone—Lee, 465 metres; R., 325 m. Weight of cartridge—Lee, 33 grammes; R., 33 gr. The rapidity of fire is increased in the ratio of 5.3.

THE principal result of the recent French naval manœuvres is, says the *Avenir Militaire* (Paris), that almost all the torpedo-boats engaged are seriously damaged. The following table of casualties is, says our contemporary, extremely edifying: Loss of the torpedo-boat No. 67 on the coast of Portugal; two torpedo-boats disarmed and put *hors de combat* in returning to Algiers; serious damage to the plates of the gunboat and of the *Doudard de Legrée;* the engines of the torpedo-boat No. 68 disabled; seven torpedo-boats require serious repair. The loss amounts to more than 50 per cent. of the whole flotilla. The armorclad squadron, on the other hand, is uninjured and quite ready for sea.

AT the usual monthly meeting of the London Association of Foremen Engineers and Draughtsmen, on June 4, a paper was read by Mr. G. J. Haggis on "Our Native Army in India." He gave statistics of the strength of the native army in the three presidencies and of the population, showing the male population of British India to be about 120,000,000, of whom 70,000,000 may be said to belong to races sufficiently martial to make fairly good soldiers. If five-sixths of these are exempted on account of age, physical, or mental defects, the requirements of commerce and agriculture, religious objections, and other causes, there will still remain over 10,000,000 of men fully capable of military service.

AT the inspection of a regiment at a tropical station, an officer was lecturing to the men on the resistance of the air, and its effect on the course of the bullet, when the General proposed he should ask a few questions. His first was, "Can you tell me what the air is composed of?" The private he interrogated immediately jumped to his feet, and without a moment's hesitation replied, "It is composed of an innumerable number of small insects pressing against each other, and everything touching them." The inspecting officer could not ascertain whether the man was a wag, or whether the musketry definition of air was above his comprehension: nor could the instructor enlighten him.—*Army and Navy Gazette.*

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO., 106 Wall st., New York.

AN EXTRAORDINARY RAZOR HAS BEEN INVENTED by the QUEEN'S OWN COMPANY of England. The edge and body is so THIN and FLEXIBLE AS NEVER TO REQUIRE GRINDING and hardly ever setting. It glides over the face like velvet, making shaving a luxury. It is CREATING A GREAT EXCITEMENT in EUROPE among experts, who pronounce it PERFECTION. $2 in buffalo handle; $3 in ivory. Every razor, to be genuine, must bear on the reverse side the name of NATHAN JOSEPH, 641 Clay Street, San Francisco, the only place in the United States where they are obtained. Trade supplied. Sent by mail 10c. extra or C. O. D.

ALLAN RUTHERFORD,

(Late Third Auditor U. S. Treasury, late Capt. U. S. Army, and Colonel of Volunteers,)
ATTORNEY AND COUNSELOR AT LAW
(Corcoran Building), F and Fifteenth Streets, Washington, D. C.

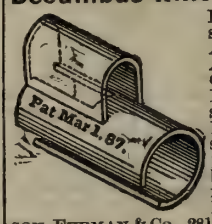
Having been Third Auditor U. S. Treasury for six years, I am thoroughly familiar with the course of business before the Executive Departments at Washington. Special attention given to the settlement of Officers' Accounts, Claims for Pension and Bounty, Claims of Contractors, and generally *all* business before any of the Departments, Congress or the Court of Claims. Refers to Gen. W. S. Rosecrans, Register U. S. Treasury, Washington, D.C.; Hon. John S. Williams, 3d Auditor, U.S. Treasury, Washington, D.C.; Hon. W. P. Canaday, Sergt. at Arms, U. S. Senate, Washington, D. C.: Gen. O. O. Howard, U. S Army.

Cuticura
A POSITIVE CURE.
for every form of
Skin and Blood
Disease
from
PIMPLES to SCROFULA.

SKIN TORTURES OF A LIFETIME INstantly relieved by a warm bath with CUTICURA SOAP, a real skin Beautifier, and a single application of CUTICURA, the great Skin Cure.

This repeated daily, with two or three doses of CUTICURA RESOLVENT, the New Blood Purifier, to keep the blood cool, the perspiration pure and unirritating, the bowels open, the liver and kidneys active, will speedily cure

Eczema, tetter, ringworm, psoriasis, lichen, pruritus, scall head, dandruff, and every species of torturing, disfiguring, itching, scaly and pimply diseases of the skin and scalp, with loss of hair, when physicians and all known remedies fail.



Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG & CHEMICAL CO., Boston, Mass.
Send for "How to Cure Skin Diseases."

PIMPLES, blackheads, chapped and oily skin prevented by CUTICURA MEDICATED SOAP.

SOLID CANE SEAT AND BACK FOLDING CHAIRS, 40 different Patterns. Folding Rockers, Chairs, Arm Chairs, Bed Chairs, Settees, etc. C. O. COLLIGNON, 181 Canal St., N.Y. Mfr and Patentee. Send for Catalogue. Free.

THE MONOCULAR DUPLEX, OR ARTIST CAMERA.—The picture is seen non-inverted and full size, the very instant of making the exposure. Can be accurately focussed, dispenses with Tripod, Focussing-cloth and carrying-case. Leather covered; ready at a second's notice, and will carry eight to ten plates. Price with double holder $75.00. With roll holder, 48 paper negatives secured without changing spools. Price $95. Catalogue free; sample Photo, 15 cents.

Calls attention to his Meerschaum, French Brier and Weichsel Pipes, and Cigar and Cigarette Holders; also IVORY, PEARL, AMBER and TORTOISE SHELL GOODS, for which Medals and Diplomas have been received from all the International Exhibitions. A complete assortment of Walking Sticks, with Ivory, Silver, or Gold Heads—plain, carved or chased a specialty. Price Lists sent upon application. Special attention given to Repairing of Pipes and Fancy Goods, which we receive and return by Mail. Store—125 FULTON ST. Factory—213 to 229 E. 33d St., Address P. O. Box 91 B. N. Y. City.

KINNEY TOBACCO COMPANY beg leave to call attention to their new Pocket Case in which they are now packing their celebrated brand of CIGARETTES.

SWEET CAPORAL WARRANTED: Absolutely Free from any Flavoring or Impurities.
Finest Grades of Old and Thoroughly-cured Virginia and Turkish Tobaccos. Finest French Rice Paper.
Highest Class Skilled Labor. All goods made under our Careful Personal Supervision.

Kinney Bros.

THE *Revue du Cercle Militaire* (Paris) states that the Russian Minister of War has ordered 400 machine guns for fortress use, and a commission presided over by Gen. Obrutschev has now under consideration a project for giving two machine guns to each infantry battalion.

A PARIS despatch says that Gen. Boulanger's military organ has started a canard to the effect that the Government has ordered the troops to fill their knapsacks with cartridges on the occasion of the July fetes, in order to immediately suppress any popular movement in Boulanger's favor.

THE *Revue Militaire de l'Estranger* (Paris) gives the following particulars of the bill for the reorganization of the Greek Army. The army is to consist of ten regiments of the line and eight battalions of Evzones. One battalion of each regiment and two battalions of Evzones are to exist in peace only in cadre. Several schools are to be founded—a school of musketry for officers, a school for the training of officers of Reserve, a riding school, a telegraph company, etc.

A TERRIBLE accident, says the *Progrès Militaire* (Paris), occurred at Chalons June 1, during the artillery practice of the 5th Battalion of Garrison Artillery. The breech of an old 7-centimetre Reffye gun, now obsolete, having been badly closed, it was projected violently backwards, mortally wounding two gunners and seriously endangering the life of a third. The last has received the military medal.

RUMOR has it that Russia has definitely resolved to commence next spring the building of a railroad to the Pacific Ocean by way of Siberia. It is to start at Tomsk, on the Obi River, in Siberia, and run to Vladivostock, on the Sea of Japan, via Irkutsk, Stretinsk and Hankoi, among the compactness of mountain ranges, forming the northern boundary of the Chinese empire, until the valley of the Amoor river is reached. The route from Tomsk to the Sea of Japan would be about 3,000 miles.

THE *Vossische Zeitung* reports from Kiel that the German torpedo fleet now in the North Sea will soon visit the English ports, and specially the first division, commanded by Prince Henry, will go to the south coast of England. The trip is expected to once more prove that the German torpedo boats need not fear the high seas. Repeatedly during rough weather they have steamed round Skagen, and in their last trip into the North Sea. The weather was very stormy. They seem to be superior to the French torpedo boats, not only because they are more seaworthy, but also broader and more comfortable.

MASSACHUSETTS is the headquarters of the shoemaking industry, and for three dollars Mr. W. L. Douglas, of Boston, Mass., offers what he describes as a "stylish, comfortable, well-made shoe, unequalled for wear, and the best three dollar shoe in the world, having what no other shoe offered at that price has, the upper cut in one piece, thus doing

WALTER McFARLAND, Lieut. Col. of Engineers.

Proposals for Purchase of Vessels

NAVY DEPARTMENT, WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY, Secretary of the Navy

WAR DEPARTMENT, NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST., CORNER GREENE, NEW YORK CITY, June 27, 1887.

SEALED PROPOSALS, IN TRIPLICATE, are invited and will be received at this office until 11 A.M., July 28, 1887, for the mason and iron work, etc., called for by specifications "A," and for the carpenter work, etc., called for by specifications marked "B." This work is for the erection of a gymnasium at West Point, N. Y., for which plans and specifications may be seen at this office, and at the Post Quartermaster's office, West Point, N. Y., where also the blank forms of proposals, contracts, etc., can be obtained.

Bidders must state the time within which the work will be completed. Bids must be for all the work, materials, etc., on either of the specifications or on both. Proposals must be made in strict conformity with the plans and specifications, and must be accompanied by a guarantee bond having justification for 20 per cent. of the amount of the proposal, and a bond, with a penalty of 10 per cent. will be required upon execution of the contract. The Government reserves the right to reject any or all proposals.

Envelopes containing proposals should be addressed to the undersigned and marked proposals for gymnasium.

HENRY C. HODGES, Lt.-Col. and Deputy Q. M. Gen., U. S. Army, Depot Quartermaster.

Proposals for Army Supplies.

OFFICE PURCHASING AND DEPOT COMMISSARY, ARMY BUILDING, No. 33 W. Houston Street, NEW YORK CITY, July 5, 1887.

SEALED PROPOSALS, in triplicate, subject to the usual conditions, will be received at this office, until 10 o'clock A. M., on Tuesday, July 26, 1887, for furnishing such supplies as may be required by the Subsistence Department, United States Army:

Subsistence Stores.—Canned Apples, Mocha Coffee, Gelatine, F. and E. Mustard, Amer. and F. Pease, Pickles, Prunes, Toilet Soaps, Thread, Towels, &c., &c., &c.

SEALED PROPOSALS, in triplicate, will be received also until 10 o'clock A.M., Friday, Aug. 5, 1887, for such supplies as may be required, viz.:

Subsistence Stores.—Canned Beef, Y. H. Tea, Vinegar, Currant Jelly, Onions, Pickles, Potatoes, Table Salt, Syrups, Smoking Tobacco, &c., &c., &c.

Subsistence Property.—Letter and Folio Post Paper, Lumber, &c., &c.

Information with conditions, list of articles, quantities, kinds, modes of packing, &c., obtained at this office. The right is reserved to reject any or all proposals.

Envelopes containing bids should be marked "Proposals for Subsistence Supplies," and addressed to the undersigned.

THE GATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.

VOLUME XXIV.—NUMBER 51.
WHOLE NUMBER 1247

NEW YORK, SATURDAY, JULY 16, 1887.

SIX DOLLARS PER YEAR.
SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THE medical officers of the Army are very much on the move just at present under recent War Department orders.

GENERAL CROOK has, by recent orders, required the detail of a lieutenant as officer of the guard at all posts in the Department of the Platte.

PARS. 344 and 513, Army Regulations, which have been occasionally suspended at some posts, are now literally and exactly carried out in the Department of the Platte, to the manifest advantage and improvement of the Service. Possibly, the evening parade at some posts may materially affect the target firing, especially where the rays or heat of the sun are intense or blinding during the earlier part of the day, but this will equalize itself if these paragraphs are similarly enforced at all posts in the Army.

THE Sergeant-Majors and Quartermaster-Sergeants of regiments of the U. S. Army are to petition Congress, through the War Department, asking that the pay of the two grades may be increased "in such amounts as Congress may deem consistent with the rank and the best interests of the Service." The justice of the petition is very evident, as a glance at paragraph 10 of the Regulations and the table of pay of regimental and general non-commissioned staff officers will show, and we trust that Congress will give the petition heedful consideration.

INQUIRY is made of us as to whether it would not be a good idea if captains of long service with troops, were called on to make suggestions in connection with the revision of the Regulations. They are of necessity familiar with the internal economy and needs of the troops, have experience daily, not attainable by staff officers, and possibly might contribute points of advantage to the Service of practical value. Such recommendations, if made, should be arranged by title and for convenience of reference, follow as nearly as practicable the order of subjects as in existing Regulations and each subject or title on separate sheets. The suggestion seems to be of practical utility.

LIEUTENANT-GENERAL SHERIDAN, accompanied by Colonel Blunt of his staff, left Washington on Thursday for Ohio where he will look over the sites offered by bidders for the Newport barracks. An appropriation of $60,000 was made during the last session of Congress for the purchase of a new site for the barracks, they being now in a very undesirable locality. Twelve proposals to furnish sites were recently opened at the War Department. Secretary Endicott wishing to make a wise purchase requested General Sheridan while in the West to visit all the sites offered and report which he considers best adapted for the building of barracks. The General and Colonel Blunt will be absent about ten days, and will probably spend a portion of the time in Chicago.

THE new system of keeping accounts and making purchases for the Navy is now well under way. From all indications it is safe to predict that it will prove a success, and give proof of the correctness of Secretary Whitney's judgment as to the proper conduct of Navy business. The schedules for the purchase of supplies under the new system have been printed, and are now ready for the inspection of persons desiring to bid. The Bureau of Provisions and Clothing has not yet secured all of the additional clerks it needs under the new arrangement. Messrs. Shock and Barringer, expert financial clerks, have been transferred to the bureau, but none of the ten additional clerks required to keep the accounts have yet been provided.

THE *Weekly Champion*, published at Flagstaff, Arizona, in a temperate article on the recent Indian outbreak, says: "We cannot stop to argue questions of Indian policy, while the lives of our citizens are in constant peril. The Government must either remove these Indians, disarm them or keep them on their reservation, and the latter seems to be impossible. They have never been injured or attacked on the broad lands allotted to them, where the Government feeds, clothes, shelters and provides them with all necessaries to keep their lazy bodies in idle and useless existence. As for their simplicity and ignorance, they are as shrewd and cunning in looking after their own interests as the smartest Yankee that ever breathed. The duty of the Government in dealing with the reservation Indians is so plain that there should be no hesitancy in their adopting it. First disarm, then remove them."

ACTIVE preparations for the contractor's power trial are in progress on the *Chicago*, but owing to the determination of Secretary Whitney not to commission the vessel until after the test, the advance toward completion is necessarily slow, and the mistake of ordering officers to a vessel not in commission for the purpose of fitting her for sea is daily more apparent. To those familiar with such things it is known that the delays on the *Atlanta* and *Boston* have been in spite of their being in commission and not by reason thereof. The *Chicago* came out of dock the latter part of last week and now occupies the berth at the Navy-yard coal wharf lately vacated by the *Atlanta* and just ahead of the steel cruiser *Boston*. The latter vessel is nearly ready for her power trial, and will probably be subjected to the six hour full speed tests in a short time. Captain Ramsay of the *Boston* finds his cabin one of the hottest places in the ship, and is trying to devise some method for a reduction of temperature. An inner sheathing of non-conducting material, enclosing an air space, has been suggested, and it is likely that something will be done looking to greater comfort in this particular.

A CORRESPONDENT who likes "to see target practice conducted as it ought to be," refers to certain paragraphs of Blunt's Manual and to par. 5, Army Regulations, and says: "The spirit and letter of these is that commissioned officers should be present *in the pit* as well as at the firing stands. It is not uncommon for officers, in the hearing of men, to crack jokes about certain organizations and scores, and to insinuate that they have good markers, etc. This is questionable taste. It is not a good idea to implant in the minds of the profession a distrust of the certificate of any officer; to make people believe by sly jokes and half-concealed innuendoes that the scores quoted are fraudulent, and that the officers reporting them are liars." Our correspondent then suggests that the remedy for this condition of affairs is the paragraphs of Blunt's Manual referred to, plus a continuous pit at every post where more than one firing organization is stationed. "At some posts separate pits exist. This is to hold the door open to the possibility of error through the lack of an officer's supervision. At every post there should be a continuous pit. An officer should always be, during firing, in that pit. He can thus have every marksman under his personal supervision. The possibility of collusion between the firing (that is the scoring) organization and the working detail is thus averted. The officer should be called a 'pit' officer. He should be detailed daily by the post commander, just as the officer of the day or officer of the guard is detailed. He should be put on honor to certify that he has done his duty."

THE Philadelphia *Press*, referring to the benefits accruing to young men from a system of military drill at colleges, says: "Habits of command and organization are of advantage to all who have control of men in any walk of life. A graduate of one of these colleges, who was employed in a large engineering enterprise, was soon elevated to the position of foreman, and he attributed his promotion to the habit of commanding the college corps which he had acquired as an officer. Another was employed in one of the largest mercantile houses in an Eastern city and he soon rose to a leading position, taking executive charge of the other employees. His experience in commanding the students in their military exercises was again cited as the reason for his promotion. It would seem then that even if the graduates of these colleges are never called to bear arms their training is likely to be of service in many other directions."

A GENERAL Order, issued this week from the Headquarters of the Army, states that the Quartermaster's Department will not furnish transportation in kind to officers of the Army travelling under orders. This will be a relief to those officers of the Army who were inclined to complain because the new law seemed to involve some extra trouble in procuring their passage money. The law requires that transportation shall be furnished by the Quartermaster's Department, if practicable. According to General Holabird, whose recommendations prompted the recent order, it will not be practicable in any case for want of transportation funds. Although the law was changed so as to require his department to furnish transportation, General Holabird says no extra appropriation was made for the purpose, and as a large limit of the regular transportation fund has already been set aside to carry out the important changes in stations of troops this summer, there is little money available to pay the travelling expenses of officers. The Pay Department will therefore be compelled to pay mileage and transportation in all cases except where travel is performed in stages and over land-grant railroads. As the appropriation under the Pay Department available for this purpose is only $85,000, or $45,000 less than the appropriation for last year, it is difficult to see how a very large deficiency in the Army mileage account is to be avoided during the current fiscal year, unless Congress early next fall should add to the appropriation for transportation, the amount cut off of the mileage fund for the year, as it proposed to do last year, but did not do. Even with the appropriation of $130,000 for the fiscal year just closed there was a deficiency of about $3,000, and this too after orders had been issued, stopping all travel some time before the close of the year.

PERSONAL ITEMS.

GENERAL M. C. MEIGS, U. S. A., has been enjoying the sea breeze at Atlantic City, N. J.

LIEUTENANT J. A. IRONS, 20th Infantry, arrived this week at Fort Leavenworth for duty.

COLONEL CHAILLE LONG has been appointed Consul-General and Secretary of Legation to Corea.

MAJOR H. S. HAWKINS, 10th U. S. Infantry, and family, are visiting relatives at Wilmington, Del.

LIEUTENANT D. H. BOUGHTON, 3d Cavalry, and bride spent a portion of the week in Washington, D. C.

CAPTAIN SAMUEL MUNSON, 9th Infantry, has left Fort Mojave, Ariz., for a few weeks for the benefit of his health.

GENERAL C. C. AUGUR, U. S. A., surrounded by friends, quietly celebrated his 66th birthday on Sunday last, July 10.

GENERAL A. W. GREELY, U. S. A., is spending a portion of the summer in England and combining business with pleasure.

CAPTAIN J. H. PATTERSON, 20th U. S. Infantry, and party, registered at the Hotel Meurice, Paris, France, early in the week.

LIEUTENANT E. F. WILLCOX, 6th Cavalry, after a tour of staff duty at Fort Leavenworth, has rejoined his troop at Fort Union, N. M.

MAJOR CHAS. A. WIKOFF, 14th Inf., of Gen. Gibbon's staff, will conduct the Department of the Columbia rifle competitions this year.

CAPTAIN F. W. HESS, 3d U. S. Artillery, rejoined at Washington Barracks, D. C., on Monday, from a week's visit to his family in Maryland.

GENERAL H. A. MORROW, U. S. A., was expected to conclude, this week, the trial of Captain C. H. Greene, 17th Inf., at Fort Laramie, Wyo.

CAPTAIN J. H. CALEF, 2d U. S. Artillery, and Mrs. Calef, of Fort Monroe, Va., have been spending a brief season with relatives at Seabright, N. J.

CAPTAIN D. M. SCOTT, 1st Infantry, recruiting officer at Washington, D. C., is spending the summer at Fauquier Springs, Fauquier County, Virginia.

LIEUTENANT G. J. GODFREY, 12th Infantry, rejoined at Madison Barracks, N. Y., this week, from a brief visit to friends before leaving for Dakota.

LIEUTENANT F. W. ELLIS, Signal Corps, U. S. A., visited St. Paul a few days ago en route to Duluth to inspect Signal Service stations in the Northwest.

LIEUTENANTS B. W. ATKINSON, 6th Infantry, and W. S. Scott, 1st Cavalry, have had their orders of relief from the School at Fort Leavenworth revoked.

SURGEON W. S. TREMAINE, U. S. A., was expected in New York City from Fredonia this week, to appear before the Retiring Board at Governor's Island.

PAYMASTER-GENERAL ROCHESTER, U. S. A., is building a cottage on the bluff overlooking Vineyard Haven Harbor, Cottage City. It is nearly ready for occupancy.

CAPTAIN J. P. STORY, 4th U. S. Artillery, commandant of Fort Warren, Mass., rejoined there on Tuesday from a week's vacation partly spent at Provincetown.

CAPTAIN H. O. PERLEY, Assistant Surgeon, U. S. Army, now at Fort Snelling, is fortunate in his assignment to Fort Wayne, Mich., as he has relatives residing in Detroit.

LIEUTENANT J. B. EATON, 3d U. S. Artillery, bade good-bye to friends at Washington Barracks this week, and started for Richmond, Va., to open a recruiting rendezvous there.

MR. ALBERT E. ALLSWORTH, son of Capt. Edward Allsworth, U. S. Army, retired, of Washington, D. C., was married at Brooklyn, July 2, to Miss Florence L. Bassett, of that city.

LIEUTENANT W. E. WILDER, 4th Cavalry, relinquished recruiting duty at St. Louis this week and went on leave. He will join his troop at Fort Bowie, Ariz., about the middle of September.

LIEUTENANT GEORGE BELL, JR., 3d Infantry, who has been visiting his father, Gen. Bell, in New York City, was to leave David's Island this week for St. Louis en route to his company at Fort Missoula.

MAJOR J. H. JANEWAY, Surgeon, U. S. A., much to the regret of his many friends at Governor's Island, where he has been on duty for several years, goes from there to Benicia Barracks, Cal. His family will remain in New York for the present.

COLONEL RICHARD LODOR, U. S. A., of Washington Barracks, arrived at the State camp, at Peekskill, N. Y., this week, and relieved Colonel C. L. Best, 4th U. S. Artillery, who has returned to Newport, R. I. Colonel Best paid a few visits in New York en route.

GENERAL WESLEY MERRITT, U. S. A., and his aide, Lieutenant Swift, have been heartily welcomed at Fort Leavenworth, Kas., and are now pleasantly settled in their new surroundings. Generals Merritt and McCook, both on duty at Fort Leavenworth, make a strong team.

CAPTAIN JOHN E. GREER, Ordnance Corps, U. S. Army, left Fort Leavenworth this week for New York for duty at Governor's Island. The Kansas City *Times*, referring to his departure, says: "Capt. Greer has been on duty in this Department since 1883, during which time he has drawn around him a large circle of friends. Kind and courteous to all who were thrown into social or business relations with him, none will regret his departure more than his subordinates, who hold him in high esteem. Mrs. Greer and her interesting family will also be much missed from the social circles of the garrison, and both Captain and Mrs. Greer will carry with them to their new and pleasant station in New York the best wishes of those who had the pleasure of their acquaintance."

LIEUTENANT W. A. SHUNK, 8th U. S. Cavalry, and Mrs. Shunk are visiting relatives at Atlanta, Ga.

ASSISTANT SURGEON J. J. COCHRAN, U. S. A., on leave from San Francisco, was in Washington this week.

CAPTAIN G. S. ANDERSON, 6th Cavalry, left Durango, N. M., July 7, with his troop en route for Fort Myer, Va.

WE have to congratulate Capt. H. H. Ketchum, 22d U. S. Inf., on the arrival of a son at Fort Lewis, Col., July 5.

LIEUTENANT A. C. SHARPE, U. S. A., was in Dayton, O., this week inspecting the camp of the 13th Regiment, O. N. G.

CAPTAIN IRA MACNUTT, U. S. A., was expected to leave Philadelphia, Pa, this week for duty at Watertown Arsenal, Mass.

COLONEL ANTHONY HEGER, Surgeon, U. S. A., took charge of medical matters at Fort Columbus, N. Y. Harbor, on Monday.

LIEUTENANT JOHN BIDDLE, Corps of Engineers, U. S. A., left St. Paul, July 7, for the East, to be absent about three weeks.

CHAPLAIN O. J. NAVE, U. S. A., visiting at Delaware, O., has had his sick leave extended until the end of November next.

LIEUTENANT C. D. CLAY, 17th Infantry, relieved last week from duty at Fort Leavenworth, Kas., is visiting at Lexington, Ky.

GENERAL W. T. SHERMAN, U. S. A., has written a paper on "The Grand Strategy of the War," which will appear in the *Century*.

LIEUTENANT E. S. BENTON, 3d U. S. Artillery, has returned to Newport Barracks, Ky., from a visit to the camp of the Ohio troops.

COLONEL GEO. P. ANDREWS, U. S. A., retired, whose death July 2 at Fort Point, Cal., we announced last week, died of paralysis of the heart.

LIEUTENANT J. A. IRONS, 20th U. S. Infantry, arrived at Fort Leavenworth this week for duty at the U. S. Infantry and Cavalry School.

LIEUTENANT Z. B. VANCE, JR., 19th Infantry, is visiting relatives at Columbia, S. C., and will join his regiment in Texas early in September.

JUDGE ADVOCATE ASA BIRD GARDINER, LL. D., of the U. S. Army, has been elected Assistant Secretary of the Rhode Island Society of the Cincinnati.

IT is announced that Miss Mollie Garfield will be married soon to Stanley Brown, who was private secretary to her father, the late President Garfield.

LIEUTENANT J. T. THOMPSON, 2d U. S. Artillery, was at Selma, Ala., this week, busily engaged at the encampment of the 3d Regiment, Alabama State Militia.

GENERAL W. T. SHERMAN, U. S. A., sailed last week for Halifax in Mr. Bateman's yacht *Meteor*. Thence he goes to Lake George, where his family is stopping.

LIEUTENANT E. S. BENTON, U. S. A., and Mrs. Benton, of Newport Barracks, Ky., chaperoned a few days ago a jolly private picnic party up the Licking River.

LIEUTENANT R. G. PROCTER, 5th U. S. Artillery, of Fort Hamilton, N. Y. H., is still quite sick at Auburn, Ky., and will not be able to join for several weeks to come.

CAPTAIN G. H. TORNEY, Assistant Surgeon, U. S. A., returned to Fort Monroe, Va., on Thursday, from a farewell visit to friends prior to his departure for Fort Robinson, Neb.

COLONEL M. P. MILLER, U. S. A., of Major General Schofield's staff, visited the rifle practice camp, at Creedmoor, New York, this week, and was an interested observer of the firing.

CAPTAIN C. K. WINNE, assistant surgeon, U. S. A., well known in New York in years gone by, will shortly come here from the Pacific Coast for duty at Fort Wadsworth, Staten Island.

HENRY A. SCHROEDER, who resigned some time ago as 2d lieutenant 4th U. S. Artillery at Fort Adams, R. I., to escape inevitable dismissal if tried, was arrested recently in Washington for stealing a watch and chain belonging to Lieut. Louis Ostheim, 3d U. S. Artillery, of Washington Barracks.

WILLIAM WAYNE, a descendant of "Mad Anthony" Wayne, presided at the annual meeting of the Society of the Cincinnati, held last week in Philadelphia. The society has in its possession a fund of $128,000 for the erection of a statue to George Washington. The site for the statue is on a bold promontory overlooking Girard Avenue Bridge where it crosses the Schuylkill.

1ST LIEUT. CHAS. F. MASON, assistant surgeon, U. S. Army, after being in the service about a year, resigned a few months ago to engage in private business. He was not so successful as he had hoped, and soon wished to re-enter the Army Medical Corps. The Surgeon-General thought well of the young physician, and recommended to the Secretary of War that he be granted an examination for reappointment. A Board met in Washington on Wednesday to examine Dr. Mason.

MRS. LIEUTENANT CHASE, of the U. S. Army, says the San Francisco *News Letter*, "gave a delightful ladies' whist party, at her picturesque home at Fort Point, during her visit here, at which Kate Field was an honored guest. Among those present were Mrs. Col. Shafter and her accomplished daughter, of Angel Island; Mrs. Col. Piper, Mrs. Dr. Tilton and her sister, Mrs. Seymour and Mrs. Major Bennett, all of the Presidio; Mrs. Stanton, Miss Medora Clarke, the poetess, and many other ladies from the city and the forts in the harbor. The prize was an exquisite piece of Japanese embroidery, and the winner, Mrs. Maj. Eagan, of the Occidental. Some of the costumes worn were of Paris importation, and the collation was recherché, and served most daintily. The 1st Artillery Band discoursed sweet music from the terrace, which was highly appreciated by the delighted guests."

MAJOR W. P. HUXFORD, U. S. A., and family are at Cottage City, Mass.

LIEUTENANT M. P. MAUS, 1st U. S. Infantry, will spend next winter abroad.

LIEUTENANT F. G. IRWIN, 2d Cavalry, is visiting relatives at Clarksville, Tenn.

CAPTAIN ELI HUGGINS, 2d U. S. Cavalry, has left Fort Walla Walla on a few weeks' leave.

LIEUTENANT H. G. SQUIERS, 7th U. S. Cavalry, of St. John's College, Fordham, is at Yonkers, N. Y.

MAJOR-GENERAL JOHN POPE, U. S. A., and family, have gone to Frontenac, Wis., for the summer.

LIEUTENANT G. P. SCRIVEN, 3d Artillery, has left San Antonio for the North on a month's leave.

COLONEL CHAS. SUTHERLAND, U. S. A., is spending a short leave with his family at Leamington, N. J.

CAPTAIN C. C. MACCONNELL, U. S. A., was in Cincinnati this week with quarters at the Burnet House.

GENERALS CROOK AND DANDY and Lieut. Kennon, A. D. C., are on an official tour through Utah and Wyoming.

LIEUTENANT J. A. DAPRAY, A. D. C. to Gen. Miles, was expected at Fort Leavenworth this week on a brief visit.

PROFESSOR P. S. MICHIE, U. S. A., of West Point and family, are at Fisher's Island, near New London, Conn.

LIEUTENANT GEO. BELL, Jr., 3d Infantry, left New York this week for Jefferson Barracks, Mo., en route to Montana.

LIEUTENANT C. C. CUSICK, 22d U. S. Infantry, has established his recruiting rendezvous at 341 Congress street, Portland, Me.

LIEUTENANT GEO. PALMER, 9th U. S. Infantry, has got settled into his new quartermaster's duties at Whipple Barracks, Arizona.

CAPTAIN F. W. THIBAUT, 6th Infantry, will be the officer from that regiment for recruiting service for two years, commencing Oct. 1 next.

LIEUTENANT H. C. HALE, 12th U. S. Infantry, rejoined at Fort Niagara, N. Y., early in the week, from a brief visit to friends at Buffalo.

LIEUTENANT J. A. BUCHANAN, 14th Infantry, is soon to take his old place again in the Rebellion Records Office, presided over by Col. Lazelle.

LIEUTENANT YOUNG, of the Surrey Regiment, British Army, has been sentenced to eight months' imprisonment for abducting a girl of seventeen.

QUEEN KAPIOLANI arrived in New York from Europe early in the week, and will soon be home, and with King Kalakua, to console him in his recent and present troubles.

LIEUTENANT H. L. RIPLEY, 3d U. S. Cavalry, after a pleasant tour of staff duty at Headquarters Department of the Missouri, Fort Leavenworth, will soon join his troop in Texas.

CAPTAIN C. W. WHIPPLE, Ordnance Corps, U. S. A., lately at Governor's Island, arrived at Fort Leavenworth July 9, and has entered upon duty on the staff of Gen. Merritt.

LIEUTENANT A. S. CUMMINS, 4th Artillery, left Fort Warren, Mass., on Monday on a week's leave. He will not join at the University of the Vermont until after the vacation season.

OWING to the absence of Dr. Baxter, who is on leave of absence in Canada, the examination of Captain James F. Simpson, 3d Cav., by the Holabird Retiring Board, was postponed again on Tuesday until next week.

MAJOR C. B. THROCKMORTON, 2d U. S. Artillery, of Jackson Barracks, La., visited Fort Henry, near Pass Christian, Miss., this week to look over the ground prior to the artillery encampment to be held there early in August.

THE eldest daughter of the late Gen. Worth, U. S. Army, has been removed recently from a clerkship in the Quartermaster-General's office in Washington. Miss Worth is about sixty years of age, quite feeble, and she has been in the Government service a great many years.

A DESPATCH from Alexandria Rapide Parish, La., announces the destruction by fire of an old landmark—the brick building built for and occupied by Gen. W. T. Sherman when he was President of the Louisiana State Seminary, the few years preceding the war, and which he vacated when he went North to enter the Federal Army.

CHAPLAIN S. M. MERRILL, U. S. A., delivered an oration on Gen. Grant recently at Fort Davis, Tex., which is described by the Fort Davis *News* as "a masterpiece, well worthy of the powerful intellect that arranged thought after thought in logical array, clothed in choicest words of our language, that sank deep in the memories of the large audience."

GENERAL JOHN GIBBON, U. S. A., is contributing to the Philadelphia *Weekly Press* a series of "Personal Recollections of the Civil War." His article on Gettysburg in the number of July 6 is especially interesting. It contains two important letters of General Meade never before published. The *Press* will follow the articles of General Gibbon with other important and interesting papers on the war by General Webb Colonel Charles Marshall of General Lee's staff, and others.

COLONEL G. V. HENRY, U. S. A., and Mrs. Henry, says the Omaha *Bee*, while returning from Fort Omaha late in the evening of July 8, were set upon in their carriage and an attempt at robbery made. Just beyond the school house Col. Henry discerned two men crouching at the edge of a close growth of underbrush. He ordered his man to whip up and drive rapidly past them. Notwithstanding this precaution, however, the two footpads both rushed out, and while one made a futile attempt to check the horses the other drew a revolver, and as he saw that his victims had escaped, with a profane cry sent a bullet hurling after them.

GENERAL JAMES OAKES, U. S. A., and family are at the Aldine, Saratoga.

LIEUTENANT OMAR BUNDY, 3d U. S. Infantry, is visiting in Indianapolis.

GENERAL F. F. FLINT, U. S. A., registered at the Sturtevant House, New York, on Thursday.

LIEUTENANT J. R. WILLIAMS, 3d Artillery, arrived in New York, July 14, from Europe. He will join to Fort McHenry, Md,, about the middle of August.

LIEUTENANT PHILIP READE, 3d Infantry, by invitation, accompanied the 2d Regiment, Illinois National Guard, July 9, to Springfield, Ill., for the purpose of seeing the rifle range at the annual encampment there.

GENERAL SHERMAN was in Boston this week, the guest of Commo. Batemann, of the yacht *Meteor*. He is on his way to St. Lawrence, where he inteuds to take a steamer and join his family by way of Lake Champlain. On the *Meteor* are Gen. Robert Macfeely and Col. Sheridan, brother of Gen. Sheridan

THE following Army officers are registered at the War Department this week: Capt. John J. Cochran, Medical Department; 1st Lieut. C. W. Harrold, 3d Art.; 2d Lieut. Benjamin W. Atkinson, 6th Inf.; Capt. William H. Merrell, retired; 2d Lieut. Charles N. Clinch, 3d Cav.

LIEUTENANT J. A. IRONS, 20th Infantry, who arrived at Fort Leavenworth early in the week for duty at the School as instructor of photography, shortly after his arrival received a telegram from the adjutant of his regiment, that Colonel Otis has appointed him quartermaster, to succeed Lieutenant J. F. Houston, whose term of four years expired June 30, and desired to know if he would accept. As a captain's pay goes with the position, Lieutenant Irons telegraphed his willingness to serve and also wired the War Department asking to be relieved from duty here. Whether the Department will sanction the request remains to be seen.—*Kansas City Times.*

THE Vancouver *Independent* of July 6, says:

Cadet Sladen at Vancouver Barracks Friday.. ...On Friday Lieut. H. C. Cabell, 14th Inf., returned from his European trip.....Capt. E. L. Huggins, 2d Cav., has left Portland for San Francisco .....J. H. G. Lazelle, son of Colonel Lazelle, has been admitted as a cadet-at-large at West Point .....Col. G. H. Mendell, Engineer Corps of the Division of the Pacific, returned to San Francisco this week after a lengthy inspection of Government works in Oregon and Washington.....Lieut. R. B. Bryan, 2d Cav., Fort Cœur d'Alene, Lieut. F. F. Eastman, 14th Inf., Vancouver Barracks, and Lieut. C. F. Roe, 2d Cav., Fort Walla Walla, were this week at Puget Sound on a brief trip.....The 14th Inf. and Bat. E, 1st Art., furnished the chief attractions of the 4th of July procession at Portland .....Col. Thomas M. Anderson, 14th Inf., receives well merited praise for his masterly handling of the huge 4th of July parade in the city of Portland.

REAR ADMIRAL SELFRIDGE, U. S. N., is visiting at Conanicut, R. I.

LIEUTENANT J. V. B. BLEECKER, U. S. N., and family are at Champlins, Jamestown, R. I.

LIEUTENANT THEODORIC PORTER, U. S. N., son of Admiral Porter, has joined the *Ossipee* at Boston, Mass.

SURGEON NELSON McP. FEREBEE, U. S. N., of Norfolk, Va., is spending July with his family at Oxford, N. C.

CHIEF ENGINEER S. D. HIBBERT, U. S. N., has returned to Norfolk, Va., from a visit to his farm near Philadelphia.

REAR ADMIRAL C. H. BALDWIN, U. S. N., arrived in New York from Paris on Sunday and will spend the summer at Newport,

CHAPLAIN J. R. MATTHEWS, U. S. N., lately of the *Trenton*, has been placed on waiting orders and has gone to his home near Sing Sing, N. Y., where his young son was recently drowned.

IT is understood that the brother of Mr. W. B. McFarland, the Washington correspondent who accompanied the President on a recent yachting trip down the Potomac, will be appointed a cadet at large to the Naval Academy next month.

ASSISTANT ENGINEER A. T. WOODS, U. S. Navy, has offered his resignation, to take effect at once. He applied for leave until next December but this was not granted him. It is supposed that Mr. Woods will accept a professorship in the Illinois University, from which he was recently detached.

WM. H. W. MARKHAM, assistant paymaster of the British war vessel *Espoir*, who absconded from it off the coast of China about a year ago after forging the name of his superior officer for about $15,000, was arrested July 14 in Kansas City. The despatch says: "On July 15 he will start on the road to England and a long term of penal servitude."

AMONG the recent arrivals at Newport, Conanicut Island, are Rear Admiral Clark H. Wells, U. S. N., retired, who will remain at this delightful resort until early autumn, and Lieut. J. V. B. Bleecker, U. S. N., of New York. This latter officer is well-known in New York society, and was retired from the active list of the Navy a few years since, for physical disability incurred in the line of duty.

THE wife of Comdr. Chas. O'Neil, of the Navy, left Brooklyn on Saturday last for a few weeks' sojourn with her sisters in Massachusetts. Mrs. O'Neil will be remembered as Miss Frothingham, of Charlestown, Mass. Comdr. O'Neil will join his wife later in the season, but just now his duties as Inspector of Ordnance occupy about all of the time at his command, and the recent detachment of Lieut. Calhoun, imposes even heavier duties upon him.

PASSED ASSISTANT ENGINEER ROBERT D. TAYLOR, of Philadelphia, has reported for temporary duty on board the U. S. S. *Chicago*, and on the conclusion of this duty it is not unlikely that he will be attached to one of the vessels fitting out at the Brooklyn Navy-yard, either the *Enterprise* or *Nipsic*. Mr. Taylor was for some time attached to the Washington Navy-yard, but under the operation of the order transforming that Yard into an ordnance factory, he was detached and has since been on waiting orders in the City of Brotherly Love. This officer's last cruise expired in September, 1884.

REAR ADMIRAL W. E. LEROY, U. S. N., registered at the Victoria Hotel, New York City, early in the week.

CAPTAIN GEORGE BROWN, U. S. N., returned to Norfolk, Va., early in the week from a short visit to Annapolis.

ADMIRAL PORTER, U. S. N., and family, and Lieut. Jackson, U. S. N., and family are at Spring Lake, New Jersey.

PAY DIRECTOR RUFUS PARKS, U. S. N., returned to Norfolk, Va., early in the week, from a trip to Washington.

LIEUTENANT CHAS. W. JUNGEN, U. S. N., and Mrs. Jungen, are recent guests at the Occidental, San Francisco, Cal.

SECRETARY WHITNEY, according to the Washington *Sunday Herald*, expends over $100,000 per annum in charities.

BOATSWAIN HALLOWELL DICKINSON, U. S. N., left Norfolk, Va., this week on a month's visit to relatives at Bath, Me.

THE remains of Capt. S. P. Griffin, late U. S. N who died in Colon July 4, have been interred in the Panama Cemetery.

LIEUTENANT ALLAN G. PAUL, of the U. S. Navy, has taken temporary quarters on Yznaga Avenue, Newport, and is a social favorite on all hands.

FIVE vacancies among the Chief Engineers of the Navy have occurred since Jan. 1, viz.: Chief Engineers Nicoll, Snyder, and Hunt, died, and Chief Engineers Lamdin and Smith, retired.

P. A. ENGR. JAS. H. PERRY, U. S. N., lately of the *Dolphin*, has been assigned to the *Chicago*, and will probably form part of her complement when this vessel is commissioned for sea-service.

LIEUTENANTS C. M. PERKINS, U. S. Marine Corps, on a month's leave from the *Richmond*, is at the Sturtevant House, New York. Congratulations are in order on the arrival of a daughter, born July 9.

P. A. ENGR. H. E. FRICK was admitted to the Brooklyn Naval Hospital last week, suffering from a severe attack of malaria, joined to an old-standing stomach trouble. At the time of his attack, Mr. Frick was on temporary duty on board the *Chicago*. His wife came on from Philadelphia, remaining but one day.

PAY INSPECTOR STEVENSON, general storekeeper at the New York Navy-yard, has about finished the changes found necessary in the dwelling house assigned for his use, and has succeeded in making its interior one of the pleasantest in the yard. The trimmings are natural wood, and the walls kalsomined in French grey.

A NAVAL Court-martial to consist of Capt. G. C. Wiltse, Comdr. Charles S. Cotton, Comdr. Phil. H. Cooper, Lieut.-Comdrs. G. C. Reiter and E. S. Houston, Lieuts. B. S. Richards and Hugo Osterhaus, as members, and Lieut. S. C. Lemly, Judge-Advocate, convened at Norfolk, July 15, for the trial of Boatswain John A. Brisco, charged with drunkenness on duty.

THE precarious condition of health in which the wife of Medical Inspector Hudson is at present is the cause of the change made in the medical officer of the *Trenton*, as recorded in last week's Gazette, and it is feared that Mrs. Hudson's health will never materially improve. A prolonged stay in Florida has been recommended, and now that the doctor is free from the trammels of ship life it is not improbable that the recommendation will be carried out.

PASSED ASSISTANT ENGINEER ENTWISTLE, having been relieved from duty on the *Minnesota* and placed on waiting orders, will probably soon be ordered for examination, a vacancy having been made by the sudden death of Chief Engr. Snyder. Unless Mr. Entwistle should object, it is probable that he will be examined before the Board at Philadelphia adjourn for the usual summer vacation. Asst. Engr. Warburton is now before the Board, and immediately upon the re-assembling in September Asst. Engr. C. C. Kleckner will be ordered for examination. Mr. Kleckner is temporarily attached to the *Chicago*, but on the completion of the duty of testing the machinery of this vessel, it is likely that a leave will be granted him for preparation for examination.

JAMES W. GRAYDON, late lieutenant, U. S. Navy, is reported to be now in Indiana engaged in procuring a divorce from his wife, a New Orleans lady, whom he met while still in the United States Navy. He was married to her in October, 1876, and at the expiration of his leave he was ordered on duty at Washington, D. C., and remained there until 1884, when he was ordered to China. While in China he was joined at Hong Kong by his wife and two children and all his wife's family, consisting of her father, mother, and two sisters, for all of whom he provided, according to the statement on which he founds his claim for divorce. While temporarily residing at Hong Kong in June, 1885, his business called him away a short distance, and, on his return, he found that his wife, with the assistance of her relatives, had packed up all his effects and was about to abandon him. She did immediately leave him, and with her relatives sailed for the United States, landing at San Francisco. Before leaving on his business trip he gave her a blank check signed by him on the Hong Kong and Shanghai Banking Company, to be filled out by her for such a sum as she needed for household expenses. While he was away, the complaint alieges, and without his knowledge, or consent she filled out a check for a sum covering his entire balance in the bank which amounted to about $27,000—all the money or property of value he possessed. With this money, the children and his personal effects, including private trunks, she abandoned him. He was, he says, suffering at the time from a severe injury, and as soon as he was able he came to San Francisco, where she had been temporarily stopping, and wrote to her, offering to support her and their children, but she refused to answer him. She and the family soon afterward left San Francisco, and her present address, he alleges, is now unknown to him. Upon this statement of grievances he asks the Court to grant him a decree of separation from Mrs. Graydon.

RECENT DEATHS.

HERR ALFRED KRUPP, the famoms metal founder, and manufacturer of large steel cannon, died July 14, at his residence near Essen, Rhenish Prussia. Of him the N. Y. *Sun* says: "Sixty years ago his father started the works on a very small scale, and with limited means. At first he employed only two workmen. The manufactory had grown to large proportions before old Mr. Krupp's son, Alfred, made the discovery that put his establishment far ahead of all similar concerns in the world. He discovered the method of casting steel in very large masses. In 1851 he sent to the London Exhibition a block of steel weighing 4,500 pounds, and he has for years been able to cast steel in blocks weighing more than 400,000 pounds. Krupp made his first cannon in 1846. The guns he produced at that time were small field pieces, but he rapidly increased the size of his cannon, and twenty years ago they were bought in large numbers by all the European powers. For several years past Krupp has given regular employment in his iron mines, steel factories, and foundries to over 15,000 men. In 1864 Krupp declined to accept to accept the letters of nobility offered to him by the King of Prussia. He was one of the wealthiest men in Germany, and did much for the welfare of his numerous employees."

BOATSWAIN CHARLES MILLER, retired, who died in Philadelphia July 2, enlisted Sept. 21, 1860, and served with much credit throughout the War, being specially commended on several occasions for bravery. He was in the battle of Mobile Bay with Admiral Farragut, and after the battle the Admiral ordered a boat's crew from the *Seminole* to clear the channel of torpedoes. Boatswain Miller was given charge of the expedition, and while performing his duty a concealed torpedo exploded, killing 20 men. He was badly wounded and was confined to his bed for more than a year. About seven years ago he was stricken with paralysis.

MRS. MARIA ANTONIO RICHARDSON, who died at San Quentin July 4, eighty-four years of age, was the daughter of Lieut. Enacio Martinez, commandant of the Mexican garrison at the Presidio in the early part of this century. She was born at the Presidio June 13, 1803, and married Capt. Wm. Richardson, the founder of San Francisco, May 3, 1825.

GENERAL WALTER C. WHITAKER, who died, July 10, at his home in Kentucky, served during the Mexican War as a Lieutenant of the 3d Regiment of Kentucky Volunteers. During the War he rendered gallant service, being appointed Brigadier-General of Volunteers in 1863 and mustered out in 1865, when he returned to the practice of law.

MISS LOUISA TILGHMAN, sister of the late Lieut. Richard Lloyd Tilghman, U. S. N., died at the residence of her brother-in-law, Dr. Charles Lowndes, near Easton, July 11, in the 60th year of her age.

MIDSHIPMEN H. G. JENKINSON, F. J. Taylor and A. W. J. Stewart, of the British man-of-war *Canada*, were drowned, July 10, at Halifax, while taking a sail in the harbor.

GENERAL RICHARD ROWETT, a distinguished volunteer officer during the war, and wounded at Shiloh, Corinth, and Altoona, died suddenly at Chicago July 13.

MRS. WHEELER, mother of the late Lieut.-Comdr. W. K. Wheeler, U. S. N., and of Mrs. Seely, wife of Capt. H. B. Seely, U. S. N., died at Delhi, N. Y., July 3.

BENJAMIN HOLLADAY, of Overland stage fame and so well-known to many of our older Army officers, died, July 8, at Portland, Ore., aged 68.

MR. J. T. SQUIERS, father of Lieut. H. G. Squiers, 7th U. S. Cavalry, died July 2, at Faribault Minn.

MRS. PICKETT'S THANKS.

MRS. G. E. PICKETT, widow of Gen. George E. Pickett, has written a letter to the Pickett Division Association, Richmond, in which, returning thanks, she says: "To the gallant ex-soldiers and citizens of Pennsylvania are we indebted for courtesies that can never be forgotten. Words cannot convey our gratitude and time cannot efface the hallowed memories of the events of July 2, 3, and 4, 1887. Regal entertainment has its expression in lavish expenditure of money—empty display of pomp and splendor—but our entertainment was a lavish expenditure of soul, a display of chivalry and heartfelt rivalry, wherein the men of Pennsylvania vied with our own cherished sons in doing honor to us, not for any merit of our own, but in memory of the brave chivalric soldier, and loving and devoted husband and father, your own loved and loving commander who has gone to his reward. As a result of the reunion the bitternesses of the past are buried and the brave and loyal hearts of both North and South are firmly cemented under the old Stars and Stripes, the emblem of our fathers, in defence of which at home and on foreign land the sons of the South have fought as valiantly as under our loved and cherished stars and bars, now laid away sacred only to memory."

THE MANUFACTURE OF HEAVY GUNS.

PREPARATIONS are now under way for the purpose of manufacturing heavy steel guns at Watervliet arsenal. There are to be ten eight-inch and three twenty-inch guns made, and a specimen of the material to be used has already been received. Northwest of the barracks the large building known as shed K is being converted into a machine shop for boring, rifling and turning the heavy guns. For the lathes and machinery, the building, as staked out, will be about 550 feet long and 415 feet wide. The main building fronts the river and will be prepared for finishing field, siege and seacoast guns. The plans for the alterations have all been made and approved by the authorities at Washington. One of the largest lathes in the world, weighing 175 tons, will be used in the works, and has been shipped over the Fitchburgh railroad from the South Boston Iron Works. A crane, having a capacity of fifty tons, will also be used in handling the guns. In the event of the next Congress appropriating sufficient money for a gun factory at Watervliet, the entire equipment of the guns will then be manufactured there The alterations are to be completed by November 1.

(From the New York Star.)

PLUTOCRACY IN THE ARMY.

IN the article on "West Point, the Army and Militia," published in the current number of "Lippincott's Magazine," to which we recently referred, there is one proposition that deserves special condemnation. It is chiefly contained in the following paragraph:

Congress votes about $160,000 a year to pay salaries to the cadets. There is no reason for this. The cadets come from a richer class of families than the students at Princeton and Yale and Amherst. The cadet is guaranteed a situation as soon as he graduates, with a salary sufficient for a young man at the start, and certain to increase, supplemented with the comforts of the retired list. In a period of peace, the Army officer is in one of the most healthful occupations to be found anywhere. He is exposed to some discomforts, but not to a high death rate, and there is some social consideration to make his place desirable. The visitors of 1886 are right in thinking, as Gen. Grant did, that more young men ought to have a military education; that the interests of the country would be promoted thereby. The $160,000 a year now paid to cadets would support another military school, say at Rock Island, Ill., and the Government could pick its 2d lieutenants from a larger body of cadets.

It is not true that the cadets come from "a richer class than the students at Princeton and Yale and Amherst." In fact, they do not come from any "class" at all, unless it be from a graduating class at the common schools, from which so many have been selected of late by competitive examination, without, as we freely admit, the best results in some cases. But to propose that cadets should not be paid because they are supposed to be able to spend money of their own would be indeed to create a "class" of the sort likely to be most pernicious and most dangerous to the liberties of the country.

The small pay allowed by the Government to the pupils at the Military Academy is one of the best investments the country can make. It puts the rich and the poor on an equality, and obliterates all distinction except that based on ability and intelligence. Some of the most brilliant soldiers the country has produced have been what the writer in *Lippincott's* would call "poor cadets." Without the allowance made to them by the Government, they would have been unable to go through the course at the academy, and the country would have lost their priceless services. We want no aristocracy or plutocracy in this country anywhere. Already the large number of rich men in the United States Senate who have obtained their seats chiefly on account of their wealth, one of the dangerous features in our political situation. But of all places in which a plutocracy would be intolerable, there is none in which it would be so pernicious as in the Army and Navy. With West Point and Annapolis open only to the sons of the rich our military forces would become a grave peril to our institutions.

When closely examined, the proposal of Mr. Powers is so extremely objectionable as to make careful refutation of it unnecessary. And yet he puts his plea in a taking way that makes it worth while to expose its vicious character once for all, in order that no one may be carried away with the idea of effecting economy by educating a greater number of officers at less expense.

ON THE EFFECTS OF EXPLOSIVES.

AT a recent meeting of the Royal Society of Edinburgh, Professor Tait made some interesting and suggestive remarks on the effects of explosives—a subject having some connection with lightning flashes. The singular fact had been stated in the newspapers that an explosion of dynamite in the Underground Railway in London produced the excessively curious effect, that several persons within a certain range had the drum of one ear ruptured, while no effect was produced on the drum of the other ear. And when examination was made of the matter from the physical point of view it was found that the difference depended on this: that as long as the projectile matter—whether it was the air itself around the explosive, or the materials of the explosive which were driving it from the centre of explosion—were going at a velocity greater than sound, the effect of their motion was precisely the same sort of thing as is observable in the case of a falling star. It compressed and immensely heated the air immediately in front. So long as it exceeded the velocity of sound, there could be no vibrations propagated beyond the limit to which the explosion had extended, and the gases only came, as it were, into contact with a dead stone wall of stationary air outside. The result was that the air was compressed and became self-luminous by the instantaneous compression. So it was with lightning. Up to the point at which the velocity became that of sound there would be an exceedingly intense impulsive pressure, and there was great danger of very considerable damage. The question of how much force was required to rupture the drum of the ear was a question for physiologists. Being asked by Dr. Wallace how it was that, for explosive purposes, gunpowder required to be inserted into the material to be exploded, while dynamite was placed on the top, Professor Tait replied that dynamite exploded with great rapidity, and the consequence was that the gases expanded with exceeding rapidity, whereas gunpowder was burnt comparatively slowly, and produced the effects of increased pressure with graduated speed. If the velocity was much greater than that of sound there was percussion, otherwise there was nothing but the propagation of vibration. It was the difference between a wave and a breaker.

As regards the military application of explosives, recent English trials of the Russian explosive roburite tend to show that gun-cotton is the best adapted for torpedo charges, submarine mining, and hasty demolitions of all kinds. Its superiority in local force to dynamite, when employed without any confinement, is once more strikingly demonstrated, to say nothing of the far greater safety of wet cotton and its applicability for use under water with no other confinement than that of a net to keep the slabs together. But although quite outside the scope of these experiments, the great power and perfect safety of roburite seem eminently to fit it for use as a bursting charge for shells, into which its granular form would allow it to be conveniently loaded. Much stronger than any picric powder, and doubtless better able to withstand the concussion of the discharge of the gun, an extended series of trials would be necessary to determine the best mode of so employing it.—*Engineering.*

ARMY OF THE TENNESSEE.

GOV. R. A. ALGER presided July 7, at a meeting of the local Executive Committee to prepare for the reunion of the Army of the Tennessee in Detroit city Sept. 14 and 15. Gov. Alger said that he had consulted with Gen. Sherman, and that the latter agreed with him in thinking it a good plan to do away with the banquet and have light refreshments and the speeches on the steamer *Greyhound* during an excursion on the river and Lake St. Clair. Also that the old troops do as little parading as possible, leaving that part of the celebration to the Militia.

Gen. Poe said he doubted the ability of the committee to properly feed such an excursion. As for Gen. Sherman, he is the worst authority in the United States on such a subject, for he doesn't care what he eats, what he drinks, or what he smokes. Gen. Poe favored a general parade, the veterans to ride in carriages and all citizens to be asked to furnish carriages.

The question of doing away with the banquet was discussed by Col. H. M. Duffield, Gen. H. B. Clitz, Gen. Poe and others, and Col. Duffield finally suggested that the matter be referred to a committee of three members of the Society of the Army of the Tennessee. There was decided opposition to this and it was withdrawn. Gen. Poe moved that the whole afternoon of the 14th be given up to parade and carriage rides, and that the entire afternoon of the 15th be devoted to the steamboat excursion and speeches, and the evening to the reception to Mrs. Logan at Gen. Alger's residence.

THE NEW HOSPITAL CORPS.

THE Secretary of War and Adjutant-General of the Army have had several conferences this week over the papers in connection with the new Hospital Corps and it is understood have given them final stamp of approval preliminary to the promulgation of the general order containing the new regulations. General Drum hopes to have the order issued within a week. Following the general order containing the regulations, the Surgeon-General will issue circulars to the officers of his department prescribing the method of examinations for the Hospital Stewards and acting Hospital Stewards. No examination of the privates, other than physical, of the corps will be required. About twenty-five privates from other branches of the Service have applied for transfer to the new corps. The regulations, it is understood, require that these appointments shall be made by transfer. Promotions to the grade of acting Hospital Stewards are to be made from the privates who have served at least a year in the corps and after a practical examination in the art of cooking and of taking care of the sick. Vacancies in the grade of Hospital Steward will be filled by promotion from the acting Hospital Stewards, and the candidate will be required to pass a similar examination to that now in vogue, a thorough knowledge of pharmacy being the essential features. Simple questions in arithmetic and orthography will also be propounded, as well as some questions in hygiene and in the proper use of food for the sick. The Hospital Steward now in the service will only be required to undergo an examination when they enter upon a new enlistment. Those who have served twenty years as Hospital Stewards will be exempt from all examinations. The second-class Hospital Stewards, as previously stated, will be assigned as acting Hospital Stewards under the new organization, and will also be required to pass an examination when the time comes for re-enlistment. There will be about a dozen or so new appointments in the two grades under the regulations adopted.

BVT. BRIG.-GEN. ANDREW J. ALEXANDER.

THE following extracts are from a life of General A. J. Alexander, by James H. Wilson, late Bvt. Maj.-Gen., U. S. A., which will shortly be published:

Amongst the many younger officers of the national army who were rapidly coming to the front at the close of the great rebellion, none gave greater promise or bore a higher character than Bvt. Brig.-Gen. Andrew J. Alexander. Although he had not received a military education he was an officer of first rate abilities and many accomplishments. At the close of the bloody struggle he had made himself not only a model staff officer, but an admirable cavalry commander. Those who had the good fortune to know him during the war will readily recall and bear witness to his superb figure, his stately carriage, his bright, flashing blue eyes, his flowing beard as tawny as a lion's mane, his splendid shoulders, and his almost unequalled horsemanship. He was a pure Saxon in coloring, with hair and beard that glistened like gold in the sunshine, and a complexion that bid defiance to sun and wind. Standing over six feet in height, he was as trim and commanding a figure as it was ever my good fortune to behold. But those were merely the outward indicia of perfect physical manhood. The true spirit of the unselfish patriot, the unspotted character and honor of the perfect gentleman, the knightly qualities of the soldier, "without fear and without reproach," radiated and controlled his person and his conduct, and commanded the unquestioning confidence and respect of all who came within the circle of their influence. It is impossible by words to convey a proper understanding to the reader of how all those beautiful qualities and characteristics showed themselves one by one during the multifarious and ever-changing occupations and incidents of the soldier's life in these stirring times, where suffering and exposure, hardship and want might naturally have been expected to arouse the selfish instincts; and when, as a matter of fact, if there was anything mean or disagreeable, ignoble or unmanly in an officer it was sure to come out.

And yet in Alexander's four years of unbroken service during the rebellion, and in the twenty-two of life on the frontier, and at his beautiful home on the shore of Lake Owasco, I venture to say that no human creature ever discovered a mean trait in his character or charged him with an ignoble act or thought. All alike, high and low, officers and privates, friends and foes, men and women, soldiers and civilians, and even the negroes and Indians, recognized in him not only the physical qualities of perfect manhood, but the moral and intellectual graces in that just equilibrium which are the chiefest ornament and glory of our common nature. . . . . He was truly a model soldier and a most chivalric gentleman, who carried with him into the "Silent Land" his purity of soul and character, unspotted by the world and its temptations. Throughout his whole career he was equal to all emergencies, combining in remarkable equilibrium perfect courage and promptitude in all his undertakings, with the most thorough good sense and soundness of judgment. He was one of those level-headed, sensible men, with the fighting attribute so deeply imbedded in his nature that it never occurred to him to dodge a fight, to hesitate about it, or to say "Go," but always and everywhere "Follow me;" and those of us who watched his career know that it took a stout-hearted and strong-limbed man indeed to get deeper into a battle than he. With the spirit of a true Kentuckian, as he was, he was always well and generally superbly mounted, and thus, with his fine physique, his excellent trappings, and his strong horse he was a perfect cavalier—not light and flashy, but steady-going, robust and invincible. The possession of these high qualities was not an accident; they came to him by inheritance from distinguished ancestors, as well as by study and training.

THE CASE OF CADET EVANS.

UNDER the heading of "A Rebuke to West Point Tyranny," the N. Y. *Evening Post* publishes the following:

WASHINGTON, July 11.

West Point has met with a pretty severe rebuke from the Administration in the revocation by the President of the unexecuted part of the sentence against Cadet Evans of Illinois. He was tried by Court martial, found guilty, and sentenced, because he had stated to a young lieutenant, who was one of his instructors, that he had treated him unfairly. His classmates told the members of the Board of Visitors that Evans had simply told the truth, whatever difference of opinion there might be as to the propriety of giving expression to his views. But military discipline, as interpreted at West Point, could not brook this, and the sentence of the Court-martial condemned the cadet to remain at the Academy during the entire term of the encampment, and to be put down two numbers on the list. The confinement might be endured, but to be placed down two numbers was a great degradation which would follow the cadet through life, and which might seriously interfere with just promotion at an important period in his career. The officers of West Point were remonstrated with by high officials. They were told that in the opinion of the outside world the sentence was regarded as arbitrary and severe, and would tend to bring the Academy into disfavor in quarters where it much needs friends. The reply simply was that the offence was "heinous"—that was the term used—and that the sentence must stand.

But it happened that young Evans had a great many influential friends, and one of them chanced to be a member of the Board of Visitors to West Point this year. That member investigated the case, and was convinced that the cadet was the victim either of a persecution or of a martinet system that ought to be rebuked. The visitor was a military man of larger experience than the Lieutenant who felt affronted, and has seen more of the enemy's fire. He interested the other members of the Board in the case, and one of the visitors came to Washington and presented the matter to the War Department authorities and to the President. The result was that Evans was relieved of the unexecuted part of his sentence, and was assigned immediately upon graduation to a regiment to which important duties have recently been intrusted. The intervention of the President in a case which does not involve dismissal from West Point is quite unusual, and can only be interpreted to mean that, under this Administration, if impertinence or insubordination in a cadet at West Point is to be punished, the officers in command there are also to be instructed that tyranny is not essential to good discipline, and that the best way to make good soldiers of the cadets is to treat them as men and not as slaves.

(Correspondence of the Army and Navy Journal.)

MADISON BARRACKS, N. Y.

JULY 12, 1887.

"CHANGE cars for Bismarck!" The assignment of companies has been announced, and everyone in the 12th now knows just what portion of the land of the festive blizzard has been staked out for him. Headquarters—E, G, H, and I go to Fort Yates, Cos. A, B, C, and D to Fort Sully; F draws the capital prize, Fort A. Lincoln, while K goes to Fort Bennett.

The air is full of sighing—and hammering on packing boxes. All the pride and glorious circumstance of dress coats and helmets has been stowed away, and the summer contingent which flocks here on parade days has to content itself with the "undress" article.

Unless existing arrangements are changed, the 12th will concentrate at Buffalo about the 25th and take steamer for Duluth; and this will be the first instance where the regiment was known to take water. However, five years on this station, with its numerous yachting and boating expeditions, has created "sea legs" for all hands, and the idea of exchanging railroading in midsummer for a six-days passage on the lakes is a most welcome one.

Col. Roger Jones, inspector general, was here yesterday, condemning worthless property.

Pay Director C. W. Abbot, U. S. N., is sojourning with his son, 2d Lieut. C. W. Abbot, Jr., 12th Infantry.

The officers' weekly hops still continue, and the band goes on playing just as sweetly, despite the fact that it will soon be "wasting its fragrance on the desert air"—or words to that effect.

As a proper recognition of the status of non-commissioned officers in the Army, the action of the commanding officer at Madison Barracks in providing a weekly hop, with music gratis by the regimental band stationed there, at which only non-commissioned officers and their lady friends are permitted to attend, is a long step forward. At the same post a project was on foot to establish a club room for non-commissioned officers, where billiards, cigars and beer were to be procurable, but this had to be abandoned by reason of the departure of the 12th for Dakota.

While the exigencies of the Service do not admit just now of separate messes for non-commissioned officers and privates, commanding officers have it in their power by such acts as those described, to make the former feel that they enjoy some special privileges, and the private by being debarred from participation will learn to look upon promotion as not quite the empty honor he may now esteem it.

POCA TIEMPO.

LATE ARMY ORDERS.

Leave for two months, to commence early in August, is granted Capt. John L. Tiernon, 3d Art., Newport Barracks, Ky. (S. O. 144, Div. A., July 15.)

A G. C.-M. will meet at Fort Monroe, Va., July 18. Detail: Major Royal T. Frank, 1st Art., Capts. John H. Calef., 2d Art.; James M. Ingalls, 1st Art., and Wm. A. Kobbé, 3d Art.; 1st Lieuts. John McClellan, 5th Art.; Henry B. Osgood, 3d Art.; and Henry W. Hubbell and Thomas C. Patterson, 1st Art.; 2d Lieuts. Samuel Rodman, Jr., 1st Art.; Wm. F. Hancock, 5th Art., and Willoughby Walke, 2d Art., and 2d Lieut. John C. W. Brooks, 4th Art., J.-A. (S. O. 144, Div. A., July 15.)

ON GETTYSBURG'S FIELD.

THE encampment of the Grand Army of the Republic on the battlefield of Gettysburg began July 9. The veterans, led by the Department Commander and his aides, marched to the camp, which is on Cemetery Hill opposite the National Cemetery. The 5th Regiment, Pennsylvania Reserves, held a reunion in the Court House, over which Lieut.-Col. A. M. Smith presided, to make preparations for erecting a monument on this battlefield.

MRS. LANGDON, wife of Colonel L. L. Langdon, U. S. A., commandant of Forts Barrancas and Pickens, who left Pensacola some time ago on account of her serious ill health, is now at Asheville, N. C., and is rapidly improving. Her eldest son, Russell, who joined her at Atlanta, from school at Washington, and her younger son, are with her.

THE ARMY.

G. O. 50, H. Q. A., July 7, 1887.

By direction of the Secretary of War, the following is published for the information and guidance of all concerned:

Until further orders, or until an appropriation shall have been made by Congress for the purpose, the Quartermaster's Department will not furnish transportation in kind to officers of the Army when travelling under orders, without troops, over railroads or water routes, except over bonded or land-grant railroads.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIR. 6, H. Q. A., July 9, 1887.

The following decisions, rulings, etc., have been made during the month of June, 1887, and are published to the Army for the information of all concerned:

PURCHASE OF NEWSPAPERS AND PERIODICALS FROM THE POST FUND.

Neither newspapers nor periodicals can properly be purchased from the post fund, but either or both can be subscribed for out of the allotment made to each company by the Quartermaster's Department.—(Decision Sec. War, letter June 9, 1887.)

DAILY DRESS PARADES AND ROLL-CALLS.

Unless for some urgent reason, paragraph 513 of the Regulations should be always strictly complied with. The discretion accorded to post commanders by paragraph 344 of the Regulations, in dispensing with dress parades, only authorizes their omission where the weather is too inclement or the conditions of service such that the parade is impracticable. It gives no authority for their systematic omission on particular days of the week.—(Decision Lieut. Gen., letter June 9, 1887.)

TARGET PRACTICE.

Men detailed as hospital attendants who may qualify as marksmen or sharpshooters shall be included or omitted in the computation of the figures of merit, as may be determined by the application to each case of the first part of paragraph 505, Blunt's "Rifle and Carbine Firing."—(Decision Lieut. Gen., letter June 24, 1887.)

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIR., WAR DEPARTMENT, A. G. O., July 13, 1887.

The following is published for the information of those concerned:

The amount of U. S. bonds now held by the Treasurer of the United States to secure public deposits in the Sioux National Bank of Sioux City, Iowa, is $100,000—a decrease of $100,000 since the last advice.

By order of the Secretary of War:
R. C. DRUM, Adjt.-Gen.

G. O. 8, DEPT. OF THE MISSOURI, July 8, 1887.

The annual Department rifle competition, including preliminary practice, for 1887, will take place at Fort Leavenworth, Kansas, beginning August 10, under the direction of 1st Lieut. Charles Dodge, Jr., 24th Infantry, Inspector of Rifle Practice of the Department.

G. O. 17, DEPT. OF ARIZONA, July 1, 1887.

The annual Department Rifle Competition will take place at Fort Wingate, N. M., under the direction of 1st. Lieut. T. J. Clay, 10th Inf., Inspector of Rifle Practice of the Department, who will report for that purpose by August 8 to the Commanding Officer of Fort Wingate.

The C. O. of Fort Wingate is charged with the arrangement of all necessary details for the competition, and on its completion will send, under a suitable officer, the Department team and alternates to report not later than August 27, to the C. O. of the Presidio of San Francisco, Cal.

G. O. 6, DIV. OF THE ATLANTIC, July 5, 1887.

Announces the results of the classification in marksmanship and figure of merit of posts at which target practice was held during May.

G. O. 15, DEPT. OF THE COLUMBIA, July 1, 1887.

The annual department rifle competition will be held at Vancouver Barracks, W. T., beginning August 11 and ending August 20 next.

The preliminary practice and the competition will be under the supervision of Major Charles A. Wikoff, 14th Infantry, Inspector of Rifle Practice.

G. O. 18, DEPT. OF ARIZONA, July 7, 1887.

The period from July 1 to July 25 inclusive, is added to the target practice season of Troop H, 10th Cavalry, on account of field service during the month of June.

CIR. 3, DEPT. OF ARIZONA, July 2, 1887.

The following extract of telegram from the Major General Commanding the Division is published to the command:

SAN FRANCISCO, CAL., June 26, 1887.

To Gen. Nelson A. Miles, San Carlos, A. T.:

I heartily congratulate you, Lieut. Johnson, and all other officers and soldiers engaged, on the speedy and happy results of their prompt and energetic work.

O. O. HOWARD,
Major General, Comdg. Div. Pacific.

By command of Brig. Gen. Miles:
M. BARBER, Asst. Adjt.-Gen.

STAFF CORPS AND DEPARTMENTS.

General Officers.

Brig. Gen. Geo. Crook, accompanied by 2d Lieut. Lyman W. V. Kennon, 6th Inf., A. D. C., will proceed to Forts Du Chesne, and Douglas, Utah, and Fort Bridger, Wyo., on public business (S. O. 64, July 5, D. Platte).

Judge Advocate General's Department.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; C and G, Ft. Apache, A. T., A, Ft. Mojave, A. T.

Leave for one month on Surgeon's certificate is granted Capt. Samuel Munson (S. O. 67, June 30, D. Ariz.)

With a view to his appointment as R. Q. M., 1st Lieut. George Palmer will proceed to Whipple Barracks, A. T., for duty (S. O. 68, July 1, D. Ariz.)

Co. A (Bowman's) will proceed to Fort Mojave, A. T., where it will take station, relieving Co. C (Munson's), which will proceed to Fort Apache, A. T., for station (S. O. 68, July 1, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

Leave for one month, to take effect about Aug. 1, is granted 2d Lieut. V. E. Stottler (S. O. 68, July 5, Dept. M.)

12th Infantry, Colonel Edwin F. Townsend.

Under orders to the Department of Dakota.

For the information of the officers of the regiment, and in order to enable them to properly mark their own and their company property, they are notified that the following will be the disposition of the troops to their new posts in the Department of Dakota: At Fort Yates.—The Colonel, Headquarters, Band, and Cos. E, G, H, and I. At Fort Sully.—The Major, and Cos. A, B, C, and D. At Fort Bennett.—Co. K. At Fort Abraham Lincoln.—Co. F. It is not probable that this disposition will be changed, but if it should become necessary to make a change, ample notice will be given. During the move the men will wear the field uniform, woven cartridge belt, haversack, canteen and blanket-bag. The Commanding General Department of Dakota, desires that rations be taken sufficient to last the men until they reach their posts. Company Commanders will take measures accordingly. (Circular July 11, 1887, Hdqrs. 12th Inf., Madison Bks., N. Y.)

The 12th Infantry, under Col. Townsend, will concentrate at Buffalo, July 26, and go by water to Duluth, thence to their new stations in the Dept. of Dakota.

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

Leave for eighteen days is granted 2d Lieut. E. P. Lawton (S. O. 67, June 30, D. Ariz.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T. A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

1st Lieut. James A. Buchanan, Vancouver Barracks, will report to Lieut.-Col. Henry M. Lazelle, 23d Inf., for duty in his office in connection with the publication of the official records of the Rebellion (S. O., July 9, H. Q. A.)

The promotion of 2d Lieut. Joseph H. Gustin, Co. K, to 1st Lieutenant, vice Quentin, promoted, which carries him to Co. H, is announced (S. O. 95, June 28, D. Columbia.)

Col. Thomas M. Anderson will inspect subsistence property and stores at Vancouver Barracks, for which 1st Lieut. J. A. Sladen, A. C. S., is accountable (S. O. 95, June 28, D. Columbia.)

2d Lieut. Frank F. Eastman will proceed on public business to Tacoma, W. T., upon completion of which he will proceed to Fort Townsend, W. T., and report for Gar. C.-M. duty (S. O. 97, July 1, D. Columbia.)

The C. O. Vancouver Barracks will grant a furlough for three months to Principal Musician Thos. F. Darcy (S. O. 97, July 1, D. Columbia.)

Sergt. W. Irving and Corpl. L. D. Seal, Co. B; Sergt. R. Green, Corpl. T. Shea, and Pvts. W. Humphris and H. Millbauer, Co. C; Sergt. J. B. Denney, Corpls. W. A. Kleever and W. Schmidt, and Pvt. R. H. Roberson, Co. D; 2d Lieut. F. F. Eastman and Sergt. E. Matches, Co. E; Mus. D. E. Lunsford and Artificer R. P. Bigge, Co. F; 1st Sergt. W. A. Hubbard, Corpl. J. J. McGee, and Pvt. G. W. Wilson, Co. G; Sergt. C. Robertson, Corpl. P. Kraetzer, and Pvt. R. C. Hull, Co. H, and Corpl. F. Nanjoks, Co. I, have qualified as sharpshooters.

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Leave for seven days is granted Capt. Chambers McKibbin, en route to his post (S. O. 80, July 9, Div. M.)

17th Infantry, Colonel Alexander Chambers.

Hdqrs., A, B, C, D, E, F, G, I, and K, Ft. D. A. Russell, Wyo.; H, Ft. Bridger, Wyo.

1st Lieut. Charles St. J. Chubb, Cheyenne, is temporarily assigned to duty as Chief Ord. Officer, Dept. Platte, and C. O. Cheyenne Ord. Depot (G. O. 6, July 8, D. Platte.)

18th Infantry, Colonel John E. Yard.

Hdqrs., A, B, and D, Ft. Hays, Kas.; E and F, Ft. Leavenworth, Kas.; C and I, Ft. Gibson, I. T.; G, H, and K, Ft. Riley, Ks.

1st Lieut. W. T. Wood, having been appointed Regimental Quartermaster, will proceed from Fort Riley to Fort Hays, Kas., for duty (S. O. 68, July 5, Dept. M.)

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, F, G, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; E, Ft. Ringgold, Tex.; I, Ft. Brown, Tex.

2d Lieut. J. M. Cunningham is assigned to duty with the Seminole Negro-Indian Scouts, vice 1st Lieut. T. H. Eckerson, relieved from duty with them, upon his own request (S. O. 76, July 6, D. Tex.)

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

The leave for seven days granted 1st Lieut. C. H. Bonesteel, Fort Sidney, Neb., is extended seven days (S. O. 65, July 7, D. Platte.)

2d Lieut. Charles G. Dwyer is detailed for duty on General Recruiting Service, for the Dept. of Platte, at Fort Bridger, Wyo. (S. O. 66, July 8, D. Platte.)

The C. O. Fort Sidney, Neb., will send Acting Hospital Steward Josiah M. Stanley (private Co. G, 21st Inf.), to report to the C. O. Dept. Rifle Camp, near Bellevue, Neb., Aug. 1, for duty in connection with the approaching Annual Dept. Rifle Competition (S. O. 66, July 8, D. Platte.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Leave for one month, to take effect about July 20, is granted Capt. Francis Clarke (S. O. 69, July 8, Dept. M.)

The extension of leave granted Capt. Mott Hooton is further extended five days (S. O., July 13, H. Q. A.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

2d Lieut. J. A. Dapray, A. D. C., will proceed to Forts Wingate and Union, N. M., on public business. When at Fort Union he will conduct to Fort Leavenworth eleven military convicts (S. O. 69, July 2, D. Ariz.)

Leave for fourteen days is granted 1st Lieut. Edwin B. Bolton, Adjt., Fort Wayne (S. O. 142, July 13, Div. A.)

Private Arthur Stone, Co. I, 23d Inf., was recently tried at Fort Wayne for certain offences and dishonorably discharged, and ordered to Fort Columbus for two years' confinement at hard labor. On July 11, while yet at Fort Wayne, he attempted to escape, when in front of the guardhouse. Sergt. Clark was in charge, and seizing a loaded musket ordered Stone to halt. Three times the order was repeated, but no heed was given. Clark then fired one ball over Stone's head, but still the order to halt was not obeyed. Finally, he shot, as he states, intending to bring Stone down with a bullet in the leg, but the range was a long one, excitement ran high, and his aim proved more deadly than accurate. The ball passed through Stone's body, and he died soon after. He left word that his mother was Mrs. Sophia Connors, of Leavenworth, Kas. Sergt. Clark has the reputation of being a model non-commissioned officer, and is spoken of in terms of the highest praise by Col. Black and other officers. Sergt. Clark has requested a Court of Inquiry, which Col. Black has ordered.

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

1st Lieut. George Andrews, Adjt., with a guard of two reliable non commissioned officers, will take charge of military convict James H. G. Wilcox (late 2d Lieut., 7th Cav.), and deliver him to the warden of the Minnesota State Penitentiary (S. O. 63, July 5, D. Dak.)

The leave granted 1st Lieut. Redmond Tully is extended two months (S. O., July 9, H. Q. A.)

Lieut.-Col. James J. Van Horn is detailed to inspect the Minnesota National Guard during the period of its encampment at Fort Snelling, from July 20 to 29, 1887 (S. O., July 9, H. Q. A.)

Appointments, Promotions, Retirements, Transfers, Casualties, etc., of Commissioned Officers of the U. S. Army recorded in the Adjutant-General's Office during the week ending Saturday, July 9, 1887.

APPOINTMENT.

Additional 2d Lieutenant John A. Harman, 7th Cavalry, to be 2d Lieutenant, July 5, 1887, vice Wilcox, dismissed.

CASUALTY.

2d Lieutenant James H. G. Wilcox, 7th Cavalry, dismissed July 5, 1887.

Courts-martial.

The following courts have been ordered:

At San Carlos, A. T., June 25. Detail: Capt. A. H. Bowman, 9th Inf.; Capt. R. G. Smither, 10th Cav.; 1st Lieut. H. De Lany, 9th Inf.; 2d Lieuts. C. P. Johnson and J. B. Hughes, 10th Cav.; 2d Lieut. W. G. Elliott, 9th Inf., and 2d Lieut. L. D. Tyson, 9th Inf., J.-A. (Field O. 1, June 25, D. Ariz.)

At Fort Snelling, Minn., July 11. Detail: Lieut.-Col. James J. Van Horn, Capts. Charles Bentzoni, Guines Lawson, and Edwin J. Stivers, 1st Lieuts. Charles L. Hodges and Harvey D. Reed, 2d Lieuts. George P. Ahern, Alfred S. Frost, and William F. Martin, 25th Inf., and 1st Lieut. Edwin F. Glenn, 25th Inf., J.-A. (S. O. 63, July 5, D. Dak.)

At Fort Wayne, Mich., July 12. Detail: Capts. George M. Randall, Joseph T. Haskell, Charles Wheaton, and Richard I. Eskridge, 1st Lieuts. Frederick L. Dodge and Stephen O'Connor, 2d Lieuts. Edwin P. Pendleton, William H. Allaire, and D. B. Devore, 23d Inf., and 2d Lieut. George D. De Shon, 23d Inf., J.-A. (S. O. 138, July 8, Div. A.)

At Fort Crawford, Colo., July 13. Detail: Major G. K. Brady, 18th Inf.; Capt. J. A. P. Hampson, 10th Inf.; Capt. J. C. Worthington, Med. Dept.; 1st Lieut. D. F. Stiles, 2d Lieuts. V. E. Stottler and H. F. Bateman, 10th Inf., and 1st Lieut. William Paulding, 10th Inf., J.-A. (S. O. 69, July 8, Dept. M.)

At Fort Columbus, N. Y. H., July 14. Detail: Capt. William B. Beck, 1st Lieuts. Benjamin K. Roberts, Frank Thorp, Elbridge R. Hills, and Samuel E. Allen, and 2d Lieut. Warren P. Newcomb, 5th Art., and 2d Lieut. Avery D. Andrews, 5th Art., J.-A. (S. O. 142, July 13, Div. A.)

At Fort McHenry, Md., July 15. Detail: Major Edward R. Warner, 1st Art.; Capts. George F. Barstow and Edward C. Knower, 1st Lieuts. Charles Sellmer and Charles G. Woodward, and 2d Lieut. John K. Cree, 3d Art., and 1st Lieut. James O'Hara, 3d Art., J.-A. (S. O. 142, July 13, Div. A.)

—o—

Army Boards.

A Board of Officers, to consist of Capt. James B. Burbank, 3d Art.; Capt. Samuel R. Whitall and 1st Lieut. Charles R. Tyler, 16th Inf., will meet at San Antonio, July 8, to examine and report upon the construction of a sidewalk at the post (S. O. 76, July 6, D. Tex.)

A Board, to consist of 1st Lieuts. H. H. C. Dunwoody and Robert Craig, Act. Signal Officers, and 2d Lieut. Fielder M. M. Beall, Signal Corps, will assemble, July 11, to examine 1st Lieut. Richard E. Thompson, 6th Inf., as to his capacity, with a view to appointment as Acting Signal Officer. The subjects of the examination will be: 1st. Military signalling. 2d. Telegraphy. 3d. The duties of an acting signal officer in the field (S. O. 50, July 7, Sig. Office.)

A Board of Medical Officers, to consist of Major John S. Billings, Surg., and Capts. Washington Matthews and Fred. C. Ainsworth, Asst. Surgs., will meet in Washington, D. C., for the examination of a candidate for admission to the Medical Corps of the Army (S. O., July 9, H. Q. A.)

The Board of Officers on the building and repair of levees on the Mississippi River, consisting of Capts. William T. Rossell, Smith S. Leach, and Dan C. Kingman, will convene, at as early a day as practicable, for the purpose of preparing a detailed plan for the application of the allotments for levees made by the Mississippi River Commission (S. O. 64, July 12, C. E.)

—o—

DEPARTMENT NEWS.

Dept. of Missouri.—Brig. Gen. Wesley Merritt.

J. S. Schmelzer and Son, of Leavenworth, have offered as a prize during the seventh annual competition at skirmish firing, Department of the Missouri, Aug. 10, a Winchester repeating sporting rifle, model 1886, calibre 45-70, costing $75. The rifle was gotten up by the Winchester Repeating Arms Company under the special direction of the firm offering it.

Division of the Atlantic.—Maj.-Gen. Schofield.

The yellow fever epidemic at Key West seems to be abating. At last accounts Ordnance Sergeant McNamara, U. S. Army, of the Barracks, down with the fever, was improving. Assistant Surgeon J. Y. Porter, U. S. A., is rendering yeoman's service.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

A despatch of July 9 from El Paso says: "Only a small fraction of the hostile Apaches have been captured by Gen. Miles. The remainder of the band, numbering about 100 warriors, are at present encamped in a valley in a ragged range 20 miles northeast of La Guena, Santa Maria, and about 40 miles southwest of Lake Guswan."

Dept. of Texas.—Brig. Gen. D. S. Stanley.

Joske Brothers, of San Antonio, have offered a handsome prize to the enlisted man securing a place on the team, who makes the best total score in the first day's competitive skirmish firing, in the rifle competition of the Dept. of Texas this year.

Authentic information leads to the conclusion that in the transfer of stations between the 3d and 8th Cavalry the headquarters of the latter will go to Fort Concho; that of the 3d Cavalry to Fort Clark, and Col. C. H. Smith, with headquarters of the 19th Infantry, will take station at San Antonio. It is understood that Gen. Stanley is anxious to have Gen. Smith go to San Antonio, and as Col. Otis, 8th Cav., preferred Concho, Fort Davis will not be occupied as a regimental headquarters.—*Kansas City Times.*

TRANSFER OF THE 11TH AND 12TH INFANTRY.

THE 12th Infantry will concentrate at Buffalo, and be transferred thence by water to Duluth. The movement from its present stations (Madison Barracks, Forts Ontario and Niagara, Plattsburg Barracks and Fort Wood) will commence July 25. At each of the posts of Madison Barracks, Fort Ontario and Plattsburg Barracks, a detachment to consist of the A. A. Q. M, and 10 enlisted men of the 12th Infantry will remain behind in charge of public property, etc., until the arrival of the incoming garrison of the 11th Infantry. The C. O., Fort Porter, N. Y., will send Co. C, 26d Infantry (Pollock's), to Fort Niagara for temporary duty, to remain there until the rifle competitions of 1887 at that fort are completed, when it will return to Fort Porter. 1st Lieut. Chas. Hay will remain at Fort Porter, where his services are required in connection with matters pertaining to the Q. M. Department. The C. O. Fort Hamilton, N. Y. H., will send a detachment to consist of a 2d lieutenant and 15 enlisted men, to Fort Wood, Bedlow's Island, to relieve Co. A, 12th Infantry, from duty thereat. The 11th Infantry, upon arriving at Buffalo will take station as follows: Colonel, lieutenant-colonel, staff, band and Cos. A (Quinby), D (Lott), G (Matile), H (Gilbreath), I (Sage), Madison Barracks, N. Y. The major and Cos. E (Myer), and K (Hoffman), Fort Niagara, N. Y. Co. B (Roe), Fort Wood, Bedlow's Island, N. Y. H. Co. C (Sanderson), Fort Ontario, N. Y. Co. F (Read), Plattsburg Barracks, N. Y. Capt. Edwin F. Gardner, Asst. Surgeon, U. S. A., will accompany the 12th Infantry from Madison Barracks to Buffalo, thence to Duluth, and return from Duluth to Madison Barracks with the 11th Infantry assigned to that post. Capt. R. G. Ebert, Asst. Surgeon, will join the 12th Infantry at Buffalo, N. Y., and will accompany the regiment to Duluth, after which he will be governed by such orders as he may receive from the commanding General, Division of the Missouri. (S. O. 143, Div. A., July 13.)

(Correspondence of the Army and Navy Journal.)

DEPARTMENT OF TEXAS.

THE highest skirmish figure of merit attained by any company of the 3d Infantry last year was 54.25. This was made by Co. D, the Nevada Trophy Company. In the Department of Texas, six organizations have this year made a higher skirmish figure of merit than any made in 1886 by Co. D, 3d Infantry. These organizations are:

Co. D, 19th Infantry	60.90
Co. C, 16th Infantry	58.16
Co. E, 16th Infantry	55.71
Co. G, 3d Cavalry	55.21
Co. A, 8th Cavalry	55.00
Co. F, 16th Infantry	54 61

The highest individual figure of merit yet reported in Texas are as follows:

Co. D, 16th Infantry	130.30
Co. B, 8th Cavalry	116.16
Co. C, 16th Infantry	112.95
Co. C, 19th Infantry	111.82
Co. G, 3d Cavalry	110.20
Co. F, 8th Cavalry	110.20
Co. A, 19th Infantry	104.74
Co. A, 8th Cavalry	104.31
Co. D, 8th Cavalry	104.13
Co. B, 3d Cavalry	102.78
Co. G, 8th Cavalry	102.42
Co. L, 8th Cavalry	101.85
Co. A, 8th Cavalry	100.52
Co. E, 8th Cavalry	100.33
Co. E, 16th Infantry	100.00

PIETY AT FORT DUCHESNE.

UNDER the above heading the Salt Lake City *Tribune* relates the following: Father Kelly went down to the fort a guest of Col. Stanton, Paymaster. The colonel explained to Col. Randlett, commander at the fort, the desire of Father Kelly to celebrate mass and preach for such soldiers as desired to attend service. There are six companies at the fort, four white and two colored. Col. Stanton does not believe in doing things by half, whether in religious or worldly matters, so he intimated to Col. Randlett that Father Kelly was, beside being a most consistent and devoted Christian, a most consistent and thorough gentleman, and it would be a compliment to their guest if a fair congregation could be secured for him. Col. Randlett seems to be the same sort of officer that the colonel was who, in the war, was approached by the chaplain and informed that the work of grace was extending wonderfully in the 16th New Jersey Regiment, that there were 15 baptisms on the previous Sabbath. The colonel at once called in a captain and gave the order that 20 men be at once detailed for baptism, remarking that "no d—d New Jersey regiment in the world should get ahead of his in the matter of baptisms." When Col. Randlett heard what Col. Stanton was saying, he thought the matter over for a moment and then quietly wrote an order to be read to the garrison next morning to the effect that mass would be celebrated at 10 A. M. by the Rev. Father Kelly, of Salt Lake City, that such soldiers as desired to attend divine service would be relieved from duty for that purpose, but such as did not wish to attend *would join the Fatigue Detail.* It is needless to say that every soldier, white and black, had instantly a return of early piety, and attended mass and sat the whole service through. Father Kelly, who knew nothing of the special order, was profoundly impressed with the general air of piety pervading Fort Duchesne.

WEST POINT, N. Y.

The following candidates for admission to the U. S. Military Academy in June next were appointed this week:

William Payne Jackson, Palmyra, Mo.
Wade Hampton, Massie, Gaines Cross Roads, Va.
Wm. Burwell McCormick (alt.), White Post, Va.
William Newman, Fayetteville, Tenn.
James P. Barry, South Boston, Mass.
John St. Claire Cline, Pikeville, Ky.
Dudley W. Gardner (alt.), Salyersville, Ky.
George McD. Weeks, Prescott, Arizona.
Robert Packer Shortz, Wilkesbarre, Penn.
Ralph Metzger, Allentown, Penn.
Edward J. H. Rogers, 75 Morton street, New York City.

(Correspondence of the Army and Navy Journal.)

FORT McINTOSH, TEXAS.

JULY 5, 1887.

YESTERDAY morning at 5 o'clock, according to a previous arrangement of Col. Bernard, our post commander, the Laredo Band came over to the post and favored us with several pieces of music. Among the rest were our national song, the "Star Spangled Banner," and "Hail Columbia." Many of the people of the garrison were not aware of the arrangement, and were aroused from their peaceful slumbers by the sweet and inspiring strains of music. About the same time the usual national morning salute was fired. At midday 38 more guns were fired. Beyond this there were no special exercises or display during the day.

Col. Heyl, the Inspector General of the Department, has just been here and inspected the post. He left to-day for Forts Ringgold and Brown.

Paymaster Muhlenberg and his clerk, Mr. Hostetter, arrived on Saturday from San Antonio and paid off. Nobody is so welcome at military posts as the paymaster. He generally makes "the sad heart glad."

Dr. W. F. Custer, who has been on sick leave from Ringgold, and Lieut. J. B. Hickey, of the 8th Cavalry, both en route to that post, stayed over at McIntosh for a day or two.

Lieut. S. H. Elliott, recently transferred from the 8th to the 5th Cavalry, arrived on Monday night and left the next morning. He has been granted a delay before joining at Fort Reno, I. T., to enable him to visit his father, Bishop Elliott, who is very ill in Virginia.

Lieut. Elias Chandler, 16th Infantry, and Mrs. Chandler leave to-morrow on a three months' leave of absence.

Major Bartholf, surgeon, U. S. A., and our post surgeon, will start in a few days on a two months' leave. He will spend the most of his time in the East. It is hinted that possibly he will not come back alone. The writer is not able to say how strong the foundation may be. Dr. H. S. T. Harris, now at Ringgold, will take the place of Dr. Bartholf until his return.

The contemplated changes in troops will take from us Troop A, 8th Cavalry. This will make quite a void in our social circle that can not be easily filled. It will also take away our popular commanding officer, Col. Bernard, and his kind and pleasant family. Besides making it socially pleasant for the garrison, the Colonel has done a great deal since he has been in command of Fort McIntosh to beautify the post. In view of its important position, excellent location and large space for necessary improvements, this post should be made a 12-company post. We are all anxiously hoping the headquarters of the 3d Cavalry or some other regiment may be assigned here.

Dot, the three-year-old daughter of Chaplain Simpson, and who is a great favorite with everybody, had her left arm broken by being thrown from a child's wagon as she was being drawn.

And last, but not least, Mrs. Buck, wife of Lieut. Buck, and daughter of Col. Bernard, was presented with a fine daughter yesterday, the Fourth of July. I trust that the life of this little one may be as distinguished as the day on which it was born is memorable. X. Z.

(Correspondence of the Army and Navy Journal.)

FORT CRAWFORD, COLO.

JULY 5, 1887.

QUITE a serious accident occurred here at noon yesterday as a national salute was being fired. The gun detail, which was under charge of 2d Lieut. V. E. Stottler, 10th Infantry, were using an old 3-inch Parrott gun—a relic of the war—and had only fired three or four shots when the piece was prematurely discharged. Private Frank E. Smith, Co. G, 10th Infantry, was in the act of ramming the cartridge at the time and suffered the loss of his right hand and fore arm. The arm was very badly shattered and torn, and had to be amputated at three inches below the elbow, the operation being performed by Dr. J. C. Worthington, post surgeon, assisted by Dr. Mifflin Brady. It is not known exactly how the accident occurred. The piece was thumbed by a deserter in the guard house named Brooks, who formerly served in the artillery, but as the vent was very large and much worn, it may have been purely accidental, or it may have been carelessness on the part of Brooks. Smith says he had a presentiment the accident would occur, and as he left the barracks to join the firing party remarked to the 1st sergeant: "I will never enter those quarters again. I know an accident is going to occur." He is doing as well as can be expected, and no more serious results are anticipated.

A singular thing in connection with the accident is the fact that this is the second man who has met with an accident since the arrest of the deserter Brooks and in connection with him. On the evening of his arrest a revolver in possession of one of the guard was accidentally discharged, the ball lodging in the knee of Private Bernard Lyons, Co. G, 10th Infantry, who is still in the hospital, but is fast recovering. Both Lyons and Smith are excellent men and much sympathy is felt for them.

Our base ball club has melted away after defeating all comers from adjacent towns. Cause, too much "by order."

A rifle team from this post, composed of members of Co. K, 10th Infantry, defeated a local rifle team from the Montrose militia yesterday.

Trout fishing is just now in season, and a large party are preparing for a start to-morrow, when it is hoped many of the speckled beauties may be captured.

Mrs. J. C. Worthington returned last month from a visit East, and was accompanied by her mother and sister, Mrs. and Miss Osborn, of Louisville, Ky. They will spend a couple of months enjoying the beautiful scenery of the Rockies. UNCOMPAHGRE.

(Correspondence of the Army and Navy Journal.)

AUGUSTA, GA., ARSENAL.

JULY 11, 1887.

THE earthquake damages to the U. S. Arsenal at Augusta, Ga., have in general been repaired, the officers' quarters are again occupied, and no external signs of the great "shake" are apparent. All of the brick buildings were more or less racked, however, and the barracks building will have to be repaired and replastered throughout; the men going into camp meanwhile. Reverberations of the "shake" continue even now, but of long intervals and of slight intensity.

FORT SNELLING, MINN.

THE *Pioneer Press* says: "Those who are to engage in the Department rifle competition are to report at Fort Snelling by August 10. It is expected that this year's competition will create uncommon interest. The interest manifested in the drills, parades and competitions of the Regular Army is largely owing to the fact that it stands as the highest representative of the military class—gradating from the officer of the Regular Army down to the young aspirant of the village school. The displays and competitions are, therefore, closely watched and naturally patterned after. The State militia not only fashion after them, but avails itself of the splendid target ranges that are established by the Government. All of these associations, as a natural result, foster the friendliest relations."

(Correspondence of the Army and Navy Journal.)

FORT BUFORD, D. T.

JULY 4, 1887.

THE Fourth at this post was one of the most exciting that has been seen here in a long time. The day opened with the usual ceremonies, a battalion formation and review by Col. Crafton, the 15th Infantry Band playing appropriate music. All was quiet until 1 P. M., when the sports of the day began; Lieuts. Davis, Maxwell and McGunnegle as committee and Lieuts. Cory, Welch and McGunnegle as judges of contests.

The sports began with the 100 yards dash, and was won by Merwin, as was also the hurdle race. One-mile walk won by Wolf; standing broad jump by Berus; sack race by Wisson; potato race, 30 yards, by Breslin; wheelbarrow race by Nugent; 3-legged race by Cortland F. Wisson; 400 yards race by Regan (a citizen); tug of war (between citizens and soldiers) won by soldiers. At 4 P. M. a game of ball was played between Co. G, 15th Inf., and a picked-up nine out of Cos. F, E and K, 15th Inf., known as the Pick-Ups, for a purse of $15, the winning club to carry off the prize. The Pick-Ups won by the following score:

	INNINGS.							
	1	2	3	4	5	6	7	8
Company G	5	2	0	1	0	1	0	0—9
Pick-Ups	1	0	5	0	4	6	2	2—20

Co. G is known as the "cracks" of the post, and thought they had a "pic-nic," but after the 5th innings they found to their sorrow that they had good metal to buck against, Nugent, Merwin, Gillespie and Moore doing some fine playing; Lieut. F. Davis, A. Q. M., umpire. After the game the boys gave the winners three cheers and a tiger. There were no fireworks to speak of. Lieut. Garlington, Co. G, 7th Cav., is the happy father of a son at Rock Island, Ia.

Co. L, 7th Cav. (Wallace's) returned from Milk River on July 3, where they had been guarding the graders on the new line of the St. P., M. and M. R. R. They made the return trip by rail, over the new road, from Poplar. All are in good spirits. Troop F is now at Milk River, M. T., in Troop L's place, Maj. Bell in command. CURLEY.

(Correspondence of the Army and Navy Journal.)

FORT MEADE, D. T.

HEADQUARTERS, Band, Major Whitside, Troops C, Capt. Jackson; D, Capt. Godfrey and Lieut. Tompkins; G, Capt. Edgerly and Lieuts. Brewer and Mann, and M, Capt. Gibson and Lieut. Cameron, leave here July 25 to march overland via Forts Robinson, Sidney and Kearney, Neb., for Fort Riley, Kas., expecting to make it in 50 days. Many regrets are expressed at leaving so pleasant a post as this.

FORT OMAHA, NEB.

THE *Excelsior* of July 9 says:

Mrs. Capt. Catley has gone to Cleveland on a visit to relatives ...Major Butler, and Captains Mills, Keller and Dempsey, 2d Inf., are at Fort D. A. Russell, Wyo., on court-martial duty....Lieut. and Mrs. Pickering have returned from the Santee Indian Agency....Col. Alex. Chambers, 17th Inf., and wife, were at the garrison visiting friends this week. The colonel is spending his sick leave with his brother, who lives in Omaha. His health seems to improve on the Omaha climate (strange to state) and he is feeling very well. Lieut. Alexander, the colored graduate of West Point, goes to the 9th Cavalry, at Fort Niobrara....Lieut. Cabell, 14th Inf., stopped at Fort Omaha to visit his brother, Dr. Julien Cabell, for a few days last week, when returning from Vancouver Barracks, W. T., from several months leave of absence. About two months of Lieut. Cabell's leave was spent "beyond the sea"—in Paris, and in Italy and Switzerland... Mr. Harry Butler, son of Major Butler, 2d Inf., who has been at college at Georgetown, D. C., graduated in June and is now at home—Fort Omaha. Mr. Butler led his class and carried off high honors....Capt. P. H. Ray, U. S. A., has taken the residence at 2204 Saunders street....On Thursday evening the celebration of the tin wedding of Lieut. and Mrs. H. B. Sarson, for which tinned cards had been issued early in the week, took place. The officers' club rooms were used, the 2d Infantry band being stationed in the main hall. The guests from the post were: Gen. and Mrs. Wheaton; Capt. Catley; Mrs. Capt. Keller and Miss Le Baron; Lieut. and Mrs. Egbert; Lieut. and Mrs. Powell; Lieut. Kinzie; Col. and Mrs. Fletcher; Mr. Harry and Mr. Charles Butler; Dr. and Mrs. Brown; Dr. Cabell; Lieuts. Wilson and Wright; Lieut. and Mrs. Pickering; Mrs. Turner and Lieut. Towsley, and from town there were: Mrs. Gen. Crook; Col. and Mrs. Guy V. Henry; Mr. and Mrs. S. P. Morse; the Dean and Mrs. Gardner and others.

COURT-MARTIAL CASES.

In the case of Principal Musician Julius Adler, 6th Inf., tried for desertion and sentenced to dishonorable discharge and three years' confinement, the reviewing authority, Gen. Gibbon, says: The court unanimously recommend him to clemency, "in view of the good character shown to have been borne by the accused during the principal portion of his service, and in the belief that he will hereafter serve in an honorable manner"—it is presumed that the members of the court mean by this, if Principal Musician Adler is permitted to serve in a regiment to enter which he took a false oath after violating his previous one. To permit a man to desert from one regiment where he is discontented and then, by false swearing, to enter another which suits him better, and, when tried, to plead good service, seems to the reviewing authority to place too high a premuim upon desertion. The reviewing authority regrets feeling compelled to disregard the recommendation of all the members of a general Court-martial, but it is believed that it would not only be unjust, but misplaced clemency to comply with their recommendation. The sentence will be duly executed. (G. C.-M. O. 7, D. Columbia, 1887.)

The record of the garrison court-martial at Fort Grant, Ariz., in the case of Private Thomas Young, Troop F, 10th Cav., sentenced to forfeit to the United States $6 of his pay, having been received for the supervision of the Department Commander, the proceedings of trial and the post order promulgating same, are disapproved and set aside. The record fails to show that the proceedings were submitted to the post commander for his action as required by the 104th and 109th Articles of War. (G. C. M. O., 32, D. Ariz., July 2.)

THE use of military titles by all classes of men in the South has often been the subject of satirical comment, but such titles continue to be used. Indeed, the further the war recedes into the past the greater becomes the number of Captains, Majors, and Colonels. There are young lawyers in Georgia, for instance, who were born just as the war was closing, or even after the last gun was fired, who are as proud of being called "the Colonel" as if they had won the title by promotion on the battlefield. Nothing could be more absurd. Not only is this not true, but indiscriminate use of military titles detract from the dignity of those to whom they are applied. From Captain it is but an easy step to "Cap," from Major to "Maje," and there is not much doubt that Colonel is the unabbreviated form of "Cully." To be called "Mister" is a distinction because the title is so seldom used.—*Savannah News.*

NEW PUBLICATIONS.

The Insurance Monitor publishes a work on "Tornadoes, what they are and how to observe them: with practical suggestions for the protection of life and property," by John P. Finley, M. S. F. S. Sc., Lieutenant, Signal Corps, U. S. Army, honorary fellow of the Royal Society of Science, Letters and Arts, London; member of the Societie Meteorologique de France, Paris. Tornadoes are, it appears, an American institution, and owing to the peculiarities of our topography there is no remedy for them and the populous region of the United States is forever doomed to be devastated by them. Hence the necessity for the instruction as to how to provide against them furnished by this book. It contains a chart showing the geographical distribution of tornadoes as observed for the past 125 years and one delineating the progressive movement of a tornado, and numerous illustrations of tornado clouds, of tornado caves and of individual tornadoes. The general impression derived from the book is that a tornado cave would be a handy thing to have in any household, no State, except it be West Virginia, being entirely free from the visitation of these wind storms. Mr. Finley has made a most thorough study of their phenomena in regard to which he is a recognized authority. Mr. Finley also publishes an "Improved Method in the Art of Signaling for Military and Scientific purposes illustrating the use of Finley's Heliotrope on New Heliotrope-Telegraph, manufactured by the American Helio-Telegraph and Signal Light Company, of Washington."

Messrs. G. P. Putnam's Sons have added another volume to their valuable series, "The Story of the Nations." It is the story of Alexander's Empire; by Prof. John Pentland Mahoffy, D. D., author of "Social Life in Greece, from Homer to Meander," "Rambles and Studies in Greece," "History of Greek Classical Literature;" one whose studies, as will be seen, have especially fitted him for the preparation of this work. He has been assisted by Arthur Gilman, A. M., author of "A History of the American People," as well as several volumes in this series. One purpose of this volume is to show the influence of the ideas Alexander impressed upon the people he conquered, and how considerably Rome was influenced by the ideas of conquered Greece, as well as to indicate the manner in which Hellenistic influences modified the characteristics of the dominant people. Several maps, plans and numerous illustrations accompany the volume. Sixteen volumes of this series are completed, and as many more are announced.

Charles Scribner's Sons publish Lawn Tennis, as a game of Skill; with latest revised laws as played by the best clubs; by Lieut. S. C. F. Peile, B. S. C., edited by Richard D. Sears. It is a little volume intended for English players, but adapted for American use by the addition of a few notes from American experience, as the edition explains. He says "this book is written simply to help the player to an understanding of the game, to point out faults to which even expert players are sometimes addicted and to lead the reader to direct and develop what skill he may be possessed of." Mr. Sear's approval should be sufficient to give currency to any book upon Lawn Tennis.

The delightful tales of Southern Life by Thomas Nelson Page, all of which have appeared in magazines, are published now in book form by Charles Scribner's Sons. The volume is called, "In Ole Virginia," and is bound in a neat cloth cover on which the Virginia creeper's leaves and berries are appropriately twined in a design made by the Tiffany Art Company. The stories are "Marse Chan," "Unc Edinburg's Drowndin," "Meh Lady," "Ole Stracted," "No Haid Pawn," and "Polly."

Professor John F. Weir, the well-known artist and critic, and head of the Yale Art School, will contribute to the August number of "Scribner's Magazine" a paper on the "Revival of Handicraft," which is a plea for the spread of skilled labor. The interest which the whole subject of manual training is exciting adds special timeliness to this article.

"Aunt Hepsy's Foundling," a pleasant, well written story by Mrs. Leith Adams, author of "Madelon Lemoine," "Geoffrey Stirling," etc., is a small volume, tastefully bound in red cloth and marbled paper, price 50 cents. J. B. Lippincott Company, Philadelphia.

"Military Brotherhood" opens the July *Outing* and leads one naturally to the first article, entitled "On the March," a neat and vivid picture of a soldier's experiences. The paper is well illustrated by half a dozen clever pen and ink sketches by Remington.

Messrs. J. B. Lippincott and Co., of Philadelphia, have published Mrs. Wistar's translation of "The Old Mam'selle's Secret" in their series of select novels, at the price of 25 cents.

Frank E. Housh and Co. publish in a neat pamphlet the record of the Life and Public Services of General John Wolcott Phelps, which is given in a sketch read before the U. E.

ANSWERS TO CORRESPONDENTS.

Applicant.—You stand No. 37 on Commissary Sergeant list.

E. J. H. R.—Vireun School, Sing Sing, N. Y., would suit your purpose.

Vet.—Much of the credit for the organization of the G. A. R. is due to Dr. D. F. Stevenson.

Vox.—Gen. H. B. Clitz, U. S. A., will not be 64 until July 4, 1888. He was retired July 1, 1885, at his own request after forty years' service.

Gatling Gun.—The order is simply meant to enforce a neat soldierly appearance. If you wear whiskers there is no obligation to remove them, nor is it customary.

Constant Reader.—Write to Adjutant Military Academy, West Point, for pamphlet giving information as to conditions of admission, etc. The President will not have an appointment to the Military Academy until 1889.

G. S. W. asks: Is it proper or tactical to dress a company at support or right shoulder? ANS.—It is neither proper nor tactical, nor physically possible, because the men cannot properly align themselves on account of inability to see the buttons of the second man on the right or left, as the case may be.

Artillerist.—The Headquarters (regimental staff, band, etc.) of the 2d and 5th Artillery are still at St. Francis Barracks and Fort Hamilton, respectively, although Lieut. Col. Lingdon temporarily commands the former regiment from Fort Barrancas, and Lieut. Col. Closson, the latter from Fort Wadsworth.

V. H. Rex.—Yes. The enlistment of a soldier in a second regiment or company, without discharge from the first, does not constitute a crime distinct from and additional to that of desertion from the first regiment or company. The meaning of the 50th Article of War is understood to be that a soldier who quits a regiment or company where he owes service shall be reputed a deserter, notwithstanding his enlistment in another regiment or company. The intention of the article is not to make the second enlistment an offence but to deprive it of the character it would otherwise have, or seem to have, of an atonement or mitigation of the crime of desertion from the regiment or company in which service is due.

THOMAS SMITH, a sailor from the U. S. S. *Atlanta*, who had been left at the Brooklyn Naval Hospital when that vessel sailed, fell over the bannisters of the stairs in the west wing of the hospital and was killed, on Sunday last at 10 A. M. It is not known whether it was an accident or a case of suicide.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At Newport, R. I., July 12.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Arrived at Halifax, N. S., July 4.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. Sailed from Charlestown, Mass., July 12, and arrived at Halifax July 13.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Arrived at Portland, Me., July 7. Expected to reach Halifax July 17, Quebec July 28, Bar Harbor Aug. 14, and Newport Aug. 24.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Portland, Me., July 7.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Cape Town June 6.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro May 19.

TALLAPOOSA, 3d rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro May 19. Comdr. F. W. Dickens has been ordered to command this vessel, and sailed on the U. S. and Brazil mail steamer *Finance*, June 18, en route.

European Station—R.-Adml. Sam. R. Franklin.

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Arrived at Leghorn June 27.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. Arrived at Lisbon June 18, having touched at Gibraltar and Tangiers.

Pacific Station—Rear Adml. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francisco, Cal. Arrived at Honolulu June 14.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. At Panama June 28.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama June 1. Ordered to proceed to the Mare Island Navy-yard.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Punta Arenas, Central America, July 7, en route to Acapulco. Will proceed to Honolulu.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Panama, June 1. Expected at Payta, Peru, early in June.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. Arrived at Juneau, Alaska, May 12. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Arrived at Montevideo, Uruguay, July 7.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Panama, U. S. of C., June 28, en route to Honolulu.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama June 11. Intended to leave for Chemulpo as soon as boilers are repaired.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Yokohama, June 11.

MARION, † 3d rate, 8 guns, Commander Merrill Miller. At Chemulpo, Corea, June 11.

MONOCACY, † 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama June 11.

OMAHA, † 2d rate, 12 guns, Commander F. V. McNair. At Yokohama June 11.

PALOS, † 4th rate, 6 howitzers. Lieut. Comdr. J. E. Craig. At Yokohama June 11.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to care B. F. Stevens, 4 Trafalgar Sq., London, England.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Lisbon July 12.

MINNESOTA, 1st rate. 24 guns, Captain T. F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Lisbon July 12.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Lisbon July 12.

On Special Service.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. Sailed from New London, July 11, for a cruise.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Arrived at New York, July 7.

DOLPHIN, despatch boat, 7 guns. Comd. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. At Washington.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Francisco, Cal., undergoing repairs.

ST. MARY'S, sails, 8 guns, Comdr. A. S. Crowninshield. N. Y. School ship. At Cadiz, Spain, June 27, expecting to sail for Gibraltar about July 6, and from thence to Madeira. Expected at New London, Conn., about Aug. 25.

Capt. A. S. Crowninshield, under date of Cadiz, Spain, June 26, writes: We arrived here to-day, ten days from Fayal, to which place we were eighteen days from New London; both long passages, or longer than I expected. But we have had a great deal of light weather, head winds and calms. I shall sail for Gibraltar in five or six days. There our stay will only be for two or three days, when we start for Madeira.

TRENTON, 2d rate, 10 guns, Comdr. J. N. H. Farquhar. At Norfolk, Va. Will sail for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*, some time in July. Will probably be assigned later to the North Atlantic station. Dropped down to Hampton Roads from Norfolk July 14.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. G. C. Wiltse. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails, 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

FORTUNE, 4th rate. Lieutenant O. W. Lasher. At Norfolk, Va.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic or Asiatic Squadron.

Chicago—At New York, where she will be completed. Will be in condition for a trial trip the latter part of July. Arrived at the Brooklyn Navy-yard, from the Erie dock, July 7.

Kearsarge—At Portsmouth, N. H., being repaired.

Hartford—Will undergo extensive repairs at Mare Island, Cal., and will hardly be ready for commission this year.

VARIOUS NAVAL ITEMS.

COMMANDER R. D. EVANS, president of the Naval Steel Inspection Board, who has just returned from Pittsburg, reports the progress made by the manufacturers in the preparation of steel for the new cruisers to be very satisfactory. He brought back with him several excellent samples of the steel being turned out.

IN a target practice July 11 among the marines stationed at the Naval Academy the following excellent scores were made out of a possible 25, distance 100 yards; Corpl. Balieff, 24; Capt. Young, 23; Private Murphy and Private Scanlon, each 20; Corporal Meyers and Corporal Morgan, each 19. None of the scores were below 17.

CHIEF ENGR. GEORGE W. MELVILLE, who was at Washington early this week, promised that the plans for the machinery of the two 19-knot cruisers will be completed by August 1. He says that the Cramps are pushing the construction of Cruiser No. 3 and Gunboat No. 1, and the steel men are keeping them fairly well supplied with material.

COMMO. W. S. SCHLEY spent nearly all of this week in Boston getting the equipment yard in operation. The chain and anchor shops are finished, and the manufacture of equipments will be started without further delay. He is highly pleased with the quick work done by his subordinates in getting the buildings ready for equipment purposes.

THE *Adams* is now at Honolulu and the *Vandalia* is en route to that place. The *Juniata* is now on her way to Acapulco, and from there will proceed to Honolulu; but she had received orders to sail for that place some time before trouble broke out there. No other vessels of the Pacific Squadron, and none of the Asiatic Squadron, will be ordered to Honolulu for the present.

THE Chief of Ordnance will soon have the Washington Navy-yard in full operation as an ordnance foundry. He has lately pushed the work on the buildings. The changes and repairs he was required to make are within a few weeks of completion. Awards of contracts for material to be used in connection with the remodelling of the buildings were made to Washington firms as follows: Cement, J. M. Wheatley; stone, E. E. Barnes; lumber, Church and Stevenson and W. W. McCullough, and nails, etc., R. Boyd.

THE Second Comptroller is awaiting information from the Navy Department before allowing sea pay for service on the *New Hampshire* and *Minnesota* after 1885. He desires copies of the order designating them receiving ships. It is the opinion in the Second Comptroller's office that no sea pay should be given at present for duty on receiving ships. The question whether officers on receiving ships are entitled to sea pay is now before the Court of Claims, and will be decided after the recess. Until then it is probable that all claims for sea pay for duty on these two vessels after their designation was changed will be held up.

THE preparation of the material for the Navy Register is progressing very slowly. The work is still in the hands of the compilers and will probably not be sent to the Public Printer for several weeks yet.

THE Pneumatic Gun Carriage Co. has submitted to Secretary Whitney, the drawings and description of their improved central pivot gun carriage for naval use, and mounting an eight-inch gun. The general construction as to weight and space is practically the same as in the gun carriages now in use in this country and abroad, but to which has been applied a complete working system of pneumatic control for checking recoil and for training, elevating and loading. It is the result of experiments made under the supervision of a Board appointed by the Secretary. The plans have been submitted to the Ordnance Bureau for examination and approval.

WORK on the *Enterprise* and *Nipsic*, New York Yard, in the Engineering Department, is being pushed with all the vigor possible, and Chief Engr. Moore, of the Navy-yard, is confident of his ability to complete these two vessels for speedy commission before the 1st prox. Commodore Gherardi is quite anxious that these ships shall fit for sea as soon as possible, inasmuch as the pressure for employment brought to bear upon him is simply terrific, and the only remedy is to set work in operation and finish it up at once, and so close the door in the face of expectation. The force at this yard has not been materially increased since the beginning of the new fiscal year.

THE $25,000 appropriated for the purchase of the *Stiletto* became available on July 1. Congress also gave the Navy $100,000 for a torpedo boat, and the Ordnance Bureau is putting its best foot forward to secure the best results for the money. The speed, in any event, is to be not less than 20 knots an hour, and some premium will probably be offered for an increase over this limit to 22 or 23 knots per hour. When the Secretary is ready the fact will be duly advertised, and persons wishing to compete will be sent the detailed specifications in print. Work is favorably progressing on the dynamite cruiser now being constructed by the Messrs. Cramp at the shipyard in Philadelphia. They have received material necessary to finish the work, and no further delay is anticipated. The N. Y. *Herald* says: "The model of the armored battle ship designed in the Navy Department has been placed in the office of Secretary Whitney. It will carry two 12, two 10 and two 6-inch guns, besides a large secondary battery. It is not only regarded by officers of the Navy generally as vastly superior to the design offered by the Barrow Shipbuilding Company, but it is said to be the most effective battle ship of its size that is now known. The heavy guns are arranged in pairs, the 12-inch fore and the 10-inch aft, protected by turrets with deflecting tops. Admiral Porter, who inspected the designs to-day, said that it was not at all necessary to go abroad for plans."

NAVY GAZETTE.

Ordered.

JULY 8.—Sailmaker George C. Boerum, to the Wabash.

JULY 11.—Naval Cadet J. P. McGuinness, to the Coast Survey.

JULY 14.—Naval Cadet B. C. Decker to the Trenton.

Civil Engineer Henry S. Craven to the Boston Navy-yard.

Acting Boatswain John G. Glynn to temporary duty at the Boston Navy-yard, and to hold himself in readiness for sea service.

Detached.

JULY 11.—Assistant Engineer F. M. Bennett, from the Chicago Manual Training School and ordered to the Trenton.

Assistant Engineer A. T. Woods, from the Trenton and resignation accepted from this date.

JULY 14—P. A. Surg. A. C. H. Russell, from the Naval Labratory, New York, and granted one month's leave.

Civil Engineer Frank O. Maxson, from the Boston Navy-yard, and placed on waiting orders.

Carpenter Henry Rigby from duty at Phœnixville, Pennsylvania, to duty at Pittsburgh, Penn.

Changes on the European Station.

P. A. Surgeon J. M. Edgar transferred from the Quinnebaug to the Pensacola June 3.

Commisstoned.

Commissions of six-year naval cadets will be issued to Cadet Wm. McKay when it is determined whether he is physically fit for the Service or not. He stands No. 2 in the class.

Discharged.

The following cadets have been discharged: Benj. M. Lombard, C. M. Corpening, C. C. Poe, A. H. Dutton, A. Burnstine, J. T. Bootes, T. B. Slade and W. W. Joynes.

MARINE CORPS.

JULY 8.—2d Lieutenant C. Marast Perkins granted leave of absence for one month from July 15.

Lieutenant Coston granted a month's leave.

Lieutenant F. L. Denny ordered to the Boston.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending July 15, 1887:

John Thompson, seaman, died June 25 at Naval Hospital, Mare Island.

Duncan Sharp, beneficiary, July 5, at Naval Hospital, Philadelphia.

Frederick Scharff, bugler U. S. S. Alliance, April 29, at sea.

Lawrence Leary, private, Marine, July 9, at Naval Hospital, Washington.

John Edwards, ordinary seaman, July 2, at Naval Hospital, Chelsea.

Patrick Murphy, landsman, U. S. S. Monongahela, April 29, at the German Hospital, Valparaiso.

FROM THE ASIATIC STATION.

REAR ADMIRAL R. CHANDLER, commanding the Asiatic Station, reports under date of Yokohama, June 20, 1887, the following disposition of vessels of this squadron at this date: The Brooklyn, Omaha, Monocacy and Palos are at Yokohama, and will participate with the English men of war in celebration of the Queen of England Jubilee on June 21. The Marion is at Chemulpo, Corea. The repairs of the Brooklyn and Essex will be completed July 1. The general health of the squadron is good. Affairs in the East are quiet.

STANDING OF THE 6-YEAR NAVAL CADETS.

THE merit roll of the six-year class of naval cadets, giving the order in which the young men completed the examination is as follows: 1. John G. Tawresey, Del.; 2. Wm. McKay, Penn.; 3. A. C. Dieffenbach, Penn.; 4. T. C. Fenton, Penn.; 5. Volney O. Chase, La.; 6. George R. Slocum, Ills.; 7. W. G. Miller, Va.; 8. W. W. Joynes, Tenn.; 9. George W. Kline, N. J.; 10. John P. McGuinness, Idaho Territory; 11. Joseph Strauss, Va.; 12. Charles S. Stanworth, Va.; 13. Robert L. Russell, Ga.; 14. Harrison A. Bispham, Penn.; 15. B. M. Lombard, Iowa; 16. Armistead Rust, Va.; 17. George R. Evans, Mass., 18. Edwd. W. Eberle, Ark.; 19. James E. Shindale, Penn.; 20. David S. Nes, Penn.; 21. Charles M. McCormick, Va.; 22. Glennie Tarbox, S. C.; 23. W. W. Gilmer, Va.; 24. Robert E. Coontz, Mo.; 25. Benjamin Wright, Tenn.; 26. Thomas B. Slade, Ga.; 27. Charles C. Poe, Penn.; 28. Albert Burnstine, Mich.; 29. Charles M. Corpening, N. C.; 30. James T. Bootes, Del.; 31. Arthur H. Dutton, Ind.

The last named, on account of an injury to his eyes, and by advice of the medical official, did not attempt a written examination. He was examined orally, waived his class number, and was placed next below Cadet Bootes by the order of the Academic Board.

Naval Cadet Alex. Thompson, of New York, was absent from the examination. With this one exception all the class received diplomas certifying to the completion of the six-years' course, and are now on waiting orders.

The standing of the four "star members" of the class for the six years was as follows, the final aggregate being 1,00?: Tawresey, 900.51; McKay, 899.75; Dieffenbach, 875.40, Fenton, 868.64.

REVENUE MARINE.

Captain Joseph Irish, Revenue Marine Service, died June 29, at Providence, R. I, 1st Lieut. L. M. Keene has been promoted to fill the vacancy. The other promotions, incident to the death of Capt. Irish, will not be made for some time.

FISH COMMISSION.

The Albatross. Lieut. Commander G. L. Tanner, comdg At Columbia Iron Works, Baltimore, Md.

The Fish Hawk, Mate James A. Smith, comdg. At Skinner's Shipyard, Baltimore, Md.

The Alityon, Wm. Hamlin, com. dg. At Havre De Grace.

The Grampus, J. W. Collins, comdg. On her way to Wood's Holl. Sails for St. John's, Newfoundland.

(Correspondence of the N. Y. Times.)

NAVAL CADETS AFLOAT.

UNITED STATES SHIP CONSTELLATION,
NEW LONDON, CONN, July 10.

AT West Point the young soldiers spend the summer in camp and learn from experience the requirements of a soldier; our young sailors spend their summer in Chesapeake Bay and on the Atlantic, and they not only learn what a sailor's life must be, but they actually perform the work of blue jackets, and in fact compose half of the working crew of the old *Constellation*.

Upon going aboard ship there is for the first day great turmoil, slinging and lashing hammocks, stowing lockers, looking up stations, etc., but when that is over everything settles quietly down and an observer would suppose they had been reared aboard ship from the familiar manner in which they go about everything. All this takes place just off Annapolis where the waters are smooth and the old ship lies noiselessly at her anchorage, but soon the boatswain's mates pipe their whistles and the call "all hands make sail" is heard. Then the work begins. Aloft to the very trucks of the masts the cadets go like squirrels, and although they exercise due care it would seem to a landsman that they were all trying which could most endanger his life. In the time that it takes to write it the sails are unfurled, the sheets hauled home, and the yards hoisted, and the *Constellation* glides through the water truly like "a thing of life." As they go down the bay they are in the height of enjoyment. Usually a fair wind, which is, of course, always pleasant, but little work during the day, and all night "in" is what makes them enjoy it. Even the "plebes" seem happy, but no doubt they are overshadowed by the ghastly tales of sea sickness that, although bad enough in reality, is increased ten-fold by the "upper" classmen who have "been there."

As they near the capes (Henry and Charles) and feel the motion of the vessel as she rides the increasing waves many of them begin to feel the sickness coming on. By the time the old ship is out of sight of land everything is prepared—I mean everything is ready for the cadets to get sick. The surgeon sternly refuses to put any of them on the sick list, for the quickest way to wear it off is not to give under. Many are the wishes that they had never seen the Navy, or were at home, or anywhere but at sea. But unless the sea is unusually rough seasickness rarely lasts longer than a day and when it is over a fellow feels like a victor. The sailors say he "has his sea legs on," and the ship can pitch and toss like a fury and he only laughs to think of his seasickness before.

At sea the regular routine begins, and the watches have four hours on and four off, or, as it is better expressed, "watch and watch." A fellow feels anything but happy when he is turned out for a mid-watch on a rainy deck from 12 P. M. to 4 A. M. But they only have a mid-watch every other night, and the other night four hours on deck before the mid-watch and four on just after it, so that there is not much choice to be made. At 9.30 A. M. all hands have inspection and quarters and an hour's drill at great guns. After that an hour's sail drill and in the afternoon another hour's drill with sails and spars. In addition to that there is the necessary working of the ship, which is quite as good or better than instructions received at drill, for there the cadets see practical applications of what has been told or shown them. Then, once a week they have a drill at fire quarters and abandoning ship. The first part of the drill is just what would be gone through with if a fire should break out on board ship, and then, as in case it could not be put out, the call is, "All hands abandon ship!" Of course it is only a drill, but away out at sea, with not even a vessel in sight, it makes a fellow feel for a moment almost as if it were reality.

In addition the youngsters are instructed in making knots and splices, and when they have learned to tie all the useful knots used aboard ship they begin to feel like old seamen. To give an idea, not of the knots and splices themselves, but of their number, a few of them may be named. There are the bowline, running bowline, bowline on a bight, sheet bend, single and double; single carrick bend, double carrick bend, square knot, reef knot, clove hitch, timber hitch, rolling hitch, fisherman's bend, midshipman's hitch, clinch, half hitch, hammock hitch, round turn and half hitch, Blackwall's hitch, cat's paw, sheep shank, manrope knot, wall, crown, and double wall and crown knots, stopper knots, diamond knot, spritsail sheet bend, shroud knot, short splice, long splice, cut splice, horseshoe splice, and as many others, though these are the ones most ordinarily used.

The whole cruise is enjoyed more or less, but the happiest times are in port; there all go ashore, and the first thing is a fresh water bath, and then the best dinner that can be found in town. Heretofore most of the cruises have been at sea, but this year they loiter along the coast and put into port every Friday night and stay until Monday. All hands look forward to the 18th of this month, when they will join the North Atlantic Squadron and form part of a real naval brigade. After that the cruise begins to draw to a close, and at its end everybody goes on a month's leave of absence.

THE REVOLUTIONARY MONUMENT.

THE monument now being erected at Newburg, N. Y., to commemorate the ending of the Revolutionary War will be finished October 1. As Congress failed to appropriate money for the dedication there will not be any ceremonies on its completion. Col. Wilson, of the Engineer Corps, United States Army, who has charge of the construction, says that the edifice will be a credit to the country and a source of satisfaction, because the work has been thoroughly done. On the tablet is to be inscribed the following, prepared by the Secretary of State:

> This Monument
> was erected under the authority of the
> Congress of the United States,
> and of the
> State of New York,
> in commemoration of the disbandment,
> under proclamation of the
> Continental Congress of October 18, 1783,
> of the armies, by whose patriotic and military virtue
> our national independence and sovereignity were
> established.

DR. BRECKENRIDGE AND BRER JASPER.

To the Editor of the Army and Navy Journal:

DANVILLE, Kentucky, was the home of the late most gifted and eccentric Rev. Dr. Robert C. Breckenridge. While stationed there after the war I became intimate with him. I was a Captain and Brevet Brig.-General in the U. S. Army, and the discrepancy between my line and honorary rank seemed to afford him a constant cause of merriment. In his facetious moments he usually addressed me as Captain-General. Mounting the staircase to my rooms one Sunday morning he opened the door with "Well, Captain-General, going to church to-day?" Knowing the disinclination of the Doctor to sitting through a service I replied, "Yes, Doctor, if you will take me and let me sit in your pew." Taking his broad brimmed hat from his head of thick and bushy iron gray hair, and bowing low with an air of mock reverence, he replied in his peculiar croaking tone:

"Sit in my pew you may, but go with me you won't. I never go where they worship God by machinery. I refer to the organ, sir."

One day in my office talking with him about the prevalent habit in that region of using firearms in the settlement of all questions, great and small, Dr. Breckenridge smiled and with the remark that they do not even spare the Lord's anointed, lowered his head and parting the hair over a certain spot on top showed me the mark of a pistol bullet which had made a heavy flesh wound. "When did you get that, Doctor?"

"When I was a divinity student, sir."

"What was it all about, a young lady?"

"Reckon so, sir," was the response, and the old gentleman lapsed into a reverie, doubtless conjuring up other visions of his "lost youth."

One day, after a theological convention at Lexington, he visited me and remarked he had attended the convention and that one callow fledgling of a young clergyman had sought his partial reformation by attempting to prove to him that slavery was a divine institution. "I let that young man continue," said Dr. Breckenridge, "until the sweat rolled off his manly brow, for the day was warm. When he had completely exhausted himself I replied to that young man, 'You assert that slavery is a divine institution, granted; but so is Hell, and *I* want nothing of either.'"

A peculiar epigrammatic wit was common to the whole family.

His nephew, Col. John Bartow Breckenridge, son of Dr. William B., President of the Danville Theological Seminary, was intimate with a certain officer of the Freedmen's Bureau. He was taken to task by his friends for having anything to do with a Yankee. He admitted the impropriety, but pleaded in palliation that they had much in common. "What can you have in common with him," they asked. "Intense contempt for the town and its inhabitants," answered the Colonel.

In Richmond, Va., the other day a gentleman called up to see Brer Jasper, him who preached "Dat de sun do move." He found the old preacher in front of his house and asked him if he really believed "De sun do move." This roused the sable divine, and stretching himself to his full height he pointed to his house. "Do you see dat house, sah?" "I do," replied the visitor. "Berry well. Dis mawnin de sun was shinin in de back yard. Do you doubt it, sah?" "Not in the least." "And now it shines on de front of de house. Can you discen dat, sah?" "Oh, yes." "Berry well, sah; hab de house moved?" and Brer Jasper, having demolished the white scoffer, with majestic mien and countenance as unmoved as the house itself, entered therein.

Returning to Dr. Breckenridge, I asked him one day if he believed in total depravity. "Reckon so, sir, for I've brought up a large family of children, both sexes."

BLACK, STARR & FROST,

SUCCESSORS TO

BALL, BLACK & CO.,

Fifth Avenue, Cor. 28th Street.

DIAMONDS, AMERICAN AND FOREIGN, WATCHES, JEWELRY, STERLING SILVER AND PLATED WARE, FRENCH CLOCKS, BRONZES AND FANCY GOODS.

Established 1811.
CHOICE OLD WHISKIES,
MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft. Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

E. & F. N. SPON, 35 MURRAY STREET, New York.

RECRUITING details for the two years commencing October 1 next, are now in order, and we observe that the following officers have already received orders to report for this duty: 2d Cavalry—Captain E. L. Huggins; 6th Cavalry—1st Lieutenant W. H. Carter; 8th Cavalry—Captain E. A. Godwin; 10th Cavalry—Captain W. B. Kennedy; 6th Infantry—Captain F. W. Thibaut; 16th Infantry—1st Lieutenant T. C. Woodbury; 22d Infantry—Lieutenant B. C. Lockwood.

THE *Scientific American* is disposed to be critical upon our new cruisers, of which it says: "Here we have four slow and unarmored ships, or, in other words, ships that can neither fight nor run away. Take the *Chicago*, the largest, and designed to be the fastest of the four. On her way from Chester, last week, she did not make quite 13 knots, though her engines had been working at the dock for several weeks. Of course, she will do better when these engines are worn smooth by attrition, but it is not likely she will do very much more than this, and even supposing she eventually logs "15 knots at sea," as is laid down in the contract, how could she hope to catch any of that great fleet of fast ocean steamers that dot the seas? Like her sister ships, she is unarmored, for a skin of steel is no armor at all, and hence how could she defend herself with her eight inch guns against the armored modern ship with its powerful battery? So far as harbor defence is concerned, she would be of no value, because, if she cannot defend herself from assault on the high seas, she could not do so enclosed in a harbor. It seems evident that the designers of these craft, in attempting to get the good qualities of both the big fighting ship and the light cruiser, have signally failed because they have got neither."

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JULY 16, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

ARMYNAVY.

CHINA AND HER PROSPECTS.

IN the spring of 1885 James Harrison Wilson, late Lieutenant-Colonel of the 35th U. S. Infantry, and Brevet Major-General U. S. Army, went on a mission to the countries beyond the Pacific to ascertain for himself and others whether there was any opening there for American railroad enterprise. He visited Japan, Formosa and China, in which last country he made one journey of over 1,500 miles, which is the equivalent of ten times that distance in countries possessing such modern means of convenience as General Wilson proposes to introduce to the attention of the Chinese. This trip led through the provinces of Chilhi, Honan, and Shantung, with visits to numerous important towns and cities, and included a careful survey of the famous Grand Canal and the Yellow River. A second trip led General Wilson up the Yang-tse-kiang. These journeys were made by invitation of the Chinese authorities, and they involved an unusually thorough inspection of the country, such as Gen. Wilson's engineering and military experience especially fitted him for. The results of his observations are given in a valuable work on China just issued from the press of D. Appleton and Co., and entitled "China: Travels and Investigations in the 'Middle Kingdom.' A Study of Civilization and Possibilities, with a Glance at Japan." Like all travellers who have penetrated into the interior of China and come personally into contact with its people, General Wilson formed a high opinion of their capacity, their thrift, their general intelligence, and their possibilities of development, so soon as the influence of the modern spirit shall penetrate the outer crust of self-complacent contemplation of their antique greatness, which shuts out the people of this vast empire from all participation in the new era of scientific progress and industrial development. Nor does our author consider the task of setting in motion this vast mass of intelligence so difficult or distant as it might at first seem to be. It requires only that the knowledge of the real position of China which has been revealed to some of her most influential statesmen should influence the mind of the Emperor, whose will is supreme.

The young man who has lately ascended the throne is said to be under liberal influences, which may at any day prove sufficient to overcome the invincible prejudices of the class of censors who are all powerful in China. At present, China is bound hand and foot by a system of civil service examination and selection for office which makes the literary class all controlling. It is a system which makes more account of familiarity with Chinese classics than of character, knowledge of practical matters, or what is known in this country as "horse sense." It has failed even in the purpose for which it seems to have been originally intended, and while

it has given China a civil service which is worse than that of the poorest European nation, it has bound her hand and foot in the bonds of that worship of precedent which necessarily results from making a book the national fetish and elevating what is written above what is learned by observation and experience. Contact with the outer world, which circumstances have forced upon them, have made converts to modern ideas of such men as the powerful Viceroy, Li Hung-Chang, whose position in China is analagous to that of Bismarck in Germany, and Tso Tsung-Taeng, who, in a remarkable memorial urging the building of railroads, describes himself as "a poor scholar of books." As a matter of fact, Tso Tsung-Taeng was a great scholar as well as a great soldier. The conversion of such a man from fierce contempt for the "Western barbarians" to an appreciation of the superiority of their methods is justly regarded by General Wilson as a most significant circumstance.

But what can even such men as these soldiers do in a country where the literary character of a memorial to the throne is considered of such supreme importance that the slightest departure in it from the Chinese standards subjects its author, however high his rank, to the humiliation of being turned over to the "Board of Punishments" for a judgment suited to the heinousness of his offence! Still, if the voice of such men can be made to reach the ears of "His Sacred Majesty," as General Wilson thinks it may, not even the powerful influence of the literary class will be sufficient to stay the movement which, when it comes, will bring a third of the human race, and they among the most intelligent and capable, into the line of modern progress. It is impossible to exaggerate the importance of such a prospective change when it does come. It is not strange that far-sighted men are anxious to exert every means to bring it about. It may require the influence of that great civilizer—war—to accomplish the result, and the steady progress of Russia from the north and the advance of England into Burmah, not to speak of the more spasmodic efforts of France in Tonquin, give China abundant occasion to fear aggression. The nation to which she would naturally look for advice and assistance in her efforts for peaceful development is the United States, and here she is repelled by an ignorant and brutal prejudice which furnishes her with the spectacle of Chinese artizans driven from their homes by a murderous mob and without redress; of Chinese miners floating down our streams, their dead faces turned up to heaven in mute protest against the results of Christian civilization. And, to still further lessen the influence in China which legitimately belongs to us, our diplomatic relations with her are controlled by Granger ideas of cheese paring economy which wholly misrepresent us.

Our Minister at Pekin, as General Wilson shows, should in rank, state and consideration be a fitting representative of the power, wealth and intelligence of the Great Republic. "The Chinese, like all Oriental people are more or less impressed by the external evidences of strength and greatness; purely as a matter of business, our Government could not do better than to buy the land offered it by the Chinese Government, erect suitable buildings thereon, furnish them handsomely, advance the pay of the ministers, secretaries and attaches to the highest rates and allowances that anybody has ever suggested in their behalf, surround them with servants, and even give them a platoon of cavalry splendidly equipped and mounted to act as escort upon all visits and occasions of ceremony. This would not be in accordance with our ideas of Republican simplicity, but the Chinese authorities do not care for or understand simplicity in official matters."

We wish that every member of Congress might be furnished with a copy of General Wilson's book, and compelled to read it. At all events we hope that all the members of our military services will do so. They will find it a most interesting narrative, and one full of excellent suggestions for the cultivation of intimate relations with that great people who are our nearest neighbors on the West, and who have in them the possibilities of the greatest influence upon our own material development. It is one of the best works of the kind we have ever met with, for the reason that it gives us exactly the sort of information we are seeking, instead of occupying our time with trivial details of personal experience, which is the fault of so many tales of travel.

General Wilson tells us that among the things which most impressed him during his trip were "the homogeneity of the people and the sameness of their customs, dwellings and occupation; their healthfulness and immunity from disease and suffering; their avid curiosity; and their contented and placid disposition." He gives an interesting account of their progress toward military development, in which direction he tells us the Chinese statesmen are making their first essays toward progress. With them "the days of bows and arrows, bamboo-spears, matchlocks and gingals, war junks and wooden ships has passed away. Lee-Remington rifles, iron-clads and Krupp guns have been adopted. Arsenals and machinery, dockyards and heavy fortifications abound (which is more than can be said for this country), Naval and Military Academies have been established; schools for the study of Western languages and sciences have been opened at several of the treaty ports, and what is of still greater importance is the fact that the Imperial Government itself has founded and opened the Yung-wen College at the Capital, for the instruction of the official class in Western sciences. The memorial which brought the project to the Emperor's attention and constitutes its charter, was drawn up by Prince Kung, and was concurred in by four ministers of the Board of Foreign Affairs." It sets forth that the object is "to teach mathematics and astronomy as indespensable to the understanding of machinery and the manufacture of firearms;" that only the scholars of high grade should be admitted and that "men from the West shall be invited to give instruction."

MAJOR LOUIS H. CARPENTER, 5th Cavalry, the commander of the new cavalry post at Fort Myer, arrived in Washington early this week, and immediately began to prepare for the arrival of his troops. Capt. Lawton, with Troop B, 4th Cav., has not yet left Arizona. His orders are not to leave until his services can be spared. Capt. Anderson, with Troop B, 6th Cav., arrived at Fort Myer this week. Assistant Surgeon Henry P. Birmingham has been assigned to duty as medical officer of the new post. Work has been commenced on the buildings at the fort. Barracks, a mess room and two stables will be erected. The officers' quarters require some repairs, as do the other buildings at the post. The repairs necessary will be made at once.

THERE is much discontent among the assistant surgeons of the Navy, who are, with reason, envious of the privileges accorded to medical men of corresponding position in the Army. There the newly commissioned medical officer has at once the actual rank of a 1st lieutenant and receives the pay of a 1st lieutenant of cavalry. In five years he is promoted to a captaincy without examination. From the date of his first commission he has his quarters and other advantages which greatly reduce the cost of living. In the Navy the newly appointed medical officer has the relative rank of ensign. He spends nearly all his time at sea, and on board ship has a hammock in the steerage; his ignorance concerning the details of ship life subjects him to the ridicule of the young officers in the steerage; he has no place to study, and for other reasons his life on shipboard is unbearable. At the end of three years he is entitled to promotion to the grade of passed assistant surgeon; but to secure advancement he is obliged to pass a most rigid practical examination. His three years' service have been of little advantage to him, and he approaches his second examination hardly as well prepared as when he appeared before the Board at Philadelphia to be examined for appointment. This condition of affairs does not tend to improve the personnel of the corps. Those who unwittingly enter it leave as soon as an opportunity offers itself, while those on the outside, who would be acquisitions to the corps, refuse to accept a commission when they learn what it involves. The fact that the corps has had from ten to twenty vacancies existing since the war ended speaks strongly in favor of some change. There are now fourteen vacancies, and it seems impossible to fill them with desirable men. The number of resignations, deaths, and retirements of medical officers greatly exceeds the number of appointments. Surgeon-General Gunnell will recommend to the Secretary in his next annual report that Congress be asked to place the Navy assistant surgeons upon the same footing as those in the Army, so far as it is possible to do so in view of the difference in the Services. Another strange inconsistency in the treatment of many medical officers is shown in the Navy Register. A promotion from passed assistant surgeon to surgeon is, after all, but a shadow of an advancement, as both have the relative rank of a lieutenant. The Surgeon General will also recommend that the surgeon in the Navy be given a relative rank equal to that of a surgeon in the Army, without increase of pay.

WE have often wondered why so few of our leading Life Insurance Companies have made no effort to cultivate Army and Navy business. There is no class in a better position than officers of our Military Services to insure; none who have stronger inducements to insure—certainly those who have families dependent upon them—and no class furnish a better average risk, a fact which does not seem to have been sufficiently understood and appreciated. The neglect of military risks by some of our leading Life Companies is chiefly to be explained by their system of doing business. This divides the country up into districts, under the control of General Agents, with their subordinate Agencies. These Agents are not expected to interfere with the business belonging to those representing other localities, and as officers are a floating class they cannot be assigned to the parish, so to speak, of any given Agent, and hence they are left outside the ministrations of this class of energetic and useful public servitors.

Some of our Life Companies have accordingly established special offices for military business. To these is added this week that powerful company, the Mutual Life Insurance Company of New York. In control of the new branch of the business of this great corporation has been placed an officer who needs no introduction from us—Brigadier-General Orlando B. Willcox, now on the retired list of the Army. With him is associated a young gentleman, Mr. Henry A. Lyman, who expects to come more directly into contact with officers wishing to make provision for their families. This movement on the part of the Mutual Life will have a powerful influence in stimulating the adoption by the Army and Navy—as well as by the Revenue Marine Service, which has been included in the plan—of that form of investment known as Life Insurance. There is no better investment for the small sums within the control of the average officer than a Life Policy in a company which gives absolute assurance of safety, as the Mutual unquestionably does. Its vast assets, now estimated at over one hundred and fourteen millions of dollars, its handsome surplus over all liabilities of nearly six million, its army of the insured, 139,625, and its annual income of more than twenty-one millions, show the magnitude of its business, and the skill in administration, which in forty-two years has built this up from the original showing of less than one hundred thousand dollars. The Actuary of the Mutual is Prof. Bartlett, a graduate of the Military Academy. It is a pleasure to introduce to the attention of our readers needing insurance a company we can so thoroughly recommend, not only because of the undoubted safety of the policies it issues, but because of the courtesy which controls its management. From the date of its organization this company has received in premiums $301,396,207; it has paid policy-holders, $243,625,369, and it holds in trust for them, $114,181,963.

THE *Army and Navy Gazette* of London has a little touch on the Sunday question, which is just now disturbing our military service, of which it says: "'Scrub hammocks and wash clothes' is, happily, a signal nowadays which is very rarely made on a Sunday afternoon. It was hoisted in a notable instance not many years ago in the Mediterranean Squadron; and one Captain had the good sense and courage to signify his belief that the signalman must have misunderstood the flags, and therefore he asked the Admiral to 'repeat the signal.' So much comment arose on this occasion that the scandal

was not heard of again in the same squadron. We regret to hear that this unseemly and unnecessary order has again been given very recently in the case of a squadron at anchor on the South Coast. We are unable to ascertain any exceptional reason for thus breaking up the Sunday's rest, which all hands had well earned, after many hours' hard work, and it would be well for the Admiralty to testify their disapprobation of such a proceeding."

STATISTICS, published by a German paper, the "Glagan Kulturkampfer," show that the representation of the middle class among the officers of the German Army is increasing. Exclusive of general officers the proportion last year was 6,674 noble, and 6,603 middle class officers. In 1843 the nobility numbered 3,218 to 1,804 middle class in the line; in 1857, 3,051 to 2,150; 1886, 3,094 to 3,574; 1871, 4,446 to 5,083, and 1886, 5,672 noble to 6,516 middle class. In the Guards, on the contrary, the proportion of nobles has increased, standing as follows:

	Nobility.	Middle Class.
1843	711	73
1857	702	48
1866	833	85
1871	875	97
1886	1,002	87

In 1843 there were 154 general officers, of whom 149 belonged to the nobility and 5 to the middle class. In 1857 the numbers were respectively 120 and 11; in 1866, 179 and 11; in 1871, 253 and 10; in 1886, 231 and 26. Of the 231 generals of noble rank in 1886 21 were newly created.

Now that the thermometer bulb finds itself in a state of chronic perspiration, and even the sparrow can be seen with drooping wings and open mouth, panting with heat, the whilom busy corridors of the Navy Department resound no longer to the martial heels of returning naval wanderers, and the melancholy form of Lindsly Muse ceases to deepen, or his chronic smile to cheer, the gloom of the corridor leading to the naval Secretary's room, for when an acting Secretary takes charge of affairs, the old messenger folds his umbrella and silently steals away, while the clerks wearily twirl their chairs around, and question which is better, endurance or resignation. The business-like click of the type writer is reduced to a monotonous and aggravating "tick-tack," the only points where low-temperature activity continues to prevail being the Bureaus of Construction and Steam. The chiefs of these divisions of Mr. Whitney's establishment have not yet taken the customary resting spell, and until the thousand and one details for the new vessels have been carefully elaborated it is not likely that either Mr. Loring or Mr. Wilson will see an end to their drudgery.

SECRETARY WHITNEY does not expect to leave Washington for his summer vacation until about August 1. By that time he hopes to dispose of many of the more important subjects demanding his attention, among them the award of the steel contract to the Bethelehem Co.; the purchase of tools for building one of the armored vessels at the New York Navy-yard; the selection of plans for floating batteries, for which $2,000,000 is now available. On August 1 he will be present, if the time is not extended in the meantime, to open the bids for the construction of the two 19-knot cruisers, the *Newark* and two gunboats. The plans for the machinery of the two 19-knot cruisers have been reported by Chief Engineer Melville as nearly complete. Instead of making these plans after the pattern of the *Baltimore's* machinery, as originally contemplated by the Secretary, it is understood that Mr. Melville has proposed practically a new set of drawings.

ALL of the forgings for the Army 8-inch steel gun, of American material, have been turned out by the Midvale Steel Works with the exception of the two smaller hoops. The work of fabrication is retarded by reason of the "hung up" fortification bill, so that many months must yet elapse before the Army Ordnance Bureau will be able to make a practical comparison between the gun of foreign material and American work and the gun of domestic manufacture. It is barely possible that a little money may be available for commencing the work of fabrication at the Watertown Arsenal, but an appropriation from Congress will undoubtedly be needed before the work can be completed.

OF the twenty-five field carriages for the 3.2-inch guns, eight have been reported finished, and with the guns mounted thereon ready for distribution to the Army. Work on the others has been commenced, and they will be finished very soon. These carriages with their accessories were designed by Colonel Buffington, and those now building are being made under his direction at the National Armory. The first batch of these guns and carriages will be sent to Fort Riley. Fifty of each have been ordered thus far.

IT is stated that Captain John G. Walker, U. S. Navy, will be relieved from duty as Chief of the Bureau of Navigation immediately after his promotion to the grade of Commodore in September next. It is also said that he will be assigned to the command of the *Chicago*. It is understood that the *Chicago* will be the flagship of the European Squadron. Captain Walker, so it is stated, will be commissioned as Acting Rear Admiral, and will command the Squadron after the retirement of Rear Admiral Franklin.

AMONG the changes in the Army Regulations recommended by the Board on Revision, are a complete set of instructions and rules for the guidance and management of the veterinary surgeons of the Army, upon which subject, strange to say, the old regulations are silent. The Board has also recommended a new set of regulations upon the subject of guard duty in the Army.

THE movements of the 11th and 12th Infantry and of troops of the 3d, 5th, 7th and 8th Cavalry, already ordered, are now under way, and it is hoped all will be at their new stations by August 1. Many old associations have now to be severed, with little hope of ever being renewed. Such is (military) life.

THE Hawaiian Kingdom is passing through the throes of a political revolution which trembles on the verge between a simple change of administration and a violent overthrow of the Government of King Kalakau. At the date of the last advices, July 5, the streets were full of excited people. The Rifles had just been called out and it was said that if the King did not agree to sign the new Constitution, which has been prepared, there would be bloodshed. Nothing was seen of the King during the previous Friday and Saturday. Workmen were engaged both these days in placing large iron bolts and bars on the palace gates. Inside the palace, in the basement, were 500 natives, all well armed, and the three native volunteer companies were also prepared to turn out at a moment's notice. At noon on July 5 the Honolulu Rifles were ordered out in full uniform. A Secret League is also arming. The general report was that the King will refuse to sign the document, and will defend himself in the palace until July 6, when three British and one French men-of-war were expected at Honolulu.

MR. J. S. JEANS, in his "Creators of the Age of Steel," says from first to last Mr. Bessemer's patents have brought him royalties to the value of £1,057,000, more than $5,000,000, the United States paying him a large portion of it. On the expiration of the fourteen years' term of partnership of his firm, the works, which had been greatly increased from time to time, entirely out of the revenues, were sold by private contract for exactly twenty-four times the amount of the whole subscribed capital, notwithstanding that the firm had divided in profits during the partnership a sum equal to fifty-seven times the gross capital, so that by the mere commercial working of the process, apart from the patent, each of the five partners retired, after fourteen years, from the Sheffield works with eighty-one times the amount of his subscribed capital, or an average of nearly cent per cent for every two months—a result probably unprecedented in the annals of commerce.

THE State Department now furnishes a special passport to officers of the Government, including those of the Army and Navy, omitting the usual personal description and merely stating the name and rank of the bearer and adding "these are therefore to request all whom it may concern to permit him to pass freely without let or molestation and to extend to him all such friendly aid and protection as would be extended to like officers of foreign governments visiting the United States."

THE delay in appointing a successor to the late Chief Engineer Snyder, Superintendent of the State, War and Navy Department Building, has brought to the surface several new candidates, each of whom are so hopeful of success that the detail is now involved in more uncertainty than ever. So far as heard from, the following have formally entered the list of applicants for the office: Chief Engineers Thom Williamson, Daniel P. McCartney and R. B. Hine, and P. A. Engineer George W. Baird. Occasional mention is also made of a "dark horse." It is presumed that a choice will be made by the close of the week, as the three secretaries, when speaking individually, seem to be very anxious to have the matter settled.

THE boarding and day school for girls of Mrs. J.G. Hyde and daughters at Binghamton, N. Y., will reopen Sept. 19, as announced in advertisement elsewhere in the JOURNAL. This school is beautifully located on the banks of the Susquehanna river, and is surrounded by lovely grounds. It is a "Home School," where parents may safely place their girls for the entire year. Scholars are taught in all the branches studied in the best schools. Commodore J. H. Gillis and Chief Engineer E. D. Robie, U. S. N., are given as references. The daughter of Mr. Robie has been a pupil in the school for two years and enters her third year this fall.

THE 11th Infantry, which is now being concentrated at Fort Abraham Lincoln, Dakota Territory, preliminary to exchanging station with the 12th Infantry in the Division of the Atlantic, will be distributed after arriving at Buffalo, New York, as follows: Colonel R. I. Dodge, Lieut.-Colonel E. G. Bush, with Headquarters and Cos. A, D, G, H and I, at Madison Barracks, New York. Major J. H. Page and Cos. E and K to Fort Niagara, N. Y.; Co. B, to Fort Wood, N. Y. Harbor; Co. C, to Fort Ontario, N. Y., and Co. F, to Plattsburg Barracks, N. Y.

AN accident to the "copy" deprived Rear Admiral Case of the principal part of his signature to the letter on "The Navy at Malvern Hill," which we published last week. The context showed, however, that the letter was written by Rear Admiral A. Ludlow Case, U. S. Navy, an officer so well known to both services that even a portion of his signature should be sufficient to identify him.

GENERAL SHERIDAN decides that the discretion accorded to post commanders by the Army Regulations to dispense with dress parades only authorizes their omission where the weather is too inclement or the conditions of the Service such that the parade is impracticable. No authority is given for the systematic omission on particular days of the week.

THE Army Ordnance Board at Sandy Hook are preparing to further test the dynamite gun charge of Ex-Lieut. Graydon, of the Navy. A six or seven-inch bore gun will be used in the experiments. Mr. Graydon's dynamite was tried in 100-pound Parrott a few days ago, and is reported to have seriously injured the gun.

THE CANTEEN.

THERE was an interesting discussion at the "Canteen" on Thursday evening of the subject of "Autumn Manœuvres" for this country. It was opened by the presiding officer, Gen. Molineux, who read some extracts from a series of articles on this subject contributed by him to the ARMY AND NAVY JOURNAL some time ago. He was followed by Capt. Augustus P. Cooke, U. S. Navy, who gave an interesting account of manœuvres by naval landing parties, and after him came Brevet Major James Jackson, 1st Cavalry, who considered the subject from the Army point of view. Capt. H. C. Aspinwall, of the 12th N. Y. Regiment, gave an account of the English volunteer and militia service, and Capt. J. M. Brady, of the same regiment, spoke effectively on the subject of practical instruction for the National Guard, as did also Lieut. W. J. Maidhof, of the 22d N. Y. General William G. Ward followed, enforcing the general lesson of the discussion with citations from his experience in the field during the war, and closing with the offer of a resolution providing for the appointment of a committee to take measures to bring together the Army, Navy and National Guard for field manœuvres. General Molineaux appointed as this committee: Gen. W. G. Ward, Capt. Augustus P. Cooke, U. S. Navy, Maj. J. Jackson, U.S.A., Wm. C. Church, Lieut. G. N. Whistler, U. S. Army, Capt. J. M. Brady, and Capt. W. H. Murphy, N.G., S. N. Y. The discussion was concluded shortly after midnight by a most earnest and effective speech by Lieut. Garland N. Whistler, 5th U. S. Art., which fixed the attention of the audience in spite of the lateness of the hour and the extra size of the punch bowl. Such gatherings as this of officers of the Army, Navy and National Guard are a most excellent means of promoting better acquaintance and uniting them in the effort to develop public opinion in favor of military training. In addition to those mentioned there were also present Capt. T. F. Kane, U. S. Navy, commanding the *Minnesota*, and Ensign S. Dana Greene, U. S. Navy.

CAPT. J. J. CLAGUE, U. S. A., has left Santa Fe, N. M., for South Minneapolis, Minn., to be there several months.

DATA CONCERNING OCEAN STEAMERS.

THE data which follows concerning some of the principal steamers lately built, is from Mr. W. John's paper on Atlantic Steamers, read July 29, 1886, with slight corrections in certain data, for which we are indebted to Commander French E. Chadwick, U. S. Navy.

*Mean speed of a voyage across the Atlantic Ocean.

(From the Boston Bulletin, July 9.)

THE SOUTH BOSTON LATHES.

ACCORDING to the orders of Ordnance General Benét the two immense iron gun lathes at the South Boston Iron Works are being prepared for removal to the Watervliet Arsenal, West Troy, N. Y. The great iron crane which is used to place the guns in position on the lathe, will also be taken away. It is apparently the intention of the Government to make the Watervliet Arsenal the great gun foundry of the country and to hereafter do all of its own large gun casting. Pits are now being prepared at that arsenal for gun casting, and in addition to the lathes and crane which are to be removed from South Boston, a number of rifling and boring machines and other machinery are to be shipped there from the Watertown Arsenal.

The two iron gun lathes which are to be removed from the South Boston Iron Works are the largest in this country, and among the largest in the world, and are two of the most wonderful pieces of machinery in America. Each lathe is about 70 feet in length; one weighs about 175 tons and the other about 145 tons. Each lathe is capable of turning a piece of work 40 feet in length, and, on the other hand, to do work of extreme delicacy and lightness. Each is, in fact, a perfect and completely fitted lathe. They have been used in South Boston for finishing the 12-inch guns which are 385 inches in length, and when they came upon the lathe weighed 120 tons each and were turned down to 54 tons.

The iron crane which handles these guns weighs about 120 tons. It moves forward and back on tracks laid in the lathe room, and the overhead gearing of the crane can be swung in any direction or position desired. These immense gun lathes have been at the South Boston Iron Works since 1882. One of them was built there and the other at the Springfield Arsenal. They were both built at Government expense and are thus the property of the Government, but they were being purchased by the South Boston Iron Works, payments being made by deductions from money due that concern from the Government for work performed. Now, however, the Government claims these lathes and the crane as its property and will probably take no account of the payments made upon them by the company, holding that the use of the lathes balances the payments made.

On these lathes the South Boston Iron Works has done some very heavy work, including one 12-inch cast iron gun, now at Sandy Hook; one 10-inch cast iron gun, which is now at the Watertown Arsenal to be steel-tubed and wire-wrapped; one 12-inch cast iron gun with steel tube and steel hoops, finished and now at South Boston, and one 12-inch cast iron gun, which is to have a steel tube and is now at South Boston already bored, but which cannot be finished owing to the removal of the lathes. The company prepared the masonry lathe beds at a very heavy expense, which will stand them a total loss, as it is extremely improbable that they will ever build lathes of such size for themselves. The Government may, however, give up the lathe building, which would offset the loss by the lathe beds. The iron lathe beds will also be taken with the lathes and crane.

(From the N. Y. Tribune.)

OPINION OF AN ARMY OFFICER.

FORT BARRANCAS,
WARRINGTON, Fla., April 12, 1887.

YOUR circular to Post O. M. Mitchell, Atlanta Ga., came in my mail, forwarded by a new address on the envelope to me. I had opened, read it, and indeed began marking it, before I discovered that it was possibly meant for some one else. For the last five years the troops from this post have camped every summer near Atlanta, and for three successive summers the camp was known as Camp Mitchell, or the post of Camp Mitchell. So you see I was justified in supposing that my camp or post had been mistaken as a post of the G. A. R.

However, as I agree most heartily in your views and wish you every success, I write this long letter to insure the post of O. M. Mitchell getting its circular.

I have utilized the circular that came to me and have written answers opposite some of the questions. These answers are based on my experiences as an officer and as the recipient of many applications for assistance from soldiers who served under me in the war. As such, if they are of interest, you are welcome to them.

L. L. LANGDON, Lt.-Col., 2d Art., U. S. A.

THE SPRINGFIELD GUN.

To the Editor of the Army and Navy Journal:

IN your issue of July 25 "Medals" asks the question: "Would we, as a nation, trust to (our rifle) in a war against a foreign power, armed with any of the best rifles now made in this country or in England?" If "Medals" would study ordnance notes, he would learn that for range, accuracy and penetration, the Springfield takes the lead as compared with other rifles. PROGRESS.

But it is not a modern gun, and when all others are adopting the magazine gun we cannot afford to be behind.—EDITOR.

THE NAVY AT MALVERN HILL.

To the Editor of the Army and Navy Journal:

IN your JOURNAL of the 9th inst., is an article, signed A. Ludlow,* Rear Admiral of the U. S. N., which asserts that I made a "gross misstatement." That is not an expression used between officers and gentlemen.

He quotes my statement as follows: "Lee attacked McClellan at Malvern Hill on the James, but was repulsed, and but for the failure of the Navy to *cover his transports* (the italics are mine) *to that point*, McClellan would have made that his new base." He then says, "Now, that is not the fact." What is not the fact? I presume he means "the failure of the Navy." But he does not prove his assertion; in fact admits my facts, when he says, "Gen. McClellan also must have been fully aware of a large naval force . . . which he subsequently found at Harrison's Landing, when he arrived . . . moored . . . so as to throw a cross fire for its protection against any forces. Of course, it was not disturbed." That cross fire was what we wanted at Haxall's Landing, near Malvern.

When I said "the Navy," that part then on the James was, of course, referred to. Certainly not those parts at Forts Jackson and Phillips, Vicksburg, Mobile, and afterwards on the James, where just such work was done. The Navy, like the Army, near Washington, in 1862, was interfered with by influences beyond its control. The word "failure" I used for the want of a better one—not in the sense of defeat. The work was not done, not attempted—said to be impossible. Its not being done prevented the new base being established at Malvern Hill. Navy officers of high merit have said since, that it was possible, and should have been done—to co-operate with the Army—as was afterwards done on the James.

His own expression might be applied to his statement, "demoralized Army"—which after winning a great battle had to march in the mud and rain to Harrison's Landing for rations. Gen. McClellan's report says: "Although the battle of Malvern was a complete victory, it was nevertheless necessary to fall back still further in order to reach a point where our supplies could be brought to us with certainty. As before stated, in the opinion of Captain Rogers, commanding the gunboat flotilla, this could only be done below City Point—concurring in his opinion, I selected Harrison's bar as the new base." This opinion was, of couse, transmitted by Commodore Goldsboro, in command. The concurrence in it, whether as to the possibility of Haxall's Landing or selection of Harrison's Landing, does not relieve the Navy. McClellan had enough responsibility of his own, and did not presume to be a naval commander, especially after the assertion of independence of Commodore Goldsboro, supported by his Department, previously. As to the fling at McClellan—"Gen. McClellan himself passed some time while the battle was raging on board the gunboat"—McClellan's report says: "I once more made the entire circuit of the position, and then returned to Haxall's, whence I went with Capt. Rogers to select the final location for the Army and its depots; I returned to Malvern Hill before the serious fighting commenced," I saw McClellan on the battlefield and conducted him to Gen. Sumner's Hdqrs. after 2; the battle began about 3 o'clock. This and other stories, not corrected by Capt. Rogers, are not credable.

WM. W. BURNS.

GOVERNOR'S ISLAND, July 12.

* The signature to the letter referred to should have been "A. Ludlow Case." By an accident the termination of Admiral Case's signature was erased in the MS., and the omission escaped the attention of the Editor.

POLITICS IN THE GRAND ARMY.

To the Editor of the Army and Navy Journal:

I AM more than pleased with your remarks in the JOURNAL of the 9th inst., in relation to the Military Order of the Loyal Legion. For a great many years I have been a member of that order, and for several years I have been a member of the commandery in this city, and during all this time political matters have never even been broached. The consequence is our order is respected everywhere. How different is the bitter feeling toward the Grand Army of the Republic! I am also a member of that order. When I joined some years ago politics were tabooed. While that gentleman and soldier, General Burdett, was commander-in-chief the order was run on a social and benevolent basis. But now the order has fallen into the hands of a set of political demagogues, and it bids fair to be disrupted.

Unless the society expels blatherskites from its ranks and returns to first principles, the more respectable members of it will withdraw. They will not associate with men who deliberately abuse and malign the person who represents the Government of our country and the commander-in-chief of the Army and Navy of the United States. No man who *is* a soldier, or *has been* one, would be guilty of such ungentlemanly acts. JACK HUFF.

WASHINGTON, D. C., July 12, 1887.

A ONE-OFFICER COURT-MARTIAL.

To the Editor of the Army and Navy Journal:

THE garrison Courts-martial as a dispenser of justice in minor cases is too cumbrous a machine to be worked with the facility required to mete out justice promptly, and therefore impartially, to the many delinquents of the lesser sort. The field officers' court was so rapid in its grinding that a great deal of its grist was not exceeding small; moreover, it was clothed with that dangerous prerogative—unchallengability.

Each system possesses both merits and faults; but by a judicious combination of the two systems most of the merits of both may be preserved, and most of the faults eradicated.

What I propose is that the second in command, be his rank what it may, be designated and appointed a court, and that, each morning, all men accused of disorders, neglects, etc., that come within the jurisdiction of minor courts be brought before him for trial: That the said officer shall then ask each accused if he has any objection to being tried by him; and that, if the answer be in the affirmative, the officer shall relegate the case to the ordinary garrison or regimental court.

Seventy-five per cent. of all the cases now tried by garrison courts are those of short absences without leave and failures to attend roll calls, the pleas to which are guilty, and the sentences for which are forfeitures of small amounts of pay; and in such cases no objection could be made, on any reasonable ground, to trial before the one-officer court, as there would exist no opportunity for the bias of prejudice to work. L.

REORGANIZATION OF THE ARTILLERY.

To the Editor of the Army and Navy Journal:

THERE has recently been published a proposed bill for the reorganization of the artillery, which appears to be an emasculated and otherwise altered copy of the enclosed, which was drawn a year or two since. If a corps is to be established, most certainly the feature of examinations should be its principal one. As for the engineers and ordnance, especially in view of what the President has recommended in his message, and of his well-known views respecting examinations everywhere, only the limit should stop at the highest grade in the Navy. Imagine the necessity for examining a commodore, ranking with a brigadier, and letting a lieutenant-colonel or major of artillery pass. The higher the rank and responsibility, the greater the necessity for examinations. Few officers of rank will be "found," but if physically disabled they will have to go, which unquestionably should be the rule.

If a corps is to be organized, there should be no stopping at the officers. The enlisted men are just as important a part thereof, and their interests just as worthy of consideration. The pay list is the same as that known as the Logan pay bill, excepting the pay of artificers, and the engineers and firemen. The other sections of the bill are copied almost word for word from present statutes, so modified, of course, as to apply to a corps of artillery.

The double line of 1st lieutenant is abolished and, although the number of batteries and men are increased, there will not be a startling increase of officers after all.

The inspector-general is to become chief. His duties will familiarize him with the circumstances and wants of the corps, and if an officer of any merit or ability at all, these advantages will enable him to become the officer best fitted for chief. The adjutant-general is retained in the regular line of promotion to secure a change at intervals, a matter of the greatest importance to the Service; and to prevent depriving him of further promotion, a matter of considerable importance to him. Without a doubt these officers should be selected at the discretion of the President without examination, the same as general officers are selected.

It would hardly be fair to spring examinations upon a body of officers unexpectedly, and therefore the first promotions to original vacancies, etc., are made without examinations. After this all will have fair warning, and must be prepared accordingly. It is proposed to call a convention to secure a form of bill which shall meet the approval of the majority, and in the meantime it is wise to present the various ideas.

—

A Bill to increase the efficiency of the Artillery Service of the Army, and to create a Corps of Artillery.

Sec. 1. *Be it enacted, etc.* That the five regiments of artillery of the Army be, and the same hereby are, merged into a corps, which shall be known and officially designated as the Corps of Artillery, United States Army.

Sec. 2. The corps of artillery shall consist of one chief of artillery with the rank of brigadier general, one inspector general of artillery with the rank of colonel, one adjutant general of artillery with the rank of lieutenant colonel who shall be in the regular line of promotion, six colonels, twelve lieutenant colonels, twenty-four majors, ninety-six captains, ninety-six first lieutenants, ninety six second lieutenants, eighteen sergeants major, six chief musicians who shall be instructors of music, twelve principal musicians, and ninety-six batteries of artillery.

Sec. 3. Each battery shall consist of one captain, one first lieutenant, one second lieutenant, one first sergeant, four sergeants, four corporals, two musicians, and as many privates not to exceed one hundred and twenty-two as the President may direct; one second lieutenant, one stable sergeant, one quartermaster sergeant, two sergeants, eight corporals, seven artificers, one guidon, two wagoners, and not to exceed one hundred privates may be added to this battery organization at the discretion of the President, and in addition thereto he may in his discretion further add three engineer machinists and six firemen stokers.

Sec. 4. Two batteries to be designated by the President shall be equipped as horse artillery batteries, four batteries to be designated by the President shall be equipped as light batteries, and four other batteries to be so designated shall be equipped as position or siege artillery batteries; when the President may deem it necessary four other batteries may be so designated and equipped as he may order.

Sec. 5. The offices of chief of artillery, inspector general of artillery, and adjutant general of artillery, created by the provisions of this act shall be filled by selection from the officers of artillery; thereafter in case of vacancy, the inspector general of artillery shall be promoted to be chief of artillery. All other original or other vacancies created by the provisions of this act, shall be filled by promotions by seniority from the officers of artillery. *Provided*, that vacancies in the rank of second lieutenant may be filled from the Army, subject to the provisions prescribed in the following section:

Sec. 6. After the original or other vacancies created by the provisions of this act shall have been once filled, no officer of the corps of artillery below the rank of colonel shall be promoted or commissioned to a higher grade, nor shall any officer of the Army be commissioned as an officer of the corps of artillery, until he shall have passed a satisfactory examination before a board of not less than three officers of the corps of artillery senior to him in rank and one medical officer, and pronounced by said board professionally, mentally, morally, and physically qualified for promotion; and should any officer fail on such examination, he shall, if such failure be due to disability contracted in the line of duty, be placed upon the retired list, otherwise he shall be suspended from promotion or appointment for one year, when he may be re-examined before a like board; and if upon such second examination an artillery officer fail he shall be dropped from the rolls of the Army, and if any officer of the Army he shall not be commissioned an officer of the corps of artillery.

Sec. 7. The pay and allowances of the officers of the corps of artillery shall be the same as now fixed by law for officers of artillery, or for those of like grade upon the active list of the Army.

Sec. 8. All non-commissioned officers of artillery shall be appointed by the chief of artillery; the sergeants-major, upon the recommendations of the colonels or lieut.-colonels of artillery, and all others upon the recommendations of their respective battery commanders.

Sec. 9. The rank, pay and allowances of the chief musicians and the principal musicians of the corps of artillery shall be the same as now fixed by law for those of artillery, and the pay of enlisted men shall be as follows: Sergeant-major, $26 per month; 1st sergeant, $24 per month; stable and quartermaster sergeants, $22 per month; sergeants, $20 per month; corporals, $18 per month; artificers, $20 per month; musicians and privates, $16 per month; engineer-machinists, $— per month; firemen-stokers, $— per month, and all others the same rates of monthly pay as now fixed by law, and said rates of pay hereby established shall be increased for continued service, as provided by sections 1261, 1282, 1283, and 1284 of the Revised Statutes: *Provided*, That the enlisted men of the corps of artillery shall be entitled to and receive all other allowances now fixed by law for enlisted men of artillery,

WEST POINT AND THE MILITIA.

To the Editor of the Army and Navy Journal:

As you have reprinted a letter from Capt. Ruffner, of the Engineers, to the Cincinnati *Commercial-Gazette*, regarding an article entitled "West Point, the Army and the Militia," in the July number of "Lippincott's Magazine," will you be kind enough to permit me to say to your readers that there is not one single word in the despatch to the *Commercial-Gazette* which Capt. Ruffner quotes in full, nor in my article, that even suggests that the Regular Army should learn lessons from the militia, or that defects in the Army organization should be remedied by devices borrowed from the militia. I cannot do Capt. Ruffner's intelligence the injustice to suppose that he misunderstood me, when in two passages I urged a close connection between the Army and the militia for the sake of improving the militia.

The criticisms on the Military Academy in the magazine article are not mine, but the criticisms of two Boards of Visitors and of some of the members of the Academic Board.

The remainder of the article was a protest against a system of assigning 2d lieutenants, which discriminates in a most marked manner against the infantry; objections to a rigid system of promotion by seniority, and a suggestion for territorializing the Army, for which I am indebted to an officer of high rank in the Adjutant-General's Department. Very truly yours, FRED. PERRY POWERS.

JULY 11, 1887.

GENERAL LUCIUS FAIRCHILD.

To the Editor of the Army and Navy Journal:

FEW men are more beloved than is the present commander-in-chief of the Grand Army of the Republic—Gen. Lucius Fairchild. Governor of his State (Wisconsin) three times at the first flush of youthful manhood; Consul to England and France and Minister to Spain in turn, the hero soldier of Gettysburg, who left a precious arm on that gory field, lives on the banks of one of the loveliest little lakes of the Northwest (Lake Monona). His home is the embodiment of all that the exquisite and refined taste of an elegant wife and charming daughters can make it. Hospitable and generous to a fault, the General is a courteous, modest and delightful, true American gentleman, and an enthusiastic lover of the Army and Navy as well. His house, with its delightful verandas, embowered in this season in the greenest of foliage and overlooking the crystalline waters of the fairy lake, is the rendezvous of all the taste and elegance of the Wisconsin capital, a hearty welcome being extended at all times to all who do themselves the honor of calling.

JEFFERSON DAVIS'S OPINIONS.

IN a recent interview, as reported, Jefferson Davis discussed his experience as Secretary of War in Mr. Pierce's Cabinet and as Senator from Mississippi, his career as President of the Southern Confederacy, and was eloquent in his praise of General Albert Sidney Johnston, Lee, Jackson and A. P. Hill. He says A. S. Johnston had no peer on either side during the war, if he ever had in American history, and his loss to the Confederacy was irreparable. Lee was his associate and friend at West Point, with Leonidas Polk and James B. Magruder, and there never was aught but harmony between them. Speaking of the seven days' battles around Richmond, Mr. Davis says General Lee conceived and executed the desperate plan to turn the flank and rear of McClellan's army, and adds that the failure to annihilate the Federal Army was due chiefly to the fact that General Lee had no maps of the country below Richmond, and that his army moved in ignorance of the country, and with guides who for the most part proved themselves utterly inefficient. He says that General Lee's object in the retreat from Petersburg in the last days of the war was to reach Danville and then unite with General Johnston and crush Sherman before Grant could join him. He declares that McClellan and Meade were the two best Federal generals, and if the former had been permitted to carry out his campaign against Richmond as he had planned and had received the hearty support of the Federal War Department it would have resulted disastrously to the Confederates.

Speaking of Stonewall Jackson he said nobody expected that this quiet professor, when he left the Virginia Military Institute, would have an opportunity to show the great qualities he possessed and become the great hero of the war. Had he not fallen at Chancellorsville Mr. Davis says that the Federal Army of the Potomac would have disappeared into history under circumstances far different from those which marked its dissolution two years later. He says of General A. P. Hill that no truer, more devoted, self-sacrificing soldier ever lived.

WILL OF KOSCIUSKO.

AMONG old papers recently found in the office of the Register of Wills, District of Columbia, is the will of General Kosciusko, made May 5, 1798. The instrument reads as follows:

I, Thaddeus Kosciusko, being just on my departure from America, do hereby declare and direct that should I make no other testamentary disposition of my property in the United States, I hereby authorize my friend Thomas Jefferson to employ the whole thereof in purchasing negroes from among his own or any others, and freeing them in my name; in giving them an education in trades or otherwise, and in having them instructed for their new condition in the duties of morality that make them good neighbors, good fathers or mothers, husbands or wives; and in their duties as citizens, teaching them to be defenders of their liberty and country and of the good order of society, and in whatsoever may make them happy and useful; and I make the said Thomas Jefferson executor of this. T. KOSCIUSKO.

Military Order of the Loyal Legion.

In a recent report Co. W. R. Smedberg, U. S. A., Recorder of the California Commandery, well says: "If the Loyal Legion is to prosper in the future, its recruiting must be brisk during the next few years, while the generation of those who are eligible to original Companionship of the 1st Class are living. Under the present reading of our Constitution the veteran officer who dies without becoming a Companion, leaves no heritage of eligibility to his descendants. In order, therefore, not only that our Commandery may become more prosperous and its membership may be largely increased in the present generation, but that we may leave it in condition to insure its prosperity in the next and following generations, I urge upon every Companion of this Commandery the importance of vigorous and careful recruiting."

THE STATE TROOPS.

THE NEW YORK STATE CAMP.

THE NINTH REGIMENT.

ON Saturday afternoon, July 9, the 9th finished its third tour of duty at the State Camp under the command of Col. Wm. Seward, Jr. Col. Seward recently asked for a leave of absence to last up to some time in August, which was granted, and it was announced in orders that Lieut.-Col. Thomas B. Rand should assume command of the regiment. However, Col. Seward relinquished his leave, turned up at the eleventh hour and assumed charge of the regiment, and this fact gave the Lieut.-Colonel a chance to take care of a fracture of his leg sustained on last Decoration Day and which is only imperfectly healed. He remained in camp the entire week suffering great inconvenience, was about at all times, but unable to ride on horseback.

There seems to be an unfortunate misunderstanding between some of the State and some of the 9th regiment officers, which as long as it is kept up, must always be detrimental to the conduct of the camp, and this seemed to be the case on this as well as on previous occasions.

The 9th marched in with 388 men, and this number varied during the week so as to bring the maximum attendance up to 395, and the minimum down to 384, a small difference, which goes to show a marked improvement over former years, when men were allowed to come and go as bees in and out of a hive. The strict regulations and the constant supervision of the last year or two have worked wonderful changes in the right direction. Evils which had seemed impossible to eradicate have so thoroughly disappeared that it is no longer necessary to look for their existence. While the attendance was regular the fact cannot be denied that the regiment, which some years ago was one of the strongest in the State, is coming down in numbers gradually but surely, and if the city desires to keep it up an armory should be speedily provided. Few people will remain in or join an organization which is quartered in 26th st., between 7th and 8th aves., and over a stable at that.

The appearance of the regiment when it marched into camp was certainly better than on former occasions, and the behavior of the men, especially so far as general discipline, quietness at night, observance of courtesies, etc., was concerned, showed a decided improvement. They did not make as much progress, however, as might have been the case had the relations between regimental and staff officers, referred to above, been of a more pleasant nature. There was some tendency to skylarking; the orders with regard to mock parades and fireworks were not strictly observed, but it is due to say that when the matter was brought to the attention of the regiment from post headquarters any breach of the rules on this score was promptly stopped.

The guards started in fairly well, especially the one on the first Sunday, when Capt. Lorrigan was officer of the day, but there was little or no progress made during the week. The camp has been in existence so long, and so much has been said and written on this subject, that at least every officer should be familiar with the whole thing. The contrary, however, seems to be the case, even in the best regiments, and it is painful to see the absurdities invented and committed day after day. The 9th did not get beyond a certain point of improvement any more than other regiments, and this can only be accounted for because men scarcely get more than one tour of duty, and it cannot be expected from them to learn very much under the circumstances. To teach men all the details of their duty requires much more time, particularly with those belonging to the mechanical and laboring classes, and to judge them too harshly for saluting improperly and facing in the wrong direction would not be fair. There is no excuse, however, for officers not knowing all about the whole thing, and therefore the constantly occurring blunders were abominable. The prescribed half hour's instruction of each relief before marching on post was only carried out in a few instances, sometimes on account of carelessness, in other instances because the officers did not know how to instruct their men. We saw one officer of the Guard in his shirt sleeves at reveille giving orders to men who were dressed up properly as soldiers and doing their duty as well as they knew how. The Regulations prescribe that neither officers nor soldiers on guard shall take off their clothing or accoutrements, but even if this were not so an officer should always set an example in his dress as well as in his soldierly bearing.

If the officer of the Guard sets the example of removing his clothing, what is there to prevent the men to do the same thing? There is no reason for referring at any length to the performance of ceremonies. They are now so well understood that dress parades, etc., are always handsome, and this was the case in the 9th. On a Saturday when a regiment arrives there is generally some little irregularity, but officers and men have now mastered the subject so well that there is but little trouble on this score, even in the most imperfectly instructed organizations. The 9th had some very handsome parades and made some bad blunders on guard mounting, but, as a general thing, ceremonies passed off well. There was no reason, however, for those who looked on to clap hands indiscriminately when a movement was half way decently performed. The applauding of military movements is, under all circumstances, an unmilitary piece of business, especially by soldiers, and it would be well for the State authorities to prohibit it in orders, the same as they did fireworks and mock parades.

So far as drills are concerned, they were not up to the standard. The regiment did better on battalion drill than at company movements because individual mistakes did not make themselves as plain at the latter. Company drills, however, were bad. The men were awkward and badly instructed, and many officers incompetent. The armory is bad, but there is plenty of room to instruct companies, and for this reason we can not discover any excuse for using the camp to waste time in teaching the men the most primary movements in the tactics. Major Bartlett no doubt knew what he was about when he ordered the teaching of the setting up exercises, and the facings at company drill, but men should not be brought to camp who need instruction in such matters as these, The object of the camp is a higher one

A man who does not know how to make a right face should not be taken there. To teach him his facings is a waste of valuable time as well as of State money. The Ninth should learn that the proper place for this sort of business is the armory. The regiment, however, on general principles, did much better than in former years, and their discipline was much improved. The men behaved well, although the majority of them lacked that finish which stamps a man at the first glance as a soldier. The camp was exceedingly clean, and the policing performed in a thorough manner. The weather, as during the previous week, was extremely hot, and officers and men deserve special credit for the manner in which they performed their duty. They marched out of camp in a very creditable manner.

THE PROVISIONAL BATTALION.

With the 9th there was in camp a battalion consisting of the 6th, 11th, 38th and 41st Separate Companies (Troy, Mt. Vernon, Oswego and Syracuse, respectively). This, as the country companies usually do, beat the city regiment in drill, discipline, appearance and general efficiency. It was under command of Maj. Frank A. Jones, of the 11th New York, a comparatively young officer, who, however, did his work well. He had fewer details to look after than the colonel of the 9th, because his command was thoroughly instructed in company movements, the Troy and Syracuse companies particularly. The Troy company (the Citizens' Corps) is particularly well up in the manual and marching, in which it would prove a strong rival of the best of the 7th.

Capt. Cusack, the commander, did not always use the commands and means laid down in the latest tactics, but when a man has drilled Scott, Hardie, Casey and Upton, he is liable to get mixed up a little, and it would hardly be fair to haul him over the coals on that account. Capt. Randall, of the 41st, handled his command well enough, but he could have dispensed with a good deal of talking, without detriment to the drill. The officers of this battalion made up for the time being, were naturally not as well used to battalion drill as those of a city regiment, but they managed to do very well before the week closed. The battalion was independent of the 9th, and Major Jones had his own way. He did very well, but on battalion drill he seemed to handle his command as if he were in the 11th Regiment Armory, making changes of direction and halting every 100 feet. Before the end of the week, however, matters righted themselves, and thus became one of the most successful battalions which has been in camp.

Though still very deficient the regiment and the battalion made a very successful week of it and the improvement was marked.

REMINISCENCES OF THE NATIONAL DRILL.

COL. J. M. WILSON, Corps of Engineers, Commissioner of Public Buildings and Grounds, in his annual report submitted to the Secretary of War, says that no material damage was done the elliptical reservation at the rear of the White House by the manœuvres of the military companies which met in drill competition last May. He says: "It was believed that the drill would be a national affair, would advance the interests of the militia throughout the country, and that the use of the grounds for this purpose was therefore eminently proper. It will be well, however, in my opinion, to select some other section of the city for a drill and camping ground in case it is proposed to repeat the affair; or in case it may be deemed best by the proper authorities to grant a similar privilege, it should be coupled with the proviso that only the troops be allowed on the lawn of the ellipse, and that no structure of any kind be erected upon it."

Twelfth New York.—Col. J. H. Jones.

ON the arrival of the 12th Regiment at their armory from Peekskill on Saturday evening, July 2, and just after the command was ordered dismissed, the 1st sergeants of the different companies were requested by Sergt. Maj. J. J. Bushnell to bring their companies to attention. The sergeant major then advanced to Col. J. H. Jones with a large package which he presented to the colonel on behalf of the enlisted men of the 12th, as a token of their esteem. The package contained an exceedingly handsome set of resolutions engrossed in black, red, gold and silver, on four pages of panel design, containing beautiful water color designs, among which scenes of camp life at Peekskill, and views of the Hudson and N. Y. State and City arms. The leaves are bound into a black seal case, lined inside with white watered silk. The outside corners are of sterling silver, and a silver monogram, J. H. J., in centre, all richly chased. On the lower corner of the cover was engraved, on silver, a colonel's shoulder-straps. The whole encased in a dark-blue plush box. Col. Jones in accepting the resolutions thanked the men sincerely for this handsome token of esteem, which he said would ever give him the utmost pleasure to look upon. The affair had been kept as secret as possible from all the officers, so that it was a great surprise, except to the enlisted men. The resolutions were as follows:

Whereas, Colonel James H. Jones, the commandant of our regiment, has, by his indefatigable efforts and untiring labors, raised the same to a position second to none among the National Guard of the State, and

Whereas, he has, by his manly qualities, gained the love as well as the respect of every one who is serving, or has served under him, and

Whereas, it is in great part due to his energy and zeal that we are now occupying the beautiful and substantial armory, therefore, be it

Resolved, That we, individually and collectively, tender to Colonel James H. Jones our heartfelt thanks therefor, and express the hope that the names of Col. Jones and the 12th Regiment may long be linked together, thereby guaranteeing the regiment's continued success and good fame, and be it further

Resolved, That these preambles and resolutions be entered in full on our minutes, and that an engrossed copy thereof be presented to Colonel Jones.

MILITIA ITEMS.

Dissatisfaction is expressed among the men of the 71st N. Y. that the marksmen's badges they won at Creedmoor last year have not yet been distributed to them.

The picnic of the 71st Regiment (N. Y.) Drum Corps will be held on Sept. 14 at Jones's Wood. A competition, open to any drum corps, will be held on the occasion. No entrance fee is charged.

Co. H, 8th N. Y., will hold a picnic at Sultzer's Harlem River Park on Thursday evening, July 21.

Col. E. A. McAlpin, of the 71st, has firmly made up his mind that he cannot remain with the regiment and he will not re-consider his resignation. He will not go to camp with the regiment. His loss is a serious one to the regiment and one difficult to be made up for. No doubt, however, if Lieut.-Col. Fred. Kopper is elected, as seems to be beyond doubt, no detriment to the regiment will result. Capt. Chas. A. Hess, Inspector of Rifle Practice, who joined the regiment as a 1st Lieutenant, May 8, 1883, and was appointed to his present position March 4, 1885, has resigned. Charley Hess is a very popular officer and his resignation is much regretted in the 71st, as in the National Guard generally.

MISSISSIPPI.

THE grounds of the State camp at Fort Henry, near Pass Christian, where the Regular and State artillery go into camp together next month, are delightfully located, with a frontage of 1,200 feet on the Gulf of Mexico, and extending back 2,500 feet to the Louisville and Nashville Railroad, from which extend side tracks for facilitating the transfer of passengers and baggage. A white sand beach extends along the Gulf shore a distance of five miles, and a shell road the entire length affords fine facilities for riding and driving. Abundance of fish can be taken in the Gulf and river near at hand; bathing facilities are excellent, and opportunities for the best rides, pleasure drives and moonlight excursions on the Gulf are unsurpassed. The hotel accommodations are excellent. Tents will be furnished free to the military, but individual expenses, such as transportation, board, etc., will have to be borne by the individual members of the different companies. Each company can make arrangements with the restaurant keeper, who will have ample accommodations for boarding the visitors. Meal tickets will be furnished at the rate of $1 per day of three meals. Each company, should they so desire, may arrange their own messes and have their own cooking done on the grounds.

These facts are presented in a circular issued to the Guard by Adjutant General Wm. Henry, in which he says also: "The encampment of the National Guard of Mississippi, which was to take place at Fort Henry on July 18 next, and continue for six days, has been postponed to Aug. 3 next, and continue to Aug. 10, for the reason that it was earnestly desired to have the two companies of U. S. Artillery troops, under command of Major C. B. Throckmorton, now stationed at Jackson Barracks, La., go into encampment with us. With this view I telegraphed Gen. John M. Schofield, Governor's Island, New York, and asked that he would issue the order accordingly, which he did, but as Major Throckmorton must have ammunition and other necessaries from Washington, and the time being too short for transportation of these articles, the time of encampment was reluctantly postponed. In my opinion, the time now set, Aug. 3 to 10, will suit all parties concerned better than any other. As now arranged, the two companies of the U. S. Artillery, under command of Major Throckmorton, will go into camp with us with two Gatling guns and one full siege battery, with ammunition for all, including a sufficiency to operate the battery of two heavy guns and four mortars now at Fort Henry. Major Throckmorton will be placed in command of the encampment. As it is the desire and intention to make it truly a 'camp of instruction,' it will therefore be under military discipline. This training could be had in no other way, and its benefits to the National Guard of our State are incalculable. I have extended an invitation to the Louisiana National Guard, through Col. T. A. Faries, acting Adjutant General, to go into encampment with us. The Washington Artillery and Battery B, Louisiana Field Artillery, will certainly attend, as well as several companies of infantry. The outlook for a successful and prosperous encampment is very encouraging."

MASSACHUSETTS.

THE 1st Corps of Cadets of Boston are to have a new armory and drill hall, with a gymnasium included. A rough estimate of the cost of the permanent drill hall, including its basement and fittings, is $80,000, and a like estimate on the cost of the main house and fittings is $60,000. Add $10,000 for contingencies, furniture and apparatus, and the total rough estimate for the whole building is $150,000, besides the land, which cost about $80,000. It is to be located on the corner of Columbus avenue and Ferdinand street, opposite the Providence Railroad station. The corps was founded in 1741, under the name of the Governor's Company of Cadets, and has been in continuous service ever since that time, with the exception of the period of the Revolution, when its members, voluntarily retiring from service under Gen. Gage, were scattered by the troubles of that time. In 1786, after the establishment of the State government, the corps was reorganized as a part of the State militia, under the name of the Independent Company of Cadets, to be the body guard for the Governors of the Commonwealth of Massachusetts, in the same way that the original company had acted for the Governors of the colony.

The Ancient and Honorable Artillery Company of Boston July 11 joined its namesake body in London in celebrating the latter's 350th birthday. They were headed by Colonel Henry Walker, an eminent Boston barrister, and among the number was also the Mayor of Cambridge, Mass. All these "solid men of Boston" wore their hub uniforms. The regiment entertaining them was commanded by the Duke of Portland. Among the reviewing guests were Lord Napier of Magdala and other military and naval dignitaries. When the review ended a banquet followed, at which Minister Phelps and Consul General Waller sat on the right of the ducal chairman, and on the left Col. Walker.

(Correspondence of the Army and Navy Journal.)

ILLINOIS NATIONAL GUARD.

THE 2d Regiment has had a sweltering time at Camp Lincoln, where it is holding its annual encampment. The target shooting of Cos. H, L and C, July 12, was excellent. The best scores were made by Sergt. Zobel and Pvt. Carmody, of Co. H, and Capt. Stuart, of Co. C.

The following is the record of Sergt. Gustav Zobel, formerly Co. G, 3d Inf.: Stood No. 3, Dept. of Dakota Team, 1885; won skirmish medal, Dept. of Dakota Team, 1885; stood No. 12, Dept. of Dakota Team, 1886, also, highest aggregate scores in the three days of preliminary practice, 92 competitors, Fort Snelling, August, 1886, winning the Robertson badge; announced as distinguished marksman in G. O. No. 78, Hdqrs. of the Army, Oct. 20, 1886; honorably discharged the Service at Fort Shaw, Montana Territory; character, excellent. Through the influence of Army friends obtained position with Bradner, Smith and Co., 119 Monroe street, Chicago, Ill. Capt. C. F. Smith, of this firm, is Inspector of Rifle Practice for the 2d Regiment of Infantry, I. N. G. Zoble enlisted in Co. H, of that regiment; the company then being commanded by a son of the late Assistant Adjutant General Pelouze, U. S. A.; was promoted corporal, then sergeant. At the annual encampment at Camp Lincoln, Springfield, Ill., of the 2d Regiment of Infantry, Sergt. Zobel beat all other competitors without having to shoot through either a tube or a funnel to get on to the target. It is gratifying to note that a soldier of the rifle regiment of the Army has been enabled to succeed so well in civil life and to demonstrate also, that the skill and effectiveness attained by him in rifle practice while in the Regular Army has been fully maintained in competition with the citizen soldiery.

VERMONT NATIONAL GUARD.

THE several organizations composing the 1st Brigade, V. N. G., will go into camp for instruction and drill, on the grounds of the Soldiers' Home, at Bennington, Wednesday, August 10, and remain eight days. The orders regulating the camp say: "Strict attention will be paid to military etiquette and general appearance when off duty. Lounging about camp without coats, and the wearing of citizen's clothing will be considered a punishable offence." Major Wm. Smith, Asst. Q. M. General, is directed to lay out and prepare the camp in readiness for the arrival of the troops. The usual detail of one non-commissioned officer and four men from each company of the 1st Regiment and Separate Battalion, and of the usual number of men from the Light Battery, will be made by the commanding officer of the organizations named, for the purpose of pitching the tents of their respective commands. Par. 8 of G. O. No. 11, A. G. O., dated June 22, is construed to permit the usual street awnings and company signs; but they should be made as nearly uniform in their appearance as possible. Setting of evergreens, trenching of tents and all unnecessary breaking of the turf is strictly forbidden. Each officer in charge of detail will be held responsible for the good conduct of his squad, and will not permit them to leave the grounds except in connection with their duties, unless granted leave of absence by the officer in charge.

MARYLAND.

ADJUTANT-GENERAL HOWARD has issued a circular in which he says: "The expenses attending the coming encampment are such as will not permit the payment of the troops for their seven days' service. The manifest great advantages, however, to be derived from the assembling together of the commands for instruction will, it is hoped, induce a full representation of every organization in the State."

With reference to the dissatisfaction the issue of this circular has occasioned, Gen. Howard says in a letter to Col. Douglas: "I regret as much as any one that the troops cannot be paid for their seven days' service in camp. As you are aware, the large outlay required in order to decently clothe the men and place them in condition to respond to any call made by the State in the event of an outbreak or serious disorder makes serious encroachments on the appropriation, and the necessity of a further heavy outlay in procuring blankets, overcoats, furnishing transportation and subsistence, etc., will further greatly reduce the amount on hand. In fact, the appropriation for the year '87-'88 must be very largely drawn upon, leaving only sufficient funds to pay current expenses for that year. You will, therefore, perceive the dilemma in which the department is placed. The law demands an encampment and directs the payment of the troops, provided a sufficient balance be left on hand. The instruction and benefit to be derived from a few days' camp service will prove invaluable, and I trust all will respond to the call who can afford to do so."

NEW HAMPSHIRE.

THE following named officers constitute the Staff of his Excellency Charles H. Sawyer, Governor and Commander-in-Chief: Maj. Gen. Augustus D. Ayling, of Concord, Adjutant General; Brig. Gen. Elbert Wheeler, of Nashua, Insp.-Gen.; Brig. Gen. Howard L. Porter, of Concord, Q. M. Gen; Brig. Gen. Albert S. Twitchell, of Gorham, Commissary Gen; Brig. Gen. Josiah G. Bellows, of Walpole, J.-A. Gen.; Brig. Gen. Arthur L. Emerson, of Chester, Surg. Gen.; Col. Oscar G. Barron, of Carroll, Aide-de-Camp; Col. Wm. E. Spalding, of Nashua, Aide-de-Camp; Col. Christopher H. Wells, of Somersworth, Aide-de-Camp; Col. Seth M. Richards, of Newport, Aide-de-Camp.

The following officers were commissioned during the quarter ending June 30:

Brigade Staff—Capts. Albert N. Dow, Aide-de-Camp; John Gannon, Jr., Brig. Commissary.

1st Regt.—Capts. Bartlett N. Wilson, Co. E; Desire Laneville, Co. H; John H. Ingraham, Co. D; 1st Lieuts. Frank W. Tebbetts, Co. E; Louis Stevens, Co. H; Edw. D. Smith, Co. D; Charles S. Gifford, Co. A; 2d Lieuts. John H. Groux, Co. H; Walter G. Taylor, Co. E; Bion I. Brown, Co. D, and Frank E. Rollins, Co. A.

2d Regt.—Capts. James A. Cobb, Co. C; Eugene H. Saunders, Co. C; 1st Lieuts. Charles E. Faxon, Adjt.; Charles T. Lund, Co. C; Hiram S. Stevens, Co. C; Willis H. Goodspeed, Co. I; 2d Lieuts. Ernest C. Emerson, Co. C; Wm. R. Seaman, Co. I.

3d Regt.—1st Lieuts. Henry E. Bartlett, Co. F; Robert H. Rolfe, Co. C; 2d Lts. Wm. C. Tranoweth, Co. C, and Elliott F. Sawyer, Co. F.

CALIFORNIA NATIONAL GUARD.

THE camp of the 2d Brigade at Healdsburg has so far been reasonably successful and ample evidence has been given from the Brigade Commander downward that business and not play is what the troops have gone into camp for. The number of visitors has been large but they have not been allowed to interfere with the main object, the thorough instruction of the regiment, so far as may be practicable in the duties and responsibilities of soldiers in camp.

James H. Budd, of Stockton, was, June 15, appointed to be Brigadier General, 3d Brigade, vice Lehe, resigned. The California Guard paraded on the 4th of July, and also had their annual inspection and muster on that date. The returns for May show that the Cadet Company, 1st Infantry Regiment, had the highest attendance at drill—100 per cent.; and Company B, 5th Infantry Regiment, the lowest—56 per cent. The percentage of the 2d Brigade for May was 74, and total Company membership, 2,054.

DISTRICT OF COLUMBIA.

GEN. ORDWAY is preparing a general order in the nature of rules and regulations governing the conduct of the militia, and as soon as possible he expects to organize four white and three colored battalions. The Light Infantry will form a battalion of itself and there will be a battalion of veterans. The newly-detailed Adjutant General, Lieut. Bigelow, will be mainly responsible for inspections of the various organizations and for keeping them up to a high degree of efficiency in drill and discipline.

Secretary of War Endicott decided July 11 that he has no authority to permit any organization to retain its arms which fails to muster into the militia. He declines to grant the request of the Rifles and Veterans, Old Guard, for the retention of their guns, and directs that the arms held by those organizations be surrendered at once to Gen. Ordway, who has authority to issue them to other companies.

MINNESOTA.

The 1st Cavalry, M. N. G., recently disbanded by order of Adjt.-Gen. Seeley, is again in active existence, with a new set of officers and a membership of 33. 1st Lieut. Anton Ostrum is captain, J. W. Fryckberg 1st lieutenant, and F. A. Twiss, late 1st sergeant 4th U. S. Artillery, 2d lieutenant.

The encampment of the National Guard at Fort Snelling, Minn., to commence July 20 and terminate July 29, will be a great event in consequence of the conjunction of Regular troops and other accessories only to be found in a military garrison. Lieut.-Col. J. J. Van Horn, 25th U. S. Inf., will be officially present during the encampment.

OHIO.

LIEUT. A. C. SHARPE, 22d U. S. Infantry, inspected the 13th Regiment, O. N. G., in camp at Dayton, July 10. His inspection was very thorough, embracing the arms, clothes, tents, dining quarters, and everything pertaining to the camp, and occupied about three hours.

PENNSYLVANIA NATIONAL GUARD.

THE camp of the National Guard at Mount Gretna will be named Camp Hancock, in honor of the late General Winfield Scott Hancock, U. S. Army.

THE hot weather drives some folks to suicide and others to the seaside. And some of the latter soon begin to think that they made a mistake by not taking the former course.—*Norristown Herald.*

THE SOLDIERS MARCHED.

SAN FRANCISCO *Chronicle:* They were rehearsing "Held by the Enemy" at the California theatre last week. They have a small detachment of Regulars engaged for the supernumeraries, and they were present to rehearse. The stage manager got them formed in proper order on the stage.

"Now," he said, "march!"

They marched. When they reached the spot he wanted them:

"That'll do. Stop," he said.

The Regulars went on marching.

"Hold on! Stop! That'll do!" he yelled, but they went on marching.

"Don't you hear me? That'll do!" he yelled again. They went straight on, he after them. They walked out at the back door and up the street, when one of the company said to the stage manager:

"Why in thunder don't you call halt?"

"Halt!" he cried, and they stopped dead short.

Then he had to march them back into the theatre again, and it took him five minutes to do it.

TWO SCOTCH fishwives in London were talking about the Jubilee the other day. "Eh, wumman," said one to the other, "can ye tell me what a jubilee is, for I hear a' the folk spakin' aboot it?" "Ou, ay," replied the other, "I can tell ye that; ye see, when a man and a wumman has been marrit five-and-twenty year, that' a siller wadding'; and when they've been marrit for fifty year, that's a gouden waddin'; but when the man's deed that's a jubilee!"

THE JUBILEE REVIEW.

LONDON, July 9.—The Queen to-day reviewed 60,000 soldiers at Aldershot. Her Majesty was received with great enthusiasm. A large number of stands had been erected at the point of review, and they were all packed with fashionable and aristocratic people. Many volunteers who took part in the review came from long distances and travelled all night in order to be present. The whole spectacle was very imposing, and the review was a great success. The Duke of Cambridge, on behalf of the troops, presented her Majesty with a jubilee address, the men cheering heartily during the presentation. The marching of the men was splendid, and the guards, marines and volunteers were loudly cheered by the spectators.

The Queen replied as follows to the Duke of Cambridge's address:

"The congratulations of my army and auxiliary forces on the occasion of my jubilee are a deep satisfaction to me. I accept with pleasure their tribute of love and devotion. Whenever during my reign I have had to call upon the army to perform their duty in any part of the world they have never failed to justify my confidence and earn the gratitude of myself and my people by their gallantry and self-devotion. I do not doubt that should occasion unfortunately arise, I can rely with equal confidence on the co-operation of my auxiliary forces. When those who have died abroad have left in our charge widows and orphans I have always striven to convey to them in the name of their fellow countrymen and country-women an expression of our deep sympathy. But however confident I feel in the valor and endurance of my troops there is no blessing I at this season more earnestly ask Almighty God to extend to my people during the remainder of my reign than peace."

(From the London Truth)

THE SAME OLD FLAG.

THE only flag to which the Queen took exception was one with the inscription "Welcome to England," which had been hung out by a notability in Piccadilly. The notability explained that he had had the flag made on the occasion of the return of the Guards from Egypt, and, "on frugal thought intent," opined that it ought not to be wasted.

LOSSES IN THE FRANCO-PRUSSIAN WAR.

THE International Committee of the Red Cross has just published the following particulars of the losses of the German Army in 1870-71: 33,101 officers and officials and 1,113,254 non-commissioned officers and men crossed the frontier; 9,319 officers and 338,738 non-commissioned officers and men remained in Germany; total, 1,494,412. In the Active Army 98,233 men were killed or wounded—650, or 0.7 per cent., by the bayonet; 1,146, or 1.2 per cent., by the lance or sabre; and 93,437, or 98.1 per cent., by fire-arms. Of the latter, 91.6 per cent. were injured by small arm projectiles and 8.4 by artillery. The losses were least at the battles of Sedan, Mans and Amiens, 3.08 per cent., 2.4 per cent., and 2.7 per cent., respectively; and greatest at Mars-la-Tour (August

CHINA:

Travels and Investigations in the "Middle Kingdom"; a Study of its Civilization and Possibilities. With a Glance at Japan.

By JAMES HARRISON WILSON, Brevet Major-General, U. S. Army.

12mo, cloth, with Map. Price, $1.75.

"Notwithstanding the great number of books on China, there is at this time room for another, which should briefly tell what China and the Chinese were before foreign influences had materially changed them, what foreigners have done for or forced them to do, and what remains for foreigners to do, with the prospect of their doing it. In other words, it should make progress in China its burden and text, and in the narrative which follows I have kept that text constantly in mind, and aimed to give the reader the materials for forming an intelligent opinion in reference to it."—*From the Preface.*

16), where they reached the large percentage of 16.8 on 83,567 combatants. Comparing these figures with those of former battles, an Austrian contemporary remarks that at the battle of Kollin the Prussians lost 40 per cent. of their effective, the Austrians at Aspern 30 per cent., the corps of York at Leipzig 25 per cent. in three hours, and the corps of Kleist 30 per cent. in two hours.

(London Letter in New York Herald.)

MUSICAL DRILL OF VICTORIA'S GUARDS.

THIRTY-TWO privates of the horse guards rode in upon black horses and went through their movements without a word of command. They would at first divide and go through all the movements of a cotillion, and then circle through the most complicated mazes of the most fanciful germans, and weave in and weave out of various figures without a word or a motion. The men sat like statues upon their horses while the band played shrilly, indicating the movements, the horses changing step at the change in the music. Sometimes the evolutions were so complicated that if the horses engaged in it had not all gone at exactly the same pace and the same speed there would have been a break and consequent confusion.

FOREIGN ITEMS.

PRINCE FERDINAND, a lieutenant of hussars in the Austrian army, who has been selected to be the King of Bulgaria, is a grandson of King Louis Philippe of France. One of his brothers married a daughter of Emperor Dom Pedro of Brazil, and one of his sisters is the wife of the Archduke Joseph of Austria.

THE augmentation of the German Army, under the recent law, has been effected as follows: Thirty infantry battalions, one of rifles and twenty-four batteries of field artillery have been added. The military train and railway corps have likewise been considerably reinforced. The strength of the cavalry has not been increased, chiefly for economical reasons. Germany can now place three armies of half a million men apiece in the field at short notice.

HEREAFTER the German soldier is to have a ration of codfish.

AN increase in the number of first-class torpedo boats distributed among the various coaling stations and naval ports abroad has at last been determined upon. Ten are to be stationed at Malta, Gibraltar six, and Hong Kong and the Cape eight each; while Bermuda and Halifax (Nova Scotia) are to be supplied with four each. Port Royal with two, and Esquimalt will have three. These boats will be stationed permanently abroad, and those to be sent out are of the latest design, fitted with the new-pattern Whitehead tubes and electric search-lights.—*Army and Navy Gazette.*

THE Emperor of Brazil is said to be losing his mind. His memory has nearly left him and he has lost in great measure his former capacity for dealing with administrative affairs. His medical advisers are, however, of the opinion that this weakening of the mind powers is only an effect of the great physical prostration caused by his severe liver attack and the powerful remedies employed to combat it, and that with returning bodily strength the restoration of his mental powers will follow.

IMPORTANT ANNOUNCEMENT

To the Officers of the Army, Navy, and Marine Corps.

THE MUTUAL LIFE INS. CO. OF N. Y.

Yielding to repeated requests from Officers of the Army and Navy, has established an Army and Navy Bureau in the agency system of the Company, to which is entrusted the reception of applications for insurance among the Officers of the U. S. Army, Navy, Marine Corps, and the Revenue Marine Service, and the transaction of business with such of those Officers as may hereafter take policies in this Company.

The Headquarters of this Bureau are established in the "SUN BUILDING," Washington, D.C., under charge of Gen'l O. B. WILLCOX, U. S. A., (retired.) Mr. HENRY A. LYMAN, as Managing Agent, will attend to the details of the work, which will be conducted as a separate General Agency. Officers are invited to call at the Bureau and investigate the plans of the Company.

Send for catalogue to **Rev. G. M. STEELE, Principal, WILBRAHAM, MASS.**

PREMIER BEERNAERT, in the course of the debate, July 13, on the Belgian Army bill in the Chamber of Deputies, declared that the Government could not support the proposal for a general compulsory service nor the proposed system of purchasing substitutes.

THE bill of Gen. Ferron, Minister of War, adding to the number of regiments in the French Army and augmenting the strength of the companies of the present regiments, was passed by the Chamber of Deputies July 13. A bill for the reorganization of the infantry was also passed.

IT is stated that the Comte de Paris, in bidding farewell to his friends on the Island of Jersey, after advocating silence, said: "You may be sure we shall win before long. Monarchy will come without violent effort and by a gentle transition, for our organization is in training and everything is ready. The new government will get into immediate working order, and on the eventful day I, helped by all good Frenchmen, shall be King."

A ROYAL jubilee proclamation was issued in Canada this week offering a free pardon to all deserters from the royal army, navy, or militia forces who will report themselves within four months, and those enlisted before June 21, 1877, or who have been in a state of desertion for over five years, or who are unfit for service, will not be called upon to join the colors. They will, however, lose their claims to a pension, and the others who are called upon to join the colors will not be allowed to count their period of desertion as active service.

"A STITCH in Time saves Nine." Keep PHENOL SODIQUE on hand. It will save time, suffering and tedious recovery. What a comfort to the humane, and satisfaction to the owner of stock, is afforded by the introduction into this country by HANCE BROS. & WHITE, manufacturing chemists, Phila., of the wonderful remedy PHENOL SODIQUE. For the galled or otherwise injured horse, use PHENOL SODIQUE, should you wish his early relief and usefulness. "Money Makes the Mare go," but it must be applied to the purchase of PHENOL SODIQUE if she has a chafed shoulder, from rubbing of harness or any other cause. Sold by druggists and general storekeepers.

A BOX OF GLENN'S SULPHUR SOAP is equivalent to many Sulphur Baths. Don't forget it.
HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

THERE are probably ten thousand brands of 5c. cigars, but all smokers should bear in mind that there is but one, "Tansill's Punch."

THE fearless soldier on the midnight watch and the bold mariner before the mast on a stormy sea will certainly suffer from pain in the Chest, Shoulders, Back and Loins, as well as Rheumatism, Sciatica, stiffness and other results of exposure, if they fail to use BENSON'S PLASTERS as a preventive and cure. They never fail. Avoid imitations.

BIRTHS.

KETCHUM.—At Fort Lewis, Col., July 5, 1887, to the wife of Captain H. H. Ketchum, 22d Infantry, a son.

PERKINS.—In New York City, July 9, to the wife of Lieut. C. M. Perkins, United States Marines, a daughter.

MARRIED.

ENGINEER OFFICE, U. S. ARMY,
Room 31, Army Building, Cor. Houston and Greene Streets,
NEW YORK, June 23, 1887.

SEALED PROPOSALS for deepening the channel in Raritan Bay, N. J., will be received at this office until twelve (12) o'clock, M., on Wednesday, July 20, 1887.

Proposals must be made in triplicate. Specifications, blank forms and instructions to bidders may be had, on application, at this office.

WALTER McFARLAND,
Lieut. Col. of Engineers.

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy

WAR DEPARTMENT, NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST., CORNER GREENE,
NEW YORK CITY, June 27, 1887.

SEALED PROPOSALS, IN TRIPLICATE, are invited and will be received at this office until 11 A.M., July 28, 1887, for the mason and iron work, etc., called for by specifications "A," and for the carpenter work, etc., called for by specifications marked "B." This work is for the erection of a gymnasium at West Point, N. Y., for which plans and specifications may be seen at this office, and at the Post Quartermaster's office, West Point, N. Y., where also the blank forms of proposals, contracts, etc., can be obtained.

Bidders must state the time within which the work will be completed. Bids must be for all the work, materials, etc., on either of the specifications or on both. Proposals must be made in strict conformity with the plans and specifications, and must be accompanied by a guarantee bond having justification for 20 per cent. of the amount of the proposal, and a bond, with a penalty of 10 per cent. will be required upon execution of the contract. The Government reserves the right to reject any or all proposals.

Envelopes containing proposals should be addressed to the undersigned and marked proposals for gymnasium.

HENRY C. HODGES,
Lt.-Col. and Deputy Q. M. Gen., U. S. Army,
Depot Quartermaster.

Proposals for Army Supplies.

OFFICE PURCHASING AND DEPOT COMMISSARY, ARMY BUILDING, No. 33 W. Houston Street, NEW YORK CITY, July 5, 1887.

SEALED PROPOSALS, in triplicate, subject to the usual conditions, will be received at this office, until 10 o'clock A. M., on Tuesday, July 26, 1887, for furnishing such supplies as may be required by the Subsistence Department, United States Army:

Subsistence Stores.—Canned Apples, Mocha Coffee, Gelatine, F. and E. Mustard, Amer. and F. Pease, Pickles, Prunes, Toilet Soaps, Thread, Towels, &c., &c., &c.

SEALED PROPOSALS, in triplicate, will be received also until 10 o'clock A.M., Friday, Aug. 5, 1887, for such supplies as may be required, viz.:

Subsistence Stores.—Canned Beef, Y. H. Tea, Vinegar, Currant Jelly, Onions, Pickles, Potatoes, Table Salt, Syrups, Smoking Tobacco, &c., &c., &c.

Subsistence Property.—Letter and Folio Post Paper, Lumber, &c., &c.

Information with conditions, list of articles, quantities, kinds, modes of packing, &c., obtained at this office. The right is reserved to reject any or all proposals.

Envelopes containing bids should be marked "Proposals for Subsistence Supplies," and addressed to the undersigned.

ARMY NAVY JOURNAL.

GAZETTE OF THE REGULAR AND VOLUNTEER FORCES.

VOLUME XXIV.—NUMBER 52. WHOLE NUMBER 1248

NEW YORK, SATURDAY, JULY 23, 1887.

SIX DOLLARS PER YEAR. SINGLE COPIES, FIFTEEN CENTS.

Publication Office, 240 Broadway, N. Y.

THURSDAY of this week, July 21, was the twenty sixth anniversary of the first battle of Bull Run.

THE Hospital Stewards of the Army got a good shaking up this week, and many of them are now moving from East to West and vice versa at a rapid rate.

COMMODORE JAMES A. GREER, president of the Examining Board at the Navy Department, has been detailed to command the European Station, relieving Rear Admiral Franklin, who will be retired August 24, on reaching the age of sixty-two years. Commodore Greer will join the flagship *Pensacola* at once.

THE San Francisco *Report* finds in the recent shooting case at the Presidio an excellent opportunity to pitch into the Army wholesale. It says: "Our Army at present is an anachronism and solecism. It is behind the age and utterly out of place. It is too aristocratic altogether; too European in its internal economy for this age and country." This, briefly, is "rot."

ADJUTANT-GENERAL DRUM, in answer to inquiries from a friend who had heard through the newspapers that his health was very much impaired and that he contemplated retirement in consequence, says his health has not been so good for years as it is now, and as for retirement, he has no such purpose in view. His appearance and activity in the performance of his duties certainly bears out these statements.

THE Army will be glad to note that officers with so much practical experience as Generals Ruger and McCook and Colonel Wade have been selected to prepare a set of regulations for the general management of the U. S. Infantry and Cavalry School, and a programme of studies, theoretical and practical, for use at the School. But few things in the military service should be left to chance, although circumstances have compelled it, in many instances, since the war.

"LINEN collars and canvas barrack shoes" are hereafter to be issued at cost to such of the enlisted men of the Army as wish to use them. That this will be appreciated, especially as to the collars, is certain. If the collar is to be issued then it is to be inferred that it may be worn. This will set at rest a question which has long agitated the breasts of officers as well as men. Some commanding officers have been very liberal in this respect. Others not so much so.

GENERAL NELSON A. MILES, in relieving Captain H. W. Lawton and his troop, B, of the 4th U. S. Cavalry, from duty in the Department of Arizona, pays a graceful tribute to that officer and to his troop for the gallant services rendered by them, and thanks them heartily for their valuable assistance. That the tribute is well merited none will deny and all will unite in wishing Captain Lawton and his troopers a restful tour of quiet duty at that pleasant post, Fort Myer, Va.

AN officer of many years' experience, referring to our recent remarks concerning desertions and soldiers getting into debt, says: "A deserter was recently returned to my company. He said he had always been treated well by the officers and men of his troop and that he did not know what caused him to desert; in other words *he had no cause to do so*. Boards of survey skirmish about to find reasons, honestly work to discover a substantial cause, when it is a fact that in nine cases out of ten no reason exists for desertion."

THE London *Engineering* at the conclusion of a long review of McClellan's memoirs says: "While General Grant's book has greatly added to his fame, and has shown him to be even a greater man than was supposed, General McClellan's book has detracted from his reputation not alone as a soldier, but also as a man. The fact that it was written in no heat of action, but in calm cold blood, makes it all the worse, and it is only to be hoped that time will relegate it to the realm of oblivion, that Americans will forget its existence and only remember its author in the light of the great services that he actually rendered his country, and not in the light of those he assumed himself to have rendered, nor those he says he would have rendered if he had only been allowed to have his own way."

SECRETARY WHITNEY is evidently in thorough earnest in his endeavors to rebuild the Navy, and the persistency with which he remains at headquarters during the present heated term, demonstrates the zeal with which the rescue from a watery grave of what little is left of the U. S. Navy, is being hurried along to tangible results. Mr. Whitney is fortunate in his coadjutors in this great work, as the results, when afloat in the shape of the new vessels under advisement, will demonstrate. The latest reports from the *Baltimore* and *Charleston* are believed to be quite satisfactory to the Secretary, the progress on the last-named vessel being particularly cheering, inasmuch as the great distance from the base of supplies has been persistently urged as an objection to the acceptance of a bid from the Pacific slope.

OF the three officers examined by the Army Retiring Board, General Holabird president, at Washington last week, two—Captain James F. Simpson, 3d Cavalry, and Captain Charles F. Roe, 11th Infantry—were found permanently incapacitated and recommended for retirement. The disability of the other officer, 1st Lieutenant Christopher W. Harrold, 3d Artillery, was not considered permanent and the Board so reported. Captain Simpson, whose disability consists of an impaired mind, was represented by counsel before the Board in expectation that the old charges in connection with his marriage a few years ago would be revived. In this he was disappointed as the Board concluded not to go into matters already thoroughly investigated by Court-martial and the Senate Military Committee. The Board found that his incapacity was incident to the Service. It is thought that he will be retired when the next vacancy occurs.

THE London *Engineer*, in its article on the Queen's Jubilee, tells us that "Turn in what direction we may, we find that the material progress which has been effected during the last fifty years has not been only mainly, but entirely due to the labors of the engineer. Drainage, water supply, sanitation as a whole, have been conferred on the world by the labors of the profession which we represent. Not only has the engineer done so much to make life happy, to him is the world indebted for the fact that he has made life possible, at least in this country. To his aid the supply of food, clothing, water, houses, is directly due. We in no sense or way undervalue the labors of the great men of science, who have lived, and moved, and worked since Queen Victoria came to the throne. But as we have endeavored to show the labors of the laboratory must have been barren of results without the consummate power of adapting and combining means to an end which have been manifested by the engineer."

THE time seems opportune for calling attention to the importance to the Army of having a field book, containing general methods of marching, camping, guard and picket duty, as well as for convoys, patrol and outpost duty. The book should also be a manual of expedients in the field, as for temporary shelters, simple intrenchments, and methods of improvised defence, management of transports, shipping and care of men and animals, loading and transporting supplies by trains as well as at sea, etc. We might mention a thousand other items which at present are scattered through many text books and are not embraced in any general system of military instruction or manual. The book we have in mind should also define, as well as limit, tactical instruction, and should prescribe, if at all possible, practical problems for each arm and command, as well as for combined arms. The Regulations as revised by the present Board, will not contain many of the items referred to, and therefore the Service will have great need for a good, uniform, and enforced system of instruction. Let us have the field book by all means, and that soon.

IT is now asserted upon good authority that Captain Francis M. Ramsay, at present in command of the steel cruiser *Boston*, will, on the completion of that vessel's trial for power and speed, be assigned to the command of the frigate *Chicago*. This latter ship is lying at the Navy-yard, Brooklyn, being prepared for a contract trial of speed for six hours, on the conclusion of which she will be rigged and fitted for commission as rapidly as possible. Early in the week the huge coal bunkers, having a capacity of not less than eight hundred tons, were prepared for the reception of coal, and with the aid of the numerous hoisting engines with which the vessel is provided, the process of "coaling ship" has been actively progressing. The examination of brasses and bearings, the re-packing of stuffing boxes and the various adjustments found necessary about the engines have been nearly completed and it is quite probable that in the course of the coming week the powerful engines of the *Chicago* will be given an opportunity of showing the fitness of design for the work intended which has been claimed for them. It is believed by the officers attached to this fine craft that in many respects her performance, *ab initio*, will be better than that of any of her predecessors, and that in the matter of speed and horse-power very little trouble will be experienced in complying with the terms of the contract. The fittings and accommodations of the *Chicago* show a notable advance over previous efforts in the U. S. Naval vessels, and from a comparison with other ships in the Navy it is safe to say that she will be the most comfortable ship ever commissioned in this country. Every appliance which modern science can devise for the convenience of those who "go down to the sea in ships" is here provided without stint, and it is probable that no difficulty will be experienced by the Navy Department in finding officers anxious and willing for assignment to the U. S. S. *Chicago*.

PERSONAL ITEMS.

LIEUTENANT J. B. HICKEY, 8th Cavalry, is a recent addition at Fort Ringgold, Texas.

CAPTAIN D. F. CALLINAN, 1st U. S. Infantry, of Benicia Barracks, Cal., is visiting at Columbus, O.

COLONEL D. C. HOUSTON, U. S. A., registered at the Metropolitan Hotel, New York, early in the week.

LIEUTENANT C. H. BONESTEEL, 21st U. S. Infantry, has rejoined at Fort Sidney, Neb., from a fortnight's leave.

CAPTAIN J. A. MANLEY, 20th Infantry, East from Fort Maginnis, Montana, on leave, is at Little Valley, N. Y.

CAPTAIN ROGERS BIRNIE, U. S. A., returned to Washington this week from a visit to West Troy, New York.

CAPTAIN J. G. BALLANCE, U. S. A., of Gen. Stanley's staff, is North from San Antonio on a few weeks' leave.

LIEUTENANT J. Y. F. BLAKE, 6th Cavalry, is spending a portion of the summer with his family at Grand Rapids, Mich.

CAPTAIN J. B. CAMPBELL, 4th U. S. Artillery, has returned to Fort Monroe, Va., from a trip to New York and Washington.

LIEUTENANT O. L. HEIN, 1st U. S. Cavalry, who left Fort Leavenworth early this week on a month's leave, is at Oakland, Md.

LIEUTENANT CHAS. HUMPHREYS, 3d U. S. Artillery, left Washington Barracks, D. C., early in the week on a short leave of absence.

LIEUTENANT VICTOR H. BRIDGMAN, 2d U. S. Artillery, lately at Willet's Point, has joined Wilson's battery at Fort Barrancas, Fla.

MAJOR CHAS. MCCLURE, Pay Department, U. S. A., of Newport Barracks, Ky., was expected this week at El Paso, Texas, his new station.

CAPTAIN W. MCK. DUNN, 2d U. S. Artillery, on leave from Little Rock Barracks, is spending a portion of it at Vienna, Fairfax Co., Va.

LIEUTENANT B. W. ATKINSON, 6th U. S. Infantry, of Fort Leavenworth, is visiting General and Mrs. Gibson at Washington Barracks, D. C.

CAPTAIN H. G. SHARPE, U. S. A., and Mrs. Sharpe, of West Point, have been visiting the Rev. Dr. Morgan, the lady's father, at Newport, R. I.

CAPTAIN GEO. F. BARSTOW, 3d U. S. Artillery, left Fort McHenry, Md., this week on a month's vacation which he will spend in New England.

CAPTAIN W. T. ROSSELL, Corps of Engineers, U. S. Army, of Memphis, Tenn., has established his headquarters at Asheville, N. C., for the season.

LIEUTENANT EUGENE J. SPENCER, Corps of Engineers, left Cincinnati this week for Arizona where his marriage to Miss Tritle takes place July 28.

MAJOR J. H. PAGE, 11th U. S. Infantry, who has been on a short visit East, was expected to rejoin at Fort Yates this week to pack up for Fort Niagara.

CAPTAIN J. H. HURST, 12th U. S. Infantry, rejoined at Fort Niagara, N. Y., early in the week from a short leave prior to his departure for Dakota.

LIEUTENANT J. T. THOMPSON, 2d U. S. Artillery, returned to Little Rock Barracks this week from his visit to Selma to inspect the 3d Regiment Alabama militia.

CAPTAIN C. A. EARNEST, 8th Infantry, arrived at Omaha, Neb., this week to enter upon duty in charge of the Department of the Platte rifle camp at Bellevue.

MAJOR GEORGE H. WEEKS, U. S. A., now in San Francisco, will come to New York for duty in October. It is now some years since he was so far East on duty before.

MAJOR H. S. HAWKINS, 10th Infantry, now visiting at Newcastle, Del., is mentioned as likely to succeed Col. Hasbrouck as Commandant of Cadets at the Military Academy.

MAJOR L. H. CARPENTER, 5th U. S. Cavalry, assumed command of Fort Myer, Va., July 15, relieving Lieut. J. D. C. Hoskins, 3d U. S. Artillery, who returns to Washington Barracks.

CAPTAIN O. W. POLLOCK, 23d U. S. Infantry, took his company from Buffalo to Fort Niagara, N. Y., this week, to remain there until after the close of the Division of the Atlantic rifle competitions.

GENERAL A. W. GREELY, U. S. A., will take a trip to France in September to attend the meeting at Toulouse of the Meteorological branch of the French Association for the Advancement of the Sciences.

CAPTAIN J. A. AUGUR, 5th Cavalry, will soon take over the command of the Military Academy temporarily, as Col. Hasbrouck has to go to Europe and Gen. Parke will not return from leave until the latter part of August.

CAPTAIN GEO. H. TORNEY, assistant surgeon, U. S. Army, much to the gratification of his friends in the East is not to be removed from Fort Monroe at present. As he only came from the West two years ago, it would have been rather a hardship to cut his tour short at present.

IN the *Magazine of American History* for August Dr. Fessenden N. Otis will publish a graphic account of the presentation of the Arctic ship *Resolute* to the Queen of England in 1856 by the Government of the United States. Dr. Otis was an officer of the expedition and an eye witness of the scenes he describes.

LIEUTENANT H. L. RIPLEY, 3d U. S. Cavalry, says the Kansas City *Times*, who has gone to Fort Davis, has been on duty at Fort Leavenworth for a number of years, and none have shown more zeal in the performance of duty than he. A thorough gentleman and soldier, he takes with him to his new station the kindest wishes of a host of friends.

CAPTAIN J. C. CHANCE, 13th Infantry, is visiting at Fremont, Ohio.

CHAPLAIN G. G. MULLINS, U. S. A., of St. Louis, is at Los Angeles, Cal., for the summer.

LIEUTENANT JOHN MCMARTIN, 25th Infantry, has been enjoying a short leave in St. Paul, Minn.

CAPTAIN C. G. GORDON, U. S. A., is enjoying the cool breezes and other comforts at Ocean Grove, N. J.

GENERAL W. S. HARNEY, U. S. A., is in St. Louis from Mississippi, with quarters at the Southern Hotel.

GENERAL RUFUS SAXTON, U. S. A., will leave Louisville, Ky., next week for a month's vacation in the North.

LIEUTENANT J. CONKLIN, 2d U. S. Artillery, on leave from St. Francis Barracks, Fla., is at Penn Yann, N. Y.

CAPTAIN J. H. COSTER, U. S. A., is spending the summer as usual at Monmouth Park near Long Branch, N. J.

LIEUTENANT W. T. WOOD, 18th Infantry, has joined at Fort Hays, Kansas, for duty as regimental quartermaster.

LIEUTENANT O. M. LISSAK, 4th U. S. Artillery, who has been abroad on leave for some time past, is at present in San Francisco.

LIEUTENANT JOHN ANDERSON, 18th Infantry, returned to Fort Gibson, I. T., this week from a short visit to Fort Leavenworth.

CAPTAIN G. M. DOWNEY, 21st Infantry, was at Fort Leavenworth a few days ago before the Retiring Board in session there.

LIEUTENANT G. A. THURSTON, 3d U. S. Artillery, on leave from Newport Barracks, Ky., is spending the summer at Gloucester, Mass.

LIEUTENANT-COLONEL C. E. COMPTON, 5th U. S. Cavalry, has left Fort Riley, Kansas, for a few months for the benefit of his health.

COLONEL R. N. BATCHELDER, U. S. A., is spending a vacation in New Hampshire before going to San Francisco for duty, where he is due Oct. 1.

LIEUTENANT W. H. MCMINN, 8th Infantry, on leave from Fort Bridger, Wyo., has had it extended up to the date of his retirement for age, Oct. 29 next.

COLONEL N. A. M. DUDLEY, 1st U. S. Cavalry, on leave from Fort Custer, Montana, passed through St. Paul a few days ago, with quarters at the Ryan House.

THE steam yacht *Meteor*, Commodore Bateman, with Gen. Sherman and party on board, arrived at Charlottetown, P. E. I., July 16 and went thence to Quebec.

GENERAL J. S. BRISBIN, U. S. A., in a recent contribution to the Omaha *Republican*, gives some wonderful instances of the excellent horsemanship of Indians.

CAPTAIN J. S. MCNAUGHT, 20th Infantry, has returned to Madison, Wis., from St. Paul, where he was examined by the retiring board presided over by General Ruger.

LIEUTENANT W. W. WOTHERSPOON, 12th Infantry, left Sackett's Harbor, N. Y., early in the week on a brief farewell visit to friends before his departure for Fort Sully, Dakota.

LIEUTENANT JOHN H. BEACOM, 3d Infantry, went from Cleveland to Columbus, O., to conduct a squad of recruits to Fort Sherman, Idaho. From there he will join his company at Fort Shaw, Montana.

MAJOR E. B. WILLISTON, 3d U. S. Artillery, having accomplished his mission at Fort Riley, Kansas, goes again to Troy, N. Y., for special duty. His many friends there will be glad to welcome him back.

CAPTAIN J. B. RAWLES, 5th U. S. Artillery, is at present commander of the post at Fort Hamilton, N. Y. H., Col. Hamilton being on leave and Major Wildrick in command of the rifle practice camp at Creedmoor.

LIEUTENANT T. M. WOODRUFF, 5th U. S. Infantry, leaves Washington, D. C., on an inspection tour and will probably pay a short visit to his wife, who is spending the summer at Nonquitt Beach, Mass., where she owns a cottage.

GENERAL SHERMAN could not get into the citadel at Halifax recently. He kept his temper, however, (being therein greater, we are scripturally told, than if he had taken the city) and went good-humoredly back to his yacht. Let us hope that Congress will compensate for his disappointment by giving him some citadels that he can visit without going outside of the borders of his own country.—*Washington Star.*

COLONEL J. F. WADE, 5th Cavalry, has returned to Fort Riley, having been in consultation with Gen. Merritt in relation to the change of stations of the 5th Cavalry. Gen. Merritt has made his recommendations to General Terry and his approval is now awaited before the necessary orders are issued. There is no doubt but the regimental headquarters will go to Fort Reno. This will place Col. Wade in command of the post. Major Sumner will likely remain at Reno.—*Kansas City Times.*

LIEUTENANT ARTHUR WILLIAMS, 3d Infantry, relieved from duty at the Fort Leavenworth school, left with his family for Fort Custer July 14. He has been on duty at the school ever since its organization in November, 1881, during which time he won for himself the respect and esteem of his superiors. In charge of the department of photography, he gave all his energy and ability to make it second to none of a like department at any of the important schools of the country. That he has succeeded, the higher authorities and the student officers who received the benefit of his knowledge will certainly admit. Ever ready to submit to any task assigned him and to oblige those asking instructions or favors, he leaves with regrets on all sides.—*Kansas City Times.*

CAPTAIN G. S. L. WARD, 22d U. S. Infantry, is East on a few weeks' visit.

CAPTAIN J. N. MORGAN, 24th Inf., is the only addition to the new recruiting detail this week.

LIEUTENANT JAMES PARKER, 4th U. S. Cavalry, of Fort Huachuca, was a visitor to El Paso, Texas, last week.

LIEUTENANT A. L. SMITH, 4th Cavalry, leaves St. Louis early next week for Fort Myer, Va., to join his troop.

LIEUTENANT W. C. RAFFERTY, 1st U. S. Artillery, is spending a portion of the summer at Gravesend Beach, N. Y.

CAPTAIN J. L. TIERNON, 3d U. S. Artillery, of Newport Barracks, Ky., will spend August and September in the East.

CAPTAIN M. W. LYON, Ordnance Corps, U. S. A., has left Watertown, Mass., for his new station, Cheyenne, Wyo.

COLONEL N. B. SWEITZER, 2d U. S. Cavalry, has returned to Fort Walla Walla from a trip to Boisé Barracks, Idaho.

LIEUTENANT C. J. BAILEY, 1st U. S. Artillery, left Fort Monroe, Va., this week on a fortnight's visit to Jamestown, N. Y.

LIEUTENANT W. H. ALLAIRE, 23d Infantry, was to leave Fort Wayne, Mich., this week on a fortnight's visit to Forts Brady and Mackinac.

LIEUTENANT SEBREE SMITH and family are in the Green Mountains, Vt., where they will remain a month before starting on a trip through Canada.

CAPTAIN H. G. BURTON, assistant surgeon, U. S. Army, on leave from Plattsburg Barracks, is spending a portion of it at Nahant, Mass. His health is improving.

CAPTAIN WM. FLETCHER, 20th U. S. Infantry, and Mrs. Fletcher, and Col. Garrick Mallery, U. S. A., and Mrs. Mallery, were guests this week at the Ryan Hotel, St. Paul.

DR. BAXTER, Chief Medical Purveyor, U. S. A., has returned to Washington from a short fishing trip in Canada, and was in attendance at the meeting of the Holabird Retiring Board on Saturday last.

AT the recent jubilee review at Aldershot, England, Col. Garnett, of Virginia, rode as a guest on Gen. Wolseley's staff. The Colonel made the General's acquaintance when the latter visited the army of Northern Virginia during the war as a guest of Gen. Lee.

THE proceedings of the Army Retiring Board in the case of Capt. Geo. M. Downey, 21st Inf., have arrived in Washington. He was found incapacitated for active service, by reason of "chronic and incurable disease of the bowels," this being incident to the Service.

THE *Excelsior*, referring to Fort Sidney, Neb., says: "Mrs. Lieut. Patten gave a card party last week, complimentary to Mrs. Reed, of Omaha. The 21st Infantry Band has returned from Crete covered with laurels won by their good service at Chautauqua."

MAJOR L. H. CARPENTER, 5th Cavalry, has appointed Lieut. Wm. Baird, 6th Cavalry, adjutant, quartermaster and commissary of Fort Myer, Va., and Lieut. B. K. West, 6th Cavalry, post ordnance officer. Capt. Birmingham is due in a few days for duty as post surgeon.

LIEUTENANT J. F. BELL, 7th Cavalry, on duty as Professor of Military Science and Tactics at the Southern Illinois Normal University, is at present attending the Summer School of Physical Training and Gymnastics at Howard College, conducted by Dr. D. A. Sargent. He hopes to introduce the Sargent System into the school where he is detailed.

By permission of the military authorities charitable organizations of New York City have erected a large tent on Bedlow's Island for the use of mothers with sick babies, selected from the crowded tenement districts. It is called the Bartholdi Crèche. The committee in charge includes Otto T. Barnard, Mrs. W. Harman Brown, L. W. Holsto and Dr. A. S. Daniel. Charles D. Kellogg, of No. 21 University Place, is treasurer.

GENERAL SHERMAN, with his family, has occupied rooms at the Fifth Avenue Hotel, New York, since last October, where he says he will continue to live until his children are settled, when he hopes to locate on Lake Cœur d'Alene, in Idaho, a spot he has picked out as among the loveliest places in the world. He is 67 years old. For fifty-one years he has been in the Army. "But I could fight yet," he said to me, "and would sooner a thousand times go out in the ranks to-day than think of engaging in anything political."—*Washington Critic.*

AN "Old Point Soliloquiser" says: "There have been a great many changes at the fort the past year or two, only three familiar faces to be seen, those of Gen. Tidball, Capt. Calef, and Dr. Herrick, chaplain at the fort. Mrs. Herrick is quite an invalid, has not had the use of her feet for months, and is just recovering from pneumonia. Col. and Mrs. Lodor, Lieuts. T. R. Adams, Massey, Johnson, and others are missed, having all been ordered to other posts. Capt. Piper, who died in 1876, and who was stationed here for many years, has a son at West Point doing well. Col. Elder, also an old resident, is dead."

Town Topics, N. Y., says: "The rush of military weddings during last week and the number of engagements that always creep out after graduation day at West Point fills the mere civilian with a sort of mild dismay. There must be something indescribably fascinating in a blue uniform with brass buttons, when a young woman will give up not only society but oftentimes the actual comforts of life to follow it into isolated places only to feast on the unideality of the real, when her eyes are opened. And yet with horrible examples innumerable before them, the young women of to-day continue to follow the will-o'-the-wisp with a fervor that can be fairly likened to the religious craze for the nunnery." We may be allowed to suggest to *Town Topics* that what true women seek in marriage is *men.*

LIEUTENANT R. H. YOUNG, U. S. A., on sick leave of absence, is at Danville, Ky.

LIEUTENANT J. T. ANDERSON, 16th U. S. Infantry, is visiting at 718 East Broad street, Columbus, O.

THE retirement this week of two ordnance sergeants brings the enlisted men's retired list up to 174.

THE President and Mrs. Cleveland and the other members of the party returned to Washington July 20.

GENERAL RUFUS INGALLS, U. S. A., expects to leave New York City shortly for a visit to Portland, Oregon.

CAPTAIN J. J. CLAGUE, Sub. Dept., stationed at Santa Fé, was in Omaha last week on a visit to Minneapolis.

LIEUTENANT C. F. PARKER, 2d U. S. Artillery, of Fort Barrancas, Fla., is visiting relatives at Tuscaloosa, Ala.

MAJOR C. H. ALDEN, surgeon U. S. A., who joins at West Point in the autumn, is spending the summer at Hingham, Mass.

MAJOR DOWNEY, 21st Inf., has returned to Omaha from his attendance before the Army Retiring Board at Fort Leavenworth.

SURGEON W. S. TREMAINE, U. S. A., of Buffalo, was at Governor's Island this week undergoing examination by a Retiring Board.

MAJOR H. S. HAWKINS, 10th U. S. Infantry, will vary his leave at Wilmington, Del., by inspecting next week the Delaware militia to be encamped at Rehoboth.

LIEUTENANTS W. H. GORDON and D. J. Baker, 12th U. S. Infantry, left Sackett's Harbor, New York, early in the week on short leaves prior to starting for Dakota.

CAPTAIN D. H. KELTON, 10th U. S. Infantry, on leave at Detroit, was in New York on Thursday and crossed to Governor's Island for examination by a Retiring Board.

LIEUTENANT CHITTENDEN, U. S. Engineer Corps, reached Omaha last week from Willet's Point, having been ordered there as Engineer Officer, Department of the Platte.

CAPTAIN J. M. INGALLS, 1st U. S. Artillery, is at New London, Conn., and will remain there until early in August when he will go to Willet's Point for temporary duty.

SIR WILLIAM ARMSTRONG, of Elswick, is to be created a peer, and has chosen the title of Lord Armstrong, but the exact territorial designation has not yet been decided on.

MRS. O'CONNELL, wife of Capt. O'Connell, of the 1st Infantry, Mrs. King, wife of Capt. King, formerly of the 12th Inf., and Mrs. Van Schrader, of the 12th, are staying at Earl's Hotel, Sackett's Harbor.

LIEUTENANT EDW. P. LAWTON, 13th Inf., has made a visit to Savannah, Ga., to attend the wedding of his sister, Miss Mary Lawton, who was married at Christ Church, July 14, to Mr. Wm. Garrard, of Savannah.

COLONEL FRED. VAN VLIET, 10th Cavalry, who is on sick leave, has just returned from the Sandwich Islands very much improved in health. He and his wife are now visiting the Colonel's brother, General Van Vliet, at Shrewsbury, N. J.

AN Atlantic City reporter locates Gen. M. C. Meigs, U. S. A., at Atlantic City, N. J., but we have authority for stating that the General is too busy finishing the new Pension Building, to be able to leave Washington at this time.

THE clerks in the Surgeon-General's office were examined for promotion July 19. All but a very small percentage of the clerks examined passed successfully. The Adjutant-General's office will come next in the order of examination next week.

LIEUTENANT C. C. CUSICK, 22d U. S. Infantry, says the Portland (Me.) *Press*, a veteran of the Civil War, has just opened a recruiting rendezvous at 42½ Exchange Place in this city, and is busy getting things into shape. He will recruit for the cavalry, artillery and infantry.

AMONG the applicants for the position of Captain of Watch of the State, War and Navy Department Building, is Augustus C. Paul, who resigned his commission as 1st Lieutenant, 3d Cavalry, in 1881. The candidate is the son of General G. R. Paul (late Col. 14th Inf.), grandson of Colonel Wm. Whistler (formerly Col. 4th Int.), and great grandson of Major John Whistler, who was a 1st Lieutenant of the 14th Inf. in 1792.

THE Brooklyn *Standard-Union* says: "It may not be generally known that Lord Lucan, the author of the brutal evictions at Clare, is the same wretch whose criminal blunder precipitated the butchery known as the 'Charge of the Light Brigade.' If his imbecility at Balaclava had been followed by its proper punishment, Lord Lucan would not have lived to issue the orders just as cruel in Clare Island. But then lords are privileged characters, and Raglan was not as stern a disciplinarian as the 'Iron Duke.' Wellington would have Court-martialled and shot Evictor Lucan in less than twenty-four hours." Time ought to have ended the career of the Lucan of Crimea fame before this, as he was born April 16, 1800.

THE Vancouver *Independent* of July 13 says:

Mrs. J. V. White, wife of Lieut. White, formerly stationed here, is the guest of Capt. and Mrs. Warrens ...Col. Thos. M. Anderson, 14th Inf., is visiting Puget Sound....Baron Weidenhold, late a private in the 2d Cavalry, at Fort Walla Walla, has received his discharge....Lieut. F. F. Eastman, 14th Inf., has departed for southern Oregon, to join the surveying party....The wife of Lieut. C. H. Murray, 4th Cav., of Fort Lowell, is visiting her father, Surgeon Walters, at Vancouver Barracks....Major Basil Norris went to Portland on Monday to attend the funeral of his old time friend, Ben Holliday....Major S. S. Sumner, 8th Cav., is the new Inspector-General on Gen. Gibbon's Department staff....On Friday the Cascade Survey Expedition is expected to depart from Vancouver Barracks. Gen. Gibbon will be of the party, accompanied by his aid, Lieut. McClernand, Major Tully McCrea, 1st Art., and Capt. G. W. Davis, 14th Inf.

LIEUTENANT and Mrs. Abercrombie, 2d Inf., have returned to Fort Omaha from the Hot Springs, Ark.

MRS. FANNY P. MYERS, wife of Gen. Wm. Myers, U. S. A., retired, has taken a cottage at Sing Sing, N. Y., her sons being in attendance at Col. Symond's military school.

MRS. CROOK left Omaha last week for a visit to Fort Sidney, Neb., where her sister, Mrs. Reed, is now a guest. After a brief stay there they will go to Salt Lake City.

CAPTAIN J. B. CAMPBELL, 4th Art.; Add. 2d Lieut. Francis R. Shunk, Engr. Corps, and Captain J. W. McK. Dunn, Jr., 2d Art., are registered at the War Department this week.

MR. JAY STONE, chief of the correspondence division of the War Department, has resigned that position to accept the secretaryship of the Board of Army Engineers, located at New York, of which Col. Casey is president. Mr. Stone was prompted to take this step, partly to secure an increase of salary, and partly because of a desire to live in the great metropolis. He will assume his new duties as soon as his domestic arrangements have been completed. He has rented his handsome house in Washington, and will move his family to Orange, N. J., his future home, within a few days. There is probably no civilian official connected with the War Department that has a larger acquaintance in the Army than Mr. Stone. For 17 years he has served in this branch of the service, and his duties as stenographer to a large portion of the Army Boards, during that period, brought him into close relationship with the majority of the more prominent officers in the Service, from many of whom he has already received hearty congratulations upon his well-deserved promotion.

BOATSWAIN HALLOWELL DICKINSON, U. S. Navy, is visiting in Bath, Me.

LIEUTENANT H. H. COSTON, U. S. Marine Corps, left Norfolk, Va., this week on a month's vacation.

PAY DIRECTOR HORATIO BRIDGE, U. S. Navy, registered at the Park Avenue Hotel, New York City, early in the week.

THE French cook of Capt. Farquhar, of the *Trenton*, has taken *French leave;* in fact, successfully deserted.—*Landmark.*

LIEUTENANT W. P. POTTER, U. S. N., home from Rio Janeiro, registered at the Murray Hill Hotel, New York, on Tuesday.

ADMIRAL D. D. PORTER, U. S. Navy, and family passed through New York City early in the week en route to Narragansett Pier, R. I.

ASSISTANT ENGINEER ARTHUR T. WOODS, U. S. N., has resigned to accept a professorship in the Illinois University, from which he was recently removed.

P. A. ENGINEER HARRIE WEBSTER, U. S. N., made a short visit to the Navy Department the early part of the week, returning to duty on board the *Chicago* Wednesday.

A PORTION of the family of Naval Constructor Pook, of the Brooklyn Navy-yard, are making preparations for the annual flitting some time early in August.

LIEUTENANT-COMMANDER W. H. BROWNSON, Hydrographic Inspector, U. S. Coast Survey, has left for Portsmouth, N. H., and will visit parties working on the Sound.

LIEUTENANT GEORGE H. PETERS, U. S. Navy, has been ordered to the Coast Survey steamer *Endeavor*, and will prosecute hydrographic work along the coast of New England during the summer months.

"PAY INSPECTOR A. J. CLARK, U. S. N.," says the *Alta*, "has left San Francisco for his home in Watertown, New York, on account of the illness of his father. He is a genial gentleman and has many friends who regret his leaving."

LIEUTENANT WALTER MCLEAN is stopping for the summer at Cooperstown, N. Y., which has become quite a favorite place of sojourn for Army and Navy people. Lieut. McLean will probably remain at Cooperstown until autumn.

REAR-ADMIRAL HOWELL and Mrs. Howell are spending the hot weather at Bar Harbor, Mount Desert. The Admiral finds the bracing New England air just the tonic required after a season among the asphalt streets of Washington.

LIEUTENANT BRADLEY A. FISKE, U. S. N., the electrician of the steel cruiser *Atlanta*, is paying a short visit to Narragansett Pier, where he has quarters at the Atlantic. The *Atlanta* will probably remain at Newport for some time longer in connection with torpedoes and kindred subjects.

ENSIGN F. W. TOPPAN, U. S. Navy, discussed "Recent Scientific Discoveries Relating to the Effects of Magnetism on Watches and Marine Chronometers" at the regular monthly meeting and dinner of the Electric Club at the Hotel Brighton, Coney Island, on Thursday of this week.

P. A. ENGINEER H. E. FRICK, U. S. N., will soon be examined by a medical Board, and it is confidently expected that the result will be a recommendation for an extended sick leave of absence. His condition, while not grave, is perplexing, and an extended period for expert observation is regarded as a desideratum.

REAR ADMIRAL J. H. RUSSELL, U. S. N., is sojourning at Richfield Springs with Mrs. Russell and their children, enjoying a lengthened respite from the torrid waves as reflected from city pavements and walls. Admi. Russell will remain out of Washington until quite late in the coming autumn, making a brief trip further east while en route for home.

OF the many distinguished people who annually visit Oakland, Md., says a correspondent, no one attracts more attention than the venerable Commodore Nathaniel Duncan Ingraham, of Charleston, S. C., and formerly of the U. S. Navy. It is as the hero of the Martin Koszta affair that Commodore Ingraham is most widely known. The American Cyclopædia (Appleton's) erroneously states that he died in 1863.

ASST. NAVAL CONSTRUCTOR J. B. HOOVER, U. S. N., returned to Washington early in the week from Norfolk, Va.

ON Aug. 24 Rear Admiral Franklin will be relieved of the command of the European Squadron by Commodore Greer.

MR. E. W. DALRYMPLE, a graduate of the Naval Academy, and now a civil engineer, has created quite an excitement in San Diego, Cal., by eloping with and marrying Miss M. F. Whitney, of Washington, who was on a visit to relatives on the Pacific Coast.

REAR ADMIRAL C. H. WELLS, U. S. N., retired, is spending the summer at his cottage on Conanicut Island, near Jamestown, R. I., and two and one-half miles from Newport. This island is about the size of St. Helena, in remembrance of which the Admiral has named his residence "Longwood Cottage."

MR. JAMES VAN VRANKEN, clerk to Paymaster George H. Griffing, U. S. N., attached to the Chester station, was the hero of a gallant rescue of a whole family from drowning in the Wissahickon Creek, July 14. A man, his wife and sister and his two children were boating, and had lightly grounded on some rocks, from which the boat was momentarily in danger of being swept over the falls. Mr. Van Vranken, who was driving in the park, leaped from his buggy, and stripped his outer clothing preparatory to entering the water below the dam and saving as many as possible of the party when they would come over, as they must have shortly done. Before jumping down the bank he noticed a boat in charge of some boys and quickly took advantage of this to drop carefully down to the grounded boat, stern down, so as not to touch and dislodge it from its position. The children were thrown to him by the father and the adult members of the party succeeded in getting firm hold of the sides of Mr. Van Vranken's boat as their own was swept over the falls.

RECENT DEATHS.

DOCTOR A. J. BOWIE, Sr., who died recently in San Francisco, entered the Navy as an Assistant Surgeon, Feb. 9, 1837, was promoted P. A. Surgeon in 1843, Surgeon in 1848, and resigned May 1, 1852. In 1849 he went to California, and on his resignation settled at San Francisco and built up a large practice. The *News-Letter*, referring to his death, says: "He was one of our oldest and most respected citizens, and his death will plunge a number of families into grief, and cause their retirement from the gay world for awhile. Although Dr. Bowie has not been seen much in recent years, having from ill health long since retired from the active practice of his profession, he retained a strong hold on the regard of his numerous old friends in the city, who all sorrow to learn of the demise of one who was an accomplished gentleman, a fluent conversationalist, a genial host, a delightful dinner-giver, a shining light in his profession, and a charming companion at all times."

R. M. T. HUNTER, who died July 18 at his home in Fount Hill, Essex County, Va., aged 78, served a short time during the war as Confederate Secretary of State and later as Senator. He with Stephens and Campbell constituted the famous but futile peace commission which met Abraham Lincoln and Mr. Seward upon a vessel in Hampton Roads in February, 1865.

LAST week we had to chronicle the birth in New York, July 9, of a son to the wife of Lieutenant C. Marast Perkins, U. S. Marine Corps. This week we have to report the sad death of the young wife and mother, Anita Knox Perkins, which occurred July 16. The remains have been taken to Montgomery, Ala., for interment.

MRS. SARAH MILLIS HOWARD, the venerable widow of Commander William Langford Howard, U. S. N., died at Brooklyn, N. Y., July 15, and was buried July 17. Commander Howard entered the Navy in 1815, resigned in 1852, and has since died.

MAJOR JAMES F. GREGORY, Corps of Engineers, U. S. A., has suffered another bereavement in the death of his brother, John R. Gregory, M. D., which occurred at Ithaca, N. Y., July 17. The deceased was in the 49th year of his age.

THE infant son of Lieut. Percy E. Trippe, 10th U. S. Cavalry, died July 7 at Crawfordville, Ga.

NAVAL WAR COLLEGE.

IN the JOURNAL of June 25 we gave an outline of the course of study it is intended to pursue at the Naval War College, Newport, during the coming fall from September to December, inclusive. In addition we learn that President Mahan of the college, expects to carry on his lectures on Naval History somewhat farther, making it more and more illustrative of naval strategy, and, as far as changed conditions allow, of naval tactics. The ram from the standpoint of the Army engineers will this year be treated by Gen. H. L. Abbot, U. S. A. The subject of Naval Gunnery will be treated by Lieut. John F. Meigs, U. S. Navy, the fleet gunnery officer of the North Atlantic Squadron, and Comdr. P. F. Harrington, U. S. Navy, will treat respectively, the tactics of the Gun and of the Ram. The idea is that they will appear as the advocate each of his own weapon, making the most of its capabilities. During the short period that the college was in session last year over 100 lectures were delivered by both officers of the Army and Navy, and a number of civilians. The college is situated outside of Newport, and on the high bluff in rear of the naval station, where the training receiving ship *New Hampshire* is moored to her dock. The college surroundings are very pretty and romantic, and the place is just far enough away from the city to give it that amount of quietness which is so often found in the vicinity of colleges.

REVENUE MARINE.

Second Assistant Engineer Wilmer Church, attached to steamer *McCullough*, has resigned, to take effect July 15. The resignation has been accepted.

GUN CARRIAGES OF THE ATLANTA.

U. S. S. ATLANTA, AT ANCHOR, GARDINER'S BAY, JULY 16, 1887.

Hon. Wm. C. Whitney, Secretary of the Navy, Navy Department, Washington, D. C.:

SIR: I have to report that in compliance with paragraph 9, page of "Ordnance Instructions," I fired at a target on July 15, one round with reduced charges and shell and one round with full charges and shell from each gun.

The result of this firing has been to completely disable both 8-in. B. L. gun carriages, and to throw doubt upon the efficiency of the 6-in. B. L. gun carriages, and the 3-pounder rapid fire gun mounts.

The arrangement of the battery has proved to be bad, as some of the guns have to be abandoned by their crews that the other guns may be fired at the target.

I ordered boards of officers to report upon the condition of the battery, and of the hull and fittings after the firing.

I have enclosed the report on the first in my own report to the Bureau of Ordnance, and that on the second, in mine to the Bureau of Construction and Repair. These reports I forward by same way.

Very respectfully, your obedient servant,
F. M. BUNCE, Capt. Comdg.

U. S. S. ATLANTA, AT ANCHOR, GARDINER'S BAY, July 16, 1887.

Naval Constructor T. D. Wilson, U. S. N., Chief of Bureau of Construction and Repair, Navy Department, Washington, D. C.:

SIR: I enclose the report of a board ordered by me on the hull and fittings of the ship after a target practice, consisting of one round with reduced charges and one round with full charges for each gun. The damages were trivial, but the action of the forces generated by firing the present heavy charges on board ship is important, that precautions may be taken to avoid any damage whatever. I shall make requisition for those things which we are unable to supply, and the repairs that we can do on board are already nearly finished.

Very respectfully,
F. M. BUNCE, Capt. Comdg.

U. S. S. ATLANTA, AT ANCHOR, GARDINER'S BAY, July 16, 1887.

To Lieut. W. P. Clason, Lieut. Hiero Taylor, and Carpenter Isaac Cooper:

GENTLEMEN: After careful examination, you will report to me, in triplicate, the injuries to the hull of this vessel or any of its fittings, resulting from the firing of yesterday. Respectfully,
F. M. BUNCE, Capt, Comdg.

U. S. S. ATLANTA, 2D RATE,
AT ANCHOR, GARDINER'S BAY, July 16, 1887.

SIR: In obedience to your order of this date we have made a careful investigation of the injuries sustained by the hull and fittings of this vessel, resulting from the firing of yesterday. We respectfully report as follows: *The injuries which cannot be repaired on board are these:* Two wash basins which were broken, one in room 5, wardroom, the other in steerage bathroom. Two ground glasslights, one of these was broken in the cabin window, the other in cabin pantry; there are no spare lights of this kind on board. The marble top of the steam coil on the starboard side of the wardroom was thrown down and broken in two. The urinal forward was broken to pieces. A wooden one lined with lead and fitted so as to unship can be made on board to replace the broken one. There are slight leaks under both 8-in. circles where the tracks have raised or the bolts been started. The following is a list of the injuries which can be repaired on board this ship:

On the After Deck—The screws holding the flange of the vegetable lockers to the deck are started up; two-hinged hasps for the lids of the lockers are broken. The hose box has been destroyed. There are five lights broken in the after ward room skylight. The top of the afterguard chest was blown overboard and its hinges broken. One handle of the logreel was bent and the wooden dish at one end broken.

On the Superstructure—The righthand door of the end of the superstructure was thrown from its hinges and thrown on deck; the upper hinge of the other door was started out of place slightly. At forward end of the superstructure the righthand door was broken from the side and blown overboard, the other door was left hanging by one bolt only. The seams along the gunboard stroke of the 1st whale boat were opened. In the steam cutter two cleats, which held the steam-pipe of the dynamo were started out of place; the vacuum gauge was started out from the bulkhead. In the charthouse one light was broken; the lock on the port door was torn off and broked. Also the locks on two lockers inside; a "routine" frame hanging up was thrown down and broken. In the pilot house two lights were broken. The rail of the forward hammock netting, starboard side, forward end, was started and split. A dozen flat headed nails were received, while the hammock cloth was torn for a distance of about eight feet. The covering of electric wire in forward end of netting was also thrown off. Two electric light boxes one on the port after end, the other on the starboard forward end of the superstructure were torn down and their glasses broken. The starboard side light was blown to pieces.

On the Forward Deck—The screen rods of the urinal were bent, and its covering destroyed. A sliver 5½ feet long, 2 in. wide, and 1½ in. deep of triangular section was taken out of the deck in front of the forward 6-in. gun. The vegetable locker forward was started up in the same manner as the one aft; three hinges and two hasps were broken. The scupper leading under these lockers was started out of place, (both the forward and after lockers were secured in a very flimsy manner.)

On the Battery Deck—The joiner work and the starboard side around the end part of the 6-in. shifting gun was started out of place and the electric box torn down. The door of the armorer's workshop was split from top to bottom and thrown down; a light was broken in one of the windows also. In the drying room a light panel over one of the doors was driven in; the end board was moved in and split. The socket for the latch of the water-closet was started out of place. In the galley a small piece of flange (which supports the lids) was broken. The two electric light boxes on the midship bulkhead, near the door, had their glasses and bulbs broken. One Hayward hand grenade was broken, on the port side of the main deck.

On the Half Deck—The lock on the door of the captain's office and those on two of the lockers inside were torn off. The cabin annunciator was torn down. Also one electric battle-lantern near it (both with very slight fastening in the first place.) The wooden cover to the fire main was split; the drip pan of the deadlight over it was started also; nails in the cabin bulkhead were started out; the lockers in the upper part of the executive officer's office were started forward and the lock on one of the lower lockers was broken.

In the Cabin—An electric light bulb was broken in the bath room; an eye loop was torn off the forward state room door.

In the Wardroom—The moulding in front of room 5 was started slightly; inside that room the bookshelf was thrown down. In room 4 the shutter in front of the deadlight was torn down and thrown on the floor; the scroll work over the top of the bunk was broken, and a light piece of moulding started; the electric light bulb was broken. In room 11 the scroll work was broken; also the electric light bulb. (The light articles in this room, also in rooms 4 and 5, were thrown about and upset.) Room 12—In this room the casing for the wheel ropes was driven downwards and split; the bookshelf was started away from the bulkhead. The deck lights in the following rooms leak: Nos. 3, 4, 5, 6, 7, 8, 10, 11, and 12. Also one in the wardroom pantry. Those of rooms 4, 11, and 12 leak considerably.

In the Steerage—The seat joint of the cabin water closet leaks through the steerage. The bracers of the steerage bathroom tank have started away from the bulkhead.

Very respectfully,
Lieut. W. P. CLASON, U. S. N.
Lieut. HIERO TAYLOR, U. S. N.
J. COOPER, Carpenter, U. S. N.

[ENDORSEMENT.]

BUREAU CONSTRUCTION AND REPAIR, July 21, 1887.

Respectfully referred to the Department. In view of the fact that the damage herein reported has been occasioned by the firing of only two rounds from each gun, the Bureau suggests that Captain Bunce be directed to fire the guns in the same manner as he would were he engaging an enemy, the firings to be continued long enough to thoroughly establish the fact as to where any weakness exists in the vessel or her equipment. This will give the Department and the Bureau valuable data to work on and enable it to correct any defects of like kind that will occur in future.

T. D. WILSON, Chief Naval Constructor.

Concerning the accident Secretary Whitney says: "The reports are not very favorable as to the first trial of the guns of the *Atlanta*, but as yet no matters of great moment have turned up. The trouble to my mind is this: If two rounds of her battery give this result what would a dozen do? And it is that which we are called upon to ascertain. She is meant as a fighting ship and must be further tested. It is to be remembered that her completion furnishes an opportunity to the Department of determining by actual experiment many matters as to which the Department has heretofore been without practical experience. It is important that whatever is to be learned from her should be ascertained at once, and although her design has not been followed in the case of the later ships, it is important that a full test of her should be had at once. She should have a cruise at sea sufficiently long to subject her to trial of all weathers. Her battery should be tested by actual firing until its working characteristics are determined and defects, if any, discovered. For these purposes a board will be appointed and the matter settled at the earliest day. She was built by my predecessor under the direction of the Advisory Board."

(From the London Globe.)

BUFFALO BILL'S LONG RIDE.

THE EXASPERATING MULE.

ON returning from a long ride, in which I had been much harassed by the Indians, I was one night accosted by Curtis, the chief of the scouts, who was in a difficulty. The General was anxious to send some despatches to General Sheridan at Fort Hays, some eighty miles off. The scouts available did not freeze on to the job. They urged that they were not sufficiently well acquainted with the country to go by night. The despatch was important, and so Curtis came to me and asked me, if I was not too tired, to volunteer. It was rather a ticklish piece of work. The whole country was lined by Indians. It was a dark night and a storm was threatening. However, the despatches had to be sent off, and so I assented, bargaining only that I should be provided with the best mount in the fort. This was readily assented to, the scouts took a fond farewell of me, and with their wishes for success ringing in my ears, I set out on my long ride.

The night was dark as pitch, but this gave me all the better chance of escaping the Indians. My greatest danger was lest my horse should stumble in a hole, and run away, leaving me on the prairie. To prevent such a catastrophe I tied one end of my rawhide lariat to the bridle, and the other to my belt, a wise precaution, for within a few miles my horse fell twice in prairie dogs' holes, and got away before I could get hold of the bridle, but when he got to the length of the lariat he discovered that he was picketed to Bison Bill, which considerably abated his playfulness. In this way I proceeded through the night, and reached Walnut Creek, twenty-five miles out, in good time. It was here that I met with my first adventure. Going slowly through the darkness, I suddenly found myself in the midst of a number of horses, which, becoming frightened, speedily moved off in all directions. I knew at once that I was near Indians, so without waiting to apologize, I cleared out as quickly as possible. Just as I thought myself clear, a dog barked a few yards away, and then I heard some redskins talking. They did more than talk, too. They mounted their mustangs and gave chase. I urged my horse to full speed and succeeded in getting away without loss of life.

I continued my way for several miles in a straight course, and I pushed on toward Smoky Hill River. I reached this point soon after 3 o'clock in the morning, and then pushing northward I struck the old Santa Fe trail ten miles from Fort Hays just as day was breaking. Arrived at the post soon after reveille, I made straight for General Sheridan's headquarters, and presented my despatches in person. I was most cordially received by the General, and, having taken food, and seen that my horse was well cared for, thought I would proceed to take a little rest. It was, however, not to be, for I was suddenly sent for by the General, who wished to see me. As I approached headquarters I noticed a number of scouts grouped together, and evidently engaged in discussing something important, and I soon learned what this was. General Sheridan desired to send an important despatch to Fort Dodge, a distance of ninety-five miles. Volunteers were requested, but none responded. The General told me this, and what could I do?

"General," I said, "if there is no one ready to volunteer, I'll carry your despatches myself."

The General expressed himself greatly pleased at my offer, but at the same time said that he had not thought of asking me to undertake the duty, as I had been fully hard-worked already. But it was very important that the despatches should go.

"If you don't get a courier by 4 o'clock this afternoon, I'll do the business," I responded, "but I must have a fresh horse, and meantime will take a little rest." It was not much rest that I got, but punctually at 4 o'clock I announced myself ready, and mounting a fresh horse, started on the road. I crossed Smoky Hill River at dark, and it was just daylight as I rode up to Sam Log Crossing on the Pawnee Fork, where a company of colored cavalry were posted, under Major Cox. Here I got a fresh horse, and continuing my lonely ride, covered the remaining twenty-five miles to Fort Dodge, and arrived soon after 9 o'clock without having seen a single Indian.

Having delivered my despatches and rested an hour I was informed that the commander wished to send some despatches to Fort Larned, my own post. I, of course, readily undertook to carry these, and my offer was gladly accepted by the General, "provided I thought I could stand the trip after my recent fatigue."

"All I want is a fresh horse, sir," I said.

Here was the difficulty. There was not such a thing as a decent horse available, the only animals to be had being Government mules, of which there was a large choice. I made no difficulty about this. "Trot out your mule," I said "I am ready now."

The mule was rapidly forthcoming, and at dark I started once more on the road for Fort Larned, and proceeded without interruption to Coon Creek, thirty miles from Fort Dodge.

Here I dismounted and led my mule to a pool to give him some water. I also stood myself a drink, using my hat for a dipper, and, while engaged in procuring this refreshment, my mule suddenly jerked off, and ambled away down to the creek. Then it flashed across my mind that in the hurry of departure I had omitted to make my lariat fast to him, and that he was at large.

I followed him gently in the hopes of getting hold of his bridle, and that he would perchance stop. He did not. He made straight for the wagon road, but instead of making for Fort Dodge, as I expected he would, he turned towards Fort Larned, and jogged merrily along, with a most happy and unconcerned air. Several times I succeeded in getting just up to him, when he would put on a spurt and go ahead easy, slacking down as soon as I gave up chase. I was sorely tempted to shoot him with my gun, which I fortunately held in my hand, but the report would have probably brought the Indians down on me, and as he was, besides, company for me, I refrained. And thus the mule marched on, and I followed on foot—cursing.

From Coon Creek to Fort Larned is thirty-five miles and we—that is, the mule and myself—made pretty good time. There was nothing to hold the mule, and I was striving hard to catch him—which urged him on. In addition to the excitement of this pedestrian competition, I had the knowledge that I might any moment be pounced on by Indians, and have my hair lifted.

The mule stuck to the road, and I stuck to the mule. Just as day began to break we found ourselves still in the same order of procession on a hill looking down on to the valley of Pawnee Fort, with Fort Larned looming in the distance, and as I surveyed the scene, and the mule surveyed me, the morning gun belched forth half a mile away.

We took stock of each other with expressions of mutual distrust. Then, addressing my opposite neighbor, I spoke.

"Time's up," I said, "and its my turn. I am deeply indebted to you for your company, but we must part." Then I raised my gun to my shoulder and blazed away, hitting the beast on the hip. Inserting a second cartridge, I fired into him again, and twice more, until at last he lay stretched out nice and comfortable. Like all Government mules, he was a tough one, and died hard.

My shots brought out the troops, and when they learned what had happened, they all said it served him right. I then walked into headquarters and delivered my despatches, and received the compliments of the General. I proceeded to put in some hours of solid sleep, and then left that same night for Fort Hays with more despatches, which I delivered early the next morning to General Sheridan. My record of these rides is as follows: Fort Larned to Fort Hays, 65 miles in 12 hours; Fort Hays to Fort Dodge, 95 miles in the succeeeding 24 hours; Fort Dodge to Fort Larned, 35 miles on mule, 35 miles off mule, the same night; and back to Fort Hays, 65 miles, the next—total, 295 miles, over a rough country, infested by hostile Indians, without any definite interval of rest.

On arriving at Fort Hays I was highly complimented by General Sheridan on my achievement. "Cody," he said, "I have decided to appoint you guide and chief of scouts, with the command."

And thus it was I came to be chief of scouts, United States Army.

BOARD ON LIFE-SAVING BOATS.

THE Board consisting of Capts. F. M. Ramsay and N. H. Farquhar and Naval Constructor Philip Hichborn, which spent some time last spring examining numerous life boats for the purpose of determining whether any of them would be suitable for Navy uses, reconvened at the Navy Department on Wednesday by direction of the Secretary of the Navy. The Board failed to recommend the adoption of any of the boats submitted. The Secretary was dissatisfied with the report, and reconvened the Board to consider his endorsement thereon, which reads as follows: "The recommendations of this Board are not definite. I wish to know—1. Is not one or another form of life boat in general use in merchant service? 2. What are the most approved ones, and which has the most merits? 3. Why should not the Naval Service adopt such improvements over the old form of boats as the life boat represents? Most of the naval vessel's boats are carried for life-saving purposes."

Captain Ramsay and Naval Constructor Philip Hichborn, U. S. N., will proceed to New York and make a thorough examination of all lifeboats now in use on the various seagoing steamers sailing out of that port. Secretary Whitney seems zealous in securing a perfect lifeboat for use in our Navy.

THE ARMY.

G. O. 48, H. Q. A., July 6, 1887.

1. By direction of the Secretary of War, par. 1 of G. O. 46, H. Q. A., 1886, is hereby cancelled, and the annual issue of one fur cap and one pair of fur gauntlets is authorized as provided by Sec. 2090½ of the Regulations, published in G. O. 62, H. Q. A., 1883.

2. The Quartermaster's Department is authorized to supply to each of the enlisted men as may desire to draw them, canvas barrack shoes, at the rate of one pair per annum, and linen collars, at the rate of six per annum.

These articles do not form part of the annual clothing allowance, and will be charged to the enlisted men at cost prices.

3. Active service having demonstrated that the post shoes heretofore supplied to the enlisted men are not adapted to the military service, their manufacture will be discontinued and issue cease so soon as those now on hand at posts and depots shall have become exhausted.

4. The accompanying table [omitted] of the price of clothing and equipage for the Army of the U. S., with the allowance to each soldier for clothing in kind during each year of his enlistment; the money allowance therefor for each year and day, including the allowance for enlisted men on the Retired List, also of the allowance of equipage, having been approved by the Secretary of War, is published for the information and guidance of all concerned. It will take effect on the 1st of July, 1887, and will remain in force until further orders.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

[Appended to the order are the following regulations, which we reprint for useful reference:

Cork helmets are supplied only to troops serving in extremely hot climates, in the first and third years of their enlistment, and these only in lieu of the campaign hats. The necessity for such issue must in all cases be certified to by the Department Commander. (Par. 2763, Regulations.)

Fatigue or campaign hats are issued only to troops on the frontier or in active campaign at the rate of one per year. (Par. 2776 of the Regulations, amended by G. O. 64, H. Q. A., 1882.)

Arctic overshoes and woollen mittens when issued will be charged to the enlisted men at cost price. The necessity for their issue must, however, be certified to by the Department and Division Commanders. The allowance for these articles is as follows:

Arctic overshoes, one pair in each of the first and third years of enlistment, and woollen mittens, two pairs per annum. (G. O. 69, H. Q. A., 1882.)

Overcoats made of fur or other suitable material will be issued and accounted for in the manner prescribed by Par. 2090½ of the Regulations published in G. O. 62, H. Q. A., 1883.

Under this same paragraph, as restored by Part 1 of this Order, enlisted men may draw annually one fur cap and one pair of fur gauntlets at the price established in the annual price list; but these articles do not form part of the money allowances. Civilian employees may also purchase, at the prices given in this list, fur clothing, when in the opinion of Post Commanders their duties are such that they actually need them.

Under special authority of the War Department rubber blankets and ponchos may be issued gratuitously, at the rate of one per annum, to each enlisted man serving in the field or active campaign, until the stock on hand shall have become exhausted. (Adjutant General's letter of Sept. 27, 1884, and Circular 11, H. Q. A., 1886.)

Enlisted men may draw, whenever in the opinion of the proper officer it may be necessary, during their first year's enlistment, the two woollen blankets to which they are entitled during their service of five years. (G. O. 139, H. Q. A., 1884.)

Service chevrons (war or peace) are issued without charge. (Par. 2747, Regulations.)

Brassards are charged only in case of loss or damage. (G. O. 71, H. Q. A., 1885.)

The Quartermaster's Department is authorized to furnish to each enlisted man of the Army who may be required to work on extra, daily, or fatigue duty, one canvas suit in each year, as a part of his equipment.

For troops stationed in extremely cold regions when the necessity for such issue is certified by the department commanders; for troops stationed at West Point, New York; and for troops not attached to any military department, upon the approval of the head of the staff department to which they belong, the suit will consist of one blouse, one pair of trousers, one canvas blanket-lined cap or hood, and one pair of mittens for winter wear. For all other troops the suit will consist of one blouse and one pair of trousers.

Nothing in the foregoing is intended to increase the money allowance of clothing to the soldier. The articles herein authorized to be furnished will be issued under the direction of the post commander. They are to be kept and applied by the soldiers to their proper use as a working dress, and intended to save the regular uniform, and to be worn on fatigue duty and at labor when these articles are more suitable than the woollen dress.

The articles will be dropped from the returns of the officers to whom they shall have been transferred when they are furnished to the soldier, and will be issued on the receipt rolls. Issues in excess of the yearly allowance will be charged on the clothing account at prices fixed in orders. In the cases of gratuitous issues the voucher should show that the same is made within the allowance.

In case of the loss or destruction of any of said articles without fault or neglect on the part of the soldier to whom they have been entrusted, and the immediate commanding officer shall so certify in the matter of the loss, then the articles so lost or destroyed may be reissued without charge to the soldier. (G. O. 46, H. Q. A., 1886.)

One cord and tassel will be issued, free of charge, with each campaign hat, until stock of those on hand at posts and depots shall have become exhausted. (Cir. 2, H. Q. A., 1887.)]

G. O. 51, H. Q. A., July 15, 1887.

By direction of the Secretary of War par. 2359 of the Regulations is amended to read as follows:

2359. Copies of all plans, estimates, and orders connected with the erection or repair of the post hospitals, whether temporary or permanent, will be furnished by the officer making the same to the senior medical officer of the post, who will at once forward them, with his comments, through the proper military channels, to the Surgeon General; alterations of the specified plan of repairs in an approved estimate are forbidden, unless authorized by the Secretary of War. When authorized repairs upon hospital buildings are completed the senior medical officer of the post will act as inspector of the work on the part of the Medical Department, and will report the result of such inspection, together with the amount of any unexpended balance of the appropriation, through the proper military channels, to the Surgeon General.

By command of Lieutenant General Sheridan:
R. C. DRUM, Adjt.-Gen.

CIR. 9, DEPT. OF THE PLATTE, July 12, 1887.

Publishes a table exhibiting the Figure and Order of Merit of the Troops, Companies and Posts for part of the Target Practice Season ending June 30, 1887. Till all have had skirmish practice, this order will be based upon the individual figure of merit.

G. O. 10, DEPT. OF THE MISSOURI, July 18, 1887.

Specifies the proportions of forage for public animals until further orders.

G. O. 7, DIV. OF THE ATLANTIC, July 16, 1887.

Batteries I and L, 5th Artillery, having been ordered on a tour of duty at the rifle camp at Creedmoor, N. Y., the practice season for these batteries for the current target year is, in consequence, changed to May, June, and to the 22d of July, and from Aug. 1 to Aug. 9, inclusive.

STAFF CORPS AND DEPARTMENTS.

Adjutant and Inspector Generals.

Lieut. Col. Robert P. Hughes, Inspr. Gen., will inspect Forts Bidwell, Cal., and McDermit, Nev. (S. O. 48, July 9, D. Cal.)

Quartermasters and Subsistence Departments.

Leave for one month, from July 30, is granted Col. Rufus Saxton, A. Q. M. G. (S. O., July 16, H. Q. A.)

Lieut. Col. Richard N. Batchelder, D. Q. M. G., will be relieved of his duties in Washington by Capt. John F. Rodgers, milit'y storekeeper, and will proceed to San Francisco in time to reach that place by Oct. 15, and relieve Major George H. Weeks, Q. M., of his duties in connection with the general depot of the Q. M. Dept. From the date of being relieved until he shall start to obey this order, Lieut. Col. Batchelder will remain in Washington in connection with the settlement of his accounts with the Treasury Dept. Major Weeks, after being relieved by Lieut. Col. Batchelder, will report to the officer in charge of the general depot of the Q. M. Dept. in New York City for duty (S. O., July 14, H. Q. A.)

Supt. Patrick Hart is transferred from Fort Gibson, I. T., to Seven Pines, Va., National Cemetery, and Supt. Wm. M. Jones from Seven Pines, Va., to Fort Gibson, I. T., National Cemetery (Q. M. G. O., July 14).

Hospl. Steward Carl Hagen (recently appointed from private, Troop L, 2d Cav.), will report to the C. O., Vancouver Barracks (S. O., July 19, H. Q. A.)

Hospl. Steward Paul Wiese (recently appointed from 2d class private, Co. C, Battalion of Engineers), will report for duty at Camp at Eagle Pass, Texas (S. O., July 19, H. Q. A.)

Engineers and Ordnance Departments.

Leave for ten days is granted Major Wm. A. Jones, C. E. (S. O. 65, July 14, C. E.)

Leave for one month is granted 1st Lieut. Theodore A. Bingham, C. E. (S. O. 66, July 15, C. E.)

1st Lieut. Wm. C. Langfitt, C. E., will proceed on public business to Fort Spokane (S. O. 99, July 5, D. Columbia).

Capt. John G. D. Knight, C. E., is detailed to accompany the 22d Regt., N. G., S. N. Y., during its march to and tour of duty at the State camp of instruction, near Peekskill, from July 28 to Aug. 6, for the purpose of giving instructions in the elementary branches of field fortifications (S. O., July 14, H. Q. A.)

Lieut. Col. Henry M. Robert, C. E., will proceed to Fort Delaware and the fort and mortar battery opposite, thence to Finn's Point, N. J., on public business (S. O., July 15, H. Q. A.)

Ord. Sergt. Albert Stout has arrived at Fort Pulaski, Ga., and relieved Ordnance Sergeant James Coleman, who has gone to Augusta Arsenal, Ga., with a view to retirement.

Signal Corps.

Brig. Gen. Adolphus W. Greely, Chief Sig. Officer, will proceed on or before Sept. 10 to Toulouse, France, for the purpose of attending the meetings of the meteorological branch of the French Association for the Advancement of the Sciences, to be held at that place from September 22 to 29, and of obtaining information of matters relating to meteorological science and work in Europe. He will proceed to Toulouse via Paris, to enable him to confer at the latter place with the director of the French meteorological service in regard to cable despatches sent in the interests of that service (S. O., July 15, H. Q. A.)

THE LINE.

Changes of Stations of Troops and Field Officers

Ordered, as reported to the Adjutant-General's Office during the week ending July 16, 1887:

TROOPS.

Troops C and L, 1st Cav., to Fort Buford, Dak.
Troops F, I, and L, 7th Cav., to Fort Meade, Dak.
Co. A, 9th Inf., to Fort Mojave, Ariz.
Co. C, 9th Inf., to Fort Apache, Ariz.

The Stations of Companies not mentioned here will be found by reference to last number of the JOURNAL.

1st Cavalry, Colonel N. A. M. Dudley.

Hdqrs., A, B, E, G, and K, Ft. Custer, Mont.; D, Ft. Maginnis, Mont.; I, Ft. Leavenworth, Kas.; F and H, Ft. Assiniboine, Mont.; M, Camp Sheridan, Wyo.; C and L, Ft. Buford, D. T.

Leave for one month, to take effect July 18, is granted 1st Lieut. O. L. Hein (S. O. 71, July 11, Dept. M.)

2nd Cavalry, Colonel Nelson B. Sweitzer.

Hdqrs., B, E, F, G, and I, Ft. Walla Walla, Wash. T.; A and K, Presidio of San Francisco, Cal.; C and M, Ft. Bidwell, Cal.; D, Boise Bks., Idaho; H, Ft. Spokane, Wash. T.; L, Ft. Sherman, Idaho.

Col. Nelson B. Sweitzer will proceed to Boise Barracks and inspect the troops of his regiment stationed there (S. O. 99, July 5, D. Columbia.)

1st Lieut. Curtis B. Hoppin is detailed as Professor of Military Science and Tactics at the University of Illinois, Champaign, Ill., to take effect Sept. 1, 1887 (S. O., July 15, H. Q. A.)

Private Bateman, who murdered Sergt. Soper at the Presidio recently, has been held for trial in the United States Circuit Court. Bateman says he was driven to the crime by the conduct of Soper towards him.

3rd Cavalry, Colonel Albert G. Brackett.

Hdqrs., C, F, L, and M, Ft. Davis, Tex.; A, Ft. Concho, Tex. G, Camp at Eagle Pass, Tex.; E, Ft. Hancock, Tex.; B, Camp Pena Colorado, Tex.; D and H, Ft. Sill, Ind. T.; I and K, Ft. Elliott, Tex.

Leave for twenty days is granted Capt. J. B. Johnson, Camp Pena Colorado (S. O. 79, July 13, D. Tex.)

Troop G, Capt. E. Z. Steever, participated in the Fourth of July celebration at Eagle Pass, Tex., which occasions the local *Times* to say: "During the march the cavalry company from camp was generally noted, and the gallant soldier boys received compliments for their soldierly bearing."

4th Cavalry, Colonel William B. Royall.

Hdqrs., D, F, H, and K, Ft. Huachuca, Ariz.; A, E, and L, Ft. Lowell, Ariz.; C, G, and I, Ft. Bowie, Ariz.; M, Ft. McDowell, Ariz.; B, Ft. Myer, Va.

Troop B (Lawton's) is relieved from duty in the Dept. of Arizona, and will proceed to and take station at Fort Myer, Va. In relieving this troop of cavalry from duty with this command, Brig.-Gen. Miles, the Dept. Commander, desires to express his appreciation of the gallant services of this body of troops and its distinguished commander, and to express his thanks for the valuable services they have rendered the Government (S. O. 72, July 9, D. Ariz.)

1st Lieut. Abiel L. Smith is relieved from the further operation of S. O. 123, and will proceed from Jefferson Barracks to Fort Myer, Va., and report for duty with his troop (S. O., July 18, H. Q. A.)

1st Lieut. James R. Richards, Jr., will proceed to Jefferson Barracks and report for duty at the Cavalry Depot (S. O., July 18, H. Q. A.)

5th Cavalry, Colonel James F. Wade.

Hdqrs., D, E, H, and L, Ft. Riley, Kas.; A, F, and I, Ft. Supply, Ind. T.; B, C, G, and K, Ft. Reno, Ind. T.; M, Ft. Leavenworth, Kas.

Capt. Jacob A. Augur will, during the temporary absence in August of the commandant of cadets and the superintendent of the Military Academy, exercise command of the post of West Point and act as superintendent of the Academy and as commandant of cadets (S. O., July 14, H. Q. A.)

6th Cavalry, Colonel Eugene A. Carr.

Hdqrs., A, C, G, and L, Ft. Bayard, N. M.; I and K, Ft. Wingate, N. M.; F, Ft. Lewis, Colo.; D and H, Ft. Stanton, N. M. M, Ft. Leavenworth, Kas.; E, Ft. Union, N. M.; B, Ft. Myer, Va

Leave for six months on Surgeon's certificate is granted 1st Lieut. Henry P. Kingsbury (S. O., July 18, H. Q. A.)

8th Cavalry, Colonel Elmer Otis.

Hdqrs., C, and H, San Antonio, Tex.; A, Ft. McIntosh, Tex.; I Ft. Ringgold, Tex.; K, Camp Del Rio, Tex.; D, E, F, G, and L Ft. Clark, Tex.; B and M, Ft. Brown, Tex.

Sergt. William Hammond, Troop A, is relieved from duty in the recruiting office at San Antonio, and will join his troop at Fort McIntosh (S. O. 78, July 11, D. Tex.)

A furlough for four months is granted Sergt. Chas. Winman, Troop H (S. O. 83, July 14, Div. M.)

9th Cavalry, Colonel Edward Hatch.

Hdqrs., C, F, and K, Ft. Robinson, Neb.; A, G, and I, Ft. Niobrara, Neb.; D and H, Ft. McKinney, Wyo.; M, Ft. Washakie, Wyo.; B and E, Ft. Du Chesne, Utah (Post-office address via Ouray, Utah); L, Ft. Leavenworth, Kas.

Capt. Francis Moore will report at Fort Leavenworth, July 25, for duty as camp commander at the Dept. of Missouri Rifle Competition (S. O. 72, July 12, Dept. M.)

1st Artillery, Colonel John C. Tidball.

Hdqrs., A, C, I, L, and K,* Presidio, San Francisco, Cal.; B and H, Alcatraz Island, Cal.; E,* Vancouver Bks., W. T.; D and F, Ft. Canby, W. T.; G, Ft. Monroe, Va.; M, Ft. Mason, Cal.
* Light battery.

Capt. Chandler P. Eakin will inspect one public animal at Fort Canby, for which 2d Lieut. Millard F. Harmon, A. A. Q. M., is accountable (S. O. 100, July 6, D. Columbia.)

Capt. James M. Ingalls will repair to Willet's Point, N. Y., for temporary duty at that post during August, for the purpose of gathering information in regard to manipulation of submarine mine material (S. O., July 15, H. Q. A.)

The leave granted Capt. James M. Ingalls, Fort Monroe, Va., is extended until Aug. 1, 1887 (S. O. 148, July 20, Div. A.)

The leave granted 2d Lieut. Charles J. Bailey, Fort Monroe, Va., is extended seven days (S. O. 148, July 20, Div. A.)

Leave for one month is granted 2d Lieut. Elmer [illegible]. Hubbard, Fort Canby (S. O. 101, July 7, D. Columbia.)

Private Henry Hopkins, Bat. H, is selected to represent the Dept. of California in the competition of distinguished marksmen. He will report at Omaha, Neb., Sept. 13 (S. O. 46, July 5, D. Cal.)

Capt. J. W. Dillenback, Sergts. G. W. Yearsley and J. Lowder, Corpl. E. McCarty, and Pvt. M. A. Quigley, Bat. A, and Corpl. J. McKnight and Pvt. J. McGill, Bat. C, have qualified as sharpshooters.

2nd Artillery, Colonel Romeyn B. Ayres.

Hdqrs., G, and L, St. Francis Bks., Fla.; A* and E, Little Rock Bks., Ark.; B and H, Ft. Barrancas, Fla.; C and D, Mount Vernon Bks., Ala.; F,* Ft. Leavenworth, Kas., K, Ft. Monroe, Va.; I and M, Jackson Bks., La.
* Light battery.

1st Lieut. Edward H. Catlin is detailed to attend the encampment of the National Guard of Vermont, to be held at Bennington, Aug. 13 to 17, 1887, for the purpose of inspecting the troops taking part therein (S. O., July 15, H. Q. A.)

The leave granted Capt. William McK. Dunn, Jr., Little Rock Barracks, is extended one month (S. O. 145, July 16, Div. A.)

2d Lieut. William P. Stone, Mount Vernon Barracks, will report to the C. O. Jackson Barracks, La., for temporary duty with Bat. M at the camp of instruction at Fort Henry, near Pass Christian, Miss., from Aug. 3 to 10. Lieut. Stone will then return with Bat. M to Jackson Barracks, thence to Mount Vernon Barracks (S. O. 147, July 19, Div. A.)

3rd Artillery, Colonel Horatio G. Gibson.

Hdqrs., A, C,* E, H, K, and L, Washington Bks., D. C.; B, Newport Bks., Ky.; D, G, and I, Ft. McHenry, Md.; M, Ft. Monroe, Va.; F,* San Antonio, Tex.
* Light battery.

Leave for one month is granted 1st Lieut. Edward Davis, Washington Barracks, D. C. (S. O. 150, Div. A., July 22.)

4th Artillery, Colonel Clermont L. Best.

Hdqrs., B,* D, E, G, and L, Ft. Adams, R. I.; A and C, Ft. Trumbull, Conn.; F,* Ft. Snelling, Minn.; H and K, Ft. Warren, Mass.; I, Ft. Monroe, Va.; M, Ft. Preble, Me.
* Light battery.

1st Lieut. H. R. Anderson, a "distinguished marksman," (Fort Adams, R. I.,) will report to the C. O. Fort Niagara, N. Y., Aug. 27, to take part in the annual rifle competitions (S. O. 149, July 21, Div. A.)

Sergt. Wm. D. Huddleson, Bat. K, a "distinguished marksman," Fort Warren, will report to the C. O. Fort Niagara, N. Y., Aug. 27, to take part in the annual rifle competitions (S. O. 150, Div. A., July 22.)

Light Bat. F, 4th Art. (Rodney), of Fort Snelling, has had some excellent practice recently in the Militia Camp McGill, at Mankato. The battery was much admired for its appearance, discipline, etc.

5th Artillery, Colonel John Hamilton.

Hdqrs., E, F,* I, and H, Ft. Hamilton, N. Y.; A, C, and L, Ft. Columbus, N. Y.; G, Ft. Monroe, Va.; B, Ft. Wadsworth, N. Y.; D,* Ft. Douglas, Utah; K and M, Ft. Schuyler, N. Y.
* Light battery.

The extension of leave on account of sickness granted 2d Lieut. Robert G. Procter is further extended two months on account of sickness (S. O., July 15, H. Q. A.)

1st Infantry, Colonel William R. Shafter.

Hdqrs., E, F, I, and K, Angel Island, Cal.; A and D, Benicia Bks., Cal.; C and G, Presidio of San Francisco, Cal.; B, Ft. Gaston, Cal.; H, Ft. McDermit, Nev.

Lieut. M. P. Maus, 1st Sergt. L. McCarthy, Sergt. C. Hartke, Corpl. E. A. Stamm, and Pvt. C. W. Thomson, Co. B, have qualified as sharpshooters.

3rd Infantry, Colonel John R. Brooke.

Hdqrs., A, G, H, and K, Ft. Shaw, M. T.; B, D, F, and I, Ft. Missoula, M. T.; C and E, Ft. Custer, M. T.

Capts. Joseph Hale and John W. Hannay will proceed from Fort Shaw to Fort Missoula, M. T., for temporary duty (S. O. 65, July 8, D. Dak.)

The C. O. Fort Missoula will grant furloughs for two months to 1st Sergt. Frank Sherman and Corpl. Samuel C. Wilcox, Co. D (S. O. 65, July 8, D. Dak.)

1st Lieut. Arthur Williams is relieved from duty as Instructor in the Department of Military Surveying, Topography, etc., at the U. S. Infantry and Cavalry School. In relieving Lieut. Williams, the Colonel commanding (McCook) desires to express his regret at losing him as an Instructor in the Department over which he has presided for so long a time with marked ability, and satisfaction to his superiors, and which through his zeal and untiring industry has been brought to its present condition of usefulness, reflecting credit on himself and the school (Orders 10, July 16, U. S. Inf. and Cav. School.)

4th Infantry, Colonel William P. Carlin.

Hdqrs., C, D, E, and H, Ft. Sherman, Idaho; A, B, F, I, and K, Ft. Spokane, Wash. T.; G, Boise Barracks, Idaho.

Col. William P. Carlin will inspect public animals at Fort Sherman, for which 1st Lieut. Henry E. Robinson, A. A. Q. M., is accountable (S. O. 100, July 6, D. Columbia.)

5th Infantry, Colonel George Gibson.

Hdqrs., A, B, D, E, G, I, and H, Ft. Keogh, M. T.; F and K, Ft. Totten, D. T.; C, Ft. A. Lincoln, D. T.

6th Infantry, Colonel Alex. McD. McCook.

Hdqrs., H, and I, Ft. Leavenworth, Kas.; A, B, C, D, F, G, and K, Ft. Douglas, Utah; E, Salt Lake City, Utah.

The leave for one month granted 2d Lieut. Benjamin W. Atkinson is extended one month (S. O. 86, July 20, Div. M.)

8th Infantry, Colonel August V. Kautz.

Hdqrs., A, B, E, F, G, and H, Ft. Niobrara, Neb.; C, D, I, and K, Ft. Robinson, Neb.

The leave for one month granted 1st Lieut. William H. McMinn is extended one month (S. O. 83, July 14, Div. M.)

The leave granted 1st Lieut. William H. McMinn is extended two months (S. O., July 15, H. Q. A.)

9th Infantry, Colonel John S. Mason.

Hdqrs., F, H, I, and K, Whipple Bks., A. T.; B and D, Ft. Thomas, A. T.; E, San Diego Bks., Cal.; C and G, Ft. Apache, A. T., A, Ft. Mojave, A. T.

S. O. 68 is amended so as to direct Co. A to proceed from Holbrook, A. T., by rail to the Needles, Cal., thence by boat to Fort Mojave, A. T., instead of via East Bridge; the same route is designated for Co. C from Fort Mojave by boat to the Needles, thence by rail to Holbrook (S. O. 71, July 6, D. Ariz.)

10th Infantry, Colonel Henry Douglass.

Hdqrs., B, C, F, H, and I, Ft. Union, N. M.; A and E, Ft. Lyon, Colo.; G and K, Ft. Crawford, Colo.; D, Ft. Selden, N. M.

1st Lieut. D. F. Stiles will report at Fort Leavenworth, July 25, for duty as A. C. S. of the Dept. of Missouri Rifle Competition (S. O. 72, July 12, Dept. M.)

Major Hamilton S. Hawkins is detailed to attend the encampment of the militia of Delaware, to be held at Rehoboth, Del., commencing July 27, for the purpose of inspecting the troops taking part therein (S. O., July 19, H. Q. A.)

11th Infantry, Colonel Richard I. Dodge.

Hdqrs., A, D, G, H, and I, Madison Bks., N. Y.; E and K, Ft. Niagara, N. Y.; B, Bedlow's Island, N. Y. H.; C, Ft. Ontario, N. Y.; F, Pittsburgh Bks., N. Y.

The leave for seven days granted Major John H. Page, Fort Yates, is extended ten days (S. O. 65, July 8, D. Dak.)

The 11th Inf. will move as follows: The Hdqrs. and Cos. A, D, E, and K (Fort Sully, D. T.), and I (Fort Bennett, D. T.), to Pierre, D. T.; Cos. B, C, F, and H (Fort Yates, D. T.), to Bismarck, D. T., via Fort A. Lincoln, D. T., to be joined at the latter place by Co. G. The Q. M. Dept. will provide transportation by water to Bismarck and Pierre, and thence by rail and water, via Duluth, Minn., to Buffalo, N. Y. (S. O. 66, July 13, D. Dak.)

12th Infantry, Colonel Edwin F. Townsend.

Hdqrs., E, G, H, and I, Ft. Yates, D. T.; A, B, C, and D, Ft. Sully, D. T.; K, Ft. Bennett, D. T.; F, Ft. A. Lincoln, D. T.

Stations for the 12th Inf. are designated as follows: Fort Yates, D. T., Hdqrs. and Cos. E, G, H, and I; Fort Sully, D. T., Major and Cos. A, B, C, and D; Fort Bennett, D. T., Co. K; Fort Abraham Lincoln, D. T., Co. F (S. O. 66, July 13, D. Dak.)

The regiment will leave Buffalo on Tuesday next, July 26, by water for Duluth, Minn., thence to Dakota.

13th Infantry, Colonel Robert S. La Motte.

Hdqrs., D, F, G, H, and I, Ft. Wingate, N. M.; K, Ft. Leavenworth, Kas.; A and B, Ft. Bayard, N. M.; C and E, Ft. Stanton, N. M.

Leave for ten days is granted Capt. Arthur MacArthur (S. O. 71, July 11, Dept. M.)

Leave for two months is granted 2d Lieut. Michael J. O'Brien (S. O., July 15, H. Q. A.)

14th Infantry, Colonel Thomas M. Anderson.

Hdqrs., B, C, D, E, F, G, H, and I, Vancouver Bks., Wash. T.; A, Ft. Townsend, Wash. T., K, Ft. Klamath, Ore.

Leave for twelve days is granted Col. Thomas M. Anderson, Vancouver Barracks (S. O. 100, July 6, D. Columbia.)

The Supt. of the Recruiting Service will cause twenty recruits to be forwarded under proper charge to Vancouver Barracks, Wash. T., for the 14th Inf. (S. O., July 20, H. Q. A.)

15th Infantry, Colonel Robert E. A. Crofton.

Hdqrs., E, F, G, and K, Ft. Buford, D. T.; A, C, D, and H, Ft. Randall, D. T.; B and I, Ft. Pembina, D. T.

Leave for two months, to take effect when his services can be spared by his post commander, is granted 2d Lieut. Blanton C. Welsh, Fort Buford, D. T. (S. O. 86, July 20, Div. M.)

16th Infantry, Colonel Matthew M. Blunt.

Hdqrs., B, and H, Ft. Bliss, Tex.; C and F, Ft. Concho, Tex.; E, Ft. McIntosh, Tex.; I, Ft. Davis, Tex.; A, G, and K, San Antonio, Tex.; D, Ft. Ringgold, Tex.

1st Lieut. C. R. Tyler will report, in person, by Aug. 5, to the C. O. of Fort Clark, for duty on the range (S. O. 80, July 15, D. Tex.)

Capt. Geo. H. Palmer, 1st Sergt. C. Streemann, Sergt. P. Schaffer, Artificer G. Francke, and Pvt. J. W. Davis, Co. B; Pvt. W. Harrington, Co. C; 2d Lieut. Maury Nichols, Corpl. B. G. Greymoore, and Sergt. G. W. Huber, Co. F, and 2d Lieut. G. I. Putnam, Co. H, have qualified as sharpshooters.

19th Infantry, Colonel Charles H. Smith.

Hdqrs., A, B, C, F, G, H, and K, Ft. Clark, Tex.; D, Ft. McIntosh, Tex.; E, Ft. Ringgold, Tex.; I, Ft. Brown, Tex.

1st Lieut. E. B. Ives will report, in person, by Aug. 1, to the C. O. of Fort Clark for duty on the range (S. O. 80, July 15, D. Tex.)

2d Lieut. C. S. Fowler, Sergt. J. F. Crawford, Corpl. P. Marron, and Pvt. M. Bobst, Co. A; Corpl. H. Stork, Co. B; Pvts. J. E. Morgan, C. W. Forsyth, and J. Dunn, Co. C; Corpl. H. Ohlschlager and Pvt. O. Johnson, Co. D; Lieut. J. M. Cuningham, Co. F, and Pvt. F. G. Foss, Co. K, have qualified as sharpshooters.

20th Infantry, Colonel Elwell S. Otis.

Hdqrs., A, B, C, E, F, H, and K, Ft. Assiniboine, M. T.; D, Ft. Maginnis, M. T.; G and I, Camp Poplar River, M. T.

The leave granted Capt. John A. Manley is extended three months (S. O., July 15, H. Q. A.)

1st Lieut. James A. Irons is appointed Instructor in the Department of Military Surveying, Topography, etc., at the Infantry and Cavalry School (Orders 10, July 16, U. S. Inf. and Cav. School.)

21st Infantry, Colonel Henry A. Morrow.

Hdqrs., A, C, E, and G, Ft. Sidney, Neb.; D and H, Ft. Bridger, Wyo.; B, F, I, and K, Ft. Duchesne, Utah (Post-office address via Ouray, Utah).

Leave for two months is granted 2d Lieut. Edward H. Brooke, Fort Sidney (S. O. 85, July 19, Div. M.)

22nd Infantry, Colonel Peter T. Swaine.

Hdqrs., A, B, D, G, H, and K, Ft. Lewis, Colo.; C, F, and I, Ft. Lyon, Colo.; E, Ft. Marcy, N. M.

Leave for one month on Surgeon's certificate is granted Capt. G. S. L. Ward (S. O. 71, July 11, Dept. M.)

1st Lieut. E. W. Casey will report at Fort Leavenworth, July 25, for duty as Adjt. and Q. M. of the Dept. of Missouri Rifle Competition (S. O. 72, July 12, Dept. M.)

1st Lieut. O. M. Smith, aide-de-camp, Inspector of Rifle Practice of the Department, will proceed to Fort Clark, Tex., on public business (S. O. 80, July 15, D. Tex.)

23rd Infantry, Colonel Henry M. Black.

Hdqrs., F, G, H, and I, Ft. Wayne, Mich.; A and B, Ft. Brady, Mich.; C and D, Ft. Porter, N. Y.; E and K, Ft. Mackinac, Mich.

Leave for two months, from Sept. 1, 1887, is granted 1st Lieut. William A. Nichols (S. O., July 19, H. Q. A.)

Leave for fifteen days, to commence on or about July 22, is granted 2d Lieut. William H. Allaire, Fort Wayne (S. O. 147, July 19, Div. A.)

The Supt. of the Recruiting Service will cause twenty recruits to be forwarded under proper charge to Fort Mackinac, Mich., for assignment to Cos. E and K, stationed at that post (S. O., July 20, H. Q. A.)

Sergt. James Clark, Co. F, 23d Inf., who shot and killed prisoner Stone at Fort Wayne, Mich., last week, appeared before Judge Brown, of the U. S. Circuit Court, at Detroit, July 16. He handed to the Judge an official copy of the Court of Inquiry held at the fort, which acquitted him of all blame in the matter. Clark was then bailed in $1,000 to appear July 20. The Attorney-General has instructed U. S. Attorney Black, of Detroit, to take necessary steps to defend the sergeant.

24th Infantry, Colonel Zenas R. Bliss.

Hdqrs., D, and H, Ft. Supply, Ind. T.; A and K, Ft. Reno, Ind. T. B and F, Ft. Elliott, Tex.; C, E, G, and I, Ft. Sill, Ind. T.

Details of enlisted men will be made by certain post commanders in connection with Dept. Rifle Competition, and the men will report for duty to 1st Lieut. Charles Dodge, Jr., Inspector of Rifle Practice (S. O. 72, July 12, Dept. M.)

25th Infantry, Colonel George L. Andrews.

Hdqrs., B, C, F, and I, Ft. Snelling, Minn.; A, D, H, and K, Ft. Meade, Dak.; E and G, Ft. Sisseton, Dak.

Capt. Gaines Lawson will establish and command the Dept. Rifle Camp at Fort Snelling, Minn., contemplated in G. O. 5, c. s., D. Dak. (S. O. 67, July 15, D. Dak.)

1st Lieut. Edwin F. Glenn will report in person, Aug. 1, to the Dept. Inspector of Rifle Practice at Fort Snelling, Minn., for duty in connection with the Dept. Rifle Competition (S. O. 67, July 15, D. Dak.)

Courts-martial.

The following courts have been ordered:

At the Presidio of San Francisco, Cal., July 12. Detail: Majors Merritt Barber and William J. Volkmar, A. A. G.; Major Frank T. Bennett, 2d Cav.; Capt. George W. Davis, 14th Inf.; Capt. John A. Darling, 1st Art.; Capt. James N. Wheelan, 2d Cav.; Capts. Junius W. MacMurray, John W. Dillenback, and Richard G. Shaw, 1st Art.; Capt. Gustavus C. Doane, 2d Cav.; 1st Lieut. Frederic C. Nichols, 1st Art., and 1st Lieut. Clermont L. Best, Jr., 1st Art., J.-A. (S. O. 34, July 1, Div. P.)

At Fort Leavenworth, Kas., July 13. Detail: Lieut.-Col. A. K. Arnold, 1st Cav.; Capt. W. M. Wherry, 6th Inf.; Capt. Arthur MacArthur, Jr., 13th Inf.; Capt. J. P. Schindel, 6th Inf.; Capt. C. C. C. Carr, 1st Cav.; Capt. C. A. Woodruff, 2d Art.; Capt. Francis Moore, 9th Cav.; Capt. J. B. Babcock, 5th Cav.; 1st Lieut. John Carland, 6th Inf., and 2d Lieut. W. E. Almy, 5th Cav., J.-A. (S. O. 71, July 11, Dept. M.)

At Fort Adams, R. I., July 20. Detail: Capts. Edward Field, Arthur Morris, and John W. Roder, 1st Lieuts. Richard P. Strong, Harry R. Anderson, Charles A. L. Totten, Alexander B. Dyer, and Clarence Deems, and 2d Lieut. John E. McMahon, 4th Art., and 2d Lieut. Walter N. P. Darrow, 4th Art., J.-A. (S. O. 146, July 18, Div. A.)

At Fort Schuyler, N. Y. H., July 22. Detail: Major Richard H. Jackson and Capt. Henry F. Brewerton, 5th Art.; Capt. Joseph B. Girard, Asst. Surg.; 1st Lieuts. Thomas R. Adams and William R. Hamilton and 2d Lieut. Warren P. Newcomb, 5th Art., and 1st Lieut. William W. Galbraith, 5th Art., J.-A. (S. O. 148, July 20, Div. A.)

At Fort Columbus, N. Y. H., July 25. Detail: Capt. Charles Morris, 1st Lieuts. Benjamin K. Roberts, David D. Johnson, William R. Hamilton, and Samuel F. Allen, 5th Art., and 2d Lieut. Warren P. Newcomb, 5th Art., J.-A. (S. O. 149, July 21, Div. A.)

The G. C.-M. at Angel Island, Cal., of which Capt. Leopold O. Parker, 1st Inf., is president, is dissolved (S. O. 42, June 23, D. Cal.)

Major William J. Volkmar, A. A. G., and Capt. George W. Davis, 14th Inf., are relieved as members, and Capt. Samuel T. Hamilton, 2d Cav., and 1st Lieut. Joseph A. Sladen, 14th Inf., are detailed members of the G. C.-M. at the Presidio of San Francisco, Cal., constituted by S. O. 34, c. s. (S. O. 35, July 5, Div. P.)

—o—

Army Boards.

A Board of Officers, to consist of Capt. C. H. Noble, 16th Inf.; 1st Lieut. H. C. Danes, 3d Art., and 2d Lieut. D. R. C. Cabell, 8th Cav., will meet, July 11, to examine and report upon the construction, under contract, of a fence on the drill ground at San Antonio (S. O. 77, July 9, D. Tex.)

A Board, to consist of 1st Lieuts. H. H. C. Dunwoody and Robert Craig, 4th Art., A. S. O., and 2d Lieut. Fielder M. M. Beall, Signal Corps, will assemble, July 14, to report as to the method of displaying storm signals thought to be most in the interests of navigators. The report will have in view the fact that the Chief Signal Officer has determined to display signals showing the probable force of storms, as required by resolution of Congress of Feb. 9, 1870, and that the direction signals are to be so displayed as to indicate that the storm-centre is approaching or has passed. The question as to whether the lakes and the coast lines of the United States should be divided into sections will also be fully considered. The Board will recommend a point, with a reasonable margin, at which light storms shall end and severe storms begin, and will report, in detail, the velocity at each station necessary to verify either a cautionary or a storm signal (S. O. 52, July 13, Sig. Office.)

A Board, to consist of 1st Lieut. Richard E. Thompson, 6th Inf., A. S. O., and 2d Lieuts. John P. Finley and James Mitchell, Signal Corps, will assemble, July 18, to recommend as to the most desirable pattern of heliograph for field use in the Military Service of the U. S. (S. O. 52, July 13. Sig. Off.)

A Board of Officers, to consist of 1st Lieuts. Henry H. C. Dunwoody and Robert Craig, 4th Art., A. S. O., and 2d Lieut. Fielder M. M. Beall, Signal Corps, will meet, July 18, to examine 1st Lieut. Richard E. Thompson, 6th Inf., as to his capacity for the performance of signal duties (S. O., July 14, H. Q. A.)

A Board of Officers, to consist of Brig.-Gen. Thomas H. Ruger; Col. Alexander McD. McCook, 6th Inf., and Col. James F. Wade, 5th Cav., will meet at Fort Leavenworth, as soon as practicable, to prepare, for submission to the War Department, a set of regulations for the general management of the U. S. Infantry and Cavalry School, and a programme of studies, theoretical and practical, for use at the school (S. O., July 15, H. Q. A.)

A Board of Officers of the Corps of Engineers, to consist of Majors Charles J. Allen and Henry M. Adams and Capt. William M. Marshall, will assemble at St. Paul, Minn., to report on the work in progress in connection with the "practical test of the flume invented by M. J. Adams" (S. O. 67, July 16, C. E.)

A Board of Survey, to consist of Major Henry Clayton, Paym., and Capt. T. M. K. Smith and 2d Lieut. Clarence R. Edwards, 23d Inf., will meet at the Q. M. Office, Buffalo, July 22, to fix the responsibility for the damaged condition of one box of machine oil, shipped to Capt. D. H. Floyd, A. Q. M. (S. O. 148, July 20, Div. A.)

Rifle Practice.—The following named officers will report in person Aug. 10 to the Department Inspector of Rifle Practice at Ft. Snelling, Minn., for duty in connection with the Department rifle competition: Capt. David B. Wilson, 25th Inf.; 1st Lieut. David D. Mitchell, 15th Inf.; 1st Lieut. Samuel W. Miller, 5th Inf.; 2d Lieut. George O. Cress, 7th Cav.; 2d Lieut. Harry A. Leonhaeuser, 25th Inf.; 2d Lieut. George L. Byram, 1st Cav.; 2d Lieut. William H. Sage, 5th Inf., and 2d Lieut. Harry Freeland, 3d Inf. (S. O. 67, July 15, D. D.)

The following named officers have been selected as competitors for the Department rifle competition this year at Fort Clark, Tex., and will report to the commanding officer of that post not later than Aug. 5: Capt. C. T. Witherell, 19th Inf.; 1st Lieut. G. H. Morgan, 3d Cav.; 1st Lieut. Paul Clendenin, Asst. Surg.; 2d Lieut. B. B. Buck, 16th Inf., and 2d Lieut. C. C. Ballou, 16th Inf. (S. O. 80, July 15, D. Tex.)

DEPARTMENT NEWS.

Dept. of Arizona.—Brig.-Gen. N. A. Miles.

The *Champion* says: "The people of Globe want a military post there and they ought to have it. The Government should protect its citizens who are in such close proximity to the blood-thirsty Apaches, until the latter are removed."

Dept. of the Platte—Brig. Gen. George Crook.

Captain C. A. Earnest and his assistants, Lieuts. E. N. Jones, L. D. Greene, C. H. Cochran, and G. W. McIver, were due at the Bellevue Rifle Range this week, to get matters into shape for the approaching rifle competitions.

The recent Chatauqua Assembly at Crete, Neb., was most successful. It closed by a concert, under the direction of Prof. Sherwin. The closing work of the 21st U. S. Infantry Band, under charge of Lieut. C. H. Bonesteel, was very fine, and the band and the lieutenant will visit Fort Omaha. The lieutenant's visit has been greatly enjoyed by friends and acquaintances on the ground, and many have called on him at his tent to view a handsome picture he brought with him.

Division of the Atlantic.—Maj.-Gen. Schofield.

A Fort Barrancas correspondent writes: Our Commandant Colonel L. L. Langdon, not having his time fully occupied with the Indians at Pickens, and their wives and babies, and his multifarious duties at Barrancas is actively engaged in a war on the squatters. He has opened the first parallel, and there is firing all along the big Lagoon.

Lieut.-Gen. Sheridan was at Newport Barracks July 18 looking after a new site for the barracks. He is reported as saying. "Twelve sites are offered. The object is to get much more ground in a location out of the reach of high water in the Ohio. I shall stay here until I inspect all the sites, and shall probably get through July 19 and leave at night. If the Government intends to make a large military station here I have not been informed of it."

Dept. of Dakota.—Brig. Gen. T. H. Ruger.

The *Pioneer Press*, of St. Paul, will offer a handsome gold medal on the occasion of the department rifle competition at Fort Snelling in August. The medal will be in every way worthy of the event it is intended to commemorate, and will be presented to the marksman making the highest score in the regimental team match.

WEST POINT, N. Y.

CANDIDATES for admission to the U. S. Military Academy were designated this week as follows:

George W. Kirkpatrick, Charleston, S. C.
William Walter Hancy, Bentonville, Ark.
Simeon F. Coombs (alt.), Lisbon, Maine.
Andrew F. Welch, Gridley, Cal.
Henry E. Barrett (alt.), Owego, N. Y.

FORT OMAHA, NEB.

THE *Excelsior* of July 16 says:

Dr. Julius Cabell will be on duty at Bellevue Rifle Range through the numerous competitions to take place there this summer and fall.... Lieut. W. R. Abercrombie, 2d Inf., has returned from sick leave at Hot Springs, undergoing treatment for rheumatism. He returns much improved.... The officers who went to Fort D. A. Russell a week ago on court-martial duty, have returned. They bring reports of the delightfully cool weather up there, which are very refreshing.... Lieut. F. H. Wilson, 2d Inf., has been designated for a two years' course at the school at Fort Leavenworth, to succeed Lieut. Arrasmith. Lieut. Wilson expects to go down in a few days to look over the field.

(Correspondence of the Army and Navy Journal.)

FORT DU CHESNE, UTAH.

THE arrival of Gen. Crook and Col. Dandy, the Chief of the Quartermasters in the Department, together with Col. T. H. Stanton, of the Pay Department, created quite a little excitement at our post, and the general expectation was that the Department Commander would make such recommendation as would lead to the evacuation of Fort Du Chesne, but the impression now prevailing is, that the General is of a contrary opinion. Fortune is certainly not in our favor, for during the stay of Gen. Crook at the "cantonment," we had the finest weather ever experienced by the oldest inhabitants, and not a particle of dust, at other times so plentiful, obscured the view of the commander and his staff.

The Fourth of July is over, and with it ends the existence of a baseball nine, that was organized to capture a prize so generously subscribed by the officers of the post for the winning club. Thanks to our resolute and enterprising Post Commander, Col. Randlett, all sorts of sports with prizes set thereupon, where on the programme, and competition was readily entered upon the same, and to save time and space I will only say that the day was celebrated as becomes the soldier of our great republic.

Target practice has fairly commenced, and I think that Du Chesne will keep its own in the Department. Another increase of the male population at the post has taken place in the birth of a 12-pound boy to 1st Sergt. Murphy, of Co. I, 21st Infantry. The case was a difficult one, and but for the never firing and experienced efforts of Dr. Benham, mother and child would have perished.

We have been getting some lettuce and radishes out of the post garden, and that is all.

Full dress parade every night is now the order of the day, on which occasion one can observe a column of companies passing in review, wrapped in a cloud of dust; at any rate the commands can be heard if nothing is to be seen.

LATREUSIOLOGIA.

(Correspondence of the Army and Navy Journal.)

INDEPENDENCE DAY AT PORTLAND, ORE.

THE celebration here, July 4, was a success. Col. T. M. Anderson, U. S. Army, was Grand Marshal, and did his duty handsomely. Major Tully McCrea, of the 1st U. S. Artillery, commanded the 1st Division, in which were the Regular troops. Lieuts. Buchanan and Yeatman were aides to Col. Anderson. The band of the 14th U. S. Infantry was in line and was loudly cheered along the route. After it came the regiment commanded by Capt. and Bvt. Maj. D. W. Burke. It was composed of fine soldierly looking men, who bore themselves with an air of manly, physical grace. Looking along the serried ranks, as the regiment marched keeping perfectly measured tread to the strains of martial music, the sight was one calculated to stir patriotic blood and make the pulse beat high.

Bringing up the rear of the 1st division came the celebrated Hotchkiss battery (Bat. E, 1st U. S. Art.) under command of Major McCrea, with 1st Lieuts. A. H. Merrill and A. Todd and 2d Lieut. C. H. Hunter. The guns and everything connected with the carriages were in elegant condition. Drawn by large and powerful black horses, the mounted men in regulation uniform, crowned with helmet-shaped hats and ending in long red streaming tassels, and every piece of metal gleaming like polished silver, the spectacle was one not often witnessed by Portlanders. The battery was one of the most attractive features of the procession, and was justly the subject of unqualified admiration among the many thousands who witnessed the pageant.

In the afternoon the battery gave a drill at the cricket ground, and the evolutions showed how well both men and horses were trained, the latter appearing to understand the various bugle calls as well as the men. The way in which the 44 horses were whirled around in such small space was wonderful to behold.

(Special to the World.)

REMAINS OF THE OLD MERRIMAC.

RICHMOND, VA., July 17.

THE barge *Lizzie Wallace* arrived at the Richmond and Danville dock on Friday with 200 tons of old iron consigned to the Old Dominion Iron and Nail Works. This iron is what may be called the remains of the Confederate gunboat *Virginia*, formerly the United States steamship *Merrimac*, which encountered the *Monitor* in Hampton Roads during the late war, causing one of the most memorable naval engagements of modern times. The *Monitor* was disabled and hauled off and the *Merrimac* returned towards Norfolk, but was never in active service afterwards. She was afterwards named the *Virginia*. The armor-plate was laid aside at the Gosport Navy-yard, in Portsmouth, after she was blown up by the Confederates, and remained there until a day or two ago when all of it was placed on the *Wallace* to be brought to Richmond. It was sold recently as scrap-iron to a Northern gentleman who subsequently sold it to the Old Dominion Iron and Nail Works. It will be taken to Belle Isle and converted into nails. Much of the armor plate shows signs of having passed through a severe cannonading and there are numbers of small pieces well suited to be preserved as relics of the celebrated engagement.

(Washington Star Long Branch Letter.)

MRS. GRANT AND HER FAMILY.

MRS. U. S. GRANT, Sr., who is at her cottage here, has her son, Col. Fred, and his family, as usual, with her. Judge Dent's widow is also visiting Mrs. Grant. Mrs. Fred Grant scarcely looks a day older and is just as pretty and has as bewitching manners as when she was taken to the White House a bride, than whom no fairer has ever been beneath its roof. Since she for nearly three years after her marriage, assumed so many of the social duties there, in assisting her husband's mother, I have always associated Mrs. Cleveland, also a young, beautiful bride, in my mind more with Mrs. Fred Grant than with any other lady I have ever seen presiding in the Executive Mansion. The two have equally charming manners. Gen. and Mrs. Dent, whose youngest son has been out of health, have, with him, been visiting Mrs. Grant, but returned on Tuesday to their home in Washington. Mr. Ulysses Grant, Jr., after a visit to his mother here, went Tuesday to his country place in Westchester County, N. Y.

GENERAL SHERIDAN ON POLITICS.

GEN. SHERIDAN was "interviewed" by a reporter of the Cincinnati *Commercial Gazette* a few days ago on the subject of politics. The following is given as the result:

"What do you think of the present political situation?" was asked.

"I don't think about it," was the reply, "for I don't pay any attention to it at all."

"Did you have an interview, as reported, with Secretary Endicott in Washington last week about the return of the flags?" the reporter asked as the General chased the moisture off his rubicund countenance with a handkerchief.

"No, I did not see Endicott," he replied, "and don't know anything about the flags."

"Your name," the reporter suggested meekly, "has been mentioned several times and more by your friends in connection with the Presidency of '88."

"Oh, well," was the brusque reply, "all the work of the fool-killer isn't completed yet. Good evening."

FRANCE AND GERMANY.

THE Editor of the *Real Estate Record* writing from London, July 3 1887, says: "We can scarcely realize on our side of the water what a bitter feeling a Frenchman has towards Germans and Germany. I was in Paris at the time of the Schnabele incident. My children had with them a German nurse, who was cautioned by the German waiters in our hotel not to speak any German on the streets, as she would be likely to have her face slapped by any one who should overhear her speaking that language. At Vichy I saw a young Prussian officer hooted out of the town simply because he was a German. This pent up bitter feeling must some day break out in a national manner, and then between the rising and setting of the sun the clash of arms will be heard, and a war such as civilization has never yet seen will break out—its beginning will find France united as one man, the ending no living being can foretell. It needs but a very limited residence in Germany for one to see and recognize that to-day the Germans are far ahead of any nation in Europe, in everything which relates to the art of war. The country seems to be thinking of nothing but its army, and the thought is always that that army shall soon again find its way to France. When it does, it will find different material to cope with from what it met on its last visit. While in an interior town in France recently, I saw one morning a very large number of horses being brought to one part of the city, and my first thought was that a horse fair was opening, but upon inquiry I found that in every village in France the government had issued orders for the enrollment and registering of all horses, the taking down of the size, weight, color, adaptability to military service, owner's name, etc., so that at short notice the government in case of war could lay its hands on every horse in France which it would deem necessary for use. This one thing shows that France is not sleeping, and no Frenchman to-day underrates the strength or the ability of the German foe. I am convinced that the French soldiers, while not up to the Germans in training and discipline, are ahead of the English rank and file. England could do nothing with France single-handed."

Military Order of the Loyal Legion.

COMMANDERY-IN-CHIEF, PHILADELPHIA, June 25, 1887.

Circular No. 4, Series of 1887, Whole No. 19.

I. The following is promulgated for the information of the Order: Number of Commanderies May 1, 1886, 15; Commandery of the State of Iowa, instituted Oct. 20, 1886, 1; total number of Commanderies, May 1, 1887, 16.

II. Membership of the Commandery-in-Chief: Total, June 1, 1886, 167; less died, 2; total, 165. Accessions to the Commandery-in-Chief to June 1, 1887, 37; total membership of Commandery-in-Chief, 202; casualties in the Commandery-in-Chief since June 1, 1886: Resigned, 1; died, 1—2; present membership of Commandery-in-Chief, June 1, 1887, 200.

III. Names of Companions entitled to membership, since June 1, 1887, in the Commandery-in-Chief, from the Commanderies specified:

Of the Commandery of the State of Wisconsin.—Recorder, Mr. Chandler P. Chapman.

Of the Commandery of the State of Iowa.—Commander, Col. David B. Henderson; Senior Vice-Commander, Bvt. Maj. Henry L. Swords; Junior Vice-Commanders, Capt. Mortimer A. Higley, Lieut.-Col. G. A. Hannaford; Recorder, Maj. Hoyt Sherman.

Of the Commandery of the State of Pennsylvania.—Senior Vice-Commander, Commo. Bancroft Gherardi; Junior Vice-Commander, Bvt. Maj. William H. Lambert.

Of the Commandery of the State of New York.—Junior Vice-Commander, Bvt. Lieut.-Col. Wm. C. Church; Recorder, Capt. Edgar B. Van Winkle.

Of the Commandery of the State of Maine.—Junior Vice-Commander, Bvt. Brig.-Gen. Thomas W. Hyde.

Of the Commandery of the State of Massachusetts.—Senior Vice-Commander, 1st Lieut. Henry B. Pierce; Junior Vice-Commander, Bvt. Maj. Zabdiel B. Adams.

Of the Commandery of the State of California.—Senior Vice-Commander, Commo. Geo. E. Belknap; Junior Vice-Commander, Maj. Wm. O. Gould.

Of the Commandery of the State of Wisconsin.—Senior Vice-Commander, Maj. Chas. H. Anson; Junior Vice-Commander, Maj. Geo. W. Carter; Recorder, Capt. Chas. King.

Of the Commandery of the State of Illinois.—Junior Vice-Commander, Bvt. Maj.-Gen. Walter Q. Gresham.

Of the Commandery of the District of Columbia.—Commander, Bvt. Brig.-Gen. Chas. F. Manderson; Senior Vice-Commander, Rear Admiral John J. Almy; Junior Vice Commander, Brig.-Gen. S. B. Holabird; Recorder, Bvt. Brig.-Gen. R. D. Mussey.

Of the Commandery of the State of Ohio.—Commander, Gen. Wm. T. Sherman; Junior Vice-Commander, Bvt. Maj.-Gen. James Barnett.

Of the Commandery of the State of Michigan.—Commander, Bvt. Maj.-Gen. Russell A. Alger; Senior Vice-Commander, Bvt. Brig.-Gen. Wm. H. Withington; Junior Vice-Commander, Bvt. Brig.-Gen. Frederick W. Swift.

Of the Commandery of the State of Minnesota.—Commander, Bvt. Brig.-Gen. Wm. R. Marshall; Senior Vice-Commander, Col. Chas. D. Kerr; Junior Vice Commander, Bvt. Maj. John P. Rea.

Of the Commandery of the State of Oregon.—Junior Vice-Commander, Capt. Benjamin P. Tuttle.

Of the Commandery of the State of Missouri.—Senior Vice-Commander, Bvt. Brig.-Gen. Hiram F. Devol; Junior Vice-Commander, Actg. Volunteer Lieut. John C. Parker.

Of the Commandery of the State of Nebraska.—Senior Vice-Commander, Bvt. Maj.-Gen. John P. Hawkins; Junior Vice-Commander, Capt. Geo. M. Humphrey.

Of the Commandery of the State of Kansas.—Junior Vice-Commander, Lieut. Col. Chas. Page.

IV. Casualties from June 1, 1886, to June 1, 1887: Resigned, Rear Admiral James W. A. Nicholson, U. S. N., ex-Junior Vice-Commander of the Commandery of New York, April 6, 1887; died, Capt. Chas. D. Robinson, U. S. Volunteers, ex-Commander of the Commandery of Wisconsin, Sept. 25, 1886, at Green Bay, Wisconsin.

V. The third annual meeting of the Commandery-in-Chief will be held on Wednesday, Oct. 19, 1887, at 10 A. M., in the city of Philadelphia.

By command of Lieut.-Gen. PHILIP H. SHERIDAN, U. S. A.,
Commander-in-Chief.
JOHN P. NICHOLSON, Bvt. Lieut. Col., U. S. V.,
Recorder-in-Chief.

A YANKEE skipper once fished up an anchor at Spithead and took it on board his own craft. The Port Admiral claimed it as flotsam and jetsam, but the American gave three reasons for refusing to part with his *trouvaille*. Categorically they were: "1. It is not flotsam, for it does not float. 2. It is not jetsam, for it was not cast on shore. 3. I'll be d—— if I give it up."

BRITISH Bummer—"Rawther lonesome, aw? Will you allow me to introduce myself? Col. Bullerly Snathely Guster of the Ninety second Foot. Fought in the Soudan." American traveller—"Glad to meet you, sir! Very glad to meet the only man who did any fighting in that campaign."—*Tid Bits.*

THE CANADA PACIFIC RAILROAD.

THE Canadian Pacific Railway Company furnish the following dates and facts about their route from Japan to England: "The *Abyssinia* left Yokohama on May 30 and reached Vancouver on June 13. Her passengers reached Montreal on June 20. They were detained a day and a half in New York waiting for the departure of the *City of Rome*, which is due in Liverpool on Thursday next, June 30, or less than 32 days from Yokohama. A few chests of tea, as evidence of what can be done, are coming by the *City of Rome*. Were the Canadian Pacific Railroad Company's steamers on the Pacific a day and a half at least would be saved on that ocean. At least one day can be saved over the time at present allowed for the transcontinental run; and the New Canadian Atlantic service will, it is hoped, work in with the Pacific service, so as to avoid delays. It is calculated that the time between Japan and England will be less than 30 days for mails, passengers, and light freight. Under the new P. and O. contract, which provides for accelerated speed, the mail time from Japan, via Brindisi, will be 44 days. For passengers and freight, via Gibraltar, the time will be 53 days."

San Francisco is disquieted over this news. Port Moody has a good harbor and is 438 miles nearer Yokohama than is the City of the Golden Gate. Great Britain encourages its steamship lines; the United States will do nothing for the Pacific Mail or any other steamship company. So San Francisco fears the Asiatic trade will be diverted to Vancouver and the Canadian Pacific, instead of San Francisco and the Union and Southern Pacifics. Under our laws there is a stoppage of Chinese immigration, while there is nothing to prevent British steamers from bringing swarms of Chinamen to Port Moody, whence they will find their way into the United States. "There is trouble ahead," say the San Francisco newspapers, caused mainly by the Canadian Pacific Railway, which is without debt or bonded obligations of any kind, and therefore can do business much more cheaply than can its American competitors for the Pacific coast trade.

The tender of the Canadian Pacific for the English mail service on the Pacific includes an offer to contract for the ocean service at a speed of 15 instead of 11 knots, and to build its boats under Admiralty supervision, so that they may be readily converted into armed cruisers, for a subsidy of £100,000 per annum. In addition it offers to carry to China and Japan mails for 3,500 miles across the continent of America free of charge, and to carry troops and Government stores over the same distance of land and over the ocean at cost price, thus making the route an imperial highway. The subsidy is calculated at the price per mile which the British Government pays the Peninsular and Oriental Company for the carriage of the India and China mails via Suez, and by this estimate the amount of subsidy for a fortnightly mail service each way between Vancouver and Hong Kong would be £105,000 per annum. The tender of a German company asks for the Pacific service alone, to be performed at a speed of 11 knots.

ANSWERS TO CORRESPONDENTS.

Naval.—Yes; he was tried in 1870. See G. O. 156, Navy Department, May 24, 1870.

Sulphur.—Two Hospital Stewards have been appointed *this* week. See Army orders under head of Medical Department.

Kreger.—Write to the Adjutant-General, State of New York, at Albany, for full information as to the record of the officer you mention.

F. M.—There are no National Holidays in a legal sense. The States have the power to declare a day a legal holiday but not the General Government.

Constant Reader asks: Can a militia regiment in New York City imprison a member in Ludlow street jail for non-payment of fines or dues? ANS.—Yes.

Regular Subscriber.—Par. 30, Army Regulations, 1881, says: "As a rule, promotions of non-commissioned officers to the rank of 2d lieutenant will not be made if the candidate is under 21 or over 30 years of age. Nor if the candidate at the time of his appointment is married. The limits of age in cases of civilian candidates are 20 and 30 years.

E. S. C. asks: Being on drill, company in line, and marching to the front, command is continue the march, "Platoons right wheel," is this movement executed on a fixed pivot or not? ANS.—Par. 255, page 105, last clause, referring to this matter, says: "If in march . . . ., at the command march the pivot men halt and mark time in their places." If this is not a fixed pivot, what is it?

Togus.—At the command "Load," No. 3 presses upon the vent. When the piece is sponged, and the charge inserted by No. 2 he jumps to the end of the trail handspike. As soon as the piece is pointed, No. 3 resumes his position in line with the knob of the cascabel. No. 3 should be careful to keep the vent closed from the time the sponge enters the muzzle until the charge is inserted by No. 2.

S. G. asks: On competitive drill, company is brought to "present arms" when reporting to judges. Judges claim that this is wrong, that company should remain at "carry." Are judges correct? If so, give tactical reference. ANS.—Nothing is provided for competitive drills in any text book. If your rules did not settle the matter then we hold the judges were right under the following decision, made at the War Department, Sept. 29, 1884: "When a company is inspected on company parade (not preceded by a review) the company does not present arms. The inspector is saluted by the company commander only, the company being at carry."

A correspondent asks: 1. The battalion is in single rank in column of divisions. The junior captain is in the interval between the two companies. Does the 1st sergeant cover him at facing distance, or does he step back to the line of file closers? ANS.—He does not step into the line of file closers but covers him at facing distance.

2. By the left flank, March. Is the command March given on the left foot? ANS.—Yes. You could not execute it otherwise.

3. The company is marching in column of platoons, with guide right. Command is given, Fours right. March. Then the command, Fours left, About. Do the guides and chiefs of platoon remain in their positions, or do they place themselves in front of the leading four of their platoon when the column has faced about? ANS.—Tactics don't say, but on general principles we should say that they change their positions.

4. Can a non-commissioned officer be confined to the guardhouse? If not, how is he punished for some petty offence? ANS.—He can and sometimes is, when he becomes violent or commits a serious crime, for the purpose of preventing his escape. For ordinary offences he is put in arrest in his quarters.

THE NAVY.

NAVAL VESSELS IN COMMISSION.

WHEN AND WHERE LAST HEARD FROM.

N. Atlantic Station—Rear Admiral S. B. Luce.

ATLANTA, 2d rate, 8 rifled cannon and 12 machine guns, Captain Francis M. Bunce. At Newport, R. I., July 19, from a cruise in Gardiner's Bay.

GALENA, 3d rate, 8 guns, Comdr. Colby M. Chester. Sailed July 21 from Quebec for Montreal.

OSSIPEE, 3d rate, 8 guns, Comdr. W. B. Hoff. Sailed from Halifax July 18 for Gulf of St. Lawrence. Arrived at Hawkesbury July 19.

RICHMOND, 2d rate, 14 guns (f. s. n. a. s.), Capt. Robt. Boyd. Sailed July 21 from Bar Harbor for Halifax.

YANTIC, 3d rate, 4 guns, Comdr. Francis M. Green. Arrived at Halifax, N. S., July 20.

S. Atlantic Station—A. R. Adml. D. L. Braine.

Mails should be addressed to care of U. S. Consul, Rio de Janeiro, Brazil, unless otherwise noted, or care of B. F. Stevens, 4 Trafalgar Square, London.

ALLIANCE, 3d rate, 6 guns, Comdr. Charles McGregor. Arrived at Cape Town June 6.

LANCASTER, 2d rate, 10 guns, (f. s. a. s.) Capt. S. L. Breese. At Rio de Janeiro May 19.

TALLAPOOSA, 3d rate, 13 guns, Comdr. William Whitehead. At Rio de Janeiro May 19. Comdr. F. W. Dickens has been ordered to command this vessel, and sailed on the U. S. and Brazil mail steamer *Finance*, June 18, en route.

European Station—R.-Adml. Sam. R. Franklin.

(Commo. Jas. A. Greer has been ordered to command this station on Aug. 24.)

Mails should be addressed to care B. F. Stevens, 4 Trafalgar Square, London, England, unless otherwise noted.

PENSACOLA, 2d rate, 16 guns (f. s. e. s.), Captain George Dewey. Arrived at Leghorn June 27.

QUINNEBAUG, 3d rate, 8 guns, Comdr. W. M. Folger. Arrived at Lisbon June 18.

Pacific Station—Rear Adml. L. A. Kimberly.

Mails, unless otherwise noted, should be addressed to care U. S. Consul, Panama, U. S. C.

ADAMS, 3d rate, 6 guns, Comdr. Louis Kempff. Mail matter for the vessel should be sent to care U. S. Navy Pay Office, San Francisco, Cal. At Honolulu July 18—will remain there for the present.

ALERT, 3d rate, 4 guns, Comdr. J. D. Graham. At Panama June 28.

IROQUOIS, 3d rate, 7 guns, Comdr. Richard P. Leary. At Panama June 1. Ordered to proceed to the Mare Island Navy-yard.

JUNIATA, 3d rate, 8 guns, Comdr. G. T. Davis. Arrived at Punta Arenas, Central America, July 7, en route to Acapulco. Expected to reach Acapulco Aug. 1, from whence she will proceed to Honolulu.

MONONGAHELA, 2d rate, 9 guns, Comdr. S. H. Baker. Used as a store ship at Coquimbo, Chili.

MOHICAN, 3d rate, 8 guns, Commander Benjamin F. Day. At Panama, June 1. Expecting to proceed to Payta, Peru.

PINTA, 4th rate, screw, 2 guns, Lieut. Comdr. John S. Newell. Arrived at Juneau, Alaska, May 12. Mail matter will reach this vessel quickest by sending it direct to Sitka, Alaska.

THETIS, 4th rate, Lieutenant W. H. Emory, Jr. En route for her station in Alaskan waters. Arrived at Montevideo, Uruguay, July 7.

VANDALIA, 2d rate, 8 guns, (f. s. p. s.), Capt. Henry L. Howison. At Honolulu, S. I.

Asiatic Station—Rear-Adml. Ralph Chandler.

Vessel with (†), address, Mail, General Post Office, Yokohama, Japan.

BROOKLYN, † 2d rate, 14 guns, f. s. a. s., Capt. E. O. Matthews. At Yokohama June 20. Intended to leave for Chemulpo as soon as boilers were repaired; they were to be finished by July 1.

ESSEX, † 3d rate, 6 guns, Comdr. T. F. Jewell. At Yokohama, June 20.

MARION,† 3d rate, 8 guns, Commander Merrill Miller. At Chemulpo, Corea, June 20.

MONOCACY,† 3d rate, 6 guns, Comdr. Henry Glass. At Yokohama June 20.

OMAHA,† 2d rate, 12 guns, Captain F. V. McNair. At Yokohama June 20.

PALOS,† 4th rate, 6 howitzers. Lieut. Comdr. J. E. Craig. At Yokohama June 20.

Apprentice Training Squadron.

Commander Charles H. Davis senior officer.

Mail matter for the *Jamestown*, *Saratoga*, and *Portsmouth*, should be sent for the present to care B. F. Stevens, 4 Trafalgar Sq., London, England.

JAMESTOWN, 3d rate, sails, 12 guns. Comdr. Chas. J. Train. Arrived at Lisbon July 12.

MINNESOTA, 1st rate. 24 guns, Captain T. F. Kane. Gunnery ship. Foot of W. 27th Street, North River. Entrance from W. 26th Street. P. O. address, Station E, New York.

NEW HAMPSHIRE, 1st rate, 16 guns, sails, Receiving ship of training squadron, Captain Arthur R. Yates. Coaster's Island Harbor, Newport, R. I.

PORTSMOUTH, 3d rate, sails, 12 guns, Comdr. Edwin White. Arrived at Lisbon July 12.

SARATOGA, 3d rate, 12 guns, Comdr. Charles H. Davis. Arrived at Lisbon July 12.

On Special Service.

BOSTON, 2d rate, 8 guns, Captain F. M. Ramsay. At New York, fitting out preparatory to trial trip.

CONSTELLATION, 3d rate, 10 guns, School Ship of Naval Academy, Comdr. C. L. Huntington. Sailed from New London, July 11, for a cruise in the Sound.

DESPATCH, 4th rate, Lieut. W. S. Cowles. Arrived at New York, July 7.

DOLPHIN, despatch boat, 7 guns. Comdr. George F. F. Wilde. At New York.

FORTUNE, tug, Lieutenant O. E. Lasher. At Washington.

MICHIGAN, 4th rate, 8 guns, Lieut. Comdr. J. J. Hunker in temporary command. At Erie, Pa.

RANGER, 3d rate, 4 guns, Comdr. F. A. Cook. At San Francisco, Cal., undergoing repairs.

ST. MARY'S, sails, 8 guns, Comdr. A. S. Crowninshield. N. Y. School ship. At Cadiz, Spain, June 27, expecting to sail for Gibraltar about July 6, and from thence to Madeira. Expected at New London, Conn., about Aug. 25.

TRENTON. 2d rate, 10 guns, Captain N. H. Farquhar. At Norfolk, Va. Will sail for Rio, South Atlantic station, with relieving officers and crew for the *Lancaster*, some time in July. Will probably be assigned later to the North Atlantic station.

The Norfolk *Landmark* says: On the trip down to Hampton Roads on Thursday afternoon, July 14, with the Board of Naval Inspectors on board, the *Trenton* broke the connecting rod of her reversing engine, caused by a flaw in the iron, the rod being of wrought iron. In consequence of this accident the six mile run to sea with the inspectors had to be postponed. The broken machinery was brought to the Norfolk yard, and the machinists of the Steam Engineering Department will make a new rod of steel. The board will remain at Old Point until the *Trenton* is ready for her trial trip. During the trip down to the Roads the inspectors found the temperature of the fire room of the *Trenton* to be 157 degrees, and ordered that extra ventilators be fitted to the fire room at once.

Receiving Ships, Iron-Clads, Etc.

FRANKLIN, 1st rate, 26 guns, Capt. G. C. Wiltse. Receiving ship. At Norfolk, Va.

INDEPENDENCE, 3d rate, sails. 6 guns. Commander J. W. Philip. Receiving ship. At Mare Island, Cal.

RESCUE, 4th rate, Mate Samuel F. Lomax. Used as a fire tug. Washington, D. C.

ST. LOUIS, 3d rate, sails. Capt. H. B. Seely. Receiving ship. League Island, Pa.

WABASH, 1st rate, 26 guns. Captain Joseph N. N. Miller. Receiving ship. Boston, Mass.

VERMONT, 2d rate, 7 guns. Capt. Wm. A. Kirkland. Receiving ship. At New York.

DALE, 8 guns. Commander Yates Stirling. Receiving Ship. At Washington, D. C.

PHLOX, Naval Academy Tug. Mate B. G. Perry in command. At Annapolis, Md.

MAYFLOWER. Mate H. Kuhl, commanding. At Norfolk.

The iron-clads *Ajax*, *Catskill*, *Lehigh*, *Mahopac*, *Manhattan* and *Wyandotte*, are laid up at City Point, Va., in command of Comdr. D. W. Mullan.

Naval Vessels Fitting Out to go into Commission.

Swatara—At Portsmouth, N. H. Is to have new boilers. It is not known at present when she will be ready for sea. Construction work is practically completed. When ready she will be assigned to duty on the North Atlantic Station.

Enterprise and Nipsic—Undergoing repairs at New York. In all probability will be assigned to the North Atlantic or Asiatic Squadron.

Chicago—At New York, where she will be completed. Will be in condition for a trial trip the latter part of July. Arrived at the Brooklyn Navy-yard, from the Erie dock, July 7.

Kearsarge—At Portsmouth, N. H., being repaired.

Hartford—Will probably undergo extensive repairs at Mare Island, Cal.

VARIOUS NAVAL ITEMS.

THE Naval Court-martial for the trial of Boatswain John A. Brisco of the *Trenton* assembled at Norfolk, Va., July 15.

PAYMASTER J. P. LOOMIS, general storekeeper at the Naval Academy, has reorganized his force as follows: Edward Gotts, book-keeper, $1,017; John A. Leuthecum, shipping clerk, $939, and Mr. League, receiving clerk, $939.

AT the jubilee review of the British Navy, July 23, 150 vessels flying the pennant are to be present. The ships of war will be arranged into two lines, forming a lane two miles long, which the Queen in her yacht will traverse from end to end.

COMMO. SCHLEY has returned from Boston, where he spent several weeks in starting the equipment work at the Navy-yard. The manufacture of sails has already been commenced, and soon anchors and chains will be turned out in sufficient quantities to supply the entire Navy.

THE Coast Survey steamer *Hassler*, which is placed at the disposal of Queen Kapiolani for her voyage to Honolulu, is well fitted for duty of this kind, being provided with an unusually roomy cabin, containing most of the appliances needed for comfort and convenience.

THE Navy Department has ordered the steamer *Hassler*, of the Coast Survey, to be prepared to convey Queen Kapolani and her suite to Honolulu from San Francisco. The steamer takes a detail of 40 men and marines. The *Ranger* was selected for the service, but is not in a condition to go to sea.

THE work under the orders of Secretary Whitney, issued upon the receipt of the report of the first Board of Survey on the *Hartford*, is still in progress. The Secretary will, it is understood, order it to be discontinued. Officers generally are of the opinion that Congress will make a special appropriation to put the old battleship in good condition.

THE sale of condemned material at the Norfolk Navy-yard was highly satisfactory to the Navy Department. Over $40,000 was realized by the sale, or 30 per cent. more than the appraised value of the articles sold. The sales at the other yards will be made as soon as the Ordnance Bureau has determined how much of its condemned material should be retained.

MR. KUNSTADTER, of New York, the inventor of the screw-steering apparatus, seems to have favorably impressed Secretary Whitney with his ingenious contrivance. The Secretary has directed the Bureau of Construction and Repair to report whether it would be practicable to give the invention a trial in the *Boston*. The bureau officers wisely think that it would be better to give the apparatus a trial on one of the older vessels of the Navy and not subject the *Boston*, a newly constructed cruiser, to injuries incident to such a trial.

Commander B. H. McCalla will command the Enterprise.

THE standard of tests of steel for the new cruisers has been increased as follows: Tensile strength of boiler shell material from seventy to seventy-six thousand pounds; elongation to 20 per cent. in eight inches; elastic limit to not less than 36,000. It is also required that all plates above an inch in thickness are to be planed instead of sheared.

THE sunken seventy-five ton derrick at the Brooklyn Yard has been raised and towed to a place of safety, and an investigation will be necessary to ascertain, if possible, by what means this valuable piece of machinery was wrecked. A board has been directed to report the expense and work required to place the derrick in working order.

THE dockyard at Archangel is at length definitely abolished, and the Russian Government is transferring the buildings from the Admiralty to other departments, or putting them up for sale, leaving the White Sea coast line undefended, as it is no longer an outlet for Russian commerce, and most of the towns on the coast are decaying. The amount saved by closing the Archangel Dockyard will be devoted to developing Sebastopol.

THE Russians are paying great attention just now to the question of securing for machine-guns an elevated position on men of-war. The low freeboard monitors *Strcletz*, *Latnik*, and *Tcharodaika* have been fitted with special structures for firing them 24 feet above the water-line. The Russian Admiralty have ordered a number of experiments to be made with the Hotchkiss guns on the vessels of the Baltic fleet in connection with this matter during the summer cruisings.

THE *Enterprise* and *Nipsic*, lying at the Navy-yard, New York, are so far advanced toward completion and readiness for sea-service that during the past week their batteries have been mounted on board, and the only work yet required to fit these two corvettes for commission is some minor details under the Department of Steam Engineering. Rear Admiral Luce is an applicant for these vessels, and it is likely that, temporarily at least, they will be ordered to form part of the Home Squadron. Finally, however, it is believed that one at least will reinforce the now almost flagless European Station. No assignment of officers has yet been made public, although it is likely that the complements of both the *Enterprise* and *Nipsic* will be published soon.

THE engines of the *Boston* are now being subjected to the usual tests at the dock before the free-route speed and power trial will be made, and so far as can be judged excellent results can be anticipated whenever the time arrives for the contract test in Long Island Sound. The latest advices from Annapolis are to the effect that the guns for the *Boston* have been subjected to the statutory tests and will soon be shipped to their destination, where, as soon as received, they will be mounted in place. The various carriages and mounts are already in position, and it is probable that the work of adjustment and modification incident to the entire novelty of detail, will be completed in a comparatively short time after the battery is mounted. The *Boston* is fitted with the Sickels type of steam steering engine, and so far tested performs it appointed task satisfactorily.

A RECENT paragraph in a Washington daily paper seems to indicate that the Navy is not at one in the idea that the new Ordnance Factory is the only thing needed for the speedy rescue of our Navy from the slough of despond into which Congressional parsimony has forced it. A "Naval Officer," which is a most indefinite designation, as naval officers are numerous in Washington, is quoted as saying that "by the time they are ready to build guns at the (Washington) yard the pieces that they have prepared to build will be obsolete." "The delivery of steel will not be commenced for two years." In face of this pessimistic view, however, we are met with the assertions of the Bureau of Ordnance that active work in the fabrication of new guns on improved lines will be begun in a short time, and that arrangements have been made whereby the metal required can be delivered as fast as needed.

THE Navy Department has accepted the proposal of the Midvale Steel Company to furnish about 65 tons of steel gun forgings at the prices specified as follows: Exhibit A—Tubes and jackets for 6-inch B. L. R. (rough boring and turning to be done by the Department), calculated number of tons, 31,830; price per ton, $716 80; price per exhibit, $22,815.74. Exhibit B—Hoops for 6-inch B. L. R., calculated number of tons, $26,480; price per ton, $885; price per exhibit, $23,434.80. Exhibit C—Trunnion bands for 6-inch B. L. R. (rough boring and turning to be done by the Department), calculated number of tons, 2,680; price per ton, $885; price per exhibit, $2.371.80. Exhibit D—Plugs and mushrooms for 6-inch B. L. R., calculated number of tons, 1,040; price per ton, $800; price per exhibit, $832.000. Exhibit E—Hoops for 10-inch B. L. R., calculated number of tons, 3.191; price per ton, $1,232; price per exhibit, $39,391.31. Aggregate bid, $53,385.65.

NAVY GAZETTE.

Ordered.

JULY 16.—Ensign John S. Walters to the Atlanta.

Paymaster Wm. J. Thomson to special duty at the Smithsonian Institution.

Chaplain R. Randolph Hoes to the Vermont, August 1.

JULY 19.—Lieutenant J. V. B. Bleecker to duty as Inspector of steel for the new cruisers.

JULY 20.—Naval Cadet Thomas M. O'Halloran, to the Trenton.

JULY 21.—Naval Cadets J. G. Tawresey, Robt. E. Coontz, Armistead Rust and Theo. C. Fenton, to report to the Chief of Bureau of Navigation on Aug. 1 for duty.

Detached.

JULY 16.—Lieutenant-Commander J. N. Hemphill from the Washington Navy-yard, August 31, and granted leave for three months with permission to leave the United States.

Lieutenant U. R. Harris from the Mare Island Navy-yard, Sept. 1, and ordered to the Ranger.

Lieutenant John G. Eaton from the Ranger, Sept. 1 and placed on waiting orders.

Chief Engineer W. W. Dungan from duty in connection with the new cruisers and granted leave for one month.

Chaplain H. B. Hibben from the Receiving Ship Vermont, August 1, and placed on waiting orders.

JULY 18.—Ensigns J. P. Parker and S. E. Woodworth from the Ranger, Sept. 1, and placed on waiting orders.

JULY 19.—Commodore James A. Greer detached from duty as President of the Examining Board, July 31, and ordered to command the European station, Aug. 24.

Lieutenant Downs L. Wilson from torpedo instruction and placed on waiting orders.

Lieutenant J. M. Robinson from the Minnesota and ordered to duty as Inspector of Steel for the new cruisers.

Boatswain J. B. F. Langton from the Navy-yard, Mare Island, Cal., and placed on waiting orders.

Lieutenant J. P. Merrel, from the Naval Academy to Pensacola Aug. 24 next.

Lieutenant J. B. Milton, from Branch Hydrographic Office, San Francisco, Aug. 1, and placed on waiting orders.

JULY 22.—Rear Admiral S. R. Franklin, from command of the European Station Aug. 24, to proceed home, report arrival, and placed on the retired list from that date.

Lieutenants S. A. Staunton and T. M. Potts, from the Pensacola Aug. 24, and ordered to proceed home and report arrival.

Passed Assistant Engineer Horace E. Frick, from Chicago and placed on sick leave.

Lieutenant W. P. Potter has reported his return home from the Lancaster, and is placed on waiting orders.

CASUALTIES.

Deaths reported to the Surgeon-General of the Navy during the week ending July 20, 1887:

Andrew Hay, landsman, attached to the U. S. S. Ranger, died July 2, at San Francisco, Cal.

Richard Williams, ordinary seaman, attached to U. S. S. Adams, died May 22, at sea.

Michael Flaherty, landsman, died July 11, at Government Hospital for the Insane, Washington, D. C.

Ferrell Smith, landsman, died July 10 at Naval Hospital, New York.

Changes on the South Atlantic Station.

Captain A. S. Taylor, Marine Corps, and Lieutenant Wm. P. Potter, of the Navy, have been detached from the South Atlantic Squadron and ordered home by Rear Admiral D. L. Braine commanding the station.

Coast Survey Assignments.

Naval Cadets G. R. Evans and H. A. Bispham have been assigned to the Eagre, New Bedford, Mass.; Cadets C. S. Stanworth and J. E. Shindal to the Blake, Long Island Sound; Ensigns W. B. Fletcher and M. Johnson, detached from the Endeavor and ordered to the Gedney, coast of Maine; Cadet Robert L. Russell to the Scoresby, North Carolina coast.

BROOKLYN NAVY-YARD.

THE Construction Department have appointed a committee to arrange for an excursion and picnic.

Commodore Gherardi will soon be going off on his vacation, but just where he will be he has not yet decided.

The storm on Sunday played havoc with some of the fine old trees in the yard. Several heavy branches were broken off short.

A game of baseball was played on the parade ground in front of the Marine Barracks on Friday between the Marines and the letter carriers.

Constructor Pook's office in the Construction Department is in the hands of frescoers, and will be quite a handsome apartment when finished.

There was a concert Monday afternoon by Conterno's Band on board the receiving ship *Vermont*. The officers at the yard and their ladies attended. A dance followed the concert.

All hands are busy at the yard completing the fitting out of the ships *Nipsic*, *Enterprise*, *Boston* and *Chicago*. The two latter will be ready for their trial cruises in about ten days.

The merchant ship *Advance* arrived at port Monday from Brazil with apprentices and others from the South Atlantic Squadron. The *Catalpa* from the Navy-yard transferred the draft from the *Advance* to the *Minnesota* lying at the foot of 23d street, North River.

STEEL-CAST GUNS.

SECRETARY WHITNEY, July 20, issued the following circular letter to the steel manufacturers of the United States:

NAVY DEPT., WASHINGTON, July 20, 1887.

"The Department has decided to postpone until Sept. 20 the opening of proposals for the furnishing of steel-cast guns for the Navy. This action is taken in order to give more time to domestic manufacturers to consider the matter.

"The intention of Congress in making the appropriation was, doubtless, to enable experiment to be made with steel-cast guns, and it will be the desire of the Department to meet, liberally, domestic manufacturers of steel who wish, in good faith, to submit to the Department castings for the purpose in view.

"The act of Congress has fixed the test to which the finished gun must be subjected. It is the same test as that which the guns now being made by the Department safely stand.

"No gun finished by the Department has failed thus far upon that test. It is not deemed severe, and is not supposed to represent at all the limit of extreme strength nor the capacity of the guns.

"The specifications adopted by the Department and referred to in the advertisement will enable the manufacturer to have the benefit of the experience of the Department in detecting imperfect material and such as would not give a fair test of the experiment. If any objection is found to anything in the specifications, or any matter therein is not thoroughly understood, it is desired that communication be freely had with the Department."

"A copy of the Department's advertisement dated June 23, 1887, as modified July 20, 1887, under which proposals for furnishing steel-cast guns are invited, is herewith enclosed for your information.

WM. C. WHITNEY, Secretary of the Navy."

(From the New York Herald.)

THE ATLANTA'S GUNS.

WASHINGTON, July 20.—The official report of Capt. Bunce, commanding the U. S. steamer *Atlanta*, regarding the bad behavior of the 8-inch guns which this new naval vessel carries, was received to-day by Secretary Whitney, and at once referred to the Ordnance Bureau. A Board of Survey to report on the damage done the vessel, the gun carriage and the vessel's furniture will at once be ordered, to proceed to Gardiner's Bay, where the 8-inch monsters have been playing havoc with the architecture and fittings of the vessel. When these new guns were thoroughly tested at the Annapolis testing station, it is said, they were not altogether amenable to the rigorous discipline of the Testing Board, but cavorted round in such manner as caused old naval officers to say they would prove boomerangs. While the *Atlanta* will be able to still carry the guns, as engines of destruction they are practically useless, save as a certain means of ruining the vessel itself. It is estimated that a few more discharges would have made the vessel unseaworthy, if it did not split her from stem to stern.

Capt. Bunce attributes the difficulty to the insufficiency of the check to the recoil, and says he can repair some of the damage, but does not see how to avoid it in future if the guns are to be practically used. The fact that the great siege gun at Sandy Hook, of 12-inch calibre and using a charge three times as great as that used in the *Atlanta's* guns at Gardiner's Bay, has been fired 130 times without injuring her pneumatic gun carriage a particle, will probably have some weight with the Board appointed by Secretary Whitney to hasten the construction of a pivotal gun carriage for the Navy on a similar plan. Comdr. McCalla has been appointed chairman of the Pneumatic Gun Carriage Board, and Secretary Whitney has issued orders for him to confer with the Chief of the Bureau of Construction and Repair, that the plan agreed upon may be speedily carried out.

(Correspondence of the Army and Navy Journal.)

PROSPECTIVE STAFF APPOINTMENTS.

PRESIDENT CLEVELAND will have the appointment of two general staff officers during the remainder of his present term of office—successors to Inspector General Baird, who retires Aug. 26, 1888, and Gen. Duane, Chief of Engineers, who retires June 30, 1888. Although these appointments are not to be made for a year, there is already some speculation about the successorships, not to say anything of the "wire pulling" that has been going on for some time past in a quiet way among some of the aspirants. As this will be the last chance for Col. Gillmore, it is only natural that his friends should commence early and work hard in his behalf. Cols. Casey and Parke are considered his most dangerous competitors, while Col. Craighill, although the junior colonel, is looked upon as a very strong candidate.

As to the Inspector Generalship, it is accepted as a foregone conclusion that Col. Roger Jones will step into the official shoes of the present incumbent upon his retirement.

In the event of Adjutant General Drum's retirement before reaching the age of 64 years—though it may be stated that this is very improbable—another brigadier generalship will be added to Mr. Cleveland's list of appointments. Col. Kelton, the senior assistant adjutant general, will no doubt follow up to this vacancy.

To speculate still further, President Cleveland will, if elected for a second term, have the appointment of successors to all general staff officers, except Gens. Swaim and Greely and to three of the general officers—Terry, Stanley, and Gibbon.

MR. E. H. HART, of No. 112 East 24th street, New York, has published a handsome volume of illustrations of the United States Naval Academy, printed by the Photo-Gravure Company, New York. On the title page we have a picture of the entrance to the Academy grounds as it appears in winter. There are seven views of Annapolis and the Academy grounds as seen from different points, besides twenty-one different views of the exterior and interior of the Academy buildings. Groups of the classes of 1887, '88, '89, and '90 occupy four pages, showing as fine a collection of bright lads as one would wish to see together, and noticeably superior in physique to a corresponding collection of youth of the same age attending other public institutions. We have also a view of the cadets in the mess hall; a group showing various uniforms and customs; another practicing seamanship on the deck of the *Wyoming;* two views of a dress parade in front of the Marine Barracks; three views of artillery practice, one of a general muster, six of fencing, cane, and bayonet exercise. The volume is introduced by a brief history of the Naval Academy, and a list of the officers attached to it is given. It is altogether a most handsome souvenir volume, and one which should be in the possession of every graduate of the noble institution whose local surroundings it sets forth with such graphic fidelity.

THE Secretary of State has received through the German Minister at Washington from the Emperor of Germany a check for $1,000 and two handsome gold watches embellished with the likeness and monogram of the Emperor, with a request that the money be divided equally among the families of the five members of the life-saving crew at Dam Neck Mills Station, Virginia, who lost their lives in attempting to rescue the crew of the German ship *Elizabeth* on Jan. 8 last; and that the watches be presented to Frank Tedford and Jos. E. Etheridge, the only survivors of the life-saving crew. The money and watches have been turned over to General Superintendent Kimball for distribution.

Established 1811.
CHOICE OLD WHISKIES,

MILD, MELLOW AND DELICIOUS.

The peculiar medicinal qualities of Whiskey distilled from the finest growth of Rye in the renowned Valley of the Monongahela, have attracted the attention of the Medical Faculty in the United States to such a degree as to place it in a very high position among the Materia Medica.

We beg to invite the attention of connoisseurs to our celebrated fine OLD WHISKIES, which we offer at the following prices, in cases containing One Dozen Bottles each:

Three Feathers Old Rye 1865, - $21.00
Old Reserve Whiskey, - - - - 18.00
Unrivalled Upper-Ten Whiskey, 15.00
Brunswick Club Whiskey, - - - 12.00

If you cannot obtain these Whiskies from your Grocer we will, on receipt of Bank Draft, Registered Letter or Post Office Money Order, or C. O. D., if desired, deliver them to your address, by Express, charges prepaid, to all points east of the Mississippi River; and by freight to any part of the United States, prepaid.

For EXCELLENCE, PURITY AND EVENNESS OF QUALITY, the above are UNSURPASSED BY ANY WHISKIES IN THE MARKET. They are entirely FREE FROM ADULTERATION, and possess A NATURAL FLAVOR AND FINE TONIC PROPERTIES.

These Whiskies are sold under guaranty to give PERFECT SATISFACTION; otherwise to be returned at our expense. Correspondence solicited.

ANNOUNCEMENT.

TO ARMY OFFICERS.

The undersigned having represented the Penn Mutual Life Ins. Co., of Philadelphia, as its General Agent for Northern Ohio, during the past year, with the experience thus gained feels himself to be competent to give Army Officers advice on many matters pertaining to Life Insurance, which may be to their advantage. To this end, therefore, he gratuitously offers his services to the Army, and respectfully invites correspondence from such as desire information on this subject.

F. A. KENDALL, Capt. U. S. A. (Retired.)
76 EUCLID AVE., Cleveland, O.

UNLESS Congress can be prevailed upon early next session to pass an act for the assignment as additionals of the non commissioned officers who have successfully passed departmental boards during the past summer, as it did last year in the case of the surplus graduates, there is no possible chance for this class of aspirants to obtain commissions this or next year. We have observed that some of the candidates are inclined to blame the War Department for their disappointment. If those inclined to criticise will carefully read the following law of July 11, 1878, in regard to the appointment of 2d lieutenants, and then stop to consider that there are still a number of graduates of 1887 "remain in unassigned," they must be convinced that the War Department is powerless to help them and that Congress alone is responsible for the condition of things: That hereafter *all vacancies in the grade of second lieutenant shall be filled by appointment from the graduates of the Military Academy so long as any such remain in service unassigned;* and any vacancies *thereafter remaining* shall be filled *by promotion of meritorious non commissioned officers of the Army*, recommended under the provisions of the next section of this act: *Provided*, That all vacancies remaining, after exhausting the two classes named, may be filled by appointment of persons in civil life.

PHILADELPHIA is looking forward to having an exciting time in September next, on the occasion of the Constitutional Centennial Celebration. The *Inquirer* says that the President will assign General Sheridan to command of the Regulars and the National Guard of the various States and Territories. Troops will be assigned in line in accordance with the date of the adoption of the Constitution by their States and their entrance into the Union. The members of the Committee are: Chairman, Brig. Gen. Clinton P. Paine, Md., Secretary; Col. Theo. E. Wiedersheim, and Major-Gen. John F. Hartranft, Major-Gen. Josiah Porter, Adjt.-Gen., N. Y.; Major-Gen. Henry A. Axline, Adjt.-Gen., Ohio; Major-Gen. James Howard, Adjt.-Gen., Md.; Brig.-Gen. William S. Stryker, Adjt.-Gen., N. J.; Brig.-Gen. James McDonald, Adjt.-Gen., Va.; Brig.-Gen. Daniel H. Hastings, Adjt.-Gen., Pa.; Brig.-Gen. James W. Latta, Col. George H. North, Asst. Adjt.-Gen., Pa.; Major R. F. Cullinan,

U. S. ARMY AND NAVY JOURNAL.

PUBLISHED EVERY SATURDAY.

NEW YORK, SATURDAY, JULY 23, 1887.

Office, No. 240 Broadway, New York.

No attention is paid to anonymous communications, but the wishes of contributors as to the use of their names will be scrupulously regarded.

Remittances should be made by express, or post-office money order, check, or draft, made payable to W. C. and F. P. Church. Postmasters are obliged to register letters if requested. No responsibility is assumed for subscriptions paid to agents, and it is best to remit direct to the office.

Subscriptions, $6 a year, and pro rata for a less period. In clubs of five, $4; clubs of ten or more, $3.

Postage within the United States prepaid. Foreign postage, $1.00 per annum, should be added to the subscription price.

The date when the subscription expires is on the Address-Label of each paper, the change of which to a subsequent date becomes a receipt for remittance. No other receipt is sent unless requested.

Change of address will be made as frequently as desired, upon notification; not otherwise, as the changes announced in the orders published in the JOURNAL furnish no authority for changing the address of the paper. Both the old and new address should be given.

We should be very glad to learn from any of our subscribers of any delay or failure to receive the JOURNAL, so that we may give the matter our immediate attention.

TRAINING FOR WAR.

THE system of military education provided at West Point is brought under review by three publications which have made their appearance during the last month. One is an article written in the appreciative spirit of a graduate of the institution, who recalls with tenderness even the harsher features of his Alma Mater.* To him West Point is the ideal of a democratic school for soldiers, where the "son of a Vanderbilt must wear and has worn the same garb that warms the back of the hod-carrier's boy," where each without partiality or distinction of class is "fully taught every manly and graceful accomplishment, finely schooled in science and in soldier lore;" "where every section of our broad Union is represented and no cliques are encouraged, and where the word of honor of the cadet is the ne plus ultra of West Point ethics." The other two descriptions of West Point are written in a critical spirit, and if, for that reason less acceptable, they may, if made proper use of, prove even more serviceable. One is contained in a magazine article by Frederick Perry Powers, and the other is an elaborate volume on the "Volunteer Soldier of America,"† by the late John A. Logan.

No man, living or dead, could claim a better right to discuss the subject which occupies the main portion of this bulky volume of 700 octavo pages. Even the graduates of the Military Academy can accept with equanimity his criticisms upon them, and upon the institution with which they are identified, while they join with him in urging that the system of military education, to provide which West Point was established, should have its sphere of usefulness more widely extended. General Logan proposes that the National Government should maintain at its own expense a military department in every State University, upon a scale proportionate to the population of the State. Here should be made accessible to every youth desiring it the rudiments of a military education, this to include "a thorough gymnastic training, the elementary and higher mathematics, drawing, natural and experimental philosophy, military and civil engineering, ancient and modern history, infantry tactics, the use of the sword, as much of a knowledge of ordnance and gunnery as it is practicable to teach in such an institution," etc., etc. From the graduates of these institutions he would have a National Board select by competitive examination the cadets for the finishing schools at West Point and Annapolis—the number of admissions to be regulated by the necessities of the Services. The object sought to be accomplished by this extension of

* Cadet Life at West Point, by Captain King, U. S. Army. Harper's Magazine for July.
† The Volunteer Soldier of America, by John A. Logan, with a biographical sketch by C. A. Logan, and extracts from General Logan's journal. R. S. Peale and Co., Chicago and New York, 1887.

military education is the diffusion of military knowledge through the masses of the people, so as to make of every youth an inchoate and available soldier and "thus to remove the evil of committing the whole military knowledge and with it the military resources of the Nation to the keeping of a comparatively small number of men, who, believing themselves to hold the destiny of the country within their charge, must be disposed to arrogate to themselves the attributes of a select society." Even if it be admitted that this is the result of West Point education, we fail to see how the extension of that education to include all the officers of the Army is to correct the evil, simply because it is accompanied by a better system of appointment. It is more logical to assume, as General Logan does, that his plan would remove the appointment to the Academies from politics and bring to the front the youth, who, in seeking of their own free will the military or naval career, would thus to a very large degree indicate the possession of inherent fitness or aptitude in a particular direction.

The argument of General Logan's book is that there is but one effectual school for the soldier, and that is the school of war. His complaint against the Military Academy is that, lacking the tests of the battlefield, its judgments upon its pupils are not infallible, so that many of those upon whom it bestows its highest honors do not take equally high rank in the post graduate course of war. He gives a list of the honor men of the Military Academy from 1802 to 1861, inclusive, and a statement of the subsequent career of the head of each graduating class during that period. Of the whole number, taking those embraced within the thirty-seven years from 1825 to 1861, about thirty-three per cent. never saw a battle; nearly fifty per cent. have left no military record; three of the number went into the Rebellion; little over fifty per cent. had military records of varying degrees of importance and excellence, while only a little more than one-fifth of the number rose to the standard of the great soldier.

Is not General Logan a little exacting in demanding that West Point should create military genius? We have no statistics, but we question whether a better showing can be made by the special schools for other professions. Take our medical colleges, our law schools and our theological seminaries and let us see what proportion of their honor men in the contest of life have demonstrated ability to hold the leading positions in their several professions. "Why," asks General Logan, "is there no place upon the honor roll of West Point for the names of Grant, No. 21 in class; Sherman, No. 6; Sheridan, 'glorious Phil,' No. 34; Pope, Hancock, Anderson, McDowell, Heintzleman, Hooker, Hunter, Lyon, Reno, Geo. H. Thomas, Sturgis, Burnside, and others upon the Union side; of Jos. E. Johnston, No. 13; A. S. Johnston, Stonewall Jackson, No. 17; Magruder, Van Dorn, Jubal Early, Longstreet, J. E. B. Stuart, the saintly Bishop Polk, and the Commander-in-Chief of the Confederate forces, Jefferson Davis, on the rebel side?" The answer would seem to be sufficiently obvious, and that is that it is absolutely beyond the wit of man to devise any system of scholastic awards which will infallibly determine what men the circumstances of life will show to have in the highest degree the qualities of leadership, and who will best be able to secure the favors of that most fickle of all jades, the "Goddess of War."

General Logan, though the argument of his volume would seem to be directed against the Regular Army as well as the Military Academy, does both excellent service by his citation of facts tending to show how great an advantage has been gained in all our wars from a military experience previously obtained. In his criticism upon the Military Academy he tells us that "the influence of West Point is paramount in virtue of our military system, by which expert military knowledge of the country is confined by the Government to the small number of individuals whose names constitute the official roster of the United States Army." He declares that the effect of the West Point system has been to manacle and even to crush as far as possible the volunteer and his aspirations for recognition. For years we have been compelled, he says, "to witness a systematic elevation of the regular over the head of the volunteer, without regard to questions of fitness and ability, in every instance where the two classes have been in competition." He charges that in the "dreadful crisis of our country's fate there were many flagrant instances of failure to our arms and consequent peril to the nation rising from a determination to prevent the success of volunteer officers." He says further, "this utter sacrifice of the country's fate upon the altar of professional jealousy by those who had been reared by the nation especially to defend it was cruel and most wicked. But the jealousy spoken of was not confined to hostility against the volunteer officers. This green-eyed monster, so perversive of the noblest instincts of man, was extended in not a few instances only to the ranks of the elect themselves, and it is a notorious fact that the nation's life was seriously imperilled upon at least one momentous occasion by the feuds between the partisans of different West Point commanders." In this latter circumstance he finds a strong argument against the impolicy of confining the interests of a great nation to so select a circle of individuals as constitute the military peace establishment of our country. In a somewhat involved sentence but with all the emphasis of italics, which we quote as we find them, General Logan says: "In broad terms it may be said that the tendency of our present military and naval education is *to create a body of men in a Republican country, the very nature of the circumstances under which the body is created and maintained implying the same features of class distinction or of aristocracy that distinguishes the similar bodies of men in purely aristocratic or monarchical countries.*" "Why should not such conditions result," he asks further on, "especially in the absence of the strength of mind possessed by a Grant, a Sherman, or a Sheridan, and by many others, in the gradual growth of a feeling of superiority over the commoner conditions of men?"

Here, as it seems to us, General Logan's quarrel is rather with human nature than with the Army and Navy. It is a common tendency of the smaller men in any given class or profession to assume airs of superiority over those who are beyond the circle of the ideas to which they limit themselves. The larger-minded men of all professions, and those whose experience have broadened their sympathies, get beyond this provincial narrowness, as General Logan shows, is the case with men like Grant, Sherman and Sheridan. To the thoroughly American and democratic spirit of such men he ascribes the salvation of the country from that violent wresting of its political organization which would have followed the corresponding elevation of lesser men.

We have no disposition to criticize Gen. Logan's frank and honest expression of opinion, even where we may believe he has laid himself open to attack. The general tendency and purpose of his volume is in the right direction, for he was far too good a soldier not to understand and emphasize the necessity for military training, and this necessity once recognized neither of our military educational institutions has any occasion of alarm for its safety.

Turning to the magazine article of Mr. Powers we find him describing the West Point Academy as a "military school where military studies are almost ignored, and where, in spite of the fact that everything is sacrificed to mathematics, the practical engineering is so far behind the times, that even a Board of Visitors (that of 1885) observe it." He says: "It has been standing still while the civil colleges have been developing wonderfully in the last forty years." Their courses of study have been modified with a view to developing individuality, "while every art is employed at West Point to repress individuality and make all graduates as nearly as possible repeats of a given pattern. In civil colleges instruction is given by men whose life-work it is to instruct; the thirty-eight instructors at West Point "may be detailed for duty as assistant professors at West Point to afford them a chance to rest from the fatigues of duty on the plains. At any rate, teaching is not their vocation, and they may or may not have the qualifications of teachers." Even the value of the Military Academy as a school for engineering is questioned by this critic. To the one hundred and four civilian engineers assisting the officers of the Engineer Corps is given the credit for their work, and the solution of the problem of completing the Washington monument is ascribed to "An infantry lieutenant who did not have a West Point education and a mechanic who did not have any professional education"—from which last it would appear that the less a man knows about engineering the greater his competency as an engineer. But General Logan's complaint that West Point does not bring the best soldiers to the head is answered by this second critic of West Point, who declares that much of the best fighting material of the Army is found in the Engineer Corps, saying: "If one will look through our Army Register for 1860, he will find, probably to his surprise, that the engineer officers furnished a larger proportion of Army and Army-corps commanders and distinguished division commanders than the more strictly militant branches of the Service. In 1860 there were 89 officers of Engineers, and among them were the following: P. G. T. Beauregard, Z. B. Tower, H. G. Wright, A. A. Humphreys, John Pope, William B. Franklin, William F. Smith, Q. A. Gillmore, James B. McPherson, G. W. C. Lee, Godfrey Weitzel, John G. Parke, G. K. Warren, Kirby Smith and George G. Meade. It is doubtful if a proportionate number of equally distinguished leaders of troops could be picked out of the 180 officers of cavalry or the 210 officers of artillery; it could not be done from the 340 officers of infantry."

While General Logan looks to the infantry for his examples of born soldiers, Mr. Powers complains that this corps is allowed to absorb "the dull men, the inattentive men, the men who narrowly escape being dropped from their classes" (e. g., P. H. Sheridan). The plain truth is, says Mr. Powers, "that in any war the infantry is the main part of the Army. The cavalry and artillery are merely assistants to the infantry. It is with the infantry that war must be carried on, and the infantry is the best school for general officers. Yet according to our practice it does not matter much about infantry officers; the stupid men and the men whose education and training have been neglected are good enough for infantry officers." While the critics are thus answering each other we turn to what Mr. Powers says in conclusion as follows:

> The Army suffers for want of attention to it and interest in it by the nation at large; the nation suffers to the extent that this severance of sympathy impairs the efficiency of the Army and represses the military impulses of the people, who rely on themselves instead of a standing army in the event of war; the militia suffers for lack of the spirit and discipline that would be infused into it by a connection with the Regular Army. For these evils a remedy would be found in territorializing the Army and making the militia regiments reserve battalions of the regular regiments. This would also afford the means of introducing the three or four battalion formation into our infantry without enlarging the Army. The ten companies of each infantry regiment should be consolidated into eight, and these eight divided into two battalions. The other battalions should be militia regiments.
>
> Let the 1st Infantry be known as the 1st and 2d battalions of the 1st New England regiment, and be recruited in Maine, New Hampshire, Vermont and Connecticut. A regiment of Maine militia would be the 3d battalion, and a 4th battalion might be supplied by the militia of the other States, though this would probably prove impracticable, and it would be better for each of the four States to furnish one regiment of militia as a battalion attached to this regiment. The 2d infantry would be the first two battalions of the 2d New England Regiment, and would be recruited from Massachusetts and Rhode Island. A regiment of Massachusetts militia would be the 3d battalion, and a regiment of Rhode Island militia the 4th battalion. The 3d and 4th regiments would be known as the 1st and 2d battalions, respectively, of the 3d and 4th New York regiments, and the New York militia would furnish the four reserve battalions for these two regiments In the same way the 5th and 6th infantry would be Pennsylvania regiments, the 7th would be furnished by New Jersey, Delaware and Maryland, the 8th by Virginia and West Virginia, the 9th by the two Carolinas, the 10th by Georgia and Florida, the 11th infantry might be the Gulf regiment, and would be recruited in Alabama and Mississippi, the 12th, recruited in Louisiana and Arkansas, might be the Lower Mississippi regiment, the 13th would be the Texas regiment, the 14th and 15th would come from Kentucky and Tennessee, the 16th from Ohio, the 17th from Indiana, the 18th and 19th from Illinois, the 20th from Missouri, the 21st from Michigan, the 22d from Iowa, the 23d, or Upper Mississippi regiment, from Minnesota and Wisconsin, the 24th from Kansas and Nebraska, and the 25th from the Territories and the Pacific coast. Several good results would follow the territorialization of the Army. The people would feel an interest in the Army that they never have felt in the regular establishment. The Army would feel itself to be a part of the nation, as it does not feel now. The militia would be improved in prestige and discipline: it would be more military and less of a lark. There would be a friendly rivalry between regiments from different sections of the country and commonly known by

geographical names, that could not fail to improve the spirit and efficiency of the organizations. Above all else, the Army would really be a framework about which to build a great volunteer force. By calling out the militia regiments battalioned with the regiments of the line the fifty battalions of the latter could be increased to one hundred or one hundred and fifty battalions without a particle of change in the organization, and every two or three militia battalions would serve with two regular battalions. Except a few troops to keep some small bands of possibly hostile Indians in order, it is not worth while for us to keep up any Army unless we keep up one that is always ready for service, and that is so organized and officered as to be not only constantly efficient for action by itself, but also in the best condition to leaven the great force of volunteers on which we must chiefly rely in war so long as we happily find it needless to support a large standing Army.

This is a suggestion worth considering, and the fact that such articles as the one of which it forms part find place in popular magazines is, we hope, evidence of growing interest in the subject of military preparation. At all events their publication will tend to develop such an interest. As for West Point and the Naval Academy free true criticism will do them no harm, and we present some of the views which have found expression for the consideration of the members of the West Point and Annapolis Faculties during their summer vacation.

STEEL-CAST GUNS.

WE are glad to observe the liberal spirit shown by Secretary Whitney in dealing with the question of steel cast guns, as evinced in his circular extending the time for bidding on experimental guns under the appropriation by Congress. The problem of casting the heaviest guns in one homogeneous mass, instead of building them up in sections, is not one to be solved in a moment. Still, it is one, as we can assure our naval authorities, with which the best mechanical minds in the country are now occupied. We have just been shown the drawings and specifications describing a new method of hollow casting, which originates with a gentleman whose name, if we were at liberty to mention it, would be recognized the world over as associated with one of the most important inventions which warfare has originated in the last quarter of a century. It is because such men are turning their attention to the subject of steel-cast guns, and are confident of the result, that we urge this matter upon public attention so earnestly as we do. Mr. Metcalf, who cast four thousand guns on the Rodman principle, is a champion of the steel-cast gun, and Dr. Gatling is among its enthusiastic advocates. What has recently been said by Colonel Maitland of the Woolwich Royal Gun Factory tends in its favor, and these are but illustrations of the growing sentiment among the most competent judges which suggests the possibility of securing for us a better steel gun than any foreign built up gun, at one-fourth or one-fifth the cost.

The results of current investigations we are not at liberty to give at present, but they are such as to justify the confidence we have all along felt and expressed that an appeal to the inventive genius of this country would produce results that would place us where we ought to be, in the lead in the manufacture of heavy guns. We have no question that it is entirely within our possibilities to produce guns of any size which it will be impossible to burst, and which will cost when completed but a fraction of the unreliable built up guns of foreign manufacture, while the plant for their manufacture can be obtained with but little delay. It is now possible to cast in this country an ingot of ninety tons, so that a steel cast gun of that size is now within our reach. Most important improvements have also been made in the original Rodman method of casting to which we cannot at present refer more definitely.

It is well in this connection to recall what was said by Mr. Wm. Metcalf in his recent address before the American Society of Civil Engineers. "My preceptors, Wade and Rodman," he tells us, "held that the qualities required in a gun were elasticity, springiness and power to resist abrasion, combined with—high strength and power to offer a uniform resistance in every direction to all the strains to which it might be subjected. All of these properties are reached in the highest degree possible in the material with which they have to work *and none of their guns ever failed.* If Rodman had lived, the advent of good steel in great masses would at once have been seized upon by him, and before now he would undoubtedly have cast the best and biggest, the safest and the cheapest guns that were ever made." "My objection," Mr. Metcalf further said, "to proposed methods is to the building-up system; the notion that 'definite shrinkage' is a practical possibility; the idea that rings can be so shrunk together that each shall be strained to exactly its elastic limit, when in fact that elastic limit cannot be known; the enormous cost of unnecessary operations, and the doubtful utility of the operations after they are performed." More than twenty years ago, in 1865, Holley said what is of even greater force now: "We can hardly conceive of a fact of greater magnitude, from a defensive point of view, than this: that while the United States has at this moment not a single standard type of naval gun, or gun of position, that is comparable in efficiency with the guns of foreign states, it has by means of the good policy of its Ordnance Department, studied the results of foreign experiments and avoided the enormous cost of original investigations, and that this policy must be now rewarded by the establishment of the cheap cast gun, the metal to be, not crude iron, but steel having three or four times the strength."

GUN CARRIAGES OF THE "ATLANTA."

IN connection with the report, which appears elsewhere, of the damage done to the *Atlanta* by the failure of its gun carriages it will be instructive to read what was said here with reference to them three months ago, in an article entitled "Our New Cruisers," which appeared in the JOURNAL of April 23. It is to save our Navy from the disappointment and mortification to which it is to-day subjected that we have criticized ordnance work, and for no other purpose, and the result shows that our criticisms have been neither hasty nor ill-advised. When, for the first time, the guns of the *Atlanta* are fired with service charges and the proper projectiles they fail in almost every particular, the very first discharge smashing that portion of the gear designed to counteract the tendency of the muzzle to raise itself at the instant of discharge, and subsequent firing, with reduced charges of powder, so seriously disarranging the steam pivoting gear so as render it inoperative, leaving both of these guns completely disabled.

The experience of the 6-inch rifles was no better, the gearing having been more or less injured, so that the result of the first attempt at firing the battery of this fine vessel has been to more or less disable it for all fighting purposes. Incidentally it is learned that the ability to pivot the guns on the *Atlanta* is restricted within very narrow limits, owing, it is supposed, to faults in the construction of the carriages. From all that can be learned about the gun carriages constructed under the authority the present Ordnance Bureau, it appears that the claims and records of an American gun carriage which has been extensively built at the Washington Yard and used in our Navy, have been quite ignored for the new ordnance, and instead an English natterns has been substituted, with the result stated. It is presumed that the *Atlanta* will go to a Navy-yard for the necessary repairs and modifications made imperative by the unfortunate failures noted. A Board will at once proceed to the investigation of the causes and results of this unlucky state of affairs, and it is probable that important changes on the *Boston* will follow the investigation. As far as has been ascertained the guns themselves bore the ordeal satisfactorily, so that it is hoped that a way will be found to render the carriages worthy of the burdens they have to carry. Inasmuch as some, if not all, of the defects formerly existing in the 8-inch gun carriages of the *Atlanta*, have been also discovered in similar carriages on the *Boston*, it is not straining the point to assume that under the stress of actual practice the same weaknesses will be developed in these, so it will behoove the Ordnance authorities to apply the lesson taught by the experience with the *Atlanta's* battery.

LIEUTENANT-GENERAL SHERIDAN, accompanied by Colonel Blunt, aide-de-camp, returned to Washington on Tuesday evening from Newport, Ky., whither he went to inspect the sites offered by bidders for the new military post for which $60,000 was appropriated last Congress. Only one out of the dozen sites offered was considered at all desirable, and the Lieutenant General has reported to the Secretary of War recommending its acceptance. En route to Newport the Lieutenant General and his aide stopped at Chicago, where they spent several days in interviews with United States District Attorney Ewing in regard to the transfer of the title of the Highland Military site and in attending the horse races. The papers finally and formally turning over the site to the Government, Mr. Ewing promises to have before the War Department within ten days. The site will then be taken possession of by two companies of infantry to be detailed by Gen. Terry, who will remain in charge of the tract, in order to prevent depredations until Congress makes an appropriation for commencing the construction of buildings.

THE San Francisco *Report* having successfully predicted the popular and armed rising, which recently brought King Kalakaua to his knees in Honolulu, now ventures the further one "that Kalakaua will not be much longer upon the throne, that the matter is by no means ended. Kalakaua will not keep faith, and the leaders in the rebellion against him will not stand any breaches of faith. Kalakaua's kingship is virtually at an end."

GENERAL SHERIDAN has given no consideration whatever to the selection of the batteries to be sent to the Fort Riley Artillery School. The buildings will not be completed before autumn of 1888. He sees no reason for haste. There will be only three batteries sent there. The buildings will consist of ten sets of officers' quarters, arranged in a semi-circle and constructed of a light brown stone quarried in the locality.

THE Ordnance Department of the Army is having printed for distribution in the Army, a pamphlet containing a description of targets used in the Army with a statement as to how they are issued and used. According to the pamphlet, the name the Brinton range target is changed to the sliding target, and the Cushing to the rolling target.

ARMY officers will begin to breathe somewhat freer, says the Omaha *Herald*, "when the work of the Board now engaged in the revision of the Army Regulations is completed. Of all the horrors that ever faced a soldier in blue, nothing ever compared with that of the ponderous Army Regulations."

MAJOR W. H. HEUER, Corps of Engineers, in a recent report upon the improvement of the South Pass of the Mississippi says: "Captain James B. Eads, who built the South Pass jetties, died March 8, 1887. This important engineering work is a fitting monument to his skill and ability."

SEVERAL members of the 146th New York Volunteers were at Gettysburg July 18, and selected a site on one of the massive boulders on Little Roundtop for a monument to General G. K. Warren, U. S. A. The monument will be dedicated July 2, 1888.

CAPTAINS WM. W. ROGERS, 9th Infantry, and John S. McNaught, 20th Infantry, and 2d Lieutenant Luther S. Welborn, 5th Cavalry, have been recommended for retirement by Army Retiring Boards.

THE United Service Club, of Philadelphia, have secured possession of and will occupy their new quarters, 1433 Chestnut street, in September.

CAPTAIN F. M. RAMSAY, Commander C. F. Goodrich, Lieutenant A. R. Couden, Naval Constructor Philip Hichborn and Assistant Constructor Nixon are appointed a Board to investigate the damage done to the *Atlanta*.

LATE ARMY ORDERS.

Leave for one month and fifteen days, on surgeon's certificate of disability, to commence on such date in August as the condition of his health will permit, is granted Capt. Wm. C. Manning, 23d Inf., Fort Mackinac, Mich. (S. O. 150, Div. Atl., July 22.)

1st Lieut. P. G. Wood, 12th Inf., will remain at Ft. Niagara, N. Y., until the arrival of the 11th Inf., when he will at once transfer the public property and funds for which he is responsible as A. A. Q. M. and A. C. S., and will join his company in the Dept. of Dakota. (S. O. 150, Div. Atl., July 22.)

2d Lieut. Edwin B. Babbitt, 5th Art., (Fort Wadsworth, N. Y. H.) will proceed to Creedmoor, N. Y., and relieve 2d Lieut. H. C. Carbaugh of his duties as A. A. Q. M. and A. C. S. for the rifle camp at that point. Lieut. Carbaugh will return to Fort Columbus. (S. O. 150, Div. Atl., July 22.)

Capt. Wm. H. Crowell, 6th Inf., is granted seven days' leave. (S. O., H. Q. A., July 22.)

The sick leave of Lieut. Mason M. Maxon, 10th Cav., is extended two months. (S. O., H. Q. A., July 22.)

Lieut.-Col. A. K. Arnold, 1st Cav., is relieved from duty at the Infantry and Cavalry School and ordered to report by telegraph to the Commander Department of Dakota for assignment. (S. O., H. Q. Army, July 22.)

Troop B, 4th Cav., Capt. Lawton, arrived at Washington Thursday night.

Maj. James G. Lee, Q.M., is ordered to proceed from Chicago to Fort Winnebago, Wis.

The leave of Capt. Chas. F. Roe, 11th Inf., found incapacitated for active service by Army Retiring Board, has been extended [illegible] ther orders.

(Correspondence of the Army and Navy Journal.)

CRUISE OF THE NAVAL CADETS.

THE *Constellation's* cruising ground is Gardiner's Bay, where she cruises entirely under control of the cadets from Monday till Friday of each week, and spends Saturday and Sunday either in New London or Newport. Last Thursday she met the *Atlanta* there, and the two ships were at anchor for 24 hours almost within hailing distance of each other.

The naval cadets of the first class were sent on board the *Atlanta* to inspect her machinery and get an idea of our modern cruisers. They were greatly pleased with their visit and during the time they were aboard were as busy as bees exploring every nook and cranny. The first class have studied steam engineering and marine engines during the past year at the Academy, and this was just the opportunity to see the actual construction and application of all the modern improvements.

The captain of the *Atlanta* seemed desirous that they should see as much as possible of the vessel, and went so far as to put the steam training gear of the two large pivot guns in operation for the benefit of the cadets. The assistant engineers went through the vessel with the cadets, explaining such matters as were not readily understood.

At dark the *Atlanta's* great search lights were lighted, and all around her within a radius of two miles or more any small object could have been easily seen. It was for awhile focussed full upon the *Constellation*, and every rope yarn on her was plainly visible. The *Atlanta* was in Gardiner's Bay for the purpose of trying her guns at target practice.

The first class were also sent ashore on Saturday at Newport to look through and examine the apparatus in use at the Torpedo Station. The officers of the Torpedo Station seemed to take a pleasant interest in showing the cadets everything connected with the station, and there were many interesting things. What attracted most attention was the manufacture of gun-cotton, as in this all hands took a lively interest.

The *Constellation* left Newport at noon, July 18, after having been inspected by several high officials of the North Atlantic Squadron. Admiral Jouett will probably inspect her.

The most interesting feature of the fourth class naval cadets is the young Japanese student sent by his government to the U. S. to receive at her hands such an education as she gives to her own naval officers. The courtesy extended by our nation and accepted by the other is appreciated by the cadets, and until the young Jap, whose name is Nive, became inured to life aboard the practice ship, every endeavor was made by the cadets of all classes to make things as pleasant for him as possible, and prevent his becoming dissatisfied, or feel disappointed, as most young fellows do in their first few weeks aboard ship.

It is an exception, however, for all classes to take such interest in fourth classmen, but they fully understand his position, and would feel much mortified if it should ever be said, or even thought, that he had not received kind treatment, when sent under such circumstances by his government among strangers. He is quick and active aboard ship, and does his work better than the average fourth classman. It is predicted that he will do well at the Academy, though, of course, he will be booked in the Department of Engineering.

It has been several times asked why the Navy Department does not furnish a modern vessel at the Naval Academy as a practice ship for the naval cadets? They should certainly receive their training upon vessels and machinery of the most modern type. But it must be remembered that, notwithstanding the fact sailing vessels are out of date, it is a matter of great importance that our naval officers should be good seamen, and these practice cruises are made entirely for the purpose of teaching the cadets practical seamanship. For that purpose the old *Constellation* is just as good a vessel as could be found. She is in comparatively good repair, a good sailor, easily and readily handled, and, in fact, a suitable vessel in every respect. Steam engineering and its appliances can be acquired on land at all times, but when our cadets leave the Academy as officers they are sent aboard steam vessels, and those that go aboard the modern types will have but little opportunity of becoming proficient in seamanship. That is why it is important that they should learn it while at the Academy, and the old *Constellation* is a model vessel for that purpose. Their cruise so far this year is said to have been a very pleasant one.

It is true that they have been kept more busy than on former cruises. This applies especially to the first class. But at the same time they have extended privileges and are well treated by all the officers. The executive officer, Lieut. Leutze, rules with a firm hand, but at the same time he does it in a manner suggestive only of the welfare of those under his charge. A more model executive officer has not been on the old ship for many a year, and as one placed over the cadets to serve as an example for them a better one could not have been found in the Service.

A seaman named Ludwig fell from the main rigging on the *Constellation* Saturday and received severe injuries about the chest. His injuries are mostly internal, though not thought to be serious.

PROPOSALS FOR WAR-VESSELS.

THE Secretary of the Navy has determined not to postpone the opening of the proposals for the *Newark*, the 19-knot cruisers and the two gunboats under any circumstances. Chief Engr. Melville is now changing the plans for the machinery of the 19-knot vessels and will not finish his work by Aug. 1, when the bids are to be opened. The Secretary of the Navy, if he approves the new plans, will award the contracts on the 19-knot cruisers with the understanding that the machinery will be constructed according to the designs of Chief Engr. Melville. There is a great demand for plans and specifications of these vessels. Few of the applicants, however, have any intention of bidding. The following responsible firms are understood to be preparing their bids: Delamater and Co., Pusey and Jones, Harlan and Hollingsworth, Cramp and Sons, the Columbia Iron Works and the Union Iron Works. It is a noticeable fact that though the act under which these vessels are to be constructed requires that one of them, all things being equal, shall be constructed on the coast of the Gulf of Mexico, no application for plans has been received from any place south of Baltimore. This will confine the competition on the odd cruiser among the Eastern and Western shipbuilders.

PURCHASE OF THE "STILETTO."

SECRETARY WHITNEY, July 16, wrote to Mr. John B. Herreshoff, president of the Herreshoff Manufacturing Company, as follows:

Referring to the offer of the Herreshoff Manufacturing Company, under date of July 7, to sell the steam torpedo-boat *Stiletto* to this Department for the sum which was appropriated by act of March 3, 1887, to enable the Secretary of the Navy to purchase such vessel, I have to state that before taking final action upon said offer, the Department deems it necessary that the vessel be inspected and tested in accordance with the following conditions:

1st. The boat to be taken out of the water in order to expose the hull, the cylinder heads of main and auxiliary engines and valve chests to be removed, all bearings to be exposed and the boiler and appendages to be made as accessible as their construction will permit. The whole, including hull, machinery and all parts to be inspected by the board of officers appointed for the purpose.

2d. The machinery should then be put together and the vessel given a dock trial of sufficient length to enable the present owners to make such adjustments as they deem necessary.

3d. An official trial should then be had as nearly as may be under the conditions of actual service. A total weight of nine tons representing the aggregate weight of crew, provisions, water, anchor, torpedo fittings, torpedoes, machine guns and ammunition, should be placed on board. These various weights to be distributed about the boat at the places which are to be occupied on service by the articles they represent.

4th. Three runs at full speed over the measured mile should then be made to determine the number of revolutions of propeller required to make one knot in still water with the boat loaded as above.

5th. A continuous run of three hours at full speed for endurance should then be made, during which time careful observations of steam pressure, vacuum, number of revolutions per minute, etc., are to be made, indicator cards being taken.

6th. Three runs over the measured mile should then be made at full speed to determine the number of revolutions of propeller required to make one knot in smooth water with the boat in the same condition as when three hours trial ended.

During all of these runs the steam pressure and number of revolutions should be kept as uniform as practicable. The diameter of circle required for moving under both starboard and port helm at full speed and half speed and also distance required to stop boat when going ahead at full speed should also be ascertained. Please inform the Department if these conditions are concurred in by the company. Any suggestions which the company may desire to make with reference to such inspection and test will be duly considered by the Department.

In accordance with the usual practice it is necessary, before the acceptance of said vessel for the Department to be furnished with suitable evidence of the incorporation of the Herreshoff Manufacturing Company under the laws of the State and of the authority of the president of the company to make said offer—proper evidence of the former being a certified copy of the act of incorporation and of the latter an attested copy of the resolution passed at a meeting of the board of directors or trustees at which a quorum was present authorizing the president of the company to make such offer, unless such authority is exercised under same general provision to the same effect in the act of incorporation or in the by-laws. In the latter case a certified copy of the by-laws should be transmitted.

IN THE HEART OF MONGOLIA.

To the Editor of the Army and Navy Journal:

HERE I am in Mongolia and find it very much like other countries. It has the climate of Vermont, but drier, is very mountainous in all this part of it, but is not very high above the sea. My barometer says 2,300 feet, and the highest parts are about like the Catskills.

We came in carts that were without springs and had our mattresses tucked in to keep us from broken bones. My cart upset without hurting me. There was a pony for each of us and I walked and rode part of the time. We went through the great plain of China, which is the largest and most perfectly flat prairie I ever saw, and through the great wall, which, though useless, is a most stupendous work. It was not very large (high) or very broad where I saw it, but it was carried right along the crest of steep and high mountains. They say the bricks were tied on the backs of goats which were driven up the hills with their load, and the wall is put in places which are so difficult to reach that the work is quite as stupendous as the pyramids, or even more so.

It is wonderful to see the cultivation, even here in the mountain valleys. There is not waste ground enough to camp on unless one goes on a hill too steep for ploughing. Of course, there are a great many towns and we have had an inn to stop at every noon and night. There would be a good room for the foreigners, and a lot of huts for the natives, and a court for the animals. We fared well, for we had our own cooks and food and they gave us a meal of three or four courses twice a day. We slept on beds of brick with a flue and fire-place in each one to heat them in winter.

The house we occupy is of brick with tiled roof, paved floors, and much carving, rude but effective. My bed is just a raised bank of brick work boarded in on all sides but one, and boarded over the top, too. This may sound like close air, but the bed is 8½ feet long and 6 broad. My mattress and blankets only cover one corner of it. The windows are of very open, fanciful framework covered with paper. The whole establishment has several houses like this, all detached (three rooms each) with terraces and covered passages, and is really a very pleasant residence.

The language is a great hindrance to travellers. I can't get a dictionary or a teacher. A language that has no declensions or irregular verbs cannot be worse than English or German. It is the lack of good text books that makes the study so hard.

On our way up here we passed an open-air theatre, held in a building formed of poles, covered with mats. I jumped out to see the show, but as soon as the crowd saw me they left their diversion and came down in a swarm, so I got into the cart again. They are very curious, and punch holes through the paper windows to see us eat. On the whole, however, we have been treated very well. The Chinese are like the Italians; they scold but do not fight.

They have some funny ways. An American in charge of some works once announced that he would pay 30 cents a foot for certain work, but the contractor who was expected to undertake it thought the price too low and refused. So without the knowledge of the American the Chinese mechanics, who are superior to the other workmen, laid him down and gave him ten blows with a bamboo. He then set to work and has kept it up continuously ever since.

MONGOLIA, May 17, 1887.

DYNAMITE ARCHERY.

To the Editor of the Army and Navy Gazette:

THE susceptibility of the higher explosives (nitroglycerine, dynamite, etc.) to detonation from sudden shocks, has thus far been the chief deterrent in their general introduction as explosive charges for shells. Various expedients have been resorted to for the purpose of overcoming the dangerous shock of the original impulse to the projectile, which has to be given at the gun, and several of the more feasible propositions to accomplish this end are now under the consideration of warlike nations. Chief among these is the pneumatic gun, which gives the impulse by means of compressed air. Another method has lately been invented, and it is claimed is already demonstrating its value. In this latter, the ingredients of which the explosive is to be made are kept separate until the discharge of the gun brings about an intimate mixture of the glycerine and acids. Gunpowder is employed in the gun, and during the flight of the projectile, which is in fact a miniature laboratory, enough of the explosive is made to act with destructive energy at the final moment of impact. These two methods are the extremes of these respective classes, and will probably receive the due amount of study and development necessary to perfect them and demonstrate their relative utility.

In the mean time a simpler and intermediate method is required, one that will enable us to utilize the perfected explosive itself in the safest, most convenient and simplest manner. To accomplish this safely and accurately, and with a range of effectiveness requisite in the premises, I propose that the bow and arrow, and machines based upon the ancient forms of "artillery" (such as the arbalist, catapult, etc.,) be resorted to, and that they be made with all of the improvements suggested and to be obtained from modern facilities. In this way a very simple machine, capable of safely hurling sufficiently large dynamite grenades to great distances, and with accuracy may be easily realized. One of the simplest forms would be a hollow steel spiral-spring of extreme temper and tension, within which the dynamite arrow may be placed. This spring may be located in a suitable tube, and aimed and handled as easily as a common rifle musket. Steel bows and cross bows will also afford equally simple solutions of the problem.

A ship of war armed on port and starboard with two of these machines, swivelled to admit of a complete circuit of fire, would play sad havoc with small attacking launches. A projectile of a pound or so dynamite capacity would sink such a launch at from 200 to 500 yards. Nor is it at all extravagant to believe it practicable to arm a body of *dynamite grenadiers* with modern bows or cross bows capable of throwing these deadly weapons 1,000 or more yards. Artillery and defences might thus be effectively destroyed and their use in sieges would be invaluable. The importance of this suggestion lies in its simplicity, its absolute safety to the gunner and its already long ago demonstrated accuracy and range. Armed with a simple cross bow, or spring gun of best modern make, and a quiver full of arrows with half-pound steel percussive heads filled with any of the higher explosives, such a body of archers would be an element of destruction entitled to no mean consideration. The same idea may be utilized in the rocket, which is an arrow independent of the bow. A rocket headed with a percussive steel shell filled with one of the higher explosives would have for siege purposes, etc., a decided offensive importance.

C. A. L. TOTTEN, U. S. Army.

(From Iron.)

THE DESTRUCTIVE POWER OF TORPEDOES.

THE destructive power of torpedoes was recently illustrated in the *Resistance* experiments; but no exact account of their action has yet been published, as far as we know, of their use in actual warfare. Although the destruction of the Chinese corvette *Yang Wo* during the fight between the French and the Chinese at Foochow has been almost forgotten, no authentic report of the encounter has ever reached us. The account just given of the annihilation of the Chinese vessel by a close eye-witness is therefore doubly interesting. The writer says that the French flagship had two torpedo boats attached to her at the gangways. The ship was about 300 yards below the *Yang Wo*. As soon as the firing commenced, both boats attacked the Chinese vessel. The first one fired her torpedo directly under the *Yang Wo's* after gangway—starboard side. No damage whatever was done to the ship; but the officer in charge of the torpedo boat was wounded in the chest by the return action of the torpedo. The other had in the meantime attacked the ship forward, a little abaft the cathead, on the same side. The torpedo was in direct contact with the ship. The effect was that, when the torpedo exploded, it penetrated the fore magazine, or rather the fire from it did. This blew up, and the whole forward part of the ship was demolished. This all happened within three minutes. The remainder of the wreck drifted ashore, and burned for several days. The *Yang Wo* was a wooden corvette of 14 guns. The torpedoes used were booms—contact ones.

THE English House of Commons was deprived of a small entertainment recently, by reason of Mr. Blane, the representative of South Armagh, failing to put a question of which he had given notice. Mr. Blane proposed to ask the Secretary of State for War, whether complaints had reached him that, at a mess dinner of the Cavan Militia, the coat tails of several of the guests were cut off. This would have raised an inquiry as perplexing and irritating as that which arose in Boston many years ago as to "who pinned Chase's coat tail," and thus exposed the grievous rent in the portion of the nether garment it was intended to cover.

THE STATE TROOPS.

THE NEW YORK STATE CAMP.

THE FORTY-SEVENTH NEW YORK.

WHEN the 47th marched out of camp on Saturday, July 16, everybody felt that one of the most successful week's work had been completed. This was mainly due to the fact that the regiment came in with no grievances, with no prejudice against anyone and with the full determination to strictly live up to the State orders and regulations. Col. Gaylor had his command thoroughly in hand at all times, and yet his administration was of the kind that never becomes objectionable to anyone. The command is not large, but it has made marked progress of late. This is beyond doubt if the week's duty and the manner in which it was done is considered. The personnel of the enlisted force especially showed improvement and their quiet behavior, subjection to discipline and thorough work mark this camp as a model of neatness and regularity. The weather was oppressively hot at all times, as it has been the entire camp season, and duty was rendered under exceedingly difficult circumstances. The two commands encamped (the 47th Regiment and a provisional battalion under command of Major George Miller, of the 22d New York,) and their officers were in thorough harmony at all times. Col. Gaylor, unlike some of his predecessors here, did not monopolize the lion's share of the glory, but gave to his own field officers and to the battalion commander equal opportunities to command at parade and other occasions of ceremonies and drills, and this action contributed much to the success of the camp.

The regiment marched into camp, about 360 strong, in very fine soldierly style, but only preceded by the field music, and minus the band. This was due to one of the arbitrary dictations of the musical union, by which the 47th Regiment musicians were prevented from fulfilling their agreement. Good music was, however, procured the next day from Peekskill, and this "country" band improved so rapidly that the 47th thought it worth while to take them along on its return to Williamsburg, and this was the band that played before them on their triumphial return march from the boat landing to the armory. The Ordnance Department had somewhat similar trouble last year in procuring a post band, which resulted in the engagement of music from Albany instead of New York. It is gratifying to see that the musical union can, at least, not coerce the National Guard, but these two cases strongly tend to show that band musicians should be *enlisted* and subjected to the regulations and military discipline, and the present poor system under which any organization can be deprived of music at any moment and rendered helpless without remedy, be abolished.

The guard which marched into camp came up in a very military manner and the ceremonies between the old and new guard and the relieving were done in better style than has been the case before this year. The sentries, however, were somewhat crude and very much inclined to adhere to the old style of incessantly calling for the corporal of the guard in the loudest possible manner, keeping the entire camp awake. When their bearing, challenges, etc., are, however, compared with those of two years ago, then there appear signs of progress in all directions. This seems to show that the subject of study of guard duty must have received considerable attention in the armory.

The first dress parade, if the absence of a band and the fact that the regiment and the provisional battalion companies did not yet work well together are considered, turned out very well, and the day closed quietly and decorously, every man retiring at taps and going to sleep like a good soldier.

The exercises on Sunday were the usual ones. In mounting the guard there occurred several omissions and unimportant blunders. The 1st sergeants on their first appearance at guard mount are always awkward and march on their details in any but the right style, and this was the case here also. At the guard house No. 1 failed in his duty, as usual, and there was too much delay and preliminary circumlocution in getting off the relief. And let us now say it again, that number one should be relieved at once, as soon as the relief has been told off, and take his place in the old guard. To leave him on post until the entire relief marches off is not customary. Not a single organization has ever observed this. The sentries were much better, tried hard to do their duty, and in most cases managed to do it well. Their challenges at night were fair, and they certainly were very punctilious about the countersign (which on that night was rather a "corker," and difficult to remember) being exactly correct. Of this we satisfied ourselves by ocular as well as oral demonstration.

The addition of the band on dress parade on Sunday evening made the affair much more impressive, the men had become calmer, the companies began to become more harmonious in the manual, and the 1st sergeants and guides on account of the theoretical instruction received during the day had become more self-possessed and took their places with increased ease and rapidity. The day closed quietly without noise or unseemly demonstration, and the general character of what had been done so far, promised a propitious week's duty.

With company drills as conducted here, ten at a time, scattered over two extensive fields, it is not possible to give anything but a general idea. Skirmishing, although diligently practiced in the camp, nevertheless demonstrated that the subject is too much neglected at home, and officers and men do not understand the principles of the movements, which becomes the cause of so many ludicrous situations. It is the simplest and most interesting part of the tactics, but like movements of the same character in the school of the battalion, they are the most frequently blundered. In the school of the company the commands were generally tactical and the movements correctly performed, but regularity and finish to the evolution were lacking, due doubtless to careless supervision at home. Too many officers simply go through these drills as a matter of routine, give their commands in a mechanical manner, and never correct their men. This makes the latter careless and apathetic in their turn, and just such a state of affairs as is here described becomes the result. We do by no means advocate waste of time in bringing men up to that useless clockwork-like regularity which is the main requirement of modern competitive drills, but to make a military organization effective, a certain degree of perfection in its movements is necessary, and to attain this, snap and interest in his work should be exhibited by the commander at all times.

Battalion drills were ably conducted by the Colonel and his field officers, and the commands generally well and intelligently executed. The command showed itself here to better advantage than at company movements, because nicety of execution is a secondary condition, and rapidity, and to "get there," the principal considerations. The strong voice and clear commands of the Colonel worked to excellent advantage at these drills, and with his prompt and decisive manner contributed much to their superior quality and the snap and progress of those under his command.

Passing from details to a general summing up, the result is that there was a most satisfactory degree of progress in drills, guard and sentry duty, ceremonies, and general soldierly bearing on the part of the men, which shows that honest practice makes the master. No more than was done here could be accomplished in seven days, and on this account the tour of the 47th not alone reflects great credit upon itself, but becomes again a vindicator of the present State system, especially of that feature of it which refers to the employment of inspectors, who enable post headquarters to be acquainted at all times with the exact state of affairs, and to call the attention of battalion commanders to defects and errors. The 47th never neglected to take advantage of any hint thus conveyed, and hence its creditable record. Every State officer, from Gen. Porter down, has nothing but admiration to express at the commendable manner in which the encampment of the regiment was brought to a close. Gen. Porter, upon learning that the 23d would bring only 350 men into camp, offered Col. Gaylor another week's tour, which, of course, under present circumstances, it was impossible to accept. When the regiment left the camp it was heartily cheered by the provisional battalion, a pleasing evidence of the excellent relations existing at all times between the two organizations.

On arrival home the regiment was received by four companies of veterans (who are on excellent terms with the actives), as well as by the entire populace of the city, and its route was completed under a constant blaze of brilliant fireworks.

THE PROVISIONAL BATTALION.

The Provisional Battalion encamped with the 47th Regiment consisted of the 5th (Newburgh), 19th (Poughkeepsie), 20th (Binghamton) Separate Companies, and the 6th Battery also of Binghamton. The peculiarity was that the latter was armed and equipped as infantry. Without abandoning its guns and artillery drill the battery voluntarily armed itself with rifles and going with all its energy into infantry exercises, soon attained a proficiency which put it on equal footing with the best drilled infantry companies. Its first lessons were received from Capt. N. B. Thurston, 22d Regt., guard inspector at the present camp. The battalion was under command of Maj. Geo. A. Miller, of the 22d, assisted by a staff and non-commissioned staff selected from 22d Regiment officers and non-commissioned officers, and under his able and energetic command the companies developed into an excellent battalion, which won the admiration of all who had the opportunity of observing it. To do this with incongruous elements — such as four companies accustomed to drilling singly, and each according to different methods, must necessarily prove themselves—is not an easy task but we are glad that Maj. Miller, according to our expectations, proved himself equal to it.

The 19th Separate Company of Poughkeepsie, Capt. Wm. Haubennestel, was, as usual, the largest and probably the best drilled, although the commands, the position of the captain and other small particulars were not always tactical. The company, however, made its usual fine appearance, and, on dress parade, outdid all in precision of manual and steadiness. All the companies were good, well disciplined and well drilled, but deviated in many points from tactics, and knew but little about battalion drill. The tactics shine for all, and there is no reason why isolated company commanders should have occasion to interpret them differently from everyone else; nor improvise commands and positions of their own. These, however, become small defects, because all acknowledged them, and any correction ordered was at once made. Maj. Miller in his battalion drill was well assisted by his staff and non-commissioned staff. The latter were put in the line of file closers, and being all non-commissioned officers of the 22d New York, thoroughly up in their duties, especially as guides, the non-commissioned officers of the battalion proper, who were very inexperienced and slow in their duties, soon acquired an astonishing facility in coming on the line and taking their proper positions.

In the course of the week this battalion presented as fine an appearance as any command which has been in camp. Some of their volleys delivered could not be surpassed in snap and regularity. Of course their discipline could not have been better. The guard and sentry duty was of the usual character, crude at first, gradually improving, but never perfect. This is hardly to be wondered at with this or any other command, because men get seldom more than one tour of duty of this kind, and what they learn about it, generally results from the observation of the mistakes of others, comments upon them, and theoretical instruction. That under such circumstances such favorable results are obtained, is much to the credit of the troops. The companies were backward in skirmish drill, and we advise them to take it up at home, and in studying it up, think about the reasons for the various movements, which are all extremely simple. Especially let them try to learn that in the rallies the firing is to the front and not in every direction of the compass. We have seen skirmish drills on this field (not especially this week), where certainly more of the skirmishers' own troops, than those of the enemy, would have been killed if the matter had been in earnest. Instruction of this kind does more harm than good.

In spite of a multitude of small defects these four companies formed a battalion of which any commander might have reason to be proud, and, like the 47th Regiment, proved themselves a body of troops to be relied upon under the most trying circumstances.

Major Miller became the recipient of a handsome set of resolutions on account of his able management of the battalion, Capt. Haubennestel received a gold watch from his own company, and Capt. Thurston was presented with a silver-headed cane. The battalion marched out as fine a body of troops as has ever occupied tents at Peekskill.

TOO MUCH REGULARITY.

IT is quite proper to march soldiers in camp to their meals by company and not let them straggle there at will, especially if the eating room is any distance from the quarters or tents. They should also promptly uncover when entering the mess hall. That this matter is strictly looked after at the New York Camp is right. But a thing can be overdone. Not alone before the men enter the hall does the Sergeant in charge give the command "uncover," upon which all the men take off their hats and hold them over the left shoulder, but they are marched out after meals in the same manner, halted outside and kept with their hats in the same position until the command "cover." It is a piece of "milish" business which has been introduced by somebody and is gradually being carried to such an extent as to become completely ridiculous. There is no regulation or custom authorizing such proceeding, nor is there anything in tactics under which an enlisted man holds his cap over his left shoulder. Such a position is only prescribed for officers acknowledging salutes at certain ceremonies. The men should be instructed to uncover as soon as they enter the dining room without command, holding their caps in a natural manner along their sides. Any respectable man will naturally do this, and any infringement of the requirement could easily be corrected on the spot. To turn a man into an automaton of this kind will never make him a better soldier. Many men realize the ridiculousness of the custom and resent it, and for this reason the sooner we go back to a reasonable system the better. There is no more necessity for marching men in this manner than there would be for the introduction of the lock step used in prisons.

THE CHICAGO INTERNATIONAL ENCAMPMENT.

THE managers of the Chicago International Encampment have been advised by Major-Gen. Terry that he is without authority to order troops and officers of the Regular Army to participate in such of the exercises of the proposed encampment as would involve an expenditure of money belonging to the Government and appropriated by Congress for the expenses of the War Department. The General has promised to detail an experienced officer of the Army to take charge of the rifle competitions, provided the competitions are conducted in accordance with the methods prescribed for rifle and carbine firing, United States Army. Protests have already been received from some quarters remonstrating against permitting professional soldiers to compete for prizes. Individual competition is all that would be allowed in any case. Although the rifle team of selected marksmen of the Division of the Missouri will not be ordered to Chicago at the conclusion of the rifle competitions near Omaha next September, it is hoped the team, twelve members, will be given furloughs, with permission to go on at their own expense or otherwise, as may be arranged. It is also hoped by the managers that such military marksmen, U. S. A., as desire to compete will be permitted to enter. For the purpose of assuring this the money prizes for successful competitors will be made large enough to make it an object to the men; that is to more than reimburse them for their outlay in coming.

Among the matches under consideration are the following: Regimental or company team match, open to teams of from two to ten from each company or regiment, as the case may be, in the encampment; 200 to 600 yards inclusive; five or ten shots per man at each range, the members of the winning team to immediately shoot off a match in individual competition at some ranges to determine individual possession. Short-range match, open to any member of the encampment; distance 200 yards; ten shots each entry; entries unlimited. Entrance fee, 50 cents first entry; 25 cents each additional entry. Two highest scores to count. Ammunition to be furnished. Long-range match, open to any member of the encampment; distance, 600 yards; ten shots; entrance fee, 50 cents. Should the entrance fee be found for any reason objectionable it may be dispensed with.

AMERICAN AND BRITISH VOLUNTEERS.

THE London *Standard*, commenting on the recent annual encampment of the 7th New York Regiment, says:

Our volunteers flatter themselves that their camps are models of military neatness. They would be astonished, however, were they subjected to the discipline which the 7th Volunteer Regiment of New York are undergoing in the State camp at Peekskill. So rigid is Col. Phister that not only are rugs, easy chairs, mirrors and knicknacks which embellish the tents of our volunteers at Wimbledon strictly prohibited, but it is rigidly forbidden on pain of military punishment to throw down a half burnt match or the stump of a cigar. It may be doubted whether rules so rigid were ever laid down in the camp of our regular soldiers at Aldershot, which, it must be admitted, is an untidy, disorderly encampment in comparison to Peekskill. The general idea is that discipline in the American Army is far less strict than in Europe, but it is evident there are exceptions, and the New York regiment can fairly claim that their camp is in tidiness absolutely unrivalled by those of men in the service of the effete monarchies of Europe.

SIXTY-NINTH N. Y. AT CREEDMOOR.

THE left wing of the 69th Regiment had its first practice at Creedmoor on Tuesday, under command of Major Duffy. About 150 men were present who showed discipline worthy of this old organization. From reports gleaned from the chief scorer the shooting was very good. After 500 yards' practice the companies were formed for volley firing and marched to the 100 yards' butt. Before reaching this point too much time was wasted in dressing, forming and countermarching of companies. When the companies were at last placed opposite their targets for volley firing, the Major took his post and gave the command "Fire by volley." Three rounds standing and two kneeling were fired, which showed want of armory practice.

The companies were then faced to the rear, dressed on the centre company and marched in battalion line beyond the three hundred yard range. The commander gave the command skirmishers halt, when the battalion faced to the rear without any further command. This was a grave mistake, because the men were not in skirmish order; in fact,

it was not until after this that this command for deploying was given: by the right skirmisher take intervals, march! which was executed as if given tactically.

PENNSYLVANIA VETERAN VOLUNTEERS.

To the Editor of the Army and Navy Journal:

THE twelfth annual reunion of the Association of the 28th and 147th Regiments (Infantry) and Knap's Battery will be held in the City of Philadelphia on Monday, Oct. 17, 1887. For badges of the association and the programme address the secretary, Lieut.-Col. John P. Nicholson, 139 South 7th street, Philadelphia. Yours respectfully,

JOHN P. NICHOLSON, Secretary.

CREEDMOOR MATCHES.

THE fifth Marksman's Badge Match was shot at Creedmoor on Saturday, July 16. The attendance, owing to the intense heat was small, but the weather was favorable for shooting, and the scores were good. Gen. C. F. Robbins was the executive officer, assisted by Major H. C. Brown. Following are the scores:

Name.	Co.	Regt.	200 yards.	500 yards.	Tot.
G. S. Scott, Jr.	A	23d	24	23	46
C. W. Thom	F	7th	24	22	46
R. M. Kallock	H	7th	23	22	45
E. F. Young	C	7th	23	21	44
H. C. Brown	Staff	13th	20	23	43
W. J. Underwood	H	7th	21	22	43
G. L. Hoffman	H	7th	21	22	43
G. P. Brower	B	23d	22	21	43
D. Bacon	K	7th	22	21	43

The Fall Meeting programme is announced, and those desiring copies may address the Secretary for the same at No. 5 Beekman st., New York City.

Seventy-first New York.—Col. Fred. Kopper.

AT a meeting of the full board of the 71st Regiment, N. G. S. N. Y., held at the armory last Tuesday evening, and presided over by Col. Stewart, of the 11th Regiment, in the absence of Gen. Fitzgerald, Lieut.-Col. Frederick Kopper was elected Colonel of the 71st Regiment in place of Col. E. A. McAlpin, resigned. There was no contest, though the name of Col. Fred D. Grant had been suggested by the Nominating Committee, and Col. Grant had expressed his willingness to accept the nomination. Twenty-four votes were cast, of which 3 were blank and 21 for Col. Kopper. He made a brief speech of thanks for the honor. Col. Frederick Kopper entered the National Guard as a private in Co. D, 7th Regiment, June 16, 1863, and went with the company in the 30 days' service during the Rebellion. He was promoted to be corporal Dec. 30, 1869; sergeant March 15, 1872; 1st sergeant Jan. 31, 1879; commissioned 1st lieutenant March 5, 1883, and resigned Oct. 4, 1884. He was appointed adjutant of the 71st Regiment by Col. Vose Oct. 4, 1884; elected major Dec. 17, 1884, and lieutenant-colonel Feb. 26, 1887.

Twenty-second New York—Col. John T. Camp.

COL. CAMP on Saturday, July 16, took a ride from New York to Peekskill over the proposed route of the regiment on its march to the State camp, and pronounced it very satisfactory. In consequence he has issued his final orders to the effect that the regiment will assemble in fatigue uniform, leggings, and with canteens and haversacks, kits and pouches, on July 28, at 3.30 P. M. The march will begin on that evening. Van Cortlandt, the starting point, is described as 12 miles distant, and Peekskill as 42 miles from the Grand Central Depot, which, if the road to be travelled is as straight as the railroad track, would reduce the march to 30 miles: but there is a good two-mile tramp from Peekskill, over hill and dale, to the camp, so that there is no doubt but that the regiment will have to cover fully 32 miles. There is much enthusiasm over the affair in the regiment, and only those who are absolutely prevented on account of their business will fail to participate in the march. Capt. J. G. D. Knight, of the Corps of Engineers, U. S. A., will accompany the regiment and act as general instructor, giving special attention to pontooning, bivouacing, fortifications, etc. This officer gave an interesting lecture on these subjects at the armory on Monday evening, July 18, which was well attended.

All men who are unable to march have been ordered to report at the armory July 30 at 9.30 A. M., and proceed to camp under command of Lieut. Benecke. The band will go at the same time.

Surgeon Duncan instructed the commissioned officers at P. M., July 22.

MILITIA ITEMS.

I. P. Frink's system of reflectors have recently been adopted for lighting the State armories at New London, Bridgeport, Waterbury, and Norwalk, Conn., and give general satisfaction, as they do in most of the armories in this country.

A movement in on foot to reuniform the 69th N. Y. Regiment. It is stated the command desires a handsome and distinct dress, not being satisfied with the State uniform.

Col. Emmons Clark, 7th N. Y. Regiment, sails for Europe on the S. S. *Britannic* on Aug. 10 next.

The last quarterly returns of the 11th N. Y. Regiment show a large increase. They are as follows: F., S., and N. C. S., 17; Co. A, 98; B, 68; C, 55; D, 63; F, 51; G, 37; H, 51; I, 55, and K, 57. Total, 552. Last return, 488. Increase, 64.

On Tuesday, July 19, the 2d Brigade, M. V. M., consisting of the 9th, 5th, and 8th Regiments of Infantry, the 1st Battalion of Artillery, and the 1st Battalion of Cavalry, went into camp at South Framingham, Mass., for the annual five days' tour of duty.

The 2d Regiment Cadets, N. G. Penn., Capt. Adolph Hartung, commanding, will encamp at Andalusia, Penn., from July 19 to 26. Adjutant-General Hastings has furnished the corps with tents and camp equipage. They have adopted the new regulation summer helmet.

Co. B, 32d N. Y. Regiment, commanded by 1st Lieut. Edward J. Renison, paraded twelve files in heavy marching order Saturday evening, July 16, for guard mount and duty, Lieut. Edward Renison acting as officer of the guard, which was in charge of Sergt. C. Landwehr. The guard having been marched in review, was marched to the park, where it was divided into three reliefs of eight men each. The Adjutant acted as instructor. It is proposed to have these guard mounts once a month during the summer.

We are glad to learn that it has been determined to encamp the 2d Battery, Capt. Ferdinand P. Earle, with the 22d Regiment, from July 30 to Aug. 7. The 2d Battery is doubtless the best organization of its kind in the State and deserves this recognition. On account of certain organizations falling so much below their number there must be plenty of funds available for the purpose.

2d Lieut. James W. Mason, Co. B, 11th Regiment, has been elected 1st Lieutenant.

Col. E. A. McAlpin, of the 71st N. Y., has received his discharge. 1st Lieut. G. A. McAlpin, Commissary, and Charles E. Brown, Quartermaster, same regiment, have resigned.

CALIFORNIA NATIONAL GUARD.

THE *Alta*, referring to the camp of the 2d Brigade, N. G. Cal., at Healdsburg—Camp Bartlett—says: "At the review tendered to Major-Gen. Howard, U. S. A., some of the companies of the 1st Infantry were as badly decimated as if they had been through a four-years' war as 'fifteen dollars per month men.' These facts cannot be attributed to Col. Dickinson's neglect or lack of enthusiasm, for he and his staff have labored indefatigably to encourage the line officers, rank and file." Referring to uniforms the *Alta* says: "All the gold lace that the regulation uniform permitted its owner to wear was crossed and recrossed until the eye became fairly dazzled by the reflection from gold. Some of the officers were more zealous in this respect, and their commanders should direct them to curb their propensities for adornment. One particularly fine-looking regimental staff officer whom nature has kindly endowed, even wore miniature shoulder straps of his rank on his vest collar, besides any number of honorary medals from different semi-military orders. Another was elegantly attired in a black velvet smoking jacket, and moved about as if he should be regarded as the pride of the Army. Even the infection extended to enlisted men, and a veteran non-commissioned officer whose arm is adorned with ten service stripes attesting a long and honorable duty to the State, kept up the style of wearing white duck trousers, and showing a liberal expanse of linen shirt and vest of virgin whiteness. There were so many military incongruities in uniform about the camp that one could comment all day upon them."

The State encampment at Healdsburg closed July 10.

DISTRICT OF COLUMBIA.

GEN. ORDWAY has issued the following:

HEADQUARTERS DIST. OF COL. MILITIA,
WASHINGTON, D. C., July 16, 1887.

[General Orders No. 4.]

I. The enrolled militia is hereby designated, and will hereafter be known as the Reserve Militia of the District of Columbia.

II. The active militia is hereby designated, and will hereafter be known as the District of Columbia National Guard.

III. Existing volunteer organizations of active militia are hereby assigned to the National Guard as follows:

First Battalion of Infantry—The four companies known as the Washington Light Infantry Corps.

Second Battalion of Infantry—Co. A, Union Veteran Corps; Co. B, Custer Guards.

Third Battalion of Infantry—Co. A, Washington Continentals; Co. B, Emmet Guards; Co. C, Columbia Rifles; Co. D, Washington Merchants' Rifles.

Fourth Battalion of Infantry—Co. A, Corcoran Cadets; Co. B, Ordway Rifles; Co. C, National Fencibles; Co. D, Logan Guards.

Fifth Battalion of Infantry—The two companies known as the Butler Zouaves.

Sixth Battalion of Infantry—The four companies known as the Washington Cadet Corps.

Seventh Battalion of Infantry—The four companies known as the Capital City Guards.

By command of Brig. Gen. Ordway.

CECIL CLAY, Capt. and Aide-de-Camp, Act. Adjt. Gen.

Mr. Joseph K. McCammon, who has been appointed Judge Advocate General of the National Guard of the District of Columbia by Gen. Ordway, is a native of Philadelphia. He was during the war a college student and a member of the Pennsylvania militia. During the Gettysburg campaign he was on active duty with his company for a short time, during which service he held the rank of 1st sergeant. In January, 1866, he enlisted in the National Guard of the State of Pennsylvania as a member of the Washington Grays of Philadelphia, and served his full term of five years' enlistment. In 1870 he served as acting Judge Advocate of the 1st Division of Pennsylvania National Guard. In 1877 he was President of a board to investigate the Indian service. From May, 1880, to May, 1885, he was Assistant Attorney General of the United States, during which time he was also, from October, 1881, to February, 1882, United States Commissioner of Railroads, and in 1881 and 1882 a commissioner to negotiate treaties with the Indians. He is a practising lawyer in Washington.

OHIO NATIONAL GUARD.

THE twelfth annual encampment of the 1st Regiment, which closed at Washington C. H. last week, was the most successful camp held since the organization of the regiment. The officers are worthy of mention for their work and zeal during camp. Col. Moore is a military man and his success as a disciplinarian this year was great. Lieut.-Col. Hawkins is known as a drillmaster, and the high standing of the regiment in drill is the result of its Lieutenant-Colonel's devotion to duty.

MISSOURI.

THE Adjutant-General paid, July 19, the St. Louis regiment for services rendered in the Missouri Pacific strike of 1885. The total amount appropriated for the eight days' services was $2,300. Privates received $5.60 each. Since the service the regiment has been disbanded, and many of the men have left the country.

NEW PUBLICATIONS.

Mr. Allen Arnold, of 26 Sears Building, Boston, Mass., is compiling a record of the class of 1837, Military Academy, to which his father belonged, and desires information regarding the relatives and Post-office address of the following members of the class: Capt. John W. Gunnison—Killed Oct. 26, 1853, at Sevier Lake, Utah, aged 42. Major W. W. Chapman—Died Sept. 27, 1859, at Fort Monroe, Va., aged 45. Lieut. A. Park Gregory—Died Nov. 19, 1840, at Jacksonville, Fla., aged 28. Major Geo. Taylor—Drowned Dec. 24, 1853, in wreck of steamer *San Francisco*, aged 37. Capt. Wm. Armstrong—Killed Sept. 8, 1847, by explosion of enemy's magazine at Molino del Rey, Mexico, aged 32. Capt. Chas. F. Wooster—Died Feb. 14, 1856, at Fort Brown, Texas, aged 39. Captain Wm. H. Fowler—Died Sept. 4, 1851, at Fort Myers, Fla., aged 35. Lieut. Walter Sherwood—Killed Dec. 28, 1840, near Fort Micanopy, Fla., aged 25. Capt. Randolph Ridgeley—Killed by accident Oct. 27, 1846, at Monterey, Mexico, aged 31. Capt. Wm. G. Grandin—Died Aug. 4, 1863, at Washington, D. C., aged 46. Lieut. Nevil Hopson—Died ——, 1847, at ——, Texas, aged 32. Lieut. Levi P. Davidson—Died June 27, 1842, at Saratoga, N. Y., aged 25. Lieut. Wm. Hardia—Died March 4, 1842, at Covington, Ky., aged 28. Perhaps some of our readers may be able to supply the information.

The Navy Department has just issued an excellent compilation of the General Orders and Circulars issued by it from 1863 to 1887, with an alphebetical index of subjects. In the same volume is also an index of Bureau and Marine Corps Circulars, G. C. M. Orders, and special death notices. The book, which covers 353 pages, is the work of Mr. M. S. Thompson, in charge of Files and Records, and reflects great credit upon that gentleman's intelligence and patience. No more convenient or timely handbook for the Service could have been devised.

Marshal MacMahon is about to publish his memoirs, with the title of "The Journal of My Life." He took copious notes during the Italian campaign, the Franco-Prussian war, and other stirring episodes of modern history. The Marshal's version of the battle of Sedan, and, above all, his soldierly and unvarnished way of telling the story of May 16, will, says a Paris correspondent, be full of interest. Marshal MacMahon is President of the Society for Wounded Soldiers since the resignation of the Duc de Nemours.

To the notable series of articles on the surface of the earth which Prof. N. S. Shaler, of Harvard University, is contributing to "Scribner's Magazine," he will add in the August number a paper entitled "The Instability of the Atmosphere," which will treat, in detail, the whole subject of the origin and development of storms, especially tornadoes and cyclones. The article will be fully illustrated from diagrams and photographs furnished by the author.

Mrs. Julia Ward Howe's portrait will be the frontispiece of the August *Century*, accompanying a note by herself concerning the origin of the "Battle Hymn of the Republic," appended to an article by Brander Matthews on "The Songs of the War." Mr. Matthews gives authoritatively the origin of several of the principal war songs, North and South, with the authorized text.

TUNNELLING THE ROCKIES.

IN a project for tunnelling the Rocky Mountains the point proposed to be tunnelled is under Gray's Peak, which rises 14,441 feet above the level of the sea. At 4,441 feet below the peak, by tunnelling from east to west for 25,000 ft. direct, communication would be opened between the valleys of the Atlantic slope and those of the Pacific side. This would shorten the distance between Denver, Colorado, and Salt Lake City, Utah, and, consequently, the distance between the Missouri and San Francisco, by nearly 300 miles.

(From the New York Herald, July 21.)

BRITISH NAVAL COLLISIONS.

ON Tuesday the British ironclads *Ajax* and *Devastation* collided with each other. Yesterday the *Agincourt* and *Black Prince* had a similar experience. None of the four went to the bottom, but at least two were seriously damaged.

According to the plan for the great naval review to take place at Spithead next Saturday the *Agincourt* leads one line of battle, followed by the *Black Prince*, while the seventh ship astern is the *Devastation*, which is followed by the *Ajax*. Evidently, in spite of the admirable seamen of the British Navy these ironclads could not be made manœuvre in line of battle in close order without running each other down.

Speaking about the navy at Wolverhampton several weeks ago, Lord Randolph Churchill said:

"In the last twelve or thirteen years eighteen ships have been either completed or designed by the Admiralty to fulfil certain purposes, and on the strength of the Admiralty statements Parliament has faithfully voted the money. The total amount which either has been or will be voted for these ships is about ten millions, and it is now discovered and officially acknowledged that in respect of the purposes for which these ships were designed and for the purposes for which these ten millions either have been or will be spent the whole of the money has been absolutely misapplied, utterly wasted and thrown away."

Commenting on this speech, the London *Times* said: "In his main contention we acknowledge that Lord Randolph Churchill is right."

Perhaps it is just as well that we have waited until now before building our navy.

(From the Evening Post.)

FRANCE'S WONDERFUL NEW RIFLE.

THE Lebel rifle, the new arm with which the French infantry will be supplied before next spring, is, according to all accounts, a wonder, and several models of the gun which have been received here have excited great interest. The new rifle is known by the name of its inventor, Lebel, and is smaller and lighter than the rifles now in use; the French soldiers call it "the little gun." The most authentic descriptions given to the gun agree in attributing to it a carrying power beyond that of any rifle heretofore in use. The models received in New York are not known to be accurate copies of the Lebel gun, and experiments with them are impossible, owing to the fact that the powder used is a secret compound of which the French Government has the monopoly.

According to all accounts the Lebel gun will carry its bullet more than a mile and half, and with a more certain aim than has been possible with ordinary rifles. The bore of the gun is very small, and the ball, which is of steel and sharply pointed at one end, is said to revolve at a speed of 1,000 revolutions a second. In the tests made by the French Government this bullet has penetrated a brick wall eight inches thick at a distance of 500 yards; it will go through any kind of armor that can be worn by soldiers, and at a distance of more than a mile will pass through a man as easily as at ten paces. The gun has no recoil under fire, and the powder gives out no smoke whatever. It has been said that the powder used must be a type of smokeless hunting powder already in the market; but this is denied by the inventor, who says that he uses an entirely new compound. The Lebel gun is, of course, a repeater, and the cartridges are so small that each soldier carries 220 rounds of ammunition, as against 116 rounds, formerly considered the maximum.

The French Government is now making these guns at the rate of 500 a day at Saint-Etienne, and is preparing to turn out double that number. Four factories, those at Chatellerault, Tulle, and Saint-Etienne, will soon be at work upon them.

"THE kind of coast defences which Canada most needs to erect," says the Buffalo *Courier*, "is a fence with high, sharp pickets, over which United States defaulters cannot climb."

A NEW ENEMY OF ARMORCLADS.

PHOLADS and phylloxera, and teredo-navalis, and white ants have usually not helped much, but the following might be hoped for: "The existence has just been discovered of a detestable microbe which feeds upon iron with as much gluttony as the phylloxera upon the vine. Some time ago the greatest consternation existed among the engineers employed upon the railway at Hagen by the accidents occurring always at the same place, proving that some terrible defect must exist either in the material or the construction of the rails. The German Government directed an inquiry to be made, and a commission of surveillance to be formed for the purpose of maintaining constant watch at the spot where the accidents—one of them attended with loss of life—had occurred. It was not, however, until after six months had elapsed that the discovery was made. One of the employees had observed that the surface of the rails appeared to be corroded, as, if by acid, to the extent of 100 yards. The rail was taken up and broken, and it was perceived that it was literally hollowed out by a thin, grey worm, to which the qualification of "railoverous" was assigned, and by which name it is to be classed in natural history. The worm is said to be about two centimetres in length, and of the size of the prong of a silver fork in circumference. It is of a light grey color, and on the head carries two little glands filled with a corrosive secretion, which is ejected

every ten minutes upon the iron. This liquid renders the iron soft and spongy, and of the color of rust, and it is then greedily devoured by the insect. "There is no exaggeration," says the official report of the calamity, "in the assertion that this creature, for its size, is one of the most voracious kind, for it has devoured 36 kilogrammes of rail in a fortnight!" The *Ironmonger* says the foregoing comes from a German source, but until it sees a specimen of this extraordinary worm, and witnesses its destructiveness, it prefers to doubt the existence of so "rail-overous" a creature.—*Engineering.*

KRUPP'S LATEST.

Herr Krupp's latest "big gun" is to weigh finished 140 tons 14 cwt. Its bore is 15.478 in., and its length is 52 ft. 5.92 in. The shorter and lighter projectile will be 44 in. long and weigh 1,631 lbs., while the heavier shot will be 63 in. long and weigh 2,314 lbs. An initial velocity of 2,148 and 2,099 ft. per second is expected from these two projectiles, using brown prismatic powder. If placed near the muzzle of the gun, one plate 45 in. thick, or two plates of 21½ and 33 in. respectively, can be pierced by the smaller projectile. The larger shot will shatter one plate 47½ in. thick, or two plates of 23½ and 34½ in. respectively. The latter represents a mass of wrought iron nearly 6 ft. thick. The *Kolnische Zeitung*, from which the above is taken, says that a gun is to be tried having a bore of 17.7 in., and weight of 147 tons 22 cwt.; this gun will throw a projectile 5 ft. 11 in. high and weighing 3,304 lbs.

FOREIGN ITEMS.

Deserters are returning to the British Service at the rate of some hundreds a day in consequence of the Jubilee amnesty.

The rifle contest for the Kolapore Cup took place at Wimbledon, England, July 20. The English team won, with an average score of 710. The Canadian team were second, with 663. The second prize, which the Canadian team received, was £80.

The English naval officer who carried off from the yacht of Mr. Murphy, M.P., a green flag with a harp and no crown over it has been sued for £1,000 damages for trespass and trover. The 105th section of the Merchant Shipping Act (1854) enacts, *inter alia*, that if any distinctive national colors except the red ensign are or is hoisted on board any ship or boat belonging to any subject of her Majesty, without warrant for so doing from her Majesty or the Admiralty, the master of such ship or boat, the owner, if on board, and any person assisting, shall for such offence incur a penalty not exceeding £500; and it shall be lawful for any officer on full pay in the military or naval service of her Majesty to board any such ship and take away any such jack colors, or pendant, and such jack, colors, or pendant shall be forfeited to her Majesty. As a so-called "Fenian" flag is not a "distinctive national color," the claim is that its seizure is therefore not authorized by this section.

According to the *Handles Zeitung* of Berlin, the Empress of China, under the advice of Prince Ching, Viceroy Li and the Marquis Tseng, has sanctioned the laying of a railway from Kaiping to Takoa and Tientsin, and also contracts for 125,000 tons of rails, and 60,000 tons of bridge material. The railway is to be managed by the Kaiping Railway Company.

The Emperor of Russia has decided that the "Through Siberian Railway" to Vladivostock shall be commenced, and there is some rather wild talk of running a line along our Pacific coast to connect with it at Behring's Straits. *Engineering* states that the proposed railway will only be "through" in the sense of connecting existing water ways by short stretches of railway.

A shocking accident occurred at Jaszbereny, Hungary, on Tuesday, which appears to have been a day of explosions. A Hussar officer was instructing a party of fifty-two men in the use of dynamite for blasting purposes, when half a kilogramme of dynamite suddenly exploded killing three officers and five men on the spot. Forty-two men are so seriously wounded that their lives are despaired of.

ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in cans.* Royal Baking Powder Co., 106 Wall st., New York.

Kinney Bros.

FROM Berlin it is announced that Turkey had ordered of a shipbuilding company near Kiel "twelve war vessels." One of the largest of these warships is a despatch boat, the eleven being torpedo-catchers and torpedo-boats.

TO PREVENT the *Resistance* sinking further into the mud in Fareham Creek, the dockyard hands constructed a species of shield to cover the rent in her side so as to pump her out, raised her, and took her into dock for repairs.

DURING the last seventeen years amongst English Navy guns exceeding 64-pounders in size, there were 1,715 cases in which they were pronounced serviceable, in 1,739 cases minor repairs were required, 347 new A tubes had to be provided, in ten cases new cups, in five new muzzle ends, in one the trunnion arm was broken, in four new hoops, coils, or B tubes were required, and fourteen were pronounced unserviceable.

THE English and Italian Governments have arrived at an agreement fixing Raskazar, near Saclai, as the delimitation point of their respective spheres of influence on the Suakim-Massowah coast of West Africa.

IN the investigations into the expenditures on the British Army the chairman of the House of Commons Committee asked the Accountant General of the War Office: "Up to now Parliament has never had the smallest idea of what was the total cost of the services?" The reply was: "Taking the whole of the services it has not."

A FRENCH military critic points out that in the event of a mobilization of the French Army nearly all the able-bodied miners would have to join the army. Would it not be well, he inquires, to adopt some special legislation on this subject? In case of war, large quantities of coal would be required not only for the Navy, but for the conveyance of troops by rail, etc.; and in an evil moment the foreign supply might be cut off. France consumes about 30,000,000 tons of coal a year, drawing 12,000,000 tons from England, Belgium, and Germany. It is reckoned that in case of war about 55,000 French miners would be at once incorporated in the ranks, and that the French pits would be unable to yield more than 6,000,000 tons a year. The writer considers that in the next war coal will be considered as contraband.

LOUIS HILLAIRAND, who attempted to murder ex-Marshal Bazaine a few months ago, and whose trial is now in order, has written to the Governor of Madrid, in which he says: "I have suffered a great deal since I took the fatal oath to commit a crime in order to avenge my country. I knew how terrible the crime was, but had I failed to fulfil my oath I should always be tormented that I, too, was a traitor to France."

IMPORTANT ANNOUNCEMENT

To the Officers of the Army, Navy, and Marine Corps.

THE MUTUAL LIFE INS. CO. OF N. Y.

Yielding to repeated requests from Officers of the Army and Navy, has established an Army and Navy Bureau in the agency system of the Company, to which is entrusted the reception of applications for insurance among the Officers of the U. S. Army, Navy, Marine Corps, and the Revenue Marine Service, and the transaction of business with such of those Officers as may hereafter take policies in this Company.

The Headquarters of this Bureau are established in the "SUN BUILDING," Washington, D.C., under charge of Gen'l O. B. WILLCOX, U. S. A., (retired.) Mr. HENRY A. LYMAN, as Managing Agent, will attend to the details of the work, which will be conducted as a separate General Agency. Officers are invited to call at the Bureau and investigate the plans of the Company.

A., or State National Guard. Sample sent, post-paid, on receipt of 75 cents. Correspondence invited. JENS F. PEDERSEN, Manuf'ing Jeweler, 1½ Maiden Lane, N.Y.

THE condition of the German Crown Prince continues to improve. His voice is clear, and has almost regained its normal strength. The condition of his larynx is also satisfactory. The Crown Prince visited the throat hospital in Golden square, London, a few days ago, and was keenly interested in all he saw, paying particular attention to an old man who had just been cured of a growth similar to that in his own throat.

THE German band flourishes as well afloat as it does on shore, for we find that on board the training corvettes recently visiting our ports excellent bands were maintained. With us a band is a luxury allowed principally in flagships, and one of our huge ironclads in the Mediterranean recently wishing to play national airs in returning a similar compliment paid to Her Majesty's ship by a foreigner was compelled to fall back upon "the officers' drums and fifes." That was the only kind of music they could turn out for the occasion. The fiddler at the capstan was the "ship's band" allowed by the Admiralty.—*Army and Navy Gazette.*

WHAT next? The varying requirements of modern travel and the enterprise displayed in meeting them are evinced by the announcement, the *Colonies and India* says, that Messrs. Cook and Sons, the tourists' agents, besides "personally conducting" the mining engineers to Utah and Montana for their summer meeting, "have arranged to conduct the Mahommedan pilgrims of India to Arabia, issuing first, second and third-class tickets from Bombay to Jeddah and return for 90, 60 and 45 rupees. A Mohammedan doctor accompanies the pilgrims, and special arrangements will be made for ladies. Pilgrims' valuables can be deposited at Bombay and drawn at Jeddah. Price of return ticket paid to heirs in case of demise en route."

THE Roburite Explosive Company (Limited) is an English undertaking with a capital of $1,250,000, which has been formed for the purpose of manufacturing the new explosive roburite.

THE Chinese Court is preparing for an elaborate ceremonial, the cost of which is computed at $5,000,000, at the approaching marriage of the young Emperor, Kee Nang See, which will be the signal for him to assume real control of the empire, the nominal charge of which was vested in him six months ago, when he paid a formal visit to the tombs of his ancestors of the Manchu family, North of Pekin.

A GOOD deal has been lately written about dogs being trained in connection with the Army in Germany. The breed of dogs used is the Pomeranian one, and their duty will be to convey messages from the sentinels back to headquarters, to accompany the scouts, and signify by vigilant barks the approach of the enemy. The despatches will be placed in a small *portefeuille* suspended to the dog's collar.

GENERAL BOULANGER has written a letter to Deputy Laur thanking him for his expressions of attachment and friendship, which, he says, are becoming rare. The letter says that the writer will do his duty despite the hatred and defection of former friends. It is sufficient for him to remain friends with those who wish France respected and who place their country above party intrigues. He himself has but one aim, and that is to proclaim to Frenchmen that they can and must raise their heads and assume the only attitude becoming a great people. The letter to Deputy Laur has caused a sensation in the Chamber of Deputies. It is reported that the General will be called to account for it. M. Laur states that the letter was confidential, and that the responsibility for publishing it rested with him.

THOSE NUISANCES, Rheumatism and the Gout, are relieved by GLENN'S SULPHUR SOAP.
HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

Punch, brothers, punch, punch with care,
Punch in the presence of the passengair,
And don't never forget to smoke—

6% Guaranteed Bond

ISSUED BY THE

PENN MUTUAL LIFE INSURANCE CO.,
PHILADELPHIA, PA.

This Bond is purchasable in annual, semi-annual and quarterly instalments. Its face value, together with surplus accumulation (estimated to be as much more), is payable at the end of twenty-five years.
IN ADDITION TO THE FACE OF THE BOND IT GUARANTEES TO THE HOLDER IN THE EVENT OF DEATH OCCURRING WITHIN THE TWENTY-FIVE YEARS, AN ANNUAL INTEREST OF SIX PER CENT. UPON THE BOND—A SUM GREATER FOR MOST AGES THAN ALL THE INSTALMENTS PAID.
These Bonds are issued in single thousands and upwards, and are within the means of every prudent man.
After two years from date of issue of policy, the Company assumes the WAR HAZARD, no EXTRA PREMIUM being required. For full information address

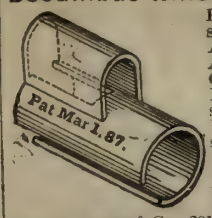
"THE FILTERING MEDIUM A NATURAL STONE."
THE
BEST FILTER EVER INVENTED.

Cheap ones for the Kitchen.
Fine PORCELAIN, with ICE-CHAMBERS, for Dining-rooms and Offices.
Lasts a life time without change.

NO METAL USED.



All COMMON METALS generate POISON when in contact with WATER. No CHARCOAL, SAND, or other compound used. They all ABSORB, RETAIN, and become FOUL WITH LIVING ORGANISMS. CHARCOAL has no CHEMICAL effect on WATER.
Our ice-chamber does not allow the melted ice to mingle with the filtered water. The filtering medium is a NATURAL STONE, and is as easily cleaned as a water-pail.

The Union Porcelain Works manufacture China Tableware for Families and Hotels. Fine Porcelain Dinner Sets in stock and made to order.

Proposals for Purchase of Vessels

NAVY DEPARTMENT,
WASHINGTON, April 25, 1887.

IN accordance with the provisions of the fifth section of an act of Congress, approved March 3, 1883 (Statutes at Large, vol. 22, p. 599), sealed proposals will be received at the Navy Department until noon on Saturday, July 30, 1887, at which time and place they will be opened for the purchase of the following-named vessels, which have been stricken from the Navy Register, viz:

Tennessee, appraised at $35,000, Powhatan at $17,000, and Ticonderoga at $15,000, at the Navy Yard, Brooklyn, New York; Shenandoah at $12,000, Lackawanna at $12,000, Wachusett at $10,000, and Cyane at $3,000, at the Navy Yard, Mare Island, California.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit of cash (or satisfactory certified check, payable to the order of the Secretary of the Navy) of not less than 20 per cent. of the amount of the offer or proposal, and also a bond with a penal sum equal to one-half the amount of the offer, with two or more sureties, whose ability is certified to by a U. S. Judge, District Attorney, Postmaster, or Collector of Internal Revenue, in the district in which the sureties reside, conditioned for the payment of the remaining 80 per cent. of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining 80 per cent., or any part thereof, within that time, said cash deposit of 20 per cent. shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. A bond need not be furnished, provided the cash deposit or certified check accompanying the proposal covers the whole amount of the proposal. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D.C., and endorsed "Proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel must be included within one proposal. In the case of tie bids, the award will be made by the Secretary of the Navy by lot.

On application to the Department, a printed list will be furnished giving general information concerning the vessels; also forms of bids and bonds which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Navy Yard where they are.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

WILLIAM C. WHITNEY,
Secretary of the Navy

WAR DEPARTMENT, NEW YORK DEPOT OF THE QUARTERMASTER'S DEPARTMENT, HOUSTON ST., CORNER GREENE, NEW YORK CITY, June 27, 1887.

SEALED PROPOSALS, IN TRIPLICATE, are invited and will be received at this office until 11 A.M., July 28, 1887, for the mason and iron work, etc., called for by specifications "A," and for the carpenter work, etc., called for by specifications marked "B." This work is for the erection of a gymnasium at West Point, N. Y., for which plans and specifications may be seen at this office, and at the Post Quartermaster's office, West Point, N. Y., where also the blank forms of proposals, contracts, etc., can be obtained.

Bidders must state the time within which the work will be completed. Bids must be for all the work, materials, etc., on either of the specifications or on both. Proposals must be made in strict conformity with the plans and specifications, and must be accompanied by a guarantee bond having justification for 20 per cent. of the amount of the proposal, and a bond, with a penalty of 10 per cent. will be required upon execution of the contract. The Government reserves the right to reject any or all proposals.

Envelopes containing proposals should be addressed to the undersigned and marked proposals for gymnasium.

HENRY C. HODGES,
Lt.-Col. and Deputy Q. M. Gen., U. S. Army,
Depot Quartermaster.

Proposals for Army Supplies.

OFFICE PURCHASING AND DEPOT COMMISSARY, ARMY BUILDING, NO. 33 WEST HOUSTON STREET, NEW YORK CITY, July 19, 1887.

SEALED PROPOSALS, in triplicate, subject to the usual conditions, will be received at this office, until 10 o'clock A. M., on Friday, August 19, 1887, for furnishing such supplies as may be required by the Subsistence Department, United States Army.

Subsistence Stores.—C. Corned Beef, W. and S. W. Flour, Extra C., G. and C. L. Sugar, Salt, Lard, Matches, Milk, Mustard, Pickles, Pipes, Toilet Soaps, Starch, Tomatoes, Towels, etc., etc., etc.

Subsistence Property.—L. and C. Paper, Mem. Pads, Chair, Turpentine, Excelsior, etc., etc., etc.

Information with conditions, lists of articles, quantities, kinds, modes of packing, etc., obtained at this office. The right is reserved to reject any or all proposals.

Envelopes containing bids should be marked "Proposals for Subsistence Supplies, opened Aug. 19, 1887," and addressed to the undersigned. G. BELL, A. C. G. S., U. S. A.

THE CATLING GUN.

The above illustrations show the latest improvements made in the feed of the Gatling gun.
The Accles' feed magazine allows the gun to be fired at all angles of elevation or depression, at the rate of over 1,200 shots per minute.
The Bruce feeder receives the cartridges directly from the paper boxes in which they are originally packed, thus giving an uninterrupted fire.
